

MATERIALS MANAGEMENT ACQUISITION REGULATION

GPO PUBLICATION 805.33

**ISSUED MAY 15, 2003 BY THE
U.S. GOVERNMENT PRINTING OFFICE
WASHINGTON, D.C.**

MATERIALS MANAGEMENT ACQUISITION REGULATIONS SYSTEM

Chapter 1

MATERIALS MANAGEMENT ACQUISITION REGULATION

FOREWORD

Acquisition by the U.S. Government Printing Office (GPO) is a complex operation requiring a high degree of specialization and knowledge. Those involved in acquisitions must be cognizant of a large number of highly technical rules and requirements. This Materials Management Acquisition Regulation (MMAR) provides the policies and procedures necessary to efficiently and effectively conduct GPO procurements. Acquisition in the Federal government is a dynamic process that must keep pace with frequently changing technologies, statutory requirements and national goals. This regulation is designed to assist and guide acquisition personnel.

MATERIALS MANAGEMENT ACQUISITION REGULATION

General Structure and Subparts

SUBCHAPTER A—GENERAL

PART 1—MATERIALS MANAGEMENT ACQUISITION REGULATIONS SYSTEM

- 1.1 Purpose, Authority, Issuance
- 1.2 [Reserved]
- 1.3 [Reserved]
- 1.4 Deviations from the MMAR
- 1.5 [Reserved]
- 1.6 Career Development, Contracting Authority, and Responsibilities
- 1.7 Determinations and Findings

PART 2—DEFINITIONS OF WORDS AND TERMS

- 2.1 Definitions
- 2.2 Definitions Clause

PART 3—IMPROPER BUSINESS PRACTICES AND PERSONAL CONFLICTS OF INTEREST

- 3.1 Safeguards
- 3.2 Contractor Gratuities to Government Personnel
- 3.3 Reports of Suspected Antitrust Violations
- 3.4 Contingent Fees
- 3.5 Other Improper Business Practices
- 3.6 Contracts with Government Employees or Organizations Owned or Controlled by Them
- 3.7 Voiding and Rescinding Contracts
- 3.8 [Reserved]
- 3.9 [Reserved]

PART 4—ADMINISTRATIVE MATTERS

- 4.1 Contract Execution
- 4.2 Contract Distribution
- 4.3 Paper Documents
- 4.4 Safeguarding Classified Information Within Industry
- 4.5 Electronic Commerce in Contracting
- 4.6 Contract Reporting
- 4.7 Contractor Records Retention
- 4.8 Government Contract Files
- 4.9 Taxpayer Identification Number Information
- 4.10 Contract Line Items
- 4.11 Contract Review Board

SUBCHAPTER B—COMPETITION AND ACQUISITION PLANNING

PART 5—PUBLICIZING CONTRACT ACTIONS

- 5.1 Dissemination of Information
- 5.2 Synopses of Proposed Contract Actions
- 5.3 Synopses of Contract Awards
- 5.4 Release of Information
- 5.5 Paid Advertisements

PART 6—COMPETITION REQUIREMENTS

- 6.1 Full and Open Competition
- 6.2 Full and Open Competition After Exclusion of Sources
- 6.3 Other Than Full and Open Competition
- 6.4 Sealed Bidding and Competitive Proposals
- 6.5 [Reserved]

PART 7—ACQUISITION PLANNING

- 7.1 Acquisition Plans
- 7.2 Planning for the Purchase of Supplies in Economic Quantities
- 7.3 [Reserved]
- 7.4 Equipment Lease or Purchase
- 7.5 Inherently Governmental Functions

PART 8—REQUIRED SOURCES OF SUPPLIES AND SERVICES

- 8.1 Excess Personal Property
- 8.2 [Reserved]
- 8.3 [Reserved]
- 8.4 Federal Supply Schedules
- 8.5 Acquisition of Helium
- 8.6 Acquisition from Federal Prison Industries, Inc.
- 8.7 Acquisition from Nonprofit Agencies Employing People Who Are Blind or Severely Disabled
- 8.8 Acquisition of Printing and Related Supplies
- 8.9 [Reserved]
- 8.10 [Reserved]
- 8.11 Leasing of Motor Vehicles

PART 9—CONTRACTOR QUALIFICATIONS

- 9.1 Responsible Prospective Contractors
- 9.2 Qualifications Requirements
- 9.3 First Article Testing and Approval
- 9.4 Debarment, Suspension, and Ineligibility
- 9.5 Organizational and Consultant Conflicts of Interest
- 9.6 Contractor Team Arrangements
- 9.7 [Reserved]

PART 10—MARKET RESEARCH**PART 11—DESCRIBING AGENCY NEEDS**

- 11.1 Selecting and Developing Requirements Documents
- 11.2 Using and Maintaining Requirements Documents
- 11.3 Acceptable Material
- 11.4 Delivery or Performance Schedules
- 11.5 Liquidated Damages
- 11.6 Priorities and Allocations
- 11.7 Variation in Quantity
- 11.8 Testing

PART 12—ACQUISITION OF COMMERCIAL ITEMS

- 12.1 Acquisition of Commercial Items—General
- 12.2 Special Requirements for the Acquisition of Commercial Items
- 12.3 Solicitation Provisions and Contract Clauses for the Acquisition of Commercial Items
- 12.4 Unique Requirements Regarding Terms and Conditions for Commercial Items
- 12.5 [Reserved]
- 12.6 Streamlined Procedures for Evaluation and Solicitation for Commercial Items

SUBCHAPTER C—CONTRACTING METHODS AND CONTRACT TYPES**PART 13—SIMPLIFIED ACQUISITION PROCEDURES**

- 13.1 Procedures
- 13.2 Actions At or Below the Micro-Purchase Threshold
- 13.3 Simplified Acquisition Methods
- 13.4 Fast Payment Procedure
- 13.5 [Reserved]

PART 14—SEALED BIDDING

- 14.1 Use of Sealed Bidding
- 14.2 Solicitation of Bids
- 14.3 Submission of Bids
- 14.4 Opening of Bids and Award of Contract
- 14.5 Two-Step Sealed Bidding

PART 15—CONTRACTING BY NEGOTIATION

- 15.1 Source Selection Processes and Techniques
- 15.2 Solicitation and Receipt of Proposals and Information
- 15.3 Source Selection
- 15.4 Contract Pricing
- 15.5 Preaward, Award, and Postaward Notifications, Protests, and Mistakes
- 15.6 Unsolicited Proposals

PART 16—TYPES OF CONTRACTS

- 16.1 Selecting Contract Types
- 16.2 Fixed-Price Contracts
- 16.3 Cost-Reimbursement Contracts
- 16.4 Incentive Contracts
- 16.5 Indefinite-Delivery Contracts
- 16.6 Time-and-Materials, Labor-Hour, and Letter Contracts
- 16.7 Agreements

PART 17—SPECIAL CONTRACTING METHODS

- 17.1 Multi-year Contracting
- 17.2 Options
- 17.3 [Reserved]
- 17.4 [Reserved]
- 17.5 Interagency Acquisitions Under the Economy Act
- 17.6 [Reserved]

PART 18—RESERVED

SUBCHAPTER D—SOCIOECONOMIC PROGRAMS

PART 19—SMALL BUSINESS PROGRAMS

- 19.1 Size Standards
- 19.2 Policies
- 19.3 Reserved
- 19.4 [Reserved]
- 19.5 [Reserved]
- 19.6 [Reserved]
- 19.7 [Reserved]
- 19.8 [Reserved]
- 19.9 [Reserved]
- 19.10 [Reserved]
- 19.11 [Reserved]
- 19.12 [Reserved]
- 19.13 [Reserved]

PART 20—RESERVED

PART 21—RESERVED

PART 22—APPLICATION OF LABOR LAWS TO GOVERNMENT ACQUISITIONS

- 22.1 Basic Labor Policies
- 22.2 Convict Labor
- 22.3 Contract Work Hours and Safety Standards Act
- 22.4 Labor Standards for Contracts Involving Construction
- 22.5 [Reserved]
- 22.6 Walsh-Healey Public Contracts Act
- 22.7 [Reserved]
- 22.8 Equal Employment Opportunity
- 22.9 Nondiscrimination Because of Age
- 22.10 Service Contract Act of 1965, as Amended
- 22.11 Professional Employee Compensation
- 22.12 [Reserved]
- 22.13 Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans
- 22.14 Employment of Workers with Disabilities
- 22.15 Prohibition of Acquisition of Products Produced by Forced or Indentured Child Labor

PART 23—ENVIRONMENT, ENERGY AND WATER EFFICIENCY, RENEWABLE ENERGY TECHNOLOGIES, OCCUPATIONAL SAFETY, AND DRUG-FREE WORKPLACE

- 23.1 [Reserved]
- 23.2 Energy and Water Efficiency and Renewable Energy
- 23.3 Hazardous Material Identification and Material Safety Data
- 23.4 Use of Recovered Materials
- 23.5 [Reserved]
- 23.6 Notice of Radioactive Material
- 23.7 Contracting for Environmentally Preferable Products and Services
- 23.8 Ozone-Depleting Substances
- 23.9 Toxic Chemical Release Reporting
- 23.10 [Reserved]

PART 24—PROTECTION OF PRIVACY AND FREEDOM OF INFORMATION

- 24.1 [Reserved]
- 24.2 Freedom of Information Act

PART 25—FOREIGN ACQUISITION

- 25.1 Buy American Act—Supplies
- 25.2 Buy American Act—Construction Materials
- 25.3 [Reserved]
- 25.4 [Reserved]
- 25.5 Evaluating Foreign Offers—Supply Contracts
- 25.6 [Reserved]
- 25.7 Prohibited Sources
- 25.8 Other International Agreements and Coordination
- 25.9 Customs and Duties
- 25.10 Additional Foreign Acquisition Regulations
- 25.11 Solicitation Provisions and Contract Clauses

PART 26—OTHER SOCIOECONOMIC PROGRAMS

- 26.1 Indian Incentive Program
- 26.2 Disaster or Emergency Assistance Activities
- 26.3 [Reserved]

SUBCHAPTER E—GENERAL CONTRACTING REQUIREMENTS

PART 27—PATENTS, DATA, AND COPYRIGHTS

- 27.1 General
- 27.2 Patents
- 27.3 Patent Rights under Government Contracts
- 27.4 Rights in Data and Copyrights
- 27.5 [Reserved]
- 27.6 Foreign License and Technical Assistance Agreements

PART 28—BONDS AND INSURANCE

- 28.1 Bonds and Other Financial Protections
- 28.2 Sureties and Other Security for Bonds
- 28.3 Insurance

PART 29—TAXES

- 29.1 General
- 29.2 Federal Excise Taxes
- 29.3 State and Local Taxes
- 29.4 Contract Clauses

PART 30—COST ACCOUNTING STANDARDS ADMINISTRATION

- 30.1 General
- 30.2 CAS Program Requirements
- 30.3 CAS Rules and Regulations [Reserved]
- 30.4 Cost Accounting Standards [Reserved]
- 30.5 Cost Accounting Standards for Educational Institutions [Reserved]
- 30.6 CAS Administration

PART 31—CONTRACT COST PRINCIPLES AND PROCEDURES

- 31.1 Applicability
- 31.2 Contracts with Commercial Organizations
- 31.3 Contracts with Educational Institutions
- 31.4 [Reserved]
- 31.5 [Reserved]
- 31.6 Contracts with State, Local, and Federally Recognized Indian Tribal Governments
- 31.7 Contracts with Nonprofit Organizations

PART 32—CONTRACT FINANCING

- 32.1 [Reserved]
- 32.2 [Reserved]
- 32.3 [Reserved]
- 32.4 Advance Payments for Non-Commercial Items
- 32.5 Progress Payments Based on Costs [Reserved]
- 32.6 Contract Debts
- 32.7 Contract Funding
- 32.8 Assignment of Claims
- 32.9 Prompt Payment
- 32.10 Performance-Based Payments
- 32.11 Electronic Funds Transfer

PART 33—PROTESTS, DISPUTES, AND APPEALS

- 33.1 Protests
- 33.2 Disputes and Appeals

SUBCHAPTER F—SPECIAL CATEGORIES OF CONTRACTING

PART 34—MAJOR SYSTEM ACQUISITION

- 34.0 General
- 34.1 Testing, Qualification and Use of Industrial Resources Developed Under Title III, Defense Production Act

PART 35—RESEARCH AND DEVELOPMENT CONTRACTING**PART 36—CONSTRUCTION AND ARCHITECT-ENGINEER CONTRACTS**

- 36.1 General
- 36.2 Special Aspects of Contracting for Construction
- 36.3 Two-Phase Design-Build Selection Procedures
- 36.4 [Reserved]
- 36.5 Contract Clauses
- 36.6 Architect-Engineer Services
- 36.7 Standard and Optional Forms for Contracting for Construction, Architect-Engineer Services, and Dismantling, Demolition, or Removal of Improvements

PART 37—SERVICE CONTRACTING

- 37.1 Service Contracts—General
- 37.2 Advisory and Assistance Services
- 37.3 Dismantling, Demolition, or Removal of Improvements
- 37.4 Nonpersonal Health Care Services
- 37.5 Management Oversight of Service Contracts
- 37.6 Performance-Based Contracting

PART 38—FEDERAL SUPPLY SCHEDULE CONTRACTING

- 38.1 Federal Supply Schedule Program
- 38.2 Establishing and Administering Federal Supply Schedules

PART 39—ACQUISITION OF INFORMATION TECHNOLOGY

- 39.1 General
- 39.2 Electronic and Information Technology

PART 40—RESERVED**PART 41—ACQUISITION OF UTILITY SERVICES**

- 41.1 General
- 41.2 Acquiring Utility Services
- 41.3 Requests for Assistance
- 41.4 Administration
- 41.5 Solicitation Provision and Contract Clauses
- 41.6 Forms
- 41.7 Formats

SUBCHAPTER G—CONTRACT MANAGEMENT**PART 42—CONTRACT ADMINISTRATION AND AUDIT SERVICES**

- 42.1 Contract Audit Services
- 42.2 Contract Administration Services
- 42.3 Contract Administration Office Functions
- 42.4 Correspondence and Visits
- 42.5 Postaward Orientation
- 42.6 Corporate Administrative Contracting Officer
- 42.7 Indirect Cost Rates
- 42.8 Disallowance of Costs
- 42.9 Bankruptcy
- 42.10 [Reserved]
- 42.11 Production Surveillance and Reporting
- 42.12 Novation and Change-of-Name Agreements
- 42.13 Suspension of Work, Stop-Work Orders, and Government Delay of Work
- 42.14 Traffic and Transportation Management
- 42.15 Contractor Performance Information
- 42.16 Small Business Contract Administration
- 42.17 Forward Pricing Rate Agreements

PART 43—CONTRACT MODIFICATIONS

- 43.1 General
- 43.2 Change Orders
- 43.3 Forms

PART 44—SUBCONTRACTING POLICIES AND PROCEDURES

- 44.1 General
- 44.2 Consent to Subcontracts
- 44.3 Contractors' Purchasing Systems Reviews
- 44.4 Subcontracts for Commercial Items and Commercial Components

PART 45—GOVERNMENT PROPERTY

- 45.1 General
- 45.2 Competitive Advantage
- 45.3 Providing Government Property to Contractors
- 45.4 Contractor Use and Rental of Government Property
- 45.5 Management of Government Property in the Possession of Contractors
- 45.6 Reporting, Redistribution, and Disposal of Contractor Inventory

PART 46—QUALITY ASSURANCE

- 46.1 General
- 46.2 Contract Quality Requirements
- 46.3 Contract Clauses
- 46.4 Government Contract Quality Assurance
- 46.5 Acceptance
- 46.6 Material Inspection and Receiving Reports
- 46.7 Warranties
- 46.8 Contractor Liability for Loss of or Damage to Property of the Government

PART 47—TRANSPORTATION

- 47.1 General
- 47.2 Contracts for Transportation or for Transportation-Related Services
- 47.3 Transportation in Supply Contracts
- 47.4 Air Transportation by U.S.-Flag Carriers
- 47.5 Ocean Transportation by U.S.-Flag Vessels

PART 48—VALUE ENGINEERING

- 48.1 Policies and Procedures
- 48.2 Contract Clauses

PART 49—TERMINATION OF CONTRACTS

- 49.1 General Principles
- 49.2 Additional Principles for Fixed-Price Contracts Terminated for Convenience
- 49.3 Additional Principles for Cost-Reimbursement Contracts Terminated for Convenience
- 49.4 Termination for Default
- 49.5 Contract Termination Clauses
- 49.6 Contract Termination Forms and Formats

PART 50—EXTRAORDINARY CONTRACTUAL ACTIONS

- 50.1 General
- 50.2 Delegation of and Limitations on Exercise of Authority
- 50.3 Contract Adjustments
- 50.4 Residual Powers

PART 51—USE OF GOVERNMENT SOURCES BY CONTRACTORS

- 51.1 Contractor Use of Government Supply Sources
- 51.2 Contractor Use of Interagency Fleet Management System (IFMS) Vehicles

SUBCHAPTER H—CLAUSES AND FORMS**PART 52—SOLICITATION PROVISIONS AND CONTRACT CLAUSES**

- 52.1 Instructions for Using Provisions and Clauses
- 52.2 Text of Provisions and Clauses
- 52.3 Provision and Clause Matrix

INDEX

**MATERIALS MANAGEMENT
ACQUISITION REGULATION**

1.000 Scope of part.

This part sets forth basic policies and general information about the Materials Management Acquisition Regulations System including purpose, authority, applicability, issuance, arrangement, numbering, dissemination, implementation, supplementation, maintenance, administration, and deviation. Subparts 1.2, 1.3, and 1.4 prescribe administrative procedures for maintaining the MMAR System.

Subpart 1.1—Purpose, Authority, Issuance**1.101 Purpose.**

The Materials Management Acquisition Regulations System is established for the codification and publication of uniform policies and procedures for acquisition by Materials Management Service, U.S. Government Printing Office.

1.102 Statement of guiding principles for the Materials Management Acquisition System.

(a) The vision for the Materials Management Acquisition System is to deliver on a timely basis the best value product or service to the customer, while maintaining the public's trust and fulfilling public policy objectives. Participants in the acquisition process should work together as a team and should be empowered to make decisions within their area of responsibility.

(b) The Materials Management Acquisition System will—

(1) Satisfy the customer in terms of cost, quality, and timeliness of the delivered product or service by, for example—

(i) Maximizing the use of commercial products and services;

(ii) Using contractors who have a track record of successful past performance or who demonstrate a current superior ability to perform; and

(iii) Promoting competition;

(2) Minimize administrative operating costs;

(3) Conduct business with integrity, fairness, and openness; and

(4) Fulfill public policy objectives.

(c) The Acquisition Team consists of all participants in Government acquisition including not only representatives of the technical, supply, and procurement communities but also the customers they serve, and the contractors who provide the products and services.

(d) The role of each member of the Acquisition Team is to exercise personal initiative and sound business judgment in providing the best value product or service to meet the customer's needs. In exercising initiative, Government members of the Acquisition Team may assume if a specific strategy, practice, policy or procedure is in the best interests

of the Government and is not addressed in the MMAR, nor prohibited by law (statute or case law), Executive order or other regulation, that the strategy, practice, policy or procedure is a permissible exercise of authority.

1.102-1 Discussion.

(a) *Introduction.* The statement of Guiding Principles for the Materials Management Acquisition System (System) represents a concise statement designed to be user-friendly for all participants in Government acquisition. The following discussion of the principles is provided in order to illuminate the meaning of the terms and phrases used. The framework for the System includes the Guiding Principles for the System and the supporting policies and procedures in the MMAR.

(b) *Vision.* All participants in the System are responsible for making acquisition decisions that deliver the best value product or service to the customer. Best value must be viewed from a broad perspective and is achieved by balancing the many competing interests in the System. The result is a system which works better and costs less.

1.102-2 Performance standards.

(a) *Satisfy the customer in terms of cost, quality, and timeliness of the delivered product or service.* (1) The principal customers for the product or service provided by the System are the users and line managers, acting on behalf of the American taxpayer.

(2) The System must be responsive and adaptive to customer needs, concerns, and feedback. Implementation of acquisition policies and procedures, as well as consideration of timeliness, quality, and cost throughout the process, must take into account the perspective of the user of the product or service.

(3) When selecting contractors to provide products or perform services, the Government will use contractors who have a track record of successful past performance or who demonstrate a current superior ability to perform.

(4) The Government must not hesitate to communicate with the commercial sector as early as possible in the acquisition cycle to help the Government determine the capabilities available in the commercial marketplace. The Government will maximize its use of commercial products and services in meeting Government requirements.

(5) It is the policy of the System to promote competition in the acquisition process.

(6) The System must perform in a timely, high quality, and cost-effective manner.

(7) All members of the Team are required to employ planning as an integral part of the overall process of acquiring products or services. Although advance planning is required, each member of the Team must be flexible in order

to accommodate changing or unforeseen mission needs. Planning is a tool for the accomplishment of tasks, and application of its discipline should be commensurate with the size and nature of a given task.

(b) *Minimize administrative operating costs.* (1) In order to ensure that maximum efficiency is obtained, rules, regulations, and policies should be promulgated only when their benefits clearly exceed the costs of their development, implementation, administration, and enforcement. This applies to internal administrative processes, including reviews, and to rules and procedures applied to the contractor community.

(2) The System must provide uniformity where it contributes to efficiency or where fairness or predictability is essential. The System should also, however, encourage innovation, and local adaptation where uniformity is not essential.

(c) *Conduct business with integrity, fairness, and openness.* (1) An essential consideration in every aspect of the System is maintaining the public's trust. Not only must the System have integrity, but the actions of each member of the Team must reflect integrity, fairness, and openness. The foundation of integrity within the System is a competent, experienced, and well-trained, professional workforce. Accordingly, each member of the Team is responsible and accountable for the wise use of public resources as well as acting in a manner which maintains the public's trust. Fairness and openness require open communication among team members, internal and external customers, and the public.

(2) To achieve efficient operations, the System must shift its focus from "risk avoidance" to one of "risk management." The cost to the taxpayer of attempting to eliminate all risk is prohibitive.

(3) The Government shall exercise discretion, use sound business judgment, and comply with applicable laws and regulations in dealing with contractors and prospective contractors. All contractors and prospective contractors shall be treated fairly and impartially but need not be treated the same.

(d) *Fulfill public policy objectives.* The System must support the attainment of public policy goals adopted by the Congress and the President. In attaining these goals, and in its overall operations, the process shall ensure the efficient use of public resources.

1.102-3 Acquisition Team.

The purpose of defining the Federal Acquisition Team (Team) in the Guiding Principles is to ensure that participants in the System are identified beginning with the customer and ending with the contractor of the product or service. By identifying the team members in this manner, teamwork, unity of purpose, and open communication

among the members of the Team in sharing the vision and achieving the goal of the System are encouraged. Individual team members will participate in the acquisition process at the appropriate time.

1.102-4 Role of the Acquisition Team.

(a) Government members of the Team must be empowered to make acquisition decisions within their areas of responsibility, including selection, negotiation, and administration of contracts consistent with the Guiding Principles. In particular, the contracting officer must have the authority to the maximum extent practicable and consistent with law, to determine the application of rules, regulations, and policies, on a specific contract.

(b) The authority to make decisions and the accountability for the decisions made will be delegated to the lowest level within the System, consistent with law.

(c) The Team must be prepared to perform the functions and duties assigned. The Government is committed to provide training, professional development, and other resources necessary for maintaining and improving the knowledge, skills, and abilities for all Government participants on the Team, both with regard to their particular area of responsibility within the System, and their respective role as a team member. The contractor community is encouraged to do likewise.

(d) The System will foster cooperative relationships between the Government and its contractors consistent with its overriding responsibility to the taxpayers.

(e) The MMAR outlines procurement policies and procedures that are used by members of the Acquisition Team. If a policy or procedure, or a particular strategy or practice, is in the best interest of the Government and is not specifically addressed in the MMAR, nor prohibited by law (statute or case law), Executive order or other regulation, Government members of the Team should not assume it is prohibited. Rather, absence of direction should be interpreted as permitting the Team to innovate and use sound business judgment that is otherwise consistent with law and within the limits of their authority. Contracting officers should take the lead in encouraging business process innovations and ensuring that business decisions are sound.

1.103 Authority.

(a) The development of the MMAR System is in accordance with the requirements of Title 44, U.S. Code.

(b) The MMAR is prepared, issued, and maintained by the Deputy Public Printer, U.S. Government Printing Office.

1.104 Applicability.

The MMAR applies to all acquisitions as defined in Part 2 of the MMAR, except where expressly excluded.

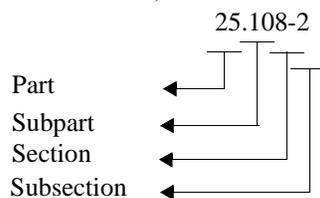

1.105 Issuance.**1.105-1 Publication and code arrangement.**

- (a) The MMAR is published
- (1) In a separate loose-leaf edition.
 - (2) On the GPO Intranet and at www.access.gpo.gov

1.105-2 Arrangement of regulations.

(a) *General.* The MMAR is divided into subchapters, parts (each of which covers a separate aspect of acquisition), subparts, sections, and subsections.

(b) *Numbering.* (1) The numbering system permits the discrete identification of every MMAR paragraph. The digits to the left of the decimal point represent the part number. The numbers to the right of the decimal point and to the left of the dash represent, in order, the subpart (one or two digits), and the section (two digits). The number to the right of the dash represents the subsection. Subdivisions may be used at the section and subsection level to identify individual paragraphs. The following example illustrates the make-up of a MMAR number citation (note that subchapters are not used with citations):

(2) Subdivisions below the section or subsection level consist of parenthetical alpha numerics using the following sequence:

(a)(1)(i)(A)(I)(i)

(c) *References and citations.* (1) Unless otherwise stated, cross-references indicate parts, subparts, sections, subsections, paragraphs, subparagraphs, or subdivisions of this regulation.

(2) This regulation may be referred to as the Materials Management Acquisition Regulation or the MMAR.

(3) Using the MMAR coverage at 9.106-4(d) as a typical illustration, reference to the—

(i) Part would be “MMAR Part 9” outside the MMAR and “Part 9” within the MMAR.

(ii) Subpart would be “MMAR Subpart 9.1” outside the MMAR and “Subpart 9.1” within the MMAR.

(iii) Section would be “MMAR 9.106” outside the MMAR and “9.106” within the MMAR.

(iv) Subsection would be “MMAR 9.106-4” outside the MMAR and “9.106-4” within the MMAR.

(v) Paragraph would be “MMAR 9.106-4(d)” outside the MMAR and “9.106-4(d)” within the MMAR.

(4) Citations of authority (*e.g.*, statutes or Executive orders) in the MMAR shall follow the *Federal Register* form guides.

1.105-3 [Reserved]**1.106 [Reserved]****1.107 [Reserved]****1.108 MMAR conventions.**

The following conventions provide guidance for interpreting the MMAR:

(a) *Words and terms.* Definitions in Part 2 apply to the entire regulation unless specifically defined in another part, subpart, section, provision, or clause. Words or terms defined in a specific part, subpart, section, provision, or clause have that meaning when used in that part, subpart, section, provision, or clause. Undefined words retain their common dictionary meaning.

(b) *Delegation of authority.* Each authority is delegable unless specifically stated otherwise (see 1.102-4(b)).

(c) *Dollar thresholds.* Unless otherwise specified, a specific dollar threshold for the purpose of applicability is the final anticipated dollar value of the action, including the dollar value of all options. If the action establishes a maximum quantity of supplies or services to be acquired or establishes a ceiling price or establishes the final price to be based on future events, the final anticipated dollar value must be the highest final priced alternative to the Government, including the dollar value of all options.

(d) *Application of MMAR changes to solicitations and contracts.* Unless otherwise specified—

(1) MMAR changes apply to solicitations issued on or after the effective date of the change;

(2) Contracting officers may, at their discretion, include the MMAR changes in solicitations issued before the effective date, provided award of the resulting contract(s) occurs on or after the effective date; and

(3) Contracting officers may, at their discretion, include the changes in any existing contract with appropriate consideration.

(e) *Citations.* When the MMAR cites a statute, Executive order, Office of Management and Budget circular, Office of Federal Procurement Policy policy letter, or relevant portion of the Code of Federal Regulations, the citation includes all applicable amendments, unless otherwise stated.

(f) *Imperative sentences.* When an imperative sentence directs action, the contracting officer is responsible for the action, unless another party is expressly cited.

Subpart 1.2—[Reserved]

Subpart 1.3—[Reserved]

Subpart 1.4—Deviations from the MMAR

1.400 Scope of subpart.

This subpart prescribes the policies and procedures for authorizing deviations from the MMAR. Exceptions pertaining to the use of forms prescribed by the MMAR are covered in Part 53 rather than in this subpart.

1.401 Definition.

“Deviation” means any one or combination of the following:

- (a) The issuance or use of a policy, procedure, solicitation provision (see definition in 2.101), contract clause (see definition in 2.101), method, or practice of conducting acquisition actions of any kind at any stage of the acquisition process that is inconsistent with the MMAR.
- (b) The omission of any solicitation provision or contract clause when its prescription requires its use.
- (c) The use of any solicitation provision or contract clause with modified or alternate language that is not authorized by the MMAR (see definition of “modification” in 52.101(a) and definition of “alternate” in 2.101(a)).
- (d) The use of a solicitation provision or contract clause prescribed by the MMAR on a “substantially as follows” or “substantially the same as” basis (see definitions in 2.101 and 52.101(a)), if such use is inconsistent with the intent, principle, or substance of the prescription or related coverage on the subject matter in the MMAR.
- (e) The authorization of lesser or greater limitations on the use of any solicitation provision, contract clause, policy, or procedure prescribed by the MMAR.
- (f) The issuance of policies or procedures that govern the contracting process or otherwise control contracting relationships that are not incorporated into agency acquisition regulations in accordance with 1.301(a).

1.402 Policy.

Unless precluded by law, executive order, or regulation, deviations from the MMAR may be granted as specified in this subpart when necessary to meet the specific needs and requirements of the GPO. The development and testing of new techniques and methods of acquisition should not be sti-

fled simply because such action would require a MMAR deviation. The fact that deviation authority is required should not, of itself, deter agencies in their development and testing of new techniques and acquisition methods. Refer to 31.101 for instructions concerning deviations pertaining to the subject matter of Part 31, Contract Cost Principles and Procedures. Deviations are not authorized with respect to 30.201-3 and 30.201-4, or the requirements of the Cost Accounting Standards Board (CASB) rules and regulations (48 CFR Chapter 99 (MMAR Appendix)). Refer to 30.201-5 for instructions concerning waivers pertaining to Cost Accounting Standards.

1.403 Individual deviations.

Individual deviations affect only one contract action, and, unless 1.405(e) is applicable, may be authorized by the Director, Materials Management. The contracting officer must document the justification and approval in the contract file.

1.404 Class deviations.

Deviations may be authorized by the Public Printer or his designees, unless 1.405(e) is applicable. Delegation of this authority shall not be made below the head of a contracting activity.

1.405 Deviations pertaining to treaties and executive agreements.

- (a) “Executive agreements,” as used in this section, means Government-to-Government agreements, including agreements with international organizations, to which the United States is a party.
- (b) Any deviation from the MMAR required to comply with a treaty to which the United States is a party is authorized, unless the deviation would be inconsistent with MMAR coverage based on a law enacted after the execution of the treaty.
- (c) Any deviation from the MMAR required to comply with an executive agreement is authorized unless the deviation would be inconsistent with MMAR coverage based on law.

Subpart 1.5—[Reserved]

Subpart 1.6—Career Development, Contracting Authority, and Responsibilities

1.601 General.

(a) Unless specifically prohibited by another provision of law, authority and responsibility to contract for authorized supplies and services are vested in the Public Printer. The Public Printer may establish contracting activities and delegate broad authority to manage the agency's contracting functions to heads of such contracting activities. Contracts may be entered into and signed on behalf of the Government only by contracting officers. Contracting officers below the level of a head of a contracting activity shall be selected and appointed under 1.603.

1.602 Contracting officers.

1.602-1 Authority.

(a) Contracting officers have authority to enter into, administer, or terminate contracts and make related determinations and findings. Contracting officers may bind the Government only to the extent of the authority delegated to them. Contracting officers shall receive from the appointing authority clear instructions in writing regarding the limits of their authority. Information on the limits of the contracting officers' authority shall be readily available to the public and agency personnel.

(b) No contract shall be entered into unless the contracting officer ensures that all requirements of law, executive orders, regulations, and all other applicable procedures, including clearances and approvals, have been met.

1.602-2 Responsibilities.

Contracting officers are responsible for ensuring performance of all necessary actions for effective contracting, ensuring compliance with the terms of the contract, and safeguarding the interests of the United States in its contractual relationships. In order to perform these responsibilities, contracting officers should be allowed wide latitude to exercise business judgment. Contracting officers shall—

(a) Ensure that the requirements of 1.602-1(b) have been met, and that sufficient funds are available for obligation;

(b) Ensure that contractors receive impartial, fair, and equitable treatment; and

(c) Request and consider the advice of specialists in audit, law, engineering, transportation, and other fields, as appropriate.

1.602-3 Ratification of unauthorized commitments.

(a) Definitions.

“Ratification,” as used in this subsection, means the act of approving an unauthorized commitment by an official who has the authority to do so.

“Unauthorized commitment,” as used in this subsection, means an agreement that is not binding solely because the Government representative who made it lacked the authority to enter into that agreement on behalf of the Government.

(b) *Policy.* (1) MMS should take positive action to preclude, to the maximum extent possible, the need for ratification actions. Although procedures are provided in this section for use in those cases where the ratification of an unauthorized commitment is necessary, these procedures may not be used in a manner that encourages such commitments being made by Government personnel.

(2) Subject to the limitations in paragraph (c) of this subsection, the Director, Materials Management, may ratify an unauthorized commitment.

(3) The ratification authority in paragraph (b)(2) of this subsection may be delegated in accordance with agency procedures, but in no case shall the authority be delegated below the level of Director, Materials Management.

(4) Contracting Officers should process unauthorized commitments using the ratification authority of this subsection instead of referring such actions to the General Accounting Office for resolution. (See 1.602-3(d).)

(5) Unauthorized commitments that would involve claims subject to resolution under the Disputes Clause should be processed in accordance with Subpart 33.2, Disputes and Appeals.

(c) *Limitations.* The authority in paragraph (b)(2) of this subsection may be exercised only when—

(1) Supplies or services have been provided to and accepted by the Government, or the Government otherwise has obtained or will obtain a benefit resulting from performance of the unauthorized commitment;

(2) The ratifying official has the authority to enter into a contractual commitment;

(3) The resulting contract would otherwise have been proper if made by an appropriate contracting officer;

(4) The contracting officer reviewing the unauthorized commitment determines the price to be fair and reasonable;

(5) The contracting officer recommends payment and legal counsel concurs in the recommendation;

(6) Funds are available and were available at the time the unauthorized commitment was made; and

(7) The ratification is in accordance with any other limitations prescribed under agency procedures.

(d) *Nonratifiable commitments.* Cases that are not ratifiable under this subsection may be subject to resolution as recommended by the General Accounting Office under its claim procedure (GAO Policy and Procedures Manual for Guidance of Federal Agencies, Title 4, Chapter 2), or as authorized by MMAR Part 50. Legal advice should be obtained in these cases.

1.603 Selection, appointment, and termination of appointment.**1.603-1 [Reserved]****1.603-2 Selection**

In selecting contracting officers, the appointing official shall consider the complexity and dollar value of the acquisitions to be assigned and the candidate's experience, training, education, business acumen, judgment, character, and reputation. Examples of selection criteria include—

- (a) Experience in Government contracting and administration, commercial purchasing, or related fields;
- (b) Education or special training in business administration, law, accounting, engineering, or related fields;
- (c) Knowledge of acquisition policies and procedures, including this and other applicable regulations;
- (d) Specialized knowledge in the particular assigned field of contracting; and
- (e) Satisfactory completion of acquisition training courses.

1.603-3 Appointment.

(a) Contracting officers shall be appointed in writing on an SF 1402, Certificate of Appointment, which shall state any limitations on the scope of authority to be exercised, other than limitations contained in applicable law or regulation. Appointing officials shall maintain files containing copies of all appointments that have not been terminated.

(b) The Public Printer may delegate micro-purchase authority to individuals who are employees of an executive agency or members of GPO who will be using the supplies or services being purchased. Individuals delegated this authority are not required to be appointed on an SF 1402, but shall be appointed in writing in accordance with agency procedures.

1.603-4 Termination.

Termination of a contracting officer appointment will be by letter, unless the Certificate of Appointment contains other provisions for automatic termination. Terminations may be for reasons such as reassignment, termination of employment, or unsatisfactory performance. No termination shall operate retroactively.

Subpart 1.7—Determinations and Findings

1.700 Scope of subpart.

This subpart prescribes general policies and procedures for the use of determinations and findings (D&F's). Requirements for specific types of D&F's can be found with the appropriate subject matter.

1.701 Definition.

“Determination and Findings” means a special form of written approval by an authorized official that is required by statute or regulation as a prerequisite to taking certain contract actions. The “determination” is a conclusion or decision supported by the “findings.” The findings are statements of fact or rationale essential to support the determination and must cover each requirement of the statute or regulation.

1.702 General.

(a) A D&F shall ordinarily be for an individual contract action. Unless otherwise prohibited, class D&F's may be executed for classes of contract actions (see 1.703). The approval granted by a D&F is restricted to the proposed contract action(s) reasonably described in that D&F. D&F's may provide for a reasonable degree of flexibility. Furthermore, in their application, reasonable variations in estimated quantities or prices are permitted, unless the D&F specifies otherwise.

(b) When an option is anticipated, the D&F shall state the approximate quantity to be awarded initially and the extent of the increase to be permitted by the option.

1.703 Class determinations and findings.

(a) A class D&F provides authority for a class of contract actions. A class may consist of contract actions for the same or related supplies or services or other contract actions that require essentially identical justification.

(b) The findings in a class D&F shall fully support the proposed action either for the class as a whole or for each action. A class D&F shall be for a specified period, with the expiration date stated in the document.

(c) The contracting officer shall ensure that individual actions taken pursuant to the authority of a class D&F are within the scope of the D&F.

1.704 Content.

Each D&F shall set forth enough facts and circumstances to clearly and convincingly justify the specific determination made. As a minimum, each D&F shall include, in the prescribed agency format, the following information:

(a) Identification of the agency and of the contracting activity and specific identification of the document as a “Determination and Findings.”

(b) Nature and/or description of the action being approved.

(c) Citation of the appropriate statute and/or regulation upon which the D&F is based.

(d) Findings that detail the particular circumstances, facts, or reasoning essential to support the determination. Necessary supporting documentation shall be obtained from appropriate requirements and technical personnel.

(e) A determination, based on the findings, that the proposed action is justified under the applicable statute or regulation.

(f) Expiration date of the D&F, if required (see 1.706).

(g) The signature of the official authorized to sign the D&F (see 1.707) and the date signed.

1.705 Supersession and modification.

(a) If a D&F is superseded by another D&F, that action shall not render invalid any action taken under the original D&F prior to the date of its supersession.

(b) The contracting officer need not cancel the solicitation if the D&F, as modified, supports the contract action.

1.706 Expiration.

Expiration dates are required for class D&F's and are optional for individual D&F's. Authority to act under an individual D&F expires when it is exercised or on an expiration date specified in the document, whichever occurs first. Authority to act under a class D&F expires on the expiration date specified in the document. When a solicitation has been furnished to prospective offerors before the expiration date, the authority under the D&F will continue until award of the contract(s) resulting from the solicitation.

1.707 Signatory authority.

When a D&F is required, it shall be signed by the appropriate official in accordance with agency regulations. Authority to sign or delegate signature authority for the various D&F's is as shown in the applicable MMAR part.

PART 2—DEFINITIONS OF WORDS AND TERMS

<i>Sec.</i>			
2.000	Scope of part.		Subpart 2.2—Definitions Clause
	Subpart 2.1—Definitions	2.201	Contract clause.
2.101	Definitions.		

This page intentionally left blank.

2.000 Scope of part.

(a) This part—

(1) Defines words and terms that are frequently used in the MMAR;

(2) Provides cross-references to other definitions in the MMAR of the same word or term; and

(3) Provides for the incorporation of these definitions in solicitations and contracts by reference.

(b) Other parts, subparts, and sections of the MMAR may define other words or terms and those definitions only apply to the part, subpart, or section where the word or term is defined (see the Index for locations).

Subpart 2.1—Definitions**2.101 Definitions.**

(a) A word or a term, defined in this section, has the same meaning throughout MMAR unless—

(1) The context in which the word or term is used clearly requires a different meaning; or

(2) Another MMAR part, subpart, or section provides a different definition for the particular part or portion of the part.

(b) If a word or term that is defined in this section is defined differently in another part, subpart, or section of the MMAR, the definition in—

(1) This section includes a cross-reference to the other definitions; and

(2) That part, subpart, or section applies to the word or term when used in that part, subpart, or section.

“Acquisition” means the acquiring by contract with appropriated funds of supplies or services (including construction) by and for the use of the Federal Government through purchase or lease, whether the supplies or services are already in existence or must be created, developed, demonstrated, and evaluated. Acquisition begins at the point when agency needs are established and includes the description of requirements to satisfy agency needs, solicitation and selection of sources, award of contracts, contract financing, contract performance, contract administration, and those technical and management functions directly related to the process of fulfilling agency needs by contract.

“Acquisition planning” means the process by which the efforts of all personnel responsible for an acquisition are coordinated and integrated through a comprehensive plan for fulfilling the agency need in a timely manner and at a reasonable cost. It includes developing the overall strategy for managing the acquisition.

“Adequate evidence” means information sufficient to support the reasonable belief that a particular act or omission has occurred.

“Advisory and assistance services” means those services provided under contract by nongovernmental sources to support or improve: organizational policy development; deci-

sion-making; management and administration; program and/or project management and administration; or R&D activities. It can also mean the furnishing of professional advice or assistance rendered to improve the effectiveness of Federal management processes or procedures (including those of an engineering and technical nature). In rendering the foregoing services, outputs may take the form of information, advice, opinions, alternatives, analyses, evaluations, recommendations, training and the day-to-day aid of support personnel needed for the successful performance of ongoing Federal operations. All advisory and assistance services are classified in one of the following definitional subdivisions:

(1) Management and professional support services, *i.e.*, contractual services that provide assistance, advice or training for the efficient and effective management and operation of organizations, activities (including management and support services for R&D activities), or systems. These services are normally closely related to the basic responsibilities and mission of the agency originating the requirement for the acquisition of services by contract. Included are efforts that support or contribute to improved organization of program management, logistics management, project monitoring and reporting, data collection, budgeting, accounting, performance auditing, and administrative technical support for conferences and training programs.

(2) Studies, analyses and evaluations, *i.e.*, contracted services that provide organized, analytical assessments/evaluations in support of policy development, decision-making, management, or administration. Included are studies in support of R&D activities. Also included are acquisitions of models, methodologies, and related software supporting studies, analyses or evaluations.

(3) Engineering and technical services, *i.e.*, contractual services used to support the program office during the acquisition cycle by providing such services as systems engineering and technical direction (see 9.505-1(b)).

“Affiliates” means associated business concerns or individuals if, directly or indirectly—

(1) Either one controls or can control the other; or

(2) A third party controls or can control both.

“Agency” means the United States Government Printing Office.

“Agency head” or “head of the agency” means the Public Printer unless otherwise indicated.

“Alternate” means a substantive variation of a basic provision or clause prescribed for use in a defined circumstance. It adds wording to, deletes wording from, or substitutes specified wording for a portion of the basic provision or clause. The alternate version of a provision or clause is the basic provision or clause as changed by the addition, deletion, or substitution (see 52.105(a)).

“Architect-engineer services,” as defined in 40 U.S.C. 541, means—

(1) Professional services of an architectural or engineering nature, as defined by State law, if applicable, that are required to be performed or approved by a person licensed, registered, or certified to provide those services;

(2) Professional services of an architectural or engineering nature performed by contract that are associated with research, planning, development, design, construction, alteration, or repair of real property; and

(3) Those other professional services of an architectural or engineering nature, or incidental services, that members of the architectural and engineering professions (and individuals in their employ) may logically or justifiably perform, including studies, investigations, surveying and mapping, tests, evaluations, consultations, comprehensive planning, program management, conceptual designs, plans and specifications, value engineering, construction phase services, soils engineering, drawing reviews, preparation of operating and maintenance manuals, and other related services.

“Assignment of claims” means the transfer or making over by the contractor to a bank, trust company, or other financing institution, as security for a loan to the contractor, of its right to be paid by the Government for contract performance.

“Basic research” means that research directed toward increasing knowledge in science. The primary aim of basic research is a fuller knowledge or understanding of the subject under study, rather than any practical application of that knowledge.

“Best value” means the expected outcome of an acquisition that, in the Government’s estimation, provides the greatest overall benefit in response to the requirement.

“Bid sample” means a product sample required to be submitted by an offeror to show characteristics of the offered products that cannot adequately be described by specifications, purchase descriptions, or the solicitation (*e.g.*, balance, facility of use, or pattern).

“Broad agency announcement” means a general announcement of an agency’s research interest including criteria for selecting proposals and soliciting the participation of all offerors capable of satisfying the Government’s needs (see 6.102(d)(2)).

“Bundled contract” means a contract where the requirements have been consolidated by bundling. (See the definition of bundling.)

“Bundling” means—

(1) Consolidating two or more requirements for supplies or services, previously provided or performed under separate smaller contracts, into a solicitation for a single contract that is likely to be unsuitable for award to a small business concern due to—

(i) The diversity, size, or specialized nature of the elements of the performance specified;

(ii) The aggregate dollar value of the anticipated award;

(iii) The geographical dispersion of the contract performance sites; or

(iv) Any combination of the factors described in paragraphs (1)(i), (ii), and (iii) of this definition.

(2) “Separate smaller contract” as used in this definition, means a contract that has been performed by one or more small business concerns or that was suitable for award to one or more small business concerns.

(3) This definition does not apply to a contract that will be awarded and performed entirely outside of the United States.

“Business unit” means any segment of an organization, or an entire business organization that is not divided into segments.

“Change-of-name agreement” means a legal instrument executed by the contractor and the Government that recognizes the legal change of name of the contractor without disturbing the original contractual rights and obligations of the parties.

“Change order” means a written order, signed by the contracting officer, directing the contractor to make a change that the Changes clause authorizes the contracting officer to order without the contractor’s consent.

“Claim” means a written demand or written assertion by one of the contracting parties seeking, as a matter of right, the payment of money in a sum certain, the adjustment or interpretation of contract terms, or other relief arising under or relating to the contract. A voucher, invoice, or other routine request for payment that is not in dispute when submitted is not a claim. The submission may be converted to a claim, by written notice to the contracting officer as provided in 33.206(a), if it is disputed either as to liability or amount or is not acted upon in a reasonable time.

“Classified acquisition” means an acquisition in which offerors must have access to classified information to properly submit an offer or quotation, to understand the performance requirements, or to perform the contract.

“Classified contract” means any contract in which the contractor or its employees must have access to classified information during contract performance. A contract may be a classified contract even though the contract document itself is unclassified.

“Classified information” means any knowledge that can be communicated or any documentary material, regardless of its physical form or characteristics, that—

(1)(i) Is owned by, is produced by or for, or is under the control of the United States Government; or

(ii) Has been classified by the Department of Energy as privately generated restricted data following the procedures in 10 CFR 1045.21; and

(2) Must be protected against unauthorized disclosure according to Executive Order 12958, Classified National Security Information, April 17, 1995, or classified in accordance with the Atomic Energy Act of 1954.

“Cognizant Federal agency” means the Federal agency that, on behalf of all Federal agencies, is responsible for establishing final indirect cost rates and forward pricing rates, if applicable, and administering cost accounting standards for all contracts in a business unit.

“Commerce Business Daily (CBD)” means the publication of the Secretary of Commerce used to fulfill statutory requirements to publish certain public notices in paper form.

“Commercial component” means any component that is a commercial item.

“Commercial item” means—

(1) Any item, other than real property, that is of a type customarily used by the general public or by non-governmental entities for purposes other than governmental purposes, and—

(i) Has been sold, leased, or licensed to the general public; or

(ii) Has been offered for sale, lease, or license to the general public;

(2) Any item that evolved from an item described in paragraph (1) of this definition through advances in technology or performance and that is not yet available in the commercial marketplace, but will be available in the commercial marketplace in time to satisfy the delivery requirements under a Government solicitation;

(3) Any item that would satisfy a criterion expressed in paragraphs (1) or (2) of this definition, but for—

(i) Modifications of a type customarily available in the commercial marketplace; or

(ii) Minor modifications of a type not customarily available in the commercial marketplace made to meet Federal Government requirements. Minor modifications means modifications that do not significantly alter the nongovernmental function or essential physical characteristics of an item or component, or change the purpose of a process. Factors to be considered in determining whether a modification is minor include the value and size of the modification and the comparative value and size of the final product. Dollar values and percentages may be used as guideposts, but are not conclusive evidence that a modification is minor;

(4) Any combination of items meeting the requirements of paragraphs (1), (2), (3), or (5) of this definition that are of a type customarily combined and sold in combination to the general public;

(5) Installation services, maintenance services, repair services, training services, and other services if—

(i) Such services are procured for support of an item referred to in paragraph (1), (2), (3), or (4) of this definition, regardless of whether such services are provided by the same source or at the same time as the item; and

(ii) The source of such services provides similar services contemporaneously to the general public under terms and conditions similar to those offered to the Federal Government;

(6) Services of a type offered and sold competitively in substantial quantities in the commercial marketplace based on established catalog or market prices for specific tasks performed under standard commercial terms and conditions. This does not include services that are sold based on hourly rates without an established catalog or market price for a specific service performed. For purposes of these services—

(i) “Catalog price” means a price included in a catalog, price list, schedule, or other form that is regularly maintained by the manufacturer or vendor, is either published or otherwise available for inspection by customers, and states prices at which sales are currently, or were last, made to a significant number of buyers constituting the general public; and

(ii) “Market prices” means current prices that are established in the course of ordinary trade between buyers and sellers free to bargain and that can be substantiated through competition or from sources independent of the off-ers.

(7) Any item, combination of items, or service referred to in paragraphs (1) through (6) of this definition, notwithstanding the fact that the item, combination of items, or service is transferred between or among separate divisions, subsidiaries, or affiliates of a contractor; or

(8) A nondevelopmental item, if the agency determines the item was developed exclusively at private expense and sold in substantial quantities, on a competitive basis, to multiple State and local governments.

“Component” means any item supplied to the Government as part of an end item or of another component, except that for use in—

(1) Part 25, see the definition in 25.003;

(2) 52.225-1 and 52.225-3, see the definition in 52.225-1(a) and 52.225-3(a); and

(3) 52.225-9 and 52.225-11, see the definition in 52.225-9(a) and 52.225-11(a).

“Computer software” means computer programs, computer databases, and related documentation.

“Consent to subcontract” means the contracting officer’s written consent for the prime contractor to enter into a particular subcontract.

“Construction” means construction, alteration, or repair (including dredging, excavating, and painting) of buildings, structures, or other real property. For purposes of this definition, the terms “buildings, structures, or other real property” include, but are not limited to, improvements of all types, such as bridges, dams, plants, highways, parkways, streets, subways, tunnels, sewers, mains, power lines, cemeteries, pumping stations, railways, airport facilities, terminals, docks, piers, wharves, ways, lighthouses, buoys, jetties,

breakwaters, levees, canals, and channels. Construction does not include the manufacture, production, furnishing, construction, alteration, repair, processing, or assembling of vessels, aircraft, or other kinds of personal property.

“Continued portion of the contract” means the portion of a contract that the contractor must continue to perform following a partial termination.

“Contract” means a mutually binding legal relationship obligating the seller to furnish the supplies or services (including construction) and the buyer to pay for them. It includes all types of commitments that obligate the Government to an expenditure of appropriated funds and that, except as otherwise authorized, are in writing. In addition to bilateral instruments, contracts include (but are not limited to) awards and notices of awards; job orders or task letters issued under basic ordering agreements; letter contracts; orders, such as purchase orders, under which the contract becomes effective by written acceptance or performance; and bilateral contract modifications. Contracts do not include grants and cooperative agreements covered by 31 U.S.C. 6301, *et seq.* For discussion of various types of contracts, see Part 16.

“Contract administration office” means an office that performs—

(1) Assigned postaward functions related to the administration of contracts; and

(2) Assigned preaward functions.

“Contract clause” or “clause” means a term or condition used in contracts or in both solicitations and contracts, and applying after contract award or both before and after award.

“Contract modification” means any written change in the terms of a contract (see 43.103).

“Contracting” means purchasing, renting, leasing, or otherwise obtaining supplies or services from nonfederal sources. Contracting includes description (but not determination) of supplies and services required, selection and solicitation of sources, preparation and award of contracts, and all phases of contract administration. It does not include making grants or cooperative agreements.

“Contracting activity” means an element of the GPO designated by the Public Printer and delegated broad authority regarding acquisition functions.

“Contracting office” means an office that awards or executes a contract for supplies or services and performs postaward functions not assigned to a contract administration office (except for use in Part 48, see also 48.001).

“Contracting officer” means a person with the authority to enter into, administer, and/or terminate contracts and make related determinations and findings. The term includes certain authorized representatives of the contracting officer acting within the limits of their authority as delegated by the contracting officer. “Administrative contracting officer (ACO)” refers to a contracting officer who is administering contracts. “Termination contracting officer (TCO)”

refers to a contracting officer who is settling terminated contracts. A single contracting officer may be responsible for duties in any or all of these areas. Reference in the MMAR to administrative contracting officer or termination contracting officer does not—

(1) Require that a duty be performed at a particular office or activity; or

(2) Restrict in any way a contracting officer in the performance of any duty properly assigned.

“Conviction” means a judgment or conviction of a criminal offense by any court of competent jurisdiction, whether entered upon a verdict or a plea, and includes a conviction entered upon a plea of *nolo contendere*. For use in Subpart 23.5, see the definition at 23.503.

“Cost or pricing data” (10 U.S.C. 2306a(h)(1) and 41 U.S.C. 254b) means all facts that, as of the date of price agreement or, if applicable, an earlier date agreed upon between the parties that is as close as practicable to the date of agreement on price, prudent buyers and sellers would reasonably expect to affect price negotiations significantly. Cost or pricing data are data requiring certification in accordance with 15.406-2. Cost or pricing data are factual, not judgmental; and are verifiable. While they do not indicate the accuracy of the prospective contractor’s judgment about estimated future costs or projections, they do include the data forming the basis for that judgment. Cost or pricing data are more than historical accounting data; they are all the facts that can be reasonably expected to contribute to the soundness of estimates of future costs and to the validity of determinations of costs already incurred. They also include such factors as—

(1) Vendor quotations;

(2) Nonrecurring costs;

(3) Information on changes in production methods and in production or purchasing volume;

(4) Data supporting projections of business prospects and objectives and related operations costs;

(5) Unit-cost trends such as those associated with labor efficiency;

(6) Make-or-buy decisions;

(7) Estimated resources to attain business goals; and

(8) Information on management decisions that could have a significant bearing on costs.

“Cost realism” means that the costs in an offeror’s proposal—

(1) Are realistic for the work to be performed;

(2) Reflect a clear understanding of the requirements; and

(3) Are consistent with the various elements of the offeror’s technical proposal.

“Cost sharing” means an explicit arrangement under which the contractor bears some of the burden of reasonable, allocable, and allowable contract cost.

“Day” means, unless otherwise specified, a calendar day.

“Debarment” means action taken by a debarring official under GPO Instruction 110.11B to exclude a contractor from Government contracting and Government-approved subcontracting for a reasonable, specified period; a contractor that is excluded is “debarred.”

“Delivery order” means an order for supplies placed against an established contract or with Government sources.

“Descriptive literature” means information provided by an offeror, such as cuts, illustrations, drawings, and brochures, that shows a product’s characteristics or construction of a product or explains its operation. The term includes only that information needed to evaluate the acceptability of the product and excludes other information for operating or maintaining the product.

“Design-to-cost” means a concept that establishes cost elements as management goals to achieve the best balance between life-cycle cost, acceptable performance, and schedule. Under this concept, cost is a design constraint during the design and development phases and a management discipline throughout the acquisition and operation of the system or equipment.

“Drug-free workplace” means the site(s) for the performance of work done by the contractor in connection with a specific contract where employees of the contractor are prohibited from engaging in the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance.

“Effective date of termination” means the date on which the notice of termination requires the contractor to stop performance under the contract. If the contractor receives the termination notice after the date fixed for termination, then the effective date of termination means the date the contractor receives the notice.

“Electronic and information technology (EIT)” has the same meaning as “information technology” except EIT also includes any equipment or interconnected system or subsystem of equipment that is used in the creation, conversion, or duplication of data or information. The term EIT, includes, but is not limited to, telecommunication products (such as telephones), information kiosks and transaction machines, worldwide websites, multimedia, and office equipment (such as copiers and fax machines).

“Electronic commerce” means electronic techniques for accomplishing business transactions including electronic mail or messaging, World Wide Web technology, electronic bulletin boards, purchase cards, electronic funds transfer, and electronic data interchange.

“Electronic data interchange (EDI)” means a technique for electronically transferring and storing formatted information between computers utilizing established and published formats and codes, as authorized by the applicable Federal Information Processing Standards.

“Electronic Funds Transfer (EFT)” means any transfer of funds, other than a transaction originated by cash, check, or

similar paper instrument, that is initiated through an electronic terminal, telephone, computer, or magnetic tape, for the purpose of ordering, instructing, or authorizing a financial institution to debit or credit an account. The term includes Automated Clearing House transfers, Fedwire transfers, and transfers made at automatic teller machines and point-of-sale terminals. For purposes of compliance with 31 U.S.C. 3332 and implementing regulations at 31 CFR part 208, the term “electronic funds transfer” includes a Governmentwide commercial purchase card transaction.

“End product” means supplies delivered under a line item of a Government contract, except for use in Part 25 and the associated clauses at 52.225-1, 52.225-3, and 52.225-5, see the definitions in 25.003, 52.225-1(a), 52.225-3(a), and 52.225-5(a).

“Energy-efficient product” means a product that—

(1) Meets Department of Energy and Environmental Protection Agency criteria for use of the Energy Star trademark label; or

(2) Is in the upper 25 percent of efficiency for all similar products as designated by the Department of Energy’s Federal Energy Management Program.

“Energy-savings performance contract” means a contract that requires the contractor to—

(1) Perform services for the design, acquisition, financing, installation, testing, operation, and where appropriate, maintenance and repair, of an identified energy conservation measure or series of measures at one or more locations;

(2) Incur the costs of implementing the energy savings measures, including at least the cost (if any) incurred in making energy audits, acquiring and installing equipment, and training personnel in exchange for a predetermined share of the value of the energy savings directly resulting from implementation of such measures during the term of the contract; and

(3) Guarantee future energy and cost savings to the Government.

“Environmentally preferable” means products or services that have a lesser or reduced effect on human health and the environment when compared with competing products or services that serve the same purpose. This comparison may consider raw materials acquisition, production, manufacturing, packaging, distribution, reuse, operation, maintenance, or disposal of the product or service.

“Executive agency” means an executive department, a military department, or any independent establishment within the meaning of 5 U.S.C. 101, 102, and 104(1), respectively, and any wholly owned Government corporation within the meaning of 31 U.S.C. 9101.

“Facsimile” means electronic equipment that communicates and reproduces both printed and handwritten material. If used in conjunction with a reference to a document; *e.g.*,

facsimile bid, the terms refers to a document (in the example given, a bid) that has been transmitted to and received by the Government via facsimile.

“Federal Acquisition Computer Network (FACNET) Architecture” is a Government system that provides user access, employs nationally and internationally recognized data formats, and allows the electronic data interchange of acquisition information between the private sector and the Federal Government.

“Federal agency” means any executive agency or any independent establishment in the legislative or judicial branch of the Government (except the Senate, the House of Representatives, the Architect of the Capitol, and any activities under the Architect’s direction).

“Federally Funded Research and Development Centers (FFRDC’s)” means activities that are sponsored under a broad charter by a Government agency (or agencies) for the purpose of performing, analyzing, integrating, supporting, and/or managing basic or applied research and/or development, and that receive 70 percent or more of their financial support from the Government; and—

- (1) A long-term relationship is contemplated;
- (2) Most or all of the facilities are owned or funded by the Government; and
- (3) The FFRDC has access to Government and supplier data, employees, and facilities beyond that common in a normal contractual relationship.

“Final indirect cost rate” means the indirect cost rate established and agreed upon by the Government and the contractor as not subject to change. It is usually established after the close of the contractor’s fiscal year (unless the parties decide upon a different period) to which it applies. For cost-reimbursement research and development contracts with educational institutions, it may be predetermined; that is, established for a future period on the basis of cost experience with similar contracts, together with supporting data.

“First article” means a preproduction model, initial production sample, test sample, first lot, pilot lot, or pilot models.

“First article testing” means testing and evaluating the first article for conformance with specified contract requirements before or in the initial stage of production.

“F.o.b.” means free on board. This term is used in conjunction with a physical point to determine—

- (1) The responsibility and basis for payment of freight charges; and
- (2) Unless otherwise agreed, the point where title for goods passes to the buyer or consignee.

“F.o.b. destination” means free on board at destination; *i.e.*, the seller or consignor delivers the goods on seller’s or consignor’s conveyance at destination. Unless the contract provides otherwise, the seller or consignor is responsible for

the cost of shipping and risk of loss. For use in the clause at 52.247-34, see the definition at 52.247-34(a).

“F.o.b. origin” means free on board at origin; *i.e.*, the seller or consignor places the goods on the conveyance. Unless the contract provides otherwise, the buyer or consignee is responsible for the cost of shipping and risk of loss. For use in the clause at 52.247-29, see the definition at 52.247-29(a).

“F.o.b.”... (For other types of F.o.b., see 47.303).

“Forward pricing rate agreement” means a written agreement negotiated between a contractor and the Government to make certain rates available during a specified period for use in pricing contracts or modifications. These rates represent reasonable projections of specific costs that are not easily estimated for, identified with, or generated by a specific contract, contract end item, or task. These projections may include rates for such things as labor, indirect costs, material obsolescence and usage, spare parts provisioning, and material handling.

“Forward pricing rate recommendation” means a rate set unilaterally by the administrative contracting officer for use by the Government in negotiations or other contract actions when forward pricing rate agreement negotiations have not been completed or when the contractor will not agree to a forward pricing rate agreement.

“Freight” means supplies, goods, and transportable property.

“Full and open competition,” when used with respect to a contract action, means that all responsible sources are permitted to compete.

“General and administrative (G&A) expense” means any management, financial, and other expense which is incurred by or allocated to a business unit and which is for the general management and administration of the business unit as a whole. G&A expense does not include those management expenses whose beneficial or causal relationship to cost objectives can be more directly measured by a base other than a cost input base representing the total activity of a business unit during a cost accounting period.

“Governmentwide acquisition contract (GWAC)” means a task-order or delivery-order contract for information technology established by one agency for Governmentwide use that is operated—

(1) By an executive agent designated by the Office of Management and Budget pursuant to section 5112(e) of the Clinger-Cohen Act, 40 U.S.C. 1412(e); or

(2) Under a delegation of procurement authority issued by the General Services Administration (GSA) prior to August 7, 1996, under authority granted GSA by the Brooks Act, 40 U.S.C. 759 (repealed by Pub. L. 104-106).

The Economy Act does not apply to orders under a Governmentwide acquisition contract.

“Governmentwide point of entry (GPE)” means the single point where Government business opportunities greater than \$25,000, including synopses of proposed contract actions, solicitations, and associated information, can be accessed electronically by the public. The GPE is located at <http://www.fedbizopps.gov>.

“Head of the agency” (see “agency head”).

“Head of the contracting activity” means the official who has overall responsibility for managing the contracting activity.

“Historically black college or university” means an institution determined by the Secretary of Education to meet the requirements of 34 CFR 608.2.

“HUBZone” means a historically underutilized business zone that is an area located within one or more qualified census tracts, qualified nonmetropolitan counties, or lands within the external boundaries of an Indian reservation.

“HUBZone small business concern” means a small business concern that appears on the List of Qualified HUBZone Small Business Concerns maintained by the Small Business Administration.

“In writing,” “writing,” or “written” means any worded or numbered expression that can be read, reproduced, and later communicated, and includes electronically transmitted and stored information.

“Indirect cost” means any cost not directly identified with a single, final cost objective, but identified with two or more final cost objectives or an intermediate cost objective.

“Indirect cost rate” means the percentage or dollar factor that expresses the ratio of indirect expense incurred in a given period to direct labor cost, manufacturing cost, or another appropriate base for the same period (see also “final indirect cost rate”).

“Ineligible” means excluded from Government contracting (and subcontracting, if appropriate) pursuant to statutory, Executive order, or regulatory authority other than the MMAR and its implementing and supplementing regulations; for example, pursuant to the Davis-Bacon Act and its related statutes and implementing regulations, the Service Contract Act, the Equal Employment Opportunity Acts and Executive orders, the Walsh-Healey Public Contracts Act, the Buy American Act, or the Environmental Protection Acts and Executive orders.

“Information other than cost or pricing data” means any type of information that is not required to be certified in accordance with 15.406-2 and is necessary to determine price reasonableness or cost realism. For example, such information may include pricing, sales, or cost information, and includes cost or pricing data for which certification is determined inapplicable after submission.

“Information technology” means any equipment, or interconnected system(s) or subsystem(s) of equipment, that is used in the automatic acquisition, storage, manipulation,

management, movement, control, display, switching, interchange, transmission, or reception of data or information by the agency.

(1) For purposes of this definition, equipment is used by an agency if the equipment is used by the agency directly or is used by a contractor under a contract with the agency that requires—

(i) Its use; or

(ii) To a significant extent, its use in the performance of a service or the furnishing of a product.

(2) The term “information technology” includes computers, ancillary equipment, software, firmware and similar procedures, services (including support services), and related resources.

(3) The term “information technology” does not include any equipment that—

(i) Is acquired by a contractor incidental to a contract; or

(ii) Contains imbedded information technology that is used as an integral part of the product, but the principal function of which is not the acquisition, storage, manipulation, management, movement, control, display, switching, interchange, transmission, or reception of data or information. For example, HVAC (heating, ventilation, and air conditioning) equipment, such as thermostats or temperature control devices, and medical equipment where information technology is integral to its operation, are not information technology.

“Inherently governmental function” means, as a matter of policy, a function that is so intimately related to the public interest as to mandate performance by Government employees. This definition is a policy determination, not a legal determination. An inherently governmental function includes activities that require either the exercise of discretion in applying Government authority, or the making of value judgments in making decisions for the Government. Governmental functions normally fall into two categories: the act of governing, *i.e.*, the discretionary exercise of Government authority, and monetary transactions and entitlements.

(1) An inherently governmental function involves, among other things, the interpretation and execution of the laws of the United States so as to—

(i) Bind the United States to take or not to take some action by contract, policy, regulation, authorization, order, or otherwise;

(ii) Determine, protect, and advance United States economic, political, territorial, property, or other interests by military or diplomatic action, civil or criminal judicial proceedings, contract management, or otherwise;

(iii) Significantly affect the life, liberty, or property of private persons;

(iv) Commission, appoint, direct, or control officers or employees of the United States; or

(v) Exert ultimate control over the acquisition, use, or disposition of the property, real or personal, tangible or intangible, of the United States, including the collection, control, or disbursement of Federal funds.

(2) Inherently governmental functions do not normally include gathering information for or providing advice, opinions, recommendations, or ideas to Government officials. They also do not include functions that are primarily ministerial and internal in nature, such as building security, mail operations, operation of cafeterias, housekeeping, facilities operations and maintenance, warehouse operations, motor vehicle fleet management operations, or other routine electrical or mechanical services. The list of commercial activities included in the attachment to Office of Management and Budget (OMB) Circular No. A-76 is an authoritative, nonexclusive list of functions that are not inherently governmental functions.

“Inspection” means examining and testing supplies or services (including, when appropriate, raw materials, components, and intermediate assemblies) to determine whether they conform to contract requirements.

“Insurance” means a contract that provides that for a stipulated consideration, one party undertakes to indemnify another against loss, damage, or liability arising from an unknown or contingent event.

“Invoice” means a contractor’s bill or written request for payment under the contract for supplies delivered or services performed (see also “proper invoice”).

“Irrevocable letter of credit” means a written commitment by a federally insured financial institution to pay all or part of a stated amount of money, until the expiration date of the letter, upon the Government’s (the beneficiary) presentation of a written demand for payment. Neither the financial institution nor the offeror/contractor can revoke or condition the letter of credit.

“Labor surplus area” means a geographical area identified by the Department of Labor in accordance with 20 CFR part 654, subpart A, as an area of concentrated unemployment or underemployment or an area of labor surplus.

“Labor surplus area concern” means a concern that together with its first-tier subcontractors will perform substantially in labor surplus areas. Performance is substantially in labor surplus areas if the costs incurred under the contract on account of manufacturing, production, or performance of appropriate services in labor surplus areas exceed 50 percent of the contract price.

“Latent defect” means a defect that exists at the time of acceptance but cannot be discovered by a reasonable inspection.

“List of Parties Excluded from Federal Procurement and Nonprocurement Programs” means a list compiled, main-

tained, and distributed by the General Services Administration containing the names and other information about parties debarred, suspended, or voluntarily excluded under the Nonprocurement Common Rule or the Federal Acquisition Regulation, parties who have been proposed for debarment under the Federal Acquisition Regulation, and parties determined to be ineligible.

“Major system” means that combination of elements that will function together to produce the capabilities required to fulfill a mission need. The elements may include hardware, equipment, software, or any combination thereof, but exclude construction or other improvements to real property. A system is a major system if—

(1) The Department of Defense is responsible for the system and the total expenditures for research, development, test, and evaluation for the system are estimated to be more than \$115,000,000 (based on fiscal year 1990 constant dollars) or the eventual total expenditure for the acquisition exceeds \$540,000,000 (based on fiscal year 1990 constant dollars);

(2) A civilian agency is responsible for the system and total expenditures for the system are estimated to exceed \$750,000 (based on fiscal year 1980 constant dollars) or the dollar threshold for a “major system” established by the agency pursuant to Office of Management and Budget Circular A-109, entitled “Major System Acquisitions,” whichever is greater; or

(3) The system is designated a “major system” by the head of the agency responsible for the system (10 U.S.C. 2302 and 41 U.S.C. 403).

“Make-or-buy program” means that part of a contractor’s written plan for a contract identifying those major items to be produced or work efforts to be performed in the prime contractor’s facilities and those to be subcontracted.

“Market research” means collecting and analyzing information about capabilities within the market to satisfy agency needs.

“Master solicitation” means a document containing special clauses and provisions that have been identified as essential for the acquisition of a specific type of supply or service that is acquired repetitively.

“May” denotes the permissive. However, the words “no person may ...” mean that no person is required, authorized, or permitted to do the act described.

“Micro-purchase” means an acquisition of supplies or services using simplified acquisition procedures, the aggregate amount of which does not exceed the micro-purchase threshold.

“Micro-purchase threshold” means \$2,500, except it means—

(1) \$2,000 for construction subject to the Davis-Bacon Act; and

(2) \$15,000 for acquisitions by or for the Department of Defense facilitating the defense against terrorism or biological or chemical attack as described in 13.201(g), except for construction subject to the Davis-Bacon Act.

“Minority Institution” means an institution of higher education meeting the requirements of Section 1046(3) of the Higher Education Act of 1965 (20 U.S.C. 1067k), including a Hispanic-serving institution of higher education, as defined in Section 316(b)(1) of the Act (20 U.S.C. 1101a).

“Multi-agency contract (MAC)” means a task-order or delivery-order contract established by one agency for use by Government agencies to obtain supplies and services, consistent with the Economy Act (see 17.500(b)). Multi-agency contracts include contracts for information technology established pursuant to section 5124(a)(2) of the Clinger-Cohen Act, 40 U.S.C. 1424(a)(2).

“Must” (see “shall”).

“National defense” means any activity related to programs for military or atomic energy production or construction, military assistance to any foreign nation, stockpiling, or space.

“Neutral person” means an impartial third party, who serves as a mediator, fact finder, or arbitrator, or otherwise functions to assist the parties to resolve the issues in controversy. A neutral person may be a permanent or temporary officer or employee of the Federal Government or any other individual who is acceptable to the parties. A neutral person must have no official, financial, or personal conflict of interest with respect to the issues in controversy, unless the interest is fully disclosed in writing to all parties and all parties agree that the neutral person may serve (5 U.S.C. 583).

“Nondevelopmental item” means—

(1) Any previously developed item of supply used exclusively for governmental purposes by a Federal agency, a State or local government, or a foreign government with which the United States has a mutual defense cooperation agreement;

(2) Any item described in paragraph (1) of this definition that requires only minor modification or modifications of a type customarily available in the commercial marketplace in order to meet the requirements of the procuring department or agency; or

(3) Any item of supply being produced that does not meet the requirements of paragraphs (1) or (2) solely because the item is not yet in use.

“Novation agreement” means a legal instrument—

(1) Executed by the—

- (i) Contractor (transferor);
- (ii) Successor in interest (transferee); and
- (iii) Government; and

(2) By which, among other things, the transferor guarantees performance of the contract, the transferee assumes all obligations under the contract, and the Government recognizes the transfer of the contract and related assets.

“Offer” means a response to a solicitation that, if accepted, would bind the offeror to perform the resultant contract. Responses to invitations for bids (sealed bidding) are offers called “bids” or “sealed bids”; responses to requests for proposals (negotiation) are offers called “proposals”; however, responses to requests for quotations (simplified acquisition) are “quotations,” not offers. For unsolicited proposals, see Subpart 15.6.

“Offeror” means offeror or bidder.

“Option” means a unilateral right in a contract by which, for a specified time, the Government may elect to purchase additional supplies or services called for by the contract, or may elect to extend the term of the contract.

“Organizational conflict of interest” means that because of other activities or relationships with other persons, a person is unable or potentially unable to render impartial assistance or advice to the Government, or the person’s objectivity in performing the contract work is or might be otherwise impaired, or a person has an unfair competitive advantage.

“Overtime” means time worked by a contractor’s employee in excess of the employee’s normal workweek.

“Overtime premium” means the difference between the contractor’s regular rate of pay to an employee for the shift involved and the higher rate paid for overtime. It does not include shift premium, *i.e.*, the difference between the contractor’s regular rate of pay to an employee and the higher rate paid for extra-pay-shift work.

“Ozone-depleting substance” means any substance the Environmental Protection Agency designates in 40 CFR part 82 as—

(1) Class I, including, but not limited to, chlorofluorocarbons, halons, carbon tetrachloride, and methyl chloroform; or

(2) Class II, including, but not limited to, hydrochlorofluorocarbons.

“Partial termination” means the termination of a part, but not all, of the work that has not been completed and accepted under a contract.

“Performance-based contracting” means structuring all aspects of an acquisition around the purpose of the work to be performed with the contract requirements set forth in clear, specific, and objective terms with measurable outcomes as opposed to either the manner by which the work is to be performed or broad and imprecise statements of work.

“Personal services contract” means a contract that, by its express terms or as administered, makes the contractor personnel appear to be, in effect, Government employees (see 37.104).

“Pollution prevention” means any practice that—

(1)(i) Reduces the amount of any hazardous substance, pollutant, or contaminant entering any waste stream or otherwise released into the environment (including fugitive emissions) prior to recycling, treatment, or disposal; and

(ii) Reduces the hazards to public health and the environment associated with the release of such substances, pollutants, and contaminants;

(2) Reduces or eliminates the creation of pollutants through increased efficiency in the use of raw materials, energy, water, or other resources; or

(3) Protects natural resources by conservation.

“Possessions” includes the Virgin Islands, Johnston Island, American Samoa, Guam, Wake Island, Midway Island, and the Guano Islands, but does not include Puerto Rico, leased bases, or trust territories.

“Power of attorney” means the authority given one person or corporation to act for and obligate another, as specified in the instrument creating the power; in corporate suretyship, an instrument under seal that appoints an attorney-in-fact to act in behalf of a surety company in signing bonds (see also “attorney-in-fact” at 28.001).

“Preaward survey” means an evaluation of a prospective contractor’s capability to perform a proposed contract.

“Preponderance of the evidence” means proof by information that, compared with that opposing it, leads to the conclusion that the fact at issue is more probably true than not.

“Pricing” means the process of establishing a reasonable amount or amounts to be paid for supplies or services.

“Procurement” (see “acquisition”).

“Procuring activity” means a component of the GPO having a significant acquisition function and designated as such by the head of the agency. Unless agency regulations specify otherwise, the term “procuring activity” is synonymous with “contracting activity.”

“Projected average loss” means the estimated long-term average loss per period for periods of comparable exposure to risk of loss.

“Proper invoice” means an invoice that meets the minimum standards specified in 32.905(b).

“Purchase order,” when issued by the Government, means an offer by the Government to buy supplies or services, including construction and research and development, upon specified terms and conditions, using simplified acquisition procedures.

“Qualification requirement” means a Government requirement for testing or other quality assurance demonstration that must be completed before award of a contract.

“Qualified products list (QPL)” means a list of products that have been examined, tested, and have satisfied all applicable qualification requirements.

“Receiving report” means written evidence that indicates Government acceptance of supplies delivered or services

performed (see Subpart 46.6). Receiving reports must meet the requirements of 32.905(c).

“Recovered material” means waste materials and by-products recovered or diverted from solid waste, but the term does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process. For use in Subpart 11.3 for paper and paper products, see the definition at 11.301.

“Renewable energy” means energy produced by solar, wind, geothermal, and biomass power.

“Renewable energy technology” means—

(1) Technologies that use renewable energy to provide light, heat, cooling, or mechanical or electrical energy for use in facilities or other activities; or

(2) The use of integrated whole-building designs that rely upon renewable energy resources, including passive solar design.

“Residual value” means the proceeds, less removal and disposal costs, if any, realized upon disposition of a tangible capital asset. It usually is measured by the net proceeds from the sale or other disposition of the asset, or its fair value if the asset is traded in on another asset. The estimated residual value is a current forecast of the residual value.

“Responsible audit agency” means the agency that is responsible for performing all required contract audit services at a business unit.

“Responsible prospective contractor” means a contractor that meets the standards in 9.104.

“Segment” means one of two or more divisions, product departments, plants, or other subdivisions of an organization reporting directly to a home office, usually identified with responsibility for profit and/or producing a product or service. The term includes—

(1) Government-owned contractor-operated (GOCO) facilities; and

(2) Joint ventures and subsidiaries (domestic and foreign) in which the organization has—

(i) A majority ownership; or

(ii) Less than a majority ownership, but over which it exercises control.

“Self-insurance” means the assumption or retention of the risk of loss by the contractor, whether voluntarily or involuntarily. Self-insurance includes the deductible portion of purchased insurance.

“Service-disabled veteran-owned small business concern”—

(1) Means a small business concern—

(i) Not less than 51 percent of which is owned by one or more service-disabled veterans or, in the case of any publicly owned business, not less than 51 percent of the stock of which is owned by one or more service-disabled veterans; and

(ii) The management and daily business operations of which are controlled by one or more service-disabled veterans or, in the case of a veteran with permanent and severe disability, the spouse or permanent caregiver of such veteran.

(2) Service-disabled veteran means a veteran, as defined in 38 U.S.C. 101(2), with a disability that is service-connected, as defined in 38 U.S.C. 101(16).

“Shall” means the imperative.

“Shipment” means freight transported or to be transported.

“Shop drawings” means drawings submitted by the construction contractor or a subcontractor at any tier or required under a construction contract, showing in detail either or both of the following:

(1) The proposed fabrication and assembly of structural elements.

(2) The installation (*i.e.*, form, fit, and attachment details) of materials or equipment.

“Should” means an expected course of action or policy that is to be followed unless inappropriate for a particular circumstance.

“Signature” or “signed” means the discrete, verifiable symbol of an individual that, when affixed to a writing with the knowledge and consent of the individual, indicates a present intention to authenticate the writing. This includes electronic symbols.

“Simplified acquisition procedures” means the methods prescribed in Part 13 for making purchases of supplies or services.

“Simplified acquisition threshold” means \$100,000. 44 U.S.C. 311(c).

“Single, Governmentwide point of entry,” means the one point of entry to be designated by the Administrator of OFPP that will allow the private sector to electronically access procurement opportunities Governmentwide.

“Small business subcontractor” means a concern, including affiliates, that for subcontracts valued at—

(1) \$10,000 or less, does not have more than 500 employees; and

(2) More than \$10,000, does not have employees or average annual receipts exceeding the size standard in 13 CFR part 121 (see 19.102) for the product or service it is providing on the subcontract.

“Small disadvantaged business concern” (except for 52.212-3(c)(2) and 52.219-1(b)(2) for general statistical purposes and 52.212-3(c)(7)(ii), 52.219-22(b)(2), and 52.219-23(a) for joint ventures under the price evaluation adjustment for small disadvantaged business concerns), means an offeror that represents, as part of its offer, that it is a small business under the size standard applicable to the acquisition; and either—

(1) It has received certification as a small disadvantaged business concern consistent with 13 CFR part 124, subpart B; and

(i) No material change in disadvantaged ownership and control has occurred since its certification;

(ii) Where the concern is owned by one or more disadvantaged individuals, the net worth of each individual upon whom the certification is based does not exceed \$750,000 after taking into account the applicable exclusions set forth at 13 CFR 124.104(c)(2); and

(iii) It is identified, on the date of its representation, as a certified small disadvantaged business concern in the data base maintained by the Small Business Administration (PRO-Net); or

(2) For a prime contractor, it has submitted a completed application to the Small Business Administration or a private certifier to be certified as a small disadvantaged business concern in accordance with 13 CFR part 124, subpart B, and a decision on that application is pending, and that no material change in disadvantaged ownership and control has occurred since it submitted its application. In this case, a contractor must receive certification as a small disadvantaged business by the Small Business Administration prior to contract award.

“Sole source acquisition” means a contract for the purchase of supplies or services that is entered into or proposed to be entered into by an agency after soliciting and negotiating with only one source.

“Solicitation” means any request to submit offers or quotations to the Government. Solicitations under sealed bid procedures are called “invitations for bids.” Solicitations under negotiated procedures are called “requests for proposals.” Solicitations under simplified acquisition procedures may require submission of either a quotation or an offer.

“Solicitation provision or provision” means a term or condition used only in solicitations and applying only before contract award.

“Source selection information” means any of the following information that is prepared for use by an agency for the purpose of evaluating a bid or proposal to enter into an agency procurement contract, if that information has not been previously made available to the public or disclosed publicly:

(1) Bid prices submitted in response to an agency invitation for bids, or lists of those bid prices before bid opening.

(2) Proposed costs or prices submitted in response to an agency solicitation, or lists of those proposed costs or prices.

(3) Source selection plans.

(4) Technical evaluation plans.

(5) Technical evaluations of proposals.

(6) Cost or price evaluations of proposals.

(7) Competitive range determinations that identify proposals that have a reasonable chance of being selected for award of a contract.

(8) Rankings of bids, proposals, or competitors.

(9) Reports and evaluations of source selection panels, boards, or advisory councils.

(10) Other information marked as “Source Selection Information—See MMAR 2.101 and 3.104” based on a case-by-case determination by the head of the agency or the contracting officer, that its disclosure would jeopardize the integrity or successful completion of the Federal agency procurement to which the information relates.

“Special competency” means a special or unique capability, including qualitative aspects, developed incidental to the primary functions of the Federally Funded Research and Development Centers to meet some special need.

“State and local taxes” means taxes levied by the States, the District of Columbia, Puerto Rico, possessions of the United States, or their political subdivisions.

“Substantial evidence” means information sufficient to support the reasonable belief that a particular act or omission has occurred.

“Substantially as follows” or “substantially the same as,” when used in the prescription and introductory text of a provision or clause, means that authorization is granted to prepare and utilize a variation of that provision or clause to accommodate requirements that are peculiar to an individual acquisition; provided that the variation includes the salient features of the MMAR provision or clause, and is not inconsistent with the intent, principle, and substance of the MMAR provision or clause or related coverage of the subject matter.

“Supplemental agreement” means a contract modification that is accomplished by the mutual action of the parties.

“Supplies” means all property except land or interest in land. It includes (but is not limited to) public works, buildings, and facilities; ships, floating equipment, and vessels of every character, type, and description, together with parts and accessories; aircraft and aircraft parts, accessories, and equipment; machine tools; and the alteration or installation of any of the foregoing.

“Surety” means an individual or corporation legally liable for the debt, default, or failure of a principal to satisfy a contractual obligation. The types of sureties referred to are as follows:

(1) An individual surety is one person, as distinguished from a business entity, who is liable for the entire penal amount of the bond.

(2) A corporate surety is licensed under various insurance laws and, under its charter, has legal power to act as surety for others.

(3) A cosurety is one of two or more sureties that are jointly liable for the penal sum of the bond. A limit of liability for each surety may be stated.

“Suspension” means action taken by a suspending official under GPO Instruction 110.11B, to disqualify a contractor temporarily from Government contracting and Government-approved subcontracting; a contractor that is disqualified is “suspended.”

“Task order” means an order for services placed against an established contract or with Government sources.

“Taxpayer Identification Number (TIN)” means the number required by the IRS to be used by the offeror in reporting income tax and other returns. The TIN may be either a Social Security Number or an Employer Identification Number.

“Termination for convenience” means the exercise of the Government’s right to completely or partially terminate performance of work under a contract when it is in the Government’s interest.

“Termination for default” means the exercise of the Government’s right to completely or partially terminate a contract because of the contractor’s actual or anticipated failure to perform its contractual obligations.

“Terminated portion of the contract” means the portion of a contract that the contractor is not to perform following a partial termination. For construction contracts that have been completely terminated for convenience, it means the entire contract, notwithstanding the completion of, and payment for, individual items of work before termination.

“Unallowable cost” means any cost that, under the provisions of any pertinent law, regulation, or contract, cannot be included in prices, cost-reimbursements, or settlements under a Government contract to which it is allocable.

“Unique and innovative concept,” when used relative to an unsolicited research proposal, means that—

(1) In the opinion of and to the knowledge of the Government evaluator, the meritorious proposal—

(i) Is the product of original thinking submitted confidentially by one source;

(ii) Contains new, novel, or changed concepts, approaches, or methods;

(iii) Was not submitted previously by another; and

(iv) Is not otherwise available within the Federal Government.

(2) In this context, the term does not mean that the source has the sole capability of performing the research.

“United States,” when used in a geographic sense, means the 50 States and the District of Columbia, except as follows:

(1) For use in Subpart 22.8, see the definition at 22.801.

(2) For use in Subpart 22.10, see the definition at 22.1001.

(3) For use in Subpart 22.13, see the definition at 22.1301.

(4) For use in Part 25, see the definition at 25.003.

(5) For use in Subpart 47.4, see the definition at 47.401.

“Unsolicited proposal” means a written proposal for a new or innovative idea that is submitted to an agency on the initiative of the offeror for the purpose of obtaining a contract with the Government, and that is not in response to a request for proposals, or any other Government-initiated solicitation or program.

“Value engineering” means an analysis of the functions of a program, project, system, product, item of equipment, building, facility, service, or supply of an executive agency, performed by qualified agency or contractor personnel, directed at improving performance, reliability, quality, safety, and life-cycle costs (Section 36 of the Office of Federal Procurement Policy Act, 41 U.S.C. 401, *et seq.*). For use in the clause at 52.248-2, see the definition at 52.248-2(b).

“Value engineering change proposal (VECP)”—

(1) Means a proposal that—

(i) Requires a change to the instant contract to implement; and

(ii) Results in reducing the overall projected cost to the agency without impairing essential functions or characteristics, provided, that it does not involve a change—

(A) In deliverable end item quantities only;

(B) In research and development (R&D) items or R&D test quantities that are due solely to results of previous testing under the instant contract; or

(C) To the contract type only.

(2) For use in the clauses at—

(i) 52.248-2, see the definition at 52.248-2(b); and

(ii) 52.248-3, see the definition at 52.248-3(b).

“Veteran-owned small business concern” means a small business concern—

(1) Not less than 51 percent of which is owned by one or more veterans (as defined at 38 U.S.C. 101(2)) or, in the case of any publicly owned business, not less than 51 percent of the stock of which is owned by one or more veterans; and

(2) The management and daily business operations of which are controlled by one or more veterans.

“Virgin material” means—

(1) Previously unused raw material, including previously unused copper, aluminum, lead, zinc, iron, other metal or metal ore; or

(2) Any undeveloped resource that is, or with new technology will become, a source of raw materials.

“Warranty” means a promise or affirmation given by a contractor to the Government regarding the nature, usefulness, or condition of the supplies or performance of services furnished under the contract.

“Waste reduction” means preventing or decreasing the amount of waste being generated through waste prevention, recycling, or purchasing recycled and environmentally preferable products.

“Women-owned small business concern” means a small business concern—

(1) That is at least 51 percent owned by one or more women; or, in the case of any publicly owned business, at least 51 percent of the stock of which is owned by one or more women; and

(2) Whose management and daily business operations are controlled by one or more women.

“Writing” or “written” (see “in writing”).

Subpart 2.2—Definitions Clause

2.201 Contract clause.

Insert the clause at 52.202-1, Definitions, in solicitations and contracts that exceed the simplified acquisition thresh-

old. If the contract is for personal services, construction, architect-engineer services, or dismantling, demolition, or removal of improvements, use the clause with its Alternate I. The contracting officer may include additional definitions, provided they are consistent with the clause and the MMAR.

This page intentionally left blank.

3.000 Scope of part.

This part prescribes policies and procedures for avoiding improper business practices and personal conflicts of interest and for dealing with their apparent or actual occurrence.

Subpart 3.1—Safeguards**3.101 Standards of conduct.****3.101-1 General.**

Government business shall be conducted in a manner above reproach and, except as authorized by statute or regulation, with complete impartiality and with preferential treatment for none. Transactions relating to the expenditure of public funds require the highest degree of public trust and an impeccable standard of conduct. The general rule is to avoid strictly any conflict of interest or even the appearance of a conflict of interest in Government-contractor relationships. While many Federal laws and regulations place restrictions on the actions of Government personnel, their official conduct must, in addition, be such that they would have no reluctance to make a full public disclosure of their actions.

3.101-2 Solicitation and acceptance of gratuities by Government personnel.

As a rule, no Government employee may solicit or accept, directly or indirectly, any gratuity, gift, favor, entertainment, loan, or anything of monetary value from anyone who (a) has or is seeking to obtain Government business with the employee's agency, (b) conducts activities that are regulated by the employee's agency, or (c) has interests that may be substantially affected by the performance or nonperformance of the employee's official duties. Certain limited exceptions are authorized in GPO Instruction 655.3A.

3.101-3 Agency regulations.

(a) GPO policies are contained in GPO Instruction 655.3A.

(b) Requirements for employee financial disclosure and restrictions on private employment for former Government employees are in Office of Personnel Management and agency regulations implementing Public Law 95-521, which amended 18 U.S.C. 207.

3.102 [Reserved]**3.103 Independent pricing.****3.103-1 Solicitation provision.**

The contracting officer shall insert the provision at 52.203-2, Certificate of Independent Price Determination, in solicitations when a firm-fixed-price contract or fixed-price

contract with economic price adjustment is contemplated, unless—

(a) The acquisition is to be made under the simplified acquisition procedures in Part 13;

(b) [Reserved]

(c) The solicitation is a request for technical proposals under two-step sealed bidding procedures; or

(d) The solicitation is for utility services for which rates are set by law or regulation.

3.103-2 Evaluating the certification.

(a) *Evaluation guidelines.* (1) None of the following, in and of itself, constitutes “disclosure” as it is used in paragraph (a)(2) of the Certificate of Independent Price Determination (hereafter, the certificate):

(i) The fact that a firm has published price lists, rates, or tariffs covering items being acquired by the Government.

(ii) The fact that a firm has informed prospective customers of proposed or pending publication of new or revised price lists for items being acquired by the Government.

(iii) The fact that a firm has sold the same items to commercial customers at the same prices being offered to the Government.

(2) For the purpose of paragraph (b)(2) of the certificate, an individual may use a blanket authorization to act as an agent for the person(s) responsible for determining the offered prices if—

(i) The proposed contract to which the certificate applies is clearly within the scope of the authorization; and

(ii) The person giving the authorization is the person within the offeror's organization who is responsible for determining the prices being offered at the time the certification is made in the particular offer.

(3) If an offer is submitted jointly by two or more concerns, the certification provided by the representative of each concern applies only to the activities of that concern.

(b) *Rejection of offers suspected of being collusive.* (1) If the offeror deleted or modified paragraph (a)(1) or (a)(3) or paragraph (b) of the certificate, the contracting officer shall reject the offeror's bid or proposal.

(2) If the offeror deleted or modified paragraph (a)(2) of the certificate, the offeror must have furnished with its offer a signed statement of the circumstances of the disclosure of prices contained in the bid or proposal. The chief of the contracting office shall review the altered certificate and the statement and shall determine, in writing, whether the disclosure was made for the purpose or had the effect of restricting competition. If the determination is positive, the bid or proposal shall be rejected; if it is negative, the bid or proposal shall be considered for award.

(3) Whenever an offer is rejected under paragraph (b)(1) or (b)(2) of this section, or the certificate is suspected of being false, the contracting officer shall report the situation to the Attorney General in accordance with 3.303.

(4) The determination made under paragraph (b)(2) of this section shall not prevent or inhibit the prosecution of any criminal or civil actions involving the occurrences or transactions to which the certificate relates.

3.103-3 The need for further certifications.

A contractor that properly executed the certificate before award does not have to submit a separate certificate with each proposal to perform a work order or similar ordering instrument issued pursuant to the terms of the contract, where the Government's requirements cannot be met from another source.

3.104 Procurement integrity.

3.104-1 Definitions.

As used in this section—

“Agency ethics official” means the GPO’s ethics officer described in GPO Notice 105-43 or other designated person.

“Compensation” means wages, salaries, honoraria, commissions, professional fees, and any other form of compensation, provided directly or indirectly for services rendered. Compensation is indirectly provided if it is paid to an entity other than the individual, specifically in exchange for services provided by the individual.

“Contractor bid or proposal information” means any of the following information submitted to the agency as part of or in connection with a bid or proposal to enter into an agency procurement contract, if that information has not been previously made available to the public or disclosed publicly:

(1) Cost or pricing data as defined by section 304A(h) of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 254b(h)), with respect to procurements subject to that section.

(2) Indirect costs and direct labor rates.

(3) Proprietary information about manufacturing processes, operations, or techniques marked by the contractor in accordance with applicable law or regulation.

(4) Information marked by the contractor as “contractor bid or proposal information” in accordance with applicable law or regulation.

(5) Information marked in accordance with 52.215-1(e).

“Decision to award a subcontract or modification of subcontract” means a decision to designate award to a particular source.

“Federal agency procurement” means the acquisition (by using competitive procedures and awarding a contract) of goods or services (including construction) from non-Federal

sources by a Federal agency using appropriated funds. For broad agency announcements and small business innovative research programs, each proposal received by an agency constitutes a separate procurement for purposes of the Act.

“In excess of \$10,000,000” means—

(1) The value, or estimated value, at the time of award, of the contract, including all options;

(2) The total estimated value at the time of award of all orders under an indefinite-delivery, indefinite-quantity, or requirements contract;

(3) Any multiple award schedule contract, unless the contracting officer documents a lower estimate;

(4) The value of a delivery order, task order, or an order under a Basic Ordering Agreement;

(5) The amount paid or to be paid in settlement of a claim; or

(6) The estimated monetary value of negotiated overhead or other rates when applied to the Government portion of the applicable allocation base.

“Official” means—

(1) An officer, as defined in 5 U.S.C. 2104;

(2) An employee, as defined in 5 U.S.C. 2105;

(3) A member of the uniformed services, as defined in 5 U.S.C. 2101(3); or

(4) A special Government employee, as defined in 18 U.S.C. 202.

“Participating personally and substantially in a Federal agency procurement” means—

(1) Active and significant involvement of an official in any of the following activities directly related to that procurement:

(i) Drafting, reviewing, or approving the specification or statement of work for the procurement.

(ii) Preparing or developing the solicitation.

(iii) Evaluating bids or proposals, or selecting a source.

(iv) Negotiating price or terms and conditions of the contract.

(v) Reviewing and approving the award of the contract.

(2) “Participating personally” means participating directly, and includes the direct and active supervision of a subordinate's participation in the matter.

(3) “Participating substantially” means that the official’s involvement is of significance to the matter. Substantial participation requires more than official responsibility, knowledge, perfunctory involvement, or involvement on an administrative or peripheral issue. Participation may be substantial even though it is not determinative of the outcome of a particular matter. A finding of substantiality should be based not only on the effort devoted to a matter, but on the importance of the effort. While a series of peripheral involvements may be insubstantial, the single act of approv-

ing or participating in a critical step may be substantial. However, the review of procurement documents solely to determine compliance with regulatory, administrative, or budgetary procedures, does not constitute substantial participation in a procurement.

(4) Generally, an official will not be considered to have participated personally and substantially in a procurement solely by participating in the following activities:

(i) Agency-level boards, panels, or other advisory committees that review program milestones or evaluate and make recommendations regarding alternative technologies or approaches for satisfying broad agency-level missions or objectives.

(ii) The performance of general, technical, engineering, or scientific effort having broad application not directly associated with a particular procurement, notwithstanding that such general, technical, engineering, or scientific effort subsequently may be incorporated into a particular procurement.

(iii) Clerical functions supporting the conduct of a particular procurement.

(iv) For procurements to be conducted under the procedures of OMB Circular A-76, participation in management studies, preparation of in-house cost estimates, preparation of “most efficient organization” analyses, and furnishing of data or technical support to be used by others in the development of performance standards, statements of work, or specifications.

“Source selection evaluation board” means any board, team, council, or other group that evaluates bids or proposals.

3.104-2 General.

(a) This section implements section 27 of the Office of Federal Procurement Policy Act (the Procurement Integrity Act) (41 U.S.C. 423) referred to as “the Act”). Agency supplementation of 3.104, including specific definitions to identify individuals who occupy positions specified in 3.104-3(d)(1)(ii), and any clauses required by 3.104 must be approved by the senior procurement executive of the agency, unless a law establishes a higher level of approval for that agency.

(b) Agency officials are reminded that there are other statutes and regulations that deal with the same or related prohibited conduct, for example—

(1) The offer or acceptance of a bribe or gratuity is prohibited by 18 U.S.C. 201. The acceptance of a gift, under certain circumstances, is prohibited by 5 U.S.C. 7353 and GPO Instruction 655.3A;

(2) Contacts with an offeror during the conduct of an acquisition may constitute “seeking employment,” (see 3.104-3(c)(2)). Government officers and employees (employees) are prohibited by 18 U.S.C. 208 from participating personally and substantially in any particular matter

that would affect the financial interests of any person with whom the employee is seeking employment. An employee who engages in negotiations or is otherwise seeking employment with an offeror or who has an arrangement concerning future employment with an offeror must comply with GPO Instruction 655.3A. The statutory prohibition in 18 U.S.C. 208 also may require an employee’s disqualification from participation in the acquisition even if the employee’s duties may not be considered “participating personally and substantially,” as this term is defined in 3.104-1;

(3) Post-employment restrictions are covered by 18 U.S.C. 207, that prohibit certain activities by former Government employees, including representation of a contractor before the Government in relation to any contract or other particular matter involving specific parties on which the former employee participated personally and substantially while employed by the Government. Additional restrictions apply to certain senior Government employees and for particular matters under an employee’s official responsibility;

(4) Parts 14 and 15 place restrictions on the release of information related to procurements and other contractor information that must be protected under 18 U.S.C. 1905;

(5) Release of information both before and after award (see 3.104-4) may be prohibited by the Privacy Act (5 U.S.C. 552a), the Trade Secrets Act (18 U.S.C. 1905), and other laws; and

(6) Using nonpublic information to further an employee’s private interest or that of another and engaging in a financial transaction using nonpublic information are prohibited by GPO Instruction 655.3A.

3.104-3 Statutory and related prohibitions, restrictions, and requirements.

(a) *Prohibition on disclosing procurement information (subsection 27(a) of the Act).* (1) A person described in paragraph (a)(2) of this subsection must not, other than as provided by law, knowingly disclose contractor bid or proposal information or source selection information before the award of a Federal agency procurement contract to which the information relates. (See 3.104-4(a).)

(2) Paragraph (a)(1) of this subsection applies to any person who—

(i) Is a present or former official of the United States, or a person who is acting or has acted for or on behalf of, or who is advising or has advised the United States with respect to, a Federal agency procurement; and

(ii) By virtue of that office, employment, or relationship, has or had access to contractor bid or proposal information or source selection information.

(b) *Prohibition on obtaining procurement information (subsection 27(b) of the Act).* A person must not, other than as provided by law, knowingly obtain contractor bid or proposal information or source selection information before the

award of a Federal agency procurement contract to which the information relates.

(c) *Actions required when an agency official contacts or is contacted by an offeror regarding non-Federal employment (subsection 27(c) of the Act).* (1) If an agency official, participating personally and substantially in a Federal agency procurement for a contract in excess of the simplified acquisition threshold, contacts or is contacted by a person who is an offeror in that Federal agency procurement regarding possible non-Federal employment for that official, the official must—

(i) Promptly report the contact in writing to the official's supervisor and to the agency ethics official; and

(ii) Either reject the possibility of non-Federal employment or disqualify himself or herself from further personal and substantial participation in that Federal agency procurement (see 3.104-5) until such time as the agency authorizes the official to resume participation in that procurement, in accordance with the requirements of 18 U.S.C. 208 and applicable agency regulations, because—

(A) The person is no longer an offeror in that Federal agency procurement; or

(B) All discussions with the offeror regarding possible non-Federal employment have terminated without an agreement or arrangement for employment.

(2) A contact is any of the actions included as “seeking employment” in 5 CFR 2635.603(b). In addition, unsolicited communications from offerors regarding possible employment are considered contacts.

(3) Agencies must retain reports of employment contacts for 2 years from the date the report was submitted.

(4) Conduct that complies with subsection 27(c) of the Act may be prohibited by other criminal statutes and the Standards of Ethical Conduct for Employees of the Executive Branch. See 3.104-2(b)(2).

(d) *Prohibition on former official's acceptance of compensation from a contractor (subsection 27(d) of the Act).* (1) A former official of a Federal agency may not accept compensation from a contractor that has been awarded a competitive or sole source contract, as an employee, officer, director, or consultant of the contractor within a period of 1 year after such former official—

(i) Served, at the time of selection of the contractor or the award of a contract to that contractor, as the procuring contracting officer, the source selection authority, a member of a source selection evaluation board, or the chief of a financial or technical evaluation team in a procurement in which that contractor was selected for award of a contract in excess of \$10,000,000;

(ii) Served as the program manager, deputy program manager, or administrative contracting officer for a contract in excess of \$10,000,000 awarded to that contractor; or

(iii) Personally made for the Federal agency a decision to—

(A) Award a contract, subcontract, modification of a contract or subcontract, or a task order or delivery order in excess of \$10,000,000 to that contractor;

(B) Establish overhead or other rates applicable to a contract or contracts for that contractor that are valued in excess of \$10,000,000;

(C) Approve issuance of a contract payment or payments in excess of \$10,000,000 to that contractor; or

(D) Pay or settle a claim in excess of \$10,000,000 with that contractor.

(2) The 1-year prohibition begins on the date—

(i) Of contract award for positions described in paragraph (d)(1)(i) of this subsection, or the date of contractor selection if the official was not serving in the position on the date of award;

(ii) The official last served in one of the positions described in paragraph (d)(1)(ii) of this subsection; or

(iii) The official made one of the decisions described in paragraph (d)(1)(iii) of this subsection.

(3) Nothing in paragraph (d)(1) of this subsection may be construed to prohibit a former official of a Federal agency from accepting compensation from any division or affiliate of a contractor that does not produce the same or similar products or services as the entity of the contractor that is responsible for the contract referred to in paragraph (d)(1) of this subsection.

3.104-4 Disclosure, protection, and marking of contractor bid or proposal information and source selection information.

(a) Except as specifically provided for in this subsection, no person or other entity may disclose contractor bid or proposal information or source selection information to any person other than a person authorized, in accordance with applicable agency regulations or procedures, by the agency head or the contracting officer to receive such information.

(b) Contractor bid or proposal information and source selection information must be protected from unauthorized disclosure in accordance with 14.401, 15.207, applicable law, and agency regulations.

(c) Individuals unsure if particular information is source selection information, as defined in 2.101, should consult with agency officials as necessary. Individuals responsible for preparing material that may be source selection information as described at paragraph (10) of the “source selection information” definition in 2.101 must mark the cover page and each page that the individual believes contains source selection information with the legend “*Source Selection Information—See MMAR 2.101 and 3.104.*” Although the information in paragraphs (1) through (9) of the definition in 2.101 is considered to be source selection information

whether or not marked, all reasonable efforts must be made to mark such material with the same legend.

(d) Except as provided in paragraph (d)(3) of this subsection, the contracting officer must notify the contractor in writing if the contracting officer believes that proprietary information, contractor bid or proposal information, or information marked in accordance with 52.215-1(e) has been inappropriately marked. The contractor that has affixed the marking must be given an opportunity to justify the marking.

(1) If the contractor agrees that the marking is not justified, or does not respond within the time specified in the notice, the contracting officer may remove the marking and release the information.

(2) If, after reviewing the contractor's justification, the contracting officer determines that the marking is not justified, the contracting officer must notify the contractor in writing before releasing the information.

(3) For technical data marked as proprietary by a contractor, the contracting officer must follow the procedures in 27.404(h).

(e) This section does not restrict or prohibit—

(1) A contractor from disclosing its own bid or proposal information or the recipient from receiving that information;

(2) The disclosure or receipt of information, not otherwise protected, relating to a Federal agency procurement after it has been canceled by the Federal agency, before contract award, unless the Federal agency plans to resume the procurement;

(3) Individual meetings between a Federal agency official and an offeror or potential offeror for, or a recipient of, a contract or subcontract under a Federal agency procurement, provided that unauthorized disclosure or receipt of contractor bid or proposal information or source selection information does not occur; or

(4) The Government's use of technical data in a manner consistent with the Government's rights in the data.

(f) This section does not authorize—

(1) The withholding of any information pursuant to a proper request from the Congress, any committee or subcommittee thereof, a Federal agency, the Comptroller General, or an Inspector General of a Federal agency, except as otherwise authorized by law or regulation. Any release containing contractor bid or proposal information or source selection information must clearly identify the information as contractor bid or proposal information or source selection information related to the conduct of a Federal agency procurement and notify the recipient that the disclosure of the information is restricted by section 27 of the Act;

(2) The withholding of information from, or restricting its receipt by, the Comptroller General in the course of a protest against the award or proposed award of a Federal agency procurement contract;

(3) The release of information after award of a contract or cancellation of a procurement if such information is contractor bid or proposal information or source selection information that pertains to another procurement; or

(4) The disclosure, solicitation, or receipt of bid or proposal information or source selection information after award if disclosure, solicitation, or receipt is prohibited by law. (See 3.104-2(b)(5) and Subpart 24.2.)

3.104-5 Disqualification.

(a) *Contacts through agents or other intermediaries.* Employment contacts between the employee and the offeror, that are conducted through agents, or other intermediaries, may require disqualification under 3.104-3(c)(1). These contacts may also require disqualification under other statutes and regulations. (See 3.104-2(b)(2).)

(b) *Disqualification notice.* In addition to submitting the contact report required by 3.104-3(c)(1), an agency official who must disqualify himself or herself pursuant to 3.104-3(c)(1)(ii) must promptly submit written notice of disqualification from further participation in the procurement to the contracting officer, the source selection authority if other than the contracting officer, and the agency official's immediate supervisor. As a minimum, the notice must—

(1) Identify the procurement;

(2) Describe the nature of the agency official's participation in the procurement and specify the approximate dates or time period of participation; and

(3) Identify the offeror and describe its interest in the procurement.

(c) *Resumption of participation in a procurement.* (1) The official must remain disqualified until such time as the agency, at its sole and exclusive discretion, authorizes the official to resume participation in the procurement in accordance with 3.104-3(c)(1)(ii).

(2) After the conditions of 3.104-3(c)(1)(ii)(A) or (B) have been met, the head of the contracting activity (HCA), after consultation with the agency ethics official, may authorize the disqualified official to resume participation in the procurement, or may determine that an additional disqualification period is necessary to protect the integrity of the procurement process. In determining the disqualification period, the HCA must consider any factors that create an appearance that the disqualified official acted without complete impartiality in the procurement. The HCA's reinstatement decision should be in writing.

(3) Government officer or employee must also comply with the provisions of GPO Instruction 655.3A regarding any resumed participation in a procurement matter. Government officer or employee may not be reinstated to participate in a procurement matter affecting the financial interest of

someone with whom the individual is seeking employment, unless the individual receives a waiver pursuant to GPO Instruction 655.3A; or an authorization in accordance with the requirements of GPO Instruction 655.3A.

3.104-6 Ethics advisory opinions regarding prohibitions on a former official's acceptance of compensation from a contractor.

(a) An official or former official of a Federal agency who does not know whether he or she is or would be precluded by subsection 27(d) of the Act (see 3.104-3(d)) from accepting compensation from a particular contractor may request advice from the appropriate agency ethics official before accepting such compensation.

(b) The request for an advisory opinion must be in writing, include all relevant information reasonably available to the official or former official, and be dated and signed. The request must include information about the—

(1) Procurement(s), or decision(s) on matters under 3.104-3(d)(1)(iii), involving the particular contractor, in which the individual was or is involved, including contract or solicitation numbers, dates of solicitation or award, a description of the supplies or services procured or to be procured, and contract amount;

(2) Individual's participation in the procurement or decision, including the dates or time periods of that participation, and the nature of the individual's duties, responsibilities, or actions; and

(3) Contractor, including a description of the products or services produced by the division or affiliate of the contractor from whom the individual proposes to accept compensation.

(c) Within 30 days after receipt of a request containing complete information, or as soon thereafter as practicable, the agency ethics official should issue an opinion on whether the proposed conduct would violate subsection 27(d) of the Act.

(d)(1) If complete information is not included in the request, the agency ethics official may ask the requester to provide more information or request information from other persons, including the source selection authority, the contracting officer, or the requester's immediate supervisor.

(2) In issuing an opinion, the agency ethics official may rely upon the accuracy of information furnished by the requester or other agency sources, unless he or she has reason to believe that the information is fraudulent, misleading, or otherwise incorrect.

(3) If the requester is advised in a written opinion by the agency ethics official that the requester may accept compensation from a particular contractor, and accepts such compensation in good faith reliance on that advisory opinion, then neither the requester nor the contractor will be found to have knowingly violated subsection 27(d) of the

Act. If the requester or the contractor has actual knowledge or reason to believe that the opinion is based upon fraudulent, misleading, or otherwise incorrect information, their reliance upon the opinion will not be deemed to be in good faith.

3.104-7 Violations or possible violations.

(a) A contracting officer who receives or obtains information of a violation or possible violation of subsection 27(a), (b), (c), or (d) of the Act (see 3.104-3) must determine if the reported violation or possible violation has any impact on the pending award or selection of the contractor.

(1) If the contracting officer concludes that there is no impact on the procurement, the contracting officer must forward the information concerning the violation or possible violation and documentation supporting a determination that there is no impact on the procurement to an individual designated in accordance with agency procedures.

(i) If that individual concurs, the contracting officer may proceed with the procurement.

(ii) If that individual does not concur, the individual must promptly forward the information and documentation to the HCA and advise the contracting officer to withhold award.

(2) If the contracting officer concludes that the violation or possible violation impacts the procurement, the contracting officer must promptly forward the information to the HCA.

(b) The HCA must review all information available and, in accordance with agency procedures, take appropriate action, such as—

(1) Advise the contracting officer to continue with the procurement;

(2) Begin an investigation;

(3) Refer the information disclosed to appropriate criminal investigative agencies;

(4) Conclude that a violation occurred; or

(5) Recommend that the agency head determine that the contractor, or someone acting for the contractor, has engaged in conduct constituting an offense punishable under subsection 27(e) of the Act, for the purpose of voiding or rescinding the contract.

(c) Before concluding that an offeror, contractor, or person has violated the Act, the HCA may consider that the interests of the Government are best served by requesting information from appropriate parties regarding the violation or possible violation.

(d) If the HCA concludes that section 27 of the Act has been violated, the HCA may direct the contracting officer to—

(1) If a contract has not been awarded—

(i) Cancel the procurement;

(ii) Disqualify an offeror; or

(iii) Take any other appropriate actions in the interests of the Government.

(2) If a contract has been awarded—

(i) Effect appropriate contractual remedies, including profit recapture under the clause at 52.203-10, Price or Fee Adjustment for Illegal or Improper Activity, or, if the contract has been rescinded under paragraph (d)(2)(ii) of this subsection, recovery of the amount expended under the contract;

(ii) Void or rescind the contract with respect to which—

(A) The contractor or someone acting for the contractor has been convicted for an offense where the conduct constitutes a violation of subsections 27(a) or (b) of the Act for the purpose of either—

(1) Exchanging the information covered by the subsections for anything of value; or

(2) Obtaining or giving anyone a competitive advantage in the award of a Federal agency procurement contract; or

(B) The agency head has determined, based upon a preponderance of the evidence, that the contractor or someone acting for the contractor has engaged in conduct constituting an offense punishable under subsection 27(e)(1) of the Act; or

(iii) Take any other appropriate actions in the best interests of the Government.

(3) Refer the matter to the agency suspending or debarring official.

(e) The HCA should recommend or direct an administrative or contractual remedy commensurate with the severity and effect of the violation.

(f) If the HCA determines that urgent and compelling circumstances justify an award, or award is otherwise in the interests of the Government, the HCA, in accordance with agency procedures, may authorize the contracting officer to

award the contract or execute the contract modification after notifying the agency head.

(g) The HCA may delegate his or her authority under this subsection to an individual at least one organizational level above the contracting officer.

3.104-8 Criminal and civil penalties, and further administrative remedies.

Criminal and civil penalties, and administrative remedies, may apply to conduct that violates the Act (see 3.104-3). See 33.102(f) for special rules regarding bid protests. See 3.104-7 for administrative remedies relating to contracts.

(a) An official who knowingly fails to comply with the requirements of 3.104-3 is subject to the penalties and administrative action set forth in subsection 27(e) of the Act.

(b) An offeror who engages in employment discussion with an official subject to the restrictions of 3.104-3, knowing that the official has not complied with 3.104-3(c)(1), is subject to the criminal, civil, or administrative penalties set forth in subsection 27(e) of the Act.

(c) An official who refuses to terminate employment discussions (see 3.104-5) may be subject to agency administrative actions under GPO Instruction 655.3A if the official's disqualification from participation in a particular procurement interferes substantially with the individual's ability to perform assigned duties.

3.104-9 Contract clauses.

In solicitations and contracts for other than commercial items that exceed the simplified acquisition threshold, insert the clauses at—

(a) 52.203-8, Cancellation, Rescission, and Recovery of Funds for Illegal or Improper Activity; and

(b) 52.203-10, Price or Fee Adjustment for Illegal or Improper Activity.

Subpart 3.2—Contractor Gratuities to Government Personnel

3.201 Applicability.

This subpart applies to all Materials Management components.

3.202 Contract clause.

The contracting officer shall insert the clause at 52.203-3, Gratuities, in solicitations and contracts with a value exceeding the simplified acquisition threshold.

3.203 Reporting suspected violations of the Gratuities clause.

Agency personnel shall report suspected violations of the Gratuities clause to the contracting officer or other designated official in accordance with agency procedures. The agency reporting procedures shall be published as an implementation of this section 3.203 and shall clearly specify—

- (a) What to report and how to report it; and
- (b) The channels through which reports must pass, including the function and authority of each official designated to review them.

3.204 Treatment of violations.

(a) Before taking any action against a contractor, the agency head or a designee shall determine, after notice and hearing under agency procedures, whether the contractor, its agent, or another representative, under a contract containing the Gratuities clause—

(1) Offered or gave a gratuity (*e.g.*, an entertainment or gift) to an officer, official, or employee of the Government; and

(2) Intended by the gratuity to obtain a contract or favorable treatment under a contract (intent generally must be inferred).

(b) Agency procedures shall afford the contractor an opportunity to appear with counsel, submit documentary evidence, present witnesses, and confront any person the agency presents. The procedures should be as informal as practicable, consistent with principles of fundamental fairness.

(c) When the agency head or designee determines that a violation has occurred, the Government may—

- (1) Terminate the contractor's right to proceed;
- (2) Initiate debarment or suspension measures as set forth in Subpart 9.4.

Subpart 3.3—Reports of Suspected Antitrust Violations

3.301 General.

(a) Practices that eliminate competition or restrain trade usually lead to excessive prices and may warrant criminal, civil, or administrative action against the participants. Examples of anticompetitive practices are collusive bidding, follow-the-leader pricing, rotated low bids, collusive price estimating systems, and sharing of the business.

(b) Contracting personnel are an important potential source of investigative leads for antitrust enforcement and should therefore be sensitive to indications of unlawful behavior by offerors and contractors. Agency personnel shall report, in accordance with agency regulations, evidence of suspected antitrust violations in acquisitions for possible referral to—

- (1) The Attorney General under 3.303; and
- (2) The agency office responsible for contractor debarment and suspension under Subpart 9.4.

3.302 Definitions.

As used in this subpart—

“Identical bids” means bids for the same line item that are determined to be identical as to unit price or total line item amount, with or without the application of evaluation factors (*e.g.*, discount or transportation cost).

“Line item” means an item of supply or service, specified in a solicitation, that the offeror must separately price.

3.303 Reporting suspected antitrust violations.

(a) MMS is required to report to the Attorney General any bids or proposals that evidence a violation of the antitrust laws. These reports are in addition to those required by Subpart 9.4.

(b) The antitrust laws are intended to ensure that markets operate competitively. Any agreement or mutual understanding among competing firms that restrains the natural operation of market forces is suspect. Paragraph (c) of this section identifies behavior patterns that are often associated with antitrust violations. Activities meeting the descriptions in paragraph (c) are not necessarily improper, but they are sufficiently questionable to warrant notifying the appropriate authorities, in accordance with agency procedures.

(c) Practices or events that may evidence violations of the antitrust laws include—

- (1) The existence of an “industry price list” or “price agreement” to which contractors refer in formulating their offers;

(2) A sudden change from competitive bidding to identical bidding;

(3) Simultaneous price increases or follow-the-leader pricing;

(4) Rotation of bids or proposals, so that each competitor takes a turn in sequence as low bidder, or so that certain competitors bid low only on some sizes of contracts and high on other sizes;

(5) Division of the market, so that certain competitors bid low only for contracts let by certain agencies, or for contracts in certain geographical areas, or on certain products, and bid high on all other jobs;

(6) Establishment by competitors of a collusive price estimating system;

(7) The filing of a joint bid by two or more competitors when at least one of the competitors has sufficient technical capability and productive capacity for contract performance;

(8) Any incidents suggesting direct collusion among competitors, such as the appearance of identical calculation or spelling errors in two or more competitive offers or the submission by one firm of offers for other firms; and

(9) Assertions by the employees, former employees, or competitors of offerors, that an agreement to restrain trade exists.

(d) Identical bids shall be reported under this section if the agency has some reason to believe that the bids resulted from collusion.

(e) For offers from foreign contractors for contracts to be performed outside the United States, contracting officers may refer suspected collusive offers to the authorities of the foreign government concerned for appropriate action.

(f) Agency reports shall be addressed to the—

Attorney General
 U.S. Department of Justice
 Washington DC 20530
 Attention: Assistant Attorney General
 Antitrust Division

and shall include—

(1) A brief statement describing the suspected practice and the reason for the suspicion; and

(2) The name, address, and telephone number of an individual in the agency who can be contacted for further information.

(g) Questions concerning this reporting requirement may be communicated by telephone directly to the Office of the Assistant Attorney General, Antitrust Division.

Subpart 3.4—Contingent Fees

3.400 Scope of subpart.

This subpart prescribes policies and procedures that restrict contingent fee arrangements for soliciting or obtaining Government contracts.

3.401 Definitions.

As used in this subpart—

“Bona fide agency” means an established commercial or selling agency, maintained by a contractor for the purpose of securing business, that neither exerts nor proposes to exert improper influence to solicit or obtain Government contracts nor holds itself out as being able to obtain any Government contract or contracts through improper influence.

“Bona fide employee” means a person, employed by a contractor and subject to the contractor’s supervision and control as to time, place, and manner of performance, who neither exerts nor proposes to exert improper influence to solicit or obtain Government contracts nor holds out as being able to obtain any Government contract or contracts through improper influence.

“Contingent fee” means any commission, percentage, brokerage, or other fee that is contingent upon the success that a person or concern has in securing a Government contract.

“Improper influence” means any influence that induces or tends to induce a Government employee or officer to give consideration or to act regarding a Government contract on any basis other than the merits of the matter.

3.402 Statutory requirements.

Contractors’ arrangements to pay contingent fees for soliciting or obtaining Government contracts have long been considered contrary to public policy because such arrangements may lead to attempted or actual exercise of improper influence. In 10 U.S.C. 2306(b) and 41 U.S.C. 254(a), Congress affirmed this public policy but permitted certain exceptions. These statutes—

- (a) Require in every negotiated contract a warranty by the contractor against contingent fees;
- (b) Permit, as an exception to the warranty, contingent fee arrangements between contractors and bona fide employees or bona fide agencies; and
- (c) Provide that, for breach or violation of the warranty by the contractor, the Government may annul the contract with-

out liability or deduct from the contract price or consideration, or otherwise recover, the full amount of the contingent fee.

3.403 Applicability.

This subpart applies to all contracts. Statutory requirements for negotiated contracts are, as a matter of policy, extended to sealed bid contracts.

3.404 Contract clause.

The contracting officer shall insert the clause at 52.203-5, Covenant Against Contingent Fees, in all solicitations and contracts exceeding the simplified acquisition threshold, other than those for commercial items (see Parts 2 and 12).

3.405 Misrepresentations or violations of the Covenant Against Contingent Fees.

(a) Government personnel who suspect or have evidence of attempted or actual exercise of improper influence, misrepresentation of a contingent fee arrangement, or other violation of the Covenant Against Contingent Fees shall report the matter promptly to the contracting officer or appropriate higher authority in accordance with agency procedures.

(b) When there is specific evidence or other reasonable basis to suspect one or more of the violations in paragraph (a) of this section, the chief of the contracting office shall review the facts and, if appropriate, take or direct one or more of the following, or other, actions:

- (1) If before award, reject the bid or proposal.
- (2) If after award, enforce the Government’s right to annul the contract or to recover the fee.
- (3) Initiate suspension or debarment action under Subpart 9.4.
- (4) Refer suspected fraudulent or criminal matters to the Department of Justice.

3.406 Records.

For enforcement purposes, agencies shall preserve any specific evidence of one or more of the violations in 3.405(a), together with all other pertinent data, including a record of actions taken. Contracting offices shall not retire or destroy these records until it is certain that they are no longer needed for enforcement purposes. If the original record is maintained in a central file, a copy must be retained in the contract file.

Subpart 3.5—Other Improper Business Practices

3.501 Buying-in.

3.501-1 Definition.

“Buying-in,” as used in this section, means submitting an offer below anticipated costs, expecting to—

- (1) Increase the contract amount after award (*e.g.*, through unnecessary or excessively priced change orders); or
- (2) Receive follow-on contracts at artificially high prices to recover losses incurred on the buy-in contract.

3.501-2 General.

(a) Buying-in may decrease competition or result in poor contract performance. The contracting officer must take appropriate action to ensure buying-in losses are not recovered by the contractor through the pricing of—

- (1) Change orders; or
- (2) Follow-on contracts subject to cost analysis.

(b) The Government should minimize the opportunity for buying-in by seeking a price commitment covering as much of the entire program concerned as is practical by using—

- (1) Multiyear contracting, with a requirement in the solicitation that a price be submitted only for the total multi-year quantity; or
- (2) Priced options for additional quantities that, together with the firm contract quantity, equal the program requirements (see Subpart 17.2).

(c) Other safeguards are available to the contracting officer to preclude recovery of buying-in losses (*e.g.*, amortization of nonrecurring costs (see 15.408, Table 15-2, paragraph A, column (2) under “Formats for Submission of Line Item Summaries”) and treatment of unreasonable price quotations (see 15.405).

3.502 Subcontractor kickbacks.

3.502-1 Definitions.

As used in this section—

“Kickback” means any money, fee, commission, credit, gift, gratuity, thing of value, or compensation of any kind which is provided, directly or indirectly, to any prime contractor, prime contractor employee, subcontractor, or subcontractor employee for the purpose of improperly obtaining or rewarding favorable treatment in connection with a prime contract or in connection with a subcontract relating to a prime contract.

“Person” means a corporation, partnership, business association of any kind, trust, joint-stock company, or individual.

“Prime contract” means a contract or contractual action entered into by the United States for the purpose of obtaining supplies, materials, equipment, or services of any kind.

“Prime Contractor” means a person who has entered into a prime contract with the United States.

“Prime Contractor employee” means any officer, partner, employee, or agent of a prime contractor.

“Subcontract” means a contract or contractual action entered into by a prime contractor or subcontractor for the purpose of obtaining supplies, materials, equipment, or services of any kind under a prime contract.

“Subcontractor” (1) means any person, other than the prime contractor, who offers to furnish or furnishes any supplies, materials, equipment, or services of any kind under a prime contract or a subcontract entered into in connection with such prime contract; and (2) includes any person who offers to furnish or furnishes general supplies to the prime contractor or a higher tier subcontractor.

3.502-2 Subcontractor kickbacks.

The Anti-Kickback Act of 1986 (41 U.S.C. 51-58) was passed to deter subcontractors from making payments and contractors from accepting payments for the purpose of improperly obtaining or rewarding favorable treatment in connection with a prime contract or a subcontract relating to a prime contract. The Act—

(a) Prohibits any person from—

(1) Providing, attempting to provide, or offering to provide any kickback;

(2) Soliciting, accepting, or attempting to accept any kickback; or

(3) Including, directly or indirectly, the amount of any kickback in the contract price charged by a subcontractor to a prime contractor or a higher tier subcontractor or in the contract price charged by a prime contractor to the United States.

(b) Imposes criminal penalties on any person who knowingly and willfully engages in the prohibited conduct addressed in paragraph (a) of this subsection.

(c) Provides for the recovery of civil penalties by the United States from any person who knowingly engages in such prohibited conduct and from any person whose employee, subcontractor, or subcontractor employee provides, accepts, or charges a kickback.

(d) Provides that—

(1) The contracting officer may offset the amount of a kickback against monies owed by the United States to the prime contractor under the prime contract to which such kickback relates;

(2) The contracting officer may direct a prime contractor to withhold from any sums owed to a subcontractor under a subcontract of the prime contract the amount of any kickback which was or may be offset against the prime contractor under paragraph (d)(1) of this subsection; and

(3) An offset under paragraph (d)(1) or a direction under paragraph (d)(2) of this subsection is a claim by the Government for the purposes of the Contract Disputes Act of 1978.

(e) Authorizes contracting officers to order that sums withheld under paragraph (d)(2) of this subsection be paid to the contracting agency, or if the sum has already been offset against the prime contractor, that it be retained by the prime contractor.

(f) Requires the prime contractor to notify the contracting officer when the withholding under paragraph (d)(2) of this subsection has been accomplished unless the amount withheld has been paid to the Government.

(g) Requires a prime contractor or subcontractor to report in writing to the inspector general of the contracting agency, the head of the contracting agency if the agency does not have an inspector general, or the Department of Justice any possible violation of the Act when the prime contractor or subcontractor has reasonable grounds to believe such violation may have occurred.

(h) Provides that, for the purpose of ascertaining whether there has been a violation of the Act with respect to any prime contract, the General Accounting Office and the inspector general of the contracting agency, or a representative of such contracting agency designated by the head of the agency if the agency does not have an inspector general, shall have access to and may inspect the facilities and audit the books and records, including any electronic data or records, of any prime contractor or subcontractor under a prime contract awarded by such agency.

(i) Requires each contracting agency to include in each prime contract exceeding \$100,000 for other than commercial items (see Part 12), a requirement that the prime contractor shall—

(1) Have in place and follow reasonable procedures designed to prevent and detect violations of the Act in its own operations and direct business relationships (*e.g.*, company ethics rules prohibiting kickbacks by employees, agents, or subcontractors; education programs for new employees and subcontractors, explaining policies about

kickbacks, related company procedures and the consequences of detection; procurement procedures to minimize the opportunity for kickbacks; audit procedures designed to detect kickbacks; periodic surveys of subcontractors to elicit information about kickbacks; procedures to report kickbacks to law enforcement officials; annual declarations by employees of gifts or gratuities received from subcontractors; annual employee declarations that they have violated no company ethics rules; personnel practices that document unethical or illegal behavior and make such information available to prospective employers); and

(2) Cooperate fully with any Federal agency investigating a possible violation of the Act.

(j) Notwithstanding paragraph (i) of this subsection, a prime contractor shall cooperate fully with any Federal government agency investigating a violation of Section 3 of the Anti-Kickback Act of 1986 (41 U.S.C. 51-58).

3.502-3 Contract clause.

The contracting officer shall insert the clause at 52.203-7, Anti-Kickback Procedures, in solicitations and contracts exceeding the simplified acquisition threshold, other than those for commercial items (see Part 12).

3.503 Unreasonable restrictions on subcontractor sales.

3.503-1 Policy.

Government policy requires that subcontractors not be unreasonably precluded from making direct sales to the Government of any supplies or services made or furnished under a contract. However, this does not preclude contractors from asserting rights that are otherwise authorized by law or regulation.

3.503-2 Contract clause.

The contracting officer shall insert the clause at 52.203-6, Restrictions on Subcontractor Sales to the Government, in solicitations and contracts exceeding the simplified acquisition threshold. For the acquisition of commercial items, the contracting officer shall use the clause with its Alternate I.

Subpart 3.6—Contracts with Government Employees or Organizations Owned or Controlled by Them

3.601 Policy.

(a) Except as specified in 3.602, a contracting officer shall not knowingly award a contract to a Government employee or to a business concern or other organization owned or substantially owned or controlled by one or more Government employees. This policy is intended to avoid any conflict of interest that might arise between the employees' interests and their Government duties, and to avoid the appearance of favoritism or preferential treatment by the Government toward its employees.

(b) For purposes of this subpart, special Government employees (as defined in 18 U.S.C. 202) performing services as experts, advisors, or consultants, or as members of advisory committees, are not considered Government employees unless—

(1) The contract arises directly out of the individual's activity as a special Government employee;

(2) In the individual's capacity as a special Government employee, the individual is in a position to influence the award of the contract; or

(3) Another conflict of interest is determined to exist.

3.602 Exceptions.

The agency head, or a designee not below the level of the head of the contracting activity, may authorize an exception to the policy in 3.601 only if there is a most compelling reason to do so, such as when the Government's needs cannot reasonably be otherwise met.

3.603 Responsibilities of the contracting officer.

(a) Before awarding a contract, the contracting officer shall obtain an authorization under 3.602 if—

(1) The contracting officer knows, or has reason to believe, that a prospective contractor is one to which award is otherwise prohibited under 3.601; and

(2) There is a most compelling reason to make an award to that prospective contractor.

(b) The contracting officer shall comply with the requirements and guidance in Subpart 9.5 before awarding a contract to an organization owned or substantially owned or controlled by Government employees.

Subpart 3.7—Voiding and Rescinding Contracts

3.700 Scope of subpart.

(a) This subpart prescribes Governmentwide policies and procedures for exercising discretionary authority to declare void and rescind contracts in relation to which—

(1) There has been a final conviction for bribery, conflict of interest, disclosure or receipt of contractor bid or proposal information or source selection information in exchange for a thing of value or to give anyone a competitive advantage in the award of a Federal agency procurement contract, or similar misconduct; or

(2) There has been an agency head determination that contractor bid or proposal information or source selection information has been disclosed or received in exchange for a thing of value, or for the purpose of obtaining or giving anyone a competitive advantage in the award of a Federal agency procurement contract.

(b) This subpart does not prescribe policies or procedures for, or govern the exercise of, any other remedy available to the Government with respect to such contracts, including but not limited to, the common law right of avoidance, rescission, or cancellation.

3.701 Purpose.

This subpart provides—

(a) An administrative remedy with respect to contracts in relation to which there has been—

(1) A final conviction for bribery, conflict of interest, disclosure or receipt of contractor bid or proposal information or source selection information in exchange for a thing of value or to give anyone a competitive advantage in the award of a Federal agency procurement contract, or similar misconduct; or

(2) An agency head determination that contractor bid or proposal information or source selection information has been disclosed or received in exchange for a thing of value, or for the purpose of obtaining or giving anyone a competitive advantage in the award of a Federal agency procurement contract; and

(b) A means to deter similar misconduct in the future by those who are involved in the award, performance, and administration of Government contracts.

3.702 Definition.

“Final conviction” means a conviction, whether entered on a verdict or plea, including a plea of *nolo contendere*, for which a sentence has been imposed.

3.703 Authority.

(a) Section 1(e) of Public Law 87-849, 18 U.S.C. 218 (“the Act”), empowers the President or the heads of execu-

tive agencies acting under regulations prescribed by the President, to declare void and rescind contracts and other transactions enumerated in the Act, in relation to which there has been a final conviction for bribery, conflict of interest, or any other violation of Chapter 11 of Title 18 of the United States Code (18 U.S.C. 201-224). Executive Order 12448, November 4, 1983, delegates the President’s authority under the Act to the heads of the executive agencies and military departments.

(b) Subsection 27(e)(3) of the Office of Federal Procurement Policy Act (41 U.S.C. 423) (the OFPP Act), as amended, requires a Federal agency, upon receiving information that a contractor or a person has engaged in conduct constituting a violation of subsection 27(a) or (b) of the OFPP Act, to consider rescission of a contract with respect to which—

(1) The contractor or someone acting for the contractor has been convicted for an offense punishable under subsection 27(e)(1) of the OFPP Act; or

(2) The head of the agency, or designee, has determined, based upon a preponderance of the evidence, that the contractor or someone acting for the contractor has engaged in conduct constituting such an offense.

3.704 Policy.

(a) In cases in which there is a final conviction for any violation of 18 U.S.C. 201-224 involving or relating to contracts awarded by an agency, the agency head or designee, shall consider the facts available and, if appropriate, may declare void and rescind contracts, and recover the amounts expended and property transferred by the agency in accordance with the policies and procedures of this subpart.

(b) Since a final conviction under 18 U.S.C. 201-224 relating to a contract also may justify the conclusion that the party involved is not presently responsible, the agency should consider initiating debarment proceedings in accordance with Subpart 9.4, Debarment, Suspension, and Ineligibility, if debarment has not been initiated, or is not in effect at the time the final conviction is entered.

(c) If there is a final conviction for an offense punishable under subsection 27(e) of the OFPP Act, or if the head of the agency, or designee, has determined, based upon a preponderance of the evidence, that the contractor or someone acting for the contractor has engaged in conduct constituting such an offense, then the head of the contracting activity shall consider, in addition to any other penalty prescribed by law or regulation—

(1) Declaring void and rescinding contracts, as appropriate, and recovering the amounts expended under the contracts by using the procedures at 3.705 (see 3.104-7); and

(2) Recommending the initiation of suspension or debarment proceedings in accordance with Subpart 9.4.

3.705 Procedures.

(a) *Reporting.* The facts concerning any final conviction for any violation of 18 U.S.C. 201-224 involving or relating to agency contracts shall be reported promptly to the agency head or designee for that official's consideration. The agency head or designee shall promptly notify the Civil Division, Department of Justice, that the action is being considered under this subpart.

(b) *Decision.* Following an assessment of the facts, the agency head or designee may declare void and rescind contracts with respect to which a final conviction has been entered, and recover the amounts expended and the property transferred by the agency under the terms of the contracts involved.

(c) *Decision-making process.* Agency procedures governing the voiding and rescinding decision-making process shall be as informal as practicable, consistent with the principles of fundamental fairness. As a minimum, however, agencies shall provide the following:

(1) A notice of proposed action to declare void and rescind the contract shall be made in writing and sent by certified mail, return receipt requested.

(2) A thirty calendar day period after receipt of the notice, for the contractor to submit pertinent information before any final decision is made.

(3) Upon request made within the period for submission of pertinent information, an opportunity shall be afforded for a hearing at which witnesses may be presented, and any witness the agency presents may be confronted. However, no inquiry shall be made regarding the validity of a conviction.

(4) If the agency head or designee decides to declare void and rescind the contracts involved, that official shall issue a written decision which—

(i) States that determination;

(ii) Reflects consideration of the fair value of any tangible benefits received and retained by the agency; and

(iii) States the amount due and the property to be returned to the agency.

(d) *Notice of proposed action.* The notice of proposed action, as a minimum shall—

(1) Advise that consideration is being given to declaring void and rescinding contracts awarded by the agency, and recovering the amounts expended and property transferred therefor, under the provisions of 18 U.S.C. 218;

(2) Specifically identify the contracts affected by the action;

(3) Specifically identify the offense or final conviction on which the action is based;

(4) State the amounts expended and property transferred under each of the contracts involved, and the money and the property demanded to be returned;

(5) Identify any tangible benefits received and retained by the agency under the contract, and the value of those benefits, as calculated by the agency;

(6) Advise that pertinent information may be submitted within 30 calendar days after receipt of the notice, and that, if requested within that time, a hearing shall be held at which witnesses may be presented and any witness the agency presents may be confronted; and

(7) Advise that action shall be taken only after the agency head or designee issues a final written decision on the proposed action.

(e) *Final agency decision.* The final agency decision shall be based on the information available to the agency head or designee, including any pertinent information submitted or, if a hearing was held, presented at the hearing. If the agency decision declares void and rescinds the contract, the final decision shall specify the amounts due and property to be returned to the agency, and reflect consideration of the fair value of any tangible benefits received and retained by the agency. Notice of the decision shall be sent promptly by certified mail, return receipt requested. Rescission of contracts under the authority of the Act and demand for recovery of the amounts expended and property transferred therefor, is not a claim within the meaning of the Disputes Clause 52.233-1. Therefore, the procedures required by the Disputes Clause and the MMAR for the issuance of a final contracting officer decision are not applicable to final agency decisions under this subpart, and shall not be followed.

This page intentionally left blank.

4.000 Scope of part.

This part prescribes policies and procedures relating to the administrative aspects of contract execution, contractor-submitted paper documents, distribution, reporting, retention, and files.

Subpart 4.1—Contract Execution**4.101 Contracting officer's signature.**

Only contracting officers shall sign contracts on behalf of the United States. The contracting officer's name and official title shall be typed, stamped, or printed on the contract. The contracting officer normally signs the contract after it has been signed by the contractor. The contracting officer shall ensure that the signer(s) have authority to bind the contractor (see specific requirements in 4.102 of this subpart).

4.102 Contractor's signature.

(a) *Individuals.* A contract with an individual shall be signed by that individual. A contract with an individual doing business as a firm shall be signed by that individual, and the signature shall be followed by the individual's typed, stamped, or printed name and the words, "an individual doing business as _____" [*insert name of firm*].

(b) *Partnerships.* A contract with a partnership shall be signed in the partnership name. Before signing for the Government, the contracting officer shall obtain a list of all partners and ensure that the individual(s) signing for the partnership have authority to bind the partnership.

(c) *Corporations.* A contract with a corporation shall be signed in the corporate name, followed by the word "by" and the signature and title of the person authorized to sign. The contracting officer shall ensure that the person signing for the corporation has authority to bind the corporation.

(d) *Joint venturers.* A contract with joint venturers may involve any combination of individuals, partnerships, or corporations. The contract shall be signed by each participant in the joint venture in the manner prescribed in paragraphs (a) through (c) of this section for each type of participant. When a corporation is participating, the contracting officer shall verify that the corporation is authorized to participate in the joint venture.

(e) *Agents.* When an agent is to sign the contract, other than as stated in paragraphs (a) through (d) of this section, the agent's authorization to bind the principal must be established by evidence satisfactory to the contracting officer.

4.103 Contract clause.

The contracting officer shall insert the clause at 52.204-1, Approval of Contract, in solicitations and contracts if required by agency procedures.

4.104 JCP Approval Requirement.

Pursuant to a Joint Committee on Printing (JCP) resolution approved April 9, 1987, the Public Printer is required to submit annually an annual plan, consisting of a capital equipment budget, together with a detailed description and justification for the execution of any interagency agreements to the JCP. After approval of any annual plan, the Public Printer is prohibited from entering into any purchase, contract, lease, or rental where the cost exceeds \$50,000, or any interagency agreement (see part 17.5) where the cost exceeds \$20,000 annually, which are not included in the annual plan, without advance written approval by the JCP. This requirement does not apply to the procurement of paper and envelopes.

Subpart 4.2—Contract Distribution

4.201 Procedures.

Contracting officers shall distribute copies of contracts or modifications within 10 working days after execution by all parties. As a minimum, the contracting officer shall—

(a) Distribute simultaneously one signed copy or reproduction of the signed contract to the contractor and the paying office;

(b) When a contract is assigned to another office for contract administration (see Subpart 42.2), provide to that office—

(1) One copy or reproduction of the signed contract and of each modification; and

(2) A copy of the contract distribution list, showing those offices that should receive copies of modifications, and any changes to the list as they occur;

(c) Distribute one copy to each accounting and finance office (funding office) whose funds are cited in the contract;

(d) When the contract is not assigned for administration but contains a Cost Accounting Standards clause, provide one copy of the contract to the cognizant administrative contracting officer and mark the copy “*For Cost Accounting Standards Administration Only*” (see 30.601(b));

(e) Provide copies of contracts and modifications to those organizations required to perform contract administration support functions (*e.g.*, when manufacturing is performed at multiple sites, the contract administration office cognizant of each location).

4.202 Distribution requirements.

Materials Management Service shall limit additional distribution requirements to the minimum necessary for proper performance of essential functions. When contracts are assigned for administration to a contract administration office located in an agency different from that of the contracting office (see Part 42), the two agencies shall agree on any necessary distribution in addition to that prescribed in 4.201.

4.203 Taxpayer identification information.

(a) If the contractor has furnished a Taxpayer Identification Number (TIN) when completing the solicitation provi-

sion at 52.204-3, Taxpayer Identification, or paragraph (b) of the solicitation provision at 52.212-3, Offeror Representations and Certifications—Commercial Items, the contracting officer shall, unless otherwise provided in agency procedures, attach a copy of the completed solicitation provision as the last page of the copy of the contract sent to the payment office.

(b) If the TIN or type of organization is derived from a source other than the provision at 52.204-3 or 52.212-3(b), the contracting officer shall annotate the last page of the contract or order forwarded to the payment office to state the contractor’s TIN and type of organization, unless this information is otherwise provided to the payment office in accordance with agency procedures.

(c) If the contractor provides its TIN or type of organization to the contracting officer after award, the contracting officer shall forward the information to the payment office within 7 days of its receipt.

(d) *Federal Supply Schedule contracts.* Each contracting officer that places an order under a Federal Supply Schedule contract (see Subpart 8.4) shall provide the TIN and type of organization information to the payment office in accordance with paragraph (b) of this section.

(e) *Basic ordering agreements and indefinite-delivery contracts (other than Federal Supply Schedule contracts).*

(1) Each contracting officer that issues a basic ordering agreement or indefinite-delivery contract (other than a Federal Supply Schedule contract) shall provide to contracting officers placing orders under the agreement or contract—

(i) A copy of the agreement or contract with a copy of the completed solicitation provision at 52.204-3 or 52.212-3(b) as the last page of the agreement or contract; or

(ii) The contractor’s TIN and type of organization information.

(2) Each contracting officer that places an order under a basic ordering agreement or indefinite-delivery contract (other than a Federal Supply Schedule contract) shall provide the TIN and type of organization information to the payment office in accordance with paragraph (a) or (b) of this section.

Subpart 4.3—Paper Documents**4.300 Scope of subpart.**

This subpart provides policies and procedures on contractor-submitted paper documents.

4.301 Definition.

“Printed or copied double-sided,” as used in this subpart, means printing or reproducing a document so that information is on both sides of a sheet of paper.

4.302 Policy.

When electronic commerce methods (see 4.502) are not being used, a contractor should submit paper documents to the Government relating to an acquisition printed or copied double-sided on recycled paper whenever practicable. If the contractor cannot print or copy double-sided, it should print or copy single-sided on recycled paper.

4.303 Contract clause.

Insert the clause at 52.204-4, Printed or Copied Double-Sided on Recycled Paper, in solicitations and contracts that exceed the simplified acquisition threshold.

Subpart 4.4—Safeguarding Classified Information Within Industry

4.401 [Reserved]

4.402 General.

(a) Executive Order 12829, January 6, 1993 (58 FR 3479, January 8, 1993), entitled “National Industrial Security Program” (NISP), establishes a program to safeguard Federal Government classified information that is released to contractors, licensees, and grantees of the United States Government. Executive Order 12829 amends Executive Order 10865, February 20, 1960 (25 FR 1583, February 25, 1960), entitled “Safeguarding Classified Information Within Industry,” as amended by Executive Order 10909, January 17, 1961 (26 FR 508, January 20, 1961).

(b) The National Industrial Security Program Operating Manual (NISPOM) incorporates the requirements of these Executive orders. The Secretary of Defense, in consultation with all affected agencies and with the concurrence of the Secretary of Energy, the Chairman of the Nuclear Regulatory Commission, and the Director of Central Intelligence, is responsible for issuance and maintenance of this Manual. The following DOD publications implement the program:

(1) National Industrial Security Program Operating Manual (NISPOM) (DOD 5220.22-M).

(2) Industrial Security Regulation (ISR) (DOD 5220.22-R).

(c) Procedures for the protection of information relating to foreign classified contracts awarded to U.S. industry, and instructions for the protection of U.S. information relating to classified contracts awarded to foreign firms, are prescribed in Chapter 10 of the NISPOM.

(d) Part 27—Patents, Data, and Copyrights, contains policy and procedures for safeguarding classified information in patent applications and patents.

4.403 Responsibilities of contracting officers.

(a) *Presolicitation phase.* Contracting officers shall review all proposed solicitations to determine whether access to classified information may be required by offerors, or by a contractor during contract performance.

(1) If access to classified information of another agency may be required, the contracting officer shall—

(i) Determine if the agency is covered by the NISP; and

(ii) Follow that agency’s procedures for determining the security clearances of firms to be solicited.

(2) If the classified information required is from the contracting officer’s agency, the contracting officer shall follow agency procedures.

(b) *Solicitation phase.* Contracting officers shall—

(1) Ensure that the classified acquisition is conducted as required by the NISP or agency procedures, as appropriate; and

(2) Include—

(i) An appropriate Security Requirements clause in the solicitation (see 4.404); and

(ii) As appropriate, in solicitations and contracts when the contract may require access to classified information, a requirement for security safeguards in addition to those provided in the clause (52.204-2, Security Requirements).

(c) *Award phase.* Contracting officers shall inform contractors and subcontractors of the security classifications and requirements assigned to the various documents, materials, tasks, subcontracts, and components of the classified contract as follows:

(1) Agencies covered by the NISP shall use the Contract Security Classification Specification, DD Form 254. The contracting officer, or authorized representative, is the approving official for the form and shall ensure that it is prepared and distributed in accordance with the ISR.

(2) Contracting officers in agencies not covered by the NISP shall follow agency procedures.

4.404 Contract clause.

(a) The contracting officer shall insert the clause at 52.204-2, Security Requirements, in solicitations and contracts when the contract may require access to classified information, unless the conditions specified in paragraph (d) of this section apply.

(b) If a cost contract (see 16.302) for research and development with an educational institution is contemplated, the contracting officer shall use the clause with its Alternate I.

(c) If a construction or architect-engineer contract where employee identification is required for security reasons is contemplated, the contracting officer shall use the clause with its Alternate II.

(d) If the contracting agency is not covered by the NISP and has prescribed a clause and alternates that are substantially the same as those at 52.204-2, the contracting officer shall use the agency-prescribed clause as required by agency procedures.

Subpart 4.5—Electronic Commerce in Contracting

4.500 Scope of subpart.

This subpart provides policy and procedures for the establishment and use of electronic commerce in Materials Management acquisition.

4.501 [Reserved]

4.502 Policy.

(a) The Federal Government shall use electronic commerce whenever practicable or cost-effective. The use of terms commonly associated with paper transactions (*e.g.*, “copy,” “document,” “page,” “printed,” “sealed envelope,” and “stamped”) shall not be interpreted to restrict the use of electronic commerce. Contracting officers may supplement electronic transactions by using other media to meet the requirements of any contract action governed by the MMAR (*e.g.*, transmit hard copy of drawings).

(b) Agencies may exercise broad discretion in selecting the hardware and software that will be used in conducting electronic commerce. However, the Director, MMS shall ensure that systems, technologies, procedures, and processes

used by the Materials Management Service to conduct electronic commerce—

(1) Are implemented uniformly throughout MMS, to the maximum extent practicable;

(2) Are implemented only after considering the full or partial use of existing infrastructures;

(3) Facilitate access to Government acquisition opportunities by small business concerns, small disadvantaged business concerns, and women-owned small business concerns;

(4) Include a single means of providing widespread public notice of acquisition opportunities and a means of responding to notices or solicitations electronically; and

(5) Comply with nationally and internationally recognized standards that broaden interoperability and ease the electronic interchange of information, such as standards established by the National Institute of Standards and Technology.

(c) Before using electronic commerce, the Director, Materials Management Service, shall ensure that the agency systems are capable of ensuring authentication and confidentiality commensurate with the risk and magnitude of the harm from loss, misuse, or unauthorized access to or modification of the information.

Subpart 4.6—Contract Reporting

4.600 Scope of subpart.

This subpart prescribes uniform reporting requirements for the Federal Procurement Data System (FPDS).

4.601 Record requirements.

(a) Materials Management Service shall establish and maintain for a period of 5 years a computer file, by fiscal year, containing unclassified records of all procurements exceeding \$25,000.

(b) With respect to each procurement carried out using competitive procedures, Materials Management Service shall be able to access from the computer file, as a minimum, the following information:

- (1) The date of contract award.
- (2) Information identifying the source to whom the contract was awarded.
- (3) The property or services obtained by the Government under the procurement.
- (4) The total cost of the procurement.
- (5) Those procurements which result in the submission of a single bid or proposal so that they can be separately categorized and designated noncompetitive procurements using competitive procedures.

(c) In addition to paragraph (b) of this section with respect to each procurement carried out using procedures other than competitive procedures, Materials Management Service shall be able to access from the computer file—

- (1) The reason under Subpart 6.3 for the use of such procedures; and
- (2) The identity of the organization or activity which conducted the procurement.

(d) In addition to the information described in paragraphs (b) and (c) of this section, for procurements in excess of \$25,000, Materials Management Service shall be able to access information on the following from the computer file:

- (1) Awards to small disadvantaged businesses using either set-asides or full and open competition.
- (2) Awards to business concerns owned and controlled by women.
- (3) The number of offers received in response to a solicitation.
- (4) Task or delivery order contracts.
- (5) Contracts for the acquisition of commercial items.

4.602 [Reserved]

4.603 Solicitation provisions.

(a)(1) The contracting officer shall insert the provision at 52.204-6, Data Universal Numbering System (DUNS) Number, in solicitations that are expected to result in a requirement for the generation of an SF 279, Federal Procurement Data System (FPDS)—Individual Contract Action Report (see 4.602(c)), or a similar agency form.

(2) For offerors located outside the United States, the contracting officer may modify paragraph (c) of the provision at 52.204-6 to provide the correct phone numbers for the Dun & Bradstreet offices in the areas from which offerors are anticipated to respond.

(b) The contracting officer shall insert the provision at 52.204-5, Women-Owned Business (Other Than Small Business), in all solicitations that are not set aside for small business concerns and that exceed the simplified acquisition threshold, if the contract is to be performed inside the United States, its territories or possessions, Puerto Rico, the Trust Territory of the Pacific Islands, or the District of Columbia.

Subpart 4.7—Contractor Records Retention

4.700 Scope of subpart.

This subpart provides policies and procedures for retention of records by contractors to meet the records review requirements of the Government. In this subpart, the terms “contracts” and “contractors” include “subcontracts” and “subcontractors.”

4.701 Purpose.

The purpose of this subpart is to generally describe records retention requirements and to allow reductions in the retention period for specific classes of records under prescribed circumstances.

4.702 Applicability.

(a) This subpart applies to records generated under contracts that contain one of the following clauses:

- (1) Audit and Records—Sealed Bidding (52.214-26).
- (2) Audit and Records—Negotiation (52.215-2).

4.703 Policy.

(a) Except as stated in 4.703(b), contractors shall make available records, which includes books, documents, accounting procedures and practices, and other data, regardless of type and regardless of whether such items are in written form, in the form of computer data, or in any other form, and other supporting evidence to satisfy contract negotiation, administration, and audit requirements of the contracting agencies and the Comptroller General for—

- (1) 3 years after final payment or, for certain records;
- (2) The period specified in 4.705 through 4.705-3, whichever of these periods expires first.

(b) Contractors shall make available the foregoing records and supporting evidence for a longer period of time than is required in 4.703(a) if—

- (1) A retention period longer than that cited in 4.703(a) is specified in any contract clause; or
- (2) The contractor, for its own purposes, retains the foregoing records and supporting evidence for a longer period. Under this circumstance, the retention period shall be the period of the contractor’s retention or 3 years after final payment, whichever period expires first.

(3) The contractor does not meet the original due date for submission of final indirect cost rate proposals specified in paragraph (d)(2) of the clause at 52.216-7, Allowable Cost and Payment, and paragraph (c)(2) of the clause at 52.216-13, Allowable Cost and Payment—Facilities. Under these circumstances, the retention periods in 4.705 shall be automatically extended one day for each day the proposal is not submitted after the original due date.

(c) Nothing in this section shall be construed to preclude a contractor from duplicating or storing original records in

electronic form unless they contain significant information not shown on the record copy. Original records need not be maintained or produced in an audit if the contractor or subcontractor provides photographic or electronic images of the original records and meets the following requirements:

(1) The contractor or subcontractor has established procedures to ensure that the imaging process preserves accurate images of the original records, including signatures and other written or graphic images, and that the imaging process is reliable and secure so as to maintain the integrity of the records.

(2) The contractor or subcontractor maintains an effective indexing system to permit timely and convenient access to the imaged records.

(3) The contractor or subcontractor retains the original records for a minimum of one year after imaging to permit periodic validation of the imaging systems.

(d) If the information described in paragraph (a) of this section is maintained on a computer, contractors shall retain the computer data on a reliable medium for the time periods prescribed. Contractors may transfer computer data in machine readable form from one reliable computer medium to another. Contractors’ computer data retention and transfer procedures shall maintain the integrity, reliability, and security of the original computer data. Contractors shall also retain an audit trail describing the data transfer. For the record retention time periods prescribed, contractors shall not destroy, discard, delete, or write over such computer data.

4.704 Calculation of retention periods.

(a) The retention periods in 4.705 are calculated from the end of the contractor’s fiscal year in which an entry is made charging or allocating a cost to a Government contract or subcontract. If a specific record contains a series of entries, the retention period is calculated from the end of the contractor’s fiscal year in which the final entry is made. The contractor should cut off the records in annual blocks and retain them for block disposal under the prescribed retention periods.

(b) When records generated during a prior contract are relied upon by a contractor for cost or pricing data in negotiating a succeeding contract, the prescribed periods shall run from the date of the succeeding contract.

(c) If two or more of the record categories described in 4.705 are interfiled and screening for disposal is not practical, the contractor shall retain the entire record series for the longest period prescribed for any category of records.

4.705 Specific retention periods.

The contractor shall retain the records identified in 4.705-1 through 4.705-3 for the periods designated, provided retention is required under 4.702. Records are identified in this

subpart in terms of their purpose or use and not by specific name or form number. Although the descriptive identifications may not conform to normal contractor usage or filing practices, these identifications apply to all contractor records that come within the description.

4.705-1 Financial and cost accounting records.

(a) Accounts receivable invoices, adjustments to the accounts, invoice registers, carrier freight bills, shipping orders, and other documents which detail the material or services billed on the related invoices: Retain 4 years.

(b) Material, work order, or service order files, consisting of purchase requisitions or purchase orders for material or services, or orders for transfer of material or supplies: Retain 4 years.

(c) Cash advance recapitulations, prepared as posting entries to accounts receivable ledgers for amounts of expense vouchers prepared for employees' travel and related expenses: Retain 4 years.

(d) Paid, canceled, and voided checks, other than those issued for the payment of salary and wages: Retain 4 years.

(e) Accounts payable records to support disbursements of funds for materials, equipment, supplies, and services, containing originals or copies of the following and related documents: remittance advices and statements, vendors' invoices, invoice audits and distribution slips, receiving and inspection reports or comparable certifications of receipt and inspection of material or services, and debit and credit memoranda: Retain 4 years.

(f) Labor cost distribution cards or equivalent documents: Retain 2 years.

(g) Petty cash records showing description of expenditures, to whom paid, name of person authorizing payment, and date, including copies of vouchers and other supporting documents: Retain 2 years.

4.705-2 Pay administration records.

(a) Payroll sheets, registers, or their equivalent, of salaries and wages paid to individual employees for each payroll period; change slips; and tax withholding statements: Retain 4 years.

(b) Clock cards or other time and attendance cards: Retain 2 years.

(c) Paid checks, receipts for wages paid in cash, or other evidence of payments for services rendered by employees: Retain 2 years.

4.705-3 Acquisition and supply records.

(a) Store requisitions for materials, supplies, equipment, and services: Retain 2 years.

(b) Work orders for maintenance and other services: Retain 4 years.

(c) Equipment records, consisting of equipment usage and status reports and equipment repair orders: Retain 4 years.

(d) Expendable property records, reflecting accountability for the receipt and use of material in the performance of a contract: Retain 4 years.

(e) Receiving and inspection report records, consisting of reports reflecting receipt and inspection of supplies, equipment, and materials: Retain 4 years.

(f) Purchase order files for supplies, equipment, material, or services used in the performance of a contract; supporting documentation and backup files including, but not limited to, invoices, and memoranda; *e.g.*, memoranda of negotiations showing the principal elements of subcontract price negotiations (see 52.244-2): Retain 4 years.

(g) Production records of quality control, reliability, and inspection: Retain 4 years.

Subpart 4.8—Government Contract Files

4.800 Scope of subpart.

This subpart prescribes requirements for establishing, maintaining, and disposing of contract files.

4.801 General.

(a) The head of each division performing contracting, contract administration, or paying functions shall establish files containing the records of all contractual actions.

(b) The documentation in the files (see 4.803) shall be sufficient to constitute a complete history of the transaction for the purpose of—

- (1) Providing a complete background as a basis for informed decisions at each step in the acquisition process;
- (2) Supporting actions taken;
- (3) Providing information for reviews and investigations; and
- (4) Furnishing essential facts in the event of litigation or congressional inquiries.

(c) The files to be established include—

- (1) A file for cancelled solicitations;
- (2) A file for each contract; and
- (3) A file such as a contractor general file, containing documents relating—for example—to—
 - (i) No specific contract;
 - (ii) More than one contract; or
 - (iii) The contractor in a general way (*e.g.*, contractor's management systems, past performance, or capabilities).

4.802 Contract files.

(a) A contract file should generally consist of—

- (1) The contracting office contract file that documents the basis for the acquisition and the award, the assignment of contract administration (including payment responsibilities), and any subsequent actions taken by the contracting office;
- (2) The contract administration office contract file that documents actions reflecting the basis for and the performance of contract administration responsibilities; and
- (3) The paying office contract file that documents actions prerequisite to, substantiating, and reflecting contract payments.

(b) Normally, each file should be kept separately; however, if appropriate, any or all of the files may be combined; *e.g.*, if all functions or any combination of the functions are performed by the same office.

(c) Files must be maintained at organizational levels that ensure—

- (1) Effective documentation of contract actions;
- (2) Ready accessibility to principal users;

(3) Minimal establishment of duplicate and working files;

(4) The safeguarding of classified documents; and

(5) Conformance with agency regulations for file location and maintenance.

(d) If the contract files or file segments are decentralized (*e.g.*, by type or function) to various organizational elements or to other outside offices, responsibility for their maintenance must be assigned. A central control and, if needed, a locator system should be established to ensure the ability to locate promptly any contract files.

(e) Contents of contract files that are contractor bid or proposal information or source selection information as defined in 2.101 must be protected from disclosure to unauthorized persons (see 3.104-4).

(f) Agencies may retain contract files in any medium (paper, electronic, microfilm, etc.) or any combination of media, as long as the requirements of this subpart are satisfied.

4.803 Contents of contract files.

The following are examples of the records normally contained, if applicable, in contract files:

(a) *Contracting office contract file.* (1) Purchase request, acquisition planning information, and other presolicitation documents.

(2) Justifications and approvals, determinations and findings, and associated documents.

(3) Evidence of availability of funds.

(4) Synopsis of proposed acquisition as required by Part 5 or a reference to the synopsis.

(5) The list of sources solicited, and a list of any firms or persons whose requests for copies of the solicitation were denied, together with the reasons for denial.

(6) Set-aside decision.

(7) Government estimate of contract price.

(8) A copy of the solicitation and all amendments thereto.

(9) Security requirements and evidence of required clearances.

(10) A copy of each offer or quotation, the related abstract, and records of determinations concerning late offers or quotations. Unsuccessful offers or quotations may be maintained separately, if cross-referenced to the contract file. The only portions of the unsuccessful offer or quotation that need be retained are—

(i) Completed solicitation sections A, B, and K;

(ii) Technical and management proposals;

(iii) Cost/price proposals; and

(iv) Any other pages of the solicitation that the offeror or quoter has altered or annotated.

(11) Contractor's certifications and representations.

(12) Preaward survey reports or reference to previous preaward survey reports relied upon.

(13) Source selection documentation.

(14) Contracting officer's determination of the contractor's responsibility.

(15) Small Business Administration Certificate of Competency.

(16) Records of contractor's compliance with labor policies including equal employment opportunity policies.

(17) Cost or pricing data and Certificates of Current Cost or Pricing Data or a required justification for waiver, or information other than cost or pricing data.

(18) Packaging and transportation data.

(19) Cost or price analysis.

(20) Audit reports or reasons for waiver.

(21) Record of negotiation.

(22) Justification for type of contract.

(23) Authority for deviations from this regulation, statutory requirements, or other restrictions.

(24) Required approvals of award and evidence of legal review.

(25) Notice of award.

(26) The original of—

(i) The signed contract or award;

(ii) All contract modifications; and

(iii) Documents supporting modifications executed by the contracting office.

(27) Synopsis of award or reference thereto.

(28) Notice to unsuccessful quoters or offerors and record of any debriefing.

(29) Acquisition management reports (see Subpart 4.6).

(30) Bid, performance, payment, or other bond documents, or a reference thereto, and notices to sureties.

(31) Report of postaward conference.

(32) Notice to proceed, stop orders, and any overtime premium approvals granted at the time of award.

(33) Documents requesting and authorizing modification in the normal assignment of contract administration functions and responsibility.

(34) Approvals or disapprovals of requests for waivers or deviations from contract requirements.

(35) Rejected engineering change proposals.

(36) Royalty, invention, and copyright reports (including invention disclosures) or reference thereto.

(37) Contract completion documents.

(38) Documentation regarding termination actions for which the contracting office is responsible.

(39) Cross-references to pertinent documents that are filed elsewhere.

(40) Any additional documents on which action was taken or that reflect actions by the contracting office pertinent to the contract.

(41) A current chronological list identifying the awarding and successor contracting officers, with inclusive dates of responsibility.

(b) *Contract administration office contract file.* (1) Copy of the contract and all modifications, together with official record copies of supporting documents executed by the contract administration office.

(2) Any document modifying the normal assignment of contract administration functions and responsibility.

(3) Security requirements.

(4) Cost or pricing data, Certificates of Current Cost or Pricing Data, or information other than cost or pricing data; cost or price analysis; and other documentation supporting contractual actions executed by the contract administration office.

(5) Preaward survey information.

(6) Purchasing system information.

(7) Consent to subcontract or purchase.

(8) Performance and payment bonds and surety information.

(9) Postaward conference records.

(10) Orders issued under the contract.

(11) Notice to proceed and stop orders.

(12) Insurance policies or certificates of insurance or references to them.

(13) Documents supporting advance or progress payments.

(14) Progressing, expediting, and production surveillance records.

(15) Quality assurance records.

(16) Property administration records.

(17) Documentation regarding termination actions for which the contract administration office is responsible.

(18) Cross reference to other pertinent documents that are filed elsewhere.

(19) Any additional documents on which action was taken or that reflect actions by the contract administration office pertinent to the contract.

(20) Contract completion documents.

(c) *Paying office contract file.* (1) Copy of the contract and any modifications.

(2) Bills, invoices, vouchers, and supporting documents.

(3) Record of payments or receipts.

(4) Other pertinent documents.

4.804 Closeout of contract files.

4.804-1 Closeout by the office administering the contract.

(a) Except as provided in paragraph (c) of this section, time standards for closing out contract files are as follows:

(1) Files for contracts using simplified acquisition procedures should be considered closed when the contracting officer receives evidence of receipt of property and final payment, unless otherwise specified by agency regulations.

(2) Files for firm-fixed-price contracts, other than those using simplified acquisition procedures, should be closed within 6 months after the date on which the contracting officer receives evidence of physical completion.

(3) Files for contracts requiring settlement of indirect cost rates should be closed within 36 months of the month in which the contracting officer receives evidence of physical completion.

(4) Files for all other contracts should be closed within 20 months of the month in which the contracting officer receives evidence of physical completion.

(b) When closing out the contract files at 4.804-1(a)(2), (3), and (4), the contracting officer shall use the closeout procedures at 4.804-5. However, these closeout actions may be modified to reflect the extent of administration that has been performed. Quick closeout procedures (see 42.708) should be used, when appropriate, to reduce administrative costs and to enable deobligation of excess funds.

(c) A contract file shall not be closed if—

(1) The contract is in litigation or under appeal; or

(2) In the case of a termination, all termination actions have not been completed.

4.804-2 Closeout of the contracting office files if another office administers the contract.

(a) Contract files for contracts using simplified acquisition procedures should be considered closed when the contracting officer receives evidence of receipt of property and final payment, unless otherwise specified by agency regulation.

(b) All other contract files shall be closed as soon as practicable after the contracting officer receives a contract completion statement from the contract administration office. The contracting officer shall ensure that all contractual actions required have been completed and shall prepare a statement to that effect. This statement is authority to close the contract file and shall be made a part of the official contract file.

4.804-3 Closeout of paying office contract files.

The paying office shall close the contract file upon issuance of the final payment voucher.

4.804-4 Physically completed contracts.

(a) Except as provided in paragraph (b) of this section, a contract is considered to be physically completed when—

(1)(i) The contractor has completed the required deliveries and the Government has inspected and accepted the supplies;

(ii) The contractor has performed all services and the Government has accepted these services; and

(iii) All option provisions, if any, have expired; or

(2) The Government has given the contractor a notice of complete contract termination.

(b) Facilities contracts and rental, use, and storage agreements are considered to be physically completed when—

(1) The Government has given the contractor a notice of complete contract termination; or

(2) The contract period has expired.

4.804-5 Procedures for closing out contract files.

(a) The contract administration office is responsible for initiating (automated or manual) administrative closeout of the contract after receiving evidence of its physical completion. At the outset of this process, the contract administration office must review the contract funds status and notify the contracting office of any excess funds the contract administration office might deobligate. When complete, the administrative closeout procedures must ensure that—

(1) Disposition of classified material is completed;

(2) Final patent report is cleared;

(3) Final royalty report is cleared;

(4) There is no outstanding value engineering change proposal;

(5) Plant clearance report is received;

(6) Property clearance is received;

(7) All interim or disallowed costs are settled;

(8) Price revision is completed;

(9) Subcontracts are settled by the prime contractor;

(10) Prior year indirect cost rates are settled;

(11) Termination docket is completed;

(12) Contract audit is completed;

(13) Contractor's closing statement is completed;

(14) Contractor's final invoice has been submitted; and

(15) Contract funds review is completed and excess funds deobligated.

(b) When the actions in paragraph (a) of this subsection have been verified, the contracting officer administering the contract must ensure that a contract completion statement, containing the following information, is prepared:

(1) Contract administration office name and address (if different from the contracting office).

(2) Contracting office name and address.

(3) Contract number.

(4) Last modification number.

(5) Last call or order number.

(6) Contractor name and address.

(7) Dollar amount of excess funds, if any.

(8) Voucher number and date, if final payment has been made.

(9) Invoice number and date, if the final approved invoice has been forwarded to a disbursing office of another agency or activity and the status of the payment is unknown.

(10) A statement that all required contract administration actions have been fully and satisfactorily accomplished.

(11) Name and signature of the contracting officer.

(12) Date.

(c) When the statement is completed, the contracting officer must ensure that—

(1) The signed original is placed in the contracting office contract file (or forwarded to the contracting office for placement in the files if the contract administration office is different from the contracting office); and

(2) A signed copy is placed in the appropriate contract administration file if administration is performed by a contract administration office.

4.805 Storage, handling, and disposal of contract files.

(a) Materials Management Service must prescribe procedures for the handling, storing, and disposing of contract files. These procedures must take into account documents held in all types of media, including microfilm and various electronic media. Agencies may change the original medium to facilitate storage as long as the requirements of Part 4, law, and other regulations are satisfied. The process used to create and store records must record and reproduce the original document, including signatures and other written and graphic images completely, accurately, and clearly. Data transfer, storage, and retrieval procedures must protect the original data from alteration. Unless law or other regulations require signed originals to be kept, they may be destroyed after the responsible agency official verifies that record copies on alternate media and copies reproduced from the record copy are accurate, complete, and clear representations of the originals. Agency procedures for contract file disposal must include provisions that the documents specified in paragraph (b) of this section may not be destroyed before the times indicated, and may be retained longer if the responsible agency official determines that the files have future value to the Government. When original documents have been converted to alternate media for storage, the requirements in paragraph (b) of this section also apply to the record copies in the alternate media.

(b) If administrative records are mixed with program records and cannot be economically segregated, the entire file should be kept for the period of time approved for the program records. Similarly, if documents described in the following table are part of a subject or case file that documents activities that are not described in the table, they should be treated in the same manner as the files of which they are a part. The retention periods for acquisitions at or below the simplified acquisition threshold also apply to acquisitions conducted prior to July 3, 1995, that used small

purchase procedures. The retention periods for acquisitions above the simplified acquisition threshold also apply to acquisitions conducted prior to July 3, 1995, that used other than small purchase procedures.

Document	Retention Period
(1) Records pertaining to Contract Disputes Act actions.	6 years and 3 months after final action or decision for files created prior to October 1, 1979. 1 year after final action or decision for files created on or after October 1, 1979.
(2) Contracts (and related records or documents, including successful proposals) exceeding the simplified acquisition threshold for other than construction.	6 years and 3 months after final payment.
(3) Contracts (and related records or documents, including successful proposals) at or below the simplified acquisition threshold for other than construction.	3 years after final payment.
(4) Construction contracts:	
(i) Above \$2,000.	6 years and 3 months after final payment.
(ii) \$2,000 or less.	3 years after final payment.
(iii) Related records or documents, including successful proposals, except for contractor's payrolls (see (b)(4)(iv)).	Same as contract file.
(iv) Contractor's payrolls submitted in accordance with Department of Labor regulations, with related certifications, anti-kickback affidavits, and other related papers.	3 years after contract completion unless contract performance is the subject of an enforcement action on that date.
(5) Solicited and unsolicited unsuccessful offers, quotations, bids, and proposals:	
(i) Relating to contracts above the simplified acquisition threshold.	If filed separately from contract file, until contract is completed. Otherwise, the same as related contract file.
(ii) Relating to contracts at or below the simplified acquisition threshold.	1 year after date of award or until final payment, whichever is later.
(6) Files for canceled solicitations.	5 years after cancellation.

Document	Retention Period
(7) Other copies of procurement file records used by component elements of a contracting office for administrative purposes.	Upon termination or completion.
(8) Documents pertaining generally to the contractor as described at 4.801(c)(3).	Until superseded or obsolete.
(9) Investigations, cases pending or in litigation (including protests), or similar matters.	Until final clearance or settlement, or, if related to a document identified in (b)(1) - (9), for the retention period specified for the related document, whichever is later.

Subpart 4.9—Taxpayer Identification Number Information

4.900 Scope of subpart.

This subpart provides policies and procedures for obtaining—

- (a) Taxpayer Identification Number (TIN) information that may be used for debt collection purposes; and
- (b) Contract information and payment information for submittal to the payment office for Internal Revenue Service (IRS) reporting purposes.

4.901 Definition.

“Common parent,” as used in this subpart, means that corporate entity that owns or controls an affiliated group of corporations that files its Federal income tax returns on a consolidated basis, and of which the offeror is a member.

4.902 General.

(a) *Debt collection.* 31 U.S.C. 7701(c) requires each contractor doing business with a Government agency to furnish its TIN to that agency. 31 U.S.C. 3325(d) requires the Government to include, with each certified voucher prepared by the Government payment office and submitted to a disbursing official, the TIN of the contractor receiving payment under the voucher. The TIN may be used by the Government to collect and report on any delinquent amounts arising out of the contractor’s relationship with the Government.

