REQUESTS FOR EMERGENCY FISCAL YEAR 1995 SUPPLEMENTAL APPROPRIATIONS

COMMUNICATION

FROM

THE PRESIDENT OF THE UNITED STATES

TRANSMITTING

HIS REQUEST TO MAKE AVAILABLE EMERGENCY APPROPRIATIONS TOTALING $142 MILLION TO ADDRESS URGENT NEEDS ARISING FROM THE BOMBING OF THE ALFRED P. MURRAH FEDERAL BUILDING IN OKLAHOMA CITY, AND TO DESIGNATE THE AMOUNT MADE AVAILABLE AS AN EMERGENCY REQUIREMENT PURSUANT TO SECTION 251(b)(2)(D)(i) OF THE BALANCED BUDGET AND EMERGENCY DEFICIT CONTROL ACT OF 1985, AS AMENDED, PURSUANT TO 31 U.S.C. 1107

MAY 2, 1995.—Referred to the Committee on Appropriations and ordered to be printed

U.S. GOVERNMENT PRINTING OFFICE
99–011 WASHINGTON : 1995

THE WHITE HOUSE,
Washington, May 2, 1995.

THE SPEAKER OF THE HOUSE OF REPRESENTATIVES.

SIR: In the aftermath of the April 19, 1995, bombing in Oklahoma City, the Federal Government responded immediately to provide assistance to the victims of the bombing and to local authorities. I ask Congress to consider the enclosed requests for emergency FY 1995 supplemental appropriations. The requests would provide $142 million to address urgent needs arising from the bombing of the Alfred P. Murrah Federal Building in Oklahoma City and to implement the core elements of the anti-terrorism initiative that I recently announced in response to the tragedy in Oklahoma.

I hereby designate the amounts requested as emergency requirements pursuant to section 251(b)(2)(D)(i) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended. Every aspect of the tragedy in Oklahoma warrants my designation of the amounts requested as emergency requirements. Nevertheless, as I stated in my meeting with the bipartisan leadership on April 26th, the increased budget authority that I am proposing today is fully offset by reduction proposals contained in this transmittal and by rescission proposals contained in an accompanying Special Message.

The magnitude of the tragedy in Oklahoma demands that these emergency funds be provided as quickly as possible to address the consequences of the disaster. I appreciate the cooperation of the bipartisan congressional leadership in working on this matter expeditiously.

The details of these actions are set forth in the enclosed letter from the Director of the Office of Management and Budget. I concur with her comments and observations.

Sincerely,

WILLIAM J. CLINTON.

Enclosure.

Estimate No. 8
104th Congress, 1st Session

EXECUTIVE OFFICE OF THE PRESIDENT
OFFICE OF MANAGEMENT AND BUDGET
WASHINGTON, D.C. 20503

THE DIRECTOR

The President

The White House

Submitted for your consideration are requests for FY 1995 supplemental appropriations to support emergency requirements arising from the consequences of the bombing of the Alfred P. Murrah Federal Building in Oklahoma City. The requested funds, totaling $142 million, would address immediate needs resulting from the bombing and implement the core elements of your recently announced anti-terrorism initiative.

As described in the enclosures, these supplemental appropriations requests would provide urgently needed resources as follows:

- $71 million for the Department of Justice to fund immediate requirements in Oklahoma City and other anti-terrorism efforts. These funds would be used to cover expenses related to the investigation of the bombing; to establish a Domestic Counter-terrorism Center; to provide replacement facilities and equipment for employees displaced by the bombing; and for other related purposes.

- $26 million for the General Services Administration, to fund emergency expenses related to the bombing, including funds for the demolition of the Murrah Federal building; funds to lease, furnish, and equip replacement office space; and funds to provide increased security and heightened security precautions in Federal buildings nation-wide.

- $24 million for the Department of the Treasury to fund immediate requirements in Oklahoma City and other anti-terrorism efforts. These funds would be used to cover expenses related to the investigation of the bombing; to establish four National Response Teams; to provide replacement facilities and equipment for employees displaced by the bombing; and to fund other related efforts, including enhanced security at the White House.

- $7 million for the Federal Emergency Management Agency (FEMA) to enable FEMA to assist in increasing Federal, State, and local preparedness for mitigating and responding to the consequences of terrorism.

- $3 million for the Department of Housing and Urban Development (HUD) to provide replacement facilities and equipment for employees displaced by the bombing and to enhance security at the HUD building in Washington, D.C.

- $10 million requested by the Judiciary in order to provide enhanced security for judges and support personnel.

I have carefully reviewed these proposals and am satisfied that they are necessary at this time. Therefore, I join the heads of the affected departments and agencies in recommending that these proposals be transmitted to the Congress.

Furthermore, I recommend that you designate the amounts requested as emergency funding requirements in accordance with section 251(b)(2)(D)(i) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended. Every aspect of the tragedy in Oklahoma warrants the designation of the amounts requested as emergency requirements. Based on your April 26th bipartisan leadership meeting, the Administration is proposing to fully offset these requests by reduction proposals contained in this transmittal and by rescission proposals contained in an accompanying Special Message for the Bureau of Prisons, the Federal Aviation Administration, and the National Aeronautics and Space Administration.

