The Office of Policy Development is comprised of the Domestic Policy Council and the National Economic Council, which are responsible for advising and assisting the President in the formulation, coordination, and implementation of domestic and economic policy. The Office of Policy Development also provides support for other policy development and implementation activities as directed by the President.

Domestic Policy Council

The Domestic Policy Council was established on August 16, 1993, by Executive Order 12859. The Council oversees development and implementation of the President's domestic policy agenda and ensures coordination and communication among the heads of relevant Federal offices and agencies.

National Economic Council

The National Economic Council was created on January 25, 1993, by Executive Order 12835, to coordinate the economic policymaking process and provide economic policy advice to the President. The Council also ensures that economic policy decisions and programs are consistent with the President's stated goals, and monitors the implementation of the President's economic goals.

Office of Science and Technology Policy

Old Executive Office Building, Washington, DC 20500
Phone, 202–395–7347; Fax, 202–456–6022

Assistant to the President for Science and Technology, and Director	JOHN H. GIBBONS
Associate Director for Environment	ROSINA BIERBAUM, *Acting*
Associate Director for National Security and International Affairs	KERRI-ANN JONES, *Acting*
Associate Director for Science	ERNEST J. MONIZ
Associate Director for Technology	LIONEL S. JOHNS
Executive Secretary for the National Science and Technology Council and the President's Committee of Advisors on Science and Technology	ANGELA PHILLIPS DIAZ

The Office of Science and Technology Policy was established within the Executive Office of the President by the National Science and Technology Policy, Organization, and Priorities Act of 1976 (42 U.S.C. 6611).

The Office serves as a source of scientific, engineering, and technological analysis and judgment for the President with respect to major policies, plans, and programs of the Federal Government. In carrying out this mission, the Office advises the President of scientific and technological considerations involved in areas of national concern, including the economy, national security, health, foreign relations, and the environment; evaluates the scale, quality, and effectiveness of the Federal effort in science and technology; provides advice and assistance to the President, the Office of Management and Budget, and Federal agencies throughout the Federal budget development process; and assists the President in providing leadership and coordination for the research and development programs of the Federal Government.