(b) *Information reporting to the IRS.* The TIN is also required for Government reporting of certain contract information (see 4.903) and payment information (see 4.904) to the IRS.

4.903 Reporting contract information to the IRS.

(a) 26 U.S.C. 6050M, as implemented in 26 CFR, requires agencies to report certain information to the IRS.

(b)(1) The required information applies to contract modifications entered into on or after April 1, 1990.

(2) The reporting requirement also applies to certain contracts and modifications thereto in excess of \$25,000 entered into on or after January 1, 1989.

(c) The information to report is—

- (1) Name, address, and TIN of the contractor;
- (2) Name and TIN of the common parent (if any);
- (3) Date of the contract action;
- (4) Amount obligated on the contract action; and
- (5) Estimated contract completion date.

(d) Transmit the information to the IRS through the Federal Procurement Data System (see Subpart 4.6 and implementing instructions).

4.904 Reporting payment information to the IRS.

26 U.S.C. 6041 and 6041A, as implemented in 26 CFR, in part, require payors, including Government agencies, to report to the IRS, on Form 1099, payments made to certain contractors. 26 U.S.C. 6109 requires a contractor to provide its TIN if a Form 1099 is required. The payment office is responsible for submitting reports to the IRS.

4.905 Solicitation provision.

The contracting officer shall insert the provision at 52.204-3, Taxpayer Identification, in solicitations that are not conducted under the procedures of Part 12, unless the TIN, type of organization, and common parent information for each offeror will be obtained from some other source (*e.g.*, centralized database) in accordance with agency procedures.

Subpart 4.10—Contract Line Items**4.1001 Policy.**

Contracts may identify the items or services to be acquired as separately identified line items. Contract line items should provide unit prices or lump sum prices for separately

identifiable contract deliverables, and associated delivery schedules or performance periods. Line items may be further subdivided or stratified for administrative purposes (*e.g.*, to provide for traceable accounting classification citations).

Subpart 4.11—Contract Review Board

4.1101 Function.

(a) The Contract Review Board (CRB) provides an objective and independent review of select proposed procurement actions to—

- (1) ensure compliance with established acquisition policy and procedures;
- (2) to insure that the actions are in the best interests of the Government; and
- (3) to foster training of contracting personnel.

(b) The CRB provides review at the highest level of competence and experience available to the contracting activity. This review is supplemental to, not a substitution for, normal supervisory and Contracting Officer functions.

4.1102 Procedure.

(a) All actions for Board consideration shall be accompanied by a memorandum which sets forth the pertinent facts and the recommendation of the Contracting Officer. The memorandum shall be accompanied by all relevant documents, e.g., non-responsive bids, authorities, determinations and findings (D&F), bid abstracts, etc.

(b) Concurrence or nonconcurrence of each CRB member must be indicated by his or her signature on the CRB memorandum, together with any reasons for nonconcurrence, and dated. The memorandum shall be included in the official contract file. In the event that a majority of the CRB members do not concur with the proposed action, the Board will consult together to assure that all facts have been considered before returning the proposed action to the Contracting Officer.

(c) If the Contracting Officer decides to take action contrary to the position taken by a majority of the Board, he or she shall promptly inform the Chairperson, in writing, of the proposed action and the reasons thereof. A written statement of the action and rationale shall be included in the official contract file.

(d) The Chairperson shall provide for a record to be maintained of all actions submitted to the Board for consideration and review.

4.1103 Actions Requiring Referral to the CRB.

The actions cited below shall be referred to the CRB for its review. In preparing for Board submission, the factors set forth under the applicable action and any other appropriate information, should be addressed.

(a) *Prior to award.*

- (1) Proposed Award Over \$50,000.

(i) Provide a brief resume of the action and the Contracting Officer's decision.

(ii) Include pertinent information supporting the decision recommendation.

(2) Proposed award to other than the bidder submitting the lowest responsive bid.

(i) Include price spread between the lowest bid and the one recommended for award.

(ii) Include reasons for not recommending award to the bidder submitting the lowest responsive bid.

(iii) Include pertinent information supporting the decision/recommendation, e.g., performance history, basis for the price reasonableness, etc.

(3) Proposed award of a competitively negotiated procurement resulting from a request for proposals (RFP), for the public exigency, or when negotiation is authorized after advertising.

(i) Provide a copy of the contract.

(ii) Provide a copy of the justification for public exigency to negotiate.

(iii) Attach a copy of the summary of negotiations including the basis for price reasonableness.

(iv) Attach a copy of the request for proposals containing a statement of evaluation criteria and statement of technical and cost or price analysis.

(4) Proposed award when only one responsive bid is received.

(i) Include number of bids solicited.

(ii) Include statement of previous bid(s) for identical or similar procurements or an informal estimate or other basis for price reasonableness.

(5) Proposed award of a noncompetitive negotiated procurement.

(i) Include reasons for noncompetitive purchase and price reasonableness decision.

(ii) Include what action will be taken to obtain future competition if nonproprietary.

(6) Proposed cancellation of a solicitation, after bid opening or closing date for receipt of proposals, and subsequent contemplated resolicitation. (A solicitation may be resolicited without CRB review when no bids or proposals have been received at time of opening or closing.)

(i) Provide an analysis of the solicitation defect(s) causing cancellation.

(ii) Describe what will be accomplished by cancellation and resolicitation.

(b) *Post award.*

(1) Proposed termination of contract for default over \$1,000.

(i) Provide an analysis of the actions taken prior to submission to the CRB, e.g., issuance of a "Cure Notice," "Show Cause" letter, etc. Also, advise if reprocurement is required.

(2) Proposed termination of a contract for the convenience of the Government when resolicitation is required.

(i) Provide an analysis of the reasons for the termination and an explanation of the need for the resolicitation.

(3) Proposed settlement of a terminated contract, except one terminated for convenience when the settlement is less than \$5,000.

(i) Provide an analysis of the contractors settlement proposal, and how the final settlement was attained.

(4) Proposed modification of a contract (or print order if a PPD term contract) involving an increase or decrease of 25 percent or more of the contract (or print order) amount if the increase/decrease exceeds \$5,000, or any modification which increases or decreases the contract (or print order) amount in excess of \$25,000.

(i) Provide a resume of the current contract, and the proposed modification. Include an explanation as to the necessity for modifying the existing contract in lieu of a new procurement. Also, provide information supporting the determination of costs.

(c) *Other.*

Federal supply schedules, interagency agreements, contracts with other agencies or vendors, or other actions not specifically identified herein, may be presented before the CRB when additional judgement, advice, would assist in resolving existing or potential problems. The Chairperson shall be contacted for a determination when there is a question whether a proposed action requires CRB review.

4.1104 Actions Requiring Referral to the Chairperson, CRB.

Prior to award and post-award mistakes in bid shall be processed as required by GPO instruction 910.1A, Mistakes in Bid, dated March 30, 1998.

(a) Provide copies of specification, bid lists, correspondence, and other documentation supporting the mistake claimed.

(b) Include in D&F a statement as to whether the evidence is considered clear and convincing and the basis for the determination.

			Exchange of acquisition information.
			Subpart 5.5—Paid Advertisements
			Definitions.
			Authority.
			Procedures.
			Use of advertising agencies.

This page intentionally left blank.

5.000 Scope of part.

This part prescribes policies and procedures for publicizing contract opportunities and award information.

5.001 Definition.

“Contract action,” as used in this part, means an action resulting in a contract, as defined in Subpart 2.1, including actions for additional supplies or services outside the existing contract scope, but not including actions that are within the scope and under the terms of the existing contract, such as contract modifications issued pursuant to the Changes clause, or funding and other administrative changes.

5.002 Policy.

Contracting officers must publicize contract actions in order to—

- (a) Increase competition;
- (b) Broaden industry participation in meeting Government requirements; and
- (c) Assist small business concerns.

5.003 Governmentwide point of entry.

For any requirement in the MMAR to publish a notice, effective October 1, 2001, the contracting officer must transmit all notices to the GPE.

Subpart 5.1—Dissemination of Information**5.101 Methods of disseminating information.**

(a) If time allows, contracting officers must disseminate information on proposed contract actions as follows:

(1) For proposed contract actions expected to exceed \$25,000, by synopsisizing in the GPE (see 5.201), unless covered by 5.003.

(2) For proposed contract actions expected to exceed \$10,000, but not expected to exceed \$25,000, by displaying in a public place, or by any appropriate electronic means, an unclassified notice of the solicitation or a copy of the solicitation satisfying the requirements of 5.207(d) and (g). The notice must include a statement that all responsible sources may submit a response which, if timely received, must be considered by the agency. The information must be posted not later than the date the solicitation is issued, and must remain posted for at least 10 days or until after quotations have been opened, whichever is later.

(i) If solicitations are posted instead of a notice, the contracting officer may employ various methods of satisfying the requirements of 5.207(d) and (g). For example, the contracting officer may meet the requirements of 5.207(d) and (g) by stamping the solicitation, by a cover sheet to the solicitation, or by placing a general statement in the display room.

(ii) The contracting officer need not comply with the display requirements of this section when the exemptions at 5.202(a)(1), (a)(4) through (a)(9), or (a)(11) apply, when oral or electronic solicitations are used, or when providing access to a notice of proposed contract action and solicitation through the GPE and the notice permits the public to respond to the solicitation electronically.

(iii) Contracting officers may use electronic posting of requirements in a place accessible by the general public at the Government installation to satisfy the public display requirement. Contracting offices using electronic systems for public posting that are not accessible outside the installation must periodically publicize the methods for accessing the information.

(b) In addition, one or more of the following methods may be used:

(1) Preparing periodic handouts listing proposed contracts, and displaying them as in 5.101(a)(2).

(2) Assisting local trade associations in disseminating information to their members.

(3) Making brief announcements of proposed contracts to newspapers, trade journals, magazines, or other mass communication media for publication without cost to the Government.

(4) Placing paid advertisements in newspapers or other communications media, subject to the following limitations:

(i) Contracting officers shall place paid advertisements of proposed contracts only when it is anticipated that effective competition cannot be obtained otherwise (see 5.205(d)).

(ii) Contracting officers shall not place advertisements of proposed contracts in a newspaper published and printed in the District of Columbia unless the supplies or services will be furnished, or the labor performed, in the District of Columbia or adjoining counties in Maryland or Virginia (44 U.S.C. 3701).

(iii) Advertisements published in newspapers must be under proper written authority in accordance with 44 U.S.C. 3702 (see 5.502(a)).

(c) The Contracting Officer must document the contract file to explain why information was not disseminated in accordance with this subpart.

5.102 Availability of solicitations.

(a)(1) Except as provided in paragraph (a)(4) of this section, and if time allows, the contracting officer must make available through the GPE solicitations synopsisized through the GPE, including specifications and other pertinent information determined necessary by the contracting officer. Transmissions to the GPE must be in accordance with the interface description available via the Internet at <http://www.fedbizops.gov>.

(2) The contracting officer is encouraged, when practicable and cost-effective, to make accessible through the GPE additional information related to a solicitation.

(3) The contracting officer need not make a solicitation available through the GPE when—

(i) Disclosure would compromise the national security (*e.g.*, would result in disclosure of classified information) or create other security risks. The fact that access to classified matter may be necessary to submit a proposal or perform the contract does not, in itself, justify use of this exception;

(ii) The nature of the file (*e.g.*, size, format) does not make it cost-effective or practicable for contracting officers to provide access through the GPE;

(iii) The agency's senior procurement executive makes a written determination that access through the GPE is not in the Government's interest; or

(b) When the contracting officer does not make a solicitation available through the GPE pursuant to paragraph (a)(4) of this section, the contracting officer—

(1) Should employ other electronic means (*e.g.*, CD-ROM or electronic mail) whenever practicable and cost-effective. When solicitations are provided electronically on physical media (*e.g.*, disks) or in paper form, the contracting officer must—

(i) Maintain a reasonable number of copies of solicitations, including specifications and other pertinent information determined necessary by the contracting officer (upon request, potential sources not initially solicited should be mailed or provided copies of solicitations, if available);

(ii) Provide copies on a “first-come-first-served” basis, for pickup at the contracting office, to publishers, trade associations, information services, and other members of the

public having a legitimate interest (for construction, see 36.211); and

(iii) Retain a copy of the solicitation and other documents for review by and duplication for those requesting copies after the initial number of copies is exhausted; and

(2) May require payment of a fee, not exceeding the actual cost of duplication, for a copy of the solicitation document.

(c) In addition to the methods of disseminating proposed contract information in 5.101(a) and (b), provide, upon request to small business concerns—

(1) A copy of the solicitation and specifications. In the case of solicitations disseminated by electronic data interchange, solicitations may be furnished directly to the electronic address of the small business concern;

(2) The name and telephone number of an employee of the contracting office who will answer questions on the solicitation; and

(3) Adequate citations to each applicable major Federal law or agency rule with which small business concerns must comply in performing the contract.

(d) When electronic commerce (see Subpart 4.5) is used in the solicitation process, availability of the solicitation may be limited to the electronic medium.

(e) Provide copies of a solicitation issued under other than full and open competition to firms requesting copies that were not initially solicited, but only after advising the requester of the determination to limit the solicitation to a specified firm or firms as authorized under Part 6.

(f) This section 5.102 applies to classified contracts to the extent consistent with agency security requirements (see 5.202(a)(1)).

Subpart 5.2—Synopsis of Proposed Contract Actions

5.201 General.

(a) If time allows, Materials Management Service must make notices of proposed contract actions available as specified in paragraph (b) of this section.

(b)(1) For acquisitions of supplies and services, other than those covered by the exceptions in 5.202 and the special situations in 5.205, the contracting officer must transmit a notice to the GPE, for each proposed—

(i) Contract action meeting the threshold in 5.101(a)(1);

(ii) Modification to an existing contract for additional supplies or services that meets the threshold in 5.101(a)(1); or

(iii) Contract action in any amount when advantageous to the Government.

(c) The primary purposes of the notice are to improve small business access to acquisition information and enhance competition by identifying contracting and subcontracting opportunities.

(d)(1) The GPE may be accessed via the Internet at <http://www.fedbizopps.gov>.

5.202 Exceptions.

The contracting officer need not submit the notice required by 5.201 when—

(a) The contracting officer determines that—

(1) The synopsis cannot be worded to preclude disclosure of an agency's needs and such disclosure would compromise the national security (*e.g.*, would result in disclosure of classified information). The fact that a proposed solicitation or contract action contains classified information, or that access to classified matter may be necessary to submit a proposal or perform the contract does not, in itself, justify use of this exception to synopsis;

(2) The proposed contract action is made under the conditions described in 6.302-2 (or, for purchases conducted using simplified acquisition procedures, if unusual and compelling urgency precludes competition to the maximum extent practicable) and the Government would be seriously injured if the agency complies with the time periods specified in 5.203;

(3) The proposed contract action is one for which either the written direction of a foreign government reimbursing the agency for the cost of the acquisition of the supplies or services for such government, or the terms of an international agreement or treaty between the United States and a foreign government, or international organizations, has the effect of requiring that the acquisition shall be from specified sources;

(4) The proposed contract action is expressly authorized or required by a statute to be made through another Government agency, or from a specific source such as a workshop for the blind under the rules of the Committee for the Purchase from the Blind and Other Severely Handicapped;

(5) The proposed contract action is for utility services other than telecommunications services and only one source is available;

(6) The proposed contract action is an order placed under Subpart 16.5;

(7) The proposed contract action results from the acceptance of an unsolicited research proposal that demonstrates a unique and innovative concept (see 2.101) and publication of any notice complying with 5.207 would improperly disclose the originality of thought or innovativeness of the proposed research, or would disclose proprietary information associated with the proposal. This exception does not apply if the proposed contract action results from an unsolicited research proposal and acceptance is based solely upon the unique capability of the source to perform the particular research services proposed (see 6.302-1(a)(2)(i));

(8) The proposed contract action is made for perishable subsistence supplies, and advance notice is not appropriate or reasonable;

(9) The proposed contract action is made under conditions described in 6.302-3, or 6.302-5 with regard to brand name commercial items for authorized resale, or 6.302-7, and advance notice is not appropriate or reasonable;

(10) The proposed contract action is made under the terms of an existing contract that was previously synopsisized in sufficient detail to comply with the requirements of 5.207 with respect to the current proposed contract action;

(11) The proposed contract action—

(i) Is for an amount not expected to exceed the simplified acquisition threshold;

(ii) Will be made through a means that provides access to the notice of proposed contract action through the GPE; and

(iii) Permits the public to respond to the solicitation electronically; or

(12) The proposed contract action is made under conditions described in 6.302-3 with respect to the services of an expert to support the Federal Government in any current or anticipated litigation or dispute.

(b) The head of the agency determines in writing, that advance notice is not appropriate or reasonable.

5.203 Publicizing and response time.

Whenever agencies are required to publicize notice of proposed contract actions under 5.201, they must proceed as follows:

(a) An agency must transmit a notice of proposed contract action to the GPE (see 5.201). For notices published before January 1, 2002, the publication date is the date the notice is published in the CBD. For notices published on or after January 1, 2002, the publication date is the date the notice appears on the GPE. The notice must be published at least 15 days before issuance of a solicitation except that, for acquisitions of commercial items, the contracting officer may—

(1) Establish a shorter period for issuance of the solicitation; or

(2) Use the combined synopsis and solicitation procedure (see 12.603).

(b) The contracting officer must establish a solicitation response time that will afford potential offerors a reasonable opportunity to respond to each proposed contract action, (including actions via FACNET or for which the notice of proposed contract action and solicitation information is accessible through the GPE), in an amount estimated to be greater than \$25,000, but not greater than the simplified acquisition threshold; or each contract action for the acquisition of commercial items in an amount estimated to be greater than \$25,000. The contracting officer should consider the circumstances of the individual acquisition, such as the complexity, commerciality, availability, and urgency, when establishing the solicitation response time.

(c) Except for the acquisition of commercial items (see 5.203(b)), agencies shall allow at least a 30-day response time for receipt of bids or proposals from the date of issuance of a solicitation, if the proposed contract action is expected to exceed the simplified acquisition threshold.

(d) Agencies shall allow at least a 30 day response time from the date of publication of a proper notice of intent to contract for architect-engineer services or before issuance of an order under a basic ordering agreement or similar arrangement if the proposed contract action is expected to exceed the simplified acquisition threshold.

(e) Agencies must allow at least a 45-day response time for receipt of bids or proposals from the date of publication of the notice required in 5.201 for proposed contract actions categorized as research and development if the proposed contract action is expected to exceed the simplified acquisition threshold.

(f) Nothing in this subpart prohibits officers or employees of agencies from responding to requests for information.

(g) Contracting officers may, unless they have evidence to the contrary, presume that notice has been published 10 days (6 days if electronically transmitted through the GPE or other means) following transmittal of the synopsis to the CBD. This presumption is based on the CBD's confirmation that publication does occur within these time frames. This presumption does not negate the mandatory waiting or response times specified in paragraphs (a) through (d) of this section. Upon learning that a particular notice has not in fact

been published within the presumed timeframes, contracting officers should consider whether the date for receipt of offers can be extended or whether circumstances have become sufficiently compelling to justify proceeding with the proposed contract action under the authority of 5.202(a)(2).

5.204 Presolicitation notices.

Contracting officers must provide access to presolicitation notices through the GPE (see 15.201 and 36.213-2). The contracting officer must synopsise a proposed contract action before issuing any resulting solicitation (see 5.201 and 5.203).

5.205 Special situations.

(a) *Research and development (R&D) advance notices.* Contracting officers may transmit to the GPE advance notices of their interest in potential R&D programs whenever market research does not produce a sufficient number of concerns to obtain adequate competition. Advance notices must not be used where security considerations prohibit such publication. Advance notices will enable potential sources to learn of R&D programs and provide these sources with an opportunity to submit information which will permit evaluation of their capabilities. Potential sources which respond to advance notices must be added to the appropriate solicitation mailing list for subsequent solicitation. Advance notices must be entitled "Research and Development Sources Sought," cite the appropriate Numbered Note, and include the name and telephone number of the contracting officer or other contracting activity official from whom technical details of the project can be obtained. This will enable sources to submit information for evaluation of their R&D capabilities. Contracting officers must synopsise (see 5.201) all subsequent solicitations for R&D contracts, including those resulting from a previously synopsized advance notice, unless one of the exceptions in 5.202 applies.

(b) *Special notices.* Contracting officers may transmit to the GPE special notices of procurement matters such as business fairs, long-range procurement estimates, prebid or pre-proposal conferences, meetings, and the availability of draft solicitations or draft specifications for review.

(c) *Architect-engineering services.* Contracting officers must publish notices of intent to contract for architect-engineering services as follows:

(1) Except when exempted by 5.202, contracting officers must transmit to the GPE a synopsis of each proposed contract action for which the total fee (including phases and options) is expected to exceed \$25,000.

(2) When the total fee is expected to exceed \$10,000 but not exceed \$25,000, the contracting officer must comply with 5.101(a)(2). When the proposed contract action is not required to be synopsized under paragraph (d)(1) of this sec-

tion, the contracting officer must display a notice of the solicitation or a copy of the solicitation in a public place at the contracting office. Other optional publicizing methods are authorized in accordance with 5.101(b).

5.206 Notices of subcontracting opportunities.

(a) The following entities may transmit a notice to the GPE, to seek competition for subcontracts, to increase participation by qualified HUBZone small business, small, small disadvantaged, and small women-owned business concerns, and to meet established subcontracting plan goals:

(1) A contractor awarded a contract exceeding \$100,000 that is likely to result in the award of any subcontracts.

(2) A subcontractor or supplier, at any tier, under a contract exceeding \$100,000, that has a subcontracting opportunity exceeding \$10,000.

(b) The notices must describe—

(1) The business opportunity, following the standard CDB format for items 7, 10, 11, and 17 in 5.207(b)(4);

(2) Any prequalification requirements; and

(3) Where to obtain technical data needed to respond to the requirement.

5.207 Preparation and transmittal of synopses.

(a) *Content.* Each synopsis transmitted to the GPE or CBD must address the following data elements, as applicable:

(1) Action Code.

(2) Date.

(3) Year.

(4) Government Printing Office (GPO) Billing Account Code.

(5) Contracting Office Zip Code.

(6) Classification Code.

(7) Contracting Office Address.

(8) Subject.

(9) Proposed Solicitation Number.

(10) Opening and Closing Response Date.

(11) Contact Point or Contracting Officer.

(12) Contract Award and Solicitation Number.

(13) Contract Award Dollar Amount.

(14) Contract Line Item Number.

(15) Contract Award Date.

(16) Contractor.

(17) Description.

(18) Place of Contract Performance.

(19) Set-aside Status.

(b) *Transmittal*—(1) *GPE.* Transmissions must be in accordance with the interface description available via the Internet at <http://www.fedbizopps.gov>.

(c) *Cancellation of synopsis.* Contracting officers should not publish notices of solicitation cancellations (or indefinite suspensions) of proposed contract actions in the GPE or CBD. Cancellations of solicitations must be made in accordance with 14.209 and 14.404-1.

Subpart 5.3—Synopsis of Contract Awards

5.301 General.

(a) Except for contract actions described in paragraph (b) of this section and as provided in 5.003, contracting officers must synopsize through the GPE awards exceeding \$25,000 that are—

(1) Subject to the Trade Agreements Act (see Subpart 25.4); or

(2) Likely to result in the award of any subcontracts. However, the dollar threshold is not a prohibition against publicizing an award of a smaller amount when publicizing would be advantageous to industry or to the Government.

(b) A notice is not required under paragraph (a) of this section if—

(1) The notice would disclose the agency's needs and the disclosure of such needs would compromise the national security;

(2) The award results from acceptance of an unsolicited research proposal that demonstrates a unique and innovative research concept and publication of any notice would disclose the originality of thought or innovativeness of the proposed research or would disclose proprietary information associated with the proposal;

(3) The contract action is an order placed under Subpart 16.5;

(4) The award is made for perishable subsistence supplies;

(5) The award is for utility services, other than telecommunications services, and only one source is available;

(6) The contract action—

(i) Is for an amount not greater than the simplified acquisition threshold;

(ii) Was made through a means where access to the notice of proposed contract action was provided through the GPE; and

(iii) Permitted the public to respond to the solicitation electronically; or

(7) The award is for the services of an expert to support the Federal Government in any current or anticipated litigation or dispute pursuant to the exception to full and open competition authorized at 6.302-3.

(c) With respect to acquisitions subject to the Trade Agreements Act, contracting officers must submit synopses in sufficient time to permit publication in the CBD, through the GPE, not later than 60 days after award.

(d) When transmitting notices to the GPE before January 1, 2002, contracting officers must direct the GPE to forward the notice to the CBD.

5.302 Preparation and transmittal of synopses of awards.

Contracting officers shall transmit synopses of contract awards in the same manner as prescribed in 5.207.

5.303 Announcement of contract awards.

(a) *Public announcement.* Contracting officers shall make information available on awards over \$3 million (unless another dollar amount is specified in agency acquisition regulations) in sufficient time for the agency concerned to announce it by 5:00 p.m. Washington, DC time on the day of award. Contracts excluded from this reporting requirement include (1) those placed with foreign firms when the place of delivery or performance is outside the United States or its possessions, and (2) those for which synopsis was exempted under 5.202(a)(1). Agencies shall not release information on awards before the public release time of 5:00 p.m. Washington, DC time.

(b) *Local announcement.* Agencies may also release information on contract awards to the local press or other media. When local announcements are made for contract awards in excess of the simplified acquisition threshold, they shall include—

(1) For awards after sealed bidding, a statement that the contract was awarded after competition by sealed bidding, the number of offers solicited and received, and the basis for selection (*e.g.*, the lowest responsible bidder); or

(2) For awards after negotiation, the information prescribed by 15.503(b), and after competitive negotiation (either price or design competition), a statement to this effect, and in general terms the basis for selection.

Subpart 5.4—Release of Information

5.401 General.

(a) A high level of business security must be maintained in order to preserve the integrity of the acquisition process. When it is necessary to obtain information from potential contractors and others outside the Government for use in preparing Government estimates, contracting officers shall ensure that the information is not publicized or discussed with potential contractors.

(b) Contracting officers may make available maximum information to the public, except information—

- (1) On plans that would provide undue or discriminatory advantage to private or personal interests;
- (2) Received in confidence from an offeror;
- (3) Otherwise requiring protection under Freedom of Information Act (see Subpart 24.2) or Privacy Act (see Subpart 24.1); or
- (4) Pertaining to internal agency communications (*e.g.*, technical reviews, contracting authority or other reasons, or recommendations referring thereto).

(c) This policy applies to all Government personnel who participate directly or indirectly in any stage of the acquisition cycle.

5.402 General public.

Contracting officers shall process requests for specific information from the general public, including suppliers, in accordance with Subpart 24.1 or 24.2, as appropriate.

5.403 Requests from Members of Congress.

(a) *Individual requests.* Contracting officers; working through the Office of Congressional Relations and the Office of the General Counsel; shall give Members of Congress, upon their request, detailed information regarding any particular contract. When responsiveness would result in disclosure of classified matter, business confidential information, or information prejudicial to competitive acquisition, the contracting officer shall refer the proposed reply, with full documentation, to the General Counsel.

(b) *Inclusion on solicitation mailing lists.* Upon request of a Congressional Committee or Subcommittee Chairperson, contracting officers shall place any member of a Committee or Subcommittee on the applicable solicitation mailing lists to receive automatic distribution of solicitations in the specific area of interest.

5.404 Release of long-range acquisition estimates.

To assist industry planning and to locate additional sources of supply, it may be desirable to publicize estimates of unclassified long-range acquisition requirements. Estimates may be publicized as far in advance as possible.

5.404-1 Release procedures.

(a) *Application.* The agency head, or a designee, may release long-range acquisition estimates if the information will—

- (1) Assist industry in its planning and facilitate meeting the acquisition requirements;
- (2) Not encourage undesirable practices (*e.g.*, attempts to corner the market or hoard industrial materials); and
- (3) Not indicate the existing or potential mobilization of the industry as a whole.

(b) *Conditions.* The agency head shall ensure that—

- (1) Classified information is released through existing security channels in accordance with agency security regulations;
- (2) The information is publicized as widely as practicable to all parties simultaneously by any of the means described in this part;
- (3) Each release states that—
 - (i) The estimate is based on the best information available,
 - (ii) The information is subject to modification and is in no way binding on the Government, and
 - (iii) More specific information relating to any individual item or class of items will not be furnished until the proposed action is synopsized through the GPE or the solicitation is issued;
- (4) Each release contains the name and address of the contracting officer that will process the acquisition;
- (5) Modifications to the original release are publicized as soon as possible, in the same manner as the original; and
- (6) Each release—
 - (i) Is coordinated in advance with small business, public information, and public relations personnel, as appropriate;
 - (ii) Contains, if applicable, a statement that small business set-asides may be involved, but that a determination can be made only when acquisition action is initiated; and
 - (iii) Contains the name or description of the item, and the estimated quantity to be acquired by calendar quarter, fiscal year, or other period. It may also contain such additional information as the number of units last acquired, the unit price, and the name of the last supplier.

5.404-2 Announcements of long-range acquisition estimates.

Further publicizing, consistent with the needs of the individual case, may be accomplished by announcing through the GPE that long-range acquisition estimates have been published and are obtainable, upon request, from the contracting officer.

5.405 Exchange of acquisition information.

(a) When the same item or class of items is being acquired by more than one agency, or by more than one contracting activity within an agency, the exchange and coordination of pertinent information, particularly cost and pricing data, between these agencies or contracting activities is necessary to promote uniformity of treatment of major issues and the resolution of particularly difficult or controversial issues. The exchange and coordination of information is particularly beneficial during the period of acquisition planning, presolicitation, evaluation, and pre-award survey.

(b) When substantial acquisitions of major items are

involved or when the contracting activity deems it desirable, the contracting activity shall request appropriate information (on both the end item and on major subcontracted components) from other agencies or contracting activities responsible for acquiring similar items. Each agency or contracting activity receiving such a request shall furnish the information requested. The contracting officer, early in a negotiation of a contract, or in connection with the review of a subcontract, shall request the contractor to furnish information as to the contractor's or subcontractor's previous Government contracts and subcontracts for the same or similar end items and major subcontractor components.

Subpart 5.5—Paid Advertisements

5.501 Definitions.

As used in this subpart—

“Advertisement” means any single message prepared for placement in communication media, regardless of the number of placements.

“Publication” means—

(1) The placement of an advertisement in a newspaper, magazine, trade or professional journal, or any other printed medium; or

(2) The broadcasting of an advertisement over radio or television.

5.502 Authority.

(a) *Newspapers.* Authority to approve the publication of paid advertisements in newspapers is vested in the head of each agency (44 U.S.C. 3702). This approval authority may be delegated. Contracting officers shall obtain written authorization in accordance with policy procedures before advertising in newspapers.

(b) *Other media.* Unless the agency head determines otherwise, advance written authorization is not required to place advertisements in media other than newspapers.

5.503 Procedures.

(a) *General.* (1) Orders for paid advertisements may be placed directly with the media or through an advertising agency. Contracting officers shall give small, small disadvantaged and women-owned small business concerns maximum opportunity to participate in these acquisitions.

(2) The contracting officer shall use the SF 1449 for paper solicitations. The SF 1449 shall be used to make awards or place orders unless the award/order is made by using electronic commerce or by using the Governmentwide commercial purchase card for micropurchases.

(b) *Rates.* Advertisements may be paid for at rates not over the commercial rates charged private individuals, with the usual discounts (44 U.S.C. 3703).

(c) *Proof of advertising.* Every invoice for advertising shall be accompanied by a copy of the advertisement or an affidavit of publication furnished by the publisher, radio or television station, or advertising agency concerned (44

U.S.C. 3703). Paying offices shall retain the proof of advertising until the General Accounting Office settles the paying office’s account.

(d) *Payment.* Upon receipt of an invoice supported by proof of advertising, the contracting officer shall attach a copy of the written authority (see 5.502(a)) and submit the invoice for payment under agency procedures.

5.504 Use of advertising agencies.

(a) *General.* Basic ordering agreements may be placed with advertising agencies for assistance in producing and placing advertisements when a significant number will be placed in several publications and in national media. Services of advertising agencies include, but are not limited to, counseling as to selection of the media for placement of the advertisement, contacting the media in the interest of the Government, placing orders, selecting and ordering typography, copywriting, and preparing rough layouts.

(b) *Use of commission-paying media.* The services of advertising agencies in placing advertising with media often can be obtained at no cost to the Government, over and above the space cost, as many media give advertising agencies a commission or discount on the space cost that is not given to the Government.

(c) *Use of noncommission-paying media.* Some media do not grant advertising agencies a commission or discount, meaning the Government can obtain the same rate as the advertising agency. If the advertising agency agrees to place advertisements in noncommission-paying media as a no-cost service, the basic ordering agreement shall so provide. If the advertising agency will not agree to place advertisements at no cost, the agreement shall—

(1) Provide that the Government may place orders directly with the media; or

(2) Specify an amount that the Government will pay if the agency places the orders.

(d) *Art work, supplies, and incidentals.* The basic ordering agreement also may provide for the furnishing by the advertising agency of art work, supplies, and incidentals, including brochures and pamphlets, but not their printing. “Incidentals” may include telephone calls, telegrams, and postage incurred by the advertising agency on behalf of the Government.

This page intentionally left blank.

6.000 Scope of part.

This part prescribes policies and procedures to promote full and open competition in the acquisition process and to provide for full and open competition, full and open competition after exclusion of sources, other than full and open competition, and competition advocates. This part does not deal with the results of competition (*e.g.*, adequate price competition), that are addressed in other parts (*e.g.*, Part 15).

6.001 Applicability.

This part applies to all acquisitions except—

(a) Contracts awarded using the simplified acquisition procedures of Part 13 (but see 13.501 for requirements pertaining to sole source acquisitions of commercial items under Subpart 13.5);

(b) Contracts awarded using contracting procedures (other than those addressed in this part) that are expressly authorized by statute;

(c) Contract modifications, including the exercise of priced options that were evaluated as part of the initial competition (see 17.207(f)), that are within the scope and under the terms of an existing contract;

(d) Orders placed under requirements contracts or definite-quantity contracts;

(e) Orders placed under indefinite-quantity contracts that were entered into pursuant to this part when—

(1) The contract was awarded under Subpart 6.1 or 6.2 and all responsible sources were realistically permitted to compete for the requirements contained in the order; or

(2) The contract was awarded under Subpart 6.3 and the required justification and approval adequately covers the requirements contained in the order; or

(f) Orders placed against task order and delivery order contracts entered into pursuant to Subpart 16.5.

6.002 Limitations.

No agency shall contract for supplies or services from another agency for the purpose of avoiding the requirements of this part.

6.003 [Reserved]**Subpart 6.1—Full and Open Competition****6.100 Scope of subpart.**

This subpart prescribes the policy and procedures that are to be used to promote and provide for full and open competition.

6.101 Policy.

(a) The GPO policy is, with certain limited exceptions (see Subparts 6.2 and 6.3), that contracting officers shall promote and provide for full and open competition in soliciting offers and awarding Government contracts.

(b) Contracting officers shall provide for full and open competition through use of the competitive procedure(s) contained in this subpart that are best suited to the circumstances of the contract action and consistent with the need to fulfill the Government's requirements efficiently.

6.102 Use of competitive procedures.

The competitive procedures available for use in fulfilling the requirement for full and open competition are as follows:

(a) *Sealed bids.* (See 6.401(a).)

(b) *Competitive proposals.* (See 6.401(b).) If sealed bids are not appropriate under paragraph (a) of this section, contracting officers shall request competitive proposals or use the other competitive procedures under paragraph (c) or (d) of this section.

(c) *Combination of competitive procedures.* If sealed bids are not appropriate, contracting officers may use any combination of competitive procedures (*e.g.*, two-step sealed bidding).

(d) *Other competitive procedures.* (1) Selection of sources for architect-engineer contracts in accordance with the provisions of Pub. L. 92-582 (40 U.S.C. 541, *et seq.*) is a competitive procedure (see Subpart 36.6 for procedures).

(2) Competitive selection of basic and applied research and that part of development not related to the development of a specific system or hardware procurement is a competitive procedure if award results from—

(i) A broad agency announcement that is general in nature identifying areas of research interest, including criteria for selecting proposals, and soliciting the participation of all offerors capable of satisfying the Government's needs; and

(ii) A peer or scientific review.

(3) Use of multiple award schedules issued under the procedures established by the Administrator of General Services consistent with the requirement of 41 U.S.C. 259(b)(3)(A) for the multiple award schedule program of the General Services Administration is a competitive procedure.

Subpart 6.2—Full and Open Competition After Exclusion of Sources

6.200 Scope of subpart.

This subpart prescribes policy and procedures for providing for full and open competition after excluding one or more sources.

6.201 Policy.

Acquisitions made under this subpart require use of the competitive procedures prescribed in 6.102.

6.202 Establishing or maintaining alternative sources.

(a) Agencies may exclude a particular source from a contract action in order to establish or maintain an alternative source or sources for the supplies or services being acquired if the agency head determines that to do so would—

(1) Increase or maintain competition and likely result in reduced overall costs for the acquisition, or for any anticipated acquisition;

(2) Be in the interest of national defense in having a facility (or a producer, manufacturer, or other supplier) available for furnishing the supplies or services in case of a national emergency or industrial mobilization;

(3) Be in the interest of national defense in establishing or maintaining an essential engineering, research, or development capability to be provided by an educational or other nonprofit institution or a federally funded research and development center;

(4) Ensure the continuous availability of a reliable source of supplies or services;

(5) Satisfy projected needs based on a history of high demand; or

(6) Satisfy a critical need for medical, safety, or emergency supplies.

(b)(1) Every proposed contract action under the authority of paragraph (a) of this section shall be supported by a determination and findings (D&F) (see Subpart 1.7) signed by the head of the agency or designee. This D&F shall not be made on a class basis.

(2) Technical and requirements personnel are responsible for providing all necessary data to support their recommendation to exclude a particular source.

(3) When the authority in paragraph (a)(1) of this section is cited, the findings shall include a description of the estimated reduction in overall costs and how the estimate was derived.

6.205 [Reserved]

Subpart 6.3—Other Than Full and Open Competition

6.300 Scope of subpart.

This subpart prescribes policies and procedures, and identifies the statutory authorities, for contracting without providing for full and open competition.

6.301 Policy.

(a) Contracting without providing for full and open competition or full and open competition after exclusion of sources is a violation of statute, unless permitted by one of the exceptions in 6.302.

(b) Each contract awarded without providing for full and open competition shall contain a reference to the specific authority under which it was so awarded. Contracting officers shall use the U.S. Code citation applicable (see 6.302).

(c) Contracting without providing for full and open competition shall not be justified on the basis of—

(1) A lack of advance planning by the requiring activity; or

(2) Concerns related to the amount of funds available (*e.g.*, funds will expire) to the agency or activity for the acquisition of supplies or services.

(d) When not providing for full and open competition, the contracting officer shall solicit offers from as many potential sources as is practicable under the circumstances.

(e) For contracts under this subpart, the contracting officer shall use the contracting procedures prescribed in 6.102(a) or (b), if appropriate, or any other procedures authorized by this regulation.

6.302 Circumstances permitting other than full and open competition.

The following statutory authorities (including applications and limitations) permit contracting without providing for full and open competition. Requirements for justifications to support the use of these authorities are in 6.303.

6.302-1 Sole Source.

(a) *Authority.* (1) Citations: 41 U.S.C. 5(3). When only one source of supply is available and the contracting officer shall so certify.

(i) Supplies or services may be considered to be available from only one source if the source has submitted an unsolicited research proposal that—

(A) Demonstrates a unique and innovative concept (see definition at 2.101), or, demonstrates a unique capability of the source to provide the particular research services proposed;

(B) Offers a concept or services not otherwise available to the Government; and

(C) Does not resemble the substance of a pending competitive acquisition.

(ii) Supplies may be deemed to be available only from the original source in the case of a follow-on contract for the continued development or production of a major system or highly specialized equipment, including major components thereof, when it is likely that award to any other source would result in—

(A) Substantial duplication of cost to the Government that is not expected to be recovered through competition; or

(B) Unacceptable delays in fulfilling the agency's requirements.

(b) *Application.* This authority shall be used, if appropriate, in preference to the authority in 6.302-7; it shall not be used when any of the other circumstances is applicable. Use of this authority may be appropriate in situations such as the following (these examples are not intended to be all inclusive and do not constitute authority in and of themselves):

(1) When there is a reasonable basis to conclude that the agency's minimum needs can only be satisfied by—

(i) Unique supplies or services available from only one source or only one supplier with unique capabilities.

(2) The existence of limited rights in data, patent rights, copyrights, or secret processes; the control of basic raw material; or similar circumstances, make the supplies and services available from only one source (however, the mere existence of such rights or circumstances does not in and of itself justify the use of these authorities) (see Part 27).

(3) When acquiring utility services (see 41.101), circumstances may dictate that only one supplier can furnish the service (see 41.202); or when the contemplated contract is for construction of a part of a utility system and the utility company itself is the only source available to work on the system.

(4) When the agency head has determined in accordance with the agency's standardization program that only specified makes and models of technical equipment and parts will satisfy the agency's needs for additional units or replacement items, and only one source is available.

(c) *Application for brand name descriptions.* An acquisition that uses a brand name description or other purchase description to specify a particular brand name, product, or feature of a product, peculiar to one manufacturer does not provide for full and open competition regardless of the number of sources solicited. It shall be justified and approved in accordance with MMAR 6.303 and 6.304. The justification should indicate that the use of such descriptions in the acquisition is essential to the Government's requirements, thereby precluding consideration of a product manufactured by another company. (Brand-name or equal descriptions, and other purchase descriptions that permit prospective contractors to offer products other than those specifically referenced

by brand name, provide for full and open competition and do not require justifications and approvals to support their use.)

(d) *Limitations.* (1) Contracts awarded using this authority shall be supported by the written justifications and approvals described in 6.303 and 6.304.

(2) For contracts awarded using this authority, the notices required by 5.201 shall have been published and any bids and proposals must have been considered.

6.302-2 Public Exigency.

(a) *Authority.* (1) Citations: 41 U.S.C. 5(2).

(2) When the agency's need for the supplies or services is of such an unusual and compelling urgency that the Government would be seriously injured unless the agency is permitted to limit the number of sources from which it solicits bids or proposals, full and open competition need not be provided for.

(b) *Application.* This authority applies in those situations where—

(1) An unusual and compelling urgency precludes full and open competition; and

(2) Delay in award of a contract would result in serious injury, financial or other, to the Government.

(c) *Limitations.* (1) Contracts awarded using this authority shall be supported by the written justifications and approvals described in 6.303 and 6.304. These justifications may be made and approved after contract award when preparation and approval prior to award would unreasonably delay the acquisition.

(2) This statutory authority requires that agencies shall request offers from as many potential sources as is practicable under the circumstances.

6.302-3 [Reserved].

6.302-4 [Reserved].

6.302-5 Authorized or required by statute.

(a) *Authority.* (1) Citations: 41 U.S.C. 5.

(2) Full and open competition need not be provided for when—

(i) A statute expressly authorizes or requires that the acquisition be made through another agency or from a specified source; or

(ii) The agency's need is for a brand name commercial item for authorized resale.

(b) *Application.* This authority may be used when statutes, such as the following, expressly authorize or require that acquisition be made from a specified source or through another agency:

(1) Federal Prison Industries (UNICOR)—18 U.S.C. 4124 (see Subpart 8.6).

(2) Qualified Nonprofit Agencies for the Blind or other Severely Disabled—41 U.S.C. 46-48c (see Subpart 8.7).

(3) Government Printing and Binding—44 U.S.C. 501-504, 1121 (see Subpart 8.8).

(4) The Robert T. Stafford Disaster Relief and Emergency Assistance Act—42 U.S.C. 5150 (see Subpart 26.2).

6.302-6 [Reserved].

6.302-7 [Reserved].

6.303 Justifications.

6.303-1 Requirements.

(a) A contracting officer shall not commence negotiations for a sole source contract, commence negotiations for a contract resulting from an unsolicited proposal, or award any other contract without providing for full and open competition unless the contracting officer—

(1) Justifies, if required in 6.302, the use of such actions in writing;

(2) Certifies the accuracy and completeness of the justification; and

(3) Obtains the approval required by 6.304.

(b) Technical and requirements personnel are responsible for providing and certifying as accurate and complete necessary data to support their recommendation for other than full and open competition.

(c) Justifications required by paragraph (a) of this section may be made on an individual or class basis. Any justification for contracts awarded under the authority of 6.302-7 shall only be made on an individual basis. Whenever a justification is made and approved on a class basis, the contracting officer must ensure that each contract action taken pursuant to the authority of the class justification and approval is within the scope of the class justification and approval and shall document the contract file for each contract action accordingly.

(d) If the authority of 6.302-3(a)(2)(i) or 6.302-7 is being cited as a basis for not providing for full and open competition in an acquisition that would otherwise be subject to the Trade Agreements Act (see Subpart 25.4), the contracting officer must forward a copy of the justification, in accordance with agency procedures, to the agency's point of contact with the Office of the United States Trade Representative.

(e) The justifications for contracts awarded under the authority cited in 6.302-2 may be prepared and approved within a reasonable time after contract award when preparation and approval prior to award would unreasonably delay the acquisitions.

6.303-2 Content.

(a) Each justification shall contain sufficient facts and rationale to justify the use of the specific authority cited. As a minimum, each justification shall include the following information:

(1) Identification of the agency and the contracting activity, and specific identification of the document as a “Justification for other than full and open competition.”

(2) Nature and/or description of the action being approved.

(3) A description of the supplies or services required to meet the agency’s needs (including the estimated value).

(4) An identification of the statutory authority permitting other than full and open competition.

(5) A demonstration that the proposed contractor’s unique qualifications or the nature of the acquisition requires use of the authority cited.

(6) A description of efforts made to ensure that offers are solicited from as many potential sources as is practicable, including whether a notice was or will be publicized as required by Subpart 5.2 and, if not, which exception under 5.202 applies.

(7) A determination by the contracting officer that the anticipated cost to the Government will be fair and reasonable.

(8) A description of the market research conducted (see Part 10) and the results or a statement of the reason market research was not conducted.

(9) Any other facts supporting the use of other than full and open competition, such as:

(i) Explanation of why technical data packages, specifications, engineering descriptions, statements of work, or purchase descriptions suitable for full and open competition have not been developed or are not available.

(ii) When 6.302-1 is cited for follow-on acquisitions as described in 6.302-1(a)(2)(ii), an estimate of the cost to the Government that would be duplicated and how the estimate was derived.

(iii) When 6.302-2 is cited, data, estimated cost, or other rationale as to the extent and nature of the harm to the Government.

(10) A listing of the sources, if any, that expressed, in writing, an interest in the acquisition.

(11) A statement of the actions, if any, the agency may take to remove or overcome any barriers to competition before any subsequent acquisition for the supplies or services required.

(12) Contracting officer certification that the justification is accurate and complete to the best of the contracting officer’s knowledge and belief.

(b) Each justification shall include evidence that any supporting data that is the responsibility of technical or requirements personnel (*e.g.*, verifying the Government’s minimum

needs or schedule requirements or other rationale for other than full and open competition) and which form a basis for the justification have been certified as complete and accurate by the technical or requirements personnel.

6.304 Approval of the justification.

(a) Except for paragraph (b) of this section, the justification for other than full and open competition shall be approved in writing—

(1) For a proposed contract not exceeding \$500,000, the contracting officer’s certification required by 6.303-2(a)(12) will serve as approval unless a higher approving level is established in agency procedures.

(2) For a proposed contract over \$500,000 but not exceeding \$10,000,000, by an official described in paragraph (a)(3) or (a)(4) of this section. This authority is not delegable.

(3) For a proposed contract over \$10,000,000 but not exceeding \$50,000,000, by the head of the procuring activity, or a designee who—

(i) If a member of the armed forces, is a general or flag officer; or

(ii) If a civilian, is serving in a position in grade GS 16 or above under the General Schedule (or in a comparable or higher position under another schedule).

(4) For a proposed contract over \$50,000,000, by the senior procurement executive of the agency in accordance with agency procedures. This authority is not delegable.

(b) Any justification for a contract awarded under the authority of 6.302-7, regardless of dollar amount, shall be considered approved when the determination required by 6.302-7(c)(1) is made.

(c) A class justification for other than full and open competition shall be approved in writing in accordance with agency procedures. The approval level shall be determined by the estimated total value of the class.

(d) The estimated dollar value of all options shall be included in determining the approval level of a justification.

6.305 Availability of the justification.

(a) The justifications required by 6.303-1 and any related information shall be made available for public inspection. Contracting officers shall carefully screen all justifications for contractor proprietary data and remove all such data, and such references and citations as are necessary to protect the proprietary data, before making the justifications available for public inspection. Contracting officers shall also be guided by the exemptions to disclosure of information contained in the Freedom of Information Act (5 U.S.C. 552) and the prohibitions against disclosure in 24.202 in determining whether other data should be removed.

(b) If a Freedom of Information request is received, contracting officers shall comply with Subpart 24.2.

Subpart 6.4—Sealed Bidding and Competitive Proposals

6.401 Sealed bidding and competitive proposals.

Sealed bidding and competitive proposals, as described in Parts 14 and 15, are both acceptable procedures for use under Subparts 6.1, 6.2; and, when appropriate, under Subpart 6.3.

(a) *Sealed bids.* (See Part 14 for procedures.) Contracting officers shall solicit sealed bids if—

(1) Time permits the solicitation, submission, and evaluation of sealed bids;

(2) The award will be made on the basis of price and other price-related factors;

(3) It is not necessary to conduct discussions with the responding offerors about their bids; and

(4) There is a reasonable expectation of receiving more than one sealed bid.

(b) *Competitive proposals.* (See Part 15 for procedures.)

(1) Contracting officers may request competitive proposals if sealed bids are not appropriate under paragraph (a) of this section.

(2) Because of differences in areas such as law, regulations, and business practices, it is generally necessary to conduct discussions with offerors relative to proposed contracts to be made and performed outside the United States, its possessions, or Puerto Rico. Competitive proposals will therefore be used for these contracts unless discussions are not required and the use of sealed bids is otherwise appropriate.

This page intentionally left blank.

7.000 Scope of part.

This part prescribes policies and procedures for—

- (a) Developing acquisition plans;
- (b) Determining whether to use commercial or Government resources for acquisition of supplies or services;
- (c) Deciding whether it is more economical to lease equipment rather than purchase it; and
- (d) Determining whether functions are inherently governmental.

Subpart 7.1—Acquisition Plans

7.101 Definitions.

As used in this subpart—

“Acquisition streamlining” means any effort that results in more efficient and effective use of resources to design and develop, or produce quality systems. This includes ensuring that only necessary and cost-effective requirements are included, at the most appropriate time in the acquisition cycle, in solicitations and resulting contracts for the design, development, and production of new systems, or for modifications to existing systems that involve redesign of systems or subsystems.

“Life-cycle cost” means the total cost to the Government of acquiring, operating, supporting, and (if applicable) disposing of the items being acquired.

“Order” means an order placed under a—

- (1) Federal Supply Schedule contract; or
- (2) Task-order contract or delivery-order contract awarded by another agency, (*i.e.*, Governmentwide acquisition contract or multi-agency contract).

“Planner” means the designated person or office responsible for developing and maintaining a written plan, or for the planning function in those acquisitions not requiring a written plan.

7.102 Policy.

(a) Agencies shall perform acquisition planning and conduct market research (see Part 10) for all acquisitions in order to promote and provide for—

- (1) Acquisition of commercial items or, to the extent that commercial items suitable to meet the agency's needs are not available, nondevelopmental items, to the maximum extent practicable; and
- (2) Full and open competition (see Part 6) or, when full and open competition is not required in accordance with Part 6, to obtain competition to the maximum extent practicable, with due regard to the nature of the supplies or services to be acquired.

(b) This planning shall integrate the efforts of all personnel responsible for significant aspects of the acquisition. The purpose of this planning is to ensure that the Government meets its needs in the most effective, economical, and

timely manner. Agencies that have a detailed acquisition planning system in place that generally meets the requirements of 7.104 and 7.105 need not revise their system to specifically meet all of these requirements.

7.103 Agency-head responsibilities.

The agency head or a designee shall prescribe procedures for—

(a) Promoting and providing for full and open competition (see Part 6) or, when full and open competition is not required in accordance with Part 6, for obtaining competition to the maximum extent practicable, with due regard to the nature of the supplies and services to be acquired.

(b) Encouraging offerors to supply commercial items, or to the extent that commercial items suitable to meet the agency needs are not available, nondevelopmental items in response to agency solicitations; and

(c) Ensuring that acquisition planners address the requirement to specify needs, develop specifications, and to solicit offers in such a manner to promote and provide for full and open competition with due regard to the nature of the supplies and services to be acquired. (See Part 6 and 10.002.)

(d) Establishing criteria and thresholds at which increasingly greater detail and formality in the planning process is required as the acquisition becomes more complex and costly, specifying those cases in which a written plan shall be prepared.

(e) Writing plans either on a systems basis, on an individual contract basis, or on an individual order basis, depending upon the acquisition.

(f) Ensuring that the principles of this subpart are used, as appropriate, for those acquisitions that do not require a written plan as well as for those that do.

(g) Designating planners for acquisitions.

(h) Reviewing and approving acquisition plans and revisions to these plans.

(i) Establishing criteria and thresholds at which design-to-cost and life-cycle-cost techniques will be used.

(j) Establishing standard acquisition plan formats, if desired, suitable to agency needs; and

(k) Waiving requirements of detail and formality, as necessary, in planning for acquisitions having compressed delivery or performance schedules because of the urgency of the need.

(l) Assuring that the contracting officer, prior to contracting, reviews:

- (1) The acquisition history of the supplies and services; and
- (2) A description of the supplies, including, when necessary for adequate description, a picture, drawing, diagram, or other graphic representation.

(m) Ensuring that agency planners include use of the metric system of measurement in proposed acquisitions in accordance with 15 U.S.C. 205b (see 11.002(b)) and agency metric plans and guidelines.

(n) Ensuring that agency planners—

(1) Specify needs for printing and writing paper consistent with the minimum content standards specified in section 505 of Executive Order 13101 of September 14, 1998, Greening the Government through Waste Prevention, Recycling, and Federal Acquisition (see 11.303); and

(2) Comply with the policy in 11.002(d) regarding procurement of products containing recovered materials, and environmentally preferable and energy-efficient products and services.

(o) Ensuring that acquisition planners specify needs and develop plans, drawings, work statements, specifications, or other product descriptions that address Electronic and Information Technology Accessibility Standards (see 36 CFR part 1194) in proposed acquisitions (see 11.002(e)) and that these standards are included in requirements planning, as appropriate (see Subpart 39.2).

(p) Making a determination, prior to issuance of a solicitation for advisory and assistance services involving the analysis and evaluation of proposals submitted in response to a solicitation, that a sufficient number of covered personnel with the training and capability to perform an evaluation and analysis of proposals submitted in response to a solicitation are not readily available within the agency or from another Federal agency in accordance with the guidelines at 37.204.

(q) Ensuring that no purchase request is initiated or contract entered into that would result in the performance of an inherently governmental function by a contractor and that all contracts or orders are adequately managed so as to ensure effective official control over contract or order performance.

(r) Ensuring that knowledge gained from prior acquisitions is used to further refine requirements and acquisition strategies. For services, greater use of performance-based contracting methods and, therefore, fixed-price contracts (see 37.602-5) should occur for follow-on acquisitions.

(s) Ensuring that acquisition planners, to the maximum extent practicable—

(1) Structure contract requirements to facilitate competition by and among small business concerns; and

(2) Avoid unnecessary and unjustified bundling that precludes small business participation as contractors.

(t) Ensuring that agency planners on information technology acquisitions comply with the capital planning and investment control requirements in 40 U.S.C. 1422 and OMB Circular A-130.

7.104 General procedures.

(a) Acquisition planning should begin as soon as the agency need is identified, preferably well in advance of the fiscal year in which contract award or order placement is necessary. In developing the plan, the planner shall form a team consisting of all those who will be responsible for significant aspects of the acquisition, such as contracting, fiscal, legal, and technical personnel. The planner should review previous plans for similar acquisitions and discuss them with the key personnel involved in those acquisitions. At key dates specified in the plan or whenever significant changes occur, and no less often than annually, the planner shall review the plan and, if appropriate, revise it.

(b) Requirements and logistics personnel should avoid issuing requirements on an urgent basis or with unrealistic delivery or performance schedules, since it generally restricts competition and increases prices. Early in the planning process, the planner should consult with requirements and logistics personnel who determine type, quality, quantity, and delivery requirements.

(c) The planner shall coordinate with and secure the concurrence of the contracting officer in all acquisition planning. If the plan proposes using other than full and open competition.

7.105 Contents of written acquisition plans.

In order to facilitate attainment of the acquisition objectives, the plan must identify those milestones at which decisions should be made (see paragraph (b)(18) of this section). The plan must address all the technical, business, management, and other significant considerations that will control the acquisition. The specific content of plans will vary, depending on the nature, circumstances, and stage of the acquisition. In preparing the plan, the planner must follow the applicable instructions in paragraphs (a) and (b) of this section, together with the agency's implementing procedures. Acquisition plans for service contracts or orders must describe the strategies for implementing performance-based contracting methods or must provide rationale for not using those methods (see Subpart 37.6).

(a) *Acquisition background and objectives*—(1) *Statement of need.* Introduce the plan by a brief statement of need. Summarize the technical and contractual history of the acquisition. Discuss feasible acquisition alternatives, the impact of prior acquisitions on those alternatives, and any related in-house effort.

(2) *Applicable conditions.* State all significant conditions affecting the acquisition, such as—

(i) Requirements for compatibility with existing or future systems or programs; and

(ii) Any known cost, schedule, and capability or performance constraints.

(3) *Cost*. Set forth the established cost goals for the acquisition and the rationale supporting them, and discuss related cost concepts to be employed, including, as appropriate, the following items:

(i) *Life-cycle cost*. Discuss how life-cycle cost will be considered. If it is not used, explain why. If appropriate, discuss the cost model used to develop life-cycle-cost estimates.

(ii) *Design-to-cost*. Describe the design-to-cost objective(s) and underlying assumptions, including the rationale for quantity, learning-curve, and economic adjustment factors. Describe how objectives are to be applied, tracked, and enforced. Indicate specific related solicitation and contractual requirements to be imposed.

(iii) *Application of should-cost*. Describe the application of should-cost analysis to the acquisition (see 15.407-4).

(4) *Capability or performance*. Specify the required capabilities or performance characteristics of the supplies or the performance standards of the services being acquired and state how they are related to the need.

(5) *Delivery or performance-period requirements*. Describe the basis for establishing delivery or performance-period requirements (see Subpart 11.4). Explain and provide reasons for any urgency if it results in concurrency of development and production or constitutes justification for not providing for full and open competition.

(6) *Trade-offs*. Discuss the expected consequences of trade-offs among the various cost, capability or performance, and schedule goals.

(7) *Risks*. Discuss technical, cost, and schedule risks and describe what efforts are planned or underway to reduce risk and the consequences of failure to achieve goals. If concurrency of development and production is planned, discuss its effects on cost and schedule risks.

(8) *Acquisition streamlining*. If specifically designated by the requiring agency as a program subject to acquisition streamlining, discuss plans and procedures to—

(i) Encourage industry participation by using draft solicitations, presolicitation conferences, and other means of stimulating industry involvement during design and development in recommending the most appropriate application and tailoring of contract requirements;

(ii) Select and tailor only the necessary and cost-effective requirements; and

(iii) State the timeframe for identifying which of those specifications and standards, originally provided for guidance only, shall become mandatory.

(b) *Plan of action*—(1) *Sources*. Indicate the prospective sources of supplies or services that can meet the need. Consider required sources of supplies or services (see Part 8). Include consideration of small business, veteran-owned small business, service-disabled veteran-owned small busi-

ness, HUBZone small business, small disadvantaged business, and women-owned small business concerns (see Part 19), and the impact of any bundling that might affect their participation in the acquisition (see 7.107). Address the extent and results of the market research and indicate their impact on the various elements of the plan (see Part 10).

(2) *Competition*. (i) Describe how competition will be sought, promoted, and sustained throughout the course of the acquisition. If full and open competition is not contemplated, cite the authority in 6.302, discuss the basis for the application of that authority, identify the source(s), and discuss why full and open competition cannot be obtained.

(ii) Identify the major components or subsystems. Discuss component breakout plans relative to these major components or subsystems. Describe how competition will be sought, promoted, and sustained for these components or subsystems.

(iii) Describe how competition will be sought, promoted, and sustained for spares and repair parts. Identify the key logistic milestones, such as technical data delivery schedules and acquisition method coding conferences, that affect competition.

(iv) When effective subcontract competition is both feasible and desirable, describe how such subcontract competition will be sought, promoted, and sustained throughout the course of the acquisition. Identify any known barriers to increasing subcontract competition and address how to overcome them.

(3) *Source-selection procedures*. Discuss the source-selection procedures for the acquisition, including the timing for submission and evaluation of proposals, and the relationship of evaluation factors to the attainment of the acquisition objectives (see Subpart 15.3).

(4) *Acquisition considerations*. (i) For each contract contemplated, discuss contract type selection (see Part 16); use of multiyear contracting, options, or other special contracting methods (see Part 17); any special clauses, special solicitation provisions, or MMAR deviations required (see Subpart 1.4); whether sealed bidding or negotiation will be used and why; whether equipment will be acquired by lease or purchase (see Subpart 7.4) and why; and any other contracting considerations. Provide rationale if a performance-based contract will not be used or if a performance-based contract for services is contemplated on other than a firm fixed price basis (see 37.102(a) and 16.505(a)(3)).

(ii) For each order contemplated, discuss—

(A) Why this action benefits the Government, such as when—

(1) The agency can accomplish its mission more efficiently and effectively (*e.g.*, take advantage of the servicing agency's specialized expertise; or gain access to contractors with needed expertise).

(5) *Budgeting and funding.* Include budget estimates, explain how they were derived, and discuss the schedule for obtaining adequate funds at the time they are required (see Subpart 32.7).

(6) *Product or service descriptions.* Explain the choice of product or service description types (including performance-based contracting descriptions) to be used in the acquisition.

(7) *Priorities, allocations, and allotments.* When urgency of the requirement dictates a particularly short delivery or performance schedule, certain priorities may apply. If so, specify the method for obtaining and using priorities, allocations, and allotments, and the reasons for them (see Subpart 11.6).

(8) [Reserved].

(9) *Inherently governmental functions.* Address the consideration given to OFPP Policy Letter 92-1 (see Subpart 7.5).

(10) *Management information requirements.* Discuss, as appropriate, what management system will be used by the Government to monitor the contractor's effort.

(11) *Make or buy.* Discuss any consideration given to make-or-buy programs (see 15.407-2).

(12) *Test and evaluation.* To the extent applicable, describe the test program of the contractor and the Government. Describe the test program for each major phase of a major system acquisition. If concurrency is planned, discuss the extent of testing to be accomplished before production release.

(13) *Logistics considerations.* Describe—

(i) The assumptions determining contractor or agency support, both initially and over the life of the acquisition, including consideration of contractor or agency maintenance and servicing (see Subpart 7.3) and distribution of commercial items;

(ii) The reliability, maintainability, and quality assurance requirements, including any planned use of warranties (see Part 46);

(iii) The requirements for contractor data (including repurchase data) and data rights, their estimated cost, and the use to be made of the data (see Part 27); and

(iv) Standardization concepts, including the necessity to designate, in accordance with agency procedures, technical equipment as "standard" so that future purchases of the equipment can be made from the same manufacturing source.

(14) *Government-furnished property.* Indicate any property to be furnished to contractors, including material and facilities, and discuss any associated considerations, such as its availability or the schedule for its acquisition (see Part 45).

(15) *Government-furnished information.* Discuss any Government information, such as manuals, drawings, and test data, to be provided to prospective offerors and contractors.

(16) *Environmental and energy conservation objectives.* Discuss all applicable environmental and energy conservation objectives associated with the acquisition (see Part 23), the applicability of an environmental assessment or environmental impact statement (see 40 CFR 1502), the proposed resolution of environmental issues, and any environmentally-related requirements to be included in solicitations and contracts.

(17) *Security considerations.* For acquisitions dealing with classified matters, discuss how adequate security will be established, maintained, and monitored (see Subpart 4.4).

(18) *Contract administration.* Describe how the contract will be administered. In contracts for services, include how inspection and acceptance corresponding to the work statement's performance criteria will be enforced.

(19) *Other considerations.* Discuss, as applicable, standardization concepts, the industrial readiness program, the Defense Production Act, the Occupational Safety and Health Act, foreign sales implications, and any other matters germane to the plan not covered elsewhere.

(20) *Milestones for the acquisition cycle.* Address the following steps and any others appropriate:

- Acquisition plan approval.
- Statement of work.
- Specifications.
- Data requirements.
- Completion of acquisition-package preparation.
- Purchase request.
- Justification and approval for other than full and open competition where applicable and/or any required D&F approval.
- Issuance of synopsis.
- Issuance of solicitation.
- Evaluation of proposals, audits, and field reports.
- Beginning and completion of negotiations.
- Contract preparation, review, and clearance.
- Contract award.

(21) *Identification of participants in acquisition plan preparation.* List the individuals who participated in preparing the acquisition plan, giving contact information for each.

7.106 Additional requirements for major systems.

(a) In planning for the solicitation of a major system (see Part 34) development contract, planners shall consider requiring offerors to include, in their offers, proposals to incorporate in the design of a major system—

(1) Items which are currently available within the supply system of the agency responsible for the major system, available elsewhere in the national supply system, or commercially available from more than one source; and

(2) Items which the Government will be able to acquire competitively in the future if they are likely to be needed in substantial quantities during the system's service life.

(b) In planning for the solicitation of a major system (see Part 34) production contract, planners shall consider requiring offerors to include, in their offers, proposals identifying opportunities to assure that the Government will be able to obtain, on a competitive basis, items acquired in connection with the system that are likely to be acquired in substantial quantities during the service life of the system. Proposals submitted in response to such requirements may include the following:

(1) Proposals to provide the Government the right to use technical data to be provided under the contract for competitive future acquisitions, together with the cost to the Government, if any, of acquiring such technical data and the right to use such data.

(2) Proposals for the qualification or development of multiple sources of supply for competitive future acquisitions.

(c) In determining whether to apply paragraphs (a) and (b) of this section, planners shall consider the purposes for which the system is being acquired and the technology necessary to meet the system's required capabilities. If such proposals are required, the contracting officer shall consider them in evaluating competing offers. In noncompetitive awards, the factors in paragraphs (a) and (b) of this section, may be considered by the contracting officer as objectives in negotiating the contract.

7.107 Additional requirements for acquisitions involving bundling.

(a) Bundling may provide substantial benefits to the Government. However, because of the potential impact on small business participation, the head of the agency must conduct market research to determine whether bundling is necessary and justified. Market research may indicate that bundling is necessary and justified if an agency would derive measurably substantial benefits (see 10.001(a)(2)(iv) and (a)(3)(vi)).

(b) Measurably substantial benefits may include, individually or in any combination or aggregate, cost savings or price reduction, quality improvements that will save time or improve or enhance performance or efficiency, reduction in acquisition cycle times, better terms and conditions, and any other benefits. The agency must quantify the identified benefits and explain how their impact would be measurably substantial. Except as provided in paragraph (d) of this sec-

tion, the agency may determine bundling to be necessary and justified if, as compared to the benefits that it would derive from contracting to meet those requirements if not bundled, it would derive measurably substantial benefits equivalent to—

(1) Ten percent of the estimated contract value (including options) if the value is \$75 million or less; or

(2) Five percent of the estimated contract value (including options) or \$7.5 million, whichever is greater, if the value exceeds \$75 million.

(c) Without power of delegation, the service acquisition executive for the military departments, the Under Secretary of Defense for Acquisition, Technology and Logistics for the defense agencies, or the Deputy Secretary or equivalent for the civilian agencies may determine that bundling is necessary and justified when—

(1) The expected benefits do not meet the thresholds in paragraphs (b)(1) and (b)(2) of this section but are critical to the agency's mission success; and

(2) The acquisition strategy provides for maximum practicable participation by small business concerns.

(d) Reduction of administrative or personnel costs alone is not sufficient justification for bundling unless the cost savings are expected to be at least 10 percent of the estimated contract value (including options) of the bundled requirements.

(e) Substantial bundling is any bundling that results in a contract with an average annual value of \$10 million or more. When the proposed acquisition strategy involves substantial bundling, the acquisition strategy must—

(1) Identify the specific benefits anticipated to be derived from bundling;

(2) Include an assessment of the specific impediments to participation by small business concerns as contractors that result from bundling;

(3) Specify actions designed to maximize small business participation as contractors, including provisions that encourage small business teaming;

(4) Specify actions designed to maximize small business participation as subcontractors (including suppliers) at any tier under the contract or contracts that may be awarded to meet the requirements; and

(5) Include a specific determination that the anticipated benefits of the proposed bundled contract justify its use.

(f) The contracting officer must justify bundling in acquisition strategy documentation.

(g) In assessing whether cost savings would be achieved through bundling, the contracting officer must consider the cost that has been charged or, where data is available, could be charged by small business concerns for the same or similar work.

(h) The requirements of this section, except for paragraph (e), do not apply if a cost comparison analysis will be performed in accordance with OMB Circular A-76.

Subpart 7.2—Planning for the Purchase of Supplies in Economic Quantities

7.200 Scope of subpart.

This subpart prescribes policies and procedures for gathering information from offerors to assist the Government in planning the most advantageous quantities in which supplies should be purchased.

7.201 [Reserved]

7.202 Policy.

(a) The agency should procure supplies in such quantity as—

(1) Will result in the total cost and unit cost most advantageous to the Government, where practicable; and

(2) Does not exceed the quantity reasonably expected to be required by the agency.

(b) Each solicitation for a contract for supplies is required, if practicable, to include a provision inviting each offeror responding to the solicitation—

(1) To state an opinion on whether the quantity of the supplies proposed to be acquired is economically advantageous to the Government; and

(2) If applicable, to recommend a quantity or quantities which would be more economically advantageous to the Government. Each such recommendation is required to include a quotation of the total price and the unit price for supplies procured in each recommended quantity.

7.203 Solicitation provision.

Contracting officers shall insert the provision at 52.207-4, Economic Purchase Quantity—Supplies, in solicitations for

supplies. The provision need not be inserted if the solicitation is for a contract under the General Services Administration's multiple award schedule contract program, or if the contracting officer determines that—

(a) The Government already has the data;

(b) The data is otherwise readily available; or

(c) It is impracticable for the Government to vary its future requirements.

7.204 Responsibilities of contracting officers.

(a) Contracting officers are responsible for transmitting offeror responses to the solicitation provision at 52.207-4 to appropriate inventory management/requirements development activities in accordance with agency procedures. The economic purchase quantity data so obtained are intended to assist inventory managers in establishing and evaluating economic order quantities for supplies under their cognizance.

(b) In recognition of the fact that economic purchase quantity data furnished by offerors are only one of many data inputs required for determining the most economical order quantities, contracting officers should generally take no action to revise quantities to be acquired in connection with the instant procurement. However, if a significant price variation is evident from offeror responses, and the potential for significant savings is apparent, the contracting officer shall consult with the cognizant inventory manager or requirements development activity before proceeding with an award or negotiations. If this consultation discloses that the Government should be ordering an item of supply in different quantities and the inventory manager/requirements development activity concurs, the solicitation for the item should be amended or canceled and a new requisition should be obtained.

Subpart 7.3—[Reserved]

Subpart 7.4—Equipment Lease or Purchase

7.400 Scope of subpart.

This subpart provides guidance pertaining to the decision to acquire equipment by lease or purchase. It applies to both the initial acquisition of equipment and the renewal or extension of existing equipment leases.

7.401 Acquisition considerations.

(a) Agencies should consider whether to lease or purchase equipment based on a case-by-case evaluation of comparative costs and other factors. The following factors are the minimum that should be considered:

- (1) Estimated length of the period the equipment is to be used and the extent of use within that period.
- (2) Financial and operating advantages of alternative types and makes of equipment.
- (3) Cumulative rental payments for the estimated period of use.
- (4) Net purchase price.
- (5) Transportation and installation costs.
- (6) Maintenance and other service costs.
- (7) Potential obsolescence of the equipment because of imminent technological improvements.

(b) The following additional factors should be considered, as appropriate, depending on the type, cost, complexity, and estimated period of use of the equipment:

- (1) Availability of purchase options.
- (2) Potential for use of the equipment by other agencies after its use by the acquiring agency is ended.
- (3) Trade-in or salvage value.
- (4) Imputed interest.
- (5) Availability of a servicing capability, especially for highly complex equipment; *e.g.*, can the equipment be serviced by the Government or other sources if it is purchased?

7.402 Acquisition methods.

(a) *Purchase method.* (1) Generally, the purchase method is appropriate if the equipment will be used beyond the point in time when cumulative leasing costs exceed the purchase costs.

(2) Agencies should not rule out the purchase method of equipment acquisition in favor of leasing merely because of the possibility that future technological advances might make the selected equipment less desirable.

(b) *Lease method.* (1) The lease method is appropriate if it is to the Government's advantage under the circumstances. The lease method may also serve as an interim measure when the circumstances—

- (i) Require immediate use of equipment to meet program or system goals; but
- (ii) Do not currently support acquisition by purchase.

(2) If a lease is justified, a lease with option to purchase is preferable.

(3) Generally, a long term lease should be avoided, but may be appropriate if an option to purchase or other favorable terms are included.

(4) If a lease with option to purchase is used, the contract shall state the purchase price or provide a formula which shows how the purchase price will be established at the time of purchase.

7.403 General Services Administration assistance.

(a) When requested by an agency, the General Services Administration (GSA) will assist in lease or purchase decisions by providing information such as—

- (1) Pending price adjustments to Federal Supply Schedule contracts;
- (2) Recent or imminent technological developments;
- (3) New techniques; and
- (4) Industry or market trends.

(b) Agencies may request information from the following GSA offices:

- (1) Center for Strategic IT Analysis (MKS), Washington, DC 20405, for information on acquisition of information technology.
- (2) Federal Supply Service, Office of Acquisition (FC), Washington, DC 20406, for information on other types of equipment.

7.404 Contract clause.

The contracting officer shall insert a clause substantially the same as the clause in 52.207-5, Option to Purchase Equipment, in solicitations and contracts involving a lease with option to purchase.

Subpart 7.5—Inherently Governmental Functions

7.500 Scope of subpart.

The purpose of this subpart is to prescribe policies and procedures to ensure that inherently governmental functions are not performed by contractors. It implements the policies of Office of Federal Procurement Policy (OFPP) Policy Letter 92-1, Inherently Governmental Functions.

7.501 [Reserved]

7.502 Applicability.

The requirements of this subpart apply to all contracts for services. This subpart does not apply to services obtained through either personnel appointments, advisory committees, or personal services contracts issued under statutory authority.

7.503 Policy.

(a) Contracts shall not be used for the performance of inherently governmental functions.

(b) Agency decisions which determine whether a function is or is not an inherently governmental function may be reviewed and modified by appropriate Office of Management and Budget officials.

(c) The following is a list of examples of functions considered to be inherently governmental functions or which shall be treated as such. This list is not all inclusive:

- (1) The direct conduct of criminal investigations.
- (2) The control of prosecutions and performance of adjudicatory functions other than those relating to arbitration or other methods of alternative dispute resolution.
- (3) The command of military forces, especially the leadership of military personnel who are members of the combat, combat support, or combat service support role.
- (4) The conduct of foreign relations and the determination of foreign policy.
- (5) The determination of agency policy, such as determining the content and application of regulations, among other things.
- (6) The determination of Federal program priorities for budget requests.
- (7) The direction and control of Federal employees.
- (8) The direction and control of intelligence and counter-intelligence operations.
- (9) The selection or non-selection of individuals for Federal Government employment, including the interviewing of individuals for employment.
- (10) The approval of position descriptions and performance standards for Federal employees.

(11) The determination of what Government property is to be disposed of and on what terms (although an agency may give contractors authority to dispose of property at prices within specified ranges and subject to other reasonable conditions deemed appropriate by the agency).

(12) In Federal procurement activities with respect to prime contracts—

(i) Determining what supplies or services are to be acquired by the Government (although an agency may give contractors authority to acquire supplies at prices within specified ranges and subject to other reasonable conditions deemed appropriate by the agency);

(ii) Participating as a voting member on any source selection boards;

(iii) Approving any contractual documents, to include documents defining requirements, incentive plans, and evaluation criteria;

(iv) Awarding contracts;

(v) Administering contracts (including ordering changes in contract performance or contract quantities, taking action based on evaluations of contractor performance, and accepting or rejecting contractor products or services);

(vi) Terminating contracts;

(vii) Determining whether contract costs are reasonable, allocable, and allowable; and

(viii) Participating as a voting member on performance evaluation boards.

(13) The approval of agency responses to Freedom of Information Act requests (other than routine responses that, because of statute, regulation, or agency policy, do not require the exercise of judgment in determining whether documents are to be released or withheld), and the approval of agency responses to the administrative appeals of denials of Freedom of Information Act requests.

(14) The conduct of administrative hearings to determine the eligibility of any person for a security clearance, or involving actions that affect matters of personal reputation or eligibility to participate in Government programs.

(15) The approval of Federal licensing actions and inspections.

(16) The determination of budget policy, guidance, and strategy.

(17) The collection, control, and disbursement of fees, royalties, duties, fines, taxes, and other public funds, unless authorized by statute, such as 31 U.S.C. 952 (relating to private collection contractors) and 31 U.S.C. 3718 (relating to private attorney collection services), but not including—

(i) Collection of fees, fines, penalties, costs, or other charges from visitors to or patrons of mess halls, post or base exchange concessions, national parks, and similar entities or activities, or from other persons, where the amount to be collected is easily calculated or predetermined

and the funds collected can be easily controlled using standard case management techniques; and

(ii) Routine voucher and invoice examination.

(18) The control of the treasury accounts.

(19) The administration of public trusts.

(20) The drafting of Congressional testimony, responses to Congressional correspondence, or agency responses to audit reports from the Inspector General, the General Accounting Office, or other Federal audit entity.

(d) The following is a list of examples of functions generally not considered to be inherently governmental functions. However, certain services and actions that are not considered to be inherently governmental functions may approach being in that category because of the nature of the function, the manner in which the contractor performs the contract, or the manner in which the Government administers contractor performance. This list is not all inclusive:

(1) Services that involve or relate to budget preparation, including workload modeling, fact finding, efficiency studies, and should-cost analyses, etc.

(2) Services that involve or relate to reorganization and planning activities.

(3) Services that involve or relate to analyses, feasibility studies, and strategy options to be used by agency personnel in developing policy.

(4) Services that involve or relate to the development of regulations.

(5) Services that involve or relate to the evaluation of another contractor's performance.

(6) Services in support of acquisition planning.

(7) Contractors providing assistance in contract management (such as where the contractor might influence official evaluations of other contractors).

(8) Contractors providing technical evaluation of contract proposals.

(9) Contractors providing assistance in the development of statements of work.

(10) Contractors providing support in preparing responses to Freedom of Information Act requests.

(11) Contractors working in any situation that permits or might permit them to gain access to confidential business information and/or any other sensitive information (other than situations covered by the National Industrial Security Program described in 4.402(b)).

(12) Contractors providing information regarding agency policies or regulations, such as attending conferences on behalf of an agency, conducting community relations campaigns, or conducting agency training courses.

(13) Contractors participating in any situation where it might be assumed that they are agency employees or representatives.

(14) Contractors participating as technical advisors to a source selection board or participating as voting or nonvoting members of a source evaluation board.

(15) Contractors serving as arbitrators or providing alternative methods of dispute resolution.

(16) Contractors constructing buildings or structures intended to be secure from electronic eavesdropping or other penetration by foreign governments.

(17) Contractors providing inspection services.

(18) Contractors providing legal advice and interpretations of regulations and statutes to Government officials.

(19) Contractors providing special non-law enforcement, security activities that do not directly involve criminal investigations, such as prisoner detention or transport and non-military national security details.

(e) Agency implementation shall include procedures requiring the agency head or designated requirements official to provide the contracting officer, concurrent with transmittal of the statement of work (or any modification thereof), a written determination that none of the functions to be performed are inherently governmental. This assessment should place emphasis on the degree to which conditions and facts restrict the discretionary authority, decision-making responsibility, or accountability of Government officials using contractor services or work products. Disagreements regarding the determination will be resolved in accordance with agency procedures before issuance of a solicitation.

Subpart 8.11—Leasing of Motor Vehicles

- 8.1100 Scope of subpart.
- 8.1101 Definitions.
- 8.1102 [Reserved]
- 8.1103 Contract requirements.
- 8.1104 Contract clauses.

This page intentionally left blank.

8.000 Scope of part.

This part deals with the acquisition of supplies and services from or through Government supply sources.

8.001 General.

Regardless of the source of supplies or services to be acquired, information technology acquisitions shall comply with capital planning and investment control requirements.

8.002 Priorities for use of Government supply sources.

(a) Except as required by 8.003, or as otherwise provided by law, agencies shall satisfy requirements for supplies and services from or through the sources and publications listed below in descending order of priority—

- (1) *Supplies.* (i) Agency inventories;
- (ii) Excess from other agencies (see Subpart 8.1);
- (iii) Federal Prison Industries, Inc. (see Subpart 8.6);
- (iv) Products available from the Committee for Purchase From People Who Are Blind or Severely Disabled (see Subpart 8.7);
- (v) Wholesale supply sources, such as stock programs of the General Services Administration (GSA) (see 41 CFR 101-26.3), the Defense Logistics Agency (see 41 CFR 101-26.6), the Department of Veterans Affairs (see 41 CFR 101-26.704), and military inventory control points;
- (vi) Mandatory Federal Supply Schedules (see Subpart 8.4);
- (vii) Optional use Federal Supply Schedules (see Subpart 8.4); and
- (viii) Commercial sources (including educational and nonprofit institutions).
- (2) *Services.* (i) Services available from the Committee for Purchase From People Who Are Blind or Severely Disabled (see Subpart 8.7);
- (ii) Mandatory Federal Supply Schedules (see Subpart 8.4);
- (iii) Optional use Federal Supply Schedules (see Subpart 8.4); and
- (iv) Federal Prison Industries, Inc. (see Subpart 8.6), or commercial sources (including educational and nonprofit institutions).

(b) Sources other than those listed in paragraph (a) of this section may be used in an unusual and compelling urgency.

(c) The statutory obligation for Government agencies to satisfy their requirements for supplies or services available from the Committee for Purchase From People Who Are Blind or Severely Disabled also applies when contractors purchase the supplies or services for Government use.

8.003 Use of other Government supply sources.

Agencies shall satisfy requirements for the following supplies or services from or through specified sources, as applicable:

- (a) Public utility services (see Part 41);
- (b) Printing and related supplies (see Subpart 8.8);
- (c) Leased motor vehicles (see Subpart 8.11);
- (d) Strategic and critical materials (*e.g.*, metals and ores) from inventories exceeding Defense National Stockpile requirements (detailed information is available from the—

Defense National Stockpile Center
8725 John J. Kingman Rd., Suite 4528
Fort Belvoir, VA 22060-6223; and
- (e) Helium (see Subpart 8.5—Acquisition of Helium).

8.004 Contract clause.

Insert the clause at 52.208-9, Contractor Use of Mandatory Sources of Supply and Services, in solicitations and contracts that require a contractor to provide supplies or services for Government use that are available from the Committee for Purchase From People Who Are Blind or Severely Disabled. The contracting officer shall identify in the contract schedule the supplies or services that shall be purchased from a mandatory source and the specific source.

Subpart 8.1—Excess Personal Property

8.101 Definition.

“Excess personal property” means any personal property (see 45.601) under the control of a Federal agency that the agency head or a designee determines is not required for its needs and for the discharge of its responsibilities.

8.102 Policy.

When practicable, agencies must use excess personal property as the first source of supply for agency and cost-reimbursement contractor requirements. Agency personnel must make positive efforts to satisfy agency requirements by obtaining and using excess personal property (including that suitable for adaptation or substitution) before initiating a contract action.

8.103 Information on available excess personal property.

Information regarding the availability of excess personal property can be obtained through—

- (a) Review of excess personal property catalogs and bulletins issued by the General Services Administration (GSA);
- (b) Personal contact with GSA or the activity holding the property;

(c) Submission of supply requirements to the regional offices of GSA (GSA Form 1539, Request for Excess Personal Property, is available for this purpose); and

(d) Examination and inspection of reports and samples of excess personal property in GSA regional offices.

8.104 Obtaining nonreportable property.

GSA will assist agencies in meeting their requirements for supplies of the types excepted from reporting as excess by the Federal Property Management Regulations (41 CFR 101-43.312). Federal agencies requiring such supplies should contact the appropriate GSA regional office.

Subpart 8.2—[Reserved]

Subpart 8.3—[Reserved]

Subpart 8.4—Federal Supply Schedules

8.401 General.

(a) The Federal Supply Schedule program, directed and managed by the General Services Administration (GSA), provides Federal agencies with a simplified process for obtaining commonly used commercial supplies and services at prices associated with volume buying (also see 8.002). Indefinite delivery contracts (including requirements contracts) are established with commercial firms to provide supplies and services at stated prices for given periods of time. Similar systems of schedule-type contracting are used for military items managed by the Department of Defense. These systems are not included in the Federal Supply Schedule program covered by this subpart.

(b) The GSA schedule contracting office issues publications, entitled Federal Supply Schedules, containing the information necessary for placing delivery orders with schedule contractors. Ordering offices issue delivery orders directly to the schedule contractors for the required supplies and services. Ordering offices may request copies of schedules by completing GSA Form 457, FSS Publications Mailing List Application, and mailing it to the—

GSA Centralized Mailing List Service (7CAFL)
 P.O. Box 6477
 Fort Worth, TX 76115.

Copies of GSA Form 457 also may be obtained from this address.

(c) GSA offers an on-line shopping service called “GSA Advantage!” that enables ordering offices to search product specific information (*i.e.*, national stock number, part number, common name), review delivery options, place orders directly with contractors (or ask GSA to place orders on the agency’s behalf), and pay contractors for orders using the Governmentwide commercial purchase card (or pay GSA). Ordering offices may access the “GSA Advantage!” shopping service by connecting to the Internet and using a web browser to connect to the Acquisition Reform Network (<http://www.arnet.gov>) or the GSA, Federal Supply Service (FSS) Home Page (<http://www.fss.gsa.gov>). For more information or assistance, contact GSA at Internet e-mail address: gsa.advantage@gsa.gov.

(d) For administrative convenience, an ordering office contracting officer may add items not on the Federal Supply Schedule (also referred to as open market items) to a Federal Supply Schedule blanket purchase agreement (BPA) or an individual task or delivery order only if—

(1) All applicable acquisition regulations pertaining to the purchase of the items not on the Federal Supply Schedule have been followed (*e.g.*, publicizing (Part 5), competition requirements (Part 6), acquisition of commercial items (Part 12), contracting methods (Parts 13, 14, and 15), and small business programs (Part 19));

(2) The ordering office contracting officer has determined the price for the items not on the Federal Supply Schedule is fair and reasonable;

(3) The items are clearly labeled on the order as items not on the Federal Supply Schedule; and

(4) All clauses applicable to items not on the Federal Supply Schedule are included in the order.

8.402 Applicability.

Procedures in this subpart apply to orders placed against Federal Supply Schedules. Occasionally, GSA may establish special ordering procedures. The affected Federal Supply Schedules will outline these procedures.

8.403 [Reserved]

8.404 Using schedules.

(a) *General.* (1) Parts 13 and 19 do not apply to orders placed against Federal Supply Schedules, except for the provision at 13.303-2(c)(3). Orders placed against a Multiple Award Schedule (MAS), using the procedures in this subpart, are considered to be issued using full and open competition (see 6.102(d)(3)).

(i) Ordering offices need not seek further competition, synopsise the requirement, make a separate determination of fair and reasonable pricing, or consider small business programs.

(ii) GSA has already determined the prices of items under schedule contracts to be fair and reasonable. By placing an order against a schedule using the procedures in this section, the ordering office has concluded that the order represents the best value and results in the lowest overall cost alternative (considering price, special features, administrative costs, etc.) to meet the Government’s needs.

(2) Orders placed under a Federal Supply Schedule contract are not exempt from the development of acquisition plans (see Subpart 7.1), and an information technology acquisition strategy (see Part 39).

(b) *Ordering procedures for optional use schedules—*
 (1) *Orders at or below the micro-purchase threshold.* Place orders at or below the micro-purchase threshold with any Federal Supply Schedule contractor.

(2) *Orders exceeding the micro-purchase threshold but not exceeding the maximum order threshold.* Place orders with the schedule contractor that can provide the supply or service that represents the best value. Before placing an order, consider reasonably available information about the

supply or service offered under MAS contracts by using the GSA Advantage! on-line shopping service, or by reviewing the catalogs or pricelists of at least three schedule contractors (see 8.404(b)(6)). Select the delivery and other options available under the schedule that meet the agency's needs. When selecting the supply or service representing the best value, the ordering office may consider—

- (i) Special features of the supply or service required for effective program performance;
- (ii) Trade-in considerations;
- (iii) Probable life of the item selected as compared with that of a comparable item;
- (iv) Warranty considerations;
- (v) Maintenance availability;
- (vi) Past performance; and
- (vii) Environmental and energy efficiency considerations.

(3) *Orders exceeding the maximum order threshold.* Each schedule contract has an established maximum order threshold. This threshold represents the point where it is advantageous for the ordering office to seek a price reduction. In addition to following the procedures in paragraph (b)(2) of this section and before placing an order that exceeds the maximum order threshold—

(i) Review additional schedule contractors' catalogs or pricelists, or use the GSA Advantage! on-line shopping service;

(ii) Based upon the initial evaluation, generally seek price reductions from the schedule contractor(s) appearing to provide the best value (considering price and other factors); and

(iii) After seeking price reductions, place the order with the schedule contractor that provides the best value and results in the lowest overall cost alternative (see 8.404(a)). If further price reductions are not offered, an order may still be placed, if the ordering office determines that it is appropriate.

(4) *Blanket purchase agreements (BPAs).* Agencies may establish BPAs (see 13.303-2(c)(3)) when following the ordering procedures in this subpart. All schedule contracts contain BPA provisions. Ordering offices may use BPAs to establish accounts with contractors to fill recurring requirements. BPAs should address ordering frequency, invoicing, discounts, and delivery locations and times.

(5) *Price reductions.* In addition to the circumstances in paragraph (b)(3) of this section, there may be other reasons to request a price reduction. For example, seek a price reduction when the supply or service is available elsewhere at a lower price or when establishing a BPA to fill recurring requirements. The potential volume of orders under BPAs,

regardless of the size of the individual order, offer the opportunity to secure greater discounts. Schedule contractors are not required to pass on to all schedule users a price reduction extended only to an individual agency for a specific order.

(6) *Small business.* When conducting evaluations and before placing an order, consider including, if available, one or more small, women-owned small, and/or small disadvantaged business schedule contractor(s). For orders exceeding the micro-purchase threshold, ordering offices should give preference to the items of small business concerns when two or more items at the same delivered price will satisfy the requirement.

(7) *Documentation.* Orders should be documented, at a minimum, by identifying the contractor the item was purchased from, the item purchased, and the amount paid. If an agency requirement in excess of the micro-purchase threshold is defined so as to require a particular brand name, product, or a feature of a product peculiar to one manufacturer, thereby precluding consideration of a product manufactured by another company, the ordering office shall include an explanation in the file as to why the particular brand name, product, or feature is essential to satisfy the agency's needs..

8.404-1 [Reserved]

8.404-2 [Reserved]

8.404-3 [Reserved].

8.405 Ordering office responsibilities.

8.405-1 [Reserved]

8.405-2 Order placement.

Ordering offices may use Optional Form 347, an agency-prescribed form, or an established electronic communications format to order items from schedules and shall place orders directly with the contractor within the limitations specified in each schedule. Orders shall include, at a minimum, the following information in addition to any information required by the schedule:

- (a) Complete shipping and billing addresses.
- (b) Contract number and date.
- (c) Agency order number.
- (d) F.o.b. delivery point; *i.e.*, origin or destination.
- (e) Discount terms.
- (f) Delivery time.
- (g) Special item number or national stock number.
- (h) Brief, complete description of each item (when ordering by model number, features and options such as color, finish, and electrical characteristics, if available, must be specified).
 - (i) Quantity and any variation in quantity.

- (j) Number of units.
- (k) Unit price.
- (l) Total price of order.
- (m) Points of inspection and acceptance.
- (n) Other pertinent data; *e.g.*, delivery instructions or receiving hours and size-of-truck limitation.
- (o) Marking requirements.
- (p) Level of preservation, packaging, and packing.

8.405-3 Inspection and acceptance.

(a) Consignees shall inspect supplies at destination except when—

(1) The schedule provides for the schedule contracting agency to perform source inspection (in this case, the schedule will indicate that mandatory source inspection is required); or

(2) A schedule item is covered by a product description, and the ordering office determines that the schedule contracting agency's inspection assistance is needed (inspection assistance may be based on the ordering volume, the complexity of items, or the past performance of the supplier).

(b) When the schedule contracting agency performs the inspection, as specified in the schedule, the ordering office will provide two copies of the order specifying source inspection to the schedule contracting agency. The schedule contracting agency will notify the ordering office of acceptance or rejection of the supplies.

(c) Material inspected at source by the schedule contracting agency, and determined to conform with the product description of the schedule, shall not be reinspected for the same purpose. The consignee shall limit inspection to quantity and condition on receipt.

(d) Unless otherwise provided in the schedule, acceptance shall be conclusive except as regards latent defects, fraud, or such gross mistakes as amount to fraud.

8.405-4 Delinquent performance.

If the contractor fails to perform on the order, the ordering office may terminate the order for default or give the contractor further opportunity to perform by modifying the order to establish a new delivery date (obtaining consideration as necessary).

8.405-5 Termination for default.

(a)(1) An ordering office may terminate any one or more orders for default in accordance with Part 49, Termination of Contracts. The schedule contracting office shall be notified of all cases where an ordering office has declared a Federal Supply Schedule contractor in default or fraud is suspected.

(2) Should the contractor claim that the failure was excusable, the ordering office shall promptly refer the matter to the schedule contracting office. In the absence of a decision by the schedule contracting office (or by the head of the schedule contracting agency, on appeal) excusing the failure, the ordering office may charge the contractor with excess costs resulting from repurchase.

(3) Any repurchase shall be made at as reasonable a price as possible considering the quality required by the Government, delivery requirement, and administrative expenses. Copies of all repurchase orders, except the copy furnished to the contractor or any other commercial concern, shall include the notation:

Repurchase against the account of _____ [*insert contractor's name*] under Delivery Order _____ [*insert number*] under Contract _____ [*insert number*].

(4) When excess costs are anticipated, the ordering office may withhold funds due the contractor as offset security. Ordering offices shall minimize excess costs to be charged against the contractor and collect or setoff any excess costs owed.

(5) If an ordering office is unable to collect excess costs, it shall take the following actions:

(i) Notify the schedule contracting office within 60 days after final payment to the replacement contractor. The notice shall include the following information about the defaulted order:

- (A) Name and address of the contractor.
- (B) Schedule, contract, and order number.
- (C) National stock or special item number(s), and a brief description of the item(s).
- (D) Cost of schedule items involved.
- (E) Excess costs to be collected.
- (F) Other pertinent data.

(ii) In addition to the above, the notice shall include the following information about the replacement contract:

- (A) Name and address of the contractor.
- (B) Item repurchase cost.
- (C) Repurchase order number and date of payment.
- (D) Contract number, if any.
- (E) Other pertinent data.

(b) Only the schedule contracting officer may terminate for default any or all items covered by the schedule contract. When notified of default action by the schedule contracting officer with respect to defaulted items, ordering offices shall—

- (1) Refuse to accept further performance by the contractor;
- (2) Not place further orders with the contractor;

(3) Repurchase against the contractor in default from sources designated by the schedule contracting officer; or

(4) Proceed as otherwise directed by the schedule contracting officer.

(c) All actions taken regarding terminations for default shall comply with the applicable requirements in Part 49.

8.405-6 Termination for convenience.

(a) Ordering offices may terminate individual orders for the convenience of the Government. Only the schedule contracting officer may terminate any or all items covered by the schedule contract for the convenience of the Government.

(b) Before terminating orders for convenience, the ordering office shall endeavor to enter into a “no cost” cancellation agreement with the contractor.

(c) All actions taken regarding terminations for convenience shall comply with the applicable requirements in Part 49.

8.405-7 Disputes.

(a) *Disputes pertaining to the performance of orders under a schedule contract.* (1) Under the Disputes clause of the schedule contract, the ordering office contracting officer may—

(i) Issue final decisions on disputes arising from performance of the order (but see paragraph (b) of this section); or

(ii) Refer the dispute to the schedule contracting officer.

(2) The ordering office contracting officer shall notify the schedule contracting officer promptly of any final decision.

(b) *Disputes pertaining to the terms and conditions of schedule contracts.* The ordering office contracting officer shall refer all disputes that relate to the contract terms and conditions to the schedule contracting officer for resolution under the Disputes clause of the contract and notify the schedule contractor of the referral.

(c) *Appeals.* Contractors may appeal final decisions to the GPO Board of Contract Appeals.

(d) *Alternative dispute resolution.* The contracting officer should use the alternative dispute resolution (ADR) procedures, to the maximum extent practicable (see 33.204 and 33.214).

Subpart 8.5—Acquisition of Helium

8.500 Scope of subpart.

This subpart implements the requirements of the Helium Act (50 U.S.C. 167, *et seq.*) concerning the acquisition of liquid or gaseous helium by Federal agencies or by Government contractors or subcontractors for use in the performance of a Government contract (also see 43 CFR part 3195).

8.501 Definitions.

As used in this subpart—

“Bureau of Land Management” means the—

Department of the Interior
Bureau of Land Management
Amarillo Field Office
Helium Operations
801 South Fillmore Street
Suite 500
Amarillo, TX 79101-3545.

“Federal helium supplier” means a private helium vendor that has an in-kind crude helium sales contract with the Bureau of Land Management (BLM) and that is on the BLM Amarillo Field Office’s Authorized List of Federal Helium Suppliers available via the Internet at http://www.nm.blm.gov/www/amfo/amfo_home.html.

“Major helium requirement” means an estimated refined helium requirement greater than 200,000 standard cubic feet (scf) (measured at 14.7 pounds per square inch absolute

pressure and 70 degrees Fahrenheit temperature) of gaseous helium or 7510 liters of liquid helium delivered to a helium use location per year.

8.502 Policy.

Agencies and their contractors and subcontractors must purchase major helium requirements from Federal helium suppliers, to the extent that supplies are available.

8.503 Exception.

The requirements of this subpart do not apply to contracts or subcontracts in which the helium was acquired by the contractor prior to award of the contract or subcontract.

8.504 Procedures.

The contracting officer must forward the following information to the Bureau of Land Management within 45 days of the close of each fiscal quarter:

- (a) The name of any company that supplied a major helium requirement.
- (b) The amount of helium purchased.
- (c) The delivery date(s).
- (d) The location where the helium was used.

8.505 Contract clause.

Insert the clause at 52.208-8, Required Sources for Helium and Helium Usage Data, in solicitations and contracts if it is anticipated that performance of the contract involves a major helium requirement.

Subpart 8.6—Acquisition from Federal Prison Industries, Inc.

Federal Prison Industries, Inc.
 Department of Justice
 Washington, DC 20534.

8.601 General.

(a) Federal Prison Industries, Inc. (FPI), also referred to as UNICOR, is a self-supporting, wholly owned Government corporation of the District of Columbia.

(b) FPI provides training and employment for prisoners confined in Federal penal and correctional institutions through the sale of its supplies and services to Government agencies (18 U.S.C. 4121-4128).

(c) FPI diversifies its supplies and services to prevent private industry from experiencing unfair competition from prison workshops or activities.

8.602 Policy.

(a) Agencies shall purchase required supplies of the classes listed in the Schedule of Products made in Federal Penal and Correctional Institutions (referred to in this subpart as “the Schedule”) at prices not to exceed current market prices, using the procedures in this subpart.

(b) Subject to the priorities in 8.002 and 8.603, agencies are encouraged to use the facilities of FPI to the maximum extent practicable in purchasing—

(1) Supplies that are not listed in the Schedule, but that are of a type manufactured in Federal penal and correctional institutions; and

(2) Services that are listed in the Schedule.

(c) If a supply not listed in the Schedule is of a type normally produced by Federal penal and correctional institutions, agencies are encouraged to suggest that FPI consider the feasibility of adding the item to its Schedule.

8.603 Purchase priorities.

(a) FPI and nonprofit agencies participating in the Javits-Wagner-O'Day (JWOD) Program (see Subpart 8.7) may produce identical supplies or services. When this occurs, ordering offices shall purchase supplies and services in the following priorities:

(1) *Supplies.* (i) Federal Prison Industries, Inc. (41 U.S.C. 48).

(ii) JWOD participating nonprofit agencies.

(iii) Commercial sources.

(2) *Services.* (i) JWOD participating nonprofit agencies.

(ii) Federal Prison Industries, Inc., or commercial sources.

(b) Supplies and services manufactured or performed by FPI are in strict conformity with Federal Specifications. These supplies and services are listed in the Schedule. Copies of the Schedule are available from—

8.604 Ordering procedures.

(a) Contracting officers shall order—

(1) Less-than-carload lots of common-use items (Schedule A of the Schedule) from the regional warehouses of GSA, unless it is more practical and economical to purchase directly from FPI; and

(2) Carload lots of common-use items, and other items listed in the Schedule, from FPI.

(b) Contracting officers shall prepare orders to FPI using the procedures in the Schedule.

(c) When the contracting officer believes that the FPI price exceeds the market price, the matter may be referred to the cognizant product division identified in the Schedule or to the FPI Washington office for resolution.

8.605 Clearances.

(a) Clearance is required from FPI before supplies on the Schedule are acquired from other sources, except when the conditions in 8.606 apply. FPI clearances ordinarily are of the following types:

(1) General or blanket clearances issued when classes of articles or services are not available from FPI.

(2) Formal clearances issued in response to requests from offices desiring to acquire, from other sources, supplies listed in the Schedule and not covered by a general clearance. Requests should be addressed to—

Federal Prison Industries, Inc.
 Department of Justice
 Washington, DC 20534.

(b) Purchases from other sources because of a lower price are not normally authorized, and clearances will not be issued on this basis except as a result of action taken to resolve questions of price under 8.604(c).

(c) Disputes regarding price, quality, character, or suitability of supplies produced by FPI are subject to arbitration as specified in 18 U.S.C. 4124. The statute provides that the arbitration shall be conducted by a board consisting of the Comptroller General of the United States, the Administrator of General Services, and the President, or their representatives. The decisions of the board are final and binding on all parties.

8.606 Exceptions.

FPI clearances are not required when—

(a) Public exigency requires immediate delivery or performance;

(b) Suitable used or excess supplies are available;

(c) Purchases are made from GSA of less-than-carload lots of common-use items stocked by GSA (see Schedule A of the Schedule);

(d) The supplies are acquired and used outside the United States; or

(e) Orders are for listed items totaling \$25 or less that require delivery within 10 days.

Subpart 8.7—Acquisition from Nonprofit Agencies Employing People Who Are Blind or Severely Disabled

8.700 Scope of subpart.

This subpart prescribes the policies and procedures for implementing the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c), referred to in this subpart as “the JWOD Act,” and the rules of the Committee for Purchase from People Who Are Blind or Severely Disabled (41 CFR Chapter 51).

8.701 Definitions.

As used in this subpart—

“Allocation” means an action taken by a central nonprofit agency to designate the JWOD participating nonprofit agencies that will furnish definite quantities of supplies or perform specific services upon receipt of orders from ordering offices.

“Central nonprofit agency” means National Industries for the Blind (NIB), which has been designated to represent people who are blind; or NISH, which has been designated to represent JWOD participating nonprofit agencies serving people with severe disabilities other than blindness.

“Committee” means the Committee for Purchase from People Who Are Blind or Severely Disabled.

“Government” or “entity of the Government” means any entity of the legislative or judicial branch, any executive agency, military department, Government corporation, or independent establishment, the U.S. Postal Service, or any nonappropriated-fund instrumentality of the Armed Forces.

“Ordering office” means any activity in an entity of the Government that places orders for the purchase of supplies or services under the JWOD Program.

“Procurement List” means a list of supplies (including military resale commodities) and services that the Committee has determined are suitable for purchase by the Government under the Javits-Wagner-O'Day Act.

“Nonprofit agency serving people who are blind” or “nonprofit agency serving people with other severe disabilities” (referred to jointly as JWOD participating nonprofit agencies) means a qualified nonprofit agency employing people who are blind or have other severe disabilities approved by the Committee to furnish a commodity or a service to the Government under the Act.

8.702 General.

The Committee is an independent Government activity with members appointed by the President of the United States. It is responsible for—

(a) Determining those supplies and services to be purchased by all entities of the Government from JWOD participating nonprofit agencies;

(b) Establishing prices for the supplies and services; and
(c) Establishing rules and regulations to implement the JWOD Act.

8.703 Procurement List.

The Committee maintains a Procurement List of all supplies and services required to be purchased from JWOD participating nonprofit agencies. Questions concerning whether a supply item or service is on the Procurement List should be referred to the Committee offices at the following address and telephone number:

Committee for Purchase from People Who Are Blind or Severely Disabled
Crystal Square 3, Room 403
1735 Jefferson Davis Highway
Arlington, VA 22202-3461
(703) 603-7740.

Many items on the Procurement List are identified in the General Services Administration (GSA) Supply Catalog and GSA's Customer Service Center Catalogs with a black square and the words “NIB/NISH Mandatory Source,” and in similar catalogs issued by the Defense Logistics Agency (DLA) and the Department of Veterans Affairs (VA). GSA, DLA, and VA are central supply agencies from which other Federal agencies are required to purchase certain supply items on the Procurement List.

8.704 Purchase priorities.

(a) The JWOD Act requires the Government to purchase supplies or services on the Procurement List, at prices established by the Committee, from JWOD participating nonprofit agencies if they are available within the period required. When identical supplies or services are on the Procurement List and the Schedule of Products issued by Federal Prison Industries, Inc., ordering offices shall purchase supplies and services in the following priorities:

(1) Supplies:

- (i) Federal Prison Industries, Inc. (41 U.S.C. 48).
- (ii) JWOD participating nonprofit agencies.
- (iii) Commercial sources.

(2) Services:

- (i) JWOD participating nonprofit agencies.
- (ii) Federal Prison Industries, Inc., or commercial sources.

(b) No other provision of the MMAR shall be construed as permitting an exception to the mandatory purchase of items on the Procurement List.

(c) The Procurement List identifies those supplies for which the ordering office must obtain a formal clearance (8.605) from Federal Prison Industries, Inc., before making any purchases from JWOD participating nonprofit agencies.

8.705 Procedures.**8.705-1 General.**

(a) Ordering offices shall obtain supplies and services on the Procurement List from the central nonprofit agency or its designated JWOD participating nonprofit agencies, except that supplies identified on the Procurement List as available from DLA, GSA, or VA supply distribution facilities shall be obtained through DLA, GSA, or VA procedures. If a distribution facility cannot provide the supplies, it shall inform the ordering office, which shall then order from the JWOD participating nonprofit agency designated by the Committee.

(b) Supply distribution facilities in DLA and GSA shall obtain supplies on the Procurement List from the central nonprofit agency identified or its designated JWOD participating nonprofit agency.

8.705-2 Direct-order process.

Central nonprofit agencies may authorize ordering offices to transmit orders for specific supplies or services directly to a JWOD participating nonprofit agency. The written authorization remains valid until it is revoked by the central nonprofit agency or the Committee. The central nonprofit agency shall specify the normal delivery or performance lead time required by the nonprofit agency. The ordering office shall reflect this lead time in its orders.

8.705-3 Allocation process.

(a) When the direct order process has not been authorized, the ordering office shall submit a letter request for allocation (requesting the designation of the JWOD participating nonprofit agency to produce the supplies or perform the service) to the central nonprofit agency designated in the Procurement List. Ordering offices shall request allocations in sufficient time for a reply, for orders to be placed, and for the nonprofit agency to produce the supplies or provide the service within the required delivery or performance schedule.

(b) The ordering office's request to the central nonprofit agency for allocation shall include the following information:

(1) For supplies—Item name, stock number, latest specification, quantity, unit price, date delivery is required, and destination to which delivery is to be made.

(2) For services—Type and location of service required, latest specification, work to be performed, estimated volume, and required date or dates for completion.

(3) Other requirements; *e.g.*, packing, marking, as necessary.

(c) When an allocation is received, the ordering office shall promptly issue an order to the specified JWOD participating nonprofit agency or to the central nonprofit agency, as instructed by the allocation. If the issuance of an order is to be delayed for more than 15 days beyond receipt of the allo-

cation, or canceled, the ordering office shall advise the central nonprofit agency immediately.

(d) Ordering offices may issue orders without limitation as to dollar amount and shall record them upon issuance as obligations. Each order shall include, as a minimum, the information contained in the request for allocation. Ordering offices shall also include additional instructions necessary for performance under the order; *e.g.*, on the handling of Government-furnished property, reports required, and notification of shipment.

8.705-4 Compliance with orders.

(a) The central nonprofit agency shall inform the ordering office of changes in lead time experienced by its JWOD participating nonprofit agencies to minimize requests for extension once the ordering office places an order.

(b) The ordering office shall grant a request by a central nonprofit agency or JWOD participating nonprofit agency for revision in the delivery or completion schedule, if feasible. If extension of the delivery or completion date is not feasible, the ordering office shall notify the appropriate central nonprofit agency and request that it reallocate the order, or grant a purchase exception authorizing acquisition from commercial sources.

(c) When a JWOD participating nonprofit agency fails to perform under the terms of an order, the ordering office shall make every effort to resolve the noncompliance with the nonprofit agency involved and to negotiate an adjustment before taking action to cancel the order. If the problem cannot be resolved with the nonprofit agency, the ordering office shall refer the matter for resolution first to the central nonprofit agency and then, if necessary, to the Committee.

(d) When, after complying with 8.705-4(c), the ordering office determines that it must cancel an order, it shall notify the central nonprofit agency and, if practical, request a reallocation of the order. When the central nonprofit agency cannot reallocate the order, it shall grant a purchase exception permitting use of commercial sources, subject to approval by the Committee when the value of the purchase exception is \$25,000 or more.

8.706 Purchase exceptions.

(a) Ordering offices may acquire supplies or services on the Procurement List from commercial sources only if the acquisition is specifically authorized in a purchase exception granted by the designated central nonprofit agency.

(b) The central nonprofit agency shall promptly grant purchase exceptions when—

(1) The JWOD participating nonprofit agencies cannot provide the supplies or services within the time required, and commercial sources can provide them significantly sooner in the quantities required; or

(2) The quantity required cannot be produced or provided economically by the JWOD participating nonprofit agencies.

(c) The central nonprofit agency granting the exception shall specify the quantity and delivery or performance period covered by the exception.

(d) When a purchase exception is granted, the contracting officer shall—

(1) Initiate purchase action within 15 days following the date of the exception or any extension granted by the central nonprofit agency; and

(2) Provide a copy of the solicitation to the central nonprofit agency when it is issued.

(e) The Committee may also grant a purchase exception, under any circumstances it considers appropriate.

8.707 Prices.

(a) The prices of items on the Procurement List are fair market prices established by the Committee. All prices for supplies ordered under this subpart are f.o.b. origin.

(b) Prices for supplies are normally adjusted semiannually. Prices for services are normally adjusted annually.

(c) The Committee may request the agency responsible for acquiring the supplies or service to assist it in establishing or revising the fair market price. The Committee has the authority to establish prices without prior coordination with the responsible contracting office.

(d) Price changes shall normally apply to all orders received by the JWOD participating nonprofit agency on or after the effective date of the change. In special cases, after considering the views of the ordering office, the Committee may make price changes applicable to orders received by the JWOD participating nonprofit agency prior to the effective date of the change.

(e) If an ordering office desires packing, packaging, or marking of supplies other than the standard pack as provided on the Procurement List, any difference in costs shall be included as a separate item on the nonprofit agency's invoice. The ordering office shall reimburse the nonprofit agency for these costs.

(f) Ordering offices may make recommendations to the Committee at any time for price revisions for supplies and services on the Procurement List.

8.708 Shipping.

(a) Delivery is accomplished when a shipment is placed aboard the vehicle of the initial carrier. The time of delivery is the date shipment is released to and accepted by the initial carrier.

(b) Shipment is normally under Government bills of lading. However, for small orders, ordering offices may specify other shipment methods.

(c) When shipments are under Government bills of lading, the bills of lading may accompany orders or be otherwise furnished promptly. Failure of an ordering office to furnish bills of lading or to designate a method of transportation may result in an excusable delay in delivery.

(d) JWOD participating nonprofit agencies shall include transportation costs for small shipments paid by the nonprofit agencies as an item on the invoice. The ordering office shall reimburse the nonprofit agencies for these costs.

8.709 Payments.

The ordering office shall make payments for supplies or services on the Procurement List within 30 days after shipment or after receipt of a proper invoice or voucher.

8.710 Quality of merchandise.

Supplies and services provided by JWOD participating nonprofit agencies shall comply with the applicable Government specifications and standards cited in the order. When no specifications or standards exist—

(a) Supplies shall be of the highest quality and equal to similar items available on the commercial market; and

(b) Services shall conform to good commercial practices.

8.711 Quality complaints.

(a) When the quality of supplies or services received is unsatisfactory, the using activity shall take the following actions:

(1) For supplies received from DLA supply centers, GSA supply distribution facilities, or Department of Veterans Affairs distribution division, notify the supplying agency.

(2) For supplies or services received from JWOD participating nonprofit agencies, address complaints to the individual nonprofit agency involved, with a copy to the appropriate central nonprofit agency.

(b) When quality problems cannot be resolved by the JWOD participating nonprofit agency and the ordering office, the ordering office shall first contact the central nonprofit agency and then, if necessary, the Committee for resolution.

8.712 Specification changes.

(a) The contracting activity shall notify the JWOD participating nonprofit agency and appropriate central nonprofit agency of any change in specifications or descriptions. In the absence of such written notification, the JWOD participating nonprofit agency shall furnish the supplies or services under the specification or description cited in the order.

(b) The contracting activity shall provide 90-days advance notification to the Committee and the central nonprofit agency on actions that affect supplies on the Procure-

ment List and shall permit them to comment before action is taken, particularly when it involves—

- (1) Changes that require new national stock numbers or item designations;
- (2) Deleting items from the supply system;
- (3) Standardization; or
- (4) Developing new items to replace items on the Procurement List.

(c) For services, the contracting activity shall notify the JWOD participating nonprofit agency and central nonprofit agency concerned at least 90 days prior to the date that any changes in the scope of work or other conditions will be required.

(d) When, in order to meet its emergency needs, a contracting activity is unable to give the 90-day notification required in paragraphs (b) and (c) of this section, the contracting activity shall, at the time it places the order or change notice, inform the JWOD participating nonprofit agency and the central nonprofit agency in writing of the reasons that it cannot meet the 90-day notification requirement.

8.713 Optional acquisition of supplies and services.

(a) Ordering offices may acquire supplies and services not included on the Procurement List from a JWOD participating nonprofit agency that is the low responsive, responsible offeror under a solicitation issued by other authorized acquisition methods.

(b) Ordering offices should forward solicitations to JWOD participating nonprofit agencies that may be qualified to provide the supplies or services required.

8.714 Communications with the central nonprofit agencies and the Committee.

(a) The addresses of the central nonprofit agencies are:

- (1) National Industries for the Blind
1901 N. Beauregard St., Suite 200
Alexandria, VA 22311-1727
(703) 998-0770; and

- (2) NIMSH
2235 Cedar Lane
Vienna, VA 22182-5200
(703) 560-6800.

(b) Any matter requiring referral to the Committee shall be addressed to the—

- Executive Director of the Committee
1735 Jefferson-Davis Highway
Crystal Square 3, Suite 403
Arlington, VA 22202-3461.

8.715 Replacement commodities.

When a commodity on the Procurement List is replaced by another commodity which has not been previously acquired, and a qualified JWOD participating nonprofit agency can furnish the replacement commodity in accordance with the Government's quality standards and delivery schedules and at a fair market price, the replacement commodity is automatically on the Procurement List and shall be acquired from the JWOD participating nonprofit agency designated by the Committee. The commodity being replaced shall continue to be included on the Procurement List until there is no longer a requirement for that commodity.

8.716 Change-of-name and successor in interest procedures.

When the Committee recognizes a name change or a successor in interest for a JWOD participating nonprofit agency providing supplies or services on the Procurement List—

(a) The Committee will provide a notice of a change to the Procurement List to the cognizant contracting officers; and

(b) Upon receipt of a notice of a change to the Procurement List from the Committee, the contracting officer must—

- (1) Prepare a Standard Form (SF) 30, Amendment of Solicitation/Modification of Contract, incorporating a summary of the notice and attaching a list of contracts affected; and
- (2) Distribute the SF 30, including a copy to the Committee.

Subpart 8.8—Acquisition of Printing and Related Supplies

8.800 Scope of subpart.

This subpart provides policy for the acquisition of Government printing and related supplies.

8.801 Definitions.

As used in this subpart—

“Government printing” means printing, binding, and blankbook work for the use of an executive department, independent agency, or establishment of the Government.

“Related supplies” means supplies that are used and equipment that is usable in printing and binding operations.

8.802 Policy.

(a) Government printing must be done by or through the Government Printing Office (GPO) (44 U.S.C. 501), unless—

(1) The GPO cannot provide the printing service (44 U.S.C. 504);

(2) The printing is done in field printing plants operated by an executive agency (44 U.S.C. 501(2));

(3) The printing is acquired by an executive agency from allotments for contract field printing (44 U.S.C. 501(2)); or

(4) The printing is specifically authorized by statute to be done other than by the GPO.

(b) The head of each agency shall designate a central printing authority; that central printing authority may serve as the liaison with the Congressional Joint Committee on Printing (JCP) and the Public Printer on matters related to printing. Contracting officers shall obtain approval from their designated central printing authority before contracting in any manner, whether directly or through contracts for supplies or services, for the items defined in 8.801 and for composition, platemaking, presswork, binding, and micrographics (when used as a substitute for printing).

(c)(1) Further, 44 U.S.C. 1121 provides that the Public Printer may acquire and furnish paper and envelopes (excluding envelopes printed in the course of manufacture) in common use by two or more Government departments, establishments, or services within the District of Columbia, and provides for reimbursement of the Public Printer from available appropriations or funds. Paper and envelopes that are furnished by the Public Printer may not be acquired in any other manner.

(2) Paper and envelopes for use by Executive agencies outside the District of Columbia and stocked by GSA shall be requisitioned from GSA in accordance with the procedures listed in Federal Property Management Regulations (FPMR) Subpart 101-26.3.

Subpart 8.9—[Reserved]

Subpart 8.10—[Reserved]

Subpart 8.11—Leasing of Motor Vehicles

8.1100 Scope of subpart.

This subpart covers the procedures for the leasing, from commercial concerns, of motor vehicles that comply with Federal Motor Vehicle Safety Standards and applicable State motor vehicle safety regulations. It does not apply to motor vehicles leased outside the United States.

8.1101 Definitions.

As used in this subpart—

“Leasing” means the acquisition of motor vehicles, other than by purchase from private or commercial sources, and includes the synonyms “hire” and “rent.”

“Motor vehicle” means an item of equipment, mounted on wheels and designed for highway and/or land use, that —

- (1) Derives power from a self-contained power unit; or
- (2) Is designed to be towed by and used in conjunction with self-propelled equipment.

8.1102 [Reserved]

8.1103 Contract requirements.

Contracting officers shall include the following items in each contract for leasing motor vehicles:

- (a) Scope of contract.
- (b) Method of computing payments.
- (c) A listing of the number and type of vehicles required, and the equipment and accessories to be provided with each vehicle.

(d) Responsibilities of the contractor or the Government for furnishing gasoline, motor oil, antifreeze, and similar items.

(e) Unless it is determined that it will be more economical for the Government to perform the work, a statement that the contractor shall perform all maintenance on the vehicles.

(f) A statement as to the applicability of pertinent State and local laws and regulations, and the responsibility of each party for compliance with them.

(g) Responsibilities of the contractor or the Government for emergency repairs and services.

8.1104 Contract clauses.

The contracting officer shall insert the following clauses in solicitations and contracts for leasing of motor vehicles, unless the motor vehicles are leased in foreign countries:

- (a) The clause at 52.208-4, Vehicle Lease Payments.
- (b) The clause at 52.208-5, Condition of Leased Vehicles.
- (c) The clause at 52.208-6, Marking of Leased Vehicles.
- (d) A clause substantially the same as the clause at 52.208-7, Tagging of Leased Vehicles, for vehicles leased over 60 days (see 41 CFR 101-38.6).
- (e) The provisions and clauses prescribed elsewhere in the MMAR for solicitations and contracts for supplies when a fixed-price contract is contemplated, but excluding—
 - (1) The clause at 52.211-16, Variation in Quantity;
 - (2) The clause at 52.232-1, Payments;
 - (3) The clause at 52.222-20, Walsh-Healey Public Contracts Act; and
 - (4) The clause at 52.246-16, Responsibility for Supplies.

	Subpart 9.7—Defense Production Pools and Research and Development Pools	9.702	Contracting with pools.
		9.703	Contracting with individual pool members.
9.701	Definition.		

9.000 Scope of part.

This part prescribes policies, standards, and procedures pertaining to prospective contractors' responsibility; debarment, suspension, and ineligibility; qualified products; first article testing and approval; contractor team arrangements; defense production pools and research and development pools; and organizational conflicts of interest.

Subpart 9.1—Responsible Prospective Contractors

9.100 Scope of subpart.

This subpart prescribes policies, standards, and procedures for determining whether prospective contractors and subcontractors are responsible.

9.101 Definition.

"Surveying activity," as used in this subpart, means the cognizant contract administration office or, if there is no such office, another organization designated by the agency to conduct preaward surveys.

9.102 Applicability.

(a) This subpart applies to all proposed contracts with any prospective contractor that is located—

- (1) In the United States, its possessions, or Puerto Rico; or
- (2) Elsewhere, unless application of the subpart would be inconsistent with the laws or customs where the contractor is located.

(b) This subpart does not apply to proposed contracts with—

- (1) Foreign, State, or local governments;
- (2) Other U.S. Government agencies or their instrumentalities; or
- (3) Agencies for the blind or other severely handicapped (see Subpart 8.7).

9.103 Policy.

(a) Purchases shall be made from, and contracts shall be awarded to, responsible prospective contractors only.

(b) No purchase or award shall be made unless the contracting officer makes an affirmative determination of responsibility. In the absence of information clearly indicating that the prospective contractor is responsible, the contracting officer shall make a determination of nonresponsibility.

(c) The award of a contract to a supplier based on lowest evaluated price alone can be false economy if there is subsequent default, late deliveries, or other unsatisfactory performance resulting in additional contractual or administrative costs. While it is important that Government purchases be

made at the lowest price, this does not require an award to a supplier solely because that supplier submits the lowest offer. A prospective contractor must affirmatively demonstrate its responsibility, including, when necessary, the responsibility of its proposed subcontractors.

9.104 Standards.

9.104-1 General standards.

To be determined responsible, a prospective contractor must—

- (a) Have adequate financial resources to perform the contract, or the ability to obtain them (see 9.104-3(a));
- (b) Be able to comply with the required or proposed delivery or performance schedule, taking into consideration all existing commercial and governmental business commitments;
- (c) Have a satisfactory performance record (see 9.104-3(b) and Subpart 42.15). A prospective contractor shall not be determined responsible or nonresponsible solely on the basis of a lack of relevant performance history, except as provided in 9.104-2;
- (d) Have a satisfactory record of integrity and business ethics.
- (e) Have the necessary organization, experience, accounting and operational controls, and technical skills, or the ability to obtain them (including, as appropriate, such elements as production control procedures, property control systems, quality assurance measures, and safety programs applicable to materials to be produced or services to be performed by the prospective contractor and subcontractors). (See 9.104-3(a).)
- (f) Have the necessary production, construction, and technical equipment and facilities, or the ability to obtain them (see 9.104-3(a)); and
- (g) Be otherwise qualified and eligible to receive an award under applicable laws and regulations.

9.104-2 Special standards.

(a) When it is necessary for a particular acquisition or class of acquisitions, the contracting officer shall develop, with the assistance of appropriate specialists, special standards of responsibility. Special standards may be particularly desirable when experience has demonstrated that unusual expertise or specialized facilities are needed for adequate contract performance. The special standards shall be set forth in the solicitation (and so identified) and shall apply to all offerors.

(b) Contracting officers shall award contracts for subsistence only to those prospective contractors that meet the general standards in 9.104-1 and are approved in accordance with agency sanitation standards and procedures.

9.104-3 Application of standards.

(a) *Ability to obtain resources.* Except to the extent that a prospective contractor has sufficient resources or proposes to perform the contract by subcontracting, the contracting officer shall require acceptable evidence of the prospective contractor's ability to obtain required resources (see 9.104-1(a), (e), and (f)). Acceptable evidence normally consists of a commitment or explicit arrangement, that will be in existence at the time of contract award, to rent, purchase, or otherwise acquire the needed facilities, equipment, other resources, or personnel. Consideration of a prime contractor's compliance with limitations on subcontracting shall take into account the time period covered by the contract base period or quantities plus option periods or quantities, if such options are considered when evaluating offers for award.

(b) *Satisfactory performance record.* A prospective contractor that is or recently has been seriously deficient in contract performance shall be presumed to be nonresponsible, unless the contracting officer determines that the circumstances were properly beyond the contractor's control, or that the contractor has taken appropriate corrective action. Past failure to apply sufficient tenacity and perseverance to perform acceptably is strong evidence of nonresponsibility. Failure to meet the quality requirements of the contract is a significant factor to consider in determining satisfactory performance. The contracting officer shall consider the number of contracts involved and the extent of deficient performance in each contract when making this determination.

(c) *Affiliated concerns.* Affiliated concerns (see "Concern" in 19.001 and "Affiliates" in 19.101) are normally considered separate entities in determining whether the concern that is to perform the contract meets the applicable standards for responsibility. However, the contracting officer shall consider the affiliate's past performance and integrity when they may adversely affect the prospective contractor's responsibility.

9.104-4 Subcontractor responsibility.

(a) Generally, prospective prime contractors are responsible for determining the responsibility of their prospective subcontractors (but see 9.405 and 9.405-2 regarding debarred, ineligible, or suspended firms). Determinations of prospective subcontractor responsibility may affect the Government's determination of the prospective prime contractor's responsibility. A prospective contractor may be required to provide written evidence of a proposed subcontractor's responsibility.

(b) When it is in the Government's interest to do so, the contracting officer may directly determine a prospective subcontractor's responsibility (*e.g.*, when the prospective contract involves medical supplies, urgent requirements, or substantial subcontracting). In this case, the same standards

used to determine a prime contractor's responsibility shall be used by the Government to determine subcontractor responsibility.

9.105 Procedures**9.105-1 Obtaining information.**

(a) Before making a determination of responsibility, the contracting officer shall possess or obtain information sufficient to be satisfied that a prospective contractor currently meets the applicable standards in 9.104.

(b)(1) Generally, the contracting officer shall obtain information regarding the responsibility of prospective contractors, including requesting preaward surveys when necessary (see 9.106), promptly after a bid opening or receipt of offers. However, in negotiated contracting, especially when research and development is involved, the contracting officer may obtain this information before issuing the request for proposals. Requests for information shall ordinarily be limited to information concerning—

- (i) The low bidder; or
- (ii) Those offerors in range for award.

(2) Preaward surveys shall be managed and conducted by the surveying activity.

(i) If the surveying activity is a contract administration office—

(A) That office shall advise the contracting officer on prospective contractors' financial competence and credit needs; and

(B) The administrative contracting officer shall obtain from the auditor any information required concerning the adequacy of prospective contractors' accounting systems and these systems' suitability for use in administering the proposed type of contract.

(ii) If the surveying activity is not a contract administration office, the contracting officer shall obtain from the auditor any information required concerning prospective contractors' financial competence and credit needs, the adequacy of their accounting systems, and these systems' suitability for use in administering the proposed type of contract.

(3) Information on financial resources and performance capability shall be obtained or updated on as current a basis as is feasible up to the date of award.

(c) In making the determination of responsibility (see 9.104-1(c)), the contracting officer shall consider relevant past performance information (see Subpart 42.15). In addition, the contracting officer should use the following sources of information to support such determinations:

(1) The List of Parties Excluded from Federal Procurement and Nonprocurement Programs maintained in accordance with Subpart 9.4 and the list of suspended & debarred GPO contractors maintained pursuant to GPO Instruction 110.11B.

(2) Records and experience data, including verifiable knowledge of personnel within the contracting office, audit offices, contract administration offices, and other contracting offices.

(3) The prospective contractor—including bid or proposal information, questionnaire replies, financial data, information on production equipment, and personnel information.

(4) Commercial sources of supplier information of a type offered to buyers in the private sector.

(5) Preaward survey reports (see 9.106).

(6) Other sources such as publications; suppliers, subcontractors, and customers of the prospective contractor; financial institutions; Government agencies; and business and trade associations.

(7) If the contract is for construction, the contracting officer may consider performance evaluation reports (see 36.201(c)(2)).

(d) Contracting offices and cognizant contract administration offices that become aware of circumstances casting doubt on a contractor's ability to perform contracts successfully shall promptly exchange relevant information.

9.105-2 Determinations and documentation.

(a) *Determinations.* (1) The contracting officer's signing of a contract constitutes a determination that the prospective contractor is responsible with respect to that contract. When an offer on which an award would otherwise be made is rejected because the prospective contractor is found to be nonresponsible, the contracting officer shall make, sign, and place in the contract file a determination of nonresponsibility, which shall state the basis for the determination.

(b) *Support documentation.* Documents and reports supporting a determination of responsibility or nonresponsibility, including any preaward survey reports, must be included in the contract file.

9.105-3 Disclosure of preaward information.

(a) Except as provided in Subpart 24.2, Freedom of Information Act, information (including the preaward survey report) accumulated for purposes of determining the responsibility of a prospective contractor shall not be released or disclosed outside the Government.

(b) The contracting officer may discuss preaward survey information with the prospective contractor before determining responsibility. After award, the contracting officer or, if it is appropriate, the head of the surveying activity or a designee may discuss the findings of the preaward survey with the company surveyed.

(c) Preaward survey information may contain proprietary or source selection information and should be marked with the appropriate legend and protected accordingly (see 3.104-4).

9.106 Preaward surveys.

9.106-1 Conditions for preaward surveys.

(a) A preaward survey is normally required only when the information on hand or readily available to the contracting officer, including information from commercial sources, is not sufficient to make a determination regarding responsibility. In addition, if the contemplated contract will have a fixed price at or below the simplified acquisition threshold or will involve the acquisition of commercial items (see Part 12), the contracting officer should not request a preaward survey unless circumstances justify its cost.

(b) When a cognizant contract administration office becomes aware of a prospective award to a contractor about which unfavorable information exists and no preaward survey has been requested, it shall promptly obtain and transmit details to the contracting officer.

(c) Before beginning a preaward survey, the surveying activity shall ascertain whether the prospective contractor is debarred, suspended, or ineligible (see Subpart 9.4). If the prospective contractor is debarred, suspended, or ineligible, the surveying activity shall advise the contracting officer promptly and not proceed with the preaward survey unless specifically requested to do so by the contracting officer.

9.106-2 Requests for preaward surveys.

The contracting officer's request to the surveying activity (Preaward Survey of Prospective Contractor (General), SF 1403) shall—

(a) Identify additional factors about which information is needed;

(b) Include the complete solicitation package (unless it has previously been furnished), and any information indicating prior unsatisfactory performance by the prospective contractor;

(c) State whether the contracting office will participate in the survey;

(d) Specify the date by which the report is required. This date should be consistent with the scope of the survey requested and normally shall allow at least 7 working days to conduct the survey; and

(e) When appropriate, limit the scope of the survey.

9.106-3 Interagency preaward surveys.

When the contracting office and the surveying activity are in different agencies, the procedures of this section 9.106 and Subpart 42.1 shall be followed along with the regulations of the agency in which the surveying activity is located, except that reasonable special requests by the contracting office shall be accommodated.

9.106-4 Reports.

(a) The surveying activity shall complete the applicable parts of SF 1403, Preaward Survey of Prospective Contractor (General); SF 1404, Preaward Survey of Prospective Contractor—Technical; SF 1405, Preaward Survey of Prospective Contractor—Production; SF 1406, Preaward Survey of Prospective Contractor—Quality Assurance; SF 1407, Preaward Survey of Prospective Contractor—Financial Capability; and SF 1408, Preaward Survey of Prospective Contractor—Accounting System; and provide a narrative discussion sufficient to support both the evaluation ratings and the recommendations.

(b) When a preaward survey discloses previous unsatisfactory performance, the surveying activity shall specify the extent to which the prospective contractor plans, or has taken, corrective action. Lack of evidence that past failure to meet contractual requirements was the prospective contractor's fault does not necessarily indicate satisfactory performance. The narrative shall report any persistent pattern of need for costly and burdensome Government assistance (*e.g.*, engineering, inspection, or testing) provided in the Government's interest but not contractually required.

(c) When the surveying activity possesses information that supports a recommendation of complete award without an on-site survey and no special areas for investigation have been requested, the surveying activity may provide a short-form preaward survey report. The short-form report shall consist solely of the Preaward Survey of Prospective Contractor (General), SF 1403. Sections III and IV of this form shall be completed and block 21 shall be checked to show that the report is a short-form preaward report.

9.107 Surveys of nonprofit agencies serving people who are blind or have other severe disabilities under the Javits-Wagner-O'Day (JWOD) Program.

(a) The Committee for Purchase From People Who Are Blind or Severely Disabled (Committee), as authorized by 41 U.S.C. 46-48c, determines what supplies and services Federal agencies are required to purchase from JWOD participating nonprofit agencies serving people who are blind or have other severe disabilities (see Subpart 8.7). The Committee is required to find a JWOD participating nonprofit agency capable of furnishing the supplies or services before the nonprofit agency can be designated as a mandatory source under the JWOD Program. The Committee may request a contracting office to assist in assessing the capabilities of a nonprofit agency.

(b) The contracting office, upon request from the Committee, shall request a capability survey from the activity responsible for performing preaward surveys, or notify the Committee that the JWOD participating nonprofit agency is capable, with supporting rationale, and that the survey is waived. The capability survey will focus on the technical and production capabilities and applicable preaward survey elements to furnish specific supplies or services being considered for addition to the Procurement List.

(c) The contracting office shall use the Standard Form 1403 to request a capability survey of organizations employing people who are blind or have other severe disabilities.

(d) The contracting office shall furnish a copy of the completed survey, or notice that the JWOD participating nonprofit agency is capable and the survey is waived, to the Executive Director, Committee for Purchase From People Who Are Blind or Severely Disabled.

Subpart 9.2—Qualifications Requirements

9.200 Scope of subpart.

This subpart prescribes policies and procedures regarding qualification requirements and the acquisitions that are subject to such requirements.

9.201 Definitions.

As used in this subpart—

“Qualified bidders list (QBL)” means a list of bidders who have had their products examined and tested and who have satisfied all applicable qualification requirements for that product or have otherwise satisfied all applicable qualification requirements.

“Qualified manufacturers list (QML)” means a list of manufacturers who have had their products examined and tested and who have satisfied all applicable qualification requirements for that product.

9.202 Policy.

(a)(1) The head of the agency or designee shall, before establishing a qualification requirement, prepare a written justification—

(i) Stating the necessity for establishing the qualification requirement and specifying why the qualification requirement must be demonstrated before contract award;

(ii) Estimating the likely costs for testing and evaluation which will be incurred by the potential offeror to become qualified; and

(iii) Specifying all requirements that a potential offeror (or its product) must satisfy in order to become qualified. Only those requirements which are the least restrictive to meet the purposes necessitating the establishment of the qualification requirements shall be specified.

(2) Upon request to the contracting activity, potential offerors shall be provided—

(i) All requirements that they or their products must satisfy to become qualified; and

(ii) At their expense (but see 9.204(a)(2) with regard to small businesses), a prompt opportunity to demonstrate their abilities to meet the standards specified for qualification using qualified personnel and facilities of the agency concerned, or of another agency obtained through inter-agency agreements or under contract, or other methods approved by the agency (including use of approved testing and evaluation services not provided under contract to the agency).

(3) If the services in (a)(2)(ii) of this section are provided by contract, the contractors selected to provide testing and evaluation services shall be—

(i) Those that are not expected to benefit from an absence of additional qualified sources; and

(ii) Required by their contracts to adhere to any restriction on technical data asserted by the potential offeror seeking qualification.

(4) A potential offeror seeking qualification shall be promptly informed as to whether qualification is attained and, in the event it is not, promptly furnished specific reasons why qualification was not attained.

(b) When justified under the circumstances, the agency activity responsible for establishing a qualification requirement shall submit to the competition advocate for the procuring activity responsible for purchasing the item subject to the qualification requirement, a determination that it is unreasonable to specify the standards for qualification which a prospective offeror (or its product) must satisfy. After considering any comments of the competition advocate reviewing the determination, the head of the procuring activity may waive the requirements of 9.202(a)(1)(ii) through (4) for up to 2 years with respect to the item subject to the qualification requirement. A copy of the waiver shall be furnished to the head of the agency or other official responsible for actions under 9.202(a)(1). The waiver authority provided in this paragraph does not apply with respect to qualification requirements contained in a QPL, QML, or QBL.

(c) If a potential offeror can demonstrate to the satisfaction of the contracting officer that the potential offeror (or its product) meets the standards established for qualification or can meet them before the date specified for award of the contract, a potential offeror may not be denied the opportunity to submit and have considered an offer for a contract solely because the potential offeror—

(1) Is not on a QPL, QML, or QBL maintained by the Department of Defense (DOD) or the National Aeronautics and Space Administration (NASA); or

(2) Has not been identified as meeting a qualification requirement established after October 19, 1984, by DOD or NASA; or

(3) Has not been identified as meeting a qualification requirement established by a civilian agency (not including NASA).

(d) The contracting officer need not delay a proposed award in order to provide a potential offeror with an opportunity to demonstrate its ability to meet the standards specified for qualification. In addition, when approved by the head of an agency or designee, a procurement need not be delayed in order to comply with 9.202(a).

(e) Within 7 years following enforcement of a QPL, QML, or QBL by DOD or NASA, or within 7 years after any qualification requirement was originally established by a civilian agency other than NASA, the qualification requirement shall be examined and revalidated in accordance with the requirements of 9.202(a). Any periods for which a waiver under 9.202(b) is in effect shall be excluded in com-

puting the 7 years within which review and revalidation must occur.

9.203 QPL's, QML's, and QBL's.

(a) Qualification and listing in a QPL, QML, or QBL is the process by which products are obtained from manufacturers or distributors, examined and tested for compliance with specification requirements, or manufacturers or potential offerors, are provided an opportunity to demonstrate their abilities to meet the standards specified for qualification. The names of successful products, manufacturers, or potential offerors are included on lists evidencing their status. Generally, qualification is performed in advance and independently of any specific acquisition action. After qualification, the products, manufacturers, or potential offerors are included in a Federal or Military QPL, QML, or QBL. (See 9.202(a)(2) with regard to any product, manufacturer, or potential offeror not yet included on an applicable list.)

(b) Specifications requiring a qualified product are included in the following publications:

(1) GSA Index of Federal Specifications, Standards and Commercial Item Descriptions, FPMR 101-29.1.

(2) Department of Defense Index of Specifications and Standards.

(c) Instructions concerning qualification procedures are included in the following publications:

(1) Federal Standardization Manual, FSPM-0001.

(2) Defense Standardization Manual 4120.24-M, Appendix 2, as amended by Military Standards 961 and 962.

(d) The publications listed in paragraphs (b) and (c) of this section are sold to the public. The publications in paragraphs (b)(1) and (c)(1) of this section may be obtained from the addressee in 11.201(d)(1). The publications in paragraphs (b)(2) and (c)(2) of this section may be obtained from the addressee in 11.201(d)(2).

9.204 Responsibilities for establishment of a qualification requirement.

The responsibilities of agency activities that establish qualification requirements include the following:

(a) Arranging publicity for the qualification requirements. If active competition on anticipated future qualification requirements is likely to be fewer than two manufacturers or the products of two manufacturers, the activity responsible for establishment of the qualification requirements must—

(1) Periodically furnish through the Governmentwide point of entry (GPE) a notice seeking additional sources or products for qualification unless the contracting officer determines that such publication would compromise the national security.

(2) Bear the cost of conducting the specified testing and evaluation (excluding the costs associated with producing the item or establishing the production, quality control, or other system to be tested and evaluated) for a small business concern or a product manufactured by a small business concern which has met the standards specified for qualification and which could reasonably be expected to compete for a contract for that requirement. However, such costs may be borne only if it is determined in accordance with agency procedures that such additional qualified sources or products are likely to result in cost savings from increased competition for future requirements sufficient to amortize the costs incurred by the agency within a reasonable period of time, considering the duration and dollar value of anticipated future requirements.

(b) Qualifying products that meet specification requirements.

(c) Listing manufacturers and suppliers whose products are qualified in accordance with agency procedures.

(d) Furnishing QPL's, QML's, or QBL's or the qualification requirements themselves to prospective offerors and the public upon request (see 9.202(a)(2)(i)).

(e) Clarifying, as necessary, qualification requirements.

(f) In appropriate cases, when requested by the contracting officer, providing concurrence in a decision not to enforce a qualification requirement for a solicitation.

(g) Withdrawing or omitting qualification of a listed product, manufacturer or offeror, as necessary.

(h) Advising persons furnished any list of products, manufacturers or offerors meeting a qualification requirement and suppliers whose products are on any such list that—

(1) The list does not constitute endorsement of the product, manufacturer, or other source by the Government;

(2) The products or sources listed have been qualified under the latest applicable specification;

(3) The list may be amended without notice;

(4) The listing of a product or source does not release the supplier from compliance with the specification; and

(5) Use of the list for advertising or publicity is permitted. However, it must not be stated or implied that a particular product or source is the only product or source of that type qualified, or that the Government in any way recommends or endorses the products or the sources listed.

(i) Reexamining a qualified product or manufacturer when—

(1) The manufacturer has modified its product, or changed the material or the processing sufficiently so that the validity of previous qualification is questionable;

(2) The requirements in the specification have been amended or revised sufficiently to affect the character of the product; or

(3) It is otherwise necessary to determine that the quality of the product is maintained in conformance with the specification.

9.205 Opportunity for qualification before award.

(a) If an agency determines that a qualification requirement is necessary, the agency activity responsible for establishing the requirement must urge manufacturers and other potential sources to demonstrate their ability to meet the standards specified for qualification and, when possible, give sufficient time to arrange for qualification before award. The responsible agency activity must, before establishing any qualification requirement, furnish notice through the GPE. The notice must include—

- (1) Intent to establish a qualification requirement;
- (2) The specification number and name of the product;
- (3) The name and address of the activity to which a request for the information and opportunity described in 9.202(a)(2) should be submitted;
- (4) The anticipated date that the agency will begin awarding contracts subject to the qualification requirement;
- (5) A precautionary notice that when a product is submitted for qualification testing, the applicant must furnish any specific information that may be requested of the manufacturer before testing will begin; and
- (6) The approximate time period following submission of a product for qualification testing within which the applicant will be notified whether the product passed or failed the qualification testing (see 9.202(a)(4)).

(b) The activity responsible for establishing a qualification requirement must keep any list maintained of those already qualified open for inclusion of additional products, manufacturers, or other potential sources, including eligible products from designated countries under the terms of the Trade Agreements Act (see Subpart 25.4).

9.206 Acquisitions subject to qualification requirements.

9.206-1 General.

(a) Agencies may not enforce any QPL, QML, or QBL without first complying with the requirements of 9.202(a). However, qualification requirements themselves, whether or not previously embodied in a QPL, QML, or QBL, may be enforced without regard to 9.202(a) if they are in either of the following categories:

- (1) Any qualification requirement established by statute prior to October 30, 1984, for civilian agencies (not including NASA); or
- (2) Any qualification requirement established by statute or administrative action prior to October 19, 1984, for DOD or NASA. Qualification requirements established after the above dates must comply with 9.202(a) to be enforceable.

(b) Except when the Public Printer or designee determines that an emergency exists, whenever an agency elects, whether before or after award, not to enforce a qualification requirement which it established, the requirement may not thereafter be enforced unless the agency complies with 9.202(a).

(c) If a qualification requirement applies, the contracting officer need consider only those offers identified as meeting the requirement or included on the applicable QPL, QML, or QBL, unless an offeror can satisfactorily demonstrate to the contracting officer that it or its product or its subcontractor or its product can meet the standards established for qualification before the date specified for award.

(d) If a product subject to a qualification requirement is to be acquired as a component of an end item, the contracting officer must ensure that all such components and their qualification requirements are properly identified in the solicitation since the product or source must meet the standards specified for qualification before award.

(e) In acquisitions subject to qualification requirements, the contracting officer shall take the following steps:

(1) Use presolicitation notices in appropriate cases to advise potential suppliers before issuing solicitations involving qualification requirements. The notices shall identify the specification containing the qualification requirement and establish an allowable time period, consistent with delivery requirements, for prospective offerors to demonstrate their abilities to meet the standards specified for qualification. The notice shall be publicized in accordance with 5.204. Whether or not a presolicitation notice is used, the general synopsis requirements of Subpart 5.2 apply.

(2) Distribute solicitations to prospective contractors whether or not they have been identified as meeting applicable qualification requirements.

(3) When appropriate, request in accordance with agency procedures that a qualification requirement not be enforced in a particular acquisition and, if granted, so specify in the solicitation (see 9.206-1(b)).

(4) Forward requests from potential suppliers for information on a qualification requirement to the agency activity responsible for establishing the requirement.

(5) Allow the maximum time, consistent with delivery requirements, between issuing the solicitation and the contract award. As a minimum, contracting officers shall comply with the time frames specified in 5.203 when applicable.

9.206-2 Contract clause.

The contracting officer shall insert the clause at 52.209-1, Qualification Requirements, in solicitations and contracts when the acquisition is subject to a qualification requirement.

9.206-3 Competition.

(a) *Presolicitation.* If a qualification requirement applies to an acquisition, the contracting officer shall review the applicable QPL, QML, or QBL or other identification of those sources which have met the requirement before issuing a solicitation to ascertain whether the number of sources is adequate for competition. (See 9.204(a) for duties of the agency activity responsible for establishment of the qualification requirement.) If the number of sources is inadequate, the contracting officer shall request the agency activity which established the requirement to—

(1) Indicate the anticipated date on which any sources presently undergoing evaluation will have demonstrated their abilities to meet the qualification requirement so that the solicitation could be rescheduled to allow as many additional sources as possible to qualify; or

(2) Indicate whether a means other than the qualification requirement is feasible for testing or demonstrating quality assurance.

(b) *Post solicitation.* The contracting officer shall submit to the agency activity which established the qualification requirement the names and addresses of concerns which expressed interest in the acquisition but are not included on the applicable QPL, QML, or QBL or identified as meeting the qualification requirement. The activity will then assist interested concerns in meeting the standards specified for qualification (see 9.202(a)(2) and (4)).

9.207 Changes in status regarding qualification requirements.

(a) The contracting officer shall promptly report to the agency activity which established the qualification requirement any conditions which may merit removal or omission from a QPL, QML, or QBL or affect whether a source should continue to be otherwise identified as meeting the requirement. These conditions exist when—

(1) Products or services are submitted for inspection or acceptance that do not meet the qualification requirement;

(2) Products or services were previously rejected and the defects were not corrected when submitted for inspection or acceptance;

(3) A supplier fails to request reevaluation following change of location or ownership of the plant where the product which met the qualification requirement was manufactured (see the clause at 52.209-1, Qualification Requirements);

(4) A manufacturer of a product which met the qualification requirement has discontinued manufacture of the product;

(5) A source requests removal from a QPL, QML, or QBL;

(6) A condition of meeting the qualification requirement was violated; *e.g.*, advertising or publicity contrary to 9.204(h)(5);

(7) A revised specification imposes a new qualification requirement;

(8) Manufacturing or design changes have been incorporated in the qualification requirement;

(9) The source is on the List of Parties Excluded from Federal Procurement and Nonprocurement Programs (see Subpart 9.4); or

(10) Performance of a contract subject to a qualification requirement is otherwise unsatisfactory.

(b) After considering any of the above or other conditions reasonably related to whether a product or source continues to meet the standards specified for qualification, an agency may take appropriate action without advance notification.

The agency shall, however, promptly notify the affected parties if a product or source is removed from a QPL, QML, or QBL, or will no longer be identified as meeting the standards specified for qualification. This notice shall contain specific information why the product or source no longer meets the qualification requirement.

Subpart 9.3—First Article Testing and Approval

9.301 Definition.

“Approval,” as used in this subpart, means the contracting officer’s written notification to the contractor accepting the test results of the first article.

9.302 General.

First article testing and approval (hereafter referred to as testing and approval) ensures that the contractor can furnish a product that conforms to all contract requirements for acceptance. Before requiring testing and approval, the contracting officer shall consider the—

- (a) Impact on cost or time of delivery;
- (b) Risk to the Government of foregoing such test; and
- (c) Availability of other, less costly, methods of ensuring the desired quality.

9.303 Use.

Testing and approval may be appropriate when—

- (a) The contractor has not previously furnished the product to the Government;
- (b) The contractor previously furnished the product to the Government, but—
 - (1) There have been subsequent changes in processes or specifications;
 - (2) Production has been discontinued for an extended period of time; or
 - (3) The product acquired under a previous contract developed a problem during its life;
- (c) The product is described by a performance specification; or
- (d) It is essential to have an approved first article to serve as a manufacturing standard.

9.304 Exceptions.

Normally, testing and approval is not required in contracts for—

- (a) Research or development;
- (b) Products requiring qualification before award (*e.g.*, when an applicable qualified products list exists (see Subpart 9.2));
- (c) Products normally sold in the commercial market; or
- (d) Products covered by complete and detailed technical specifications, unless the requirements are so novel or exacting that it is questionable whether the products would meet the requirements without testing and approval.

9.305 Risk.

Before first article approval, the acquisition of materials or components, or commencement of production, is nor-

mally at the sole risk of the contractor. To minimize this risk, the contracting officer shall provide sufficient time in the delivery schedule for acquisition of materials and components, and for production after receipt of first article approval. When Government requirements preclude this action, the contracting officer may, before approval of the first article, authorize the contractor to acquire specific materials or components or commence production to the extent essential to meet the delivery schedule (see Alternate II of the clause at 52.209-3, First Article Approval—Contractor Testing, and Alternate II of the clause at 52.209-4, First Article Approval—Government Testing). Costs incurred based on this authorization are allocable to the contract for—

- (1) Progress payments; and
- (2) Termination settlements if the contract is terminated for the convenience of the Government.

9.306 Solicitation requirements.

Solicitations containing a testing and approval requirement shall—

(a) Provide, in the circumstance where the contractor is to be responsible for the first article approval testing—

- (1) The performance or other characteristics that the first article must meet for approval;
- (2) The detailed technical requirements for the tests that must be performed for approval; and
- (3) The necessary data that must be submitted to the Government in the first article approval test report;

(b) Provide, in the circumstance where the Government is to be responsible for the first article approval testing—

- (1) The performance or other characteristics that the first article must meet for approval; and
- (2) The tests to which the first article will be subjected for approval;

(c) Inform offerors that the requirement may be waived when supplies identical or similar to those called for have previously been delivered by the offeror and accepted by the Government (see 52.209-3(h) and 52.209-4(i));

(d) Permit the submission of alternative offers, one including testing and approval and the other excluding testing and approval (if eligible under 9.306(c));

(e) State clearly the first article’s relationship to the contract quantity (see paragraph (e) of the clause at 52.209-3, First Article Approval—Contractor Testing, or 52.209-4, First Article Approval—Government Testing);

(f) Contain a delivery schedule for the production quantity (see 12.104). The delivery schedule may—

- (1) Be the same whether or not testing and approval is waived; or

(2) Provide for earlier delivery when testing and approval is waived and the Government desires earlier delivery. In the latter case, any resulting difference in delivery schedules shall not be a factor in evaluation for award. The clause at 52.209-4, First Article Approval—Government Testing, shall contain the delivery schedule for the first article;

(g) Provide for the submission of contract numbers, if any, to document the offeror's eligibility under 9.306(c);

(h) State whether the approved first article will serve as a manufacturing standard; and

(i) Include, when the Government is responsible for first article testing, the Government's estimated testing costs as a factor for use in evaluating offers (when appropriate).

(j) Inform offerors that the prices for first articles and first article tests in relation to production quantities shall not be materially unbalanced (see 15.404-1(g)) if first article test items or tests are to be separately priced.

9.307 Government administration procedures.

(a) Before the contractor ships the first article, or the first article test report, to the Government laboratory or other activity responsible for approval at the address specified in the contract, the contract administration office shall provide that activity with as much advance notification as is feasible of the forthcoming shipment, and—

(1) Advise that activity of the contractual requirements for testing and approval, or evaluation, as appropriate;

(2) Call attention to the notice requirement in paragraph (b) of the clause at 52.209-3, First Article Approval—Contractor Testing, or 52.209-4, First Article Approval—Government Testing; and

(3) Request that the activity inform the contract administration office of the date when testing or evaluation will be completed.

(b) The Government laboratory or other activity responsible for first article testing or evaluation shall inform the contracting office whether to approve, conditionally approve, or disapprove the first article. The contracting officer shall then notify the contractor of the action taken and furnish a copy of the notice to the contract administration office. The notice shall include the first article shipment number, when available, and the applicable contract line item number. Any changes in the drawings, designs, or specifications determined by the contracting officer to be necessary shall be made under the Changes clause, and not by the notice of approval, conditional approval, or disapproval furnished the contractor.

9.308 Contract clauses.

9.308-1 Testing performed by the contractor.

(a)(1) The contracting officer shall insert the clause at 52.209-3, First Article Approval—Contractor Testing, in solicitations and contracts when a fixed-price contract is contemplated and it is intended that the contract require—

(i) First article approval; and

(ii) That the contractor be required to conduct the first article testing.

(2) If it is intended that the contractor be required to produce the first article and the production quantity at the same facility, the contracting officer shall use the clause with its Alternate I.

(3) If it is necessary to authorize the contractor to purchase material or to commence production before first article approval, the contracting officer shall use the clause with its Alternate II.

(b)(1) The contracting officer shall insert a clause substantially the same as the clause at 52.209-3, First Article Approval—Contractor Testing, in solicitations and contracts when a cost-reimbursement contract is contemplated and it is intended that the contract require—

(i) First article approval; and

(ii) That the contractor be required to conduct the first article test.

(2) If it is intended that the contractor be required to produce the first article and the production quantity at the same facility, the contracting officer shall use a clause substantially the same as the clause at 52.209-3, First Article Approval—Contractor Testing, with its Alternate I.

(3) If it is necessary to authorize the contractor to purchase material or to commence production before first article approval, the contracting officer shall use a clause substantially the same as the clause at 52.209-3, First Article Approval—Contractor Testing, with its Alternate II.

9.308-2 Testing performed by the Government.

(a)(1) The contracting officer shall insert the clause at 52.209-4, First Article Approval—Government Testing, in solicitations and contracts when a fixed-price contract is contemplated and it is intended that the contract require first article approval and that the Government will be responsible for conducting the first article test.

(2) If it is intended that the contractor be required to produce the first article and the production quantity at the same facility, the contracting officer shall use the basic clause with its Alternate I.

(3) If it is necessary to authorize the contractor to purchase material or to commence production before first article approval, the contracting officer shall use the basic clause with its Alternate II.

(b)(1) The contracting officer shall insert a clause substantially the same as the clause at 52.209-4, First Article Approval—Government Testing, in solicitations and contracts when a cost-reimbursement contract is contemplated and it is intended that the contract require first article approval and that the Government be responsible for conducting the first article test.

(2) If it is intended that the contractor be required to produce the first article and the production quantity at the

same facility, the contracting officer shall use a clause substantially the same as the clause at 52.209-4, First Article Approval—Government Testing, with its Alternate I.

(3) If it is necessary to authorize the contractor to purchase material or to commence production before first article approval, the contracting officer shall use a clause substantially the same as the clause at 52.209-4, First Article Approval—Government Testing, with its Alternate II.

Subpart 9.4—Debarment, Suspension, and Ineligibility

9.400 Scope of subpart.

Policies and procedures governing the debarment and suspension of contractors by the GPO are contained in GPO Instruction 110.11B.

9.401 [Reserved]

9.402 [Reserved]

9.403 [Reserved]

9.404 [Reserved]

9.405 [Reserved]

9.405-1 [Reserved]

9.405-2 [Reserved]

9.406 [Reserved]

9.406-1 [Reserved]

9.406-2 [Reserved]

9.406-3 [Reserved]

9.406-4 [Reserved]

9.406-5 [Reserved]

9.407 [Reserved]

9.407-1 [Reserved]

9.407-2 [Reserved]

9.407-3 [Reserved]

9.407-4 [Reserved]

9.407-5 [Reserved]

9.408 Certification regarding debarment, suspension, proposed debarment, and other responsibility matters.

(a) When an offeror, in compliance with the provision at 52.209-5, Certification Regarding Debarment, Suspension,

Proposed Debarment, and Other Responsibility Matters, indicates an indictment, charge, civil judgment, conviction, suspension, debarment, proposed debarment, ineligibility, or default of a contract, the contracting officer shall—

(1) Request such additional information from the offeror as the contracting officer deems necessary in order to make a determination of the offeror's responsibility (but see 9.405); and

(2) Notify, prior to proceeding with award, in accordance with agency procedures (see 9.406-3(a) and 9.407-3(a)), the agency official responsible for initiating debarment or suspension action, where an offeror indicates the existence of an indictment, charge, conviction, or civil judgment.

(b) Offerors who do not furnish the certification or such information as may be requested by the contracting officer shall be given an opportunity to remedy the deficiency. Failure to furnish the certification or such information may render the offeror nonresponsive.

9.409 Solicitation provision and contract clause.

(a) The contracting officer shall insert the provision at 52.209-5, Certification Regarding Debarment, Suspension, Proposed Debarment, and Other Responsibility Matters, in solicitations where the contract value is expected to exceed the simplified acquisition threshold.

(b) The contracting officer shall insert the clause at 52.209-6, Protecting the Government's Interests when Subcontracting with Contractors Debarred, Suspended, or Proposed for Debarment, in solicitations and contracts where the contract value exceeds \$25,000.

Subpart 9.5—Organizational and Consultant Conflicts of Interest

9.500 Scope of subpart.

This subpart—

- (a) Prescribes responsibilities, general rules, and procedures for identifying, evaluating, and resolving organizational conflicts of interest; and
- (b) Provides examples to assist contracting officers in applying these rules and procedures to individual contracting situations.

9.501 Definition.

“Marketing consultant,” as used in this subpart, means any independent contractor who furnishes advice, information, direction, or assistance to an offeror or any other contractor in support of the preparation or submission of an offer for a Government contract by that offeror. An independent contractor is not a marketing consultant when rendering—

- (1) Services excluded in Subpart 37.2;
- (2) Routine engineering and technical services (such as installation, operation, or maintenance of systems, equipment, software, components, or facilities);
- (3) Routine legal, actuarial, auditing, and accounting services; and
- (4) Training services.

9.502 Applicability.

- (a) This subpart applies to contracts with either profit or nonprofit organizations, including nonprofit organizations created largely or wholly with Government funds.
- (b) The applicability of this subpart is not limited to any particular kind of acquisition. However, organizational conflicts of interest are more likely to occur in contracts involving—
 - (1) Management support services;
 - (2) Consultant or other professional services;
 - (3) Contractor performance of or assistance in technical evaluations; or
 - (4) Systems engineering and technical direction work performed by a contractor that does not have overall contractual responsibility for development or production.
- (c) An organizational conflict of interest may result when factors create an actual or potential conflict of interest on an instant contract, or when the nature of the work to be performed on the instant contract creates an actual or potential conflict of interest on a future acquisition. In the latter case, some restrictions on future activities of the contractor may be required.
- (d) Acquisitions subject to unique agency organizational conflict of interest statutes are excluded from the requirements of this subpart.

9.503 Waiver.

The agency head or a designee may waive any general rule or procedure of this subpart by determining that its application in a particular situation would not be in the Government’s interest. Any request for waiver must be in writing, shall set forth the extent of the conflict, and requires approval by the agency head or a designee. Agency heads shall not delegate waiver authority below the level of head of a contracting activity.

9.504 Contracting officer responsibilities.

(a) Using the general rules, procedures, and examples in this subpart, contracting officers shall analyze planned acquisitions in order to—

(1) Identify and evaluate potential organizational conflicts of interest as early in the acquisition process as possible; and

(2) Avoid, neutralize, or mitigate significant potential conflicts before contract award.

(b) Contracting officers should obtain the advice of counsel and the assistance of appropriate technical specialists in evaluating potential conflicts and in developing any necessary solicitation provisions and contract clauses (see 9.506).

(c) Before issuing a solicitation for a contract that may involve a significant potential conflict, the contracting officer shall recommend to the head of the contracting activity a course of action for resolving the conflict (see 9.506).

(d) In fulfilling their responsibilities for identifying and resolving potential conflicts, contracting officers should avoid creating unnecessary delays, burdensome information requirements, and excessive documentation. The contracting officer’s judgment need be formally documented only when a substantive issue concerning potential organizational conflict of interest exists.

(e) The contracting officer shall award the contract to the apparent successful offeror unless a conflict of interest is determined to exist that cannot be avoided or mitigated. Before determining to withhold award based on conflict of interest considerations, the contracting officer shall notify the contractor, provide the reasons therefor, and allow the contractor a reasonable opportunity to respond. If the contracting officer finds that it is in the best interest of the United States to award the contract notwithstanding a conflict of interest, a request for waiver shall be submitted in accordance with 9.503. The waiver request and decision shall be included in the contract file.

9.505 General rules.

The general rules in 9.505-1 through 9.505-4 prescribe limitations on contracting as the means of avoiding, neutralizing, or mitigating organizational conflicts of interest that might otherwise exist in the stated situations. Some illustrative examples are provided in 9.508. Conflicts may arise in

situations not expressly covered in this section 9.505 or in the examples in 9.508. Each individual contracting situation should be examined on the basis of its particular facts and the nature of the proposed contract. The exercise of common sense, good judgment, and sound discretion is required in both the decision on whether a significant potential conflict exists and, if it does, the development of an appropriate means for resolving it. The two underlying principles are—

(a) Preventing the existence of conflicting roles that might bias a contractor's judgment; and

(b) Preventing unfair competitive advantage. In addition to the other situations described in this subpart, an unfair competitive advantage exists where a contractor competing for award of any Federal contract possesses—

(1) Proprietary information that was obtained from a Government official without proper authorization; or

(2) Source selection information (as defined in 2.101) that is relevant to the contract but is not available to all competitors, and such information would assist that contractor in obtaining the contract.

9.505-1 Providing systems engineering and technical direction.

(a) A contractor that provides systems engineering and technical direction for a system but does not have overall contractual responsibility for its development, its integration, assembly, and checkout, or its production shall not—

(1) Be awarded a contract to supply the system or any of its major components; or

(2) Be a subcontractor or consultant to a supplier of the system or any of its major components.

(b) Systems engineering includes a combination of substantially all of the following activities: determining specifications, identifying and resolving interface problems, developing test requirements, evaluating test data, and supervising design. Technical direction includes a combination of substantially all of the following activities: developing work statements, determining parameters, directing other contractors' operations, and resolving technical controversies. In performing these activities, a contractor occupies a highly influential and responsible position in determining a system's basic concepts and supervising their execution by other contractors. Therefore this contractor should not be in a position to make decisions favoring its own products or capabilities.

9.505-2 Preparing specifications or work statements.

(a)(1) If a contractor prepares and furnishes complete specifications covering nondevelopmental items, to be used in a competitive acquisition, that contractor shall not be allowed to furnish these items, either as a prime contractor or as a subcontractor, for a reasonable period of time including,

at least, the duration of the initial production contract. This rule shall not apply to—

(i) Contractors that furnish at Government request specifications or data regarding a product they provide, even though the specifications or data may have been paid for separately or in the price of the product; or

(ii) Situations in which contractors, acting as industry representatives, help Government agencies prepare, refine, or coordinate specifications, regardless of source, provided this assistance is supervised and controlled by Government representatives.

(2) If a single contractor drafts complete specifications for nondevelopmental equipment, it should be eliminated for a reasonable time from competition for production based on the specifications. This should be done in order to avoid a situation in which the contractor could draft specifications favoring its own products or capabilities. In this way the Government can be assured of getting unbiased advice as to the content of the specifications and can avoid allegations of favoritism in the award of production contracts.

(3) In development work, it is normal to select firms that have done the most advanced work in the field. These firms can be expected to design and develop around their own prior knowledge. Development contractors can frequently start production earlier and more knowledgeably than firms that did not participate in the development, and this can affect the time and quality of production, both of which are important to the Government. In many instances the Government may have financed the development. Thus, while the development contractor has a competitive advantage, it is an unavoidable one that is not considered unfair; hence no prohibition should be imposed.

(b)(1) If a contractor prepares, or assists in preparing, a work statement to be used in competitively acquiring a system or services—or provides material leading directly, predictably, and without delay to such a work statement—that contractor may not supply the system, major components of the system, or the services unless—

(i) It is the sole source;

(ii) It has participated in the development and design work; or

(iii) More than one contractor has been involved in preparing the work statement.

(2) Agencies should normally prepare their own work statements. When contractor assistance is necessary, the contractor might often be in a position to favor its own products or capabilities. To overcome the possibility of bias, contractors are prohibited from supplying a system or services acquired on the basis of work statements growing out of their services, unless excepted in paragraph (b)(1) of this section.

(3) For the reasons given in 9.505-2(a)(3), no prohibitions are imposed on development and design contractors.

9.505-3 Providing evaluation services.

Contracts for the evaluation of offers for products or services shall not be awarded to a contractor that will evaluate its own offers for products or services, or those of a competitor, without proper safeguards to ensure objectivity to protect the Government's interests.

9.505-4 Obtaining access to proprietary information.

(a) When a contractor requires proprietary information from others to perform a Government contract and can use the leverage of the contract to obtain it, the contractor may gain an unfair competitive advantage unless restrictions are imposed. These restrictions protect the information and encourage companies to provide it when necessary for contract performance. They are not intended to protect information—

(1) Furnished voluntarily without limitations on its use; or

(2) Available to the Government or contractor from other sources without restriction.

(b) A contractor that gains access to proprietary information of other companies in performing advisory and assistance services for the Government must agree with the other companies to protect their information from unauthorized use or disclosure for as long as it remains proprietary and refrain from using the information for any purpose other than that for which it was furnished. The contracting officer shall obtain copies of these agreements and ensure that they are properly executed.

(c) Contractors also obtain proprietary and source selection information by acquiring the services of marketing consultants which, if used in connection with an acquisition, may give the contractor an unfair competitive advantage. Contractors should make inquiries of marketing consultants to ensure that the marketing consultant has provided no unfair competitive advantage.

9.506 Procedures.

(a) If information concerning prospective contractors is necessary to identify and evaluate potential organizational conflicts of interest or to develop recommended actions, contracting officers first should seek the information from within the Government or from other readily available sources. Government sources include the files and the knowledge of personnel within the contracting office, other contracting offices, the cognizant contract administration and audit activities and offices concerned with contract financing. Non-Government sources include publications and commercial services, such as credit rating services, trade and financial journals, and business directories and registers.

(b) If the contracting officer decides that a particular acquisition involves a significant potential organizational conflict of interest, the contracting officer shall, before issu-

ing the solicitation, submit for approval to the chief of the contracting office (unless a higher level official is designated by the agency)—

(1) A written analysis, including a recommended course of action for avoiding, neutralizing, or mitigating the conflict, based on the general rules in 9.505 or on another basis not expressly stated in that section;

(2) A draft solicitation provision (see 9.507-1); and

(3) If appropriate, a proposed contract clause (see 9.507-2).

(c) The approving official shall—

(1) Review the contracting officer's analysis and recommended course of action, including the draft provision and any proposed clause;

(2) Consider the benefits and detriments to the Government and prospective contractors; and

(3) Approve, modify, or reject the recommendations in writing.

(d) The contracting officer shall—

(1) Include the approved provision(s) and any approved clause(s) in the solicitation or the contract, or both;

(2) Consider additional information provided by prospective contractors in response to the solicitation or during negotiations; and

(3) Before awarding the contract, resolve the conflict or the potential conflict in a manner consistent with the approval or other direction by the head of the contracting activity.

(e) If, during the effective period of any restriction (see 9.507), a contracting office transfers acquisition responsibility for the item or system involved, it shall notify the successor contracting office of the restriction, and send a copy of the contract under which the restriction was imposed.

9.507 Solicitation provisions and contract clause.**9.507-1 Solicitation provisions.**

As indicated in the general rules in 9.505, significant potential organizational conflicts of interest are normally resolved by imposing some restraint, appropriate to the nature of the conflict, upon the contractor's eligibility for future contracts or subcontracts. Therefore, affected solicitations shall contain a provision that—

(a) Invites offerors' attention to this subpart;

(b) States the nature of the potential conflict as seen by the contracting officer;

(c) States the nature of the proposed restraint upon future contractor activities; and

(d) Depending on the nature of the acquisition, states whether or not the terms of any proposed clause and the application of this subpart to the contract are subject to negotiation.

9.507-2 Contract clause.

(a) If, as a condition of award, the contractor's eligibility for future prime contract or subcontract awards will be restricted or the contractor must agree to some other restraint, the solicitation shall contain a proposed clause that specifies both the nature and duration of the proposed restraint. The contracting officer shall include the clause in the contract, first negotiating the clause's final terms with the successful offeror, if it is appropriate to do so (see 9.506(d) of this subsection).

(b) The restraint imposed by a clause shall be limited to a fixed term of reasonable duration, sufficient to avoid the circumstance of unfair competitive advantage or potential bias. This period varies. It might end, for example, when the first production contract using the contractor's specifications or work statement is awarded, or it might extend through the entire life of a system for which the contractor has performed systems engineering and technical direction. In every case, the restriction shall specify termination by a specific date or upon the occurrence of an identifiable event.

9.508 Examples.

The examples in paragraphs (a) through (i) following illustrate situations in which questions concerning organizational conflicts of interest may arise. They are not all inclusive, but are intended to help the contracting officer apply the general rules in 9.505 to individual contract situations.

(a) Company A agrees to provide systems engineering and technical direction for the Navy on the powerplant for a group of submarines (*i.e.*, turbines, drive shafts, propellers, etc.). Company A should not be allowed to supply any powerplant components. Company A can, however, supply components of the submarine unrelated to the powerplant (*e.g.*, fire control, navigation, etc.). In this example, the system is the powerplant, not the submarine, and the ban on supplying components is limited to those for the system only.

(b) Company A is the systems engineering and technical direction contractor for system X. After some progress, but before completion, the system is canceled. Later, system Y is developed to achieve the same purposes as system X, but in a fundamentally different fashion. Company B is the systems engineering and technical direction contractor for system Y. Company A may supply system Y or its components.

(c) Company A develops new electronic equipment and, as a result of this development, prepares specifications. Company A may supply the equipment.

(d) XYZ Tool Company and PQR Machinery Company, representing the American Tool Institute, work under Government supervision and control to refine specifications or to clarify the requirements of a specific acquisition. These companies may supply the item.

(e) Before an acquisition for information technology is conducted, Company A is awarded a contract to prepare data system specifications and equipment performance criteria to be used as the basis for the equipment competition. Since the specifications are the basis for selection of commercial hardware, a potential conflict of interest exists. Company A should be excluded from the initial follow-on information technology hardware acquisition.

(f) Company A receives a contract to define the detailed performance characteristics an agency will require for purchasing rocket fuels. Company A has not developed the particular fuels. When the definition contract is awarded, it is clear to both parties that the agency will use the performance characteristics arrived at to choose competitively a contractor to develop or produce the fuels. Company A may not be awarded this follow-on contract.

(g) Company A receives a contract to prepare a detailed plan for scientific and technical training of an agency's personnel. It suggests a curriculum that the agency endorses and incorporates in its request for proposals to institutions to establish and conduct the training. Company A may not be awarded a contract to conduct the training.

(h) Company A is selected to study the use of lasers in communications. The agency intends to ask that firms doing research in the field make proprietary information available to Company A. The contract must require Company A to—

(1) Enter into agreements with these firms to protect any proprietary information they provide; and

(2) Refrain from using the information in supplying lasers to the Government or for any purpose other than that for which it was intended.

(i) An agency that regulates an industry wishes to develop a system for evaluating and processing license applications. Contractor X helps develop the system and process the applications. Contractor X should be prohibited from acting as a consultant to any of the applicants during its period of performance and for a reasonable period thereafter.