As required by law, the requests for the Judiciary in this package are transmitted without change.

We will be reviewing additional funding requirements of your anti-terrorism initiative and other necessary expenses associated with the Oklahoma bombing, and will present FY 1996 budget amendments for your consideration at a later date. It is our intention, following consultations with Congress, to include in the FY 1996 budget amendments, a request for funding to replace the Oklahoma City Federal Building with appropriate office space.

Sincerely,

Alice M. Rivlin
Director

The funding would provide for the demolition of the damaged Alfred P. Murrah Federal Building and repairs to nearby Federal buildings. It is our intention, following consultations with Congress, to include in the FY 1996 budget amendments, a request for funding to replace the Oklahoma City Federal Building with appropriate office space.

OTHER INDEPENDENT AGENCIES

FEDERAL EMERGENCY MANAGEMENT AGENCY

Salaries and Expenses

For an additional amount for "Salaries and Expenses", $3,523,000, to increase Federal, State and local preparedness for mitigating and responding to the consequences of terrorism: Provided, That the entire amount is designated by Congress as an emergency requirement pursuant to section 251(b)(2)(D)(i) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended.

The explosion at the Federal building in Oklahoma City has highlighted the threat that terrorism holds for all levels of government and for the safety and well-being of the American public. The Federal Emergency Management Agency (FEMA) is requesting resources to protect FEMA personnel, facilities, and property by providing additional security personnel and added physical protection at all agency offices, including FEMA Headquarters and Regional Offices as well as at temporary sites established at disaster locations. In addition, funds will be spent for staff education and awareness of the terrorist threat and enhanced security management systems. To address circumstances unique to a terrorist incident, FEMA is requesting resources to support the planning and interagency coordination required to modify and expand the Federal Response Plan as well as to provide training and exercises for Federal, State, and local responders.

The entire amount requested has been designated by the President as an emergency requirement pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985, as amended.

OTHER INDEPENDENT AGENCIES

FEDERAL EMERGENCY MANAGEMENT AGENCY

Emergency Management Planning and Assistance

For an additional amount for "Emergency Management Planning and Assistance", $3,477,000, to increase Federal, State and local preparedness for mitigating and responding to the consequences of terrorism: Provided, That the entire amount is designated by Congress as an emergency requirement pursuant to section 251(b)(D)(i) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended.

The threat of terrorism and the resulting response to extraordinary consequences create unique needs and capability shortfalls at the Federal as well as at the State and local government level. These needs are not necessarily addressed through the Federal Emergency Management Agency's (FEMA's) current all-hazards approach to preparedness. To enhance Federal response efforts, FEMA is requesting resources to support the development of plans and procedures required for an efficient Federal response to a terrorist event under the Federal Response Plan and to ensure that such plans are integrated with existing hazard specific plans and with other law enforcement and/or military plans and procedures to ensure a unified, coordinated Federal response.

In addition, FEMA is requesting funds to increase the preparedness capability of the State and local emergency first responders who must be prepared, trained and exercised in threat-specific capabilities, including mass casualty care, crisis counseling, and coordination with the Federal government in a response that includes atypical law enforcement activities. Full-scale Federal exercises will ensure appropriate deployment and coordination of agencies comprising the Federal Response Plan.

The entire amount requested has been designated by the President as an emergency requirement pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985, as amended.

THE JUDICIARY

COURTS OF APPEALS, DISTRICT COURTS, AND OTHER JUDICIAL SERVICES

Court Security

For an additional amount for "Court Security" to enhance security of judges and support personnel (to include cellular phones for judicial officers), $10,400,000, to remain available until expended, to be expended directly or transferred to the United States Marshals Service: Provided, That the entire amount is designated by Congress as an emergency requirement pursuant to section 251(b)(2)(D)(i) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended.

This supplemental would provide for enhanced security for judges and support personnel in response to the potential increased threat indicated by the recent bombing of the Federal building in Oklahoma City, Oklahoma. A total of $3.2 million is requested for 440 Court Security Officers. Of these officers, 400 will provide security for existing court locations that either have no security or have security below accepted levels. Forty of these security officers are requested to operate and monitor new weapons/explosives screening equipment and X-ray machines purchased for fifteen existing judiciary locations where no security equipment is currently in place. Costs associated with these personnel will be further supplemented by an internal reprogramming of $3 million.

This supplemental would provide $5.2 million for necessary security equipment where it is not present and for upgrading existing equipment. Cellular phones are requested for all judicial officers in order to strengthen the personal security for judges when they are away from secured facilities by providing immediate, emergency communications.

This supplemental also provides $2.0 million for vehicle barriers to be installed at the entrances to parking garages at 50 large metropolitan court facilities.

The entire amount requested has been designated by the President as an emergency requirement pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985, as amended.