Subpart 9.6—Contractor Team Arrangements**9.601 Definition.**

“Contractor team arrangement,” as used in this subpart, means an arrangement in which—

- (1) Two or more companies form a partnership or joint venture to act as a potential prime contractor; or
- (2) A potential prime contractor agrees with one or more other companies to have them act as its subcontractors under a specified Government contract or acquisition program.

9.602 General.

(a) Contractor team arrangements may be desirable from both a Government and industry standpoint in order to enable the companies involved to—

- (1) Complement each other’s unique capabilities; and
- (2) Offer the Government the best combination of performance, cost, and delivery for the system or product being acquired.

(b) Contractor team arrangements may be particularly appropriate in complex research and development acquisitions, but may be used in other appropriate acquisitions, including production.

(c) The companies involved normally form a contractor team arrangement before submitting an offer. However, they may enter into an arrangement later in the acquisition process, including after contract award.

9.603 Policy.

The Government will recognize the integrity and validity of contractor team arrangements; *provided*, the arrangements are identified and company relationships are fully disclosed in an offer or, for arrangements entered into after submission of an offer, before the arrangement becomes effective. The Government will not normally require or encourage the dissolution of contractor team arrangements.

9.604 Limitations.

Nothing in this subpart authorizes contractor team arrangements in violation of antitrust statutes or limits the Government’s rights to—

- (a) Require consent to subcontracts (see Subpart 44.2);
- (b) Determine, on the basis of the stated contractor team arrangement, the responsibility of the prime contractor (see Subpart 9.1);
- (c) Provide to the prime contractor data rights owned or controlled by the Government;
- (d) Pursue its policies on competitive contracting, subcontracting, and component breakout after initial production or at any other time; and
- (e) Hold the prime contractor fully responsible for contract performance, regardless of any team arrangement between the prime contractor and its subcontractors.

Subpart 9.7—[Reserved]

* * * * *

PART 10—MARKET RESEARCH

Sec.

10.000 Scope of part.

10.001 Policy.

10.002 Procedures.

This page intentionally left blank.

10.000 Scope of part.

This part prescribes policies and procedures for conducting market research to arrive at the most suitable approach to acquiring, distributing, and supporting supplies and services.

10.001 Policy.

(a) Contracting officers must—

(1) Ensure that legitimate needs are identified and trade-offs evaluated to acquire items that meet those needs;

(2) Conduct market research appropriate to the circumstances—

(i) Before developing new requirements documents for an acquisition by that agency;

(ii) Before soliciting offers for acquisitions with an estimated value in excess of the simplified acquisition threshold;

(iii) Before soliciting offers for acquisitions with an estimated value less than the simplified acquisition threshold when adequate information is not available and the circumstances justify its cost; and

(iv) Before soliciting offers for acquisitions that could lead to a bundled contract; and

(v) Contracting officers shall conduct market research on an ongoing basis, and take advantage to the maximum extent practicable of commercially available market research methods, to identify effectively the capabilities, including the capabilities of small businesses and new entrants into Federal contracting, that are available in the marketplace for meeting the requirements of the agency in furtherance of defense against or recovery from terrorism or nuclear, biological, chemical, or radiological attack (Pub. L. 107-296 Sec. 858); and

(3) Use the results of market research to—

(i) Determine if sources capable of satisfying the agency's requirements exist;

(ii) Determine if commercial items or, to the extent commercial items suitable to meet the agency's needs are not available, nondevelopmental items are available that—

(A) Meet the agency's requirements;

(B) Could be modified to meet the agency's requirements; or

(C) Could meet the agency's requirements if those requirements were modified to a reasonable extent;

(iii) Determine the extent to which commercial items or nondevelopmental items could be incorporated at the component level;

(iv) Determine the practices of firms engaged in producing, distributing, and supporting commercial items, such as terms for warranties, buyer financing, maintenance and packaging, and marking;

(v) Ensure maximum practicable use of recovered materials (see Subpart 23.4) and promote energy conservation and efficiency; and

(vi) Determine whether bundling is necessary and justified (see 7.107).

(vii) Assess the availability of electronic and information technology that meets all or part of the applicable accessibility standards issued by the Architectural and Transportation Barriers Compliance Board at 36 CFR part 1194 (see Subpart 39.2).

(b) When conducting market research, agencies should not request potential sources to submit more than the minimum information necessary.

10.002 Procedures.

(a) Acquisitions begin with a description of the Government's needs stated in terms sufficient to allow conduct of market research.

(b) Market research is then conducted to determine if commercial items or nondevelopmental items are available to meet the Government's needs or could be modified to meet the Government's needs.

(1) The extent of market research will vary, depending on such factors as urgency, estimated dollar value, complexity, and past experience. Market research involves obtaining information specific to the item being acquired and should include—

(i) Whether the Government's needs can be met by—

(A) Items of a type customarily available in the commercial marketplace;

(B) Items of a type customarily available in the commercial marketplace with modifications; or

(C) Items used exclusively for governmental purposes;

(ii) Customary practices regarding customizing, modifying or tailoring of items to meet customer needs and associated costs;

(iii) Customary practices, including warranty, buyer financing, discounts, etc., under which commercial sales of the products are made;

(iv) The requirements of any laws and regulations unique to the item being acquired;

(v) The availability of items that contain recovered materials and items that are energy efficient;

(vi) The distribution and support capabilities of potential suppliers, including alternative arrangements and cost estimates; and

(vii) Size and status of potential sources (see Part 19).

(2) Techniques for conducting market research may include any or all of the following:

(i) Contacting knowledgeable individuals in Government and industry regarding market capabilities to meet requirements.

(ii) Reviewing the results of recent market research undertaken to meet similar or identical requirements.

(iii) Publishing formal requests for information in appropriate technical or scientific journals or business publications.

(iv) Querying Government data bases that provide information relevant to agency acquisitions.

(v) Participating in interactive, on-line communication among industry, acquisition personnel, and customers.

(vi) Obtaining source lists of similar items from other contracting activities or agencies, trade associations or other sources.

(vii) Reviewing catalogs and other generally available product literature published by manufacturers, distributors, and dealers or available on-line.

(viii) Conducting interchange meetings or holding presolicitation conferences to involve potential offerors early in the acquisition process.

(c) If market research indicates commercial or nondevelopmental items might not be available to satisfy agency

needs, agencies shall reevaluate the need in accordance with 10.001(a)(3)(ii) and determine whether the need can be restated to permit commercial or nondevelopmental items to satisfy the agency's needs.

(d)(1) If market research establishes that the Government's need may be met by a type of item or service customarily available in the commercial marketplace that would meet the definition of a commercial item at Subpart 2.1, the contracting officer shall solicit and award any resultant contract using the policies and procedures in Part 12.

(2) If market research establishes that the Government's need cannot be met by a type of item or service customarily available in the marketplace, Part 12 shall not be used. When publication of the notice at 5.201 is required, the contracting officer shall include a notice to prospective offerors that the Government does not intend to use Part 12 for the acquisition (see 5.207(e)(4)).

(e) Agencies should document the results of market research in a manner appropriate to the size and complexity of the acquisition.

		11.801	Preaward in-use evaluation.

This page intentionally left blank.

11.000 Scope of part.

This part prescribes policies and procedures for describing agency needs.

11.001 Definitions.

As used in this part—

“Reconditioned” means restored to the original normal operating condition by readjustments and material replacement.

“Remanufactured” means factory rebuilt to original specifications.

11.002 Policy.

(a) The agency shall—

(1) Specify needs using market research in a manner designed to—

(i) Promote full and open competition (see Part 6), or maximum practicable competition when using simplified acquisition procedures, with due regard to the nature of the supplies or services to be acquired; and

(ii) Only include restrictive provisions or conditions to the extent necessary to satisfy the needs of the agency or as authorized by law.

(2) To the maximum extent practicable, ensure that acquisition officials—

(i) State requirements with respect to an acquisition of supplies or services in terms of—

(A) Functions to be performed;

(B) Performance required; or

(C) Essential physical characteristics;

(ii) Define requirements in terms that enable and encourage offerors to supply commercial items, or, to the extent that commercial items suitable to meet the agency's needs are not available, nondevelopmental items, in response to the agency solicitations;

(iii) Provide offerors of commercial items and nondevelopmental items an opportunity to compete in any acquisition to fill such requirements;

(iv) Require prime contractors and subcontractors at all tiers under the agency contracts to incorporate commercial items or nondevelopmental items as components of items supplied to the agency; and

(v) Modify requirements in appropriate cases to ensure that the requirements can be met by commercial items or, to the extent that commercial items suitable to meet the agency's needs are not available, nondevelopmental items.

(b) The Metric Conversion Act of 1975, as amended by the Omnibus Trade and Competitiveness Act of 1988 (15 U.S.C. 205a, *et seq.*), designates the metric system of measurement as the preferred system of weights and measures for United States trade and commerce, and it requires that each agency use the metric system of measurement in its

acquisitions, except to the extent that such use is impracticable or is likely to cause significant inefficiencies or loss of markets to United States firms. Requiring activities are responsible for establishing guidance implementing this policy in formulating their requirements for acquisitions.

(c) To the extent practicable and consistent with Subpart 9.5, potential offerors should be given an opportunity to comment on agency requirements or to recommend application and tailoring of requirements documents and alternative approaches. Requiring agencies should apply specifications, standards, and related documents initially for guidance only, making final decisions on the application and tailoring of these documents as a product of the design and development process. Requiring agencies should not dictate detailed design solutions prematurely (see 7.101 and 7.105(a)(8)).

(d)(1) The Resource Conservation and Recovery Act of 1976 (42 U.S.C. 6901, *et seq.*), Executive Order 13101 of September 14, 1998, Greening the Government through Waste Prevention, Recycling, and Federal Acquisition, and Executive Order 13123 of June 3, 1999, Greening the Government through Efficient Energy Management, establish requirements for acquiring—

(i) Products containing recovered materials;

(ii) Environmentally preferable products and services;

(iii) Energy-efficient products and services; and

(iv) Products and services that utilize renewable energy technologies.

(2) Although the above-cited executive orders are not applicable to GPO, it is agency policy to follow the principles of the executive orders when doing so will not adversely affect agency needs. The agency must consider use of recovered materials, energy- and water-efficient products and services, environmentally preferable purchasing criteria developed by the EPA, and environmental objectives (see Subparts 23.2 and 23.4 and 23.703(b)) when—

(i) Developing, reviewing, or revising Federal and military specifications, product descriptions (including commercial item descriptions) and standards;

(ii) Describing Government requirements for supplies and services; and

(iii) Developing source-selection factors.

(e) Some or all of the performance levels or performance specifications in a solicitation may be identified as targets rather than as fixed or minimum requirements.

(f) In accordance with Section 508 of the Rehabilitation Act of 1973 (29 U.S.C. 794d), requiring activities must prepare requirements documents for electronic and information technology that, consistent with agency needs, comply with the applicable accessibility standards issued by the Architectural and Transportation Barriers Compliance Board at 36 CFR part 1194 (see Subpart 39.2)

Subpart 11.1—Selecting and Developing Requirements Documents

11.101 Order of precedence for requirements documents.

(a) Agencies may select from existing requirements documents, modify or combine existing requirements documents, or create new requirements documents to meet agency needs, consistent with the following order of precedence:

- (1) Documents mandated for use by law.
- (2) Performance-oriented documents.
- (3) Detailed design-oriented documents.
- (4) Standards, specifications and related publications issued by the Government outside the Defense or Federal series for the non-repetitive acquisition of items.

(b) Agencies must prepare requirements documents to achieve maximum practicable—

- (1) Energy efficiency, including using renewable energy technologies; and
- (2) Use of recovered material, other materials that are environmentally preferable, energy- and water-efficient products, and renewable energy technologies (see Subparts 23.2, 23.4, and 23.7).

11.102 [Reserved]

11.103 Market acceptance.

(a) In accordance with agency procedures, the head of an agency may, under appropriate circumstances, require offerors to demonstrate that the items offered—

- (1) Have either—
 - (i) Achieved commercial market acceptance; or
 - (ii) Been satisfactorily supplied to an agency under current or recent contracts for the same or similar requirements; and
- (2) Otherwise meet the item description, specifications, or other criteria prescribed in the public notice and solicitation.

(b) Appropriate circumstances may, for example, include situations where the agency's minimum need is for an item that has a demonstrated reliability, performance or product support record in a specified environment. Use of market acceptance is inappropriate when new or evolving items may meet the agency's needs.

(c) In developing criteria for demonstrating that an item has achieved commercial market acceptance, the contracting officer shall ensure the criteria in the solicitation—

- (1) Reflect the minimum need of the agency and are reasonably related to the demonstration of an item's acceptability to meet the agency's minimum need;
- (2) Relate to an item's performance and intended use, not an offeror's capability;
- (3) Are supported by market research;

(4) Include consideration of items supplied satisfactorily under recent or current Government contracts, for the same or similar items; and

(5) Consider the entire relevant commercial market, including small business concerns.

(d) Commercial market acceptance shall not be used as a sole criterion to evaluate whether an item meets the Government's requirements.

(e) When commercial market acceptance is used, the contracting officer shall document the file to—

- (1) Describe the circumstances justifying the use of commercial market acceptance criteria; and
- (2) Support the specific criteria being used.

11.104 Use of brand name or equal purchase descriptions.

(a) While the use of performance specifications is preferred to encourage offerors to propose innovative solutions, the use of brand name or equal purchase descriptions may be advantageous under certain circumstances.

(b) Brand name or equal purchase descriptions must include, in addition to the brand name, a general description of those salient physical, functional, or performance characteristics of the brand name item that an "equal" item must meet to be acceptable for award. Use brand name or equal descriptions when the salient characteristics are firm requirements.

11.105 Items peculiar to one manufacturer.

Agency requirements shall not be written so as to require a particular brand name, product, or a feature of a product, peculiar to one manufacturer, thereby precluding consideration of a product manufactured by another company, unless—

(a) The particular brand name, product, or feature is essential to the Government's requirements, and market research indicates other companies' similar products, or products lacking the particular feature, do not meet, or cannot be modified to meet, the agency's needs;

(b) The authority to contract without providing for full and open competition is supported by the required justifications and approvals (see 6.302-1); and

(c) The basis for not providing for maximum practicable competition is documented in the file when the acquisition is awarded using simplified acquisition procedures.

11.106 Purchase descriptions for service contracts.

In drafting purchase descriptions for service contracts, agency requiring activities shall ensure that inherently governmental functions (see Subpart 7.5) are not assigned to a contractor. These purchase descriptions shall—

- (a) Reserve final determination for Government officials;

(b) Require proper identification of contractor personnel who attend meetings, answer Government telephones, or work in situations where their actions could be construed as acts of Government officials unless, in the judgment of the agency, no harm can come from failing to identify themselves; and

(c) Require suitable marking of all documents or reports produced by contractors.

11.107 Solicitation provision.

(a) Insert the provision at 52.211-6, Brand Name or Equal, when brand name or equal purchase descriptions are included in a solicitation.

Subpart 11.2—Using and Maintaining Requirements Documents

11.201 Identification and availability of specifications.

(a) Solicitations citing requirements documents listed in the General Services Administration (GSA) Index of Federal Specifications, Standards and Commercial Item Descriptions, the DoD Index of Specifications and Standards (DoDISS), or other agency index shall identify each document's approval date and the dates of any applicable amendments and revisions. Do not use general identification references, such as "the issue in effect on the date of the solicitation." Contracting offices will not normally furnish these cited documents with the solicitation, except when—

(1) The requirements document must be furnished with the solicitation to enable prospective contractors to make a competent evaluation of the solicitation;

(2) In the judgment of the contracting officer, it would be impracticable for prospective contractors to obtain the documents in reasonable time to respond to the solicitation; or

(3) A prospective contractor requests a copy of a Government promulgated requirements document.

(b) Contracting offices shall clearly identify in the solicitation any pertinent documents not listed in the GSA Index of Federal Specifications, Standards and Commercial Item Descriptions or DoDISS. Such documents shall be furnished with the solicitation or specific instructions shall be furnished for obtaining or examining such documents.

(c) When documents refer to other documents, such references shall—

(1) Be restricted to documents, or appropriate portions of documents, that apply in the acquisition;

(2) Cite the extent of their applicability;

(3) Not conflict with other documents and provisions of the solicitation; and

(4) Identify all applicable first tier references.

(d)(1) The GSA Index of Federal Specifications, Standards and Commercial Item Descriptions, FPMR Part 101-29, may be purchased from the—

General Services Administration
Federal Supply Service
Specifications Section
Suite 8100
470 East L'Enfant Plaza, SW
Washington, DC 20407
Telephone (202) 619-8925.

(2) The DoDISS may be obtained from the—

(i) ASSIST database via the Internet at <http://assist.daps.mil>; or

Department of Defense Single Stock Point
(DoDSSP)
Building 4, Section D
700 Robbins Avenue
Philadelphia, PA 19111-5094
Telephone (215) 697-2667/2179
Facsimile (215) 697-1462.

(e) Agencies may purchase some nongovernment standards, including voluntary consensus standards, from the National Technical Information Service's Fedworld Information Network. Agencies may also obtain nongovernment standards from the standards developing organization responsible for the preparation, publication, or maintenance of the standard, or from an authorized document reseller. The National Institute of Standards and Technology can assist agencies in identifying sources for, and content of, nongovernment standards. DoD activities may obtain from the DoDSSP those nongovernment standards, including voluntary consensus standards, adopted for use by defense activities.

11.202 Maintenance of standardization documents.

(a) Recommendations for changes to standardization documents listed in the GSA Index of Federal Specifications, Standards and Commercial Item Descriptions should be submitted to the—

General Services Administration
Federal Supply Service
Office of Acquisition
Washington, DC 20406.

Agencies shall submit recommendations for changes to standardization documents listed in the DoDISS to the cognizant preparing activity.

(b) When an agency cites an existing standardization document but modifies it to meet its needs, the agency shall follow the guidance in Federal Standardization Manual and, for Defense components, DoD 4120.3-M, Defense Standardization Program Policies and Procedures.

11.203 Customer satisfaction.

Acquisition organizations shall communicate with customers to determine how well the requirements document reflects the customer's needs and to obtain suggestions for corrective actions. Whenever practicable, the agency may provide affected industry an opportunity to comment on the requirements documents.

11.204 Solicitation provisions and contract clauses.

(a) The contracting officer shall insert the provision at 52.211-1, Availability of Specifications Listed in the GSA Index of Federal Specifications, Standards and Commercial Item Descriptions, FPMR Part 101-29, in solicitations that

cite specifications listed in the Index that are not furnished with the solicitation.

(b) The contracting officer shall insert the provision at 52.211-2, Availability of Specifications Listed in the DoD Index of Specifications and Standards (DoDISS) and Descriptions Listed in the Acquisition Management Systems and Data Requirements Control List, DoD 5010.12-L, in solicitations that cite specifications listed in the DoDISS or DoD 5010.12-L that are not furnished with the solicitation.

(c) The contracting officer shall insert a provision substantially the same as the provision at 52.211-3, Availability of Specifications Not Listed in the GSA Index of Federal

Specifications, Standards and Commercial Item Descriptions, in solicitations that cite specifications that are not listed in the Index and are not furnished with the solicitation, but may be obtained from a designated source.

(d) The contracting officer shall insert a provision substantially the same as the provision at 52.211-4, Availability for Examination of Specifications Not Listed in the GSA Index of Federal Specifications, Standards and Commercial Item Descriptions, in solicitations that cite specifications that are not listed in the Index and are available for examination at a specified location.

Subpart 11.3—Acceptable Material

11.301 Definitions.

As used in this subpart—

“Postconsumer material” means a material or finished product that has served its intended use and has been discarded for disposal or recovery, having completed its life as a consumer item. Postconsumer material is a part of the broader category of “recovered material”. For paper and paper products, postconsumer material means “postconsumer fiber” defined by the U.S. Environmental Protection Agency (EPA) as—

(1) Paper, paperboard, and fibrous materials from retail stores, office buildings, homes, and so forth, after they have passed through their end-usage as a consumer item, including: used corrugated boxes; old newspapers; old magazines; mixed waste paper; tabulating cards; and used cordage; or

(2) All paper, paperboard, and fibrous materials that enter and are collected from municipal solid waste; but not

(3) Fiber derived from printers’ over-runs, converters’ scrap, and over-issue publications.

“Recovered material” for paper and paper products, is defined by EPA in its Comprehensive Procurement Guideline as “recovered fiber” and means the following materials:

(1) Postconsumer fiber.

(2) Manufacturing wastes such as—

(i) Dry paper and paperboard waste generated after completion of the papermaking process (that is, those manufacturing operations up to and including the cutting and trimming of the paper machine reel into smaller rolls or rough sheets) including: envelope cuttings, bindery trimmings, and other paper and paperboard waste resulting from printing, cutting, forming, and other converting operations; bag, box, and carton manufacturing wastes; and butt rolls, mill wrappers, and rejected unused stock; and

(ii) Repulped finished paper and paperboard from obsolete inventories of paper and paperboard manufacturers, merchants, wholesalers, dealers, printers, converters, or others.

11.302 Policy.

(a) Agencies must not require virgin material or supplies composed of or manufactured using virgin material unless compelled by law or regulation or unless virgin material is vital for safety or meeting performance requirements of the contract.

(b)(1) When acquiring other than commercial items, agencies must require offerors to identify used, reconditioned, or remanufactured supplies; or unused former Gov-

ernment surplus property proposed for use under the contract. These supplies or property may not be used in contract performance unless authorized by the contracting officer.

(2) When acquiring commercial items, the contracting officer must consider the customary practices in the industry for the item being acquired. The contracting officer may require offerors to provide information on used, reconditioned, or remanufactured supplies, or unused former Government surplus property proposed for use under the contract. The request for the information must be included in the solicitation, and to the maximum extent practicable must be limited to information or standards consistent with normal commercial practices.

(c) When the contracting officer needs additional information to determine whether supplies meet minimum recovered material standards stated in the solicitation, the contracting officer may require offerors to submit additional information on the recycled content or related standards. The request for the information must be included in the solicitation. When acquiring commercial items, limit the information to the maximum extent practicable to that available under normal commercial practices.

11.303 Special requirements for printing and writing paper.

(a) Section 505 of Executive Order 13101, Greening the Government through Waste Prevention, Recycling, and Federal Acquisition, establishes minimum recovered material content standards for agency purchases of printing and writing paper. Section 505 requires that 100 percent of an agency’s purchases of printing and writing paper must meet or exceed one of the minimum content standards specified in paragraph (b) of this section.

(b) For high-speed copier paper, offset paper, forms bond, computer printout paper, carbonless paper, file folders, white wove envelopes, writing and office paper, book paper, cotton fiber paper, and cover stock, the minimum content standard must be no less than 30 percent postconsumer materials. If paper containing 30 percent postconsumer material is not reasonably available, does not meet reasonable performance requirements, or is only available at an unreasonable price, then the agency must purchase paper containing no less than 20 percent postconsumer material.

11.304 Contract clause.

Insert the clause at 52.211-5, Material Requirements, in solicitations and contracts for supplies that are not commercial items.

Subpart 11.4—Delivery or Performance Schedules

11.401 General.

(a) The time of delivery or performance is an essential contract element and shall be clearly stated in solicitations. Contracting officers shall ensure that delivery or performance schedules are realistic and meet the requirements of the acquisition. Schedules that are unnecessarily short or difficult to attain—

- (1) Tend to restrict competition,
- (2) Are inconsistent with small business policies, and
- (3) May result in higher contract prices.

(b) Solicitations shall, except when clearly unnecessary, inform bidders or offerors of the basis on which their bids or proposals will be evaluated with respect to time of delivery or performance.

(c) If timely delivery or performance is unusually important to the Government, liquidated damages clauses may be used (see Subpart 11.5).

11.402 Factors to consider in establishing schedules.

(a) *Supplies or services.* When establishing a contract delivery or performance schedule, consideration shall be given to applicable factors such as the—

- (1) Urgency of need;
- (2) Industry practices;
- (3) Market conditions;
- (4) Transportation time;
- (5) Production time;
- (6) Capabilities of small business concerns;
- (7) Administrative time for obtaining and evaluating offers and for awarding contracts;
- (8) Time for contractors to comply with any conditions precedent to contract performance; and
- (9) Time for the Government to perform its obligations under the contract; *e.g.*, furnishing Government property.

(b) *Construction.* When scheduling the time for completion of a construction contract, the contracting officer shall consider applicable factors such as the—

- (1) Nature and complexity of the project;
- (2) Construction seasons involved;
- (3) Required completion date;
- (4) Availability of materials and equipment;
- (5) Capacity of the contractor to perform; and
- (6) Use of multiple completion dates. (In any given contract, separate completion dates may be established for separable items of work. When multiple completion dates are used, requests for extension of time must be evaluated with respect to each item, and the affected completion dates modified when appropriate.)

11.403 Supplies or services.

(a) The contracting officer may express contract delivery or performance schedules in terms of—

- (1) Specific calendar dates;
- (2) Specific periods from the date of the contract; *i.e.*, from the date of award or acceptance by the Government, or from the date shown as the effective date of the contract;
- (3) Specific periods from the date of receipt by the contractor of the notice of award or acceptance by the Government (including notice by receipt of contract document executed by the Government); or
- (4) Specific time for delivery after receipt by the contractor of each individual order issued under the contract, as in indefinite delivery type contracts and GSA schedules.

(b) The time specified for contract performance should not be curtailed to the prejudice of the contractor because of delay by the Government in giving notice of award.

(c) If the delivery schedule is based on the date of the contract, the contracting officer shall mail or otherwise furnish to the contractor the contract, notice of award, acceptance of proposal, or other contract document not later than the date of the contract.

(d) If the delivery schedule is based on the date the contractor receives the notice of award, or if the delivery schedule is expressed in terms of specific calendar dates on the assumption that the notice of award will be received by a specified date, the contracting officer shall send the contract, notice of award, acceptance of proposal, or other contract document by certified mail, return receipt requested, or by any other method that will provide evidence of the date of receipt.

(e) In invitations for bids, if the delivery schedule is based on the date of the contract, and a bid offers delivery based on the date the contractor receives the contract or notice of award, the contracting officer shall evaluate the bid by adding 5 calendar days (as representing the normal time for arrival through ordinary mail). If the contract or notice of award will be transmitted electronically, (1) the solicitation shall so state; and (2) the contracting officer shall evaluate delivery schedule based on the date of contract receipt or notice of award, by adding one working day. (The term “working day” excludes weekends and U.S. Federal holidays.) If the offered delivery date computed with mailing or transmittal time is later than the delivery date required by the invitation for bids, the bid shall be considered nonresponsive and rejected. If award is made, the delivery date will be the number of days offered in the bid after the contractor actually receives the notice of award.

11.404 Contract clauses.

(a) *Supplies or services.* (1) The contracting officer may use a time of delivery clause to set forth a required delivery schedule and to allow an offeror to propose an alternative delivery schedule. The clauses and their alternates may be used in solicitations and contracts for other than construction and architect-engineering substantially as shown, or they may be changed or new clauses written.

(2) The contracting officer may insert in solicitations and contracts other than those for construction and architect-engineering, a clause substantially the same as the clause at 52.211-8, Time of Delivery, if the Government requires delivery by a particular time and the delivery schedule is to be based on the date of the contract. If the delivery schedule is expressed in terms of specific calendar dates or specific periods and is based on an assumed date of award, the contracting officer may use the clause with its Alternate I. If the delivery schedule is expressed in terms of specific calendar dates or specific periods and is based on an assumed date the contractor will receive notice of award, the contracting officer may use the clause with its Alternate II. If the delivery schedule is to be based on the actual date the contractor receives a written notice of award, the contracting officer may use the clause with its Alternate III.

(3) The contracting officer may insert in solicitations and contracts other than those for construction and architect-engineering, a clause substantially the same as the clause at 52.211-9, Desired and Required Time of Delivery, if the Government desires delivery by a certain time but requires delivery by a specified later time, and the delivery schedule is to be based on the date of the contract. If the delivery schedule is expressed in terms of specific calendar dates or specific periods and is based on an assumed date of award, the contracting officer may use the clause with its Alternate I. If the delivery schedule is expressed in terms of specific calendar dates or specific periods and is based on an assumed date the contractor will receive notice of award, the contracting officer may use the clause with its Alternate II. If the delivery schedule is to be based on the actual date the contractor receives a written notice of award, the contracting officer may use the clause with its Alternate III.

(b) *Construction.* The contracting officer shall insert the clause at 52.211-10, Commencement, Prosecution, and Completion of Work, in solicitations and contracts when a fixed-price construction contract is contemplated. The clause may be changed to accommodate the issuance of orders under indefinite-delivery contracts. If the completion date is expressed as a specific calendar date, computed on the basis of the contractor receiving the notice to proceed by a certain day, the contracting officer may use the clause with its Alternate I.

Subpart 11.5—Liquidated Damages

11.500 Scope.

This subpart prescribes policies and procedures for using liquidated damages clauses in solicitations and contracts for supplies, services, research and development, and construction. This subpart does not apply to liquidated damages for subcontracting plans (see 19.705-7) or liquidated damages related to the Contract Work Hours and Safety Standards Act (see Subpart 22.3).

11.501 Policy.

(a) The contracting officer must consider the potential impact on pricing, competition, and contract administration before using a liquidated damages clause. Use liquidated damages clauses only when—

(1) The time of delivery or timely performance is so important that the Government may reasonably expect to suffer damage if the delivery or performance is delinquent; and

(2) The extent or amount of such damage would be difficult or impossible to estimate accurately or prove.

(b) Liquidated damages are not punitive and are not negative performance incentives (see 16.402-2). Liquidated damages are used to compensate the Government for probable damages. Therefore, the liquidated damages rate must be a reasonable forecast of just compensation for the harm that is caused by late delivery or untimely performance of the particular contract. Use a maximum amount or a maximum period for assessing liquidated damages if these limits reflect the maximum probable damage to the Government. Also, the contracting officer may use more than one liquidated damages rate when the contracting officer expects the probable damage to the Government to change over the contract period of performance.

(c) The contracting officer must take all reasonable steps to mitigate liquidated damages. If the contract contains a liquidated damages clause and the contracting officer is considering terminating the contract for default, the contracting officer should seek expeditiously to obtain performance by the contractor or terminate the contract and repurchase (see Subpart 49.4). Prompt contracting officer action will prevent

excessive loss to defaulting contractors and protect the interests of the Government.

(d) The Director, Materials Management Service, may reduce or waive the amount of liquidated damages assessed under a contract, if the Commissioner, Financial Management Service, or designee approves (see Treasury Order 145-10).

11.502 Procedures.

(a) Include the applicable liquidated damages clause and liquidated damages rates in solicitations when the contract will contain liquidated damages provisions.

(b) Construction contracts with liquidated damages provisions must describe the rate(s) of liquidated damages assessed per day of delay. The rate(s) should include the estimated daily cost of Government inspection and superintendence. The rate(s) should also include an amount for other expected expenses associated with delayed completion such as—

- (1) Renting substitute property; or
- (2) Paying additional allowance for living quarters.

11.503 Contract clauses.

(a) Use the clause at 52.211-11, Liquidated Damages—Supplies, Services, or Research and Development, in fixed-price solicitations and contracts for supplies, services, or research and development when the contracting officer determines that liquidated damages are appropriate (see 11.501(a)).

(b) Use the clause at 52.211-12, Liquidated Damages—Construction, in solicitations and contracts for construction, other than cost-plus-fixed-fee, when the contracting officer determines that liquidated damages are appropriate (see 11.501(a)). If the contract specifies more than one completion date for separate parts or stages of the work, revise paragraph (a) of the clause to state the amount of liquidated damages for delay of each separate part or stage of the work.

(c) Use the clause at 52.211-13, Time Extensions, in solicitations and contracts for construction that use the clause at 52.211-12, Liquidated Damages—Construction, when that clause has been revised as provided in paragraph (b) of this section.

Subpart 11.6—Priorities and Allocations

11.600 Scope of subpart.

This subpart implements the Defense Priorities and Allocations System (DPAS), a Department of Commerce (DOC) regulation in support of authorized national defense programs (see 15 CFR 700).

11.601 Definitions.

As used in this subpart—

“Authorized program” means a program approved by the Federal Emergency Management Agency (FEMA) for priorities and allocations support under the Defense Production Act of 1950, as amended (50 U.S.C. app. 2061, *et seq.*), to promote the national defense. Schedule I of the DPAS lists currently authorized programs.

“Controlled materials” means the various shapes and forms of steel, copper, aluminum, and nickel alloys specified in Schedule II, and defined in Schedule III, of the DPAS.

“Delegate Agency” means an agency of the U.S. Government authorized by delegation from DOC to place priority ratings on contracts that support authorized programs. Schedule I of the DPAS lists the Delegate Agencies.

“Rated order” means a prime contract for any product, service, or material (including controlled materials) placed by a Delegate Agency under the provisions of the DPAS in support of an authorized program and which require preferential treatment, and includes subcontracts and purchase orders resulting under such contracts.

11.602 General.

(a) Under Title I of the Defense Production Act of 1950, as amended (50 U.S.C. app. 2061, *et seq.*), the President is authorized—

(1) To require that contracts in support of the national defense be accepted and performed on a preferential or priority basis over all other contracts, and

(2) To allocate materials and facilities in such a manner as to promote the national defense.

(b) The Office of Industrial Resource Administration (OIRA), DOC, is responsible for administering and enforcing a system of priorities and allocations to carry out Title I of the Defense Production Act for industrial items. The DPAS has been established to promote the timely availability of the necessary industrial resources to meet current national defense requirements and to provide a framework to facilitate rapid industrial mobilization in case of national emergency.

(c) The Delegate Agencies (see Schedule I of the DPAS) have been given authority by DOC to place rated orders in support of authorized programs. Other government agencies, Canada, and other friendly foreign nations may apply for

special rating authority in support of authorized programs (see 15 CFR 700.55).

(d) Rated orders shall be placed in accordance with the procedures in the DPAS. Contracting officers responsible for acquisitions in support of authorized programs shall be familiar with the DPAS and should provide guidance on the DPAS to contractors and suppliers receiving rated orders. Agency heads shall ensure compliance with the DPAS by contracting activities within their agencies.

(e) Under the Defense Production Act, any willful violation of the Act, the DPAS, or any official action taken by DOC under the DPAS, is a crime punishable by a maximum fine of \$10,000, one year in prison, or both (see 15 CFR 700.70 and 15 CFR 700.74).

11.603 Procedures.

(a) There are two levels of priority for rated orders established by the DPAS, identified by the rating symbols “DO” and “DX.” All DO rated orders have equal priority with each other and take preference over unrated orders. All DX rated orders have equal priority with each other and take preference over DO rated and unrated orders. DX ratings are used for special defense programs designated by the President to be of the highest national priority.

(b) DOC may issue a Directive to compel a contractor or supplier to accept a rated order, to rearrange production or delivery schedules, or to improve shipments against particular rated orders. Directives issued by DOC take precedence over all rated and unrated orders as stated in the Directive.

(c) In addition to any other contractual requirements, a valid rated order must contain (see 15 CFR 700.12) the following:

(1) A priority rating consisting of the appropriate DO or DX rating symbol and a program or identification symbol to indicate the authorized program (see Schedule I of the DPAS).

(2) A required delivery date or delivery dates.

(3) The signature of an individual authorized by the agency to sign rated orders.

(d) The DPAS has the following three basic elements which are essential to the operation of the system:

(1) Mandatory acceptance of rated orders. A rated order shall be accepted by a contractor or supplier unless rejected for the reasons provided for mandatory rejection in 15 CFR 700.13(b), or for optional rejection in 15 CFR 700.13(c).

(2) Mandatory extension of priority ratings throughout the acquisition chain. Contractors and suppliers receiving rated orders shall extend priority ratings to subcontractors or vendors when acquiring items to fill the rated orders (see 15 CFR 700.15).

(3) Priority scheduling of production and delivery. Contractors and suppliers receiving rated orders shall give the rated orders priority over other contracts as needed to meet delivery requirements (see 15 CFR 700.14).

(e) Agencies shall provide contracting activities with specific guidance on the issuance of rated orders in support of agency programs.

(f) Contracting officers shall follow agency procedural instructions concerning the use of rated orders in support of agency programs.

(g) Contracting officers, contractors, or subcontractors at any tier, that experience difficulty placing rated orders, obtaining timely delivery under rated orders, locating a contractor or supplier to fill a rated order, ensuring that rated orders receive preferential treatment by contractors or suppliers, or require rating authority for items not automatically

ratable under the DPAS, should promptly seek special priorities assistance in accordance with agency procedures (see 15 CFR 700.50-55).

(h) Contracting officers shall report promptly any violations of the DPAS to DOC in accordance with agency procedures.

11.604 Solicitation provision and contract clause.

(a) Contracting officers shall insert the provision at 52.211-14, Notice of Priority Rating for National Defense Use, in solicitations when the contract to be awarded will be a rated order.

(b) Contracting officers shall insert the clause at 52.211-15, Defense Priority and Allocation Requirements, in contracts that are rated orders.

Subpart 11.7—Variation in Quantity

11.701 Supply contracts.

(a) A fixed-price supply contract may authorize Government acceptance of a variation in the quantity of items called for if the variation is caused by conditions of loading, shipping, or packing, or by allowances in manufacturing processes. Any permissible variation shall be stated as a percentage and it may be an increase, a decrease, or a combination of both; however, contracts for subsistence items may use other applicable terms of variation in quantity.

(b) There should be no standard or usual variation percentage. The overrun or underrun permitted in each contract should be based upon the normal commercial practices of a particular industry for a particular item, and the permitted percentage should be no larger than is necessary to afford a contractor reasonable protection. The permissible variation shall not exceed plus or minus 10 percent unless a different limitation is established in agency regulations. Consideration shall be given to the quantity to which the percentage variation applies. For example, when delivery will be made to multiple destinations and it is desired that the quantity variation apply to the item quantity for each destination, this requirement must be stated in the contract.

(c) Contractors are responsible for delivery of the specified quantity of items in a fixed-price contract, within allowable variations, if any. If a contractor delivers a quantity of items in excess of the contract requirements plus any allowable variation in quantity, particularly small dollar value overshipments, it results in unnecessary administrative costs to the Government in determining disposition of the excess quantity. Accordingly, the contract may include the clause at 52.211-17, Delivery of Excess Quantities, to provide that—

(1) Excess quantities of items totaling up to \$250 in value may be retained without compensating the contractor; and

(2) Excess quantities of items totaling over \$250 in value may, at the Government's option, be either returned at the contractor's expense or retained and paid for at the contract unit price.

11.702 Construction contracts.

Construction contracts may authorize a variation in estimated quantities of unit-priced items. When the variation between the estimated quantity and the actual quantity of a unit-priced item is more than plus or minus 15 percent, an equitable adjustment in the contract price shall be made upon the demand of either the Government or the contractor. The contractor may request an extension of time if the quantity variation is such as to cause an increase in the time necessary for completion. The contracting officer must receive the request in writing within 10 days from the beginning of the period of delay. However, the contracting officer may extend this time limit before the date of final settlement of the contract. The contracting officer shall ascertain the facts and make any adjustment for extending the completion date that the findings justify.

11.703 Contract clauses.

(a) The contracting officer shall insert the clause at 52.211-16, Variation in Quantity, in solicitations and contracts, if authorizing a variation in quantity in fixed-price contracts for supplies or for services that involve the furnishing of supplies.

(b) The contracting officer may insert the clause at 52.211-17, Delivery of Excess Quantities, in solicitations and contracts when a fixed-price supply contract is contemplated.

(c) The contracting officer shall insert the clause at 52.211-18, Variation in Estimated Quantity, in solicitations and contracts when a fixed-price construction contract is contemplated that authorizes a variation in the estimated quantity of unit-priced items.

Subpart 11.8—Testing

11.801 Preaward in-use evaluation.

Supplies may be evaluated under comparable in-use conditions without a further test plan, provided

offerors are so advised in the solicitation. The results of such tests or demonstrations may be used to rate the proposal, to determine technical acceptability, or otherwise to evaluate the proposal (see 15.305).

PART 12—ACQUISITION OF COMMERCIAL ITEMS

Sec.

12.000 Scope of part.

12.001 Definition.

Subpart 12.1—Acquisition of Commercial Items—General

12.101 Policy.

12.102 Applicability.

Subpart 12.2—Special Requirements for the Acquisition of Commercial Items

12.201 General.

12.202 Market research and description of agency need.

12.203 Procedures for solicitation, evaluation, and award.

12.204 Solicitation/contract form.

12.205 Offers.

12.206 Use of past performance.

12.207 Contract type.

12.208 Determination of price reasonableness.

12.209 Contract financing.

12.210 Technical data.

12.211 Computer software.

12.212 Other commercial practices.

12.213 Cost Accounting Standards.

Subpart 12.3—Solicitation Provisions and Contract Clauses for the Acquisition of Commercial Items

12.300 Scope of subpart.

12.301 Solicitation provisions and contract clauses for the acquisition of commercial items.

12.302 Tailoring of provisions and clauses for the acquisition of commercial items.

12.303 Contract format.

Subpart 12.4—Unique Requirements Regarding Terms and Conditions for Commercial Items

12.401 General.

12.402 Acceptance.

12.403 Termination.

12.404 Warranties.

Subpart 12.5—[Reserved]

Subpart 12.6—Streamlined Procedures for Evaluation and Solicitation for Commercial Items

12.601 General.

12.602 Streamlined evaluation of offers.

12.603 Streamlined solicitation for commercial items.

This page intentionally left blank.

12.000 Scope of part.

This part prescribes policies and procedures unique to the acquisition of commercial items. It implements the Federal Government's preference for the acquisition of commercial items by establishing acquisition policies more closely resembling those of the commercial marketplace and encouraging the acquisition of commercial items and components.

12.001 Definition.

"Subcontract," as used in this part, includes, but is not limited to, a transfer of commercial items between divisions, subsidiaries, or affiliates of a contractor or subcontractor.

Subpart 12.1—Acquisition of Commercial Items—General

12.101 Policy.

The Materials Management Service shall—

- (a) Conduct market research to determine whether commercial items or nondevelopmental items are available that could meet the agency's requirements;
- (b) Acquire commercial items or nondevelopmental items when they are available to meet the needs of the agency; and
- (c) Require prime contractors and subcontractors at all tiers to incorporate, to the maximum extent practicable, commercial items or nondevelopmental items as components of items supplied to the agency.

12.102 Applicability.

- (a) This part shall be used for the acquisition of supplies or services that meet the definition of commercial items at 2.101.
- (b) Contracting officers shall use the policies in this part in conjunction with the policies and procedures for solicitation, evaluation and award prescribed in Part 13, Simplified

Acquisition Procedures; Part 14, Sealed Bidding; or Part 15, Contracting by Negotiation, as appropriate for the particular acquisition.

(c) Contracts for the acquisition of commercial items are subject to the policies in other parts of this chapter. When a policy in another part of this chapter is inconsistent with a policy in this part, this Part 12 shall take precedence for the acquisition of commercial items.

(d) The definition of commercial item in section 2.101 uses the phrase "purposes other than governmental purposes." These purposes are those that are not unique to a government.

(e) This part shall not apply to the acquisition of commercial items—

- (1) At or below the micro-purchase threshold;
- (2) Using GPO Form 3201B;
- (3) Using the imprest fund (see 13.305);
- (4) Using the Governmentwide commercial purchase card; or
- (5) Directly from another Federal agency.

(f) Contracting officers shall treat any acquisition by or for the Department of Defense of biotechnology supplies or biotechnology services, for use to facilitate the defense against terrorism or biological attack against the United States, as an acquisition of commercial items. The policies of this Part shall apply to such acquisitions, including the requirement to use firm-fixed price contracts or fixed-price contracts with economic price adjustments. Nothing in this paragraph shall preclude a contracting officer from treating an acquisition described in this paragraph as one for a non-commercial item if a determination is made by the contracting officer that the purchase cannot be made at a fair and reasonable price using the policies of this Part. This paragraph applies only when award is made and funds are obligated on or before September 30, 2003.

Subpart 12.2—Special Requirements for the Acquisition of Commercial Items

12.201 General.

This subpart establishes special requirements for the acquisition of commercial items intended to more closely resemble those customarily used in the commercial marketplace. This subpart identifies those special requirements as well as other considerations necessary for proper planning, solicitation, evaluation and award of contracts for commercial items.

12.202 Market research and description of agency need.

(a) Market research (see 10.001) is an essential element of building an effective strategy for the acquisition of commercial items and establishes the foundation for the agency description of need (see Part 11), the solicitation, and resulting contract.

(b) The description of agency need must contain sufficient detail for potential offerors of commercial items to know which commercial products or services may be suitable. Generally, for acquisitions in excess of the simplified acquisition threshold, an agency's statement of need for a commercial item will describe the type of product or service to be acquired and explain how the agency intends to use the product or service in terms of function to be performed, performance requirement or essential physical characteristics. Describing the agency's needs in these terms allows offerors to propose methods that will best meet the needs of the Government.

(c) Follow the procedures in Subpart 11.2 regarding the identification and availability of specifications, standards and commercial item descriptions.

(d) Requirements documents for electronic and information technology must comply with the applicable accessibility standards issued by the Architectural and Transportation Barriers Compliance Board at 36 CFR part 1194 (see Subpart 39.2), if consistent with the agency mission.

12.203 Procedures for solicitation, evaluation, and award.

Contracting officers shall use the policies unique to the acquisition of commercial items prescribed in this part in conjunction with the policies and procedures for solicitation, evaluation and award prescribed in Part 13, Simplified Acquisition Procedures; Part 14, Sealed Bidding; or Part 15, Contracting by Negotiation, as appropriate for the particular acquisition. The contracting officer may use the streamlined procedure for soliciting offers for commercial items prescribed in 12.603. For acquisitions of commercial items exceeding the simplified acquisition threshold but not

exceeding \$5,000,000, including options, contracting activities shall employ the simplified procedures authorized by Subpart 13.5 to the maximum extent practicable.

12.204 Solicitation/contract form.

(a) The contracting officer shall use the Standard Form 1449, Solicitation/Contract/Order for Commercial Items, if (1) the acquisition is expected to exceed the simplified acquisition threshold; (2) a paper solicitation or contract is being issued; and (3) procedures at 12.603 are not being used. Use of the SF 1449 is nonmandatory but encouraged for commercial acquisitions not exceeding the simplified acquisition threshold.

(b) Consistent with the requirements at 5.203(a) and (h), the contracting officer may allow fewer than 15 days before issuance of the solicitation.

12.205 Offers.

(a) Where technical information is necessary for evaluation of offers, agencies should, as part of market research, review existing product literature generally available in the industry to determine its adequacy for purposes of evaluation. If adequate, contracting officers shall request existing product literature from offerors of commercial items in lieu of unique technical proposals.

(b) Contracting officers should allow offerors to propose more than one product that will meet a Government need in response to solicitations for commercial items. The contracting officer shall evaluate each product as a separate offer.

(c) Consistent with the requirements at 5.203(b), the contracting officer may allow fewer than 30 days response time for receipt of offers for commercial items, unless the acquisition is subject to the Trade Agreements Act.

12.206 Use of past performance.

Past performance should be an important element of every evaluation and contract award for commercial items. Contracting officers should consider past performance data from a wide variety of sources both inside and outside the Federal Government in accordance with the policies and procedures contained in Subpart 9.1, 13.106, or Subpart 15.3, as applicable.

12.207 Contract type.

Agencies shall use firm-fixed-price contracts or fixed-price contracts with economic price adjustment for the acquisition of commercial items. Indefinite-delivery contracts (see Subpart 16.5) may be used where the prices are established based on a firm-fixed-price or fixed-price with economic price adjustment. Use of any other contract type to acquire commercial items is prohibited.

12.208 Contract quality assurance.

Contracts for commercial items shall rely on contractors' existing quality assurance systems as a substitute for Government inspection and testing before tender for acceptance unless customary market practices for the commercial item being acquired include in-process inspection. Any in-process inspection by the Government shall be conducted in a manner consistent with commercial practice.

12.209 Determination of price reasonableness.

While the contracting officer must establish price reasonableness in accordance with 13.106-3, 14.408-2, or Subpart 15.4, as applicable, the contracting officer should be aware of customary commercial terms and conditions when pricing commercial items. Commercial item prices are affected by factors that include, but are not limited to, speed of delivery, length and extent of warranty, limitations of seller's liability, quantities ordered, length of the performance period, and specific performance requirements. The contracting officer must ensure that contract terms, conditions, and prices are commensurate with the Government's need.

12.210 Contract financing.

Customary market practice for some commercial items may include buyer contract financing. The contracting officer may offer Government financing in accordance with the policies and procedures in Part 32.

12.211 Technical data.

Except as provided by agency-specific statutes, the Government shall acquire only the technical data and the rights in that data customarily provided to the public with a commercial item or process. The contracting officer shall presume that data delivered under a contract for commercial items was developed exclusively at private expense. When a contract for commercial items requires the delivery of technical data, the contracting officer shall include appropriate provisions and clauses delineating the rights in the technical data in addenda to the solicitation and contract (see Part 27).

12.212 Computer software.

(a) Commercial computer software or commercial computer software documentation shall be acquired under licenses customarily provided to the public to the extent such

licenses are consistent with Federal law and otherwise satisfy the Government's needs. Generally, offerors and contractors shall not be required to—

(1) Furnish technical information related to commercial computer software or commercial computer software documentation that is not customarily provided to the public; or

(2) Relinquish to, or otherwise provide, the Government rights to use, modify, reproduce, release, perform, display, or disclose commercial computer software or commercial computer software documentation except as mutually agreed to by the parties.

(b) With regard to commercial computer software and commercial computer software documentation, the Government shall have only those rights specified in the license contained in any addendum to the contract.

12.213 Other commercial practices.

It is a common practice in the commercial marketplace for both the buyer and seller to propose terms and conditions written from their particular perspectives. The terms and conditions prescribed in this part seek to balance the interests of both the buyer and seller. These terms and conditions are generally appropriate for use in a wide range of acquisitions. However, market research may indicate other commercial practices that are appropriate for the acquisition of the particular item. These practices should be considered for incorporation into the solicitation and contract if the contracting officer determines them appropriate in concluding a business arrangement satisfactory to both parties and not otherwise precluded by law or Executive order.

12.214 Cost Accounting Standards.

Cost Accounting Standards (CAS) do not apply to contracts and subcontracts for the acquisition of commercial items when these contracts and subcontracts are firm-fixed-price or fixed-price with economic price adjustment (provided that the price adjustment is not based on actual costs incurred). See 30.201-1 for CAS applicability to fixed-price with economic price adjustment contracts and subcontracts for commercial items when the price adjustment is based on actual costs incurred. When CAS applies, the contracting officer shall insert the appropriate provisions and clauses as prescribed in 30.201.

Subpart 12.3—Solicitation Provisions and Contract Clauses for the Acquisition of Commercial Items

12.300 Scope of subpart.

This subpart establishes provisions and clauses to be used when acquiring commercial items.

12.301 Solicitation provisions and contract clauses for the acquisition of commercial items.

(a) Contracts for the acquisition of commercial items shall, to the maximum extent practicable, include only those clauses—

(1) Required to implement provisions of law or executive orders applicable to the acquisition of commercial items; or

(2) Determined to be consistent with customary commercial practice.

(b) Insert the following provisions in solicitations for the acquisition of commercial items, and clauses in solicitations and contracts for the acquisition of commercial items:

(1) *The provision at 52.212-1, Instructions to Offerors—Commercial Items.* This provision provides a single, streamlined set of instructions to be used when soliciting offers for commercial items and is incorporated in the solicitation by reference (see Block 27a, SF 1449). The contracting officer may tailor these instructions or provide additional instructions tailored to the specific acquisition in accordance with 12.302.

(2) *The provision at 52.212-3, Offeror Representations and Certifications—Commercial Items.* This provision provides a single, consolidated list of certifications and representations for the acquisition of commercial items and is attached to the solicitation for offerors to complete and return with their offer. This provision may not be tailored except in accordance with Subpart 1.4.

(3) *The clause at 52.212-4, Contract Terms and Conditions—Commercial Items.* This clause includes terms and conditions which are, to the maximum extent practicable, consistent with customary commercial practices and is incorporated in the solicitation and contract by reference (see Block 27, SF 1449). The contracting officer may tailor this clause in accordance with 12.302.

(4) *The clause at 52.212-5, Contract Terms and Conditions Required to Implement Statutes or Executive Orders—Commercial Items.* This clause incorporates by reference only those clauses required to implement provisions of law or executive orders applicable to the acquisition of commercial items. The contracting officer shall attach this clause to the solicitation and contract and, using the appropriate clause prescriptions, indicate which, if any, of the additional clauses cited in 52.212-5(b) or (c) are applicable to the specific acquisition. When cost information is obtained pursuant to

Part 15 to establish the reasonableness of prices for commercial items, the contracting officer shall insert the clauses prescribed for this purpose in an addendum to the solicitation and contract. This clause may not be tailored. Use the clause with its Alternate I when the head of the agency has waived the examination of records by the Comptroller General in accordance with 25.1001.

(c) When the use of evaluation factors is appropriate, the contracting officer may—

(1) Insert the provision at 52.212-2, Evaluation—Commercial Items, in solicitations for commercial items (see 12.602); or

(2) Include a similar provision containing all evaluation factors required by 13.106, Subpart 14.2 or Subpart 15.3, as an addendum (see 12.302(d)).

(d) *Use of required provisions and clauses.* Notwithstanding prescriptions contained elsewhere in the MMAR, when acquiring commercial items, contracting officers shall be required to use only those provisions and clauses prescribed in this part. The provisions and clauses prescribed in this part shall be revised, as necessary, to reflect the applicability of statutes and executive orders to the acquisition of commercial items.

(e) *Discretionary use of MMAR provisions and clauses.* The contracting officer may include in solicitations and contracts by addendum other MMAR provisions and clauses when their use is consistent with the limitations contained in 12.302. For example:

(1) The contracting officer may include appropriate clauses when an indefinite-delivery type of contract will be used. The clauses prescribed at 16.506 may be used for this purpose.

(2) The contracting officer may include appropriate provisions and clauses when the use of options is in the Government's interest. The provisions and clauses prescribed in 17.208 may be used for this purpose. If the provision at 52.212-2 is used, paragraph (b) provides for the evaluation of options.

(3) The contracting officer may use the provisions and clauses contained in Part 23 regarding the use of recovered material when appropriate for the item being acquired.

12.302 Tailoring of provisions and clauses for the acquisition of commercial items.

(a) *General.* The provisions and clauses established in this subpart are intended to address, to the maximum extent practicable, commercial market practices for a wide range of potential Government acquisitions of commercial items. However, because of the broad range of commercial items acquired by the Government, variations in commercial practices, and the relative volume of the Government's acquisitions in the specific market, contracting officers may, within the limitations of this subpart, and after conducting appropri-

ate market research, tailor the provision at 52.212-1, Instructions to Offerors—Commercial Items, and the clause at 52.212-4, Contract Terms and Conditions—Commercial Items, to adapt to the market conditions for each acquisition.

(b) *Tailoring 52.212-4, Contract Terms and Conditions—Commercial Items.* The following paragraphs of the clause at 52.212-4, Contract Terms and Conditions—Commercial Items, implement statutory requirements and shall not be tailored—

- (1) Assignments;
- (2) Disputes;
- (3) Payment (except as provided in Subpart 32.11);
- (4) Invoice;
- (5) Other compliances; and
- (6) Compliance with laws unique to Government contracts.

(c) *Tailoring inconsistent with customary commercial practice.* The contracting officer shall not tailor any clause or otherwise include any additional terms or conditions in a solicitation or contract for commercial items in a manner that is inconsistent with customary commercial practice for the item being acquired unless a waiver is approved in accordance with agency procedures. The request for waiver must describe the customary commercial practice found in the marketplace, support the need to include a term or condition that is inconsistent with that practice and include a determination that use of the customary commercial practice is inconsistent with the needs of the Government. A waiver may be requested for an individual or class of contracts for that specific item.

(d) Tailoring shall be by addenda to the solicitation and contract. The contracting officer shall indicate in Block 27a of the SF 1449 if addenda are attached. These addenda may include, for example, a continuation of the schedule of supplies/services to be acquired from blocks 18 through 21 of the SF 1449; a continuation of the description of the supplies/services being acquired; further elaboration of any

other item(s) on the SF 1449; any other terms or conditions necessary for the performance of the proposed contract (such as options, ordering procedures for indefinite-delivery type contracts, warranties, contract financing arrangements, etc.).

12.303 Contract format.

Solicitations and contracts for the acquisition of commercial items prepared using this Part 12 shall be assembled, to the maximum extent practicable, using the following format:

- (a) Standard Form (SF) 1449;
- (b) Continuation of any block from SF 1449, such as—
 - (1) Block 10 if a price evaluation adjustment for small disadvantaged business concerns is applicable (the contracting officer shall indicate the percentage(s) and applicable line item(s)), if an incentive subcontracting clause is used (the contracting officer shall indicate the applicable percentage), or if set aside for emerging small businesses, or set aside for very small business concerns;
 - (2) Block 18B for remittance address;
 - (3) Block 19 for contract line item numbers;
 - (4) Block 20 for schedule of supplies/services; or
 - (5) Block 25 for accounting data;
- (c) Contract clauses—
 - (1) 52.212-4, Contract Terms and Conditions— Commercial Items, by reference (see SF 1449 block 27a);
 - (2) Any addendum to 52.212-4; and
 - (3) 52.212-5, Contract Terms and Conditions Required to Implement Statutes and Executive orders;
- (d) Any contract documents, exhibits or attachments; and
- (e) Solicitation provisions—
 - (1) 52.212-1, Instructions to Offerors—Commercial Items, by reference (see SF 1449, Block 27a);
 - (2) Any addendum to 52.212-1;
 - (3) 52.212-2, Evaluation—Commercial Items, or other description of evaluation factors for award, if used; and
 - (4) 52.212-3, Offeror Representations and Certifications—Commercial Items.

Subpart 12.4—Unique Requirements Regarding Terms and Conditions for Commercial Items

12.401 General.

This subpart provides—

(a) Guidance regarding tailoring of the paragraphs in the clause at 52.212-4, Contract Terms and Conditions— Commercial Items, when the paragraphs do not reflect the customary practice for a particular market; and

(b) Guidance on the administration of contracts for commercial items in those areas where the terms and conditions in 52.212-4 differ substantially from those contained elsewhere in the MMAR.

12.402 Acceptance.

(a) The acceptance paragraph in 52.212-4 is based upon the assumption that the Government will rely on the contractor's assurances that the commercial item tendered for acceptance conforms to the contract requirements. The Government inspection of commercial items will not prejudice its other rights under the acceptance paragraph. Additionally, although the paragraph does not address the issue of rejection, the Government always has the right to refuse acceptance of nonconforming items. This paragraph is generally appropriate when the Government is acquiring noncomplex commercial items.

(b) Other acceptance procedures may be more appropriate for the acquisition of complex commercial items or commercial items used in critical applications. In such cases, the contracting officer shall include alternative inspection procedure(s) in an addendum and ensure these procedures and the postaward remedies adequately protect the interests of the Government. The contracting officer must carefully examine the terms and conditions of any express warranty with regard to the effect it may have on the Government's available postaward remedies (see 12.404).

(c) The acquisition of commercial items under other circumstances such as on an "as is" basis may also require acceptance procedures different from those contained in 52.212-4. The contracting officer should consider the effect the specific circumstances will have on the acceptance paragraph as well as other paragraphs of the clause.

12.403 Termination.

(a) *General.* The clause at 52.212-4 permits the Government to terminate a contract for commercial items either for the convenience of the Government or for cause. However, the paragraphs in 52.212-4 entitled "Termination for the Government's Convenience" and "Termination for Cause" contain concepts which differ from those contained in the termination clauses prescribed in Part 49. Consequently, the requirements of Part 49 do not apply when terminating con-

tracts for commercial items and contracting officers shall follow the procedures in this section. Contracting officers may continue to use Part 49 as guidance to the extent that Part 49 does not conflict with this section and the language of the termination paragraphs in 52.212-4.

(b) *Policy.* The contracting officer should exercise the Government's right to terminate a contract for commercial items either for convenience or for cause only when such a termination would be in the best interests of the Government. The contracting officer should consult with counsel prior to terminating for cause.

(c) *Termination for cause.* (1) The paragraph in 52.212-4 entitled "Excusable Delay" requires contractors notify the contracting officer as soon as possible after commencement of any excusable delay. In most situations, this requirement should eliminate the need for a show cause notice prior to terminating a contract. The contracting officer shall send a cure notice prior to terminating a contract for a reason other than late delivery.

(2) The Government's rights after a termination for cause shall include all the remedies available to any buyer in the marketplace. The Government's preferred remedy will be to acquire similar items from another contractor and to charge the defaulted contractor with any excess procurement costs together with any incidental or consequential damages incurred because of the termination.

(3) When a termination for cause is appropriate, the contracting officer shall send the contractor a written notification regarding the termination. At a minimum, this notification shall—

(i) Indicate the contract is terminated for cause;

(ii) Specify the reasons for the termination;

(iii) Indicate which remedies the Government intends to seek or provide a date by which the Government will inform the contractor of the remedy; and

(iv) State that the notice constitutes a final decision of the contracting officer and that the contractor has the right to appeal under the Disputes clause (see 33.211).

(d) *Termination for the Government's convenience.* (1) When the contracting officer terminates a contract for commercial items for the Government's convenience, the contractor shall be paid—

(i) The percentage of the contract price reflecting the percentage of the work performed prior to the notice of the termination, and

(ii) Any charges the contractor can demonstrate directly resulted from the termination. The contractor may demonstrate such charges using its standard record keeping system and is not required to comply with the cost accounting standards or the contract cost principles in Part 31. The Government does not have any right to audit the contractor's records solely because of the termination for convenience.

(2) Generally, the parties should mutually agree upon the requirements of the termination proposal. The parties must balance the Government's need to obtain sufficient documentation to support payment to the contractor against the goal of having a simple and expeditious settlement.

12.404 Warranties.

(a) *Implied warranties.* The Government's post award rights contained in 52.212-4 are the implied warranty of merchantability, the implied warranty of fitness for particular purpose and the remedies contained in the acceptance paragraph.

(1) The implied warranty of merchantability provides that an item is reasonably fit for the ordinary purposes for which such items are used. The items must be of at least average, fair or medium-grade quality and must be comparable in quality to those that will pass without objection in the trade or market for items of the same description.

(2) The implied warranty of fitness for a particular purpose provides that an item is fit for use for the particular purpose for which the Government will use the items. The Government can rely upon an implied warranty of fitness for particular purpose when—

(i) The seller knows the particular purpose for which the Government intends to use the item; and

(ii) The Government relied upon the contractor's skill and judgment that the item would be appropriate for that particular purpose.

(3) Contracting officers should consult with legal counsel prior to asserting any claim for a breach of an implied warranty.

(b) *Express warranties.* To the maximum extent practicable, solicitations for commercial items shall require offerors to offer the Government at least the same warranty terms, including offers of extended warranties, offered to the general public in customary commercial practice. Solicitations may specify minimum warranty terms, such as minimum duration, appropriate for the Government's intended use of the item.

(1) Any express warranty the Government intends to rely upon must meet the needs of the Government. The contracting officer should analyze any commercial warranty to determine if—

(i) The warranty is adequate to protect the needs of the Government, *e.g.*, items covered by the warranty and length of warranty;

(ii) The terms allow the Government effective post-award administration of the warranty to include the identification of warranted items, procedures for the return of warranted items to the contractor for repair or replacement, and collection of product performance information; and

(iii) The warranty is cost-effective.

(2) In some markets, it may be customary commercial practice for contractors to exclude or limit the implied warranties contained in 52.212-4 in the provisions of an express warranty. In such cases, the contracting officer shall ensure that the express warranty provides for the repair or replacement of defective items discovered within a reasonable period of time after acceptance.

(3) Express warranties shall be included in the contract by addendum (see 12.302).

SUBPART 12.5—[RESERVED]

Subpart 12.5—[Reserved]

Subpart 12.6—Streamlined Procedures for Evaluation and Solicitation for Commercial Items

12.601 General.

This subpart provides optional procedures for (a) streamlined evaluation of offers for commercial items; and (b) streamlined solicitation of offers for commercial items for use where appropriate. These procedures are intended to simplify the process of preparing and issuing solicitations, and evaluating offers for commercial items consistent with customary commercial practices.

12.602 Streamlined evaluation of offers.

(a) When evaluation factors are used, the contracting officer may insert a provision substantially the same as the provision at 52.212-2, Evaluation—Commercial Items, in solicitations for commercial items or comply with the procedures in 13.106 if the acquisition is being made using simplified acquisition procedures. When the provision at 52.212-2 is used, paragraph (a) of the provision shall be tailored to the specific acquisition to describe the evaluation factors and relative importance of those factors. However, when using the simplified acquisition procedures in Part 13, contracting officers are not required to describe the relative importance of evaluation factors.

(b) Offers shall be evaluated in accordance with the criteria contained in the solicitation. For many commercial items, the criteria need not be more detailed than technical (capability of the item offered to meet the agency need), price and past performance. Technical capability may be evaluated by how well the proposed products meet the Government requirement instead of predetermined subfactors. Solicitations for commercial items do not have to contain subfactors for technical capability when the solicitation adequately describes the item's intended use. A technical evaluation would normally include examination of such things as product literature, product samples (if requested), technical features and warranty provisions. Past performance shall be evaluated in accordance with the procedures in 13.106 or Subpart 15.3, as applicable. The contracting officer shall ensure the instructions provided in the provision at 52.212-1, Instructions to Offerors—Commercial Items, and the evaluation criteria provided in the provision at 52.212-2, Evaluation—Commercial Items, are in agreement.

(c) Select the offer that is most advantageous to the Government based on the factors contained in the solicitation. Fully document the rationale for selection of the successful offeror including discussion of any trade-offs considered.

12.603 Streamlined solicitation for commercial items.

(a) When a written solicitation will be issued, the contracting officer may use the following procedure to reduce

the time required to solicit and award contracts for the acquisition of commercial items. This procedure combines the synopsis required by 5.203 and the issuance of the solicitation into a single document.

(b) When using the combined synopsis/solicitation procedure, the SF 1449 is not used for issuing the solicitation.

(c) To use these procedures, the contracting officer shall—

(1) Prepare the synopsis as described at 5.207 for items 1-16.

(2) In item 17, Description, include the following additional information:

(i) The following statement:

This is a combined synopsis/solicitation for commercial items prepared in accordance with the format in Subpart 12.6, as supplemented with additional information included in this notice. This announcement constitutes the only solicitation; proposals are being requested and a written solicitation will not be issued.

(ii) The solicitation number and a statement that the solicitation is issued as an invitation to bid (IFB), request for quotation (RFQ) or request for proposal (RFP).

(iii) A statement that the solicitation document and incorporated provisions and clauses are those in effect through MMAR Circular _____.

(iv) A list of contract line item number(s) and items, quantities and units of measure, (including option(s), if applicable).

(v) Description of requirements for the items to be acquired.

(vi) Date(s) and place(s) of delivery and acceptance and FOB point.

(vii) A statement that the provision at 52.212-1, Instructions to Offerors—Commercial, applies to this acquisition and a statement regarding any addenda to the provision.

(viii) A statement regarding the applicability of the provision at 52.212-2, Evaluation—Commercial Items, if used, and the specific evaluation criteria to be included in paragraph (a) of that provision. If this provision is not used, describe the evaluation procedures to be used.

(ix) A statement advising offerors to include a completed copy of the provision at 52.212-3, Offeror Representations and Certifications—Commercial Items, with its offer.

(x) A statement that the clause at 52.212-4, Contract Terms and Conditions—Commercial Items, applies to this acquisition and a statement regarding any addenda to the clause.

(xi) A statement that the clause at 52.212-5, Contract Terms and Conditions Required To Implement Statutes or Executive Orders—Commercial Items, applies to this acquisition and a statement regarding which, if any, of the

additional MMAR clauses cited in the clause are applicable to the acquisition.

(xii) A statement regarding any additional contract requirement(s) or terms and conditions (such as contract financing arrangements or warranty requirements) determined by the contracting officer to be necessary for this acquisition and consistent with customary commercial practices.

(xiii) A statement regarding the Defense Priorities and Allocations System (DPAS) and assigned rating, if applicable.

(xiv) A statement regarding any applicable Numbered Notes.

(xv) The date, time and place offers are due.

(xvi) The name and telephone number of the individual to contact for information regarding the solicitation.

(3) Allow response time for receipt of offers as follows:

(i) Because the synopsis and solicitation are contained in a single document, it is not necessary to publicize a separate synopsis 15 days before the issuance of the solicitation.

(ii) When using the combined synopsis and solicitation, contracting officers must establish a response time in accordance with 5.203(b) (but see 5.203(h)).

(4) Publicize amendments to solicitations in the same manner as the initial synopsis and solicitation.

This page intentionally left blank.

13.000 Scope of part.

This part prescribes policies and procedures for the acquisition of supplies and services, including construction, research and development, and commercial items, the aggregate amount of which does not exceed the simplified acquisition threshold (see 2.101). Subpart 13.5 provides special authority for acquisitions of commercial items exceeding the simplified acquisition threshold but not exceeding \$5,000,000, including options. See Part 12 for policies applicable to the acquisition of commercial items exceeding the micro-purchase threshold. See 36.602-5 for simplified procedures to be used when acquiring architect-engineer services.

13.001 Definitions.

As used in this part—

“Authorized individual” means a person who has been granted authority, in accordance with agency procedures, to acquire supplies and services in accordance with this part.

“Governmentwide commercial purchase card” means a purchase card, similar in nature to a commercial credit card, issued to authorized agency personnel to use to acquire and to pay for supplies and services.

“Imprest fund” means a cash fund of a fixed amount established by an advance of funds, without charge to an appropriation, from an agency finance or disbursing officer to a duly appointed cashier, for disbursement as needed from time to time in making payment in cash for relatively small amounts.

“Third party draft” means an agency bank draft, similar to a check, that is used to acquire and to pay for supplies and services. (See Treasury Financial Management Manual, Section 3040.70.)

13.002 Purpose.

The purpose of this part is to prescribe simplified acquisition procedures in order to—

- (a) Reduce administrative costs;
- (b) Improve opportunities for small, small disadvantaged, and women-owned small business concerns to obtain a fair proportion of Government contracts;
- (c) Promote efficiency and economy in contracting; and
- (d) Avoid unnecessary burdens for GPO and contractors.

13.003 Policy.

(a) Materials Management Service shall use simplified acquisition procedures to the maximum extent practicable for all purchases of supplies or services not exceeding the simplified acquisition threshold (including purchases at or below the micro-purchase threshold). This policy does not apply if an agency can meet its requirement using—

- (1) Required sources of supply under Part 8 (*e.g.*, Federal Prison Industries, Committee for Purchase from People Who are Blind or Severely Disabled, and Federal Supply Schedule contracts);

(2) Existing indefinite delivery/indefinite quantity contracts; or

(3) Other established contracts.

(b) The contracting officer shall not use simplified acquisition procedures to acquire supplies and services if the anticipated award will exceed the simplified acquisition threshold (or \$5,000,000, including options, for acquisitions of commercial items using Subpart 13.5). Do not break down requirements aggregating more than the simplified acquisition threshold (or for commercial items, the threshold in Subpart 13.5) or the micro-purchase threshold into several purchases that are less than the applicable threshold merely to—

(1) Permit use of simplified acquisition procedures; or

(2) Avoid any requirement that applies to purchases exceeding the micro-purchase threshold.

(c) An agency that has specific statutory authority to acquire personal services (see 37.104) may use simplified acquisition procedures to acquire those services.

(d) Material Management Service shall use the Governmentwide commercial purchase card and electronic purchasing techniques to the maximum extent practicable in conducting simplified acquisitions.

(e) Materials Management Service shall maximize the use of electronic commerce when practicable and cost-effective (see Subpart 4.5). Drawings and lengthy specifications can be provided off-line in hard copy or through other appropriate means.

(f) Authorized individuals shall make purchases in the simplified manner that is most suitable, efficient, and economical based on the circumstances of each acquisition. For acquisitions not expected to exceed—

(1) The simplified acquisition threshold for other than commercial items, use any appropriate combination of the procedures in Parts 13, 14, 15, 35, or 36, including the use of Standard Form 1442, Solicitation, Offer, and Award (Construction, Alteration, or Repair), for construction contracts (see 36.701(b)); or

(2) \$5 million for commercial items, use any appropriate combination of the procedures in Parts 12, 13, 14, and 15 (see paragraph (d) of this section).

(g) In addition to other considerations, contracting officers shall—

(1) Promote competition to the maximum extent practicable (see 13.104);

(2) Establish deadlines for the submission of responses to solicitations that afford suppliers a reasonable opportunity to respond (see 5.203);

(3) Consider all quotations or offers that are timely received. For evaluation of quotations or offers received electronically, see 13.106-2(b)(3); and

(4) Use innovative approaches, to the maximum extent practicable, in awarding contracts using simplified acquisition procedures.

13.004 Legal effect of quotations.

(a) A quotation is not an offer and, consequently, cannot be accepted by the Government to form a binding contract. Therefore, issuance by the Government of an order in response to a supplier's quotation does not establish a contract. The order is an offer by the Government to the supplier to buy certain supplies or services upon specified terms and conditions. A contract is established when the supplier accepts the offer.

(b) When appropriate, the contracting officer may ask the supplier to indicate acceptance of an order by notification to the Government, preferably in writing, as defined at 2.101. In other circumstances, the supplier may indicate acceptance by furnishing the supplies or services ordered or by proceeding with the work to the point where substantial performance has occurred.

(c) If the Government issues an order resulting from a quotation, the Government may (by written notice to the supplier, at any time before acceptance occurs) withdraw, amend, or cancel its offer. (See 13.302-4 for procedures on termination or cancellation of purchase orders.)

13.005 [Reserved]

13.006 [Reserved]

Subpart 13.1—Procedures

13.101 General.

(a) In making purchases, contracting officers shall—

(1) Comply with the policy in 7.202 relating to economic purchase quantities, when practicable; and

(2) Provide for the inspection of supplies or services as prescribed in 46.404.

(b) In making purchases, contracting officers should—

(1) Include related items (such as small hardware items or spare parts for vehicles) in one solicitation and make award on an "all-or-none" or "multiple award" basis provided suppliers are so advised when quotations or offers are requested;

(2) Incorporate provisions and clauses by reference in solicitations and in awards under requests for quotations, provided the requirements in 52.102 are satisfied;

(3) Make maximum effort to obtain trade and prompt payment discounts (see 14.408-3). Prompt payment discounts may be considered in the evaluation of IFBs and RFPs; and

(4) Use bulk funding to the maximum extent practicable. Bulk funding is a system whereby the contracting officer receives authorization from a fiscal and accounting officer to obligate funds on purchase documents against a specified lump sum of funds reserved for the purpose for a specified

period of time rather than obtaining individual obligational authority on each purchase document. Bulk funding is particularly appropriate if numerous purchases using the same type of funds are to be made during a given period.

13.102 Source list.

(a) Each contracting office should maintain a source list (or lists, if more convenient). A list of new supply sources may be obtained from the Procurement Marketing and Access Network (PRO-Net) of the Small Business Administration. The list should identify the status of each source (when the status is made known to the contracting office) in the following categories:

- (1) Small business.
- (2) Small disadvantaged business.
- (3) Women-owned small business.

(b) The status information may be used as the basis to ensure that small business concerns are provided the maximum practicable opportunities to respond to solicitations issued using simplified acquisition procedures.

13.103 Use of standing price quotations.

Authorized individuals do not have to obtain individual quotations for each purchase. Standing price quotations may be used if—

- (a) The pricing information is current; and
- (b) The Government obtains the benefit of maximum discounts before award.

13.104 Promoting competition.

The contracting officer must promote competition to the maximum extent practicable to obtain supplies and services from the source whose offer is the most advantageous to the Government, considering the administrative cost of the purchase.

(a) The contracting officer must not—

- (1) Solicit quotations based on personal preference; or
- (2) Restrict solicitation to suppliers of well-known and widely distributed makes or brands.

(b) If using simplified acquisition procedures and providing access to the notice of proposed contract action and solicitation information through the Governmentwide point of entry (GPE), maximum practicable competition ordinarily can be obtained by soliciting quotations or offers from sources within the local trade area. Unless the contract action requires synopsis pursuant to 5.101 and an exception under 5.202 is not applicable, consider solicitation of at least three sources to promote competition to the maximum extent practicable. Whenever practicable, request quotations or offers from two sources not included in the previous solicitation.

13.105 Synopsis and posting requirements.

(a) The contracting officer must comply with the public display and synopsis requirements of 5.101 and 5.203 unless—

(1) The GPE is used at or below the simplified acquisition threshold for providing widespread public notice of acquisition opportunities and offerors are provided a means of responding to the solicitation electronically; or

(2) An exception in 5.202 applies; and

(3) The contracting file is documented to explain why synopsis was not undertaken.

(b) When acquiring commercial items, the contracting officer may use a combined synopsis and solicitation. In these cases, a separate solicitation is not required. The contracting officer must include enough information to permit suppliers to develop quotations or offers.

13.106 Soliciting competition, evaluation of quotations or offers, award and documentation.**13.106-1 Soliciting competition.**

(a) *Considerations.* In soliciting competition, the contracting officer shall consider the guidance in 13.104 and the following before requesting quotations or offers:

(1)(i) The nature of the article or service to be purchased and whether it is highly competitive and readily available in several makes or brands, or is relatively noncompetitive.

(ii) An electronic commerce method that employs widespread electronic public notice is not available; and

(iii) The urgency of the proposed purchase.

(iv) The dollar value of the proposed purchase.

(v) Past experience concerning specific dealers' prices.

(2) When soliciting quotations or offers, the contracting officer shall notify potential quoters or offerors of the basis on which award will be made (price alone or price and other factors, *e.g.*, past performance and quality). Contracting officers are encouraged to use best value. Solicitations are not required to state the relative importance assigned to each evaluation factor and subfactor, nor are they required to include subfactors.

(b) *Soliciting from a single source.* (1) For purchases not exceeding the simplified acquisition threshold, contracting officers may solicit from one source if the contracting officer determines that the circumstances of the contract action deem only one source reasonably available (*e.g.*, urgency, exclusive licensing agreements, or industrial mobilization).

(2) For sole source acquisitions of commercial items in excess of the simplified acquisition threshold conducted pursuant to Subpart 13.5, the requirements at 13.501(a) apply.

(c) *Soliciting orally.* (1) The contracting officer shall solicit quotations orally to the maximum extent practicable, if—

(i) The acquisition does not exceed the simplified acquisition threshold;

(ii) Oral solicitation is more efficient than soliciting through available electronic commerce alternatives; and

(iii) Notice is not required under 5.101.

(2) However, an oral solicitation may not be practicable for contract actions exceeding \$25,000 unless covered by an exception in 5.202.

(d) *Written solicitations.* If obtaining electronic or oral quotations is uneconomical or impracticable, the contracting officer should issue paper solicitations for contract actions likely to exceed \$25,000. The contracting officer shall issue a written solicitation for construction requirements exceeding \$2,000.

(e) *Use of options.* Options may be included in solicitations, provided the requirements of Subpart 17.2 are met and the aggregate value of the acquisition and all options does not exceed the dollar threshold for use of simplified acquisition procedures.

(f) *Inquiries.* An agency should respond to inquiries received through any medium if doing so would not interfere with the efficient conduct of the acquisition.

13.106-2 Evaluation of quotations or offers.

(a) *General.* (1) The contracting officer shall evaluate quotations or offers—

(i) In an impartial manner; and

(ii) Inclusive of transportation charges from the shipping point of the supplier to the delivery destination.

(2) Quotations or offers shall be evaluated on the basis established in the solicitation.

(3) All quotations or offers shall be considered (see paragraph (b) of this subsection).

(b) *Evaluation procedures.* (1) The contracting officer has broad discretion in fashioning suitable evaluation procedures. The procedures prescribed in Parts 14 and 15 are not mandatory. At the contracting officer's discretion, one or more, but not necessarily all, of the evaluation procedures in Part 14 or 15 may be used.

(2) If using price and other factors, ensure that quotations or offers can be evaluated in an efficient and minimally burdensome fashion. Formal evaluation plans and establishing a competitive range, conducting discussions, and scoring quotations or offers are not required. Contracting offices may conduct comparative evaluations of offers. Evaluation of other factors, such as past performance—

(i) Does not require the creation or existence of a formal data base; and

(ii) May be based on information such as the contracting officer's knowledge of and previous experience with

the supply or service being acquired, customer surveys, or other reasonable basis.

(3) For acquisitions conducted using a method that permits electronic response to the solicitation, the contracting officer may—

(i) After preliminary consideration of all quotations or offers, identify from all quotations or offers received one that is suitable to the user, such as the lowest priced brand name product, and quickly screen all lower priced quotations or offers based on readily discernible value indicators, such as past performance, warranty conditions, and maintenance availability; or

(ii) Where an evaluation is based only on price and past performance, make an award based on whether the lowest priced of the quotations or offers having the highest past performance rating possible represents the best value when compared to any lower priced quotation or offer.

13.106-3 Award and documentation.

(a) *Basis for award.* Before making award, the contracting officer must determine that the proposed price is fair and reasonable.

(1) Whenever possible, base price reasonableness on competitive quotations or offers.

(2) If only one response is received, include a statement of price reasonableness in the contract file. The contracting officer may base the statement on—

(i) Market research;

(ii) Comparison of the proposed price with prices found reasonable on previous purchases;

(iii) Current price lists, catalogs, or advertisements. However, inclusion of a price in a price list, catalog, or advertisement does not, in and of itself, establish fairness and reasonableness of the price;

(iv) A comparison with similar items in a related industry;

(v) The contracting officer's personal knowledge of the item being purchased;

(vi) Comparison to an independent Government estimate; or

(vii) Any other reasonable basis.

(3) Occasionally an item can be obtained only from a supplier that quotes a minimum order price or quantity that either unreasonably exceeds stated quantity requirements or results in an unreasonable price for the quantity required. In these instances, the contracting officer should inform the requiring activity of all facts regarding the quotation or offer and ask it to confirm or alter its requirement. The file shall be documented to support the final action taken.

(b) *File documentation and retention.* Keep documentation to a minimum. Purchasing offices shall retain data supporting purchases (paper or electronic) to the minimum extent and duration necessary for management review purposes (see Subpart 4.8). The following illustrate the extent to which quotation or offer information should be recorded:

(1) *Oral solicitations.* The contracting office should establish and maintain records of oral price quotations in order to reflect clearly the propriety of placing the order at the price paid with the supplier concerned. In most cases, this will consist merely of showing the names of the suppliers contacted and the prices and other terms and conditions quoted by each.

(2) *Written solicitations* (see 2.101). For acquisitions not exceeding the simplified acquisition threshold, limit written records of solicitations or offers to notes or abstracts to show prices, delivery, references to printed price lists used, the supplier or suppliers contacted, and other pertinent data.

(3) *Special situations.* Include additional statements—

(i) Explaining the absence of competition if only one source is solicited and the acquisition does not exceed the simplified acquisition threshold (does not apply to an acquisition of utility services available from only one source); or

(ii) Supporting the award decision if other than price-related factors were considered in selecting the supplier.

(c) *Notification.* For acquisitions that do not exceed the simplified acquisition threshold and for which automatic notification is not provided through an electronic commerce method that employs widespread electronic public notice, notification to unsuccessful suppliers shall be given only if requested or required by 5.301.

(d) *Request for information.* If a supplier requests information on an award that was based on factors other than price alone, a brief explanation of the basis for the contract award decision shall be provided (see 15.503(b)(2)).

(e) *Taxpayer Identification Number.* If an oral solicitation is used, the contracting officer shall ensure that the copy of the award document sent to the payment office is annotated with the contractor's Taxpayer Identification Number (TIN) and type of organization (see 4.203), unless this information will be obtained from some other source (*e.g.*, centralized database). The contracting officer shall disclose to the contractor that the TIN may be used by the Government to collect and report on any delinquent amounts arising out of the contractor's relationship with the Government (31 U.S.C. 7701(c)(3)).

Subpart 13.2—Actions At or Below the Micro-Purchase Threshold

13.201 General.

(a) The Public Printer may delegate micro-purchase authority (see 1.603-3).

(b) The Governmentwide commercial purchase card shall be the preferred method to purchase and to pay for micro-purchases (see 2.101).

(c) Purchases at or below the micro-purchase threshold may be conducted using any of the methods described in Subpart 13.3, provided the purchaser is authorized and trained, pursuant to agency procedures, to use those methods.

(d) Micro-purchases do not require provisions or clauses, except as provided at 32.1110. This paragraph takes precedence over any other MMAR requirement to the contrary, but does not prohibit the use of any clause.

(e) The requirements in Part 8 apply to purchases at or below the micro-purchase threshold.

(f) The procurement requirements in the Resource Conservation and Recovery Act (42 U.S.C. 6962) and Executive Order 13101 of September 14, 1998, Greening the Government through Waste Prevention, Recycling, and Federal Acquisition, apply to purchases at or below the micro-purchase threshold (see Subpart 23.4).

(g) There is a temporary \$15,000 micro-purchase threshold for the acquisition of supplies or services by or for the Department of Defense for which award is made and funds are obligated on or before September 30, 2003, facilitating the defense against terrorism or biological or chemical attack against the United States (see 2.101). Purchases using this

authority must have a clear and direct relationship to the defense against terrorism or biological or chemical attack.

13.202 Purchase guidelines.

(a) *Solicitation, evaluation of quotations, and award.*

(1) To the extent practicable, micro-purchases shall be distributed equitably among qualified suppliers.

(2) Micro-purchases may be awarded without soliciting competitive quotations if the contracting officer or individual appointed in accordance with 1.603-3(b) considers the price to be reasonable.

(3) The administrative cost of verifying the reasonableness of the price for purchases may more than offset potential savings from detecting instances of overpricing. Therefore, action to verify price reasonableness need only be taken if—

(i) The contracting officer or individual appointed in accordance with 1.603-3(b) suspects or has information to indicate that the price may not be reasonable (*e.g.*, comparison to the previous price paid or personal knowledge of the supply or service); or

(ii) Purchasing a supply or service for which no comparable pricing information is readily available (*e.g.*, a supply or service that is not the same as, or is not similar to, other supplies or services that have recently been purchased on a competitive basis).

(b) *Documentation.* If competitive quotations were solicited and award was made to other than the low quoter, documentation to support the purchase may be limited to identification of the solicited concerns and an explanation for the award decision.

Subpart 13.3—Simplified Acquisition Methods

13.301 Governmentwide commercial purchase card.

(a) The Governmentwide commercial purchase card is authorized for use in making and/or paying for purchases of supplies, services, or construction. The Governmentwide commercial purchase card may be used by contracting officers and other individuals designated in accordance with 1.603-3. The card may be used only for purchases that are otherwise authorized by law or regulation.

(b) When using the Governmentwide commercial purchase card, the Materials Management Service shall establish procedures for use and control of the card that comply with the Treasury Financial Manual for Guidance of Departments and Agencies (TFM 4-4500) and that are consistent with the terms and conditions of the current GSA credit card contract. The procedures should not limit the use of the Governmentwide commercial purchase card to micro-purchases. The procedures should encourage use of the card in greater dollar amounts by contracting officers to place orders and to pay for purchases against contracts established under Part 8 procedures, when authorized; and to place orders and/or make payment under other contractual instruments, when agreed to by the contractor. See 32.1110(d) for instructions for use of the appropriate clause when payment under a written contract will be made through use of the card.

(c) The Governmentwide commercial purchase card may be used to—

- (1) Make micro-purchases;
- (2) Place a task or delivery order (if authorized in the basic contract, basic ordering agreement, or blanket purchase agreement); or
- (3) Make payments, when the contractor agrees to accept payment by the card.

13.302 Purchase orders.

13.302-1 General.

(a) Except as provided under the unpriced purchase order method (see 13.302-2), purchase orders generally are issued on a fixed-price basis. See 12.207 for acquisition of commercial items.

(b) Purchase orders shall—

- (1) Specify the quantity of supplies or scope of services ordered;
- (2) Contain a determinable date by which delivery of the supplies or performance of the services is required;
- (3) Provide for inspection as prescribed in Part 46. Generally, inspection and acceptance should be at destination. Source inspection should be specified only if required by Part 46. When inspection and acceptance will be performed at des-

tinuation, advance copies of the purchase order or equivalent notice shall be furnished to the consignee(s) for material receipt purposes. Receiving reports shall be accomplished immediately upon receipt and acceptance of supplies;

(4) Specify f.o.b. destination for supplies to be delivered within the United States, except Alaska or Hawaii, unless there are valid reasons to the contrary; and

(5) Include any trade and prompt payment discounts that are offered, consistent with the applicable principles at 14.408-3.

(c) The contracting officer's signature on purchase orders shall be in accordance with 4.101 and the definitions at 2.101. Facsimile and electronic signature may be used in the production of purchase orders by automated methods.

(d) Limit the distribution of copies of purchase orders and related forms to the minimum deemed essential for administration and transmission of contractual information.

(e) In accordance with 31 U.S.C. 3332, electronic funds transfer (EFT) is required for payments except as provided in 32.1110. See Subpart 32.11 for instructions for use of the appropriate clause in purchase orders. When obtaining oral quotes, the contracting officer shall inform the quoter of the EFT clause that will be in any resulting purchase order.

13.302-2 Unpriced purchase orders.

(a) An unpriced purchase order is an order for supplies or services, the price of which is not established at the time of issuance of the order.

(b) An unpriced purchase order may be used only when—

- (1) It is impractical to obtain pricing in advance of issuance of the purchase order; and
- (2) The purchase is for—
 - (i) Repairs to equipment requiring disassembly to determine the nature and extent of repairs;
 - (ii) Material available from only one source and for which cost cannot readily be established; or
 - (iii) Supplies or services for which prices are known to be competitive, but exact prices are not known (*e.g.*, miscellaneous repair parts, maintenance agreements).

(c) Unpriced purchase orders may be issued on paper or electronically. A realistic monetary limitation, either for each line item or for the total order, shall be placed on each unpriced purchase order. The monetary limitation shall be an obligation subject to adjustment when the firm price is established. The contracting office shall follow up on each order to ensure timely pricing. The contracting officer or the contracting officer's designated representative shall review the invoice price and, if reasonable (see 13.106-3(a)), process the invoice for payment.

13.302-3 Obtaining contractor acceptance and modifying purchase orders.

(a) When it is desired to consummate a binding contract between the parties before the contractor undertakes performance, the contracting officer shall require written (see 2.101) acceptance of the purchase order by the contractor.

(b) Each purchase order modification shall identify the order it modifies and shall contain an appropriate modification number.

(c) A contractor's written acceptance of a purchase order modification may be required only if—

- (1) Determined by the contracting officer to be necessary to ensure the contractor's compliance with the purchase order as revised; or
- (2) Required by agency regulations.

13.302-4 Termination or cancellation of purchase orders.

(a) If a purchase order that has been accepted in writing by the contractor is to be terminated, the contracting officer shall process the termination in accordance with—

- (1) 12.403(d) and 52.212-4(l) for commercial items; or
- (2) Part 49 or 52.213-4 for other than commercial items.

(b) If a purchase order that has not been accepted in writing by the contractor is to be canceled, the contracting officer shall notify the contractor in writing that the purchase order has been canceled, request the contractor's written acceptance of the cancellation, and proceed as follows:

- (1) If the contractor accepts the cancellation and does not claim that costs were incurred as a result of beginning performance under the purchase order, no further action is required (*i.e.*, the purchase order shall be considered canceled).
- (2) If the contractor does not accept the cancellation or claims that costs were incurred as a result of beginning performance under the purchase order, the contracting officer shall process the termination action as prescribed in paragraph (a) of this subsection.

13.302-5 Clauses.

(a) Each purchase order (and each purchase order modification (see 13.302-3)) shall incorporate all clauses prescribed for the particular acquisition.

(b) The contracting officer shall insert the clause at 52.213-2, Invoices, in purchase orders that authorize advance payments (see 31 U.S.C. 3324(d)(2)) for subscriptions or other charges for newspapers, magazines, periodicals, or other publications (*i.e.*, any publication printed, microfilmed, photocopied, or magnetically or otherwise recorded for auditory or visual usage).

(c) The contracting officer shall insert the clause at 52.213-3, Notice to Supplier, in unpriced purchase orders.

(d)(1) The contracting officer may use the clause at 52.213-4, Terms and Conditions—Simplified Acquisitions (Other Than Commercial Items), in simplified acquisitions exceeding the micro-purchase threshold that are for other than commercial items (see 12.301).

(2) The clause—

(i) Is a compilation of the most commonly used clauses that apply to simplified acquisitions; and

(ii) May be modified to fit the individual acquisition to add other needed clauses, or those clauses may be added separately. Modifications (*i.e.*, additions, deletions, or substitutions) must not create a void or internal contradiction in the clause. For example, do not add an inspection and acceptance or termination for convenience requirement unless the existing requirement is deleted. Also, do not delete a paragraph without providing for an appropriate substitute.

(3) When acquiring supplies for use outside the United States, delete clause 52.225-1 from the clause list at 52.213-4(b).

13.303 Blanket purchase agreements (BPAs).**13.303-1 General.**

(a) A blanket purchase agreement (BPA) is a simplified method of filling anticipated repetitive needs for supplies or services by establishing “charge accounts” with qualified sources of supply (see Subpart 16.7 for additional coverage of agreements).

(b) BPAs should be established for use by an organization responsible for providing supplies for its own operations or for other offices, installations, projects, or functions. Such organizations, for example, may be organized supply points, separate independent or detached field parties, or one-person posts or activities.

(c) The use of BPAs does not exempt an agency from the responsibility for keeping obligations and expenditures within available funds.

13.303-2 Establishment of BPAs.

(a) The following are circumstances under which contracting officers may establish BPAs:

(1) There is a wide variety of items in a broad class of supplies or services that are generally purchased, but the exact items, quantities, and delivery requirements are not known in advance and may vary considerably.

(2) There is a need to provide commercial sources of supply for one or more offices or projects in a given area that do not have or need authority to purchase otherwise.

(3) The use of this procedure would avoid the writing of numerous purchase orders.

(4) There is no existing requirements contract for the same supply or service that the contracting activity is required to use.

(b) After determining a BPA would be advantageous, contracting officers shall—

(1) Establish the parameters to limit purchases to individual items or commodity groups or classes, or permit the supplier to furnish unlimited supplies or services; and

(2) Consider suppliers whose past performance has shown them to be dependable, who offer quality supplies or services at consistently lower prices, and who have provided numerous purchases at or below the simplified acquisition threshold.

(c) BPAs may be established with—

(1) More than one supplier for supplies or services of the same type to provide maximum practicable competition;

(2) A single firm from which numerous individual purchases at or below the simplified acquisition threshold will likely be made in a given period; or

(3) Federal Supply Schedule contractors, if not inconsistent with the terms of the applicable schedule contract.

(d) BPAs should be prepared without a purchase requisition and only after contacting suppliers to make the necessary arrangements for—

- (1) Securing maximum discounts;
- (2) Documenting individual purchase transactions;
- (3) Periodic billings; and
- (4) Incorporating other necessary details.

13.303-3 Preparation of BPAs.

Prepare BPAs on the forms specified in 13.307. Do not cite accounting and appropriation data (see 13.303-5(e)(4)).

(a) The following terms and conditions are mandatory:

(1) *Description of agreement.* A statement that the supplier shall furnish supplies or services, described in general terms, if and when requested by the contracting officer (or the authorized representative of the contracting officer) during a specified period and within a stipulated aggregate amount, if any.

(2) *Extent of obligation.* A statement that the Government is obligated only to the extent of authorized purchases actually made under the BPA.

(3) *Purchase limitation.* A statement that specifies the dollar limitation for each individual purchase under the BPA (see 13.303-5(b)).

(4) *Individuals authorized to purchase under the BPA.* A statement that a list of individuals authorized to purchase under the BPA, identified either by title of position or by name of individual, organizational component, and the dollar limitation per purchase for each position title or individual shall be furnished to the supplier by the contracting officer.

(5) *Delivery tickets.* A requirement that all shipments under the agreement, except those for newspapers, magazines, or other periodicals, shall be accompanied by delivery tickets or sales slips that shall contain the following minimum information:

(i) Name of supplier.

(ii) BPA number.

(iii) Date of purchase.

(iv) Purchase number.

(v) Itemized list of supplies or services furnished.

(vi) Quantity, unit price, and extension of each item, less applicable discounts (unit prices and extensions need not be shown when incompatible with the use of automated systems, provided that the invoice is itemized to show this information).

(vii) Date of delivery or shipment.

(6) *Invoices.* One of the following statements shall be included (except that the statement in paragraph (a)(6)(iii) of this subsection should not be used if the accumulation of the individual invoices by the Government materially increases the administrative costs of this purchase method):

(i) A summary invoice shall be submitted at least monthly or upon expiration of this BPA, whichever occurs first, for all deliveries made during a billing period, identifying the delivery tickets covered therein, stating their total dollar value, and supported by receipt copies of the delivery tickets.

(ii) An itemized invoice shall be submitted at least monthly or upon expiration of this BPA, whichever occurs first, for all deliveries made during a billing period and for which payment has not been received. These invoices need not be supported by copies of delivery tickets.

(iii) When billing procedures provide for an individual invoice for each delivery, these invoices shall be accumulated, provided that—

(A) A consolidated payment will be made for each specified period; and

(B) The period of any discounts will commence on the final date of the billing period or on the date of receipt of invoices for all deliveries accepted during the billing period, whichever is later.

(iv) An invoice for subscriptions or other charges for newspapers, magazines, or other periodicals shall show the starting and ending dates and shall state either that ordered subscriptions have been placed in effect or will be placed in effect upon receipt of payment.

(b) If the fast payment procedure is used, include the requirements stated in 13.403.

13.303-4 Clauses.

(a) The contracting officer shall insert in each BPA the clauses prescribed elsewhere in this part that are required for or applicable to the particular BPA.

(b) Unless a clause prescription specifies otherwise (*e.g.*, see 22.305(a), 22.605(a)(5), or 22.1006), if the prescription includes a dollar threshold, the amount to be compared to that threshold is that of any particular order under the BPA.

13.303-5 Purchases under BPAs.

(a) Use a BPA only for purchases that are otherwise authorized by law or regulation.

(b) Individual purchases shall not exceed the simplified acquisition threshold. However, agency regulations may establish a higher threshold consistent with the following:

(1) The simplified acquisition threshold and the \$5,000,000 limitation for individual purchases do not apply to BPAs established in accordance with 13.303-2(c)(3).

(2) The limitation for individual purchases for commercial item acquisitions conducted under Subpart 13.5 is \$5,000,000.

(c) The existence of a BPA does not justify purchasing from only one source. The requirements of 13.003(b) and Subpart 19.5 also apply to each order.

(d) If, for a particular purchase greater than the micro-purchase threshold, there is an insufficient number of BPAs to ensure maximum practicable competition, the contracting officer shall—

(1) Solicit quotations from other sources (see 13.105) and make the purchase as appropriate; and

(2) Establish additional BPAs to facilitate future purchases if—

(i) Recurring requirements for the same or similar supplies or services seem likely;

(ii) Qualified sources are willing to accept BPAs; and

(iii) It is otherwise practical to do so.

(e) Limit documentation of purchases to essential information and forms as follows:

(1) Purchases generally should be made electronically, or orally when it is not considered economical or practical to use electronic methods.

(2) A paper purchase document may be issued if necessary to ensure that the supplier and the purchaser agree concerning the transaction.

(3) Unless a paper document is issued, record essential elements (*e.g.*, date, supplier, supplies or services, price, delivery date) on the purchase requisition, in an informal memorandum, or on a form developed locally for the purpose.

(4) Cite the pertinent purchase requisitions and the accounting and appropriation data.

(5) When delivery is made or the services are performed, the supplier's sales document, delivery document, or invoice may (if it reflects the essential elements) be used for the purpose of recording receipt and acceptance of the supplies or services. However, if the purchase is assigned to another activity for administration, the authorized Government representative shall document receipt and acceptance of supplies or services by signing and dating the agency specified form after verification and after notation of any exceptions.

13.303-6 Review procedures.

(a) The contracting officer placing orders under a BPA, or the designated representative of the contracting officer, shall review a sufficient random sample of the BPA files at least annually to ensure that authorized procedures are being followed.

(b) The contracting officer that entered into the BPA shall—

(1) Ensure that each BPA is reviewed at least annually and, if necessary, updated at that time; and

(2) Maintain awareness of changes in market conditions, sources of supply, and other pertinent factors that may warrant making new arrangements with different suppliers or modifying existing arrangements.

(c) If an office other than the purchasing office that established a BPA is authorized to make purchases under that BPA, the agency that has jurisdiction over the office authorized to make the purchases shall ensure that the procedures in paragraph (a) of this subsection are being followed.

13.303-7 Completion of BPAs.

An individual BPA is considered complete when the purchases under it equal its total dollar limitation, if any, or when its stated time period expires.

13.303-8 Optional clause.

The clause at 52.213-4, Terms and Conditions—Simplified Acquisitions (Other Than Commercial Items), may be used in BPAs established under this section.

13.304 [Reserved]**13.305 Imprest funds and third party drafts.****13.305-1 General.**

Imprest funds and third party drafts may be used to acquire and to pay for supplies or services. Policies and regulations concerning the establishment of and accounting for imprest funds and third party drafts, including the responsibilities of designated cashiers and alternates, are contained in Part IV of the Treasury Financial Manual for Guidance of Departments and Agencies, Title 7 of the General Accounting Office Policy and Procedures Manual for Guidance of Federal Agencies, and the agency implementing regulations. Agencies also shall be guided by the Manual of Procedures and Instructions for Cashiers, issued by the Financial Management Service, Department of the Treasury.

13.305-2 Agency responsibilities.

When using imprest funds and third party drafts, the Materials Management Service shall—

(a) Periodically review and determine whether there is a continuing need for each fund or third party draft account

established, and that amounts of those funds or accounts are not in excess of actual needs;

(b) Take prompt action to have imprest funds or third party draft accounts adjusted to a level commensurate with demonstrated needs whenever circumstances warrant such action; and

(c) Develop and issue appropriate implementing regulations. These regulations shall include (but are not limited to) procedures covering—

(1) Designation of personnel authorized to make purchases using imprest funds or third party drafts; and

(2) Documentation of purchases using imprest funds or third party drafts, including documentation of—

(i) Receipt and acceptance of supplies and services by the Government;

(ii) Receipt of cash or third party draft payments by the suppliers; and

(iii) Cash advances and reimbursements.

13.305-3 Conditions for use.

Imprest funds or third party drafts may be used for purchases when—

(a) The imprest fund transaction does not exceed \$500 or such other limits as have been approved by the agency head;

(b) The third party draft transaction does not exceed \$2,500, unless authorized at a higher level in accordance with Treasury restrictions;

(c) The use of imprest funds or third party drafts is considered to be advantageous to the Government; and

(d) The use of imprest funds or third party drafts for the transaction otherwise complies with any additional conditions established by agencies and with the policies and regulations referenced in 13.305-1.

13.305-4 Procedures.

(a) Each purchase using imprest funds or third party drafts shall be based upon an authorized purchase requisition, contracting officer verification statement, or other agency approved method of ensuring that adequate funds are available for the purchase.

(b) Normally, purchases should be placed orally and without soliciting competition if prices are considered reasonable.

(c) Since there is, for all practical purposes, simultaneous placement of the order and delivery of the items, clauses are not required for purchases using imprest funds or third party drafts.

(d) Forms prescribed at 13.307(e) may be used if a written order is considered necessary (*e.g.*, if required by the supplier for discount, tax exemption, or other reasons). If a purchase order is used, endorse it “Payment to be made from Imprest

Fund” (or “Payment to be made from Third Party Draft,” as appropriate).

(e) The individual authorized to make purchases using imprest funds or third party drafts shall—

(1) Furnish to the imprest fund or third party draft cashier a copy of the document required under paragraph (a) of this subsection annotated to reflect—

(i) That an imprest fund or third party draft purchase has been made;

(ii) The unit prices and extensions; and

(iii) The supplier's name and address; and

(2) Require the supplier to include with delivery of the supplies an invoice, packing slip, or other sales instrument giving—

(i) The supplier's name and address;

(ii) List and quantity of items supplied;

(iii) Unit prices and extensions; and

(iv) Cash discount, if any.

13.306 [Reserved]

13.307 Forms.

(a) *Commercial items.* For use of the SF 1449, Solicitation/Contract/Order for Commercial Items, see 12.204.

(b) *Other than commercial items.* (1) Except when quotations are solicited electronically, or orally, the SF 1449; SF 18, Request for Quotations; or an agency form/automated format may be used. Each agency request for quotations form/automated format should conform with the SF 18 or SF 1449 to the maximum extent practicable.

(2) Both SF 1449 and OF 347, Order for Supplies or Services, are multipurpose forms used for negotiated purchases of supplies or services, delivery or task orders, inspection and receiving reports, and invoices. An agency form/automated format also may be used.

(c) *Forms used for both commercial and other than commercial items.* (1) OF 336, Continuation Sheet, or an agency form/automated format may be used when additional space is needed.

(2) OF 348, Order for Supplies or Services Schedule—Continuation, or an agency form/automated format may be used for negotiated purchases when additional space is needed. Agencies may print on these forms the clauses considered to be generally suitable for purchases.

(3) SF 30, Amendment of Solicitation/Modification of Contract, or a purchase order form may be used to modify a purchase order, unless an agency form/automated format is prescribed in agency regulations.

(d) SF 1165, Receipt for Cash—Subvoucher, or an agency purchase order form may be used for purchases using imprest funds or third party drafts.

Subpart 13.4—Fast Payment Procedure

13.401 General.

(a) The fast payment procedure allows payment under limited conditions to a contractor prior to the Government's verification that supplies have been received and accepted. The procedure provides for payment for supplies based on the contractor's submission of an invoice that constitutes a certification that the contractor—

(1) Has delivered the supplies to a post office, common carrier, or point of first receipt by the Government; and

(2) Shall replace, repair, or correct supplies not received at destination, damaged in transit, or not conforming to purchase agreements.

(b) The contracting officer shall be primarily responsible for collecting debts resulting from failure of contractors to properly replace, repair, or correct supplies lost, damaged, or not conforming to purchase requirements (see 32.605(b) and 32.606).

13.402 Conditions for use.

If the conditions in paragraphs (a) through (f) of this section are present, the fast payment procedure may be used, provided that use of the procedure is consistent with the other conditions of the purchase. The conditions for use of the fast payment procedure are as follows:

(a) Individual purchasing instruments do not exceed \$25,000, except that the Director, Materials Management Service, may permit higher dollar limitations for specified activities or items on a case-by-case basis.

(b) Deliveries of supplies are to occur at locations where there is both a geographical separation and a lack of adequate communications facilities between Government receiving and disbursing activities that will make it impractical to make timely payment based on evidence of Government acceptance.

(c) Title to the supplies passes to the Government—

(1) Upon delivery to a post office or common carrier for mailing or shipment to destination; or

(2) Upon receipt by the Government if the shipment is by means other than Postal Service or common carrier.

(d) The supplier agrees to replace, repair, or correct supplies not received at destination, damaged in transit, or not conforming to purchase requirements.

(e) The purchasing instrument is a firm-fixed-price contract, a purchase order, or a delivery order for supplies.

(f) A system is in place to ensure—

(1) Documentation of evidence of contractor performance under fast payment purchases;

(2) Timely feedback to the contracting officer in case of contractor deficiencies; and

(3) Identification of suppliers that have a current history of abusing the fast payment procedure (also see Subpart 9.1).

13.403 Preparation and execution of orders.

Priced or unpriced contracts, purchase orders, or BPAs using the fast payment procedure shall include the following:

(a) A requirement that the supplies be shipped transportation or postage prepaid.

(b) A requirement that invoices be submitted directly to the finance or other office designated in the order, or in the case of unpriced purchase orders, to the contracting officer (see 13.302-2(c)).

(c) The following statement on the consignee's copy:

Consignee's Notification to Purchasing Activity of Nonreceipt, Damage, or Nonconformance

The consignee shall notify the purchasing office promptly after the specified date of delivery of supplies not received, damaged in transit, or not conforming to specifications of the purchase order. Unless extenuating circumstances exist, the notification should be made not later than 60 days after the specified date of delivery.

13.404 Contract clause.

The contracting officer shall insert the clause at 52.213-1, Fast Payment Procedure, in solicitations and contracts when the conditions in 13.402 are applicable and it is intended that the fast payment procedure be used in the contract (in the case of BPAs, the contracting officer may elect to insert the clause either in the BPA or in orders under the BPA).

This page intentionally left blank.

14.000 Scope of part.

This part prescribes—

- (a) The basic requirements of contracting for supplies and services (including construction) by sealed bidding;
- (b) The information to be included in the solicitation (invitation for bids);
- (c) Procedures concerning the submission of bids;
- (d) Requirements for opening and evaluating bids and awarding contracts; and
- (e) Procedures for two-step sealed bidding.

Subpart 14.1—Use of Sealed Bidding

14.101 Elements of sealed bidding.

Sealed bidding is a method of contracting that employs competitive bids, public opening of bids, and awards. The following steps are involved:

- (a) *Preparation of invitations for bids.* Invitations must describe the requirements of the Government clearly, accurately, and completely. Unnecessarily restrictive specifications or requirements that might unduly limit the number of bidders are prohibited. The invitation includes all documents (whether attached or incorporated by reference) furnished prospective bidders for the purpose of bidding.
- (b) *Publicizing the invitation for bids.* Invitations must be publicized through distribution to prospective bidders, posting in public places, and such other means as may be appropriate. Publicizing must occur a sufficient time before public opening of bids to enable prospective bidders to prepare and submit bids.
- (c) *Submission of bids.* Bidders must submit sealed bids to be opened at the time and place stated in the solicitation for the public opening of bids.
- (d) *Evaluation of bids.* Bids shall be evaluated without discussions.
- (e) *Contract award.* After bids are publicly opened, an award will be made with reasonable promptness to that responsible bidder whose bid, conforming to the invitation for bids, will be most advantageous to the Government, considering only price and the price-related factors included in the invitation.

14.102 [Reserved]

14.103 Policy.

14.103-1 General.

- (a) Sealed bidding shall be used whenever the conditions in 6.401(a) are met. This requirement applies to any proposed contract action under Part 6.
- (b) Current lists of bidders shall be maintained in accordance with 14.205.
- (c) Sealed bidding may be used for classified acquisitions if its use does not violate agency security requirements.
- (d) The policy for pricing modifications of sealed bid contract appears in 15.403-4(a)(1)(iii).

14.103-2 Limitations.

- No awards shall be made as a result of sealed bidding unless—
- (a) Bids have been solicited as required by Subpart 14.2;
 - (b) Bids have been submitted as required by Subpart 14.3;
 - (c) The requirements of 1.602-1(b) and Part 6 have been met; and
 - (d) An award is made to the responsible bidder (see 9.1) whose bid is responsive to the terms of the invitation for bids and is most advantageous to the Government, considering only price and the price related factors included in the invitation, as provided in Subpart 14.4.

14.104 Types of contracts.

Firm-fixed-price contracts shall be used when the method of contracting is sealed bidding, except that fixed-price contracts with economic price adjustment clauses may be used if authorized in accordance with 16.203 when some flexibility is necessary and feasible. Such clauses must afford all bidders an equal opportunity to bid.

14.105 Solicitations for informational or planning purposes.

(See 15.201(e).)

Subpart 14.2—Solicitation of Bids

14.201 Preparation of invitations for bids.

14.201-1 Uniform contract format.

(a) Contracting officers shall prepare invitations for bids and contracts using the uniform contract format outlined in Table 14-1 to the maximum practicable extent. The use of the format facilitates preparation of the solicitation and contract as well as reference to, and use of, those documents by bidders and contractors. It need not be used for acquisition of the following:

- (1) Construction (see Part 36).
- (2) Shipbuilding (including design, construction, and conversion), ship overhaul, and ship repair.
- (3) Subsistence items.
- (4) Supplies or services requiring special contract forms prescribed elsewhere in this regulation that are inconsistent with the uniform contract format.
- (5) Firm-fixed-price or fixed-price with economic price adjustment acquisitions that use the simplified contract format (see 14.201-9).

(b) Information suitable for inclusion in invitations for bids under the uniform contract format shall also be included in invitations for bids not subject to that format if applicable.

(c) Solicitations to which the uniform contract format applies shall include Parts I, II, III, and IV. If any section of the uniform contract format does not apply, the contracting officer should so mark that section in the solicitation. Upon award, the contracting officer shall not physically include Part IV in the resulting contract, but shall retain it in the contract file. Award by acceptance of a bid on the award portion of Standard Form 33, Solicitation, Offer and Award (SF 33), GPO Form 320B, or Standard Form 1447, Solicitation/Contract (SF 1447), incorporates Section K, Representations, certifications, and other statements of bidders, in the resultant contract even though not physically attached.

TABLE 14-1—UNIFORM CONTRACT FORMAT

SECTION	TITLE
Part I—The Schedule	
A	Solicitation/contract form
B	Supplies or services and prices
C	Description/specifications
D	Packaging and marking
E	Inspection and acceptance
F	Deliveries or performance
G	Contract administration data
H	Special contract requirements

SECTION	TITLE
Part II—Contract Clauses	
I	Contract clauses
Part III—List of Documents, Exhibits, and Other Attachments	
J	List of documents, exhibits, and other attachments
Part IV—Representations and Instructions	
K	Representations, certifications, and other statements of bidders
L	Instructions, conditions, and notices to bidders
M	Evaluation factors for award

14.201-2 Part I—The Schedule.

The contracting officer shall prepare the Schedule as follows:

(a) *Section A, Solicitation/contract form.* (1) Prepare the invitation for bids on SF 33, unless otherwise permitted by this regulation. The SF 33 is the first page of the solicitation and includes Section A of the uniform contract format. When the SF 1447 is used as the solicitation document, the information in subdivisions (a)(2)(i) and (a)(2)(iv) of this subsection shall be inserted in block 9 of the SF 1447.

(2) When the SF 33 or SF 1447 is not used, include the following on the first page of the invitation for bids:

- (i) Name, address, and location of issuing activity, including room and building where bids must be submitted.
- (ii) Invitation for bids number.
- (iii) Date of issuance.
- (iv) Time specified for receipt of bids.
- (v) Number of pages.
- (vi) Requisition or other purchase authority.
- (vii) Requirement for bidder to provide its name and complete address, including street, city, county, state, and ZIP code.

(viii) A statement that bidders should include in the bid the address to which payment should be mailed, if that address is different from that of the bidder.

(b) *Section B, Supplies or services and prices.* Include a brief description of the supplies or services; e.g., item number, national stock number/part number if applicable, title or name identifying the supplies or services, and quantities (see Part 11). The SF 33 and the SF 1447 may be supplemented as necessary by the Optional Form 336 (OF 336), Continuation Sheet (53.302-336).

(c) *Section C, Description/specifications.* Include any description or specifications needed in addition to Section B to permit full and open competition (see Part 11).

(d) *Section D, Packaging and marking.* Provide packaging, packing, preservation, and marking requirements, if any.

(e) *Section E, Inspection and acceptance.* Include inspection, acceptance, quality assurance, and reliability requirements (see Part 46, Quality Assurance).

(f) *Section F, Deliveries or performance.* Specify the requirements for time, place, and method of delivery or performance (see Subpart 11.4, Delivery or Performance Schedules).

(g) *Section G, Contract administration data.* Include any required accounting and appropriation data and any required contract administration information or instructions other than those on the solicitation form.

(h) *Section H, Special contract requirements.* Include a clear statement of any special contract requirements that are not included in Section I, Contract clauses, or in other sections of the uniform contract format.

14.201-3 Part II—Contract clauses.

Section I, Contract clauses. The contracting officer shall include in this section the clauses required by law or by this regulation and any additional clauses expected to apply to any resulting contract, if these clauses are not required to be included in any other section of the uniform contract format.

14.201-4 Part III—Documents, exhibits, and other attachments.

Section J, List of documents, exhibits, and other attachments. The contracting officer shall list the title, date, and number of pages for each attached document.

14.201-5 Part IV—Representations and instructions.

The contracting officer shall prepare the representations and instructions as follows:

(a) *Section K, Representations, certifications, and other statements of bidders.* Include in this section those solicitation provisions that require representations, certifications, or the submission of other information by bidders.

(b) *Section L, Instructions, conditions, and notices to bidders.* Insert in this section solicitation provisions and other information and instructions not required elsewhere to guide bidders. Invitations shall include the time and place for bid openings, and shall advise bidders that bids will be evaluated without discussions (see 52.214-10 and, for construction contracts, 52.214-19).

(c) *Section M, Evaluation factors for award.* Identify the price related factors other than the bid price that will be considered in evaluating bids and awarding the contract. See 14.201-8.

14.201-6 Solicitation provisions.

(a) The provisions prescribed in this subsection apply to preparation and submission of bids in general. See other

MMAR parts for provisions and clauses related to specific acquisition requirements.

(b) Insert in all invitations for bids the provisions at—

- (1) 52.214-3, Amendments to Invitations for Bids; and
- (2) 52.214-4, False Statements in Bids.

(c) Insert the following provisions in invitations for bids:

- (1) 52.214-5, Submission of Bids.
- (2) 52.214-6, Explanation to Prospective Bidders.
- (3) 52.214-7, Late Submissions, Modifications, and

Withdrawals of Bids.

(d) [Reserved]

(e) Insert in invitations for bids, except those for construction, the provisions at—

(1) 52.214-9, Failure to Submit Bid, except when using electronic data interchange methods not requiring solicitation mailing lists; and

(2) 52.214-10, Contract Award—Sealed Bidding.

(f) Insert in invitations for bids to which the uniform contract format applies, the provision at 52.214-12, Preparation of Bids.

(g)(1) Insert the provision at 52.214-13, Telegraphic Bids, in invitations for bids if the contracting officer decides to authorize telegraphic bids.

(2) Use the provision with its Alternate I in invitations for bids that are for perishable subsistence, and when the contracting officer considers that offerors will be unwilling to provide acceptance periods long enough to allow written confirmation.

(h) Insert the provision at 52.214-14, Place of Performance—Sealed Bidding, in invitations for bids except those in which the place of performance is specified by the Government.

(i) Insert the provision at 52.214-15, Period for Acceptance of Bids, in invitations for bids (IFB's) that are not issued on SF 33 or SF 1447 except IFB's—

(1) For construction work; or

(2) In which the Government specifies a minimum acceptance period.

(j) Insert the provision at 52.214-16, Minimum Bid Acceptance Period, in invitations for bids, except for construction, if the contracting officer determines that a minimum acceptance period must be specified.

(k) [Reserved]

(l) Insert the provision at 52.214-18, Preparation of Bids—Construction, in invitations for bids for construction work.

(m) Insert the provision at 52.214-19, Contract Award—Sealed Bidding—Construction, in all invitations for bids for construction work.

(n) [Reserved]

(o)(1) Insert the provision at 52.214-20, Bid Samples, in invitations for bids if bid samples are required.

(2) If it appears that the conditions in 14.202-4(e)(1) will apply and the contracting officer anticipates granting waivers and—

(i) If the nature of the required product does not necessitate limiting the grant of a waiver to a product produced at the same plant in which the product previously acquired or tested was produced, use the provision with its Alternate I; or

(ii) If the nature of the required product necessitates limiting the grant of a waiver to a product produced at the same plant in which the product previously acquired or tested was produced, use the provision with its Alternate II.

(3) See 14.202-4(e)(2) regarding waiving the requirement for all bidders.

(p)(1) Insert the provision at 52.214-21, Descriptive Literature, in invitations for bids if—

(i) Descriptive literature is required to evaluate the technical acceptability of an offered product; and

(ii) The required information will not be readily available unless it is submitted by bidders.

(2) Use the basic clause with its Alternate I if the possibility exists that the contracting officer may waive the requirement for furnishing descriptive literature for a bidder offering a previously supplied product that meets specification requirements of the current solicitation.

(3) See 14.202-5(d)(2) regarding waiving the requirement for all bidders.

(q) Insert the provision at 52.214-22, Evaluation of Bids for Multiple Awards, in invitations for bids if the contracting officer determines that multiple awards might be made if doing so is economically advantageous to the Government.

(r) Insert the provision at 52.214-23, Late Submissions, Modifications, Revisions, and Withdrawals of Technical Proposals under Two-Step Sealed Bidding, in solicitations for technical proposals in step one of two-step sealed bidding.

(s) Insert the provision at 52.214-24, Multiple Technical Proposals, in solicitations for technical proposals in step one of two-step sealed bidding if the contracting officer permits the submission of multiple technical proposals.

(t) Insert the provision at 52.214-25, Step Two of Two-Step Sealed Bidding, in invitations for bids issued under step two of two-step sealed bidding.

(u) Insert the provision at 52.214-30, Annual Representations and Certifications—Sealed Bidding, in invitations for bids if annual representations and certifications are used (see 14.213).

(v) Insert the provision at 52.214-31, Facsimile Bids, in solicitations if facsimile bids are authorized (see 14.202-7).

(w) Insert the provision at 52.214-34, Submission of Offers in the English Language, in solicitations that include any of the clauses prescribed in 25.1101 or 25.1102. It may be included in other solicitations when the contracting officer decides that it is necessary.

(x) Insert the provision at 52.214-35, Submission of Offers in U.S. Currency, in solicitations that include any of the clauses prescribed in 25.1101 or 25.1102, unless the contracting officer includes the clause at 52.225-17, Evaluation of Foreign Currency Offers, as prescribed in 25.1103(d). It may be included in other solicitations when the contracting officer decides that it is necessary.

14.201-7 Contract clauses.

(a) When contracting by sealed bidding, the contracting officer shall insert the clause at 52.214-26, Audit and Records—Sealed Bidding, in solicitations and contracts if the contract amount is expected to exceed the threshold at 15.403-4(a)(1) for submission of cost or pricing data.

(b)(1) When contracting by sealed bidding, the contracting officer shall insert the clause at 52.214-27, Price Reduction for Defective Cost or Pricing Data—Modifications—Sealed Bidding, in solicitations and contracts if the contract amount is expected to exceed the threshold for submission of cost or pricing data at 15.403-4(a)(1).

(2) In exceptional cases, the head of the contracting activity may waive the requirement for inclusion of the clause in a contract with a foreign government or agency of that government. The authorizations for the waiver and the reasons for granting it shall be in writing.

(c)(1) When contracting by sealed bidding, the contracting officer shall insert the clause at 52.214-28, Subcontractor Cost or Pricing Data—Modifications— Sealed Bidding, in solicitations and contracts if the contract amount is expected to exceed the threshold for submission of cost or pricing data at 15.403-4(a)(1).

(2) In exceptional cases, the head of the contracting activity may waive the requirement for inclusion of the clause in a contract with a foreign government or agency of that government. The authorizations for the waiver and the reasons for granting it shall be in writing.

(d) When contracting by sealed bidding the contracting officer shall insert the clause at 52.214-29, Order of Precedence—Sealed Bidding, in solicitations and contracts to which the uniform contract format applies.

14.201-8 Price related factors.

The factors set forth in paragraphs (a) through (e) of this subsection may be applicable in evaluation of bids for award and shall be included in the solicitation when applicable. (See 14.201-5(c).)

(a) Foreseeable costs or delays to the Government resulting from such factors as differences in inspection, locations of supplies, and transportation. If bids are on an f.o.b. origin basis (see 47.303 and 47.305), transportation costs to the designated points shall be considered in determining the lowest cost to the Government.

(b) Changes made, or requested by the bidder, in any of the provisions of the invitation for bids, if the change does not constitute a ground for rejection under 14.404.

(c) Advantages or disadvantages to the Government that might result from making more than one award (see 14.201-6(q)). The contracting officer shall assume, for the purpose of making multiple awards, that \$500 would be the administrative cost to the Government for issuing and administering each contract awarded under a solicitation. Individual awards shall be for the items or combinations of items that result in the lowest aggregate cost to the Government, including the assumed administrative costs.

(d) Federal, state, and local taxes (see Part 29).

(e) Origin of supplies, and, if foreign, the application of the Buy American Act or any other prohibition on foreign purchases (see Part 25).

14.201-9 Simplified contract format.

Policy. For firm-fixed-price or fixed-price with economic price adjustment acquisitions of supplies and services, the contracting officer may use the simplified contract format in lieu of the uniform contract format (see 14.201-1). The contracting officer has flexibility in preparation and organization of the simplified contract format. However, the following format should be used to the maximum practical extent:

(a) *Solicitation/contract form.* Standard Form (SF) 1447, Solicitation/Contract, shall be used as the first page of the solicitation.

(b) *Contract schedule.* Include the following for each contract line item:

- (1) Contract line item number.
- (2) Description of supplies or services, or data sufficient to identify the requirement.
- (3) Quantity and unit of issue.
- (4) Unit price and amount.
- (5) Packaging and marking requirements.
- (6) Inspection and acceptance, quality assurance, and reliability requirements.
- (7) Place of delivery, performance and delivery dates, period of performance, and f.o.b. point.
- (8) Other item-peculiar information as necessary (e.g., individual fund citations).

(c) *Clauses.* Include the clauses required by this regulation. Additional clauses shall be incorporated only when considered absolutely necessary to the particular acquisition.

(d) *List of documents and attachments.* Include if necessary.

(e) *Representations and instructions—*(1) *Representations and certifications.* Insert those solicitation provisions that require representations, certifications, or the submission of other information by offerors.

(2) *Instructions, conditions, and notices.* Include the solicitation provisions required by 14.201-6. Include any other information/instructions necessary to guide offerors.

(3) *Evaluation factors for award.* Insert all evaluation factors and any significant subfactors for award.

(4) Upon award, the contracting officer need not physically include the provisions in paragraphs (e)(1), (2), and (3) of this subsection in the resulting contract, but shall retain them in the contract file. Award by acceptance of a bid on the award portion of SF 1447 incorporates the representations, certifications, and other statements of bidders in the resultant contract even though not physically attached.

14.202 General rules for solicitation of bids.

14.202-1 Bidding time.

(a) *Policy.* A reasonable time for prospective bidders to prepare and submit bids shall be allowed in all invitations, consistent with the needs of the Government. (For construction contracts, see 36.213-3(a).) A bidding time (i.e., the time between issuance of the solicitation and opening of bids) of at least 30 calendar days is recommended.

(b) *Factors to be considered.* Because of unduly limited bidding time, some potential sources may be precluded from bidding and others may be forced to include amounts for contingencies that, with additional time, could be eliminated. To avoid unduly restricting competition or paying higher-than-necessary prices, consideration shall be given to such factors as the following in establishing a reasonable bidding time:

- (1) Degree of urgency;
- (2) Complexity of requirement;
- (3) Anticipated extent of subcontracting;
- (4) Whether use was made of presolicitation notices;
- (5) Geographic distribution of bidders; and
- (6) Normal transmittal time for both invitations and bids.

14.202-2 Telegraphic bids.

(a) Telegraphic bids and mailgrams shall be authorized only when—

- (1) The date for the opening of bids will not allow bidders sufficient time to submit bids in the prescribed format; or
- (2) Prices are subject to frequent changes.

(b) If telegraphic bids are to be authorized, see 14.201-6(g). Unauthorized telegraphic bids shall not be considered (see 14.301(b)).

14.202-3 Bid envelopes.

(a) Postage or envelopes bearing “Postage and Fees Paid” indicia shall not be distributed with the invitation for bids or otherwise supplied to prospective bidders.

(b) To provide for ready identification and proper handling of bids, Optional Form 17, Offer Label, may be furnished with

each bid set. The form may be obtained from the General Services Administration (see 53.107).

14.202-4 Bid samples.

(a) *Policy.* (1) Bidders shall not be required to furnish bid samples unless there are characteristics of the product that cannot be described adequately in the specification or purchase description.

(2) Bid samples will be used only to determine the responsiveness of the bid and will not be used to determine a bidder's ability to produce the required items.

(3) Bid samples may be examined for any required characteristic, whether or not such characteristic is adequately described in the specification, if listed in accordance with subdivision (e)(1)(ii) of this section.

(4) Bids will be rejected as nonresponsive if the sample fails to conform to each of the characteristics listed in the invitation.

(b) *When to use.* The use of bid samples would be appropriate for products that must be suitable from the standpoint of balance, facility of use, general "feel," color, pattern, or other characteristics that cannot be described adequately in the specification. However, when more than a minor portion of the characteristics of the product cannot be adequately described in the specification, products should be acquired by two-step sealed bidding or negotiation, as appropriate.

(c) *Justification.* The reasons why acceptable products cannot be acquired without the submission of bid samples shall be set forth in the contract file, except where the submission is required by the formal specifications (Federal, Military, or other) applicable to the acquisition.

(d) *Requirements for samples in invitations for bids.*

(1) Invitations for bids shall—

(i) State the number and, if appropriate, the size of the samples to be submitted and otherwise fully describe the samples required; and

(ii) List all the characteristics for which the samples will be examined.

(2) If bid samples are required, see 14.201-6(o).

(e) *Waiver of requirement for bid samples.* (1) The requirement for furnishing bid samples may be waived when a bidder offers a product previously or currently being contracted for or tested by the Government and found to comply with specification requirements conforming in every material respect with those in the current invitation for bids. When the requirement may be waived, see 14.201-6(o)(2).

(2) Where samples required by a Federal, Military, or other formal specification are not considered necessary and a waiver of the sample requirements of the specification has been authorized, a statement shall be included in the invitation that notwithstanding the requirements of the specification, samples will not be required.

(f) *Unsolicited samples.* Bid samples furnished with a bid that are not required by the invitation generally will not be considered as qualifying the bid and will be disregarded. However, the bid sample will not be disregarded if it is clear from the bid or accompanying papers that the bidder's intention was to qualify the bid. (See 14.404-2(d) if the qualification does not conform to the solicitation.)

(g) *Handling bid samples.* (1) Samples that are not destroyed in testing shall be returned to bidders at their request and expense, unless otherwise specified in the invitation.

(2) Disposition instructions shall be requested from bidders and samples disposed of accordingly.

(3) Samples ordinarily will be returned collect to the address from which received if disposition instructions are not received within 30 days. Small items may be returned by mail, postage prepaid.

(4) Samples that are to be retained for inspection purposes in connection with deliveries shall be transmitted to the inspecting activity concerned, with instructions to retain the sample until completion of the contract or until disposition instructions are furnished.

(5) Where samples are consumed or their usefulness is impaired by tests, they will be disposed of as scrap unless the bidder requests their return.

14.202-5 Descriptive literature.

(a) *Policy.* Contracting officers must not require bidders to furnish descriptive literature unless it is needed before award to determine whether the products offered meet the specification and to establish exactly what the bidder proposes to furnish.

(b) *Justification.* The contracting officer must document in the contract file the reasons why product acceptability cannot be determined without the submission of descriptive literature, except when the contract specifications require submission.

(c) *Requirements of invitation for bids.* (1) The invitation must clearly state—

(i) What descriptive literature the bidders must furnish;

(ii) The purpose for requiring the literature;

(iii) The extent of its consideration in the evaluation of bids; and

(iv) The rules that will apply if a bidder fails to furnish the literature before bid opening or if the literature provided does not comply with the requirements of the invitation.

(2) If bidders must furnish descriptive literature, see 14.201-6(p).

(d) *Waiver of requirement for descriptive literature.* (1) The contracting officer may waive the requirement for descriptive literature if—

(i) The bidder states in the bid that the product being offered is the same as a product previously or currently being furnished to the contracting activity; and

(ii) The contracting officer determines that the product offered by the bidder complies with the specification requirements of the current invitation for bids. When the contracting officer waives the requirement, see 14.201-6(p)(2).

(2) When descriptive literature is not necessary and a waiver of literature requirements of a specification has been authorized, the contracting officer must include a statement in the invitation that, despite the requirements of the specifications, descriptive literature will not be required.

(3) If the solicitation provides for a waiver, a bidder may submit a bid on the basis of either the descriptive literature furnished with the bid or a previously furnished product. If the bid is submitted on one basis, the bidder may not have it considered on the other basis after bids are opened.

(e) *Unsolicited descriptive literature.* If descriptive literature is furnished when it is not required by the invitation for bids, the procedures set forth in 14.202-4(f) must be followed.

14.202-6 Final review of invitations for bids.

Each invitation for bids shall be thoroughly reviewed before issuance to detect and correct discrepancies or ambiguities that could limit competition or result in the receipt of nonresponsive bids. Contracting officers are responsible for the reviews.

14.202-7 Facsimile bids.

(a) Unless prohibited or otherwise restricted by agency procedures, contracting officers may authorize facsimile bids (see 14.201-6(v)). In determining whether or not to authorize facsimile bids, the contracting officer shall consider factors such as—

- (1) Anticipated bid size and volume;
- (2) Urgency of the requirement;
- (3) Frequency of price changes;
- (4) Availability, reliability, speed, and capacity of the receiving facsimile equipment; and
- (5) Adequacy of administrative procedures and controls for receiving, identifying, recording, and safeguarding facsimile bids, and ensuring their timely delivery to the bids opening location.

(b) If facsimile bids are authorized, contracting officers may, after the date set for bid opening, request the apparently successful offeror to provide the complete, original signed bid.

14.202-8 Electronic bids.

In accordance with Subpart 4.5, contracting officers may authorize use of electronic commerce for submission of bids. If electronic bids are authorized, the solicitation shall specify the electronic commerce method(s) that bidders may use.

14.203 Methods of soliciting bids.

14.203-1 Transmittal to prospective bidders.

Invitations for bids or presolicitation notices shall be transmitted as specified in 14.205, and shall be provided to others in accordance with 5.102. When a contracting office is located in the United States, any solicitation sent to a prospective bidder located at a foreign address shall be sent by electronic data interchange or international air mail if security classification permits.

14.203-2 Dissemination of information concerning invitations for bids.

(a) Procedures concerning display of invitations for bids in a public place, information releases to newspapers and trade journals, paid advertisements, and synopsis through the Governmentwide point of entry (GPE) are set forth in 5.101 and Subpart 5.2.

(b) For procedures that apply to publicizing notices through the GPE to determine whether commercial sources are available, see 5.205(e) and 7.303(b).

14.203-3 Master solicitation.

The master solicitation is provided to potential sources who are requested to retain it for continued and repetitive use. Individual solicitations must reference the date of the current master solicitation and identify any changes. The contracting officer must—

- (a) Make available copies of the master solicitation on request; and
- (b) Provide the cognizant contract administration activity a current copy of the master solicitation.

14.204 Records of invitations for bids and records of bids.

(a) Each contracting office shall retain a record of each invitation that it issues and each abstract or record of bids. Contracting officers shall review and utilize the information available in connection with subsequent acquisitions of the same or similar items.

(b) The file for each invitation shall show the distribution that was made and the date the invitation was issued. The names and addresses of prospective bidders who requested the invitation and were not included on the original solicitation list shall be added to the list and made a part of the record.

14.205 Solicitation mailing lists.

14.205-1 Establishment of lists.

(a) Solicitation mailing lists shall be established by contracting activities to assure access to adequate sources of supplies and services. This rule need not be followed; however, when (1) the requirements of the contracting office can be obtained through use of simplified acquisition procedures

(see Part 13); (2) the requirements are nonrecurring; or (3) electronic commerce methods are used that transmit solicitations or notices of procurement opportunities automatically to all interested sources. Lists may be established as a central list for use by all contracting offices within the contracting activity, or as local lists maintained by each contracting office.

(b) All eligible and qualified concerns that have submitted solicitation mailing list applications, or that the contracting office considers capable of filling the requirements of a particular acquisition, shall be placed on the appropriate solicitation mailing list. (See also 5.403(b).) Planned producers under the Industrial Preparedness Planning Program shall be included on lists for their planned items. Prospective bidders shall be notified that they have been added to solicitation mailing lists in accordance with agency procedures. The issuance of a solicitation within a reasonable time may be considered appropriate notification. Applicants shall be notified if they do not meet the criteria for placement on the list.

(c) The names of prospective bidders who are furnished invitations in response to their requests shall be added to the list of those initially mailed copies of a particular solicitation, so that they will be furnished copies of any solicitation amendments, etc. However, when it is known that the request was made by a person or an organization that is known not to be a prospective bidder, no entry shall be made on the list.

(d)(1) Standard Form 129, Solicitation Mailing List Application, shall be used for obtaining information needed to establish and maintain lists. Supplemental information, where required, may be obtained as specified in agency implementing regulations.

(2) The application shall be submitted and signed by the supplier, as distinguished from an agent of the supplier. However, suppliers are not precluded from designating, in the Standard Form 129, their agents to receive solicitations.

(3) In order to enable suppliers to indicate readily the items on which they will generally desire to submit bids, there shall be attached to Standard Form 129 forwarded to suppliers for completion, a list of items, or item groups, or an index to such listing of the items, acquired by the contracting activity maintaining the list, which are considered applicable to the supplier's type of business.

(e) Business concerns listed on solicitation mailing lists shall be identified by size in accordance with 19.102. Size status should be established before listing a business concern on a list. Disadvantaged and women-owned business concern designations shall be shown on the list whenever noted on the Standard Form 129 submitted by a particular concern.

14.205-2 Removal of names from solicitation mailing lists.

(a) The name of each concern failing to either (1) submit a bid, (2) respond to a presolicitation notice (see 14.205-4(c)), or (3) otherwise respond to an invitation for bids may be removed from the solicitation mailing list without notice to

the concern. However, the removal shall be limited to the items involved in the invitation or notice. When a concern fails to respond to two consecutive invitations or presolicitation notices, its name shall be removed from the list to the extent indicated in this paragraph. However, in individual cases, concerns failing to respond may be retained on a list if retention is in the best interest of the Government. Both actual bids and written requests for retention on the lists shall be deemed to be "responses" to invitations for bids or presolicitation notices. If this procedure results in limited solicitation mailing lists, the contracting officer should request an explanation from the concerns that did not respond.

(b) Concerns that have been debarred or suspended from Government contracts or otherwise determined to be ineligible to receive an award shall be removed from solicitation mailing lists to the extent required by the debarment, suspension, or other determination of ineligibility.

14.205-3 Reinstatement on solicitation mailing lists.

Concerns that have been removed from solicitation mailing lists may be reinstated (a) upon written request, (b) by filing a new application on Standard Form 129, or (c) by the submission of a bid. Debarred or suspended firms shall not be reinstated during the period of a debarment or suspension.

14.205-4 Excessively long solicitation mailing lists.

(a) *General.* Solicitation mailing lists should be used to promote competition commensurate with the dollar value of the proposed contract. As much of the solicitation mailing list shall be used as is compatible with efficiency and economy in securing competition. Where the number of bidders on a mailing list is excessive in relation to a specific acquisition, the list may be reduced consistent with this paragraph and paragraphs (b) and (c) of this subsection. Nonetheless, solicitations should be furnished to others upon request, in accordance with 5.102. Also, bids shall not be disregarded merely because the bidder was not formally invited to bid.

(b) *Rotation of lists.* By using different portions of a list for separate acquisitions, solicitation mailing lists may be rotated. However, considerable judgment must be exercised in determining whether the size of the acquisition justifies the rotation. The use of a presolicitation notice (see paragraph (c) of this subsection), time permitting, also should be considered. In rotating a list, the interests of small, small disadvantaged, and women-owned small businesses (see 19.202-4) shall be considered. Whenever a list is rotated, bids shall be solicited from (1) the previously successful bidder, (2) prospective suppliers who have been added to the solicitation mailing list since the last solicitation, and (3) concerns on the segment of the list selected for use in a particular acquisition. However, the rule does not apply when such action would be precluded by use of a total set-aside (see Part 19).

(c) *Presolicitation notices.* In lieu of initially forwarding complete bid sets, the contracting officer may send presolicitation notices to concerns on the solicitation mailing list. The notice shall (1) specify the final date for receipt of requests for a complete bid set, (2) briefly describe the requirement and furnish other essential information to enable concerns to determine whether they have an interest in the invitation, and (3) notify concerns that, if no bid is to be submitted, they should advise the issuing office in writing if future invitations are desired for the type of supplies or services involved. Drawings, plans, and specifications normally will not be furnished with the presolicitation notice. The return date of the notice must be sufficiently in advance of the mailing date of the invitation for bids to permit an accurate estimate of the number of bid sets required. Bid sets shall be sent to concerns that request them in response to the notice. This procedure is particularly suitable when invitations for bids and solicitation mailing lists are lengthy.

14.205-5 Release of solicitation mailing lists.

(a) Contracting activities shall make the central and local solicitation mailing lists established under this part available to the public in response to written requests made in accordance with agency regulations implementing Subpart 24.2.

(b) When invitations for bids for construction contracts have been issued, trade journals, prospective subcontractors, material suppliers, bidders, and others having a bona fide interest will be supplied upon request with a list of all prospective bidders furnished copies of the plans and specifications. Contracting offices may require written requests and establish appropriate procedures.

14.206 [Reserved]

14.207 Pre-bid conference.

A pre-bid conference may be used, generally in a complex acquisition, as a means of briefing prospective bidders and explaining complicated specifications and requirements to them as early as possible after the invitation has been issued and before the bids are opened. It shall never be used as a substitute for amending a defective or ambiguous invitation. The conference shall be conducted in accordance with the procedure prescribed in 15.201.

14.208 Amendment of invitation for bids.

(a) If it becomes necessary to make changes in quantity, specifications, delivery schedules, opening dates, etc., or to correct a defective or ambiguous invitation, such changes shall be accomplished by amendment of the invitation for bids using Standard Form 30, Amendment of Solicitation/ Modification of Contract. The fact that a change was mentioned at a pre-bid conference does not relieve the necessity for issuing an amendment. Amendments shall be sent, before the time for

bid opening, to everyone to whom invitations have been furnished and shall be displayed in the bid room.

(b) Before amending an invitation for bids, the period of time remaining until bid opening and the need to extend this period shall be considered. When only a short time remains before the time set for bid opening, consideration should be given to notifying bidders of an extension of time by telegrams or telephone. Such extension must be confirmed in the amendment.

(c) Any information given to a prospective bidder concerning an invitation for bids shall be furnished promptly to all other prospective bidders as an amendment to the invitation (1) if such information is necessary for bidders to submit bids or (2) if the lack of such information would be prejudicial to uninformed bidders. The information shall be furnished even though a pre-bid conference is held. No award shall be made on the invitation unless such amendment has been issued in sufficient time to permit all prospective bidders to consider such information in submitting or modifying their bids.

14.209 Cancellation of invitations before opening.

(a) The cancellation of an invitation for bids usually involves a loss of time, effort, and money spent by the Government and bidders. Invitations should not be cancelled unless cancellation is clearly in the public interest; *e.g.*,

(1) Where there is no longer a requirement for the supplies or services; or

(2) Where amendments to the invitation would be of such magnitude that a new invitation is desirable.

(b) When an invitation issued other than electronically is cancelled, bids that have been received shall be returned unopened to the bidders and notice of cancellation shall be sent to all prospective bidders to whom invitations were issued. When an invitation issued electronically is cancelled, a general notice of cancellation shall be posted electronically, the bids received shall not be viewed, and the bids shall be purged from primary and backup data storage systems.

(c) The notice of cancellation shall—(1) identify the invitation for bids by number and short title or subject matter, (2) briefly explain the reason the invitation is being cancelled, and (3) where appropriate, assure prospective bidders that they will be given an opportunity to bid on any resolicitation of bids or any future requirements for the type of supplies or services involved. Cancellations shall be recorded in accordance with 14.403(d).

14.210 Qualified products.

(See Subpart 9.2.)

14.211 Release of acquisition information.

(a) *Before solicitation.* Information concerning proposed acquisitions shall not be released outside the Government before solicitation except for presolicitation notices in accor-

dance with 14.205-4(c) or 36.213-2, or long-range acquisition estimates in accordance with 5.404, or synopses in accordance with 5.201. Within the Government, such information shall be restricted to those having a legitimate interest. Releases of information shall be made (1) to all prospective bidders, and (2) as nearly as possible at the same time, so that one prospective bidder shall not be given unfair advantage over another. See 3.104 regarding requirements for proprietary and source selection information including access to and disclosure thereof.

(b) *After solicitation.* Discussions with prospective bidders regarding a solicitation shall be conducted and technical or other information shall be transmitted only by the contracting officer or superiors having contractual authority or by others specifically authorized. Such personnel shall not furnish any information to a prospective bidder that alone or together with other information may afford an advantage over others. However, general information that would not be prejudicial to other prospective bidders may be furnished upon request; *e.g.*, explanation of a particular contract clause or a particular condition of the schedule in the invitation for bids, and more specific information or clarifications may be furnished by amending the solicitation (see 14.208).

14.212 Economic purchase quantities (supplies).

Contracting officers shall comply with the economic purchase quantity planning requirements for supplies in Subpart 7.2. See 7.203 for instructions regarding use of the

provision at 52.207-4, Economic Purchase Quantity—Supplies, and 7.204 for guidance on handling responses to that provision.

14.213 Annual submission of representations and certifications.

(a) Submission of offeror representations and certifications on an annual basis, as an alternative to submission in each solicitation, may be authorized by agencies subject to the requirements of this section. The decision to use annual representations and certifications shall be made in accordance with agency procedures.

(b) In accordance with agency procedures, each contracting office utilizing annual representations and certifications shall establish procedures and assign responsibilities for centrally requesting, receiving, storing, verifying and updating offeror's annual submissions. Generally, the representations and certifications shall be effective for a period of 1 year from date of signature.

(c) The contracting officer shall not include in individual solicitations the full text of provisions that are contained in the annual representations and certifications.

(d) Offerors shall make changes that affect only one solicitation by completing the appropriate section of the provision at 52.214-30, Annual Representations and Certifications—Sealed Bidding.

Subpart 14.3—Submission of Bids

14.301 Responsiveness of bids.

(a) To be considered for award, a bid must comply in all material respects with the invitation for bids. Such compliance enables bidders to stand on an equal footing and maintain the integrity of the sealed bidding system.

(b) Telegraphic bids shall not be considered unless permitted by the invitation. The term “telegraphic bids” means bids submitted by telegram or by mailgram.

(c) Facsimile bids shall not be considered unless permitted by the solicitation (see 14.202-7).

(d) Bids should be filled out, executed, and submitted in accordance with the instructions in the invitation. If a bidder uses its own bid form or a letter to submit a bid, the bid may be considered only if—

(1) The bidder accepts all the terms and conditions of the invitation; and

(2) Award on the bid would result in a binding contract with terms and conditions that do not vary from the terms and conditions of the invitation.

(e) Bids submitted by electronic commerce shall be considered only if the electronic commerce method was specifically stipulated or permitted by the solicitation.

14.302 Bid submission.

(a) Bids shall be submitted so that they will be received in the office designated in the invitation for bids (referred to in paragraphs (b) and (c) of this section as the “designated office”) not later than the exact time set for opening of bids.

(b) Except as specified in paragraph (c) of this section, if telegraphic bids are authorized, a telegraphic bid that is communicated by means of a telephone call to the designated office shall be considered if—

(1) Agency regulations authorize such consideration;

(2) The telephone call is made by the telegraph office that received the telegraphic bid;

(3) The telephone call is received by the designated office not later than the time set for the bid opening;

(4) The telegraph office that received the telegraphic bid sends the designated office the telegram that formed the basis for the telephone call;

(5) The telegram indicates on its face that it was received in the telegraph office before the telephone call was received by the designated office; and

(6) The bid in the telegram is identical in all essential respects to the bid received in the telephone call from the telegraph office.

(c) If the conditions in paragraph (b) of this section apply and the bid received by telephone is the apparent low bid, award may not be made until the telegram is received by the designated office; however, if the telegram is not received by

the designated office within 5 days after the bid opening date, the bid shall be rejected.

14.303 Modification or withdrawal of bids.

(a) Bids may be modified or withdrawn by any method authorized by the solicitation, if notice is received in the office designated in the solicitation not later than the exact time set for opening of bids. Unless proscribed by agency regulations, a telegraphic modification or withdrawal of a bid received in such office by telephone from the receiving telegraph office shall be considered. However, the message shall be confirmed by the telegraph company by sending a copy of the written telegram that formed the basis for the telephone call. If the solicitation authorizes facsimile bids, bids may be modified or withdrawn via facsimile received at any time before the exact time set for receipt of bids, subject to the conditions specified in the provision prescribed in 14.201-6(v). Modifications received by telegram (including a record of those telephoned by the telegraph company) or facsimile shall be sealed in an envelope by a proper official. The official shall write on the envelope (1) the date and time of receipt and by whom, and (2) the number of the invitation for bids, and shall sign the envelope. No information contained in the envelope shall be disclosed before the time set for bid opening.

(b) A bid may be withdrawn in person by a bidder or its authorized representative if, before the exact time set for opening of bids, the identity of the persons requesting withdrawal is established and that person signs a receipt for the bid.

(c) Upon withdrawal of an electronically transmitted bid, the data received shall not be viewed and shall be purged from primary and backup data storage systems.

14.304 Submission, modification, and withdrawal of bids.

(a) Bidders are responsible for submitting bids, and any modifications or withdrawals, so as to reach the Government office designated in the invitation for bid (IFB) by the time specified in the IFB. They may use any transmission method authorized by the IFB (*i.e.*, regular mail, electronic commerce, or facsimile). If no time is specified in the IFB, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that bids are due.

(b)(1) Any bid, modification, or withdrawal of a bid received at the Government office designated in the IFB after the exact time specified for receipt of bids is “late” and will not be considered unless it is received before award is made, the contracting officer determines that accepting the late bid would not unduly delay the acquisition; and—

(i) If it was transmitted through an electronic commerce method authorized by the IFB, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of bids; or

(ii) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of bids and was under the Government's control prior to the time set for receipt of bids.

(2) However, a late modification of an otherwise successful bid, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(c) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the bid wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(d) If an emergency or unanticipated event interrupts normal Government processes so that bids cannot be received at the Government office designated for receipt of bids by the exact time specified in the IFB, and urgent Government requirements preclude amendment of the bid opening date, the time specified for receipt of bids will be deemed to be extended to the same time of day specified in the IFB on the first work day on which normal Government processes resume.

(e) Bids may be withdrawn by written notice received at any time before the exact time set for receipt of bids. If the IFB authorizes facsimile bids, bids may be withdrawn via facsimile received at any time before the exact time set for

receipt of bids, subject to the conditions specified in the provision at 52.214-31, Facsimile Bids. A bid may be withdrawn in person by a bidder or its authorized representative if, before the exact time set for receipt of bids, the identity of the person requesting withdrawal is established and the person signs a receipt for the bid. Upon withdrawal of an electronically transmitted bid, the data received must not be viewed and, where practicable, must be purged from primary and backup data storage systems.

(f) The contracting officer must promptly notify any bidder if its bid, modification, or withdrawal was received late, and must inform the bidder whether its bid will be considered, unless contract award is imminent and the notices prescribed in 14.409 would suffice.

(g) Late bids and modifications that are not considered must be held unopened, unless opened for identification, until after award and then retained with other unsuccessful bids. However, any bid bond or guarantee must be returned.

(h) If available, the following must be included in the contract files for each late bid, modification, or withdrawal:

(1) The date and hour of receipt.

(2) A statement, with supporting rationale, regarding whether the bid was considered for award.

(3) The envelope, wrapper, or other evidence of the date of receipt.

Subpart 14.4—Opening of Bids and Award of Contract

14.400 Scope of subpart.

This subpart contains procedures for the receipt, handling, opening, and disposition of bids including mistakes in bids, and subsequent award of contracts.

14.401 Receipt and safeguarding of bids.

(a) All bids (including modifications) received before the time set for the opening of bids shall be kept secure. Except as provided in paragraph (b) of this section, the bids shall not be opened or viewed, and shall remain in a locked bid box, a safe, or in a secured, restricted-access electronic bid box. If an invitation for bids is cancelled, bids shall be returned to the bidders. Necessary precautions shall be taken to ensure the security of the bid box or safe. Before bid opening, information concerning the identity and number of bids received shall be made available only to Government employees. Such disclosure shall be only on a “need to know” basis. When bid samples are submitted, they shall be handled with sufficient care to prevent disclosure of characteristics before bid opening.

(b) Envelopes marked as bids but not identifying the bidder or the solicitation may be opened solely for the purpose of identification, and then only by an official designated for this purpose. If a sealed bid is opened by mistake (*e.g.*, because it is not marked as being a bid), the envelope shall be signed by the opener, whose position shall also be written thereon, and delivered to the designated official. This official shall immediately write on the envelope (1) an explanation of the opening, (2) the date and time opened, and (3) the invitation for bids number, and shall sign the envelope. The official shall then immediately reseal the envelope.

14.402 Opening of bids.

14.402-1 Unclassified bids.

(a) The bid opening officer shall decide when the time set for opening bids has arrived and shall inform those present of that decision. The officer shall then (1) personally and publicly open all bids received before that time, (2) if practical, read the bids aloud to the persons present, and (3) have the bids recorded. The original of each bid shall be carefully safeguarded, particularly until the abstract of bids required by 14.403 has been made and its accuracy verified.

(b) Performance of the procedure in paragraph (a) of this section may be delegated to an assistant, but the bid opening officer remains fully responsible for the actions of the assistant.

(c) Examination of bids by interested persons shall be permitted if it does not interfere unduly with the conduct of Government business. Original bids shall not be allowed to pass

out of the hands of a Government official unless a duplicate bid is not available for public inspection. The original bid may be examined by the public only under the immediate supervision of a Government official and under conditions that preclude possibility of a substitution, addition, deletion, or alteration in the bid.

14.402-2 Classified bids.

The general public may not attend bid openings for classified acquisitions. A bidder or its representative may attend and record the results if the individual has the appropriate security clearance. The contracting officer also may make the bids available at a later time to properly cleared individuals who represent bidders. No public record shall be made of bids or bid prices received in response to classified invitations for bids.

14.402-3 Postponement of openings.

(a) A bid opening may be postponed even after the time scheduled for bid opening (but otherwise in accordance with 14.208) when—

(1) The contracting officer has reason to believe that the bids of an important segment of bidders have been delayed in the mails, or in the communications system specified for transmission of bids, for causes beyond their control and without their fault or negligence (*e.g.*, flood, fire, accident, weather conditions, strikes, or Government equipment black-out or malfunction when bids are due); or

(2) Emergency or unanticipated events interrupt normal governmental processes so that the conduct of bid opening as scheduled is impractical.

(b) At the time of a determination to postpone a bid opening under paragraph (a)(1) of this section, an announcement of the determination shall be publicly posted. If practical before issuance of a formal amendment of the invitation, the determination shall be otherwise communicated to prospective bidders who are likely to attend the scheduled bid opening.

(c) In the case of paragraph (a)(2) of this section, and when urgent Government requirements preclude amendment of the solicitation as prescribed in 14.208, the time specified for opening of bids will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume. In such cases, the time of actual bid opening shall be deemed to be the time set for bid opening for the purpose of determining “late bids” under 14.304. A note should be made on the abstract of bids or otherwise added to the file explaining the circumstances of the postponement.

14.403 Recording of bids.

(a) Standard Form 1409, Abstract of Offers, or Optional Form 1419, Abstract of Offers—Construction (or automated

equivalent), shall be completed and certified as to its accuracy by the bid opening officer as soon after bid opening as practicable. Where bid items are too numerous to warrant complete recording of all bids, abstract entries for individual bids may be limited to item numbers and bid prices. In preparing these forms, the extra columns and SF 1410, Abstract of Offers—Continuation, and OF 1419A, Abstract of Offer—Construction, Continuation Sheet, may be used to label and record such information as the contracting activity deems necessary.

(b) Abstracts of offers for unclassified acquisitions shall be available for public inspection. Such abstracts shall not contain information regarding failure to meet minimum standards of responsibility, apparent collusion of bidders, or other notations properly exempt from disclosure to the public in accordance with agency regulations implementing Subpart 24.2.

(c) The forms identified in paragraph (a) of this section need not be used by the Defense Fuel Supply Center for acquisitions of coal or petroleum products or by the Defense Personnel Support Center for perishable subsistence items.

(d) If an invitation for bids is cancelled before the time set for bid opening, this fact shall be recorded together with a statement of the number of bids invited and the number of bids received.

14.404 Rejection of bids.

14.404-1 Cancellation of invitations after opening.

(a)(1) Preservation of the integrity of the competitive bid system dictates that, after bids have been opened, award must be made to that responsible bidder who submitted the lowest responsive bid, unless there is a compelling reason to reject all bids and cancel the invitation.

(2) Every effort shall be made to anticipate changes in a requirement before the date of opening and to notify all prospective bidders of any resulting modification or cancellation. This will permit bidders to change their bids and prevent unnecessary exposure of bid prices.

(3) As a general rule, after the opening of bids, an invitation should not be cancelled and resolicited due solely to increased requirements for the items being acquired. Award should be made on the initial invitation for bids and the additional quantity should be treated as a new acquisition.

(b) When it is determined before award but after opening that the requirements of 11.201 (relating to the availability and identification of specifications) have not been met, the invitation shall be cancelled.

(c) Invitations may be cancelled and all bids rejected before award but after opening when, consistent with subparagraph (a)(1) of this section, the agency head determines in writing that—

(1) Inadequate or ambiguous specifications were cited in the invitation;

(2) Specifications have been revised;

(3) The supplies or services being contracted for are no longer required;

(4) The invitation did not provide for consideration of all factors of cost to the Government, such as cost of transporting Government-furnished property to bidders' plants;

(5) Bids received indicate that the needs of the Government can be satisfied by a less expensive article differing from that for which the bids were invited;

(6) All otherwise acceptable bids received are at unreasonable prices, or only one bid is received and the contracting officer cannot determine the reasonableness of the bid price;

(7) The bids were not independently arrived at in open competition, were collusive, or were submitted in bad faith (see Subpart 3.3 for reports to be made to the Department of Justice);

(8) No responsive bid has been received from a responsible bidder;

(9) A cost comparison shows that performance by the Government is more economical; or

(10) For other reasons, cancellation is clearly in the public's interest.

(d) Should administrative difficulties be encountered after bid opening that may delay award beyond bidders' acceptance periods, the several lowest bidders whose bids have not expired (irrespective of the acceptance period specified in the bid) should be requested, before expiration of their bids, to extend in writing the bid acceptance period (with consent of sureties, if any) in order to avoid the need for resoliciting.

(e) Under some circumstances, completion of the acquisition after cancellation of the invitation for bids may be appropriate.

(1) If the invitation for bids has been cancelled for the reasons specified in subparagraphs (c)(6), (7), or (8) of this subsection, and the agency head has authorized, in the determination in paragraph (c) of this subsection, the completion of the acquisition through negotiation, the contracting officer shall proceed in accordance with paragraph (f) of this subsection.

(2) If the invitation for bids has been cancelled for the reasons specified in subparagraphs (c)(1), (2), (4), (5), or (10) of this subsection, or for the reasons in subparagraphs (c)(6), (7), or (8) of this subsection and completion through negotiation is not authorized under subparagraph (e)(1) of this subsection, the contracting officer shall proceed with a new acquisition.

(f) When the agency head has determined, in accordance with paragraph (e)(1) of this subsection, that an invitation for bids should be canceled and that use of negotiation is in the Government's interest, the contracting officer may negotiate (in accordance with Part 15, as appropriate) and make award without issuing a new solicitation provided—

(1) Each responsible bidder in the sealed bid acquisition has been given notice that negotiations will be conducted and has been given an opportunity to participate in negotiations; and

(2) The award is made to the responsible bidder offering the lowest negotiated price.

14.404-2 Rejection of individual bids.

(a) Any bid that fails to conform to the essential requirements of the invitation for bids shall be rejected.

(b) Any bid that does not conform to the applicable specifications shall be rejected unless the invitation authorized the submission of alternate bids and the supplies offered as alternates meet the requirements specified in the invitation.

(c) Any bid that fails to conform to the delivery schedule or permissible alternates stated in the invitation shall be rejected.

(d) A bid shall be rejected when the bidder imposes conditions that would modify requirements of the invitation or limit the bidder's liability to the Government, since to allow the bidder to impose such conditions would be prejudicial to other bidders. For example, bids shall be rejected in which the bidder—

(1) Protects against future changes in conditions, such as increased costs, if total possible costs to the Government cannot be determined;

(2) Fails to state a price and indicates that price shall be "price in effect at time of delivery;"

(3) States a price but qualifies it as being subject to "price in effect at time of delivery;"

(4) When not authorized by the invitation, conditions or qualifies a bid by stipulating that it is to be considered only if, before date of award, the bidder receives (or does not receive) award under a separate solicitation;

(5) Requires that the Government is to determine that the bidder's product meets applicable Government specifications; or

(6) Limits rights of the Government under any contract clause.

(e) A low bidder may be requested to delete objectionable conditions from a bid provided the conditions do not go to the substance, as distinguished from the form, of the bid, or work an injustice on other bidders. A condition goes to the substance of a bid where it affects price, quantity, quality, or delivery of the items offered.

(f) Any bid may be rejected if the contracting officer determines in writing that it is unreasonable as to price. Unreasonableness of price includes not only the total price of the bid, but the prices for individual line items as well.

(g) Any bid may be rejected if the prices for any line items or subline items are materially unbalanced (see 15.404-1(g)).

(h) Bids received from any person or concern that is suspended, debarred, proposed for debarment or declared ineligible as of the bid opening date shall be rejected unless a compelling reason determination is made (see Subpart 9.4).

(i) Low bids received from concerns determined to be not responsible pursuant to subpart 9.1 shall be rejected (but if a bidder is a small business concern, see 19.6 with respect to certificates of competency).

(j) When a bid guarantee is required and a bidder fails to furnish the guarantee in accordance with the requirements of the invitation for bids, the bid shall be rejected, except as otherwise provided in 28.101-4.

(k) The originals of all rejected bids, and any written findings with respect to such rejections, shall be preserved with the papers relating to the acquisition.

(l) After submitting a bid, if all of a bidder's assets or that part related to the bid are transferred during the period between the bid opening and the award, the transferee may not be able to take over the bid. Accordingly, the contracting officer shall reject the bid unless the transfer is effected by merger, operation of law, or other means not barred by 41 U.S.C. 15 or 31 U.S.C. 3727.

14.404-3 Notice to bidders of rejection of all bids.

When it is determined necessary to reject all bids, the contracting officer shall notify each bidder that all bids have been rejected and shall state the reason for such action.

14.404-4 Restrictions on disclosure of descriptive literature.

When a bid is accompanied by descriptive literature (as defined in 2.101), and the bidder imposes a restriction that prevents the public disclosure of such literature, the restriction may render the bid nonresponsive. The restriction renders the bid nonresponsive if it prohibits the disclosure of sufficient information to permit competing bidders to know the essential nature and type of the products offered or those elements of the bid that relate to quantity, price, and delivery terms. The provisions of this paragraph do not apply to unsolicited descriptive literature submitted by a bidder if such literature does not qualify the bid (see 14.202-5(e)).

14.404-5 All or none qualifications.

Unless the solicitation provides otherwise, a bid may be responsive notwithstanding that the bidder specifies that award will be accepted only on all, or a specified group, of the items. Bidders shall not be permitted to withdraw or modify "all or none" qualifications after bid opening since such qualifications are substantive and affect the rights of other bidders.

14.405 Minor informalities or irregularities in bids.

A minor informality or irregularity is one that is merely a matter of form and not of substance. It also pertains to some immaterial defect in a bid or variation of a bid from the exact requirements of the invitation that can be corrected or waived without being prejudicial to other bidders. The defect or variation is immaterial when the effect on price, quantity, quality, or delivery is negligible when contrasted with the total cost or scope of the supplies or services being acquired. The contracting officer either shall give the bidder an opportunity to cure any deficiency resulting from a minor informality or irregularity in a bid or waive the deficiency, whichever is to the advantage of the Government. Examples of minor informalities or irregularities include failure of a bidder to—

(a) Return the number of copies of signed bids required by the invitation;

(b) Furnish required information concerning the number of its employees;

(c) Sign its bid, but only if—

(1) The unsigned bid is accompanied by other material indicating the bidder's intention to be bound by the unsigned bid (such as the submission of a bid guarantee or a letter signed by the bidder, with the bid, referring to and clearly identifying the bid itself); or

(2) The firm submitting a bid has formally adopted or authorized, before the date set for opening of bids, the execution of documents by typewritten, printed, or stamped signature and submits evidence of such authorization and the bid carries such a signature;

(d) Acknowledge receipt of an amendment to an invitation for bids, but only if—

(1) The bid received clearly indicates that the bidder received the amendment, such as where the amendment added another item to the invitation and the bidder submitted a bid on the item; or

(2) The amendment involves only a matter of form or has either no effect or merely a negligible effect on price, quantity, quality, or delivery of the item bid upon; and

(e) Execute the representations with respect to Equal Opportunity and Affirmative Action Programs, as set forth in the clauses at 52.222-22, Previous Contracts and Compliance Reports, and 52.222-25, Affirmative Action Compliance.

14.406 Receipt of an unreadable electronic bid.

If a bid received at the Government facility by electronic data interchange is unreadable to the degree that conformance to the essential requirements of the invitation for bids cannot be ascertained, the contracting officer immediately shall notify the bidder that the bid will be rejected unless the bidder provides clear and convincing evidence—

(a) Of the content of the bid as originally submitted; and

(b) That the unreadable condition of the bid was caused by Government software or hardware error, malfunction, or other Government mishandling.

14.407 Mistakes in bids.**14.407-1 General.**

After the opening of bids, contracting officers shall examine all bids for mistakes. In cases of apparent mistakes and in cases where the contracting officer has reason to believe that a mistake may have been made, the contracting officer shall request from the bidder a verification of the bid, calling attention to the suspected mistake. If the bidder alleges a mistake, the matter shall be processed in accordance with this section 14.407. Such actions shall be taken before award.

14.407-2 Apparent clerical mistakes.

(a) Any clerical mistake, apparent on its face in the bid, may be corrected by the contracting officer before award. The contracting officer first shall obtain from the bidder a verification of the bid intended. Examples of apparent mistakes are—

(1) Obvious misplacement of a decimal point;

(2) Obviously incorrect discounts (for example, 1 percent 10 days, 2 percent 20 days, 5 percent 30 days);

(3) Obvious reversal of the price f.o.b. destination and price f.o.b. origin; and

(4) Obvious mistake in designation of unit.

(b) Correction of the bid shall be effected by attaching the verification to the original bid and a copy of the verification to the duplicate bid. Correction shall not be made on the face of the bid; however, it shall be reflected in the award document.

(c) Correction of bids submitted by electronic data interchange shall be effected by including in the electronic solicitation file the original bid, the verification request, and the bid verification.

14.407-3 Other mistakes disclosed before award.

In order to minimize delays in contract awards, administrative determinations may be made as described in this 14.407-3 in connection with mistakes in bids alleged after opening of bids and before award. The authority to permit correction of bids is limited to bids that, as submitted, are responsive to the invitation and may not be used to permit correction of bids to make them responsive. This authority is in addition to that in 14.407-2 or that may be otherwise available.

(a) If a bidder requests permission to correct a mistake and clear and convincing evidence establishes both the existence of the mistake and the bid actually intended, the agency head may make a determination permitting the bidder to correct the

mistake; provided, that if this correction would result in displacing one or more lower bids, such a determination shall not be made unless the existence of the mistake and the bid actually intended are ascertainable substantially from the invitation and the bid itself.

(b) If—

(1) A bidder requests permission to withdraw a bid rather than correct it;

(2) The evidence is clear and convincing both as to the existence of a mistake and as to the bid actually intended; and

(3) The bid, both as uncorrected and as corrected, is the lowest received, the agency head may make a determination to correct the bid and not permit its withdrawal.

(c) If, under paragraph (a) or (b) of this subsection, (1) the evidence of a mistake is clear and convincing only as to the mistake but not as to the intended bid, or (2) the evidence reasonably supports the existence of a mistake but is not clear and convincing, an official above the contracting officer, unless otherwise provided by agency procedures, may make a determination permitting the bidder to withdraw the bid.

(d) If the evidence does not warrant a determination under paragraph (a), (b), or (c) of this section, the agency head may make a determination that the bid be neither withdrawn nor corrected.

(e) Heads of agencies may delegate their authority to make the determinations under paragraphs (a), (b), (c), and (d) of this 14.407-3 to a central authority, or a limited number of authorities as necessary, in their agencies, without power of redelegation.

(f) Each proposed determination shall have the concurrence of legal counsel within the agency concerned before issuance.

(g) Suspected or alleged mistakes in bids shall be processed as follows. A mere statement by the administrative officials that they are satisfied that an error was made is insufficient.

(1) The contracting officer shall immediately request the bidder to verify the bid. Action taken to verify bids must be sufficient to reasonably assure the contracting officer that the bid as confirmed is without error, or to elicit the allegation of a mistake by the bidder. To assure that the bidder will be put on notice of a mistake suspected by the contracting officer, the bidder should be advised as appropriate—

(i) That its bid is so much lower than the other bids or the Government's estimate as to indicate a possibility of error;

(ii) Of important or unusual characteristics of the specifications;

(iii) Of changes in requirements from previous purchases of a similar item; or

(iv) Of any other information, proper for disclosure, that leads the contracting officer to believe that there is a mistake in bid.

(2) If the bid is verified, the contracting officer shall consider the bid as originally submitted. If the time for acceptance of bids is likely to expire before a decision can be made, the contracting officer shall request all bidders whose bids may become eligible for award to extend the time for acceptance of their bids in accordance with 14.404-1(d). If the bidder whose bid is believed erroneous does not (or cannot) grant an extension of time, the bid shall be considered as originally submitted (but see paragraph (g)(5) of this section). If the bidder alleges a mistake, the contracting officer shall advise the bidder to make a written request to withdraw or modify the bid. The request must be supported by statements (sworn statements, if possible) and shall include all pertinent evidence such as the bidder's file copy of the bid, the original worksheets and other data used in preparing the bid, subcontractors' quotations, if any, published price lists, and any other evidence that establishes the existence of the error, the manner in which it occurred, and the bid actually intended.

(3) When the bidder furnishes evidence supporting an alleged mistake, the contracting officer shall refer the case to the appropriate authority (see paragraph (e) of this section) together with the following data:

(i) A signed copy of the bid involved.

(ii) A copy of the invitation for bids and any specifications or drawings relevant to the alleged mistake.

(iii) An abstract or record of the bids received.

(iv) The written request by the bidder to withdraw or modify the bid, together with the bidder's written statement and supporting evidence.

(v) A written statement by the contracting officer setting forth—

(A) A description of the supplies or services involved;

(B) The expiration date of the bid in question and of the other bids submitted;

(C) Specific information as to how and when the mistake was alleged;

(D) A summary of the evidence submitted by the bidder;

(E) In the event only one bid was received, a quotation of the most recent contract price for the supplies or services involved or, in the absence of a recent comparable contract, the contracting officer's estimate of a fair price for the supplies or services;

(F) Any additional pertinent evidence; and

(G) A recommendation that either the bid be considered for award in the form submitted, or the bidder be authorized to withdraw or modify the bid.

(4) When time is of the essence because of the expiration of bids or otherwise, the contracting officer may refer the case by telegraph or telephone to the appropriate authority. Ordinarily, the contracting officer will not refer mistake in bid cases by telegraph or telephone to the appropriate authority

when the determination set forth in paragraphs (a) or (b) of this section is applicable, since actual examination is generally necessary to determine whether the evidence presented is clear and convincing.

(5) Where the bidder fails or refuses to furnish evidence in support of a suspected or alleged mistake, the contracting officer shall consider the bid as submitted unless (i) the amount of the bid is so far out of line with the amounts of other bids received, or with the amount estimated by the agency or determined by the contracting officer to be reasonable, or (ii) there are other indications of error so clear, as to reasonably justify the conclusion that acceptance of the bid would be unfair to the bidder or to other bona fide bidders. Attempts made to obtain the information required and the action taken with respect to the bid shall be fully documented.

(h) Each agency shall maintain records of all determinations made in accordance with this subsection 14.407-3, the facts involved, and the action taken in each case. Copies of all such determinations shall be included in the file.

(i) Nothing contained in this subsection 14.407-3 prevents an agency from submitting doubtful cases to the Comptroller General for advance decision.

14.407-4 Mistakes after award.

If a contractor's discovery and request for correction of a mistake in bid is not made until after the award, it shall be processed under the procedures of Subpart 33.2 and the following:

(a) When a mistake in a contractor's bid is not discovered until after award, the mistake may be corrected by contract modification if correcting the mistake would be favorable to the Government without changing the essential requirements of the specifications.

(b) In addition to the cases contemplated in paragraph (a) of this section or as otherwise authorized by law, agencies are authorized to make a determination—

- (1) To rescind a contract;
- (2) To reform a contract—

(i) To delete the items involved in the mistake; or

(ii) To increase the price if the contract price, as corrected, does not exceed that of the next lowest acceptable bid under the original invitation for bids; or

(3) That no change shall be made in the contract as awarded, if the evidence does not warrant a determination under subparagraph (b)(1) or (2) of this section.

(c) Determinations under paragraph (b)(1) and (2) of this section may be made only on the basis of clear and convincing evidence that a mistake in bid was made. In addition, it must be clear that the mistake was—

(1) Mutual; or

(2) If unilaterally made by the contractor, so apparent as to have charged the contracting officer with notice of the probability of the mistake.

(d) Each proposed determination shall be coordinated with legal counsel in accordance with agency procedures.

(e) Mistakes alleged or disclosed after award shall be processed as follows:

(1) The contracting officer shall request the contractor to support the alleged mistake by submission of written statements and pertinent evidence, such as—

(i) The contractor's file copy of the bid,

(ii) The contractor's original worksheets and other data used in preparing the bid,

(iii) Subcontractors' and suppliers' quotations, if any,

(iv) Published price lists, and

(v) Any other evidence that will serve to establish the mistake, the manner in which the mistake occurred, and the bid actually intended.

(2) The case file concerning an alleged mistake shall contain the following:

(i) All evidence furnished by the contractor in support of the alleged mistake.

(ii) A signed statement by the contracting officer—

(A) Describing the supplies or services involved;

(B) Specifying how and when the mistake was alleged or disclosed;

(C) Summarizing the evidence submitted by the contractor and any additional evidence considered pertinent;

(D) Quoting, in cases where only one bid was received, the most recent contract price for the supplies or services involved, or in the absence of a recent comparable contract, the contracting officer's estimate of a fair price for the supplies or services and the basis for the estimate;

(E) Setting forth the contracting officer's opinion whether a bona fide mistake was made and whether the contracting officer was, or should have been, on constructive notice of the mistake before the award, together with the reasons for, or data in support of, such opinion;

(F) Setting forth the course of action with respect to the alleged mistake that the contracting officer considers proper on the basis of the evidence, and if other than a change in contract price is recommended, the manner by which the supplies or services will otherwise be acquired; and

(G) Disclosing the status of performance and payments under the contract, including contemplated performance and payments.

(iii) A signed copy of the bid involved.

(iv) A copy of the invitation for bids and any specifications or drawings relevant to the alleged mistake.

(v) An abstract of written record of the bids received.

(vi) A written request by the contractor to reform or rescind the contract, and copies of all other relevant correspondence between the contracting officer and the contractor concerning the alleged mistake.

(vii) A copy of the contract and any related change orders or supplemental agreements.

(f) Each agency shall include in the contract file a record of—

(1) All determinations made in accordance with this 14.407-4;

(2) The facts involved; and

(3) The action taken in each case.

14.408 Award.

14.408-1 General.

(a) The contracting officer shall make a contract award (1) by written or electronic notice, (2) within the time for acceptance specified in the bid or an extension (see 14.404-1(d)), and (3) to that responsible bidder whose bid, conforming to the invitation, will be most advantageous to the Government, considering only price and the price-related factors (see 14.201-8) included in the invitation. Award shall not be made until all required approvals have been obtained and the award otherwise conforms with 14.103-2.

(b) If less than three bids have been received, the contracting officer shall examine the situation to ascertain the reasons for the small number of responses. Award shall be made notwithstanding the limited number of bids. However, the contracting officer shall initiate, if appropriate, corrective action to increase competition in future solicitations for the same or similar items, and include a notation of such action in the records of the invitation for bids (see 14.204).

(c)(1) Award shall be made by mailing or otherwise furnishing a properly executed award document to the successful bidder.

(2) When a notice of award is issued, it shall be followed as soon as possible by the formal award.

(3) When more than one award results from any single invitation for bids, separate award documents shall be suitably numbered and executed.

(4) When an award is made to a bidder for less than all of the items that may be awarded to that bidder and additional items are being withheld for subsequent award, the award shall state that the Government may make subsequent awards on those additional items within the bid acceptance period.

(5) All provisions of the invitation for bids, including any acceptable additions or changes made by a bidder in the bid, shall be clearly and accurately set forth (either expressly or by reference) in the award document. The award is an acceptance of the bid, and the bid and the award constitute the contract.

(d)(1) Award is generally made by using the Award portion of Standard Form (SF) 33, Solicitation, Offer, and Award, or SF 1447, Solicitation/Contract (see 53.214). If an offer from

a SF 33 leads to further changes, the resulting contract shall be prepared as a bilateral document on SF 26, Award/Contract.

(2) Use of the Award portion of SF 33, SF 26, or SF 1447, does not preclude the additional use of informal documents, including telegrams or electronic transmissions, as notices of awards.

14.408-2 Responsible bidder—reasonableness of price.

(a) The contracting officer shall determine that a prospective contractor is responsible (see Subpart 9.1) and that the prices offered are reasonable before awarding the contract. The price analysis techniques in 15.404-1(b) may be used as guidelines. In each case the determination shall be made in the light of all prevailing circumstances. Particular care must be taken in cases where only a single bid is received.

(b) The price analysis shall consider whether bids are materially unbalanced (see 15.404-1(g)).

14.408-3 Prompt payment discounts.

(a) Prompt payment discounts shall not be considered in the evaluation of bids. However, any discount offered will form a part of the award, and will be taken by the payment center if payment is made within the discount period specified by the bidder. As an alternative to indicating a discount in conjunction with the offer, bidders may prefer to offer discounts on individual invoices.

(b) See 32.111(c)(1), which prescribes the contract clause at 52.232-8, Discounts for Prompt Payment.

14.408-4 Economic price adjustment.

(a) *Bidder proposes economic price adjustment.* (1) When a solicitation does not contain an economic price adjustment clause but a bidder proposes one with a ceiling that the price will not exceed, the bid shall be evaluated on the basis of the maximum possible economic price adjustment of the quoted base price.

(2) If the bid is eligible for award, the contracting officer shall request the bidder to agree to the inclusion in the award of an approved economic price adjustment clause (see 16.203) that is subject to the same ceiling. If the bidder will not agree to an approved clause, the award may be made on the basis of the bid as originally submitted.

(3) Bids that contain economic price adjustments with no ceiling shall be rejected unless a clear basis for evaluation exists.

(b) *Government proposes economic price adjustment.* (1) When an invitation contains an economic price adjustment clause and no bidder takes exception to the provisions, bids shall be evaluated on the basis of the quoted prices without the allowable economic price adjustment being added.

(2) When a bidder increases the maximum percentage of economic price adjustment stipulated in the invitation or limits the downward economic price adjustment provisions of the invitation, the bid shall be rejected as nonresponsive.

(3) When a bid indicates deletion of the economic price adjustment clause, the bid shall be rejected as nonresponsive since the downward economic price adjustment provisions are thereby limited.

(4) When a bidder decreases the maximum percentage of economic price adjustment stipulated in the invitation, the bid shall be evaluated at the base price on an equal basis with bids that do not reduce the stipulated ceiling. However, after evaluation, if the bidder offering the lower ceiling is in a position to receive the award, the award shall reflect the lower ceiling.

14.408-5 [Reserved]

14.408-6 Equal low bids.

(a) Contracts shall be awarded in the following order of priority when two or more low bids are equal in all respects:

- (1) Small business concerns that are also labor surplus area concerns.
- (2) Other small business concerns.
- (3) Other business concerns.

(b) If two or more bidders still remain equally eligible after application of paragraph (a) of this section, award shall be made by a drawing by lot limited to those bidders. If time permits, the bidders involved shall be given an opportunity to attend the drawing. The drawing shall be witnessed by at least three persons, and the contract file shall contain the names and addresses of the witnesses and the person supervising the drawing.

(c) When an award is to be made by using the priorities under this 14.408-6, the contracting officer shall include a written agreement in the contract that the contractor will perform, or cause to be performed, the contract in accordance with the circumstances justifying the priority used to break the tie or select bids for a drawing by lot.

14.408-7 Documentation of award.

(a) The contracting officer shall document compliance with 14.103-2 in the contract file.

(b) The documentation shall either state that the accepted bid was the lowest bid received, or list all lower bids with reasons for their rejection in sufficient detail to justify the award.

(c) When an award is made after receipt of equal low bids, the documentation shall describe how the tie was broken.

14.408-8 Protests against award.

(See Subpart 33.1, Protests.)

14.409 Information to bidders.

14.409-1 Award of unclassified contracts.

(a)(1) The contracting officer shall as a minimum (subject to any restrictions in Subpart 9.4)—

(i) Notify each unsuccessful bidder in writing or electronically within three days after contract award, that its bid was not accepted. “Day,” for purposes of the notification process, means calendar day, except that the period will run until a day which is not a Saturday, Sunday, or legal holiday;

(ii) Extend appreciation for the interest the unsuccessful bidder has shown in submitting a bid; and

(iii) When award is made to other than a low bidder, state the reason for rejection in the notice to each of the unsuccessful low bidders.

(b) Information included in paragraph (a)(2) of this subsection shall be provided to any unsuccessful bidder upon request except when multiple awards have been made and furnishing information on the successful bids would require so much work as to interfere with normal operations of the contracting office. In such circumstances, only information concerning location of the abstract of offers need be given.

(c) When a request is received concerning an unclassified invitation from an inquirer who is neither a bidder nor a representative of a bidder, the contracting officer should make every effort to furnish the names of successful bidders and, if requested, the prices at which awards were made. However, when such requests require so much work as to interfere with the normal operations of the contracting office, the inquirer will be advised where a copy of the abstract of offers may be seen.

(d) Requests for records shall be governed by agency regulations implementing Subpart 24.2.

14.409-2 Award of classified contracts.

In addition to 14.409-1, if classified information was furnished or created in connection with the solicitation, the contracting officer shall advise the unsuccessful bidders, including any who did not bid, to take disposition action in accordance with agency procedures. The name of the successful bidder and the contract price will be furnished to unsuccessful bidders only upon request. Information regarding a classified award shall not be furnished by telephone.

Subpart 14.5—Two-Step Sealed Bidding

14.501 General.

Two-step sealed bidding is a combination of competitive procedures designed to obtain the benefits of sealed bidding when adequate specifications are not available. An objective is to permit the development of a sufficiently descriptive and not unduly restrictive statement of the Government's requirements, including an adequate technical data package, so that subsequent acquisitions may be made by conventional sealed bidding. This method is especially useful in acquisitions requiring technical proposals, particularly those for complex items. It is conducted in two steps:

(a) Step one consists of the request for, submission, evaluation, and (if necessary) discussion of a technical proposal. No pricing is involved. The objective is to determine the acceptability of the supplies or services offered. As used in this context, the word "technical" has a broad connotation and includes, among other things, the engineering approach, special manufacturing processes, and special testing techniques. It is the proper step for clarification of questions relating to technical requirements. Conformity to the technical requirements is resolved in this step, but not responsibility as defined in 9.1.

(b) Step two involves the submission of sealed priced bids by those who submitted acceptable technical proposals in step one. Bids submitted in step two are evaluated and the awards made in accordance with Subparts 14.3 and 14.4.

14.502 Conditions for use.

(a) Unless other factors require the use of sealed bidding, two-step sealed bidding may be used in preference to negotiation when all of the following conditions are present:

(1) Available specifications or purchase descriptions are not definite or complete or may be too restrictive without technical evaluation, and any necessary discussion, of the technical aspects of the requirement to ensure mutual understanding between each source and the Government.

(2) Definite criteria exist for evaluating technical proposals.

(3) More than one technically qualified source is expected to be available.

(4) Sufficient time will be available for use of the two-step method.

(5) A firm-fixed-price contract or a fixed-price contract with economic price adjustment will be used.

(b) None of the following precludes the use of two-step sealed bidding:

(1) Multi-year contracting.

(2) Government-owned facilities or special tooling to be made available to the successful bidder

(3) A first or subsequent production quantity is being acquired under a performance specification.

14.503 Procedures.

14.503-1 Step one.

(a) Requests for technical proposals shall be distributed in accordance with 14.203-1. In addition, the request shall be synopsisized in accordance with Part 5. The request must include, as a minimum, the following:

(1) A description of the supplies or services required.

(2) A statement of intent to use the two-step method.

(3) The requirements of the technical proposal.

(4) The evaluation criteria, to include all factors and any significant subfactors.

(5) A statement that the technical proposals shall not include prices or pricing information.

(6) The date, or date and hour, by which the proposal must be received (see 14.201-6(r)).

(7) A statement that—

(i) In the second step, only bids based upon technical proposals determined to be acceptable, either initially or as a result of discussions, will be considered for awards, and

(ii) Each bid in the second step must be based on the bidder's own technical proposals.

(8) A statement that—

(i) Offerors should submit proposals that are acceptable without additional explanation or information,

(ii) The Government may make a final determination regarding a proposal's acceptability solely on the basis of the proposal as submitted; and

(iii) The Government may proceed with the second step without requesting further information from any offeror; however, the Government may request additional information from offerors of proposals that it considers reasonably susceptible of being made acceptable, and may discuss proposals with their offerors.

(9) A statement that a notice of unacceptability will be forwarded to the offeror upon completion of the proposal evaluation and final determination of unacceptability.

(10) A statement either that only one technical proposal may be submitted by each offeror or that multiple technical proposals may be submitted. When specifications permit different technical approaches, it is generally in the Government's interest to authorize multiple proposals. If multiple proposals are authorized, see 14.201-6(s).

(b) Information on delivery or performance requirements may be of assistance to bidders in determining whether or not to submit a proposal and may be included in the request. The request shall also indicate that the information is not binding on the Government and that the actual delivery or performance requirements will be contained in the invitation issued under step two.

(c) Upon receipt, the contracting officer shall—

(1) Safeguard proposals against disclosure to unauthorized persons;

(2) Accept and handle data marked in accordance with 15.609 as provided in that section; and

(3) Remove any reference to price or cost.

(d) The contracting officer shall establish a time period for evaluating technical proposals. The period may vary with the complexity and number of proposals involved. However, the evaluation should be completed quickly.

(e)(1) Evaluations shall be based on the criteria in the request for proposals but not consideration of responsibility as defined in 9.1, Proposals, shall be categorized as—

(i) Acceptable;

(ii) Reasonably susceptible of being made acceptable; or

(iii) Unacceptable.

(2) Any proposal which modifies, or fails to conform to the essential requirements or specifications of, the request for technical proposals shall be considered nonresponsive and categorized as unacceptable.

(f)(1) The contracting officer may proceed directly with step two if there are sufficient acceptable proposals to ensure adequate price competition under step two, and if further time, effort and delay to make additional proposals acceptable and thereby increase competition would not be in the Government's interest. If this is not the case, the contracting officer shall request bidders whose proposals may be made acceptable to submit additional clarifying or supplementing information. The contracting office shall identify the nature of the deficiencies in the proposal or the nature of the additional information required. The contracting officer may also arrange discussions for this purpose. No proposal shall be discussed with any offeror other than the submitter.

(2) In initiating requests for additional information, the contracting officer shall fix an appropriate time for bidders to conclude discussions, if any, submit all additional information, and incorporate such additional information as part of

their proposals submitted. Such time may be extended in the discretion of the contracting officer. If the additional information incorporated as part of a proposal within the final time fixed by the contracting officer establishes that the proposal is acceptable, it shall be so categorized. Otherwise, it shall be categorized as unacceptable.

(g) When a technical proposal is found unacceptable (either initially or after clarification), the contracting officer shall promptly notify the offeror of the basis of the determination and that a revision of the proposal will not be considered. Upon written request, the contracting officer shall debrief unsuccessful offerors (see 15.505 and 15.506).

(h) Late technical proposals are governed by 15.208 (b), (c), and (f).

(i) If it is necessary to discontinue two-step sealed bidding, the contracting officer shall include a statement of the facts and circumstances in the contract file. Each offeror shall be notified in writing. When step one results in no acceptable technical proposal or only one acceptable technical proposal, the acquisition may be continued by negotiation.

14.503-2 Step two.

(a) Sealed bidding procedures shall be followed except that invitations for bids shall—

(1) Be issued only to those offerors submitting acceptable technical proposals in step one;

(2) Include the provision prescribed in 14.201-6(t);

(3) Prominently state that the bidder shall comply with the specifications and the bidder's technical proposal; and

(4) Not be synopsisized through the Governmentwide point of entry (GPE) as an acquisition opportunity nor publicly posted (see 5.101(a)).

(b) The names of firms that submitted acceptable proposals in step one will be listed through the GPE for the benefit of prospective subcontractors (see 5.207(b)(1)).

15.609 Limited use of data.

15.000 Scope of part.

This part prescribes policies and procedures governing competitive and noncompetitive negotiated acquisitions. A contract awarded using other than sealed bidding procedures is a negotiated contract (see 14.101).

15.001 Definitions.

As used in this part—

“Deficiency” is a material failure of a proposal to meet a Government requirement or a combination of significant weaknesses in a proposal that increases the risk of unsuccessful contract performance to an unacceptable level.

“Proposal modification” is a change made to a proposal before the solicitation closing date and time, or made in response to an amendment, or made to correct a mistake at any time before award.

“Proposal revision” is a change to a proposal made after the solicitation closing date, at the request of or as allowed by a contracting officer, as the result of negotiations.

“Weakness” means a flaw in the proposal that increases the risk of unsuccessful contract performance. A “significant weakness” in the proposal is a flaw that appreciably increases the risk of unsuccessful contract performance.

15.002 Types of negotiated acquisition.

(a) *Sole source acquisitions.* When contracting in a sole source environment, the request for proposals (RFP) should be tailored to remove unnecessary information and requirements; *e.g.*, evaluation criteria and voluminous proposal preparation instructions.

(b) *Competitive acquisitions.* When contracting in a competitive environment, the procedures of this part are intended to minimize the complexity of the solicitation, the evaluation, and the source selection decision, while maintaining a process designed to foster an impartial and comprehensive evaluation of offerors’ proposals, leading to selection of the proposal representing the best value to the Government (see 2.101).

15.003 Negotiation authority.

Pursuant to the authority of 44 U.S.C. 311, the Public Printer may negotiate purchases and contracts for supplies or services for which the Public Printer determines that it is impracticable to secure competition by advertising.

15.004 Mandatory justification requirement.

The Public printer may not award a contract under this section unless the justification (D&F) for this use of negotiation is in writing and a certification is made as to the accuracy and completeness of this justification. The justification shall set out the facts and circumstances that clearly and convincingly establish that advertising would not be practicable for such contract. This justification is final and a copy thereof shall be maintained in GPO for at least 6 years after the date of the

determination. The Public Printer has designated the Director, MMS to sign the D&F and certify as to the accuracy and completeness of the justification.

Subpart 15.1—Source Selection Processes and Techniques**15.100 Scope of subpart.**

This subpart describes some of the acquisition processes and techniques that may be used to design competitive acquisition strategies suitable for the specific circumstances of the acquisition.

15.101 Best value continuum.

The GPO can obtain best value in negotiated acquisitions by using any one or a combination of source selection approaches. In different types of acquisitions, the relative importance of cost or price may vary. For example, in acquisitions where the requirement is clearly definable and the risk of unsuccessful contract performance is minimal, cost or price may play a dominant role in source selection. The less definitive the requirement, the more development work required, or the greater the performance risk, the more technical or past performance considerations may play a dominant role in source selection.

15.101-1 Tradeoff process.

(a) A tradeoff process is appropriate when it may be in the best interest of the Government to consider award to other than the lowest priced offeror or other than the highest technically rated offeror.

(b) When using a tradeoff process, the following apply:

(1) All evaluation factors and significant subfactors that will affect contract award and their relative importance shall be clearly stated in the solicitation; and

(2) The solicitation shall state whether all evaluation factors other than cost or price, when combined, are significantly more important than, approximately equal to, or significantly less important than cost or price.

(c) This process permits tradeoffs among cost or price and non-cost factors and allows the Government to accept other than the lowest priced proposal. The perceived benefits of the higher priced proposal shall merit the additional cost, and the rationale for tradeoffs must be documented in the file in accordance with 15.406.

15.101-2 Lowest price technically acceptable source selection process.

(a) The lowest price technically acceptable source selection process is appropriate when best value is expected to result from selection of the technically acceptable proposal with the lowest evaluated price.

(b) When using the lowest price technically acceptable process, the following apply:

(1) The evaluation factors and significant subfactors that establish the requirements of acceptability shall be set forth in the solicitation. Solicitations shall specify that award will be made on the basis of the lowest evaluated price of proposals meeting or exceeding the acceptability standards for non-cost factors. If the contracting officer documents the file pursuant to 15.304(c)(3)(iv), past performance need not be an evaluation factor in lowest price technically acceptable source selections. If the contracting officer elects to consider past performance as an evaluation factor, it shall be evaluated in accordance with 15.305. However, the comparative assessment in 15.305(a)(2)(i) does not apply.

(2) Tradeoffs are not permitted.

(3) Proposals are evaluated for acceptability but not ranked using the non-cost/price factors.

(4) Exchanges may occur (see 15.306).

15.102 Oral presentations.

(a) Oral presentations by offerors as requested by the Government may substitute for, or augment, written information. Use of oral presentations as a substitute for portions of a proposal can be effective in streamlining the source selection process. Oral presentations may occur at any time in the acquisition process, and are subject to the same restrictions as written information, regarding timing (see 15.208) and content (see 15.306). Oral presentations provide an opportunity for dialogue among the parties. Pre-recorded videotaped presentations that lack real-time interactive dialogue are not considered oral presentations for the purposes of this section, although they may be included in offeror submissions, when appropriate.

(b) The solicitation may require each offeror to submit part of its proposal through oral presentations. However, certifications, representations, and a signed offer sheet (including any exceptions to the Government's terms and conditions) shall be submitted in writing.

(c) Information pertaining to areas such as an offeror's capability, past performance, work plans or approaches, staffing resources, transition plans, or sample tasks (or other types of tests) may be suitable for oral presentations. In deciding what information to obtain through an oral presentation, consider the following:

(1) The Government's ability to adequately evaluate the information;

(2) The need to incorporate any information into the resultant contract;

(3) The impact on the efficiency of the acquisition; and

(4) The impact (including cost) on small businesses. In considering the costs of oral presentations, contracting officers should also consider alternatives to on-site oral presentations (*e.g.*, teleconferencing, video teleconferencing).

(d) When oral presentations are required, the solicitation shall provide offerors with sufficient information to prepare them. Accordingly, the solicitation may describe—

(1) The types of information to be presented orally and the associated evaluation factors that will be used;

(2) The qualifications for personnel that will be required to provide the oral presentation(s);

(3) The requirements for, and any limitations and/or prohibitions on, the use of written material or other media to supplement the oral presentations;

(4) The location, date, and time for the oral presentations;

(5) The restrictions governing the time permitted for each oral presentation; and

(6) The scope and content of exchanges that may occur between the Government's participants and the offeror's representatives as part of the oral presentations, including whether or not discussions (see 15.306(d)) will be permitted during oral presentations.

(e) The contracting officer shall maintain a record of oral presentations to document what the Government relied upon in making the source selection decision. The method and level of detail of the record (*e.g.*, videotaping, audio tape recording, written record, Government notes, copies of offeror briefing slides or presentation notes) shall be at the discretion of the source selection authority. A copy of the record placed in the file may be provided to the offeror.

(f) When an oral presentation includes information that the parties intend to include in the contract as material terms or conditions, the information shall be put in writing. Incorporation by reference of oral statements is not permitted.

(g) If, during an oral presentation, the Government conducts discussions (see 15.306(d)), the Government must comply with 15.306 and 15.307.

Subpart 15.2—Solicitation and Receipt of Proposals and Information

15.200 Scope of subpart.

This subpart prescribes policies and procedures for—

- (a) Exchanging information with industry prior to receipt of proposals;
- (b) Preparing and issuing requests for proposals (RFPs) and requests for information (RFIs); and
- (c) Receiving proposals and information.

15.201 Exchanges with industry before receipt of proposals.

(a) Exchanges of information among all interested parties, from the earliest identification of a requirement through receipt of proposals, are encouraged. Any exchange of information must be consistent with procurement integrity requirements (see 3.104). Interested parties include potential offerors, end users, Government acquisition and supporting personnel, and others involved in the conduct or outcome of the acquisition.

(b) The purpose of exchanging information is to improve the understanding of Government requirements and industry capabilities, thereby allowing potential offerors to judge whether or how they can satisfy the Government's requirements, and enhancing the Government's ability to obtain quality supplies and services, including construction, at reasonable prices, and increase efficiency in proposal preparation, proposal evaluation, negotiation, and contract award.

(c) MMS should promote early exchanges of information about future acquisitions. An early exchange of information among industry and the program manager, contracting officer, and other participants in the acquisition process can identify and resolve concerns regarding the acquisition strategy, including proposed contract type, terms and conditions, and acquisition planning schedules; the feasibility of the requirement, including performance requirements, statements of work, and data requirements; the suitability of the proposal instructions and evaluation criteria, including the approach for assessing past performance information; the availability of reference documents; and any other industry concerns or questions. Some techniques to promote early exchanges of information are—

- (1) Industry or small business conferences;
- (2) Public hearings;
- (3) Market research, as described in Part 10;
- (4) One-on-one meetings with potential offerors (any that are substantially involved with potential contract terms and conditions should include the contracting officer; also see paragraph (f) of this section regarding restrictions on disclosure of information);
- (5) Presolicitation notices;
- (6) Draft RFPs;

- (7) RFIs;
- (8) Presolicitation or preproposal conferences; and
- (9) Site visits.

(d) The special notices of procurement matters at 5.205(c), or electronic notices, may be used to publicize the Government's requirement or solicit information from industry.

(e) RFIs may be used when the Government does not presently intend to award a contract, but wants to obtain price, delivery, other market information, or capabilities for planning purposes. Responses to these notices are not offers and cannot be accepted by the Government to form a binding contract. There is no required format for RFIs.

(f) General information about agency mission needs and future requirements may be disclosed at any time. After release of the solicitation, the contracting officer must be the focal point of any exchange with potential offerors. When specific information about a proposed acquisition that would be necessary for the preparation of proposals is disclosed to one or more potential offerors, that information must be made available to the public as soon as practicable, but no later than the next general release of information, in order to avoid creating an unfair competitive advantage. Information provided to a potential offeror in response to its request must not be disclosed if doing so would reveal the potential offeror's confidential business strategy, and is protected under 3.104 or Subpart 24.2. When conducting a presolicitation or preproposal conference, materials distributed at the conference should be made available to all potential offerors, upon request.

15.202 Advisory multi-step process.

(a) MMS may publish a presolicitation notice (see 5.204) that provides a general description of the scope or purpose of the acquisition and invites potential offerors to submit information that allows the Government to advise the offerors about their potential to be viable competitors. The presolicitation notice should identify the information that must be submitted and the criteria that will be used in making the initial evaluation. Information sought may be limited to a statement of qualifications and other appropriate information (*e.g.*, proposed technical concept, past performance, and limited pricing information). At a minimum, the notice shall contain sufficient information to permit a potential offeror to make an informed decision about whether to participate in the acquisition. This process should not be used for multi-step acquisitions where it would result in offerors being required to submit identical information in response to the notice and in response to the initial step of the acquisition.

(b) MMS shall evaluate all responses in accordance with the criteria stated in the notice, and shall advise each respondent in writing either that it will be invited to participate in the resultant acquisition or, based on the information submitted, that it is unlikely to be a viable competitor. MMS shall advise

respondents considered not to be viable competitors of the general basis for that opinion. MMS shall inform all respondents that, notwithstanding the advice provided by the Government in response to their submissions, they may participate in the resultant acquisition.

15.203 Requests for proposals.

(a) Requests for proposals (RFPs) are used in negotiated acquisitions to communicate Government requirements to prospective contractors and to solicit proposals. RFPs for competitive acquisitions shall, at a minimum, describe the—

(1) Government's requirement;

(2) Anticipated terms and conditions that will apply to the contract:

(i) The solicitation may authorize offerors to propose alternative terms and conditions, including the contract line item number (CLIN) structure; and

(ii) When alternative CLIN structures are permitted, the evaluation approach should consider the potential impact on other terms and conditions or the requirement (*e.g.*, place of performance or payment and funding requirements) (see 15.206);

(3) Information required to be in the offeror's proposal; and

(4) Factors and significant subfactors that will be used to evaluate the proposal and their relative importance.

(b) Electronic commerce may be used to issue RFPs and to receive proposals, modifications, and revisions. In this case, the RFP shall specify the electronic commerce method(s) that offerors may use (see Subpart 4.5).

(c) Contracting officers may issue RFPs and/or authorize receipt of proposals, modifications, or revisions by facsimile.

(1) In deciding whether or not to use facsimiles, the contracting officer should consider factors such as—

(i) Anticipated proposal size and volume;

(ii) Urgency of the requirement;

(iii) Availability and suitability of electronic commerce methods; and

(iv) Adequacy of administrative procedures and controls for receiving, identifying, recording, and safeguarding facsimile proposals, and ensuring their timely delivery to the designated proposal delivery location.

(2) If facsimile proposals are authorized, contracting officers may request offeror(s) to provide the complete, original signed proposal at a later date.

(d) Letter RFPs may be used in sole source acquisitions and other appropriate circumstances. Use of a letter RFP does not relieve the contracting officer from complying with other MMAR requirements. Letter RFPs should be as complete as possible and, at a minimum, should contain the following:

(1) RFP number and date;

(2) Name, address (including electronic address and facsimile address, if appropriate), and telephone number of the contracting officer;

(3) Type of contract contemplated;

(4) Quantity, description, and required delivery dates for the item;

(5) Applicable certifications and representations;

(6) Anticipated contract terms and conditions;

(7) Instructions to offerors and evaluation criteria for other than sole source actions;

(8) Proposal due date and time; and

(9) Other relevant information; *e.g.*, incentives, variations in delivery schedule, cost proposal support, and data requirements.

(e) Oral RFPs are authorized when processing a written solicitation would delay the acquisition of supplies or services to the detriment of the Government and a notice is not required under 5.202 (*e.g.*, perishable items and support of contingency operations or other emergency situations). Use of an oral RFP does not relieve the contracting officer from complying with other MMAR requirements.

(1) The contract files supporting oral solicitations should include—

(i) A description of the requirement;

(ii) Rationale for use of an oral solicitation;

(iii) Sources solicited, including the date, time, name of individuals contacted, and prices offered; and

(iv) The solicitation number provided to the prospective offerors.

(2) The information furnished to potential offerors under oral solicitations should include appropriate items from paragraph (e) of this section.

15.204 Contract format.

The use of a uniform contract format facilitates preparation of the solicitation and contract as well as reference to, and use of, those documents by offerors, contractors, and contract administrators. The uniform contract format need not be used for the following:

(a) Construction and architect-engineer contracts (see Part 36).

(b) Subsistence contracts.

(c) Supplies or services contracts requiring special contract formats prescribed elsewhere in this regulation that are inconsistent with the uniform format.

(d) Letter requests for proposals (see 15.203(e)).

(e) Contracts exempted by the agency head or designee.

15.204-1 Uniform contract format.

(a) Contracting officers shall prepare solicitations and resulting contracts using the uniform contract format outlined in Table 15-1 of this subsection.

(b) Solicitations using the uniform contract format shall include Parts I, II, III, and IV (see 15.204-2 through 15.204-5). Upon award, contracting officers shall not physically include Part IV in the resulting contract, but shall retain it in the contract file. Section K shall be incorporated by reference in the contract.

TABLE 15-1—UNIFORM CONTRACT FORMAT

SECTION	TITLE
<u>Part I—The Schedule</u>	
A	Solicitation/contract form
B	Supplies or services and prices/costs
C	Description/specifications/statement of work
D	Packaging and marking
E	Inspection and acceptance
F	Deliveries or performance
G	Contract administration data
H	Special contract requirements
<u>Part II—Contract Clauses</u>	
I	Contract clauses
<u>Part III—List of Documents, Exhibits, and Other Attachments</u>	
J	List of attachments
<u>Part IV—Representations and Instructions</u>	
K	Representations, certifications, and other statements of offerors or respondents
L	Instructions, conditions, and notices to offerors or respondents
M	Evaluation factors for award

- (v) Number of pages.
- (vi) Requisition or other purchase authority.
- (vii) Brief description of item or service.
- (viii) Requirement for the offeror to provide its name and complete address, including street, city, county, state, and zip code, and electronic address (including facsimile address), if appropriate.
- (ix) Offer expiration date.

(b) *Section B, Supplies or services and prices/costs.* Include a brief description of the supplies or services; e.g., item number, national stock number/part number if applicable, nouns, nomenclature, and quantities. (This includes incidental deliverables such as manuals and reports.)

(c) *Section C, Description/specifications/statement of work.* Include any description or specifications needed in addition to Section B (see Part 11, Describing Agency Needs).

(d) *Section D, Packaging and marking.* Provide packaging, packing, preservation, and marking requirements, if any.

(e) *Section E, Inspection and acceptance.* Include inspection, acceptance, quality assurance, and reliability requirements (see Part 46, Quality Assurance).

(f) *Section F, Deliveries or performance.* Specify the requirements for time, place, and method of delivery or performance (see Subpart 11.4, Delivery or Performance Schedules, and 47.301-1).

(g) *Section G, Contract administration data.* Include any required accounting and appropriation data and any required contract administration information or instructions other than those on the solicitation form. Include a statement that the offeror should include the payment address in the proposal, if it is different from that shown for the offeror.

(h) *Section H, Special contract requirements.* Include a clear statement of any special contract requirements that are not included in Section I, Contract clauses, or in other sections of the uniform contract format.

15.204-2 Part I—The Schedule.

The contracting officer shall prepare the contract Schedule as follows:

(a) *Section A, Solicitation/contract form.* (1) Optional Form (OF) 308, Solicitation and Offer—Negotiated Acquisition, or Standard Form (SF) 33, Solicitation, Offer and Award, may be used to prepare RFPs.

(2) When other than OF 308 or SF 33 is used, include the following information on the first page of the solicitation:

- (i) Name, address, and location of issuing activity, including room and building where proposals or information must be submitted.
- (ii) Solicitation number.
- (iii) Date of issuance.
- (iv) Closing date and time.

15.204-3 Part II—Contract Clauses.

Section I, Contract clauses. The contracting officer shall include in this section the clauses required by law or by this regulation and any additional clauses expected to be included in any resulting contract, if these clauses are not required in any other section of the uniform contract format. An index may be inserted if this section’s format is particularly complex.

15.204-4 Part III—List of Documents, Exhibits, and Other Attachments.

Section J, List of attachments. The contracting officer shall list the title, date, and number of pages for each attached document, exhibit, and other attachment. Cross-references to material in other sections may be inserted, as appropriate.

15.204-5 Part IV—Representations and Instructions.

The contracting officer shall prepare the representations and instructions as follows:

(a) *Section K, Representations, certifications, and other statements of offerors.* Include in this section those solicitation provisions that require representations, certifications, or the submission of other information by offerors.

(b) *Section L, Instructions, conditions, and notices to offerors or respondents.* Insert in this section solicitation provisions and other information and instructions not required elsewhere to guide offerors or respondents in preparing proposals or responses to requests for information. Prospective offerors or respondents may be instructed to submit proposals or information in a specific format or severable parts to facilitate evaluation. The instructions may specify further organization of proposal or response parts, such as—

- (1) Administrative;
- (2) Management;
- (3) Technical;
- (4) Past performance; and
- (5) Cost or pricing data (see Table 15-2 of 15.408) or information other than cost or pricing data.

(c) *Section M, Evaluation factors for award.* Identify all significant factors and any significant subfactors that will be considered in awarding the contract and their relative importance (see 15.304(d)). The contracting officer shall insert one of the phrases in 15.304(e).

15.205 Issuing solicitations.

(a) The contracting officer shall issue solicitations to potential sources in accordance with the policies and procedures in 5.102, 19.202-4, and Part 6.

(b) A master solicitation, as described in 14.203-3, may also be used for negotiated acquisitions.

15.206 Amending the solicitation.

(a) When, either before or after receipt of proposals, the Government changes its requirements or terms and conditions, the contracting officer shall amend the solicitation.

(b) Amendments issued before the established time and date for receipt of proposals shall be issued to all parties receiving the solicitation.

(c) Amendments issued after the established time and date for receipt of proposals shall be issued to all offerors that have not been eliminated from the competition.

(d) If a proposal of interest to the Government involves a departure from the stated requirements, the contracting officer shall amend the solicitation, provided this can be done without revealing to the other offerors the alternate solution proposed or any other information that is entitled to protection (see 15.207(b) and 15.306(e)).

(e) If, in the judgment of the contracting officer, based on market research or otherwise, an amendment proposed for

issuance after offers have been received is so substantial as to exceed what prospective offerors reasonably could have anticipated, so that additional sources likely would have submitted offers had the substance of the amendment been known to them, the contracting officer shall cancel the original solicitation and issue a new one, regardless of the stage of the acquisition.

(f) Oral notices may be used when time is of the essence. The contracting officer shall document the contract file and formalize the notice with an amendment (see Subpart 4.5, Electronic Commerce in Contracting).

(g) At a minimum, the following information should be included in each amendment:

- (1) Name and address of issuing activity.
- (2) Solicitation number and date.
- (3) Amendment number and date.
- (4) Number of pages.
- (5) Description of the change being made.
- (6) Government point of contact and phone number (and electronic or facsimile address, if appropriate).
- (7) Revision to solicitation closing date, if applicable.

15.207 Handling proposals and information.

(a) Upon receipt at the location specified in the solicitation, proposals and information received in response to a request for information (RFI) shall be marked with the date and time of receipt and shall be transmitted to the designated officials.

(b) Proposals shall be safeguarded from unauthorized disclosure throughout the source selection process. (See 3.104 regarding the disclosure of source selection information (41 U.S.C. 423)). Information received in response to an RFI shall be safeguarded adequately from unauthorized disclosure.

(c) If any portion of a proposal received by the contracting officer electronically or by facsimile is unreadable, the contracting officer immediately shall notify the offeror and permit the offeror to resubmit the unreadable portion of the proposal. The method and time for resubmission shall be prescribed by the contracting officer after consultation with the offeror, and documented in the file. The resubmission shall be considered as if it were received at the date and time of the original unreadable submission for the purpose of determining timeliness under 15.208(a), provided the offeror complies with the time and format requirements for resubmission prescribed by the contracting officer.

15.208 Submission, modification, revision, and withdrawal of proposals.

(a) Offerors are responsible for submitting proposals, and any revisions, and modifications, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. Offerors may use any transmission method authorized by the solicitation (*i.e.*, regular mail, electronic commerce, or facsimile). If no time is specified in the solicitation

tation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that proposals are due.

(b)(1) Any proposal, modification, or revision, that is received at the designated Government office after the exact time specified for receipt of proposals is “late” and will not be considered unless it is received before award is made, the contracting officer determines that accepting the late proposal would not unduly delay the acquisition; and—

(i) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of proposals; or

(ii) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of proposals and was under the Government’s control prior to the time set for receipt of proposals; or

(iii) It was the only proposal received.

(2) However, a late modification of an otherwise successful proposal, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(c) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the proposal wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(d) If an emergency or unanticipated event interrupts normal Government processes so that proposals cannot be received at the Government office designated for receipt of proposals by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation closing date, the time specified for receipt of proposals will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(e) Proposals may be withdrawn by written notice at any time before award. Oral proposals in response to oral solicitations may be withdrawn orally. The contracting officer must document the contract file when oral withdrawals are made. One copy of withdrawn proposals should be retained in the contract file (see 4.803(a)(10)). Extra copies of the withdrawn proposals may be destroyed or returned to the offeror at the offeror’s request. Where practicable, electronically transmitted proposals that are withdrawn must be purged from primary and backup data storage systems after a copy is made for the file. Extremely bulky proposals must only be returned at the offeror’s request and expense.

(f) The contracting officer must promptly notify any offeror if its proposal, modification, or revision was received late, and must inform the offeror whether its proposal will be considered, unless contract award is imminent and the notice prescribed in 15.503(b) would suffice.

(g) Late proposals and modifications that are not considered must be held unopened, unless opened for identification, until after award and then retained with other unsuccessful proposals.

(h) If available, the following must be included in the contracting office files for each late proposal, modification, revision, or withdrawal:

(1) The date and hour of receipt.

(2) A statement regarding whether the proposal was considered for award, with supporting rationale.

(3) The envelope, wrapper, or other evidence of date of receipt.

15.209 Solicitation provisions and contract clauses.

When contracting by negotiation—

(a) The contracting officer shall insert the provision at 52.215-1, Instructions to Offerors—Competitive Acquisition, in all competitive solicitations where the Government intends to award a contract without discussions.

(1) If the Government intends to make award after discussions with offerors within the competitive range, the contracting officer shall use the basic provision with its Alternate I.

(2) If the Government would be willing to accept alternate proposals, the contracting officer shall alter the basic clause to add a new paragraph (c)(9) substantially the same as Alternate II.

(b)(1) The contracting officer shall insert the clause at 52.215-2, Audit and Records-Negotiation (10 U.S.C. 2313, 41 U.S.C. 254d, and OMB Circular No. A-133), in solicitations and contracts except those for—

(i) Acquisitions not exceeding the simplified acquisition threshold;

(ii) The acquisition of utility services at rates not exceeding those established to apply uniformly to the general public, plus any applicable reasonable connection charge; or

(iii) The acquisition of commercial items exempted under 15.403-1.

(2) For facilities acquisitions, the contracting officer shall use the clause with its Alternate I.

(3) For cost-reimbursement contracts with State and local Governments, educational institutions, and other non-profit organizations, the contracting officer shall use the clause with its Alternate II.

(4) When the head of the agency has waived the examination of records by the Comptroller General in accordance with 25.1001, use the clause with its Alternate III.

(c) When issuing a solicitation for information or planning purposes, the contracting officer shall insert the provision at 52.215-3, Request for Information or Solicitation for Planning Purposes, and clearly mark on the face of the solicitation that it is for information or planning purposes.

(d) [Reserved]

(e) The contracting officer shall insert the provision at 52.215-5, Facsimile Proposals, in solicitations if facsimile proposals are authorized (see 15.203(d)).

(f) The contracting officer shall insert the provision at 52.215-6, Place of Performance, in solicitations unless the place of performance is specified by the Government.

(g) The contracting officer shall insert the provision at 52.215-7, Annual Representations and Certifications—Negotiation, in solicitations if annual representations and certifications are used (see 14.213).

(h) The contracting officer shall insert the clause at 52.215-8, Order of Precedence—Uniform Contract Format, in solicitations and contracts using the format at 15.204.

15.210 Forms.

Prescribed forms are not required to prepare solicitations described in this part. The following forms may be used at the discretion of the contracting officer:

(a) Standard Form 33, Solicitation, Offer and Award, and Optional Form 308, Solicitation and Offer—Negotiated Acquisition, may be used to issue RFPs and RFIs.

(b) Standard Form 30, Amendment of Solicitation/ Modification of Contract, and Optional Form 309, Amendment of Solicitation, may be used to amend solicitations of negotiated contracts.

(c) Optional Form 17, Offer Label, may be furnished with each request for proposal.

Subpart 15.3—Source Selection

15.300 Scope of subpart.

This subpart prescribes policies and procedures for selection of a source or sources in competitive negotiated acquisitions.

15.301 [Reserved]

15.302 Source selection objective.

The objective of source selection is to select the proposal that represents the best value.

15.303 Responsibilities.

(a) The Public Printer is responsible for source selection. The contracting officer is designated as the source selection authority, unless the Public Printer appoints another individual for a particular acquisition or group of acquisitions.

(b) The source selection authority shall—

(1) Establish an evaluation team, tailored for the particular acquisition, that includes appropriate contracting, legal, logistics, technical, and other expertise to ensure a comprehensive evaluation of offers;

(2) Approve the source selection strategy or acquisition plan, if applicable, before solicitation release;

(3) Ensure consistency among the solicitation requirements, notices to offerors, proposal preparation instructions, evaluation factors and subfactors, solicitation provisions or contract clauses, and data requirements;

(4) Ensure that proposals are evaluated based solely on the factors and subfactors contained in the solicitation;

(5) Consider the recommendations of advisory boards or panels (if any); and

(6) Select the source or sources whose proposal is the best value to the Government.

(c) The contracting officer shall—

(1) After release of a solicitation, serve as the focal point for inquiries from actual or prospective offerors;

(2) After receipt of proposals, control exchanges with offerors in accordance with 15.306; and

(3) Award the contract(s).

15.304 Evaluation factors and significant subfactors.

(a) The award decision is based on evaluation factors and significant subfactors that are tailored to the acquisition.

(b) Evaluation factors and significant subfactors must—

(1) Represent the key areas of importance and emphasis to be considered in the source selection decision; and

(2) Support meaningful comparison and discrimination between and among competing proposals.

(c) The evaluation factors and significant subfactors that apply to an acquisition and their relative importance, are

within the broad discretion of agency acquisition officials, subject to the following requirements:

(1) Price or cost to the Government shall be evaluated in every source selection (also see Part 36 for architect-engineer contracts);

(2) The quality of the product or service shall be addressed in every source selection through consideration of one or more non-cost evaluation factors such as past performance, compliance with solicitation requirements, technical excellence, management capability, personnel qualifications, and prior experience; and

(3)(i) Except as set forth in paragraph (c)(3)(iv) of this section, past performance shall be evaluated in all source selections for negotiated competitive acquisitions expected to exceed \$1,000,000.

(ii) Except as set forth in paragraph (c)(3)(iv) of this section, past performance shall be evaluated in all source selections for negotiated competitive acquisitions expected to exceed \$100,000.

(iii) Past performance need not be evaluated if the contracting officer documents the reason past performance is not an appropriate evaluation factor for the acquisition.

(d) All factors and significant subfactors that will affect contract award and their relative importance shall be stated clearly in the solicitation (see 15.204-5(c)). The rating method need not be disclosed in the solicitation. The general approach for evaluating past performance information shall be described.

(e) The solicitation shall also state, at a minimum, whether all evaluation factors other than cost or price, when combined, are—

(1) Significantly more important than cost or price;

(2) Approximately equal to cost or price; or

(3) Significantly less important than cost or price.

15.305 Proposal evaluation.

(a) Proposal evaluation is an assessment of the proposal and the offeror's ability to perform the prospective contract successfully. An agency shall evaluate competitive proposals and then assess their relative qualities solely on the factors and subfactors specified in the solicitation. Evaluations may be conducted using any rating method or combination of methods, including color or adjectival ratings, numerical weights, and ordinal rankings. The relative strengths, deficiencies, significant weaknesses, and risks supporting proposal evaluation shall be documented in the contract file.

(1) *Cost or price evaluation.* Normally, competition establishes price reasonableness. Therefore, when contracting on a firm-fixed-price or fixed-price with economic price adjustment basis, comparison of the proposed prices will usually satisfy the requirement to perform a price analysis, and a cost analysis need not be performed. In limited situations, a cost analysis (see 15.403-1(c)(1)(i)(B)) may be appropriate to

establish reasonableness of the otherwise successful offeror's price. When contracting on a cost-reimbursement basis, evaluations shall include a cost realism analysis to determine what the Government should realistically expect to pay for the proposed effort, the offeror's understanding of the work, and the offeror's ability to perform the contract. (See 37.115 for uncompensated overtime evaluation.) The contracting officer shall document the cost or price evaluation.

(2) *Past performance evaluation.* (i) Past performance information is one indicator of an offeror's ability to perform the contract successfully. The currency and relevance of the information, source of the information, context of the data, and general trends in contractor's performance shall be considered. This comparative assessment of past performance information is separate from the responsibility determination required under Subpart 9.1.

(ii) The solicitation shall describe the approach for evaluating past performance, including evaluating offerors with no relevant performance history, and shall provide offerors an opportunity to identify past or current contracts (including Federal, State, and local government and private) for efforts similar to the Government requirement. The solicitation shall also authorize offerors to provide information on problems encountered on the identified contracts and the offeror's corrective actions. The Government shall consider this information, as well as information obtained from any other sources, when evaluating the offeror's past performance. The source selection authority shall determine the relevance of similar past performance information.

(iii) The evaluation should take into account past performance information regarding predecessor companies, key personnel who have relevant experience, or subcontractors that will perform major or critical aspects of the requirement when such information is relevant to the instant acquisition.

(iv) In the case of an offeror without a record of relevant past performance or for whom information on past performance is not available, the offeror may not be evaluated favorably or unfavorably on past performance

(3) *Technical evaluation.* When tradeoffs are performed (see 15.101-1), the source selection records shall include—

(i) An assessment of each offeror's ability to accomplish the technical requirements; and

(ii) A summary, matrix, or quantitative ranking, along with appropriate supporting narrative, of each technical proposal using the evaluation factors.

(4) *Cost information* Cost information may be provided to members of the technical evaluation team in accordance with agency procedures.

(b) The source selection authority may reject all proposals received in response to a solicitation, if doing so is in the best interest of the Government.

(c) For restrictions on the use of support contractor personnel in proposal evaluation, see 37.203(d).

15.306 Exchanges with offerors after receipt of proposals.

(a) *Clarifications and award without discussions.* (1) Clarifications are limited exchanges, between the Government and offerors, that may occur when award without discussions is contemplated.

(2) If award will be made without conducting discussions, offerors may be given the opportunity to clarify certain aspects of proposals (*e.g.*, the relevance of an offeror's past performance information and adverse past performance information to which the offeror has not previously had an opportunity to respond) or to resolve minor or clerical errors.

(3) Award may be made without discussions if the solicitation states that the Government intends to evaluate proposals and make award without discussions. If the solicitation contains such a notice and the Government determines it is necessary to conduct discussions, the rationale for doing so shall be documented in the contract file (see the provision at 52.215-1).

(b) *Communications with offerors before establishment of the competitive range.* Communications are exchanges, between the Government and offerors, after receipt of proposals, leading to establishment of the competitive range. If a competitive range is to be established, these communications—

(1) Shall be limited to the offerors described in paragraphs (b)(1)(i) and (b)(1)(ii) of this section and—

(i) Shall be held with offerors whose past performance information is the determining factor preventing them from being placed within the competitive range. Such communications shall address adverse past performance information to which an offeror has not had a prior opportunity to respond; and

(ii) May only be held with those offerors (other than offerors under paragraph (b)(1)(i) of this section) whose exclusion from, or inclusion in, the competitive range is uncertain;

(2) May be conducted to enhance Government understanding of proposals; allow reasonable interpretation of the proposal; or facilitate the Government's evaluation process. Such communications shall not be used to cure proposal deficiencies or material omissions, materially alter the technical or cost elements of the proposal, and/or otherwise revise the proposal. Such communications may be considered in rating proposals for the purpose of establishing the competitive range;

(3) Are for the purpose of addressing issues that must be explored to determine whether a proposal should be placed in the competitive range. Such communications shall not provide an opportunity for the offeror to revise its proposal, but may address—

(i) Ambiguities in the proposal or other concerns (e.g., perceived deficiencies, weaknesses, errors, omissions, or mistakes (see 14.407)); and

(ii) Information relating to relevant past performance; and

(4) Shall address adverse past performance information to which the offeror has not previously had an opportunity to comment.

(c) *Competitive range.* (1) Agencies shall evaluate all proposals in accordance with 15.305(a), and, if discussions are to be conducted, establish the competitive range. Based on the ratings of each proposal against all evaluation criteria, the contracting officer shall establish a competitive range comprised of all of the most highly rated proposals, unless the range is further reduced for purposes of efficiency pursuant to paragraph (c)(2) of this section.

(2) After evaluating all proposals in accordance with 15.305(a) and paragraph (c)(1) of this section, the contracting officer may determine that the number of most highly rated proposals that might otherwise be included in the competitive range exceeds the number at which an efficient competition can be conducted. Provided the solicitation notifies offerors that the competitive range can be limited for purposes of efficiency (see 52.215-1(f)(4)), the contracting officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals.

(3) If the contracting officer, after complying with paragraph (d)(3) of this section, decides that an offeror's proposal should no longer be included in the competitive range, the proposal shall be eliminated from consideration for award. Written notice of this decision shall be provided to unsuccessful offerors in accordance with 15.503.

(4) Offerors excluded or otherwise eliminated from the competitive range may request a debriefing (see 15.505 and 15.506).

(d) *Exchanges with offerors after establishment of the competitive range.* Negotiations are exchanges, in either a competitive or sole source environment, between the Government and offerors, that are undertaken with the intent of allowing the offeror to revise its proposal. These negotiations may include bargaining. Bargaining includes persuasion, alteration of assumptions and positions, give-and-take, and may apply to price, schedule, technical requirements, type of contract, or other terms of a proposed contract. When negotiations are conducted in a competitive acquisition, they take place after establishment of the competitive range and are called discussions.

(1) Discussions are tailored to each offeror's proposal, and must be conducted by the contracting officer with each offeror within the competitive range.

(2) The primary objective of discussions is to maximize the Government's ability to obtain best value, based on the requirement and the evaluation factors set forth in the solicitation.

(3) At a minimum, the contracting officer must, subject to paragraphs (d)(5) and (e) of this section and 15.307(a), indicate to, or discuss with, each offeror still being considered for award, deficiencies, significant weaknesses, and adverse past performance information to which the offeror has not yet had an opportunity to respond. The contracting officer also is encouraged to discuss other aspects of the offeror's proposal that could, in the opinion of the contracting officer, be altered or explained to enhance materially the proposal's potential for award. However, the contracting officer is not required to discuss every area where the proposal could be improved. The scope and extent of discussions are a matter of contracting officer judgment.

(4) In discussing other aspects of the proposal, the Government may, in situations where the solicitation stated that evaluation credit would be given for technical solutions exceeding any mandatory minimums, negotiate with offerors for increased performance beyond any mandatory minimums, and the Government may suggest to offerors that have exceeded any mandatory minimums (in ways that are not integral to the design), that their proposals would be more competitive if the excesses were removed and the offered price decreased.

(5) If, after discussions have begun, an offeror originally in the competitive range is no longer considered to be among the most highly rated offerors being considered for award, that offeror may be eliminated from the competitive range whether or not all material aspects of the proposal have been discussed, or whether or not the offeror has been afforded an opportunity to submit a proposal revision (see 15.307(a) and 15.503(a)(1)).

(e) *Limits on exchanges.* Government personnel involved in the acquisition shall not engage in conduct that—

(1) Favors one offeror over another;

(2) Reveals an offeror's technical solution, including unique technology, innovative and unique uses of commercial items, or any information that would compromise an offeror's intellectual property to another offeror;

(3) Reveals an offeror's price without that offeror's permission. However, the contracting officer may inform an offeror that its price is considered by the Government to be too high, or too low, and reveal the results of the analysis supporting that conclusion. It is also permissible, at the Government's discretion, to indicate to all offerors the cost or price that the Government's price analysis, market research, and other reviews have identified as reasonable;

(4) Reveals the names of individuals providing reference information about an offeror's past performance; or

(5) Knowingly furnishes source selection information in violation of 3.104.

shall be in writing and that the Government intends to make award without obtaining further revisions.

15.307 Proposal revisions.

(a) If an offeror's proposal is eliminated or otherwise removed from the competitive range, no further revisions to that offeror's proposal shall be accepted or considered.

(b) The contracting officer may request or allow proposal revisions to clarify and document understandings reached during negotiations. At the conclusion of discussions, each offeror still in the competitive range shall be given an opportunity to submit a final proposal revision. The contracting officer is required to establish a common cut-off date only for receipt of final proposal revisions. Requests for final proposal revisions shall advise offerors that the final proposal revisions

15.308 Source selection decision.

The source selection authority's (SSA) decision shall be based on a comparative assessment of proposals against all source selection criteria in the solicitation. While the SSA may use reports and analyses prepared by others, the source selection decision shall represent the SSA's independent judgment. The source selection decision shall be documented, and the documentation shall include the rationale for any business judgments and tradeoffs made or relied on by the SSA, including benefits associated with additional costs. Although the rationale for the selection decision must be documented, that documentation need not quantify the tradeoffs that led to the decision.

Subpart 15.4—Contract Pricing

15.400 Scope of subpart.

This subpart prescribes the cost and price negotiation policies and procedures for pricing negotiated prime contracts (including subcontracts) and contract modifications, including modifications to contracts awarded by sealed bidding.

15.401 Definitions.

As used in this subpart—

“Price” means cost plus any fee or profit applicable to the contract type.

“Subcontract” (except as used in 15.407-2) also includes a transfer of commercial items between divisions, subsidiaries, or affiliates of a contractor or a subcontractor.

15.402 Pricing policy.

Contracting officers must—

(a) Purchase supplies and services from responsible sources at fair and reasonable prices. In establishing the reasonableness of the offered prices, the contracting officer must not obtain more information than is necessary. To the extent that cost or pricing data are not required by 15.403-4, the contracting officer must generally use the following order of preference in determining the type of information required:

(1) No additional information from the offeror, if the price is based on adequate price competition, except as provided by 15.403-3(b).

(2) Information other than cost or pricing data:

(i) Information related to prices (*e.g.*, established catalog or market prices or previous contract prices), relying first on information available within the Government; second, on information obtained from sources other than the offeror; and, if necessary, on information obtained from the offeror. When obtaining information from the offeror is necessary, unless an exception under 15.403-1(b)(1) or (2) applies, such information submitted by the offeror shall include, at a minimum, appropriate information on the prices at which the same or similar items have been sold previously, adequate for evaluating the reasonableness of the price.

(ii) Cost information, that does not meet the definition of cost or pricing data at 2.101.

(3) *Cost or pricing data.* The contracting officer should use every means available to ascertain whether a fair and reasonable price can be determined before requesting cost or pricing data. Contracting officers must not require unnecessarily the submission of cost or pricing data, because it leads to increased proposal preparation costs, generally extends acquisition lead time, and consumes additional contractor and Government resources.

(b) Price each contract separately and independently and not—

(1) Use proposed price reductions under other contracts as an evaluation factor; or

(2) Consider losses or profits realized or anticipated under other contracts.

(c) Not include in a contract price any amount for a specified contingency to the extent that the contract provides for a price adjustment based upon the occurrence of that contingency.

15.403 Obtaining cost or pricing data.

15.403-1 Prohibition on obtaining cost or pricing data.

(a) Cost or pricing data need not be obtained for acquisitions at or below the simplified acquisition threshold.

(b) *Exceptions to cost or pricing data requirements.* The contracting officer shall not require submission of cost or pricing data to support any action (contracts, subcontracts, or modifications) (but may require information other than cost or pricing data to support a determination of price reasonableness or cost realism)—

(1) When the contracting officer determines that prices agreed upon are based on adequate price competition (see standards in paragraph (c)(1) of this subsection);

(2) When the contracting officer determines that prices agreed upon are based on prices set by law or regulation (see standards in paragraph (c)(2) of this subsection);

(3) When a commercial item is being acquired (see standards in paragraph (c)(3) of this subsection);

(4) When a waiver has been granted (see standards in paragraph (c)(4) of this subsection); or

(5) When modifying a contract or subcontract for commercial items (see standards in paragraph (c)(3) of this subsection).

(c) Standards for exceptions from cost or pricing data requirements— (1) *Adequate price competition.* A price is based on adequate price competition if—(i) Two or more responsible offerors, competing independently, submit priced offers that satisfy the Government's expressed requirement and if—

(A) Award will be made to the offeror whose proposal represents the best value (see 2.101) where price is a substantial factor in source selection; and

(B) There is no finding that the price of the otherwise successful offeror is unreasonable. Any finding that the price is unreasonable must be supported by a statement of the facts and approved at a level above the contracting officer;

(ii) There was a reasonable expectation, based on market research or other assessment, that two or more responsible offerors, competing independently, would submit priced offers in response to the solicitation's expressed requirement, even though only one offer is received from a responsible offeror and if—

(A) Based on the offer received, the contracting officer can reasonably conclude that the offer was submitted with the expectation of competition, *e.g.*, circumstances indicate that—

(1) The offeror believed that at least one other offeror was capable of submitting a meaningful offer; and

(2) The offeror had no reason to believe that other potential offerors did not intend to submit an offer; and

(B) The determination that the proposed price is based on adequate price competition, is reasonable, and is approved at a level above the contracting officer; or

(iii) Price analysis clearly demonstrates that the proposed price is reasonable in comparison with current or recent prices for the same or similar items, adjusted to reflect changes in market conditions, economic conditions, quantities, or terms and conditions under contracts that resulted from adequate price competition.

(2) *Prices set by law or regulation.* Pronouncements in the form of periodic rulings, reviews, or similar actions of a governmental body, or embodied in the laws, are sufficient to set a price.

(3) *Commercial items.* Any acquisition for an item that meets the commercial item definition in 2.101, or any modification, as defined in paragraph (3)(i) or (ii) of that definition, that does not change the item from a commercial item to a noncommercial item, is exempt from the requirement for cost or pricing data. If the contracting officer determines that an item claimed to be commercial is, in fact, not commercial and that no other exception or waiver applies, the contracting officer must require submission of cost or pricing data.

(4) *Waivers.* The head of the contracting activity (HCA) may, without power of delegation, waive the requirement for submission of cost or pricing data in exceptional cases. The authorization for the waiver and the supporting rationale shall be in writing. The HCA may consider waiving the requirement if the price can be determined to be fair and reasonable without submission of cost or pricing data. For example, if cost or pricing data were furnished on previous production buys and the contracting officer determines such data are sufficient, when combined with updated information, a waiver may be granted. If the HCA has waived the requirement for submission of cost or pricing data, the contractor or higher-tier subcontractor to whom the waiver relates shall be considered as having been required to provide cost or pricing data. Consequently, award of any lower-tier subcontract expected to exceed the cost or pricing data threshold requires the submission of cost or pricing data unless—

(i) An exception otherwise applies to the subcontract; or

(ii) The waiver specifically includes the subcontract and the rationale supporting the waiver for that subcontract.

15.403-2 Other circumstances where cost or pricing data are not required.

(a) The exercise of an option at the price established at contract award or initial negotiation does not require submission of cost or pricing data.

(b) Cost or pricing data are not required for proposals used solely for overrun funding or interim billing price adjustments.

15.403-3 Requiring information other than cost or pricing data.

(a) *General.* (1) The contracting officer is responsible for obtaining information that is adequate for evaluating the reasonableness of the price or determining cost realism, but the contracting officer should not obtain more information than is necessary (see 15.402(a)). If the contracting officer cannot obtain adequate information from sources other than the offeror, the contracting officer must require submission of information other than cost or pricing data from the offeror that is adequate to determine a fair and reasonable price. Unless an exception under 15.403-1(b)(1) or (2) applies, the contracting officer must require that the information submitted by the offeror include, at a minimum, appropriate information on the prices at which the same item or similar items have previously been sold, adequate for determining the reasonableness of the price. To determine the information an offeror should be required to submit, the contracting officer should consider the guidance in Section 3.3, Chapter 3, Volume I, of the Contract Pricing Reference Guide cited at 15.404-1(a)(7).

(2) The contractor's format for submitting the information should be used (see 15.403-5(b)(2)).

(3) The contracting officer must ensure that information used to support price negotiations is sufficiently current to permit negotiation of a fair and reasonable price. Requests for updated offeror information should be limited to information that affects the adequacy of the proposal for negotiations, such as changes in price lists.

(4) An offeror who does not comply with a requirement to submit information for a contract or subcontract in accordance with paragraph (a)(1) of this subsection is ineligible for award unless the HCA determines that it is in the best interest of the Government to make the award to that offeror, based on consideration of the following:

(i) The effort made to obtain the data.

(ii) The need for the item or service.

(iii) Increased cost or significant harm to the Government if award is not made.

(b) *Adequate price competition.* When adequate price competition exists (see 15.403-1(c)(1)), generally no additional information is necessary to determine the reasonableness of price. However, if there are unusual circumstances where it is concluded that additional information is necessary to determine the reasonableness of price, the contracting

officer shall, to the maximum extent practicable, obtain the additional information from sources other than the offeror. In addition, the contracting officer may request information to determine the cost realism of competing offers or to evaluate competing approaches.

(c) *Commercial items.* (1) At a minimum, the contracting officer must use price analysis to determine whether the price is fair and reasonable whenever the contracting officer acquires a commercial item (see 15.404-1(b)). The fact that a price is included in a catalog does not, in and of itself, make it fair and reasonable. If the contracting officer cannot determine whether an offered price is fair and reasonable, even after obtaining additional information from sources other than the offeror, then the contracting officer must require the offeror to submit information other than cost or pricing data to support further analysis (see 15.404-1).

(2) *Limitations relating to commercial items.* (i) The contracting officer must limit requests for sales data relating to commercial items to data for the same or similar items during a relevant time period.

(ii) The contracting officer must, to the maximum extent practicable, limit the scope of the request for information relating to commercial items to include only information that is in the form regularly maintained by the offeror as part of its commercial operations.

(iii) The Government must not disclose outside the Government information obtained relating to commercial items that is exempt from disclosure under 24.202(a).

15.403-4 Requiring cost or pricing data.

(a)(1) The contracting officer must obtain cost or pricing data only if the contracting officer concludes that none of the exceptions in 15.403-1(b) applies. However, if the contracting officer has sufficient information available to determine price reasonableness, then the contracting officer should consider requesting a waiver under the exception at 15.403-1(b)(4). The threshold for obtaining cost or pricing data is \$550,000. Unless an exception applies, cost or pricing data are required before accomplishing any of the following actions expected to exceed the current threshold or, for existing contracts, the threshold specified in the contract:

(i) The award of any negotiated contract (except for undefinitized actions such as letter contracts).

(ii) The award of a subcontract at any tier, if the contractor and each higher-tier subcontractor were required to submit cost or pricing data (but see waivers at 15.403-1(c)(4)).

(iii) The modification of any sealed bid or negotiated contract (whether or not cost or pricing data were initially required) or any subcontract covered by paragraph (a)(1)(ii) of this subsection. Price adjustment amounts must consider both increases and decreases (*e.g.*, a \$200,000 modification resulting from a reduction of \$400,000 and an increase of

\$200,000 is a pricing adjustment exceeding \$550,000). This requirement does not apply when unrelated and separately priced changes for which cost or pricing data would not otherwise be required are included for administrative convenience in the same modification. Negotiated final pricing actions (such as termination settlements and total final price agreements for fixed-price incentive and redeterminable contracts) are contract modifications requiring cost or pricing data if—

(A) The total final price agreement for such settlements or agreements exceeds the pertinent threshold set forth at paragraph (a)(1) of this subsection; or

(B) The partial termination settlement plus the estimate to complete the continued portion of the contract exceeds the pertinent threshold set forth at paragraph (a)(1) of this subsection (see 49.105(c)(15)).

(2) Unless prohibited because an exception at 15.403-1(b) applies, the head of the contracting activity, without power of delegation, may authorize the contracting officer to obtain cost or pricing data for pricing actions below the pertinent threshold in paragraph (a)(1) of this subsection, provided the action exceeds the simplified acquisition threshold. The head of the contracting activity shall justify the requirement for cost or pricing data. The documentation shall include a written finding that cost or pricing data are necessary to determine whether the price is fair and reasonable and the facts supporting that finding.

(b) When cost or pricing data are required, the contracting officer shall require the contractor or prospective contractor to submit to the contracting officer (and to have any subcontractor or prospective subcontractor submit to the prime contractor or appropriate subcontractor tier) the following in support of any proposal:

(1) The cost or pricing data.

(2) A certificate of current cost or pricing data, in the format specified in 15.406-2, certifying that to the best of its knowledge and belief, the cost or pricing data were accurate, complete, and current as of the date of agreement on price or, if applicable, an earlier date agreed upon between the parties that is as close as practicable to the date of agreement on price.

(c) If cost or pricing data are requested and submitted by an offeror, but an exception is later found to apply, the data must not be considered cost or pricing data as defined in 2.101 and must not be certified in accordance with 15.406-2.

(d) The requirements of this subsection also apply to contracts entered into by an agency on behalf of a foreign government.

15.403-5 Instructions for submission of cost or pricing data or information other than cost or pricing data.

(a) Taking into consideration the policy at 15.402, the contracting officer shall specify in the solicitation (see 15.408(l) and (m))—

- (1) Whether cost or pricing data are required;
 - (2) That, in lieu of submitting cost or pricing data, the offeror may submit a request for exception from the requirement to submit cost or pricing data;
 - (3) Any information other than cost or pricing data that is required; and
 - (4) Necessary preaward or postaward access to offeror's records.
- (b)(1) Unless required to be submitted on one of the termination forms specified in Subpart 49.6, the contracting officer may require submission of cost or pricing data in the format indicated in Table 15-2 of 15.408, specify an alternative format, or permit submission in the contractor's format.
- (2) Information other than cost or pricing data may be submitted in the offeror's own format unless the contracting officer decides that use of a specific format is essential and the format has been described in the solicitation.
 - (3) Data supporting forward pricing rate agreements or final indirect cost proposals shall be submitted in a form acceptable to the contracting officer.

15.404 Proposal analysis.

15.404-1 Proposal analysis techniques.

- (a) *General.* The objective of proposal analysis is to ensure that the final agreed-to price is fair and reasonable.
- (1) The contracting officer is responsible for evaluating the reasonableness of the offered prices. The analytical techniques and procedures described in this subsection may be used, singly or in combination with others, to ensure that the final price is fair and reasonable. The complexity and circumstances of each acquisition should determine the level of detail of the analysis required.
 - (2) Price analysis shall be used when cost or pricing data are not required (see paragraph (b) of this subsection and 15.404-3).
 - (3) Cost analysis shall be used to evaluate the reasonableness of individual cost elements when cost or pricing data are required. Price analysis should be used to verify that the overall price offered is fair and reasonable.
 - (4) Cost analysis may also be used to evaluate information other than cost or pricing data to determine cost reasonableness or cost realism.
 - (5) The contracting officer may request the advice and assistance of other experts to ensure that an appropriate analysis is performed.
 - (6) Recommendations or conclusions regarding the Government's review or analysis of an offeror's or contractor's proposal shall not be disclosed to the offeror or contractor without the concurrence of the contracting officer. Any discrepancy or mistake of fact (such as duplications, omis-

sions, and errors in computation) contained in the cost or pricing data or information other than cost or pricing data submitted in support of a proposal shall be brought to the contracting officer's attention for appropriate action.

(7) The Air Force Institute of Technology (AFIT) and the Federal Acquisition Institute (FAI) jointly prepared a five-volume set of Contract Pricing Reference Guides to guide pricing and negotiation personnel. The five guides are: I Price Analysis, II Quantitative Techniques for Contract Pricing, III Cost Analysis, IV Advanced Issues in Contract Pricing, and V Federal Contract Negotiation Techniques. These references provide detailed discussion and examples applying pricing policies to pricing problems. They are to be used for instruction and professional guidance. However, they are not directive and should be considered informational only. They are available via the internet at <http://www.acq.osd.mil/dp/cpf>.

(b) *Price analysis.* (1) Price analysis is the process of examining and evaluating a proposed price without evaluating its separate cost elements and proposed profit.

(2) The Government may use various price analysis techniques and procedures to ensure a fair and reasonable price. Examples of such techniques include, but are not limited to, the following:

- (i) Comparison of proposed prices received in response to the solicitation. Normally, adequate price competition establishes price reasonableness (see 15.403-1(c)(1)).
- (ii) Comparison of previously proposed prices and previous Government and commercial contract prices with current proposed prices for the same or similar items, if both the validity of the comparison and the reasonableness of the previous price(s) can be established.
- (iii) Use of parametric estimating methods/application of rough yardsticks (such as dollars per pound or per horsepower, or other units) to highlight significant inconsistencies that warrant additional pricing inquiry.
- (iv) Comparison with competitive published price lists, published market prices of commodities, similar indexes, and discount or rebate arrangements.
- (v) Comparison of proposed prices with independent Government cost estimates.
- (vi) Comparison of proposed prices with prices obtained through market research for the same or similar items.
- (vii) Analysis of pricing information provided by the offeror.

(3) The first two techniques at 15.404-1(b)(2) are the preferred techniques. However, if the contracting officer determines that information on competitive proposed prices or previous contract prices is not available or is insufficient to determine that the price is fair and reasonable, the contracting officer may use any of the remaining techniques as appropriate to the circumstances applicable to the acquisition.

(4) Value analysis can give insight into the relative worth of a product and the Government may use it in conjunction with the price analysis techniques listed in paragraph (b)(2) of this section.

(c) *Cost analysis.* (1) Cost analysis is the review and evaluation of the separate cost elements and profit in an offeror's or contractor's proposal (including cost or pricing data or information other than cost or pricing data), and the application of judgment to determine how well the proposed costs represent what the cost of the contract should be, assuming reasonable economy and efficiency.

(2) The Government may use various cost analysis techniques and procedures to ensure a fair and reasonable price, given the circumstances of the acquisition. Such techniques and procedures include the following:

(i) Verification of cost or pricing data and evaluation of cost elements, including—

(A) The necessity for, and reasonableness of, proposed costs, including allowances for contingencies;

(B) Projection of the offeror's cost trends, on the basis of current and historical cost or pricing data;

(C) Reasonableness of estimates generated by appropriately calibrated and validated parametric models or cost-estimating relationships; and

(D) The application of audited or negotiated indirect cost rates, labor rates, and cost of money or other factors.

(ii) Evaluating the effect of the offeror's current practices on future costs. In conducting this evaluation, the contracting officer shall ensure that the effects of inefficient or uneconomical past practices are not projected into the future. In pricing production of recently developed complex equipment, the contracting officer should perform a trend analysis of basic labor and materials, even in periods of relative price stability.

(iii) Comparison of costs proposed by the offeror for individual cost elements with—

(A) Actual costs previously incurred by the same offeror;

(B) Previous cost estimates from the offeror or from other offerors for the same or similar items;

(C) Other cost estimates received in response to the Government's request;

(D) Independent Government cost estimates by technical personnel; and

(E) Forecasts of planned expenditures.

(iv) Verification that the offeror's cost submissions are in accordance with the contract cost principles and procedures in Part 31.

(v) Review to determine whether any cost or pricing data necessary to make the contractor's proposal accurate, complete, and current have not been either submitted or identified in writing by the contractor. If there are such data, the

contracting officer shall attempt to obtain them and negotiate, using them or making satisfactory allowance for the incomplete data.

(vi) Analysis of the results of any make-or-buy program reviews, in evaluating subcontract costs (see 15.407-2).

(d) *Cost realism analysis.* (1) Cost realism analysis is the process of independently reviewing and evaluating specific elements of each offeror's proposed cost estimate to determine whether the estimated proposed cost elements are realistic for the work to be performed; reflect a clear understanding of the requirements; and are consistent with the unique methods of performance and materials described in the offeror's technical proposal.

(2) Cost realism analyses shall be performed on cost-reimbursement contracts to determine the probable cost of performance for each offeror.

(i) The probable cost may differ from the proposed cost and should reflect the Government's best estimate of the cost of any contract that is most likely to result from the offeror's proposal. The probable cost shall be used for purposes of evaluation to determine the best value.

(ii) The probable cost is determined by adjusting each offeror's proposed cost, and fee when appropriate, to reflect any additions or reductions in cost elements to realistic levels based on the results of the cost realism analysis.

(3) Cost realism analyses may also be used on competitive fixed-price incentive contracts or, in exceptional cases, on other competitive fixed-price-type contracts when new requirements may not be fully understood by competing offerors, there are quality concerns, or past experience indicates that contractors' proposed costs have resulted in quality or service shortfalls. Results of the analysis may be used in performance risk assessments and responsibility determinations. However, proposals shall be evaluated using the criteria in the solicitation, and the offered prices shall not be adjusted as a result of the analysis.

(e) *Technical analysis.* (1) The contracting officer may request that personnel having specialized knowledge, skills, experience, or capability in engineering, science, or management perform a technical analysis of the proposed types and quantities of materials, labor, processes, special tooling, facilities, the reasonableness of scrap and spoilage, and other associated factors set forth in the proposal(s) in order to determine the need for and reasonableness of the proposed resources, assuming reasonable economy and efficiency.

(2) At a minimum, the technical analysis should examine the types and quantities of material proposed and the need for the types and quantities of labor hours and the labor mix. Any other data that may be pertinent to an assessment of the offeror's ability to accomplish the technical requirements or to the cost or price analysis of the service or product being proposed should also be included in the analysis.

(f) *Unit prices.* (1) Except when pricing an item on the basis of adequate price competition or catalog or market price, unit prices shall reflect the intrinsic value of an item or service and shall be in proportion to an item's base cost (e.g., manufacturing or acquisition costs). Any method of distributing costs to line items that distorts the unit prices shall not be used. For example, distributing costs equally among line items is not acceptable except when there is little or no variation in base cost.

(2) Except for the acquisition of commercial items, contracting officers shall require that offerors identify in their proposals those items of supply that they will not manufacture or to which they will not contribute significant value, unless adequate price competition is expected. Such information shall be used to determine whether the intrinsic value of an item has been distorted through application of overhead and whether such items should be considered for breakout. The contracting officer may require such information in all other negotiated contracts when appropriate.

(g) *Unbalanced pricing.* (1) Unbalanced pricing may increase performance risk and could result in payment of unreasonably high prices. Unbalanced pricing exists when, despite an acceptable total evaluated price, the price of one or more contract line items is significantly over or understated as indicated by the application of cost or price analysis techniques. The greatest risks associated with unbalanced pricing occur when—

(i) Startup work, mobilization, first articles, or first article testing are separate line items;

(ii) Base quantities and option quantities are separate line items; or

(iii) The evaluated price is the aggregate of estimated quantities to be ordered under separate line items of an indefinite-delivery contract.

(2) All offers with separately priced line items or sub-line items shall be analyzed to determine if the prices are unbalanced. If cost or price analysis techniques indicate that an offer is unbalanced, the contracting officer shall—

(i) Consider the risks to the Government associated with the unbalanced pricing in determining the competitive range and in making the source selection decision; and

(ii) Consider whether award of the contract will result in paying unreasonably high prices for contract performance.

(3) An offer may be rejected if the contracting officer determines that the lack of balance poses an unacceptable risk to the Government.

15.404-2 Information to support proposal analysis.

(a) *Field pricing assistance.* (1) The contracting officer should request field pricing assistance when the information available at the buying activity is inadequate to determine a fair and reasonable price. The contracting officer must tailor requests to reflect the minimum essential supplementary information needed to conduct a technical or cost or pricing analysis.

(2) The contracting officer must tailor the type of information and level of detail requested in accordance with the specialized resources available at the buying activity and the magnitude and complexity of the required analysis. Field pricing assistance is generally available to provide—

(i) Technical, audit, and special reports associated with the cost elements of a proposal, including subcontracts;

(ii) Information on related pricing practices and history;

(iii) Information to help contracting officers determine commerciality and price reasonableness, including—

(A) Verifying sales history to source documents;

(B) Identifying special terms and conditions;

(C) Identifying customarily granted or offered discounts for the item;

(D) Verifying the item to an existing catalog or price list;

(E) Verifying historical data for an item previously not determined commercial that the offeror is now trying to qualify as a commercial item; and

(F) Identifying general market conditions affecting determinations of commerciality and price reasonableness.

(iv) Information relative to the business, technical, production, or other capabilities and practices of an offeror.

(3) When field pricing assistance is requested, contracting officers are encouraged to team with appropriate field experts throughout the acquisition process, including negotiations. Early communication with these experts will assist in determining the extent of assistance required, the specific areas for which assistance is needed, a realistic review schedule, and the information necessary to perform the review.

(4) When requesting field pricing assistance on a contractor's request for equitable adjustment, the contracting officer shall provide the information listed in 43.204(b)(5).

(5) Field pricing information and other reports may include proprietary or source selection information (see 2.101). This information must be appropriately identified and protected accordingly.

(b) *Reporting field pricing information.* (1) Depending upon the extent and complexity of the field pricing review, results, including supporting rationale, may be reported directly to the contracting officer orally, in writing, or by any other method acceptable to the contracting officer.

(i) Whenever circumstances permit, the contracting officer and field pricing experts are encouraged to use telephonic and/or electronic means to request and transmit pricing information.

(ii) When it is necessary to have written technical and audit reports, the contracting officer shall request that the audit agency concurrently forward the audit report to the requesting contracting officer and the administrative contracting officer (ACO). The completed field pricing assistance results may reference audit information, but need not reconcile the audit recommendations and technical recommendations. A copy of the information submitted to the contracting officer by field pricing personnel shall be provided to the audit agency.

(2) Audit and field pricing information, whether written or reported telephonically or electronically, shall be made a part of the official contract file (see 4.807(f)).

(c) *Audit assistance for prime contracts or subcontracts.*

(1) The contracting officer may contact the cognizant audit office directly, particularly when an audit is the only field pricing support required. The audit office shall send the audit report, or otherwise transmit the audit recommendations, directly to the contracting officer.

(i) The auditor shall not reveal the audit conclusions or recommendations to the offeror/contractor without obtaining the concurrence of the contracting officer. However, the auditor may discuss statements of facts with the contractor.

(ii) The contracting officer should be notified immediately of any information disclosed to the auditor after submission of a report that may significantly affect the audit findings and, if necessary, a supplemental audit report shall be issued.

(2) The contracting officer shall not request a separate preaward audit of indirect costs unless the information already available from an existing audit, completed within the preceding 12 months, is considered inadequate for determining the reasonableness of the proposed indirect costs.

(3) The auditor is responsible for the scope and depth of the audit. Copies of updated information that will significantly affect the audit should be provided to the auditor by the contracting officer.

(4) General access to the offeror's books and financial records is limited to the auditor. This limitation does not preclude the contracting officer or the ACO, or their representatives, from requesting that the offeror provide or make available any data or records necessary to analyze the offeror's proposal.

(d) *Deficient proposals.* The ACO or the auditor, as appropriate, shall notify the contracting officer immediately if the data provided for review is so deficient as to preclude review or audit, or if the contractor or offeror has denied access to any records considered essential to conduct a satisfactory review or audit. Oral notifications shall be confirmed promptly in

writing, including a description of deficient or denied data or records. The contracting officer immediately shall take appropriate action to obtain the required data. Should the offeror/contractor again refuse to provide adequate data, or provide access to necessary data, the contracting officer shall withhold the award or price adjustment and refer the contract action to a higher authority, providing details of the attempts made to resolve the matter and a statement of the practicability of obtaining the supplies or services from another source.

15.404-3 Subcontract pricing considerations.

(a) The contracting officer is responsible for the determination of price reasonableness for the prime contract, including subcontracting costs. The contracting officer should consider whether a contractor or subcontractor has an approved purchasing system, has performed cost or price analysis of proposed subcontractor prices, or has negotiated the subcontract prices before negotiation of the prime contract, in determining the reasonableness of the prime contract price. This does not relieve the contracting officer from the responsibility to analyze the contractor's submission, including subcontractor's cost or pricing data.

(b) The prime contractor or subcontractor shall—

(1) Conduct appropriate cost or price analyses to establish the reasonableness of proposed subcontract prices;

(2) Include the results of these analyses in the price proposal; and

(3) When required by paragraph (c) of this subsection, submit subcontractor cost or pricing data to the Government as part of its own cost or pricing data.

(c) Any contractor or subcontractor that is required to submit cost or pricing data also shall obtain and analyze cost or pricing data before awarding any subcontract, purchase order, or modification expected to exceed the cost or pricing data threshold, unless an exception in 15.403-1(b) applies to that action.

(1) The contractor shall submit, or cause to be submitted by the subcontractor(s), cost or pricing data to the Government for subcontracts that are the lower of either—

(i) \$10,000,000 or more; or

(ii) Both more than the pertinent cost or pricing data threshold and more than 10 percent of the prime contractor's proposed price, unless the contracting officer believes such submission is unnecessary.

(2) The contracting officer may require the contractor or subcontractor to submit to the Government (or cause submission of) subcontractor cost or pricing data below the thresholds in paragraph (c)(1) of this subsection that the contracting officer considers necessary for adequately pricing the prime contract.

(3) Subcontractor cost or pricing data shall be submitted in the format provided in Table 15-2 of 15.408 or the alternate format specified in the solicitation.

(4) Subcontractor cost or pricing data shall be current, accurate, and complete as of the date of price agreement, or, if applicable, an earlier date agreed upon by the parties and specified on the contractor's Certificate of Current Cost or Pricing Data. The contractor shall update subcontractor's data, as appropriate, during source selection and negotiations.

(5) If there is more than one prospective subcontractor for any given work, the contractor need only submit to the Government cost or pricing data for the prospective subcontractor most likely to receive the award.

15.404-4 Profit.

(a) *General.* This subsection prescribes policies for establishing the profit or fee portion of the Government prenegotiation objective in price negotiations based on cost analysis.

(1) Profit or fee prenegotiation objectives do not necessarily represent net income to contractors. Rather, they represent that element of the potential total remuneration that contractors may receive for contract performance over and above allowable costs. This potential remuneration element and the Government's estimate of allowable costs to be incurred in contract performance together equal the Government's total prenegotiation objective. Just as actual costs may vary from estimated costs, the contractor's actual realized profit or fee may vary from negotiated profit or fee, because of such factors as efficiency of performance, incurrence of costs the Government does not recognize as allowable, and the contract type.

(2) It is in the Government's interest to offer contractors opportunities for financial rewards sufficient to stimulate efficient contract performance, attract the best capabilities of qualified large and small business concerns to Government contracts, and maintain a viable industrial base.

(3) Both the Government and contractors should be concerned with profit as a motivator of efficient and effective contract performance. Negotiations aimed merely at reducing prices by reducing profit, without proper recognition of the function of profit, are not in the Government's interest. Negotiation of extremely low profits, use of historical averages, or automatic application of predetermined percentages to total estimated costs do not provide proper motivation for optimum contract performance.

(b) *Policy.* (1) Structured approaches (see paragraph (d) of this subsection) for determining profit or fee prenegotiation objectives provide a discipline for ensuring that all relevant factors are considered. Subject to the authorities in 1.301(c), agencies making noncompetitive contract awards over \$100,000 totaling \$50 million or more a year—

(i) Shall use a structured approach for determining the profit or fee objective in those acquisitions that require cost analysis; and

(ii) May prescribe specific exemptions for situations in which mandatory use of a structured approach would be clearly inappropriate.

(2) Agencies may use another agency's structured approach.

(c) *Contracting officer responsibilities.* (1) When the price negotiation is not based on cost analysis, contracting officers are not required to analyze profit.

(2) When the price negotiation is based on cost analysis, contracting officers in agencies that have a structured approach shall use it to analyze profit. When not using a structured approach, contracting officers shall comply with paragraph (d)(1) of this subsection in developing profit or fee prenegotiation objectives.

(3) Contracting officers shall use the Government prenegotiation cost objective amounts as the basis for calculating the profit or fee prenegotiation objective. Before applying profit or fee factors, the contracting officer shall exclude any facilities capital cost of money included in the cost objective amounts. If the prospective contractor fails to identify or propose facilities capital cost of money in a proposal for a contract that will be subject to the cost principles for contracts with commercial organizations (see Subpart 31.2), facilities capital cost of money will not be an allowable cost in any resulting contract (see 15.408(i)).

(4)(i) The contracting officer shall not negotiate a price or fee that exceeds the following limitations:

(A) For experimental, developmental, or research work performed under a cost-plus-fixed-fee contract, the fee shall not exceed 15 percent of the contract's estimated cost, excluding fee.

(B) For architect-engineer services for public works or utilities, the contract price or the estimated cost and fee for production and delivery of designs, plans, drawings, and specifications shall not exceed 6 percent of the estimated cost of construction of the public work or utility, excluding fees.

(C) For other cost-plus-fixed-fee contracts, the fee shall not exceed 10 percent of the contract's estimated cost, excluding fee.

(ii) The contracting officer's signature on the price negotiation memorandum or other documentation supporting determination of fair and reasonable price documents the contracting officer's determination that the statutory price or fee limitations have not been exceeded.

(5) The contracting officer shall not require any prospective contractor to submit breakouts or supporting rationale for its profit or fee objective but may consider it, if it is submitted voluntarily.

(6) If a change or modification calls for essentially the same type and mix of work as the basic contract and is of relatively small dollar value compared to the total contract value, the contracting officer may use the basic contract's profit or fee rate as the prenegotiation objective for that change or modification.

(d) *Profit-analysis factors*—(1) *Common factors*. Unless it is clearly inappropriate or not applicable, each factor outlined in paragraphs (d)(1)(i) through (vi) of this subsection shall be considered by agencies in developing their structured approaches and by contracting officers in analyzing profit, whether or not using a structured approach.

(i) *Contractor effort*. This factor measures the complexity of the work and the resources required of the prospective contractor for contract performance. Greater profit opportunity should be provided under contracts requiring a high degree of professional and managerial skill and to prospective contractors whose skills, facilities, and technical assets can be expected to lead to efficient and economical contract performance. The subfactors in paragraphs (d)(1)(i)(A) through (D) of this subsection shall be considered in determining contractor effort, but they may be modified in specific situations to accommodate differences in the categories used by prospective contractors for listing costs—

(A) *Material acquisition*. This subfactor measures the managerial and technical effort needed to obtain the required purchased parts and material, subcontracted items, and special tooling. Considerations include the complexity of the items required, the number of purchase orders and subcontracts to be awarded and administered, whether established sources are available or new or second sources must be developed, and whether material will be obtained through routine purchase orders or through complex subcontracts requiring detailed specifications. Profit consideration should correspond to the managerial and technical effort involved.

(B) *Conversion direct labor*. This subfactor measures the contribution of direct engineering, manufacturing, and other labor to converting the raw materials, data, and subcontracted items into the contract items. Considerations include the diversity of engineering, scientific, and manufacturing labor skills required and the amount and quality of supervision and coordination needed to perform the contract task.

(C) *Conversion-related indirect costs*. This subfactor measures how much the indirect costs contribute to contract performance. The labor elements in the allocable indirect costs should be given the profit consideration they would receive if treated as direct labor. The other elements of indirect costs should be evaluated to determine whether they merit only limited profit consideration because of their routine nature, or are elements that contribute significantly to the proposed contract.

(D) *General management*. This subfactor measures the prospective contractor's other indirect costs and general and administrative (G&A) expense, their composition, and how much they contribute to contract performance. Considerations include how labor in the overhead pools would be treated if it were direct labor, whether elements within the pools are routine expenses or instead are elements that contribute significantly to the proposed contract, and whether the elements require routine as opposed to unusual managerial effort and attention.

(ii) *Contract cost risk*. (A) This factor measures the degree of cost responsibility and associated risk that the prospective contractor will assume as a result of the contract type contemplated and considering the reliability of the cost estimate in relation to the complexity and duration of the contract task. Determination of contract type should be closely related to the risks involved in timely, cost-effective, and efficient performance. This factor should compensate contractors proportionately for assuming greater cost risks.

(B) The contractor assumes the greatest cost risk in a closely priced firm-fixed-price contract under which it agrees to perform a complex undertaking on time and at a predetermined price. Some firm-fixed-price contracts may entail substantially less cost risk than others because, for example, the contract task is less complex or many of the contractor's costs are known at the time of price agreement, in which case the risk factor should be reduced accordingly. The contractor assumes the least cost risk in a cost-plus-fixed-fee level-of-effort contract, under which it is reimbursed those costs determined to be allocable and allowable, plus the fixed fee.

(C) In evaluating assumption of cost risk, contracting officers shall, except in unusual circumstances, treat time-and-materials, labor-hour, and firm-fixed-price, level-of-effort term contracts as cost-plus-fixed-fee contracts.

(iii) *Federal socioeconomic programs*. This factor measures the degree of support given by the prospective contractor to Federal socioeconomic programs, such as those involving small business concerns, small business concerns owned and controlled by socially and economically disadvantaged individuals, women-owned small business concerns, handicapped sheltered workshops, and energy conservation. Greater profit opportunity should be provided contractors that have displayed unusual initiative in these programs.

(iv) *Capital investments*. This factor takes into account the contribution of contractor investments to efficient and economical contract performance.

(v) *Cost-control and other past accomplishments*. This factor allows additional profit opportunities to a prospective contractor that has previously demonstrated its ability to perform similar tasks effectively and economically. In addition, consideration should be given to measures taken by the prospective contractor that result in productivity improve-

ments, and other cost-reduction accomplishments that will benefit the Government in follow-on contracts.

(vi) *Independent development.* Under this factor, the contractor may be provided additional profit opportunities in recognition of independent development efforts relevant to the contract end item without Government assistance. The contracting officer should consider whether the development cost was recovered directly or indirectly from Government sources.

(2) *Additional factors.* In order to foster achievement of program objectives, each agency may include additional factors in its structured approach or take them into account in the profit analysis of individual contract actions.

15.405 Price negotiation.

(a) The purpose of performing cost or price analysis is to develop a negotiation position that permits the contracting officer and the offeror an opportunity to reach agreement on a fair and reasonable price. A fair and reasonable price does not require that agreement be reached on every element of cost, nor is it mandatory that the agreed price be within the contracting officer's initial negotiation position. Taking into consideration the advisory recommendations, reports of contributing specialists, and the current status of the contractor's purchasing system, the contracting officer is responsible for exercising the requisite judgment needed to reach a negotiated settlement with the offeror and is solely responsible for the final price agreement. However, when significant audit or other specialist recommendations are not adopted, the contracting officer should provide rationale that supports the negotiation result in the price negotiation documentation.

(b) The contracting officer's primary concern is the overall price the Government will actually pay. The contracting officer's objective is to negotiate a contract of a type and with a price providing the contractor the greatest incentive for efficient and economical performance. The negotiation of a contract type and a price are related and should be considered together with the issues of risk and uncertainty to the contractor and the Government. Therefore, the contracting officer should not become preoccupied with any single element and should balance the contract type, cost, and profit or fee negotiated to achieve a total result—a price that is fair and reasonable to both the Government and the contractor.

(c) The Government's cost objective and proposed pricing arrangement directly affect the profit or fee objective. Because profit or fee is only one of several interrelated variables, the contracting officer shall not agree on profit or fee without concurrent agreement on cost and type of contract.

(d) If, however, the contractor insists on a price or demands a profit or fee that the contracting officer considers unreasonable, and the contracting officer has taken all authorized actions (including determining the feasibility of developing an alternative source) without success, the contracting officer

shall refer the contract action to a level above the contracting officer. Disposition of the action should be documented.

15.406 Documentation.

15.406-1 Prenegotiation objectives.

(a) The prenegotiation objectives establish the Government's initial negotiation position. They assist in the contracting officer's determination of fair and reasonable price. They should be based on the results of the contracting officer's analysis of the offeror's proposal, taking into consideration all pertinent information including field pricing assistance, audit reports and technical analysis, fact-finding results, independent Government cost estimates and price histories.

(b) The contracting officer shall establish prenegotiation objectives before the negotiation of any pricing action. The scope and depth of the analysis supporting the objectives should be directly related to the dollar value, importance, and complexity of the pricing action. When cost analysis is required, the contracting officer shall document the pertinent issues to be negotiated, the cost objectives, and a profit or fee objective.

15.406-2 Certificate of Current Cost or Pricing Data.

(a) When cost or pricing data are required, the contracting officer must require the contractor to execute a Certificate of Current Cost or Pricing Data, using the format in this paragraph, and must include the executed certificate in the contract file.

CERTIFICATE OF CURRENT COST OR PRICING DATA

This is to certify that, to the best of my knowledge and belief, the cost or pricing data (as defined in section 2.101 of the Materials Management Acquisition Regulation (MMAR) and required under MMAR subsection 15.403-4) submitted, either actually or by specific identification in writing, to the Contracting Officer or to the Contracting Officer's representative in support of _____* are accurate, complete, and current as of _____**. This certification includes the cost or pricing data supporting any advance agreements and forward pricing rate agreements between the offeror and the Government that are part of the proposal.

Firm _____

Signature _____

Name _____

Title _____

Date of execution*** _____

* Identify the proposal, request for price adjustment, or other submission involved, giving the appropriate identifying number (e.g., RFP No.).

**Insert the day, month, and year when price negotiations were concluded and price agreement was reached or, if applicable, an earlier date agreed upon between the parties that is as close as practicable to the date of agreement on price.

*** Insert the day, month, and year of signing, which should be as close as practicable to the date when the price negotiations were concluded and the contract price was agreed to.

(END OF CERTIFICATE)

(b) The certificate does not constitute a representation as to the accuracy of the contractor's judgment on the estimate of future costs or projections. It applies to the data upon which the judgment or estimate was based. This distinction between fact and judgment should be clearly understood. If the contractor had information reasonably available at the time of agreement showing that the negotiated price was not based on accurate, complete, and current data, the contractor's responsibility is not limited by any lack of personal knowledge of the information on the part of its negotiators.

(c) The contracting officer and contractor are encouraged to reach a prior agreement on criteria for establishing closing or cutoff dates when appropriate in order to minimize delays associated with proposal updates. Closing or cutoff dates should be included as part of the data submitted with the proposal and, before agreement on price, data should be updated by the contractor to the latest closing or cutoff dates for which the data are available. Use of cutoff dates coinciding with reports is acceptable, as certain data may not be reasonably available before normal periodic closing dates (*e.g.*, actual indirect costs). Data within the contractor's or a subcontractor's organization on matters significant to contractor management and to the Government will be treated as reasonably available. What is significant depends upon the circumstances of each acquisition.

(d) Possession of a Certificate of Current Cost or Pricing Data is not a substitute for examining and analyzing the contractor's proposal.

(e) If cost or pricing data are requested by the Government and submitted by an offeror, but an exception is later found to apply, the data shall not be considered cost or pricing data and shall not be certified in accordance with this subsection.

15.406-3 Documenting the negotiation.

(a) The contracting officer shall document in the contract file the principal elements of the negotiated agreement. The documentation (*e.g.*, price negotiation memorandum (PNM)) shall include the following:

- (1) The purpose of the negotiation.
- (2) A description of the acquisition, including appropriate identifying numbers (*e.g.*, RFP No.).

(3) The name, position, and organization of each person representing the contractor and the Government in the negotiation.

(4) The current status of any contractor systems (*e.g.*, purchasing, estimating, accounting, and compensation) to the extent they affected and were considered in the negotiation.

(5) If cost or pricing data were not required in the case of any price negotiation exceeding the cost or pricing data threshold, the exception used and the basis for it.

(6) If cost or pricing data were required, the extent to which the contracting officer—

(i) Relied on the cost or pricing data submitted and used them in negotiating the price;

(ii) Recognized as inaccurate, incomplete, or non-current any cost or pricing data submitted; the action taken by the contracting officer and the contractor as a result; and the effect of the defective data on the price negotiated; or

(iii) Determined that an exception applied after the data were submitted and, therefore, considered not to be cost or pricing data.

(7) A summary of the contractor's proposal, any field pricing assistance recommendations, including the reasons for any pertinent variances from them, the Government's negotiation objective, and the negotiated position. Where the determination of price reasonableness is based on cost analysis, the summary shall address each major cost element. When determination of price reasonableness is based on price analysis, the summary shall include the source and type of data used to support the determination.

(8) The most significant facts or considerations controlling the establishment of the prenegotiation objectives and the negotiated agreement including an explanation of any significant differences between the two positions.

(9) To the extent such direction has a significant effect on the action, a discussion and quantification of the impact of direction given by Congress, other agencies, and higher-level officials (*i.e.*, officials who would not normally exercise authority during the award and review process for the instant contract action).

(10) The basis for the profit or fee prenegotiation objective and the profit or fee negotiated.

(11) Documentation of fair and reasonable pricing.

(b) Whenever field pricing assistance has been obtained, the contracting officer shall forward a copy of the negotiation documentation to the office(s) providing assistance. When appropriate, information on how advisory field support can be made more effective should be provided separately.

15.407 Special cost or pricing areas.

15.407-1 Defective cost or pricing data.

(a) If, before agreement on price, the contracting officer learns that any cost or pricing data submitted are inaccurate,

incomplete, or noncurrent, the contracting officer shall immediately bring the matter to the attention of the prospective contractor, whether the defective data increase or decrease the contract price. The contracting officer shall consider any new data submitted to correct the deficiency, or consider the inaccuracy, incompleteness, or noncurrency of the data when negotiating the contract price. The price negotiation memorandum shall reflect the adjustments made to the data or the corrected data used to negotiate the contract price.

(b)(1) If, after award, cost or pricing data are found to be inaccurate, incomplete, or noncurrent as of the date of final agreement on price or an earlier date agreed upon by the parties given on the contractor's or subcontractor's Certificate of Current Cost or Pricing Data, the Government is entitled to a price adjustment, including profit or fee, of any significant amount by which the price was increased because of the defective data. This entitlement is ensured by including in the contract one of the clauses prescribed in 15.408(b) and (c) and is set forth in the clauses at 52.215-10, Price Reduction for Defective Cost or Pricing Data, and 52.215-11, Price Reduction for Defective Cost or Pricing Data—Modifications. The clauses give the Government the right to a price adjustment for defects in cost or pricing data submitted by the contractor, a prospective subcontractor, or an actual subcontractor.

(2) In arriving at a price adjustment, the contracting officer shall consider the time by which the cost or pricing data became reasonably available to the contractor, and the extent to which the Government relied upon the defective data.

(3) The clauses referred to in paragraph (b)(1) of this subsection recognize that the Government's right to a price adjustment is not affected by any of the following circumstances:

(i) The contractor or subcontractor was a sole source supplier or otherwise was in a superior bargaining position;

(ii) The contracting officer should have known that the cost or pricing data in issue were defective even though the contractor or subcontractor took no affirmative action to bring the character of the data to the attention of the contracting officer;

(iii) The contract was based on an agreement about the total cost of the contract and there was no agreement about the cost of each item procured under such contract; or

(iv) Cost or pricing data were required; however, the contractor or subcontractor did not submit a Certificate of Current Cost or Pricing Data relating to the contract.

(4) Subject to paragraphs (b)(5) and (6) of this subsection, the contracting officer shall allow an offset for any understated cost or pricing data submitted in support of price negotiations, up to the amount of the Government's claim for overstated pricing data arising out of the same pricing action (e.g., the initial pricing of the same contract or the pricing of the same change order).

(5) An offset shall be allowed only in an amount supported by the facts and if the contractor—

(i) Certifies to the contracting officer that, to the best of the contractor's knowledge and belief, the contractor is entitled to the offset in the amount requested; and

(ii) Proves that the cost or pricing data were available before the "as of" date specified on the Certificate of Current Cost or Pricing Data but were not submitted. Such offsets need not be in the same cost groupings (e.g., material, direct labor, or indirect costs).

(6) An offset shall not be allowed if—

(i) The understated data were known by the contractor to be understated before the "as of" date specified on the Certificate of Current Cost or Pricing Data; or

(ii) The Government proves that the facts demonstrate that the price would not have increased in the amount to be offset even if the available data had been submitted before the "as of" date specified on the Certificate of Current Cost or Pricing Data.

(7)(i) In addition to the price adjustment, the Government is entitled to recovery of any overpayment plus interest on the overpayments. The Government is also entitled to penalty amounts on certain of these overpayments. Overpayment occurs only when payment is made for supplies or services accepted by the Government. Overpayments do not result from amounts paid for contract financing, as defined in 32.001.

(ii) In calculating the interest amount due, the contracting officer shall—

(A) Determine the defective pricing amounts that have been overpaid to the contractor;

(B) Consider the date of each overpayment (the date of overpayment for this interest calculation shall be the date payment was made for the related completed and accepted contract items; or for subcontract defective pricing, the date payment was made to the prime contractor, based on prime contract progress billings or deliveries, which included payments for a completed and accepted subcontract item); and

(C) Apply the underpayment interest rate(s) in effect for each quarter from the time of overpayment to the time of repayment, utilizing rate(s) prescribed by the Secretary of the Treasury under 26 U.S.C. 6621(a)(2).

(iii) In arriving at the amount due for penalties on contracts where the submission of defective cost or pricing data was a knowing submission, the contracting officer shall obtain an amount equal to the amount of overpayment made. Before taking any contractual actions concerning penalties, the contracting officer shall obtain the advice of counsel.

(iv) In the demand letter, the contracting officer shall separately include—

(A) The repayment amount;

(B) The penalty amount (if any);

(C) The interest amount through a specified date; and

(D) A statement that interest will continue to accrue until repayment is made.

(c) If, after award, the contracting officer learns or suspects that the data furnished were not accurate, complete, and current, or were not adequately verified by the contractor as of the time of negotiation, the contracting officer shall request an audit to evaluate the accuracy, completeness, and currency of the data. The Government may evaluate the profit-cost relationships only if the audit reveals that the data certified by the contractor were defective. The contracting officer shall not reprice the contract solely because the profit was greater than forecast or because a contingency specified in the submission failed to materialize.

(d) For each advisory audit received based on a postaward review that indicates defective pricing, the contracting officer shall make a determination as to whether or not the data submitted were defective and relied upon. Before making such a determination, the contracting officer should give the contractor an opportunity to support the accuracy, completeness, and currency of the data in question. The contracting officer shall prepare a memorandum documenting both the determination and any corrective action taken as a result. The contracting officer shall send one copy of this memorandum to the auditor and, if the contract has been assigned for administration, one copy to the administrative contracting officer (ACO). A copy of the memorandum or other notice of the contracting officer's determination shall be provided to the contractor.

(e) If both the contractor and subcontractor submitted, and the contractor certified, or should have certified, cost or pricing data, the Government has the right, under the clauses at 52.215-10, Price Reduction for Defective Cost or Pricing Data, and 52.215-11, Price Reduction for Defective Cost or Pricing Data—Modifications, to reduce the prime contract price if it was significantly increased because a subcontractor submitted defective data. This right applies whether these data supported subcontract cost estimates or supported firm agreements between subcontractor and contractor.

(f) If Government audit discloses defective subcontractor cost or pricing data, the information necessary to support a reduction in prime contract and subcontract prices may be available only from the Government. To the extent necessary to secure a prime contract price reduction, the contracting officer should make this information available to the prime contractor or appropriate subcontractors, upon request. If release of the information would compromise Government security or disclose trade secrets or confidential business information, the contracting officer shall release it only under conditions that will protect it from improper disclosure. Information made available under this paragraph shall be limited to that used as the basis for the prime contract price reduction. In order to afford an opportunity for corrective action, the

contracting officer should give the prime contractor reasonable advance notice before determining to reduce the prime contract price.

(1) When a prime contractor includes defective subcontract data in arriving at the price but later awards the subcontract to a lower priced subcontractor (or does not subcontract for the work), any adjustment in the prime contract price due to defective subcontract data is limited to the difference (plus applicable indirect cost and profit markups) between the subcontract price used for pricing the prime contract, and either the actual subcontract price or the actual cost to the contractor, if not subcontracted, provided the data on which the actual subcontract price is based are not themselves defective.

(2) Under cost-reimbursement contracts and under all fixed-price contracts except firm-fixed-price contracts and fixed-price contracts with economic price adjustment, payments to subcontractors that are higher than they would be had there been no defective subcontractor cost or pricing data shall be the basis for disallowance or nonrecognition of costs under the clauses prescribed in 15.408(b) and (c). The Government has a continuing and direct financial interest in such payments that is unaffected by the initial agreement on prime contract price.

15.407-2 Make-or-buy programs.

(a) *General.* The prime contractor is responsible for managing contract performance, including planning, placing, and administering subcontracts as necessary to ensure the lowest overall cost and technical risk to the Government. When make-or-buy programs are required, the Government may reserve the right to review and agree on the contractor's make-or-buy program when necessary to ensure negotiation of reasonable contract prices, satisfactory performance, or implementation of socioeconomic policies. Consent to subcontracts and review of contractors' purchasing systems are separate actions covered in Part 44.

(b) *Definition.* "Make item," as used in this subsection, means an item or work effort to be produced or performed by the prime contractor or its affiliates, subsidiaries, or divisions.

(c) *Acquisitions requiring make-or-buy programs.*

(1) Contracting officers may require prospective contractors to submit make-or-buy program plans for negotiated acquisitions requiring cost or pricing data whose estimated value is \$10 million or more, except when the proposed contract is for research or development and, if prototypes or hardware are involved, no significant follow-on production is anticipated.

(2) Contracting officers may require prospective contractors to submit make-or-buy programs for negotiated acquisitions whose estimated value is under \$10 million only if the contracting officer—

- (i) Determines that the information is necessary; and
- (ii) Documents the reasons in the contract file.

(d) *Solicitation requirements.* When prospective contractors are required to submit proposed make-or-buy programs, the solicitation shall include—

(1) A statement that the program and required supporting information must accompany the offer; and

(2) A description of factors to be used in evaluating the proposed program, such as capability, capacity, availability of small, small disadvantaged, and women-owned small business concerns for subcontracting, establishment of new facilities in or near labor surplus areas, delivery or performance schedules, control of technical and schedule interfaces, proprietary processes, technical superiority or exclusiveness, and technical risks involved.

(e) *Program requirements.* To support a make-or-buy program, the following information shall be supplied by the contractor in its proposal:

(1) *Items and work included.* The information required from a contractor in a make-or-buy program shall be confined to those major items or work efforts that normally would require company management review of the make-or-buy decision because they are complex, costly, needed in large quantities, or require additional facilities to produce. Raw materials, commercial items (see 2.101), and off-the-shelf items (see 46.101) shall not be included, unless their potential impact on contract cost or schedule is critical. Normally, make-or-buy programs should not include items or work efforts estimated to cost less than 1 percent of the total estimated contract price or any minimum dollar amount set by the agency.

(2) The offeror's program should include or be supported by the following information:

(i) A description of each major item or work effort.

(ii) Categorization of each major item or work effort as “must make,” “must buy,” or “can either make or buy.”

(iii) For each item or work effort categorized as “can either make or buy,” a proposal either to “make” or to “buy.”

(iv) Reasons for categorizing items and work efforts as “must make” or “must buy,” and proposing to “make” or to “buy” those categorized as “can either make or buy.” The reasons must include the consideration given to the evaluation factors described in the solicitation and must be in sufficient detail to permit the contracting officer to evaluate the categorization or proposal.

(v) Designation of the plant or division proposed to make each item or perform each work effort, and a statement as to whether the existing or proposed new facility is in or near a labor surplus area.

(vi) Identification of proposed subcontractors, if known, and their location and size status (also see Subpart 19.7 for subcontracting plan requirements).

(vii) Any recommendations to defer make-or-buy decisions when categorization of some items or work efforts is impracticable at the time of submission.

(viii) Any other information the contracting officer requires in order to evaluate the program.

(f) *Evaluation, negotiation, and agreement.* Contracting officers shall evaluate and negotiate proposed make-or-buy programs as soon as practicable after their receipt and before contract award.

(1) When the program is to be incorporated in the contract and the design status of the product being acquired does not permit accurate precontract identification of major items or work efforts, the contracting officer shall notify the prospective contractor in writing that these items or efforts, when identifiable, shall be added under the clause at 52.215-9, Changes or Additions to Make-or-Buy Program.

(2) Contracting officers normally shall not agree to proposed “make items” when the products or services are not regularly manufactured or provided by the contractor and are available—quality, quantity, delivery, and other essential factors considered—from another firm at equal or lower prices, or when they are regularly manufactured or provided by the contractor, but are available—quality, quantity, delivery, and other essential factors considered—from another firm at lower prices. However, the contracting officer may agree to these as “make items” if an overall lower Governmentwide cost would result or it is otherwise in the best interest of the Government. If this situation occurs in any fixed-price incentive or cost-plus-incentive-fee contract, the contracting officer shall specify these items in the contract and state that they are subject to paragraph (d) of the clause at 52.215-9, Changes or Additions to Make-or-Buy Program (see 15.408(a)). If the contractor proposes to reverse the categorization of such items during contract performance, the contract price shall be subject to equitable reduction.

(g) *Incorporating make-or-buy programs in contracts.* The contracting officer may incorporate the make-or-buy program in negotiated contracts for—

(1) Major systems (see Part 34) or their subsystems or components, regardless of contract type; or

(2) Other supplies and services if—

(i) The contract is a cost-reimbursable contract, or a cost-sharing contract in which the contractor's share of the cost is less than 25 percent; and

(ii) The contracting officer determines that technical or cost risks justify Government review and approval of changes or additions to the make-or-buy program.

15.407-3 Forward pricing rate agreements.

(a) When cost or pricing data are required, offerors are required to describe any forward pricing rate agreements (FPRA's) in each specific pricing proposal to which the rates apply and to identify the latest cost or pricing data already submitted in accordance with the agreement. All data submitted in connection with the agreement, updated as necessary, form a part of the total data that the offeror certifies to be accu-

rate, complete, and current at the time of agreement on price for an initial contract or for a contract modification.

(b) Contracting officers will use FPRA rates as bases for pricing all contracts, modifications, and other contractual actions to be performed during the period covered by the agreement. Conditions that may affect the agreement's validity shall be reported promptly to the ACO. If the ACO determines that a changed condition invalidates the agreement, the ACO shall notify all interested parties of the extent of its effect and status of efforts to establish a revised FPRA.

(c) Contracting officers shall not require certification at the time of agreement for data supplied in support of FPRA's or other advance agreements. When a forward pricing rate agreement or other advance agreement is used to price a contract action that requires a certificate, the certificate supporting that contract action shall cover the data supplied to support the FPRA or other advance agreement, and all other data supporting the action.

15.407-4 Should-cost review.

(a) *General.* (1) Should-cost reviews are a specialized form of cost analysis. Should-cost reviews differ from traditional evaluation methods because they do not assume that a contractor's historical costs reflect efficient and economical operation. Instead, these reviews evaluate the economy and efficiency of the contractor's existing work force, methods, materials, facilities, operating systems, and management. These reviews are accomplished by a multi-functional team of Government contracting, contract administration, pricing, audit, and engineering representatives. The objective of should-cost reviews is to promote both short and long-range improvements in the contractor's economy and efficiency in order to reduce the cost of performance of Government contracts. In addition, by providing rationale for any recommendations and quantifying their impact on cost, the Government will be better able to develop realistic objectives for negotiation.

(2) There are two types of should-cost reviews—program should-cost review (see paragraph (b) of this subsection) and overhead should-cost review (see paragraph (c) of this subsection). These should-cost reviews may be performed together or independently. The scope of a should-cost review can range from a large-scale review examining the contractor's entire operation (including plant-wide overhead and selected major subcontractors) to a small-scale tailored review examining specific portions of a contractor's operation.

(b) *Program should-cost review.* (1) A program should-cost review is used to evaluate significant elements of direct costs, such as material and labor, and associated indirect costs, usually associated with the production of major systems. When a program should-cost review is conducted relative to a contractor proposal, a separate audit report on the proposal is required.

(2) A program should-cost review should be considered, particularly in the case of a major system acquisition (see Part 34), when—

- (i) Some initial production has already taken place;
- (ii) The contract will be awarded on a sole source basis;
- (iii) There are future year production requirements for substantial quantities of like items;
- (iv) The items being acquired have a history of increasing costs;
- (v) The work is sufficiently defined to permit an effective analysis and major changes are unlikely;
- (vi) Sufficient time is available to plan and adequately conduct the should-cost review; and
- (vii) Personnel with the required skills are available or can be assigned for the duration of the should-cost review.

(3) The contracting officer should decide which elements of the contractor's operation have the greatest potential for cost savings and assign the available personnel resources accordingly. The expertise of on-site Government personnel should be used, when appropriate. While the particular elements to be analyzed are a function of the contract work task, elements such as manufacturing, pricing and accounting, management and organization, and subcontract and vendor management are normally reviewed in a should-cost review.

(4) In acquisitions for which a program should-cost review is conducted, a separate program should-cost review team report, prepared in accordance with agency procedures, is required. The contracting officer shall consider the findings and recommendations contained in the program should-cost review team report when negotiating the contract price. After completing the negotiation, the contracting officer shall provide the ACO a report of any identified uneconomical or inefficient practices, together with a report of correction or disposition agreements reached with the contractor. The contracting officer shall establish a follow-up plan to monitor the correction of the uneconomical or inefficient practices.

(5) When a program should-cost review is planned, the contracting officer should state this fact in the acquisition plan or acquisition plan updates (see Subpart 7.1) and in the solicitation.

(c) *Overhead should-cost review.* (1) An overhead should-cost review is used to evaluate indirect costs, such as fringe benefits, shipping and receiving, facilities and equipment, depreciation, plant maintenance and security, taxes, and gen-

eral and administrative activities. It is normally used to evaluate and negotiate an FPRA with the contractor. When an overhead should-cost review is conducted, a separate audit report is required.

(2) The following factors should be considered when selecting contractor sites for overhead should-cost reviews:

- (i) Dollar amount of Government business.
- (ii) Level of Government participation.
- (iii) Level of noncompetitive Government contracts.
- (iv) Volume of proposal activity.
- (v) Major system or program.
- (vi) Corporate reorganizations, mergers, acquisitions, or takeovers.
- (vii) Other conditions (*e.g.*, changes in accounting systems, management, or business activity).

(3) The objective of the overhead should-cost review is to evaluate significant indirect cost elements in-depth, and identify and recommend corrective actions regarding inefficient and uneconomical practices. If it is conducted in conjunction with a program should-cost review, a separate overhead should-cost review report is not required. However, the findings and recommendations of the overhead should-cost team, or any separate overhead should-cost review report, shall be provided to the ACO. The ACO should use this information to form the basis for the Government position in negotiating an FPRA with the contractor. The ACO shall establish a follow-up plan to monitor the correction of the uneconomical or inefficient practices.

15.407-5 Estimating systems.

(a) Using an acceptable estimating system for proposal preparation benefits both the Government and the contractor by increasing the accuracy and reliability of individual proposals. Cognizant audit activities, when it is appropriate to do so, shall establish and manage regular programs for reviewing selected contractors' estimating systems or methods, in order to reduce the scope of reviews to be performed on individual proposals, expedite the negotiation process, and increase the reliability of proposals. The results of estimating system reviews shall be documented in survey reports.

(b) The auditor shall send a copy of the estimating system survey report and a copy of the official notice of corrective action required to each contracting office and contract administration office having substantial business with that contractor. Significant deficiencies not corrected by the contractor shall be a consideration in subsequent proposal analyses and negotiations.

15.408 Solicitation provisions and contract clauses.

(a) *Changes or Additions to Make-or-Buy Program.* The contracting officer shall insert the clause at 52.215-9, Changes or Additions to Make-or-Buy Program, in solicitations and contracts when it is contemplated that a make-or-

buy program will be incorporated in the contract. If a less economical "make" or "buy" categorization is selected for one or more items of significant value, the contracting officer shall use the clause with—

- (1) Its Alternate I, if a fixed-price incentive contract is contemplated; or
- (2) Its Alternate II, if a cost-plus-incentive-fee contract is contemplated.

(b) *Price Reduction for Defective Cost or Pricing Data.* The contracting officer shall, when contracting by negotiation, insert the clause at 52.215-10, Price Reduction for Defective Cost or Pricing Data, in solicitations and contracts when it is contemplated that cost or pricing data will be required from the contractor or any subcontractor (see 15.403-4).

(c) *Price Reduction for Defective Cost or Pricing Data—Modifications.* The contracting officer shall, when contracting by negotiation, insert the clause at 52.215-11, Price Reduction for Defective Cost or Pricing Data—Modifications, in solicitations and contracts when it is contemplated that cost or pricing data will be required from the contractor or any subcontractor (see 15.403-4) for the pricing of contract modifications, and the clause prescribed in paragraph (b) of this section has not been included.

(d) *Subcontractor Cost or Pricing Data.* The contracting officer shall insert the clause at 52.215-12, Subcontractor Cost or Pricing Data, in solicitations and contracts when the clause prescribed in paragraph (b) of this section is included.

(e) *Subcontractor Cost or Pricing Data—Modifications.* The contracting officer shall insert the clause at 52.215-13, Subcontractor Cost or Pricing Data—Modifications, in solicitations and contracts when the clause prescribed in paragraph (c) of this section is included.

(f) *Integrity of Unit Prices.* (1) The contracting officer shall insert the clause at 52.215-14, Integrity of Unit Prices, in solicitations and contracts except for—

- (i) Acquisitions at or below the simplified acquisition threshold;
- (ii) Construction or architect-engineer services under Part 36;
- (iii) Utility services under Part 41;
- (iv) Service contracts where supplies are not required;
- (v) Acquisitions of commercial items; and
- (vi) Contracts for petroleum products.

(2) The contracting officer shall insert the clause with its Alternate I when contracting without adequate price competition or when prescribed by agency regulations.

(g) *Pension Adjustments and Asset Reversions.* The contracting officer shall insert the clause at 52.215-15, Pension Adjustments and Asset Reversions, in solicitations and contracts for which it is anticipated that cost or pricing data will

be required or for which any preaward or postaward cost determinations will be subject to Part 31.

(h) *Facilities Capital Cost of Money*. The contracting officer shall insert the provision at 52.215-16, Facilities Capital Cost of Money, in solicitations expected to result in contracts that are subject to the cost principles for contracts with commercial organizations (see Subpart 31.2).

(i) *Waiver of Facilities Capital Cost of Money*. If the prospective contractor does not propose facilities capital cost of money in its offer, the contracting officer shall insert the clause at 52.215-17, Waiver of Facilities Capital Cost of Money, in the resulting contract.

(j) *Reversion or Adjustment of Plans for Postretirement Benefits (PRB) Other Than Pensions*. The contracting officer shall insert the clause at 52.215-18, Reversion or Adjustment of Plans for Postretirement Benefits (PRB) Other Than Pensions, in solicitations and contracts for which it is anticipated that cost or pricing data will be required or for which any preaward or postaward cost determinations will be subject to Part 31.

(k) *Notification of Ownership Changes*. The contracting officer shall insert the clause at 52.215-19, Notification of Ownership Changes, in solicitations and contracts for which it is contemplated that cost or pricing data will be required or for which any preaward or postaward cost determination will be subject to Subpart 31.2.

(l) *Requirements for Cost or Pricing Data or Information Other Than Cost or Pricing Data*. Considering the hierarchy at 15.402, the contracting officer may insert the provision at 52.215-20, Requirements for Cost or Pricing Data or Information Other Than Cost or Pricing Data, in solicitations if it is reasonably certain that cost or pricing data or information other than cost or pricing data will be required. This provision

also provides instructions to offerors on how to request an exception. The contracting officer shall—

(1) Use the provision with its Alternate I to specify a format for cost or pricing data other than the format required by Table 15-2 of this section;

(2) Use the provision with its Alternate II if copies of the proposal are to be sent to the ACO and contract auditor;

(3) Use the provision with its Alternate III if submission via electronic media is required; and

(4) Replace the basic provision with its Alternate IV if cost or pricing data are not expected to be required because an exception may apply, but information other than cost or pricing data is required as described in 15.403-3.

(m) *Requirements for Cost or Pricing Data or Information Other Than Cost or Pricing Data—Modifications*. Considering the hierarchy at 15.402, the contracting officer may insert the clause at 52.215-21, Requirements for Cost or Pricing Data or Information Other Than Cost or Pricing Data—Modifications, in solicitations and contracts if it is reasonably certain that cost or pricing data or information other than cost or pricing data will be required for modifications. This clause also provides instructions to contractors on how to request an exception. The contracting officer shall—

(1) Use the clause with its Alternate I to specify a format for cost or pricing data other than the format required by Table 15-2 of this section;

(2) Use the clause with its Alternate II if copies of the proposal are to be sent to the ACO and contract auditor;

(3) Use the clause with its Alternate III if submission via electronic media is required; and

(4) Replace the basic clause with its Alternate IV if cost or pricing data are not expected to be required because an exception may apply, but information other than cost or pricing data is required as described in 15.403-3.

TABLE 15-2—INSTRUCTIONS FOR SUBMITTING COST/PRICE PROPOSALS WHEN COST OR PRICING DATA ARE REQUIRED

This document provides instructions for preparing a contract pricing proposal when cost or pricing data are required.

NOTE 1. There is a clear distinction between submitting cost or pricing data and merely making available books, records, and other documents without identification. The requirement for submission of cost or pricing data is met when all accurate cost or pricing data reasonably available to the offeror have been submitted, either actually or by specific identification, to the Contracting Officer or an authorized representative. As later information comes into your possession, it should be submitted promptly to the Contracting Officer in a manner that clearly shows how the information relates to the offeror's price proposal. The requirement for submission of cost or pricing data continues up to the time of agreement on price, or an earlier date agreed upon between the parties if applicable.

NOTE 2. By submitting your proposal, you grant the Contracting Officer or an authorized representative the right to examine records that formed the basis for the pricing proposal. That examination can take place at any time before award. It may include those books, records, documents, and other types of factual information (regardless of form or whether the information is specifically referenced or included in the proposal as the basis for pricing) that will permit an adequate evaluation of the proposed price.

I. General Instructions

A. You must provide the following information on the first page of your pricing proposal:

- (1) Solicitation, contract, and/or modification number;
- (2) Name and address of offeror;
- (3) Name and telephone number of point of contact;
- (4) Name of contract administration office (if available);

TABLE 15-2—INSTRUCTIONS FOR SUBMITTING COST/PRICE PROPOSALS WHEN COST OR PRICING DATA ARE REQUIRED

- (5) Type of contract action (that is, new contract, change order, price revision/redetermination, letter contract, unpressed order, or other);
- (6) Proposed cost; profit or fee; and total;
- (7) Whether you will require the use of Government property in the performance of the contract, and, if so, what property;
- (8) Whether your organization is subject to cost accounting standards; whether your organization has submitted a CASB Disclosure Statement, and if it has been determined adequate; whether you have been notified that you are or may be in noncompliance with your Disclosure Statement or CAS (other than a noncompliance that the cognizant Federal agency official has determined to have an immaterial cost impact), and, if yes, an explanation; whether any aspect of this proposal is inconsistent with your disclosed practices or applicable CAS, and, if so, an explanation; and whether the proposal is consistent with your established estimating and accounting principles and procedures and MMAR Part 31, Cost Principles, and, if not, an explanation;
- (9) The following statement:
 This proposal reflects our estimates and/or actual costs as of this date and conforms with the instructions in MMAR 15.403-5(b)(1) and Table 15-2. By submitting this proposal, we grant the Contracting Officer and authorized representative(s) the right to examine, at any time before award, those records, which include books, documents, accounting procedures and practices, and other data, regardless of type and form or whether such supporting information is specifically referenced or included in the proposal as the basis for pricing, that will permit an adequate evaluation of the proposed price.
- (10) Date of submission; and
- (11) Name, title, and signature of authorized representative.
- B. In submitting your proposal, you must include an index, appropriately referenced, of all the cost or pricing data and information accompanying or identified in the proposal. In addition, you must annotate any future additions and/or revisions, up to the date of agreement on price, or an earlier date agreed upon by the parties, on a supplemental index.
- C. As part of the specific information required, you must submit, with your proposal, cost or pricing data (that is, data that are verifiable and factual and otherwise as defined at MMAR 2.101). You must clearly identify on your cover sheet that cost or pricing data are included as part of the proposal. In addition, you must submit with your proposal any information reasonably required to explain your estimating process, including—
 - (a) The judgmental factors applied and the mathematical or other methods used in the estimate, including those used in projecting from known data; and
 - (b) The nature and amount of any contingencies included in the proposed price.
- D. You must show the relationship between contract line item prices and the total contract price. You must attach cost-element breakdowns for each proposed line item, using the appropriate format prescribed in the “Formats for Submission of Line Item Summaries” section of this table. You must furnish supporting breakdowns for each cost element, consistent with your cost accounting system.
- E. When more than one contract line item is proposed, you must also provide summary total amounts covering all line items for each element of cost.
- F. Whenever you have incurred costs for work performed before submission of a proposal, you must identify those costs in your cost/price proposal.
- G. If you have reached an agreement with Government representatives on use of forward pricing rates/factors, identify the agreement, include a copy, and describe its nature.
- H. As soon as practicable after final agreement on price or an earlier date agreed to by the parties, but before the award resulting from the proposal, you must, under the conditions stated in MMAR 15.406-2, submit a Certificate of Current Cost or Pricing Data.

II. Cost Elements

Depending on your system, you must provide breakdowns for the following basic cost elements, as applicable:

- A. *Materials and services.* Provide a consolidated priced summary of individual material quantities included in the various tasks, orders, or contract line items being proposed and the basis for pricing (vendor quotes, invoice prices, etc.). Include raw materials, parts, components, assemblies, and services to be produced or performed by others. For all items proposed, identify the item and show the source, quantity, and price. Conduct price analyses of all subcontractor proposals. Conduct cost analyses for all subcontracts when cost or pricing data are submitted by the subcontractor. Include these analyses as part of your own cost or pricing data submissions for subcontracts expected to exceed the appropriate threshold in MMAR 15.403-4. Submit the subcontractor cost or pricing data as part of your own cost or pricing data as required in paragraph IIA(2) of this table. These requirements also apply to all subcontractors if required to submit cost or pricing data.
 - (1) *Adequate Price Competition.* Provide data showing the degree of competition and the basis for establishing the source and reasonableness of price for those acquisitions (such as subcontracts, purchase orders, material order, etc.) exceeding, or expected to exceed, the appropriate threshold set forth at MMAR 15.403-4 priced on the basis of adequate price competition. For interorganizational transfers priced at other than the cost of comparable competitive commercial work of the division, subsidiary, or affiliate of the contractor, explain the pricing method (see MMAR 31.205-26(e)).

TABLE 15-2—INSTRUCTIONS FOR SUBMITTING COST/PRICE PROPOSALS WHEN COST OR PRICING DATA ARE REQUIRED

- (2) *All Other*. Obtain cost or pricing data from prospective sources for those acquisitions (such as subcontracts, purchase orders, material order, etc.) exceeding the threshold set forth in MMAR 15.403-4 and not otherwise exempt, in accordance with MMAR 15.403-1(b) (i.e., adequate price competition, commercial items, prices set by law or regulation or waiver). Also provide data showing the basis for establishing source and reasonableness of price. In addition, provide a summary of your cost analysis and a copy of cost or pricing data submitted by the prospective source in support of each subcontract, or purchase order that is the lower of either \$10,000,000 or more, or both more than the pertinent cost or pricing data threshold and more than 10 percent of the prime contractor’s proposed price. The Contracting Officer may require you to submit cost or pricing data in support of proposals in lower amounts. Subcontractor cost or pricing data must be accurate, complete and current as of the date of final price agreement, or an earlier date agreed upon by the parties, given on the prime contractor’s Certificate of Current Cost or Pricing Data. The prime contractor is responsible for updating a prospective subcontractor’s data. For standard commercial items fabricated by the offeror that are generally stocked in inventory, provide a separate cost breakdown, if priced based on cost. For interorganizational transfers priced at cost, provide a separate breakdown of cost elements. Analyze the cost or pricing data and submit the results of your analysis of the prospective source’s proposal. When submission of a prospective source’s cost or pricing data is required as described in this paragraph, it must be included along with your own cost or pricing data submission, as part of your own cost or pricing data. You must also submit any other cost or pricing data obtained from a subcontractor, either actually or by specific identification, along with the results of any analysis performed on that data.
- B. *Direct Labor*. Provide a time-phased (e.g., monthly, quarterly, etc.) breakdown of labor hours, rates, and cost by appropriate category, and furnish bases for estimates.
- C. *Indirect Costs*. Indicate how you have computed and applied your indirect costs, including cost breakdowns. Show trends and budgetary data to provide a basis for evaluating the reasonableness of proposed rates. Indicate the rates used and provide an appropriate explanation.
- D. *Other Costs*. List all other costs not otherwise included in the categories described above (e.g., special tooling, travel, computer and consultant services, preservation, packaging and packing, spoilage and rework, and Federal excise tax on finished articles) and provide bases for pricing.
- E. *Royalties*. If royalties exceed \$1,500, you must provide the following information on a separate page for each separate royalty or license fee:
- (1) Name and address of licensor.
 - (2) Date of license agreement.
 - (3) Patent numbers.
 - (4) Patent application serial numbers, or other basis on which the royalty is payable.
 - (5) Brief description (including any part or model numbers of each contract item or component on which the royalty is payable)
 - (6) Percentage or dollar rate of royalty per unit.
 - (7) Unit price of contract item.
 - (8) Number of units.
 - (9) Total dollar amount of royalties.
 - (10) If specifically requested by the Contracting Officer, a copy of the current license agreement and identification of applicable claims of specific patents (see MMAR 27.204 and 31.205-37).
- F. *Facilities Capital Cost of Money*. When you elect to claim facilities capital cost of money as an allowable cost, you must submit Form CASB-CMF and show the calculation of the proposed amount (see MMAR 31.205-10).

III. Formats for Submission of Line Item Summaries

A. *New Contracts (including letter contracts)*.

COST ELEMENTS (1)	PROPOSED CONTRACT ESTIMATE— TOTAL COST (2)	PROPOSED CONTRACT ESTIMATE— UNIT COST (3)	REFERENCE (4)
--------------------------	--	---	----------------------

<u>Column</u>	<u>Instruction</u>
(1)	Enter appropriate cost elements.

TABLE 15-2—INSTRUCTIONS FOR SUBMITTING COST/PRICE PROPOSALS WHEN COST OR PRICING DATA ARE REQUIRED

- (2) Enter those necessary and reasonable costs that, in your judgment, will properly be incurred in efficient contract performance. When any of the costs in this column have already been incurred (*e.g.*, under a letter contract), describe them on an attached supporting page. When preproduction or startup costs are significant, or when specifically requested to do so by the Contracting Officer, provide a full identification and explanation of them.
- (3) Optional, unless required by the Contracting Officer.
- (4) Identify the attachment in which the information supporting the specific cost element may be found.

(Attach separate pages as necessary.)

B. Change Orders, Modifications, and Claims.

COST ELEMENTS	ESTIMATED COST OF ALL WORK DELETED	COST OF DELETED WORK ALREADY PERFORMED	NET COST TO BE DELETED	COST OF WORK ADDED	NET COST OF CHANGE	REFERENCE
(1)	(2)	(3)	(4)	(5)	(6)	(7)

ColumnInstruction

- (1) Enter appropriate cost elements.
- (2) Include the current estimates of what the cost would have been to complete the deleted work not yet performed (not the original proposal estimates), and the cost of deleted work already performed.
- (3) Include the incurred cost of deleted work already performed, using actuals incurred if possible, or, if actuals are not available, estimates from your accounting records. Attach a detailed inventory of work, materials, parts, components, and hardware already purchased, manufactured, or performed and deleted by the change, indicating the cost and proposed disposition of each line item. Also, if you desire to retain these items or any portion of them, indicate the amount offered for them.
- (4) Enter the net cost to be deleted, which is the estimated cost of all deleted work less the cost of deleted work already performed. Column (2) minus Column (3) equals Column (4).
- (5) Enter your estimate for cost of work added by the change. When nonrecurring costs are significant, or when specifically requested to do so by the Contracting Officer, provide a full identification and explanation of them. When any of the costs in this column have already been incurred, describe them on an attached supporting schedule.
- (6) Enter the net cost of change, which is the cost of work added, less the net cost to be deleted. Column (5) minus Column (4) equals Column (6). When this result is negative, place the amount in parentheses.
- (7) Identify the attachment in which the information supporting the specific cost element may be found.

(Attach separate pages as necessary.)

C. Price Revision/Redetermination.

CUTOFF DATE	NUMBER OF UNITS COMPLETED	NUMBER OF UNITS TO BE COMPLETED	CONTRACT AMOUNT	REDERMINATION PROPOSAL AMOUNT	DIFFERENCE
(1)	(2)	(3)	(4)	(5)	(6)

COST ELEMENTS	INCURRED COST—PREPRODUCTION	INCURRED COST—COMPLETED UNITS	INCURRED COST—WORK IN PROGRESS	TOTAL INCURRED COST	ESTIMATED COST TO COMPLETE	ESTIMATED TOTAL COST	REFERENCE
(7)	(8)	(9)	(10)	(11)	(12)	(13)	(14)

(Use as applicable)

ColumnInstruction

- (1) Enter the cutoff date required by the contract, if applicable.

TABLE 15-2—INSTRUCTIONS FOR SUBMITTING COST/PRICE PROPOSALS WHEN COST OR PRICING DATA ARE REQUIRED

- (2) Enter the number of units completed during the period for which experienced costs of production are being submitted.
- (3) Enter the number of units remaining to be completed under the contract.
- (4) Enter the cumulative contract amount.
- (5) Enter your redetermination proposal amount.
- (6) Enter the difference between the contract amount and the redetermination proposal amount. When this result is negative, place the amount in parentheses. Column (4) minus Column (5) equals Column (6).
- (7) Enter appropriate cost elements. When residual inventory exists, the final costs established under fixed-price-incentive and fixed-price-redeterminable arrangements should be net of the fair market value of such inventory. In support of subcontract costs, submit a listing of all subcontracts subject to repricing action, annotated as to their status.
- (8) Enter all costs incurred under the contract before starting production and other nonrecurring costs (usually referred to as startup costs) from your books and records as of the cutoff date. These include such costs as preproduction engineering, special plant rearrangement, training program, and any identifiable nonrecurring costs such as initial rework, spoilage, pilot runs, etc. In the event the amounts are not segregated in or otherwise available from your records, enter in this column your best estimates. Explain the basis for each estimate and how the costs are charged on your accounting records (*e.g.*, included in production costs as direct engineering labor, charged to manufacturing overhead). Also show how the costs would be allocated to the units at their various stages of contract completion.
- (9) Enter in Column (9) the production costs from your books and records (exclusive of preproduction costs reported in Column (8)) of the units completed as of the cutoff date.
- (10) Enter in Column (10) the costs of work in process as determined from your records or inventories at the cutoff date. When the amounts for work in process are not available in your records but reliable estimates for them can be made, enter the estimated amounts in Column (10) and enter in column (9) the differences between the total incurred costs (exclusive of preproduction costs) as of the cutoff date and these estimates. Explain the basis for the estimates, including identification of any provision for experienced or anticipated allowances, such as shrinkage, rework, design changes, etc. Furnish experienced unit or lot costs (or labor hours) from inception of contract to the cutoff date, improvement curves, and any other available production cost history pertaining to the item(s) to which your proposal relates.
- (11) Enter total incurred costs (Total of Columns (8), (9), and (10)).
- (12) Enter those necessary and reasonable costs that in your judgment will properly be incurred in completing the remaining work to be performed under the contract with respect to the item(s) to which your proposal relates.
- (13) Enter total estimated cost (Total of Columns (11) and (12)).
- (14) Identify the attachment in which the information supporting the specific cost element may be found.

(Attach separate pages as necessary.)

**Subpart 15.5—Preaward, Award, and
Postaward Notifications, Protests, and
Mistakes**

15.501 Definition.

“Day,” as used in this subpart, has the meaning set forth at 33.101.

15.502 Applicability.

This subpart applies to competitive proposals, as described in 6.102(b), and a combination of competitive procedures, as described in 6.102(c). The procedures in 15.504, 15.506, 15.507, 15.508, and 15.509, with reasonable modification, should be followed for sole source acquisitions and acquisitions described in 6.102(d)(1) and (2).

15.503 Notifications to unsuccessful offerors.

(a) *Preaward notices*—(1) *Preaward notices of exclusion from competitive range.* The contracting officer shall notify offerors promptly in writing when their proposals are excluded from the competitive range or otherwise eliminated from the competition. The notice shall state the basis for the determination and that a proposal revision will not be considered.

(b) *Postaward notices.* (1) Within 3 days after the date of contract award, the contracting officer shall provide written notification to each offeror whose proposal was in the competitive range but was not selected for award (10 U.S.C. 2305(b)(5) and 41 U.S.C. 253b(c)) or had not been previously notified under paragraph (a) of this section. The notice shall include—

- (i) The number of offerors solicited;
- (ii) The number of proposals received;
- (iii) The name and address of each offeror receiving an award;

(iv) The items, quantities, and any stated unit prices of each award. If the number of items or other factors makes listing any stated unit prices impracticable at that time, only the total contract price need be furnished in the notice. However, the items, quantities, and any stated unit prices of each award shall be made publicly available, upon request; and

(v) In general terms, the reason(s) the offeror's proposal was not accepted, unless the price information in paragraph (b)(1)(iv) of this section readily reveals the reason. In no event shall an offeror's cost breakdown, profit, overhead rates, trade secrets, manufacturing processes and techniques, or other confidential business information be disclosed to any other offeror.

(2) Upon request, the contracting officer shall furnish the information described in paragraph (b)(1) of this section to unsuccessful offerors in solicitations using simplified acquisition procedures in Part 13.

(3) Upon request, the contracting officer shall provide the information in paragraph (b)(1) of this section to unsuccessful offerors that received a preaward notice of exclusion from the competitive range.

15.504 Award to successful offeror.

The contracting officer shall award a contract to the successful offeror by furnishing the executed contract or other notice of the award to that offeror.

(a) If the award document includes information that is different than the latest signed proposal, as amended by the offeror's written correspondence, both the offeror and the contracting officer shall sign the contract award.

(b) When an award is made to an offeror for less than all of the items that may be awarded and additional items are being withheld for subsequent award, each notice shall state that the Government may make subsequent awards on those additional items within the proposal acceptance period.

15.505 Preaward debriefing of offerors.

Offerors excluded from the competitive range or otherwise excluded from the competition before award may request a debriefing before award.

(a)(1) The offeror may request a preaward debriefing by submitting a written request for debriefing to the contracting officer within 3 days after receipt of the notice of exclusion from the competition.

(2) At the offeror's request, this debriefing may be delayed until after award. If the debriefing is delayed until after award, it shall include all information normally provided in a postaward debriefing (see 15.506(d)). Debriefings delayed pursuant to this paragraph could affect the timeliness of any protest filed subsequent to the debriefing.

(3) If the offeror does not submit a timely request, the offeror need not be given either a preaward or a postaward debriefing. Offerors are entitled to no more than one debriefing for each proposal.

(b) The contracting officer shall make every effort to debrief the unsuccessful offeror as soon as practicable, but may refuse the request for a debriefing if, for compelling reasons, it is not in the best interests of the Government to conduct a debriefing at that time. The rationale for delaying the debriefing shall be documented in the contract file. If the contracting officer delays the debriefing, it shall be provided no later than the time postaward debriefings are provided under 15.506. In that event, the contracting officer shall include the information at 15.506(d) in the debriefing.

(c) Debriefings may be done orally, in writing, or by any other method acceptable to the contracting officer.

(d) The contracting officer should normally chair any debriefing session held. Individuals who conducted the evaluations shall provide support.

(e) At a minimum, preaward debriefings shall include—

(1) The agency's evaluation of significant elements in the offeror's proposal;

(2) A summary of the rationale for eliminating the offeror from the competition; and

(3) Reasonable responses to relevant questions about whether source selection procedures contained in the solicitation, applicable regulations, and other applicable authorities were followed in the process of eliminating the offeror from the competition.

(f) Preaward debriefings shall not disclose—

(1) The number of offerors;

(2) The identity of other offerors;

(3) The content of other offerors' proposals;

(4) The ranking of other offerors;

(5) The evaluation of other offerors; or

(6) Any of the information prohibited in 15.506(e).

(g) An official summary of the debriefing shall be included in the contract file.

15.506 Postaward debriefing of offerors.

(a)(1) An offeror, upon its written request received by the agency within 3 days after the date on which that offeror has received notification of contract award in accordance with 15.503(b), shall be debriefed and furnished the basis for the selection decision and contract award.

(2) To the maximum extent practicable, the debriefing should occur within 5 days after receipt of the written request. Offerors that requested a postaward debriefing in lieu of a preaward debriefing, or whose debriefing was delayed for compelling reasons beyond contract award, also should be debriefed within this time period.

(3) An offeror that was notified of exclusion from the competition (see 15.505(a)), but failed to submit a timely request, is not entitled to a debriefing.

(4)(i) Untimely debriefing requests may be accommodated.

(ii) Government accommodation of a request for delayed debriefing pursuant to 15.505(a)(2), or any untimely debriefing request, does not automatically extend the deadlines for filing protests. Debriefings delayed pursuant to 15.505(a)(2) could affect the timeliness of any protest filed subsequent to the debriefing.

(b) Debriefings of successful and unsuccessful offerors may be done orally, in writing, or by any other method acceptable to the contracting officer.

(c) The contracting officer should normally chair any debriefing session held. Individuals who conducted the evaluations shall provide support.

(d) At a minimum, the debriefing information shall include—

(1) The Government's evaluation of the significant weaknesses or deficiencies in the offeror's proposal, if applicable;

(2) The overall evaluated cost or price (including unit prices) and technical rating, if applicable, of the successful offeror and the debriefed offeror, and past performance information on the debriefed offeror;

(3) The overall ranking of all offerors, when any ranking was developed by the agency during the source selection;

(4) A summary of the rationale for award;

(5) For acquisitions of commercial items, the make and model of the item to be delivered by the successful offeror; and

(6) Reasonable responses to relevant questions about whether source selection procedures contained in the solicitation, applicable regulations, and other applicable authorities were followed.

(e) The debriefing shall not include point-by-point comparisons of the debriefed offeror's proposal with those of other offerors. Moreover, the debriefing shall not reveal any information prohibited from disclosure by 24.202 including—

(1) Trade secrets;

(2) Privileged or confidential manufacturing processes and techniques;

(3) Commercial and financial information that is privileged or confidential, including cost breakdowns, profit, indirect cost rates, and similar information; and

(4) The names of individuals providing reference information about an offeror's past performance.

(f) An official summary of the debriefing shall be included in the contract file.

15.507 Protests against award.

(a) Protests against award in negotiated acquisitions shall be handled in accordance with Part 33. Use of agency protest procedures that incorporate the alternative dispute resolution provisions of Executive Order 12979 is encouraged for both preaward and postaward protests.

(b) If a protest causes the agency, within 1 year of contract award, to—

(1) Issue a new solicitation on the protested contract award, the contracting officer shall provide the information in paragraph (c) of this section to all prospective offerors for the new solicitation; or

(2) Issue a new request for revised proposals on the protested contract award, the contracting officer shall provide the information in paragraph (c) of this section to offerors that were in the competitive range and are requested to submit revised proposals.

(c) The following information will be provided to appropriate parties:

(1) Information provided to unsuccessful offerors in any debriefings conducted on the original award regarding the successful offeror's proposal; and

(2) Other nonproprietary information that would have been provided to the original offerors.

15.508 Discovery of mistakes.

Mistakes in a contractor's proposal that are disclosed after award shall be processed substantially in accordance with the procedures for mistakes in bids at 14.407-4.

15.509 Forms.

Optional Form 307, Contract Award, GPO Form 3201B, Award/Contract, or SF 33, Solicitation, Offer and Award, may be used to award negotiated contracts in which the signature of both parties on a single document is appropriate. If these forms are not used, the award document shall incorporate the agreement and award language from the OF 307.

Subpart 15.6—Unsolicited Proposals

15.600 Scope of subpart.

This subpart sets forth policies and procedures concerning the submission, receipt, evaluation, and acceptance or rejection of unsolicited proposals.

15.601 Definitions.

As used in this subpart—

“Advertising material” means material designed to acquaint the Government with a prospective contractor's present products, services, or potential capabilities, or designed to stimulate the Government's interest in buying such products or services.

“Commercial item offer” means an offer of a commercial item that the vendor wishes to see introduced in the Government's supply system as an alternate or a replacement for an existing supply item. This term does not include innovative or unique configurations or uses of commercial items that are being offered for further development and that may be submitted as an unsolicited proposal.

“Contribution” means a concept, suggestion, or idea presented to the Government for its use with no indication that the source intends to devote any further effort to it on the Government's behalf.

15.602 Policy.

It is the policy of the Government to encourage the submission of new and innovative ideas in response to Broad Agency Announcements, Program Research and Development Announcements, or any other Government-initiated solicitation or program. When the new and innovative ideas do not fall under topic areas publicized under those programs or techniques, the ideas may be submitted as unsolicited proposals.

15.603 General.

(a) Unsolicited proposals allow unique and innovative ideas or approaches that have been developed outside the Government to be made available to Government agencies for use in accomplishment of their missions. Unsolicited proposals are offered with the intent that the Government will enter into a contract with the offeror for research and development or other efforts supporting the Government mission, and often represent a substantial investment of time and effort by the offeror.

(b) Advertising material, commercial item offers, or contributions, as defined in 15.601, or routine correspondence on technical issues, are not unsolicited proposals.

(c) A valid unsolicited proposal must—

- (1) Be innovative and unique;
- (2) Be independently originated and developed by the offeror;

(3) Be prepared without Government supervision, endorsement, direction, or direct Government involvement;

(4) Include sufficient detail to permit a determination that Government support could be worthwhile and the proposed work could benefit the agency's research and development or other mission responsibilities; and

(5) Not be an advance proposal for a known agency requirement that can be acquired by competitive methods.

(d) Unsolicited proposals in response to a publicized general statement of agency needs are considered to be independently originated.

(e) MMS must evaluate unsolicited proposals for energy-savings performance contracts in accordance with the procedures in 10 CFR 436.33(b).

15.604 Agency points of contact.

(a) Preliminary contact with agency technical or other appropriate personnel before preparing a detailed unsolicited proposal or submitting proprietary information to the Government may save considerable time and effort for both parties (see 15.201). Agencies must make available to potential offerors of unsolicited proposals at least the following information:

(1) Definition (see 2.101) and content (see 15.605) of an unsolicited proposal acceptable for formal evaluation.

(2) Requirements concerning responsible prospective contractors (see Subpart 9.1), and organizational conflicts of interest (see Subpart 9.5).

(3) Guidance on preferred methods for submitting ideas/concepts to the Government.

(4) Agency points of contact for information regarding advertising, contributions, and other types of transactions similar to unsolicited proposals.

(5) Information sources on agency objectives and areas of potential interest.

(6) Procedures for submission and evaluation of unsolicited proposals.

(7) Instructions for identifying and marking proprietary information so that it is protected and restrictive legends conform to 15.609.

(b) Only the cognizant contracting officer has the authority to bind the Government regarding unsolicited proposals.

15.605 Content of unsolicited proposals.

Unsolicited proposals should contain the following information to permit consideration in an objective and timely manner:

(a) Basic information including—

(1) Offeror's name and address and type of organization; *e.g.*, profit, nonprofit, educational, small business;

(2) Names and telephone numbers of technical and business personnel to be contacted for evaluation or negotiation purposes;

(3) Identification of proprietary data to be used only for evaluation purposes;

(4) Names of other Federal, State, or local agencies or parties receiving the proposal or funding the proposed effort;

(5) Date of submission; and

(6) Signature of a person authorized to represent and contractually obligate the offeror.

(b) Technical information including—

(1) Concise title and abstract (approximately 200 words) of the proposed effort;

(2) A reasonably complete discussion stating the objectives of the effort or activity, the method of approach and extent of effort to be employed, the nature and extent of the anticipated results, and the manner in which the work will help to support accomplishment of the agency's mission;

(3) Names and biographical information on the offeror's key personnel who would be involved, including alternates; and

(4) Type of support needed from the agency; *e.g.*, facilities, equipment, materials, or personnel resources.

(c) Supporting information including—

(1) Proposed price or total estimated cost for the effort in sufficient detail for meaningful evaluation;

(2) Period of time for which the proposal is valid (a 6-month minimum is suggested);

(3) Type of contract preferred;

(4) Proposed duration of effort;

(5) Brief description of the organization, previous experience, relevant past performance, and facilities to be used;

(6) Other statements, if applicable, about organizational conflicts of interest, security clearances, and environmental impacts; and

(7) The names and telephone numbers of agency technical or other agency points of contact already contacted regarding the proposal.

15.606 Procedures.

(a) MMS shall establish procedures for controlling the receipt, evaluation, and timely disposition of unsolicited proposals consistent with the requirements of this subpart. The procedures shall include controls on the reproduction and disposition of proposal material, particularly data identified by the offeror as subject to duplication, use, or disclosure restrictions.

(b) MMS shall establish agency points of contact (see 15.604) to coordinate the receipt and handling of unsolicited proposals.

15.606-1 Receipt and initial review.

(a) Before initiating a comprehensive evaluation, the agency contact point shall determine if the proposal—

(1) Is a valid unsolicited proposal, meeting the requirements of 15.603(c);

(2) Is suitable for submission in response to an existing agency requirement (see 15.602);

(3) Is related to the agency mission;

(4) Contains sufficient technical and cost information for evaluation;

(5) Has been approved by a responsible official or other representative authorized to obligate the offeror contractually; and

(6) Complies with the marking requirements of 15.609.

(b) If the proposal meets these requirements, the contact point shall promptly acknowledge receipt and process the proposal.

(c) If a proposal is rejected because the proposal does not meet the requirements of paragraph (a) of this subsection, the agency contact point shall promptly inform the offeror of the reasons for rejection in writing and of the proposed disposition of the unsolicited proposal.

15.606-2 Evaluation.

(a) Comprehensive evaluations shall be coordinated by the agency contact point, who shall attach or imprint on each unsolicited proposal, circulated for evaluation, the legend required by 15.609(d). When performing a comprehensive evaluation of an unsolicited proposal, evaluators shall consider the following factors, in addition to any others appropriate for the particular proposal:

(1) Unique, innovative, and meritorious methods, approaches, or concepts demonstrated by the proposal;

(2) Overall scientific, technical, or socioeconomic merits of the proposal;

(3) Potential contribution of the effort to the agency's specific mission;

(4) The offeror's capabilities, related experience, facilities, techniques, or unique combinations of these that are integral factors for achieving the proposal objectives;

(5) The qualifications, capabilities, and experience of the proposed principal investigator, team leader, or key personnel critical to achieving the proposal objectives; and

(6) The realism of the proposed cost.

(b) The evaluators shall notify the agency point of contact of their recommendations when the evaluation is completed.

15.607 Criteria for acceptance and negotiation of an unsolicited proposal.

(a) A favorable comprehensive evaluation of an unsolicited proposal does not, in itself, justify awarding a contract without providing for full and open competition. The agency point of contact shall return an unsolicited proposal to the offeror, citing reasons, when its substance—

(1) Is available to the Government without restriction from another source;

(2) Closely resembles a pending competitive acquisition requirement;

- (3) Does not relate to the activity’s mission; or
- (4) Does not demonstrate an innovative and unique method, approach, or concept, or is otherwise not deemed a meritorious proposal.

(b) The contracting officer may commence negotiations on a sole source basis only when—

- (1) An unsolicited proposal has received a favorable comprehensive evaluation;
- (2) A justification and approval has been obtained (see 6.302-1(a)(2)(i) for research proposals or other appropriate provisions of Subpart 6.3, and 6.303-2(b));
- (3) The agency technical office sponsoring the contract furnishes the necessary funds; and
- (4) The contracting officer has complied with the synopsis requirements of Subpart 5.2.

15.608 Prohibitions.

(a) Government personnel shall not use any data, concept, idea, or other part of an unsolicited proposal as the basis, or part of the basis, for a solicitation or in negotiations with any other firm unless the offeror is notified of and agrees to the intended use. However, this prohibition does not preclude using any data, concept, or idea in the proposal that also is available from another source without restriction.

(b) Government personnel shall not disclose restrictively marked information (see 3.104 and 15.609) included in an unsolicited proposal. The disclosure of such information concerning trade secrets, processes, operations, style of work, apparatus, and other matters, except as authorized by law, may result in criminal penalties under 18 U.S.C. 1905.

15.609 Limited use of data.

(a) An unsolicited proposal may include data that the offeror does not want disclosed to the public for any purpose or used by the Government except for evaluation purposes. If the offeror wishes to restrict the data, the title page must be marked with the following legend:

USE AND DISCLOSURE OF DATA

This proposal includes data that shall not be disclosed outside the Government and shall not be duplicated, used, or disclosed—in whole or in part—for any purpose other than to evaluate this proposal. However, if a contract is awarded to this offeror as a result of—or in connection with—the submission of these data, the Government shall have the right to duplicate, use, or disclose the data to the extent provided in the resulting contract. This restriction does not limit the Government’s right to use information contained in these data if they are obtained from another source without restriction. The data subject to this restriction are contained in Sheets [*insert numbers or other identification of sheets*].

(b) The offeror shall also mark each sheet of data it wishes to restrict with the following legend: Use or disclosure of data

contained on this sheet is subject to the restriction on the title page of this proposal.

(c) The agency point of contact shall return to the offeror any unsolicited proposal marked with a legend different from that provided in paragraph (a) of this section. The return letter will state that the proposal cannot be considered because it is impracticable for the Government to comply with the legend and that the agency will consider the proposal if it is resubmitted with the proper legend.

(d) The agency point of contact shall place a cover sheet on the proposal or clearly mark it as follows, unless the offeror clearly states in writing that no restrictions are imposed on the disclosure or use of the data contained in the proposal:

UNSOLICITED PROPOSAL—USE OF DATA LIMITED

All Government personnel must exercise extreme care to ensure that the information in this proposal is not disclosed to an individual who has not been authorized access to such data in accordance with MMAR 3.104, and is not duplicated, used, or disclosed in whole or in part for any purpose other than evaluation of the proposal, without the written permission of the offeror. If a contract is awarded on the basis of this proposal, the terms of the contract shall control disclosure and use. This notice does not limit the Government’s right to use information contained in the proposal if it is obtainable from another source without restriction. This is a Government notice, and shall not by itself be construed to impose any liability upon the Government or Government personnel for disclosure or use of data contained in this proposal.

(e) Use the notice in paragraph (d) of this section solely as a manner of handling unsolicited proposals that will be compatible with this subpart. However, do not use this notice to justify withholding of a record, or to improperly deny the public access to a record, where an obligation is imposed by the Freedom of Information Act (5 U.S.C. 552). An offeror should identify trade secrets, commercial or financial information, and privileged or confidential information to the Government (see paragraph (a) of this section).

(f) When an agency receives an unsolicited proposal without any restrictive legend from an educational or nonprofit organization or institution, and an evaluation outside the Government is necessary, the agency point of contact shall—

- (1) Attach a cover sheet clearly marked with the legend in paragraph (d) of this section;
- (2) Change the beginning of this legend to read “All Government and non-Government personnel . . .”; and
- (3) Require any non-Government evaluator to agree in writing that data in the proposal will not be disclosed to others outside the Government.

(g) If the proposal is received with the restrictive legend (see paragraph (a) of this section), the modified cover sheet shall also be used and permission shall be obtained from the offeror before release of the proposal for evaluation by non-Government personnel.

(h) When an agency receives an unsolicited proposal with or without a restrictive legend from other than an educational or nonprofit organization or institution, and evaluation by Government personnel outside the agency or by experts outside of the Government is necessary, written permission must be obtained from the offeror before release of the proposal for evaluation. The agency point of contact shall—

(1) Clearly mark the cover sheet with the legend in paragraph (d) or as modified in paragraph (f) of this section; and

(2) Obtain a written agreement from any non-Government evaluator stating that data in the proposal will not be disclosed to persons outside the Government.

16.702 Basic agreements.

16.703 Basic ordering agreements.

This page intentionally left blank.

16.000 Scope of part.

This part describes types of contracts that may be used in acquisitions. It prescribes policies and procedures and provides guidance for selecting a contract type appropriate to the circumstances of the acquisition.

Subpart 16.1—Selecting Contract Types**16.101 General.**

(a) A wide selection of contract types is available to the Government and contractors in order to provide needed flexibility in acquiring the large variety and volume of supplies and services required by GPO. Contract types vary according to—

- (1) The degree and timing of the responsibility assumed by the contractor for the costs of performance; and
- (2) The amount and nature of the profit incentive offered to the contractor for achieving or exceeding specified standards or goals.

(b) The contract types are grouped into two broad categories: fixed-price contracts (see Subpart 16.2) and cost-reimbursement contracts (see Subpart 16.3). The specific contract types range from firm-fixed-price, in which the contractor has full responsibility for the performance costs and resulting profit (or loss), to cost-plus-fixed-fee, in which the contractor has minimal responsibility for the performance costs and the negotiated fee (profit) is fixed. In between are the various incentive contracts (see Subpart 16.4), in which the contractor's responsibility for the performance costs and the profit or fee incentives offered are tailored to the uncertainties involved in contract performance.

16.102 Policies.

(a) Contracts resulting from sealed bidding shall be firm-fixed-price contracts or fixed-price contracts with economic price adjustment.

(b) Contracts negotiated under Part 15 may be of any type or combination of types that will promote the Government's interest, except as restricted in this part. Contract types not described in this regulation shall not be used, except as a deviation under Subpart 1.4.

(c) The cost-plus-a-percentage-of-cost system of contracting shall not be used. Prime contracts (including letter contracts) other than firm-fixed-price contracts shall, by an appropriate clause, prohibit cost-plus-a-percentage-of-cost subcontracts (see clauses prescribed in Subpart 44.2 for cost-reimbursement contracts and Subparts 16.2 and 16.4 for fixed-price contracts).

(d) No contract may be awarded before the execution of any determination and findings (D&F's) required by this part. Minimum requirements for the content of D&F's required by this part are specified in 1.704.

16.103 Negotiating contract type.

(a) Selecting the contract type is generally a matter for negotiation and requires the exercise of sound judgment. Negotiating the contract type and negotiating prices are closely related and should be considered together. The objective is to negotiate a contract type and price (or estimated cost and fee) that will result in reasonable contractor risk and provide the contractor with the greatest incentive for efficient and economical performance.

(b) A firm-fixed-price contract, which best utilizes the basic profit motive of business enterprise, shall be used when the risk involved is minimal or can be predicted with an acceptable degree of certainty. However, when a reasonable basis for firm pricing does not exist, other contract types should be considered, and negotiations should be directed toward selecting a contract type (or combination of types) that will appropriately tie profit to contractor performance.

(c) In the course of an acquisition program, a series of contracts, or a single long-term contract, changing circumstances may make a different contract type appropriate in later periods than that used at the outset. In particular, contracting officers should avoid protracted use of a cost-reimbursement or time-and-materials contract after experience provides a basis for firmer pricing.

(d) Each contract file shall include documentation to show why the particular contract type was selected. Exceptions to this requirement are—

- (1) Fixed-price acquisitions made under simplified acquisition procedures;
- (2) Contracts on a firm fixed-price basis other than those for major systems or research and development; and
- (3) Awards on the set-aside portion of sealed bid partial set-asides for small business.

16.104 Factors in selecting contract types.

There are many factors that the contracting officer should consider in selecting and negotiating the contract type. They include the following:

(a) *Price competition.* Normally, effective price competition results in realistic pricing, and a fixed-price contract is ordinarily in the Government's interest.

(b) *Price analysis.* Price analysis, with or without competition, may provide a basis for selecting the contract type. The degree to which price analysis can provide a realistic pricing standard should be carefully considered. (See 15.404-1(b).)

(c) *Cost analysis.* In the absence of effective price competition and if price analysis is not sufficient, the cost estimates of the offeror and the Government provide the bases for negotiating contract pricing arrangements. It is essential that the uncertainties involved in performance and their possible impact upon costs be identified and evaluated, so that a con-

tract type that places a reasonable degree of cost responsibility upon the contractor can be negotiated.

(d) *Type and complexity of the requirement.* Complex requirements, particularly those unique to the Government, usually result in greater risk assumption by the Government. This is especially true for complex research and development contracts, when performance uncertainties or the likelihood of changes makes it difficult to estimate performance costs in advance. As a requirement recurs or as quantity production begins, the cost risk should shift to the contractor, and a fixed-price contract should be considered.

(e) *Urgency of the requirement.* If urgency is a primary factor, the Government may choose to assume a greater proportion of risk or it may offer incentives to ensure timely contract performance.

(f) *Period of performance or length of production run.* In times of economic uncertainty, contracts extending over a relatively long period may require economic price adjustment terms.

(g) *Contractor's technical capability and financial responsibility.*

(h) *Adequacy of the contractor's accounting system.* Before agreeing on a contract type other than firm-fixed-price, the contracting officer shall ensure that the contractor's accounting system will permit timely development of all necessary cost data in the form required by the proposed

contract type. This factor may be critical when the contract type requires price revision while performance is in progress, or when a cost-reimbursement contract is being considered and all current or past experience with the contractor has been on a fixed-price basis.

(i) *Concurrent contracts.* If performance under the proposed contract involves concurrent operations under other contracts, the impact of those contracts, including their pricing arrangements, should be considered.

(j) *Extent and nature of proposed subcontracting.* If the contractor proposes extensive subcontracting, a contract type reflecting the actual risks to the prime contractor should be selected.

(k) *Acquisition history.* Contractor risk usually decreases as the requirement is repetitively acquired. Also, product descriptions or descriptions of services to be performed can be defined more clearly.

16.105 Solicitation provision.

The contracting officer shall complete and insert the provision at 52.216-1, Type of Contract, in a solicitation unless it is for—

(a) A fixed-price acquisition made under simplified acquisition procedures; or

(b) Information or planning purposes.

Subpart 16.2—Fixed-Price Contracts

16.201 General.

Fixed-price types of contracts provide for a firm price or, in appropriate cases, an adjustable price. Fixed-price contracts providing for an adjustable price may include a ceiling price, a target price (including target cost), or both. Unless otherwise specified in the contract, the ceiling price or target price is subject to adjustment only by operation of contract clauses providing for equitable adjustment or other revision of the contract price under stated circumstances. The contracting officer shall use firm-fixed-price or fixed-price with economic price adjustment contracts when acquiring commercial items.

16.202 Firm-fixed-price contracts.

16.202-1 Description.

A firm-fixed-price contract provides for a price that is not subject to any adjustment on the basis of the contractor's cost experience in performing the contract. This contract type places upon the contractor maximum risk and full responsibility for all costs and resulting profit or loss. It provides maximum incentive for the contractor to control costs and perform effectively and imposes a minimum administrative burden upon the contracting parties.

16.202-2 Application.

A firm-fixed-price contract is suitable for acquiring commercial items (see Parts 2 and 12) or for acquiring other supplies or services on the basis of reasonably definite functional or detailed specifications (see Part 11) when the contracting officer can establish fair and reasonable prices at the outset, such as when—

- (a) There is adequate price competition;
- (b) There are reasonable price comparisons with prior purchases of the same or similar supplies or services made on a competitive basis or supported by valid cost or pricing data;
- (c) Available cost or pricing information permits realistic estimates of the probable costs of performance; or
- (d) Performance uncertainties can be identified and reasonable estimates of their cost impact can be made, and the contractor is willing to accept a firm fixed price representing assumption of the risks involved.

16.203 Fixed-price contracts with economic price adjustment.

16.203-1 Description.

A fixed-price contract with economic price adjustment provides for upward and downward revision of the stated contract price upon the occurrence of specified contingencies. Economic price adjustments are of three general types:

(a) *Adjustments based on established prices.* These price adjustments are based on increases or decreases from an agreed-upon level in published or otherwise established prices of specific items or the contract end items.

(b) *Adjustments based on actual costs of labor or material.* These price adjustments are based on increases or decreases in specified costs of labor or material that the contractor actually experiences during contract performance.

(c) *Adjustments based on cost indexes of labor or material.* These price adjustments are based on increases or decreases in labor or material cost standards or indexes that are specifically identified in the contract.

16.203-2 Application.

A fixed-price contract with economic price adjustment may be used when (i) there is serious doubt concerning the stability of market or labor conditions that will exist during an extended period of contract performance, and (ii) contingencies that would otherwise be included in the contract price can be identified and covered separately in the contract. Price adjustments based on established prices should normally be restricted to industry-wide contingencies. Price adjustments based on labor and material costs should be limited to contingencies beyond the contractor's control. For use of economic price adjustment in sealed bid contracts, see 14.408-4.

(a) In establishing the base level from which adjustment will be made, the contracting officer shall ensure that contingency allowances are not duplicated by inclusion in both the base price and the adjustment requested by the contractor under economic price adjustment clause.

(b) In contracts that do not require submission of cost or pricing data, the contracting officer shall obtain adequate information to establish the base level from which adjustment will be made and may require verification of data submitted.

16.203-3 Limitations.

A fixed-price contract with economic price adjustment shall not be used unless the contracting officer determines that it is necessary either to protect the contractor and the Government against significant fluctuations in labor or material costs or to provide for contract price adjustment in the event of changes in the contractor's established prices.

16.203-4 Contract clauses.

(a) *Adjustment based on established prices—standard supplies.* (1) The contracting officer shall, when contracting by negotiation, insert the clause at 52.216-2, Economic Price Adjustment—Standard Supplies, or an agency-prescribed clause as authorized in paragraph (a)(2) of this subsection, in solicitations and contracts when all of the following conditions apply:

- (i) A fixed-price contract is contemplated.

(ii) The requirement is for standard supplies that have an established catalog or market price.

(iii) The contracting officer has made the determination specified in 16.203-3.

(2) If all the conditions in paragraph (a)(1) of this subsection apply and the contracting officer determines that the use of the clause at 52.216-2 is inappropriate, the contracting officer may use an agency-prescribed clause instead of the clause at 52.216-2.

(3) If the negotiated unit price reflects a net price after applying a trade discount from a catalog or list price, the contracting officer shall document in the contract file both the catalog or list price and the discount. (This does not apply to prompt payment or cash discounts.)

(b) *Adjustment based on established prices—semistandard supplies.* (1) The contracting officer shall, when contracting by negotiation, insert the clause at 52.216-3, Economic Price Adjustment—Semistandard Supplies, or an agency-prescribed clause as authorized in paragraph (b)(2) of this section, in solicitations and contracts when all of the following conditions apply:

(i) A fixed-price contract is contemplated.

(ii) The requirement is for semistandard supplies for which the prices can be reasonably related to the prices of nearly equivalent standard supplies that have an established catalog or market price.

(iii) The contracting officer has made the determination specified in 16.203-3.

(2) If all conditions in paragraph (b)(1) of this subsection apply and the contracting officer determines that the use of the clause at 52.216-3 is inappropriate, the contracting officer may use an agency-prescribed clause instead of the clause at 52.216-3.

(3) If the negotiated unit price reflects a net price after applying a trade discount from a catalog or list price, the contracting officer shall document in the contract file both the catalog or list price and the discount. (This does not apply to prompt payment or cash discounts.)

(4) Before entering into the contract, the contracting officer and contractor must agree in writing on the identity of the standard supplies and the corresponding contract line items to which the clause applies.

(5) If the supplies are standard, except for preservation, packaging, and packing requirements, the clause prescribed in 16.203-4(a) shall be used rather than this clause.

(c) *Adjustments based on actual cost of labor or material.* (1) The contracting officer shall, when contracting by negotiation, insert a clause that is substantially the same as the clause at 52.216-4, Economic Price Adjustment—Labor and Material, or an agency-prescribed clause as authorized in subparagraph (c)(2) of this section, in solicitations and contracts when all of the following conditions apply:

(i) A fixed-price contract is contemplated.

(ii) There is no major element of design engineering or development work involved.

(iii) One or more identifiable labor or material cost factors are subject to change.

(iv) The contracting officer has made the determination specified in 16.203-3.

(2) If all conditions in paragraph (c)(1) of this section apply and the contracting officer determines that the use of the clause at 52.216-4 is inappropriate, the contracting officer may use an agency-prescribed clause instead of the clause at 52.216-4.

(3) The contracting officer shall describe in detail in the contract Schedule—

(i) The types of labor and materials subject to adjustment under the clause;

(ii) The labor rates, including fringe benefits (if any) and unit prices of materials that may be increased or decreased; and

(iii) The quantities of the specified labor and materials allocable to each unit to be delivered under the contract.

(4) In negotiating adjustments under the clause, the contracting officer shall—

(i) Consider work in process and materials on hand at the time of changes in labor rates, including fringe benefits (if any) or material prices;

(ii) Not include in adjustments any indirect cost (except fringe benefits as defined in 31.205-6(m)) or profit; and

(iii) Consider only those fringe benefits specified in the contract Schedule.

(d) *Adjustments based on cost indexes of labor or material.* The contracting officer should consider using an economic price adjustment clause based on cost indexes of labor or material under the circumstances and subject to approval as described in paragraphs (d)(1) and (d)(2) of this section.

(1) A clause providing adjustment based on cost indexes of labor or materials may be appropriate when—

(i) The contract involves an extended period of performance with significant costs to be incurred beyond 1 year after performance begins;

(ii) The contract amount subject to adjustment is substantial; and

(iii) The economic variables for labor and materials are too unstable to permit a reasonable division of risk between the Government and the contractor, without this type of clause.

(2) Any clause using this method shall be prepared and approved under agency procedures. Because of the variations in circumstances and clause wording that may arise, no standard clause is prescribed.

16.204 Fixed-price incentive contracts.

A fixed-price incentive contract is a fixed-price contract that provides for adjusting profit and establishing the final contract price by a formula based on the relationship of final negotiated total cost to total target cost. Fixed-price incentive contracts are covered in Subpart 16.4, Incentive Contracts. See 16.403 for more complete descriptions, application, and limitations for these contracts. Prescribed clauses are found at 16.406.

16.205 Fixed-price contracts with prospective price redetermination.**16.205-1 Description.**

A fixed-price contract with prospective price redetermination provides for—

- (a) A firm fixed price for an initial period of contract deliveries or performance; and
- (b) Prospective redetermination, at a stated time or times during performance, of the price for subsequent periods of performance.

16.205-2 Application.

A fixed-price contract with prospective price redetermination may be used in acquisitions of quantity production or services for which it is possible to negotiate a fair and reasonable firm fixed price for an initial period, but not for subsequent periods of contract performance.

(a) The initial period should be the longest period for which it is possible to negotiate a fair and reasonable firm fixed price. Each subsequent pricing period should be at least 12 months.

(b) The contract may provide for a ceiling price based on evaluation of the uncertainties involved in performance and their possible cost impact. This ceiling price should provide for assumption of a reasonable proportion of the risk by the contractor and, once established, may be adjusted only by operation of contract clauses providing for equitable adjustment or other revision of the contract price under stated circumstances.

16.205-3 Limitations.

This contract type shall not be used unless—

- (a) Negotiations have established that—
 - (1) The conditions for use of a firm-fixed-price contract are not present (see 16.202-2); and
 - (2) A fixed-price incentive contract would not be more appropriate;
- (b) The contractor's accounting system is adequate for price redetermination;
- (c) The prospective pricing periods can be made to conform with operation of the contractor's accounting system; and

(d) There is reasonable assurance that price redetermination actions will take place promptly at the specified times.

16.205-4 Contract clause.

The contracting officer shall, when contracting by negotiation, insert the clause at 52.216-5, Price Redetermination—Prospective, in solicitations and contracts when a fixed-price contract is contemplated and the conditions specified in 16.205-2 and 16.205-3(a) through (d) apply.

16.206 Fixed-ceiling-price contracts with retroactive price redetermination.**16.206-1 Description.**

A fixed-ceiling-price contract with retroactive price redetermination provides for—

- (a) A fixed ceiling price; and
- (b) Retroactive price redetermination within the ceiling after completion of the contract.

16.206-2 Application.

A fixed-ceiling-price contract with retroactive price redetermination is appropriate for research and development contracts estimated at \$100,000 or less when it is established at the outset that a fair and reasonable firm fixed price cannot be negotiated and that the amount involved and short performance period make the use of any other fixed-price contract type impracticable.

(a) A ceiling price shall be negotiated for the contract at a level that reflects a reasonable sharing of risk by the contractor. The established ceiling price may be adjusted only if required by the operation of contract clauses providing for equitable adjustment or other revision of the contract price under stated circumstances.

(b) The contract should be awarded only after negotiation of a billing price that is as fair and reasonable as the circumstances permit.

(c) Since this contract type provides the contractor no cost control incentive except the ceiling price, the contracting officer should make clear to the contractor during discussion before award that the contractor's management effectiveness and ingenuity will be considered in retroactively redetermining the price.

16.206-3 Limitations.

This contract type shall not be used unless—

- (a) The contract is for research and development and the estimated cost is \$100,000 or less;
- (b) The contractor's accounting system is adequate for price redetermination;
- (c) There is reasonable assurance that the price redetermination will take place promptly at the specified time; and

(d) The head of the contracting activity (or a higher-level official, if required by agency procedures) approves its use in writing.

16.206-4 Contract clause.

The contracting officer shall, when contracting by negotiation, insert the clause at 52.216-6, Price Redetermination—Retroactive, in solicitations and contracts when a fixed-price contract is contemplated and the conditions in 16.206-2 and 16.206-3(a) through (d) apply.

16.207 Firm-fixed-price, level-of-effort term contracts.**16.207-1 Description.**

A firm-fixed-price, level-of-effort term contract requires—

(a) The contractor to provide a specified level of effort, over a stated period of time, on work that can be stated only in general terms; and

(b) The Government to pay the contractor a fixed dollar amount.

16.207-2 Application.

A firm-fixed-price, level-of-effort term contract is suitable for investigation or study in a specific research and development area. The product of the contract is usually a report showing the results achieved through application of the required level of effort. However, payment is based on the effort expended rather than on the results achieved.

16.207-3 Limitations.

This contract type may be used only when—

(a) The work required cannot otherwise be clearly defined;

(b) The required level of effort is identified and agreed upon in advance;

(c) There is reasonable assurance that the intended result cannot be achieved by expending less than the stipulated effort; and

(d) The contract price is \$100,000 or less, unless approved by the chief of the contracting office.

Subpart 16.3—Cost-Reimbursement Contracts

16.301 General.

16.301-1 Description.

Cost-reimbursement types of contracts provide for payment of allowable incurred costs, to the extent prescribed in the contract. These contracts establish an estimate of total cost for the purpose of obligating funds and establishing a ceiling that the contractor may not exceed (except at its own risk) without the approval of the contracting officer.

16.301-2 Application.

Cost-reimbursement contracts are suitable for use only when uncertainties involved in contract performance do not permit costs to be estimated with sufficient accuracy to use any type of fixed-price contract.

16.301-3 Limitations.

(a) A cost-reimbursement contract may be used only when—

(1) The contractor's accounting system is adequate for determining costs applicable to the contract; and

(2) Appropriate Government surveillance during performance will provide reasonable assurance that efficient methods and effective cost controls are used.

(b) The use of cost-reimbursement contracts is prohibited for the acquisition of commercial items (see Parts 2 and 12).

16.302 Cost contracts.

(a) *Description.* A cost contract is a cost-reimbursement contract in which the contractor receives no fee.

(b) *Application.* A cost contract may be appropriate for research and development work, particularly with nonprofit educational institutions or other nonprofit organizations, and for facilities contracts.

(c) *Limitations.* See 16.301-3.

16.303 Cost-sharing contracts.

(a) *Description.* A cost-sharing contract is a cost-reimbursement contract in which the contractor receives no fee and is reimbursed only for an agreed-upon portion of its allowable costs.

(b) *Application.* A cost-sharing contract may be used when the contractor agrees to absorb a portion of the costs, in the expectation of substantial compensating benefits.

(c) *Limitations.* See 16.301-3.

16.304 Cost-plus-incentive-fee contracts.

A cost-plus-incentive-fee contract is a cost-reimbursement contract that provides for an initially negotiated fee to be adjusted later by a formula based on the relationship of total

allowable costs to total target costs. Cost-plus-incentive-fee contracts are covered in Subpart 16.4, Incentive Contracts. See 16.405-1 for a more complete description and discussion of application of these contracts. See 16.301-3 for limitations.

16.305 Cost-plus-award-fee contracts.

A cost-plus-award-fee contract is a cost-reimbursement contract that provides for a fee consisting of (a) a base amount (which may be zero) fixed at inception of the contract and (b) an award amount, based upon a judgmental evaluation by the Government, sufficient to provide motivation for excellence in contract performance. Cost-plus-award-fee contracts are covered in Subpart 16.4, Incentive Contracts. See 16.405-2 for a more complete description and discussion of application of these contracts. See 16.301-3 and 16.405-2(c) for limitations.

16.306 Cost-plus-fixed-fee contracts.

(a) *Description.* A cost-plus-fixed-fee contract is a cost-reimbursement contract that provides for payment to the contractor of a negotiated fee that is fixed at the inception of the contract. The fixed fee does not vary with actual cost, but may be adjusted as a result of changes in the work to be performed under the contract. This contract type permits contracting for efforts that might otherwise present too great a risk to contractors, but it provides the contractor only a minimum incentive to control costs.

(b) *Application.* (1) A cost-plus-fixed-fee contract is suitable for use when the conditions of 16.301-2 are present and, for example—

(i) The contract is for the performance of research or preliminary exploration or study, and the level of effort required is unknown; or

(ii) The contract is for development and test, and using a cost-plus-incentive-fee contract is not practical.

(2) A cost-plus-fixed-fee contract normally should not be used in development of major systems (see Part 34) once preliminary exploration, studies, and risk reduction have indicated a high degree of probability that the development is achievable and the Government has established reasonably firm performance objectives and schedules.

(c) *Limitations.* No cost-plus-fixed-fee contract shall be awarded unless the contracting officer complies with all limitations in 15.404-4(c)(4)(i) and 16.301-3.

(d) *Completion and term forms.* A cost-plus-fixed-fee contract may take one of two basic forms—completion or term.

(1) The completion form describes the scope of work by stating a definite goal or target and specifying an end product. This form of contract normally requires the contractor to complete and deliver the specified end product (*e.g.*, a final report of research accomplishing the goal or target) within the estimated cost, if possible, as a condition for payment of the

entire fixed fee. However, in the event the work cannot be completed within the estimated cost, the Government may require more effort without increase in fee, provided the Government increases the estimated cost.

(2) The term form describes the scope of work in general terms and obligates the contractor to devote a specified level of effort for a stated time period. Under this form, if the performance is considered satisfactory by the Government, the fixed fee is payable at the expiration of the agreed-upon period, upon contractor statement that the level of effort specified in the contract has been expended in performing the contract work. Renewal for further periods of performance is a new acquisition that involves new cost and fee arrangements.

(3) Because of the differences in obligation assumed by the contractor, the completion form is preferred over the term form whenever the work, or specific milestones for the work, can be defined well enough to permit development of estimates within which the contractor can be expected to complete the work.

(4) The term form shall not be used unless the contractor is obligated by the contract to provide a specific level of effort within a definite time period.

16.307 Contract clauses.

(a)(1) The contracting officer shall insert the clause at 52.216-7, Allowable Cost and Payment, in solicitations and contracts when a cost-reimbursement contract (other than a facilities contract) is contemplated. If the contract is with an educational institution, modify the clause by deleting from paragraph (a) the words “Subpart 31.2” and substituting for them “Subpart 31.3.” If the contract is with a State or local government, modify the clause by deleting from paragraph (a) the words “Subpart 31.2” and substituting for them “Subpart 31.6.” If the contract is with a nonprofit organization other than an educational institution, a State or local government, or a nonprofit organization exempted under OMB Circular No. A-122, modify the clause by deleting from paragraph (a) the words “Subpart 31.2” and substituting for them “Subpart 31.7.”

(2) If the contract is a construction contract and contains the clause at 52.232-27, Prompt Payment for Construction Contracts, the contracting officer shall use the clause at 52.216-7 with its Alternate I.

(b) The contracting officer shall insert the clause at 52.216-8, Fixed Fee, in solicitations and contracts when a cost-plus-fixed-fee contract (other than a facilities contract or a construction contract) is contemplated.

(c) The contracting officer shall insert the clause at 52.216-9, Fixed-Fee—Construction, in solicitations and contracts

when a cost-plus-fixed-fee construction contract is contemplated.

(d) The contracting officer shall insert the clause at 52.216-10, Incentive Fee, in solicitations and contracts when a cost-plus-incentive-fee contract (other than a facilities contract) is contemplated.

(e)(1) The contracting officer shall insert the clause at 52.216-11, Cost Contract—No Fee, in solicitations and contracts when a cost-reimbursement contract is contemplated that provides no fee and is not a cost-sharing contract or a facilities contract.

(2) If a cost-reimbursement research and development contract with an educational institution or a nonprofit organization that provides no fee or other payment above cost and is not a cost-sharing contract is contemplated, and if the contracting officer determines that withholding of a portion of allowable costs is not required, the contracting officer shall use the clause with its Alternate I.

(f)(1) The contracting officer shall insert the clause at 52.216-12, Cost-Sharing Contract—No Fee, in solicitations and contracts when a cost-sharing contract (other than a facilities contract) is contemplated.

(2) If a cost-sharing research and development contract with an educational institution or a nonprofit organization is contemplated, and if the contracting officer determines that withholding of a portion of allowable costs is not required, the contracting officer shall use the clause with its Alternate I.

(g)(1) The contracting officer shall insert the clause at 52.216-13, Allowable Cost and Payment—Facilities, in solicitations and contracts when a cost-reimbursement consolidated facilities contract or a cost-reimbursement facilities acquisition contract (see 45.302-6) is contemplated.

(2) If a facilities acquisition contract is contemplated and, in the judgment of the contracting officer, it may be necessary to withhold payment of an amount to protect the Government’s interest, the contracting officer shall use the clause with its Alternate I.

(h) The contracting officer shall insert the clause at 52.216-14, Allowable Cost and Payment—Facilities Use, in solicitations and contracts when a facilities use contract is contemplated.

(i) The contracting officer shall insert the clause at 52.216-15, Predetermined Indirect Cost Rates, in solicitations and contracts when a cost-reimbursement research and development contract with an educational institution (see 42.705-3(b)) is contemplated and predetermined indirect cost rates are to be used. If the contract is a facilities contract, modify paragraph (c) by deleting the words “Subpart 31.1” and substituting for them “section 31.106.”

Subpart 16.4—Incentive Contracts

16.401 General.

(a) Incentive contracts as described in this subpart are appropriate when a firm-fixed-price contract is not appropriate and the required supplies or services can be acquired at lower costs and, in certain instances, with improved delivery or technical performance, by relating the amount of profit or fee payable under the contract to the contractor's performance. Incentive contracts are designed to obtain specific acquisition objectives by—

(1) Establishing reasonable and attainable targets that are clearly communicated to the contractor; and

(2) Including appropriate incentive arrangements designed to—

(i) motivate contractor efforts that might not otherwise be emphasized; and

(ii) discourage contractor inefficiency and waste.

(b) When predetermined, formula-type incentives on technical performance or delivery are included, increases in profit or fee are provided only for achievement that surpasses the targets, and decreases are provided for to the extent that such targets are not met. The incentive increases or decreases are applied to performance targets rather than minimum performance requirements.

(c) The two basic categories of incentive contracts are fixed-price incentive contracts (see 16.403 and 16.404) and cost-reimbursement incentive contracts (see 16.405). Since it is usually to the Government's advantage for the contractor to assume substantial cost responsibility and an appropriate share of the cost risk, fixed-price incentive contracts are preferred when contract costs and performance requirements are reasonably certain. Cost-reimbursement incentive contracts are subject to the overall limitations in 16.301 that apply to all cost-reimbursement contracts.

(d) Award-fee contracts are a type of incentive contract.

16.402 Application of predetermined, formula-type incentives.

16.402-1 Cost incentives.

(a) Most incentive contracts include only cost incentives, which take the form of a profit or fee adjustment formula and are intended to motivate the contractor to effectively manage costs. No incentive contract may provide for other incentives without also providing a cost incentive (or constraint).

(b) Except for award-fee contracts (see 16.404 and 16.405-2), incentive contracts include a target cost, a target profit or fee, and a profit or fee adjustment formula that (within the constraints of a price ceiling or minimum and maximum fee) provides that—

(1) Actual cost that meets the target will result in the target profit or fee;

(2) Actual cost that exceeds the target will result in downward adjustment of target profit or fee; and

(3) Actual cost that is below the target will result in upward adjustment of target profit or fee.

16.402-2 Performance incentives.

(a) Performance incentives may be considered in connection with specific product characteristics (*e.g.*, a missile range, an aircraft speed, an engine thrust, or a vehicle maneuverability) or other specific elements of the contractor's performance. These incentives should be designed to relate profit or fee to results achieved by the contractor, compared with specified targets.

(b) To the maximum extent practicable, positive and negative performance incentives shall be considered in connection with service contracts for performance of objectively measurable tasks when quality of performance is critical and incentives are likely to motivate the contractor.

(c) Technical performance incentives may be particularly appropriate in major systems contracts, both in development (when performance objectives are known and the fabrication of prototypes for test and evaluation is required) and in production (if improved performance is attainable and highly desirable to the Government).

(d) Technical performance incentives may involve a variety of specific characteristics that contribute to the overall performance of the end item. Accordingly, the incentives on individual technical characteristics must be balanced so that no one of them is exaggerated to the detriment of the overall performance of the end item.

(e) Performance tests and/or assessments of work performance are generally essential in order to determine the degree of attainment of performance targets. Therefore, the contract must be as specific as possible in establishing test criteria (such as testing conditions, instrumentation precision, and data interpretation) and performance standards (such as the quality levels of services to be provided).

(f) Because performance incentives present complex problems in contract administration, the contracting officer should negotiate them in full coordination with Government engineering and pricing specialists.

(g) It is essential that the Government and contractor agree explicitly on the effect that contract changes (*e.g.*, pursuant to the Changes clause) will have on performance incentives.

(h) The contracting officer must exercise care, in establishing performance criteria, to recognize that the contractor should not be rewarded or penalized for attainments of Government-furnished components.

16.402-3 Delivery incentives.

(a) Delivery incentives should be considered when improvement from a required delivery schedule is a significant Government objective. It is important to determine the

Government's primary objectives in a given contract (e.g., earliest possible delivery or earliest quantity production).

(b) Incentive arrangements on delivery should specify the application of the reward-penalty structure in the event of Government-caused delays or other delays beyond the control, and without the fault or negligence, of the contractor or subcontractor.

16.402-4 Structuring multiple-incentive contracts.

A properly structured multiple-incentive arrangement should—

(a) Motivate the contractor to strive for outstanding results in all incentive areas; and

(b) Compel trade-off decisions among the incentive areas, consistent with the Government's overall objectives for the acquisition. Because of the interdependency of the Government's cost, the technical performance, and the delivery goals, a contract that emphasizes only one of the goals may jeopardize control over the others. Because outstanding results may not be attainable for each of the incentive areas, all multiple-incentive contracts must include a cost incentive (or constraint) that operates to preclude rewarding a contractor for superior technical performance or delivery results when the cost of those results outweighs their value to the Government.

16.403 Fixed-price incentive contracts.

(a) *Description.* A fixed-price incentive contract is a fixed-price contract that provides for adjusting profit and establishing the final contract price by application of a formula based on the relationship of total final negotiated cost to total target cost. The final price is subject to a price ceiling, negotiated at the outset. The two forms of fixed-price incentive contracts, firm target and successive targets, are further described in 16.403-1 and 16.403-2 below.

(b) *Application.* A fixed-price incentive contract is appropriate when—

(1) A firm-fixed-price contract is not suitable;

(2) The nature of the supplies or services being acquired and other circumstances of the acquisition are such that the contractor's assumption of a degree of cost responsibility will provide a positive profit incentive for effective cost control and performance; and

(3) If the contract also includes incentives on technical performance and/or delivery, the performance requirements provide a reasonable opportunity for the incentives to have a meaningful impact on the contractor's management of the work.

(c) *Billing prices.* In fixed-price incentive contracts, billing prices are established as an interim basis for payment. These billing prices may be adjusted, within the ceiling limits, upon request of either party to the contract, when it becomes appar-

ent that final negotiated cost will be substantially different from the target cost.

16.403-1 Fixed-price incentive (firm target) contracts.

(a) *Description.* A fixed-price incentive (firm target) contract specifies a target cost, a target profit, a price ceiling (but not a profit ceiling or floor), and a profit adjustment formula. These elements are all negotiated at the outset. The price ceiling is the maximum that may be paid to the contractor, except for any adjustment under other contract clauses. When the contractor completes performance, the parties negotiate the final cost, and the final price is established by applying the formula. When the final cost is less than the target cost, application of the formula results in a final profit greater than the target profit; conversely, when final cost is more than target cost, application of the formula results in a final profit less than the target profit, or even a net loss. If the final negotiated cost exceeds the price ceiling, the contractor absorbs the difference as a loss. Because the profit varies inversely with the cost, this contract type provides a positive, calculable profit incentive for the contractor to control costs.

(b) *Application.* A fixed-price incentive (firm target) contract is appropriate when the parties can negotiate at the outset a firm target cost, target profit, and profit adjustment formula that will provide a fair and reasonable incentive and a ceiling that provides for the contractor to assume an appropriate share of the risk. When the contractor assumes a considerable or major share of the cost responsibility under the adjustment formula, the target profit should reflect this responsibility.

(c) *Limitations.* This contract type may be used only when—

(1) The contractor's accounting system is adequate for providing data to support negotiation of final cost and incentive price revision; and

(2) Adequate cost or pricing information for establishing reasonable firm targets is available at the time of initial contract negotiation.

(d) *Contract schedule.* The contracting officer shall specify in the contract schedule the target cost, target profit, and target price for each item subject to incentive price revision.

16.403-2 Fixed-price incentive (successive targets) contracts.

(a) *Description.* (1) A fixed-price incentive (successive targets) contract specifies the following elements, all of which are negotiated at the outset:

(i) An initial target cost.

(ii) An initial target profit.

(iii) An initial profit adjustment formula to be used for establishing the firm target profit, including a ceiling and floor for the firm target profit. (This formula normally provides for a lesser degree of contractor cost responsibility than would a formula for establishing final profit and price.)

(iv) The production point at which the firm target cost and firm target profit will be negotiated (usually before delivery or shop completion of the first item).

(v) A ceiling price that is the maximum that may be paid to the contractor, except for any adjustment under other contract clauses providing for equitable adjustment or other revision of the contract price under stated circumstances.

(2) When the production point specified in the contract is reached, the parties negotiate the firm target cost, giving consideration to cost experience under the contract and other pertinent factors. The firm target profit is established by the formula. At this point, the parties have two alternatives, as follows:

(i) They may negotiate a firm fixed price, using the firm target cost plus the firm target profit as a guide.

(ii) If negotiation of a firm fixed price is inappropriate, they may negotiate a formula for establishing the final price using the firm target cost and firm target profit. The final cost is then negotiated at completion, and the final profit is established by formula, as under the fixed-price incentive (firm target) contract (see 16.403-1 above).

(b) *Application.* A fixed-price incentive (successive targets) contract is appropriate when—

(1) Available cost or pricing information is not sufficient to permit the negotiation of a realistic firm target cost and profit before award;

(2) Sufficient information is available to permit negotiation of initial targets; and

(3) There is reasonable assurance that additional reliable information will be available at an early point in the contract performance so as to permit negotiation of either (i) a firm fixed price or (ii) firm targets and a formula for establishing final profit and price that will provide a fair and reasonable incentive. This additional information is not limited to experience under the contract, itself, but may be drawn from other contracts for the same or similar items.

(c) *Limitations.* This contract type may be used only when—

(1) The contractor's accounting system is adequate for providing data for negotiating firm targets and a realistic profit adjustment formula, as well as later negotiation of final costs; and

(2) Cost or pricing information adequate for establishing a reasonable firm target cost is reasonably expected to be available at an early point in contract performance.

(d) *Contract schedule.* The contracting officer shall specify in the contract schedule the initial target cost, initial target profit, and initial target price for each item subject to incentive price revision.

16.404 Fixed-price contracts with award fees.

(a) Award-fee provisions may be used in fixed-price contracts when the Government wishes to motivate a contractor

and other incentives cannot be used because contractor performance cannot be measured objectively. Such contracts shall—

(1) Establish a fixed price (including normal profit) for the effort. This price will be paid for satisfactory contract performance. Award fee earned (if any) will be paid in addition to that fixed price; and

(2) Provide for periodic evaluation of the contractor's performance against an award-fee plan.

(b) A solicitation contemplating award of a fixed-price contract with award fee shall not be issued unless the following conditions exist:

(1) The administrative costs of conducting award-fee evaluations are not expected to exceed the expected benefits;

(2) Procedures have been established for conducting the award-fee evaluation;

(3) The award-fee board has been established; and

(4) An individual above the level of the contracting officer approved the fixed-price-award-fee incentive.

16.405 Cost-reimbursement incentive contracts.

See 16.301 for requirements applicable to all cost-reimbursement contracts, for use in conjunction with the following subsections.

16.405-1 Cost-plus-incentive-fee contracts.

(a) *Description.* The cost-plus-incentive-fee contract is a cost-reimbursement contract that provides for the initially negotiated fee to be adjusted later by a formula based on the relationship of total allowable costs to total target costs. This contract type specifies a target cost, a target fee, minimum and maximum fees, and a fee adjustment formula. After contract performance, the fee payable to the contractor is determined in accordance with the formula. The formula provides, within limits, for increases in fee above target fee when total allowable costs are less than target costs, and decreases in fee below target fee when total allowable costs exceed target costs. This increase or decrease is intended to provide an incentive for the contractor to manage the contract effectively. When total allowable cost is greater than or less than the range of costs within which the fee-adjustment formula operates, the contractor is paid total allowable costs, plus the minimum or maximum fee.

(b) *Application.* (1) A cost-plus-incentive-fee contract is appropriate for services or development and test programs when—

(i) A cost-reimbursement contract is necessary (see 16.301-2); and

(ii) A target cost and a fee adjustment formula can be negotiated that are likely to motivate the contractor to manage effectively.

(2) The contract may include technical performance incentives when it is highly probable that the required development of a major system is feasible and the Government has established its performance objectives, at least in general terms. This approach also may apply to other acquisitions, if the use of both cost and technical performance incentives is desirable and administratively practical.

(3) The fee adjustment formula should provide an incentive that will be effective over the full range of reasonably foreseeable variations from target cost. If a high maximum fee is negotiated, the contract shall also provide for a low minimum fee that may be a zero fee or, in rare cases, a negative fee.

(c) *Limitations.* No cost-plus-incentive-fee contract shall be awarded unless all limitations in 16.301-3 are complied with.

16.405-2 Cost-plus-award-fee contracts.

(a) *Description.* A cost-plus-award-fee contract is a cost-reimbursement contract that provides for a fee consisting of (1) a base amount fixed at inception of the contract and (2) an award amount that the contractor may earn in whole or in part during performance and that is sufficient to provide motivation for excellence in such areas as quality, timeliness, technical ingenuity, and cost-effective management. The amount of the award fee to be paid is determined by the Government's judgmental evaluation of the contractor's performance in terms of the criteria stated in the contract. This determination and the methodology for determining the award fee are unilateral decisions made solely at the discretion of the Government.

(b) *Application.* (1) The cost-plus-award-fee contract is suitable for use when—

(i) The work to be performed is such that it is neither feasible nor effective to devise predetermined objective incentive targets applicable to cost, technical performance, or schedule;

(ii) The likelihood of meeting acquisition objectives will be enhanced by using a contract that effectively motivates the contractor toward exceptional performance and provides the Government with the flexibility to evaluate both actual performance and the conditions under which it was achieved; and

(iii) Any additional administrative effort and cost required to monitor and evaluate performance are justified by the expected benefits.

(2) The number of evaluation criteria and the requirements they represent will differ widely among contracts. The criteria and rating plan should motivate the contractor to improve performance in the areas rated, but not at the expense of at least minimum acceptable performance in all other areas.

(3) Cost-plus-award-fee contracts shall provide for evaluation at stated intervals during performance, so that the contractor will periodically be informed of the quality of its performance and the areas in which improvement is expected. Partial payment of fee shall generally correspond to the evaluation periods. This makes effective the incentive which the award fee can create by inducing the contractor to improve poor performance or to continue good performance.

(c) *Limitations.* No cost-plus-award-fee contract shall be awarded unless—

(1) All of the limitations in 16.301-3 are complied with; and

(2) The contract amount, performance period, and expected benefits are sufficient to warrant the additional administrative effort and cost involved.

16.406 Contract clauses.

(a) Insert the clause at 52.216-16, Incentive Price Revision—Firm Target, in solicitations and contracts when a fixed-price incentive (firm target) contract is contemplated. If the contract calls for supplies or services to be ordered under a provisioning document or Government option and the prices are to be subject to the incentive price revision under the clause, the contracting officer shall use the clause with its Alternate I.

(b) Insert the clause at 52.216-17, Incentive Price Revision—Successive Targets, in solicitations and contracts when a fixed-price incentive (successive targets) contract is contemplated. If the contract calls for supplies or services to be ordered under a provisioning document or Government option and the prices are to be subject to incentive price revision under the clause, the contracting officer shall use the clause with its Alternate I.

(c) The clause at 52.216-7, Allowable Cost and Payment, is prescribed in 16.307(a) for insertion in solicitations and contracts when a cost-plus-incentive-fee contract or a cost-plus-award-fee contract is contemplated.

(d) The clause at 52.216-10, Incentive Fee, is prescribed in 16.307(d) for insertion in solicitations and contracts when a cost-plus-incentive-fee contract is contemplated.

(e) Insert an appropriate award-fee clause in solicitations and contracts when an award-fee contract is contemplated, provided that the clause—

(1) Is prescribed by or approved under agency acquisition regulations;

(2) Is compatible with the clause at 52.216-7, Allowable Cost and Payment; and

(3) Expressly provides that the award amount and the award-fee determination methodology are unilateral decisions made solely at the discretion of the Government.

Subpart 16.5—Indefinite-Delivery Contracts

16.500 Scope of subpart.

(a) This subpart prescribes policies and procedures for making awards of indefinite-delivery contracts and establishes a preference for making multiple awards of indefinite-quantity contracts.

(b) This subpart does not limit the use of other than competitive procedures authorized by Part 6.

(c) The multiple award preference implemented by this subpart does not apply to architect-engineer contracts subject to the procedures in Subpart 36.6. However, agencies are not precluded from making multiple awards for architect-engineer services using the procedures in this subpart, provided the selection of contractors and placement of orders are consistent with Subpart 36.6.

16.501-1 Definitions.

As used in this subpart—

“Delivery order contract” means a contract for supplies that does not procure or specify a firm quantity of supplies (other than a minimum or maximum quantity) and that provides for the issuance of orders for the delivery of supplies during the period of the contract.

“Task order contract” means a contract for services that does not procure or specify a firm quantity of services (other than a minimum or maximum quantity) and that provides for the issuance of orders for the performance of tasks during the period of the contract.

16.501-2 General.

(a) There are three types of indefinite-delivery contracts: definite-quantity contracts, requirements contracts, and indefinite-quantity contracts. The appropriate type of indefinite-delivery contract may be used to acquire supplies and/or services when the exact times and/or exact quantities of future deliveries are not known at the time of contract award. Requirements contracts and indefinite-quantity contracts are also known as delivery order contracts or task order contracts.

(b) The various types of indefinite-delivery contracts offer the following advantages:

(1) All three types permit—

(i) Government stocks to be maintained at minimum levels; and

(ii) Direct shipment to users.

(2) Indefinite-quantity contracts and requirements contracts also permit—

(i) Flexibility in both quantities and delivery scheduling; and

(ii) Ordering of supplies or services after requirements materialize.

(3) Indefinite-quantity contracts limit the Government’s obligation to the minimum quantity specified in the contract.

(4) Requirements contracts may permit faster deliveries when production lead time is involved, because contractors are usually willing to maintain limited stocks when the Government will obtain all of its actual purchase requirements from the contractor.

(c) Indefinite-delivery contracts may provide for any appropriate cost or pricing arrangement under Part 16. Cost or pricing arrangements that provide for an estimated quantity of supplies or services (*e.g.*, estimated number of labor hours) must comply with the appropriate procedures of this subpart.

16.502 Definite-quantity contracts.

(a) *Description.* A definite-quantity contract provides for delivery of a definite quantity of specific supplies or services for a fixed period, with deliveries or performance to be scheduled at designated locations upon order.

(b) *Application.* A definite-quantity contract may be used when it can be determined in advance that—

(1) A definite quantity of supplies or services will be required during the contract period; and

(2) The supplies or services are regularly available or will be available after a short lead time.

16.503 Requirements contracts.

(a) *Description.* A requirements contract provides for filling all actual purchase requirements of designated Government activities for supplies or services during a specified contract period, with deliveries or performance to be scheduled by placing orders with the contractor.

(1) For the information of offerors and contractors, the contracting officer shall state a realistic estimated total quantity in the solicitation and resulting contract. This estimate is not a representation to an offeror or contractor that the estimated quantity will be required or ordered, or that conditions affecting requirements will be stable or normal. The contracting officer may obtain the estimate from records of previous requirements and consumption, or by other means, and should base the estimate on the most current information available.

(2) The contract shall state, if feasible, the maximum limit of the contractor’s obligation to deliver and the Government’s obligation to order. The contract may also specify maximum or minimum quantities that the Government may order under each individual order and the maximum that it may order during a specified period of time.

(b) *Application.* A requirements contract may be appropriate for acquiring any supplies or services when the Government anticipates recurring requirements but cannot predetermine the precise quantities of supplies or services that designated Government activities will need during a definite period.

(c) *Government property furnished for repair.* When a requirements contract is used to acquire work (e.g., repair, modification, or overhaul) on existing items of Government property, the contracting officer shall specify in the Schedule that failure of the Government to furnish such items in the amounts or quantities described in the Schedule as “estimated” or “maximum” will not entitle the contractor to any equitable adjustment in price under the Government Property clause of the contract.

(d) *Limitations on use of requirements contracts for advisory and assistance services.* (1) Except as provided in paragraph (d)(2) of this section, no solicitation for a requirements contract for advisory and assistance services in excess of three years and \$10,000,000 (including all options) may be issued unless the contracting officer or other official designated by the head of the agency determines in writing that the services required are so unique or highly specialized that it is not practicable to make multiple awards using the procedures in 16.504.

(2) The limitation in paragraph (d)(1) of this section is not applicable to an acquisition of supplies or services that includes the acquisition of advisory and assistance services, if the contracting officer or other official designated by the head of the agency determines that the advisory and assistance services are necessarily incident to, and not a significant component of, the contract.

16.504 Indefinite-quantity contracts.

(a) *Description.* An indefinite-quantity contract provides for an indefinite quantity, within stated limits, of supplies or services during a fixed period. The Government places orders for individual requirements. Quantity limits may be stated as number of units or as dollar values.

(1) The contract must require the Government to order and the contractor to furnish at least a stated minimum quantity of supplies or services. In addition, if ordered, the contractor must furnish any additional quantities, not to exceed the stated maximum. The contracting officer should establish a reasonable maximum quantity based on market research, trends on recent contracts for similar supplies or services, survey of potential users, or any other rational basis.

(2) To ensure that the contract is binding, the minimum quantity must be more than a nominal quantity, but it should not exceed the amount that the Government is fairly certain to order.

(3) The contract may also specify maximum or minimum quantities that the Government may order under each task or delivery order and the maximum that it may order during a specific period of time.

(4) A solicitation and contract for an indefinite quantity must—

(i) Specify the period of the contract, including the number of options and the period for which the Government may extend the contract under each option;

(ii) Specify the total minimum and maximum quantity of supplies or services the Government will acquire under the contract;

(iii) Include a statement of work, specifications, or other description, that reasonably describes the general scope, nature, complexity, and purpose of the supplies or services the Government will acquire under the contract in a manner that will enable a prospective offeror to decide whether to submit an offer;

(iv) State the procedures that the Government will use in issuing orders, including the ordering media, and, if multiple awards may be made, state the procedures and selection criteria that the Government will use to provide awardees a fair opportunity to be considered for each order (see 16.505(b)(1));

(v) Include the name, address, telephone number, facsimile number, and e-mail address of the agency task and delivery order ombudsman (see 16.505(b)(5)) if multiple awards may be made;

(vi) Include a description of the activities authorized to issue orders; and

(vii) Include authorization for placing oral orders, if appropriate, provided that the Government has established procedures for obligating funds and that oral orders are confirmed in writing.

(b) *Application.* Contracting officers may use an indefinite-quantity contract when the Government cannot predetermine, above a specified minimum, the precise quantities of supplies or services that the Government will require during the contract period, and it is inadvisable for the Government to commit itself for more than a minimum quantity. The contracting officer should use an indefinite-quantity contract only when a recurring need is anticipated.

(c) *Multiple award preference—(1) Planning the acquisition.* (i) Except for indefinite-quantity contracts for advisory and assistance services as provided in paragraph (c)(2) of this section, the contracting officer must, to the maximum extent practicable, give preference to making multiple awards of indefinite-quantity contracts under a single solicitation for the same or similar supplies or services to two or more sources.

(ii)(A) The contracting officer must determine whether multiple awards are appropriate as part of acquisition planning. The contracting officer must avoid situations in which awardees specialize exclusively in one or a few areas within the statement of work, thus creating the likelihood that orders in those areas will be awarded on a sole-source basis; however, each awardee need not be capable of performing every requirement as well as any other awardee under the con-

tracts. The contracting officer should consider the following when determining the number of contracts to be awarded:

(1) The scope and complexity of the contract requirement.

(2) The expected duration and frequency of task or delivery orders.

(3) The mix of resources a contractor must have to perform expected task or delivery order requirements.

(4) The ability to maintain competition among the awardees throughout the contracts' period of performance.

(B) The contracting officer must not use the multiple award approach if—

(1) Only one contractor is capable of providing performance at the level of quality required because the supplies or services are unique or highly specialized;

(2) Based on the contracting officer's knowledge of the market, more favorable terms and conditions, including pricing, will be provided if a single award is made;

(3) The expected cost of administration of multiple contracts outweighs the expected benefits of making multiple awards;

(4) The projected task orders are so integrally related that only a single contractor can reasonably perform the work;

(5) The total estimated value of the contract is less than the simplified acquisition threshold; or

(6) Multiple awards would not be in the best interests of the Government.

(C) The contracting officer must document the decision whether or not to use multiple awards in the acquisition plan or contract file. The contracting officer may determine that a class of acquisitions is not appropriate for multiple awards (see Subpart 1.7).

(2) *Contracts for advisory and assistance services.*

(i) Except as provided in paragraph (c)(2)(ii) of this section, if an indefinite-quantity contract for advisory and assistance services exceeds 3 years and \$10 million, including all options, the contracting officer must make multiple awards unless—

(A) The contracting officer or other official designated by the head of the agency determines in writing, as part of acquisition planning, that multiple awards are not practicable. The contracting officer or other official must determine that only one contractor can reasonably perform the work because either the scope of work is unique or highly specialized or the tasks so integrally related;

(B) The contracting officer or other official designated by the head of the agency determines in writing, after the evaluation of offers, that only one offeror is capable of providing the services required at the level of quality required; or

(C) Only one offer is received.

(ii) The requirements of paragraph (c)(2)(i) of this section do not apply if the contracting officer or other official designated by the head of the agency determines that the advisory and assistance services are incidental and not a significant component of the contract.

16.505 Ordering.

(a) *General.* (1) The contracting officer does not synopsise orders under indefinite-delivery contracts.

(2) Individual orders shall clearly describe all services to be performed or supplies to be delivered so the full cost or price for the performance of the work can be established when the order is placed. Orders shall be within the scope, issued within the period of performance, and be within the maximum value of the contract.

(3) Performance-based work statements must be used to the maximum extent practicable, if the contract or order is for services (see 37.102(a)).

(4) When acquiring information technology and related services, consider the use of modular contracting to reduce program risk (see 39.103(a)).

(5) Orders may be placed by using any medium specified in the contract.

(6) Orders placed under indefinite-delivery contracts must contain the following information:

(i) Date of order.

(ii) Contract number and order number.

(iii) For supplies and services, contract item number and description, quantity, and unit price or estimated cost or fee.

(iv) Delivery or performance schedule.

(v) Place of delivery or performance (including consignee).

(vi) Any packaging, packing, and shipping instructions.

(vii) Accounting and appropriation data.

(viii) Method of payment and payment office, if not specified in the contract (see 32.1110(e)).

(7) Orders placed under a task-order contract or delivery-order contract awarded by another agency (*i.e.*, a Governmentwide acquisition contract, or multi-agency contract)—

(i) Are not exempt from the development of acquisition plans (see Subpart 7.1), and an information technology acquisition strategy (see Part 39); and

(ii) May not be used to circumvent conditions and limitations imposed on the use of funds (*e.g.*, 31 U.S.C. 1501(a)(1)).

(8) No protest under Subpart 33.1 is authorized in connection with the issuance or proposed issuance of an order under a task-order contract or delivery-order contract, except for a protest on the grounds that the order increases the scope, period, or maximum value of the contract.

(b) *Orders under multiple award contracts*—(1) *Fair opportunity.* (i) The contracting officer must provide each awardee a fair opportunity to be considered for each order exceeding \$2,500 issued under multiple delivery-order contracts or multiple task-order contracts, except as provided for in paragraph (b)(2) of this section.

(ii) The contracting officer may exercise broad discretion in developing appropriate order placement procedures. The contracting officer should keep submission requirements to a minimum. Contracting officers may use streamlined procedures, including oral presentations. In addition, the contracting officer need not contact each of the multiple awardees under the contract before selecting an order awardee if the contracting officer has information available to ensure that each awardee is provided a fair opportunity to be considered for each order. The competition requirements in Part 6 and the policies in Subpart 15.3 do not apply to the ordering process. However, the contracting officer must—

(A) Develop placement procedures that will provide each awardee a fair opportunity to be considered for each order and that reflect the requirement and other aspects of the contracting environment;

(B) Not use any method (such as allocation or designation of any preferred awardee) that would not result in fair consideration being given to all awardees prior to placing each order;

(C) Tailor the procedures to each acquisition;

(D) Include the procedures in the solicitation and the contract; and

(E) Consider price or cost under each order as one of the factors in the selection decision.

(iii) The contracting officer should consider the following when developing the procedures:

(A) (1) Past performance on earlier orders under the contract, including quality, timeliness and cost control.

(2) Potential impact on other orders placed with the contractor.

(3) Minimum order requirements.

(4) The amount of time contractors need to make informed business decisions on whether to respond to potential orders.

(5) Whether contractors could be encouraged to respond to potential orders by outreach efforts to promote exchanges of information, such as—

(i) Seeking comments from two or more contractors on draft statements of work;

(ii) Using a multiphased approach when effort required to respond to a potential order may be resource intensive (*e.g.*, requirements are complex or need continued development), where all contractors are initially considered on price considerations (*e.g.*, rough estimates), and other considerations as appropriate (*e.g.*, proposed conceptual approach, past performance). The contractors most likely to

submit the highest value solutions are then selected for one-on-one sessions with the Government to increase their understanding of the requirements, provide suggestions for refining requirements, and discuss risk reduction measures.

(B) Formal evaluation plans or scoring of quotes or offers are not required.

(2) *Exceptions to the fair opportunity process.* The contracting officer shall give every awardee a fair opportunity to be considered for a delivery-order or task-order exceeding \$2,500 unless one of the following statutory exceptions applies:

(i) The agency need for the supplies or services is so urgent that providing a fair opportunity would result in unacceptable delays.

(ii) Only one awardee is capable of providing the supplies or services required at the level of quality required because the supplies or services ordered are unique or highly specialized.

(iii) The order must be issued on a sole-source basis in the interest of economy and efficiency because it is a logical follow-on to an order already issued under the contract, provided that all awardees were given a fair opportunity to be considered for the original order.

(iv) It is necessary to place an order to satisfy a minimum guarantee.

(3) *Pricing orders.* If the contract did not establish the price for the supply or service, the contracting officer must establish prices for each order using the policies and methods in Subpart 15.4.

(4) *Decision documentation for orders.* The contracting officer shall document in the contract file the rationale for placement and price of each order, including the basis for award and the rationale for any tradeoffs among cost or price and non-cost considerations in making the award decision. This documentation need not quantify the tradeoffs that led to the decision. The contract file shall also identify the basis for using an exception to the fair opportunity process. If the agency uses the logical follow-on exception, the rationale shall describe why the relationship between the initial order and the follow-on is logical (*e.g.*, in terms of scope, period of performance, or value).

(c) *Limitation on ordering period for task-order contracts for advisory and assistance services.* (1) Except as provided for in paragraphs (c)(2) and (c)(3), the ordering period of a task-order contract for advisory and assistance services, including all options or modifications, normally may not exceed 5 years.

(2) The 5-year limitation does not apply when—

(i) A longer ordering period is specifically authorized by a statute; or

(ii) The contract is for an acquisition of supplies or services that includes the acquisition of advisory and assistance services and the contracting officer, or other official

designated by the head of the agency, determines that the advisory and assistance services are incidental and not a significant component of the contract.

(3) The contracting officer may extend the contract on a sole-source basis only once for a period not to exceed 6 months if the contracting officer, or other official designated by the head of the agency, determines that—

(i) The award of a follow-on contract is delayed by circumstances that were not reasonably foreseeable at the time the initial contract was entered into; and

(ii) The extension is necessary to ensure continuity of services, pending the award of the follow-on contract.

16.506 Solicitation provisions and contract clauses.

(a) Insert the clause at 52.216-18, Ordering, in solicitations and contracts when a definite-quantity contract, a requirements contract, or an indefinite-quantity contract is contemplated.

(b) Insert a clause substantially the same as the clause at 52.216-19, Order Limitations, in solicitations and contracts when a definite-quantity contract, a requirements contract, or an indefinite-quantity contract is contemplated.

(c) Insert the clause at 52.216-20, Definite Quantity, in solicitations and contracts when a definite-quantity contract is contemplated.

(d)(1) Insert the clause at 52.216-21, Requirements, in solicitations and contracts when a requirements contract is contemplated.

(2) If the contract is for nonpersonal services and related supplies and covers estimated requirements that exceed a specific Government activity's internal capability to produce or perform, use the clause with its Alternate I.

(3) If the contract includes subsistence for both Government use and resale in the same Schedule, and similar products may be acquired on a brand-name basis, use the clause with its Alternate II (but see paragraph (d)(5) of this section).

(4) If the contract involves a partial small business set-aside, use the clause with its Alternate III (but see paragraph (d)(5) of this section).

(5) If the contract—

(i) Includes subsistence for Government use and resale in the same schedule and similar products may be acquired on a brand-name basis; and

(ii) Involves a partial small business set-aside, use the clause with its Alternate IV.

(e) Insert the clause at 52.216-22, Indefinite Quantity, in solicitations and contracts when an indefinite-quantity contract is contemplated.

(f) Insert the provision at 52.216-27, Single or Multiple Awards, in solicitations for indefinite-quantity contracts that may result in multiple contract awards. Modify the provision to specify the estimated number of awards. Do not use this provision for advisory and assistance services contracts that exceed 3 years and \$10 million (including all options).

(g) Insert the provision at 52.216-28, Multiple Awards for Advisory and Assistance Services, in solicitations for task-order contracts for advisory and assistance services that exceed 3 years and \$10 million (including all options), unless a determination has been made under 16.504(c)(2)(i)(A). Modify the provision to specify the estimated number of awards.

Subpart 16.6—Time-and-Materials, Labor-Hour, and Letter Contracts

16.601 Time-and-materials contracts.

(a) *Description.* A time-and-materials contract provides for acquiring supplies or services on the basis of—

(1) Direct labor hours at specified fixed hourly rates that include wages, overhead, general and administrative expenses, and profit; and

(2) Materials at cost, including, if appropriate, material handling costs as part of material costs.

(b) *Application.* A time-and-materials contract may be used only when it is not possible at the time of placing the contract to estimate accurately the extent or duration of the work or to anticipate costs with any reasonable degree of confidence.

(1) *Government surveillance.* A time-and-materials contract provides no positive profit incentive to the contractor for cost control or labor efficiency. Therefore, appropriate Government surveillance of contractor performance is required to give reasonable assurance that efficient methods and effective cost controls are being used.

(2) *Material handling costs.* When included as part of material costs, material handling costs shall include only costs clearly excluded from the labor-hour rate. Material handling costs may include all appropriate indirect costs allocated to direct materials in accordance with the contractor's usual accounting procedures consistent with Part 31.

(3) *Optional method of pricing material.* When the nature of the work to be performed requires the contractor to furnish material that it regularly sells to the general public in the normal course of its business, the contract may provide for charging material on a basis other than at cost if—

(i) The total estimated contract price does not exceed \$25,000 or the estimated price of material so charged does not exceed 20 percent of the estimated contract price;

(ii) The material to be so charged is identified in the contract;

(iii) No element of profit on material so charged is included as profit in the fixed hourly labor rates; and

(iv) The contract provides—

(A) That the price to be paid for such material shall be based on an established catalog or list price in effect when material is furnished, less all applicable discounts to the Government; and

(B) That in no event shall the price exceed the contractor's sales price to its most-favored customer for the same item in like quantity, or the current market price, whichever is lower.

(c) *Limitations.* A time-and-materials contract may be used (1) only after the contracting officer executes a determination and findings that no other contract type is suitable; and (2) only if the contract includes a ceiling price that the con-

tractor exceeds at its own risk. The contracting officer shall document the contract file to justify the reasons for and amount of any subsequent change in the ceiling price.

16.602 Labor-hour contracts.

Description. A labor-hour contract is a variation of the time-and-materials contract, differing only in that materials are not supplied by the contractor. See 16.601(b) and 16.601(c) for application and limitations, respectively.

16.603 Letter contracts.

16.603-1 Description.

A letter contract is a written preliminary contractual instrument that authorizes the contractor to begin immediately manufacturing supplies or performing services.

16.603-2 Application.

(a) A letter contract may be used when (1) the Government's interests demand that the contractor be given a binding commitment so that work can start immediately and (2) negotiating a definitive contract is not possible in sufficient time to meet the requirement. However, a letter contract should be as complete and definite as feasible under the circumstances.

(b) When a letter contract award is based on price competition, the contracting officer shall include an overall price ceiling in the letter contract.

(c) Each letter contract shall, as required by the clause at 52.216-25, Contract Definitization, contain a negotiated definitization schedule including (1) dates for submission of the contractor's price proposal, required cost or pricing data, and, if required, make-or-buy and subcontracting plans, (2) a date for the start of negotiations, and (3) a target date for definitization, which shall be the earliest practicable date for definitization. The schedule will provide for definitization of the contract within 180 days after the date of the letter contract or before completion of 40 percent of the work to be performed, whichever occurs first. However, the contracting officer may, in extreme cases and according to agency procedures, authorize an additional period. If, after exhausting all reasonable efforts, the contracting officer and the contractor cannot negotiate a definitive contract because of failure to reach agreement as to price or fee, the clause at 52.216-25 requires the contractor to proceed with the work and provides that the contracting officer may, with the approval of the head of the contracting activity, determine a reasonable price or fee in accordance with Subpart 15.4 and Part 31, subject to appeal as provided in the Disputes clause.

(d) The maximum liability of the Government inserted in the clause at 52.216-24, Limitation of Government Liability, shall be the estimated amount necessary to cover the contractor's requirements for funds before definitization. However, it shall not exceed 50 percent of the estimated cost of the

definitive contract unless approved in advance by the official that authorized the letter contract.

(e) The contracting officer shall assign a priority rating to the letter contract if it is appropriate under 11.604.

16.603-3 Limitations.

A letter contract may be used only after the head of the contracting activity or a designee determines in writing that no other contract is suitable. Letter contracts shall not—

(a) Commit the Government to a definitive contract in excess of the funds available at the time the letter contract is executed;

(b) Be entered into without competition when competition is required by Part 6; or

(c) Be amended to satisfy a new requirement unless that requirement is inseparable from the existing letter contract. Any such amendment is subject to the same requirements and limitations as a new letter contract.

16.603-4 Contract clauses.

(a) The contracting officer shall include in each letter contract the clauses required by this regulation for the type of definitive contract contemplated and any additional clauses known to be appropriate for it.

(b) In addition, the contracting officer shall insert the following clauses in solicitations and contracts when a letter contract is contemplated:

(1) The clause at 52.216-23, Execution and Commencement of Work, except that this clause may be omitted from letter contracts awarded on SF 26;

(2) The clause at 52.216-24, Limitation of Government Liability, with dollar amounts completed in a manner consistent with 16.603-2(d); and

(3) The clause at 52.216-25, Contract Definitization, with its paragraph (b) completed in a manner consistent with 16.603-2(c). If, at the time of entering into the letter contract, the contracting officer knows that the definitive contract will be based on adequate price competition or will otherwise meet the criteria of 15.403-1 for not requiring submission of cost or pricing data, the words “and cost or pricing data supporting its proposal” may be deleted from paragraph (a) of the clause. If the letter contract is being awarded on the basis of price competition, the contracting officer shall use the clause with its Alternate I.

(c) The contracting officer shall also insert the clause at 52.216-26, Payments of Allowable Costs Before Definitization, in solicitations and contracts if a cost-reimbursement definitive contract is contemplated, unless the acquisition involves conversion, alteration, or repair of ships.

Subpart 16.7—Agreements

16.701 Scope.

This subpart prescribes policies and procedures for establishing and using basic agreements and basic ordering agreements. (See 13.303 for blanket purchase agreements (BPA's) and see 35.015(b) for additional coverage of basic agreements with educational institutions and nonprofit organizations.)

16.702 Basic agreements.

(a) *Description.* A basic agreement is a written instrument of understanding, negotiated between GPO and a contractor, that (1) contains contract clauses applying to future contracts between the parties during its term and (2) contemplates separate future contracts that will incorporate by reference or attachment the required and applicable clauses agreed upon in the basic agreement. A basic agreement is not a contract.

(b) *Application.* A basic agreement should be used when a substantial number of separate contracts may be awarded to a contractor during a particular period and significant recurring negotiating problems have been experienced with the contractor. Basic agreements may be used with negotiated fixed-price or cost-reimbursement contracts.

(1) Basic agreements shall contain—

- (i) Clauses required for negotiated contracts by statute, executive order, and this regulation; and
- (ii) Other clauses prescribed in this regulation or agency acquisition regulations that the parties agree to include in each contract as applicable.

(2) Each basic agreement shall provide for discontinuing its future applicability upon 30 days' written notice by either party.

(3) Each basic agreement shall be reviewed annually before the anniversary of its effective date and revised as necessary to conform to the requirements of this regulation. Basic agreements may need to be revised before the annual review due to mandatory statutory requirements. A basic agreement may be changed only by modifying the agreement itself and not by a contract incorporating the agreement.

(4) Discontinuing or modifying a basic agreement shall not affect any prior contract incorporating the basic agreement.

(5) Contracting officers of one agency should obtain and use existing basic agreements of another agency to the maximum practical extent.

(c) *Limitations.* A basic agreement shall not—

- (1) Cite appropriations or obligate funds;
- (2) State or imply any agreement by the Government to place future contracts or orders with the contractor; or
- (3) Be used in any manner to restrict competition.

(d) *Contracts incorporating basic agreements.* (1) Each contract incorporating a basic agreement shall include a scope of work and price, delivery, and other appropriate terms that apply to the particular contract. The basic agreement shall be incorporated into the contract by specific reference (including reference to each amendment) or by attachment.

(2) The contracting officer shall include clauses pertaining to subjects not covered by the basic agreement, but applicable to the contract being negotiated, in the same manner as if there were no basic agreement.

(3) If an existing contract is modified to effect new acquisition, the modification shall incorporate the most recent basic agreement, which shall apply only to work added by the modification, except that this action is not mandatory if the contract or modification includes all clauses required by statute, executive order, and this regulation as of the date of the modification. However, if it is in the Government's interest and the contractor agrees, the modification may incorporate the most recent basic agreement for application to the entire contract as of the date of the modification.

16.703 Basic ordering agreements.

(a) *Description.* A basic ordering agreement is a written instrument of understanding, negotiated between GPO and a contractor, that contains (1) terms and clauses applying to future contracts (orders) between the parties during its term, (2) a description, as specific as practicable, of supplies or services to be provided, and (3) methods for pricing, issuing, and delivering future orders under the basic ordering agreement. A basic ordering agreement is not a contract.

(b) *Application.* A basic ordering agreement may be used to expedite contracting for uncertain requirements for supplies or services when specific items, quantities, and prices are not known at the time the agreement is executed, but a substantial number of requirements for the type of supplies or services covered by the agreement are anticipated to be purchased from the contractor. Under proper circumstances, the use of these procedures can result in economies in ordering parts for equipment support by reducing administrative lead-time, inventory investment, and inventory obsolescence due to design changes.

(c) *Limitations.* A basic ordering agreement shall not state or imply any agreement by the Government to place future contracts or orders with the contractor or be used in any manner to restrict competition.

(1) Each basic ordering agreement shall—

- (i) Describe the method for determining prices to be paid to the contractor for the supplies or services;
- (ii) Include delivery terms and conditions or specify how they will be determined;
- (iii) List one or more Government activities authorized to issue orders under the agreement;

(iv) Specify the point at which each order becomes a binding contract (*e.g.*, issuance of the order, acceptance of the order in a specified manner, or failure to reject the order within a specified number of days);

(v) Provide that failure to reach agreement on price for any order issued before its price is established (see paragraph (d)(3) of this section) is a dispute under the Disputes clause included in the basic ordering agreement; and

(vi) If fast payment procedures will apply to orders, include the special data required by 13.403.

(2) Each basic ordering agreement shall be reviewed annually before the anniversary of its effective date and revised as necessary to conform to the requirements of this regulation. Basic ordering agreements may need to be revised before the annual review due to mandatory statutory requirements. A basic ordering agreement shall be changed only by modifying the agreement itself and not by individual orders issued under it. Modifying a basic ordering agreement shall not retroactively affect orders previously issued under it.

(d) *Orders.* A contracting officer representing any Government activity listed in a basic ordering agreement may issue orders for required supplies or services covered by that agreement.

(1) Before issuing an order under a basic ordering agreement, the contracting officer shall—

(i) Obtain competition in accordance with Part 6;

(ii) If the order is being placed after competition, ensure that use of the basic ordering agreement is not prejudicial to other offerors; and

(iii) Sign or obtain any applicable justifications and approvals, and any determination and findings, and comply with other requirements in accordance with 1.602-1(b), as if the order were a contract awarded independently of a basic ordering agreement.

(2) Contracting officers shall—

(i) Issue orders under basic ordering agreements on Optional Form (OF) 347, Order for Supplies or Services, or on any other appropriate contractual instrument;

(ii) Incorporate by reference the provisions of the basic ordering agreement;

(iii) If applicable, cite the authority under 6.302 in each order; and

(iv) Comply with 5.203 when synopsis is required by 5.201.

(3) The contracting officer shall neither make any final commitment nor authorize the contractor to begin work on an order under a basic ordering agreement until prices have been established, unless the order establishes a ceiling price limiting the Government's obligation and either—

(i) The basic ordering agreement provides adequate procedures for timely pricing of the order early in its performance period; or

(ii) The need for the supplies or services is compelling and unusually urgent (*i.e.*, when the Government would be seriously injured, financially or otherwise, if the requirement is not met sooner than would be possible if prices were established before the work began). The contracting officer shall proceed with pricing as soon as practical. In no event shall an entire order be priced retroactively.

Subpart 17.6—[Reserved]

This page intentionally left blank.

17.000 Scope of part.

This part prescribes policies and procedures for the acquisition of supplies and services through special contracting methods, including—

- (a) Multi-year contracting;
- (b) Options; and
- (c) Leader company contracting.

Subpart 17.1—Multi-year Contracting**17.101 Authority.**

This subpart provides policy and procedures for the use of multi-year contracting.

17.102 [Reserved]**17.103 Definitions.**

As used in this subpart—

“Cancellation” means the cancellation (within a contractually specified time) of the total requirements of all remaining program years. Cancellation results when the contracting officer—

- (1) Notifies the contractor of nonavailability of funds for contract performance for any subsequent program year; or
- (2) Fails to notify the contractor that funds are available for performance of the succeeding program year requirement.

“Cancellation ceiling” means the maximum cancellation charge that the contractor can receive in the event of cancellation.

“Cancellation charge” means the amount of unrecovered costs which would have been recouped through amortization over the full term of the contract, including the term canceled.

“Multi-year contract” means a contract for the purchase of supplies or services for more than 1, but not more than 5, program years. A multi-year contract may provide that performance under the contract during the second and subsequent years of the contract is contingent upon the appropriation of funds, and (if it does so provide) may provide for a cancellation payment to be made to the contractor if appropriations are not made. The key distinguishing difference between multi-year contracts and multiple year contracts is that multi-year contracts, defined in the statutes cited at 17.101, buy more than 1 year’s requirement (of a product or service) without establishing and having to exercise an option for each program year after the first.

“Nonrecurring costs” means those costs which are generally incurred on a one-time basis and include such costs as plant or equipment relocation, plant rearrangement, special tooling and special test equipment, preproduction engineering, initial spoilage and rework, and specialized work force training.

“Recurring costs” means costs that vary with the quantity being produced, such as labor and materials.

17.104 General.

(a) Multi-year contracting is a special contracting method to acquire known requirements in quantities and total cost not over planned requirements for up to 5 years unless otherwise authorized by statute, even though the total funds ultimately to be obligated may not be available at the time of contract award. This method may be used in sealed bidding or contracting by negotiation.

(b) Multi-year contracting is a flexible contracting method applicable to a wide range of acquisitions. The extent to which cancellation terms are used in multi-year contracts will depend on the unique circumstances of each contract. Accordingly, for multi-year contracts, the agency head may authorize modification of the requirements of this subpart and the clause at 52.217-2, Cancellation Under Multi-year Contracts.

(c) The funds obligated for multi-year contracts must be sufficient to cover any potential cancellation and/or termination costs; and multi-year contracts for the acquisition of fixed assets should be fully funded or funded in stages that are economically or programmatically viable.

(d) The termination for convenience procedure may apply to any Government contract, including multiyear contracts. As contrasted with cancellation, termination can be effected at any time during the life of the contract (cancellation is effected between fiscal years) and can be for the total quantity or partial quantity (where as cancellation must be for all subsequent fiscal years’ quantities).

17.105 Policy.**17.105-1 Uses.**

(a) The contracting officer may enter into a multi-year contract if the head of the contracting activity determines that—

- (1) The need for the supplies or services is reasonably firm and continuing over the period of the contract; and
- (2) A multi-year contract will serve the best interests of the United States by encouraging full and open competition or promoting economy in administration, performance, and operation of the agency’s programs.

17.105-2 Objectives.

Use of multi-year contracting is encouraged to take advantage of one or more of the following:

- (a) Lower costs.
- (b) Enhancement of standardization.
- (c) Reduction of administrative burden in the placement and administration of contracts.
- (d) Substantial continuity of production or performance, thus avoiding annual startup costs, preproduction testing costs, make-ready expenses, and phaseout costs.
- (e) Stabilization of contractor work forces.

(f) Avoidance of the need for establishing quality control techniques and procedures for a new contractor each year.

(g) Broadening the competitive base with opportunity for participation by firms not otherwise willing or able to compete for lesser quantities, particularly in cases involving high startup costs.

(h) Providing incentives to contractors to improve productivity through investment in capital facilities, equipment, and advanced technology.

17.106 Procedures.

17.106-1 General.

(a) *Method of contracting.* The nature of the requirement should govern the selection of the method of contracting, since the multi-year procedure is compatible with sealed bidding, including two-step sealed bidding, and negotiation.

(b) *Type of contract.* Given the longer performance period associated with multi-year acquisition, consideration in pricing fixed-priced contracts should be given to the use of economic price adjustment terms and profit objectives commensurate with contractor risk and financing arrangements.

(c) *Cancellation procedures.* (1) All program years except the first are subject to cancellation. For each program year subject to cancellation, the contracting officer shall establish a cancellation ceiling. Ceilings must exclude amounts for requirements included in prior program years. The contracting officer shall reduce the cancellation ceiling for each program year in direct proportion to the remaining requirements subject to cancellation. For example, consider that the total nonrecurring costs (see 15.408, Table 15-2, Formats for Submission of Line Items Summaries C(8)) are estimated at 10 percent of the total multi-year price, and the percentages for each of the program year requirements for 5 years are (i) 30 in the first year, (ii) 30 in the second, (iii) 20 in the third, (iv) 10 in the fourth, and (v) 10 in the fifth. The cancellation percentages, after deducting 3 percent for the first program year, would be 7, 4, 2, and 1 percent of the total price applicable to the second, third, fourth, and fifth program years, respectively.

(2) In determining cancellation ceilings, the contracting officer must estimate reasonable preproduction or startup, labor learning, and other nonrecurring costs to be incurred by an "average" prime contractor or subcontractor, which would be applicable to, and which normally would be amortized over, the items or services to be furnished under the multi-year requirements. Nonrecurring costs include such costs, where applicable, as plant or equipment relocation or rearrangement, special tooling and special test equipment, preproduction engineering, initial rework, initial spoilage, pilot runs, allocable portions of the costs of facilities to be acquired or established for the conduct of the work, costs incurred for

the assembly, training, and transportation to and from the job site of a specialized work force, and unrealized labor learning. They shall not include any costs of labor or materials, or other expenses (except as indicated above), which might be incurred for performance of subsequent program year requirements. The total estimate of the above costs must then be compared with the best estimate of the contract cost to arrive at a reasonable percentage or dollar figure. To perform this calculation, the contracting officer should obtain in-house engineering cost estimates identifying the detailed recurring and nonrecurring costs, and the effect of labor learning.

(3) The contracting officer shall establish cancellation dates for each program year's requirements regarding production lead time and the date by which funding for these requirements can reasonably be established. The contracting officer shall include these dates in the schedule, as appropriate.

(d) *Cancellation ceilings.* Cancellation ceilings and dates may be revised after issuing the solicitation if necessary. In sealed bidding, the contracting officer shall change the ceiling by amending the solicitation before bid opening. In two-step sealed bidding, discussions conducted during the first step may indicate the need for revised ceilings and dates which may be incorporated in step two. In a negotiated acquisition, negotiations with offerors may provide information requiring a change in cancellation ceilings and dates before final negotiation and contract award.

(e) *Payment of cancellation charges.* If cancellation occurs, the Government's liability will be determined by the terms of the applicable contract.

(f) *Presolicitation or pre-bid conferences.* To ensure that all interested sources of supply are thoroughly aware of how multi-year contracting is accomplished, use of presolicitation or pre-bid conferences may be advisable.

(g) *Payment limit.* The contracting officer shall limit the Government's payment obligation to an amount available for contract performance. The contracting officer shall insert the amount for the first program year in the contract upon award and modify it for successive program years upon availability of funds.

(h) *Termination payment.* If the contract is terminated for the convenience of the Government in whole, including requirements subject to cancellation, the Government's obligation shall not exceed the amount specified in the Schedule as available for contract performance, plus the cancellation ceiling.

17.106-2 Solicitations.

Solicitations for multi-year contracts shall reflect all the factors to be considered for evaluation, specifically including the following:

(a) The requirements, by item of supply or service, for the—

(1) First program year; and

(2) Multi-year contract including the requirements for each program year.

(b) Criteria for comparing the lowest evaluated submission on the first program year requirements to the lowest evaluated submission on the multi-year requirements.

(c) A provision that, if the Government determines before award that only the first program year requirements are needed, the Government's evaluation of the price or estimated cost and fee shall consider only the first year.

(d) A provision specifying a separate cancellation ceiling (on a percentage or dollar basis) and dates applicable to each program year subject to a cancellation (see 17.106-1(c) and (d)).

(e) A statement that award will not be made on less than the first program year requirements.

(f) The Government's administrative costs of annual contracting may be used as a factor in the evaluation only if they can be reasonably established and are stated in the solicitation.

(g) The cancellation ceiling shall not be an evaluation factor.

17.106-3 [Reserved]

17.107 Options.

Benefits may accrue by including options in a multi-year contract. In that event, contracting officers must follow the requirements of Subpart 17.2. Options should not include charges for plant and equipment already amortized, or other

nonrecurring charges which were included in the basic contract.

17.108 [Reserved]

17.109 Contract clauses.

(a) The contracting officer shall insert the clause at 52.217-2, Cancellation Under Multi-year Contracts, in solicitations and contracts when a multi-year contract is contemplated.

(b) *Economic price adjustment clauses.* Economic price adjustment clauses are adaptable to multi-year contracting needs. When the period of production is likely to warrant a labor and material costs contingency in the contract price, the contracting officer should normally use an economic price adjustment clause (see 16.203). When contracting for services, the contracting officer—

(1) Shall add the clause at 52.222-43, Fair Labor Standards Act and Service Contract Act—Price Adjustment (Multiple Year and Option Contracts), when the contract includes the clause at 52.222-41, Service Contract Act of 1965, as amended;

(2) May modify the clause at 52.222-43 in overseas contracts when laws, regulations, or international agreements require contractors to pay higher wage rates; or

(3) May use an economic price adjustment clause authorized by 16.203, when potential fluctuations require coverage and are not included in cost contingencies provided for by the clause at 52.222-43.

Subpart 17.2—Options

17.200 Scope of subpart.

This subpart prescribes policies and procedures for the use of option solicitation provisions and contract clauses. Except as provided in agency regulations, this subpart does not apply to contracts for (a) services involving the construction, alteration, or repair (including dredging, excavating, and painting) of buildings, bridges, roads, or other kinds of real property; (b) architect-engineer services; and (c) research and development services. However, it does not preclude the use of options in those contracts.

17.201 [Reserved]

17.202 Use of options.

(a) Subject to the limitations of paragraphs (b) and (c) of this section, for both sealed bidding and contracting by negotiation, the contracting officer may include options in contracts when it is in the Government's interest. When using sealed bidding, the contracting officer shall make a written determination that there is a reasonable likelihood that the options will be exercised before including the provision at 52.217-5, Evaluation of Options, in the solicitation. (See 17.207(f) with regard to the exercise of options.)

(b) Inclusion of an option is normally not in the Government's interest when, in the judgment of the contracting officer—

(1) The foreseeable requirements involve—

(i) Minimum economic quantities (*i.e.*, quantities large enough to permit the recovery of startup costs and the production of the required supplies at a reasonable price); and

(ii) Delivery requirements far enough into the future to permit competitive acquisition, production, and delivery.

(2) An indefinite quantity or requirements contract would be more appropriate than a contract with options. However, this does not preclude the use of an indefinite quantity contract or requirements contract with options.

(c) The contracting officer shall not employ options if—

(1) The contractor will incur undue risks; *e.g.*, the price or availability of necessary materials or labor is not reasonably foreseeable;

(2) Market prices for the supplies or services involved are likely to change substantially; or

(3) The option represents known firm requirements for which funds are available unless—

(i) The basic quantity is a learning or testing quantity; and

(ii) Competition for the option is impracticable once the initial contract is awarded.

(d) In recognition of—

(1) The Government's need in certain service contracts for continuity of operations; and

(2) The potential cost of disrupted support, options may be included in service contracts if there is an anticipated need for a similar service beyond the first contract period.

17.203 Solicitations.

(a) Solicitations shall include appropriate option provisions and clauses when resulting contracts will provide for the exercise of options (see 17.208).

(b) Solicitations containing option provisions shall state the basis of evaluation, either exclusive or inclusive of the option and, when appropriate, shall inform offerors that it is anticipated that the Government may exercise the option at time of award.

(c) Solicitations normally should allow option quantities to be offered without limitation as to price, and there shall be no limitation as to price if the option quantity is to be considered in the evaluation for award (see 17.206).

(d) Solicitations that allow the offer of options at unit prices which differ from the unit prices for the basic requirement shall state that offerors may offer varying prices for options, depending on the quantities actually ordered and the dates when ordered.

(e) If it is anticipated that the Government may exercise an option at the time of award and if the condition specified in paragraph (d) of this section applies, solicitations shall specify the price at which the Government will evaluate the option (highest option price offered or option price for specified requirements).

(f) Solicitations may, in unusual circumstances, require that options be offered at prices no higher than those for the initial requirement; *e.g.*, when—

(1) The option cannot be evaluated under 17.206; or;

(2) Future competition for the option is impracticable.

(g) Solicitations that require the offering of an option at prices no higher than those for the initial requirement shall—

(1) Specify that the Government will accept an offer containing an option price higher than the base price only if the acceptance does not prejudice any other offeror; and

(2) Limit option quantities for additional supplies to not more than 50 percent of the initial quantity of the same contract line item. In unusual circumstances, an authorized person at a level above the contracting officer may approve a greater percentage of quantity.

17.204 Contracts.

(a) The contract shall specify limits on the purchase of additional supplies or services, or the overall duration of the term of the contract, including any extension.

(b) The contract shall state the period within which the option may be exercised.

(c) The period shall be set so as to provide the contractor adequate lead time to ensure continuous production.

(d) The period may extend beyond the contract completion date for service contracts. This is necessary for situations when exercise of the option would result in the obligation of funds that are not available in the fiscal year in which the contract would otherwise be completed.

(e) Unless otherwise approved in accordance with agency procedures, the total of the basic and option periods shall not exceed 5 years in the case of services, and the total of the basic and option quantities shall not exceed the requirement for 5 years in the case of supplies. These limitations do not apply to information technology contracts. However, statutes applicable to various classes of contracts, for example, the Service Contract Act (see 22.1002-1), may place additional restrictions on the length of contracts.

(f) Contracts may express options for increased quantities of supplies or services in terms of—

- (1) Percentage of specific line items,
- (2) Increase in specific line items; or
- (3) Additional numbered line items identified as the option.

(g) Contracts may express extensions of the term of the contract as an amended completion date or as additional time for performance; *e.g.*, days, weeks, or months.

17.205 Documentation.

(a) The contracting officer shall justify in writing the quantities or the term under option, the notification period for exercising the option, and any limitation on option price under 17.203(g); and shall include the justification document in the contract file.

(b) Any justifications and approvals and any determination and findings required by Part 6 shall specify both the basic requirement and the increase permitted by the option.

17.206 Evaluation.

(a) In awarding the basic contract, the contracting officer shall, except as provided in paragraph (b) of this section, evaluate offers for any option quantities or periods contained in a solicitation when it has been determined prior to soliciting offers that the Government is likely to exercise the options. (See 17.208.)

(b) The contracting officer need not evaluate offers for any option quantities when it is determined that evaluation would not be in the best interests of the Government and this determination is approved at a level above the contracting officer. An example of a circumstance that may support a determination not to evaluate offers for option quantities is when there is a reasonable certainty that funds will be unavailable to permit exercise of the option.

17.207 Exercise of options.

(a) When exercising an option, the contracting officer shall provide written notice to the contractor within the time period specified in the contract.

(b) When the contract provides for economic price adjustment and the contractor requests a revision of the price, the contracting officer shall determine the effect of the adjustment on prices under the option before the option is exercised.

(c) The contracting officer may exercise options only after determining that—

- (1) Funds are available;
- (2) The requirement covered by the option fulfills an existing Government need;
- (3) The exercise of the option is the most advantageous method of fulfilling the Government's need, price and other factors (see paragraphs (d) and (e) of this section) considered; and
- (4) The option was synopsisized in accordance with Part 5 unless exempted by 5.202(a)(11) or other appropriate exemptions in 5.202.

(d) The contracting officer, after considering price and other factors, shall make the determination on the basis of one of the following:

(1) A new solicitation fails to produce a better price or a more advantageous offer than that offered by the option. If it is anticipated that the best price available is the option price or that this is the more advantageous offer, the contracting officer should not use this method of testing the market.

(2) An informal analysis of prices or an examination of the market indicates that the option price is better than prices available in the market or that the option is the more advantageous offer.

(3) The time between the award of the contract containing the option and the exercise of the option is so short that it indicates the option price is the lowest price obtainable or the more advantageous offer. The contracting officer shall take into consideration such factors as market stability and comparison of the time since award with the usual duration of contracts for such supplies or services.

(e) The determination of other factors under (c)(3) of this section should take into account the Government's need for continuity of operations and potential costs of disrupting operations.

(f) Before exercising an option, the contracting officer shall make a written determination for the contract file that exercise is in accordance with the terms of the option, the requirements of this section, and Part 6. To satisfy requirements of Part 6 regarding full and open competition, the option must have been evaluated as part of the initial competition and be exercisable at an amount specified in or reasonably determinable from the terms of the basic contract, *e.g.*—

- (1) A specific dollar amount;

(2) An amount to be determined by applying provisions (or a formula) provided in the basic contract, but not including renegotiation of the price for work in a fixed-price type contract;

(3) In the case of a cost-type contract, if—

(i) The option contains a fixed or maximum fee; or

(ii) The fixed or maximum fee amount is determinable by applying a formula contained in the basic contract (but see 16.102(c));

(4) A specific price that is subject to an economic price adjustment provision; or

(5) A specific price that is subject to change as the result of changes to prevailing labor rates provided by the Secretary of Labor.

(g) The contract modification or other written document which notifies the contractor of the exercise of the option shall cite the option clause as authority.

17.208 Solicitation provisions and contract clauses.

(a) Insert a provision substantially the same as the provision at 52.217-3, Evaluation Exclusive of Options, in solicitations when the solicitation includes an option clause and does not include one of the provisions prescribed in paragraph (b) or (c) of this section.

(b) Insert a provision substantially the same as the provision at 52.217-4, Evaluation of Options Exercised at Time of Contract Award, in solicitations when the solicitation includes an option clause, the contracting officer has determined that there is a reasonable likelihood that the option will be exercised, and the option may be exercised at the time of contract award.

(c) Insert a provision substantially the same as the provision at 52.217-5, Evaluation of Options, in solicitations when—

(1) The solicitation contains an option clause;

(2) An option is not to be exercised at the time of contract award;

(3) A firm-fixed-price contract, a fixed-price contract with economic price adjustment, or other type of contract approved under agency procedures is contemplated; and

(4) The contracting officer has determined that there is a reasonable likelihood that the option will be exercised. For sealed bids, the determination shall be in writing.

(d) Insert a clause substantially the same as the clause at 52.217-6, Option for Increased Quantity, in solicitations and contracts, other than those for services, when the inclusion of an option is appropriate (see 17.200 and 17.202) and the option quantity is expressed as a percentage of the basic contract quantity or as an additional quantity of a specific line item.

(e) Insert a clause substantially the same as the clause at 52.217-7, Option for Increased Quantity—Separately Priced Line Item, in solicitations and contracts, other than those for services, when the inclusion of an option is appropriate (see 17.200 and 17.202) and the option quantity is identified as a separately priced line item having the same nomenclature as a corresponding basic contract line item.

(f) Insert a clause substantially the same as the clause at 52.217-8, Option to Extend Services, in solicitations and contracts for services when the inclusion of an option is appropriate. (See 17.200, 17.202, and 37.111.)

(g) Insert a clause substantially the same as the clause at 52.217-9, Option to Extend the Term of the Contract, in solicitations and contracts when the inclusion of an option is appropriate (see 17.200 and 17.202) and it is necessary to include in the contract any or all of the following:

(1) A requirement that the Government must give the contractor a preliminary written notice of its intent to extend the contract.

(2) A statement that an extension of the contract includes an extension of the option.

(3) A specified limitation on the total duration of the contract.

Subpart 17.3—[Reserved]

Subpart 17.4—[Reserved]

Subpart 17.5—Interagency Acquisitions Under the Economy Act

17.500 Scope of subpart.

(a) This subpart prescribes policies and procedures applicable to interagency acquisitions under the Economy Act (31 U.S.C. 1535). The Economy Act also provides authority for placement of orders between major organizational units within an agency; procedures for such intra-agency transactions are addressed in agency regulations.

(b) The Economy Act applies when more specific statutory authority does not exist. Examples of interagency acquisitions to which the Economy Act does not apply include—

(1) Acquisitions from required or optional sources of supplies prescribed in Part 8, which have separate statutory authority (*e.g.*, Federal Supply Schedule contracts); and

(2) Acquisitions using Governmentwide acquisition contracts.

17.501 Definition.

“Interagency acquisition,” as used in this subpart, means a procedure by which an agency needing supplies or services (the requesting agency) obtains them from another agency (the servicing agency).

17.502 General.

(a) The Economy Act authorizes agencies to enter into mutual agreements to obtain supplies or services by interagency acquisition.

(b) The Economy Act may not be used by an agency to circumvent conditions and limitations imposed on the use of funds.

(c) Acquisitions under the Economy Act are not exempt from the requirements of Subpart 7.3, Contractor Versus Government Performance.

(d) The Economy Act may not be used to make acquisitions conflicting with any other agency's authority or responsibility (for example, that of the Administrator of General Services under the Federal Property and Administrative Services Act).

17.503 Determinations and findings requirements.

(a) Each Economy Act order shall be supported by a Determination and Finding (D&F). The D&F shall state that—

(1) Use of an interagency acquisition is in the best interest of the Government; and

(2) The supplies or services cannot be obtained as conveniently or economically by contracting directly with a private source.

(b) If the Economy Act order requires contract action by the servicing agency, the D&F must also include a statement that at least one of the following circumstances applies:

(1) The acquisition will appropriately be made under an existing contract of the servicing agency, entered into before placement of the order, to meet the requirements of the servicing agency for the same or similar supplies or services;

(2) The servicing agency has capabilities or expertise to enter into a contract for such supplies or services which is not available within the requesting agency; or

(3) The servicing agency is specifically authorized by law or regulation to purchase such supplies or services on behalf of other agencies.

(c) The D&F shall be approved by a contracting officer of the requesting agency with authority to contract for the supplies or services to be ordered, or by another official designated by the agency head.

17.504 Ordering procedures.

(a) Before placing an Economy Act order for supplies or services with another Government agency, the requesting agency shall make the D&F required in 17.503. The servicing agency may require a copy of the D&F to be furnished with the order.

(b) The order may be placed on any form or document that is acceptable to both agencies. The order should include—

(1) A description of the supplies or services required;

(2) Delivery requirements;

(3) A funds citation;

(4) A payment provision (see 17.505); and

(5) Acquisition authority as may be appropriate (see 17.504(d)).

(c) The requesting and servicing agencies should agree to procedures for the resolution of disagreements that may arise under interagency acquisitions, including, in appropriate circumstances, the use of a third-party forum. If a third party is proposed, consent of the third party should be obtained in writing.

(d) When an interagency acquisition requires the servicing agency to award a contract, the following procedures also apply:

(1) If a justification and approval or a D&F (other than the requesting agency's D&F required in 17.503) is required by law or regulation, the servicing agency shall execute and issue the justification and approval or D&F. The requesting agency shall furnish the servicing agency any information needed to make the justification and approval or D&F.

(2) The requesting agency shall also be responsible for furnishing other assistance that may be necessary, such as providing information or special contract terms needed to comply with any condition or limitation applicable to the funds of the requesting agency.

(3) The servicing agency is responsible for compliance with all other legal or regulatory requirements applicable to the contract, including (i) having adequate statutory authority for the contractual action, and (ii) complying fully with the

competition requirements of Part 6 (see 6.002). However, if the servicing agency is not subject to the Federal Acquisition Regulation, the requesting agency shall verify that contracts utilized to meet its requirements contain provisions protecting the Government from inappropriate charges (for example, provisions mandated for MMAR agencies by Part 31), and that adequate contract administration will be provided.

(e) Nonsponsoring Federal agencies may use a Federally Funded Research and Development Center (FFRDC) only if the terms of the FFRDC's sponsoring agreement permit work from other than a sponsoring agency. Work placed with the FFRDC is subject to the acceptance by the sponsor and must fall within the purpose, mission, general scope of effort, or special competency of the FFRDC. (See 35.017; see also 6.302 for procedures to follow where using other than full and open competition.) The nonsponsoring agency shall provide to the sponsoring agency necessary documentation that the requested work would not place the FFRDC in direct competition with domestic private industry.

17.505 Payment.

(a) The servicing agency may ask the requesting agency, in writing, for advance payment for all or part of the estimated cost of furnishing the supplies or services. Adjustment on the basis of actual costs shall be made as agreed to by the agencies.

(b) If approved by the servicing agency, payment for actual costs may be made by the requesting agency after the supplies or services have been furnished.

(c) Bills rendered or requests for advance payment shall not be subject to audit or certification in advance of payment.

(d) If the Economy Act order requires use of a contract by the servicing agency, then in no event shall the servicing agency require, or the requiring agency pay, any fee or charge in excess of the actual cost (or estimated cost if the actual cost is not known) of entering into and administering the contract or other agreement under which the order is filled.

17.506 JCP Advance Approval Requirement

Any interagency agreement where the cost exceeds \$20,000 annually requires written approval of the Joint Committee on Printing (JCP). See 4.104.

19.000 Scope of part.

(a) This part implements the MMS acquisition-related policies regarding small businesses.

19.001 Definitions.

As used in this part—

“Concern” means any business entity organized for profit (even if its ownership is in the hands of a nonprofit entity) with a place of business located in the United States and which makes a significant contribution to the U.S. economy through payment of taxes and/or use of American products, material and/or labor, etc. “Concern” includes but is not limited to an individual, partnership, corporation, joint venture, association, or cooperative. For the purpose of making affiliation findings (see 19.101) any business entity, whether organized for profit or not, and any foreign business entity, *i.e.*, any entity located outside the United States, shall be included.

“Fair market price” means a price based on reasonable costs under normal competitive conditions and not on lowest possible cost (see 19.202-6).

“Industry” means all concerns primarily engaged in similar lines of activity, as listed and described in the North American Industry Classification System (NAICS) manual (available via the Internet at <http://www.census.gov/epcd/www/naics.html>).

“Nonmanufacturer rule” means that a contractor under a small business set-aside or 8(a) contract shall be a small business under the applicable size standard and shall provide either its own product or that of another domestic small business manufacturing or processing concern (see 13 CFR 121.406).

“Small business concern” means a concern, including its affiliates, that is independently owned and operated, not dominant in the field of operation in which it is bidding on government contracts, and qualified as a small business under the criteria and size standards in 13 CFR part 121 (see 19.102). Such a concern is “not dominant in its field of operation” when it does not exercise a controlling or major influence on a national basis in a kind of business activity in which a number of business concerns are primarily engaged. In determining whether dominance exists, consideration shall be given to all appropriate factors, including volume of business, number of employees, financial resources, competitive status or position, ownership or control of materials, processes, patents, license agreements, facilities, sales territory, and nature of business activity.

“Very small business concern” means a small business concern—

(1) Whose headquarters is located within the geographic area served by a designated SBA district; and

(2) Which, together with its affiliates, has no more than 15 employees and has average annual receipts that do not exceed \$1 million.

Subpart 19.1—Size Standards**19.101 Explanation of terms.**

As used in this subpart—

“Affiliates.” Business concerns are affiliates of each other if, directly or indirectly, either one controls or has the power to control the other, or another concern controls or has the power to control both. In determining whether affiliation exists, consideration is given to all appropriate factors including common ownership, common management, and contractual relationships; provided, that restraints imposed by a franchise agreement are not considered in determining whether the franchisor controls or has the power to control the franchisee, if the franchisee has the right to profit from its effort, commensurate with ownership, and bears the risk of loss or failure. Any business entity may be found to be an affiliate, whether or not it is organized for profit or located inside the United States.

(1) *Nature of control.* Every business concern is considered as having one or more parties who directly or indirectly control or have the power to control it. Control may be affirmative or negative and it is immaterial whether it is exercised so long as the power to control exists.

(2) *Meaning of “party or parties.”* The term “party” or “parties” includes, but is not limited to, two or more persons with an identity of interest such as members of the same family or persons with common investments in more than one concern. In determining who controls or has the power to control a concern, persons with an identity of interest may be treated as though they were one person.

(3) *Control through stock ownership.* (i) A party is considered to control or have the power to control a concern, if the party controls or has the power to control 50 percent or more of the concern’s voting stock.

(ii) A party is considered to control or have the power to control a concern, even though the party owns, controls, or has the power to control less than 50 percent of the concern’s voting stock, if the block of stock the party owns, controls, or has the power to control is large, as compared with any other outstanding block of stock. If two or more parties each owns, controls, or has the power to control, less than 50 percent of the voting stock of a concern, and such minority block is equal or substantially equal in size, and large as compared with any other block outstanding, there is a presumption that each such party controls or has the power to control such concern; however, such presumption may be rebutted by a showing that such control or power to control, in fact, does not exist.

(iii) If a concern’s voting stock is distributed other than as described above, its management (officers and directors) is deemed to be in control of such concern.

(4) *Stock options and convertible debentures.* Stock options and convertible debentures exercisable at the time or within a relatively short time after a size determination and agreements to merge in the future, are considered as having a present effect on the power to control the concern. Therefore, in making a size determination, such options, debentures, and agreements are treated as though the rights held thereunder had been exercised.

(5) *Voting trusts.* If the purpose of a voting trust, or similar agreement, is to separate voting power from beneficial ownership of voting stock for the purpose of shifting control of or the power to control a concern in order that such concern or another concern may qualify as a small business within the size regulations, such voting trust shall not be considered valid for this purpose regardless of whether it is or is not valid within the appropriate jurisdiction. However, if a voting trust is entered into for a legitimate purpose other than that described above, and it is valid within the appropriate jurisdiction, it may be considered valid for the purpose of a size determination, provided such consideration is determined to be in the best interest of the small business program.

(6) *Control through common management.* A concern may be found as controlling or having the power to control another concern when one or more of the following circumstances are found to exist, and it is reasonable to conclude that under the circumstances, such concern is directing or influencing, or has the power to direct or influence, the operation of such other concern.

(i) *Interlocking management.* Officers, directors, employees, or principal stockholders of one concern serve as a working majority of the board of directors or officers of another concern.

(ii) *Common facilities.* One concern shares common office space and/or employees and/or other facilities with another concern, particularly where such concerns are in the same or related industry or field of operation, or where such concerns were formerly affiliated.

(iii) *Newly organized concern.* Former officers, directors, principal stockholders, and/or key employees of one concern organize a new concern in the same or a related industry or field operation, and serve as its officers, directors, principal stockholders, and/or key employees, and one concern is furnishing or will furnish the other concern with subcontracts, financial or technical assistance, and/or facilities, whether for a fee or otherwise.

(7) *Control through contractual relationships—*
(i) *Definition of a joint venture for size determination purposes.* A joint venture for size determination purposes is an association of persons or concerns with interests in any degree or proportion by way of contract, express or implied, consorting to engage in and carry out a single specific business venture for joint profit, for which purpose they combine their

efforts, property, money, skill, or knowledge, but not on a continuing or permanent basis for conducting business generally. A joint venture is viewed as a business entity in determining power to control its management.

(A) For bundled requirements, apply size standards for the requirement to individual persons or concerns, not to the combined assets, of the joint venture.

(B) For other than bundled requirements, apply size standards for the requirement to individual persons or concerns, not to the combined assets, of the joint venture, if—

(1) A revenue-based size standard applies to the requirement and the estimated contract value, including options, exceeds one-half the applicable size standard; or

(2) An employee-based size standard applies to the requirement and the estimated contract value, including options, exceeds \$10 million.

(ii) *Joint venture—acquisition and property sale assistance.* Concerns bidding on a particular acquisition or property sale as joint ventures are considered as affiliated and controlling or having the power to control each other with regard to performance of the contract. Moreover, an ostensible subcontractor which is to perform primary or vital requirements of a contract may have a controlling role such to be considered a joint venturer affiliated on the contract with the prime contractor. A joint venture affiliation finding is limited to particular contracts unless the SBA size determination finds general affiliation between the parties.

(iii) Where a concern is not considered as being an affiliate of a concern with which it is participating in a joint venture, it is necessary, nevertheless, in computing annual receipts, etc., for the purpose of applying size standards, to include such concern's share of the joint venture receipts (as distinguished from its share of the profits of such venture).

(iv) *Franchise and license agreements.* If a concern operates or is to operate under a franchise (or a license) agreement, the following policy is applicable: In determining whether the franchisor controls or has the power to control and, therefore, is affiliated with the franchisee, the restraints imposed on a franchisee by its franchise agreement shall not be considered, provided that the franchisee has the right to profit from its effort and the risk of loss or failure, commensurate with ownership. Even though a franchisee may not be controlled by the franchisor by virtue of the contractual relationship between them, the franchisee may be controlled by the franchisor or others through common ownership or common management, in which case they would be considered as affiliated.

(v) *Size determination for teaming arrangements.* For size determination purposes, apply the size standard tests in paragraphs (7)(i)(A) and (B) of this section when a teaming arrangement of two or more business concerns submits an offer, as appropriate.

“Annual receipts.” (1) Annual receipts of a concern which has been in business for 3 or more complete fiscal years means the annual average gross revenue of the concern taken for the last 3 fiscal years. For the purpose of this definition, gross revenue of the concern includes revenues from sales of products and services, interest, rents, fees, commissions and/or whatever other sources derived, but less returns and allowances, sales of fixed assets, interaffiliate transactions between a concern and its domestic and foreign affiliates, and taxes collected for remittance (and if due, remitted) to a third party. Such revenues shall be measured as entered on the regular books of account of the concern whether on a cash, accrual, or other basis of accounting acceptable to the U.S. Treasury Department for the purpose of supporting Federal income tax returns, except when a change in accounting method from cash to accrual or accrual to cash has taken place during such 3-year period, or when the completed contract method has been used.

(i) In any case of change in accounting method from cash to accrual or accrual to cash, revenues for such 3-year period shall, prior to the calculation of the annual average, be restated to the accrual method. In any case, where the completed contract method has been used to account for revenues in such 3-year period, revenues must be restated on an accrual basis using the percentage of completion method.

(ii) In the case of a concern which does not keep regular books of accounts, but which is subject to U.S. Federal income taxation, “annual receipts” shall be measured as reported, or to be reported to the U.S. Treasury Department, Internal Revenue Service, for Federal income tax purposes, except that any return based on a change in accounting method or on the completed contract method of accounting must be restated as provided for in the preceding paragraphs.

(2) Annual receipts of a concern that has been in business for less than 3 complete fiscal years means its total receipts for the period it has been in business, divided by the number of weeks including fractions of a week that it has been in business, and multiplied by 52. In calculating total receipts, the definitions and adjustments related to a change of accounting method and the completed contract method of paragraph (1) of this definition, are applicable.

“Number of employees” is a measure of the average employment of a business concern and means its average employment, including the employees of its domestic and foreign affiliates, based on the number of persons employed on a full-time, part-time, temporary, or other basis during each of the pay periods of the preceding 12 months. If a business has not been in existence for 12 months, “number of employees” means the average employment of such concern and its affiliates during the period that such concern has been in existence based on the number of persons employed during each of the

pay periods of the period that such concern has been in business. If a business has acquired an affiliate during the applicable 12-month period, it is necessary, in computing the applicant's number of employees, to include the affiliate's number of employees during the entire period, rather than only its employees during the period in which it has been an affiliate. The employees of a former affiliate are not included, even if such concern had been an affiliate during a portion of the period.

19.102 Size standards.

(a) The SBA establishes small business size standards on an industry-by-industry basis. (See 13 CFR part 121.)

(b) Small business size standards are applied by—

(1) Classifying the product or service being acquired in the industry whose definition, as found in the North American Industry Classification System (NAICS) Manual (available via the Internet at <http://www.census.gov/epcd/www/naics.html>), best describes the principal nature of the product or service being acquired;

(2) Identifying the size standard SBA established for that industry; and

(3) Specifying the size standard in the solicitation so that offerors can appropriately represent themselves as small or large.

(c) For size standard purposes, a product or service shall be classified in only one industry, whose definition best describes the principal nature of the product or service being acquired even though for other purposes it could be classified in more than one.

(d) When acquiring a product or service that could be classified in two or more industries with different size standards, contracting officers shall apply the size standard for the industry accounting for the greatest percentage of the contract price.

(e) If a solicitation calls for more than one item and allows offers to be submitted on any or all of the items, an offeror must meet the size standard for each item it offers to furnish. If a solicitation calling for more than one item requires offers on all or none of the items, an offeror may qualify as a small business by meeting the size standard for the item accounting for the greatest percentage of the total contract price.

(f) Any concern which submits a bid or offer in its own name, other than on a construction or service contract, but which proposes to furnish a product which it did not itself manufacture, is deemed to be a small business when it has no more than 500 employees.

(g) The industry size standards are published by the Small Business Administration and are available via the Internet at <http://www.sba.gov/size>.

Subpart 19.2—Policies

19.201 General policy.

(a) It is the policy of the GPO to provide maximum practicable opportunities in its acquisitions to small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns. Such concerns must also have the maximum practicable opportunity to participate as subcontractors in the contracts awarded, consistent with efficient contract performance.

(b) Heads of contracting activities are responsible for effectively implementing the small business programs within their activities, including achieving program goals. They are to ensure that contracting and technical personnel maintain knowledge of small business program requirements and take all reasonable action to increase participation in their activities' contracting processes by these businesses.

19.202 Specific policies.

In order to further the policy in 19.201(a), contracting officers shall comply with the specific policies listed in this section.

19.202-1 Encouraging small business participation in acquisitions.

Small business concerns shall be afforded an equitable opportunity to compete for all contracts that they can perform to the extent consistent with the Government's interest. When applicable, the contracting officer shall take the following actions:

(a) Divide proposed acquisitions of supplies and services (except construction) into reasonably small lots (not less than economic production runs) to permit offers on quantities less than the total requirement.

(b) Ensure that delivery schedules are established on a realistic basis that will encourage small business participation to the extent consistent with the actual requirements of the Government.

(c) Encourage prime contractors to subcontract with small business concerns (see Subpart 19.7).

19.202-2 Locating small business sources.

The contracting officer must, to the extent practicable, encourage maximum participation by small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns in acquisitions by taking the following actions:

(a) Include on mailing lists all established and potential small business sources, including those located in labor surplus areas and HUBZones, if the concerns have submitted

acceptable applications or appear from other representations to be qualified small business concerns.

(b) Before issuing solicitations, make every reasonable effort to find additional small business concerns, unless lists are already excessively long and only some of the concerns on the list will be solicited.

(c) Publicize solicitations and contract awards through the Governmentwide point of entry (see Subparts 5.2 and 5.3).

19.202-3 Equal low bids.

In the event of equal low bids (see 14.408-6), awards shall be made first to small business concerns which are also labor surplus area concerns, and second to small business concerns which are not also labor surplus area concerns.

19.202-4 Solicitation.

The contracting officer must encourage maximum response to solicitations by small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small business concerns by taking the following actions:

(a) Allow the maximum amount of time practicable for the submission of offers.

(b) Furnish specifications, plans, and drawings with solicitations, or furnish information as to where they may be obtained or examined.

(c) Send solicitations to—

(1) A pro rata number of small business concerns when less than a complete list is used.

(d) Provide to any small business concern, upon its request, a copy of bid sets and specifications with respect to any contract to be let, the name and telephone number of an agency contact to answer questions related to such prospective contract and adequate citations to each major Federal law or agency rule with which such business concern must comply in performing such contract other than laws or agency rules with which the small business must comply when doing business with other than the Government.

19.202-5 Data collection and reporting requirements.

MMS shall:

(a) Require each prospective contractor to represent whether it is a small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, or women-owned small business concern (see the provision at 52.219-1, Small Business Program Representations).

(b) Accurately measure the extent of participation by small business, veteran-owned small business, service-disabled veteran-owned small business, HUBZone small business, small disadvantaged business, and women-owned small busi-

ness concerns in Government acquisitions in terms of the total value of contracts placed during each fiscal year.

- 22.1505 Solicitation provision and contract clause.

This page intentionally left blank.

22.000 Scope of part.

This part—

- (a) Deals with general policies regarding contractor labor relations as they pertain to the acquisition process;
- (b) Prescribes contracting policy and procedures for implementing pertinent labor laws; and
- (c) Prescribes contract clauses with respect to each pertinent labor law.

22.001 Definition.

“Administrator” or “Administrator, Wage and Hour Division,” as used in this part, means the—

Administrator
Wage and Hour Division
Employment Standards Administration
U.S. Department of Labor
Washington, DC 20210

or an authorized representative.

Subpart 22.1—Basic Labor Policies**22.101 Labor relations.****22.101-1 General.**

(a) MMS shall maintain sound relations with industry and labor to ensure (1) prompt receipt of information involving labor relations that may adversely affect the Government acquisition process and (2) that the Government obtains needed supplies and services without delay. All matters regarding labor relations shall be handled in accordance with agency procedures.

(b)(1) MMS shall remain impartial concerning any dispute between labor and contractor management and not undertake the conciliation, mediation, or arbitration of a labor dispute. To the extent practicable, MMS should ensure that the parties to the dispute use all available methods for resolving the dispute, including the services of the National Labor Relations Board, Federal Mediation and Conciliation Service, the National Mediation Board and other appropriate Federal, State, local, or private agencies.

(2) For use of project labor agreements, see 36.202(d).

(c) MMS should, when practicable, exchange information concerning labor matters with other affected agencies to ensure a uniform Government approach concerning a particular plant or labor-management dispute.

(d) MMS should take other actions concerning labor relations problems to the extent consistent with their acquisition responsibilities. For example, agencies should—

(1) Notify the agency responsible for conciliation, mediation, arbitration, or other related action of the existence of any labor dispute affecting or threatening to affect agency acquisition programs;

(2) Furnish to the parties to a dispute factual information pertinent to the dispute's potential or actual adverse impact on these programs, to the extent consistent with security regulations; and

(3) Seek a voluntary agreement between management and labor, notwithstanding the continuance of the dispute, to permit uninterrupted acquisition of supplies and services. This shall only be done, however, if the attempt to obtain voluntary agreement does not involve the agency in the merits of the dispute and only after consultation with the agency responsible for conciliation, mediation, arbitration, or other related action.

(e) The head of the contracting activity may designate programs or requirements for which it is necessary that contractors be required to notify the Government of actual or potential labor disputes that are delaying or threaten to delay the timely contract performance (see 22.103-5(a)).

22.101-2 Contract pricing and administration.

(a) Contractor labor policies and compensation practices, whether or not included in labor-management agreements, are not acceptable bases for allowing costs in cost-reimbursement contracts or for recognition of costs in pricing fixed-price contracts if they result in unreasonable costs to the Government. For a discussion of allowable costs resulting from labor-management agreements, see 31.205-6(c).

(b) Labor disputes may cause work stoppages that delay the performance of Government contracts. Contracting officers shall impress upon contractors that each contractor shall be held accountable for reasonably avoidable delays. Standard contract clauses dealing with default, excusable delays, etc., do not relieve contractors or subcontractors from the responsibility for delays that are within the contractors' or their subcontractors' control. A delay caused by a strike that the contractor or subcontractor could not reasonably prevent can be excused; however, it cannot be excused beyond the point at which a reasonably diligent contractor or subcontractor could have acted to end the strike by actions such as—

(1) Filing a charge with the National Labor Relations Board to permit the Board to seek injunctive relief in court;

(2) Using other available Government procedures; and

(3) Using private boards or organizations to settle disputes.

(c) Strikes normally result in changing patterns of cost incurrence and therefore may have an impact on the allowability of costs for cost-reimbursement contracts or for recognition of costs in pricing fixed-price contracts. Certain costs may increase because of strikes; *e.g.*, guard services and attorney's fees. Other costs incurred during a strike may not fluctuate (*e.g.*, “fixed costs” such as rent and depreciation), but because of reduced production, their proportion of the unit cost of items produced increases. All costs incurred during strikes shall be carefully examined to ensure recognition of

only those costs necessary for performing the contract in accordance with the Government's essential interest.

(d) If, during a labor dispute, the inspectors' safety is not endangered, the normal functions of inspection at the plant of a Government contractor shall be continued without regard to the existence of a labor dispute, strike, or picket line.

22.101-3 Reporting labor disputes.

The office administering the contract shall report, in accordance with agency procedures, any potential or actual labor disputes that may interfere with performing any contracts under its cognizance. If a contract contains the clause at 52.222-1, Notice to the Government of Labor Disputes, the contractor also must report any actual or potential dispute that may delay contract performance.

22.101-4 Removal of items from contractors' facilities affected by work stoppages.

(a) Items shall be removed from contractors' facilities affected by work stoppages in accordance with agency procedures. Agency procedures should allow for the following:

(1) Determine whether removal of items is in the Government's interest. Normally the determining factor is the critical needs of an agency program.

(2) Attempt to arrange with the contractor and the union representative involved their approval of the shipment of urgently required items.

(3) Obtain appropriate approvals from within the agency.

(4) Determine who will remove the items from the plant(s) involved.

(b) Avoid the use or appearance of force and prevent incidents that might detrimentally affect labor-management relations.

(c) When two or more agencies' requirements are or may become involved in the removal of items, the contract administration office shall ensure that the necessary coordination is accomplished.

22.102 Federal and State labor requirements.

22.102-1 Policy.

MMS shall cooperate, and encourage contractors to cooperate with Federal and State agencies responsible for enforcing labor requirements such as—

- (a) Safety;
- (b) Health and sanitation;
- (c) Maximum hours and minimum wages;
- (d) Equal employment opportunity;
- (e) Child and convict labor;
- (f) Age discrimination;
- (g) Disabled and Vietnam veteran employment; and
- (h) Employment of the handicapped.

22.102-2 Administration.

(a) MMS shall cooperate with, and encourage contractors to use to the fullest extent practicable, the United States Employment Service (USES) and its affiliated local State Employment Service offices in meeting contractors' labor requirements. These requirements may be to staff new or expanding plant facilities, including requirements for workers in all occupations and skills from local labor market areas or through the Federal-State employment clearance system.

(b) Local State employment offices are operated throughout the United States, Puerto Rico, Guam, and the Virgin Islands. In addition to providing recruitment assistance to contractors, cooperation with the local State Employment Service offices will further the national program of maintaining continuous assessment of manpower requirements and resources on a national and local basis.

(c) The U.S. Department of Labor is responsible for the administration and enforcement of the Occupational Safety and Health Act.

22.103 Overtime.

22.103-1 Definition.

"Normal workweek," as used in this subpart, means, generally, a workweek of 40 hours. Outside the United States, its possessions, and Puerto Rico, a workweek longer than 40 hours shall be considered normal if—

(1) The workweek does not exceed the norm for the area, as determined by local custom, tradition, or law; and

(2) The hours worked in excess of 40 in the workweek are not compensated at a premium rate of pay.

22.103-2 Policy.

Contractors shall perform all contracts, so far as practicable, without using overtime, particularly as a regular employment practice, except when lower overall costs to the Government will result or when it is necessary to meet urgent program needs. Any approved overtime, extra-pay shifts, and multishifts should be scheduled to achieve these objectives.

22.103-3 Procedures.

(a) Solicitations normally shall not specify delivery or performance schedules that may require overtime at Government expense.

(b) In negotiating contracts, contracting officers should, consistent with the Government's needs, attempt to—

(1) Ascertain the extent that offers are based on the payment of overtime and shift premiums; and

(2) Negotiate contract prices or estimated costs without these premiums or obtain the requirement from other sources.

(c) When it becomes apparent during negotiations of applicable contracts (see 22.103-5(b)) that overtime will be required in contract performance, the contracting officer shall

secure from the contractor a request for all overtime to be used during the life of the contract, to the extent that the overtime can be estimated with reasonable certainty. The contractor's request shall contain the information required by paragraph (b) of the clause at 52.222-2, Payment for Overtime Premiums.

22.103-4 Approvals.

(a) The contracting officer shall review the contractor's request for overtime. Approval of the use of overtime may be granted by an agency approving official after determining in writing that overtime is necessary to—

- (1) Meet essential delivery or performance schedules;
- (2) Make up for delays beyond the control and without the fault or negligence of the contractor; or
- (3) Eliminate foreseeable extended production bottlenecks that cannot be eliminated in any other way.

(b) Approval by the designated official of use and total dollar amount of overtime is required before inclusion of an amount in paragraph (a) of the clause at 52.222-2, Payment for Overtime Premiums. This clause is to be inserted in cost-reimbursement contracts over \$100,000, except for those exempted under 22.103-5(b).

(c) Contracting officer approval of payment of overtime premiums is required for time-and-materials and labor-hour contracts (see paragraph (a)(3) of the clause at 52.232-7, Payments Under Time-and-Materials and Labor-Hour Contracts).

(d) No approvals are required for paying overtime premiums under other types of contracts.

(e) Approvals by the agency approving official (see 22.103-4(a)) may be for an individual contract, project, program, plant, division, or company, as practical.

(f) During contract performance, contractor requests for overtime exceeding the amount authorized by paragraph (a) of the clause at 52.222-2, Payment for Overtime Premiums, shall be submitted as stated in paragraph (b) of the clause to the office administering the contract. That office will review

the request and if it approves, send the request to the contracting officer. If the contracting officer determines that the requested overtime should be approved in whole or in part, the contracting officer shall request the approval of the agency's designated approving official and modify paragraph (a) of the clause to reflect any approval.

(g) Overtime premiums at Government expense should not be approved when the contractor is already obligated, without the right to additional compensation, to meet the required delivery date.

(h) When the use of overtime is authorized under a contract, the office administering the contract and the auditor should periodically review the use of overtime to ensure that it is allowable in accordance with the criteria in Part 31. Only overtime premiums for work in those departments, sections, etc., of the contractor's plant that have been individually evaluated and the necessity for overtime confirmed shall be considered for approval.

(i) Approvals for using overtime shall ordinarily be prospective, but, if justified by emergency circumstances, approvals may be retroactive.

22.103-5 Contract clauses.

(a) The contracting officer shall insert the clause at 52.222-1, Notice to the Government of Labor Disputes, in solicitations and contracts that involve programs or requirements that have been designated under 22.101-1(e).

(b) The contracting officer shall include the clause at 52.222-2, Payment for Overtime Premiums, in solicitations and contracts when a cost-reimbursement contract is contemplated and the contract amount is expected to be over \$100,000; unless—

- (1) A cost-reimbursement contract for operation of vessels is contemplated; or
- (2) A cost-plus- incentive-fee contract that will provide a swing from the target fee of at least plus or minus 3 percent and a contractor's share of at least 10 percent is contemplated.

Subpart 22.2—Convict Labor

22.201 General.

(a) Executive Order 11755, December 29, 1973, as amended by Executive Order 12608, September 9, 1987, and Executive Order 12943, December 13, 1994, states: “The development of the occupational and educational skills of prison inmates is essential to their rehabilitation and to their ability to make an effective return to free society. Meaningful employment serves to develop those skills. It is also true, however, that care must be exercised to avoid either the exploitation of convict labor or any unfair competition between convict labor and free labor in the production of goods and services.” The Executive order does not prohibit the contractor, in performing the contract, from employing—

- (1) Persons on parole or probation;
- (2) Persons who have been pardoned or who have served their terms;
- (3) Federal prisoners; or
- (4) Nonfederal prisoners authorized to work at paid employment in the community under the laws of a jurisdiction listed in the Executive order if—
 - (i) The worker is paid or is in an approved work training program on a voluntary basis;
 - (ii) Representatives of local union central bodies or similar labor union organizations have been consulted;
 - (iii) Paid employment will not—
 - (A) Result in the displacement of employed workers;
 - (B) Be applied in skills, crafts, or trades in which there is a surplus of available gainful labor in the locality; or

(C) Impair existing contracts for services;

(iv) The rates of pay and other conditions of employment will not be less than those for work of a similar nature in the locality where the work is being performed; and

(v) The Attorney General of the United States has certified that the work-release laws or regulations of the jurisdiction involved are in conformity with the requirements of Executive Order 11755, as amended.

(b) Department of Justice regulations authorize the Director of the Bureau of Justice Assistance to exercise the power and authority vested in the Attorney General by the Executive order to certify and to revoke the certification of work-release laws or regulations (see 28 CFR 0.94-1(b)).

22.202 Contract clause.

The contracting officer shall insert the clause at 52.222-3, Convict Labor, in solicitations and contracts above the micro-purchase threshold, when the contract is to be performed in any State, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, or the Trust Territory of the Pacific Islands; unless—

(a) The contract will be subject to the Walsh-Healey Public Contracts Act (see Subpart 22.6), which contains a separate prohibition against the employment of convict labor;

(b) The supplies or services are to be purchased from Federal Prison Industries, Inc. (see Subpart 8.6); or

(c) The acquisition involves the purchase, from any State prison, of finished supplies that may be secured in the open market or from existing stocks, as distinguished from supplies requiring special fabrication.

Subpart 22.3—Contract Work Hours and Safety Standards Act

22.300 Scope of subpart.

This subpart prescribes policies and procedures for applying the requirements of the Contract Work Hours and Safety Standards Act (40 U.S.C. 327-333) (the Act) to contracts that may require or involve laborers or mechanics. In this subpart, the term “laborers or mechanics” includes apprentices, trainees, helpers, watchmen, guards, firefighters, fireguards, and workmen who perform services in connection with dredging or rock excavation in rivers or harbors, but does not include any employee employed as a seaman.

22.301 Statutory requirement.

The Act requires that certain contracts contain a clause specifying that no laborer or mechanic doing any part of the work contemplated by the contract shall be required or permitted to work more than 40 hours in any workweek unless paid for all such overtime hours at not less than 1 1/2 times the basic rate of pay.

22.302 Liquidated damages and overtime pay.

(a) When an overtime computation discloses under-payments, the responsible contractor or subcontractor must pay the affected employee any unpaid wages and pay liquidated damages to the Government. The contracting officer must assess liquidated damages at the rate of \$10 per affected employee for each calendar day on which the employer required or permitted the employee to work in excess of the standard workweek of 40 hours without paying overtime wages required by the Act.

(b) If the contractor or subcontractor fails or refuses to comply with overtime pay requirements of the Act and the funds withheld by Federal agencies for labor standards violations do not cover the unpaid wages due laborers and mechanics and the liquidated damages due the Government, make payments in the following order—

(1) Pay laborers and mechanics the wages they are owed (or prorate available funds if they do not cover the entire amount owed); and

(2) Pay liquidated damages.

(c) If the head of an agency finds that the administratively determined liquidated damages due under paragraph (a) of this section are incorrect, or that the contractor or subcontractor inadvertently violated the Act despite the exercise of due care, the agency head may—

(1) Reduce the amount of liquidated damages assessed for liquidated damages of \$500 or less;

(2) Release the contractor or subcontractor from the liability for liquidated damages of \$500 or less; or

(3) Recommend that the Secretary of Labor reduce or waive liquidated damages over \$500.

(d) After the contracting officer determines the liquidated damages and the contractor makes appropriate payments, disburse any remaining assessments in accordance with agency procedures.

22.303 Administration and enforcement.

The procedures and reports required for construction contracts in Subpart 22.4 also apply to investigations of alleged violations of the Act on other than construction contracts.

22.304 Variations, tolerances, and exemptions.

(a) The Secretary of Labor, under 40 U.S.C. 331, upon the Secretary's initiative or at the request of any Federal agency, may provide reasonable limitations and allow variations, tolerances, and exemptions to and from any or all provisions of the Act (see 29 CFR 5.15).

(b) The Secretary of Labor may make variations, tolerances, and exemptions from the regulatory requirements of applicable parts of 29 CFR when the Secretary finds that such action is necessary and proper in the public interest or to prevent injustice and undue hardship (see 29 CFR 5.14).

22.305 Contract clause.

The contracting officer shall insert the clause at 52.222-4, Contract Work Hours and Safety Standards Act—Overtime Compensation, in solicitations and contracts (including, for this purpose, basic ordering agreements) when the contract may require or involve the employment of laborers or mechanics. However, the contracting officer shall not include the clause in solicitations and contracts if it is contemplated that the contract will be in one of the following categories:

(a) Contracts at or below the simplified acquisition threshold.

(b) Contracts for supplies, materials, or articles ordinarily available in the open market.

(c) Contracts for transportation by land, air, or water, or for the transmission of intelligence.

(d) Contracts to be performed solely within a foreign country or within a territory under United States jurisdiction other than a State, the District of Columbia, Puerto Rico, the Virgin Islands, Outer Continental Shelf Lands as defined in the Outer Continental Shelf Lands Act (43 U.S.C. 1331), American Samoa, Guam, Wake Island, and Johnston Island.

(e) Contracts requiring work to be done solely in accordance with the Walsh-Healey Public Contracts Act (see Subpart 22.6).

(f) Contracts (or portions of contracts) for supplies in connection with which any required services are merely incidental to the contract and do not require substantial employment of laborers or mechanics.

(g) Contracts for commercial items (see Parts 2 and 12).

(h) Any other contracts exempt under regulations of the Secretary of Labor (29 CFR 5.15).

Subpart 22.4—Labor Standards for Contracts Involving Construction

22.400 Scope of subpart.

This subpart implements the statutes which prescribe labor standards requirements for contracts in excess of \$2,000 for construction, alteration, or repair, including painting and decorating, of public buildings and public works. (See definition of “Construction, alteration, or repair” in section 22.401.) Labor relations requirements prescribed in other subparts of Part 22 may also apply.

22.401 Definitions.

As used in this subpart—

“Building” or “work” generally means construction activity as distinguished from manufacturing, furnishing of materials, or servicing and maintenance work. The terms include, without limitation, buildings, structures, and improvements of all types, such as bridges, dams, plants, highways, parkways, streets, subways, tunnels, sewers, mains, power lines, pumping stations, heavy generators, railways, airports, terminals, docks, piers, wharves, ways, lighthouses, buoys, jetties, breakwaters, levees, canals, dredging, shoring, rehabilitation and reactivation of plants, scaffolding, drilling, blasting, excavating, clearing, and landscaping. The manufacture or furnishing of materials, articles, supplies, or equipment (whether or not a Federal or State agency acquires title to such materials, articles, supplies, or equipment during the course of the manufacture or furnishing, or owns the materials from which they are manufactured or furnished) is not “building” or “work” within the meaning of the regulations in this subpart unless conducted in connection with and at the site of such building or work as is described in the foregoing sentence, or under the United States Housing Act of 1937 and the Housing Act of 1949 in the construction or development of the project.

“Construction, alteration, or repair” means all types of work done on a particular building or work at the site thereof, including without limitation, altering, remodeling, installation (if appropriate) on the site of the work of items fabricated off-site, painting and decorating, the transporting of materials and supplies to or from the building or work by the employees of the construction contractor or construction subcontractor, and the manufacturing or furnishing of materials, articles, supplies, or equipment on the site of the building or work by persons employed by the contractor or subcontractor.

“Laborers or mechanics”—

(1) Those workers, utilized by a contractor or subcontractor at any tier, whose duties are manual or physical in nature (including those workers who use tools or who are performing the work of a trade), as distinguished from mental or managerial;

(2) Apprentices, trainees, helpers, and, in the case of contracts subject to the Contract Work Hours and Safety Standards Act, watchmen and guards. The terms “apprentice” and “trainee” are defined as follows:

(i) “Apprentice” means—

(A) a person employed and individually registered in a bona fide apprenticeship program registered with the U.S. Department of Labor, Employment and Training Administration, Bureau of Apprenticeship and Training, or with a State Apprenticeship Agency recognized by the Bureau; or

(B) a person in the first 90 days of probationary employment as an apprentice in such an apprenticeship program, who is not individually registered in the program, but who has been certified by the Bureau of Apprenticeship and Training or a State Apprenticeship Agency (where appropriate) to be eligible for probationary employment as an apprentice.

(ii) “Trainee” means a person registered and receiving on-the-job training in a construction occupation under a program which has been approved in advance by the U.S. Department of Labor, Employment and Training Administration, as meeting its standards for on-the-job training programs and which has been so certified by that Administration.

(3) Working foremen who devote more than 20 percent of their time during a workweek performing duties of a laborer or mechanic, and who do not meet the criteria of 29 CFR part 541, for the time so spent; and

(4) Every person performing the duties of a laborer or mechanic, regardless of any contractual relationship alleged to exist between the contractor and those individuals.

The terms exclude workers whose duties are primarily executive, supervisory (except as provided in paragraph (3) of this definition), administrative, or clerical, rather than manual. Persons employed in a bona fide executive, administrative, or professional capacity as defined in 29 CFR part 541 are not deemed to be laborers or mechanics.

“Public building” or “public work” means building or work, the construction, prosecution, completion, or repair of which, as defined in this section, is carried on directly by authority of, or with funds of, a Federal agency to serve the interest of the general public regardless of whether title thereof is in a Federal agency.

“Site of the work” is defined as follows:

(1) The “site of the work” is limited to the physical place or places where the construction called for in the contract will remain when work on it is completed, and nearby property, as described in paragraph (2) of this definition, used by the contractor or subcontractor during construction that, because of proximity, can reasonably be included in the “site.”

(2) Except as provided in paragraph (3) of this definition, fabrication plants, mobile factories, batch plants, borrow pits, job headquarters, tool yards, etc., are parts of the “site of the work,” provided they are dedicated exclusively, or nearly so, to performance of the contract or project, and are so located in proximity to the actual construction location that it would be reasonable to include them.

(3) The “site of the work” does not include permanent home offices, branch plant establishments, fabrication plants, or tool yards of a contractor or subcontractor whose locations and continuance in operation are determined wholly without regard to a particular Federal contract or project. In addition, fabrication plants, batch plants, borrow pits, job headquarters, yards, etc., of a commercial supplier or materialman which are established by a supplier of materials for the project before opening of bids and not on the project site, are not included in the “site of the work.” Such permanent, previously established facilities are not a part of the “site of the work”, even if the operations for a period of time may be dedicated exclusively, or nearly so, to the performance of a contract.

“Wages” means the basic hourly rate of pay; any contribution irrevocably made by a contractor or subcontractor to a trustee or to a third person pursuant to a bona fide fringe benefit fund, plan, or program; and the rate of costs to the contractor or subcontractor which may be reasonably anticipated in providing bonafide fringe benefits to laborers and mechanics pursuant to an enforceable commitment to carry out a financially responsible plan or program, which was communicated in writing to the laborers and mechanics affected. The fringe benefits enumerated in the Davis-Bacon Act include medical or hospital care, pensions on retirement or death, compensation for injuries or illness resulting from occupational activity, or insurance to provide any of the foregoing; unemployment benefits; life insurance, disability insurance, sickness insurance, or accident insurance; vacation or holiday pay; defraying costs of apprenticeship or other similar programs; or other bona fide fringe benefits. Fringe benefits do not include benefits required by other Federal, State, or local law.

22.402 Applicability.

(a) *Contracts for construction work.* (1) The requirements of this subpart apply—

(i) Only if the construction work is, or reasonably can be foreseen to be, performed at a particular site so that wage rates can be determined for the locality, and only to construction work that is performed by laborers and mechanics at the site of the work;

(ii) To dismantling, demolition, or removal of improvements if a part of the construction contract, or if construction at that site is anticipated by another contract as provided in Subpart 37.3;

(iii) To the manufacture or fabrication of construction materials and components conducted in connection with the construction and on the site of the work by the contractor or a subcontractor under a contract otherwise subject to this subpart; and

(iv) To painting of public buildings or public works, whether performed in connection with the original construction or as alteration or repair of an existing structure.

(2) The requirements of this subpart do not apply to—

(i) The manufacturing of components or materials off the site of the work or their subsequent delivery to the site by the commercial supplier or materialman;

(ii) Contracts requiring construction work that is so closely related to research, experiment, and development that it cannot be performed separately, or that is itself the subject of research, experiment, or development (see paragraph (b) of this section for applicability of this subpart to research and development contracts or portions thereof involving construction, alteration, or repair of a public building or public work);

(iii) Employees of railroads operating under collective bargaining agreements that are subject to the Railway Labor Act; or

(iv) Employees who work at contractors' or subcontractors' permanent home offices, fabrication shops, or tool yards not located at the site of the work. However, if the employees go to the site of the work and perform construction activities there, the requirements of this subpart are applicable for the actual time so spent, not including travel unless the employees transport materials or supplies to or from the site of the work.

(b) *Nonconstruction contracts involving some construction work.* (1) The requirements of this subpart apply to construction work to be performed as part of nonconstruction contracts (supply, service, research and development, etc.) if—

(i) The construction work is to be performed on a public building or public work;

(ii) The contract contains specific requirements for a substantial amount of construction work exceeding the monetary threshold for application of the Davis-Bacon Act (the word “substantial” relates to the type and quantity of construction work to be performed and not merely to the total value of construction work as compared to the total value of the contract); and

(iii) The construction work is physically or functionally separate from, and is capable of being performed on a segregated basis from, the other work required by the contract.

(2) The requirements of this subpart do not apply if—

(i) The construction work is incidental to the furnishing of supplies, equipment, or services (for example, the requirements do not apply to simple installation or alteration

at a public building or public work that is incidental to furnishing supplies or equipment under a supply contract; however, if a substantial and segregable amount of construction, alteration, or repair is required, such as for installation of heavy generators or large refrigerator systems or for plant modification or rearrangement, the requirements of this subpart apply); or

(ii) The construction work is so merged with non-construction work or so fragmented in terms of the locations or time spans in which it is to be performed, that it is not capable of being segregated as a separate contractual requirement.

22.403 Statutory and regulatory requirements.

22.403-1 Davis-Bacon Act.

The Davis-Bacon Act (40 U.S.C. 276a-276a-7) provides that contracts in excess of \$2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works within the United States, shall contain a clause (see 52.222-6) that no laborer or mechanic employed directly upon the site of the work shall receive less than the prevailing wage rates as determined by the Secretary of Labor.

22.403-2 Copeland Act.

The Copeland (Anti-Kickback) Act (18 U.S.C. 874 and 40 U.S.C. 276c) makes it unlawful to induce, by force, intimidation, threat of procuring dismissal from employment, or otherwise, any person employed in the construction or repair of public buildings or public works, financed in whole or in part by the United States, to give up any part of the compensation to which that person is entitled under a contract of employment. The Copeland Act also requires each contractor and subcontractor to furnish weekly a statement of compliance with respect to the wages paid each employee during the preceding week. Contracts subject to the Copeland Act shall contain a clause (see 52.222-10) requiring contractors and subcontractors to comply with the regulations issued by the Secretary of Labor under the Copeland Act.

22.403-3 Contract Work Hours and Safety Standards Act.

The Contract Work Hours and Safety Standards Act (40 U.S.C. 327-333) requires that certain contracts (see 22.305) contain a clause (see 52.222-4) specifying that no laborer or mechanic doing any part of the work contemplated by the contract shall be required or permitted to work more than 40 hours in any workweek unless paid for all additional hours at not less than 1 1/2 times the basic rate of pay (see 22.301).

22.403-4 Department of Labor regulations.

(a) Under the statutes referred to in this 22.403 and Reorganization Plan No. 14 of 1950 (3 CFR 1949-53 Comp, p. 1007), the Secretary of Labor has issued regulations in Title 29, Subtitle A, *Code of Federal Regulations*, prescribing standards and procedures to be observed by the Department of Labor and the Federal contracting agencies. Those standards and procedures applicable to contracts involving construction are implemented in this subpart.

(b) The Department of Labor regulations include—

(1) Part 1, relating to Davis-Bacon Act minimum wage rates;

(2) Part 3, relating to the Copeland (Anti-Kickback) Act and requirements for submission of weekly statements of compliance and the preservation and inspection of weekly payroll records;

(3) Part 5, relating to enforcement of the Davis-Bacon Act, Contract Work Hours and Safety Standards Act, and Copeland (Anti-Kickback) Act;

(4) Part 6, relating to rules of practice for appealing the findings of the Administrator, Wage and Hour Division, in enforcement cases under the Davis-Bacon Act, Contract Work Hours and Safety Standards Act, Copeland (Anti-Kickback) Act, and Service Contract Act, and by which Administrative Law Judge hearings are held; and

(5) Part 7, relating to rules of practice by which contractors and other interested parties may appeal to the Department of Labor Administrative Review Board, decisions issued by the Administrator, Wage and Hour Division, or administrative law judges under the Davis-Bacon Act, Contract Work Hours and Safety Standards Act, or Copeland (Anti-Kickback) Act.

(c) Refer all questions relating to the application and interpretation of wage determinations (including the classifications therein) and the interpretation of the Department of Labor regulations in this subsection to the Administrator, Wage and Hour Division.

22.404 Davis-Bacon Act wage determinations.

The Department of Labor is responsible for issuing wage determinations reflecting prevailing wages, including fringe benefits. The wage determinations apply only to those laborers and mechanics employed by a contractor upon the site of the work including drivers who transport to or from the site materials and equipment used in the course of contract operations. Determinations are issued for different types of construction, such as building, heavy, highway, and residential (referred to as rate schedules), and apply only to the types of construction designated in the determination.

22.404-1 Types of wage determinations.

(a) *General wage determinations.* (1) A general wage determination contains prevailing wage rates for the types of construction designated in the determination, and is used in contracts performed within a specified geographical area. General wage determinations contain no expiration date and remain valid until modified, superseded, or canceled by a notice in the *Federal Register* by the Department of Labor. Once incorporated in a contract, a general wage determination normally remains effective for the life of the contract, unless the contracting officer exercises an option to extend the term of the contract (see 22.404-12). They are issued at the discretion of the Department of Labor either upon receipt of an agency request or on the Department of Labor's own initiative.

(2) General wage determinations are published weekly in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under the Davis-Bacon and Related Acts." Notices of general wage determinations are published in the *Federal Register*. General wage determinations are effective on the publication date of the notice or upon receipt of the determination by the contracting agency, whichever occurs first.

(3) The GPO publication is available for examination at each of the 50 Regional Government Depository Libraries and many other of the 1,400 Government Depository Libraries across the country. Subscriptions may be obtained by contacting:

Superintendent of Documents
U.S. Government Printing Office
Washington, DC 20402.

The GPO publication is divided into three volumes East, Central, and West, which may be ordered separately. The States covered by each volume are as follows:

Volume I-East		
Alabama	Maryland	Rhode Island
Connecticut	Massachusetts	South Carolina
Delaware	Mississippi	Tennessee
District of Columbia	New Hampshire	Vermont
Florida	New Jersey	Virginia
Georgia	New York	Virgin Islands
Kentucky	North Carolina	West Virginia
Maine	Pennsylvania	
	Puerto Rico	
Volume II-Central		
Arkansas	Louisiana	New Mexico
Illinois	Michigan	Ohio
Iowa	Minnesota	Oklahoma
Indiana	Missouri	Texas

Kansas	Nebraska	Wisconsin
Volume III-West		
Alaska	Hawaii	Oregon
Arizona	Idaho	South Dakota
California	Montana	Utah
Colorado	Nevada	Washington
Guam	North Dakota	Wyoming

(4) On or about January 1 of each year, an annual edition will be issued that includes all current general wage determinations for the States covered by each volume. Throughout the remainder of the year, regular weekly updates will be distributed providing any modifications or superseded wage determinations issued. Each volume's annual and weekly editions will be provided in loose-leaf format.

(b) *Project wage determinations.* A project wage determination is issued at the specific request of a contracting agency. It is used only when no general wage determination applies, and is effective for 180 calendar days from the date of the determination. However, if a determination expires before contract award, it may be possible to obtain an extension to the 180-day life of the determination (see 22.404-5(b)(2)). Once incorporated in a contract, a project wage determination normally remains effective for the life of the contract, unless the contracting officer exercises an option to extend the term of the contract (see 22.404-12).

22.404-2 General requirements.

(a) The contracting officer must incorporate only the appropriate wage determinations in solicitations and contracts and must designate the work to which each determination or part thereof applies. The contracting officer must not include project wage determinations in contracts or options other than those for which they are issued. When exercising an option to extend the term of a contract, the contracting officer must select the most current wage determination(s) from the same schedule(s) as the wage determination(s) incorporated into the contract.

(b) If the wage determination is a general wage determination or a project wage determination containing more than one rate schedule, the contracting officer shall either include only the rate schedules that apply to the particular types of construction (building, heavy, highway, etc.) or include the entire wage determination and clearly indicate the parts of the work to which each rate schedule shall be applied. Inclusion by reference is not permitted.

(c) The Wage and Hour Division has issued the following general guidelines for use in selecting the proper schedule(s) of wage rates:

(1) *Building* construction is generally the construction of sheltered enclosures with walk-in access, for housing persons, machinery, equipment, or supplies. It typically includes all construction of such structures, installation of utilities and equipment (both above and below grade level), as well as incidental grading, utilities and paving, unless there is an established area practice to the contrary.

(2) *Residential* construction is generally the construction, alteration, or repair of single family houses or apartment buildings of no more than four (4) stories in height, and typically includes incidental items such as site work, parking areas, utilities, streets and sidewalks, unless there is an established area practice to the contrary.

(3) *Highway* construction is generally the construction, alteration, or repair of roads, streets, highways, runways, taxiways, alleys, parking areas, and other similar projects that are not incidental to “building,” “residential,” or “heavy” construction.

(4) *Heavy* construction includes those projects that are not properly classified as either “building,” “residential,” or “highway,” and is of a catch-all nature. Such heavy projects may sometimes be distinguished on the basis of their individual characteristics, and separate schedules issued (e.g., “dredging,” “water and sewer line,” “dams,” “flood control,” etc.).

(5) When the nature of a project is not clear, it is necessary to look at additional factors, with primary consideration given to locally established area practices. If there is any doubt as to the proper application of wage rate schedules to the type or types of construction involved, guidance shall be sought before the opening of bids, or receipt of best and final offers, from the Administrator, Wage and Hour Division. Further examples are contained in Department of Labor All Agency Memoranda Numbers 130 and 131.

22.404-3 Procedures for requesting wage determinations.

(a) *Requests for general wage determinations.* If there is a general wage determination applicable to the project, the agency may use it without notifying the Department of Labor. When necessary, a request for a general wage determination may be made by submitting Standard Form (SF) 308, Request for Determination and Response to Request, to the Administrator, Wage and Hour Division, attention: Branch of Construction Contract Wage Determinations.

(b) *Requests for project wage determinations.* A contracting agency shall submit requests for project wage determinations on SF 308 to the Department of Labor. The requests shall include the following information:

(1) The location, including the county (or other civil subdivision) and State in which the proposed project is located.

(2) The name of the project and a sufficiently detailed description of the work to indicate the types of construction involved (e.g., building, heavy, highway, residential, or other type).

(3) Any available pertinent wage payment information, unless wage patterns in the area are clearly established.

(4) The estimated cost of each project.

(5) All the classifications of laborers and mechanics likely to be employed.

(c) *Time for submission of requests.* The time required by the Department of Labor for processing requests for project wage determinations varies according to the facts and circumstances in each case. An agency should expect the processing to take at least 30 days. Accordingly, agencies should submit requests to the Department of Labor at least 45 days (60 days if possible) before issuing the solicitation or exercising an option to extend the term of a contract.

(d) *Review of wage determinations.* Immediately upon receipt, the contracting agency shall examine the wage determination and inform the Department of Labor of any changes necessary or appropriate to correct errors. Private parties requesting changes should be advised to submit their requests to the Department of Labor.

22.404-4 Solicitations issued without wage determinations.

(a) If a solicitation is issued before the wage determination is obtained, a notice shall be included in the solicitation that the schedule of minimum wage rates to be paid under the contract will be issued as an amendment to the solicitation.

(b) In sealed bidding, bids may not be opened until a reasonable time after the wage determination has been furnished to all bidders.

(c) In negotiated acquisitions, the contracting officer may open proposals and conduct negotiations before obtaining the wage determination. However, the contracting officer shall incorporate the wage determination into the solicitation before submission of best and final offers.

22.404-5 Expiration of project wage determinations.

(a) The contracting officer shall make every effort to ensure that contract award is made before expiration of the project wage determination included in the solicitation.

(b) The following procedure applies when contracting by sealed bidding:

(1) If a project wage determination expires before bid opening, or if it appears before bid opening that a project wage determination may expire before award, the contracting officer shall request a new determination early enough to ensure its receipt before bid opening. If necessary, the contracting officer shall postpone the bid opening date to allow a reasonable time to obtain the determination, amend the solicitation to incorporate the new determination, and permit bid-

ders to amend their bids. If the new determination does not change the wage rates and would not warrant amended bids, the contracting officer shall amend the solicitation to include the number and date of the new determination.

(2) If a project wage determination expires after bid opening but before award, the contracting officer shall request an extension of the project wage determination expiration date from the Administrator, Wage and Hour Division. The request for extension shall be supported by a written finding, which shall include a brief statement of factual support, that the extension is necessary and proper in the public interest to prevent injustice or undue hardship or to avoid serious impairment of the conduct of Government business. If necessary, the contracting officer shall delay award to permit either receipt of the extension or receipt and processing of a new determination. If the request is granted, the contracting officer shall award the contract and modify it to apply the extended expiration date to the already incorporated project wage determination. (See 43.103(b)(1).) If the request is denied, the Administrator will proceed to issue a new project wage determination. Upon receipt, the contracting officer shall process the new determination as follows:

(i) If the new determination changes any wage rates for classifications to be used in the contract, the contracting officer may cancel the solicitation only in accordance with 14.404-1. Otherwise the contracting officer shall award the contract and incorporate the new determination to be effective on the date of contract award. The contracting officer shall equitably adjust the contract price for any increased or decreased cost of performance resulting from any changed wage rates.

(ii) If the new determination does not change any wage rates, the contracting officer shall award the contract and modify it to include the number and date of the new determination. (See 43.103(b)(1).)

(c) The following procedure applies when contracting by negotiation:

(1) If a project wage determination will or does expire before contract award, the contracting officer shall request a new wage determination from the Department of Labor. If necessary, the contracting officer shall delay award while the new determination is obtained and processed.

(2) The contracting officer need not delay opening and reviewing proposals or discussing them with the offerors while a new determination is being obtained. The contracting officer shall request offerors to extend the period for acceptance of any proposal if that period expires or may expire before receipt and full processing of the new determination.

(3) If the new determination changes any wage rates, the contracting officer shall amend the solicitation to incorporate the new determination, and furnish the wage rate information to all prospective offerors that were sent a solicitation if the closing date for receipt of proposals has not yet

occurred, or to all offerors that submitted proposals if the closing date has passed. All offerors to whom wage rate information has been furnished shall be given reasonable opportunity to amend their proposals.

(4) If the new determination does not change any wage rates, the contracting officer shall amend the solicitation to include the number and date of the new determination and award the contract.

22.404-6 Modifications of wage determinations.

(a) *General.* (1) The Department of Labor may modify a wage determination to make it current by specifying only the items being changed or by reissuing the entire determination with changes incorporated.

(2) All project wage determination modifications expire on the same day as the original determination. The need to include a modification of a project wage determination in a solicitation is determined by the time of receipt of the modification by the contracting agency. Therefore, the contracting agency must annotate the modification of the project wage determination with the date and time immediately upon receipt.

(3) The need for inclusion of the modification of a general wage determination in a solicitation is determined by the publication date of the notice in the *Federal Register*, or by the time of receipt of the modification (annotated with the date and time immediately upon receipt) by the contracting agency, whichever occurs first. (Note the distinction between receipt by the agency (modification is effective) and receipt by the contracting officer, which may occur later.)

(b) The following applies when contracting by sealed bidding:

(1) A written action modifying a wage determination shall be effective if:

(i) It is received by the contracting agency, or notice of the modification is published in the *Federal Register*, 10 or more calendar days before the date of bid opening, or

(ii) It is received by the contracting agency, or notice of the modification is published in the *Federal Register*, less than 10 calendar days before the date of bid opening, unless the contracting officer finds that there is not reasonable time available before bid opening to notify the prospective bidders. (If the contracting officer finds that there is not reasonable time to notify bidders, a written report of the finding shall be placed in the contract file and shall be made available to the Department of Labor upon request.)

(2) All written actions modifying wage determinations received by the contracting agency after bid opening, or modifications to general wage determinations, notices of which are published in the *Federal Register* after bid opening, shall not be effective and shall not be included in the solicitation (but see paragraph (b)(6) of this subsection).

(3) If an effective modification is received by the contracting officer before bid opening, the contracting officer shall postpone the bid opening, if necessary, to allow a reasonable time to amend the solicitation to incorporate the modification and permit bidders to amend their bids. If the modification does not change the wage rates and would not warrant amended bids, the contracting officer shall amend the solicitation to include the number and date of the modification.

(4) If an effective modification is received by the contracting officer after bid opening, but before award, the contracting officer shall follow the procedures in 22.404-5(b)(2)(i) or (ii).

(5) If an effective modification is received by the contracting officer after award, the contracting officer shall modify the contract to incorporate the wage modification retroactive to the date of award and equitably adjust the contract price for any increased or decreased cost of performance resulting from any changed wage rates. If the modification does not change any wage rates and would not warrant contract price adjustment, the contracting officer shall modify the contract to include the number and date of the modification.

(6) If an award is not made within 90 days after bid opening, any modification to a general wage determination, notice of which is published in the *Federal Register* before award, shall be effective for any resultant contract unless an extension of the 90-day period is obtained from the Administrator, Wage and Hour Division. An agency head or a designee may request such an extension from the Administrator. The request must be supported by a written finding, which shall include a brief statement of factual support, that the extension is necessary and proper in the public interest to prevent injustice, undue hardship, or to avoid serious impairment in the conduct of Government business. The contracting officer shall follow the procedures in 22.404-5(b)(2).

(c) The following applies when contracting by negotiation:

(1) All written actions modifying wage determinations received by the contracting agency before contract award, or modifications to general wage determinations notices of which are published in the *Federal Register* before award, shall be effective.

(2) If an effective wage modification is received by the contracting officer before award, the contracting officer shall follow the procedures in 22.404-5(c)(3) or (4).

(3) If an effective wage modification is received by the contracting officer after award, the contracting officer shall follow the procedures in 22.404-6(b)(5).

(d) The following applies when modifying a contract to exercise an option to extend the term of a contract:

(1) A modified wage determination is effective if—

(i) The contracting agency receives a written action from the Department of Labor prior to exercise of the option,

or within 45 days after submission of a wage determination request (22.404-3(c)), whichever is later; or

(ii) The Department of Labor publishes notice of modifications to general wage determinations in the *Federal Register* before exercise of the option.

(2) If the contracting officer receives an effective modified wage determination either before or after execution of the contract modification to exercise the option, the contracting officer must modify the contract to incorporate the modified wage determination, and any changed wage rates, effective as of the date that the option to extend was effective.

22.404-7 Correction of wage determinations containing clerical errors.

Upon the Department of Labor's own initiative or at the request of the contracting agency, the Administrator, Wage and Hour Division, may correct any wage determination found to contain clerical errors. Such corrections will be effective immediately, and will apply to any solicitation or active contract. Before contract award, the contracting officer must follow the procedures in 22.404-5(b)(1) or (2)(i) or (ii) in sealed bidding, and the procedures in 22.404-5(c)(3) or (4) in negotiations. After contract award, the contracting officer must follow the procedures at 22.404-6(b)(5), except that for contract modifications to exercise an option to extend the term of the contract, the contracting officer must follow the procedures at 22.404-6(d)(2).

22.404-8 Notification of improper wage determination before award.

(a) Written notification by the Department of Labor received by the contracting officer prior to award that—

(1) A solicitation includes the wrong wage determination or the wrong rate schedule; or

(2) A wage determination is withdrawn by the Department of Labor as a result of a decision by the Wage Appeals Board, shall be effective immediately without regard to 22.404-6.

(b) In sealed bidding, the contracting officer shall proceed in accordance with the following:

(1) If the notification reaches the contracting officer before bid opening, the contracting officer shall postpone the bid opening date, if necessary, to allow a reasonable time to—

(i) Obtain the appropriate determination if a new wage determination is required;

(ii) Amend the solicitation to incorporate the determination (or rate schedule); and

(iii) Permit bidders to amend their bids. If the appropriate wage determination does not change any wage rates and would not warrant amended bids, the contracting officer shall amend the solicitation to include the number and date of the new determination.

(2) If the notification reaches the contracting officer after bid opening but before award, the contracting officer shall delay awarding the contract, if necessary, and if required, obtain the appropriate wage determination. The appropriate wage determination shall be processed in accordance with 22.404-5(b)(2)(i) or (ii).

(c) In negotiated acquisitions, the contracting officer shall delay award, if necessary, and process the notification in the manner prescribed for a new wage determination at 22.404-5(c)(3).

22.404-9 Award of contract without required wage determination.

(a) If a contract is awarded without the required wage determination (*i.e.*, incorporating no determination, containing a clearly inapplicable general wage determination, or containing a project determination which is inapplicable because of an inaccurate description of the project or its location), the contracting officer shall initiate action to incorporate the required determination in the contract immediately upon discovery of the error. If a required wage determination (valid determination in effect on the date of award) is not available, the contracting officer shall expeditiously request a wage determination from the Department of Labor, including a statement explaining the circumstances and giving the date of the contract award.

(b) The contracting officer shall—

(1) Modify the contract to incorporate the required wage determination (retroactive to the date of award) and equitably adjust the contract price if appropriate; or

(2) Terminate the contract.

22.404-10 Posting wage determinations and notice.

The contractor must keep a copy of the applicable wage determination (and any approved additional classifications) posted at the site of the work in a prominent place where the workers can easily see it. The contracting officer shall furnish to the contractor, Department of Labor Form WH-1321, Notice to Employees Working on Federal and Federally Financed Construction Projects, for posting with the wage rates. The name, address, and telephone number of the Government officer responsible for the administration of the contract shall be indicated in the poster to inform workers to whom they may submit complaints or raise questions concerning labor standards.

22.404-11 Wage determination appeals.

The Secretary of Labor has established an Administrative Review Board which decides appeals of final decisions made by the Department of Labor concerning Davis-Bacon Act wage determinations. A contracting agency or other interested party may file a petition for review under the procedures

in 29 CFR part 7 if reconsideration by the Administrator has been sought pursuant to 29 CFR 1.8 and denied.

22.404-12 Labor standards for contracts containing construction requirements and option provisions that extend the term of the contract.

(a) Each time the contracting officer exercises an option to extend the term of a contract for construction, or a contract that includes substantial and segregable construction work, the contracting officer must modify the contract to incorporate the most current wage determination.

(b) If a contract with an option to extend the term of the contract has indefinite-delivery or indefinite-quantity construction requirements, the contracting officer must incorporate the wage determination incorporated into the contract at the exercise of the option into task orders issued during that option period. The wage determination will be effective for the complete period of performance of those task orders without further revision.

(c) The contracting officer must include in fixed-price contracts a clause that specifies one of the following methods, suitable to the interest of the Government, to provide an allowance for any increases or decreases in labor costs that result from the inclusion of the current wage determination at the exercise of an option to extend the term of the contract:

(1) The contracting officer may provide the offerors the opportunity to bid or propose separate prices for each option period. The contracting officer must not further adjust the contract price as a result of the incorporation of a new or revised wage determination at the exercise of each option to extend the term of the contract. Generally, this method is used in construction-only contracts (with options to extend the term) that are not expected to exceed a total of 3 years.

(2) The contracting officer may include in the contract a separately specified pricing method that permits an adjustment to the contract price or contract labor unit price at the exercise of each option to extend the term of the contract. At the time of option exercise, the contracting officer must incorporate a new wage determination into the contract, and must apply the specific pricing method to calculate the contract price adjustment. An example of a contract pricing method that the contracting officer might separately specify is incorporation in the solicitation and resulting contract of the pricing data from an annually published unit pricing book (*e.g.*, the R.S. Means Cost Estimating System, or the U.S. Army Computer-Aided Cost Estimating System), which is multiplied in the contract by a factor proposed by the contractor (*e.g.*, .95 or 1.1). At option exercise, the contracting officer incorporates the pricing data from the latest annual edition of the unit pricing book, multiplied by the factor agreed to in the basic contract. The contracting officer must not further adjust the contract price as a result of the incorporation of the new or revised wage determination.

(3) The contracting officer may provide for a contract price adjustment based solely on a percentage rate determined by the contracting officer using a published economic indicator incorporated into the solicitation and resulting contract. At the exercise of each option to extend the term of the contract, the contracting officer will apply the percentage rate, based on the economic indicator, to the portion of the contract price or contract unit price designated in the contract clause as labor costs subject to the provisions of the Davis-Bacon Act. The contracting officer must insert 50 percent as the estimated portion of the contract price that is labor unless the contracting officer determines, prior to issuance of the solicitation, that a different percentage is more appropriate for a particular contract or requirement. This percentage adjustment to the designated labor costs must be the only adjustment made to cover increases in wages and/or benefits resulting from the incorporation of a new or revised wage determination at the exercise of the option.

(4) The contracting officer may provide a computation method to adjust the contract price to reflect the contractor's actual increase or decrease in wages and fringe benefits (combined) to the extent that the increase is made to comply with, or the decrease is voluntarily made by the contractor as a result of incorporation of, a new or revised wage determination at the exercise of the option to extend the term of the contract. Generally, this method is appropriate for use only if contract requirements are predominately services subject to the Service Contract Act and the construction requirements are substantial and segregable. The methods used to adjust the contract price for the service requirements and the construction requirements would be similar.

22.405 Labor standards for construction work performed under facilities contracts.

If it is not certain at the time of contract award that construction work may be required under a facilities contract (see 45.301), the clause at 52.222-17, Labor Standards for Construction Work—Facilities Contracts (see 22.407(c)), shall be included in the contract. When covered construction work is necessary after contract award, the contracting officer shall obtain the appropriate wage determination and incorporate it in the contract and identify the item or items of construction work to which the clauses apply.

22.406 Administration and enforcement.

22.406-1 Policy.

(a) *General.* Contracting agencies are responsible for ensuring the full and impartial enforcement of labor standards in the administration of construction contracts. Contracting agencies shall maintain an effective program that shall include—

(1) Ensuring that contractors and subcontractors are informed, before commencement of work, of their obligations under the labor standards clauses of the contract;

(2) Adequate payroll reviews, on-site inspections, and employee interviews to determine compliance by the contractor and subcontractors, and prompt initiation of corrective action when required;

(3) Prompt investigation and disposition of complaints; and

(4) Prompt submission of all reports required by this subpart.

(b) *Preconstruction letters and conferences.* Before construction begins, the contracting officer shall inform the contractor of the labor standards clauses and wage determination requirements of the contract and of the contractor's and any subcontractor's responsibilities under the contract. Unless it is clear that the contractor is fully aware of the requirements, the contracting officer shall issue an explanatory letter and/or arrange a conference with the contractor promptly after award of the contract.

22.406-2 Wages, fringe benefits, and overtime.

(a) In computing wages paid to a laborer or mechanic, the contractor may include only the following items:

(1) Amounts paid in cash to the laborer or mechanic, or deducted from payments under the conditions set forth in 29 CFR 3.5.

(2) Contributions (except those required by Federal, State, or local law) the contractor makes irrevocably to a trustee or a third party under any bona fide plan or program to provide for medical or hospital care, pensions, compensation for injuries or illness resulting from occupational activity, unemployment benefits, life insurance, disability and sickness insurance, accident insurance, or any other bona fide fringe benefit.

(3) Other contributions or anticipated costs for bona fide fringe benefits to the extent expressly approved by the Secretary of Labor.

(b)(1) The contractor may satisfy the obligation under the clause at 52.222-6, Davis-Bacon Act, by providing wages consisting of any combination of contributions or costs as specified in paragraph (a) of this subsection, if the total cost of the combination is not less than the total of the basic hourly rate and fringe benefits payments prescribed in the wage determination for the classification of laborer or mechanic concerned.

(2) Wages provided by the contractor and fringe benefits payments required by the wage determination may include items that are not stated as exact cash amounts. In these cases, the hourly cash equivalent of the cost of these items shall be determined by dividing the employer's contributions or costs by the employee's hours worked during the period covered by the costs or contributions. For example, if

a contractor pays a monthly health insurance premium of \$112 for a particular employee who worked 125 hours during the month, the hourly cash equivalent is determined by dividing \$112 by 125 hours, which equals \$0.90 per hour. Similarly, the calculation of hourly cash equivalent for nine paid holidays per year for an employee with a hourly rate of pay of \$5.00 is determined by multiplying \$5.00 by 72 (9 days at 8 hours each), and dividing the result of \$360 by the number of hours worked by the employee during the year. If the interested parties (contractor, contracting officer, and employees or their representative) cannot agree on the cash equivalent, the contracting officer shall submit the question for final determination to the Department of Labor as prescribed by agency procedures. The information submitted shall include—

(i) A comparison of the payments, contributions, or costs in the wage determination with those made or proposed as equivalents by the contractor; and

(ii) The comments and recommendations of the contracting officer.

(c) In computing required overtime payments, (*i.e.*, 1 1/2 times the basic hourly rate of pay) the contractor shall use the basic hourly rate of pay in the wage determination, or the basic hourly rate actually paid by the contractor, if higher. The basic rate of pay includes employee contributions to fringe benefits, but excludes the contractor's contributions, costs, or payment of cash equivalents for fringe benefits. Overtime shall not be computed on a rate lower than the basic hourly rate in the wage determination.

22.406-3 Additional classifications.

(a) If any laborer or mechanic is to be employed in a classification that is not listed in the wage determination applicable to the contract, the contracting officer, pursuant to the clause at 52.222-6, Davis-Bacon Act, shall require that the contractor submit to the contracting officer, Standard Form (SF) 1444, Request for Authorization of Additional Classification and Rate, which, along with other pertinent data, contains the proposed additional classification and minimum wage rate including any fringe benefits payments.

(b) Upon receipt of SF 1444 from the contractor, the contracting officer shall review the request to determine whether it meets the following criteria:

(1) The classification is appropriate and the work to be performed by the classification is not performed by any classification contained in the applicable wage determination.

(2) The classification is utilized in the area by the construction industry.

(3) The proposed wage rate, including any fringe benefits, bears a reasonable relationship to the wage rates in the wage determination in the contract.

(c)(1) If the criteria in paragraph (b) of this subsection are met and the contractor and the laborers or mechanics to be

employed in the additional classification (if known) or their representatives agree to the proposed additional classification, and the contracting officer approves, the contracting officer shall submit a report (including a copy of SF 1444) of that action to the Administrator, Wage and Hour Division, for approval, modification, or disapproval of the additional classification and wage rate (including any amount designated for fringe benefits); or

(2) If the contractor, the laborers or mechanics to be employed in the classification or their representatives, and the contracting officer do not agree on the proposed additional classification, or if the criteria are not met, the contracting officer shall submit a report (including a copy of SF 1444) giving the views of all interested parties and the contracting officer's recommendation to the Administrator, Wage and Hour Division, for determination of appropriate classification and wage rate.

(d)(1) Within 30 days of receipt of the report, the Administrator, Wage and Hour Division, will complete action and so advise the contracting officer, or will notify the contracting officer that additional time is necessary.

(2) Upon receipt of the Department of Labor's action, the contracting officer shall forward a copy of the action to the contractor, directing that the classification and wage rate be posted in accordance with paragraph (a) of the clause at 52.222-6 and that workers in the affected classification receive no less than the minimum rate indicated from the first day on which work under the contract was performed in the classification.

(e) In each option to extend the term of the contract, if any laborer or mechanic is to be employed during the option in a classification that is not listed (or no longer listed) on the wage determination incorporated in that option, the contracting officer must require that the contractor submit a request for conformance using the procedures noted in paragraphs (a) through (d) of this section.

22.406-4 Apprentices and trainees.

(a) The contracting officer shall review the contractor's employment and payment records of apprentices and trainees made available pursuant to the clause at 52.222-8, Payrolls and Basic Records, to ensure that the contractor has complied with the clause at 52.222-9, Apprentices and Trainees.

(b) If a contractor has classified employees as apprentices, trainees, or helpers without complying with the requirements of the clause at 52.222-9, the contracting officer shall reject the classification and require the contractor to pay the affected employees at the rates applicable to the classification of the work actually performed.

22.406-5 Subcontracts.

In accordance with the requirements of the clause at 52.222-11, Subcontracts (Labor Standards), the contractor

and subcontractors at any tier are required to submit a fully executed SF 1413, Statement and Acknowledgment, upon award of each subcontract.

22.406-6 Payrolls and statements.

(a) *Submission.* In accordance with the clause at 52.222-8, Payrolls and Basic Records, the contractor must submit or cause to be submitted, within 7 calendar days after the regular payment date of the payroll week covered, for the contractor and each subcontractor, (1) copies of weekly payrolls applicable to the contract, and (2) weekly payroll statements of compliance. The contractor may use the Department of Labor Form WH-347, Payroll (For Contractor's Optional Use), or a similar form that provides the same data and identical representation.

(b) *Withholding for nonsubmission.* If the contractor fails to submit copies of its or its subcontractors' payrolls promptly, the contracting officer shall, from any payment due to the contractor, withhold approval of an amount that the contracting officer considers necessary to protect the interest of the Government and the employees of the contractor or any subcontractor.

(c) *Examination.* (1) The contracting officer shall examine the payrolls and payroll statements to ensure compliance with the contract and any statutory or regulatory requirements. Particular attention should be given to—

- (i) The correctness of classifications and rates;
- (ii) Fringe benefits payments;
- (iii) Hours worked;
- (iv) Deductions; and

(v) Disproportionate employment ratios of laborers, apprentices or trainees to journeymen.

(2) Fringe benefits payments, contributions made, or costs incurred on other than a weekly basis shall be considered as a part of weekly payments to the extent they are creditable to the particular weekly period involved and are otherwise acceptable.

(d) *Preservation.* The contracting agency shall retain payrolls and statements of compliance for 3 years after completion of the contract and make them available when requested by the Department of Labor at any time during that period. Submitted payrolls shall not be returned to a contractor or subcontractor for any reason, but copies thereof may be furnished to the contractor or subcontractor who submitted them, or to a higher tier contractor or subcontractor.

(e) *Disclosure of payroll records.* Contractor payroll records in the Government's possession must be carefully protected from any public disclosure which is not required by law, since payroll records may contain information in which the contractor's employees have a privacy interest, as well as information in which the contractor may have a proprietary interest that the Government may be obliged to protect. Ques-

tions concerning release of this information may involve the Freedom of Information Act (FOIA).

22.406-7 Compliance checking.

(a) *General.* The contracting officer shall make checks and investigations on all contracts covered by this subpart as may be necessary to ensure compliance with the labor standards requirements of the contract.

(b) *Regular compliance checks.* Regular compliance checking includes the following activities:

(1) Employee interviews to determine correctness of classifications, rates of pay, fringe benefits payments, and hours worked. (See Standard Form 1445.)

(2) On-site inspections to check type of work performed, number and classification of workers, and fulfillment of posting requirements.

(3) Payroll reviews to ensure that payrolls of prime contractors and subcontractors have been submitted on time and are complete and in compliance with contract requirements.

(4) Comparison of the information in this paragraph (b) with available data, including daily inspector's report and daily logs of construction, to ensure consistency.

(c) *Special compliance checks.* Situations that may require special compliance checks include —

(1) Inconsistencies, errors, or omissions detected during regular compliance checks; or

(2) Receipt of a complaint alleging violations. If the complaint is not specific enough, the complainant shall be so advised and invited to submit additional information.

22.406-8 Investigations.

Conduct labor standards investigations when available information indicates such action is warranted. In addition, the Department of Labor may conduct an investigation on its own initiative or may request a contracting agency to do so.

(a) *Contracting agency responsibilities.* Conduct an investigation when a compliance check indicates that substantial or willful violations may have occurred or violations have not been corrected.

(1) The investigation must—

(i) Include all aspects of the contractor's compliance with contract labor standards requirements;

(ii) Not be limited to specific areas raised in a complaint or uncovered during compliance checks; and

(iii) Use personnel familiar with labor laws and their application to contracts.

(2) Do not disclose contractor employees' oral or written statements taken during an investigation or the employee's identity to anyone other than an authorized Government official without that employee's prior signed consent.

(3) Send a written request to the Administrator, Wage and Hour Division, to obtain—

- (i) Investigation and enforcement instructions; or
- (ii) Available pertinent Department of Labor files.

(4) Obtain permission from the Department of Labor before disclosing material obtained from Labor Department files, other than computations of back wages and liquidated damages and summaries of back wages due, to anyone other than Government contract administrators.

(b) *Investigation report.* The contracting officer must review the investigation report on receipt and make preliminary findings. The contracting officer normally must not base adverse findings solely on employee statements that the employee does not wish to have disclosed. However, if the investigation establishes a pattern of possible violations that are based on employees' statements that are not authorized for disclosure, the pattern itself may support a finding of non-compliance.

(c) *Contractor Notification.* After completing the review, the contracting officer must—

(1) Provide the contractor any written preliminary findings and proposed corrective actions, and notice that the contractor has the right to request that the basis for the findings be made available and to submit written rebuttal information.

(2) Upon request, provide the contractor with rationale for the findings. However, under no circumstances will the contracting officer permit the contractor to examine the investigation report. Also, the contracting officer must not disclose the identity of any employee who filed a complaint or who was interviewed, without the prior consent of the employee.

(3)(i) The contractor may rebut the findings in writing within 60 days after it receives a copy of the preliminary findings. The rebuttal becomes part of the official investigation record. If the contractor submits a rebuttal, evaluate the preliminary findings and notify the contractor of the final findings.

(ii) If the contracting officer does not receive a timely rebuttal, the contracting officer must consider the preliminary findings final.

(4) If appropriate, request the contractor to make restitution for underpaid wages and assess liquidated damages. If the request includes liquidated damages, the request must state that the contractor has 60 days to request relief from such assessment.

(d) *Contracting officer's report.* After taking the actions prescribed in paragraphs (b) and (c) of this subsection—

(1) The contracting officer must prepare and forward a report of any violations, including findings and supporting evidence, to the agency head. Standard Form 1446, Labor Standards Investigation Summary Sheet, is the first page of the report; and

(2) The agency head must process the report as follows:

(i) The contracting officer must send a detailed enforcement report to the Administrator, Wage and Hour

Division, within 60 days after completion of the investigation, if—

(A) A contractor or subcontractor underpaid by \$1,000 or more;

(B) The contracting officer believes that the violations are aggravated or willful (or there is reason to believe that the contractor has disregarded its obligations to employees and subcontractors under the Davis-Bacon Act);

(C) The contractor or subcontractor has not made restitution; or

(D) Future compliance has not been assured.

(ii) If the Department of Labor expressly requested the investigation and none of the conditions in paragraph (d)(2)(i) of this subsection exist, submit a summary report to the Administrator, Wage and Hour Division. The report must include—

(A) A summary of any violations;

(B) The amount of restitution paid;

(C) The number of workers who received restitution;

(D) The amount of liquidated damages assessed under the Contract Work Hours and Safety Standards Act;

(E) Corrective measures taken; and

(F) Any information that may be necessary to review any recommendations for an appropriate adjustment in liquidated damages.

(iii) If none of the conditions in paragraphs (d)(2)(i) or (ii) of this subsection are present, close the case and retain the report in the appropriate contract file.

(iv) If substantial evidence is found that violations are willful and in violation of a criminal statute, (generally 18 U.S.C. 874 or 1001), forward the report (supplemented if necessary) to the Attorney General of the United States for prosecution if the facts warrant. Notify the Administrator, Wage and Hour Division, when the report is forwarded for the Attorney General's consideration.

(e) *Department of Labor investigations.* The Department of Labor will furnish the contracting officer an enforcement report detailing violations found and any corrective action taken by the contractor, in investigations that disclose—

(1) Underpayments totaling \$1,000 or more;

(2) Aggravated or willful violations (or, when the contracting officer believes that the contractor has disregarded its obligations to employees and subcontractors under the Davis-Bacon Act); or

(3) Potential assessment of liquidated damages under the Contract Work Hours and Safety Standards Act.

(f) *Other investigations.* The Department of Labor will provide a letter summarizing the findings of the investigation to the contracting officer for all investigations that are not described in paragraph (e) of this subsection.

22.406-9 Withholding from or suspension of contract payments.

(a) *Withholding from contract payments.* If the contracting officer believes a violation exists (see 22.406-8), or upon request of the Department of Labor, the contracting officer must withhold from payments due the contractor an amount equal to the estimated wage underpayment and estimated liquidated damages due the United States under the Contract Work Hours and Safety Standards Act. (See 22.302.)

(1) If the contracting officer believes a violation exists or upon request of the Department of Labor, the contracting officer must withhold funds from any current Federal contract or Federally assisted contract with the same prime contractor that is subject to either Davis-Bacon Act or Contract Work Hours and Safety Standards Act requirements.

(2) If a subsequent investigation confirms violations, the contracting officer must adjust the withholding as necessary. However, if the Department of Labor requested the withholding, the contracting officer must not reduce or release the withholding without written approval of the Department of Labor.

(3) Use withheld funds as provided in paragraph (c) of this subsection to satisfy assessed liquidated damages, and unless the contractor makes restitution, validated wage underpayments.

(b) *Suspension of contract payments.* If a contractor or subcontractor fails or refuses to comply with the labor standards clauses of the Davis-Bacon Act and related statutes, the agency, upon its own action or upon the written request of the Department of Labor, must suspend any further payment, advance, or guarantee of funds until the violations cease or until the agency has withheld sufficient funds to compensate employees for back wages, and to cover any liquidated damages due.

(c) *Disposition of contract payments withheld or suspended—*(1) *Forwarding wage underpayments to the Secretary of the Treasury.* Upon final administrative determination, if the contractor or subcontractor has not made restitution, the contracting officer must forward to the appropriate disbursing office Standard Form (SF) 1093, Schedule of Withholdings Under the Davis-Bacon Act (40 U.S.C. 276(a)) and/or Contract Work Hours and Safety Standards Act (40 U.S.C. 327-333). Attach to the SF 1093 a list of the name, social security number, and last known address of each affected employee; the amount due each employee; employee claims if feasible; and a brief rationale for restitution. Also, the contracting officer must indicate if restitution was not made because the employee could not be located. The Government may assist underpaid employees in preparation of their claims. The disbursing office must submit the SF 1093 with attached additional data and the funds withheld (by check) to the Secretary of the Treasury.

(2) *Returning of withheld funds to contractor.* When funds withheld exceed the amount required to satisfy validated wage underpayments and assessed liquidated damages, return the funds to the contractor.

(3) *Limitation on forwarding or returning funds.* If the Department of Labor requested the withholding or if the findings are disputed (see 22.406-10(e)), the contracting officer must not forward the funds to the Secretary of the Treasury, or return them to the contractor without approval by the Department of Labor.

(4) *Liquidated damages.* Upon final administrative determination, the contracting officer must dispose of funds withheld or collected for liquidated damages in accordance with agency procedures.

22.406-10 Disposition of disputes concerning construction contract labor standards enforcement.

(a) The areas of possible differences of opinion between contracting officers and contractors in construction contract labor standards enforcement include—

- (1) Misclassification of workers;
- (2) Hours of work;
- (3) Wage rates and payment;
- (4) Payment of overtime;
- (5) Withholding practices; and
- (6) The applicability of the labor standards requirements under varying circumstances.

(b) Generally, these differences are settled administratively at the project level by the contracting agency. If necessary, these differences may be settled with assistance from the Department of Labor.

(c) When requesting the contractor to take corrective action in labor violation cases, the contracting officer shall inform the contractor of the following:

(1) Disputes concerning the labor standards requirements of the contract are handled under the contract clause at 52.222-14, Disputes Concerning Labor Standards, and not under the clause at 52.233-1, Disputes.

(2) The contractor may appeal the contracting officer's findings or part thereof by furnishing the contracting officer a complete statement of the reasons for the disagreement with the findings.

(d) The contracting officer shall promptly transmit the contracting officer's findings and the contractor's statement to the Administrator, Wage and Hour Division.

(e) The Administrator, Wage and Hour Division, will respond directly to the contractor or subcontractor, with a copy to the contracting agency. The contractor or subcontractor may appeal the Administrator's findings in accordance with the procedures outlined in Labor Department Regulations (29 CFR 5.11). Hearings before administrative law judges are conducted in accordance with 29 CFR part 6, and hearings before the Labor Department Administrative

Review Board are conducted in accordance with 29 CFR part 7.

(f) The Administrator, Wage and Hour Division, may institute debarment proceedings against the contractor or subcontractor if the Administrator finds reasonable cause to believe that the contractor or subcontractor has committed willful or aggravated violations of the Contract Work Hours and Safety Standards Act or the Copeland (Anti-Kickback) Act, or any of the applicable statutes listed in 29 CFR 5.1 other than the Davis-Bacon Act, or has committed violations of the Davis-Bacon Act that constitute a disregard of its obligations to employees or subcontractors under Section 3(a) of that Act.

22.406-11 Contract terminations.

If a contract or subcontract is terminated for violation of the labor standards clauses, the contracting agency shall submit a report to the Administrator, Wage and Hour Division, and the Comptroller General. The report shall include—

- (a) The number of the terminated contract;
- (b) The name and address of the terminated contractor or subcontractor;
- (c) The name and address of the contractor or subcontractor, if any, who is to complete the work;
- (d) The amount and number of the replacement contract, if any; and
- (e) A description of the work.

22.406-12 Cooperation with the Department of Labor.

(a) The contracting agency shall cooperate with representatives of the Department of Labor in the inspection of records, interviews with workers, and all other aspects of investigations undertaken by the Department of Labor. When requested, the contracting agency shall furnish to the Secretary of Labor any available information on contractors, subcontractors, current and previous contracts, and the nature of the contract work.

(b) If a Department of Labor representative undertakes an investigation at a construction project, the contracting officer shall inquire into the scope of the investigation, and request to be notified immediately of any violations discovered under the Davis-Bacon Act, the Contract Work Hours and Safety Standards Act, or the Copeland (Anti-Kickback) Act.

22.406-13 Semiannual enforcement reports.

A semiannual report on compliance with and enforcement of the construction labor standards requirements of the Davis-Bacon Act and Contract Work Hours and Safety Standards Act is required from each contracting agency. The reporting periods are October 1 through March 31 and April 1 through September 30. The reports shall only contain information as to the enforcement actions of the contracting agency and shall be prepared as prescribed in Department of Labor memoranda and submitted to the Department of Labor within 30 days after

the end of the reporting period. This report has been assigned interagency report control number 1482-DOL-SA.

22.407 Contract clauses.

(a) The contracting officer shall insert the following clauses in solicitations and contracts in excess of \$2,000 for construction within the United States:

- (1) The clause at 52.222-6, Davis-Bacon Act.
- (2) The clause at 52.222-7, Withholding of Funds.
- (3) The clause at 52.222-8, Payrolls and Basic Records.
- (4) The clause at 52.222-9, Apprentices and Trainees.
- (5) The clause at 52.222-10, Compliance with Copeland Act Requirements.
- (6) The clause at 52.222-11, Subcontracts (Labor Standards).
- (7) The clause at 52.222-12, Contract Termination-Debarment.
- (8) The clause at 52.222-13, Compliance with Davis-Bacon and Related Act Regulations.
- (9) The clause at 52.222-14, Disputes Concerning Labor Standards.
- (10) The clause at 52.222-15, Certification of Eligibility.

(b) The contracting officer shall insert the clause at 52.222-16, Approval of Wage Rates, in solicitations and contracts in excess of \$2,000 for cost-reimbursement construction to be performed within the United States, except for contracts with a State or political subdivision thereof.

(c) A contract that is not primarily for construction may contain a requirement for some construction work to be performed in the United States. If under 22.402(b) the requirements of this subpart apply to the construction work, the contracting officer shall insert in such solicitations and contracts the applicable construction labor standards clauses required in this section and identify the item or items of construction work to which the clauses apply.

(d) The contracting officer shall insert the clause at 52.222-17, Labor Standards for Construction Work—Facilities Contracts, in solicitations and contracts, if a facilities contract (see 45.301) may require covered construction work (see 22.402(b)) to be performed in the United States.

(e) Insert the clause at 52.222-30, Davis-Bacon Act—Price Adjustment (None or Separately Specified Pricing Method), in solicitations and contracts if the contract is expected to be—

- (1) A fixed-price contract subject to the Davis-Bacon Act that will contain option provisions by which the contracting officer may extend the term of the contract, and the contracting officer determines the most appropriate contract price adjustment method is the method at 22.404-12(c)(1) or (2); or
- (2) A cost-reimbursable type contract subject to the Davis-Bacon Act that will contain option provisions by which the contracting officer may extend the term of the contract.

FAC 2001-01 DECEMBER 21, 2001

SUBPART 22.4—LABOR STANDARDS FOR CONTRACTS INVOLVING
CONSTRUCTION

22.407

(f) Insert the clause at 52.222-31, Davis-Bacon Act—Price Adjustment (Percentage Method), in solicitations and contracts if the contract is expected to be a fixed-price contract subject to the Davis-Bacon Act that will contain option provisions by which the contracting officer may extend the term of the contract, and the contracting officer determines the most appropriate contract price adjustment method is the method at 22.404-12(c)(3).

(g) Insert the clause at 52.222-32, Davis-Bacon Act—Price Adjustment (Actual Method), in solicitations and contracts if the contract is expected to be a fixed-price contract subject to the Davis-Bacon Act that will contain option provisions by which the contracting officer may extend the term of the contract, and the contracting officer determines the most appropriate method to establish contract price is the method at 22.404-12(c)(4).

Subpart 22.5—[Reserved]

Subpart 22.6—Walsh-Healey Public Contracts Act

22.601 [Reserved]

22.602 Statutory requirements.

Except for the exemptions at 22.604, all contracts subject to the Walsh-Healey Public Contracts Act (the Act) (41 U.S.C. 35-45) and entered into by any executive department, independent establishment, or other agency or instrumentality of the United States, or by the District of Columbia, or by any corporation (all the stock of which is beneficially owned by the United States) for the manufacture or furnishing of materials, supplies, articles, and equipment (referred to in this subpart as supplies) in any amount exceeding \$10,000, shall include or incorporate by reference the stipulations required by the Act pertaining to such matters as minimum wages, maximum hours, child labor, convict labor, and safe and sanitary working conditions.

22.603 Applicability.

The requirements in 22.602 apply to contracts (including for this purpose, indefinite-delivery contracts, basic ordering agreements, and blanket purchase agreements) and subcontracts under Section 8(a) of the Small Business Act, for the manufacture or furnishing of supplies that are to be performed within the United States, Puerto Rico, or the Virgin Islands, and which exceed or may exceed \$10,000, unless exempted under 22.604.

22.604 Exemptions.

22.604-1 Statutory exemptions.

Contracts for acquisition of the following supplies are exempt from the Act:

- (a) Any item in those situations where the contracting officer is authorized by the express language of a statute to purchase “in the open market” generally (such as commercial items, see Part 12); or where a specific purchase is made under the conditions described in 6.302-2 in circumstances where immediate delivery is required by the public exigency.
- (b) Perishables, including dairy, livestock, and nursery products.
- (c) Agricultural or farm products processed for first sale by the original producers.
- (d) Agricultural commodities or the products thereof purchased under contract by the Secretary of Agriculture.

22.604-2 Regulatory exemptions.

(a) Contracts for the following acquisitions are fully exempt from the Act (see 41 CFR 50-201.603):

- (1) Public utility services.
- (2) Supplies manufactured outside the United States, Puerto Rico, or the Virgin Islands.
- (3) Purchases against the account of a defaulting contractor where the stipulations of the Act were not included in the defaulted contract.

(4) Newspapers, magazines, or periodicals, contracted for with sales agents or publisher representatives, which are to be delivered by the publishers thereof.

(b)(1) Upon the request of the agency head, the Secretary of Labor may exempt specific contracts or classes of contracts from the inclusion or application of one or more of the Act's stipulations; provided, that the request includes a finding by the agency head stating the reasons why the conduct of Government business will be seriously impaired unless the exemption is granted.

(2) Those requests for exemption that relate solely to safety and health standards shall be transmitted to the—

Assistant Secretary for Occupational Safety and Health
U.S. Department of Labor
Washington, DC 20210.

All other requests shall be transmitted to the—

Administrator of the Wage and Hour Division
U.S. Department of Labor
Washington, DC 20210.

22.605 Rulings and interpretations of the Act.

(a) As authorized by the Act, the Secretary of Labor has issued rulings and interpretations concerning the administration of the Act (see 41 CFR 50-206). The substance of certain rulings and interpretations is as follows:

- (1) If a contract for \$10,000 or less is subsequently modified to exceed \$10,000, the contract becomes subject to the Act for work performed after the date of the modification.
- (2) If a contract for more than \$10,000 is subsequently modified by mutual agreement to \$10,000 or less, the contract is not subject to the Act for work performed after the date of the modification.
- (3) If a contract awarded to a prime contractor contains a provision whereby the prime contractor is made an agent of the Government, the prime contractor is required to include the stipulations of the Act in contracts in excess of \$10,000 awarded for and on behalf of the Government for supplies that are to be used in the construction and equipment of Government facilities.
- (4) If a contract subject to the Act is awarded to a contractor operating Government-owned facilities, the stipulations of the Act affect the employees of that contractor the same as employees of contractors operating privately owned facilities.

(5) Indefinite-delivery contracts, including basic ordering agreements and blanket purchase agreements, are subject to the Act unless it can be determined in advance that the aggregate amount of all orders estimated to be placed thereunder for 1 year after the effective date of the agreement will not exceed \$10,000. A determination shall be made annually thereafter if the contract or agreement is extended, and the contract or agreement modified if necessary.

(b) [Reserved]

22.606 [Reserved]

22.607 [Reserved]

22.608 Procedures.

(a) *Award.* When a contract subject to the Act is awarded, the contracting officer, in accordance with regulations or instructions issued by the Secretary of Labor and individual agency procedures, shall furnish to the contractor DOL publication WH-1313, Notice to Employees Working on Government Contracts.

(b) *Breach of stipulation.* In the event of a violation of a stipulation required under the Act, the contracting officer shall, in accordance with agency procedures, notify the appropriate regional office of the DOL, Wage and Hour Division (see 22.609), and furnish any information available.

22.609 Regional jurisdictions of the Department of Labor, Wage and Hour Division.

Geographic jurisdictions of the following regional offices of the DoL, Wage and Hour Division, are shown here, and

contracting officers should contact them in all situations required by this subpart, unless otherwise specified:

(a) The Region I and Region II office located in New York, New York, has jurisdiction for Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Puerto Rico, Rhode Island, Vermont, and the Virgin Islands.

(b) The Region III office located in Philadelphia, Pennsylvania, has jurisdiction for Delaware, the District of Columbia, Maryland, Pennsylvania, Virginia, and West Virginia.

(c) The Region IV office located in Atlanta, Georgia, has jurisdiction for Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee.

(d) The Region V and Region VII office located in Chicago, Illinois, has jurisdiction for Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, Ohio, and Wisconsin.

(e) The Region VI and Region VIII office located in Dallas, Texas, has jurisdiction for Arkansas, Colorado, Louisiana, Montana, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, Utah, and Wyoming.

(f) The Region IX and Region X office located in San Francisco, California, has jurisdiction for Alaska, Arizona, California, Guam, Hawaii, Idaho, Nevada, Oregon, and Washington.

22.610 Contract clause.

The contracting officer shall insert the clause at 52.222-20, Walsh-Healey Public Contracts Act, in solicitations and contracts covered by the Act (see 22.603, 22.604, and 22.605).

Subpart 22.7—[Reserved]

Subpart 22.8—Equal Employment Opportunity

22.800 Scope of subpart.

This subpart prescribes policies and procedures pertaining to nondiscrimination in employment by contractors and subcontractors.

22.801 Definitions.

As used in this subpart—

“Affirmative action program” means a contractor’s program that complies with Department of Labor regulations to ensure equal opportunity in employment to minorities and women.

“Compliance evaluation” means any one or combination of actions that the Office of Federal Contract Compliance Programs (OFCCP) may take to examine a Federal contractor’s compliance with one or more of the requirements of E.O. 11246.

“Contractor” includes the terms “prime contractor” and “subcontractor.”

“Deputy Assistant Secretary” means the Deputy Assistant Secretary for Federal Contract Compliance, U.S. Department of Labor, or a designee.

“Equal Opportunity clause” means the clause at 52.222-26, Equal Opportunity, as prescribed in 22.810(e).

“E.O. 11246” means Parts II and IV of Executive Order 11246, September 24, 1965 (30 FR 12319), and any Executive order amending or superseding this order (see 22.802). This term specifically includes the Equal Opportunity clause at 52.222-26, and the rules, regulations, and orders issued pursuant to E.O. 11246 by the Secretary of Labor or a designee.

“Prime contractor” means any person who holds, or has held, a Government contract subject to E.O. 11246.

“Recruiting and training agency” means any person who refers workers to any contractor or provides or supervises apprenticeship or training for employment by any contractor.

“Site of construction” means the general physical location of any building, highway, or other change or improvement to real property that is undergoing construction, rehabilitation, alteration, conversion, extension, demolition, or repair; and any temporary location or facility at which a contractor or other participating party meets a demand or performs a function relating to a Government contract or subcontract.

“Subcontract” means any agreement or arrangement between a contractor and any person (in which the parties do not stand in the relationship of an employer and an employee)—

(1) For the purchase, sale, or use of personal property or nonpersonal services that, in whole or in part, are necessary to the performance of any one or more contracts; or

(2) Under which any portion of the contractor's obligation under any one or more contracts is performed, undertaken, or assumed.

“Subcontractor” means any person who holds, or has held, a subcontract subject to E.O. 11246. The term “first-tier subcontractor” means a subcontractor holding a subcontract with a prime contractor.

“United States” means the several states, the District of Columbia, the Virgin Islands, the Commonwealth of Puerto Rico, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and Wake Island.

22.802 General.

(a) It is the GPO’s policy to adhere to the principles of Executive Order 11246, as amended. Executive Order 11246, as amended, sets forth the Equal Opportunity clause and requires that all agencies—

(1) Include this clause in all nonexempt contracts and subcontracts (see 22.807); and

(2) Act to ensure compliance with the clause and the regulations of the Secretary of Labor to promote the full realization of equal employment opportunity for all persons, regardless of race, color, religion, sex, or national origin.

(b) No contract or modification involving new acquisition shall be entered into, and no subcontract shall be approved by a contracting officer, with a person who has been found ineligible by the Deputy Assistant Secretary for reasons of non-compliance with the requirements of E.O. 11246.

(c) No contracting officer or contractor shall contract for supplies or services in a manner so as to avoid applicability of the requirements of E.O. 11246.

(d) Contractor disputes related to compliance with its obligation shall be handled according to the rules, regulations, and relevant orders of the Secretary of Labor (see 41 CFR 60-1.1).

22.803 Responsibilities.

(a) The Secretary of Labor is responsible for the—

(1) Administration and enforcement of prescribed parts of E.O. 11246; and

(2) Adoption of rules and regulations and the issuance of orders necessary to achieve the purposes of E.O. 11246.

(b) The Secretary of Labor has delegated authority and assigned responsibility to the Deputy Assistant Secretary for carrying out the responsibilities assigned to the Secretary by E.O. 11246, except for the issuance of rules and regulations of a general nature.

(c) The Director, MMS, is responsible for ensuring that the requirements of this subpart are carried out within the agency.

22.804 Affirmative action programs.

22.804-1 Nonconstruction.

Except as provided in 22.807, each nonconstruction prime contractor and each subcontractor with 50 or more employees and either a contract or subcontract of \$50,000 or more, or

Government bills of lading that in any 12-month period total, or can reasonably be expected to total, \$50,000 or more, is required to develop a written affirmative action program for each of its establishments. Each contractor and subcontractor shall develop its written affirmative action programs within 120 days from the commencement of its first such Government contract, subcontract, or Government bill of lading.

22.804-2 Construction.

(a) Construction contractors that hold a nonexempt (see 22.807) Government construction contract are required to meet—

(1) The contract terms and conditions citing affirmative action requirements applicable to covered geographical areas or projects; and

(2) Applicable requirements of 41 CFR 60-1 and 60-4.

(b) Each agency shall maintain a listing of covered geographical areas that are subject to affirmative action requirements that specify goals for minorities and women in covered construction trades. Information concerning, and additions to, this listing will be provided to the principally affected contracting officers in accordance with agency procedures. Any contracting officer contemplating a construction project in excess of \$10,000 within a geographic area not known to be covered by specific affirmative action goals shall request instructions on the most current information from the OFCCP regional office, or as otherwise specified in agency regulations, before issuing the solicitation.

(c) Contracting officers shall give written notice to the OFCCP regional office within 10 working days of award of a construction contract subject to these affirmative action requirements. The notification shall include the name, address, and telephone number of the contractor; employer identification number; dollar amount of the contract; estimated starting and completion dates of the contract; the contract number; and the geographical area in which the contract is to be performed. When requested by the OFCCP regional office, the contracting officer shall arrange a conference among contractor, contracting activity, and compliance personnel to discuss the contractor's compliance responsibilities.

22.805 [Reserved]

22.806 Inquiries.

(a) An inquiry from a contractor regarding status of its compliance with E.O. 11246, or rights of appeal to any of the actions in 22.809, shall be referred to the OFCCP regional office.

(b) Labor union inquiries regarding the revision of a collective bargaining agreement in order to comply with E.O. 11246 shall be referred to the Deputy Assistant Secretary.

22.807 Exemptions.

(a) Under the following exemptions, all or part of the requirements of E.O. 11246 may be excluded from a contract subject to E.O. 11246:

(1) *National security.* The agency head may determine that a contract is essential to the national security and that the award of the contract without complying with one or more of the requirements of this subpart is necessary to the national security.

(2) *Specific contracts.* The Director, MMS, may exempt any contract if the Director, MMS, deems that special circumstances in the national interest so require. Groups or categories of contracts of the same type may also be exempted if the Director, MMS, finds it impracticable to act upon each request individually or if group exemptions will contribute to convenience in the administration of E.O. 11246.

(b) The following exemptions apply even though a contract or subcontract contains the Equal Opportunity clause:

(1) *Transactions of \$10,000 or less.* The Equal Opportunity clause is required to be included in prime contracts and subcontracts by 22.802(a). Individual prime contracts or subcontracts of \$10,000 or less are exempt from application of the Equal Opportunity clause, unless the aggregate value of all prime contracts or subcontracts awarded to a contractor in any 12-month period exceeds, or can reasonably be expected to exceed, \$10,000. (Note: Government bills of lading, regardless of amount, are not exempt.)

(2) *Work outside the United States.* Contracts are exempt from the requirements of E.O. 11246 for work performed outside the United States by employees who were not recruited within the United States.

(3) *Contracts with State or local governments.* The requirements of E.O. 11246 in any contract with a State or local government (or any agency, instrumentality, or subdivision thereof) shall not be applicable to any agency, instrumentality, or subdivision of such government that does not participate in work on or under the contract.

(4) *Work on or near Indian reservations.* It shall not be a violation of E.O. 11246 for a contractor to extend a publicly announced preference in employment to Indians living on or near an Indian reservation in connection with employment opportunities on or near an Indian reservation. This applies to that area where a person seeking employment could reasonably be expected to commute to and from in the course of a work day. Contractors extending such a preference shall not, however, discriminate among Indians on the basis of religion, sex, or tribal affiliation, and the use of such preference shall not excuse a contractor from complying with E.O. 11246, rules and regulations of the Secretary of Labor, and applicable clauses in the contract.

(5) *Facilities not connected with contracts.* The Director, MMS, may exempt from the requirements of E.O. 11246 any of a contractor's facilities that the Director, MMS, finds to be in all respects separate and distinct from activities of the contractor related to performing the contract, provided, that the Director, MMS, also finds that the exemption will not interfere with, or impede the effectiveness of, E.O. 11246.

(6) *Indefinite-quantity contracts.* With respect to indefinite-quantity contracts and subcontracts, the Equal Opportunity clause applies unless the contracting officer has reason to believe that the amount to be ordered in any year under the contract will not exceed \$10,000. The applicability of the Equal Opportunity clause shall be determined by the contracting officer at the time of award for the first year, and annually thereafter for succeeding years, if any. Notwithstanding the above, the Equal Opportunity clause shall be applied to the contract whenever the amount of a single order exceeds \$10,000. Once the Equal Opportunity clause is determined to be applicable, the contract shall continue to be subject to such clause for its duration regardless of the amounts ordered, or reasonably expected to be ordered, in any year.

(c) To request an exemption under paragraph (a)(2) or (b)(5) of this section, the contracting officer shall submit, under agency procedures, a detailed justification for omitting all, or part of, the requirements of E.O. 11246. Requests for exemptions under paragraph (a)(2) or (b)(5) of this section shall be submitted to the Director, MMS, for approval.

(d) The Director, MMS, may withdraw the exemption for a specific contract, or group of contracts, if the Director, MMS, deems that such action is necessary and appropriate to achieve the purposes of E.O. 11246. Such withdrawal shall not apply—

(1) To contracts awarded before the withdrawal; or

(2) To any sealed bid contract (including restricted sealed bidding), unless the withdrawal is made more than 10 days before the bid opening date.

22.808 Complaints.

Complaints received by the contracting officer alleging violation of the requirements of E.O. 11246 shall be referred immediately to the GPO General Counsel. The complainant shall be advised in writing of the referral. The contractor that is the subject of a complaint shall not be advised in any manner or for any reason of the complainant's name, the nature of the complaint, or the fact that the complaint was received.

22.809 Enforcement.

Upon the written direction of the Director, MMS, one or more of the following actions, as well as administrative sanctions and penalties, may be exercised against contractors found to be in violation of E.O. 11246, the regulations of the Secretary of Labor, or the applicable contract clauses:

(a) Publication of the names of the contractor or its unions.

(b) Cancellation, termination, or suspension of the contractor's contracts or portion thereof.

(c) Debarment from future Government contracts, or extensions or modifications of existing contracts, until the contractor has established and carried out personnel and employment policies in compliance with E.O. 11246 and the regulations of the Secretary of Labor.

(d) Referral by the Deputy Assistant Secretary of any matter arising under E.O. 11246 to the Department of Justice or to the Equal Employment Opportunity Commission (EEOC) for the institution of appropriate civil or criminal proceedings.

22.810 Solicitation provisions and contract clauses.

(a) When a contract is contemplated that will include the clause at 52.222-26, Equal Opportunity, the contracting officer shall insert—

(1) The clause at 52.222-21, Prohibition of Segregated Facilities, in the solicitation and contract; and

(2) The provision at 52.222-22, Previous Contracts and Compliance Reports, in the solicitation.

(b) The contracting officer shall insert the provision at 52.222-23, Notice of Requirement for Affirmative Action to Ensure Equal Employment Opportunity for Construction, in solicitations for construction when a contract is contemplated that will include the clause at 52.222-26, Equal Opportunity, and the amount of the contract is expected to be in excess of \$10,000.

(c) The contracting officer shall insert the provision at 52.222-24, Preaward On-Site Equal Opportunity Compliance Evaluation, in solicitations other than those for construction when a contract is contemplated that will include the clause at 52.222-26, Equal Opportunity, and the amount of the contract is expected to be \$10 million or more.

(d) The contracting officer shall insert the provision at 52.222-25, Affirmative Action Compliance, in solicitations, other than those for construction, when a contract is contemplated that will include the clause at 52.222-26, Equal Opportunity.

(e) The contracting officer shall insert the clause at 52.222-26, Equal Opportunity, in solicitations and contracts (see 22.802) unless the contract is exempt from all of the requirements of E.O. 11246 (see 22.807(a)). If the contract is exempt from one or more, but not all, of the requirements of E.O. 11246, the contracting officer shall use the clause with its Alternate I.

(f) The contracting officer shall insert the clause at 52.222-27, Affirmative Action Compliance Requirements for Construction, in solicitations and contracts for construction that will include the clause at 52.222-26, Equal Opportunity, when the amount of the contract is expected to be in excess of \$10,000.

(g) The contracting officer shall insert the clause at 52.222-29, Notification of Visa Denial, in contracts that will include

the clause at 52.222-26, Equal Opportunity, if the contractor is required to perform in or on behalf of a foreign country.

Subpart 22.9—Nondiscrimination Because of Age**22.901 Policy.**

The Government policy is as follows:

(a) Contractors and subcontractors shall not, in connection with employment, advancement, or discharge of employees, or the terms, conditions, or privileges of their employment, discriminate against persons because of their age except upon the basis of a bona fide occupational qualification, retirement plan, or statutory requirement.

(b) Contractors and subcontractors, or persons acting on their behalf, shall not specify in solicitations or advertisements for employees to work on Government contracts, a

maximum age limit for employment unless the specified maximum age limit is based upon a bona fide occupational qualification, retirement plan, or statutory requirement.

(c) MMS will bring this policy to the attention of contractors. The use of contract clauses is not required.

22.902 Handling complaints.

MMS shall bring complaints regarding a contractor's compliance with this policy to that contractor's attention (in writing, if appropriate), stating the policy, indicating that the contractor's compliance has been questioned, and requesting that the contractor take any appropriate steps that may be necessary to comply.

Subpart 22.10—Service Contract Act of 1965, as Amended

22.1000 Scope of subpart.

This subpart prescribes policies and procedures implementing the provisions of the Service Contract Act of 1965, as amended (41 U.S.C. 351, *et seq.*), the applicable provisions of the Fair Labor Standards Act of 1938, as amended (29 U.S.C. 201, *et seq.*), and related Secretary of Labor regulations and instructions (29 CFR parts 4, 6, 8, and 1925).

22.1001 Definitions.

As used in this subpart—

“Act” or “Service Contract Act” means the Service Contract Act of 1965.

“Agency labor advisor” means an individual responsible for advising contracting agency officials on Federal contract labor matters.

“Contractor” includes a subcontractor at any tier whose subcontract is subject to the provisions of the Act.

“Multiple year contracts” means contracts having a term of more than 1 year regardless of fiscal year funding. The term includes multiyear contracts (see 17.103).

“Notice” means Standard Form (SF) 98, “Notice of Intention to Make a Service Contract and Response to Notice,” and SF 98a, “Attachment A.” The term “Notice” is always capitalized in this subpart when it means Standard Forms 98 and 98a.

“Service contract” means any Government contract, the principal purpose of which is to furnish services in the United States through the use of service employees, except as exempted under section 7 of the Act (41 U.S.C. 356; see 22.1003-3 and 22.1003-4), or any subcontract at any tier thereunder. See 22.1003-5 and 29 CFR 4.130 for a partial list of services covered by the Act.

“Service employee” means any person engaged in the performance of a service contract other than any person employed in a bona fide executive, administrative, or professional capacity, as those terms are defined in 29 CFR part 541. The term “service employee” includes all such persons regardless of any contractual relationship that may be alleged to exist between a contractor or subcontractor and such persons.

“United States” includes any State of the United States, the District of Columbia, Puerto Rico, the Virgin Islands, Outer Continental Shelf Lands as defined in the Outer Continental Shelf Lands Act (43 U.S.C. 1331, *et seq.*), American Samoa, Guam, Northern Mariana Islands, Wake Island, and Johnston Island but does not include any other territory under U.S. jurisdiction or any U.S. base or possession within a foreign country.

“Wage and Hour Division” means the unit in the Employment Standards Administration of the Department of Labor to

which is assigned functions of the Secretary of Labor under the Act.

“Wage determination” means a determination of minimum wages or fringe benefits made under sections 2(a) or 4(c) of the Act (41 U.S.C. 351(a) or 353(c)) applicable to the employment in a given locality of one or more classes of service employees.

22.1002 Statutory requirements.

22.1002-1 General.

Service contracts over \$2,500 shall contain mandatory provisions regarding minimum wages and fringe benefits, safe and sanitary working conditions, notification to employees of the minimum allowable compensation, and equivalent Federal employee classifications and wage rates. Under 41 U.S.C. 353(d), service contracts may not exceed 5 years.

22.1002-2 Wage determinations based on prevailing rates.

Contractors performing on service contracts in excess of \$2,500 to which no predecessor contractor’s collective bargaining agreement applies shall pay their employees at least the wages and fringe benefits found by the Department of Labor to prevail in the locality or, in the absence of a wage determination, the minimum wage set forth in the Fair Labor Standards Act.

22.1002-3 Wage determinations based on collective bargaining agreements.

(a) Successor contractors performing on contracts in excess of \$2,500 for substantially the same services performed in the same locality must pay wages and fringe benefits (including accrued wages and benefits and prospective increases) at least equal to those contained in any bona fide collective bargaining agreement entered into under the predecessor contract. This requirement is self-executing and is not contingent upon incorporating a wage determination or the wage and fringe benefit terms of the predecessor contractor’s collective bargaining agreement in the successor contract. This requirement will not apply if the Secretary of Labor determines—

(1) After a hearing, that the wages and fringe benefits are substantially at variance with those which prevail for services of a similar character in the locality; or

(2) That the wages and fringe benefits are not the result of arm’s length negotiations.

(b) Paragraphs in this Subpart 22.10 which deal with this statutory requirement and the Department of Labor’s implementing regulations are 22.1008-3, concerning applicability of this requirement and the forwarding of a collective bargaining agreement with a Notice (SF 98, 98a); 22.1010, concerning notification to contractors and bargaining representatives

of procurement dates; 22.1012-3, explaining when a collective bargaining agreement will not apply due to late receipt by the contracting officer; and 22.1013 and 22.1021, explaining when the application of a collective bargaining agreement can be challenged due to a variance with prevailing rates or lack of arm's length bargaining.

22.1002-4 Application of the Fair Labor Standards Act minimum wage.

No contractor or subcontractor holding a service contract for any dollar amount shall pay any of its employees working on the contract less than the minimum wage specified in section 6(a)(1) of the Fair Labor Standards Act (29 U.S.C. 206).

22.1003 Applicability.

22.1003-1 General.

This Subpart 22.10 applies to all Government contracts, the principal purpose of which is to furnish services in the United States through the use of service employees, except as exempted in 22.1003-3 and 22.1003-4 of this section, or any subcontract at any tier thereunder. This subpart does not apply to individual contract requirements for services in contracts not having as their principal purpose the furnishing of services. The nomenclature, type, or particular form of contract used by contracting agencies is not determinative of coverage.

22.1003-2 Geographical coverage of the Act.

The Act applies to service contracts performed in the United States (see 22.1001). The Act does not apply to contracts performed outside the United States.

22.1003-3 Statutory exemptions.

The Act does not apply to—

(a) Any contract for construction, alteration, or repair of public buildings or public works, including painting and decorating;

(b) Any work required to be done in accordance with the provisions of the Walsh-Healey Public Contracts Act (41 U.S.C. 35-45);

(c) Any contract for transporting freight or personnel by vessel, aircraft, bus, truck, express, railroad, or oil or gas pipeline where published tariff rates are in effect;

(d) Any contract for furnishing services by radio, telephone, telegraph, or cable companies subject to the Communications Act of 1934;

(e) Any contract for public utility services;

(f) Any employment contract providing for direct services to a Federal agency by an individual or individuals; or

(g) Any contract for operating postal contract stations for the U.S. Postal Service.

22.1003-4 Administrative limitations, variations, tolerances, and exemptions.

(a) The Secretary of Labor may provide reasonable limitations and may make rules and regulations allowing reasonable variations, tolerances, and exemptions to and from any or all provisions of the Act other than section 10 (41 U.S.C. 358). These will be made only in special circumstances where it has been determined that the limitation, variation, tolerance, or exemption is necessary and proper in the public interest or to avoid the serious impairment of Government business, and is in accord with the remedial purpose of the Act to protect prevailing labor standards (41 U.S.C. 353(b)). See 29 CFR 4.123 for a listing of administrative exemptions, tolerances, and variations. Requests for limitations, variances, tolerances, and exemptions from the Act shall be submitted in writing through contracting channels and the agency labor advisor to the Wage and Hour Administrator.

(b) In addition to the statutory exemptions cited in 22.1003-3 of this subsection, the Secretary of Labor has exempted the following types of contracts from all provisions of the Act:

(1) Contracts entered into by the United States with common carriers for the carriage of mail by rail, air (except air star routes), bus, and ocean vessel, where such carriage is performed on regularly scheduled runs of the trains, airplanes, buses, and vessels over regularly established routes and accounts for an insubstantial portion of the revenue therefrom.

(2) Any contract entered into by the U.S. Postal Service with an individual owner-operator for mail service if it is not contemplated at the time the contract is made that the owner-operator will hire any service employee to perform the services under the contract except for short periods of vacation time or for unexpected contingencies or emergency situations such as illness, or accident.

(3) Contracts for the carriage of freight or personnel if such carriage is subject to rates covered by section 10721 of the Interstate Commerce Act.

(4) Contracts as follows:

(i) Contracts principally for the maintenance, calibration, or repair of the following types of equipment are exempt, subject to the restrictions in subdivisions (b)(4)(ii), (b)(4)(iii), and (b)(4)(iv) of this subsection.

(A) Automated data processing equipment and office information/word processing systems.

(B) Scientific equipment and medical apparatus or equipment if the application of micro-electronic circuitry or other technology of at least similar sophistication is an essential element (for example, Federal Supply Classification (FSC) Group 65, Class 6515, "Medical Diagnostic Equipment;" Class 6525, "X-Ray Equipment;" FSC Group 66, Class 6630, "Chemical Analysis Instruments;" and Class 6665, "Geographical and Astronomical Instruments;" are

largely composed of the types of equipment exempted hereunder).

(C) Office/business machines not otherwise exempt pursuant to subdivision (b)(4)(i)(A) of this subsection, if such services are performed by the manufacturer or supplier of the equipment.

(ii) The exemption set forth in this subparagraph (b)(4) of this subsection shall apply only under the following circumstances:

(A) The items of equipment are commercial items which are used regularly for other than Government purposes and are sold or traded by the contractor in substantial quantities to the general public in the course of normal business operations.

(B) The contract services are furnished at prices which are, or are based on, established catalog or market prices (see 29 CFR 4.123(e)(1)(ii)(B)) for the maintenance, calibration, or repair of such commercial items.

(C) The contractor utilizes the same compensation (wage and fringe benefits) plan for all service employees performing work under the contract as the contractor uses for equivalent employees servicing the same equipment of commercial customers.

(D) The contractor certifies in the contract to the provisions in subdivision (b)(4)(ii) of this subsection. (See 22.1006(e).)

(iii)(A) Determinations of the applicability of this exemption shall be made in the first instance by the contracting officer before contract award. In determining that the exemption applies, the contracting officer shall consider all factors and make an affirmative determination that all of the above conditions have been met.

(B) If any potential offerors would not qualify for the exemption, the contracting officer shall incorporate in the solicitation the Service Contract Act clause (see 22.1006(a)) and, if the contract will exceed \$2,500, the appropriate Department of Labor wage determination (see 22.1007).

(iv) If the Department of Labor determines after contract award that any of the requirements for exemption in subparagraph (b)(4) of this subsection have not been met, the exemption will be deemed inapplicable, and the contract shall become subject to the Service Contract Act, effective as of the date of the Department of Labor determination.

22.1003-5 Some examples of contracts covered.

The following examples, while not definitive or exclusive, illustrate some of the types of services that have been found to be covered by the Act (see 29 CFR 4.130 for additional examples):

(a) Motor pool operation, parking, taxicab, and ambulance services.

(b) Packing, crating, and storage.

(c) Custodial, janitorial, housekeeping, and guard services.

(d) Food service and lodging.

(e) Laundry, dry-cleaning, linen-supply, and clothing alteration and repair services.

(f) Snow, trash, and garbage removal.

(g) Aerial spraying and aerial reconnaissance for fire detection.

(h) Some support services at installations, including grounds maintenance and landscaping.

(i) Certain specialized services requiring specific skills, such as drafting, illustrating, graphic arts, stenographic reporting, or mortuary services.

(j) Electronic equipment maintenance and operation and engineering support services.

(k) Maintenance and repair of all types of equipment, for example, aircraft, engines, electrical motors, vehicles, and electronic, office and related business and construction equipment. (But see 22.1003-4(b)(4).)

(l) Operation, maintenance, or logistics support of a Federal facility.

(m) Data collection, processing and analysis services.

22.1003-6 Repair distinguished from remanufacturing of equipment.

(a) Contracts principally for remanufacturing of equipment which is so extensive as to be equivalent to manufacturing are subject to the Walsh-Healey Public Contracts Act, rather than to the Service Contract Act. Remanufacturing shall be deemed to be manufacturing when the criteria in either subparagraphs (a)(1) or (a)(2) of this subsection are met.

(1) Major overhaul of an item, piece of equipment, or material which is degraded or inoperable, and under which all of the following conditions exist:

(i) The item or equipment is required to be completely or substantially torn down into individual component parts.

(ii) Substantially all of the parts are reworked, rehabilitated, altered and/or replaced.

(iii) The parts are reassembled so as to furnish a totally rebuilt item or piece of equipment.

(iv) Manufacturing processes similar to those which were used in the manufacturing of the item or piece of equipment are utilized.

(v) The disassembled components, if usable (except for situations where the number of items or pieces of equipment involved are too few to make it practicable) are commingled with existing inventory and, as such, lose their identification with respect to a particular piece of equipment.

(vi) The items or equipment overhauled are restored to original life expectancy, or nearly so.

(vii) Such work is performed in a facility owned or operated by the contractor.

(2) Major modification of an item, piece of equipment, or material which is wholly or partially obsolete, and under which all of the following conditions exist:

- (i) The item or equipment is required to be completely or substantially torn down.
- (ii) Outmoded parts are replaced.
- (iii) The item or equipment is rebuilt or reassembled.
- (iv) The contract work results in the furnishing of a substantially modified item in a usable and serviceable condition.
- (v) The work is performed in a facility owned or operated by the contractor.

(b) Remanufacturing does not include the repair of damaged or broken equipment which does not require a complete teardown, overhaul, and rebuild as described in subparagraphs (a)(1) and (a)(2) of this subsection, or the periodic and routine maintenance, preservation, care, adjustment, upkeep, or servicing of equipment to keep it in usable, serviceable, working order. Such contracts typically are billed on an hourly rate (labor plus materials and parts) basis. Any contract principally for this type of work is subject to the Service Contract Act. Examples of such work include the following:

- (1) Repair of an automobile, truck, or other vehicle, construction equipment, tractor, crane, aerospace, air conditioning and refrigeration equipment, electric motors, and ground powered industrial or vehicular equipment.
- (2) Repair of typewriters and other office equipment (but see 22.1003-4(b)(4)).
- (3) Repair of appliances, radios, television sets, calculators, and other electronic equipment.
- (4) Inspecting, testing, calibration, painting, packaging, lubrication, tune-up, or replacement of internal parts of equipment listed in subparagraphs (b)(1), (b)(2), and (b)(3) of this subsection.
- (5) Reupholstering, reconditioning, repair, and refinishing of furniture.

22.1003-7 Questions concerning applicability of the Act.

If the contracting officer questions the applicability of the Act to an acquisition, the contracting officer shall request the advice of the GPO General Counsel. Unresolved questions shall be submitted in a timely manner to the Administrator, Wage and Hour Division, for determination.

22.1004 Department of Labor responsibilities and regulations.

Under the Act, the Secretary of Labor is authorized and directed to enforce the provisions of the Act, make rules and regulations, issue orders, hold hearings, make decisions, and take other appropriate action. The Department of Labor has issued implementing regulations on such matters as—

- (a) Service contract labor standards provisions and procedures (29 CFR part 4, Subpart A);

- (b) Wage determination procedures (29 CFR part 4, Subpart B);

- (c) Application of the Act (rulings and interpretations) (29 CFR part 4, Subpart C);

- (d) Compensation standards (29 CFR part 4, Subpart D);

- (e) Enforcement (29 CFR part 4, Subpart E);

- (f) Safe and sanitary working conditions (29 CFR part 1925);

- (g) Rules of practice for administrative proceedings enforcing service contract labor standards (29 CFR part 6); and

- (h) Practice before the Board of Service Contract Appeals (29 CFR part 8).

22.1005 [Reserved]

22.1006 Contract clauses.

(a) The contracting officer shall insert the clause at 52.222-41, Service Contract Act of 1965, as amended, in solicitations and contracts if the contract is subject to the Act and is—

- (1) For over \$2,500; or

(2) For an indefinite dollar amount and the contracting officer does not know in advance that the contract amount will be \$2,500 or less.

(b) The contracting officer shall insert the clause at 52.222-42, Statement of Equivalent Rates for Federal Hires, in solicitations and contracts if the contract amount is expected to be over \$2,500 and the Act is applicable. (See 22.1016.)

(c)(1) The contracting officer shall insert the clause at 52.222-43, Fair Labor Standards Act and Service Contract Act—Price Adjustment (Multiple Year and Option Contracts), or another clause which accomplishes the same purpose, in solicitations and contracts if the contract is expected to be a fixed-price service contract containing the clause at 52.222-41, Service Contract Act of 1965, as amended, and is a multiple year contract or is a contract with options to renew which exceeds the simplified acquisition threshold. The clause may be used in contracts that do not exceed the simplified acquisition threshold. The clause at 52.222-43, Fair Labor Standards Act and Service Contract Act—Price Adjustment (Multiple Year and Option Contracts), applies to both contracts subject to area prevailing wage determinations and contracts subject to the incumbent contractor's collective bargaining agreement in effect during this contract's preceding contract period (see 22.1002-2 and 22.1002-3). Contracting officers shall ensure that contract prices or contract unit price labor rates are adjusted only to the extent that a contractor's increases or decreases in applicable wages and fringe benefits are made to comply with the requirements set forth in the clauses at 52.222-43 (subparagraphs (c)(1), (2) and (3)), or 52.222-44 (subparagraphs (b)(1) and (2)). (For example, the prior year wage determination required a minimum wage rate of \$4.00 per hour. The contractor actually paid \$4.10. The

new wage determination increases the minimum rate to \$4.50. The contractor increases the rate actually paid to \$4.75 per hour. The allowable price adjustment is \$.40 per hour.)

(2) The contracting officer shall insert the clause at 52.222-44, Fair Labor Standards Act and Service Contract Act—Price Adjustment, in solicitations and contracts if the contract is expected to be a fixed-price service contract containing the clause at 52.222-41, Service Contract Act of 1965, as amended, exceeds the simplified acquisition threshold, and is not a multiple year contract or is not a contract with options to renew. The clause may be used in contracts that do not exceed the simplified acquisition threshold. The clause at 52.222-44, Fair Labor Standards Act and Service Contract Act—Price Adjustment, applies to both contracts subject to area prevailing wage determinations and contracts subject to contractor collective bargaining agreements (see 22.1002-2 and 22.1002-3).

(3) The clauses prescribed in paragraph 22.1006(c)(1) cover situations in which revised minimum wage rates are applied to contracts by operation of law, or by revision of a wage determination in connection with (i) exercise of a contract option or (ii) extension of a multiple year contract into a new program year. If a clause prescribed in 16.203-4(d) is used, it must not conflict with, or duplicate payment under, the clauses prescribed in this paragraph 22.1006(c).

(d) The contracting officer shall insert the clause at 52.222-47, Service Contract Act (SCA) Minimum Wages and Fringe Benefits, if—

(1) The clause at 52.222-41 applies;

(2) The contract resulting from the solicitation succeeds a contract for substantially the same services to be performed in the same locality;

(3) The incumbent contractor has negotiated or is negotiating a collective bargaining agreement with some or all of its service employees; and

(4) All applicable Department of Labor wage determinations have been requested but not received.

(e)(1) The contracting officer shall insert the clause at 52.222-48, Exemption from Application of Service Contract Act Provisions, in any solicitation and resulting contract calling for the maintenance, calibration, and/or repair of information technology, scientific and medical, and office and business equipment if the contracting officer determines that the resultant contract may be exempt from Service Contract Act coverage as described at 22.1003-4(b)(4).

(2) If the successful offeror does not certify that the exemption applies, the contracting officer shall not insert the clause at 52.222-48 and instead shall insert in the contract—

(i) The applicable Service Contract Act clause(s); and

(ii) The appropriate Department of Labor wage determination if the contract exceeds \$2,500.

(f) The contracting officer shall insert the clause at 52.222-49, Service Contract Act—Place of Performance Unknown, if using the procedures prescribed in 22.1009-4.

22.1007 Requirement to submit Notice (SF 98/98a).

The contracting officer shall submit Standard Forms 98 and 98a (see 53.301-98 and 53.301-98a), “Notice of Intention to Make a Service Contract and Response to Notice” and “Attachment A” (both forms hereinafter referred to as “Notice”), together with any required supplemental information to the—

Administrator, Wage and Hour Division
Employment Standards Administration
U.S. Department of Labor
Washington, DC 20210

for the following service contracts:

(a) Each new solicitation and contract in excess of \$2,500.

(b) Each contract modification which brings the contract above \$2,500 and—

(1) Extends the existing contract pursuant to an option clause or otherwise; or

(2) Changes the scope of the contract whereby labor requirements are affected significantly.

(c) Each multiple year contract in excess of \$2,500 upon—

(1) Annual anniversary date if the contract is subject to annual appropriations; or

(2) Biennial anniversary date if the contract is not subject to annual appropriations and its proposed term exceeds 2 years—unless otherwise advised by the Wage and Hour Division (see 22.1008-5).

22.1008 Procedures for preparing and submitting Notice (SF 98/98a).

22.1008-1 Preparation of Notice (SF 98/98a).

The contracting officer shall complete and submit the Notice in accordance with the instructions on the SF 98 and shall supplement it with information required under this section. Care should be taken to ensure that all required information is provided to avert return without action by the Department of Labor. The contracting officer shall retain a copy of the completed Notice and any required supplementary information until the signed and dated response to the Notice is received from the Department of Labor and placed in the contract file.

22.1008-2 Preparation of SF 98a.

(a) The SF 98a shall contain the following information concerning the service employees expected to be employed by the contractor and any known subcontractors in performing the contract:

(1) All classes of service employees to be utilized.

(i) If a wage determination is to be based on a collective bargaining agreement (CBA) (see 22.1002-3 and 22.1008-3), use the exact title shown in the CBA.

(ii) For other than subdivision (a)(1)(i) of this subsection—

(A) Use the exact title shown in the Wage and Hour Division's Service Contract Act Directory of Occupations (see paragraph (b) of this subsection);

(B) Provide an appropriate job title and job description if the Directory cannot be used.

(2) The estimated number of service employees in each class; and

(3) The wage rate that would be paid each class if employed by the agency and subject to the wage provisions of 5 U.S.C. 5341 and/or 5332 (see 22.1016).

(b)(1) The Wage and Hour Division's *Service Contract Act Directory of Occupations* (Directory) contains standard job titles and definitions (descriptions) for many commonly utilized service employee occupations. Contracting officers shall use this Directory to the maximum extent possible in listing service employee classes on the SF 98a. This usage will enhance the timely issuance of comprehensive wage determinations.

(2) If the job title contained in the Directory differs from that contained in the statement of work but the job definition (description) in the Directory and the statement of work match sufficiently, the contracting officer shall use the Directory job title.

(3) The latest edition of the Directory is available for sale by the Superintendent of Documents and may be ordered by calling (202) 783-3238 or writing to—

Superintendent of Documents
U.S. Government Printing Office
Washington, DC 20402

Contracting agencies, in accordance with agency procedures, are responsible for notifying their own personnel of a new edition of the Directory.

22.1008-3 Section 4(c) successorship with incumbent contractor collective bargaining agreement.

(a) Early in the acquisition cycle, the contracting officer shall determine whether section 4(c) of the Act affects the new acquisition. The contracting officer shall determine whether there is a predecessor contract and, if so, whether the incumbent prime contractor or its subcontractors and any of their employees have a collective bargaining agreement.

(b) Section 4(c) of the Act provides that a successor contractor must pay wages and fringe benefits (including accrued wages and benefits and prospective increases) to service employees at least equal to those agreed upon by a predecessor contractor under the following conditions:

(1) The services to be furnished under the proposed contract will be substantially the same as services being furnished by an incumbent contractor whose contract the proposed contract will succeed.

(2) The services will be performed in the same locality.

(3) The incumbent prime contractor or subcontractor is furnishing such services through the use of service employees whose wages and fringe benefits are the subject of one or more collective bargaining agreements.

(c) The application of section 4(c) of the Act is subject to the following limitations:

(1) Section 4(c) of the Act will not apply if the incumbent contractor enters into a collective bargaining agreement for the first time and the agreement does not become effective until after the expiration of the incumbent's contract.

(2) If the incumbent contractor enters into a new or revised collective bargaining agreement during the period of the incumbent's performance on the current contract, the terms of the new or revised agreement shall not be effective for the purposes of section 4(c) of the Act under the following conditions:

(i)(A) In sealed bidding, the contracting agency receives notice of the terms of the collective bargaining agreement less than 10 days before bid opening and finds that there is not reasonable time still available to notify bidders (see 22.1012-3(a)); or

(B) For contractual actions other than sealed bidding, the contracting agency receives notice of the terms of the collective bargaining agreement after award, provided that the start of performance is within 30 days of award (see 22.1012-3(b)); and

(ii) The contracting officer has given both the incumbent contractor and its employees' collective bargaining agent timely written notification of the applicable acquisition dates (see 22.1010).

(d) If section 4(c) of the Act applies, the contracting officer shall obtain a copy of any collective bargaining agreement between an incumbent contractor or subcontractor and its employees. Obtaining a copy of an incumbent contractor's collective bargaining agreement may involve coordination with the administrative contracting officer responsible for administering the predecessor contract. (Paragraph (m) of the clause at 52.222-41, Service Contract Act of 1965, as amended, requires the incumbent prime contractor to furnish the contracting officer a copy of each collective bargaining agreement.) The contracting officer shall submit a copy of each collective bargaining agreement together with any related documents specifying the wage rates and fringe benefits currently or prospectively payable under each agreement with the Notice.

(e) Section 4(c) of the Act will not apply if the Secretary of Labor determines (1) after a hearing, that the wages and fringe benefits in the predecessor contractor's collective bar-

gaining agreement are substantially at variance with those which prevail for services of a similar character in the locality, or (2) that the wages and fringe benefits in the predecessor contractor's collective bargaining agreement are not the result of arm's length negotiations (see 22.1013 and 22.1021). The Department of Labor (DOL) has concluded that contingent collective bargaining agreement provisions that attempt to limit a contractor's obligations by means such as requiring issuance of a wage determination by the DOL, requiring inclusion of the wage determination in the contract, or requiring the Government to adequately reimburse the contractor, generally reflect a lack of arm's length negotiations.

(f) If the services are being furnished at more than one location and the collectively bargained wage rates and fringe benefits are different at different locations or do not apply to one or more locations, the contracting officer shall identify the locations to which the agreements apply.

(g) If the collective bargaining agreement does not apply to all service employees under the contract, the contracting officer shall separately list on the SF 98a the service employee classifications—

- (1) Subject to the collective bargaining agreement; and
- (2) Not subject to any collective bargaining agreement.

22.1008-4 Procedures when place of performance is unknown.

(See 22.1009.)

22.1008-5 Multiple-year contracts.

If the proposed contract is multiple year and is not subject to annual appropriations, the contracting officer shall furnish with the Notice a statement in writing describing the type of funding and giving the length of the performance period. Unless otherwise advised by the wage and hour division that a Notice must be filed on the annual anniversary date, the contracting officer shall submit a new Notice on each biennial anniversary date of the multiple year contract if its term is for a period in excess of 2 years.

22.1008-6 Contract modifications (options, extensions, changes in scope) and anniversary dates.

If the purpose of the Notice is to obtain a wage determination for an exercise of an option, an extension to the contract term, a change in scope (see 22.1007(b)(2)), or the anniversary date of a multiple year contract, the contracting officer shall fill in Box 2 of the SF 98 as follows:

(a) In the "Estimated solicitation date" subbox, indicate, as appropriate:

"Mod-Exercise of Option;" "Mod-Extension;" "Mod-Change in Scope;" "Annual Anniversary;" or "Biennial Anniversary;" and

(b) In the "month/day/year" subbox, indicate the date the wage determination is required.

22.1008-7 Required time of submission of Notice.

(a) If the contract action is for a recurring or known requirement, the contracting officer shall submit the Notice not less than 60 days (nor more than 120 days, except with the approval of the Wage and Hour Division) before the earlier of—

- (1) Issuance of any invitation for bids;
- (2) Issuance of any request for proposals;
- (3) Commencement of negotiations;
- (4) Issuance of modification for exercise of option, contract extension, or change in scope;
- (5) Annual anniversary date of a contract for more than 1 year subject to annual appropriations; or
- (6) Each biennial anniversary date of a contract for more than 2 years not subject to annual appropriations unless otherwise advised by the Wage and Hour Division (see 22.1008-5).

(b) If the contract action is for a nonrecurring or unknown requirement for which the advance planning described in paragraph (a) of this subsection is not feasible, the contracting officer shall submit the Notice as soon as possible, but not later than 30 days before the contracting actions in paragraph (a) of this subsection. The contracting officer should indicate on the Notice that the requirement is nonrecurring or unknown and advance planning was not feasible.

(c) If exceptional circumstances prevent timely submission, as required by paragraphs (a) and (b) of this subsection, the contracting officer shall submit the Notice and the required supplemental information with a written statement of the reason for delay as soon as practicable.

(d) In an emergency situation requiring an immediate wage determination response, the contracting officer shall, in accordance with contracting agency procedures, contact the Wage and Hour Division by telephone for guidance before submitting the Notice.

22.1009 Place of performance unknown.

22.1009-1 General.

If the place of performance is unknown, the contracting officer may use the procedures in this section. The contracting officer should first attempt to identify the specific places or geographical areas where the services might be performed (see 22.1009-2) and then may follow the procedures either in 22.1009-3 or in 22.1009-4.

22.1009-2 Attempt to identify possible places of performance.

The contracting officer should attempt to identify the specific places or geographical areas where the services might be performed. The following may indicate possible places of performance:

- (a) Locations of previous contractors and their competitors.
- (b) The solicitation mailing list.
- (c) Responses to a presolicitation notice (see 5.204).

22.1009-3 All possible places of performance identified.

(a) If the contracting officer can identify all the possible places or areas of performance (even though the actual place of performance will not be known until the successful offeror is chosen), the contracting officer, as required in 22.1008, shall submit the Notice to the Wage and Hour Division. If the number of places of performance exceeds the space available on the Notice, the contracting officer shall provide a listing by state-county-city/town in an attachment to the Notice.

(b) The Wage and Hour Division may issue a wage determination for each different geographical area of performance identified by the contracting officer, or in unusual situations it may issue a wage determination for one or more composite areas of performance. If there is a substantial number of places or areas of performance indicating the need for a wage determination for one or more composite areas of performance, the contracting officer should, before submitting the Notice, contact the Wage and Hour Division concerning the issuance of such a wage determination.

(c) If the contracting officer subsequently learns of any potential offerors in previously unidentified places before the closing date for submission of offers, the contracting officer shall follow one of the following procedures:

- (1) Continue to follow the procedures in this subsection and:
 - (i) Submit Notices for the additional places of performance to the Wage and Hour Division, and
 - (ii) Amend the solicitation to include all wage determinations and, if necessary, extend the time for submission of final offers.
- (2) Follow the procedures in 22.1009-4.

22.1009-4 All possible places of performance not identified.

If the contracting officer believes that there may be offerors interested in performing in unidentified places or areas, the contracting officer may use the following procedures:

- (a) If the contracting officer has identified possible places or areas where services might be performed, the contracting officer must submit the Notice to the Wage and Hour Division (see 22.1009-3(a) and (b)).
- (b) Include the following information in the notice of contract action (see 5.207(g)(4)):

- (1) That the place of performance is unknown.
- (2) The possible places or areas of performance for which the contracting officer has requested wage determinations.

(3) That the contracting officer will request wage determinations for additional possible places of performance if asked to do so in writing.

(4) The time and date by which requests for wage determinations for additional places must be received by the contracting officer.

(c) Insert the clause at 52.222-49, Service Contract Act—Place of Performance Unknown, in solicitations and contracts. Include the information required in the clause by subparagraphs (b)(2) and (b)(4) of this subsection. The closing date for receipt of offerors' requests for wage determinations for additional possible places of performance should allow reasonable time for potential offerors to review the solicitation and determine their interest in competing. Generally, 10 to 15 days from the date of issuance of the solicitation may be considered a reasonable period of time.

(d) The procedures in 14.304 shall apply to late receipt of offerors' requests for wage determinations for additional places of performance. However, late receipt of an offeror's request for a wage determination for additional places of performance does not preclude the offeror's competing for the proposed acquisition.

(e) If the contracting officer receives any timely requests for wage determinations for additional places of performance the contracting officer shall—

- (1) Submit Notices for the additional places of performance to the Wage and Hour Division; and
- (2) Amend the solicitation to include all wage determinations and, if necessary, extend the time for submission of final offers.

(f) If the successful offeror did not make a timely request for a wage determination and will perform in a place of performance for which the contracting officer therefore did not request a wage determination, the contracting officer shall—

- (1) Award the contract;
- (2) Request a wage determination; and
- (3) Incorporate the wage determination in the contract, retroactive to the date of contract award and with no adjustment in contract price, pursuant to the clause at 52.222-49, Service Contract—Place of Performance Unknown.

22.1010 Notification to interested parties under collective bargaining agreements.

(a) The contracting officer should determine whether the incumbent prime contractor's or its subcontractors' service employees performing on the current contract are represented by a collective bargaining agent. If there is a collective bargaining agent, the contracting officer shall give both the incumbent contractor and its employees' collective bargaining agent written notification of—

(1) The forthcoming successor contract and the applicable acquisition dates (issuance of solicitation, opening of bids, commencement of negotiations, award of contract, or start of performance, as the case may be); or

(2) The forthcoming contract modification and applicable acquisition dates (exercise of option, extension of contract, change in scope, or start of performance, as the case may be); or

(3) The forthcoming multiple year contract anniversary date (annual anniversary date or biennial date, as the case may be).

(b) This written notification must be given at least 30 days in advance of the earliest applicable acquisition date or the applicable annual or biennial anniversary date in order for the time-of-receipt limitations in paragraphs 22.1012-3(a) and (b) to apply. The contracting officer shall retain a copy of the notification in the contract file.

22.1011 Response to Notice by Department of Labor.

22.1011-1 Department of Labor action.

The Wage and Hour Division will mark, date, and sign the section of the SF 98 titled “Response to Notice” and return the signed original together with appropriate additional material (wage determination, position/classification descriptions, etc.). The Wage and Hour Division will take one of the following four actions:

(a) Issue and attach applicable wage determination(s); or

(b) Indicate that no wage determination is in effect for the locality of contract performance; or

(c) Indicate that the Service Contract Act is not applicable based on information submitted; or

(d) Return the Notice for additional information (see 22.1008-1).

22.1011-2 Requests for status or expediting of response.

Checking the status or the expediting of wage determination responses shall be made in accordance with contracting agency procedures.

22.1012 Late receipt or nonreceipt of wage determination.

22.1012-1 General.

The Wage and Hour Administrator, generally, will issue a wage determination or revision to it in response to a Notice. The contracting officer shall incorporate the determination or revision in the particular solicitation and contract for which the wage determination was sought.

22.1012-2 Response to timely submission of Notice—no collective bargaining agreement.

(a) If the contracting officer has not received a response from the Department of Labor within 60 days (or 30 days if a

nonrecurring or unknown requirement), the contracting agency shall contact the Wage and Hour Division to determine when the wage determination or revision can be expected.

(b) In sealed bidding, a revision of a wage determination shall not be effective if a collective bargaining agreement does not exist, the revision is received by the contracting agency less than 10 days before the opening of bids, and the contracting officer finds that there is not reasonable time to incorporate the revision in the solicitation.

(c) For contractual actions other than sealed bidding where a collective bargaining agreement does not exist, a revision of a wage determination received by the contracting agency after award of a new contract or a modification as specified in 22.1007(b) shall not be effective provided that the start of performance is within 30 days of the award or the specified modification. If the contract does not specify a start of performance date which is within 30 days of the award or the specified modification, and if contract performance does not commence within 30 days of the award or the specified modification, the Department of Labor shall be notified and any revision received by the contracting agency not less than 10 days before commencement of the work shall be effective.

(d) The limitations in paragraphs (b) and (c) of this subsection shall apply only if a timely Notice required in 22.1008-7(a) and (b) has been submitted.

22.1012-3 Response to timely submission of Notice—with collective bargaining agreement.

(a) In sealed bidding, a wage determination or revision based on a new or changed collective bargaining agreement shall not be effective if the contracting agency has received notice of the terms of the new or changed collective bargaining agreement less than 10 days before bid opening and the contracting officer determines that there is not reasonable time to incorporate the new or changed terms of the collective bargaining agreement in the solicitation (see 52.222-47).

(b) For contractual actions other than sealed bidding, a wage determination or revision based on a new or changed collective bargaining agreement shall not be effective if notice of the terms of the new or changed collective bargaining agreement is received by the contracting agency after award of a successor contract or a modification as specified in 22.1007(b), provided that the contract start of performance is within 30 days of the award of the contract or of the specified modification. If the contract does not specify a start of performance date which is within 30 days of the award of the contract or of the specified modification, or if contract performance does not commence within 30 days of the award of the contract or of the specified modification, any notice of the terms of a new or changed collective bargaining agreement received by the agency not less than 10 days before com-

mencement of the work shall be effective for purposes of the successor contract under section 4(c) of the Act.

(c) The limitations in paragraphs (a) and (b) of this subsection shall apply only if timely Notices and notifications required in 22.1008-7 and 22.1010 have been given.

(d) If the contracting officer has not received a response from the Department of Labor within 60 days (or 30 days if a nonrecurring or unknown requirement), the contracting agency shall contact the Wage and Hour Division to determine when the wage determination or revision can be expected. If the Department of Labor is unable to provide the wage determination or revision by the latest date needed to maintain the acquisition schedule, the solicitation/ contract action should proceed according to the following instructions:

(1) If a successorship/same locality/incumbent collective bargaining agreement situation exists, the contracting officer shall incorporate in the solicitation the wage and fringe benefit terms of the collective bargaining agreement, or the collective bargaining agreement itself, and the clause at 52.222-47, Service Contract Act (SCA) Minimum Wages and Fringe Benefits. The contracting officer may incorporate the wage and fringe benefit terms of the collective bargaining agreement, or the collective bargaining agreement itself, in other contract actions such as the exercise of options in order to facilitate price adjustments in fixed-price type contracts (but see 22.1008-3(e) and 22.1013(a)).

(2) The terms of a new or changed collective bargaining agreement, negotiated by the predecessor contractor during the period of performance of the predecessor contract, will not apply to the successor contract under the conditions set forth in paragraphs (a), (b), and (c) of this subsection.

22.1012-4 Response to late submission of Notice—no collective bargaining agreement.

If the contracting officer has not filed the Notice within the time limits in 22.1008-7, and thus has not received a response from the Department of Labor, and a successorship/same locality/incumbent collective bargaining agreement situation does not exist, the contracting officer shall contact the Wage and Hour Division to determine when the wage determination or revision can be expected. If the Department of Labor is unable to provide the wage determination or revision by the latest date needed to maintain the acquisition schedule, the contracting officer shall use the latest wage determination or revision, if any, incorporated in the existing contract. If any new or revised wage determination is received later in response to the Notice, the contracting officer shall include it in the solicitation or contract within 30 calendar days of receipt. If the contract has been awarded, the contracting officer shall equitably adjust the contract price to reflect any changed cost of performance resulting from incorporating the wage determination or revision. The Administrator, Wage and Hour Division, may require retroactive application of the

wage determination for a contractual action over \$2,500 using more than five service employees. These provisions are not intended to alter the contracting officer's responsibility to make timely submissions as required in 22.1008-7.

22.1012-5 Response to late submission of Notice—with collective bargaining agreement.

If the contracting officer has not filed the Notice within the time limits in 22.1008-7, has not received a response from the Department of Labor, and a successorship/same locality/incumbent collective bargaining agreement situation exists, the contracting officer shall contact the Wage and Hour Division to determine when the wage determination or revision can be expected. If the Department of Labor is unable to provide the wage determination or revision by the latest date needed to maintain the acquisition schedule, the contracting officer shall incorporate in the solicitation the wage and fringe benefit terms of the collective bargaining agreement, or the collective bargaining agreement itself, and the clause at 52.222-47, Service Contract Act (SCA) Minimum Wages and Fringe Benefits. If the contract has been awarded, an equitable adjustment following receipt of the wage determination or revision will not be required, since the wage determination or revision will be based on the economic terms of the collective bargaining agreement. The contracting officer may incorporate the wage and fringe benefit terms of the collective bargaining agreement, or the collective bargaining agreement itself, in other contract actions such as the exercise of options in order to facilitate price adjustments for options in fixed-price type contracts (but see 22.1008-3(e) and 22.1013(a)).

22.1013 Review of wage determination.

(a) *Based on incumbent collective bargaining agreement.*
(1) If wages, fringe benefits, or periodic increases provided for in a collective bargaining agreement vary substantially from those prevailing for similar services in the locality, the contracting officer shall immediately contact the agency labor advisor to consider instituting the procedures in 22.1021.

(1) If the contracting officer believes that an incumbent or predecessor contractor's agreement was not the result of arm's length negotiations, the contracting officer shall contact the agency labor advisor to determine appropriate action.

(b) *Based on other than incumbent collective bargaining agreement.* Upon receiving a wage determination not predicated upon a collective bargaining agreement, the contracting officer shall ascertain—

(1) If the wage determination does not conform with wages and fringe benefits prevailing for similar services in the locality; or

(2) If the wage determination contains significant errors or omissions. If either subparagraph (b)(1) or (b)(2) of this section is evident, the contracting officer shall contact the agency labor advisor to determine appropriate action.

22.1014 Delay of acquisition dates over 60 days.

If any invitation for bids, request for proposals, bid opening, or commencement of negotiation for a proposed contract for which a wage determination was provided in response to a Notice has been delayed, for whatever reason, more than 60 days from such date as indicated on the submitted Notice, the contracting officer shall, in accordance with agency procedures, contact the Wage and Hour Division for the purpose of determining whether the wage determination issued under the initial submission is still current. Any revision of a wage determination received by the contracting agency as a result of that communication, or upon discovery by the Department of Labor of a delay, shall supersede the earlier response as the wage determination applicable to the particular acquisition subject to the time frames in 22.1012-2(a) and (b).

22.1015 Discovery of errors by the Department of Labor.

If the Department of Labor discovers and determines, whether before or after a contract award, that a contracting officer made an erroneous determination that the Service Contract Act did not apply to a particular acquisition or failed to include an appropriate wage determination in a covered contract, the contracting officer, within 30 days of notification by the Department of Labor, shall include in the contract the clause at 52.222-41 and any applicable wage determination issued by the Administrator. If the contract is subject to section 10 of the Act (41 U.S.C. 358), the Administrator may require retroactive application of that wage determination. The contracting officer shall equitably adjust the contract price to reflect any changed cost of performance resulting from incorporating a wage determination or revision.

22.1016 Statement of equivalent rates for Federal hires.

(a) The statement required under the clause at 52.222-42, Statement of Equivalent Rates for Federal Hires, (see 22.1006(b)) shall set forth those wage rates and fringe benefits that would be paid by the contracting activity to the various classes of service employees expected to be utilized under the contract if 5 U.S.C. 5332 (General Schedule—white collar) and/or 5 U.S.C. 5341 (Wage Board—blue collar) were applicable.

(b) Procedures for computation of these rates are as follows:

(1) Wages paid blue collar employees shall be the basic hourly rate for each class. The rate shall be Wage Board pay schedule step two for nonsupervisory service employees and step three for supervisory service employees.

(2) Wages paid white collar employees shall be an hourly rate for each class. The rate shall be obtained by dividing the general pay schedule step one biweekly rate by 80.

(3) Local civilian personnel offices can assist in determining and providing grade and salary data.

22.1017 Notice of award.

Whenever MMS awards a service contract subject to the Act which may be in excess of \$25,000 and does not report the award to the Federal Procurement Data System, it shall furnish an original and one copy of Standard Form 99, Notice of Award of Contract (see 53.301-99) to the Wage and Hour Division, Employment Standards Administration, Department of Labor, unless it makes other arrangements with the Wage and Hour Division for notifying it of contract awards.

22.1018 Notification to contractors and employees.

The contracting officer shall take the following steps to ensure that service employees are notified of minimum wages and fringe benefits.

(a) As soon as possible after contract award, inform the contractor of the labor standards requirements of the contract relating to the Act and of the contractor's responsibilities under these requirements, unless it is clear that the contractor is fully informed.

(b) At the time of award, furnish the contractor Department of Labor Publication WH-1313, Notice to Employees Working on Government Contracts, for posting at a prominent and accessible place at the worksite before contract performance begins. The publication advises employees of the compensation (wages and fringe benefits) required to be paid or furnished under the Act and satisfies the notice requirements in paragraph (g) of the clause at 52.222-41, Service Contract Act of 1965, as amended.

(c) Attach any applicable wage determination to Publication WH-1313.

22.1019 Additional classes of service employees.

(a) If the contracting officer is aware that contract performance involves classes of service employees not included in the wage determination, the contracting officer shall require the contractor to classify the unlisted classes so as to provide a reasonable relationship (*i.e.*, appropriate level of skill comparison) between the unlisted classifications and the classifications listed in the determination (see paragraph (c) of the clause at 52.222-41, Service Contract Act of 1965, as amended). The contractor shall initiate the conforming procedure before unlisted classes of employees perform contract work. The contractor shall submit Standard Form (SF) 1444, Request For Authorization of Additional Classification and Rate. The contracting officer shall review the proposed classification and rate and promptly submit the completed SF 1444 (which must include information regarding the agreement or disagreement of the employees' representative or the employees themselves together with the agency recommendation) and all other pertinent information to the Wage and Hour Division. Within 30 days of receipt of the request, the Wage and Hour Division will (1) approve, modify, or disapprove the request when the parties are in agreement or (2) ren-

der a final determination in the event of disagreement among the parties. If the Wage and Hour Division will require more than 30 days to take action, it will notify the contracting officer within 30 days of receipt of the request that additional time is necessary.

(b) Some wage determinations will list a series of classes within a job classification family, for example, Computer Operators, level I, II, and III, or Electronic Technicians, level I, II, and III, or Clerk Typist, level I and II. Generally, level I is the lowest level. It is the entry level, and establishment of a lower level through conformance is not permissible. Further, trainee classifications may not be conformed. Helpers in skilled maintenance trades (for example, electricians, machinists, and automobile mechanics) whose duties constitute, in fact, separate and distinct jobs may also be used if listed on the wage determination, but may not be conformed. Conformance may not be used to artificially split or subdivide classifications listed in the wage determination. However, conforming procedures may be used if the work which an employee performs under the contract is not within the scope of any classification listed on the wage determination, regardless of job title. (See 29 CFR 4.152.)

(c) Subminimum rates for apprentices, student learners, and handicapped workers are permissible in accordance with paragraph (q) of the clause at 52.222-41, Service Contract Act of 1965, as amended.

22.1020 Seniority lists.

If a contract is performed at a Federal facility where employees may be hired/retained by a succeeding contractor, the incumbent prime contractor is required to furnish a certified list of all service employees on the contractor's or subcontractor's payroll during the last month of the contract, together with anniversary dates of employment, to the contracting officer no later than 10 days before contract completion. (See paragraph (n) of the clause at 52.222-41, Service Contract Act of 1965, as amended.) At the commencement of the succeeding contract, the contracting officer shall provide a copy of the list to the successor contractor for determining employee eligibility for vacation or other fringe benefits which are based upon length of service, including service with predecessor contractors if such benefit is required by an applicable wage determination.

22.1021 Request for hearing.

(a) A contracting agency or other interested party may request a hearing on an issue presented in 22.1013(a). To obtain a hearing for the contracting agency, the contracting officer shall submit a written request through appropriate channels (ordinarily the agency labor advisor) to—

Administrator, Wage and Hour Division
Employment Standards Administration

U.S. Department of Labor
Washington, DC 20210

(b) A request for a substantial variance hearing shall include sufficient data to show that the rates at issue vary substantially from those prevailing for similar services in the locality. The request shall also include—

- (1) The number of the wage determinations at issue;
- (2) The name of the contracting agency whose contract is involved;
- (3) A brief description of the services to be performed under the contract;
- (4) The status of the procurement and any estimated procurement dates, such as bid opening, contract award, and commencement date of the contract or its follow-up option period;
- (5) A statement of the applicant's case, setting forth in detail the reasons why the applicant believes that a substantial variance exists with respect to some or all of the wages and/or fringe benefits;
- (6) Names and addresses (to the extent known) of interested parties; and
- (7) Any other data required by the Administrator.

(c) A request for an arm's length hearing shall include—

- (1) A statement of the applicant's case, setting forth in detail the reasons why the applicant believes that the wages and fringe benefits contained in the collective bargaining agreement were not reached as a result of arm's length negotiations;
- (2) A statement regarding the status of the procurement and any estimated procurement dates, such as bid opening, contract award, and commencement date of the contract or its follow-up option period; and
- (3) Names and addresses (to the extent known) of interested parties.

(d) Unless the Administrator determines that extraordinary circumstances exist, the Administrator will not consider requests for a hearing unless received as follows:

- (1) For sealed bid contracts, more than 10 days before the award of the contract; or
- (2) For negotiated contracts and for contracts with provisions exceeding the initial term by option, before the commencement date of the contract or the follow-up option period.

22.1022 Withholding of contract payments.

Any violations of the clause at 52.222-41, Service Contract Act of 1965, as amended, renders the responsible contractor liable for the amount of any deductions, rebates, refunds, or underpayments (which includes nonpayment) of compensation due employees performing the contract. The contracting officer may withhold—or, upon written request of the Department of Labor from a level no lower than that of Assistant Regional Administrator, Wage and Hour Division,

Employment Standards Administration, Department of Labor, shall withhold—the amount needed to pay such underpaid employees from accrued payments due the contractor on the contract, or on any other prime contract (whether subject to the Service Contract Act or not) with the contractor. The agency shall place the amount withheld in a deposit fund. Such withheld funds shall be transferred to the Department of Labor for disbursement to the underpaid employees on order of the Secretary (or authorized representatives), and Administrative Law Judge, or the Board of Service Contract Appeals. In addition, the Department of Labor has given blanket approval to forward withheld funds pending completion of an investigation or other administrative proceeding when disposition of withheld funds remains the final action necessary to close out a contract.

22.1023 Termination for default.

As provided by the Act, any contractor failure to comply with the requirements of the contract clauses related to the Act may be grounds for termination for default (see paragraph (k) of the clause at 52.222-41, Service Contract Act of 1965, as amended).

22.1024 Cooperation with the Department of Labor.

The contracting officer shall cooperate with Department of Labor representatives in the examination of records, inter-

views with service employees, and all other aspects of investigations undertaken by the Department. When asked, agencies shall furnish the Wage and Hour Administrator or a designee, any available information on contractors, subcontractors, their contracts, and the nature of the contract services. The contracting officer shall promptly refer, in writing to the appropriate regional office of the Department, apparent violations and complaints received. Employee complaints shall not be disclosed to the employer.

22.1025 Ineligibility of violators.

A list of persons or firms found to be in violation of the Act is contained in the List of Parties Excluded from Federal Procurement and Nonprocurement Programs (see 9.404). No Government contract may be awarded to any violator so listed because of a violation of the Act, or to any firm, corporation, partnership, or association in which the violator has a substantial interest, without the approval of the Secretary of Labor. This prohibition against award to an ineligible contractor applies to both prime and subcontracts.

22.1026 Disputes concerning labor standards.

Disputes concerning labor standards requirements of the contract are handled under paragraph (t) of the contract clause at 52.222-41, Service Contract Act of 1965, as amended, and not under the clause at 52.233-1, Disputes.

Subpart 22.11—Professional Employee Compensation

22.1101 Applicability.

The Service Contract Act of 1965 was enacted to ensure that Government contractors compensate their blue-collar service workers and some white-collar service workers fairly, but it does not cover bona fide executive, administrative, or professional employees.

22.1102 Definition.

“Professional employee,” as used in this subpart, means any person meeting the definition of “employee employed in a bona fide . . . professional capacity” given in 29 CFR 541. The term embraces members of those professions having a recognized status based upon acquiring professional knowledge through prolonged study. Examples of these professions include accountancy, actuarial computation, architecture, dentistry, engineering, law, medicine, nursing, pharmacy, the sciences (such as biology, chemistry, and physics, and teaching). To be a professional employee, a person must not only

be a professional but must be involved essentially in discharging professional duties.

22.1103 Policy, procedures, and solicitation provision.

All professional employees shall be compensated fairly and properly. Accordingly, the contracting officer shall insert the provision at 52.222-46, Evaluation of Compensation for Professional Employees, in solicitations for negotiated service contracts when the contract amount is expected to exceed \$500,000 and the service to be provided will require meaningful numbers of professional employees. This provision requires that offerors submit for evaluation a total compensation plan setting forth proposed salaries and fringe benefits for professional employees working on the contract. Supporting information will include data, such as recognized national and regional compensation surveys and studies of professional, public and private organizations, used in establishing the total compensation structure. Plans indicating unrealistically low professional employees compensation may be assessed adversely as one of the factors considered in making an award.

Subpart 22.12—[Reserved]

Subpart 22.13—Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans

22.1300 Scope of subpart.

This subpart prescribes policies and procedures for implementing the Vietnam Era Veterans' Readjustment Assistance Act of 1972 (38 U.S.C. 4211 and 4212) (the Act); the regulations of the Secretary of Labor (41 CFR Part 60-250 and Part 61-250); and the Veterans Employment Opportunities Act of 1998, Public Law 105-339.

22.1301 Definition.

"United States," as used in this subpart, means the States, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, American Samoa, Guam, the Virgin Islands of the United States, and Wake Island.

22.1302 Policy.

(a) Contractors and subcontractors, when entering into contracts or subcontracts subject to the Act, must—

(1) List all employment openings, with the appropriate local employment service office except for—

(i) Executive and top management positions;

(ii) Positions to be filled from within the contractor's organization; and

(iii) Positions lasting three days or less.

(2) Take affirmative action to employ, and advance in employment, qualified special disabled veterans, veterans of the Vietnam era, and other eligible veterans without discrimination based on their disability or veteran's status.

(b) Except for contracts for commercial items or contracts that do not exceed the simplified acquisition threshold, contracting officers must not obligate or expend funds appropriated for the agency for a fiscal year to enter into a contract for the procurement of personal property and nonpersonal services (including construction) with a contractor that has not submitted a required annual Form VETS-100, Federal Contractor Veterans' Employment Report (VETS-100 Report), with respect to the preceding fiscal year if the contractor was subject to the reporting requirements of 38 U.S.C. 4212(d) for that fiscal year.

22.1303 Applicability.

(a) The Act applies to all contracts and subcontracts for personal property and nonpersonal services (including construction) of \$25,000 or more except as waived by the Secretary of Labor.

(b) The requirements of the clause at 52.222-35, Equal Opportunity for Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans, in any contract with a State or local government (or any agency, instrumen-

tality, or subdivision) do not apply to any agency, instrumentality, or subdivision of that government that does not participate in work on or under the contract.

(c) The Act requires submission of the VETS-100 Report in all cases where the contractor or subcontractor has received an award of \$25,000 or more, except for awards to State and local governments, and foreign organizations where the workers are recruited outside of the United States.

22.1304 Procedures.

To verify if a proposed contractor is current with its submission of the VETS-100 Report, the contracting officer may—

(a) Query the Department of Labor's VETS-100 Database via the Internet at <http://www.vets100.cudenver.edu/vets100search.htm> using the validation code "vets" to proceed with the search in the database; or

(b) Contact the VETS-100 Reporting Systems via e-mail at verify@vets100.com for confirmation, if the proposed contractor represents that it has submitted the VETS-100 Report and is not listed in the database.

22.1305 Waivers.

(a) The Deputy Assistant Secretary for Federal Contract Compliance Programs, Department of Labor (Deputy Assistant Secretary of Labor), may waive any or all of the terms of the clause at 52.222-35, Equal Opportunity for Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans for—

(1) Any contract if a waiver is in the national interest; or

(2) Groups or categories of contracts if a waiver is in the national interest and it is—

(i) Impracticable to act on each request individually; and

(ii) Determined that the waiver will substantially contribute to convenience in administering the Act.

(b) The head of the agency may waive any requirement in this subpart when it is determined that the contract is essential to the national security, and that its award without complying with such requirements is necessary to the national security. Upon making such a determination, the head of the agency must notify the Deputy Assistant Secretary of Labor in writing within 30 days.

(c) The contracting officer must submit requests for waivers in accordance with agency procedures.

(d) The Deputy Assistant Secretary of Labor may withdraw an approved waiver for a specific contract or group of contracts to be awarded, when in the Deputy's judgment such action is necessary to achieve the purposes of the Act. The withdrawal does not apply to awarded contracts. For procurements entered into by sealed bidding, such withdrawal does not apply unless the withdrawal is made more than 10 calendar days before the date set for the opening of bids.

22.1306 Department of Labor notices and reports.

(a) The contracting officer must furnish to the contractor appropriate notices for posting when they are prescribed by the Deputy Assistant Secretary of Labor (see http://www2.dol.gov/dol/esa/public/ofcp_org.htm).

(b) The Act requires contractors and subcontractors to submit a report at least annually to the Secretary of Labor regarding employment of special disabled veterans, veterans of the Vietnam era, and other eligible veterans unless all of the terms of the clause at 52.222-35, Equal Opportunity for Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans, have been waived (see 22.1305). The contractor and subcontractor must use Form VETS-100, Federal Contractor Veterans' Employment Report, to submit the required reports.

22.1307 Collective bargaining agreements.

If performance under the clause at 52.222-35, Equal Opportunity for Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans, may necessitate a revision of a collective bargaining agreement, the contracting officer must advise the affected labor unions that the Department of Labor will give them appropriate opportunity to present their views. However, neither the contracting officer nor any representative of the contracting officer may discuss with the contractor or any labor representative any aspect of the collective bargaining agreement.

22.1308 Complaint procedures.

Following agency procedures, the contracting office must forward any complaints received about the administration of the Act to the Veterans' Employment and Training Service of the Department of Labor, or through the local Veterans' Employment Representative or designee, at the local State employment office. The Deputy Assistant Secretary of Labor is responsible for investigating complaints.

22.1309 Actions because of noncompliance.

The contracting officer must take necessary action as soon as possible upon notification by the appropriate agency official to implement any sanctions imposed on a contractor by the Department of Labor for violations of the clause at 52.222-35, Equal Opportunity for Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans. These sanctions (see 41 CFR 60-250.66) may include—

- (a) Withholding payments;
- (b) Termination or suspension of the contract; or
- (c) Debarment of the contractor.

22.1310 Solicitation provision and contract clauses.

(a)(1) Insert the clause at 52.222-35, Equal Opportunity for Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans, in solicitations and contracts if the expected value is \$25,000 or more, except when—

- (i) Work is performed outside the United States by employees recruited outside the United States; or
- (ii) The Deputy Assistant Secretary of Labor has waived, in accordance with 22.1305(a) or the head of the agency has waived, in accordance with 22.1305(b) all of the terms of the clause.

(2) If the Deputy Assistant Secretary of Labor or the head of the agency waives one or more (but not all) of the terms of the clause, use the basic clause with its Alternate I.

(b) Insert the clause at 52.222-37, Employment Reports on Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans, in solicitations and contracts containing the clause at 52.222-35, Equal Opportunity for Special Disabled Veterans, Veterans of the Vietnam Era, and Other Eligible Veterans.

(c) Insert the provision at 52.222-38, Compliance with Veterans' Employment Reporting Requirements, in solicitations when it is anticipated the contract award will exceed the simplified acquisition threshold and the contract is not for acquisition of commercial items.

Subpart 22.14—Employment of Workers with Disabilities

22.1400 [Reserved]

22.1401 Policy.

Government contractors, when entering into contracts subject to the Act, are required to take affirmative action to employ, and advance in employment, qualified individuals with disabilities, without discrimination based on their physical or mental disability.

22.1402 Applicability.

(a) This policy applies to all Government contracts in excess of \$10,000 for supplies and services (including construction). The clause at 52.222-36, Affirmative Action for Workers with Disabilities, implements the policy.

(b) The requirements of the clause at 52.222-36, Affirmative Action for Workers with Disabilities, in any contract with a State or local government (or any agency, instrumentality, or subdivision) shall not apply to any agency, instrumentality, or subdivision of that government that does not participate in work on or under the contract.

22.1403 Waivers.

(a) The Public Printer may waive any or all of the terms of the clause at 52.222-36, Affirmative Action for Workers with Disabilities, for—

(1) Any contract if a waiver is deemed to be in the national interest; or

(2) Groups or categories of contracts if a waiver is in the national interest and it is—

(i) Impracticable to act on each request individually; and

(ii) Determined that the waiver will substantially contribute to convenience in administering the Act.

(b)(1) The Public Printer may waive any requirement in this subpart when it is determined that the contract is essential to the national security, and that its award without complying with such requirements is necessary to the national security.

(c) The contracting officer shall submit requests for waivers in accordance with agency procedures.

(d) A waiver granted for a particular class of contracts may be withdrawn for any contract within that class whenever considered necessary by the Public Printer. The withdrawal shall not apply to contracts awarded before the withdrawal. The withdrawal shall not apply to solicitations under any means of sealed bidding unless it is made more than 10 days before the date set for bid opening.

22.1404 Department of Labor notices.

The contracting officer shall furnish to the contractor appropriate notices that state the contractor's obligations and the rights of individuals with disabilities. The contracting officer may obtain these notices from the Office of Federal Contract Compliance Programs (OFCCP) regional office.

22.1405 Collective bargaining agreements.

If performance under the clause at 52.222-36, Affirmative Action for Workers with Disabilities, may necessitate a revision of a collective bargaining agreement, the contracting officer shall advise the affected labor unions that the Department of Labor will give them appropriate opportunity to present their views. However, neither the contracting officer nor any representative of the contracting officer shall discuss with the contractor or any labor representative any aspect of the collective bargaining agreement.

22.1406 [Reserved]

22.1407 Actions because of noncompliance.

The contracting officer shall take necessary action, as soon as possible upon notification by the appropriate agency official, to implement any sanctions imposed on a contractor by the Department of Labor for violations of the clause at 52.222-36, Affirmative Action for Workers with Disabilities. These sanctions (see 41 CFR 60-741.66) may include—

(a) Withholding from payments otherwise due;

(b) Termination or suspension of the contract; or

(c) Debarment of the contractor.

22.1408 Contract clause.

(a) The contracting officer shall insert the clause at 52.222-36, Affirmative Action for Workers with Disabilities, in solicitations and contracts that exceed \$10,000 or are expected to exceed \$10,000, except when—

(1) Work is to be performed outside the United States by employees recruited outside the United States (for the purpose of this subpart, "United States" includes the several states, the District of Columbia, the Virgin Islands, the Commonwealth of Puerto Rico, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and Wake Island); or

(2) The Public Printer has waived, in accordance with 22.1403(a) or 22.1403(b) all the terms of the clause.

(b) If the Public Printer waives one or more (but not all) of the terms of the clause in accordance with 22.1403(a) or 22.1403(b), use the basic clause with its Alternate I.

Subpart 22.15—Prohibition of Acquisition of Products Produced by Forced or Indentured Child Labor

22.1500 Scope.

This subpart applies to acquisitions of supplies that exceed the micro-purchase threshold.

22.1501 Definitions.

As used in this subpart—

“Forced or indentured child labor” means all work or service—

(1) Exacted from any person under the age of 18 under the menace of any penalty for its nonperformance and for which the worker does not offer himself voluntarily; or

(2) Performed by any person under the age of 18 pursuant to a contract the enforcement of which can be accomplished by process or penalties.

“List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor” means the list published by the Department of Labor in accordance with E.O. 13126 of June 12, 1999, Prohibition of Acquisition of Products Produced by Forced or Indentured Child Labor. The list identifies products, by their country of origin, that the Departments of Labor, Treasury, and State have a reasonable basis to believe might have been mined, produced, or manufactured by forced or indentured child labor.

22.1502 Policy.

MMS must take appropriate action to enforce the laws prohibiting the manufacture or importation of products that have been mined, produced, or manufactured wholly or in part by forced or indentured child labor (19 U.S.C. 1307, 29 U.S.C. 201, *et seq.*, and 41 U.S.C. 35, *et seq.*). MMS should make every effort to avoid acquiring such products.

22.1503 Procedures for acquiring end products on the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor.

(a) When issuing a solicitation for supplies expected to exceed the micro-purchase threshold, the contracting officer must check the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor (the List) (www.dol.gov/ilab/) (see 22.1505(a)). Appearance of a product on the List is not a bar to purchase of any such product mined, produced, or manufactured in the identified country, but rather is an alert that there is a reasonable basis to believe that such product may have been mined, produced, or manufactured by forced or indentured child labor.

(b) The requirements of this subpart that result from the appearance of any end product on the List do not apply to a solicitation or contract if the identified country of origin on the List is—

(1) Canada, and the anticipated value of the acquisition is \$25,000 or more (see 25.405);

(2) Israel, and the anticipated value of the acquisition is \$50,000 or more (see 25.406);

(3) Mexico, and the anticipated value of the acquisition is \$56,190 or more (see 25.405); or

(4) Aruba, Austria, Belgium, Denmark, Finland, France, Germany, Greece, Hong Kong, Iceland, Ireland, Italy, Japan, Korea, Liechtenstein, Luxembourg, Netherlands, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, or the United Kingdom and the anticipated value of the acquisition is \$169,000 or more (see 25.403(b)).

(c) Except as provided in paragraph (b) of this section, before the contracting officer may make an award for an end product (regardless of country of origin) of a type identified by country of origin on the List the offeror must certify that—

(1) It will not supply any end product on the List that was mined, produced, or manufactured in a country identified on the List for that product, as specified in the solicitation by the contracting officer in the Certification Regarding Knowledge of Child Labor for Listed End Products; or

(2)(i) It has made a good faith effort to determine whether forced or indentured child labor was used to mine, produce, or manufacture any end product to be furnished under the contract that is on the List and was mined, produced, or manufactured in a country identified on the List for that product; and

(ii) On the basis of those efforts, the offeror is unaware of any such use of child labor.

(d) Absent any actual knowledge that the certification is false, the contracting officer must rely on the offerors' certifications in making award decisions.

(e) Whenever a contracting officer has reason to believe that forced or indentured child labor was used to mine, produce, or manufacture an end product furnished pursuant to a contract awarded subject to the certification required in paragraph (c) of this section, the contracting officer must refer the matter for investigation by the agency's Inspector General, the Attorney General, or the Secretary of the Treasury, whichever is determined appropriate in accordance with agency procedures, except to the extent that the end product is from the country listed in paragraph (b) of this section, under a contract exceeding the applicable threshold.

(f) Proper certification will not prevent the head of an agency from imposing remedies in accordance with section 22.1504(a)(4) if it is later discovered that the contractor has furnished an end product or component that has in fact been mined, produced, or manufactured, wholly or in part, using forced or indentured child labor.

22.1504 Violations and remedies.

(a) “Violations.” The Government may impose remedies set forth in paragraph (b) of this section for the following vio-

lations (note that the violations in paragraphs (a)(3) and (a)(4) of this section go beyond violations of the requirements relating to certification of end products) (see 22.1503):

(1) The contractor has submitted a false certification regarding knowledge of the use of forced or indentured child labor.

(2) The contractor has failed to cooperate as required in accordance with the clause at 52.222-19, Child Labor Cooperation with Authorities and Remedies, with an investigation of the use of forced or indentured child labor by an Inspector General, the Attorney General, or the Secretary of the Treasury.

(3) The contractor uses forced or indentured child labor in its mining, production, or manufacturing processes.

(4) The contractor has furnished an end product or component mined, produced, or manufactured, wholly or in part, by forced or indentured child labor. Remedies in paragraphs (b)(2) and (b)(3) of this section are inappropriate unless the contractor knew of the violation.

(b) "Remedies." (1) The contracting officer may terminate the contract.

(2) The suspending official may suspend the contractor in accordance with the procedures in Subpart 9.4.

(3) The debarring official may debar the contractor for a period not to exceed 3 years in accordance with the procedures in GPO Instruction 110.11B.

22.1505 Solicitation provision and contract clause.

(a) Except as provided in paragraph (b) of 22.1503, insert the provision at 52.222-18, Certification Regarding Knowledge of Child Labor for Listed End Products, in all solicitations that are expected to exceed the micro-purchase threshold and are for the acquisition of end products (regardless of country of origin) of a type identified by country of origin on the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor, except solicitations for commercial items that include the provision at 52.212-3, Offeror Representations and Certifications—Commercial Items. The contracting officer must identify in paragraph (b) of the provision at 52.222-18, Certification Regarding Knowledge of Child Labor for Listed End Products, or paragraph (i)(1) of the provision at 52.212-3, any applicable end products and countries of origin from the List. For solicitations estimated to equal or exceed \$25,000, the contracting officer must exclude from the List in the solicitation end products from any countries identified at 22.1503(b), in accordance with the specified thresholds.

(b) Insert the clause at 52.222-19, Child Labor—Cooperation with Authorities and Remedies, in all solicitations and contracts for the acquisition of supplies that are expected to exceed the micro-purchase thresholds.

Subpart 23.10—[Reserved]

This page intentionally left blank.

23.000 Scope.

This part prescribes acquisition policies and procedures supporting the Government's program for ensuring a drug-free workplace and for protecting and improving the quality of the environment by—

- (a) Controlling pollution;
- (b) Managing energy and water use in Government facilities efficiently;

(c) Using renewable energy and renewable energy technologies;

(d) Acquiring energy- and water-efficient products and services, environmentally preferable products, and products that use recovered materials; and

(e) Requiring contractors to identify hazardous materials.

Subpart 23.1—[Reserved]

Subpart 23.2—Energy and Water Efficiency and Renewable Energy

23.200 Scope.

- (a) This subpart prescribes policies and procedures for—
- (1) Acquiring energy- and water-efficient products and services, and products that use renewable energy technology; and
 - (2) Using an energy-savings performance contract to obtain energy-efficient technologies at Government facilities without Government capital expense.

(b) This subpart applies to acquisitions in the United States, its possessions and territories, Puerto Rico, and the Northern Mariana Islands. Agencies conducting acquisitions outside of these areas must use their best efforts to comply with this subpart.

23.201 Authorities.

- (a) Energy Policy and Conservation Act (42 U.S.C. 6361(a)(1)) and Resource Conservation and Recovery Act of 1976 (42 U.S.C. 6901, *et seq.*).
- (b) National Energy Conservation Policy Act (42 U.S.C. 8253, 8262g, and 8287).

23.202 Policy.

The Government's policy is to acquire supplies and services that promote energy and water efficiency, advance the use of renewable energy products, and help foster markets for emerging technologies. This policy extends to all acquisitions, including those below the simplified acquisition threshold.

23.203 Energy-efficient products.

- (a) If life-cycle cost-effective and available—
- (1) When acquiring energy-using products, contracting officers must purchase ENERGY STAR® or other energy-efficient products designated by the Department of Energy's Federal Energy Management Program (FEMP); or

(2) When contracting for services that will include the provision of energy-using products, including contracts for design, construction, renovation, or maintenance of a public building, the specifications must require that the contractor provide ENERGY STAR or other energy-efficient products.

(b) Information is available via the Internet on—

- (1) ENERGY STAR® at <http://www.energystar.gov/>; and
- (2) FEMP at <http://www.eren.doe.gov/femp/procurement>.

23.204 Energy-savings performance contracts.

(a) Section 403 of Executive Order 13123 of June 3, 1999, Greening the Government through Efficient Energy Management, requires an agency to make maximum use of the authority provided in the National Energy Conservation Policy Act (42 U.S.C. 8287) to use an energy-savings performance contract (ESPC), when life-cycle cost-effective, to reduce energy use and cost in the agency's facilities and operations.

(b)(1) Under an ESPC, an agency can contract with an energy service company for a period not to exceed 25 years to improve energy efficiency in one or more agency facilities at no direct capital cost to the United States Treasury. The energy service company finances the capital costs of implementing energy conservation measures and receives, in return, a contractually determined share of the cost savings that result.

(2) Except as provided in 10 CFR 436.34, ESPC's are subject to Subpart 17.1.

(c) To solicit and award an ESPC, the contracting officer—

- (1) Must use the procedures, selection method, and terms and conditions provided in 10 CFR part 436, Subpart B; at <http://www.eren.doe.gov/femp/resources/legislation.html>; and
- (2) May use the "Qualified List" of energy service companies established by the Department of Energy and other agencies.

Subpart 23.3—Hazardous Material Identification and Material Safety Data

23.300 Scope of subpart.

This subpart prescribes policies and procedures for acquiring deliverable items, other than ammunition and explosives, that require the furnishing of data involving hazardous materials. Agencies may prescribe special procedures for ammunition and explosives.

23.301 Definition.

“Hazardous material” is defined in the latest version of Federal Standard No. 313 (Federal Standards are sold to the public and Federal agencies through—

General Services Administration
Specifications Unit (3FBP-W)
7th & D Sts. SW
Washington, DC 20407.

23.302 Policy.

(a) The Occupational Safety and Health Administration (OSHA) is responsible for issuing and administering regulations that require Government activities to apprise their employees of—

- (1) All hazards to which they may be exposed;
- (2) Relative symptoms and appropriate emergency treatment; and
- (3) Proper conditions and precautions for safe use and exposure.

(b) To accomplish this objective, it is necessary to obtain certain information relative to the hazards which may be introduced into the workplace by the supplies being acquired. Accordingly, offerors and contractors are required to submit

hazardous materials data whenever the supplies being acquired are identified as hazardous materials. The latest version of Federal Standard No. 313 (Material Safety Data Sheet, Preparation and Submission of) includes criteria for identification of hazardous materials.

(c) Hazardous material data (Material Safety Data Sheets (MSDS)) are required—

(1) As specified in the latest version of Federal Standard No. 313 (including revisions adopted during the term of the contract);

(2) For any other material designated by a Government technical representative as potentially hazardous and requiring safety controls.

(d) MSDS's must be submitted—

(1) By the apparent successful offeror prior to contract award if hazardous materials are expected to be used during contract performance.

(2) For agencies other than the Department of Defense, again by the contractor with the supplies at the time of delivery.

(e) The contracting officer shall provide a copy of all MSDS's received to the safety officer or other designated individual.

23.303 Contract clause.

(a) The contracting officer shall insert the clause at 52.223-3, Hazardous Material Identification and Material Safety Data, in solicitations and contracts if the contract will require the delivery of hazardous materials as defined in 23.301.

(b) If the contract is awarded by an agency other than the Department of Defense, the contracting officer shall use the clause at 52.223-3 with its Alternate I.

Subpart 23.4—Use of Recovered Materials

23.400 Scope of subpart.

This subpart prescribes policies and procedures for acquiring Environmental Protection Agency (EPA)-designated products through affirmative procurement programs required by the Resource Conservation and Recovery Act of 1976 (RCRA) (42 U.S.C. 6962).

23.401 Definition.

“EPA-designated product,” as used in this subpart, means a product—

- (1) That is or can be made with recovered material;
- (2) That is listed by EPA in a procurement guideline (40 CFR part 247); and
- (3) For which EPA has provided purchasing recommendations in a related Recovered Materials Advisory Notice (RMAN).

23.402 Authorities.

(a) The Resource Conservation and Recovery Act of 1976 (RCRA), 42 U.S.C. 6962, requires agencies responsible for drafting or reviewing specifications used in agency acquisitions to—

- (1) Eliminate from those specifications any requirement excluding the use of recovered materials or requiring products to be manufactured from virgin materials; and
- (2) Require, for EPA-designated products, using recovered materials to the maximum extent practicable without jeopardizing the intended end use of the item.

(b) RCRA also requires—

- (1) EPA to prepare guidelines on the availability, sources, and potential uses of recovered materials and associated products, including solid waste management services; and
- (2) Agencies to develop and implement affirmative procurement programs for EPA-designated products within 1 year after EPA's designation.

(c) Executive Order 13101 requires that the agency head—

- (1) Work to increase and expand markets for recovered materials through greater Government preference and demand for such products consistent with the demands of efficiency and cost-effectiveness; and
- (2) Develop and implement affirmative procurement programs in accordance with direction in RCRA and the Executive order.

23.403 Policy.

Government policy on the use of recovered materials considers cost, availability of competition, and performance. The objective is to acquire competitively, in a cost-effective manner, products that meet reasonable performance requirements

and that are composed of the highest percentage of recovered materials practicable.

23.404 Agency affirmative procurement programs.

(a) For EPA-designated products, an agency must establish an affirmative procurement program, if the agency's purchases meet the threshold in 23.405(a). Technical or requirements personnel and procurement personnel are responsible for the preparation, implementation, and monitoring of affirmative procurement programs. Agency affirmative procurement programs must include—

- (1) A recovered materials preference program;
- (2) An agency promotion program;
- (3) A program for requiring reasonable estimates, certification, and verification of recovered material used in the performance of contracts; and
- (4) Annual review and monitoring of the effectiveness of the program.

(b) Agency affirmative procurement programs must require that 100 percent of purchases of EPA-designated products contain recovered material, unless the item cannot be acquired—

- (1) Competitively within a reasonable time frame;
- (2) Meeting appropriate performance standards; or
- (3) At a reasonable price.

(c) Agency affirmative procurement programs must provide guidance for purchases of EPA-designated products at or below the micro-purchase threshold.

23.405 Procedures.

(a) These procedures apply to all agency acquisitions of EPA-designated products, including micro-purchases, if—

- (1) The price of the product exceeds \$10,000; or
- (2) The aggregate amount paid for products, or for functionally equivalent products, in the preceding fiscal year was \$10,000 or more. RCRA requires that an agency include micro-purchases in determining if the aggregate amount paid was \$10,000 or more. However, it is not recommended that an agency track micro-purchases unless it intends to claim an exemption from the requirement to establish an affirmative procurement program in the following fiscal year.

(b) Contracting officers should refer to EPA's list of EPA-designated products (available via the Internet at <http://www.epa.gov/cpg/>) and to their agencies' affirmative procurement programs when purchasing supplies that contain recovered material or services that could include supplies that contain recovered material.

(c) The contracting officer must place in the contract file a written justification if an acquisition of EPA-designated products above the micro-purchase threshold does not contain recovered material. If the agency has designated an Environmental Executive, the contracting officer must give a copy of the written justification to that official. The contracting

officer must base the justification on the inability to acquire the product—

- (1) Competitively within a reasonable period of time;
- (2) At reasonable prices; or
- (3) To reasonable performance standards in the specifications, provided a written determination by technical or requirements personnel of the performance standard's reasonableness is included with the justification. The technical and requirements personnel must base their determination on National Institute of Standards and Technology guidelines, if available.

(d) Agencies must establish procedures for consolidating and reporting contractor estimates required by the clause at

52.223-9, Estimate of Percentage of Recovered Material Content for EPA-Designated Products.

23.406 Solicitation provision and contract clause.

(a) Insert the provision at 52.223-4, Recovered Material Certification, in solicitations that are for, or specify the use of, recovered materials.

(b) Insert the clause at 52.223-9, Estimate of Percentage of Recovered Material Content for EPA-Designated Products, in solicitations and contracts exceeding \$100,000 that include the provision at 52.223-4. If technical personnel advise that estimates can be verified, use the clause with its Alternate I.

Subpart 23.5—[Reserved]

Subpart 23.6—Notice of Radioactive Material**23.601 Requirements.**

(a) The clause at 52.223-7, Notice of Radioactive Materials, requires the contractor to notify the contracting officer prior to delivery of radioactive material.

(b) Upon receipt of the notice, the contracting officer shall notify receiving activities so that appropriate safeguards can be taken.

(c) The clause permits the contracting officer to waive the notification if the contractor states that the notification on prior deliveries is still current. The contracting officer may waive the notice only after consultation with cognizant technical representatives.

(d) The contracting officer is required to specify in the clause at 52.223-7, the number of days in advance of delivery that the contractor will provide notification. The determination of the number of days should be done in coordination

with the installation/facility radiation protection officer (RPO). The RPO is responsible for insuring the proper license, authorization or permit is obtained prior to receipt of the radioactive material.

23.602 Contract clause.

The contracting officer shall insert the clause at 52.223-7, Notice of Radioactive Materials, in solicitations and contracts for supplies which are, or which contain— (a) radioactive material requiring specific licensing under regulations issued pursuant to the Atomic Energy Act of 1954; or (b) radioactive material not requiring specific licensing in which the specific activity is greater than 0.002 microcuries per gram or the activity per item equals or exceeds 0.01 microcuries. Such supplies include, but are not limited to, aircraft, ammunition, missiles, vehicles, electronic tubes, instrument panel gauges, compasses and identification markers.

Subpart 23.7—Contracting for Environmentally Preferable Products and Services

23.700 Scope.

This subpart prescribes policies for acquiring environmentally preferable products and services.

23.701 Definition.

“Biobased product,” as used in this subpart, means a commercial or industrial product (other than food or feed) that utilizes biological products or renewable domestic agricultural (plant, animal, and marine) or forestry materials.

23.702 Authorities.

- (a) Resource Conservation and Recovery Act (RCRA) (42 U.S.C. 6901, *et seq.*).
- (b) National Energy Conservation Policy Act (42 U.S.C. 8262g).
- (c) Pollution Prevention Act of 1990 (42 U.S.C. 13101, *et seq.*).

23.703 Policy.

MMS must—

- (a) Implement cost-effective contracting preference programs promoting energy-efficiency, water conservation, and the acquisition of environmentally preferable products and services; and
- (b) Employ acquisition strategies that affirmatively implement the following environmental objectives:
 - (1) Maximize the utilization of environmentally preferable products and services (based on EPA-issued guidance).

- (2) Promote energy-efficiency and water conservation.
- (3) Eliminate or reduce the generation of hazardous waste and the need for special material processing (including special handling, storage, treatment, and disposal).
- (4) Promote the use of nonhazardous and recovered materials.
- (5) Realize life-cycle cost savings.
- (6) Promote cost-effective waste reduction when creating plans, drawings, specifications, standards, and other product descriptions authorizing material substitutions, extensions of shelf-life, and process improvements.
- (7) Consider the use of biobased products.

23.704 Application to Government-owned or -leased facilities.

Executive Order 13101, Section 701, requires that contracts for contractor operation of a Government-owned or -leased facility and contracts for support services at a Government-owned or -operated facility include provisions that obligate the contractor to comply with the requirements of the order. Compliance includes developing programs to promote and implement cost-effective waste reduction and affirmative procurement programs required by 42 U.S.C. 6962 for all products designated in EPA's Comprehensive Procurement Guideline (40 CFR part 247).

23.705 Contract clause.

Insert the clause at 52.223-10, Waste Reduction Program, in all solicitations and contracts for contractor operation of Government-owned or -leased facilities and all solicitations and contracts for support services at Government-owned or -operated facilities.

Subpart 23.8—Ozone-Depleting Substances**23.800 Scope of subpart.**

This subpart sets forth policies and procedures for the acquisition of items which contain, use, or are manufactured with ozone-depleting substances.

23.801 Authorities.

(a) Title VI of the Clean Air Act (42 U.S.C. 7671, *et seq.*).

(b) Environmental Protection Agency (EPA) regulations, Protection of Stratospheric Ozone (40 CFR part 82).

23.802 [Reserved]**23.803 Policy.**

(a) It is the policy of the Federal Government that Federal agencies—

(1) Implement cost-effective programs to minimize the procurement of materials and substances that contribute to the depletion of stratospheric ozone; and

(2) Give preference to the procurement of alternative chemicals, products, and manufacturing processes that reduce overall risks to human health and the environment by lessening the depletion of ozone in the upper atmosphere.

(b) In preparing specifications and purchase descriptions, and in the acquisition of supplies and services, agencies shall ensure that acquisitions—

(1) Comply with the requirements of Title VI of the Clean Air Act and 40 CFR 82.84(a)(2), (3), (4), and (5); and

(2) Substitute safe alternatives to ozone-depleting substances, as identified under 42 U.S.C. 7671k, to the maximum extent practicable, as provided in 40 CFR 82.84(a)(1), except in the case of Class I substances being used for specified essential uses, as identified under 40 CFR 82.4(r).

23.804 Contract clauses.

Except for contracts to be performed outside the United States, its possessions, and Puerto Rico, the contracting officer shall insert the clause at:

(a) 52.223-11, Ozone-Depleting Substances, in solicitations and contracts for ozone-depleting substances or for supplies that may contain or be manufactured with ozone-depleting substances.

(b) 52.223-12, Refrigeration Equipment and Air Conditioners, in solicitations and contracts for services when the contract includes the maintenance, repair, or disposal of any equipment or appliance using ozone-depleting substances as a refrigerant, such as air conditioners, including motor vehicles, refrigerators, chillers, or freezers.

Subpart 23.9—Toxic Chemical Release Reporting

23.901 [Reserved]

23.902 General.

(a) The Emergency Planning and Community Right-to-Know Act of 1986 (EPCRA) and the Pollution Prevention Act of 1990 (PPA) established programs to protect public health and the environment by providing the public with important information on the toxic chemicals being released by manufacturing facilities into the air, land, and water in its communities.

(b) Under EPCRA section 313 (42 U.S.C. 11023), and PPA section 6607 (42 U.S.C. 13106), the owner or operator of certain manufacturing facilities is required to submit annual reports on toxic chemical releases and waste management activities to the Environmental Protection Agency (EPA) and the States.

23.903 Applicability.

(a) This subpart applies to all competitive contracts expected to exceed \$100,000 (including all options) and competitive 8(a) contracts.

(b) This subpart does not apply to—

(1) Acquisitions of commercial items as defined in Part 2; or

(2) Contractor facilities located outside the United States. (The United States, as used in this subpart, includes any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the United States Virgin Islands, the Northern Mariana Islands, and any other territory or possession over which the United States has jurisdiction.)

23.904 Definition.

“Toxic chemicals,” as used in this subpart, means reportable chemicals currently listed and added pursuant to EPCRA sections 313(c), (d) and (e), except for those chemicals deleted by EPA using the statutory criteria of EPCRA, sections 313(d) and (e).

23.905 Policy.

(a) It is the policy of the Government to purchase supplies and services that have been produced with a minimum adverse impact on community health and the environment.

(b) MMS, to the greatest extent practicable, shall contract with companies that report in a public manner on toxic chemicals released to the environment.

23.906 Requirements.

(a) Solicitations for competitive contracts expected to exceed \$100,000 (including all options) include, to the maxi-

imum extent practicable, as an award eligibility criterion, a certification by the offeror that, if awarded a contract, either—

(1) As the owner or operator of facilities to be used in the performance of the contract that are subject to Form R filing and reporting requirements, the offeror will file, and will continue to file throughout the life of the contract, for such facilities, the Toxic Chemical Release Inventory Form (Form R) as described in EPCRA sections 313(a) and (g) and PPA section 6607; or

(2) Facilities to be used in the performance of the contract are exempt from Form R filing and reporting requirements because the facilities—

(i) Do not manufacture, process, or otherwise use any toxic chemicals listed under section 313(c) of EPCRA, 42 U.S.C. 11023(c);

(ii) Do not have 10 or more full-time employees as specified in section 313(b)(1)(A) of EPCRA, 42 U.S.C. 11023(b)(1)(A);

(iii) Do not meet the reporting thresholds of toxic chemicals established under section 313(f) of EPCRA, 42 U.S.C. 11023(f) (including the alternate thresholds at 40 CFR 372.27, provided an appropriate certification form has been filed with EPA);

(iv) Do not fall within Standard Industrial Classification Code (SIC) major groups 20 through 39 or their corresponding North American Industry Classification System (NAICS) sectors 31 through 33; or

(v) Are not located within any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the United States Virgin Islands, the Northern Mariana Islands, or any other territory or possession over which the United States has jurisdiction.

(b) A determination that it is not practicable to include the solicitation provision at 52.223-13, Certification of Toxic Chemical Release Reporting, in a solicitation or class of solicitations shall be approved by a procurement official at a level no lower than the head of the contracting activity. Prior to making such a determination for a solicitation or class of solicitations with an estimated value in excess of \$500,000 (including all options), the agency shall consult with the Environmental Protection Agency, Director, Environmental Assistance Division, Office of Pollution Prevention and Toxic Substances (Mail Code 7408), Washington, DC 20460.

(c) Award shall not be made to offerors who do not certify in accordance with paragraph (a) of this section when the provision at 52.223-13, Certification of Toxic Chemical Release Reporting, is included in the solicitation. If facilities to be used by the offeror in the performance of the contract are not subject to Form R filing and reporting requirements and the offeror fails to check the appropriate box(es) in 52.223-13,

Certification of Toxic Chemical Release Reporting, such failure shall be considered a minor informality or irregularity.

(d) The contracting officer shall cooperate with EPA representatives and provide such advice and assistance as may be required to aid EPA in the performance of its responsibilities under E.O. 12969.

(e) EPA, upon determining that a contractor is not filing the necessary forms or is filing incomplete information, may recommend to the head of the contracting activity that the contract be terminated for convenience. The head of the contracting activity shall consider the EPA recommendation and determine if termination or some other action is appropriate.

23.907 Solicitation provision and contract clause.

Except for acquisitions of commercial items as defined in Part 2, the contracting officer shall—

(a) Insert the provision at 52.223-13, Certification of Toxic Chemical Release Reporting, in all solicitations for competitive contracts expected to exceed \$100,000 (including all options) and competitive 8(a) contracts, unless it has been determined in accordance with 23.906(b) that to do so is not practicable; and

(b) When the solicitation contains the provision at 52.223-13, Certification of Toxic Chemical Release Reporting, insert the clause at 52.223-14, Toxic Chemical Release Reporting, in the resulting contract, if the contract is expected to exceed \$100,000 (including all options).

Subpart 23.10—[Reserved]

* * * * *

PART 24—PROTECTION OF PRIVACY AND FREEDOM OF INFORMATION

Sec.

24.000 Scope of part.

Subpart 24.1—[Reserved]

Subpart 24.2—Freedom of Information Act

24.201 [Reserved]

24.202 [Reserved]

24.203 Policy.

This page intentionally left blank.

24.000 Scope of part.

Contracts of the GPO are not subject to the Privacy Act of 1974 (5 U.S.C. 552a) or the Freedom of Information Act (5

U.S.C. 552, as amended). This part establishes GPO policy for the release of procurement information to the public.

Subpart 24.1—[Reserved]

Subpart 24.2—Freedom of Information Act

24.201 [Reserved].

24.202 [Reserved]

24.203 Policy.

(a) GPO Instruction 905.3A, Policy and Procedure Concerning Public Access to Information and Records of the GPO establishes the procedures and responsibilities for the release of information.

(b) Contracting officers may receive requests for records that may be exempted from mandatory public disclosure. The exemptions most often applicable are those relating to classified information, to trade secrets and confidential commercial or financial information, to interagency or intra-agency memoranda, or to personal and medical information pertaining to an individual. Since these requests often involve complex issues requiring an in-depth knowledge of a large and increasing body of court rulings and policy guidance, contracting officers are cautioned to comply with GPO Instruction 905.3A and to obtain necessary guidance from the the Office of General Counsel.

This page intentionally left blank.

25.000 Scope of part.

This part provides policies and procedures for acquiring foreign supplies, services, and construction materials. It implements the Buy American Act, trade agreements, and other laws and regulations.

25.001 General.

(a) The Buy American Act—

(1) Restricts the purchase of supplies, that are not domestic end products, for use within the United States. A foreign end product may be purchased if the contracting officer determines that the price of the lowest domestic offer is unreasonable or if another exception applies (see Subpart 25.1); and

(2) Requires, with some exceptions, the use of only domestic construction materials in contracts for construction in the United States (see Subpart 25.2).

(b) The restrictions in the Buy American Act are not applicable in acquisitions subject to certain trade agreements (see Subpart 25.4). In these acquisitions, end products and construction materials from certain countries receive nondiscriminatory treatment in evaluation with domestic offers.

Generally, the dollar value of the acquisition determines which of the trade agreements applies. Exceptions to the applicability of the trade agreements are described in Subpart 25.4.

(c) The test to determine the country of origin for an end product under the trade agreements is different from the test to determine the country of origin for an end product under the Buy American Act (see the various country “end product” definitions in 25.003). The Buy American Act uses a two-part test to define a “domestic end product” (manufacture in the United States and a formula based on cost of domestic components). Under the trade agreements, the test to determine country of origin is “substantial transformation” (*i.e.*, transforming an article into a new and different article of commerce, with a name, character, or use distinct from the original article).

25.002 Applicability of subparts.

The following table shows the applicability of the subparts. Subpart 25.5 provides comprehensive procedures for offer evaluation and examples.

SUBPART	SUPPLIES FOR USE		CONSTRUCTION		SERVICES PERFORMED	
	INSIDE U.S.	OUTSIDE U.S.	INSIDE U.S.	OUTSIDE U.S.	INSIDE U.S.	OUTSIDE U.S.

25.003 Definitions.

As used in this part—

“Canadian end product” means an article that—

(1) Is wholly the growth, product, or manufacture of

Canada; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Canada into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to the article, provided that the value of those incidental services does not exceed that of the article itself.

“Caribbean Basin country” means any of the following countries: Antigua and Barbuda, Aruba, Bahamas, Barbados, Belize, British Virgin Islands, Costa Rica, Dominica, El Salvador, Grenada, Guatemala, Guyana, Haiti, Honduras, Jamaica, Montserrat, Netherlands Antilles, Nicaragua, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, Trinidad and Tobago.

“Caribbean Basin country end product”—

(1) Means an article that—

(i)(A) Is wholly the growth, product, or manufacture of a Caribbean Basin country; or

(B) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a Caribbean Basin country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed; and

(ii) Is not excluded from duty-free treatment for Caribbean countries under 19 U.S.C. 2703(b).

(A) For this reason, the following articles are not Caribbean Basin country end products:

(1) Tuna, prepared or preserved in any manner in airtight containers.

(2) Petroleum, or any product derived from petroleum.

(3) Watches and watch parts (including cases, bracelets, and straps) of whatever type including, but not limited to, mechanical, quartz digital, or quartz analog, if such watches or watch parts contain any material that is the product of any country to which the Harmonized Tariff Schedule of the United States (HTSUS) column 2 rates of duty apply (*i.e.*, Afghanistan, Cuba, Laos, North Korea, and Vietnam).

(4) Certain of the following: textiles and apparel articles; footwear, handbags, luggage, flat goods, work gloves, and leather wearing apparel; or handloomed, handmade, and folklore articles.

(B) Access to the HTSUS to determine duty-free status of articles of the types listed in paragraph (1)(ii)(A)(4) of this definition is available via the Internet at <http://www.customs.ustreas.gov/impoexpo/impoexpo.htm>. In particular, see the following:

(1) General Note 3(c), Products Eligible for Special Tariff treatment.

(2) General Note 17, Products of Countries Designated as Beneficiary Countries under the United States-Caribbean Basin Trade Partnership Act of 2000.

(3) Section XXII, Chapter 98, Subchapter II, Articles Exported and Returned, Advanced or Improved Abroad, U.S. Note 7(b).

(4) Section XXII, Chapter 98, Subchapter XX, Goods Eligible for Special Tariff Benefits under the United States-Caribbean Basin Trade Partnership Act; and

(2) Refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the acquisition, includes services (except transportation services) incidental to the article, provided that the value of those incidental services does not exceed that of the article itself.

“Civil aircraft and related articles” means—

(1) All aircraft other than aircraft to be purchased for use by the Department of Defense or the U.S. Coast Guard;

(2) The engines (and parts and components for incorporation into the engines) of these aircraft;

(3) Any other parts, components, and subassemblies for incorporation into the aircraft; and

(4) Any ground flight simulators, and parts and components of these simulators, for use with respect to the aircraft, whether to be used as original or replacement equipment in the manufacture, repair, maintenance, rebuilding, modification, or conversion of the aircraft and without regard to whether the aircraft or articles receive duty-free treatment under section 601(a)(2) of the Trade Agreements Act.

“Component” means an article, material, or supply incorporated directly into an end product or construction material.

“Construction material” means an article, material, or supply brought to the construction site by a contractor or subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

“Cost of components” means—

(1) For components purchased by the contractor, the acquisition cost, including transportation costs to the place of incorporation into the end product or construction material (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

(2) For components manufactured by the contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the end product.

“Customs territory of the United States” means the States, the District of Columbia, and Puerto Rico.

“Designated country” means any of the following countries:

Aruba	Kiribati
Austria	Korea, Republic of
Bangladesh	Lesotho
Belgium	Liechtenstein
Benin	Luxembourg
Bhutan	Malawi
Botswana	Maldives
Burkina Faso	Mali
Burundi	Mozambique
Canada	Nepal
Cape Verde	Netherlands
Central African Republic	Niger
Chad	Norway
Comoros	Portugal
Denmark	Rwanda
Djibouti	Sao Tome and Principe
Equatorial Guinea	Sierra Leone
Finland	Singapore
France	Somalia
Gambia	Spain
Germany	Sweden
Greece	Switzerland
Guinea	Tanzania U.R.
Guinea-Bissau	Togo
Haiti	Tuvalu
Hong Kong	Uganda
Iceland	United Kingdom
Ireland	Vanuatu
Israel	Western Samoa
Italy	Yemen
Japan	

“Designated country end product” means an article that—

(1) Is wholly the growth, product, or manufacture of a designated country; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a designated country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase

under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to the article, provided that the value of those incidental services does not exceed that of the article itself.

“Domestic construction material” means—

(1) An unmanufactured construction material mined or produced in the United States; or

(2) A construction material manufactured in the United States, if the cost of its components mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic.

“Domestic end product” means—

(1) An unmanufactured end product mined or produced in the United States; or

(2) An end product manufactured in the United States, if the cost of its components mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. Components of foreign origin of the same class or kind as those that the agency determines are not mined, produced, or manufactured in sufficient and reasonably available commercial quantities of a satisfactory quality are treated as domestic. Scrap generated, collected, and prepared for processing in the United States is considered domestic.

“Domestic offer” means an offer of a domestic end product. When the solicitation specifies that award will be made on a group of line items, a domestic offer means an offer where the proposed price of the domestic end products exceeds 50 percent of the total proposed price of the group.

“Eligible offer” means an offer of an eligible product. When the solicitation specifies that award will be made on a group of line items, an eligible offer means a foreign offer where the combined proposed price of the eligible products and the domestic end products exceeds 50 percent of the total proposed price of the group.

“Eligible product” means a foreign end product that is not subject to discriminatory treatment under the Buy American Act due to applicability of a trade agreement to a particular acquisition.

“End product” means those articles, materials, and supplies to be acquired for public use.

“Foreign construction material” means a construction material other than a domestic construction material.

“Foreign contractor” means a contractor or subcontractor organized or existing under the laws of a country other than the United States.

“Foreign end product” means an end product other than a domestic end product.

“Foreign offer” means any offer other than a domestic offer.

“Israeli end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Israel; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Israel into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed.

“Mexican end product” means an article that—

(1) Is wholly the growth, product, or manufacture of Mexico; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in Mexico into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to the article, provided that the value of those incidental services does not exceed that of the article itself.

“Noneligible offer” means an offer of a noneligible product.

“Noneligible product” means a foreign end product that is not an eligible product.

“North American Free Trade Agreement country” means Canada or Mexico.

“North American Free Trade Agreement country end product” means an article that—

(1) Is wholly the growth, product, or manufacture of a North American Free Trade Agreement (NAFTA) country; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a NAFTA country into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to the article, provided that the value of those incidental services does not exceed that of the article itself.

“Sanctioned European Union country construction” means construction to be performed in a sanctioned European Union member state.

“Sanctioned European Union country end product” means an article that—

(1) Is wholly the growth, product, or manufacture of a sanctioned European Union (EU) member state; or

(2) In the case of an article that consists in whole or in part of materials from another country, has been substantially transformed in a sanctioned EU member state into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was

transformed. The term refers to a product offered for purchase under a supply contract, but for purposes of calculating the value of the end product includes services (except transportation services) incidental to the article, provided that the value of these incidental services does not exceed that of the article itself.

“Sanctioned European Union country services” means services to be performed in a sanctioned European Union member state.

“Sanctioned European Union member state” means Austria, Belgium, Denmark, Finland, France, Ireland, Italy, Luxembourg, the Netherlands, Sweden, or the United Kingdom.

“United States” means the 50 States and the District of Columbia, U.S. territories and possessions, Puerto Rico, the Northern Mariana Islands, and any other place subject to U.S. jurisdiction, but does not include leased bases.

“U.S.-made end product” means an article that is mined, produced, or manufactured in the United States or that is substantially transformed in the United States into a new and different article of commerce with a name, character, or use distinct from that of the article or articles from which it was transformed.

Subpart 25.1—Buy American Act—Supplies

25.100 Scope of subpart.

This subpart implements the Buy American Act (41 U.S.C. 10a - 10d) and Executive Order 10582, December 17, 1954. It applies to supplies acquired for use in the United States, if—

(a) The supply contract exceeds the micro-purchase threshold; or

(b) The supply portion of a contract for services that involves the furnishing of supplies (*e.g.*, lease) exceeds the micro-purchase threshold.

25.101 General.

(a) The Buy American Act restricts the purchase of supplies that are not domestic end products. For manufactured end products, the Buy American Act uses a two-part test to define a domestic end product.

(1) The article must be manufactured in the United States; and

(2) The cost of domestic components must exceed 50 percent of the cost of all the components.

(b) The Buy American Act applies to small business set-asides. A manufactured product of a small business concern is a U.S.-made end product, but is not a domestic end product unless it meets the component test in paragraph (a)(2) of this section.

(c) Exceptions that allow the purchase of a foreign end product are listed at 25.103. The unreasonable cost exception is implemented through the use of an evaluation factor

applied to low foreign offers that are not eligible offers. The evaluation factor is not used to provide a preference for one foreign offer over another. Evaluation procedures and examples are provided in Subpart 25.5.

25.102 Policy.

Except as provided in 25.103, acquire only domestic end products for public use inside the United States.

25.103 Exceptions.

When one of the following exceptions applies, the contracting officer may acquire a foreign end product without regard to the restrictions of the Buy American Act:

(a) *Public interest.* The Public Printer may make a determination that domestic preference would be inconsistent with the public interest. This exception applies when an agency has an agreement with a foreign government that provides a blanket exception to the Buy American Act.

(b) *Nonavailability.* (1) A nonavailability determination has been made for the articles listed in 25.104.

(2)(i) The head of the contracting activity may make a determination that an article, material, or supply is not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality.

(ii) If the contracting officer considers that the non-availability of an article is likely to affect future acquisitions, the contracting officer may submit a copy of the determination and supporting documentation to the appropriate council identified in 1.201-1 in accordance with agency procedures, for possible addition to the list in 25.104.

(3) A written determination is not required if all of the following conditions are present:

(i) The acquisition was conducted through use of full and open competition.

(ii) The acquisition was synopsisized in accordance with 5.201.

(iii) No offer for a domestic end product was received.

(c) *Unreasonable cost.* The contracting officer may determine that the cost of a domestic end product would be unreasonable, in accordance with 25.105 and Subpart 25.5.

(d) *Resale.* The contracting officer may purchase foreign end products specifically for commissary resale.

25.104 Nonavailable articles.

(a) The following articles have been determined to be non-available in accordance with 25.103(b):

Acetylene, black.

Agar, bulk.

Anise.

Antimony, as metal or oxide.

Asbestos, amosite, chrysotile, and crocidolite.

Bananas.

Bauxite.

Beef, corned, canned.

Beef extract.

Bephenium hydroxynapthoate.

Bismuth.

Books, trade, text, technical, or scientific; newspapers; pamphlets; magazines; periodicals; printed briefs and films; not printed in the United States and for which domestic editions are not available.

Brazil nuts, unroasted

Cadmium, ores and flue dust.

Calcium cyanamide.

Capers.

Cashew nuts.

Castor beans and castor oil.

Chalk, English.

Chestnuts.

Chicle.

Chrome ore or chromite.

Cinchona bark.

Cobalt, in cathodes, rondelles, or other primary ore and metal forms.

Cocoa beans.

Coconut and coconut meat, unsweetened, in shredded, desiccated, or similarly prepared form.

Coffee, raw or green bean.

Colchicine alkaloid, raw.

Copra.

Cork, wood or bark and waste.

Cover glass, microscope slide.

Crane rail (85-pound per foot).

Cryolite, natural.

Dammar gum.

Diamonds, industrial, stones and abrasives.

Emetine, bulk.

Ergot, crude.

Erythrityl tetranitrate.

Fair linen, altar.

Fibers of the following types: abaca, abace, agave, coir, flax, jute, jute burlaps, palmyra, and sisal.

Goat and kidskins.

Graphite, natural, crystalline, crucible grade.

Hand file sets (Swiss pattern).

Handsewing needles.

Hemp yarn.

Hog bristles for brushes.

Hyoscine, bulk.

Ipecac, root.

Iodine, crude.

Kaurigum.

Lac.

Leather, sheepskin, hair type.

Lavender oil.
 Manganese.
 Menthol, natural bulk.
 Mica.
 Microprocessor chips (brought onto a Government construction site as separate units for incorporation into building systems during construction or repair and alteration of real property).
 Nickel, primary, in ingots, pigs, shots, cathodes, or similar forms; nickel oxide and nickel salts.
 Nitroguanidine (also known as picrite).
 Nux vomica, crude.
 Oiticica oil.
 Olive oil.
 Olives (green), pitted or unpitted, or stuffed, in bulk.
 Opium, crude.
 Oranges, mandarin, canned.
 Petroleum, crude oil, unfinished oils, and finished products.
 Pine needle oil.
 Platinum and related group metals, refined, as sponge, powder, ingots, or cast bars.
 Pyrethrum flowers.
 Quartz crystals.
 Quebracho.
 Quinidine.
 Quinine.
 Rabbit fur felt.
 Radium salts, source and special nuclear materials.
 Rosettes.
 Rubber, crude and latex.
 Rutile.
 Santonin, crude.
 Secretin.
 Shellac.
 Silk, raw and unmanufactured.
 Spare and replacement parts for equipment of foreign manufacture, and for which domestic parts are not available.
 Spices and herbs, in bulk.
 Sugars, raw.
 Swords and scabbards.
 Talc, block, steatite.
 Tantalum.
 Tapioca flour and cassava.
 Tartar, crude; tartaric acid and cream of tartar in bulk.
 Tea in bulk.
 Thread, metallic (gold).
 Thyme oil.
 Tin in bars, blocks, and pigs.
 Triprolidine hydrochloride.
 Tungsten.

Vanilla beans.
 Venom, cobra.
 Wax, carnauba.
 Wire glass.
 Woods; logs, veneer, and lumber of the following species: Alaskan yellow cedar, angelique, balsa, ekki, greenheart, lignum vitae, mahogany, and teak.
 Yarn, 50 Denier rayon.

(b) The determination in paragraph (a) of this section does not apply if the contracting officer learns before the time designated for receipt of bids in sealed bidding or final offers in negotiation that an article on the list is available domestically in sufficient and reasonably available quantities of a satisfactory quality. The contracting officer must amend the solicitation if purchasing the article, or if purchasing an end product that could contain such an article as a component, and must specify in all new solicitations that the article is available domestically and that offerors and contractors may not treat foreign components of the same class or kind as domestic components. In addition, the contracting officer must submit a copy of supporting documentation to the appropriate council identified in 1.201-1 in accordance with agency procedures, for possible removal of the article from the list.

25.105 Determining reasonableness of cost.

(a) The contracting officer—

- (1) Must use the evaluation factors in paragraph (b) of this section unless the head of the agency makes a written determination that the use of higher factors is more appropriate. If the determination applies to all agency acquisitions, the agency evaluation factors must be published in agency regulations; and
- (2) Must not apply evaluation factors to offers of eligible products if the acquisition is subject to a trade agreement under Subpart 25.4.

(b) If there is a domestic offer that is not the low offer, and the restrictions of the Buy American Act apply to the low offer, the contracting officer must determine the reasonableness of the cost of the domestic offer by adding to the price of the low offer, inclusive of duty—

- (1) 6 percent, if the lowest domestic offer is from a large business concern; or
- (2) 12 percent, if the lowest domestic offer is from a small business concern. The contracting officer must use this factor, or another factor established in agency regulations, in small business set-asides if the low offer is from a small business concern offering the product of a small business concern that is not a domestic end product (see Subpart 19.5).

(c) The price of the domestic offer is reasonable if it does not exceed the evaluated price of the low offer after addition of the appropriate evaluation factor in accordance with para-

graph (a) or (b) of this section. (See evaluation procedures at Subpart 25.5.)

**Subpart 25.2—Buy American Act—
Construction Materials**

25.200 Scope of subpart.

This subpart implements the Buy American Act (41 U.S.C. 10a - 10d) and Executive Order 10582, December 17, 1954. It applies to contracts for the construction, alteration, or repair of any public building or public work in the United States.

25.201 Policy.

Except as provided in 25.202, use only domestic construction materials in construction contracts performed in the United States.

25.202 Exceptions.

(a) When one of the following exceptions applies, the contracting officer may acquire foreign construction materials without regard to the restrictions of the Buy American Act:

(1) *Impracticable or inconsistent with public interest.* The head of the agency may determine that application of the restrictions of the Buy American Act to a particular construction material would be impracticable or would be inconsistent with the public interest. The public interest exception applies when an agency has an agreement with a foreign government that provides a blanket exception to the Buy American Act.

(2) *Nonavailability.* The head of the contracting activity may determine that a particular construction material is not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality. The determinations of nonavailability of the articles listed at 25.104(a) and the procedures at 25.104(b) also apply if any of those articles are acquired as construction materials.

(3) *Unreasonable cost.* The contracting officer concludes that the cost of domestic construction material is unreasonable in accordance with 25.204.

(b) *Determination and findings.* When a determination is made for any of the reasons stated in this section that certain foreign construction materials may be used, the contracting officer must list the excepted materials in the contract. The agency must make the findings justifying the exception available for public inspection.

(c) *Acquisitions under trade agreements.* For construction contracts with an estimated acquisition value of \$6,481,000 or more, see 25.403. If the acquisition value is \$7,304,733 or more, also see 25.405.

25.203 Preaward determinations.

(a) For any acquisition, an offeror may request from the contracting officer a determination concerning the inapplicability of the Buy American Act for specifically identified construction materials. The time for submitting the request is specified in the solicitation in paragraph (b) of either 52.225-

10 or 52.225-12, whichever applies. The information and supporting data that must be included in the request are also specified in the solicitation in paragraphs (c) and (d) of either 52.225-9 or 52.225-11, whichever applies.

(b) Before award, the contracting officer must evaluate all requests based on the information provided and may supplement this information with other readily available information.

25.204 Evaluating offers of foreign construction material.

(a) Offerors proposing to use foreign construction material other than that listed by the Government in the applicable clause at 52.225-9, paragraph (b)(2), or 52.225-11, paragraph (b)(3), or excepted under the Trade Agreements Act or NAFTA (paragraph (b)(2) of 52.225-11), must provide the information required by paragraphs (c) and (d) of the respective clauses.

(b) Unless the head of the agency specifies a higher percentage, the contracting officer must add to the offered price 6 percent of the cost of any foreign construction material proposed for exception from the requirements of the Buy American Act based on the unreasonable cost of domestic construction materials. In the case of a tie, the contracting officer must give preference to an offer that does not include foreign construction material excepted at the request of the offeror on the basis of unreasonable cost.

(c) Offerors also may submit alternate offers based on use of equivalent domestic construction material to avoid possible rejection of the entire offer if the Government determines that an exception permitting use of a particular foreign construction material does not apply.

(d) If the contracting officer awards a contract to an offeror that proposed foreign construction material not listed in the applicable clause in the solicitation (paragraph (b)(2) of 52.225-9, or paragraph (b)(3) of 52.225-11), the contracting officer must add the excepted materials to the list in the contract clause.

25.205 Postaward determinations.

(a) If a contractor requests a determination regarding the inapplicability of the Buy American Act after contract award, the contractor must explain why it could not request the determination before contract award or why the need for such determination otherwise was not reasonably foreseeable. If the contracting officer concludes that the contractor should have made the request before contract award, the contracting officer may deny the request.

(b) The contracting officer must base evaluation of any request for a determination regarding the inapplicability of the Buy American Act made after contract award on information required by paragraphs (c) and (d) of the applicable clause at 52.225-9 or 52.225-11 and/or other readily available information.

(c) If a determination, under 25.202(a), is made after contract award that an exception to the Buy American Act applies, the contracting officer must negotiate adequate consideration and modify the contract to allow use of the foreign construction material. When the basis for the exception is the unreasonable price of a domestic construction material, adequate consideration is at least the differential established in 25.202(a) or in accordance with agency procedures.

25.206 Noncompliance.

The contracting officer must—

- (a) Review allegations of Buy American Act violations;
- (b) Unless fraud is suspected, notify the contractor of the apparent unauthorized use of foreign construction material and request a reply, to include proposed corrective action; and
- (c) If the review reveals that a contractor or subcontractor has used foreign construction material without authorization, take appropriate action, including one or more of the following:
 - (1) Process a determination concerning the inapplicability of the Buy American Act in accordance with 25.205.
 - (2) Consider requiring the removal and replacement of the unauthorized foreign construction material.

(3) If removal and replacement of foreign construction material incorporated in a building or work would be impracticable, cause undue delay, or otherwise be detrimental to the interests of the Government, the contracting officer may determine in writing that the foreign construction material need not be removed and replaced. A determination to retain foreign construction material does not constitute a determination that an exception to the Buy American Act applies, and this should be stated in the determination. Further, a determination to retain foreign construction material does not affect the Government's right to suspend or debar a contractor, subcontractor, or supplier for violation of the Buy American Act, or to exercise other contractual rights and remedies, such as reducing the contract price or terminating the contract for default.

(4) If the noncompliance is sufficiently serious, consider exercising appropriate contractual remedies, such as terminating the contract for default. Also consider preparing and forwarding a report to the agency suspending or debarring official in accordance with Subpart 9.4. If the noncompliance appears to be fraudulent, refer the matter to other appropriate agency officials, such as the officer responsible for criminal investigation.

SUBPART 25.3—[RESERVED]

I Subpart 25.3—[Reserved]

SUBPART 25.4—[RESERVED]

Subpart 25.4—[Reserved]

Subpart 25.5—Evaluating Foreign Offers— Supply Contracts

25.501 General.

The contracting officer—

(a) Must apply the evaluation procedures of this subpart to each line item of an offer unless either the offer or the solicitation specifies evaluation on a group basis (see 25.503);

(b) May rely on the offeror's certification of end product origin when evaluating a foreign offer;

(c) Must identify and reject offers of end products that are prohibited or sanctioned in accordance with Subparts 25.6 and 25.7; and

(d) Must not use the Buy American Act evaluation factors prescribed in this subpart to provide a preference for one foreign offer over another foreign offer.

25.502 Application.

(a) Unless otherwise specified in agency regulations, perform the following steps in the order presented:

(1) Eliminate all offers or offerors that are unacceptable for reasons other than price; *e.g.*, nonresponsive, debarred or suspended, sanctioned (see Subpart 25.6), or a prohibited source (see Subpart 25.7).

(2) Rank the remaining offers by price.

(3) If the solicitation specifies award on the basis of factors in addition to cost or price, apply the evaluation factors as specified in this section and use the evaluated cost or price in determining the offer that represents the best value to the Government.

(b) For acquisitions subject to the Buy American Act, the following applies:

(1) If the low offer is a domestic offer, award on that offer.

(2) If the low offer is a noneligible offer and there were no domestic offers (see 25.103(b)(3)), award on the low offer.

(3) If the low offer is a noneligible offer and there is an eligible offer that is lower than the lowest domestic offer, award on the low offer. The Buy American Act provides an evaluation preference only for domestic offers.

(4) Otherwise, apply the appropriate evaluation factor provided in 25.105 to the low offer.

(i) If the evaluated price of the low offer remains less than the lowest domestic offer, award on the low offer.

(ii) If the price of the lowest domestic offer is less than the evaluated price of the low offer, award on the lowest domestic offer.

(c) *Ties.* (1) If application of an evaluation factor results in a tie between a domestic offer and a foreign offer, award on the domestic offer.

(2) If no evaluation preference was applied (*i.e.*, offers afforded nondiscriminatory treatment under the Buy American Act), resolve ties between domestic and foreign offers by a witnessed drawing of lots by an impartial individual.

(3) Resolve ties between foreign offers from small business concerns (under the Buy American Act, a small business offering a manufactured article that does not meet the definition of "domestic end product" is a foreign offer) or foreign offers from a small business concern and a large business concern in accordance with 14.408-6(a).

25.503 Group offers.

(a) If the solicitation or an offer specifies that award can be made only on a group of line items or on all line items contained in the solicitation or offer, reject the offer—

(1) If any part of the award would consist of sanctioned or prohibited end products (see Subparts 25.6 and 25.7).

(b) If an offer restricts award to a group of line items or to all line items contained in the offer, determine for each line item whether to apply an evaluation factor (see 25.504-4, Example 1).

(1) First, evaluate offers that do not specify an award restriction on a line item basis in accordance with 25.502, determining a tentative award pattern by selecting for each line item the offer with the lowest evaluated price.

(2) Evaluate an offer that specifies an award restriction against the offered prices of the tentative award pattern, applying the appropriate evaluation factor on a line item basis.

(3) Compute the total evaluated price for the tentative award pattern and the offer that specified an award restriction.

(4) Unless the total evaluated price of the offer that specified an award restriction is less than the total evaluated price of the tentative award pattern, award based on the tentative award pattern.

(c) If the solicitation specifies that award will be made only on a group of line items or all line items contained in the solicitation, determine the category of end products on the basis of each line item, but determine whether to apply an evaluation factor on the basis of the group of items (see 25.504-4, Example 2).

(1) If the proposed price of domestic end products exceeds 50 percent of the total proposed price of the group, evaluate the entire group as a domestic offer. Evaluate all other groups as foreign offers.

(2) For foreign offers, if the proposed price of domestic end products and eligible products exceeds 50 percent of the total proposed price of the group, evaluate the entire group as an eligible offer.

(3) Apply the evaluation factor to the entire group in accordance with 25.502.

25.504 Evaluation examples.

The following examples illustrate the application of the evaluation procedures in 25.502 and 25.503. The examples assume that the contracting officer has eliminated all offers that are unacceptable for reasons other than price or a trade agreement (see 25.502(a)(1)). The evaluation factor may change as provided in agency regulations.

25.504-1 Buy American Act.

(a)(1) *Example 1.*

Offer A \$12,000 Domestic end product, small business
 Offer B \$11,700 Domestic end product, small business
 Offer C \$10,000 U.S.-made end product (not domestic), small business

(2) *Analysis:* This acquisition is for end products for use in the United States. The Buy American Act applies. Perform the steps in 25.502(a). Offer C is evaluated as a foreign end product because it is the product of a small business, but is not a domestic end product (see 25.502(c)(4)). Since Offer B is a domestic offer, apply the 12 percent factor to Offer C (see 25.105(b)(2)). The resulting evaluated price of \$11,200 remains lower than Offer B. The cost of Offer B is therefore unreasonable (see 25.105(c)). Award on Offer C at \$10,000 (see 25.502(c)(4)(i)).

(b)(1) *Example 2.*

Offer A \$11,000 Domestic end product, small business
 Offer B \$10,700 Domestic end product, small business
 Offer C \$10,200 U.S.-made end product (not domestic), small business

(2) *Analysis:* This acquisition is for end products for use outside the United States. The Buy American Act applies. Perform the steps in 25.502(a). Offer C is evaluated as a foreign end product because it is the product of a small business but is not a domestic end product (see 25.502(c)(4)). After applying the 12 percent factor, the evaluated price of Offer C is \$11,424. Award on Offer B at \$10,700 (see 25.502(c)(4)(ii)).

25.504-2 [Reserved]

25.504-3 [Reserved]

25.504-4 Group award basis.

Key:

DO = Domestic end product
 EL = Eligible product
 NEL = Noneligible product

(a) *Example 1.*

OFFERS			
ITEM	A	B	C
1	DO = \$55,000	EL = \$56,000	NEL = \$50,000
2	NEL = 13,000	EL = 10,000	EL = 13,000
3	NEL = 11,500	DO = 12,000	DO = 10,000
4	NEL = 24,000	EL = 28,000	NEL = 22,000
5	DO = <u>18,000</u>	NEL = <u>10,000</u>	DO = <u>14,000</u>
	\$121,500	\$116,000	\$109,000

Problem: Offeror C specifies all-or-none award. Assume all offerors are large businesses. The Trade Agreements Act does not apply.

Analysis: (see 25.503)

STEP 1: Evaluate Offers A & B before considering Offer C and determine which offer has the lowest evaluated cost for each line item (the tentative award pattern):

Item 1: Low offer A is domestic; select A.

Item 2: Low offer B is eligible; do not apply factor; select B.

Item 3: Low offer A is noneligible and Offer B is a domestic offer. Apply a 6 percent factor to Offer A. The evaluated price of Offer A is higher than Offer B; select B.

Item 4: Low offer A is noneligible. Since neither offer is a domestic offer, no evaluation factor applies; select A.

Item 5: Low offer B is noneligible; apply a 6 percent factor to Offer B. Offer A is still higher than Offer B; select B.

STEP 2: Evaluate Offer C against the tentative award pattern for Offers A and B:

OFFERS			
ITEM	LOW OFFER	TENTATIVE AWARD PATTERN FROM A AND B	C
1	A	DO = \$ 55,000	NEL = \$53,000*
2	B	EL = 10,000	EL = 13,000
3	B	DO = 12,000	DO = 10,000
4	A	NEL = 24,000	EL = 22,000
5	B	NEL = <u>10,600*</u>	DO = <u>14,000</u>
		\$111,600	\$112,000

*Offer + 6 percent.

On a line item basis, apply a factor to any noneligible offer if the other offer for that line item is domestic.

For Item 1, apply a factor to Offer C because Offer A is domestic and the acquisition was not subject to the Trade Agreements Act. The evaluated price of Offer C, Item 1, becomes \$53,000 (\$50,000 plus 6 percent). Apply a factor to Offer B, Item 5, because it is a noneligible product and Offer C is domestic. The evaluated price of Offer B is \$10,600 (\$10,000 plus 6 percent). Evaluate the remaining items without applying a factor.

STEP 3: The tentative unrestricted award pattern from Offers A and B is lower than the evaluated price of Offer C. Award the combination of Offers A and B. Note that if Offer C had not specified all-or-none award, award would be made on Offer C for line items 1, 3, and 4, totaling an award of \$82,000.

(b) Example 2.

OFFERS			
ITEM	A	B	C
1	DO = \$50,000	EL = \$50,500	NEL = \$50,000
2	NEL = 10,300	NEL = 10,000	EL = 10,200
3	EL = 20,400	EL = 21,000	NEL = 20,200
4	DO = <u>10,500</u>	DO = <u>10,300</u>	DO = <u>10,400</u>
	\$91,200	\$91,800	\$90,800

Problem: The solicitation specifies award on a group basis. Assume the Buy American Act applies. All offerors are large businesses.

Analysis: (see 25.503(c))

STEP 1: Determine which of the offers are domestic (see 25.503(c)(1)):

	DOMESTIC%	DETERMINATION
A	60,500/91,200 = 66.3%	Domestic
B	10,300/91,800 = 11.2%	Foreign
C	10,400/90,800 = 11.5%	Foreign

STEP 2: Determine whether foreign offers are eligible or noneligible offers (see 25.503(c)(2)):

	DOMESTIC + ELIGIBLE%	DETERMINATION
A	N/A	Domestic
B	81,800/91,800 = 89.1%	Eligible
C	20,600/90,800 = 22.7%	Noneligible

STEP 3: Determine whether to apply an evaluation factor (see 25.503(c)(3)). The low offer (Offer C) is a foreign offer. There is no eligible offer lower than the domestic offer. Therefore, apply the factor to the low offer. Addition of the 6 percent factor (use 12 percent if Offer A is a small business) to Offer C yields an evaluated price of \$96,248 (\$90,800 + 6 percent).

FAC 2001-07 MAY 15, 2002

25.504-4

MATERIALS MANAGEMENT ACQUISITION REGULATION

Award on Offer A (see 25.502(c)(4)(ii)). Note that, if Offer A were greater than Offer B, an evaluation factor would not be applied and award would be on Offer C (see 25.502(c)(3)).

SUBPART 25.6—[RESERVED]

Subpart 25.6—[Reserved]

Subpart 25.7—Prohibited Sources

25.701 Restrictions.

(a)(1) The Government generally does not acquire supplies or services that cannot be imported lawfully into the United States. Therefore, except as provided in paragraph (a)(2) of this section, even for overseas use, agencies and their contractors and subcontractors must not acquire any supplies or services originating from sources within, or that were located in or transported from or through—

- (i) Cuba (31 CFR part 515);
- (ii) Iran (31 CFR part 560);
- (iii) Iraq (31 CFR part 575);
- (iv) Libya (31 CFR part 550);
- (v) North Korea (31 CFR part 500);
- (vi) Sudan (31 CFR part 538);
- (vii) (Territory of Afghanistan controlled by the Taliban (Executive Order 13129 of July 4, 1999, Blocking Property and Prohibiting Transactions With the Taliban); or
- (viii) Serbia, excluding the territory of Kosovo (Executive Order 13121 of April 30, 1999, Blocking Property of the Governments of the Federal Republic of Yugoslavia (Serbia and Montenegro), the Republic of Serbia, and the Republic of Montenegro, and Prohibiting Trade Transactions

Involving the Federal Republic of Yugoslavia (Serbia and Montenegro) in Response to the Situation in Kosovo).

(2)(i) Unless agency procedures require a higher level of approval, the contracting officer may, in unusual circumstances, acquire for use outside the United States supplies and services restricted in paragraph (a)(1) of this section. Examples of unusual circumstances are an emergency or when the supplies or services are not otherwise available and a substitute is not acceptable.

(ii) The contracting officer must provide documentation in the contract file whenever this exception is used.

(b) Agencies and their contractors and subcontractors must not acquire any supplies or services from entities controlled by the Government of Iraq or other specially designated nationals (31 CFR Chapter V, Appendix A).

25.702 Source of further information.

Refer questions concerning the restrictions in 25.701 to the—

Department of the Treasury
Office of Foreign Assets Control
Washington, DC 20220
(Telephone (202) 622-2520).

Subpart 25.8—Other International Agreements and Coordination**25.801 General.**

Treaties and agreements between the United States and foreign governments affect the evaluation of offers from foreign entities and the performance of contracts in foreign countries.

25.802 Procedures.

(a) When placing contracts with contractors located outside the United States, for performance outside the United States, contracting officers must—

(1) Determine the existence and applicability of any international agreements and ensure compliance with these agreements; and

(2) Conduct the necessary advance acquisition planning and coordination between the appropriate U.S. executive agencies and foreign interests as required by these agreements.

(b) The Department of State publishes many international agreements in the “United States Treaties and Other International Agreements” series. Copies of this publication normally are available in overseas legal offices and U.S. diplomatic missions.

(c) Contracting officers must award all contracts with Taiwanese firms or organizations through the American Institute of Taiwan (AIT). AIT is under contract to the Department of State.

Subpart 25.9—Customs and Duties

25.900 Scope of subpart.

This subpart provides policies and procedures for exempting from import duties certain supplies purchased under Government contracts.

25.901 Policy.

United States laws impose duties on foreign supplies imported into the customs territory of the United States. Certain exemptions from these duties are available to Government agencies. Agencies must use these exemptions when the anticipated savings to appropriated funds will outweigh the administrative costs associated with processing required documentation.

25.902 Procedures.

For regulations governing importations and duties, see the Customs Regulations issued by the U.S. Customs Service, Department of the Treasury (19 CFR Chapter 1). Except as provided elsewhere in the Customs Regulations (see 19 CFR 10.100), all shipments of imported supplies purchased under Government contracts are subject to the usual Customs entry

and examination requirements. Unless the agency obtains an exemption (see 25.903), those shipments are also subject to duty.

25.903 Exempted supplies.

(a) Subchapters VIII and X of Chapter 98 of the Harmonized Tariff Schedule of the United States (19 U.S.C. 1202) list supplies for which exemptions from duty may be obtained when imported into the customs territory of the United States under a Government contract. For certain of these supplies, the contracting agency must certify to the Commissioner of Customs that they are for the purpose stated in the Harmonized Tariff Schedule (see 19 CFR 10.102-104, 10.114, and 10.121 and 15 CFR part 301 for requirements and formats).

(b) Supplies (excluding equipment) for Government-operated vessels or aircraft may be withdrawn from any customs-bonded warehouse, from continuous customs custody elsewhere than in a bonded warehouse, or from a foreign-trade zone, free of duty and internal revenue tax as provided in 19 U.S.C. 1309 and 1317. The contracting activity must cite this authority on the appropriate customs form when making purchases (see 19 CFR 10.59 - 10.65).

Subpart 25.10—Additional Foreign Acquisition Regulations

25.1001 Waiver of right to examination of records.

(a) *Policy.* The clause at 52.215-2, Audit and Records—Negotiation, prescribed at 15.209(b), and paragraph (d) of the clause at 52.212-5, Contract Terms and Conditions Required to Implement Statutes or Executive Orders—Commercial Items, prescribed at 12.301(b)(4), implement 10 U.S.C. 2313 and 41 U.S.C. 254d. The basic clauses authorize examination of records by the Comptroller General.

(1) Insert the appropriate basic clause, whenever possible, in negotiated contracts with foreign contractors.

(2) The contracting officer may use 52.215-2 with its Alternate III or 52.212-5 with its Alternate I after—

(i) Exhausting all reasonable efforts to include the basic clause;

(ii) Considering factors such as alternate sources of supply, additional cost, and time of delivery; and

(iii) The head of the agency has executed a determination and findings in accordance with paragraph (b) of this section, with the concurrence of the Comptroller General. However, concurrence of the Comptroller General is not required if the contractor is a foreign government or agency thereof or is precluded by the laws of the country involved from making its records available for examination.

(b) *Determination and findings.* The determination and findings must—

(1) Identify the contract and its purpose, and identify if the contract is with a foreign contractor or with a foreign government or an agency of a foreign government;

(2) Describe the efforts to include the basic clause;

(3) State the reasons for the contractor's refusal to include the basic clause;

(4) Describe the price and availability of the supplies or services from the United States and other sources; and

(5) Determine that it will best serve the interest of the United States to use the appropriate alternate clause in paragraph (a)(2) of this section.

25.1002 Use of foreign currency.

(a) Unless an international agreement or the Trade Agreements Act (see 25.408(a)(3)) requires a specific currency, contracting officers must determine whether solicitations for contracts to be entered into and performed outside the United States will require submission of offers in U.S. currency or a specified foreign currency. In unusual circumstances, the contracting officer may permit submission of offers in other than a specified currency.

(b) To ensure a fair evaluation of offers, solicitations generally should require all offers to be priced in the same currency. However, if the solicitation permits submission of offers in other than a specified currency, the contracting officer must convert the offered prices to U.S. currency for evaluation purposes. The contracting officer must use the current market exchange rate from a commonly used source in effect as follows:

(1) For acquisitions conducted using sealed bidding procedures, on the date of bid opening.

(2) For acquisitions conducted using negotiation procedures—

(i) On the date specified for receipt of offers, if award is based on initial offers; otherwise

(ii) On the date specified for receipt of final proposal revisions.

(c) If a contract is priced in foreign currency, the agency must ensure that adequate funds are available to cover currency fluctuations to avoid a violation of the Anti-Deficiency Act (31 U.S.C. 1341, 1342, 1511-1519).

Subpart 25.11—Solicitation Provisions and Contract Clauses

25.1101 Acquisition of supplies.

The following provisions and clauses apply to the acquisition of supplies and the acquisition of services involving the furnishing of supplies.

(a) Insert the clause at 52.225-1, Buy American Act—Supplies, in solicitations and contracts with a value exceeding \$2,500 (\$15,000 for acquisitions as described in 13.201(g)) but not exceeding \$25,000; and in solicitations and contracts with a value exceeding \$25,000, if none of the clauses prescribed in paragraphs (b) and (c) of this section apply, except if—

- (i) The solicitation is restricted to domestic end products in accordance with Subpart 6.3;
- (ii) The acquisition is for supplies for use within the United States and an exception to the Buy American Act applies (e.g., nonavailability or public interest); or
- (iii) The acquisition is for supplies for use outside the United States.

(a) Insert the clause at 52.225-8, Duty-Free Entry, in solicitations and contracts for supplies that may be imported into the United States and for which duty-free entry may be obtained in accordance with 25.903(a), if the value of the acquisition—

- (1) Exceeds \$100,000; or
- (2) Is \$100,000 or less, but the savings from waiving the duty is anticipated to be more than the administrative cost of waiving the duty. When used for acquisitions valued at \$100,000 or less, the contracting officer may modify paragraphs (b)(1) and (i)(2) of the clause to reduce the dollar figure.

25.1102 Acquisition of construction.

(a) Insert the clause at 52.225-9, Buy American Act—Construction Materials, in solicitations and contracts for construction that is performed in the United States valued at less than \$6,481,000.

- (1) List in paragraph (b)(2) of the clause all foreign construction material excepted from the requirements of the Buy American Act.
- (2) If the head of the agency determines that a higher percentage is appropriate, substitute the higher evaluation percentage in paragraph (b)(3)(i) of the clause.

(b) Insert the provision at 52.225-10, Notice of Buy American Act Requirement—Construction Materials, in solicitations containing the clause at 52.225-9.

25.1103 Other provisions and clauses.

(a) *Restrictions on certain foreign purchases.* Insert the clause at 52.225-13, Restrictions on Certain Foreign Purchases, in solicitations and contracts with a value exceeding \$2,500 (\$15,000 for acquisitions as described in 13.201(g)), unless an exception applies (see 25.701(a)(2)).

(b) *Translations.* Insert the clause at 52.225-14, Inconsistency Between English Version and Translation of Contract, in solicitations and contracts if anticipating translation into another language.

(c) *Sanctions.* (1) Except as provided in paragraph (c)(2) of this section, insert the clause at—

- (i) 52.225-15, Sanctioned European Union Country End Products, in solicitations and contracts for supplies valued at less than \$169,000; or
- (ii) 52.225-16, Sanctioned European Union Country Services, in solicitations and contracts for services—
 - (A) Listed in 25.601(a)(3)(i); or
 - (B) Valued at less than \$169,000.

(2) Do not insert the clauses in paragraph (c)(1) of this section in—

- (i) Solicitations issued and contracts awarded by—
 - (A) A contracting activity located outside of the United States, provided the supplies will be used or the services will be performed outside of the United States; or
 - (B) The Department of Defense;
- (ii) Purchases at or below the simplified acquisition threshold awarded using simplified acquisition procedures;
- (iii) Total small business set-asides;
- (iv) Contracts in support of U.S. national security interests;
- (v) Contracts for essential spare, repair, or replacement parts available only from sanctioned EU member states; or
- (vi) Contracts for which the head of the agency has made a determination in accordance with 25.602(b).

(d) *Foreign currency offers.* Insert the provision at 52.225-17, Evaluation of Foreign Currency Offers, in solicitations that permit the use of other than a specified currency. Insert in the provision the source of the rate to be used in the evaluation of offers.

PART 26—OTHER SOCIOECONOMIC PROGRAMS

Sec.

Subpart 26.1—Indian Incentive Program		Subpart 26.2—Disaster or Emergency Assistance Activities		
26.100	Scope of subpart.	26.200	Scope of subpart.	
26.101	Definitions.	26.201	Policy.	
26.102	Policy.			
26.103	Procedures.			
26.104	Contract clause.			
			Subpart 26.3—[Reserved]	

This page intentionally left blank.

Subpart 26.1—Indian Incentive Program

26.100 Scope of subpart.

This subpart implements 25 U.S.C. 1544, which provides an incentive to prime contractors that use Indian organizations and Indian-owned economic enterprises as subcontractors.

26.101 Definitions.

As used in this subpart—

“Indian” means any person who is a member of any Indian tribe, band, group, pueblo, or community that is recognized by the Federal Government as eligible for services from the Bureau of Indian Affairs (BIA) in accordance with 25 U.S.C. 1452(c) and any “Native” as defined in the Alaska Native Claims Settlement Act (43 U.S.C. 1601).

“Indian organization” means the governing body of any Indian tribe or entity established or recognized by the governing body of an Indian tribe for the purposes of 25 U.S.C., chapter 17.

“Indian-owned economic enterprise” means any Indian-owned (as determined by the Secretary of the Interior) commercial, industrial, or business activity established or organized for the purpose of profit, provided that Indian ownership constitutes not less than 51 percent of the enterprise.

“Indian tribe” means any Indian tribe, band, pueblo, or community, including native villages and native groups (including corporations organized by Kenai, Juneau, Sitka, and Kodiak) as defined in the Alaska Native Claims Settlement Act, that is recognized by the Federal Government as eligible for services from BIA in accordance with 25 U.S.C. 1452(c).

“Interested party” means a prime contractor or an actual or prospective offeror whose direct economic interest would be affected by the award of a subcontract or by the failure to award a subcontract.

26.102 Policy.

Indian organizations and Indian-owned economic enterprises shall have the maximum practicable opportunity to participate in performing contracts awarded by Federal agencies. In fulfilling this requirement, the Indian Incentive Program allows an incentive payment equal to 5 percent of the amount paid to a subcontractor in performing the contract, if the contract so authorizes and the subcontractor is an Indian organization or Indian-owned economic enterprise.

26.103 Procedures.

(a) Contracting officers and prime contractors, acting in good faith, may rely on the representation of an Indian organization or Indian-owned economic enterprise as to its eligibility, unless an interested party challenges its status or the

contracting officer has independent reason to question that status.

(b) In the event of a challenge to the representation of a subcontractor, the contracting officer shall refer the matter to the—

U.S. Department of the Interior
Bureau of Indian Affairs (BIA)
Attn: Chief, Division of Contracting and Grants
Administration
1849 C Street, NW
MS-2626-MIB
Washington, DC 20240-4000.

The BIA will determine the eligibility and notify the contracting officer.

(c) The BIA will acknowledge receipt of the request from the contracting officer within 5 working days. Within 45 additional working days, BIA will advise the contracting officer, in writing, of its determination.

(d) The contracting officer will notify the prime contractor upon receipt of a challenge.

(1) To be considered timely, a challenge shall—

- (i) Be in writing;
- (ii) Identify the basis for the challenge;
- (iii) Provide detailed evidence supporting the claim;

and

(iv) Be filed with and received by the contracting officer prior to award of the subcontract in question.

(2) If the notification of a challenge is received by the prime contractor prior to award, it shall withhold award of the subcontract pending the determination by BIA, unless the prime contractor determines, and the contracting officer agrees, that award must be made in order to permit timely performance of the prime contract.

(3) Challenges received after award of the subcontract shall be referred to BIA, but the BIA determination shall have prospective application only.

(e) If the BIA determination is not received within the prescribed time period, the contracting officer and the prime contractor may rely on the representation of the subcontractor.

(f) Subject to the terms and conditions of the contract and the availability of funds, contracting officers shall authorize an incentive payment of 5 percent of the amount paid to the subcontractor. Contracting officers shall seek funding in accordance with agency procedures.

26.104 Contract clause.

Contracting officers may insert the clause at 52.226-1, Utilization of Indian Organizations and Indian-Owned Economic Enterprises, in solicitations and contracts if—

(a) In the opinion of the contracting officer, subcontracting possibilities exist for Indian organizations or Indian-owned economic enterprises; and

(b) Funds are available for any increased costs as described in paragraph (b)(2) of the clause at 52.226-1.

Subpart 26.2—Disaster or Emergency Assistance Activities

26.200 Scope of subpart.

This subpart implements 42 U.S.C. 5150, which provides a preference for local organizations, firms, and individuals when contracting for major disaster or emergency assistance activities (see 6.302-5).

26.201 Policy.

(a) When contracting under this subpart for major disaster or emergency assistance activities, such as debris clearance,

distribution of supplies, or reconstruction, preference shall be given, to the extent feasible and practicable, to those organizations, firms, or individuals residing or doing business primarily in the area affected by such major disaster or emergency.

(b) The authority to provide preference under this subpart applies only to those acquisitions, including those which do not exceed the simplified acquisition threshold, conducted during the term of a major disaster or emergency declaration made by the President of the United States under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121, *et seq.*).

Subpart 26.3—[Reserved]

27.000 Scope of part.

This part prescribes policies, procedures, and contract clauses pertaining to patents and directs agencies to develop coverage for Rights in Data and Copyrights.

Subpart 27.1—General**27.101 [Reserved]****27.102 [Reserved]****27.103 Policy.**

The policies pertaining to patents, data, and copyrights are set forth in this Part 27 and the related clauses in Part 52.

27.104 General guidance.

(a) The Government encourages the maximum practical commercial use of inventions made while performing Government contracts.

(b) Generally, the Government will not refuse to award a contract on the grounds that the prospective contractor may infringe a patent.

(c) Generally, the Government encourages the use of inventions in performing contracts and, by appropriate contract clauses, authorizes and consents to such use, even

though the inventions may be covered by U.S. patents and indemnification against infringement may be appropriate.

(d) Generally, the Government should be indemnified against infringement of U.S. patents resulting from performing contracts when the supplies or services acquired under the contracts normally are or have been sold or offered for sale by any supplier to the public in the commercial open market or are the same as such supplies or services with relatively minor modifications.

(e) The Government acquires supplies or services on a competitive basis in accordance with Part 6, but it is important that the efforts directed toward full and open competition not improperly demand or use data relating to private developments.

(f) The Government honors the rights in data resulting from private developments and limits its demands for such rights to those essential for Government purposes.

(g) The Government honors rights in patents, data, and copyrights, and complies with the stipulations of law in using or acquiring such rights.

(h) Generally, the Government requires that contractors obtain permission from copyright owners before including privately-owned copyrighted works in data required to be delivered under Government contracts.

Subpart 27.2—Patents

27.200 Scope of subpart.

This subpart prescribes policy with respect to—

- (a) Patent infringement liability resulting from work performed by or for the Government;
- (b) Royalties payable in connection with performing Government contracts; and
- (c) Security requirements covering patent applications containing classified subject matter filed by contractors.

27.201 Authorization and consent.

27.201-1 General.

(a) In those cases where the Government has authorized or consented to the manufacture or use of an invention described in and covered by a patent of the United States, any suit for infringement of the patent based on the manufacture or use of the invention by or for the United States by a contractor (including a subcontractor at any tier) can be maintained only against the Government in the U.S. Claims Court and not against the contractor or subcontractor (28 U.S.C. 1498). To ensure that work by a contractor or subcontractor under a Government contract may not be enjoined by reason of patent infringement, the Government shall give authorization and consent in accordance with this regulation. The liability of the Government for damages in any such suit against it may, however, ultimately be borne by the contractor or subcontractor in accordance with the terms of any patent indemnity clause also included in the contract, and an authorization and consent clause does not detract from any patent indemnification commitment by the contractor or subcontractor. Therefore, both a patent indemnity clause and an authorization and consent clause may be included in the same contract.

(b) The contracting officer shall not include in any solicitation or contract—

- (1) Any clause whereby the Government expressly agrees to indemnify the contractor against liability for patent infringement; or
- (2) Any authorization and consent clause when both complete performance and delivery are outside the United States, its possessions, and Puerto Rico.

27.201-2 Clauses on authorization and consent.

(a) The contracting officer shall insert the clause at 52.227-1, Authorization and Consent, in solicitations and contracts (including those for construction; architect-engineer services; dismantling, demolition, or removal of improvements; and noncommon carrier communication services), except when using simplified acquisition

procedures or both complete performance and delivery are outside the United States, its possessions, and Puerto Rico. Although the clause is not required when simplified acquisition procedures are used, it may be used with them.

(b) The contracting officer shall insert the clause with its Alternate I in all R&D solicitations and contracts (including those for construction and architect-engineer services calling exclusively for R&D work or exclusively for experimental work), unless both complete performance and delivery are outside the United States, its possessions, and Puerto Rico. When a proposed contract involves both R&D work and supplies or services, and the R&D work is the primary purpose of the contract, the contracting officer shall use this alternate. In all other proposed contracts involving both R&D work and supplies or services, the contracting officer shall use the basic clause. Also, when a proposed contract involves either R&D or supplies and materials, in addition to construction or architect-engineer work, the contracting officer shall use the basic clause.

(c) If the solicitation or contract is for communication services with a common carrier and the services are unregulated and not priced by a tariff schedule set by a regulatory body, the contracting officer shall use the clause with its Alternate II.

27.202 Notice and assistance.

27.202-1 General.

The contractor is required to notify the contracting officer of all claims of infringement that come to the contractor's attention in connection with performing a Government contract. The contractor is also required, when requested, to assist the Government with any evidence and information in its possession in connection with any suit against the Government, or any claims against the Government made before suit has been instituted, on account of any alleged patent or copyright infringement arising out of or resulting from the contract performance.

27.202-2 Clause on notice and assistance.

The contracting officer shall insert the clause at 52.227-2, Notice and Assistance Regarding Patent and Copyright Infringement, in supply, service, or research and development solicitations and contracts (including construction and architect-engineer contracts) which anticipate a contract value above the simplified acquisition threshold, except when complete performance and delivery are outside the United States, its possessions, and Puerto Rico, unless the contracts indicate that the supplies or other deliverables are ultimately to be shipped into one of those areas.

27.203 Patent indemnification of Government by contractor.

27.203-1 General.

(a) To the extent set forth in this section, the Government requires reimbursement for liability for patent infringement arising out of or resulting from performing construction contracts or contracts for supplies or services that normally are or have been sold or offered for sale by any supplier to the public in the commercial open market or that are the same as such supplies or services with relatively minor modifications. Appropriate clauses for indemnification of the Government are prescribed in the following subsections.

(b) A patent indemnity clause shall not be used in the following situations:

(1) When the clause at 52.227-1, Authorization and Consent, with its Alternate I, is included in the contract, except that in contracts calling also for supplies of the kind described in paragraph (a) of this subsection, a patent indemnity clause may be used solely with respect to such supplies.

(2) When the contract is for supplies or services (or such items with relatively minor modifications) that clearly are not or have not been sold or offered for sale by any supplier to the public in the commercial open market. However, a patent indemnity clause may be included in (i) sealed bid contracts to obtain an indemnity regarding specific components, spare parts, or services so sold or offered for sale (see 27.203-2(b)), and (ii) contracts to be awarded (either by sealed bidding or negotiation) if a patent owner contends that the acquisition would result in patent infringement and the prospective contractor, after responding to a solicitation that did not contain an indemnity clause, is willing to indemnify the Government against such infringement either—

(A) Without increase in price on the basis that the patent is invalid or not infringed, or

(B) For other good reasons.

(3) When both performance and delivery are to be outside the United States, its possessions, and Puerto Rico, unless the contract indicates that the supplies or other deliverables are ultimately to be shipped into one of those areas.

(4) When the contract is awarded using simplified acquisition procedures.

(5) When the contract is solely for architect-engineer work (see Part 36).

27.203-2 Clauses for sealed bid contracts (excluding construction).

(a) Except when prohibited by 27.203-1(b), the contracting officer shall insert the clause at 52.227-3, Patent Indemnity, in sealed bid contracts for supplies or services (excluding construction and dismantling, demolition, and removal of improvements), if the contracting officer determines that the supplies or services (or such items with rela-

tively minor modifications) normally are or have been sold or offered for sale by any supplier to the public in the commercial open market. Also, the clause may be included as authorized in 27.203-1(b)(2)(i).

(b) In solicitations and contracts (excluding those for construction) that call in part for specific components, spare parts, or services (or such items with relatively minor modifications) that normally are or have been sold or offered for sale by any supplier to the public in the commercial open market, the contracting officer may use the clause with its Alternate I or II, as appropriate. The choice between Alternate I (identification of excluded items) and Alternate II (identification of included items) should be based upon simplicity, Government administrative convenience and ease of identification of the items.

(c) In solicitations and contracts for communication services and facilities where performance is by a common carrier, and the services are unregulated and are not priced by a tariff schedule set by a regulatory body, use the basic clause with its Alternate III.

27.203-3 Negotiated contracts (excluding construction).

A patent indemnity clause is not required in negotiated contracts, (except construction contracts covered at 27.203-5), but may be used as discussed in 27.203-4. A decision to omit a patent indemnity clause in a negotiated fixed-price contract described in this subsection should be based on a price consideration to the Government for forgoing the indemnification rights normally received by commercial purchasers of the same supplies or services.

27.203-4 Clauses for negotiated contracts (excluding construction).

(a) The contracting officer may insert the clause at 52.227-3, Patent Indemnity—

(1) As authorized in 27.203-1(b)(2)(ii); and

(2) Except as prohibited by 27.203-1(b), in solicitations anticipating negotiated contracts (and such contracts) for supplies or services (excluding construction and dismantling, demolition, and removal of improvements), if the contracting officer determines that the supplies or services (or such items with relatively minor modifications) normally are or have been sold or offered for sale by any supplier to the public in the commercial open market. Ordinarily, the contracting officer, in consultation with the prospective contractor, should be able to determine whether the supplies or services being purchased normally are or have been sold or offered for sale by any supplier to the public in the commercial open market. (For negotiated construction contracts, see 27.203-5.)

(b) In solicitations and contracts that call in part for specific components, spare parts, or services (or such items with relatively minor modifications) that normally are or have

been sold or offered for sale by any supplier to the public in the commercial open market, the contracting officer may use the clause with its Alternate I or II, as appropriate. The choice between Alternate I (identification of excluded items) and Alternate II (identification of included items) should be based upon simplicity, Government administrative convenience, and the ease of identification of the items.

(c) In solicitations and contracts for communication services and facilities where performance is by a common carrier, and the services are unregulated and are not priced by a tariff schedule set by a regulatory body, the clause shall be used with its Alternate III.

27.203-5 Clause for construction contracts and for dismantling, demolition, and removal of improvements contracts.

Except as prohibited by 27.203-1(b), the contracting officer shall insert the clause at 52.227-4, Patent Indemnity—Construction Contracts, in solicitations and contracts for construction or that are fixed-price for dismantling, demolition, or removal of improvements. If it is determined that the construction will necessarily involve the use of structures, products, materials, equipment, processes, or methods that are nonstandard, noncommercial, or special, the contracting officer may expressly exclude them from the patent indemnification by using the basic clause with its Alternate I.

27.203-6 Clause for Government waiver of indemnity.

If, in the Government's interest, it is appropriate to exempt one or more specific United States patents from the patent indemnity clause, the contracting officer shall obtain written approval from the agency head or designee and shall insert the clause at 52.227-5, Waiver of Indemnity, in solicitations and contracts in addition to the appropriate patent indemnity clause. The contracting officer shall document the contract file with a copy of the written approval.

27.204 Reporting of royalties—anticipated or paid.

27.204-1 General.

(a)(1) To determine whether royalties anticipated or actually paid under Government contracts are excessive, improper, or inconsistent with any Government rights in particular inventions, patents, or patent applications, contracting officers shall require prospective contractors to furnish certain royalty information and shall require contractors to furnish certain royalty reports. Contracting officers shall take appropriate action to reduce or eliminate excessive or improper royalties.

(2) Royalty information shall not be required (except for information under 27.204-3) in sealed bid contracts unless the need for such information is approved at a level above that of the contracting officer as being necessary for proper protection of the Government's interests.

(b) Any solicitation that may result in a negotiated contract for which royalty information is desired or for which cost or pricing data is obtained (see 15.403) should contain a provision requesting information relating to any proposed charge for royalties. If the response to a solicitation includes a charge for royalties, the contracting officer shall, before award of the contract, forward the information relating to the proposed payments of royalties to the office having cognizance of patent matters for the contracting activity concerned. The cognizant office shall promptly advise the contracting officer of appropriate action. Before award, the contracting officer shall take action to protect the Government's interest with respect to such royalties, giving due regard to all pertinent factors relating to the proposed contract and the advice of the cognizant office.

(c) The contracting officer, when considering the approval of a subcontract, shall require and obtain the same royalty information and take the same action with respect to such subcontracts in relation to royalties as required for prime contracts under paragraph (b) of this subsection. However, consent need not be withheld pending receipt of advice in regard to such royalties from the office having cognizance of patent matters.

(d) The contracting officer shall forward the royalty information and/or royalty reports received to the office having cognizance of patent matters for the contracting activity concerned for advice as to appropriate action.

27.204-2 Solicitation provision for royalty information.

The contracting officer shall insert a solicitation provision substantially as shown in 52.227-6, Royalty Information, in any solicitation that may result in a negotiated contract for which royalty information is desired or for which cost or pricing data is obtained under 15.403. If the solicitation is for communication services and facilities by a common carrier, use the provision with its Alternate I.

27.204-3 Patents—notice of Government as a licensee.

(a) When the Government is obligated to pay a royalty on a patent because of a license agreement between the Government and a patent owner and the contracting officer knows (or has reason to believe) that the licensed patent will be applicable to a prospective contract, the Government should furnish information relating to the royalty to prospective offerors since it serves the interest of both the Government and the offerors. In such situations, the contracting officer should include in the solicitation a notice of the license, the number of the patent, and the royalty rate recited in the license.

(b) When the Government is obligated to pay such a royalty, the solicitation should also require offerors to furnish information indicating whether or not each offeror is a licensee under the patent or the patent owner. This information is necessary so that the Government may either—

(1) Evaluate an offeror's price by adding an amount equal to the royalty; or

(2) Negotiate a price reduction with an offeror-licensee when the offeror is licensed under the same patent at a lower royalty rate.

(c) If the Government is obligated to pay a royalty on a patent involved in the prospective contract, the contracting officer shall insert in the solicitation, substantially as shown, the provision at 52.227-7, Patents—Notice of Government Licensee.

27.205 Adjustment of royalties.

(a) If at any time the contracting officer has reason to believe that any royalties paid, or to be paid, under an existing or prospective contract or subcontract are inconsistent with Government rights, excessive, or otherwise improper, the facts shall be promptly reported to the office having cognizance of patent matters for the contracting activity concerned. The cognizant office shall review the royalties thus reported and such royalties as are reported under 27.204 and 27.206 and, in accordance with agency procedures, shall either recommend appropriate action to the contracting officer or, if authorized, shall take appropriate action.

(b) In coordination with the cognizant office, the contracting officer shall promptly act to protect the Government against payment of royalties on supplies or services—

(1) With respect to which the Government has a royalty-free license;

(2) At a rate in excess of the rate at which the Government is licensed; or

(3) When the royalties in whole or in part otherwise constitute an improper charge.

(c) In appropriate cases, the contracting officer in coordination with the cognizant office shall obtain a refund pursuant to any refund of royalties clause in the contract (see 27.206) or negotiate for a reduction of royalties.

(d) For guidance in evaluating information furnished pursuant to 27.204 and 27.205(a), see 31.205-37 and 31.311-34. See also 31.109 regarding advance understandings on particular cost items, including royalties.

27.206 Refund of royalties.

27.206-1 General.

When a fixed-price contract is negotiated under circumstances that make it questionable whether or not substantial amounts of royalties will have to be paid by the contractor or a subcontractor, such royalties may be included in the target

or contract price, provided the contract specifies that the Government will be reimbursed the amount of such royalties if they are not paid. Such circumstances might include, for example, either a pending Government anti-trust action or prospective litigation on the validity of a patent or patents or on the enforceability of an agreement (upon which the contractor or subcontractor bases the asserted obligation) to pay the royalties to be included in the target or contract price.

27.206-2 Clause for refund of royalties.

The contracting officer shall insert the clause at 52.227-9, Refund of Royalties, in negotiated fixed-price contracts and solicitations contemplating such contracts if the contracting officer determines that circumstances make it questionable whether or not substantial amounts of royalties will have to be paid by the contractor or a subcontractor at any tier.

27.207 Classified contracts.

27.207-1 General.

(a) Unauthorized disclosure of classified subject matter, whether in patent applications or resulting from the issuance of a patent, may be a violation of 18 U.S.C. 792, *et seq.* (Espionage and Censorship), and related statutes, and may be contrary to the interests of national security.

(b) Upon receipt from the contractor of a patent application, not yet filed, that has been submitted by the contractor in compliance with paragraph (a) or (b) of the clause at 52.227-10, Filing of Patent Applications—Classified Subject Matter, the contracting officer shall ascertain the proper security classification of the patent application. Upon a determination that the application contains classified subject matter, the contracting officer shall inform the contractor of any instructions deemed necessary or advisable relating to transmittal of the application to the United States Patent Office in accordance with procedures in the National Industrial Security Program Operating Manual. If the material is classified "Secret" or higher, the contracting officer shall make every effort to notify the contractor of the determination within 30 days, pursuant to paragraph (a) of the clause.

(c) In the case of all applications filed under the provisions of this section 27.207, the contracting officer, upon receiving the application serial number, the filing date, and the information furnished by the contractor under paragraph (d) of the clause at 52.227-10, Filing of Patent Applications—Classified Subject Matter, shall promptly submit that information to personnel having cognizance of patent matters in order that the steps necessary to ensure the security of the application may be taken.

(d) A request for the approval referred to in paragraph (c) of the clause at 52.227-10, Filing of Patent Applications—Classified Subject Matter, must be considered and acted

upon promptly by the contracting officer to avoid the loss of valuable patent rights of the Government or the contractor.

27.207-2 Clause for classified contracts.

The contracting officer shall insert the clause at 52.227-10, Filing of Patent Applications—Classified Subject Matter, in all classified solicitations and contracts and in all solicitations and contracts where the nature of the work or classified subject matter involved in the work reasonably might be expected to result in a patent application containing classified subject matter.

27.208 Use of patented technology under the North American Free Trade Agreement.

(a) The requirements of this section apply to the use of technology covered by a valid patent when the patent holder is from a country that is a party to the North American Free Trade Agreement (NAFTA).

(b) Article 1709(10) of NAFTA generally requires a user of technology covered by a valid patent to make a reasonable effort to obtain authorization prior to use of the patented technology. However, NAFTA provides that this requirement for authorization may be waived in situations of national emergency or other circumstances of extreme urgency, or public noncommercial use.

(c) Section 6 of Executive Order 12889 of December 27, 1993, waives the requirement to obtain advance authorization for—

(1) An invention used or manufactured by or for the Federal Government, except that the patent owner must be notified whenever the agency or its contractor, without making a patent search, knows or has demonstrable reasonable grounds to know that an invention described in and covered by a valid U.S. patent is or will be used or manufactured without a license; and

(2) The existence of a national emergency or other circumstances of extreme urgency, except that the patent owner must be notified as soon as it is reasonably practicable to do so.

(d) Section 6(c) of Executive Order 12889 provides that the notice to the patent owner does not constitute an admission of infringement of a valid privately-owned patent.

(e) When addressing issues regarding compensation for the use of patented technology, Government personnel should be advised that NAFTA uses the term “adequate remuneration.” Executive Order 12889 equates “remuneration” to “reasonable and entire compensation” as used in 28 U.S.C. 1498, the statute which gives jurisdiction to the U.S. Court of Federal Claims to hear patent and copyright cases involving infringement by the U.S. Government.

(f) Depending on agency procedures, either the technical/requiring activity or the contracting officer shall ensure compliance with the notice requirements of NAFTA Article 1709(10). A contract award should not be suspended pending notification to the right holder.

(g) When questions arise regarding the notice requirements or other matters relating to this section, the contracting officer should consult with legal counsel.

27.209 Use of patented technology under the General Agreement on Tariffs and Trade (GATT).

(a) Article 31 of Annex 1C, Agreement on Trade-Related Aspects of Intellectual Property Rights, to GATT (Uruguay Round) addresses situations where the law of a member country allows for use of a patent without authorization from the patent holder, including use by the Government.

(b) The contracting officer should consult with legal counsel regarding questions under this section.

Subpart 27.3—Patent Rights under Government Contracts

27.300 Scope of subpart.

This subpart prescribes policies, procedures, and contract clauses with respect to inventions made in the performance of work under a Government contract or subcontract thereunder if a purpose of the contract or subcontract is the conduct of experimental, developmental, or research work, except to the extent statutory requirements necessitate different agency policies, procedures, and clauses as specified in agency supplemental regulations.

27.301 Definitions.

As used in this subpart—

“Invention” means any invention or discovery that is or may be patentable or otherwise protectable under title 35 of the U.S. Code or any novel variety of plant that is or may be protectable under the Plant Variety Protection Act (7 U.S.C. 2321, *et seq.*).

“Made” when used in relation to any invention, means the conception or first actual reduction to practice of such invention.

“Nonprofit organization” means a university or other institution of higher education or an organization of the type described in section 501(c)(3) of the Internal Revenue Code of 1954 (26 U.S.C. 501(c)) and exempt from taxation under section 501(a) of the Internal Revenue Code (26 U.S.C. 501(a)), or any nonprofit scientific or educational organization qualified under a State nonprofit organization statute.

“Practical application” means to manufacture, in the case of a composition or product; to practice, in the case of a process or method; or to operate, in the case of a machine or system; and, in each case, under such conditions as to establish that the invention is being utilized and that its benefits are, to the extent permitted by law or Government regulations, available to the public on reasonable terms.

“Small business firm” means a small business concern as defined at 15 U.S.C. 632 and implementing regulations of the Administrator of the Small Business Administration. (For the purpose of this definition, the size standard contained in 13 CFR 121.3-8 for small business contractors and in 13 CFR 121.3-12 for small business subcontractors will be used. See MMAR Part 19.)

“Subject invention” means any invention of the contractor conceived or first actually reduced to practice in the performance of work under a Government contract; provided, that in the case of a variety of plant, the date of determination defined in section 41(d) of the Plant Variety Protection Act, 7 U.S.C. 2401(d), must also occur during the period of contract performance.

27.302 Policy.

(a) *Introduction.* The policy of this section is based on Chapter 18 of title 35, U.S.C. (Pub. L. 95-517, Pub. L. 98-620, 37 CFR part 401), the Presidential Memorandum on Government Patent Policy to the Heads of Executive Departments and Agencies dated February 18, 1983, and Executive Order 12591, which provides that, to the extent permitted by law, the head of each agency shall promote the commercialization, in accord with the Presidential Memorandum, of patentable results of federally funded research by granting to all contractors, regardless of size, the title to patents made in whole or in part with Federal funds, in exchange for royalty-free use by or on behalf of the Government. The objectives of this policy are to use the patent system to promote the utilization of inventions arising from federally supported research or development; to encourage maximum participation of industry in federally supported research and development efforts; to ensure that these inventions are used in a manner to promote free competition and enterprise; to promote the commercialization and public availability of the inventions made in the United States by United States industry and labor; to ensure that the Government obtains sufficient rights in federally supported inventions to meet the needs of the Government and protect the public against non-use or unreasonable use of inventions; and, to minimize the costs of administering policies in this area.

(b) *Contractor right to elect title.* Under the policy set forth in paragraph (a) of this section, each contractor may, after disclosure to the Government as required by the patent rights clause included in the contract, elect to retain title to any invention made in the performance of work under the contract. To the extent an agency's statutory requirements necessitate a different policy, or different procedures and/or contract clauses to effectuate the policy set forth in paragraph (a) of this section, such policy, procedures, and clauses shall be contained in or expressly referred to in that agency's supplement to this subpart. In addition, a contract may provide otherwise—

(1) When the contractor is not located in the United States or does not have a place of business located in the United States or is subject to the control of a foreign-government (see 27.303(c));

(2) In exceptional circumstances when it is determined by the agency that restriction or elimination of the right to retain title in any subject invention will better promote the policy and objectives of Chapter 18 of title 35, U.S.C. and the Presidential Memorandum;

(3) When it is determined by a Government authority which is authorized by statute or Executive order to conduct foreign intelligence or counterintelligence activities that the restriction or elimination of the right to retain title to any subject invention is necessary to protect the security of such activities; or

(4) When the contract includes the operation of a Government-owned, contractor-operated facility of the Department of Energy primarily dedicated to the Department's naval nuclear propulsion or weapons related programs and all funding agreement limitations under 35 U.S.C. 202(a)(iv) for agreements with small business firms and nonprofit organizations are limited to inventions occurring under the above two programs.

In the case of small business firms and nonprofit organizations, when an agency justifies and exercises the exception at paragraph (b)(2) of this section on the basis of national security, the contract shall provide the contractor with the right to elect ownership to any invention made under such contract as provided by the clause at 52.227-11, Patent Rights—Retention by the Contractor (Short Form), if the invention is not classified by the agency within 6 months of the date it is reported to the agency, or within the same time period the Department of Energy (DOE) does not, as authorized by regulation, law or Executive order or implementing regulations thereto, prohibit unauthorized dissemination of the invention. Contracts in support of DOE's naval nuclear propulsion program are exempted from this paragraph. When a contract involves a series of separate task orders, an agency may apply the exceptions at paragraph (b)(2) or (3) of this section to individual task orders, and it may structure the contract so that modified patent rights clauses will apply to the task order even though the clause at 52.227-11 is applicable to the remainder of the work. In those instances when the Government has the right to acquire title at the time of contracting, the contractor may, nevertheless, request greater rights to an identified invention (see 27.304-1(a)). The right of the contractor to retain title shall, in any event, be subject to the provisions of paragraphs (c) through (g) of this section.

(c) *Government license.* The Government shall have at least a nonexclusive, nontransferable, irrevocable, paid-up license to practice, or have practiced for or on behalf of the United States, any subject invention throughout the world; and may, if provided in the contract (see Alternate I of the applicable patent rights clause), have additional rights to sublicense any foreign government or international organization pursuant to existing treaties or agreements identified in the contract, or to otherwise effectuate such treaties or agreements. In the case of long term contracts, the contract may also provide (see Alternate II) such rights with respect to treaties or agreements to be entered into by the Government after the award of the contract.

(d) *Government right to receive title.* (1) The Government has the right to receive title to any invention if the contract so provides pursuant to a determination made in accordance with paragraph (b)(1), (2), (3), or (4) of this section. In addition, to the extent provided in the patent rights clause, the Government has the right to receive title to an invention—

(i) If the contractor has not disclosed the invention within the time specified in the clause;

(ii) In any country where the contractor does not elect to retain rights or fails to elect to retain rights to the invention within the time specified in the clause;

(iii) In any country where the contractor has not filed a patent application within the time specified in the clause;

(iv) In any country where the contractor decides not to continue prosecution of a patent application, pay maintenance fees, or defend in a reexamination or opposition proceeding on the patent; and/or

(v) In any country where the contractor no longer desires to retain title.

(2) For the purposes of this paragraph, election or filing in a European Patent Office Region or under the Patent Cooperation Treaty constitutes election or filing in any country covered therein to meet the times specified in the clause, provided that the Government has the right to receive title in those countries not subsequently designated by the contractor.

(e) *Utilization reports.* The Government shall have the right to require periodic reporting on the utilization or efforts at obtaining utilization that are being made by the contractor or its licensees or assignees. Such reporting by small business firms and nonprofit organizations may be required in accordance with instructions as may be issued by the Department of Commerce. Agencies should protect the confidentiality of utilization reports which are marked with restrictions to the extent permitted by 35 U.S.C. 205 or other applicable laws and 37 CFR part 401. Agencies shall not disclose such utilization reports to persons outside the Government without permission of the contractor. Contractors will continue to provide confidential markings to help prevent inadvertent release outside the agency.

(f) *March-in rights.* (1) With respect to any subject invention in which a contractor has acquired title, contracts provide that the agency shall have the right (unless provided otherwise in accordance with 27.304-1(f)) to require the contractor, an assignee, or exclusive licensee of a subject invention to grant a nonexclusive, partially exclusive, or exclusive license in any field of use to a responsible applicant or applicants, upon terms that are reasonable under the circumstances, and if the contractor, assignee, or exclusive licensee refuses such request, to grant such a license itself, if the agency determines that such action is necessary—

(i) Because the contractor or assignee has not taken, or is not expected to take within a reasonable time, effective steps to achieve practical application of the subject invention in such field of use;

(ii) To alleviate health or safety needs which are not reasonably satisfied by the contractor, assignee, or their licensees;

(iii) To meet requirements for public use specified by Federal regulations and such requirements are not reasonably satisfied by the contractor, assignee, or licensees; or

(iv) Because the agreement required by paragraph (g) of this section has neither been obtained nor waived, or because a licensee of the exclusive right to use or sell any subject invention in the United States is in breach of its agreement obtained pursuant to paragraph (g) of this section.

(2) This right of the agency shall be exercised only after the contractor has been provided a reasonable time to present facts and show cause why the proposed agency action should not be taken, and afforded an opportunity to take appropriate action if the contractor wishes to dispute or appeal the proposed action, in accordance with 27.304-1(g).

(g) *Preference for United States industry.* Unless provided otherwise in accordance with 27.304-1(f), contracts provide that no contractor which receives title to any subject invention and no assignee of any such contractor shall grant to any person the exclusive right to use or sell any subject invention in the United States unless such person agrees that any products embodying the subject invention or produced through the use of the subject invention will be manufactured substantially in the United States. However, in individual cases, the requirement for such an agreement may be waived by the agency upon a showing by the contractor or assignee that reasonable but unsuccessful efforts have been made to grant licenses on similar terms to potential licensees that would be likely to manufacture substantially in the United States or that under the circumstances domestic manufacture is not commercially feasible.

(h) *Small business preference.* (1) Nonprofit organization contractors are expected to use efforts that are reasonable under the circumstances to attract small business licensees. They are also expected to give small business firms that meet the standard outlined in the clause at 52.227-11, Patent Rights—Retention by the Contractor (Short Form), a preference over other applicants for licenses. What constitutes reasonable efforts to attract small business licensees will vary with the circumstances and the nature, duration, and expense of efforts needed to bring the invention to the market. Paragraph (k)(4) of the clause is not intended, for example, to prevent nonprofit organizations from providing larger firms with a right of first refusal or other options in inventions that relate to research being supported under long-term or other arrangements with larger companies. Under such circumstances, it would not be reasonable to seek and to give a preference to small business licensees.

(i) *Minimum rights to contractor.* (1) When the Government acquires title to a subject invention, the contractor is normally granted a revocable, nonexclusive, royalty-free license to that invention throughout the world. The contractor's license extends to its domestic subsidiaries and affili-

ates, if any, within the corporate structure of which the contractor is a part and includes the right to grant sublicenses of the same scope to the extent the contractor was legally obligated to do so at the time the contract was awarded. The license is transferable only with the approval of the contracting officer except when transferred to the successor of that part of the contractor's business to which the invention pertains.

(2) The contractor's domestic license may be revoked or modified to the extent necessary to achieve expeditious practical application of the subject invention pursuant to an application for an exclusive license submitted in accordance with the applicable provisions in the Federal Property Management Regulations and agency licensing regulations. This license will not be revoked in that field of use or the geographical areas in which the contractor has achieved practical application and continues to make the benefits of the invention reasonably accessible to the public. The license in any foreign country may be revoked or modified to the extent the contractor, its licensees, or its domestic subsidiaries or affiliates have failed to achieve practical application in that country. See the procedures at 27.304-1(e).

(j) *Confidentiality of inventions.* The publication of information disclosing an invention by any party before the filing of a patent application may create a bar to a valid patent. Accordingly, 35 U.S.C. 205 and 37 CFR part 40 provide that Federal agencies are authorized to withhold from disclosure to the public information disclosing any invention in which the Federal Government owns or may own a right, title, or interest (including a nonexclusive license) for a reasonable time in order for a patent application to be filed. Furthermore, Federal agencies shall not be required to release copies of any document which is part of an application for patent filed with the United States Patent and Trademark Office or with any foreign patent office. The Presidential Memorandum on Government Patent Policy specifies that agencies should protect the confidentiality of invention disclosures and patent applications required in performance or in consequence of awards to the extent permitted by 35 U.S.C. 205 or other applicable laws.

27.303 Contract clauses.

In contracts (and solicitations therefor) for experimental, developmental, or research work (but see 27.304-3 regarding contracts for construction work or architect-engineer services), a patent rights clause shall be inserted as follows:

(a)(1) The contracting officer shall insert the clause at 52.227-11, Patent Rights—Retention by the Contractor (Short Form), if all the following conditions apply:

(i) The contractor is a small business concern or nonprofit organization as defined in 27.301 or, any other type of contractor.

(ii) No alternative patent rights clause is used in accordance with paragraph (c) or (d) of this section or 27.304-2.

(2) To the extent the information is not required elsewhere in the contract, and unless otherwise specified by agency supplemental regulations, the contracting officer may modify 52.227-11(f) to require the contractor to do one or more of the following:

(i) Provide periodic (but not more frequently than annually) listings of all subject inventions required to be disclosed during the period covered by the report.

(ii) Provide a report prior to the closeout of the contract listing all subject inventions or stating that there were none.

(iii) Provide, upon request, the filing date, serial number and title, a copy of the patent application, and patent number and issue date for any subject invention in any country in which the contractor has applied for patents.

(iv) Furnish the Government an irrevocable power to inspect and make copies of the patent application file when a Federal Government employee is a coinventor.

(3) If the acquisition of patent rights for the benefit of a foreign government is required under a treaty or executive agreement, or if the agency head or a designee determines at the time of contracting that it would be in the national interest to acquire the right to sublicense foreign governments or international organizations pursuant to any existing or future treaty or agreement, the contracting officer shall use the clause at 52.227-11, with its Alternate I. If other rights are necessary to effectuate the treaty or agreement, Alternate I may be appropriately modified. In long term contracts, Alternate II shall be added if necessary to effectuate treaties or agreements to be entered into.

(4) If the contracting officer includes the clause at 52.227-11, Patent Rights—Retention by the Contractor (Short Form), in a contract with a nonprofit organization for the operation of a Government-owned facility, the contracting officer will include Alternate III in lieu of paragraph (k)(3) of the clause.

(5) If the contract is for the operation of a Government-owned facility, the contracting officer may include Alternate IV with the clause at 52.227-11.

(b)(1) The contracting officer shall insert the clause at 52.227-12, Patent Rights—Retention by the Contractor (Long Form), if all the following conditions apply:

(i) The contractor is other than a small business firm or nonprofit organization.

(ii) No alternative clause is used in accordance with paragraph (c) or (d) of this section or 27.304-2.

(iii) The contracting agency is one of those excepted under subdivision (a)(1)(i) of this section.

(2) If the acquisition of patent rights for the benefit of a foreign government is required under a treaty or executive agreement or if the agency head or a designee determines at the time of contracting that it would be in the national interest to acquire the right to sublicense foreign governments or international organizations pursuant to any existing or future treaty or agreement, the contracting officer shall use the clause at 52.227-12, with its Alternate I. If other rights are necessary to effectuate the treaty or agreement, Alternate I may be appropriately modified. In long term contracts, Alternate II shall be added if necessary to effectuate treaties or agreements to be entered into.

(c)(1) The contracting officer shall insert the clause at 52.227-13, Patent Rights—Acquisition by the Government, if any of the following conditions apply:

(i) No alternative clause is used in accordance with paragraphs (c)(2) and (4) or paragraph (d) of this section or 27.304-2.

(ii) The work is to be performed outside the United States, its possessions, and Puerto Rico by contractors that are not small business firms, nonprofit organizations as defined in 27.301, or domestic firms. For purposes of this paragraph, the contracting officer may presume that a contractor is not a domestic firm unless it is known that the firm is not foreign owned, controlled, or influenced. (See 27.304-4(a) regarding subcontracts with U.S. firms.)

(2) If the acquisition of patent rights for the benefit of a foreign government is required under a treaty or executive agreement or if the agency head or a designee determines at the time of contracting that it would be in the national interest to acquire the right to sublicense foreign governments or international organizations pursuant to any existing or future treaty or agreement, the contracting officer shall use the clause with its Alternate I. If other rights are necessary to effectuate the treaty or agreement, Alternate I may be appropriately modified. In long term contracts, Alternate II shall be added if necessary to effectuate treaties or agreements to be entered into.

(3) Section 401 of title 37 of the Code of Federal Regulations provides that in contracts with small business firms and nonprofit organizations, when an agency exercises the exceptions at 27.302(b)(2) or (3) it shall use the clause at 52.227-11, with such modifications as are necessary to address the exceptional circumstances or concerns which led to the use of the exception. The greater rights determinations provision of 52.227-13(b)(2) shall be included in the modified clause.

(d)(1) If one of the following applies, the contracting officer may insert the clause prescribed in paragraph (a) or (b) of this section as otherwise applicable, agency supplemental regulations may provide another clause and specify its use, or the contracting officer shall insert the clause prescribed in paragraph (c) of this section:

(i) The contractor is not located in the United States or does not have a place of business located in the United States or is subject to the control of a foreign government.

(ii) There are exceptional circumstances and the agency head determines that restriction or elimination of the right to retain title to any subject invention will better promote the policy and objectives of Chapter 18 of title 35 of the United States Code.

(iii) It is determined by a Government authority which is authorized by statute or executive order to conduct foreign intelligence or counterintelligence activities that restriction or elimination of the right to retain any subject invention is necessary to protect the security of such activities.

(iv) The contract includes the operation of a Government-owned, contractor-operated facility of the Department of Energy primarily dedicated to that Department's naval nuclear propulsion or weapons related programs.

(2) Before using any of the exceptions under paragraph (d)(1) of this section in a contract with a small business firm or a nonprofit organization and before using the exception of subdivision (d)(1)(ii) of this section for any contractor, the agency shall prepare a written determination, including a statement of facts supporting the determination, that the conditions identified in the exception exist. A separate statement of facts shall be prepared for each exceptional circumstances determination, except that in appropriate cases a single determination may apply to both a contract and any subcontracts issued under it, or to any contract to which an exception is applicable. In cases when subdivision (d)(1)(ii) of this section is used, the determination shall also include an analysis justifying the determination. This analysis should address, with specificity, how the alternate provisions will better achieve the objectives set forth in 35 U.S.C. 200. For contracts with small business firms and nonprofit organizations, a copy of each determination, statement of facts, and, if applicable, analysis shall be promptly provided to the contractor or offeror along with a notification of its appeal rights under 35 U.S.C. 202(b)(4) in accordance with 27.304-1(a). In the case of small business and nonprofit contractors, except for determination under subdivision (d)(1)(iii) of this section, the agency shall, within 30 days after award of a contract, also provide copies of each determination, statement of fact, and analysis to the Secretary of Commerce. These shall be sent within 30 days after the award of the contract to which they pertain. In the case of contracts with small business concerns, copies will also be sent to the Chief Counsel for Advocacy of the Small Business Administration.

(e) For those agencies excepted under paragraph (a)(1)(i) of this section, only small business firms or non-profit organizations qualify for the clause at 52.227-11. If one of these agencies has reason to question the status of the prospective

contractor, the agency may file a protest in accordance with 13 CFR 121.3-5 if small business firm status is questioned, or require the prospective contractor to furnish evidence of its status as a nonprofit organization.

(f) Alternates I and II to the clauses at 52.227-11, 52.227-12, and 52.227-13, as applicable, may be modified to make clear that the rights granted to the foreign government or international organization may be for additional rights beyond a license or sublicense if so required by the applicable treaty or international agreement. For example, in some cases exclusive licenses or even assignment of title in the foreign country involved might be required. In addition, the Alternate may be modified to provide for direct licensing by the contractor of the foreign government or international organization.

27.304 Procedures.

27.304-1 General.

(a) *Contractor appeals of exceptions.* (1) In accordance with 35 U.S.C. 202(b)(4), a small business firm or nonprofit organization contractor has the right to an administrative review of a determination to use one of the exceptions at 27.303(d)(1)(i)-(iv) if the contractor believes that a determination is either (i) contrary to the policies and objectives of this subsection or (ii) constitutes an abuse of discretion by the agency. Paragraphs (a)(2) through (7) of this subsection specify the procedures to be followed by contractors and agencies in such cases. The assertion of such a claim by the contractor shall not be used as a basis for withholding or delaying the award of a contract or for suspending performance under an award. However, pending final resolution of the claim, the contract may be issued with the patent rights provision proposed by the agency; but should the final decision be in favor of the contractor, the contract will be amended accordingly and the amendment made retroactive to the effective date of the contract.

(2) A contractor may appeal a determination by providing written notice to the agency within 30 working days from the time it receives a copy of the agency's determination, or within such longer time as an agency may specify in its regulations. The contractor's notice should specifically identify the basis for the appeal.

(3) The appeal shall be decided by the head of the agency or designee who is at a level above the person who made the determination. If the notice raises a genuine dispute over the material facts, the head of the agency or designee shall undertake or refer the matter for fact-finding.

(4) Fact-finding shall be conducted in accordance with procedures established by the agency. Such procedures shall be as informal as practicable and be consistent with principles of fundamental fairness. The procedures should afford the contractor the opportunity to appear with counsel, submit

documentary evidence, present witnesses, and confront such persons as the agency may rely upon. A transcribed record shall be made and shall be available at cost to the contractor upon request. The requirement for a transcribed record may be waived by mutual agreement of the contractor and the agency.

(5) The official conducting the fact-finding shall prepare or adopt written findings of fact and transmit them to the head of the agency or designee promptly after the conclusion of the fact-finding proceeding along with a recommended decision. A copy of the findings of fact and recommended decision shall be sent to the contractor by registered or certified mail.

(6) Fact-finding should be completed within 45 working days from the date the agency receives the contractor's written notice.

(7) When fact-finding has been conducted, the head of the agency or designee shall base his or her decision on the facts found, together with any argument submitted by the contractor, agency officials, or any other information in the administrative record. In cases referred for fact-finding, the agency head or designee may reject only those facts that have been found to be clearly erroneous, but must explicitly state the rejection and indicate the basis for the contrary finding. The agency head or designee may hear oral arguments after fact-finding provided that the contractor or contractor's attorney or representative is present and given an opportunity to make arguments and rebuttal. The decision of the agency head or designee shall be in writing and if it is unfavorable to the contractor, include an explanation of the basis of the decision. The decision of the agency or designee shall be made within 30 working days after fact-finding or, if there was no fact-finding, within 45 working days from the date the agency received the contractor's written notice. In accordance with 35 U.S.C. 203, a small business firm or a nonprofit organization contractor adversely affected by a determination under this section may, at any time within 60 days after the determination is issued, file a petition in the United States Claims Court, which shall have jurisdiction to determine the appeal on the record and to affirm, reverse, remand, or modify, as appropriate, the determination of the Federal agency.

(b) *Greater rights determinations.* Whenever the contract contains the clause at 52.227-13, Patent Rights—Acquisition by the Government, the contractor (or an employee-inventor of the contractor after consultation with the contractor) may request greater rights to an identified invention within the period specified in such clause. Requests for greater rights may be granted if the agency head or designee determines that the interests of the United States and the general public will be better served thereby. In making such determinations, the agency head or designee shall consider at least the following objectives:

(1) Promoting the utilization of inventions arising from federally-supported research and development.

(2) Ensuring that inventions are used in a manner to promote full and open competition and free enterprise.

(3) Promoting public availability of inventions made in the United States by United States industry and labor.

(4) Ensuring that the Government obtains sufficient rights in federally-supported inventions to meet the needs of the Government and protect the public against nonuse or unreasonable use of inventions.

(c) *Retention of rights by inventor.* If the contractor does not elect to retain title to a subject invention, the agency may consider and, after consultation with the contractor, grant requests for retention of rights by the inventor. Retention of rights by the inventor will be subject to the conditions in paragraph (d) (except paragraphs (d)(1)), (f)(4), and paragraphs (h), (i), and (j) of the applicable Patent Rights—Retention by the Contractor clause).

(d) *Government assignment to contractor of rights in Government employees' inventions.* When a Government employee is a coinventor of an invention made under a contract with a small business firm or nonprofit organization, the agency employing the coinventor may transfer or reassign whatever right it may acquire in the subject invention from its employee to the contractor, subject at least to the conditions of 35 U.S.C. 202-204.

(e) *Additional requirements.* (1) If it is desired to have the right to require any of the following, when using the clause at 52.227-11, Patent Rights—Retention by the Contractor (Short Form), the contract shall be modified to require the contractor to do one or more of the following:

(i) Provide periodic (but not more frequently than annually) listings of all subject inventions required to be disclosed during the period covered by the report.

(ii) Provide a report prior to the closeout of the contract listing all subject inventions or stating that there were none.

(iii) Provide, upon request, the filing date, serial number, and title; a copy of the patent application; and patent number and issue date for any subject invention in any country in which the contractor has applied for patents.

(iv) Furnish the Government an irrevocable power to inspect and make copies of the patent application file when a Federal Government employee is a coinventor.

(2) To the extent provided by such modification (and automatically under the terms of the clauses at 52.227-12, Patent Rights—Retention by the Contractor (Long Form), and 52.227-13, Patent Rights—Acquisition by the Government, the contracting officer may require the contractor to—

(i) Furnish a copy of each subcontract containing a patent rights clause (but if a copy of a subcontract is furnished under another clause, a duplicate shall not be requested under the patent rights clause);

(ii) Submit interim and final invention reports listing subject inventions and notifying the contracting officer of all subcontracts awarded for experimental, developmental, or research work;

(iii) Submit information regarding the filing date, serial number and title, and, upon request, a copy of the patent application, and patent number and issue date for any subject invention in any country for which the contractor has retained title; and

(iv) Submit periodic reports on the utilization of a subject invention or on efforts at obtaining utilization that are being made by the contractor or its licensees or assignees.

(3) The contractor is required to deliver to the contracting officer an instrument confirmatory of all rights to which the Government is entitled and to furnish the Government an irrevocable power to inspect and make copies of the patent application file. Such delivery should normally be made within 6 months after filing each patent application, or within 6 months after submitting the invention disclosure if the application has been previously filed.

(f) *Revocation or modification of contractor's minimum rights.* Before revocation or modification of the contractor's license in accordance with 27.302(i)(2), the contracting officer will furnish the contractor a written notice of intention to revoke or modify the license, and the contractor will be allowed 30 days (or such other time as may be authorized by the contracting officer for good cause shown by the contractor) after the notice to show cause why the license should not be revoked or modified. The contractor has the right to appeal, in accordance with applicable regulations in 37 CFR part 404 and agency licensing regulations, any decisions concerning the revocation or modification.

(g) *Exercise of march-in rights.* The following procedures shall govern the exercise of the march-in rights set forth in 35 U.S.C. 203, paragraph (j) of the Patent Rights—Retention by the Contractor clauses, and subdivision (c)(1)(ii) of the Patent Rights—Acquisition by the Government clause:

(1) When the agency receives information that it believes might warrant the exercise of march-in rights, before initiating any march-in proceeding in accordance with the procedures of paragraph (g)(2) of this section, it shall notify the contractor in writing of the information and request informal written or oral comments from the contractor. In the absence of any comments from the contractor within 30 days the agency may, at its discretion, initiate the procedures below. If a comment is received, whether or not within 30 days, then the agency shall, within 60 days after it receives the comment, either initiate the procedures below or notify the contractor, in writing, that it will not pursue march-in rights based on the information about which the contractor was notified.

(2) A march-in proceeding shall be initiated by the issuance of a written notice by the agency head or a designee to the contractor and its assignee or exclusive licensee, as applicable and if known to the agency, stating that the Government has determined to exercise march-in rights. The notice shall state the reasons for the proposed march-in, in terms sufficient to put the contractor on notice of the facts upon which the action is based, and shall specify the field or fields of use in which the Government is considering requiring licensing. The notice shall advise the contractor, assignee, or exclusive licensee of its rights as set forth in this section and in any supplemental agency regulations or procedures. The determination to exercise march-in rights shall be made by the head of the agency or designee.

(3) Within 30 days after the receipt of the written notice of march-in, the contractor, its assignee or exclusive licensee, may submit in person, in writing, or through a representative information or argument in opposition to the proposed march-in, including any additional specific information which raises a genuine dispute over the material facts upon which the march-in is based. If the information presented raises a genuine dispute over the material facts, the head of the agency or designee shall undertake or refer the matter to another official for fact-finding.

(4) Fact-finding shall be conducted in accordance with the procedures established by the agency. Such procedures shall be as informal as practicable and be consistent with principles of fundamental fairness. The procedures should afford the contractor the opportunity to appear with counsel, submit documentary evidence, present witnesses, and confront such persons as the agency may present. A transcribed record shall be made and shall be available at cost to the contractor upon request. The requirement for a transcribed record may be waived by mutual agreement of the contractor and the agency. Any portion of the march-in proceeding, including a fact-finding hearing that involves testimony or evidence relating to the utilization or efforts at obtaining utilization that are being made by the contractor, its assignee, or licensees shall be closed to the public, including potential licensees. In accordance with 35 U.S.C. 202(c)(5), agencies shall not disclose any such information obtained during a march-in proceeding to persons outside the Government except when such release is authorized by the contractor, its assignee, or licensee.

(5) The official conducting the fact-finding shall prepare or adopt written findings of fact and transmit them to the head of the agency or designee promptly after the conclusion of the fact-finding proceeding along with a recommended determination. A copy of the findings of fact shall be sent to the contractor, its assignee, or exclusive licensee by registered or certified mail. The contractor, its assignee or exclusive licensee, and agency representatives will be given

30 days to submit written arguments to the head of the agency or designee; and, upon request by the contractor, oral arguments will be held before the agency head or designee that will make the final determination.

(6) In cases in which fact-finding has been conducted, the head of the agency or designee shall base his or her determination on the facts found, together with any other information and written or oral arguments submitted by the contractor, its assignee or exclusive licensee and agency representatives, and any other information in the administrative record. The consistency of the exercise of march-in rights with the policy and objectives of 35 U.S.C. 200 shall also be considered. In cases referred for fact-finding, the head of the agency or designee may reject only those facts that have been found to be clearly erroneous, but must explicitly state the rejection and indicate the basis for the contrary finding. Written notice of the determination whether march-in rights will be exercised shall be made by the head of the agency or designee and sent to the contractor, its assignee, or exclusive licensee, by certified or registered mail within 90 days after the completion of fact-finding or 90 days after oral arguments, whichever is later, or the proceedings will be deemed to have been terminated and thereafter no march-in based on the facts and reasons upon which the proceeding was initiated may be exercised.

(7) An agency may, at any time, terminate a march-in proceeding if it is satisfied that it does not wish to exercise march-in rights.

(8) These procedures shall also apply to the exercise of march-in rights against inventors receiving title to subject inventions under 35 U.S.C. 202(d) and, for that purpose, the term "contractor," as used herein, shall be deemed to include the inventory and the term "exclusive licensee" shall be deemed to include partially exclusive licensee.

(9) An agency determination unfavorable to the contractor, its assignee, or exclusive licensee shall be held in abeyance pending the exhaustion of appeals or petitions filed under 35 U.S.C. 203(2).

(h) *Licenses and assignments under contracts with non-profit organizations.* If the contractor is a nonprofit organization, the clause at 52.227-11 provides that certain contractor actions require agency approval, as specified below. Agencies shall provide procedures for obtaining such approval. Rights to a subject invention in the United States may not be assigned without the approval of the contracting agency, except where such assignment is made to an organization which has as one of its primary functions the management of inventions (provided that such assignee will be subject to the same provisions as the contractor).

27.304-2 Contracts placed by or for other Government agencies.

The following procedures apply unless agency agreements provide otherwise:

(a) When a Government agency requests another Government agency to award a contract on its behalf, the request should explain any special circumstances surrounding the contract and specify and furnish the patent rights clause to be used. Normally, the clause will be in accordance with the policies and procedures of this subpart. If, however, the request states that a clause of the requesting agency is required (*e.g.*, because of statutory requirements, a deviation, or exceptional circumstances) that clause shall be used rather than those of this subpart.

(1) If the request states that an agency clause is required and the work to be performed under the contract is not severable and is funded wholly or in part by the agency, then that agency clause and no other patent rights clause shall be included in the contract.

(2) If the request states that an agency clause is required, and the work to be performed under the contract is severable and is only in part for the requesting agency, then the work which is on behalf of the requesting agency shall be identified in the contract, and the agency clause shall be made applicable to that portion. In such situations, the remaining portion of the work (for the agency awarding the contract) shall likewise be identified and the appropriate patent rights clause (if required) shall be made applicable to that remaining portion.

(3) If the request states that an agency clause is not required in any resulting contract, then the appropriate patent rights clause shall be used, if a patent rights clause is required.

(b) Where use of the specified clause, or any modification, waiver, or omission of the Government's rights under any provisions therein, requires a written determination, the reporting of such determination, or a deviation, if any such acts are required in accordance with 27.303(d)(2), it shall be the responsibility of the requesting agency to make such determination, submit the required reports, and obtain such deviations, in consultation with the contracting agency, unless otherwise agreed between the contracting and requesting agencies. However, a deviation to a specified clause of the requesting agency shall not be made without prior approval of that agency.

(c) The requesting agency may require, and provide instructions regarding, the forwarding or handling of any invention disclosures or other reporting requirements of the specified clauses. Normally the requesting agency shall be responsible for the handling of any disclosed inventions, including the filing of patent applications where the Government receives title, and the custody, control, and licensing

thereof, unless provided otherwise in the instructions or other agreements with the contracting agency.

27.304-3 Contracts for construction work or architect-engineer services.

(a) If a solicitation or contract for construction work or architect-engineer services has as a purpose the performance of experimental, developmental, or research work or test and evaluation studies involving such work and calls for, or can be expected to involve, the design of a Government facility or of novel structures, machines, products, materials, processes, or equipment (including construction equipment), it shall include a patent rights clause selected in accordance with the policies and procedures of this Subpart 27.3.

(b) A solicitation or contract for construction work or architect-engineer services that calls for or can be expected to involve only “standard types of construction” to be built by previously developed equipment, methods, and processes shall not include a patent rights clause. The term “standard types of construction” means construction in which the distinctive features, if any, in all likelihood will amount to no more than—

(1) Variations in size, shape, or capacity of otherwise structurally orthodox and conventionally acting structures or structural groupings; or

(2) Purely artistic or esthetic (as distinguished from functionally significant) architectural configurations and designs of both structural and nonstructural members or groupings, which may or may not be sufficiently novel or meritorious to qualify for design protection under the design patent or copyright laws.

27.304-4 Subcontracts.

(a) The policies and procedures covered by this subpart apply to all contracts at any tier. Hence, a contractor awarding a subcontract and a subcontractor awarding a lower-tier subcontract that has as a purpose the conduct of experimental, developmental, or research work is required to determine the appropriate patent rights clause to be included that is consistent with these policies and procedures. Generally, the clause at either 52.227-11, 52.227-12, or 52.227-13 is to be used and will be so specified in the patent rights clause contained in the higher-tier contract, but the contracting officer may direct the use of a particular patent rights clause in any lower-tier contract in accordance with the policies and procedures of this subpart. For instance, when the clause at 52.227-13 is in the prime contract because the work is to be performed overseas, any subcontract with a nonprofit organization would contain the clause at 52.227-11.

(b) Whenever a prime contractor or a subcontractor considers the inclusion of a particular clause in a subcontract to be inappropriate or a subcontractor refuses to accept the

proffered clause, the matter shall be resolved by the agency contracting officer in consultation with counsel.

(c) It is Government policy that contractors shall not use their ability to award subcontracts as economic leverage to acquire rights for themselves in inventions resulting from subcontracts.

27.304-5 Appeals.

(a) The agency official initially authorized to take any of the following actions shall provide the contractor with a written statement of the basis for the action at the time the action is taken, including any relevant facts that were relied upon in taking the action:

(1) A refusal to grant an extension to the invention disclosure period under paragraph (c)(4) of the clauses at 52.227-11 and 52.227-12.

(2) A request for a conveyance of title to the Government under 27.302(d)(1)(i) through (v).

(3) A refusal to grant a waiver under 27.302(g), Preference for U.S. Industry.

(4) A refusal to approve an assignment under 27.304-1(h)(1).

(5) A refusal to approve an extension of the exclusive license period under 27.304-1(h)(2).

(b) Each agency shall establish and publish procedures under which any of the agency actions listed in paragraph (a) of this subsection may be appealed to the head of the agency or designee. Review at this level shall consider both the factual and legal basis for the action and its consistency with the policy and objectives of 35 U.S.C. 200-206 and this subpart.

(c) Appeals procedures established under paragraph (b) of this subsection shall include administrative due process procedures and standards for fact-finding at least comparable to those set forth in 37 CFR part 401.6(e)–(g) whenever there is a dispute as to the factual basis for an agency request for a conveyance of title under 27.302(d)(1)(i) through (v) including any dispute as to whether or not an invention is a subject invention.

(d) To the extent that any of the actions described in paragraph (a) of this subsection are subject to appeal under the Contract Disputes Act, the procedures under that Act will satisfy the requirements of paragraphs (b) and (c) of this subsection.

27.305 Administration of patent rights clauses.

27.305-1 Patent rights follow-up.

(a) It is important that the Government and the contractor know and exercise their rights in inventions conceived or first actually reduced to practice in the course of or under Government contracts in order to ensure their expeditious availability to the public and to enable the Government, the contractor, and the public to avoid unnecessary payment of

royalties and to defend themselves against claims and suits for patent infringement. To attain these ends, contracts having a patent rights clause should be so administered that—

(1) Inventions are identified, disclosed, and reported as required by the contract, and elections are made;

(2) The rights of the Government in such inventions are established;

(3) Where patent protection is appropriate, patent applications are timely filed and prosecuted by contractors or by the Government;

(4) The rights of the Government in filed patent applications are documented by formal instruments such as licenses or assignments; and

(5) Expeditious commercial utilization of such inventions is achieved.

(b) If a subject invention is made under funding agreements of more than one agency, at the request of the contractor or on their own initiative, the agencies shall designate one agency as responsible for administration of the rights of the Government in the invention.

27.305-2 Follow-up by contractor.

(a) *Contractor procedures.* If required by the applicable clause, the contractor shall establish and maintain effective procedures to ensure its patent rights obligations are met and that subject inventions are timely identified and disclosed, and when appropriate, patent applications are filed.

(b) *Contractor reports.* Contractors shall submit all reports required by the patent rights clause to the contracting officer or other representative designated for such purpose in the contract. Agencies may, in their implementing instructions, provide specific forms for use on an optional basis for such reporting.

27.305-3 Follow-up by Government.

(a) Agencies shall maintain appropriate follow-up procedures to protect the Government's interest and to check that subject inventions are identified and disclosed, and when appropriate, patent applications are filed, and that the Government's rights therein are established and protected. Follow-up activities for contracts that include a clause referenced in 27.304-2 shall be coordinated with the appropriate agency.

(b) The contracting officer administering the contract (or other representative specifically designated in the contract for such purpose) is responsible for receiving invention disclosures, reports, confirmatory instruments, notices, requests, and other documents and information submitted by the contractor pursuant to a patent rights clause. If the contractor fails to furnish documents or information as called for by the clause within the time required, the contracting officer shall promptly request the contractor to supply the required documents or information and, if the failure persists, shall

take appropriate action to secure compliance. Invention disclosures, reports, confirmatory instruments, notices, requests, and other documents and information relating to patent rights clauses shall be promptly furnished by the contracting officer administering the contract (or other designee) to the procuring agency or contracting activity for which the procurement was made for appropriate action.

(c) Contracting activities shall establish appropriate procedures to detect and correct failures by the contractor to comply with its obligations under the patent rights clauses, such as failures to disclose and report subject inventions, both during and after contract performance. Ordinarily a contractor should have written instructions for its employees covering compliance with these contract obligations. Government effort to review and correct contractor compliance with its patent rights obligations should be directed primarily towards contracts that, because of the nature of the research, development, or experimental work or the large dollar amount spent on such work, are more likely to result in subject inventions significant in number or quality, and towards contracts when there is reason to believe the contractors may not be complying with their contractual obligations. Other contracts may be reviewed using a spot-check method, as feasible. Appropriate follow-up procedures and activities may include the investigation or review of selected contracts or contractors by those qualified in patent and technical matters to detect failures to comply with contract obligations.

(d) Follow-up activities should include, where appropriate, use of Government patent personnel—

(1) To interview agency technical personnel to identify novel developments made in contracts;

(2) To review technical reports submitted by contractors with cognizant agency technical personnel;

(3) To check the Official Gazette of the United States Patent and Trademark Office and other sources for patents issued to the contractor in fields related to its Government contracts; and

(4) If additional information is required, to have cognizant Government personnel interview contractor personnel regarding work under the contract involved, observe the work on site, and inspect laboratory notebooks and other records of the contractor related to work under the contract.

(e) If it is determined that a contractor or subcontractor does not have a clear understanding of the rights and obligations of the parties under a patent rights clause, or that its procedures for complying with the clause are deficient, a post-award orientation conference or letter should ordinarily be used to explain these rights and obligations (see Subpart 42.5). When a contractor fails to establish, maintain, or follow effective procedures for identifying, disclosing, and, when appropriate, filing patent applications on inventions (if such procedures are required by the patent rights clause), or after appropriate notice fails to correct any deficiency, the

contracting officer may require the contractor to make available for examination books, records, and documents relating to the contractor's inventions in the same field of technology as the contract effort to enable a determination of whether there are such inventions and may invoke the withholding of payments provision (if any) of the clause. The withholding of payments provision (if any) of the patent rights clause or of any other contract clause may also be invoked if the contractor fails to disclose a subject invention. Significant or repeated failures by a contractor to comply with the patent rights obligation in its contracts shall be documented and made a part of the general file (see 4.801(c)(3)).

27.305-4 Conveyance of invention rights acquired by the Government.

(a) Agencies are responsible for those procedures necessary to protect the Government's interest in subject inventions. When the Government acquires the entire right, title, and interest in an invention by contract, this is normally accomplished by an assignment either from each inventor to the contractor and from the contractor to the Government, or from the inventor to the Government with the consent of the contractor, so that the chain of title from the inventor to the Government is clearly established. When the Government's rights are limited to a license, there should be a confirmatory instrument to that effect.

(b) The form of conveyance of title from the inventor to the contractor must be legally sufficient to convey the rights the contractor is required to convey to the Government. Agencies may, by supplemental instructions, develop suitable assignments, licenses, and other papers evidencing any rights of the Government in patents or patents applications, including such instruments as may be required to be recorded in the Statutory Register or documented in the Government Register maintained by the U.S. Patent and Trademark Office pursuant to Executive Order 9424, February 18, 1944.

27.305-5 Publication or release of invention disclosures.

(a) In accordance with the policy at 27.302(i), to protect their mutual interests, contractors and the Government should cooperate in deferring the publication or release of invention disclosures until the filing of the first patent application, and use their best efforts to achieve prompt filing when publication or release may be imminent. The Government will, on its part and to the extent authorized by 35 U.S.C. 205, withhold from disclosure to the public any invention disclosures reported under the patent rights clauses of 52.227-11, 52.227-12, or 52.227-13 for a reasonable time in order for patent applications to be filed. The policy in 27.302(i) regarding protection of confidentiality shall be followed.

(b) The Government will also use reasonable efforts to withhold from disclosure to the public for a reasonable time other information disclosing a reported invention included in any data delivered pursuant to contract requirements; provided, that the contractor notifies the agency as to the identity of the data and the invention to which it relates at the time of delivery of the data. Such notification must be to both the contracting officer and any patent representative to which the invention is reported, if other than the contracting officer.

(c) As an additional protection for small business firms and nonprofit organizations 37 CFR part 401 prescribes that agencies shall not disclose or release, in accordance with 35 U.S.C. 205, for a period of 18 months from the filing date of the application to third parties pursuant to request under the Freedom of Information Act or otherwise copies of any document which the agency obtained under contract which is part of an application for patent with the U.S. Patent and Trademark Office or any foreign patent office filed by the contractor (or its assignees, licensees, or employees) on a subject invention to which the contractor has elected to retain title. This prohibition does not extend to disclosure to other Government agencies or contractors of Government agencies under an obligation to maintain such information in confidence.

27.306 Licensing background patent rights to third parties.

(a) A contract with a small business firm or nonprofit organization will not contain a provision allowing the Government to require the licensing to third parties of inventions owned by the contractor that are not subject inventions unless such provision has been approved by the agency head and written justification has been signed by the agency head. Any such provision will clearly state whether the licensing may be required in connection with the practice of a subject invention, a specifically identified work object, or both. The agency head may not delegate the authority to approve such provisions or to sign justifications required for such provisions.

(b) The Government will not require the licensing of third parties under any such provision unless the agency head determines that the use of the invention by others is necessary for the practice of a subject invention or for the use of a work object of the contract and that such action is necessary to achieve the practical application of the subject invention or work object. Any such determination will be on the record after an opportunity for a hearing, and the contractor shall be given notification of the determination by certified or registered mail. The notification shall include a statement that any action commenced for judicial review of such determination must be brought by the contractor within 60 days after the notification.

Subpart 27.4—Rights in Data and Copyrights

27.400 [Reserved]

27.401 Definitions.

As used in this subpart—

“Data” means recorded information, regardless of form or the media on which it may be recorded. The term includes technical data and computer software. The term does not include information incidental to contract administration, such as financial, administrative, cost or pricing or management information.

“Form, fit, and function data” means data relating to items, components, processes that are sufficient to enable physical and functional interchangeability, as well as data identifying source, size, configuration, mating and attachment characteristics, functional characteristics, and performance requirements; except that for computer software it means data identifying source, functional characteristics, and performance requirements, but specifically excludes the source code, algorithm, process, formulae, and flow charts of the software.

“Limited rights” means the rights of the Government in limited rights data, as set forth in a Limited Rights Notice if included in a data rights clause of the contract.

“Limited rights data” means data, other than computer software, that embody trade secrets or are commercial or financial and confidential or privileged, to the extent that such data pertain to items, components, or processes developed at private expense, including minor modifications thereof. (Agencies may, however, adopt the following alternate definition:

“Limited rights data” means data developed at private expense that embody trade secrets or are commercial or financial and confidential or privileged (see 27.404(c)).

“Restricted computer software” means computer software developed at private expense and that is a trade secret; is commercial or financial and confidential or privileged; or is published copyrighted computer software; including minor modifications of such computer software.

“Restricted rights” means the rights of the Government in restricted computer software as set forth in a Restricted Rights Notice, if included in a data rights clause of the contract, or as otherwise may be included or incorporated in the contract.

“Technical data” means data other than computer software, which are of a scientific or technical nature.

“Unlimited rights” means the rights of the Government to use, disclose, reproduce, prepare derivative works, distribute copies to the public, and perform publicly and display publicly, in any manner and for any purpose, and to have or permit others to do so.

27.402 Policy.

(a) It is necessary for the Government, in order to carry out its missions and programs, to acquire or obtain access to many kinds of data produced during or used in the performance of their contracts. Agencies require such data to: obtain competition among suppliers; fulfill certain responsibilities for disseminating and publishing the results of their activities; ensure appropriate utilization of the results of research, development, and demonstration activities including the dissemination of technical information to foster subsequent technological developments; and meet other programmatic and statutory requirements. Further, for defense purposes, such data are also required by agencies to meet specialized acquisition needs and ensure logistics support.

(b) At the same time, the Government recognizes that its contractors may have a legitimate proprietary interest (*e.g.*, a property right or other valid economic interest) in data resulting from private investment. Protection of such data from unauthorized use and disclosure is necessary in order to prevent the compromise of such property right or economic interest, avoid jeopardizing the contractor’s commercial position, and preclude impairment of the Government’s ability to obtain access to or use of such data. The protection of such data by the Government is also necessary to encourage qualified contractors to participate in Government programs and apply innovative concepts to such programs. In light of the above considerations, in applying these policies, agencies shall strike a balance between the Government’s need and the contractor’s legitimate proprietary interest.

27.403 Data Rights—General.

All contracts that require data to be produced, furnished, acquired or specifically used in meeting contract performance requirements, must contain terms that delineate the respective rights and obligations of the Government and the contractor regarding the use, duplication, and disclosure of such data, except certain contracts resulting from sealed bidding or similar situations which require only existing data (other than limited rights data and restricted computer software) to be delivered and reproduction rights are not needed for such data. As a general rule the data rights clause at 52.227-14, Rights in Data—General, including Alternates I, II, III, IV, and V, where determined to be appropriate as discussed in 27.404, is to be used for that purpose. However, in certain contracts either the particular subject matter of the contract or the intended use of the data may require the use of other prescribed clauses, or may not require the use of any prescribed clause, as discussed in 27.405 and 27.408. Also, in selecting a data rights clause, it is important to note that any such clause does not specify the data (in terms of type, quantity or quality) that is to be delivered, but only the respective rights of the Government and the contractor to

use, disclose, or reproduce such data. Accordingly, the contract should also include appropriate terms to specify the data to be delivered.

27.404 Basic Rights in Data Clause.

(a) *Unlimited Rights Data.* Under the clause at 52.227-14, Rights in Data—General, the Government acquires unlimited rights in the following data (except as provided in paragraph (f) of this section for copyrighted data): (1) data first produced in the performance of a contract (except to the extent such data constitute minor modifications to data that are limited rights data or restricted computer software); (2) form, fit, and function data delivered under contract; (3) data (except as may be included with restricted computer software) that constitute manuals or instructional and training material for installation, operation, or routine maintenance and repair of items, components, or processes delivered or furnished for use under a contract; and (4) all other data delivered under the contract other than limited rights data or restricted computer software (see paragraph (b) of this section). If any of the foregoing data are published copyrighted data with the notice of 17 U.S.C. 401 or 402, the Government acquires them under a copyright license, as set forth in paragraph (f) of this section, rather than with unlimited rights.

(b) *Limited Rights Data and Restricted Computer Software.* The clause at 52.227-14, Rights in Data—General, enables the contractor to protect qualifying limited rights data and restricted computer software by withholding such data from delivery to the Government and delivering form, fit, and function data in lieu thereof. However, when an agency has a need to obtain delivery of limited rights data or restricted computer software, the clause may be used with its Alternates II or III, as set forth in paragraphs (d) and (e) of this section. These alternatives enable a contracting officer to selectively request the delivery of such data with limited rights or restricted rights, either by specifying such delivery in the contract or by specific request.

(c) *Alternate Definition of Limited Rights Data.* In the clause at 52.227-14, Rights in Data—General, in order for data to qualify as limited rights data, in addition to being data that either embody a trade secret or are data that are commercial or financial and confidential or privileged, such data must also pertain to items, components, or processes developed at private expense, including minor modifications thereof. However, for contracts that do not require the development, use or delivery of items, components or processes that are intended to be acquired by or for the Government, an agency may adopt for general use or for use in specific circumstances the alternate definition of limited rights data set forth in Alternate I. The alternate definition does not require that such data pertain to items, components, or processes developed at private expense; but rather that such data were

developed at private expense and embody a trade secret or are commercial or financial and confidential or privileged.

(d) *Protection of Limited Rights Data Specified for Delivery.* (1) Contracting officers are authorized to modify the clause at 52.227-14, Rights in Data—General, by use of Alternate II, which Alternate adds paragraph (g)(2) to the clause to enable the Government to require delivery of limited rights data rather than allowing the contractor to withhold such data. To obtain such delivery, the contract may identify and specify data to be delivered, or the contracting officer may require, by written request during contract performance, the delivery of data that has been withheld or identified as withholdable under paragraph (g)(1) of the clause at 52.227-14, Rights in Data—General. In addition, if agreed to during negotiations, the contract may specifically identify data that are not to be delivered under Alternate II or which, if delivered, will be delivered with limited rights. The limited rights obtained by the Government are set forth in the Limited Rights Notice contained in paragraph (g)(2) (Alternate II). Such limited rights data will not, without permission of the contractor, be used by the Government for purposes of manufacture, and will not be disclosed outside the Government except for certain specific purposes as may be set forth in the Notice, and then only if the Government makes the disclosure subject to prohibition against further use and disclosure by the recipient. The following are examples of specific purposes which may be adopted by an agency in its supplement and added to the Limited Rights Notice of paragraph (g)(2) of the clause (Alternate II):

(i) Use (except for manufacture) by support service contractors.

(ii) Evaluation by nongovernment evaluators.

(iii) Use (except for manufacture) by other contractors participating in the Government's program of which the specific contract is a part, for information and use in connection with the work performed under each contract.

(iv) Emergency repair or overhaul work.

(v) Release to a foreign government, or instrumentality thereof, as the interests of the United States Government may require, for information or evaluation, or for emergency repair or overhaul work by such government.

(2) As an aid in determining whether the clause at 52.227-14 should be used with its Alternate II, the provision at 52.227-15, Representation of Limited Rights Data and Restricted Computer Software, may be included in any solicitation containing the clause at 52.227-14, Rights in Data—General. This provision requests that an offeror state in response to a solicitation, to the extent feasible, whether limited rights data are likely to be used in meeting the data delivery requirements set forth in the solicitation. In addition, the need for Alternate II should be considered during negotiations or discussion with an offeror, particularly where negotiations are based on an unsolicited proposal. However,

use of the clause at 52.227-14, Rights in Data—General, without Alternate II does not preclude this Alternate from being used subsequently by modification during contract performance, should the need arise for delivery of limited rights data that have been withheld or identified as withholdable.

(3) Whenever data that would qualify as limited rights data, if it were to be delivered in human readable form, is formatted as a computer data base for the purpose of delivery under a contract containing the clause at 52.227-14, Rights in Data—General, such data is to be treated as limited rights data, rather than restricted computer software, for the purposes of paragraph (g) of that clause.

(e) *Protection of Restricted Computer Software Specified for Delivery.* (1) Contracting officers are authorized to modify the clause at 52.227-14, Rights in Data—General, by use of Alternate III, which Alternate adds paragraph (g)(3) to the clause to enable the Government to require delivery of restricted computer software rather than allowing the contractor to withhold such restricted computer software. To obtain such delivery, the contract may identify and specify the computer software to be delivered, or the contracting officer may require by written request during contract performance, the delivery of computer software that has been withheld or identified as withholdable under paragraph (g)(1) of the clause. In addition, if agreed to during negotiations, the contract may specifically identify computer software that are not to be delivered under Alternate III or which, if delivered, will be with restricted rights. In considering whether to use the clause at 52.227-14 with its Alternate III, it should be particularly noted that unlike other data, computer software is also an end item in itself, such that if withheld and form, fit, and function data provided in lieu thereof, an operational program will not be acquired. Thus, if delivery of restricted computer software is anticipated to be needed to meet contract performance requirements, the contracting officer should assure that the clause is used with its Alternate III. Unless otherwise agreed to (see paragraph (e)(2) of this section) the restricted rights obtained by the Government are set forth in the Restricted Rights Notice contained in paragraph (g)(3) (Alternate III). Such restricted computer software will not be used or reproduced by the Government, or disclosed outside the Government, except that the computer software may be—

(i) Used or copied for use in or with the computer or computers for which it was acquired, including use at any Government installation to which such computer or computers may be transferred;

(ii) Used or copied for use in or with a backup computer if any computer for which it was acquired becomes inoperative;

(iii) Reproduced for safekeeping (archives) or backup purposes;

(iv) Modified, adapted, or combined with other computer software, provided that the modified, combined, or adapted portions of any derivative software incorporating restricted computer software are made subject to the same restricted rights;

(v) Disclosed to and reproduced for use by support service contractors, subject to the same restriction under which the Government acquired the software;

(vi) Used or copied for use in or transferred to a replacement computer; and

(vii) Used in accordance with subdivisions (e)(1)(i) through (v) of this section, without disclosure prohibitions, if the computer software is published copyrighted computer software.

(2) The restricted rights set forth in paragraph (e)(1) of this section are the minimum rights the Government normally obtains with restricted computer software and will automatically apply when such software is acquired under the Restricted Rights Notice of paragraph (g)(3) (Alternate III) of the clause. However, either greater or lesser rights, consistent with the purposes and needs for which the software is to be acquired, may be specified by the contracting officer in a particular contract or prescribed in agency regulations. For example, consideration should be given to any networking needs or any requirements for use of the computer software from remote terminals. Also, in addressing such needs, the scope of the restricted rights may be different for the documentation accompanying the computer software than for the programs and data bases. Any additions to, or limitations on, the restricted rights set forth in the Restricted Rights Notice of paragraph (g)(3) of the clause are to be expressly stated in the contract or in a collateral agreement incorporated in and made part of the contract, and the notice modified accordingly.

(3) As an aid in determining whether the clause should be used with its Alternate III, the provision at 52.227-15, Representation of Limited Rights Data and Restricted Computer Software, may be included in any solicitation containing the clause at 52.227-14, Rights in Data—General. This provision requests that an offeror state, in response to a solicitation, to the extent feasible, whether restricted computer software is likely to be used in meeting the data delivery requirements set forth in the solicitation. In addition, the need for Alternate III should be considered during negotiations or discussions with an offeror, particularly where negotiations are based on an unsolicited proposal. However, use of the clause at 52.227-14, Rights in Data—General, without Alternate III does not preclude this Alternate from being used subsequently by modification during contract performance, should the need arise for the delivery of restricted computer software that has been withheld or identified as withholdable.

(f) *Copyrighted Data*—(1) *Data First Produced in the Performance of a Contract*. (i) In order to enhance the transfer or dissemination of information produced at Government expense, contractors are normally authorized, without prior approval of the contracting officer, to establish claim to copyright subsisting in technical or scientific articles based on or containing data first produced in the performance of work under a contract containing the clause at 52.227-14, Rights in Data—General and published in academic, technical or professional journals, symposia proceedings and similar works. Otherwise, the permission of the contracting officer is required in accordance with subdivision (f)(1)(ii) of this section or any applicable agency regulations, to establish claim to copyright subsisting in data first produced in the performance of a contract unless the clause is used with its Alternate IV in accordance with subdivision (f)(1)(iii) of this section. Agencies may, however, restrict copyright under certain circumstances in accordance with paragraph (g)(3) of this section.

(ii) Usually, permission for a contractor to establish claim to copyright subsisting in data first produced under the contract will be granted when copyright protection will enhance the appropriate transfer or dissemination of such data and the commercialization of products or processes to which it pertains. The request for permission must be made in writing, and may be made either prior to contract award or subsequently during contract performance. It should identify the data involved or furnish copies of the data for which permission is requested, as well as a statement as to the intended publication or dissemination media or other purpose for which copyright is desired. The request normally will be granted unless—

(A) The data consist of a report that represents the official views of the agency or that the agency is required by statute to prepare;

(B) The data are intended primarily for internal use by the Government;

(C) The data are of the type that the agency itself distributes to the public under an agency program;

(D) The Government determines that limitation on distribution of the data is in the national interest; or

(E) The Government determines that the data should be disseminated without restriction.

(iii) An Alternate IV is provided for use with the clause at 52.227-14, Rights in Data—General, which Alternate provides a substitute paragraph (c)(1) in the clause granting blanket permission for contractors to establish claim to copyright subsisting in all data first produced in the performance of the contract without further request being made by the contractor. Alternate IV shall be used in all contracts for basic or applied research (other than those for management or operation of Government facilities and in contracts and subcontracts in support of programs being con-

ducted at such facilities or where international agreements require otherwise) to be performed solely by colleges and universities. Alternate IV will not be used in contracts with colleges and universities if a purpose of the contract is for development of computer software for distribution to the public (including use in solicitations) by or on behalf of the Government. In addition, Alternate IV may be used in other contracts if an agency determines to grant blanket permission for contractors to establish claim to copyright subsisting in all data first produced in the performance of contract without further request being made by the contractor. In any contract where Alternate IV is used, the contract may exclude any data, items or categories of data from the blanket permission granted, either by express provisions in the contract or by the addition of a paragraph (d)(3) to the clause, consistent with paragraph (g)(3) of this section.

(iv) Whenever a contractor establishes claim to copyright subsisting in data (other than computer software) first produced in the performance of a contract, the Government is granted a paid-up nonexclusive, irrevocable, worldwide license to reproduce, prepare derivative works, distribute to the public, perform publicly and display publicly by or on behalf of the Government, for all such data, as set forth in paragraph (c)(1) of the clause at 52.227-14, Rights in Data—General. For computer software the scope of the Government's license does not include the right to distribute to the public. Agencies may also, either on a case-by-case basis, or on a class basis if provided in implementing regulations, obtain a license of different scope than set forth in paragraph (c)(1) of the clause if the agency determines that such different license will substantially enhance the transfer or dissemination of any data first produced under the contract, and will not interfere with the Government's use of the data as contemplated by the contract or if required for international agreements. If an agency obtains such a different license, the scope of that license shall be clearly stated in a conspicuous place on the medium on which the data is recorded. That is, if a report, the scope of the different license shall be put on the cover, or first page, of the report. If computer software, the scope of the different license shall be placed on the most conspicuous place available.

(v) Whenever a contractor establishes claim to copyright in data first produced in the performance of a contract, irrespective of which Alternate is used with the clause or the scope of the Government's license, the contractor is required to affix the applicable copyright notices of 17 U.S.C. 401 or 402, and acknowledgment of Government sponsorship, (including the contract number) to the data whenever such data are delivered to the Government, published, or deposited for registration as a published work in the U.S. Copyright Office. Failure to do so could result in such data being treated as unlimited rights data (see paragraph (i) of this section).

(2) *Data Not First Produced in the Performance of a Contract.* (i) Contractors are not to incorporate in data delivered under a contract any data that is not first produced under the contract and that is marked with the copyright notice of 17 U.S.C. 401 or 402, without either (A) acquiring for or granting to the Government certain copyright license rights for the data, or (B) obtaining permission from the contracting officer to do otherwise. The copyright license the Government acquires for such data will normally be of the same scope as discussed in subdivision (f)(1)(iv) of this section, and is set forth in paragraph (c)(2) of the clause at 52.227-14, Rights in Data—General. However, agencies may, on a case-by-case basis, or on a class basis if provided in implementing agency regulations, obtain a license of different scope if the agency determines that such different license will not be inconsistent with the purpose of acquiring the data. If a license of a different scope is acquired, it must be so stated in the contract and clearly set forth in a conspicuous place on the data when delivered to the Government. In addition, if computer software not first produced under a contract is delivered with the copyright notice of 17 U.S.C. 401, the Government's license will be as set forth in paragraph (g)(3) (Alternate III) if included in the clause at 52.227-14, Rights in Data—General, or as otherwise may be provided in a collateral agreement incorporated in or made part of the contract.

(ii) Contractors delivering data with both an authorized limited rights or restricted rights notice and the copyright notice of 17 U.S.C. 401 or 402 should modify the copyright notice to include the following (or similar) statement: "Unpublished—all rights reserved under the copyright laws of the United States." If this statement is omitted, the contractor may be afforded an opportunity to correct it in accordance with paragraph (h) of this section. Otherwise, data delivered with a copyright notice of 17 U.S.C. 401 or 402 may be presumed to be published copyrighted data subject to the applicable license rights set forth in subdivision (f)(2)(i) of this section, without disclosure limitations or restrictions.

(iii) If contractor action causes limited rights or restricted rights data to be published with the copyright notice of 17 U.S.C. 401 or 402 after its delivery to the Government, the Government is relieved of disclosure and use limitations and restrictions regarding such data, and the contractor should advise the Government, request that a copyright notice be placed on the copies of the data delivered to the Government and acknowledge that the applicable copyright license set forth in subdivision (f)(2)(i) of this section applies.

(g) *Release, Publication, and Use of Data.* (1) In paragraph (d) of the clause at 52.227-14, Rights in Data—General, paragraph (d)(1) recognizes the fact that normally the contractor has the right to use, release to others, reproduce,

distribute, or publish data first produced in the performance of a contract, except to the extent such data may be subject to Federal export control or to national security laws or regulations. In addition, to the extent the contractor receives or is given access to data that is necessary for the performance of the contract from or by the Government or others acting on behalf of the Government, and the data contains restrictive markings, paragraph (d)(2) provides an agreement with the contractor to treat the data in accordance with the markings, unless otherwise specifically authorized by the contracting officer.

(2) In contracts for basic or applied research with universities or colleges, no restrictions may be placed upon the conduct of or reporting on the results of unclassified basic or applied research, except as provided in applicable U.S. Statutes. For the purposes of this paragraph, agency restrictions on the release or disclosure of computer software that has been, readily can be, or is intended to be, developed to the point of practical application (including for agency distribution under established programs) are not considered restrictions on the reporting of the results of basic or applied research. Agencies may also restrict claim to copyright in any computer software for purposes of established agency distribution programs, or where required to accomplish the purpose for which the software is produced.

(3) Except for the results of basic or applied research under contracts with universities or colleges, agencies may, to the extent provided in their MMAR supplements, place limitations or restrictions on the contractor's right to use, release to others, reproduce, distribute, or publish any data first produced in the performance of the contract, including a requirement to assign copyright to the Government or another party, either by adding a paragraph (d)(3) to the Rights in Data—General clause at 52.227-14, or by express limitations or restrictions in the contract. In the latter case, the limitations or restrictions should be referenced in the Rights in Data—General clause. However, such regulatory restrictions or limitations are not to be imposed unless they are determined by the agency to be necessary in the furtherance of agency mission objectives, needed to support specific agency programs, or necessary to meet statutory requirements. Notwithstanding the provisions of this paragraph, agencies may obtain, if provided in their MMAR supplement, for information purposes only, advance copies of articles intended for publication in academic, scientific or technical journals or symposia proceedings or similar works.

(h) *Unauthorized Marking of Data.* Except for validation of restrictive markings on technical data under contracts for major systems, or for support of major systems, by agencies subject to the provisions of Title III of the Federal Property and Administrative Services Act of 1949, the Government has, in accordance with paragraph (e) of the clause at 52.227-14, Rights in Data—General, the right to either

return to the contractor data containing markings not authorized by that clause, or to cancel or ignore such markings. However, markings will not be canceled or ignored without making written inquiry of the contractor and affording the contractor at least 30 days to provide a written justification to substantiate the propriety of the markings. Failure of the contractor to respond, or failure to provide a written justification to substantiate the propriety of the markings within the time afforded, may result in the Government's action to cancel or ignore the markings. If the contractor provides a written justification to substantiate the propriety of the markings, it will be considered by the contracting officer and the contractor notified of any determination based thereon. If the contracting officer determines that the markings are authorized, the contractor will be so notified in writing. Further, if the contracting officer determines, with concurrence of the head of the contracting activity, that the markings are not authorized, the contractor will be furnished a written determination which shall become the final agency decision regarding the appropriateness of the markings and the markings will be cancelled or ignored and the data will no longer be made subject to disclosure prohibitions, unless the contractor files suit within 90 days in a court of competent jurisdiction. In any event, the markings will not be cancelled or ignored unless the contractor fails to respond within the period provided, or, if the contractor does respond, until final resolution of the matter, either by the contracting officer's determination becoming the final agency decision or by final disposition of the matter by court decision if suit is filed. In addition, the contractor is not precluded from bringing a claim pursuant to the Disputes clause of this contract if applicable, that may arise as the result of the Government's action to remove or ignore any markings on data, unless such action occurs as the result of a final disposition of the matter by a court of competent jurisdiction.

(i) *Omitted or Incorrect Notices.* (1) Data delivered under a contract containing the clause at 52.227-14, Rights in Data—General, without a limited rights notice or restricted rights notice, and without a copyright notice, will be presumed to have been delivered with unlimited rights, and the Government assumes no liability for the disclosure, use, or reproduction of such data. However, to the extent the data has not been disclosed without restriction outside the Government, the contractor may within 6 months (or a longer period approved by the contracting officer for good cause shown) request permission of the contracting officer to have omitted limited rights or restricted rights notices, as applicable, placed on qualifying data at the contractor's expense, and the contracting officer may agree to so permit if the contractor—

(i) Identifies the data for which a notice is to be added or corrected;

(ii) Demonstrates that the omission of the proposed notice was inadvertent;

(iii) Establishes that use of the proposed notice is authorized; and

(iv) Acknowledges that the Government has no liability with respect to any disclosure or use of any such data made prior to the addition of the notice or resulting from the omission of the notice.

(2) The contracting officer may also—

(i) Permit correction, at the contractor's expense, of incorrect notices if the contractor identifies the data on which correction of the notice is to be made, and demonstrates that the correct notice is authorized; or

(ii) Correct any incorrect notices.

(j) *Inspection of Data at the Contractor's Facility.* Contracting officers may obtain the right to inspect data at the contractor's facility by use of Alternate V, which adds paragraph (j) to provide that right in the clause at 52.227-14, Rights in Data—General. Agencies may also adopt Alternate V for general use. The data subject to inspection may be data withheld or withholdable under paragraph (g)(1) of the clause. Such inspection may be made by the contracting officer or designee (including nongovernmental personnel under the same conditions as the contracting officer) for the purpose of verifying a contractor's assertion regarding the limited rights or restricted rights status of the data, or for evaluating work performance under the contract. This right may be exercised up to 3 years after acceptance of all items to be delivered under the contract. The contract may specify data items that are not subject to inspection under paragraph (j) (Alternate V). If the contractor demonstrates to the contracting officer that there would be a possible conflict of interest if inspection were made by a particular representative, the contracting officer shall designate an alternate representative.

27.405 Other data rights provisions.

(a) *Production of special works.* (1) The clause at 52.227-17, Rights in Data—Special Works, is to be used in contracts (or may be made applicable to portions thereof) that are primarily for the production or compilation of data (other than limited rights data or restricted computer software) for the Government's own use, or when there is a specific need to limit distribution and use of the data and/or to obtain indemnity for liabilities that may arise out of the content, performance, or disclosure of the data. Examples are contracts for—

(i) The production of audiovisual works, including motion pictures or television recordings with or without accompanying sound, or for the preparation of motion picture scripts, musical compositions, sound tracks, translation, adaptation, and the like;

(ii) Histories of the respective agencies, departments, services, or units thereof;

(iii) Surveys of Government establishments;

(iv) Works pertaining to the instruction or guidance of Government officers and employees in the discharge of their official duties;

(v) The compilation of reports, books, studies, surveys, or similar documents that do not involve research, development, or experimental work;

(vi) The collection of data containing personally identifiable information such that the disclosure thereof would violate the right of privacy or publicity of the individual to whom the information relates;

(vii) Investigatory reports;

(viii) The development, accumulation, or compilation of data (other than that resulting from research, development, or experimental work performed by the contractor), the early release of which could prejudice follow-on acquisition activities or agency regulatory or enforcement activities; or

(ix) The development of computer software programs, where the program—

(A) May give a commercial advantage; or

(B) Is agency mission sensitive, and release could prejudice agency mission, programs, or follow-on acquisitions.

(2) The contract may specify the purposes and conditions (including time limitations) under which the data may be used, released, or reproduced other than for contract performance. Contracts for the production of audiovisual works, sound recordings, etc., may include limitations in connection with talent releases, music licenses, and the like that are consistent with the purposes for which the works are acquired.

(3) Subdivision (c)(1)(ii) of the clause at 52.227-17, Rights in Data—Special Works, which enables the Government to obtain assignment of copyright in any data first produced in the performance of the contract, may be deleted if the contracting officer determines that such assignment is not needed to further the objectives of the contract.

(4) Paragraph (e) of the clause, which requires the contractor to indemnify the Government against any liability incurred as the result of any violation of trade secrets, copyrights, right of privacy or publicity, or any libelous or other unlawful matter arising out of or contained in any production or compilation of data that are subject to the clause, may be deleted or limited in scope where the contracting officer determines that, because of the nature of the particular data involved, such liability will not arise.

(5) When the audiovisual or other special works are produced to accomplish a public purpose other than acquisition for the Government's own use (such as for production and distribution to the public of such works by other than a Federal agency) agencies are authorized to modify the

Rights in Data—Special Works clause for use in such contracts, with rights in data provisions which meet agency mission needs yet protect free speech and freedom of expression, as well as the artistic license of the creator of the work.

(b) *Rights relating to existing data other than limited rights data.* (1) Acquisition of existing audiovisual and similar works. The clause at 52.227-18, Rights in Data—Existing Works, is for use in contracts exclusively for the acquisition (without modification) of existing motion pictures, television recordings, and other audiovisual works; sound recordings; musical, dramatic, and literary works; pantomimes and choreographic works; pictorial, graphic, and sculptural works; and works of a similar nature. The contract may set forth limitations consistent with the purposes for which the works covered by the contract are being acquired. Examples of these limitations are (i) means of exhibition or transmission, (ii) time, (iii) type of audience, and (iv) geographical location. If the contract requires that works of the type indicated in paragraph (b)(1) of this section are to be modified through editing, translation, or addition of subject matter, etc. (rather than purchased in existing form) the clause at 52.227-17, Rights in Data—Special Works, is to be used. (See paragraph (a) of this section.)

(2) *Acquisition of existing computer software.*

(i) When contracting other than from GSA's Multiple Award Schedule contracts for the acquisition of existing computer software (*i.e.*, privately developed software normally vended commercially under a license or lease agreement restricting its use, disclosure, or reproduction), no specific contract clause prescribed in this subpart need be used, but the contract (or purchase order) must specifically address the Government's rights to use, disclose and reproduce the software, which rights must be sufficient for the Government to fulfill the need for which the software is being acquired. Such rights may be negotiated and set forth in the contract using the guidance concerning restricted rights as set forth in 27.404(e), or the clause at 52.227-19, Commercial Computer Software—Restricted Rights, may be used. Restricted computer software acquired under GSA Multiple Award Schedule contracts and orders are excluded from this requirement. The guidance concerning rights set forth in 27.404(e), as well as those in the clause at 52.227-19, are the minimum rights the Government usually should accept. Thus if greater rights than these minimum rights are needed, or lesser rights are to be acquired, they must be negotiated and set forth in the contract (or purchase order). This includes any additions to, or limitations on, the rights set forth in paragraph (b) of the clause at 52.227-19 when used. Examples of greater rights may be those necessary for networking purposes or use of the software from remote terminals communicating with a host computer where the software is located. If the computer software is to be acquired with unlimited rights,

the contract must also so state. In addition, the contract must adequately describe the computer programs and/or data bases, the form (tapes, punch cards, disk pack, and the like), and all the necessary documentation pertaining thereto. If the acquisition is by lease or license, the disposition of the computer software (by returning to the vendor or destroying) at the end of the term of the lease or license must be addressed.

(ii) If the contract incorporates, makes reference to, or uses a vendor's standard commercial lease, license, or purchase agreement, such agreement shall be reviewed to assure that it is consistent with subdivision (b)(2)(i) of this section. Caution should be exercised in accepting a vendor's terms and conditions, since they may be directed to commercial sales and may not be appropriate for Government contracts. Any inconsistencies in a vendor's standard commercial agreement shall be addressed in the contract and the contract terms shall take precedence over the vendor's standard commercial agreement. If the clause at 52.227-19, Commercial Computer Software—Restricted Rights, is used, inconsistencies in the vendor's standard commercial agreement regarding the Government's right to use, duplicate or disclose the computer software are reconciled by that clause.

(iii) If a prime contractor under a contract containing the clause at 52.227-14, Rights in Data—General, with paragraph (g)(3) (Alternate III) in the clause, acquires restricted computer software from a subcontractor (at any tier) as a separate acquisition for delivery to or for use on behalf of the Government, the contracting officer may approve any additions to, or limitations on the restricted rights in the Restricted Rights Notice of paragraph (g)(3) in a collateral agreement incorporated in and made part of the contract.

(3) *Other existing data and works.* Except for existing audiovisual and similar works pursuant to paragraph (b)(1) of this section, and existing computer software pursuant to paragraph (b)(2) of this section, no clause contained in this subpart is required to be included in (i) contracts solely for the acquisition of books, periodicals, and other printed items in the exact form in which such items are to be obtained unless reproduction rights are to be acquired; or (ii) other contracts (*e.g.*, contracts resulting from sealed bidding) that require only existing data (other than limited rights data) to be delivered and such data are available without disclosure prohibitions, unless reproduction rights to the data are to be obtained. If the reproduction rights to the data are to be obtained in any contract of the type described in subdivision (b)(3)(i) or (ii) of this section, such rights must be specifically set forth in the contract. No clause contained in this subpart is required to be included in contracts substantially for on-line data base services in the same form as they are normally available to the general public.

27.406 Acquisition of data.

(a) *General.* (1) It is the Government's practice to determine, to the extent feasible, its data requirements in time for inclusion in solicitations. The data requirements may be subject to revision during contract negotiations. Since the preparation, reformatting, maintenance and updating, cataloging, and storage of data represents an expense to both the Government and the contractor, efforts should be made to keep the contract data requirements to a minimum, consistent with the purposes of the contract.

(2) To the extent feasible, all known data requirements, including the time and place for delivery and any limitations and restrictions to be imposed on the contractor in the handling of the data, shall be specified in the contract. Further, and to the extent feasible, in major system acquisitions, data requirements shall be set out as separate contract line items. In establishing the contract data requirements and in specifying data items to be delivered by a contractor, agencies may, consistent with paragraph (a)(1) of this section, develop their own contract schedule provisions in agency procedures (including data requirements lists) for listing, specifying, identifying source, assuring delivery, and handling any data required to be delivered, first produced, or specifically used in the performance of the contract.

(3) Data delivery requirements should normally not require that a contractor provide the Government, as a condition of the procurement, unlimited rights in data that qualify as limited rights data or restricted computer software. Rather, form, fit, and function data may be furnished with unlimited rights in lieu of the qualifying data, or the qualifying data may be furnished with limited rights or restricted rights if needed (see 27.404(d) and (e)). If greater rights are needed such need should be clearly set forth in the solicitation and the contractor fairly compensated for such greater rights.

(b) *Additional data requirements.* (1) Recognizing that in some contracting situations, such as experimental, developmental, research, or demonstration contracts, it may not be feasible to ascertain all the data requirements at the time of contracting, the clause at 52.227-16, Additional Data Requirements, may be used to enable the subsequent ordering by the contracting officer of additional data first produced or specifically used in the performance of such contracts as the actual requirements become known. The clause shall normally be used in solicitations and contracts involving experimental, developmental, research or demonstration work (other than basic or applied research to be performed under a contract solely by a university or college when the contract amount will be \$500,000 or less) unless all the requirements for data are believed to be known at the time of contracting and specified in the contract. If the contract is for basic or applied research to be performed by a

university or college, and the contracting officer believes the contract effort will in the future exceed \$500,000, even though the initial award does not, the contracting officer may include the clause in the initial award.

(2) Data may be ordered under the clause at 52.227-16, Additional Data Requirements, at any time during contract performance or within a period of 3 years after acceptance of all items to be delivered under the contract. The contractor is to be compensated for converting the data into the prescribed form, for reproduction, and for delivery. In order to minimize storage costs for the retention of data, the contractor may be relieved of retention requirements for specified data items by the contracting officer at any time during the retention period required by the clause. The contracting officer may permit the contractor to identify and specify in the contract data not to be ordered for delivery under the Additional Data Requirements clause if such data is not necessary to meet the Government's requirements for data. Also, the contracting officer may alter the Additional Data Requirements clause by deleting the term "or specifically used" in paragraph (a) thereof if delivery of such data is not necessary to meet the Government's requirements for data. Any data ordered under this clause will be subject to the Rights in Data—General clause (or other equivalent clause setting forth the respective rights of the Government and the contractor) in the contract, and data authorized to be withheld under such clause will not be required to be delivered under the Additional Data Requirements clause, except as provided in Alternate II or Alternate III, if included in the clause (see 27.404(d) and (e)).

(3) Agencies not having an established program for dissemination of computer software shall give consideration to not ordering additional computer software under the clause at 52.227-16, Additional Data Requirements, for the sole purpose of disseminating or marketing of the software to the public especially if this will provide the contractor additional incentive to make improvements to the software at its own expense and disseminate or market it. This should not preclude an agency from including a summary description of computer software available from a contractor in any data dissemination programs which it operates, with a statement as to how the potential user can obtain it through the contractor, licensee, or assignee. In cases where the contracting officer orders software for internal purposes, consideration shall be given, consistent with the Government's needs, to not ordering particular source codes, algorithms, processes, formulae or flow charts of the software if the contractor shows that this aids its efforts to disseminate or market the software.

(c) *Acceptance of data.* As required by 41 U.S.C. 418a (d)(7), acceptability of technical data delivered under a contract shall be in accordance with the appropriate contract

clause as required by Subpart 46.3, and the clause at 52.227-21, Technical Data Declaration, Revision, and Withholding of Payment—Major Systems, when it is included in the contract. (See paragraph (d) of this section.)

(d) *Major System Acquisition.* (1) In order to assure that technical data needed to support a major system acquisition are timely delivered and are complete, accurate, and satisfy the requirements of the contract concerning the data, the clause at 52.227-21, Technical Data Declaration, Revision, and Withholding of Payment—Major Systems, is to be included in contracts for or in support of a major system (as the term "major system" is defined in Section 4 of the Office of Federal Procurement Policy Act, as amended by Pub. L. 98-577), including every detailed design, development, or production contract for a major system acquisition and contracts for any individual part, component, subassembly, assembly, or subsystem integral to the major system, and other property which may be replaced during the service life of the system, and including spare parts and replenishment spare parts.

(2) The clause at 52.227-21, Technical Data, Declaration, Revision, and Withholding of Payment—Major Systems, requires the contractor, upon delivery of any technical data made subject to the clause in the contract, to declare that to the best of its knowledge and belief, such data are complete, accurate, and comply with contract requirements. It also provides for corrections of any deficiencies in the data, as well as for the ability of the contracting officer to request revisions of the data to reflect engineering design changes made during performance of the contract and affecting form, fit, and function of the items the data depict. Further included is the authority for the contracting officer to withhold payment under the contract to assure timely delivery of the technical data and/or assure correction if the technical data are not complete, accurate, and in compliance with contract requirements.

(3) When the clause at 52.227-21, Technical Data, Declaration, Revision and Withholding of Payment—Major Systems, is used, the section of the contract specifying data delivery requirements (see paragraph (a)(2) of this section) shall expressly identify those line items of technical data to which the clause applies. Upon delivery of such technical data, the contracting officer or designee shall review the technical data and the contractor's declaration relating thereto to assure that the data are complete, accurate, and comply with contract requirements. If not, the contractor is to be requested to correct the deficiencies, and payment may be withheld until such is done. Final payment should not be made under the contract until it has been determined that the delivery requirements of those line items of data to which the clause applies have been satisfactorily met.

(4) In a contract for or in support of a major system the contracting officer shall include contractual provisions requiring, as an element of performance under the contract, the delivery of any technical data, other than computer software, relating to the major system or supplies for the major system procured or to be procured by the Government, which are to be developed exclusively with Federal funds in the performance of the contract if the delivery of such technical data is needed to ensure the competitive acquisition of supplies or services that will be required in substantial quantities in the future. The clause at 52.227-22, Major System—Minimum Rights, is to be included in such contracts in addition to the clause at 52.227-14, Rights in Data—General, and other required clauses, to ensure that the Government acquires at least those rights required by Pub. L. 98-577 in technical data developed exclusively with Federal funds. In any contract to which this paragraph (d)(4) applies, technical data, other than computer software, relating to a major system or supplies for a major system, procured or to be procured by the Government and also relating to the design, development, or manufacture of products or processes offered or to be offered for sale to the public (except for such data as may be necessary for the Government to operate or maintain the product, or use the process if obtained by the United States as an element of performance under the contract), shall not be required to be provided to the Government from persons who have developed such products or processes as a condition for the procurement of such products or processes by the Government.

27.407 Rights to technical data in successful proposals.

(a) Contracting officers may, in consideration of contract award, desire to acquire unlimited rights in technical data (but not commercial or financial information) contained in a successful proposal upon which a contract award is based. However, before such unlimited rights are acquired, the prospective contractor must be afforded the opportunity either—

(1) To advise the contracting officer that the technical data, or portions thereof (to be identified by the prospective contractor), are covered by any restrictive notice regarding the disclosure and use of proposal information authorized by Subpart 15.2 or 15.6 (or any agency supplement thereto), and request that such protection be maintained by excluding the data from the Government's rights; or

(2) To establish to the contracting officer's satisfaction that identified portions of the technical data do not relate directly to or will not be utilized in the work to be performed under the contract, and request that such portions be excluded from the Government's rights.

(b) If unlimited rights to technical data in successful proposals, as set forth in paragraph (a) of this section, are to be acquired, it shall be by use of the clause at 52.227-23, Rights

to Proposal Data (Technical). Any excluded technical data will be identified by inserting appropriate proposal page numbers in the clause, which clause enables the identification of data to be excluded from the Government's rights, as discussed in paragraph (a) of this section. Such exclusion is not dispositive of the protective status of the data, but any excluded technical data, as well as any commercial and financial information contained in the proposal, will remain subject to the policies in Subpart 15.2 or 15.6 (or agency supplements thereto) relating to proposal information (*i.e.*, will be used for evaluation purposes only). If the clause at 52.227-23, Rights to Proposal Data (Technical), is included in a contract, the prospective contractor must be specifically afforded the opportunity to exclude technical data as set forth in paragraph (a) of this section, and the contract file must reflect that fact. If there is a need to have access to any of the excluded technical data during contract performance, consideration should be given to their acquisition as limited rights data, if they so qualify, in accordance with 27.404(d).

27.408 Cosponsored research and development activities.

(a) In contracts involving cosponsored research and development wherein the contractor is required to make substantial contributions of funds or resources (*i.e.*, by cost-sharing or by repayment of nonrecurring costs), and the contractor's and the Government's respective contributions to any item, component, process, or computer software, developed or produced under the contract are not readily segregable, the contracting officer may limit the acquisition of or acquire less than unlimited rights to any data developed and delivered under such contract. Agencies may regulate the use of this authority in their supplements. Basically such rights should, at a minimum, assure use of the data for agreed-to Governmental purposes (including reprocurement rights as appropriate), and will address any disclosure limitations or restrictions to be imposed on the data. Also, consideration may be given to directed licensing provisions if needed to carry out the objectives of the contract. Since the purpose of the cosponsored research and development, the legitimate proprietary interests of the contractor, the needs of the Government, and the respective contributions of both parties may vary, no specific clauses are prescribed, but a clause providing less than unlimited rights in the Government for data developed and delivered under the contract (such as license rights) may be tailored to the circumstances consistent with the foregoing and the policy set forth in 27.402. As a guide, such clause may be appropriate when the contractor contributes money or resources, or agrees to make repayment of nonrecurring costs, of a value of approximately 50 percent of the total cost of the contract (*i.e.*, Government, contractor, and/or third party paid costs), and the respective contributions are not readily segregable for any

work element to be performed under the contract. Such clause may be used for all or for only specifically identified tasks or work elements under the contract. In the latter instance, its use will be in addition to whatever other data rights clause is prescribed under this subpart, with the contract specifically identifying which clause is to apply to which tasks or work elements. Further, such clause may not be appropriate where the purpose of the contract is to produce data for dissemination to the public, or to develop or demonstrate technologies which will be available, in any event, to the public for their direct use.

(b) Where the contractor's contributions are readily segregable (by performance requirements and the funding therefor) and so identified in the contract, any data resulting therefrom may be treated under such clause as limited rights data or restricted computer software in accordance with 27.404(d) or (e), as applicable; or if such treatment is inconsistent with the purpose of the contract, rights to such data may, if so negotiated and stated in the contract, be treated in a manner consistent with paragraph (a) of this section.

27.409 Solicitation provisions and contract clauses.

(a)(1) The contracting officer shall insert the clause at 52.227-14, Rights in Data—General, including its use with Alternate I through Alternate V as may be required or authorized in accordance with paragraphs (b) through (f) of this section, in solicitations and contracts if it is contemplated that data will be produced, furnished, or acquired under the contract, unless the contract is—

(i) For the production of special works of the type set forth in 27.405(a), but the clause at 52.227-14, Rights in Data—General, shall be included in the contract and made applicable to data other than special works, as appropriate;

(ii) For the acquisition of existing data works, as described in 27.405(b);

(iii) To be performed outside the United States, its possessions, and Puerto Rico, in which case agencies may prescribe different clauses (see paragraph (n) of this section);

(iv) For architect-engineer services or construction work, in which case agencies may utilize the clause at 52.227-17, Rights in Data—Special Works, or may prescribe different clauses;

(v) For the management, operation, design, or construction of a Government-owned facility to perform research, development, or production work, in which case agencies may prescribe different clauses (see paragraph (p) of this section); or

(vi) A contract involving cosponsored research and development in which a clause providing for less than unlimited right has been authorized. (See 27.408.)

(2) Paragraph (e)(3) of the clause at 52.227-14, Rights in Data—General, may be deleted or reserved by an agency not subject to Title III of the Federal Property and Administrative Services Act.

(b) If an agency determines, in accordance with 27.404(c), to adopt the alternate definition of "Limited Rights Data" in paragraph (a) of the clause, the clause shall be used with its Alternate I.

(c) In accordance with 27.404(d), if a contracting officer determines it is necessary to obtain the delivery of limited rights data, the clause shall be used with its Alternate II. The contracting officer shall, when Alternate II is used, assure that the purposes, if any, for which limited rights data are to be disclosed outside the Government are included in the "Limited Rights Notice" of paragraph (g)(2) of the clause.

(d) In accordance with 27.404(e), if a contracting officer determines it is necessary to obtain the delivery of restricted computer software, the clause shall be used with its Alternate III. Any greater or lesser rights regarding the use, duplication, or disclosure of restricted computer software than those set forth in the Restricted Rights Notice of paragraph (g)(3) of the clause must be specified in the contract and the notice modified accordingly.

(e) The clause shall be used with its Alternate IV in contracts for basic or applied research (other than those for the management or operation of Government facilities or where international agreements require otherwise), to be performed solely by universities and colleges. The clause may be used with its Alternate IV in other contracts if in accordance with 27.404(f)(1) an agency determines to grant blanket permission for the contractor to establish claim to copyright subsisting in all data first produced without further request being made by the contractor. When Alternate IV is used, the contract may exclude items or categories of data from the blanket permission granted, either by express provisions in the contract or by the addition of a paragraph (d)(3) to the clause (see 27.404(g)(1)).

(f) In accordance with 27.404(i), if a contracting officer needs to have the right to inspect certain data at a contractor's facility or if by an agency, generally the clause shall be used with its Alternate V.

(g) In accordance with 27.404(d)(2), if the contracting officer desires to have an offeror state in response to a solicitation, to the extent feasible, whether limited rights data or restricted computer software are likely to be used in meeting the data delivery requirements set forth in the solicitation, the contracting officer shall insert the provision at 52.227-15, Representation of Limited Rights Data and Restricted Computer Software, in any solicitation containing the clause at 52.227-14, Rights in Data—General. The contractor's response will provide an aid in determining whether the clause should be used with Alternate II and/or Alternate III.

(h) The contracting officer shall normally insert the clause at 52.227-16, Additional Data Requirements, in solicitations and contracts involving experimental, developmental, research, or demonstration work (other than basic or applied research to be performed solely by a university or college where the contract amount will be \$500,000 or less) unless all the requirements for data are believed to be known at the time of contracting and specified in the contract. (See 27.406(b).) This clause may also be used in other contracts when considered appropriate.

(i) In accordance with 27.405(a), the contracting officer shall insert the clause at 52.227-17, Rights in Data—Special Works, in solicitations and contracts primarily for the production or compilation of data (other than limited rights data or restricted computer software) for the Government's internal use, or when there is a specific need to limit distribution and use of the data and/or to obtain indemnity for liabilities that may arise out of the content, performance, or disclosure of the data. Examples of such contracts are set forth in 27.405(a). The contract may specify the purposes and conditions (including time limitations) under which the data may be used, released or reproduced by the contractor for other than contract performance. Contracts for the production of audiovisual works, sound recordings, etc. may include limitations in connection with talent releases, music licenses, and the like that are consistent with the purposes for which the data is acquired.

(j) The contracting officer shall insert the clause at 52.227-18, Rights in Data—Existing Works, in solicitations and contracts exclusively for the acquisition, without modification, of existing audiovisual and similar works of the type set forth in 27.405(b)(1). The contract may set forth limitations consistent with the purposes for which the work is being acquired. The clause at 52.227-17, Rights in Data—Special Works, shall be used if existing works are to be modified, as by editing, translation, addition of subject matter, etc.

(k) In accordance with 27.405(b)(2), when contracting (other than from GSA's Multiple Award Schedule contracts) for the acquisition of existing computer software, the clause at 52.227-19, Commercial Computer Software-Restricted Rights, may be used in the solicitation and contract. In any event, the contracting officer shall assure that the contract contains terms to obtain sufficient rights for the Government to fulfill the need for which the software is being acquired and is otherwise consistent with 27.405(b)(2).

(l) While no specific clause of this subpart is required to be included in contracts solely for the acquisition, without disclosure prohibitions, of books, publications and similar items in the exact form in which such items exist prior to the request for purchase (*i.e.*, the off-the-shelf purchase of such items), or in other contracts (*e.g.*, contracts resulting from sealed bidding) where only existing data available without disclosure prohibitions is to be furnished, if reproduction rights are to be acquired the contract shall include terms addressing such rights. (See 27.405(b)(3).)

(m) Agencies may prescribe in their procedures, as appropriate, a clause consistent with the policy of 27.402 in contracts to be performed outside the United States, its possessions, and Puerto Rico.

(n) Agencies may prescribe in their procedures the clause at 52.227-17, Rights in Data—Special Works, or prescribe, as appropriate, clauses consistent with the policy in 27.402 in contracts for architect-engineer services and construction work.

(o) Agencies may prescribe in their procedures, as appropriate, a clause consistent with the policy of 27.402 in contracts for management, operation, design, or construction of Government-owned research, development, or production facilities, and in contracts and subcontracts in support of programs being conducted at such facilities.

(p) In accordance with 27.406(d), the contracting officer shall insert the clause at 52.227-21, Technical Data Declaration, Revision, and Withholding of Payment—Major Systems, in contracts for major systems acquisitions or for support of major systems acquisitions. When used, this clause requires that the technical data to which it applies be specified in the contract. (See 27.406(d).)

(q) The contracting officer shall insert the clause at 52.227-22, Major System—Minimum Rights, in contracts for major systems or contracts in support of major systems.

(r) In accordance with 27.407, if a contracting officer desires to acquire unlimited rights in technical data contained in a successful proposal upon which a contract award is based, the contracting officer shall insert the clause at 52.227-23, Rights to Proposed Data (Technical). Rights to technical data in a proposal are not acquired by mere incorporation by reference of the proposal in the contract, and if a proposal is incorporated by reference, Section 27.404 must be followed to assure that such rights are appropriately addressed.

Subpart 27.5—[Reserved]

Subpart 27.6—Foreign License and Technical Assistance Agreements

27.601 General.

MMS shall provide all necessary rules and regulations as are required for the proper application of the laws and policies of the U.S. Government regarding—

(a) Elimination in agreements between domestic concerns and foreign governments or foreign concerns of charges for the use of patents in which the U.S. Government has a royalty-free license or of charges in agreements for the use of data that the U.S. Government has a right to use and disclose to others, that is in the public domain, or that was acquired

by the U.S. Government with the unrestricted right to use, duplicate, or disclose and to have or permit others to do so;

(b) Foreign license and technical assistance agreements between the U.S. Government and United States domestic concerns;

(c) Guidance on negotiating contract prices and terms concerning patents and data, including royalties, in contracts between the U.S. Government and a foreign government or foreign concern; and

(d) Regulations and guidance on controls on the exportation of data relating to certain designated items, such as arms or munitions of war, and guidance on reviews of agreements involving such data (see 22 CFR 124).

REGULATION**

**SUBCHAPTER E—GENERAL CONTRACTING
REQUIREMENTS**

PART 28—BONDS AND INSURANCE

Sec.

- 28.000 Scope of part.
- 28.001 Definitions.

Subpart 28.1—Bonds and Other Financial Protections

- 28.100 Scope of subpart.
- 28.101 Bid guarantees.
- 28.101-1 Policy on use.
- 28.101-2 Solicitation provision or contract clause.
- 28.101-3 [Reserved]
- 28.101-4 Noncompliance with bid guarantee requirements.
- 28.102 Performance and payment bonds and alternative payment protections for construction contracts.
- 28.102-1 General.
- 28.102-2 Amount required.
- 28.102-3 Contract clauses.
- 28.103 Performance and payment bonds for other than construction contracts.
- 28.103-1 General.
- 28.103-2 Performance bonds.
- 28.103-3 Payment bonds.
- 28.103-4 Contract clause.
- 28.104 Annual performance bonds.
- 28.105 Other types of bonds.
- 28.105-1 Advance payment bonds.
- 28.105-2 Patent infringement bonds.
- 28.106 Administration.
- 28.106-1 Bonds and bond-related forms.
- 28.106-2 Substitution of surety bonds.
- 28.106-3 Additional bond and security.
- 28.106-4 Contract clause.
- 28.106-5 Consent of surety.
- 28.106-6 Furnishing information.
- 28.106-7 Withholding contract payments.
- 28.106-8 Payment to subcontractors or suppliers.

Subpart 28.2—Sureties and Other Security for Bonds

- 28.200 Scope of subpart.
- 28.201 Requirements for security.
- 28.202 Acceptability of corporate sureties.
- 28.203 Acceptability of individual sureties.

- 28.203-1 Security interests by an individual surety.
- 28.203-2 Acceptability of assets.
- 28.203-3 Acceptance of real property.
- 28.203-4 Substitution of assets.
- 28.203-5 Release of lien.
- 28.203-6 Contract clause.
- 28.203-7 Exclusion of individual sureties.
- 28.204 Alternatives in lieu of corporate or individual sureties.
- 28.204-1 United States bonds or notes.
- 28.204-2 Certified or cashier's checks, bank drafts, money orders, or currency.
- 28.204-3 Irrevocable letter of credit (ILC).
- 28.204-4 Contract clause.

Subpart 28.3—Insurance

- 28.301 Policy.
- 28.302 Notice of cancellation or change.
- 28.303 Insurance against loss of or damage to Government property.
- 28.304 Risk-pooling arrangements.
- 28.305 [Reserved]
- 28.306 Insurance under fixed-price contracts.
- 28.307 Insurance under cost-reimbursement contracts.
- 28.307-1 Group insurance plans.
- 28.307-2 Liability.
- 28.308 Self-insurance.
- 28.309 Contract clauses for workers' compensation insurance.
- 28.310 Contract clause for work on a Government installation.
- 28.311 Solicitation provision and contract clause on liability insurance under cost-reimbursement contracts.
- 28.311-1 Contract clause.
- 28.311-2 Agency solicitation provisions and contract clauses.
- 28.312 Contract clause for insurance of leased motor vehicles.
- 28.313 Contract clauses for insurance of transportation or transportation-related services.

This page intentionally left blank.

28.000 Scope of part.

This part prescribes requirements for obtaining financial protection against losses under contracts that result from the use of the sealed bid or negotiated methods. It covers bid guarantees, bonds, alternative payment protections, security for bonds, and insurance.

28.001 Definitions.

As used in this part—

“Attorney-in-fact” means an agent, independent agent, underwriter, or any other company or individual holding a power of attorney granted by a surety (see also “power of attorney” at 2.101).

“Bid” means any response to a solicitation, including a proposal under a negotiated acquisition. See the definition of “offer” at 2.101.

“Bid guarantee” means a form of security assuring that the bidder—

(1) Will not withdraw a bid within the period specified for acceptance; and

(2) Will execute a written contract and furnish required bonds, including any necessary coinsurance or reinsurance agreements, within the time specified in the bid, unless a longer time allowed, after receipt of the specified forms.

“Bidder” means any entity that is responding or has responded to a solicitation, including an offeror under a negotiated acquisition.

“Bond” means a written instrument executed by a bidder or contractor (the “principal”), and a second party (the “surety” or “sureties”) (except as provided in 28.204), to assure fulfillment of the principal’s obligations to a third party (the “obligee” or “Government”), identified in the bond. If the principal’s obligations are not met, the bond assures payment, to the extent stipulated, of any loss sustained by the obligee. The types of bonds and related documents are as follows:

(1) An advance payment bond secures fulfillment of the contractor’s obligations under an advance payment provision.

(2) An annual bid bond is a single bond furnished by a bidder, in lieu of separate bonds, which secure all bids (on other than construction contracts) requiring bonds submitted during a specific Government fiscal year.

(3) An annual performance bond is a single bond furnished by a contractor, in lieu of separate performance bonds, to secure fulfillment of the contractor’s obligations under contracts (other than construction contracts) requiring bonds entered into during a specific Government fiscal year.

(4) A patent infringement bond secures fulfillment of the contractor’s obligations under a patent provision.

(5) A payment bond assures payments as required by law to all persons supplying labor or material in the prosecution of the work provided for in the contract.

(6) A performance bond secures performance and fulfillment of the contractor’s obligations under the contract.

“Consent of surety” means an acknowledgment by a surety that its bond given in connection with a contract continues to apply to the contract as modified.

“Penal sum” or “penal amount” means the amount of money specified in a bond (or a percentage of the bid price in a bid bond) as the maximum payment for which the surety is obligated or the amount of security required to be pledged to the Government in lieu of a corporate or individual surety for the bond.

“Reinsurance” means a transaction which provides that a surety, for a consideration, agrees to indemnify another surety against loss which the latter may sustain under a bond which it has issued.

Subpart 28.1—Bonds and Other Financial Protections

28.100 Scope of subpart.

This subpart prescribes requirements and procedures for the use of bonds, alternative payment protections, and all types of bid guarantees.

28.101 Bid guarantees.

28.101-1 Policy on use.

(a) A contracting officer shall not require a bid guarantee unless a performance bond or a performance and payment bond is also required (see 28.102 and 28.103). Except as provided in paragraph (c) of this subsection, bid guarantees shall be required whenever a performance bond or a performance and payment bond is required.

(b) All types of bid guarantees are acceptable for supply or service contracts (see annual bid bonds and annual performance bonds coverage in 28.001). Only separate bid guarantees are acceptable in connection with construction contracts. Agencies may specify that only separate bid bonds are acceptable in connection with construction contracts.

(c) The chief of the contracting office may waive the requirement to obtain a bid guarantee when a performance bond or a performance and payment bond is required if it is determined that a bid guarantee is not in the best interest of the Government for a specific acquisition (*e.g.*, overseas construction, emergency acquisitions, sole-source contracts). Class waivers may be authorized by the agency head or designee.

28.101-2 Solicitation provision or contract clause.

(a) The contracting officer shall insert a provision or clause substantially the same as the provision at 52.228-1, Bid Guarantee, in solicitations or contracts that require a bid guarantee or similar guarantee. For example, the contracting officer may modify this provision—

(1) To set a period of time that is other than 10 days for the return of executed bonds;

(2) For use in connection with construction solicitations when the agency has specified that only separate bid bonds are acceptable in accordance with 28.101-1(b);

(3) For use in solicitations for negotiated contracts; or

(4) For use in service contracts containing options for extended performance.

(b) The contracting officer shall determine the amount of the bid guarantee for insertion in the provision at 52.228-1 (see 28.102-2(a)). The amount shall be adequate to protect the Government from loss should the successful bidder fail to execute further contractual documents and bonds as required. The bid guarantee amount shall be at least 20 percent of the bid price but shall not exceed \$3 million. When the penal sum is expressed as a percentage, a maximum dollar limitation may be stated.

28.101-3 [Reserved]

28.101-4 Noncompliance with bid guarantee requirements.

(a) In sealed bidding, noncompliance with a solicitation requirement for a bid guarantee requires rejection of the bid, except in the situations described in paragraph (c) of this subsection when the noncompliance shall be waived.

(b) In negotiation, noncompliance with a solicitation requirement for a bid guarantee requires rejection of an initial proposal as unacceptable, if a determination is made to award the contract based on initial proposals without discussion, except in the situations described in paragraph (c) of this subsection when noncompliance shall be waived. (See 15.306(a)(2) for conditions regarding making awards based on initial proposals.) If the conditions for awarding based on initial proposals are not met, deficiencies in bid guarantees submitted by offerors determined to be in the competitive range shall be addressed during discussions and the offeror shall be given an opportunity to correct the deficiency.

(c) Noncompliance with a solicitation requirement for a bid guarantee shall be waived in the following circumstances unless the contracting officer determines in writing that acceptance of the bid would be detrimental to the Government's interest when—

(1) Only one offer is received. In this case, the contracting officer may require the furnishing of the bid guarantee before award;

(2) The amount of the bid guarantee submitted is less than required, but is equal to or greater than the difference between the offer price and the next higher acceptable offer;

(3) The amount of the bid guarantee submitted, although less than that required by the solicitation for the maximum quantity offered, is sufficient for a quantity for which the offeror is otherwise eligible for award. Any award to the offeror shall not exceed the quantity covered by the bid guarantee;

(4) The bid guarantee is received late, and late receipt is waived under 14.304;

(5) A bid guarantee becomes inadequate as a result of the correction of a mistake under 14.407 (but only if the bidder will increase the bid guarantee to the level required for the corrected bid);

(6) A telegraphic offer modification is received without corresponding modification of the bid guarantee, if the modification expressly refers to the previous offer and the offeror corrects any deficiency in bid guarantee;

(7) An otherwise acceptable bid bond was submitted with a signed offer, but the bid bond was not signed by the offeror;

(8) An otherwise acceptable bid bond is erroneously dated or bears no date at all; or

(9) A bid bond does not list the United States as obligee, but correctly identifies the offeror, the solicitation number, and the name and location of the project involved, so long as it is acceptable in all other respects.

28.102 Performance and payment bonds and alternative payment protections for construction contracts.

28.102-1 General.

(a) The Miller Act (40 U.S.C. 270a-270f) requires performance and payment bonds for any construction contract exceeding \$100,000, except that this requirement may be waived—

(1) By the contracting officer for as much of the work as is to be performed in a foreign country upon finding that it is impracticable for the contractor to furnish such bond; or

(2) As otherwise authorized by the Miller Act or other law.

(b)(1) Pursuant to Section 4104(b)(2) of the Federal Acquisition Streamlining Act of 1994 (Public Law 103-355), for construction contracts greater than \$25,000, but not greater than \$100,000, the contracting officer shall select two or more of the following payment protections, giving particular consideration to inclusion of an irrevocable letter of credit as one of the selected alternatives:

(i) A payment bond.

(ii) An irrevocable letter of credit (ILC).

(iii) A *tripartite escrow agreement*. The prime contractor establishes an escrow account in a federally insured financial institution and enters into a tripartite escrow agreement with the financial institution, as escrow agent, and all of the suppliers of labor and material. The escrow agreement shall establish the terms of payment under the contract and of resolution of disputes among the parties. The Government makes payments to the contractor's escrow account, and the escrow agent distributes the payments in accordance with the agreement, or triggers the disputes resolution procedures if required.

(iv) *Certificates of deposit.* The contractor deposits certificates of deposit from a federally insured financial institution with the contracting officer, in an acceptable form, executable by the contracting officer.

(v) A deposit of the types of security listed in 28.204-1 and 28.204-2.

(2) The contractor shall submit to the Government one of the payment protections selected by the contracting officer.

(c) The contractor shall furnish all bonds or alternative payment protection, including any necessary reinsurance agreements, before receiving a notice to proceed with the work or being allowed to start work.

28.102-2 Amount required.

(a) *Definition.* As used in this subsection—

“Original contract price” means the award price of the contract; or, for requirements contracts, the price payable for the estimated total quantity; or, for indefinite-quantity contracts, the price payable for the specified minimum quantity. Original contract price does not include the price of any options, except those options exercised at the time of contract award.

(b) *Contracts exceeding \$100,000 (Miller Act)*—(1) *Performance bonds.* Unless the contracting officer determines that a lesser amount is adequate for the protection of the Government, the penal amount of performance bonds must equal—

- (i) 100 percent of the original contract price; and
- (ii) If the contract price increases, an additional amount equal to 100 percent of the increase.

(2) *Payment bonds.* (i) Unless the contracting officer makes a written determination supported by specific findings that a payment bond in this amount is impractical, the amount of the payment bond must equal—

(A) 100 percent of the original contract price; and

(B) If the contract price increases, an additional amount equal to 100 percent of the increase.

(ii) The amount of the payment bond must be no less than the amount of the performance bond.

(c) *Contracts exceeding \$25,000 but not exceeding \$100,000.* Unless the contracting officer determines that a lesser amount is adequate for the protection of the Government, the penal amount of the payment bond or the amount of alternative payment protection must equal—

- (1) 100 percent of the original contract price; and
- (2) If the contract price increases, an additional amount equal to 100 percent of the increase.

(d) *Securing additional payment protection.* If the contract price increases, the Government must secure any needed additional protection by directing the contractor to—

- (1) Increase the penal sum of the existing bond;

(2) Obtain an additional bond; or

(3) Furnish additional alternative payment protection.

(e) *Reducing amounts.* The contracting officer may reduce the amount of security to support a bond, subject to the conditions of 28.203-5(c) or 28.204(b).

28.102-3 Contract clauses.

(a) Insert a clause substantially the same as the clause at 52.228-15, Performance and Payment Bonds—Construction, in solicitations and contracts for construction that contain a requirement for performance and payment bonds if the resultant contract is expected to exceed \$100,000. The contracting officer may revise paragraphs (b)(1) and/or (b)(2) of the clause to establish a lower percentage in accordance with 28.102-2(b). If the provision at 52.228-1 is not included in the solicitation, the contracting officer must set a period of time for return of executed bonds.

(b) Insert the clause at 52.228-13, Alternative Payment Protections, in solicitations and contracts for construction, when the estimated or actual value exceeds \$25,000 but does not exceed \$100,000. Complete the clause by specifying the payment protections selected (see 28.102-1(b)(1)) and the deadline for submission. The contracting officer may revise paragraph (b) of the clause to establish a lower percentage in accordance with 28.102-2(c).

28.103 Performance and payment bonds for other than construction contracts.

28.103-1 General.

(a) Generally, agencies shall not require performance and payment bonds for other than construction contracts. However, performance and payment bonds may be used as permitted in 28.103-2 and 28.103-3.

(b) The contractor shall furnish all bonds before receiving a notice to proceed with the work.

(c) No bond shall be required after the contract has been awarded if it was not specifically required in the contract, except as may be determined necessary for a contract modification.

28.103-2 Performance bonds.

(a) Performance bonds may be required for contracts exceeding the simplified acquisition threshold when necessary to protect the Government's interest. The following situations may warrant a performance bond:

(1) Government property or funds are to be provided to the contractor for use in performing the contract or as partial compensation (as in retention of salvaged material).

(2) A contractor sells assets to or merges with another concern, and the Government, after recognizing the latter concern as the successor in interest, desires assurance that it is financially capable.

(3) Substantial progress payments are made before delivery of end items starts.

(4) Contracts are for dismantling, demolition, or removal of improvements.

(b) The Government may require additional performance bond protection when a contract price is increased.

(c) The contracting officer must determine the contractor's responsibility (see Subpart 9.1) even though a bond has been or can be obtained.

28.103-3 Payment bonds.

(a) A payment bond is required only when a performance bond is required, and if the use of payment bond is in the Government's interest.

(b) When a contract price is increased, the Government may require additional bond protection in an amount adequate to protect suppliers of labor and material.

28.103-4 Contract clause.

The contracting officer shall insert a clause substantially the same as the clause at 52.228-16, Performance and Payment Bonds—Other than Construction, in solicitations and contracts that contain a requirement for both payment and performance bonds. The contracting officer shall determine the amount of each bond for insertion in the clause. The amount shall be adequate to protect the interest of the Government. The contracting officer shall also set a period of time (normally 10 days) for return of executed bonds. Alternate I shall be used when only performance bonds are required.

28.104 Annual performance bonds.

(a) Annual performance bonds only apply to nonconstruction contracts. They shall provide a gross penal sum applicable to the total amount of all covered contracts.

(b) When the penal sums obligated by contracts are approximately equal to or exceed the penal sum of the annual performance bond, an additional bond will be required to cover additional contracts.

28.105 Other types of bonds.

The head of the contracting activity may approve using other types of bonds in connection with acquiring particular supplies or services. These types include advance payment bonds and patent infringement bonds.

28.105-1 Advance payment bonds.

Advance payment bonds may be required only when the contract contains an advance payment provision and a performance bond is not furnished. The contracting officer shall determine the amount of the advance payment bond necessary to protect the Government.

28.105-2 Patent infringement bonds.

(a) Contracts providing for patent indemnity may require these bonds only if—

(1) A performance bond is not furnished; and

(2) The financial responsibility of the contractor is unknown or doubtful.

(b) The contracting officer shall determine the penal sum.

28.106 Administration.

28.106-1 Bonds and bond-related forms.

The following Standard Forms (SF's) and Optional Forms (OF's) shown in 53.301 and 53.302, shall be used, except in foreign countries, when a bid bond, performance or payment bond, or an individual surety is required. The bond forms shall be used as indicated in the instruction portion of each form:

(a) SF 24, Bid Bond (see 28.101).

(b) SF 25, Performance Bond (see 28.102-1 and 28.106-3(b)).

(c) SF 25-A, Payment Bond (see 28.102-1 and 28.106-3(b)).

(d) SF 25-B, Continuation Sheet (for SF's 24, 25, and 25-A).

(e) SF 28, Affidavit of Individual Surety (see 28.203).

(f) SF 34, Annual Bid Bond (see 28.001).

(g) SF 35, Annual Performance Bond (see 28.104).

(h) SF 273, Reinsurance Agreement for a Miller Act Performance Bond (see 28.202(a)(4)).

(i) SF 274, Reinsurance Agreement for a Miller Act Payment Bond (see 28.202(a)(4)).

(j) SF 275, Reinsurance Agreement in Favor of the United States (see 28.202(a)(4)).

(k) SF 1414, Consent of Surety (see 28.106-5).

(l) SF 1415, Consent of Surety and Increase of Penalty (see 28.106-3).

(m) SF 1416, Payment Bond for Other Than Construction Contracts (see 28.103-3 and 28.106-3(b)).

(n) SF 1418, Performance Bond for Other Than Construction Contracts (see 28.103-2 and 28.106-3(b)).

(o) OF 90, Release of Lien on Real Property (see 28.203-5).

(p) OF 91, Release of Personal Property from Escrow (see 28.203-5).

28.106-2 Substitution of surety bonds.

(a) A new surety bond covering all or part of the obligations on a bond previously approved may be substituted for the original bond if approved by the head of the contracting activity, or as otherwise specified in agency regulation.

(b) When a new surety bond is approved, the contracting officer shall notify the principal and surety of the original bond of the effective date of the new bond.

28.106-3 Additional bond and security.

(a) When additional bond coverage is required and is secured in whole or in part by the original surety or sureties, agencies shall use Standard Form 1415, Consent of Surety and Increase of Penalty. Standard Form 1415 is authorized for local reproduction, and a copy of the form is furnished for this purpose in Part 53 of the looseleaf edition of the MMAR.

(b) When additional bond coverage is required and is secured in whole or in part by a new surety or by one of the alternatives described in 28.204 in lieu of corporate or individual surety, agencies shall use Standard Form 25, Performance Bond; Standard Form 1418, Performance Bond for Other Than Construction Contracts; Standard Form 25-A, Payment Bond; or Standard Form 1416, Payment Bond for Other Than Construction Contracts.

28.106-4 Contract clause.

(a) The contracting officer shall insert the clause at 52.228-2, Additional Bond Security, in solicitations and contracts when bonds are required.

(b) In accordance with Section 806(a)(3) of Pub. L. 102-190, as amended by Sections 2091 and 8105 of Pub. L. 103-355, the contracting officer shall insert the clause at 52.228-12, Prospective Subcontractor Requests for Bonds, in solicitations and contracts with respect to which a payment bond will be furnished pursuant to the Miller Act (see 28.102-1), except for contracts for the acquisition of commercial items as defined in Subpart 2.1.

28.106-5 Consent of surety.

(a) When any contract is modified, the contracting officer shall obtain the consent of surety if—

(1) An additional bond is obtained from other than the original surety;

(2) No additional bond is required and—

(i) The modification is for new work beyond the scope of the original contract; or

(ii) The modification does not change the contract scope but changes the contract price (upward or downward) by more than 25 percent or \$50,000; or

(3) Consent of surety is required for a novation agreement (see Subpart 42.12).

(b) When a contract for which performance or payment is secured by any of the types of security listed in 28.204 is modified as described in paragraph (a) of this subsection, no consent of surety is required.

(c) Agencies shall use Standard Form 1414, Consent of Surety, for all types of contracts.

28.106-6 Furnishing information.

(a) The surety on the bond, upon its written request, may be furnished information on the progress of the work, pay-

ments, and the estimated percentage of completion, concerning the contract for which the bond was furnished.

(b) When a payment bond has been provided, the contracting officer shall, upon request, furnish the name and address of the surety or sureties to any subcontractor or supplier who has furnished or been requested to furnish labor or material for the contract. In addition, general information concerning the work progress, payments, and the estimated percentage of completion may be furnished to persons who have provided labor or materials and have not been paid.

(c) When a payment bond has been provided for a contract, the head of the agency or designee shall furnish a certified copy of the bond and the contract for which it was given to any person who makes a request therefor and who furnishes an affidavit that the requestor has supplied labor or materials for such work and payment therefor has not been made or that the requestor is being sued on such bond. The person who makes the request shall be required to pay such costs of preparation as determined by the head of the agency or designee to be reasonable and appropriate (see 40 U.S.C. 270(c)).

(d) Section 806(a)(2) of Pub. L. 102-190, as amended by Sections 2091 and 8105 of Pub. L. 103-355, requires that the Federal Government provide information to subcontractors on payment bonds under contracts for other than commercial items as defined in Subpart 2.1. Upon the written or oral request of a subcontractor/supplier, or prospective subcontractor/supplier, under a contract with respect to which a payment bond has been furnished pursuant to the Miller Act, the contracting officer shall promptly provide to the requester, either orally or in writing, as appropriate, any of the following:

(1) Name and address of the surety or sureties on the payment bond.

(2) Penal amount of the payment bond.

(3) Copy of the payment bond. The contracting officer may impose reasonable fees to cover the cost of copying and providing a copy of the payment bond.

28.106-7 Withholding contract payments.

(a) During contract performance, agencies shall not withhold payments due contractors or assignees because subcontractors or suppliers have not been paid.

(b) If, after completion of the contract work, the Government receives written notice from the surety regarding the contractor's failure to meet its obligation to its subcontractors or suppliers, the contracting officer shall withhold final payment. However, the surety must agree to hold the Government harmless from any liability resulting from withholding the final payment. The contracting officer will authorize final payment upon agreement between the contractor and surety or upon a judicial determination of the rights of the parties.

(c) For any withholding incident to the labor standards provisions of the contract, see Part 22.

28.106-8 Payment to subcontractors or suppliers.

The contracting officer will only authorize payment to subcontractors or suppliers from an ILC (or any other cash equivalent security) upon a judicial determination of the

rights of the parties, a signed notarized statement by the contractor that the payment is due and owed, or a signed agreement between the parties as to amount due and owed.

Subpart 28.2—Sureties and Other Security for Bonds

28.200 Scope of subpart.

This subpart prescribes procedures for the use of sureties and other security to protect the Government from financial losses.

28.201 Requirements for security.

(a) MMS shall obtain adequate security for bonds (including coinsurance and reinsurance agreements) required or used with a contract for supplies or services (including construction). Acceptable forms of security include—

(1) Corporate or individual sureties; or

(2) Any of the types of security authorized in lieu of sureties by 28.204.

(b) Solicitations shall not preclude offerors from using the types of surety or other security permitted by this subpart, unless prohibited by law or regulation.

28.202 Acceptability of corporate sureties.

(a)(1) Corporate sureties offered for bonds furnished with contracts performed in the United States, its possessions, or Puerto Rico must appear on the list contained in the Department of Treasury Circular 570, “Companies Holding Certificates of Authority as Acceptable Sureties on Federal Bonds and Acceptable Reinsuring Companies.”

(2) The penal amount of the bond should not exceed the surety’s underwriting limit stated in the Department of the Treasury circular. If the penal amount exceeds the underwriting limit, the bond will be acceptable only if—

(i) The amount which exceeds the specified limit is coinsured or reinsured; and

(ii) The amount of coinsurance or reinsurance does not exceed the underwriting limit of each coinsurer or reinsurer.

(3) Coinsurance or reinsurance agreements shall conform to the Department of the Treasury regulations in 31 CFR 223.10 and 223.11. When reinsurance is contemplated, the contracting office generally shall require reinsurance agreements to be executed and submitted with the bonds before making a final determination on the bonds.

(4) When specified in the solicitation, the contracting officer may accept a bond from the direct writing company in satisfaction of the total bond requirement of the contract. This is permissible until necessary reinsurance agreements are executed, even though the total bond requirement may exceed the insurer’s underwriting limitation. The contractor shall execute and submit necessary reinsurance agreements to the contracting officer within the time specified on the bid form, which may not exceed 45 calendar days after the execution of the bond. The contractor shall use Standard Form 273, Reinsurance Agreement for a Miller Act Performance

Bond, and Standard Form 274, Reinsurance Agreement for a Miller Act Payment Bond, when reinsurance is furnished with Miller Act bonds. Standard Form 275, Reinsurance Agreement in Favor of the United States, is used when reinsurance is furnished with bonds for other purposes.

(b) For contracts performed in a foreign country, sureties not appearing on Treasury Department Circular 570 are acceptable if the contracting officer determines that it is impracticable for the contractor to use Treasury listed sureties.

(c) The Department of the Treasury issues supplements to Circular 570, notifying all Federal agencies of (1) new approved corporate surety companies and (2) the termination of the authority of any specific corporate surety to qualify as a surety on Federal bonds. Upon receipt of notification of termination of a company’s authority to qualify as a surety on Federal bonds, the contracting officer shall review the outstanding contracts and take action necessary to protect the Government, including, where appropriate, securing new bonds with acceptable sureties in lieu of outstanding bonds with the named company.

(d) The Department of the Treasury Circular 570 may be obtained from the—

U.S. Department of the Treasury
Financial Management Service
Surety Bond Branch
401 14th St., SW, 2nd Floor—West Wing
Washington, DC 20227.

28.203 Acceptability of individual sureties.

(a) An individual surety is acceptable for all types of bonds except position schedule bonds. The contracting officer shall determine the acceptability of individuals proposed as sureties, and shall ensure that the surety’s pledged assets are sufficient to cover the bond obligation. (See 28.203-7 for information on excluded individual sureties.)

(b) An individual surety must execute the bond, and the unencumbered value of the assets (exclusive of all outstanding pledges for other bond obligations) pledged by the individual surety, must equal or exceed the penal amount of each bond. The individual surety shall execute the Standard Form 28 and provide a security interest in accordance with 28.203-1. One individual surety is adequate support for a bond, provided the unencumbered value of the assets pledged by that individual surety equal or exceed the amount of the bond. An offeror may submit up to three individual sureties for each bond, in which case the pledged assets, when combined, must equal or exceed the penal amount of the bond. Each individual surety must accept both joint and several liability to the extent of the penal amount of the bond.

(c) If the contracting officer determines that no individual surety in support of a bid guarantee is acceptable, the offeror utilizing the individual surety shall be rejected as nonrespon-

sible, except as provided in 28.101-4. A finding of nonresponsibility based on unacceptability of an individual surety, need not be referred to the Small Business Administration for a competency review. (See 19.602-1(a)(2)(i) and 61 Comp. Gen. 456 (1982).)

(d) A contractor submitting an unacceptable individual surety in satisfaction of a performance or payment bond requirement may be permitted a reasonable time, as determined by the contracting officer, to substitute an acceptable surety for a surety previously determined to be unacceptable.

(e) When evaluating individual sureties, contracting officers may obtain assistance from the office identified in 28.202(d).

(f) Contracting officers shall obtain the opinion of legal counsel as to the adequacy of the documents pledging the assets prior to accepting the bid guarantee and payment and performance bonds.

(g) Evidence of possible criminal or fraudulent activities by an individual surety shall be referred to the appropriate agency official in accordance with agency procedures.

28.203-1 Security interests by an individual surety.

(a) An individual surety may be accepted only if a security interest in assets acceptable under 28.203-2 is provided to the Government by the individual surety. The security interest shall be furnished with the bond.

(b) The value at which the contracting officer accepts the assets pledged must be equal to or greater than the aggregate penal amounts of the bonds required by the solicitation and may be provided by one or a combination of the following methods:

(1) An escrow account with a federally insured financial institution in the name of the contracting agency. (See 28.203-2(b)(2) with respect to Government securities in book entry form.) Acceptable securities for deposit in escrow are discussed in 28.203-2. While the offeror is responsible for establishing the escrow account, the terms and conditions must be acceptable to the contracting officer. At a minimum, the escrow account shall provide for the following:

(i) The account must provide the contracting officer the sole and unrestricted right to draw upon all or any part of the funds deposited in the account. A written demand for withdrawal shall be sent to the financial institution, after obtaining the concurrence of legal counsel, by the contracting officer with a copy to the offeror/contractor and to the surety. Within the time period specified in the demand, the financial institution would pay the Government the amount demanded up to the amount on deposit. If any dispute should arise between the Government and the offeror/contractor, the surety, or the subcontractors or suppliers with respect to the offer or contract, the financial institution would be required,

unless precluded by order of a court of competent jurisdiction, to disburse monies to the Government as directed by the contracting officer.

(ii) The financial institution would be authorized to release to the individual surety all or part of the balance of the escrow account, including any accrued interest, upon receipt of written authorization from the contracting officer.

(iii) The Government would not be responsible for any costs attributable to the establishment, maintenance, administration, or any other aspect of the account.

(iv) The financial institution would not be liable or responsible for the interpretation of any provisions or terms and conditions of the solicitation or contract.

(v) The financial institution would provide periodic account statements to the contracting officer.

(vi) The terms of the escrow account could not be amended without the consent of the contracting officer.

(2) A lien on real property, subject to the restrictions in 28.203-2 and 28.203-3.

28.203-2 Acceptability of assets.

(a) The Government will accept only cash, readily marketable assets, or irrevocable letters of credit from a federally insured financial institution from individual sureties to satisfy the underlying bond obligations.

(b) Acceptable assets include—

(1) Cash, or certificates of deposit, or other cash equivalents with a federally insured financial institution;

(2) United States Government securities at market value. (An escrow account is not required if an individual surety offers Government securities held in book entry form at a depository institution. In lieu thereof, the individual shall provide evidence that the depository institution has—

(i) Placed a notation against the individual's book entry account indicating that the security has been pledged in favor of the respective agency;

(ii) Agreed to notify the agency prior to maturity of the security; and

(iii) Agreed to hold the proceeds of the security subject to the pledge in favor of the agency until a substitution of securities is made or the security interest is formally released by the agency.);

(3) Stocks and bonds actively traded on a national U.S. security exchange with certificates issued in the name of the individual surety. National security exchanges are—(i) the New York Stock Exchange; (ii) the American Stock Exchange; (iii) the Boston Stock Exchange; (iv) the Cincinnati Stock Exchange; (v) the Midwest Stock Exchange; (vi) the Philadelphia Stock Exchange; (vii) the Pacific Stock Exchange; and (viii) the Spokane Stock Exchange. These assets will be accepted at 90 percent of their 52-week low, as reflected at the time of submission of the bond. Stock

options and stocks on the over-the-counter (OTC) market or NASDQ Exchanges will not be accepted. Assistance in evaluating the acceptability of securities may be obtained from the—

Securities and Exchange Commission
Division of Enforcement
450 Fifth Street NW
Washington, DC 20549.

(4) Real property owned in fee simple by the surety without any form of concurrent ownership, except as provided in subdivision (c)(3)(iii) of this subsection, and located within the 50 United States, its territories, or possessions. These assets will be accepted at 100 percent of the most current tax assessment value (exclusive of encumbrances) or 75 percent of the properties' unencumbered market value provided a current appraisal is furnished (see 28.203-3).

(5) Irrevocable letters of credit (ILC) issued by a federally insured financial institution in the name of the contracting agency and which identify the agency and solicitation or contract number for which the ILC is provided.

(c) Unacceptable assets include but are not limited to—

- (1) Notes or accounts receivable;
- (2) Foreign securities;
- (3) Real property as follows:

(i) Real property located outside the United States, its territories, or possessions.

(ii) Real property which is a principal residence of the surety.

(iii) Real property owned concurrently regardless of the form of co-tenancy (including joint tenancy, tenancy by the entirety, and tenancy in common) except where all co-tenants agree to act jointly.

(iv) Life estates, leasehold estates, or future interests in real property.

(4) Personal property other than that listed in paragraph (b) of this subsection (*e.g.*, jewelry, furs, antiques);

(5) Stocks and bonds of the individual surety in a controlled, affiliated, or closely held concern of the offeror/contractor;

(6) Corporate assets (*e.g.*, plant and equipment);

(7) Speculative assets (*e.g.*, mineral rights);

(8) Letters of credit, except as provided in 28.203-2(b)(5).

28.203-3 Acceptance of real property.

(a) Whenever a bond with a security interest in real property is submitted, the individual surety shall provide—

(1) Evidence of title in the form of a certificate of title prepared by a title insurance company approved by the United States Department of Justice. This list entitled List of Approved Attorneys, Abstracters, and Title Companies is available from the—

Title Unit, Land Acquisition Section
Land and Natural Resource Division
Department of Justice
Washington, DC 20530.

This title evidence must show fee simple title vested in the surety along with any concurrent owners; whether any real estate taxes are due and payable; and any recorded encumbrances against the property, including the lien filed in favor of the Government under paragraph (d) of this subsection;

(2) Evidence of the amount due under any encumbrance shown in the evidence of title;

(3) A copy of the current real estate tax assessment of the property or a current appraisal dated no earlier than 6 months prior to the date of the bond, prepared by a professional appraiser who certifies that the appraisal has been conducted in accordance with the generally accepted appraisal standards as reflected in the Uniform Standards of Professional Appraisal Practice as promulgated by the—

Appraisal Foundation
1029 Vermont Avenue, NW
Washington, DC 20005.

(b) Failure to provide evidence that the lien has been properly recorded will render the offeror nonresponsible.

(c) The individual surety is liable for the payment of all administrative costs of the Government, including legal fees, associated with the liquidation of pledged real estate.

(d) The following format, or any document substantially the same, shall be used by the surety and recorded in the local recorder's office when a surety pledges real estate on Standard Form 28, Affidavit of Individual Surety.

LIEN ON REAL ESTATE

I/we agree that this instrument constitutes a lien in the amount of \$_____ on the property described in this lien. The rights of the United States Government shall take precedence over any subsequent lien or encumbrance until the lien is formally released by a duly authorized representative of the United States. I/we hereby grant the United States the power of sale of subject property, including the right to satisfy its reasonable administrative costs, including legal fees associated with any sale of subject property, in the event of contractor default if I/we otherwise fail to satisfy the underlying () bid guarantee, () performance bond, () or payment bond obligations as an individual surety on solicitation/contract number _____. The lien is upon the real estate now owned by me/us described as follows:

(legal description, street address and other identifying description)

IN WITNESS WHEREOF, I/we have hereunto affixed my/our hand(s) and seal(s) this ___ Day of _____ 19 ___.

WITNESS:

_____ (Seal)

_____ (Seal)

I, _____, a Notary Public in and for the (City) _____, (State) _____, do hereby certify that _____, a party or parties to a certain Agreement bearing the date ____ day of _____ 19 __, and hereunto annexed, personally appeared before me, the said _____ being personally well known to me as the person(s) who executed said lien, and acknowledged the same to be his/her heir act and deed.

GIVEN under my hand and seal this ____ day of ____ 19 __.

Notary Public, State

MY COMMISSION EXPIRES:

28.203-4 Substitution of assets.

An individual surety may request the Government to accept a substitute asset for that currently pledged by submitting a written request to the responsible contracting officer. The contracting officer may agree to the substitution of assets upon determining, after consultation with legal counsel, that the substitute assets to be pledged are adequate to protect the outstanding bond or guarantee obligations. If acceptable, the substitute assets shall be pledged as provided for in Subpart 28.2.

28.203-5 Release of lien.

(a) After consultation with legal counsel, the contracting officer shall release the security interest on the individual surety's assets using the Optional Form 90, Release of Lien on Real Property, or Optional Form 91, Release of Personal Property from Escrow, or a similar release as soon as possible consistent with the conditions in paragraphs (a)(1) and (2) of this subsection. A surety's assets pledged in support of a payment bond may be released to a subcontractor or supplier upon Government receipt of a Federal district court judgment, or a sworn statement by the subcontractor or supplier that the claim is correct along with a notarized authorization of the release by the surety stating that it approves of such release.

(1) *Contracts subject to the Miller Act.* The security interest shall be maintained for the later of—

- (i) 1 year following final payment;
- (ii) Until completion of any warranty period (applicable only to performance bonds); or
- (iii) Pending resolution of all claims filed against the payment bond during the 1-year period following final payment.

(2) *Contracts subject to alternative payment protection (28.102-1(b)(1)).* The security interest shall be maintained for the full contract performance period plus one year.

(3) *Other contracts not subject to the Miller Act.* The security interest shall be maintained for 90 days following final payment or until completion of any warranty period (applicable only to performance bonds), whichever is later.

(b) Upon written request, the contracting officer may release the security interest on the individual surety's assets in support of a bid guarantee based upon evidence that the offer supported by the individual surety will not result in contract award.

(c) Upon written request by the individual surety, the contracting officer may release a portion of the security interest on the individual surety's assets based upon substantial performance of the contractor's obligations under its performance bond. Release of the security interest in support of a payment bond must comply with the paragraphs (a)(1) through (3) of this subsection. In making this determination, the contracting officer will give consideration as to whether the unreleased portion of the lien is sufficient to cover the remaining contract obligations, including payments to subcontractors and other potential liabilities. The individual surety shall, as a condition of the partial release, furnish an affidavit agreeing that the release of such assets does not relieve the individual surety of its obligations under the bond(s).

28.203-6 Contract clause.

Insert the clause at 52.228-11 in solicitations and contracts which require the submission of bid guarantees, performance, or payment bonds.

28.203-7 Exclusion of individual sureties.

(a) An individual may be excluded from acting as a surety on bonds submitted by offerors on procurement by the executive branch of the Federal Government, by the acquiring agency's head or designee utilizing the procedures in Subpart 9.4. The exclusion shall be for the purpose of protecting the Government.

(b) An individual may be excluded for any of the following causes:

- (1) Failure to fulfill the obligations under any bond.
- (2) Failure to disclose all bond obligations.
- (3) Misrepresentation of the value of available assets or outstanding liabilities.
- (4) Any false or misleading statement, signature or representation on a bond or affidavit of individual suretyship.
- (5) Any other cause affecting responsibility as a surety of such serious and compelling nature as may be determined to warrant exclusion.

(c) An individual surety excluded pursuant to this subsection shall be included on the List of Parties Excluded from Federal Procurement and Nonprocurement Programs. (See 9.404.)

(d) Contracting officers shall not accept the bonds of individual sureties whose names appear on the List of Parties Excluded from Federal Procurement and Nonprocurement Programs (see 9.404) unless the acquiring agency's head or a designee states in writing the compelling reasons justifying acceptance.

(e) An exclusion of an individual surety under this subsection will also preclude such party from acting as a contractor in accordance with Subpart 9.4.

28.204 Alternatives in lieu of corporate or individual sureties.

(a) Any person required to furnish a bond to the Government may furnish any of the types of security listed in 28.204-1 through 28.204-3 instead of a corporate or individual surety for the bond. When any of those types of security are deposited, a statement shall be incorporated in the bond form pledging the security in lieu of execution of the bond form by corporate or individual sureties. The contractor shall execute the bond forms as the principal. Agencies shall establish safeguards to protect against loss of the security and shall return the security or its equivalent to the contractor when the bond obligation has ceased.

(b) Upon written request by any contractor securing a performance or payment bond by any of the types of security listed in 28.204-1 through 28.204-3, the contracting officer may release a portion of the security only when the conditions allowing the partial release of lien in 28.203-5(c) are met. The contractor shall, as a condition of the partial release, furnish an affidavit agreeing that the release of such security does not relieve the contractor of its obligations under the bond(s).

(c) The contractor may satisfy a requirement for bond security by furnishing a combination of the types of security listed in 28.204-1 through 28.204-3 or a combination of bonds supported by these types of security and additional surety bonds under 28.202 or 28.203. During the period for which a bond supported by security is required, the contractor may substitute one type of security listed in 28.204-1 through 28.204-3 for another, or may substitute, in whole or combination, additional surety bonds under 28.202 or 28.203.

28.204-1 United States bonds or notes.

Any person required to furnish a bond to the Government has the option, instead of furnishing a surety or sureties on the bond, of depositing certain United States bonds or notes in an amount equal at their par value to the penal sum of the bond (the Act of February 24, 1919 (31 U.S.C. 9303) and Treasury Department Circular No. 154 dated July 1, 1978 (31 CFR part 225)). In addition, a duly executed power of attorney and agreement authorizing the collection or sale of such United States bonds or notes in the event of default of

the principal on the bond shall accompany the deposited bonds or notes. The contracting officer may—

(a) Turn securities over to the finance or other authorized agency official; or

(b) Deposit them with the Treasurer of the United States, a Federal Reserve Bank (or branch with requisite facilities), or other depository designated for that purpose by the Secretary of the Treasury, under procedures prescribed by the agency concerned and Treasury Department Circular No. 154 (exception: The contracting officer shall deposit all bonds and notes received in the District of Columbia with the Treasurer of the United States).

28.204-2 Certified or cashier's checks, bank drafts, money orders, or currency.

Any person required to furnish a bond has an option to furnish a certified or cashier's check, bank draft, Post Office money order, or currency, in an amount equal to the penal sum of the bond, instead of furnishing surety or sureties on the bonds. Those furnishing checks, drafts, or money orders shall draw them to the order of the appropriate Federal agency.

28.204-3 Irrevocable letter of credit (ILC).

(a) Any person required to furnish a bond has the option to furnish a bond secured by an ILC in an amount equal to the penal sum required to be secured (see 28.204). A separate ILC is required for each bond.

(b) The ILC shall be irrevocable, require presentation of no document other than a written demand and the ILC (and letter of confirmation, if any), expire only as provided in paragraph (f) of this subsection, and be issued/confirmed by an acceptable federally insured financial institution as provided in paragraph (g) of this subsection.

(c) To draw on the ILC, the contracting officer shall use the sight draft set forth in the clause at 52.228-14, and present it with the ILC (including letter of confirmation, if any) to the issuing financial institution or the confirming financial institution (if any).

(d) If the contractor does not furnish an acceptable replacement ILC, or other acceptable substitute, at least 30 days before an ILC's scheduled expiration, the contracting officer shall immediately draw on the ILC.

(e) If, after the period of performance of a contract where ILCs are used to support payment bonds, there are outstanding claims against the payment bond, the contracting officer shall draw on the ILC prior to the expiration date of the ILC to cover these claims.

(f) The period for which financial security is required shall be as follows:

(1) If used as a bid guarantee, the ILC should expire no earlier than 60 days after the close of the bid acceptance period.

(2) If used as an alternative to corporate or individual sureties as security for a performance or payment bond, the offeror/contractor may submit an ILC with an initial expiration date estimated to cover the entire period for which financial security is required or an ILC with an initial expiration date that is a minimum period of one year from the date of issuance. The ILC shall provide that, unless the issuer provides the beneficiary written notice of non-renewal at least 60 days in advance of the current expiration date, the ILC is automatically extended without amendment for one year from the expiration date, or any future expiration date, until the period of required coverage is completed and the contracting officer provides the financial institution with a written statement waiving the right to payment. The period of required coverage shall be:

(i) For contracts subject to the Miller Act, the later of—

(A) One year following the expected date of final payment;

(B) For performance bonds only, until completion of any warranty period; or

(C) For payment bonds only, until resolution of all claims filed against the payment bond during the one-year period following final payment.

(ii) For contracts not subject to the Miller Act, the later of—

(A) 90 days following final payment; or

(B) For performance bonds only, until completion of any warranty period.

(g) Only federally insured financial institutions rated investment grade or higher shall issue or confirm the ILC. Unless the financial institution issuing the ILC had letter of credit business of at least \$25 million in the past year, ILCs over \$5 million must be confirmed by another acceptable financial institution that had letter of credit business of at least \$25 million in the past year.

(1) The offeror/contractor shall provide the contracting officer a credit rating from a recognized commercial rating service as specified in Office of Federal Procurement Policy Pamphlet No. 7 (see 28.204-3(h)) that indicates the financial institution has the required rating(s) as of the date of issuance of the ILC.

(2) If the contracting officer learns that a financial institution's rating has dropped below the required level, the contracting officer shall give the contractor 30 days to substitute an acceptable ILC or shall draw on the ILC using the sight draft in paragraph (g) of the clause at 52.228-14.

(h)(1) Additional information on credit rating services and investment grade ratings is contained within Office of Federal Procurement Policy Pamphlet No. 7, Use of Irrevocable Letters of Credit. This pamphlet may be obtained by calling the Office of Management and Budget's publications office at (202) 395-7332.

(2) A copy of the Uniform Customs and Practice (UCP) for Documentary Credits, 1993 Revision, International Chamber of Commerce Publication No. 500, is available from:

ICC Publishing, Inc.
156 Fifth Avenue
New York NY 10010

Telephone: (212) 206-1150
Telefax: (212) 633-6025
E-mail: iccpub@interport.net.

28.204-4 Contract clause.

Insert the clause at 52.228-14, Irrevocable Letter of Credit, in solicitations and contracts for services, supplies, or construction, when a bid guarantee, or performance bonds, or performance and payment bonds are required.

Subpart 28.3—Insurance

28.301 Policy.

Contractors shall be required to carry insurance under the following circumstances:

(a)(1) The Government requires any contractor subject to Cost Accounting Standard (CAS) 416 (48 CFR 9004.416 (Appendix, MMAR looseleaf edition)) to obtain insurance, by purchase or self-coverage, for the perils to which the contractor is exposed, except when—

(i) The Government, by providing in the contract in accordance with law, agrees to indemnify the contractor under specified circumstances; or

(ii) The contract specifically relieves the contractor of liability for loss of or damage to Government property.

(2) The Government reserves the right to disapprove the purchase of any insurance coverage not in the Government's interest.

(3) Allowability of the insurance program's cost shall be determined in accordance with the criteria in 31.205-19.

(b) Contractors, whether or not their contracts are subject to CAS 416, are required by law and this regulation to provide insurance for certain types of perils (*e.g.*, workers' compensation). Insurance is mandatory also when commingling of property, type of operation, circumstances of ownership, or condition of the contract make it necessary for the protection of the Government. The minimum amounts of insurance required by this regulation (see 28.307-2) may be reduced when a contract is to be performed outside the United States, its possessions, and Puerto Rico. When more than one agency is involved, the agency responsible for review and approval of a contractor's insurance program shall coordinate with other interested agencies before acting on significant insurance matters.

(c) Contractors awarded nonpersonal services contracts for health care services are required to maintain medical liability insurance and indemnify the Government for liability producing acts or omissions by the contractor, its employees and agents (see 37.400).

28.302 Notice of cancellation or change.

When the Government requires the contractor to provide insurance coverage, the policies shall contain an endorsement that any cancellation or material change in the coverage adversely affecting the Government's interest shall not be effective unless the insurer or the contractor gives written notice of cancellation or change as required by the contracting officer. When the coverage is provided by self-insurance, the contractor shall not change or decrease the coverage without the administrative contracting officer's prior approval (see 28.308(c)).

28.303 Insurance against loss of or damage to Government property.

When the Government requires or approves insurance to cover loss of or damage to Government property (see 45.103, Responsibility and liability for Government property), it may be provided by specific insurance policies or by inclusion of the risks in the contractor's existing policies. The policies shall disclose the Government's interest in the property.

28.304 Risk-pooling arrangements.

MMS may establish risk-pooling arrangements. These arrangements are designed to use the services of the insurance industry for safety engineering and the handling of claims at minimum cost to the Government.

28.305 [Reserved]

28.306 Insurance under fixed-price contracts.

(a) *General.* Although the Government is not ordinarily concerned with the contractor's insurance coverage if the contract is a fixed-price contract, in special circumstances agencies may specify insurance requirements under fixed-price contracts. Examples of such circumstances include the following:

(1) The contractor is, or has a separate operation, engaged principally in Government work.

(2) Government property is involved.

(3) The work is to be performed on a Government installation.

(4) The Government elects to assume risks for which the contractor ordinarily obtains commercial insurance.

(b) *Work on a Government installation.* (1) When the clause at 52.228-5, Insurance—Work on a Government Installation, is required to be included in a fixed-price contract by 28.310, the coverage specified in 28.307 is the minimum insurance required and shall be included in the contract Schedule or elsewhere in the contract. The contracting officer may require additional coverage and higher limits.

(2) When the clause at 52.228-5, Insurance—Work on a Government Installation, is not required by 28.310 but is included because the contracting officer considers it to be in the Government's interest to do so, any of the types of insurance specified in 28.307 may be omitted or the limits may be lowered, if appropriate.

28.307 Insurance under cost-reimbursement contracts.

Cost-reimbursement contracts (and subcontracts, if the terms of the prime contract are extended to the subcontract) ordinarily require the types of insurance listed in 28.307-2, with the minimum amounts of liability indicated. (See 28.308 for self-insurance.)

28.307-1 Group insurance plans.

(a) *Prior approval requirement.* Under cost-reimbursement contracts, before buying insurance under a group insurance plan, the contractor must submit the plan for approval, in accordance with agency regulations. Any change in benefits provided under an approved plan that can reasonably be expected to increase significantly the cost to the Government requires similar approval.

(b) *Premium refunds or credits.* The plan shall provide for the Government to share in any premium refunds or credits paid or otherwise allowed to the contractor. In determining the extent of the Government's share in any premium refunds or credits, any special reserves and other refunds to which the contractor may be entitled in the future shall be taken into account.

28.307-2 Liability.

(a) *Workers' compensation and employer's liability.* Contractors are required to comply with applicable Federal and State workers' compensation and occupational disease statutes. If occupational diseases are not compensable under those statutes, they shall be covered under the employer's liability section of the insurance policy, except when contract operations are so commingled with a contractor's commercial operations that it would not be practical to require this coverage. Employer's liability coverage of at least \$100,000 shall be required, except in States with exclusive or monopolistic funds that do not permit workers' compensation to be written by private carriers. (See 28.305(c) for treatment of contracts subject to the Defense Base Act.)

(b) *General liability.* (1) The contracting officer shall require bodily injury liability insurance coverage written on the comprehensive form of policy of at least \$500,000 per occurrence.

(2) Property damage liability insurance shall be required only in special circumstances as determined by the agency.

(c) *Automobile liability.* The contracting officer shall require automobile liability insurance written on the comprehensive form of policy. The policy shall provide for bodily injury and property damage liability covering the operation of all automobiles used in connection with performing the contract. Policies covering automobiles operated in the United States shall provide coverage of at least \$200,000 per person and \$500,000 per occurrence for bodily injury and \$20,000 per occurrence for property damage. The amount of liability coverage on other policies shall be commensurate with any legal requirements of the locality and sufficient to meet normal and customary claims.

(d) *Aircraft public and passenger liability.* When aircraft are used in connection with performing the contract, the contracting officer shall require aircraft public and passenger liability insurance. Coverage shall be at least \$200,000 per

person and \$500,000 per occurrence for bodily injury, other than passenger liability, and \$200,000 per occurrence for property damage. Coverage for passenger liability bodily injury shall be at least \$200,000 multiplied by the number of seats or passengers, whichever is greater.

(e) *Vessel liability.* When contract performance involves use of vessels, the contracting officer shall require, as determined by the agency, vessel collision liability and protection and indemnity liability insurance.

28.308 Self-insurance.

(a) When it is anticipated that 50 percent or more of the self-insurance costs to be incurred at a segment of a contractor's business will be allocable to negotiated Government contracts, and the self-insurance costs at the segment for the contractor's fiscal year are expected to be \$200,000 or more, the contractor shall submit, in writing, information on its proposed self-insurance program to the administrative contracting officer and obtain that official's approval of the program. The submission shall be by segment or segments of the contractor's business to which the program applies and shall include—

(1) A complete description of the program, including any resolution of the board of directors authorizing and adopting coverage, including types of risks, limits of coverage, assignments of safety and loss control, and legal service responsibilities;

(2) If available, the corporate insurance manual and organization chart detailing fiscal responsibilities for insurance;

(3) The terms regarding insurance coverage for any Government property;

(4) The contractor's latest financial statements;

(5) Any self-insurance feasibility studies or insurance market surveys reporting comparative alternatives;

(6) Loss history, premiums history, and industry ratios;

(7) A formula for establishing reserves, including percentage variations between losses paid and losses reserved;

(8) Claims administration policy, practices, and procedures;

(9) The method of calculating the projected average loss; and

(10) A disclosure of all captive insurance company and reinsurance agreements, including methods of computing cost.

(b) Programs of self-insurance covering a contractor's insurable risks, including the deductible portion of purchased insurance, may be approved when examination of a program indicates that its application is in the Government's interest. Agencies shall not approve a program of self-insurance for workers' compensation in a jurisdiction where workers' compensation does not completely cover the employer's liability to employees, unless the contractor—

(1) Maintains an approved program of self-insurance for any employer's liability not so covered; or

(2) Shows that the combined cost to the Government of self-insurance for workers' compensation and commercial insurance for employer's liability will not exceed the cost of covering both kinds of risk by commercial insurance.

(c) Once the administrative contracting officer has approved a program, the contractor must submit to that official for approval any major proposed changes to the program. Any program approval may be withdrawn if a contracting officer finds that either—

(1) Any part of a program does not comply with the requirements of this subpart and/or the criteria at 31.205-19; or

(2) Conditions or situations existing at the time of approval that were a basis for original approval of the program have changed to the extent that a program change is necessary.

(d) To qualify for a self-insurance program, a contractor must demonstrate ability to sustain the potential losses involved. In making the determination, the contracting officer shall consider the following factors:

(1) The soundness of the contractor's financial condition, including available lines of credit.

(2) The geographic dispersion of assets, so that the potential of a single loss depleting all the assets is unlikely.

(3) The history of previous losses, including frequency of occurrence and the financial impact of each loss.

(4) The type and magnitude of risk, such as minor coverage for the deductible portion of purchased insurance or major coverage for hazardous risks.

(5) The contractor's compliance with Federal and State laws and regulations.

(e) Agencies shall not approve a program of self-insurance for catastrophic risks (*e.g.*, see 50.403, Special procedures for unusually hazardous or nuclear risks). Should performance of Government contracts create the risk of catastrophic losses, the Government may, to the extent authorized by law, agree to indemnify the contractor or recognize an appropriate share of premiums for purchased insurance, or both.

(f) Self-insurance programs to protect a contractor against the costs of correcting its own defects in materials or workmanship shall not be approved. For these purposes, normal rework estimates and warranty costs will not be considered self-insurance.

28.309 Contract clauses for workers' compensation insurance.

(a) The contracting officer shall insert the clause at 52.228-3, Workers' Compensation Insurance (Defense Base Act), in solicitations and contracts when the Defense Base Act applies (see 28.305) and—

(1) The contract will be a public-work contract performed outside the United States; or

(2) The contract will be approved or financed under the Foreign Assistance Act of 1961 (Pub. L. 87-195) and is not excluded by 28.305(b)(2).

(b) The contracting officer shall insert the clause at 52.228-4, Worker's Compensation and War-Hazard Insurance Overseas, in solicitations and contracts when the contract will be a public-work contract performed outside the United States and the Secretary of Labor waives the applicability of the Defense Base Act (see 28.305(d)).

28.310 Contract clause for work on a Government installation.

(a) The contracting officer shall insert the clause at 52.228-5, Insurance—Work on a Government Installation, in solicitations and contracts when a fixed-price contract is contemplated, the contract amount is expected to exceed the simplified acquisition threshold, and the contract will require work on a Government installation, unless—

(1) Only a small amount of work is required on the Government installation (*e.g.*, a few brief visits per month); or

(2) All work on the Government installation is to be performed outside the United States, its possessions, and Puerto Rico.

(b) The contracting officer may insert the clause at 52.228-5 in solicitations and contracts described in paragraphs (a)(1) and (2) of this section if it is in the Government's interest to do so.

28.311 Solicitation provision and contract clause on liability insurance under cost-reimbursement contracts.

28.311-1 Contract clause.

In accordance with agency acquisition regulations, the contracting officer shall insert the clause at 52.228-7, Insurance—Liability to Third Persons, in solicitations and contracts, other than those for construction contracts and those for architect-engineer services, when a cost-reimbursement contract is contemplated.

28.311-2 Agency solicitation provisions and contract clauses.

Agencies may prescribe their own solicitation provisions and contract clauses to implement the basic policies contained in this Subpart 28.3.

28.312 Contract clause for insurance of leased motor vehicles.

The contracting officer shall insert the clause at 52.228-8, Liability and Insurance—Leased Motor Vehicles, in solicita-

tions and contracts for the leasing of motor vehicles (see Subpart 8.11).

28.313 Contract clauses for insurance of transportation or transportation-related services.

(a) The contracting officer shall insert the clause at 52.228-9, Cargo Insurance, in solicitations and contracts for transportation or for transportation-related services, except

when freight is shipped under rates subject to released or declared value.

(b) The contracting officer shall insert a clause substantially the same as that at 52.228-10, Vehicular and General Public Liability Insurance, in solicitations and contracts for transportation or for transportation-related services when the contracting officer determines that vehicular liability or general public liability insurance required by law is not sufficient.

		29.402-2	Foreign cost-reimbursement contracts.

This page intentionally left blank.

29.000 Scope of part.

This part prescribes policies and procedures for (a) using tax clauses in contracts (including foreign contracts), (b) asserting immunity or exemption from taxes, and (c) obtaining tax refunds. It explains Federal, State, and local taxes on certain supplies and services acquired by executive agencies and the applicability of such taxes to the Federal Government. It is for the general information of MMS personnel and does not present the full scope of the tax laws and regulations.

Subpart 29.1—General**29.101 Resolving tax problems.**

(a) Contract tax problems are essentially legal in nature and vary widely. Specific tax questions must be resolved by reference to the applicable contract terms and to the pertinent tax laws and regulations. Therefore, when tax questions arise, contracting officers should request assistance from the Office of General Counsel.

(b) To keep treatment within an agency consistent, contracting officers or other authorized personnel shall consult

the Office of General Counsel before negotiating with any taxing authority for the purpose of—

(1) Determining whether or not a tax is valid or applicable; or

(2) Obtaining exemption from, or refund of, a tax.

(c) When the constitutional immunity of the Government from State or local taxation may reasonably be at issue, contractors should be discouraged from negotiating independently with taxing authorities if the contract involved is either—

(1) A cost-reimbursement contract; or

(2) A fixed-price contract containing a tax escalation clause.

(d) Before purchasing goods or services from a foreign source, the contracting officer should consult the agency-designated counsel—

(1) For information on foreign tax treaties and agreements in force and on the implementation of any foreign-tax-relief programs; and

(2) To resolve any other tax questions affecting the prospective contract.

Subpart 29.2—Federal Excise Taxes

29.201 General.

(a) Federal excise taxes are levied on the sale or use of particular supplies or services. Subtitle D of the Internal Revenue Code of 1954, Miscellaneous Excise Taxes, 26 U.S.C. 4041, *et seq.*, and its implementing regulations, 26 CFR parts 40 through 299, cover miscellaneous federal excise tax requirements. Questions arising in this area should be directed to the Office of General Counsel. The most common excise taxes are—

(1) Manufacturers' excise taxes imposed on certain motor-vehicle articles, tires and inner tubes, gasoline, lubricating oils, coal, fishing equipment, firearms, shells, and cartridges sold by manufacturers, producers, or importers; and

(2) Special-fuels excise taxes imposed at the retail level on diesel fuel and special motor fuels.

(b) Sometimes the law exempts the Federal Government from these taxes. Contracting officers should solicit prices on a tax-exclusive basis when it is known that the Government is exempt from these taxes, and on a tax-inclusive basis when no exemption exists.

(c) MMS shall take maximum advantage of available Federal excise tax exemptions.

29.202 General exemptions.

No Federal manufacturers' or special-fuels excise taxes are imposed in many contracting situations as, for example, when the supplies are for any of the following:

(a) The exclusive use of any State or political subdivision, including the District of Columbia (26 U.S.C. 4041 and 4221).

(b) Shipment to a United States possession or Puerto Rico, or for export. Shipment or export must occur within 6 months of the time title passes to the Government. When the exemption is claimed, the words "for export or shipment

to a possession" must appear on the contract or purchase document, and the contracting officer must furnish the seller proof of export (see 26 CFR 48.4221-3).

(c) Further manufacture, or resale for further manufacture (this exemption does not include tires and inner tubes) (26 CFR 48.4221-2).

(d) Use as fuel supplies, ships or sea stores, or legitimate equipment on vessels of war, including (1) aircraft owned by the United States and constituting a part of the armed forces and (2) guided missiles and pilotless aircraft owned or chartered by the United States. When this exemption is to be claimed, the purchase should be made on a tax-exclusive basis. The contracting officer shall furnish the seller an exemption certificate for Supplies for Vessels of War (an example is given in 26 CFR 48.4221-4(d)(2)); the IRS will accept one certificate covering all orders under a single contract for a specified period of up to 12 calendar quarters) (26 U.S.C. 4041 and 4221).

(e) A nonprofit educational organization (26 U.S.C. 4041 and 4221).

(f) Emergency vehicles (26 U.S.C. 4053 and 4064(b)(1)(c)).

29.203 Other Federal tax exemptions.

(a) Pursuant to 26 U.S.C. 4293, the Secretary of the Treasury has exempted the United States from the communications excise tax imposed in 26 U.S.C. 4251, when the supplies and services are for the exclusive use of the United States. (Secretarial Authorization, June 20, 1947, Internal Revenue Cumulative Bulletin, 1947-1, 205.)

(b) Pursuant to 26 U.S.C. 4483(b), the Secretary of the Treasury has exempted the United States from the federal highway vehicle users tax imposed in 26 U.S.C. 4481. The exemption applies whether the vehicle is owned or leased by the United States. (Secretarial Authorization, Internal Revenue Cumulative Bulletin, 1956-2, 1369.)

Subpart 29.3—State and Local Taxes

29.300 Scope of subpart.

This subpart prescribes the policies and procedures regarding the exemption or immunity of Federal Government purchases and property from State and local taxation.

29.301 [Reserved]

29.302 Application of State and local taxes to the Government.

(a) Generally, purchases and leases made by the Federal Government are immune from State and local taxation. Whether any specific purchase or lease is immune, however, is a legal question requiring advice and assistance of the agency-designated counsel.

(b) When it is economically feasible to do so, MMS shall take maximum advantage of all exemptions from State and local taxation that may be available. If appropriate, the contracting officer shall provide a Standard Form 1094, U.S. Tax Exemption Form (see Part 53), or other evidence listed in 29.305(a) to establish that the purchase is being made by the Government.

29.303 Application of State and local taxes to Government contractors and subcontractors.

(a) Prime contractors and subcontractors shall not normally be designated as agents of the Government for the purpose of claiming immunity from State or local sales or use taxes. Before any activity contends that a contractor is an agent of the Government, the matter shall be referred to the agency head for review. The referral shall include all pertinent data on which the contention is based, together with a thorough analysis of all relevant legal precedents.

(b) When purchases are not made by the Government itself, but by a prime contractor or by a subcontractor under a prime contract, the right to an exemption of the transaction from a sales or use tax may not rest on the Government's immunity from direct taxation by States and localities. It may rest instead on provisions of the particular State or local law involved, or, in some cases, the transaction may not in fact be expressly exempt from the tax. The Government's interest shall be protected by using the procedures in 29.101.

(c) Frequently, property (including property acquired under the progress payments clause of fixed-price contracts or the Government property clause of cost-reimbursement contracts) owned by the Government is in the possession of a contractor or subcontractor. Situations may arise in which States or localities assert the right to tax Government property directly or to tax the contractor's or subcontractor's possession of, interest in, or use of that property. In such cases, the contracting officer shall seek review and advice from the

agency-designated counsel on the appropriate course of action.

29.304 Matters requiring special consideration.

The imposition of State and local taxes may result in special contract considerations including the following:

(a) With coordination of the Office of General Counsel, a contract may (1) state that the contract price includes or excludes a specified tax or (2) require that the contractor take certain actions with regard to payment, nonpayment, refund, protest, or other treatment of a specified tax. Such special treatment may be appropriate when there is doubt as to the applicability or allocability of the tax, or when the applicability of the tax is being litigated.

(b) The applicability of State and local taxes to purchases by the Federal Government may depend on the place and terms of delivery. When the contract price will be substantial, alternative places and terms of delivery should be considered in light of possible tax consequences.

(c) Indefinite-delivery contracts for equipment rental may require the contractor to furnish equipment in any of the States. Since leased equipment remains the contractor's property, States and local governments impose a wide variety of property, use, or other taxes on equipment leased to the Government. The amount of these taxes can vary considerably from jurisdiction to jurisdiction. See 29.401-1 for the prescription of the contract clause to be included in contracts when delivery points are not known at time of contracting.

(d) *The North Carolina State and local sales and use tax.*
 (1) The North Carolina Sales and Use Tax Act authorizes counties and incorporated cities and towns to obtain each year from the Commissioner of Revenue of the State of North Carolina a refund of sales and use taxes indirectly paid on building materials, supplies, fixtures, and equipment that become a part of or are annexed to any building or structure erected, altered, or repaired for such counties and incorporated cities and towns in North Carolina. In *United States v. Clayton*, 250 F. Supp. 827 (1965), it was held that the United States is entitled to the benefit of the refund, but must follow the refund procedure of the Act and the regulations to recover what it is due.

(2) The Act provides that, to receive the refund, claimants must file, within 6 months after the claimant's fiscal year closes, a written request substantiated by such records, receipts, and information as the Commissioner of Revenue may require. No refund will be made on an application not filed within the time allowed and in such manner as the Commissioner may require. The requirements of the Commissioner are set forth in regulations that provide that, to substantiate a refund claim for sales or use taxes paid on purchases of building materials, supplies, fixtures, or equipment by a contractor, the Government must secure from the contractor certified statements setting forth the cost of the prop-

erty purchased from each vendor and the amount of sales or use taxes paid. In the event the contractor makes several purchases from the same vendor, the certified statement must indicate the invoice numbers, the inclusive dates of the invoices, the total amount of the invoices, and the sales and use taxes paid. The statement must also include the cost of any tangible personal property withdrawn from the contractor's warehouse stock and the amount of sales or use tax paid by the contractor. Similar certified statements by subcontractors must be obtained by the general contractor and furnished to the claimant. Any local sales or use taxes included in the contractor's statement must be shown separately from the State sales or use taxes.

(3) The clause prescribed at 29.401-2 requires contractors to submit to contracting officers by November 30 of each year a certified statement disclosing North Carolina State and local sales and use taxes paid during the 12-month period that ended the preceding September 30. The contracting officer shall ensure that contractors comply with this requirement and shall obtain the annual refund to which the Government may be entitled. The application for refund must be filed each year before March 31 and in the manner and form required by the Commissioner of Revenue. Copies of the form may be obtained from the—

State of North Carolina Department of Revenue
PO Box 25000
Raleigh, North Carolina 27640.

29.305 State and local tax exemptions.

(a) *Evidence of exemption.* Evidence needed to establish exemption from State or local taxes depends on the grounds for the exemption claimed, the parties to the transaction, and

the requirements of the taxing jurisdiction. Such evidence may include the following:

- (1) A copy of the contract or relevant portion.
- (2) Copies of purchase orders, shipping documents, credit-card-imprinted sales slips, paid or acknowledged invoices, or similar documents that identify an agency or instrumentality of the United States as the buyer.
- (3) A U.S. Tax Exemption Form (SF 1094).
- (4) A State or local form indicating that the supplies or services are for the exclusive use of the United States.
- (5) Any other State or locally required document for establishing general or specific exemption.
- (6) Shipping documents indicating that shipments are in interstate or foreign commerce.

(b) *Furnishing proof of exemption.* If a reasonable basis to sustain a claimed exemption exists, the seller will be furnished evidence of exemption, as follows:

(1) Under a contract containing the clause at 52.229-3, Federal, State, and Local Taxes, or at 52.229-4, Federal, State, and Local Taxes (Noncompetitive Contract), in accordance with the terms of those clauses.

(2) Under a cost-reimbursement contract, if requested by the contractor and approved by the contracting officer or at the discretion of the contracting officer.

(3) Under a contract or purchase order that contains no tax provision, if—

(i) Requested by the contractor and approved by the contracting officer or at the discretion of the contracting officer; and

(ii) Either the contract price does not include the tax or, if the transaction or property is tax exempt, the contractor consents to a reduction in the contract price.

Subpart 29.4—Contract Clauses

29.401 Domestic contracts.

29.401-1 Indefinite-delivery contracts for leased equipment.

The contracting officer shall insert the clause at 52.229-1, State and Local Taxes, in solicitations and contracts for leased equipment when a fixed-price indefinite-delivery contract is contemplated; the contract will be performed wholly or partly within the United States, its possessions, or Puerto Rico; and the place or places of delivery are not known at the time of contracting.

29.401-2 Construction contracts performed in North Carolina.

The contracting officer shall insert the clause at 52.229-2, North Carolina State and Local Sales and Use Tax, in solicitations and contracts for construction to be performed in North Carolina. If the requirement is for vessel repair to be performed in North Carolina, the clause shall be used with its Alternate I.

29.401-3 Competitive contracts.

The contracting officer shall insert the clause at 52.229-3, Federal, State, and Local Taxes, in solicitations and contracts if the contract is to be performed wholly or partly within the United States, its possessions, or Puerto Rico, when a fixed-price contract is contemplated and the contract is expected to exceed the simplified acquisition threshold, unless the clause at 52.229-4, Federal State, and Local Taxes (Noncompetitive Contract), is included in the contract.

29.401-4 Noncompetitive contracts.

The contracting officer shall insert the clause at 52.229-4, Federal, State, and Local Taxes (Noncompetitive Contract), in fixed-price noncompetitive contracts when the contract

exceeds the simplified acquisition threshold, to be performed wholly or partly within the United States, its possessions, or Puerto Rico when satisfied that the contract price does not include contingencies for State and local taxes, and that, unless the clause is used, the contract price will include such contingencies.

29.401-5 [Reserved]

29.402 Foreign contracts.

29.402-1 Foreign fixed-price contracts.

(a) The contracting officer shall insert the clause at 52.229-6, Taxes—Foreign Fixed-Price Contracts, in solicitations and contracts expected to exceed the simplified acquisition threshold when a fixed-price contract is contemplated and the contract is to be performed wholly or partly in a foreign country, unless it is contemplated that the contract will be with a foreign government.

(b) The contracting officer shall insert the clause at 52.229-7, Taxes—Fixed-Price Contracts with Foreign Governments, in solicitations and contracts that exceed the simplified acquisition threshold when a fixed-price contract with a foreign government is contemplated.

29.402-2 Foreign cost-reimbursement contracts.

(a) The contracting officer shall insert the clause at 52.229-8, Taxes—Foreign Cost-Reimbursement Contracts, in solicitations and contracts when a cost-reimbursement contract is contemplated and the contract is to be performed wholly or partly in a foreign country, unless it is contemplated that the contract will be with a foreign government.

(b) The contracting officer shall insert the clause at 52.229-9, Taxes—Cost-Reimbursement Contracts with Foreign Governments, in solicitations and contracts when a cost-reimbursement contract with a foreign government is contemplated.

30.603 Subcontract administration.

This page intentionally left blank.

30.000 Scope of part.

This part describes policies and procedures for applying the Cost Accounting Standards Board (CASB) rules and regulations (48 CFR Chapter 99 (FAR Appendix)) to negotiated contracts and subcontracts. This part does not apply to sealed bid contracts or to any contract with a small business concern (see 48 CFR 9903.201-1(b) (FAR Appendix) for these and other exemptions).

Subpart 30.1—General**30.101 Cost Accounting Standards.**

(a) Public Law 100-679 (41 U.S.C. 422) requires certain contractors and subcontractors to comply with Cost Accounting Standards (CAS) and to disclose in writing and follow consistently their cost accounting practices.

(b) Contracts that refer to this Part 30 for the purpose of applying the policies, procedures, standards and regulations promulgated by the CASB pursuant to Public Law 100-679, shall be deemed to refer to the CAS, and any other regulations promulgated by the CASB (see 48 CFR Chapter 99), all of which are hereby incorporated in this Part 30.

(c) The Appendix to the FAR loose-leaf edition contains—

(1) Cost Accounting Standards and Cost Accounting Standards Board Rules and Regulations Recodified by the Cost Accounting Standards Board at 48 CFR Chapter 99; and

(2) The following preambles:

(i) Part I—Preambles to the Cost Accounting Standards Published by the Cost Accounting Standards Board.

(ii) Part II—Preambles to the Related Rules and Regulations Published by the Cost Accounting Standards Board.

(iii) Part III—Preambles Published under the FAR System.

(d) The preambles are not regulatory but are intended to explain why the Standards and related Rules and Regulations were written, and to provide rationale for positions taken relative to issues raised in the public comments. The preambles are printed in chronological order to provide an administrative history.

30.102 Cost Accounting Standards Board Publication.

Copies of the CASB Standards and Regulations are printed in title 48 of the *Code of Federal Regulations*, Chapter 99, and may be obtained by writing the—

Superintendent of Documents
US Government Printing Office
Washington, DC 20402

or by calling the Washington, DC, ordering desk at (202) 512-1800.

Subpart 30.2—CAS Program Requirements

30.201 Contract requirements.

Title 48 CFR 9903.201-1 (FAR Appendix) describes the rules for determining whether a proposed contract or subcontract is exempt from CAS. Negotiated contracts not exempt in accordance with 48 CFR 9903.201-1(b) shall be subject to CAS. A CAS-covered contract may be subject to either full or modified coverage. The rules for determining whether full or modified coverage applies are in 48 CFR 9903.201-2 (FAR Appendix).

30.201-1 CAS applicability.

See 48 CFR 9903.201-1 (FAR Appendix).

30.201-2 Types of CAS coverage.

See 48 CFR 9903.201-2 (FAR Appendix).

30.201-3 Solicitation provisions.

(a) The contracting officer shall insert the provision at 52.230-1, Cost Accounting Standards Notices and Certification, in solicitations for proposed contracts subject to CAS as specified in 48 CFR 9903.201 (FAR Appendix).

(b) If an award to an educational institution is contemplated prior to July 1, 1997, the contracting officer shall insert the basic provision set forth at 52.230-1 with its Alternate I, unless the contract is to be performed by a Federally Funded Research and Development Center (FFRDC) (see 48 CFR 9903.201-2(c)(5) (FAR Appendix)), or the provision at 48 CFR 9903.201-2(c)(6) (FAR Appendix) applies.

30.201-4 Contract clauses.

(a) *Cost accounting standards.* (1) The contracting officer shall insert the clause at FAR 52.230-2, Cost Accounting Standards, in negotiated contracts, unless the contract is exempted (see 48 CFR 9903.201-1 (FAR Appendix)), the contract is subject to modified coverage (see 48 CFR 9903.201-2 (FAR Appendix)), or the clause prescribed in paragraph (c) of this subsection is used.

(2) The clause at FAR 52.230-2 requires the contractor to comply with all CAS specified in 48 CFR 9904 (FAR Appendix), to disclose actual cost accounting practices (applicable to CAS-covered contracts only), and to follow disclosed and established cost accounting practices consistently.

(b) *Disclosure and consistency of cost accounting practices.* (1) Insert the clause at FAR 52.230-3, Disclosure and Consistency of Cost Accounting Practices, in negotiated contracts when the contract amount is over \$500,000, but less than \$50 million, and the offeror certifies it is eligible for and elects to use modified CAS coverage (see 48 CFR 9903.201-2 (FAR Appendix)), unless the clause prescribed in paragraph (c) of this subsection is used.

(2) The clause at FAR 52.230-3 requires the contractor to comply with 48 CFR 9904.401, 9904.402, 9904.405, and 9904.406 (FAR Appendix) to disclose (if it meets certain requirements) actual cost accounting practices, and to follow consistently its established cost accounting practices.

(c) *Consistency in cost accounting practices.* The contracting officer shall insert the clause at FAR 52.230-4, Consistency in Cost Accounting Practices, in negotiated contracts that are exempt from CAS requirements solely on the basis of the fact that the contract is to be awarded to a United Kingdom contractor and is to be performed substantially in the United Kingdom (see 48 CFR 9903.201-1(b)(12) (FAR Appendix)).

(d) *Administration of cost accounting standards.* (1) The contracting officer shall insert the clause at FAR 52.230-6, Administration of Cost Accounting Standards, in contracts containing any of the clauses prescribed in paragraphs (a), (b), or (e) of this subsection.

(2) The clause at FAR 52.230-6 specifies rules for administering CAS requirements and procedures to be followed in cases of failure to comply.

(e) *Cost accounting standards—educational institutions.* (1) The contracting officer shall insert the clause at FAR 52.230-5, Cost Accounting Standards—Educational Institution, in negotiated contracts awarded to educational institutions, unless the contract is exempted (see 48 CFR 9903.201-1 (FAR Appendix)), the contract is to be performed by an FFRDC (see 48 CFR 9903.201-2(c)(5) (FAR Appendix)), or the provision at 48 CFR 9903.201-2(c)(6) (FAR Appendix) applies.

(2) The clause at FAR 52.230-5 requires the educational institution to comply with all CAS specified in 48 CFR 9905 (FAR Appendix), to disclose actual cost accounting practices as required by 48 CFR 9903.202-1(f) (FAR Appendix), and to follow disclosed and established cost accounting practices consistently.

30.201-5 Waiver.

(a) The Public Printer—

(1) May waive the applicability of CAS for a particular contract or subcontract under the conditions listed in paragraph (b) of this subsection; and

(2) Must not delegate this waiver authority to any official in the agency below the senior contract policymaking level.

(b) The Public Printer may grant a waiver when one of the following conditions exists:

(1) The contract or subcontract value is less than \$15,000,000, and the head of the agency determines, in writing, that the segment of the contractor or subcontractor that will perform the contract or subcontract—

(i) Is primarily engaged in the sale of commercial items; and

(ii) Has no contracts or subcontracts that are subject to CAS.

(2) The Public Printer determines that exceptional circumstances exist whereby a waiver of CAS is necessary to meet the needs of the agency. Exceptional circumstances exist only when the benefits to be derived from waiving the CAS outweigh the risk associated with the waiver. The determination that exceptional circumstances exist must—

(i) Be set forth in writing; and

(ii) Include a statement of the specific circumstances that justify granting the waiver.

(c) When one of the conditions in paragraph (b) of this subsection exists, the request for waiver should include the following:

(1) The amount of the proposed award.

(2) A description of the contract or subcontract type (e.g., firm-fixed-price, cost-reimbursement).

(3) Whether the segment(s) that will perform the contract or subcontract has CAS-covered contracts or subcontracts.

(4) A description of the item(s) being procured.

(5) When the contractor or subcontractor will not accept the contract or subcontract if CAS applies, a statement to that effect.

(6) Whether cost or pricing data will be obtained, and if so, a discussion of how the data will be used in negotiating the contract or subcontract price.

(7) The benefits to the Government of waiving CAS.

(8) The potential risk to the Government of waiving CAS.

(9) The date by which the waiver is needed.

(10) Any other information that may be useful in evaluating the request.

(d) When neither of the conditions in paragraph (b) of this subsection exists, the waiver request must be prepared in accordance with 48 CFR 9903.201-5(e) (FAR Appendix) and submitted to the CAS Board.

(e) MMS must report any waivers granted under paragraph (a) of this subsection to the CAS Board, on a fiscal year basis, not later than 90 days after the close of the Government's fiscal year.

30.201-6 Findings.

See 48 CFR 9903.201-6 (FAR Appendix).

30.201-7 Cognizant Federal agency responsibilities.

See 48 CFR 9903.201-7 (FAR Appendix).

30.202 Disclosure requirements.

30.202-1 General requirements.

See 48 CFR 9903.202-1 (FAR Appendix).

30.202-2 Impracticality of submission.

See 48 CFR 9903.202-2 (FAR Appendix).

30.202-3 Amendments and revisions.

See 48 CFR 9903.202-3 (FAR Appendix).

30.202-4 Privileged and confidential information.

See 48 CFR 9903.202-4 (FAR Appendix).

30.202-5 Filing Disclosure Statements.

See 48 CFR 9903.202-5 (FAR Appendix).

30.202-6 Responsibilities.

(a) The contracting officer is responsible for determining when a proposed contract may require CAS coverage and for including the appropriate notice in the solicitation. The contracting officer must then ensure that the offeror has made the required solicitation certifications and that required Disclosure Statements are submitted. (Also see 48 CFR 9903.201-3 and 9903.202 (FAR Appendix).)

(b) The contracting officer shall not award a CAS-covered contract until the ACO has made a written determination that a required Disclosure Statement is adequate unless, in order to protect the Government's interest, the contracting officer waives the requirement for an adequacy determination before award. In this event, a determination of adequacy shall be required as soon as possible after the award.

(c) The cognizant auditor is responsible for conducting reviews of Disclosure Statements for adequacy and compliance.

(d) The cognizant ACO is responsible for determinations of adequacy and compliance of the Disclosure Statement.

30.202-7 Determinations.

(a) *Adequacy determination.* As prescribed by 48 CFR 9903.202-6 (FAR Appendix), the cognizant auditor shall conduct a review of the Disclosure Statement to ascertain whether it is current, accurate, and complete and shall report the results to the cognizant ACO, who shall determine whether or not it adequately describes the offeror's cost accounting practices. If the ACO identifies any areas of inadequacy, the ACO shall request a revised Disclosure Statement. If the Disclosure Statement is adequate, the ACO shall notify the offeror in writing, with copies to the cognizant auditor and contracting officer. The notice of adequacy shall state that a disclosed practice shall not, by virtue of such disclosure, be considered an approved practice for pricing proposals or accumulating and reporting contract performance cost data. Generally, the ACO shall furnish the contractor notification of adequacy or inadequacy within 30 days after the Disclosure Statement has been received by the ACO.

(b) *Compliance determination.* After the notification of adequacy, the cognizant auditor shall conduct a detailed compliance review to ascertain whether or not the disclosed practices comply with Part 31 and the CAS and shall advise the ACO of the results. The ACO shall take action regarding noncompliance with CAS under FAR 30.602-2. The ACO may require a revised Disclosure Statement and adjustment of the prime contract price or cost allowance. Noncompliance with Part 31 shall be processed separately, in accordance with normal administrative practices.

30.202-8 Subcontractor Disclosure Statements.

(a) When the Government requires determinations of adequacy or inadequacy, the ACO cognizant of the subcontractor shall provide such determination to the ACO cognizant of the prime contractor or next higher tier subcontractor. The ACO cognizant of higher tier subcontractors or prime contractors shall not reverse the determination of the ACO cognizant of the subcontractor.

(b) Any determination that it is impractical to secure a subcontractor's Disclosure Statement must be made in accordance with 48 CFR 9903.202-2 (FAR Appendix).

**Subpart 30.3—CAS Rules and Regulations
[Reserved]**

NOTE: See 48 CFR 9903.3 (FAR Appendix B).

**Subpart 30.4—Cost Accounting Standards
[Reserved]**

NOTE: See 48 CFR Part 9904 (FAR Appendix B).

**Subpart 30.5—Cost Accounting Standards for
Educational Institutions [Reserved]**

NOTE: See 48 CFR Part 9905 (FAR Appendix B).

Subpart 30.6—CAS Administration

30.601 Responsibility.

(a) The cognizant ACO shall perform CAS administration for all contracts in a business unit notwithstanding retention of other administration functions by the contracting officer.

(b) Within 30 days after the award of any new contract or subcontract subject to CAS, the contracting officer, contractor, or subcontractor making the award shall request the cognizant ACO to perform administration for CAS matters (see Subpart 42.2).

30.602 Changes to disclosed or established cost accounting practices.

Adjustments to contracts and withholding amounts payable for CAS noncompliance, new standards, or voluntary changes are required only if the amounts involved are material. In determining materiality, the ACO shall use the criteria in 48 CFR 9903.305 (FAR Appendix). The ACO may forego action to require that a cost impact proposal be submitted or to adjust contracts, if the ACO determines the amount involved is immaterial. However, in the case of non-compliance issues, the ACO shall inform the contractor that—

(a) The Government reserves the right to make appropriate contract adjustments if, in the future, the ACO determines that the cost impact has become material; and

(b) The contractor is not excused from the obligation to comply with the applicable Standard or rules and regulations involved.

30.602-1 Equitable adjustments for new or modified standards.

(a) *New or modified standards.* (1) The provision at 52.230-1, Cost Accounting Standards Notices and Certification, requires offerors to state whether or not the award of the contemplated contract would require a change to established cost accounting practices affecting existing contracts and subcontracts. The contracting officer shall ensure that the contractor's response to the notice is made known to the ACO.

(2) Contracts and subcontracts containing the clause at FAR 52.230-2, Cost Accounting Standards, or FAR 52.230-5, Cost Accounting Standards—Educational Institution, may require equitable adjustments to comply with new or modified CAS. Such adjustments are limited to contracts and subcontracts awarded before the effective date of each new or modified standard. A new or modified standard becomes applicable prospectively to these contracts and subcontracts when a new contract or subcontract containing the clause at 52.230-2 or 52.230-5 is awarded on or after the effective date of the new or modified standard.

(3) Contracting officers shall encourage contractors to submit to the ACO any change in accounting practice in anticipation of complying with a new or modified standard as soon as practical after the new or modified Standard has been promulgated by the CASB.

(b) *Accounting changes.* (1) The clause at FAR 52.230-6, Administration of Cost Accounting Standards, requires the contractor to submit a description of any change in cost accounting practices required to comply with a new or modified CAS within 60 days (or other mutually agreed to date) after award of a contract requiring the change.

(2) The ACO, with the assistance of the auditor, shall review the proposed change concurrently for adequacy and compliance (see 30.202-7). If the description of the change meets both tests, the ACO shall notify the contractor and request submission of a cost impact proposal in accordance with FAR 30.602.

(c) *Contract price adjustments.* (1) The ACO shall promptly analyze the cost impact proposal with the assistance of the auditor, determine the impact, and negotiate the contract price adjustment on behalf of all Government agencies. The ACO shall invite contracting officers to participate in negotiations of adjustments when the price of any of their contracts may be increased or decreased by \$10,000 or more. At the conclusion of negotiations, the ACO shall—

(i) Execute supplemental agreements to contracts of the ACO's own agency (and, if additional funds are required, request them from the appropriate contracting officer);

(ii) Prepare a negotiation memorandum and send copies to cognizant auditors and contracting officers of other agencies having prime contracts affected by the negotiation (those agencies shall execute supplemental agreements in the amounts negotiated); and

(iii) Furnish copies of the memorandum indicating the effect on costs to the ACO of the next higher tier subcontractor or prime contractor, as appropriate, if a subcontract is to be adjusted. This memorandum shall be the basis for negotiation between the subcontractor and the next higher tier subcontractor or prime contractor and for execution of a supplemental agreement to the subcontract.

(2) If the parties fail to agree on the cost or price adjustment, the ACO may make a unilateral adjustment, subject to contractor appeal as provided in the clause at 52.233-1, Disputes.

(d) *Remedies for contractor failure to make required submissions.* (1) If the contractor does not submit the accounting change description or the general dollar magnitude of the change or cost impact proposal (in the form and manner specified), the ACO, with the assistance of the auditor, shall estimate the general dollar magnitude of the cost impact on CAS-covered contracts and subcontracts. The ACO may then withhold an amount not to exceed 10 percent of each

subsequent amount determined payable related to the contractor's CAS-covered prime contracts, up to the estimated general dollar magnitude of the cost impact, until the required submission is furnished by the contractor.

(2) If the contractor has not submitted the cost impact proposal before the total withheld amount reaches the estimated general dollar magnitude and the ACO determines that an adjustment is required (see 30.602), the ACO shall request the contractor to agree to the cost or price adjustment. The contractor shall also be advised that in the event no agreement on the cost or price adjustment is reached within 20 days, the ACO may make a unilateral adjustment, subject to contractor appeal as provided in the clause at 52.233-1, Disputes.

30.602-2 Noncompliance with CAS requirements.

(a) *Determination of noncompliance.* (1) Within 15 days of the receipt of a report of alleged noncompliance from the cognizant auditor, the ACO shall make an initial finding of compliance or noncompliance and advise the auditor.

(2) If an initial finding of noncompliance is made, the ACO shall immediately notify the contractor in writing of the exact nature of the noncompliance and allow the contractor 60 days within which to agree or to submit reasons why the existing practices are considered to be in compliance.

(3) If the contractor agrees with the initial finding of noncompliance, the ACO shall review the contractor submissions required by paragraph (a) of the clause at FAR 52.230-6, Administration of Cost Accounting Standards.

(4) If the contractor disagrees with the initial noncompliance finding, the ACO shall review the reasons why the contractor considers the existing practices to be in compliance and make a determination of compliance or noncompliance. If the ACO determines that the contractor's practices are in noncompliance, a written explanation shall be provided as to why the ACO disagrees with the contractor's rationale. The ACO shall notify the contractor and the auditor in writing of the determination. If the ACO makes a determination of noncompliance, the procedures in (b) through (d), as appropriate, shall be followed.

(b) *Accounting changes.* (1) The clause at FAR 52.230-6, Administration of Cost Accounting Standards, requires the contractor to submit a description of any cost accounting practice change needed to correct a noncompliance.

(2) The ACO shall review the proposed change concurrently for adequacy and compliance (see 30.202-7). If the description of the change meets both tests, the ACO shall notify the contractor and request submission of a cost impact proposal in accordance with FAR 30.602.

(c) *Contract price adjustments.* (1) The ACO shall request that the contractor submit a cost impact proposal within the time specified in the clause at FAR 52.230-6, Administration of Cost Accounting Standards.

(2) Upon receipt of the cost impact proposal, the ACO shall then follow the procedures in 30.602-1(c)(1). In accordance with the clause at 52.230-2, Cost Accounting Standards, or 52.230-5, Cost Accounting Standards—Educational Institution, the ACO shall include and separately identify, as part of the computation of the contract price adjustment(s), applicable interest on any increased costs paid to the contractor as a result of the noncompliance. Interest shall be computed from the date of overpayment to the time the adjustment is effected. If the costs were incurred and paid evenly over the fiscal years during which the noncompliance occurred, then the midpoint of the period in which the noncompliance began may be considered the baseline for the computation of interest. An alternate equitable method should be used if the costs were not incurred and paid evenly over the fiscal years during which the noncompliance occurred. Interest under 52.230-2 should be computed pursuant to Public Law 100-679.

(d) *Remedies for contractor failure to make required submissions.* (1) If the contractor does not submit the accounting change description or the general dollar magnitude of the change or cost impact proposal (in the form and manner specified), the ACO, with the assistance of the cognizant auditor, shall estimate the general dollar magnitude of the cost impact on CAS-covered contracts and subcontracts. The ACO may then withhold an amount not to exceed 10 percent of each subsequent amount determined payable related to the contractor's CAS-covered prime contracts, up to the estimated general dollar magnitude of the cost impact until the required submission is furnished by the contractor.

(2) If the contractor has not submitted the cost impact proposal before the total withheld amount reaches the estimated general dollar magnitude and the ACO determines that an adjustment is required (see 30.602), the ACO shall notify the contractor and request agreement as to the cost or price adjustment together with any applicable interest as computed in accordance with 30.602-2(c)(2). The contractor shall also be advised that in the event no agreement on the cost or price adjustment is reached within 20 days, the ACO may make a unilateral adjustment, subject to contractor appeal, as provided in the clause at 52.233-1, Disputes.

(3) If the ACO determines that there is no material increase in costs as a result of the noncompliance, the ACO shall notify the contractor in writing that the contractor is in noncompliance, that corrective action should be taken, and that if such noncompliance subsequently results in materially increased costs to the Government, the provisions of the clause at 52.230-2, Cost Accounting Standards, 52.230-5, Cost Accounting Standards—Educational Institution, and/or the clause at 52.230-3, Disclosure and Consistency of Cost Accounting Practices, will be enforced.

30.602-3 Voluntary changes.

(a) *General.* (1) The contractor may voluntarily change its disclosed or established cost accounting practices.

(2) The contract price may be adjusted for voluntary changes. However, increased costs resulting from a voluntary change may be allowed only if the ACO determines that the change is desirable and not detrimental to the interest of the Government.

(b) *Accounting changes.* (1) The clause at FAR 52.230-6, Administration of Cost Accounting Standards, requires the contractor to notify the ACO and submit a description of any voluntary cost accounting practice change not less than 60 days (or such other date as may be mutually agreed to) before implementation of the voluntary change.

(2) The ACO, with the assistance of the cognizant auditor, shall review the proposed change concurrently for adequacy and compliance (see 30.202-7). If the description of the change meets both tests, the ACO shall notify the contractor and request submission of a cost impact proposal in accordance with FAR 30.602.

(c) *Contract price adjustments.* (1) With the assistance of the auditor, the ACO shall promptly analyze the cost impact proposal to determine whether or not the proposed change will result in increased costs being paid by the Government. The ACO shall consider all of the contractor's affected CAS-covered contracts and subcontracts, but any cost changes to higher-tier subcontracts or contracts of other contractors over and above the cost of the subcontract adjustment shall not be considered.

(2) The ACO shall then follow the procedures in 30.602-1(c)(1).

(d) *Remedies for contractor failure to make required submissions.* (1) If the contractor does not submit the accounting change description or the general dollar magnitude of the change or cost impact proposal (in the form and manner specified), the ACO, with the assistance of the cognizant auditor, shall estimate the general dollar magnitude of the cost impact on CAS-covered contracts and subcontracts. The ACO may then withhold an amount not to exceed 10 percent of each subsequent amount determined payable related to the contractor's CAS-covered prime contracts up to the estimated general dollar magnitude of the cost impact, until the required submission is furnished by the contractor.

(2) If the contractor has not submitted the cost impact proposal before the total withheld amount reaches the estimated general dollar magnitude and the ACO determines that an adjustment is appropriate (see 30.602), the ACO shall request the contractor to agree to the cost or price adjustment. The contractor shall also be advised that, in the event no agreement on the cost or price adjustment is reached within 20 days, the ACO may make a unilateral adjustment subject to contractor appeal, as provided in the clause at 52.233-1, Disputes.

30.603 Subcontract administration.

When a negotiated CAS price adjustment or a determination of noncompliance is required at the subcontract level, the ACO cognizant of the subcontractor shall make the determination and advise the ACO cognizant of the prime contractor or next higher tier subcontractor of the decision. The ACOs cognizant of higher tier subcontractors or prime contractors shall not reverse the determination of the ACO cognizant of the subcontractor.

31.602	General.	31.702	General.
		31.703	Requirements.

31.000 Scope of part.

This part contains cost principles and procedures for—

(a) The pricing of contracts, subcontracts, and modifications to contracts and subcontracts whenever cost analysis is performed (see 15.404-1(c)); and

(b) The determination, negotiation, or allowance of costs when required by a contract clause.

31.001 Definitions.

As used in this part—

“Accrued benefit cost method” means an actuarial cost method under which units of benefits are assigned to each cost accounting period and are valued as they accrue; *i.e.*, based on the services performed by each employee in the period involved. The measure of normal cost under this method for each cost accounting period is the present value of the units of benefit deemed to be credited to employees for service in that period. The measure of the actuarial accrued liability at a plan’s inception date is the present value of the units of benefit credited to employees for service prior to that date. (This method is also known as the unit credit cost method without salary projection.)

“Accumulating costs” means collecting cost data in an organized manner, such as through a system of accounts.

“Actual cash value” means the cost of replacing damaged property with other property of like kind and quality in the physical condition of the property immediately before the damage.

“Actual costs” means (except for Subpart 31.6) amounts determined on the basis of costs incurred, as distinguished from forecasted costs. Actual costs include standard costs properly adjusted for applicable variances.

“Actuarial accrued liability” means pension cost attributable, under the actuarial cost method in use, to years prior to the current period considered by a particular actuarial valuation. As of such date, the actuarial accrued liability represents the excess of the present value of future benefits and administrative expenses over the present value of future normal costs for all plan participants and beneficiaries. The excess of the actuarial accrued liability over the actuarial value of the assets of a pension plan is the unfunded actuarial liability. The excess of the actuarial value of the assets of a pension plan over the actuarial accrued liability is an actuarial surplus and is treated as a negative unfunded actuarial liability.

“Actuarial assumption” means an estimate of future conditions affecting pension cost; *e.g.*, mortality rate, employee turnover, compensation levels, earnings on pension plan assets, and changes in values of pension plan assets.

“Actuarial cost method” means a technique which uses actuarial assumptions to measure the present value of future pension benefits and pension plan administrative expenses, and that assigns the cost of such benefits and expenses to

cost accounting periods. The actuarial cost method includes the asset valuation method used to determine the actuarial value of the assets of a pension plan.

“Actuarial gain and loss” means the effect on pension cost resulting from differences between actuarial assumptions and actual experience.

“Actuarial valuation” means the determination, as of a specified date, of the normal cost, actuarial accrued liability, actuarial value of the assets of a pension plan, and other relevant values for the pension plan.

“Allocate” means to assign an item of cost, or a group of items of cost, to one or more cost objectives. This term includes both direct assignment of cost and the reassignment of a share from an indirect cost pool.

“Compensated personal absence” means any absence from work for reasons such as illness, vacation, holidays, jury duty, military training, or personal activities for which an employer pays compensation directly to an employee in accordance with a plan or custom of the employer.

“Cost input” means the cost, except general and administrative (G&A) expenses, which for contract costing purposes is allocable to the production of goods and services during a cost accounting period.

“Cost objective” means (except for Subpart 31.6) a function, organizational subdivision, contract, or other work unit for which cost data are desired and for which provision is made to accumulate and measure the cost of processes, products, jobs, capitalized projects, etc.

“Cost of capital committed to facilities” means an imputed cost determined by applying a cost of money rate to facilities capital.

“Deferred compensation” means an award made by an employer to compensate an employee in a future cost accounting period or periods for services rendered in one or more cost accounting periods before the date of the receipt of compensation by the employee. This definition shall not include the amount of year end accruals for salaries, wages, or bonuses that are to be paid within a reasonable period of time after the end of a cost accounting period.

“Defined-benefit pension plan” means a pension plan in which the benefits to be paid, or the basis for determining such benefits, are established in advance and the contributions are intended to provide the stated benefits.

“Defined-contribution pension plan” means a pension plan in which the contributions to be made are established in advance and the benefits are determined thereby.

“Directly associated cost” means any cost which is generated solely as a result of the incurrence of another cost, and which would not have been incurred had the other cost not been incurred.

“Estimating costs” means the process of forecasting a future result in terms of cost, based upon information available at the time.

“Expressly unallowable cost” means a particular item or type of cost which, under the express provisions of an applicable law, regulation, or contract, is specifically named and stated to be unallowable.

“Facilities capital” means the net book value of tangible capital assets and of those intangible capital assets that are subject to amortization.

“Final cost objective” means (except for Subparts 31.3 and 31.6) a cost objective that has allocated to it both direct and indirect costs and, in the contractor’s accumulation system, is one of the final accumulation points.

“Fiscal year” means the accounting period for which annual financial statements are regularly prepared, generally a period of 12 months, 52 weeks, or 53 weeks.

“Funded pension cost” means the portion of pension cost for a current or prior cost accounting period that has been paid to a funding agency.

“Home office” means an office responsible for directing or managing two or more, but not necessarily all, segments of an organization. It typically establishes policy for, and provides guidance to, the segments in their operations. It usually performs management, supervisory, or administrative functions, and may also perform service functions in support of the operations of the various segments. An organization which has intermediate levels, such as groups, may have several home offices which report to a common home office. An intermediate organization may be both a segment and a home office.

“Immediate-gain actuarial cost method” means any of the several actuarial cost methods under which actuarial gains and losses are included as part of the unfunded actuarial liability of the pension plan, rather than as part of the normal cost of the plan.

“Independent research and development (IR&D) cost” means the cost of effort which is neither sponsored by a grant, nor required in performing a contract, and which falls within any of the following four areas—

- (a) Basic research,
- (b) Applied research,
- (c) Development, and
- (d) Systems and other concept formulation studies.

“Indirect cost pools” means (except for Subparts 31.3 and 31.6) groupings of incurred costs identified with two or more cost objectives but not identified specifically with any final cost objective.

“Insurance administration expenses” means the contractor’s costs of administering an insurance program; *e.g.*, the costs of operating an insurance or risk-management department, processing claims, actuarial fees, and service fees paid to insurance companies, trustees, or technical consultants.

“Intangible capital asset” means an asset that has no physical substance, has more than minimal value, and is expected to be held by an enterprise for continued use or possession

beyond the current accounting period for the benefits it yields.

“Job” means a homogeneous cluster of work tasks, the completion of which serves an enduring purpose for the organization. Taken as a whole, the collection of tasks, duties, and responsibilities constitutes the assignment for one or more individuals whose work is of the same nature and is performed at the same skill/responsibility level—as opposed to a position, which is a collection of tasks assigned to a specific individual. Within a job, there may be pay categories which are dependent on the degree of supervision required by the employee while performing assigned tasks which are performed by all persons with the same job.

“Job class of employees” means employees performing in positions within the same job.

“Labor cost at standard” means a preestablished measure of the labor element of cost, computed by multiplying labor-rate standard by labor-time standard.

“Labor market” means a place where individuals exchange their labor for compensation. Labor markets are identified and defined by a combination of the following factors—

- (1) Geography,
- (2) Education and/or technical background required,
- (3) Experience required by the job,
- (4) Licensing or certification requirements,
- (5) Occupational membership, and
- (6) Industry.

“Labor-rate standard” means a preestablished measure, expressed in monetary terms, of the price of labor.

“Labor-time standard” means a preestablished measure, expressed in temporal terms, of the quantity of labor.

“Material cost at standard” means a preestablished measure of the material elements of cost, computed by multiplying material-price standard by material-quantity standard.

“Material-price standard” means a preestablished measure, expressed in monetary terms, of the price of material.

“Material-quantity standard” means a preestablished measure, expressed in physical terms, of the quantity of material.

“Moving average cost” means an inventory costing method under which an average unit cost is computed after each acquisition by adding the cost of the newly acquired units to the cost of the units of inventory on hand and dividing this figure by the new total number of units.

“Nonqualified pension plan” means any pension plan other than a qualified pension plan as defined in this part.

“Normal cost” means the annual cost attributable, under the actuarial cost method in use, to current and future years as of a particular valuation date excluding any payment in respect of an unfunded actuarial liability.

“Original complement of low cost equipment” means a group of items acquired for the initial outfitting of a tangible

capital asset or an operational unit, or a new addition to either. The items in the group individually cost less than the minimum amount established by the contractor for capitalization for the classes of assets acquired but in the aggregate they represent a material investment. The group, as a complement, is expected to be held for continued service beyond the current period. Initial outfitting of the unit is completed when the unit is ready and available for normal operations.

“Pay-as-you-go cost method” means a method of recognizing pension cost only when benefits are paid to retired employees or their beneficiaries.

“Pension plan” means a deferred compensation plan established and maintained by one or more employers to provide systematically for the payment of benefits to plan participants after their retirements, provided that the benefits are paid for life or are payable for life at the option of the employees. Additional benefits such as permanent and total disability and death payments, and survivorship payments to beneficiaries of deceased employees, may be an integral part of a pension plan.

“Pension plan participant” means any employee or former employee of an employer or any member or former member of an employee organization, who is or may become eligible to receive a benefit from a pension plan which covers employees of such employer or members of such organization who have satisfied the plan’s participation requirements, or whose beneficiaries are receiving or may be eligible to receive any such benefit. A participant whose employment status with the employer has not been terminated is an active participant of the employer’s pension plan.

“Profit center” means (except for Subparts 31.3 and 31.6) the smallest organizationally independent segment of a company charged by management with profit and loss responsibilities.

“Projected benefit cost method” means either—

(1) Any of the several actuarial cost methods that distribute the estimated total cost of all of the employees’ prospective benefits over a period of years, usually their working careers; or

(2) A modification of the accrued benefit cost method that considers projected compensation levels.

“Proposal” means any offer or other submission used as a basis for pricing a contract, contract modification, or termination settlement or for securing payments thereunder.

“Qualified pension plan” means a pension plan comprising a definite written program communicated to and for the exclusive benefit of employees that meets the criteria deemed essential by the Internal Revenue Service as set forth in the Internal Revenue Code for preferential tax treatment regarding contributions, investments, and distributions. Any other plan is a nonqualified pension plan.

“Self-insurance charge” means a cost which represents the projected average loss under a self-insurance plan.

“Service life” means the period of usefulness of a tangible capital asset (or group of assets) to its current owner. The period may be expressed in units of time or output. The estimated service life of a tangible capital asset (or group of assets) is a current forecast of its service life and is the period over which depreciation cost is to be assigned.

“Spread-gain actuarial cost method” means any of the several projected benefit actuarial cost methods under which actuarial gains and losses are included as part of the current and future normal costs of the pension plan.

“Standard cost” means any cost computed with the use of preestablished measures.

“Tangible capital asset” means an asset that has physical substance, more than minimal value, and is expected to be held by an enterprise for continued use or possession beyond the current accounting period for the services it yields.

“Termination of employment gain or loss” means an actuarial gain or loss resulting from the difference between the assumed and actual rates at which pension plan participants separate from employment for reasons other than retirement, disability, or death.

“Variance” means the difference between a preestablished measure and an actual measure.

“Weighted average cost” means an inventory costing method under which an average unit cost is computed periodically by dividing the sum of the cost of beginning inventory plus the cost of acquisitions by the total number of units included in these two categories.

31.002 Availability of accounting guide.

Contractors needing assistance in developing or improving their accounting systems and procedures may request a copy of the Defense Contract Audit Agency Pamphlet No. 7641.90, Information for Contractors. The pamphlet is available via the Internet at <http://www.dcaa.mil>.

Subpart 31.1—Applicability

31.100 Scope of subpart.

This subpart describes the applicability of the cost principles and procedures in succeeding subparts of this part to various types of contracts and subcontracts. It also describes the need for advance agreements.

31.101 Objectives.

In recognition of differing organizational characteristics, the cost principles and procedures in the succeeding subparts are grouped basically by organizational type; *e.g.*, commercial concerns and educational institutions. The overall objective is to provide that, to the extent practicable, all

organizations of similar types doing similar work will follow the same cost principles and procedures. To achieve this uniformity, individual deviations concerning cost principles require advance approval of the Public Printer or designee.

31.102 Fixed-price contracts.

The applicable subparts of Part 31 shall be used in the pricing of fixed-price contracts, subcontracts, and modifications to contracts and subcontracts whenever (a) cost analysis is performed, or (b) a fixed-price contract clause requires the determination or negotiation of costs. However, application of cost principles to fixed-price contracts and subcontracts shall not be construed as a requirement to negotiate agreements on individual elements of cost in arriving at agreement on the total price. The final price accepted by the parties reflects agreement only on the total price. Further, notwithstanding the mandatory use of cost principles, the objective will continue to be to negotiate prices that are fair and reasonable, cost and other factors considered.

31.103 Contracts with commercial organizations.

This category includes all contracts and contract modifications for supplies, services, or experimental, developmental, or research work negotiated with organizations other than educational institutions (see 31.104), construction and architect-engineer contracts (see 31.105), State and local governments (see 31.107) and nonprofit organizations (see 31.108) on the basis of cost.

(a) The cost principles and procedures in Subpart 31.2 and agency supplements shall be used in pricing negotiated supply, service, experimental, developmental, and research contracts and contract modifications with commercial organizations whenever cost analysis is performed as required by 15.404-1(c).

(b) In addition, the contracting officer shall incorporate the cost principles and procedures in Subpart 31.2 and agency supplements by reference in contracts with commercial organizations as the basis for—

(1) Determining reimbursable costs under—

(i) Cost-reimbursement contracts and cost-reimbursement subcontracts under these contracts performed by commercial organizations and

(ii) The cost-reimbursement portion of time-and-materials contracts except when material is priced on a basis other than at cost (see 16.601(b)(3));

(2) Negotiating indirect cost rates (see Subpart 42.7);

(3) Proposing, negotiating, or determining costs under terminated contracts (see 49.103 and 49.113);

(4) Price revision of fixed-price incentive contracts (see 16.204 and 16.403);

(5) Price redetermination of price redetermination contracts (see 16.205 and 16.206); and

(6) Pricing changes and other contract modifications.

31.104 Contracts with educational institutions.

This category includes all contracts and contract modifications for research and development, training, and other work performed by educational institutions.

(a) The contracting officer shall incorporate the cost principles and procedures in Subpart 31.3 by reference in cost-reimbursement contracts with educational institutions as the basis for—

(1) Determining reimbursable costs under the contracts and cost-reimbursement subcontracts thereunder performed by educational institutions;

(2) Negotiating indirect cost rates; and

(3) Settling costs of cost-reimbursement terminated contracts (see Subpart 49.3 and 49.109-7).

(b) The cost principles in this subpart are to be used as a guide in evaluating costs in connection with negotiating fixed-price contracts and termination settlements.

31.105 Construction and architect-engineer contracts.

(a) This category includes all contracts and contract modifications negotiated on the basis of cost with organizations other than educational institutions (see 31.104), State and local governments (see 31.107), and nonprofit organizations except those exempted under OMB Circular A-122 (see 31.108) for construction management or construction, alteration or repair of buildings, bridges, roads, or other kinds of real property. It also includes architect-engineer contracts related to construction projects. It does not include contracts for vessels, aircraft, or other kinds of personal property.

(b) Except as otherwise provided in (d) of this section, the cost principles and procedures in Subpart 31.2 shall be used in the pricing of contracts and contract modifications in this category if cost analysis is performed as required by 15.404-1(c).

(c) In addition, the contracting officer shall incorporate the cost principles and procedures in Subpart 31.2 (as modified by (d) of this section) by reference in contracts in this category as the basis for—

(1) Determining reimbursable costs under cost-reimbursement contracts, including cost-reimbursement subcontracts thereunder;

(2) Negotiating indirect cost rates;

(3) Proposing, negotiating, or determining costs under terminated contracts;

(4) Price revision of fixed-price incentive contracts; and

(5) Pricing changes and other contract modifications.

(d) Except as otherwise provided in this paragraph (d), the allowability of costs for construction and architect-engineer contracts shall be determined in accordance with Subpart 31.2.

(1) Because of widely varying factors such as the nature, size, duration, and location of the construction project, advance agreements as set forth in 31.109, for such items as home office overhead, partners' compensation, employment of consultants, and equipment usage costs, are particularly important in construction and architect-engineer contracts. When appropriate, they serve to express the parties' understanding and avoid possible subsequent disputes or disallowances.

(2) "Construction equipment," as used in this section, means equipment (including marine equipment) in sound workable condition, either owned or controlled by the contractor or the subcontractor at any tier, or obtained from a commercial rental source, and furnished for use under Government contracts.

(i) Allowable ownership and operating costs shall be determined as follows:

(A) Actual cost data shall be used when such data can be determined for both ownership and operations costs for each piece of equipment, or groups of similar serial or series equipment, from the contractor's accounting records. When such costs cannot be so determined, the contracting agency may specify the use of a particular schedule of predetermined rates or any part thereof to determine ownership and operating costs of construction equipment (see subdivisions (d)(2)(i)(B) and (C) of this section). However, costs otherwise unallowable under this part shall not become allowable through the use of any schedule (see 31.109(c)). For example, schedules need to be adjusted for Government contract costing purposes if they are based on replacement cost, include unallowable interest costs, or use improper cost of money rates or computations. Contracting officers should review the computations and factors included within the specified schedule and ensure that unallowable or unacceptably computed factors are not allowed in cost submissions.

(B) Predetermined schedules of construction equipment use rates (*e.g.*, the Construction Equipment Ownership and Operating Expense Schedule, published by the U.S. Army Corps of Engineers, industry sponsored construction equipment cost guides, or commercially published schedules of construction equipment use cost) provide average ownership and operating rates for construction equipment. The allowance for operating costs may include costs for such items as fuel, filters, oil, and grease; servicing, repairs, and maintenance; and tire wear and repair. Costs of labor, mobilization, demobilization, overhead, and profit are generally not reflected in schedules, and separate consideration may be necessary.

(C) When a schedule of predetermined use rates for construction equipment is used to determine direct costs, all costs of equipment that are included in the cost allowances provided by the schedule shall be identified and eliminated from the contractor's other direct and indirect costs

charged to the contract. If the contractor's accounting system provides for site or home office overhead allocations, all costs which are included in the equipment allowances may need to be included in any cost input base before computing the contractor's overhead rate. In periods of suspension of work pursuant to a contract clause, the allowance for equipment ownership shall not exceed an amount for standby cost as determined by the schedule or contract provision.

(ii) Reasonable costs of renting construction equipment are allowable (but see paragraph (C) of this subsection).

(A) Costs, such as maintenance and minor or running repairs incident to operating such rented equipment, that are not included in the rental rate are allowable.

(B) Costs incident to major repair and overhaul of rental equipment are unallowable.

(C) The allowability of charges for construction equipment rented from any division, subsidiary, or organization under common control, will be determined in accordance with 31.205-36(b)(3).

(3) Costs incurred at the job site incident to performing the work, such as the cost of superintendence, timekeeping and clerical work, engineering, utility costs, supplies, material handling, restoration and cleanup, etc., are allowable as direct or indirect costs, provided the accounting practice used is in accordance with the contractor's established and consistently followed cost accounting practices for all work.

(4) Rental and any other costs, less any applicable credits incurred in acquiring the temporary use of land, structures, and facilities are allowable. Costs, less any applicable credits, incurred in constructing or fabricating structures and facilities of a temporary nature are allowable.

31.106 Facilities contracts.

31.106-1 Applicable cost principles.

The cost principles and procedures applicable to the evaluation and determination of costs under facilities contracts (as defined in 45.301), and subcontracts thereunder, will be governed by the type of entity to which a facilities contract is awarded. Except as otherwise provided in 31.106-2 of this section, Subpart 31.2 applies to facilities contracts awarded to commercial organizations; Subpart 31.3 applies to facilities contracts awarded to educational institutions; and 31.105 applies to facilities contracts awarded to construction contractors. Whichever cost principles are appropriate will be used in the pricing of facilities contracts and contract modifications if cost analysis is performed as required by 15.404-1(c). In addition, the contracting officer shall incorporate the cost principles and procedures appropriate in the circumstances (*e.g.*, Subpart 31.2; Subpart 31.3; or 31.105) by reference in facilities contracts as the basis for—

(a) Determining reimbursable costs under facilities contracts, including cost-reimbursement subcontracts thereunder;

(b) Negotiating indirect cost rates; and

(c) Determining costs of terminated contracts when the contractor elects to “voucher out” costs (see Subpart 49.3), and for settlement by determination (see 49.109-7).

31.106-2 Exceptions to general rules on allowability and allocability.

(a) A contractor’s established accounting system and procedures are normally directed to the equitable allocation of costs to the types of products which the contractor produces or services rendered in the course of normal operating activities. The acquisition of, or work on, facilities for the Government normally does not involve the manufacturing processes, plant departmental operations, cost patterns of work, administrative and managerial control, or clerical effort usual to production of the contractor’s normal products or services.

(b) Advance agreements (see 31.109) should be made between the contractor and the contracting officer as to indirect cost items to be applied to the facilities acquisition. A contractor’s normal accounting practice for allocating indirect costs to the acquisition of contractor facilities may range from charging all these costs to this acquisition to not charging any. When necessary to produce an equitable result, the contractor’s usual method of allocating indirect cost shall be varied, and appropriate adjustment shall be made to the pools of indirect cost and the bases of their distribution.

(c) The purchase of completed facilities (or services in connection with the facilities) from outside sources does not involve the contractor’s direct labor or indirect plant maintenance personnel. Accordingly, indirect manufacturing and plant overhead costs, which are primarily incurred or generated by reason of direct labor or maintenance labor operations, are not allocable to the acquisition of such facilities.

(d) Contracts providing for the installation of new facilities or the rehabilitation of existing facilities may involve the use of the contractor’s plant maintenance labor, as distinguished from direct labor engaged in the production of the company’s normal products. In such instances, only those types of indirect manufacturing and plant operating costs that are related to or incurred by reason of the expenditures of the classes of labor used for the performance of the facilities work may be allocated to the facilities contract. Thus, a facilities contract which involves the use of plant maintenance labor only would not be subject to an allocation of such cost items as direct productive labor supervision, depreciation, and maintenance expense applicable to productive machinery and equipment, or raw material and finished goods storage costs.

(e) Where a facilities contract calls for the construction, production, or rehabilitation of equipment or other items that are involved in the regular course of the contractor’s business by the use of the contractor’s direct labor and manufacturing processes, the indirect costs normally allocated to all that work may be allocated to the facilities contract.

31.106-3 Contractor’s commercial items.

If facilities constituting the contractor’s usual commercial items (or only minor modifications thereof) are acquired by the Government under the contract, the Government shall not pay any amount in excess of the contractor’s most favored customer price or the price of other suppliers for like quantities of the same or substantially the same items, whichever is lower.

31.107 Contracts with State, local, and federally recognized Indian tribal governments.

(a) Subpart 31.6 provides principles and standards for determining costs applicable to contracts with State, local, and federally recognized Indian tribal governments. They provide the basis for a uniform approach to the problem of determining costs and to promote efficiency and better relationships between State, local, and federally recognized Indian tribal governments, and Federal Government entities. They apply to all programs that involve contracts with State, local, and federally recognized Indian tribal governments, except contracts with—

(1) Publicly financed educational institutions subject to Subpart 31.3; or

(2) Publicly owned hospitals and other providers of medical care subject to requirements promulgated by the sponsoring Government agencies.

(b) The Office of Management and Budget will approve any other exceptions in particular cases when adequate justification is presented.

31.108 Contracts with nonprofit organizations.

Subpart 31.7 provides principles and standards for determining costs applicable to contracts with nonprofit organizations other than educational institutions, State and local governments, and those nonprofit organizations exempted under OMB Circular No. A-122.

31.109 Advance agreements.

(a) The extent of allowability of the costs covered in this part applies broadly to many accounting systems in varying contract situations. Thus, the reasonableness, the allocability and the allowability under the specific cost principles at Subparts 31.2, 31.3, 31.6, and 31.7 of certain costs may be difficult to determine. To avoid possible subsequent disallowance or dispute based on unreasonableness, unallocability or unallowability under the specific cost principles at Subparts 31.2,

31.3, 31.6, and 31.7, contracting officers and contractors should seek advance agreement on the treatment of special or unusual costs. However, an advance agreement is not an absolute requirement and the absence of an advance agreement on any cost will not, in itself, affect the reasonableness, allocability or the allowability under the specific cost principles at Subparts 31.2, 31.3, 31.6, and 31.7 of that cost.

(b) Advance agreements may be negotiated either before or during a contract but should be negotiated before incurrence of the costs involved. The agreements must be in writing, executed by both contracting parties, and incorporated into applicable current and future contracts. An advance agreement shall contain a statement of its applicability and duration.

(c) The contracting officer is not authorized by this 31.109 to agree to a treatment of costs inconsistent with this part. For example, an advance agreement may not provide that, notwithstanding 31.205-20, interest is allowable.

(d) Advance agreements may be negotiated with a particular contractor for a single contract, a group of contracts, or all the contracts of a contracting office, an agency, or several agencies.

(e) The cognizant administrative contracting officer (ACO), or other contracting officer established in Part 42, shall negotiate advance agreements except that an advance agreement affecting only one contract, or class of contracts from a single contracting office, shall be negotiated by a contracting officer in the contracting office, or an ACO when delegated by the contracting officer. When the negotiation authority is delegated, the ACO shall coordinate the proposed agreement with the contracting officer before executing the advance agreement.

(f) Before negotiating an advance agreement, the Government negotiator shall—

(1) Determine if other contracting offices inside the agency or in other agencies have a significant unliquidated dollar balance in contracts with the same contractor;

(2) Inform any such office or agency of the matters under consideration for negotiation; and

(3) As appropriate, invite the office or agency and the responsible audit agency to participate in prenegotiation discussions and/or in the subsequent negotiations.

(g) Upon completion of the negotiation, the sponsor shall prepare and distribute to other interested agencies and offices, including the audit agency, copies of the executed agreement and a memorandum providing the information specified in 15.406-3, as applicable.

(h) Examples of costs for which advance agreements may be particularly important are—

(1) Compensation for personal services, including but not limited to allowances for off-site pay, incentive pay, location allowances, hardship pay, cost of living differential, and termination of defined benefit pension plans;

(2) Use charges for fully depreciated assets;

(3) Deferred maintenance costs;

(4) Precontract costs;

(5) Independent research and development and bid and proposal costs;

(6) Royalties and other costs for use of patents;

(7) Selling and distribution costs;

(8) Travel and relocation costs, as related to special or mass personnel movements, as related to travel via contractor-owned, -leased, or -chartered aircraft; or as related to maximum per diem rates;

(9) Costs of idle facilities and idle capacity;

(10) Severance pay to employees on support service contracts;

(11) Plant reconversion;

(12) Professional services (*e.g.*, legal, accounting, and engineering);

(13) General and administrative costs (*e.g.*, corporate, division, or branch allocations) attributable to the general management, supervision, and conduct of the contractor's business as a whole. These costs are particularly significant in construction, job-site, architect-engineer, facilities, and Government-owned contractor operated (GOCO) plant contracts (see 31.203(f));

(14) Costs of construction plant and equipment (see 31.105(d));

(15) Costs of public relations and advertising; and

(16) Training and education costs (see 31.205-44(h)).

31.110 Indirect cost rate certification and penalties on unallowable costs.

(a) Certain contracts require certification of the indirect cost rates proposed for final payment purposes. See 42.703-2 for administrative procedures regarding the certification provisions and the related contract clause prescription.

(b) If unallowable costs are included in final indirect cost settlement proposals, penalties may be assessed. See 42.709 for administrative procedures regarding the penalty assessment provisions and the related contract clause prescription.

Subpart 31.2—Contracts with Commercial Organizations

31.201 General.

31.201-1 Composition of total cost.

(a) The total cost of a contract is the sum of the direct and indirect costs allocable to the contract, incurred or to be incurred, less any allocable credits, plus any allocable cost of money pursuant to 31.205-10. In ascertaining what constitutes a cost, any generally accepted method of determining or estimating costs that is equitable and is consistently applied may be used, including standard costs properly adjusted for applicable variances. See 31.201-2(b) and (c) for Cost Accounting Standards (CAS) requirements.

(b) While the total cost of a contract includes all costs properly allocable to the contract, the allowable costs to the Government are limited to those allocable costs which are allowable pursuant to Part 31 and applicable agency supplements.

31.201-2 Determining allowability.

(a) The factors to be considered in determining whether a cost is allowable include the following:

- (1) Reasonableness.
- (2) Allocability.
- (3) Standards promulgated by the CAS Board, if applicable; otherwise, generally accepted accounting principles and practices appropriate to the particular circumstances.
- (4) Terms of the contract.
- (5) Any limitations set forth in this subpart.

(b) Certain cost principles in this subpart incorporate the measurement, assignment, and allocability rules of selected CAS and limit the allowability of costs to the amounts determined using the criteria in those selected standards. Only those CAS or portions of standards specifically made applicable by the cost principles in this subpart are mandatory unless the contract is CAS-covered (see Part 30). Business units that are not otherwise subject to these standards under a CAS clause are subject to the selected standards only for the purpose of determining allowability of costs on Government contracts. Including the selected standards in the cost principles does not subject the business unit to any other CAS rules and regulations. The applicability of the CAS rules and regulations is determined by the CAS clause, if any, in the contract and the requirements of the standards themselves.

(c) When contractor accounting practices are inconsistent with this Subpart 31.2, costs resulting from such inconsistent practices shall not be allowed in excess of the amount that would have resulted from using practices consistent with this subpart.

(d) A contractor is responsible for accounting for costs appropriately and for maintaining records, including sup-

porting documentation, adequate to demonstrate that costs claimed have been incurred, are allocable to the contract, and comply with applicable cost principles in this subpart and agency supplements. The contracting officer may disallow all or part of a claimed cost which is inadequately supported.

31.201-3 Determining reasonableness.

(a) A cost is reasonable if, in its nature and amount, it does not exceed that which would be incurred by a prudent person in the conduct of competitive business. Reasonableness of specific costs must be examined with particular care in connection with firms or their separate divisions that may not be subject to effective competitive restraints. No presumption of reasonableness shall be attached to the inurrence of costs by a contractor. If an initial review of the facts results in a challenge of a specific cost by the contracting officer or the contracting officer's representative, the burden of proof shall be upon the contractor to establish that such cost is reasonable.

(b) What is reasonable depends upon a variety of considerations and circumstances, including—

- (1) Whether it is the type of cost generally recognized as ordinary and necessary for the conduct of the contractor's business or the contract performance;
- (2) Generally accepted sound business practices, arm's-length bargaining, and Federal and State laws and regulations;
- (3) The contractor's responsibilities to the Government, other customers, the owners of the business, employees, and the public at large; and
- (4) Any significant deviations from the contractor's established practices.

31.201-4 Determining allocability.

A cost is allocable if it is assignable or chargeable to one or more cost objectives on the basis of relative benefits received or other equitable relationship. Subject to the foregoing, a cost is allocable to a Government contract if it—

- (a) Is incurred specifically for the contract;
- (b) Benefits both the contract and other work, and can be distributed to them in reasonable proportion to the benefits received; or
- (c) Is necessary to the overall operation of the business, although a direct relationship to any particular cost objective cannot be shown.

31.201-5 Credits.

The applicable portion of any income, rebate, allowance, or other credit relating to any allowable cost and received by or accruing to the contractor shall be credited to the Government either as a cost reduction or by cash refund. See 31.205-6(j)(4) for rules governing refund or credit to the

Government associated with pension adjustments and asset reversions.

31.201-6 Accounting for unallowable costs.

(a) Costs that are expressly unallowable or mutually agreed to be unallowable, including mutually agreed to be unallowable directly associated costs, shall be identified and excluded from any billing, claim, or proposal applicable to a Government contract. A directly associated cost is any cost which is generated solely as a result of incurring another cost, and which would not have been incurred had the other cost not been incurred. When an unallowable cost is incurred, its directly associated costs are also unallowable.

(b) Costs which specifically become designated as unallowable or as unallowable directly associated costs of unallowable costs as a result of a written decision furnished by a contracting officer shall be identified if included in or used in computing any billing, claim, or proposal applicable to a Government contract. This identification requirement applies also to any costs incurred for the same purpose under like circumstances as the costs specifically identified as unallowable under either this paragraph or paragraph (a) of this subsection.

(c) The practices for accounting for and presentation of unallowable costs will be those as described in 48 CFR 9904.405, Accounting for Unallowable Costs.

(d) If a directly associated cost is included in a cost pool which is allocated over a base that includes the unallowable cost with which it is associated, the directly associated cost shall remain in the cost pool. Since the unallowable costs will attract their allocable share of costs from the cost pool, no further action is required to assure disallowance of the directly associated costs. In all other cases, the directly associated costs, if material in amount, must be purged from the cost pool as unallowable costs.

(e)(1) In determining the materiality of a directly associated cost, consideration should be given to the significance of—

- (i) The actual dollar amount,
- (ii) The cumulative effect of all directly associated costs in a cost pool, or
- (iii) The ultimate effect on the cost of Government contracts.

(2) Salary expenses of employees who participate in activities that generate unallowable costs shall be treated as directly associated costs to the extent of the time spent on the proscribed activity, provided the costs are material in accordance with paragraph (e)(1) of this subsection (except when such salary expenses are, themselves, unallowable). The time spent in proscribed activities should be compared to total time spent on company activities to determine if the costs are material. Time spent by employees outside the normal working hours should not be considered except when it

is evident that an employee engages so frequently in company activities during periods outside normal working hours as to indicate that such activities are a part of the employee's regular duties.

(3) When a selected item of cost under 31.205 provides that directly associated costs be unallowable, it is intended that such directly associated costs be unallowable only if determined to be material in amount in accordance with the criteria provided in paragraphs (e)(1) and (e)(2) of this section, except in those situations where allowance of any of the directly associated costs involved would be considered to be contrary to public policy.

31.201-7 Construction and architect-engineer contracts.

Specific principles and procedures for evaluating and determining costs in connection with contracts and subcontracts for construction, and architect-engineer contracts related to construction projects, are in 31.105. The applicability of these principles and procedures is set forth in 31.000 and 31.100.

31.202 Direct costs.

(a) A direct cost is any cost that can be identified specifically with a particular final cost objective. No final cost objective shall have allocated to it as a direct cost any cost, if other costs incurred for the same purpose in like circumstances have been included in any indirect cost pool to be allocated to that or any other final cost objective. Costs identified specifically with the contract are direct costs of the contract and are to be charged directly to the contract. All costs specifically identified with other final cost objectives of the contractor are direct costs of those cost objectives and are not to be charged to the contract directly or indirectly.

(b) For reasons of practicality, any direct cost of minor dollar amount may be treated as an indirect cost if the accounting treatment—

- (1) Is consistently applied to all final cost objectives; and
- (2) Produces substantially the same results as treating the cost as a direct cost.

31.203 Indirect costs.

(a) An indirect cost is any cost not directly identified with a single, final cost objective, but identified with two or more final cost objectives or an intermediate cost objective. It is not subject to treatment as a direct cost. After direct costs have been determined and charged directly to the contract or other work, indirect costs are those remaining to be allocated to the several cost objectives. An indirect cost shall not be allocated to a final cost objective if other costs incurred for the same purpose in like circumstances have been included as a direct cost of that or any other final cost objective.

(b) Indirect costs shall be accumulated by logical cost groupings with due consideration of the reasons for incurring such costs. Each grouping should be determined so as to permit distribution of the grouping on the basis of the benefits accruing to the several cost objectives. Commonly, manufacturing overhead, selling expenses, and general and administrative (G&A) expenses are separately grouped. Similarly, the particular case may require subdivision of these groupings, *e.g.*, building occupancy costs might be separable from those of personnel administration within the manufacturing overhead group. This necessitates selecting a distribution base common to all cost objectives to which the grouping is to be allocated. The base should be selected so as to permit allocation of the grouping on the basis of the benefits accruing to the several cost objectives. When substantially the same results can be achieved through less precise methods, the number and composition of cost groupings should be governed by practical considerations and should not unduly complicate the allocation.

(c) Once an appropriate base for distributing indirect costs has been accepted, it shall not be fragmented by removing individual elements. All items properly includable in an indirect cost base should bear a pro rata share of indirect costs irrespective of their acceptance as Government contract costs. For example, when a cost input base is used for the distribution of G&A costs, all items that would properly be part of the cost input base, whether allowable or unallowable, shall be included in the base and bear their pro rata share of G&A costs.

(d) The contractor's method of allocating indirect costs shall be in accordance with standards promulgated by the CAS Board, if applicable to the contract; otherwise, the method shall be in accordance with generally accepted accounting principles which are consistently applied. The method may require examination when—

(1) Substantial differences occur between the cost patterns of work under the contract and the contractor's other work;

(2) Significant changes occur in the nature of the business, the extent of subcontracting, fixed-asset improvement programs, inventories, the volume of sales and production, manufacturing processes, the contractor's products, or other relevant circumstances; or

(3) Indirect cost groupings developed for a contractor's primary location are applied to offsite locations. Separate cost groupings for costs allocable to offsite locations may be necessary to permit equitable distribution of costs on the basis of the benefits accruing to the several cost objectives.

(e) A base period for allocating indirect costs is the cost accounting period during which such costs are incurred and accumulated for distribution to work performed in that period. The criteria and guidance in 30.406 for selecting the

cost accounting periods to be used in allocating indirect costs are incorporated herein for application to contracts subject to full CAS coverage. For contracts subject to modified CAS coverage and for non-CAS-covered contracts, the base period for allocating indirect costs will normally be the contractor's fiscal year. But a shorter period may be appropriate (1) for contracts in which performance involves only a minor portion of the fiscal year, or (2) when it is general practice in the industry to use a shorter period. When a contract is performed over an extended period, as many base periods shall be used as are required to represent the period of contract performance.

(f) Special care should be exercised in applying the principles of paragraphs (b), (c), and (d) of this section when Government-owned contractor-operated (GOCO) plants are involved. The distribution of corporate, division, or branch office G&A expenses to such plants operating with little or no dependence on corporate administrative activities may require more precise cost groupings, detailed accounts screening, and carefully developed distribution bases.

31.204 Application of principles and procedures.

(a) Costs shall be allowed to the extent they are reasonable, allocable, and determined to be allowable under 31.201, 31.202, 31.203, and 31.205. These criteria apply to all of the selected items that follow, even if particular guidance is provided for certain items for emphasis or clarity.

(b) Costs incurred as reimbursements or payments to a subcontractor under a cost-reimbursement, fixed-price incentive, or price redeterminable type subcontract of any tier above the first firm-fixed-price subcontract or fixed-price subcontract with economic price adjustment provisions are allowable to the extent that allowance is consistent with the appropriate subpart of this Part 31 applicable to the subcontract involved. Costs incurred as payments under firm-fixed-price subcontracts or fixed-price subcontracts with economic price adjustment provisions or modifications thereto, when cost analysis was performed under 15.404-1(c), shall be allowable only to the extent that the price was negotiated in accordance with 31.102.

(c) Section 31.205 does not cover every element of cost. Failure to include any item of cost does not imply that it is either allowable or unallowable. The determination of allowability shall be based on the principles and standards in this subpart and the treatment of similar or related selected items. When more than one subsection in 31.205 is relevant to a contractor cost, the cost shall be apportioned among the applicable subsections, and the determination of allowability of each portion shall be based on the guidance contained in the applicable subsection. When a cost, to which more than one subsection in 31.205 is relevant, cannot be apportioned, the determination of allowability shall be based on the guidance contained in the subsection that most specifically deals

with, or best captures the essential nature of, the cost at issue.

31.205 Selected costs.

31.205-1 Public relations and advertising costs.

(a) "Public relations" means all functions and activities dedicated to—

(1) Maintaining, protecting, and enhancing the image of a concern or its products; or

(2) Maintaining or promoting reciprocal understanding and favorable relations with the public at large, or any segment of the public. The term public relations includes activities associated with areas such as advertising, customer relations, etc.

(b) "Advertising" means the use of media to promote the sale of products or services and to accomplish the activities referred to in paragraph (d) of this subsection, regardless of the medium employed, when the advertiser has control over the form and content of what will appear, the media in which it will appear, and when it will appear. Advertising media include but are not limited to conventions, exhibits, free goods, samples, magazines, newspapers, trade papers, direct mail, dealer cards, window displays, outdoor advertising, radio, and television.

(c) Public relations and advertising costs include the costs of media time and space, purchased services performed by outside organizations, as well as the applicable portion of salaries, travel, and fringe benefits of employees engaged in the functions and activities identified in paragraphs (a) and (b) of this subsection.

(d) The only allowable advertising costs are those that are—

(1) Specifically required by contract, or that arise from requirements of Government contracts, and that are exclusively for—

(i) Acquiring scarce items for contract performance; or

(ii) Disposing of scrap or surplus materials acquired for contract performance;

(2) Costs of activities to promote sales of products normally sold to the U.S. Government, including trade shows, which contain a significant effort to promote exports from the United States. Such costs are allowable, notwithstanding paragraphs (f)(1), (f)(3), (f)(4)(ii), and (f)(5) of this subsection. However, such costs do not include the costs of memorabilia (*e.g.*, models, gifts, and souvenirs), alcoholic beverages, entertainment, and physical facilities that are used primarily for entertainment rather than product promotion; or

(3) Allowable in accordance with 31.205-34.

(e) Allowable public relations costs include the following:

(1) Costs specifically required by contract.

(2) Costs of—

(i) Responding to inquiries on company policies and activities;

(ii) Communicating with the public, press, stockholders, creditors, and customers; and

(iii) Conducting general liaison with news media and Government public relations officers, to the extent that such activities are limited to communication and liaison necessary to keep the public informed on matters of public concern such as notice of contract awards, plant closings or openings, employee layoffs or rehires, financial information, etc.

(3) Costs of participation in community service activities (*e.g.*, blood bank drives, charity drives, savings bond drives, disaster assistance, etc.).

(4) Costs of plant tours and open houses (but see paragraph (f)(5) of this subsection).

(5) Costs of keel laying, ship launching, commissioning, and roll-out ceremonies, to the extent specifically provided for by contract.

(f) Unallowable public relations and advertising costs include the following:

(1) All public relations and advertising costs, other than those specified in paragraphs (d) and (e) of this subsection, whose primary purpose is to promote the sale of products or services by stimulating interest in a product or product line (except for those costs made allowable under 31.205-38(c)), or by disseminating messages calling favorable attention to the contractor for purposes of enhancing the company image to sell the company's products or services.

(2) All costs of trade shows and other special events which do not contain a significant effort to promote the export sales of products normally sold to the U.S. Government.

(3) Costs of sponsoring meetings, conventions, symposia, seminars, and other special events when the principal purpose of the event is other than dissemination of technical information or stimulation of production.

(4) Costs of ceremonies such as—

(i) Corporate celebrations and

(ii) New product announcements.

(5) Costs of promotional material, motion pictures, videotapes, brochures, handouts, magazines, and other media that are designed to call favorable attention to the contractor and its activities.

(6) Costs of souvenirs, models, imprinted clothing, buttons, and other mementos provided to customers or the public.

(7) Costs of memberships in civic and community organizations.

31.205-2 [Reserved]**31.205-3 Bad debts.**

Bad debts, including actual or estimated losses arising from uncollectible accounts receivable due from customers and other claims, and any directly associated costs such as collection costs, and legal costs are unallowable.

31.205-4 Bonding costs.

(a) Bonding costs arise when the Government requires assurance against financial loss to itself or others by reason of the act or default of the contractor. They arise also in instances where the contractor requires similar assurance. Included are such bonds as bid, performance, payment, advance payment, infringement, and fidelity bonds.

(b) Costs of bonding required pursuant to the terms of the contract are allowable.

(c) Costs of bonding required by the contractor in the general conduct of its business are allowable to the extent that such bonding is in accordance with sound business practice and the rates and premiums are reasonable under the circumstances.

31.205-5 [Reserved]**31.205-6 Compensation for personal services.**

(a) *General.* Compensation for personal services includes all remuneration paid currently or accrued, in whatever form and whether paid immediately or deferred, for services rendered by employees to the contractor during the period of contract performance (except as otherwise provided for in other paragraphs of this subsection). It includes, but is not limited to, salaries; wages; directors' and executive committee members' fees; bonuses (including stock bonuses); incentive awards; employee stock options, and stock appreciation rights; employee stock ownership plans; employee insurance; fringe benefits; contributions to pension, other postretirement benefits, annuity, and employee incentive compensation plans; and allowances for off-site pay, incentive pay, location allowances, hardship pay, severance pay, and cost of living differential. Compensation for personal services is allowable subject to the following general criteria and additional requirements contained in other parts of this cost principle:

(1) Compensation for personal services must be for work performed by the employee in the current year and must not represent a retroactive adjustment of prior years' salaries or wages (but see 31.205-6(g), (h), (j), (k), (m), and (o) of this subsection).

(2) The compensation in total must be reasonable for the work performed; however, specific restrictions on individual compensation elements must be observed where they are prescribed.

(3) The compensation must be based upon and conform to the terms and conditions of the contractor's established compensation plan or practice followed so consistently as to imply, in effect, an agreement to make the payment.

(4) No presumption of allowability will exist where the contractor introduces major revisions of existing compensation plans or new plans and the contractor—

(i) Has not notified the cognizant ACO of the changes either before their implementation or within a reasonable period after their implementation, and

(ii) Has not provided the Government, either before implementation or within a reasonable period after it, an opportunity to review the allowability of the changes.

(5) Costs that are unallowable under other paragraphs of this Subpart 31.2 shall not be allowable under this subsection 31.205-6 solely on the basis that they constitute compensation for personal services.

(b) *Reasonableness.* The compensation for personal services paid or accrued to each employee must be reasonable for the work performed. Compensation will be considered reasonable if each of the allowable elements making up the employee's compensation package is reasonable. This paragraph addresses the reasonableness of compensation, except when the compensation is set by provisions of a labor-management agreement under terms of the Federal Labor Relations Act or similar state statutes. The tests for reasonableness of labor-management agreements are set forth in paragraph (c) of this subsection. In addition to the provisions of 31.201-3, in testing the reasonableness of individual elements for particular employees or job classes of employees, consideration should be given to factors determined to be relevant by the contracting officer.

(1) Among others, factors which may be relevant include general conformity with the compensation practices of other firms of the same size, the compensation practices of other firms in the same industry, the compensation practices of firms in the same geographic area, the compensation practices of firms engaged in predominantly non-Government work, and the cost of comparable services obtainable from outside sources. The appropriate factors for evaluating the reasonableness of compensation depend on the degree to which those factors are representative of the labor market for the job being evaluated. The relative significance of factors will vary according to circumstances. In administering this principle, it is recognized that not every compensation case need be subjected in detail to the tests described in this cost principle. The tests need be applied only when a general review reveals amounts or types of compensation that appear unreasonable or unjustified. Based on an initial review of the facts, contracting officers or their representatives may challenge the reasonableness of any individual element or the sum of the individual elements of compensation paid or

accrued to particular employees or job classes of employees. In such cases, there is no presumption of reasonableness and, upon challenge, the contractor must demonstrate the reasonableness of the compensation item in question. In doing so, the contractor may introduce, and the contracting officer will consider, not only any circumstances surrounding the compensation item challenged, but also the magnitude of other compensation elements which may be lower than would be considered reasonable in themselves. However, the contractor's right to introduce offsetting compensation elements into consideration is subject to the following limitations:

(i) Offsets will be considered only between the allowable elements of an employee's (or a job class of employees') compensation package or between the compensation packages of employees in jobs within the same job grade or level.

(ii) Offsets will be considered only between the allowable portion of the following compensation elements of employees or job classes of employees:

- (A) Wages and salaries.
- (B) Incentive bonuses.
- (C) Deferred compensation.
- (D) Pension and savings plan benefits.
- (E) Health insurance benefits.
- (F) Life insurance benefits.
- (G) Compensated personal absence benefits.

However, any of the above elements or portions thereof, whose amount is not measurable, shall not be introduced or considered as an offset item.

(iii) In considering offsets, the magnitude of the compensation elements in question must be taken into account. In determining the magnitude of compensation elements, the timing of receipt by the employee must be considered.

(2) Compensation costs under certain conditions give rise to the need for special consideration. Among such conditions are the following:

(i) Compensation to (A) owners of closely held corporations, partners, sole proprietors, or members of their immediate families, or (B) persons who are contractually committed to acquire a substantial financial interest in the contractor's enterprise. Determination should be made that salaries are reasonable for the personal services rendered rather than being a distribution of profits. Compensation in lieu of salary for services rendered by partners and sole proprietors will be allowed to the extent that it is reasonable and does not constitute a distribution of profits. For closely held corporations, compensation costs covered by this subdivision shall not be recognized in amounts exceeding those costs that are deductible as compensation under the Internal Revenue Code and regulations under it.

(ii) Any change in a contractor's compensation policy that results in a substantial increase in the contractor's level of compensation, particularly when it was concurrent with an increase in the ratio of Government contracts to other business, or any change in the treatment of allowability of specific types of compensation due to changes in Government policy. Contracting officers or their representatives should normally challenge increased costs where major revisions of existing compensation plans or new plans are introduced by the contractor, and the contractor—

(A) Has not notified the cognizant ACO of the changes either before their implementation or within a reasonable period after their implementation; and

(B) Has not provided the Government, either before implementation or within a reasonable period after it, an opportunity to review the reasonableness of the changes.

(iii) The contractor's business is such that its compensation levels are not subject to the restraints that normally occur in the conduct of competitive business.

(iv) The contractor incurs costs for compensation in excess of the amounts which are deductible under the Internal Revenue Code and regulations issued under it.

(c) *Labor-management agreements.* If costs of compensation established under "arm's length" negotiated labor-management agreements are otherwise allowable, the costs are reasonable if, as applied to work in performing Government contracts, they are not determined to be unwarranted by the character and circumstances of the work or discriminatory against the Government. The application of the provisions of a labor-management agreement designed to apply to a given set of circumstances and conditions of employment (*e.g.*, work involving extremely hazardous activities or work not requiring recurrent use of overtime) is unwarranted when applied to a Government contract involving significantly different circumstances and conditions of employment (*e.g.*, work involving less hazardous activities or work continually requiring use of overtime). It is discriminatory against the Government if it results in employee compensation (in whatever form or name) in excess of that being paid for similar non-Government work under comparable circumstances. Disallowance of costs will not be made under this paragraph (c) unless—

(1) The contractor has been permitted an opportunity to justify the costs; and

(2) Due consideration has been given to whether unusual conditions pertain to Government contract work, imposing burdens, hardships, or hazards on the contractor's employees, for which compensation that might otherwise appear unreasonable is required to attract and hold necessary personnel.

(d) *Form of payment.* (1) Compensation for personal services includes compensation paid or to be paid in the future to employees in the form of cash, corporate securities, such as stocks, bonds, and other financial instruments (see paragraph (d)(2) of this subsection regarding valuation), or other assets, products, or services.

(2) When compensation is paid with securities of the contractor or of an affiliate, the following additional restrictions apply:

(i) Valuation placed on the securities shall be the fair market value on the measurement date (*i.e.*, the first date the number of shares awarded is known) determined upon the most objective basis available.

(ii) Accruals for the cost of securities before issuing the securities to the employees shall be subject to adjustment according to the possibilities that the employees will not receive the securities and that their interest in the accruals will be forfeited.

(e) *Domestic and foreign differential pay.* (1) When personal services are performed in a foreign country, compensation may also include a differential that may properly consider all expenses associated with foreign employment such as housing, cost of living adjustments, transportation, bonuses, additional Federal, State, local or foreign income taxes resulting from foreign assignment, and other related expenses.

(2) Differential allowances for additional Federal, State, or local income taxes resulting from domestic assignments are unallowable. (However, payments for increased employee income or Federal Insurance Contributions Act taxes incident to allowable reimbursed relocation costs are allowable under 31.205-35(a)(10).)

(f) *Bonuses and incentive compensation.* (1) Incentive compensation for management employees, cash bonuses, suggestion awards, safety awards, and incentive compensation based on production, cost reduction, or efficient performance are allowable provided the awards are paid or accrued under an agreement entered into in good faith between the contractor and the employees before the services are rendered or pursuant to an established plan or policy followed by the contractor so consistently as to imply, in effect, an agreement to make such payment and the basis for the award is supported.

(2) When the bonus and incentive compensation payments are deferred, the costs are subject to the requirements of paragraph (f)(1) of this subsection and of paragraph (k) of this subsection.

(g) *Severance pay.* (1) Severance pay, also commonly referred to as dismissal wages, is a payment in addition to regular salaries and wages by contractors to workers whose employment is being involuntarily terminated. Payments for early retirement incentive plans are covered in paragraph (j)(7).

(2) Severance pay to be allowable must meet the general allowability criteria in subdivision (g)(2)(i) of this subsection, and, depending upon whether the severance is normal or abnormal, criteria in subdivision (g)(2)(ii) for normal severance pay or subdivision (g)(2)(iii) for abnormal severance pay also apply. In addition, paragraph (g)(3) of this subsection applies if the severance cost is for foreign nationals employed outside the United States.

(i) Severance pay is allowable only to the extent that, in each case, it is required by (A) law; (B) employer-employee agreement; (C) established policy that constitutes, in effect, an implied agreement on the contractor's part; or (D) circumstances of the particular employment. Payments made in the event of employment with a replacement contractor where continuity of employment with credit for prior length of service is preserved under substantially equal conditions of employment, or continued employment by the contractor at another facility, subsidiary, affiliate, or parent company of the contractor are not severance pay and are unallowable.

(ii) Actual normal turnover severance payments shall be allocated to all work performed in the contractor's plant, or where the contractor provides for accrual of pay for normal severances, that method will be acceptable if the amount of the accrual is reasonable in light of payments actually made for normal severances over a representative past period and if amounts accrued are allocated to all work performed in the contractor's plant.

(iii) Abnormal or mass severance pay is of such a conjectural nature that measurement of costs by means of an accrual will not achieve equity to both parties. Thus, accruals for this purpose are not allowable. However, the Government recognizes its obligation to participate, to the extent of its fair share, in any specific payment. Thus, allowability will be considered on a case-by-case basis.

(3) Notwithstanding the reference to geographical area in 31.205-6(b)(1), under 10 U.S.C. 2324(e)(1)(M) and 41 U.S.C. 256(e)(1)(M), the costs of severance payments to foreign nationals employed under a service contract performed outside the United States are unallowable to the extent that such payments exceed amounts typically paid to employees providing similar services in the same industry in the United States. Further, under 10 U.S.C. 2324(e)(1)(N) and 41 U.S.C. 256(e)(1)(N), all such costs of severance payments which are otherwise allowable are unallowable if the termination of employment of the foreign national is the result of the closing of, or the curtailment of activities at, a United States facility in that country at the request of the government of that country; this does not apply if the closing of a facility or curtailment of activities is made pursuant to a status-of-forces or other country-to-country agreement entered into with the government of that country before November 29, 1989. 10 U.S.C. 2324(e)(3) and 41 U.S.C.

256(e)(2) permit the head of the agency, or designee, to waive these cost allowability limitations under certain circumstances (see 37.113 and the solicitation provision at 52.237-8).

(h) *Backpay.* (1) *Backpay resulting from violations of Federal labor laws or the Civil Rights Act of 1964.* Backpay may result from a negotiated settlement, order, or court decree that resolves a violation of Federal labor laws or the Civil Rights Act of 1964. Such backpay falls into two categories: one requiring the contractor to pay employees additional compensation for work performed for which they were underpaid, and the other resulting from other violations, such as when the employee was improperly discharged, discriminated against, or other circumstances for which the backpay was not additional compensation for work performed. Backpay resulting from underpaid work is compensation for the work performed and is allowable. All other backpay resulting from violation of Federal labor laws or the Civil Rights Act of 1964 is unallowable.

(2) *Other backpay.* Backpay may also result from payments to employees (union and nonunion) for the difference in their past and current wage rates for working without a contract or labor agreement during labor management negotiations. Such backpay is allowable. Backpay to nonunion employees based upon results of union agreement negotiations is allowable only if—

(i) A formal agreement or understanding exists between management and the employees concerning these payments, or

(ii) An established policy or practice exists and is followed by the contractor so consistently as to imply, in effect, an agreement to make such payment.

(i) Compensation based on changes in the prices of corporate securities or corporate security ownership, such as stock options, stock appreciation rights, phantom stock plans, and junior stock conversions.

(1) Any compensation which is calculated, or valued, based on changes in the price of corporate securities is unallowable.

(2) Any compensation represented by dividend payments or which is calculated based on dividend payments is unallowable.

(3) If a contractor pays an employee in lieu of the employee receiving or exercising a right, option, or benefit which would have been unallowable under this paragraph (i), such payments are also unallowable.

(j) *Pension costs.* (1) A pension plan, as defined in 31.001, is a deferred compensation plan. Additional benefits such as permanent and total disability and death payments and survivorship payments to beneficiaries of deceased employees may be treated as pension costs, provided the benefits are an integral part of the pension plan and meet all the criteria pertaining to pension costs.

(2) Pension plans are normally segregated into two types of plans: defined-benefit or defined-contribution pension plans. The cost of all defined-benefit pension plans shall be measured, allocated, and accounted for in compliance with the provisions of 48 CFR 9904.412, Cost accounting standard for composition and measurement of pension cost, and 48 CFR 9904.413, Adjustment and allocation of pension cost. The costs of all defined-contribution pension plans shall be measured, allocated, and accounted for in accordance with the provisions of 48 CFR 9904.412 and 48 CFR 9904.413. Pension costs are allowable subject to the referenced standards and the cost limitations and exclusions set forth in paragraph (j)(2)(i) and in paragraphs (j)(3) through (8) of this subsection.

(i) Except for nonqualified pension plans using the pay-as-you-go cost method, to be allowable in the current year, pension costs must be funded by the time set for filing of the Federal income tax return or any extension thereof. Pension costs assigned to the current year, but not funded by the tax return time, shall not be allowable in any subsequent year. For nonqualified pension plans using the pay-as-you-go cost method, to be allowable in the current year, pension costs must be allocable in accordance with 48 CFR 9904.412-50(d)(3).

(ii) Pension payments must be reasonable in amount and must be paid pursuant to an agreement entered into in good faith between the contractor and employees before the work or services are performed; and the terms and conditions of the established plan. The cost of changes in pension plans that are discriminatory to the Government or are not intended to be applied consistently for all employees under similar circumstances in the future are not allowable.

(iii) Except as provided for early retirement benefits in paragraph (j)(7) of this subsection, one-time-only pension supplements not available to all participants of the basic plan are not allowable as pension costs unless the supplemental benefits represent a separate pension plan and the benefits are payable for life at the option of the employee.

(iv) Increases in payments to previously retired plan participants covering cost-of-living adjustments are allowable if paid in accordance with a policy or practice consistently followed.

(3) *Defined-benefit pension plans.* This paragraph covers pension plans in which the benefits to be paid or the basis for determining such benefits are established in advance and the contributions are intended to provide the stated benefits. The cost limitations and exclusions pertaining to defined-benefit plans are as follows:

(i) (A) Except for nonqualified pension plans, pension costs (see 48 CFR 9904.412-40(a)(1)) assigned to the current accounting period, but not funded during it, shall not be allowable in subsequent years (except that a payment made to a fund by the time set for filing the Federal income

tax return or any extension thereof is considered to have been made during such taxable year). However, any portion of pension cost computed for a cost accounting period, that exceeds the amount required to be funded pursuant to a waiver granted under the provisions of the Employee's Retirement Income Security Act of 1974 (ERISA), will be allowable in those future accounting periods in which the funding of such excess amounts occurs (see 48 CFR 9904.412-50(c)(5)).

(B) For nonqualified pension plans, except those using the pay-as-you-go cost method, allowable costs are limited to the amount allocable in accordance with 48 CFR 9904.412-50(d)(2).

(C) For nonqualified pension plans using the pay-as-you-go cost method, allowable costs are limited to the amounts allocable in accordance with 48 CFR 9904.412-50(d)(3).

(ii) Any amount funded in excess of the pension cost assigned to a cost accounting period is not allowable and shall be accounted for as set forth at 48 CFR 9904.412-50(a)(4), and shall be allowable in the future period to which it is assigned, to the extent it is allocable, reasonable, and not otherwise unallowable.

(iii) Increased pension costs caused by delay in funding beyond 30 days after each quarter of the year to which they are assignable are unallowable. If a composite rate is used for allocating pension costs between the segments of a company and if, because of differences in the timing of the funding by the segments, an inequity exists, allowable pension costs for each segment will be limited to that particular segment's calculation of pension costs as provided for in 48 CFR 9904.413-50(c). Determinations of unallowable costs shall be made in accordance with the actuarial cost method used in calculating pension costs.

(iv) Allowability of the cost of indemnifying the Pension Benefit Guaranty Corporation (PBGC) under ERISA Section 4062 or 4064 arising from terminating an employee deferred compensation plan will be considered on a case-by-case basis, provided that if insurance was required by the PBGC under ERISA Section 4023, it was so obtained and the indemnification payment is not recoverable under the insurance. Consideration under the foregoing circumstances will be primarily for the purpose of appraising the extent to which the indemnification payment is allocable to Government work. If a beneficial or other equitable relationship exists, the Government will participate, despite the requirements of 31.205-19(a)(3) and (b), in the indemnification payment to the extent of its fair share.

(v) Increased pension costs resulting from the withdrawal of assets from a pension fund and transfer to another employee benefit plan fund, or transfer of assets to another account within the same fund, are unallowable except to the extent authorized by an advance agreement. If the with-

drawal of assets from a pension fund is a plan termination under ERISA, the provisions of paragraph (j)(4) of this subsection apply. The advance agreement shall—

(A) State the amount of the Government's equitable share in the gross amount withdrawn or transferred; and

(B) Provide that the Government receive a credit equal to the amount of the Government's equitable share of the gross withdrawal or transfer.

(4) *Pension adjustments and asset reversions.* (i) For segment closings, pension plan terminations, or curtailment of benefits, the adjustment amount shall be the amount measured, assigned, and allocated in accordance with 48 CFR 9904.413-50(c)(12) for contracts and subcontracts that are subject to Cost Accounting Standards (CAS) Board rules and regulations (48 CFR Chapter 99). For contracts and subcontracts that are not subject to CAS, the adjustment amount shall be the amount measured, assigned, and allocated in accordance with 48 CFR 9904.413-50(c)(12), except the numerator of the fraction at 48 CFR 9904.413-50(c)(12)(vi) shall be the sum of the pension plan costs allocated to all non-CAS-covered contracts and subcontracts that are subject to Subpart 31.2 or for which cost or pricing data were submitted.

(ii) For all other situations where assets revert to the contractor, or such assets are constructively received by it for any reason, the contractor shall, at the Government's option, make a refund or give a credit to the Government for its equitable share of the gross amount withdrawn. The Government's equitable share shall reflect the Government's participation in pension costs through those contracts for which cost or pricing data were submitted or that are subject to Subpart 31.2. Excise taxes on pension plan asset reversions or withdrawals under this paragraph (j)(4)(ii) are unallowable in accordance with 31.205-41(b)(6).

(5) *Defined-contribution pension plans.* This paragraph covers those pension plans in which the contributions are established in advance and the level of benefits is determined by the contributions made. It also covers profit sharing, savings plans, and other such plans, provided the plans fall within the definition of a pension plan in paragraph (j)(1) of this subsection.

(i) Allowable pension cost is limited to the net contribution required to be made for a cost accounting period after taking into account dividends and other credits, where applicable. However, any portion of pension cost computed for a cost accounting period that exceeds the amount required to be funded pursuant to a waiver granted under the provisions of ERISA will be allowable in those future accounting periods in which the funding of such excess amounts occurs (see 48 CFR 9904.412-50(c)(5)).

(ii) The provisions of paragraphs (j)(3)(ii) and (iv) of this subsection apply to defined-contribution plans.

(6) *Pension plans using the pay-as-you-go cost method.* The cost of pension plans using the pay-as-you-go cost method shall be measured, allocated, and accounted for in accordance with 48 CFR 9904.412 and 9904.413. Pension costs for a pension plan using the pay-as-you-go cost method shall be allowable to the extent they are allocable, reasonable, and not otherwise unallowable.

(7) *Early retirement incentive plans.* An early retirement incentive plan is a plan under which employees receive a bonus or incentive, over and above the requirement of the basic pension plan, to retire early. These plans normally are not applicable to all participants of the basic plan and do not represent life income settlements, and as such would not qualify as pension costs. However, for contract costing purposes, early retirement incentive payments are allowable subject to the pension cost criteria contained in subdivisions (j)(3)(i) through (iv) provided—

(i) The costs are accounted for and allocated in accordance with the contractor's system of accounting for pension costs;

(ii) The payments are made in accordance with the terms and conditions of the contractor's plan;

(iii) The plan is applied only to active employees. The cost of extending the plan to employees who retired or were terminated before the adoption of the plan is unallowable; and

(iv) The total of the incentive payments to any employee may not exceed the amount of the employee's annual salary for the previous fiscal year before the employee's retirement.

(8) *Employee stock ownership plans (ESOP).* (i) An ESOP is an individual stock bonus plan designed specifically to invest in the stock of the employer corporation. The contractor's contributions to an Employee Stock Ownership Trust (ESOT) may be in the form of cash, stock, or property. Costs of ESOP's are allowable subject to the following conditions:

(A) Contributions by the contractor in any one year may not exceed 15 percent (25 percent when a money purchase plan is included) of salaries and wages of employees participating in the plan in any particular year.

(B) The contribution rate (ratio of contribution to salaries and wages of participating employees) may not exceed the last approved contribution rate except when approved by the contracting officer based upon justification provided by the contractor. When no contribution was made in the previous year for an existing ESOP, or when a new ESOP is first established, and the contractor proposes to make a contribution in the current year, the contribution rate shall be subject to the contracting officer's approval.

(C) When a plan or agreement exists wherein the liability for the contribution can be compelled for a specific

year, the expense associated with that liability is assignable only to that period. Any portion of the contribution not funded by the time set for filing of the Federal income tax return for that year or any extension thereof shall not be allowable in subsequent years.

(D) When a plan or agreement exists wherein the liability for the contribution cannot be compelled, the amount contributed for any year is assignable to that year provided the amount is funded by the time set for filing of the Federal income tax return for that year.

(E) When the contribution is in the form of stock, the value of the stock contribution shall be limited to the fair market value of the stock on the date that title is effectively transferred to the trust. Cash contributions shall be allowable only when the contractor furnishes evidence satisfactory to the contracting officer demonstrating that stock purchases by the ESOT are or will be at a fair market price; *e.g.*, makes arrangements with the trust permitting the contracting officer to examine purchases of stock by the trust to determine that prices paid are at fair market value. When excessive prices are paid, the amount of the excess will be credited to the same indirect cost pools that were charged for the ESOP contributions in the year in which the stock purchase occurs. However, when the trust purchases the stock with borrowed funds which will be repaid over a period of years by cash contributions from the contractor to the trust, the excess price over fair market value shall be credited to the indirect cost pools pro rata over the period of years during which the contractor contributes the cash used by the trust to repay the loan. When the fair market value of unissued stock or stock of a closely held corporation is not readily determinable, the valuation will be made on a case-by-case basis taking into consideration the guidelines for valuation used by the IRS.

(ii) Amounts contributed to an ESOP arising from either—

(A) An additional investment tax credit (see 1975 Tax Reduction Act—TRASOP's); or

(B) A payroll-based tax credit (see Economic Recovery Tax Act of 1981) are unallowable.

(iii) The requirements of subdivision (j)(3)(ii) of this subsection are applicable to Employee Stock Ownership Plans.

(k) *Deferred compensation other than pensions.* (1) Deferred compensation is an award given by an employer to compensate an employee in a future cost accounting period or periods for services rendered in one or more cost accounting periods before the date of receipt of compensation by the employee. Deferred compensation does not include the amount of year-end accruals for salaries, wages, or bonuses that are paid within a reasonable period of time after the end of a cost accounting period. Subject to

31.205-6(a), deferred awards are allowable when they are based on current or future services. Awards made in periods subsequent to the period when the work being remunerated was performed are not allowable.

(2) The costs of deferred awards shall be measured, allocated, and accounted for in compliance with the provisions of 48 CFR 9904.415, Accounting for the Cost of Deferred Compensation.

(3) Deferred compensation payments to employees under awards made before the effective date of 48 CFR 9904.415 are allowable to the extent they would have been allowable under prior acquisition regulations.

(l) *Compensation incidental to business acquisitions.* The following costs are unallowable: (1) Payments to employees under agreements in which they receive special compensation, in excess of the contractor's normal severance pay practice, if their employment terminates following a change in the management control over, or ownership of, the contractor or a substantial portion of its assets.

(2) Payments to employees under plans introduced in connection with a change (whether actual or prospective) in the management control over, or ownership of, the contractor or a substantial portion of its assets in which those employees receive special compensation, which is contingent upon the employee remaining with the contractor for a specified period of time.

(m) *Fringe benefits.* (1) Fringe benefits are allowances and services provided by the contractor to its employees as compensation in addition to regular wages and salaries. Fringe benefits include, but are not limited to, the cost of vacations, sick leave, holidays, military leave, employee insurance, and supplemental unemployment benefit plans. Except as provided otherwise in Subpart 31.2, the costs of fringe benefits are allowable to the extent that they are reasonable and are required by law, employer-employee agreement, or an established policy of the contractor.

(2) That portion of the cost of company-furnished automobiles that relates to personal use by employees (including transportation to and from work) is unallowable regardless of whether the cost is reported as taxable income to the employees (see 31.205-46(f)).

(n) *Employee rebate and purchase discount plans.* Rebates and purchase discounts, in whatever form, granted to employees on products or services produced by the contractor or affiliates are unallowable.

(o) *Postretirement benefits other than pensions (PRB).*

(1) PRB covers all benefits, other than cash benefits and life insurance benefits paid by pension plans, provided to employees, their beneficiaries, and covered dependents during the period following the employees' retirement. Benefits

encompassed include, but are not limited to, postretirement health care; life insurance provided outside a pension plan; and other welfare benefits such as tuition assistance, day care, legal services, and housing subsidies provided after retirement.

(2) To be allowable, PRB costs must be reasonable and incurred pursuant to law, employer-employee agreement, or an established policy of the contractor. In addition, to be allowable, PRB costs must also be calculated in accordance with paragraphs (o)(2)(i), (ii), or (iii) of this section.

(i) *Cash basis.* Cost recognized as benefits when they are actually provided, must be paid to an insurer, provider, or other recipient for current year benefits or premiums.

(ii) *Terminal funding.* If a contractor elects a terminal-funded plan, it does not accrue PRB costs during the working lives of employees. Instead, it accrues and pays the entire PRB liability to an insurer or trustee in a lump sum upon the termination of employees (or upon conversion to such a terminal-funded plan) to establish and maintain a fund or reserve for the sole purpose of providing PRB to retirees. The lump sum is allowable if amortized over a period of 15 years.

(iii) *Accrual basis.* Accrual costing other than terminal funding must be measured and assigned according to Generally Accepted Accounting Principles and be paid to an insurer or trustee to establish and maintain a fund or reserve for the sole purpose of providing PRB to retirees. The accrual must also be calculated in accordance with generally accepted actuarial principles and practices as promulgated by the Actuarial Standards Board.

(3) To be allowable, costs must be funded by the time set for filing the Federal income tax return or any extension thereof. PRB costs assigned to the current year, but not funded or otherwise liquidated by the tax return time, shall not be allowable in any subsequent year.

(4) Increased PRB costs caused by delay in funding beyond 30 days after each quarter of the year to which they are assignable are unallowable.

(5) Costs of postretirement benefits in subdivision (o)(2)(iii) of this subsection attributable to past service ("transition obligation") as defined in Financial Accounting Standards Board Statement 106, paragraph 110, are allowable subject to the following limitation: The allowable amount of such costs assignable to a contractor fiscal year cannot exceed the amount of such costs which would be assigned to that contractor fiscal year under the delayed recognition methodology described in paragraphs 112 and 113 of Statement 106.

(6) The Government shall receive an equitable share of any amount of previously funded PRB costs which revert or inure to the contractor. Such equitable share shall reflect the Government's previous participation in PRB costs through those contracts for which cost or pricing data were required or which were subject to Subpart 31.2.

(p) *Limitation on allowability of compensation for certain contractor personnel.* (1) Costs incurred after January 1, 1998, for compensation of a senior executive in excess of the benchmark compensation amount determined applicable for the contractor fiscal year by the Administrator, Office of Federal Procurement Policy (OFPP), under Section 39 of the OFPP Act (41 U.S.C. 435) are unallowable. This limitation is the sole statutory limitation on allowable senior executive compensation costs incurred after January 1, 1998, under new or previously existing contracts. This limitation applies whether or not the affected contracts were previously subject to a statutory limitation on such costs. (Note that the definition of "senior executive" in (p)(2)(ii) has been changed for compensation costs incurred after January 1, 1999.)

(2) As used in this paragraph:

(i) "Compensation" means the total amount of wages, salary, bonuses, deferred compensation (see paragraph (k) of this subsection), and employer contributions to defined contribution pension plans (see paragraphs (j)(5) and (j)(8) of this subsection), for the fiscal year, whether paid, earned, or otherwise accruing, as recorded in the contractor's cost accounting records for the fiscal year.

(ii) "Senior executive" means—

(A) Prior to January 2, 1999—

(1) The Chief Executive Officer (CEO) or any individual acting in a similar capacity at the contractor's headquarters;

(2) The four most highly compensated employees in management positions at the contractor's headquarters, other than the CEO; and

(3) If the contractor has intermediate home offices or segments that report directly to the contractor's headquarters, the five most highly compensated employees in management positions at each such intermediate home office or segment.

(B) Effective January 2, 1999, the five most highly compensated employees in management positions at each home office and each segment of the contractor, whether or not the home office or segment reports directly to the contractor's headquarters.

(iii) "Fiscal year" means the fiscal year established by the contractor for accounting purposes.

(iv) "Contractor's headquarters" means the highest organizational level from which executive compensation costs are allocated to Government contracts.

31.205-7 Contingencies.

(a) "Contingency," as used in this subpart, means a possible future event or condition arising from presently known or unknown causes, the outcome of which is indeterminable at the present time.

(b) Costs for contingencies are generally unallowable for historical costing purposes because such costing deals with costs incurred and recorded on the contractor's books. However, in some cases, as for example, terminations, a contingency factor may be recognized when it is applicable to a past period to give recognition to minor unsettled factors in the interest of expediting settlement.

(c) In connection with estimates of future costs, contingencies fall into two categories:

(1) Those that may arise from presently known and existing conditions, the effects of which are foreseeable within reasonable limits of accuracy; *e.g.*, anticipated costs of rejects and defective work. Contingencies of this category are to be included in the estimates of future costs so as to provide the best estimate of performance cost.

(2) Those that may arise from presently known or unknown conditions, the effect of which cannot be measured so precisely as to provide equitable results to the contractor and to the Government; *e.g.*, results of pending litigation. Contingencies of this category are to be excluded from cost estimates under the several items of cost, but should be disclosed separately (including the basis upon which the contingency is computed) to facilitate the negotiation of appropriate contractual coverage. (See, for example, 31.205-6(g), 31.205-19, and 31.205-24.)

31.205-8 Contributions or donations.

Contributions or donations, including cash, property and services, regardless of recipient, are unallowable, except as provided in 31.205-1(e)(3).

31.205-9 [Reserved]

31.205-10 Cost of money.

(a) *Facilities capital cost of money—(1) General.*

(i) Facilities capital cost of money (cost of capital committed to facilities) is an imputed cost determined by applying a cost-of-money rate to facilities capital employed in contract performance. A cost-of-money rate is uniformly imputed to all contractors (see subdivision (a)(1)(ii) of this subsection). Capital employed is determined without regard to whether its source is equity or borrowed capital. The resulting cost of money is not a form of interest on borrowings (see 31.205-20).

(ii) 48 CFR 9904.414, Cost of Money as an Element of the Cost of Facilities Capital, establishes criteria for measuring and allocating, as an element of contract cost, the cost of capital committed to facilities. Cost-of-money factors

are developed on Form CASB-CMF, broken down by overhead pool at the business unit, using—

(A) Business-unit facilities capital data,

(B) Overhead allocation base data, and

(C) The cost-of-money rate, which is based on interest rates specified by the Secretary of the Treasury under Public Law 92-41.

(2) *Allowability.* Whether or not the contract is otherwise subject to CAS, facilities capital cost of money is allowable if—

(i) The contractor's capital investment is measured, allocated to contracts, and costed in accordance with 48 CFR 9904.414;

(ii) The contractor maintains adequate records to demonstrate compliance with this standard;

(iii) The estimated facilities capital cost of money is specifically identified or proposed in cost proposals relating to the contract under which this cost is to be claimed; and

(iv) The requirements of 31.205-52, which limit the allowability of facilities capital cost of money, are observed.

(3) *Accounting.* The facilities capital cost of money need not be entered on the contractor's books of account. However, the contractor shall—

(i) Make a memorandum entry of the cost, and

(ii) Maintain, in a manner that permits audit and verification, all relevant schedules, cost data, and other data necessary to support the entry fully.

(4) *Payment.* Facilities capital cost of money that is—

(i) Allowable under paragraph (2) of this subsection; and

(ii) Calculated, allocated, and documented in accordance with this cost principle shall be an "incurred cost" for reimbursement purposes under applicable cost-reimbursement contracts and for progress payment purposes under fixed-price contracts.

(5) The requirements of 31.205-52 shall be observed in determining the allowable cost of money attributable to including asset valuations resulting from business combinations in the facilities capital employed base.

(b) *Cost of money as an element of the cost of capital assets under construction—(1) General.* (i) Cost of money as an element of the cost of capital assets under construction is an imputed cost determined by applying a cost-of-money rate to the investment in tangible and intangible capital assets while they are being constructed, fabricated, or developed for a contractor's own use. Capital employed is determined without regard to whether its source is equity or borrowed capital. The resulting cost of money is not a form of interest on borrowing (see 31.205-20).

(ii) 48 CFR 9904.417, Cost of Money as an Element of the Cost of Capital Assets Under Construction, establishes criteria for measuring and allocating, as an ele-

ment of contract cost, the cost of capital committed to capital assets under construction, fabrication, or development.

(2) *Allowability.* (i) Whether or not the contract is otherwise subject to CAS, and except as specified in subdivision (ii) of this section, the cost of money for capital assets under construction, fabrication, or development is allowable if—

(A) The cost of money is calculated, allocated to contracts, and costed in accordance with 48 CFR 9904.417;

(B) The contractor maintains adequate records to demonstrate compliance with this standard;

(C) The cost of money for tangible capital assets is included in the capitalized cost that provides the basis for allowable depreciation costs, or, in the case of intangible capital assets, the cost of money is included in the cost of those assets for which amortization costs are allowable; and

(D) The requirements of 31.205-52, which limit the allowability of cost of money for capital assets under construction, fabrication, or development, are observed.

(ii) Actual interest cost in lieu of the calculated imputed cost of money for capital assets under construction, fabrication, or development is unallowable.

(3) *Accounting.* The cost of money for capital assets under construction need not be entered on the contractor's books of account. However, the contractor shall (i) make a memorandum entry of the cost and (ii) maintain, in a manner that permits audit and verification, all relevant schedules, cost data, and other data necessary to support the entry fully.

(4) *Payment.* The cost of money for capital assets under construction that is allowable under paragraph (2) of this subsection of this cost principle shall be an "incurred cost" for reimbursement purposes under applicable cost-reimbursement contracts and for progress payment purposes under fixed-price contracts.

31.205-11 Depreciation.

(a) Depreciation is a charge to current operations which distributes the cost of a tangible capital asset, less estimated residual value, over the estimated useful life of the asset in a systematic and logical manner. It does not involve a process of valuation. Useful life refers to the prospective period of economic usefulness in a particular contractor's operations as distinguished from physical life; it is evidenced by the actual or estimated retirement and replacement practice of the contractor.

(b) Contractors having contracts subject to 48 CFR 9904.409, Depreciation of Tangible Capital Assets, must adhere to the requirement of that standard for all fully CAS-covered contracts and may elect to adopt the standard for all other contracts. All requirements of 48 CFR 9904.409 are applicable if the election is made, and its requirements supersede any conflicting requirements of this cost principle. Once electing to adopt 48 CFR 9904.409 for all contracts,

contractors must continue to follow it until notification of final acceptance of all deliverable items on all open negotiated Government contracts. Paragraphs (c) through (e) of this subsection apply to contracts to which 48 CFR 9904.409 is not applied.

(c) Normal depreciation on a contractor's plant, equipment, and other capital facilities is an allowable contract cost, if the contractor is able to demonstrate that it is reasonable and allocable (but see paragraph (i) of this section).

(d) Depreciation shall be considered reasonable if the contractor follows policies and procedures that are—

(1) Consistent with those followed in the same cost center for business other than Government;

(2) Reflected in the contractor's books of accounts and financial statements; and

(3) Both used and acceptable for Federal income tax purposes.

(e) When the depreciation reflected on a contractor's books of accounts and financial statements differs from that used and acceptable for Federal income tax purposes, reimbursement shall be based on the asset cost amortized over the estimated useful life of the property using depreciation methods (straight line, sum of the years' digits, etc.) acceptable for income tax purposes. Allowable depreciation shall not exceed the amounts used for book and statement purposes and shall be determined in a manner consistent with the depreciation policies and procedures followed in the same cost center on non-Government business (but see paragraph (o) of this subsection).

(f) Depreciation for reimbursement purposes in the case of tax-exempt organizations shall be determined on the basis described in paragraph (e) of this section.

(g) Special considerations are required for assets acquired before the effective date of this cost principle if, on that date, the undepreciated balance of these assets resulting from depreciation policies and procedures used previously for Government contracts and subcontracts is different from the undepreciated balance on the books and financial statements. The undepreciated balance for contract cost purposes shall be depreciated over the remaining life using the methods and lives followed for book purposes. The aggregate depreciation of any asset allowable after the effective date of this 31.205-11 shall not exceed the cost basis of the asset less any depreciation allowed or allowable under prior acquisition regulations.

(h) Depreciation should usually be allocated to the contract and other work as an indirect cost. The amount of depreciation allowed in any accounting period may, consistent with the basic objectives in paragraph (a) of this subsection, vary with volume of production or use of multishift operations.

(i) In the case of emergency facilities covered by certificates of necessity, a contractor may elect to use normal

depreciation without requesting a determination of "true depreciation," or may elect to use either normal or "true depreciation" after a determination of "true depreciation" has been made by an Emergency Facilities Depreciation Board (EFDB). The method elected must be followed consistently throughout the life of the emergency facility. When an election is made to use normal depreciation, the criteria in paragraphs (c), (d), (e), and (f) of this section shall apply for both the emergency period and the post-emergency period. When an election is made to use "true depreciation", the amount allowable as depreciation—

(1) With respect to the emergency period (five years), shall be computed in accordance with the determination of the EFDB and allocated rateably over the full five year emergency period; *provided* no other allowance is made which would duplicate the factors, such as extraordinary obsolescence, covered by the Board's determination; and

(2) After the end of the emergency period, shall be computed by distributing the remaining undepreciated portion of the cost of the emergency facility over the balance of its useful life provided the remaining undepreciated portion of such cost shall not include any amount of unrecovered "true depreciation."

(j) No depreciation, rental, or use charge shall be allowed on property acquired at no cost from the Government by the contractor or by any division, subsidiary, or affiliate of the contractor under common control.

(k) The depreciation on any item which meets the criteria for allowance at a "price" under 31.205-26(e) may be based on that price, provided the same policies and procedures are used for costing all business of the using division, subsidiary, or organization under common control.

(l) No depreciation or rental shall be allowed on property fully depreciated by the contractor or by any division, subsidiary, or affiliate of the contractor under common control. However, a reasonable charge for using fully depreciated property may be agreed upon and allowed (but see 31.109(h)(2)). In determining the charge, consideration shall be given to cost, total estimated useful life at the time of negotiations, effect of any increased maintenance charges or decreased efficiency due to age, and the amount of depreciation previously charged to Government contracts or subcontracts.

(m) 48 CFR 9904.404, Capitalization of Tangible Assets, applies to assets acquired by a "capital lease" as defined in Statement of Financial Accounting Standard No. 13 (FAS-13), Accounting for Leases, issued by the Financial Accounting Standards Board (FASB). Compliance with 48 CFR 9904.404 and FAS-13 requires that such leased assets (capital leases) be treated as purchased assets; *i.e.*, be capitalized and the capitalized value of such assets be distributed over their useful lives as depreciation charges, or over the leased life as amortization charges as appropriate.

Assets whose leases are classified as capital leases under FAS-13 are subject to the requirements of 31.205-11 while assets acquired under leases classified as operating leases are subject to the requirements on rental costs in 31.205-36. The standards of financial accounting and reporting prescribed by FAS-13 are incorporated into this principle and shall govern its application, except as provided in paragraphs (1), (2), and (3) of this paragraph.

(1) Rental costs under a sale and leaseback arrangement shall be allowable up to the amount that would have been allowed had the contractor retained title to the property.

(2) Capital leases, as defined in FAS-13, for all real and personal property, between any related parties are subject to the requirements of this paragraph 31.205-11(m). If it is determined that the terms of the lease have been significantly affected by the fact that the lessee and lessor are related, depreciation charges shall not be allowed in excess of those which would have occurred if the lease contained terms consistent with those found in a lease between unrelated parties.

(3) Assets acquired under leases that the contractor must capitalize under FAS-13 shall not be treated as purchased assets for contract purposes if the leases are covered by 31.205-36(b)(4).

(n) Whether or not the contract is otherwise subject to CAS, the requirements of 31.205-52, which limit the allowability of depreciation, shall be observed.

(o) In the event of a write-down from carrying value to fair value as a result of impairments caused by events or changes in circumstances, allowable depreciation of the impaired assets shall be limited to the amounts that would have been allowed had the assets not been written down (see 31.205-16(g)). However, this does not preclude a change in depreciation resulting from other causes such as permissible changes in estimates of service life, consumption of services, or residual value.

31.205-12 Economic planning costs.

(a) This category includes costs of generalized long-range management planning that is concerned with the future overall development of the contractor's business and that may take into account the eventual possibility of economic dislocations or fundamental alterations in those markets in which the contractor currently does business. Economic planning costs do not include organization or reorganization costs covered by 31.205-27.

(b) Economic planning costs are allowable as indirect costs to be properly allocated.

(c) Research and development and engineering costs designed to lead to new products for sale to the general public are not allowable under this principle.

31.205-13 Employee morale, health, welfare, food service, and dormitory costs and credits.

(a) Aggregate costs incurred on activities designed to improve working conditions, employer-employee relations, employee morale, and employee performance (less income generated by these activities) are allowable, except as limited by paragraphs (b), (c), and (d) of this subsection. Some examples of allowable activities are house publications, health clinics, wellness/fitness centers, employee counseling services, and food and dormitory services, which include operating or furnishing facilities for cafeterias, dining rooms, canteens, lunch wagons, vending machines, living accommodations, or similar types of services for the contractor's employees at or near the contractor's facilities.

(b) Costs of gifts are unallowable. (Gifts do not include awards for performance made pursuant to 31.205-6(f) or awards made in recognition of employee achievements pursuant to an established contractor plan or policy.)

(c) Costs of recreation are unallowable, except for the costs of employees' participation in company sponsored sports teams or employee organizations designed to improve company loyalty, team work, or physical fitness.

(d) Losses from operating food and dormitory services may be included as costs only if the contractor's objective is to operate such services on a break-even basis. Losses sustained because food services or lodging accommodations are furnished without charge or at prices or rates which obviously would not be conducive to the accomplishment of the above objective are not allowable. A loss may be allowed, however, to the extent that the contractor can demonstrate that unusual circumstances exist (*e.g.*, where the contractor must provide food or dormitory services at remote locations where adequate commercial facilities are not reasonably available; or where charged but unproductive labor costs would be excessive but for the services provided or where cessation or reduction of food or dormitory operations will not otherwise yield net cost savings) such that even with efficient management, operating the services on a break-even basis would require charging inordinately high prices, or prices or rates higher than those charged by commercial establishments offering the same services in the same geographical areas. Costs of food and dormitory services shall include an allocable share of indirect expenses pertaining to these activities.

(e) When the contractor has an arrangement authorizing an employee association to provide or operate a service, such as vending machines in the contractor's plant, and retain the profits, such profits shall be treated in the same manner as if the contractor were providing the service (but see paragraph (f) of this subsection).

(f) Contributions by the contractor to an employee organization, including funds from vending machine receipts or similar sources, may be included as costs incurred under

paragraph (a) of this subsection only to the extent that the contractor demonstrates that an equivalent amount of the costs incurred by the employee organization would be allowable if directly incurred by the contractor.

31.205-14 Entertainment costs.

Costs of amusement, diversions, social activities, and any directly associated costs such as tickets to shows or sports events, meals, lodging, rentals, transportation, and gratuities are unallowable. Costs made specifically unallowable under this cost principle are not allowable under any other cost principle. Costs of membership in social, dining, or country clubs or other organizations having the same purposes are also unallowable, regardless of whether the cost is reported as taxable income to the employees.

31.205-15 Fines, penalties, and mischarging costs.

(a) Costs of fines and penalties resulting from violations of, or failure of the contractor to comply with, Federal, State, local, or foreign laws and regulations, are unallowable except when incurred as a result of compliance with specific terms and conditions of the contract or written instructions from the contracting officer.

(b) Costs incurred in connection with, or related to, the mischarging of costs on Government contracts are unallowable when the costs are caused by, or result from, alteration or destruction of records, or other false or improper charging or recording of costs. Such costs include those incurred to measure or otherwise determine the magnitude of the improper charging, and costs incurred to remedy or correct the mischarging, such as costs to rescreen and reconstruct records.

31.205-16 Gains and losses on disposition or impairment of depreciable property or other capital assets.

(a) Gains and losses from the sale, retirement, or other disposition (but see 31.205-19) of depreciable property shall be included in the year in which they occur as credits or charges to the cost grouping(s) in which the depreciation or amortization applicable to those assets was included (but see paragraph (d) of this subsection). However, no gain or loss shall be recognized as a result of the transfer of assets in a business combination (see 31.205-52).

(b) Gains and losses on disposition of tangible capital assets, including those acquired under capital leases (see 31.205-11(m)), shall be considered as adjustments of depreciation costs previously recognized. The gain or loss for each asset disposed of is the difference between the net amount realized, including insurance proceeds from involuntary conversions, and its undepreciated balance. The gain recognized for contract costing purposes shall be limited to the difference between the acquisition cost (or for assets acquired under a capital lease, the value at which the leased asset is

capitalized) of the asset and its undepreciated balance (except see subdivisions (c)(2)(i) or (ii) of this section).

(c) Special considerations apply to an involuntary conversion which occurs when a contractor's property is destroyed by events over which the owner has no control, such as fire, windstorm, flood, accident, theft, etc., and an insurance award is recovered. The following govern involuntary conversions:

(1) When there is a cash award and the converted asset is not replaced, gain or loss shall be recognized in the period of disposition. The gain recognized for contract costing purposes shall be limited to the difference between the acquisition cost of the asset and its undepreciated balance.

(2) When the converted asset is replaced, the contractor shall either—

(i) Adjust the depreciable basis of the new asset by the amount of the total realized gain or loss; or

(ii) Recognize the gain or loss in the period of disposition, in which case the Government shall participate to the same extent as outlined in paragraph (c)(1) of this subsection.

(d) Gains and losses on the disposition of depreciable property shall not be recognized as a separate charge or credit when—

(1) Gains and losses are processed through the depreciation reserve account and reflected in the depreciation allowable under 31.205-11; or

(2) The property is exchanged as part of the purchase price of a similar item, and the gain or loss is taken into consideration in the depreciation cost basis of the new item.

(e) Gains and losses arising from mass or extraordinary sales, retirements, or other disposition other than through business combinations shall be considered on a case-by-case basis.

(f) Gains and losses of any nature arising from the sale or exchange of capital assets other than depreciable property shall be excluded in computing contract costs.

(g) With respect to long-lived tangible and identifiable intangible assets held for use, no loss shall be allowed for a write-down from carrying value to fair value as a result of impairments caused by events or changes in circumstances (e.g., environmental damage, idle facilities arising from a declining business base, etc.). If depreciable property or other capital assets have been written down from carrying value to fair value due to impairments, gains or losses upon disposition shall be the amounts that would have been allowed had the assets not been written down.

31.205-17 Idle facilities and idle capacity costs.

(a) *Definitions.* As used in this subsection—

“Costs of idle facilities or idle capacity” means costs such as maintenance, repair, housing, rent, and other related costs; e.g., property taxes, insurance, and depreciation.

“Facilities” means plant or any portion thereof (including land integral to the operation), equipment, individually or collectively, or any other tangible capital asset, wherever located, and whether owned or leased by the contractor.

“Idle capacity” means the unused capacity of partially used facilities. It is the difference between that which a facility could achieve under 100 percent operating time on a one-shift basis, less operating interruptions resulting from time lost for repairs, setups, unsatisfactory materials, and other normal delays, and the extent to which the facility was actually used to meet demands during the accounting period. A multiple-shift basis may be used in the calculation instead of a one-shift basis if it can be shown that this amount of usage could normally be expected for the type of facility involved.

“Idle facilities” means completely unused facilities that are excess to the contractor’s current needs.

(b) The costs of idle facilities are unallowable unless the facilities—

(1) Are necessary to meet fluctuations in workload;
or

(2) Were necessary when acquired and are now idle because of changes in requirements, production economies, reorganization, termination, or other causes which could not have been reasonably foreseen. (Costs of idle facilities are allowable for a reasonable period, ordinarily not to exceed 1 year, depending upon the initiative taken to use, lease, or dispose of the idle facilities (but see 31.205-42)).

(c) Costs of idle capacity are costs of doing business and are a factor in the normal fluctuations of usage or overhead rates from period to period. Such costs are allowable provided the capacity is necessary or was originally reasonable and is not subject to reduction or elimination by subletting, renting, or sale, in accordance with sound business, economics, or security practices. Widespread idle capacity throughout an entire plant or among a group of assets having substantially the same function may be idle facilities.

(d) Any costs to be paid directly by the Government for idle facilities or idle capacity reserved for defense mobilization production shall be the subject of a separate agreement.

31.205-18 Independent research and development and bid and proposal costs.

(a) *Definitions.* As used in this subsection—

“Applied research” means that effort which (1) normally follows basic research, but may not be severable from the related basic research, (2) attempts to determine and exploit the potential of scientific discoveries or improvements in technology, materials, processes, methods, devices, or techniques, and (3) attempts to advance the state of the art. Applied research does not include efforts whose principal aim is design, development, or test of specific items or services to be considered for sale; these efforts are within the

definition of the term “development,” defined in this subsection.

“Basic research” (see 2.101).

“Bid and proposal (B&P) costs” means the costs incurred in preparing, submitting, and supporting bids and proposals (whether or not solicited) on potential Government or non-Government contracts. The term does not include the costs of effort sponsored by a grant or cooperative agreement, or required in the performance of a contract.

“Company” means all divisions, subsidiaries, and affiliates of the contractor under common control.

“Development” means the systematic use, under whatever name, of scientific and technical knowledge in the design, development, test, or evaluation of a potential new product or service (or of an improvement in an existing product or service) for the purpose of meeting specific performance requirements or objectives. Development includes the functions of design engineering, prototyping, and engineering testing. Development excludes—

(1) Subcontracted technical effort which is for the sole purpose of developing an additional source for an existing product, or

(2) Development effort for manufacturing or production materials, systems, processes, methods, equipment, tools, and techniques not intended for sale.

“Independent research and development (IR&D)” means a contractor’s IR&D cost that consists of projects falling within the four following areas: (1) basic research, (2) applied research, (3) development, and (4) systems and other concept formulation studies. The term does not include the costs of effort sponsored by a grant or required in the performance of a contract. IR&D effort shall not include technical effort expended in developing and preparing technical data specifically to support submitting a bid or proposal.

“Systems and other concept formulation studies” means analyses and study efforts either related to specific IR&D efforts or directed toward identifying desirable new systems, equipment or components, or modifications and improvements to existing systems, equipment, or components.

(b) *Composition and allocation of costs.* The requirements of 48 CFR 9904.420, Accounting for independent research and development costs and bid and proposal costs, are incorporated in their entirety and shall apply as follows—

(1) *Fully-CAS-covered contracts.* Contracts that are fully-CAS-covered shall be subject to all requirements of 48 CFR 9904.420.

(2) *Modified CAS-covered and non-CAS-covered contracts.* Contracts that are not CAS-covered or that contain terms or conditions requiring modified CAS coverage shall be subject to all requirements of 48 CFR 9904.420 except 48 CFR 9904.420-50(e)(2) and 48 CFR 9904.420-50(f)(2), which are not then applicable. However, non-CAS-covered

or modified CAS-covered contracts awarded at a time the contractor has CAS-covered contracts requiring compliance with 48 CFR 9904.420, shall be subject to all the requirements of 48 CFR 9904.420. When the requirements of 48 CFR 9904.420-50(e)(2) and 48 CFR 9904.420-50(f)(2) are not applicable, the following apply:

(i) IR&D and B&P costs shall be allocated to final cost objectives on the same basis of allocation used for the G&A expense grouping of the profit center (see 31.001) in which the costs are incurred. However, when IR&D and B&P costs clearly benefit other profit centers or benefit the entire company, those costs shall be allocated through the G&A of the other profit centers or through the corporate G&A, as appropriate.

(ii) If allocations of IR&D or B&P through the G&A base do not provide equitable cost allocation, the contracting officer may approve use of a different base.

(c) *Allowability.* Except as provided in paragraphs (d) and (e) of this subsection, or as provided in agency regulations, costs for IR&D and B&P are allowable as indirect expenses on contracts to the extent that those costs are allocable and reasonable.

(d) *Deferred IR&D costs.* (1) IR&D costs that were incurred in previous accounting periods are unallowable, except when a contractor has developed a specific product at its own risk in anticipation of recovering the development costs in the sale price of the product provided that—

(i) The total amount of IR&D costs applicable to the product can be identified;

(ii) The proration of such costs to sales of the product is reasonable;

(iii) The contractor had no Government business during the time that the costs were incurred or did not allocate IR&D costs to Government contracts except to prorate the cost of developing a specific product to the sales of that product; and

(iv) No costs of current IR&D programs are allocated to Government work except to prorate the costs of developing a specific product to the sales of that product.

(2) When deferred costs are recognized, the contract (except firm-fixed-price and fixed-price with economic price adjustment) will include a specific provision setting forth the amount of deferred IR&D costs that are allocable to the contract. The negotiation memorandum will state the circumstances pertaining to the case and the reason for accepting the deferred costs.

(e) *Cooperative arrangements.* (1) IR&D costs may be incurred by contractors working jointly with one or more non-Federal entities pursuant to a cooperative arrangement (for example, joint ventures, limited partnerships, teaming arrangements, and collaboration and consortium arrange-

ments). IR&D costs also may include costs contributed by contractors in performing cooperative research and development agreements, or similar arrangements, entered into under—

(i) Section 12 of the Stevenson-Wydler Technology Transfer Act of 1980 (15 U.S.C. 3710(a));

(ii) Sections 203(c)(5) and (6) of the National Aeronautics and Space Act of 1958, as amended (42 U.S.C. 2473(c)(5) and (6));

(iii) 10 U.S.C. 2371 for the Defense Advanced Research Projects Agency; or

(iv) Other equivalent authority.

(2) IR&D costs incurred by a contractor pursuant to these types of cooperative arrangements should be considered as allowable IR&D costs if the work performed would have been allowed as contractor IR&D had there been no cooperative arrangement.

(3) Costs incurred in preparing, submitting, and supporting offers on potential cooperative arrangements are allowable to the extent they are allocable, reasonable, and not otherwise unallowable.

31.205-19 Insurance and indemnification.

(a) Insurance by purchase or by self-insuring includes coverage the contractor is required to carry, or to have approved, under the terms of the contract and any other coverage the contractor maintains in connection with the general conduct of its business. Any contractor desiring to establish a program of self-insurance applicable to contracts that are not subject to 48 CFR 9904.416, Accounting for Insurance Costs, shall comply with the self-insurance requirements of that standard as well as with Part 28 of this Regulation. However, approval of a contractor's insurance program in accordance with Part 28 does not constitute a determination as to the allowability of the program's cost. The amount of insurance costs which may be allowed is subject to the cost limitations and exclusions in the following paragraphs.

(1) Costs of insurance required or approved, and maintained by the contractor pursuant to the contract, are allowable.

(2) Costs of insurance maintained by the contractor in connection with the general conduct of its business are allowable, subject to the following limitations:

(i) Types and extent of coverage shall follow sound business practice, and the rates and premiums must be reasonable.

(ii) Costs allowed for business interruption or other similar insurance must be limited to exclude coverage of profit.

(iii) The cost of property insurance premiums for insurance coverage in excess of the acquisition cost of the insured assets is allowable only when the contractor has a formal written policy assuring that in the event the insured

property is involuntarily converted, the new asset shall be valued at the book value of the replaced asset plus or minus adjustments for differences between insurance proceeds and actual replacement cost. If the contractor does not have such a formal written policy, the cost of premiums for insurance coverage in excess of the acquisition cost of the insured asset is unallowable.

(iv) Costs of insurance for the risk of loss of or damage to Government property are allowable only to the extent that the contractor is liable for such loss or damage and such insurance does not cover loss or damage that results from willful misconduct or lack of good faith on the part of any of the contractor's directors or officers or other equivalent representatives.

(v) Contractors operating under a program of self-insurance must obtain approval of the program when required by 28.308(a).

(vi) Costs of insurance on the lives of officers, partners, or proprietors are allowable only to the extent that the insurance represents additional compensation (see 31.205-6).

(3) Actual losses are unallowable unless expressly provided for in the contract, except—

(i) Losses incurred under the nominal deductible provisions of purchased insurance, in keeping with sound business practice, are allowable for contracts not subject to 48 CFR 9904.416 and when the contractor did not establish a self-insurance program. Such contracts are not subject to the self-insurance requirements of 48 CFR 9904.416. For contracts subject to 48 CFR 9904.416, and for those made subject to the self-insurance requirements of that Standard as a result of the contractor's having established a self-insurance program (see paragraph (a) of this section), actual losses may be used as a basis for charges under a self-insurance program when the actual amount of losses will not differ significantly from the projected average losses for the accounting period (see 48 CFR 9904.416.50(a)(2)(ii)). In those instances where an actual loss has occurred and the present value of the liability is determined under the provisions of 48 CFR 9904.416-50(a)(3)(ii), the allowable cost shall be limited to an amount computed using as a discount rate the interest rate determined by the Secretary of the Treasury pursuant to 50 U.S.C. App. 1215(b)(2) in effect at the time the loss is recognized. However, the full amount of a lump-sum settlement to be paid within a year of the date of settlement is allowable.

(ii) Minor losses, such as spoilage, breakage, and disappearance of small hand tools that occur in the ordinary course of doing business and that are not covered by insurance are allowable.

(4) The cost of insurance to protect the contractor against the costs of correcting its own defects in materials or workmanship is unallowable. However, insurance costs to cover fortuitous or casualty losses resulting from defects in materials or workmanship are allowable as a normal business expense.

(5) Premiums for retroactive or backdated insurance written to cover occurred and known losses are unallowable.

(b) If purchased insurance is available, the charge for any self-insurance coverage plus insurance administration expenses shall not exceed the cost of comparable purchased insurance plus associated insurance administration expenses.

(c) Insurance provided by captive insurers (insurers owned by or under the control of the contractor) is considered self-insurance, and charges for it must comply with the self-insurance provisions of 48 CFR 9904.416. However, if the captive insurer also sells insurance to the general public in substantial quantities and it can be demonstrated that the charge to the contractor is based on competitive market forces, the insurance will be considered purchased insurance.

(d) The allowability of premiums for insurance purchased from fronting insurance companies (insurance companies not related to the contractor but who reinsure with a captive insurer of the contractor) shall not exceed the amount (plus reasonable fronting company charges for services rendered) which the contractor would have been allowed had it insured directly with the captive insurer.

(e) Self-insurance charges for risks of catastrophic losses are not allowable (see 28.308(e)).

(f) The Government is obligated to indemnify the contractor only to the extent authorized by law, as expressly provided for in the contract, except as provided in paragraph (a)(3) of this section.

(g) Late premium payment charges related to employee deferred compensation plan insurance incurred pursuant to Section 4007 (29 U.S.C. 1307) or Section 4023 (29 U.S.C. 1323) of the Employee Retirement Income Security Act of 1974 are unallowable.

31.205-20 Interest and other financial costs.

Interest on borrowings (however represented), bond discounts, costs of financing and refinancing capital (net worth plus long-term liabilities), legal and professional fees paid in connection with preparing prospectuses, and costs of preparing and issuing stock rights are unallowable (but see 31.205-28). However, interest assessed by State or local taxing authorities under the conditions specified in 31.205-41(a)(3) is allowable.

31.205-21 Labor relations costs.

Costs incurred in maintaining satisfactory relations between the contractor and its employees, including costs of

shop stewards, labor management committees, employee publications, and other related activities, are allowable.

31.205-22 Lobbying and political activity costs.

(a) Costs associated with the following activities are unallowable:

(1) Attempts to influence the outcomes of any Federal, State, or local election, referendum, initiative, or similar procedure, through in kind or cash contributions, endorsements, publicity, or similar activities;

(2) Establishing, administering, contributing to, or paying the expenses of a political party, campaign, political action committee, or other organization established for the purpose of influencing the outcomes of elections;

(3) Any attempt to influence—

(i) The introduction of Federal, state, or local legislation, or

(ii) The enactment or modification of any pending Federal, state, or local legislation through communication with any member or employee of the Congress or state legislature (including efforts to influence state or local officials to engage in similar lobbying activity), or with any government official or employee in connection with a decision to sign or veto enrolled legislation;

(4) Any attempt to influence—

(i) The introduction of Federal, state, or local legislation, or

(ii) The enactment or modification of any pending Federal, state, or local legislation by preparing, distributing or using publicity or propaganda, or by urging members of the general public or any segment thereof to contribute to or participate in any mass demonstration, march, rally, fund raising drive, lobbying campaign or letter writing or telephone campaign;

(5) Legislative liaison activities, including attendance at legislative sessions or committee hearings, gathering information regarding legislation, and analyzing the effect of legislation, when such activities are carried on in support of or in knowing preparation for an effort to engage in unallowable activities; or

(6) Costs incurred in attempting to improperly influence (see 3.401), either directly or indirectly, an employee or officer of the Executive branch of the Federal Government to give consideration to or act regarding a regulatory or contract matter.

(b) The following activities are excepted from the coverage of (a) of this section:

(1) Providing a technical and factual presentation of information on a topic directly related to the performance of a contract through hearing testimony, statements or letters to the Congress or a state legislature, or subdivision, member, or cognizant staff member thereof, in response to a documented request (including a Congressional Record notice requesting testimony or statements for the record at a regularly scheduled hearing) made by the recipient member, legislative body or subdivision, or a cognizant staff member thereof; provided such information is readily obtainable and can be readily put in deliverable form; and further provided that costs under this section for transportation, lodging or meals are unallowable unless incurred for the purpose of offering testimony at a regularly scheduled Congressional hearing pursuant to a written request for such presentation made by the Chairman or Ranking Minority Member of the Committee or Subcommittee conducting such hearing.

(2) Any lobbying made unallowable by paragraph (a)(3) of this subsection to influence state or local legislation in order to directly reduce contract cost, or to avoid material impairment of the contractor's authority to perform the contract.

(3) Any activity specifically authorized by statute to be undertaken with funds from the contract.

(c) When a contractor seeks reimbursement for indirect costs, total lobbying costs shall be separately identified in the indirect cost rate proposal, and thereafter treated as other unallowable activity costs.

(d) Contractors shall maintain adequate records to demonstrate that the certification of costs as being allowable or unallowable (see 42.703-2) pursuant to this subsection complies with the requirements of this subsection.

(e) Existing procedures should be utilized to resolve in advance any significant questions or disagreements concerning the interpretation or application of this subsection.

31.205-23 Losses on other contracts.

An excess of costs over income under any other contract (including the contractor's contributed portion under cost-sharing contracts) is unallowable.

31.205-24 Maintenance and repair costs.

(a) Costs necessary for the upkeep of property (including Government property, unless otherwise provided for) that neither add to the permanent value of the property nor appreciably prolong its intended life, but keep it in an efficient operating condition, are to be treated as follows (but see 31.205-11):

(1) Normal maintenance and repair costs are allowable.

(2) Extraordinary maintenance and repair costs are allowable, provided those costs are allocated to the applicable periods for purposes of determining contract costs (but see 31.109).

(b) Expenditures for plant and equipment, including rehabilitation which should be capitalized and subject to depreciation, according to generally accepted accounting principles as applied under the contractor's established policy or, when applicable, according to 48 CFR 9904.404, Capitalization of Tangible Assets, are allowable only on a depreciation basis.

31.205-25 Manufacturing and production engineering costs.

(a) The costs of manufacturing and production engineering effort as described in (1) through (4) of this paragraph are all allowable:

(1) Developing and deploying new or improved materials, systems, processes, methods, equipment, tools and techniques that are or are expected to be used in producing products or services;

(2) Developing and deploying pilot production lines;

(3) Improving current production functions, such as plant layout, production scheduling and control, methods and job analysis, equipment capabilities and capacities, inspection techniques, and tooling analysis (including tooling design and application improvements); and

(4) Material and manufacturing producibility analysis for production suitability and to optimize manufacturing processes, methods, and techniques.

(b) This cost principle does not cover—

(1) Basic and applied research effort (as defined in 31.205-18(a)) related to new technology, materials, systems, processes, methods, equipment, tools and techniques. Such technical effort is governed by 31.205-18, Independent research and development and bid and proposal costs; and

(2) Development effort for manufacturing or production materials, systems, processes, methods, equipment, tools, and techniques that are intended for sale is also governed by 31.205-18.

(c) Where manufacturing or production development costs are capitalized or required to be capitalized under the contractor's capitalization policies, allowable cost will be determined in accordance with the requirements of 31.205-11, Depreciation.

31.205-26 Material costs.

(a) Material costs include the costs of such items as raw materials, parts, sub-assemblies, components, and manufacturing supplies, whether purchased or manufactured by the contractor, and may include such collateral items as inbound transportation and intransit insurance. In computing material costs, consideration shall be given to reasonable overruns, spoilage, or defective work (unless otherwise provided in

any contract provision relating to inspecting and correcting defective work). These costs are allowable, subject to the requirements of paragraphs (b) through (e) of this section.

(b) Costs of material shall be adjusted for income and other credits, including available trade discounts, refunds, rebates, allowances, and cash discounts, and credits for scrap, salvage, and material returned to vendors. Such income and other credits shall either be credited directly to the cost of the material or be allocated as a credit to indirect costs. When the contractor can demonstrate that failure to take cash discounts was reasonable, lost discounts need not be credited.

(c) Reasonable adjustments arising from differences between periodic physical inventories and book inventories may be included in arriving at costs; provided, such adjustments relate to the period of contract performance.

(d) When materials are purchased specifically for and are identifiable solely with performance under a contract, the actual purchase cost of those materials should be charged to the contract. If material is issued from stores, any generally recognized method of pricing such material is acceptable if that method is consistently applied and the results are equitable. When estimates of future material costs are required, current market price or anticipated acquisition cost may be used, but the basis of pricing must be disclosed.

(e) Allowance for all materials, supplies, and services that are sold or transferred between any divisions, subdivisions, subsidiaries, or affiliates of the contractor under a common control shall be on the basis of cost incurred in accordance with this subpart. However, allowance may be at price when it is the established practice of the transferring organization to price interorganizational transfers at other than cost for commercial work of the contractor or any division, subsidiary, or affiliate of the contractor under a common control, and when the item being transferred qualifies for an exception under 15.403-1(b) and the contracting officer has not determined the price to be unreasonable.

(f) When a commercial item under paragraph (e) of this subsection is transferred at a price based on a catalog or market price, the price should be adjusted to reflect the quantities being acquired and may be adjusted to reflect the actual cost of any modifications necessary because of contract requirements.

31.205-27 Organization costs.

(a) Except as provided in paragraph (b) of this subsection, expenditures in connection with (1) planning or executing the organization or reorganization of the corporate structure of a business, including mergers and acquisitions, (2) resisting or planning to resist the reorganization of the corporate structure of a business or a change in the controlling interest in the ownership of a business, and (3) raising capital (net worth plus long-term liabilities), are unallowable. Such

expenditures include but are not limited to incorporation fees and costs of attorneys, accountants, brokers, promoters and organizers, management consultants and investment counselors, whether or not employees of the contractor. Unallowable "reorganization" costs include the cost of any change in the contractor's financial structure, excluding administrative costs of short-term borrowings for working capital, resulting in alterations in the rights and interests of security holders, whether or not additional capital is raised.

(b) The cost of activities primarily intended to provide compensation will not be considered organizational costs subject to this subsection, but will be governed by 31.205-6. These activities include acquiring stock for—

- (1) Executive bonuses,
- (2) Employee savings plans, and
- (3) Employee stock ownership plans.

31.205-28 Other business expenses.

The following types of recurring costs are allowable when allocated on an equitable basis:

- (a) Registry and transfer charges resulting from changes in ownership of securities issued by the contractor.
- (b) Cost of shareholders' meetings.
- (c) Normal proxy solicitations.
- (d) Preparing and publishing reports to shareholders.
- (e) Preparing and submitting required reports and forms to taxing and other regulatory bodies.
- (f) Incidental costs of directors' and committee meetings.
- (g) Other similar costs.

31.205-29 Plant protection costs.

Costs of items such as—

- (a) Wages, uniforms, and equipment of personnel engaged in plant protection,
- (b) Depreciation on plant protection capital assets, and
- (c) Necessary expenses to comply with military requirements, are allowable.

31.205-30 Patent costs.

(a) The following patent costs are allowable to the extent that they are incurred as requirements of a Government contract (but see 31.205-33):

- (1) Costs of preparing invention disclosures, reports, and other documents.
- (2) Costs for searching the art to the extent necessary to make the invention disclosures.
- (3) Other costs in connection with the filing and prosecution of a United States patent application where title or royalty-free license is to be conveyed to the Government.

(b) General counseling services relating to patent matters, such as advice on patent laws, regulations, clauses, and employee agreements, are allowable (but see 31.205-33).

(c) Other than those for general counseling services, patent costs not required by the contract are unallowable. (See also 31.205-37.)

31.205-31 Plant reconversion costs.

Plant reconversion costs are those incurred in restoring or rehabilitating the contractor's facilities to approximately the same condition existing immediately before the start of the Government contract, fair wear and tear excepted. Reconversion costs are unallowable except for the cost of removing Government property and the restoration or rehabilitation costs caused by such removal. However, in special circumstances where equity so dictates, additional costs may be allowed to the extent agreed upon before costs are incurred. Care should be exercised to avoid duplication through allowance as contingencies, additional profit or fee, or in other contracts.

31.205-32 Precontract costs.

Precontract costs means costs incurred before the effective date of the contract directly pursuant to the negotiation and in anticipation of the contract award when such incurrence is necessary to comply with the proposed contract delivery schedule. These costs are allowable to the extent that they would have been allowable if incurred after the date of the contract (see 31.109).

31.205-33 Professional and consultant service costs.

(a) *Definition.* "Professional and consultant services," as used in this subsection, means those services rendered by persons who are members of a particular profession or possess a special skill and who are not officers or employees of the contractor. Examples include those services acquired by contractors or subcontractors in order to enhance their legal, economic, financial, or technical positions. Professional and consultant services are generally acquired to obtain information, advice, opinions, alternatives, conclusions, recommendations, training, or direct assistance, such as studies, analyses, evaluations, liaison with Government officials, or other forms of representation.

(b) Costs of professional and consultant services are allowable subject to this paragraph and paragraphs (c) through (f) of this subsection when reasonable in relation to the services rendered and when not contingent upon recovery of the costs from the Government (but see 31.205-30 and 31.205-47).

(c) Costs of professional and consultant services performed under any of the following circumstances are unallowable:

- (1) Services to improperly obtain, distribute, or use information or data protected by law or regulation (*e.g.*, 52.215-1(e), Restriction on Disclosure and Use of Data).

(2) Services that are intended to improperly influence the contents of solicitations, the evaluation of proposals or quotations, or the selection of sources for contract award, whether award is by the Government, or by a prime contractor or subcontractor.

(3) Any other services obtained, performed, or otherwise resulting in violation of any statute or regulation prohibiting improper business practices or conflicts of interest.

(4) Services performed which are not consistent with the purpose and scope of the services contracted for or otherwise agreed to.

(d) In determining the allowability of costs (including retainer fees) in a particular case, no single factor or any special combination of factors is necessarily determinative. However, the contracting officer shall consider the following factors, among others:

(1) The nature and scope of the service rendered in relation to the service required.

(2) The necessity of contracting for the service, considering the contractor's capability in the particular area.

(3) The past pattern of acquiring such services and their costs, particularly in the years prior to the award of Government contracts.

(4) The impact of Government contracts on the contractor's business.

(5) Whether the proportion of Government work to the contractor's total business is such as to influence the contractor in favor of incurring the cost, particularly when the services rendered are not of a continuing nature and have little relationship to work under Government contracts.

(6) Whether the service can be performed more economically by employment rather than by contracting.

(7) The qualifications of the individual or concern rendering the service and the customary fee charged, especially on non-Government contracts.

(8) Adequacy of the contractual agreement for the service (*e.g.*, description of the service, estimate of time required, rate of compensation, termination provisions).

(e) Retainer fees, to be allowable, must be supported by evidence that—

(1) The services covered by the retainer agreement are necessary and customary;

(2) The level of past services justifies the amount of the retainer fees (if no services were rendered, fees are not automatically unallowable);

(3) The retainer fee is reasonable in comparison with maintaining an in-house capability to perform the covered services, when factors such as cost and level of expertise are considered; and

(4) The actual services performed are documented in accordance with paragraph (f) of this subsection.

(f) Fees for services rendered shall be allowable only when supported by evidence of the nature and scope of the service furnished. (See also 31.205-38(f).) However, retainer agreements generally are not based on specific statements of work. Evidence necessary to determine that work performed is proper and does not violate law or regulation shall include—

(1) Details of all agreements (*e.g.*, work requirements, rate of compensation, and nature and amount of other expenses, if any) with the individuals or organizations providing the services and details of actual services performed;

(2) Invoices or billings submitted by consultants, including sufficient detail as to the time expended and nature of the actual services provided; and

(3) Consultants' work products and related documents, such as trip reports indicating persons visited and subjects discussed, minutes of meetings, and collateral memoranda and reports.

31.205-34 Recruitment costs.

(a) Subject to paragraph (b) of this subsection, the following costs are allowable:

(1) Costs of help-wanted advertising.

(2) Costs of operating an employment office needed to secure and maintain an adequate labor force.

(3) Costs of operating an aptitude and educational testing program.

(4) Travel costs of employees engaged in recruiting personnel.

(5) Travel costs of applicants for interviews.

(6) Costs for employment agencies, not in excess of standard commercial rates.

(b) Help-wanted advertising costs are unallowable if the advertising—

(1) Does not describe specific positions or classes of positions; or

(2) Includes material that is not relevant for recruitment purposes, such as extensive illustrations or descriptions of the company's products or capabilities.

31.205-35 Relocation costs.

(a) Relocation costs are costs incident to the permanent change of assigned work location (for a period of 12 months or more) of an existing employee or upon recruitment of a new employee. The following types of relocation costs are allowable as noted, subject to the limitations in paragraphs (b) and (f) of this subsection:

(1) Costs of travel of the employee and members of the employee's immediate family (see 31.205-46) and transportation of the household and personal effects to the new location.

(2) Costs of finding a new home, such as advance trips by the employee or the spouse, or both, to locate living quarters, and temporary lodging during the transition period for the employee and members of the employee's immediate family.

(3) Closing costs incident to the disposition of the actual residence owned by the employee when notified of the transfer (*e.g.*, brokerage fees, legal fees, appraisal fees, points, and finance charges), except that these costs, when added to the costs described in paragraph (a)(4) of this subsection, shall not exceed 14 percent of the sales price of the property sold.

(4) Continuing costs of ownership of the vacant former actual residence being sold, such as maintenance of building and grounds (exclusive of fixing up expenses), utilities, taxes, property insurance, and mortgage interest, after the settlement date or lease date of a new permanent residence, except that these costs, when added to the costs described in paragraph (a)(3) of this subsection, shall not exceed 14 percent of the sales price of the property sold.

(5) Other necessary and reasonable expenses normally incident to relocation, such as disconnecting and connecting household appliances; automobile registration; driver's license and use taxes; cutting and fitting rugs, draperies, and curtains; forfeited utility fees and deposits; and purchase of insurance against damage to or loss of personal property while in transit.

(6) Costs incident to acquiring a home in the new work location, except that—

(i) These costs are not allowable for existing employees or newly recruited employees who were not homeowners before the relocation; and

(ii) The total costs shall not exceed 5 percent of the purchase price of the new home.

(7) Mortgage interest differential payments, except that these costs are not allowable for existing or newly recruited employees who, before the relocation, were not homeowners and the total payments are limited to an amount determined as follows:

(i) The difference between the mortgage interest rates of the old and new residences times the current balance of the old mortgage times 3 years.

(ii) When mortgage differential payments are made on a lump-sum basis and the employee leaves or is transferred again in less than 3 years, the amount initially recognized shall be proportionately adjusted to reflect payments only for the actual time of the relocation.

(8) Rental differential payments covering situations where relocated employees retain ownership of a vacated home in the old location and rent at the new location. The rented quarters at the new location must be comparable to those vacated, and the allowable differential payments may not exceed the actual rental costs for the new home, less the fair market rent for the vacated home times 3 years.

(9) Costs of canceling an unexpired lease.

(10) Payments for increased employee income or Federal Insurance Contributions Act (26 U.S.C. chapter 21) taxes incident to allowable reimbursed relocation costs.

(11) Payments for spouse employment assistance.

(b) The costs described in paragraph (a) of this subsection must also meet the following criteria to be considered allowable:

(1) The move must be for the benefit of the employer.

(2) Reimbursement must be in accordance with an established policy or practice that is consistently followed by the employer and is designed to motivate employees to relocate promptly and economically.

(3) The costs must not be otherwise unallowable under Subpart 31.2.

(4) Amounts to be reimbursed shall not exceed the employee's actual expenses, except that for miscellaneous costs of the type discussed in paragraph (a)(5) of this subsection, a flat amount, not to exceed \$5,000, may be allowed in lieu of actual costs.

(c) The following types of costs are unallowable:

(1) Loss on the sale of a home.

(2) Costs incident to acquiring a home in the new location as follows:

(i) Real estate brokers' fees and commissions.

(ii) Costs of litigation.

(iii) Real and personal property insurance against damage or loss of property.

(iv) Mortgage life insurance.

(v) Owner's title policy insurance when such insurance was not previously carried by the employee on the old residence. (However, the cost of a mortgage title policy is allowable.)

(vi) Property taxes and operating or maintenance costs.

(3) Continuing mortgage principal payments on a residence being sold.

(4) Costs incident to furnishing equity or nonequity loans to employees or making arrangements with lenders for employees to obtain lower-than-market rate mortgage loans.

(d) If relocation costs for an employee have been allowed either as an allocable indirect or direct cost, and the employee resigns within 12 months for reasons within the employee's control, the contractor shall refund or credit the relocation costs to the Government.

(e) Subject to the requirements of paragraphs (a) through (d) of this section, the costs of family movements and of personnel movements of a special or mass nature are allowable. The cost, however, should be assigned on the basis of work (contracts) or time period benefited.

(f) Relocation costs (both outgoing and return) of employees who are hired for performance on specific contracts or long-term field projects are allowable if—

(1) The term of employment is 12 months or more;

(2) The employment agreement specifically limits the duration of employment to the time spent on the contract or field project for which the employee is hired;

(3) The employment agreement provides for return relocation to the employee's permanent and principal home immediately prior to the outgoing relocation, or other location of equal or lesser cost; and

(4) The relocation costs are determined under the rules of paragraphs (a) through (d) of this section. However, the costs to return employees, who are released from employment upon completion of field assignments pursuant to their employment agreements, are not subject to the refund or credit requirement of paragraph (d).

31.205-36 Rental costs.

(a) This subsection is applicable to the cost of renting or leasing real or personal property acquired under "operating leases" as defined in Statement of Financial Accounting Standards No. 13 (FAS-13), Accounting for Leases. Compliance with 31.205-11(m) requires that assets acquired by means of capital leases, as defined in FAS-13, shall be treated as purchased assets; *i.e.*, be capitalized and the capitalized value of such assets be distributed over their useful lives as depreciation charges, or over the lease term as amortization charges, as appropriate (but see paragraph (b)(4) of this section).

(b) The following costs are allowable:

(1) Rental costs under operating leases, to the extent that the rates are reasonable at the time of the lease decision, after consideration of—

(i) Rental costs of comparable property, if any;

(ii) Market conditions in the area;

(iii) The type, life expectancy, condition, and value of the property leased;

(iv) Alternatives available; and

(v) Other provisions of the agreement.

(2) Rental costs under a sale and leaseback arrangement only up to the amount the contractor would be allowed if the contractor retained title.

(3) Charges in the nature of rent for property between any divisions, subsidiaries, or organizations under common control, to the extent that they do not exceed the normal costs of ownership, such as depreciation, taxes, insurance, facilities capital cost of money, and maintenance (excluding

interest or other unallowable costs pursuant to Part 31), provided that no part of such costs shall duplicate any other allowed cost. Rental cost of personal property leased from any division, subsidiary, or affiliate of the contractor under common control, that has an established practice of leasing the same or similar property to unaffiliated lessees shall be allowed in accordance with paragraph (b)(1) of this subsection.

(4) Rental costs under leases entered into before March 1, 1970 for the remaining term of the lease (excluding options not exercised before March 1, 1970) to the extent they would have been allowable under Defense Acquisition Regulation (formerly ASPR) 15-205.34 or Federal Procurement Regulations section 1-15.205-34 in effect January 1, 1969.

(c) The allowability of rental costs under unexpired leases in connection with terminations is treated in 31.205-42(e).

31.205-37 Royalties and other costs for use of patents.

(a) Royalties on a patent or amortization of the cost of purchasing a patent or patent rights necessary for the proper performance of the contract and applicable to contract products or processes are allowable unless—

(1) The Government has a license or the right to a free use of the patent;

(2) The patent has been adjudicated to be invalid, or has been administratively determined to be invalid;

(3) The patent is considered to be unenforceable; or

(4) The patent is expired.

(b) Care should be exercised in determining reasonableness when the royalties may have been arrived at as a result of less-than-arm's-length bargaining; *e.g.*, royalties—

(1) Paid to persons, including corporations, affiliated with the contractor;

(2) Paid to unaffiliated parties, including corporations, under an agreement entered into in contemplation that a Government contract would be awarded; or

(3) Paid under an agreement entered into after the contract award.

(c) In any case involving a patent formerly owned by the contractor, the royalty amount allowed should not exceed the cost which would have been allowed had the contractor retained title.

(d) See 31.109 regarding advance agreements.

31.205-38 Selling costs.

(a) "Selling" is a generic term encompassing all efforts to market the contractor's products or services, some of which are covered specifically in other subsections of 31.205. Selling activity includes the following broad categories:

(1) Advertising.

(2) Corporate image enhancement including broadly-targeted sales efforts, other than advertising.

- (3) Bid and proposal costs.
- (4) Market planning.
- (5) Direct selling.

(b) Advertising costs are defined at 31.205-1(b) and are subject to the allowability provisions of 31.205-1(d) and (f). Corporate image enhancement activities are included within the definitions of public relations at 31.205-1(a) and entertainment at 31.205-14 and are subject to the allowability provisions at 31.205-1(e) and (f) and 31.205-14, respectively. Bid and proposal costs are defined at 31.205-18 and have their allowability controlled by that subsection. Market planning involves market research and analysis and generalized management planning concerned with development of the contractor's business. The allowability of long-range market planning costs is controlled by the provisions of 31.205-12. Other market planning costs are allowable to the extent that they are reasonable and not in excess of the limitations of paragraph (c)(2) of this subsection. Costs of activities which are correctly classified and disallowed under cost principles referenced in this paragraph (b) are not to be reconsidered for reimbursement under any other provision of this subsection.

(c)(1) Direct selling efforts are those acts or actions to induce particular customers to purchase particular products or services of the contractor. Direct selling is characterized by person-to-person contact and includes such activities as familiarizing a potential customer with the contractor's products or services, conditions of sale, service capabilities, etc. It also includes negotiation, liaison between customer and contractor personnel, technical and consulting activities, individual demonstrations, and any other activities having as their purpose the application or adaptation of the contractor's products or services for a particular customer's use. The cost of direct selling efforts is allowable if reasonable in amount.

(2) The costs of broadly targeted and direct selling efforts and market planning other than long-range, that are incurred in connection with a significant effort to promote export sales of products normally sold to the U.S. Government, including the costs of exhibiting and demonstrating such products, are allowable on contracts with the U.S. Government provided the costs are allocable, reasonable, and otherwise allowable under this Subpart 31.2.

(d) The costs of any selling efforts other than those addressed in paragraphs (b) or (c) of this subsection are unallowable.

(e) Costs of the type identified in paragraphs (b), (c), and (d) of this subsection are often commingled on the contractor's books in the selling expense account because these activities are performed by the sales departments. However, identification and segregation of unallowable costs is required under the provisions of 31.201-6 and 30.405, and

such costs are not allowable merely because they are incurred in connection with allowable selling activities.

(f) Notwithstanding any other provision of this subsection, sellers' or agents' compensation, fees, commissions, percentages, retainer or brokerage fees, whether or not contingent upon the award of contracts, are allowable only when paid to bona fide employees or established commercial or selling agencies maintained by the contractor for the purpose of securing business.

31.205-39 Service and warranty costs.

Service and warranty costs include those arising from fulfillment of any contractual obligation of a contractor to provide services such as installation, training, correcting defects in the products, replacing defective parts, and making refunds in the case of inadequate performance. When not inconsistent with the terms of the contract, service and warranty costs are allowable. However, care should be exercised to avoid duplication of the allowance as an element of both estimated product cost and risk.

31.205-40 Special tooling and special test equipment costs.

(a) The terms "special tooling" and "special test equipment" are defined in 45.101.

(b) The cost of special tooling and special test equipment used in performing one or more Government contracts is allowable and shall be allocated to the specific Government contract or contracts for which acquired, except that the cost of—

(1) Items acquired by the contractor before the effective date of the contract (or replacement of such items), whether or not altered or adapted for use in performing the contract, and

(2) Items which the contract schedule specifically excludes, shall be allowable only as depreciation or amortization.

(c) When items are disqualified as special tooling or special test equipment because with relatively minor expense they can be made suitable for general purpose use and have a value as such commensurate with their value as special tooling or special test equipment, the cost of adapting the items for use under the contract and the cost of returning them to their prior configuration are allowable.

31.205-41 Taxes.

(a) The following types of costs are allowable:

(1) Federal, State, and local taxes (see Part 29), except as otherwise provided in paragraph (b) of this section that are required to be and are paid or accrued in accordance with generally accepted accounting principles. Fines and penalties are not considered taxes.

(2) Taxes otherwise allowable under paragraph (a)(1) of this section, but upon which a claim of illegality or erroneous assessment exists; provided the contractor, before paying such taxes—

(i) Promptly requests instructions from the contracting officer concerning such taxes; and

(ii) Takes all action directed by the contracting officer arising out of paragraph (2)(i) of this section or an independent decision of the Government as to the existence of a claim of illegality or erroneous assessment, to—

(A) Determine the legality of the assessment or

(B) Secure a refund of such taxes.

(3) Pursuant to paragraph (a)(2) of this section, the reasonable costs of any action taken by the contractor at the direction or with the concurrence of the contracting officer. Interest or penalties incurred by the contractor for non-payment of any tax at the direction of the contracting officer or by reason of the failure of the contracting officer to ensure timely direction after a prompt request.

(4) The Environmental Tax found at section 59A of the Internal Revenue Code, also called the “Superfund Tax.”

(b) The following types of costs are not allowable:

(1) Federal income and excess profits taxes.

(2) Taxes in connection with financing, refinancing, refunding operations, or reorganizations (see 31.205-20 and 31.205-27).

(3) Taxes from which exemptions are available to the contractor directly, or available to the contractor based on an exemption afforded the Government, except when the contracting officer determines that the administrative burden incident to obtaining the exemption outweighs the corresponding benefits accruing to the Government. When partial exemption from a tax is attributable to Government contract activity, taxes charged to such work in excess of that amount resulting from application of the preferential treatment are unallowable. These provisions intend that tax preference attributable to Government contract activity be realized by the Government. The term “exemption” means freedom from taxation in whole or in part and includes a tax abatement or reduction resulting from mode of assessment, method of calculation, or otherwise.

(4) Special assessments on land that represent capital improvements.

(5) Taxes (including excises) on real or personal property, or on the value, use, possession or sale thereof, which is used solely in connection with work other than on Government contracts (see paragraph (c) of this section).

(6) Any excise tax in subtitle D, chapter 43 of the Internal Revenue Code of 1986, as amended. That chapter includes excise taxes imposed in connection with qualified pension plans, welfare plans, deferred compensation plans, or other similar types of plans.

(7) Income tax accruals designed to account for the tax effects of differences between taxable income and pretax income as reflected by the books of account and financial statements.

(c) Taxes on property (see paragraph (b)(5) of this section) used solely in connection with either non-Government or Government work should be considered directly applicable to the respective category of work unless the amounts involved are insignificant or comparable results would otherwise be obtained; *e.g.*, taxes on contractor-owned work-in-process which is used solely in connection with non-Government work should be allocated to such work; taxes on contractor-owned work-in-process inventory (and Government-owned work-in-process inventory when taxed) used solely in connection with Government work should be charged to such work. The cost of taxes incurred on property used in both Government and non-Government work shall be apportioned to all such work based upon the use of such property on the respective final cost objectives.

(d) Any taxes, interest, or penalties that were allowed as contract costs and are refunded to the contractor shall be credited or paid to the Government in the manner it directs. If a contractor or subcontractor obtains a foreign tax credit that reduces its U.S. Federal income tax because of the payment of any tax or duty allowed as contract costs, and if those costs were reimbursed by a foreign government, the amount of the reduction shall be paid to the Treasurer of the United States at the time the Federal income tax return is filed. However, any interest actually paid or credited to a contractor incident to a refund of tax, interest, or penalty shall be paid or credited to the Government only to the extent that such interest accrued over the period during which the contractor had been reimbursed by the Government for the taxes, interest, or penalties.

31.205-42 Termination costs.

Contract terminations generally give rise to the incurrance of costs or the need for special treatment of costs that would not have arisen had the contract not been terminated. The following cost principles peculiar to termination situations are to be used in conjunction with the other cost principles in Subpart 31.2:

(a) *Common items.* The costs of items reasonably usable on the contractor’s other work shall not be allowable unless the contractor submits evidence that the items could not be retained at cost without sustaining a loss. The contracting officer should consider the contractor’s plans and orders for current and planned production when determining if items can reasonably be used on other work of the contractor. Contemporaneous purchases of common items by the contractor shall be regarded as evidence that such items are reasonably usable on the contractor’s other work. Any acceptance of common items as allocable to the terminated portion of the

contract should be limited to the extent that the quantities of such items on hand, in transit, and on order are in excess of the reasonable quantitative requirements of other work.

(b) *Costs continuing after termination.* Despite all reasonable efforts by the contractor, costs which cannot be discontinued immediately after the effective date of termination are generally allowable. However, any costs continuing after the effective date of the termination due to the negligent or willful failure of the contractor to discontinue the costs shall be unallowable.

(c) *Initial costs.* Initial costs, including starting load and preparatory costs, are allowable as follows:

(1) Starting load costs not fully absorbed because of termination are nonrecurring labor, material, and related overhead costs incurred in the early part of production and result from factors such as—

- (i) Excessive spoilage due to inexperienced labor;
- (ii) Idle time and subnormal production due to testing and changing production methods;
- (iii) Training; and
- (iv) Lack of familiarity or experience with the product, materials, or manufacturing processes.

(2) Preparatory costs incurred in preparing to perform the terminated contract include such costs as those incurred for initial plant rearrangement and alterations, management and personnel organization, and production planning. They do not include special machinery and equipment and starting load costs.

(3) When initial costs are included in the settlement proposal as a direct charge, such costs shall not also be included in overhead. Initial costs attributable to only one contract shall not be allocated to other contracts.

(4) If initial costs are claimed and have not been segregated on the contractor's books, they shall be segregated for settlement purposes from cost reports and schedules reflecting that high unit cost incurred during the early stages of the contract.

(5) If the settlement proposal is on the inventory basis, initial costs should normally be allocated on the basis of total end items called for by the contract immediately before termination; however, if the contract includes end items of a diverse nature, some other equitable basis may be used, such as machine or labor hours.

(d) *Loss of useful value.* Loss of useful value of special tooling, and special machinery and equipment is generally allowable, provided—

(1) The special tooling, or special machinery and equipment is not reasonably capable of use in the other work of the contractor;

(2) The Government's interest is protected by transfer of title or by other means deemed appropriate by the contracting officer; and

(3) The loss of useful value for any one terminated contract is limited to that portion of the acquisition cost which bears the same ratio to the total acquisition cost as the terminated portion of the contract bears to the entire terminated contract and other Government contracts for which the special tooling, or special machinery and equipment was acquired.

(e) *Rental under unexpired leases.* Rental costs under unexpired leases, less the residual value of such leases, are generally allowable when shown to have been reasonably necessary for the performance of the terminated contract, if—

(1) The amount of rental claimed does not exceed the reasonable use value of the property leased for the period of the contract and such further period as may be reasonable; and

(2) The contractor makes all reasonable efforts to terminate, assign, settle, or otherwise reduce the cost of such lease.

(f) *Alterations of leased property.* The cost of alterations and reasonable restorations required by the lease may be allowed when the alterations were necessary for performing the contract.

(g) *Settlement expenses.* (1) Settlement expenses, including the following, are generally allowable:

(i) Accounting, legal, clerical, and similar costs reasonably necessary for—

(A) The preparation and presentation, including supporting data, of settlement claims to the contracting officer; and

(B) The termination and settlement of subcontracts.

(ii) Reasonable costs for the storage, transportation, protection, and disposition of property acquired or produced for the contract.

(iii) Indirect costs related to salary and wages incurred as settlement expenses in (i) and (ii); normally, such indirect costs shall be limited to payroll taxes, fringe benefits, occupancy costs, and immediate supervision costs.

(2) If settlement expenses are significant, a cost account or work order shall be established to separately identify and accumulate them.

(h) *Subcontractor claims.* Subcontractor claims, including the allocable portion of the claims common to the contract and to other work of the contractor, are generally allowable. An appropriate share of the contractor's indirect expense may be allocated to the amount of settlements with subcontractors; provided, that the amount allocated is reasonably proportionate to the relative benefits received and is otherwise consistent with 31.201-4 and 31.203(c). The indirect expense so allocated shall exclude the same and similar costs claimed directly or indirectly as settlement expenses.

31.205-43 Trade, business, technical and professional activity costs.

The following types of costs are allowable:

(a) Memberships in trade, business, technical, and professional organizations.

(b) Subscriptions to trade, business, professional, or other technical periodicals.

(c) When the principal purpose of a meeting, convention, conference, symposium, or seminar is the dissemination of trade, business, technical or professional information or the stimulation of production or improved productivity—

(1) Costs of organizing, setting up, and sponsoring the meetings, conventions, symposia, etc., including rental of meeting facilities, transportation, subsistence, and incidental costs;

(2) Costs of attendance by contractor employees, including travel costs (see 31.205-46); and

(3) Costs of attendance by individuals who are not employees of the contractor, provided—

(i) Such costs are not also reimbursed to the individual by the employing company or organization, and

(ii) The individuals attendance is essential to achieve the purpose of the conference, meeting, convention, symposium, etc.

31.205-44 Training and education costs.

(a) *Allowable costs.* Training and education costs are allowable to the extent indicated below.

(b) *Vocational training.* Costs of preparing and maintaining a noncollege level program of instruction, including but not limited to on-the-job, classroom, and apprenticeship training, designed to increase the vocational effectiveness of employees, are allowable. These costs include—

(1) Salaries or wages of trainees (excluding overtime compensation),

(2) Salaries of the director of training and staff when the training program is conducted by the contractor,

(3) Tuition and fees when the training is in an institution not operated by the contractor, and/or

(4) Training materials and textbooks.

(c) *Part-time college level education.* Allowable costs of part-time college education at an undergraduate or postgraduate level, including that provided at the contractor's own facilities, are limited to—

(1) Fees and tuition charged by the educational institution, or, instead of tuition, instructors' salaries and the related share of indirect cost of the educational institution, to the extent that the sum thereof is not in excess of the tuition that would have been paid to the participating educational institution;

(2) Salaries and related costs of instructors who are employees of the contractor;

(3) Training materials and textbooks; and

(4) Straight-time compensation of each employee for time spent attending classes during working hours not in excess of 156 hours per year where circumstances do not permit the operation of classes or attendance at classes after regular working hours. In unusual cases, the period may be extended (see paragraph (h) of this subsection).

(d) *Full-time education.* Costs of tuition, fees, training materials and textbooks (but not subsistence, salary, or any other emoluments) in connection with full-time education, including that provided at the contractor's own facilities, at a postgraduate but not undergraduate college level, are allowable only when the course or degree pursued is related to the field in which the employee is working or may reasonably be expected to work and are limited to a total period not to exceed 2 school years or the length of the degree program, whichever is less, for each employee so trained.

(e) *Specialized programs.* Costs of attendance of up to 16 weeks per employee per year at specialized programs specifically designed to enhance the effectiveness of managers or to prepare employees for such positions are allowable. Such costs include enrollment fees and related charges and employees' salaries, subsistence, training materials, textbooks, and travel. Costs allowable under this paragraph do not include costs for courses that are part of a degree-oriented curriculum, which are only allowable pursuant to paragraphs (c) and (d) of this subsection.

(f) *Other expenses.* Maintenance expense and normal depreciation or fair rental on facilities owned or leased by the contractor for training purposes are allowable in accordance with 31.205-11, 31.205-17, 31.205-24, and 31.205-36.

(g) *Grants.* Grants to educational or training institutions, including the donation of facilities or other properties, scholarships, and fellowships are considered contributions and are unallowable.

(h) *Advance agreements.* (1) Training and education costs in excess of those otherwise allowable under paragraphs (c) and (d) of this subsection, including subsistence, salaries or any other emoluments, may be allowed to the extent set forth in an advance agreement negotiated under 31.109. To be considered for an advance agreement, the contractor must demonstrate that the costs are consistently incurred under an established managerial, engineering, or scientific training and education program, and that the course or degree pursued is related to the field in which the employees are now working or may reasonably be expected to work. Before entering into the advance agreement, the contracting officer shall give consideration to such factors as—

(i) The length of employees' service with the contractor;

(ii) Employees' past performance and potential;

(iii) Whether employees are in formal development programs; and

(iv) The total number of participating employees.

(2) Any advance agreement must include a provision requiring the contractor to refund to the Government training and education costs for employees who resign within 12 months of completion of such training or education for reasons within an employee's control.

(i) *Training or education costs for other than bona fide employees.* Costs of tuition, fees, textbooks, and similar or related benefits provided for other than bona fide employees are unallowable, except that the costs incurred for educating employee dependents (primary and secondary level studies) when the employee is working in a foreign country where public education is not available and where suitable private education is inordinately expensive may be included in overseas differential.

(j) *Employee dependent education plans.* Costs of college plans for employee dependents are unallowable.

31.205-45 Transportation costs.

Allowable transportation costs include freight, express, cartage, and postage charges relating to goods purchased, in process, or delivered. When these costs can be identified with the items involved, they may be directly costed as transportation costs or added to the cost of such items. When identification with the materials received cannot be made, inbound transportation costs may be charged to the appropriate indirect cost accounts if the contractor follows a consistent and equitable procedure. Outbound freight, if reimbursable under the terms of the contract, shall be treated as a direct cost.

31.205-46 Travel costs.

(a) *Costs for transportation, lodging, meals, and incidental expenses.* (1) Costs incurred by contractor personnel on official company business are allowable, subject to the limitations contained in this subsection. Costs for transportation may be based on mileage rates, actual costs incurred, or on a combination thereof, provided the method used results in a reasonable charge. Costs for lodging, meals, and incidental expenses may be based on per diem, actual expenses, or a combination thereof, provided the method used results in a reasonable charge.

(2) Except as provided in paragraph (a)(3) of this subsection, costs incurred for lodging, meals, and incidental expenses (as defined in the regulations cited in (a)(2)(i) through (iii) of this paragraph) shall be considered to be reasonable and allowable only to the extent that they do not exceed on a daily basis the maximum per diem rates in effect at the time of travel as set forth in the—

(i) Federal Travel Regulations, prescribed by the General Services Administration, for travel in the conterminous 48 United States, available on a subscription basis from the:

Superintendent of Documents
U.S. Government Printing Office
Washington DC 20402

Stock No. 922-002-00000-2

(ii) Joint Travel Regulation, Volume 2, DoD Civilian Personnel, Appendix A, prescribed by the Department of Defense, for travel in Alaska, Hawaii, The Commonwealth of Puerto Rico, and territories and possessions of the United States, available on a subscription basis from the—

Superintendent of Documents
U.S. Government Printing Office
Washington DC 20402

Stock No. 908-010-00000-1; or

(iii) Standardized Regulations (Government Civilians, Foreign Areas), Section 925, "Maximum Travel Per Diem Allowances for Foreign Areas," prescribed by the Department of State, for travel in areas not covered in (a)(2)(i) and (ii) of this paragraph, available on a subscription basis from the—

Superintendent of Documents
U.S. Government Printing Office
Washington, DC 20402

Stock No. 744-008-00000-0

(3) In special or unusual situations, actual costs in excess of the above-referenced maximum per diem rates are allowable provided that such amounts do not exceed the higher amounts authorized for Federal civilian employees as permitted in the regulations referenced in (a)(2)(i), (ii), or (iii) of this subsection. For such higher amounts to be allowable, all of the following conditions must be met:

(i) One of the conditions warranting approval of the actual expense method, as set forth in the regulations referenced in paragraphs (a)(2)(i), (ii), or (iii) of this subsection, must exist.

(ii) A written justification for use of the higher amounts must be approved by an officer of the contractor's organization or designee to ensure that the authority is properly administered and controlled to prevent abuse.

(iii) If it becomes necessary to exercise the authority to use the higher actual expense method repetitively or on a continuing basis in a particular area, the contractor must obtain advance approval from the contracting officer.

(iv) Documentation to support actual costs incurred shall be in accordance with the contractor's established practices, subject to paragraph (a)(7) of this subsection, and provided that a receipt is required for each expenditure of \$75.00 or more. The approved justification required by paragraph (a)(3)(ii) and, if applicable, paragraph (a)(3)(iii) of this subsection must be retained.

(4) Paragraphs (a)(2) and (a)(3) of this subsection do not incorporate the regulations cited in subdivisions (a)(2)(i), (ii), and (iii) of this subsection in their entirety. Only the maximum per diem rates, the definitions of lodging, meals, and incidental expenses, and the regulatory coverage dealing with special or unusual situations are incorporated herein.

(5) An advance agreement (see 31.109) with respect to compliance with paragraphs (a)(2) and (a)(3) of this subsection may be useful and desirable.

(6) The maximum per diem rates referenced in paragraph (a)(2) of this subsection generally would not constitute a reasonable daily charge—

- (i) When no lodging costs are incurred; and/or
- (ii) On partial travel days (*e.g.*, day of departure and return).

Appropriate downward adjustments from the maximum per diem rates would normally be required under these circumstances. While these adjustments need not be calculated in accordance with the Federal Travel Regulation or Joint Travel Regulations, they must result in a reasonable charge.

(7) Costs shall be allowable only if the following information is documented—

- (i) Date and place (city, town, or other similar designation) of the expenses;
- (ii) Purpose of the trip; and
- (iii) Name of person on trip and that person's title or relationship to the contractor.

(b) Travel costs incurred in the normal course of overall administration of the business are allowable and shall be treated as indirect costs.

(c) Travel costs directly attributable to specific contract performance are allowable and may be charged to the contract under 31.202.

(d) Airfare costs in excess of the lowest customary standard, coach, or equivalent airfare offered during normal business hours are unallowable except when such accommodations require circuitous routing, require travel during unreasonable hours, excessively prolong travel, result in increased cost that would offset transportation savings, are not reasonably adequate for the physical or medical needs of the traveler, or are not reasonably available to meet mission requirements. However, in order for airfare costs in excess of the above standard airfare to be allowable, the applicable condition(s) set forth above must be documented and justified.

(e)(1) "Cost of travel by contractor-owned, -leased, or -chartered aircraft," as used in this paragraph, includes the cost of lease, charter, operation (including personnel), maintenance, depreciation, insurance, and other related costs.

(2) The costs of travel by contractor-owned, -leased, or -chartered aircraft are limited to the standard airfare described in paragraph (d) of this subsection for the flight destination unless travel by such aircraft is specifically required by contract specification, term, or condition, or a higher amount is approved by the contracting officer. A higher amount may be agreed to when one or more of the circumstances for justifying higher than standard airfare listed in paragraph (d) of this subsection are applicable, or when an advance agreement under paragraph (e)(3) of this subsection has been executed. In all cases, travel by contractor-owned, -leased, or -chartered aircraft must be fully documented and justified. For each contractor-owned, -leased, or -chartered aircraft used for any business purpose which is charged or allocated, directly or indirectly, to a Government contract, the contractor must maintain and make available manifest/logs for all flights on such company aircraft. As a minimum, the manifest/log shall indicate—

- (i) Date, time, and points of departure;
- (ii) Destination, date, and time of arrival;
- (iii) Name of each passenger and relationship to the contractor;
- (iv) Authorization for trip; and
- (v) Purpose of trip.

(3) Where an advance agreement is proposed (see 31.109), consideration may be given to the following:

- (i) Whether scheduled commercial airlines or other suitable, less costly, travel facilities are available at reasonable times, with reasonable frequency, and serve the required destinations conveniently.
- (ii) Whether increased flexibility in scheduling results in time savings and more effective use of personnel that would outweigh additional travel costs.

(f) Costs of contractor-owned or -leased automobiles, as used in this paragraph, include the costs of lease, operation (including personnel), maintenance, depreciation, insurance, etc. These costs are allowable, if reasonable, to the extent that the automobiles are used for company business. That portion of the cost of company-furnished automobiles that relates to personal use by employees (including transportation to and from work) is compensation for personal services and is unallowable as stated in 31.205-6(m)(2).

31.205-47 Costs related to legal and other proceedings.

(a) *Definitions.* As used in this subpart—

"Costs" include, but are not limited to, administrative and clerical expenses; the costs of legal services, whether performed by in-house or private counsel; the costs of the services of accountants, consultants, or others retained by the contractor to assist it; costs of employees, officers, and directors; and any similar costs incurred before, during, and after commencement of a judicial or administrative proceeding which bears a direct relationship to the proceeding.

“Fraud,” as used in this subsection, means—

(1) Acts of fraud or corruption or attempts to defraud the Government or to corrupt its agents;

(2) Acts which constitute a cause for debarment or suspension under 9.406-2(a) and 9.407-2(a); and

(3) Acts which violate the False Claims Act, 31 U.S.C., sections 3729-3731, or the Anti-Kickback Act, 41 U.S.C., sections 51 and 54.

“Penalty,” does not include restitution, reimbursement, or compensatory damages.

“Proceeding,” includes an investigation.

(b) Costs incurred in connection with any proceeding brought by a Federal, State, local, or foreign government for violation of, or a failure to comply with, law or regulation by the contractor (including its agents or employees), or costs incurred in connection with any proceeding brought by a third party in the name of the United States under the False Claims Act, 31 U.S.C. 3730, are unallowable if the result is—

(1) In a criminal proceeding, a conviction;

(2) In a civil or administrative proceeding, either a finding of contractor liability where the proceeding involves an allegation of fraud or similar misconduct or imposition of a monetary penalty where the proceeding does not involve an allegation of fraud or similar misconduct;

(3) A final decision by an appropriate official of an executive agency to—

(i) Debar or suspend the contractor;

(ii) Rescind or void a contract; or

(iii) Terminate a contract for default by reason of a violation or failure to comply with a law or regulation.

(4) Disposition of the matter by consent or compromise if the proceeding could have led to any of the outcomes listed in paragraphs (b)(1) through (3) of this subsection (but see paragraphs (c) and (d) of this subsection); or

(5) Not covered by paragraphs (b)(1) through (4) of this subsection, but where the underlying alleged contractor misconduct was the same as that which led to a different proceeding whose costs are unallowable by reason of paragraphs (b)(1) through (4) of this subsection.

(c)(1) To the extent they are not otherwise unallowable, costs incurred in connection with any proceeding under paragraph (b) of this subsection commenced by the United States that is resolved by consent or compromise pursuant to an agreement entered into between the contractor and the United States, and which are unallowable solely because of paragraph (b) of this subsection, may be allowed to the extent specifically provided in such agreement

(2) In the event of a settlement of any proceeding brought by a third party under the False Claims Act in which the United States did not intervene, reasonable costs incurred by the contractor in connection with such a proceeding, that

are not otherwise unallowable by regulation or by separate agreement with the United States, may be allowed if the contracting officer, in consultation with his or her legal advisor, determines that there was very little likelihood that the third party would have been successful on the merits.

(d) To the extent that they are not otherwise unallowable, costs incurred in connection with any proceeding under paragraph (b) of this subsection commenced by a State, local, or foreign government may be allowable when the contracting officer (or other official specified in agency procedures) determines, that the costs were incurred either:

(1) As a direct result of a specific term or condition of a Federal contract; or

(2) As a result of compliance with specific written direction of the cognizant contracting officer.

(e) Costs incurred in connection with proceedings described in paragraph (b) of this subsection, but which are not made unallowable by that paragraph, may be allowable to the extent that:

(1) The costs are reasonable in relation to the activities required to deal with the proceeding and the underlying cause of action;

(2) The costs are not otherwise recovered from the Federal Government or a third party, either directly as a result of the proceeding or otherwise; and

(3) The percentage of costs allowed does not exceed the percentage determined to be appropriate considering the complexity of procurement litigation, generally accepted principles governing the award of legal fees in civil actions involving the United States as a party, and such other factors as may be appropriate. Such percentage shall not exceed 80 percent. Agreements reached under paragraph (c) of this subsection shall be subject to this limitation. If, however, an agreement described in paragraph (c)(1) of this subsection explicitly states the amount of otherwise allowable incurred legal fees and limits the allowable recovery to 80 percent or less of the stated legal fees, no additional limitation need be applied. The amount of reimbursement allowed for legal costs in connection with any proceeding described in paragraph (c)(2) of this subsection shall be determined by the cognizant contracting officer, but shall not exceed 80 percent of otherwise allowable legal costs incurred.

(f) Costs not covered elsewhere in this subsection are unallowable if incurred in connection with:

(1) Defense against Federal Government claims or appeals or the prosecution of claims or appeals against the Federal Government (see 2.101).

(2) Organization, reorganization, (including mergers and acquisitions) or resisting mergers and acquisitions (see also 31.205-27).

(3) Defense of antitrust suits.

(4) Defense of suits brought by employees or ex-employees of the contractor under section 2 of the Major Fraud Act of 1988 where the contractor was found liable or settled.

(5) Costs of legal, accounting, and consultant services and directly associated costs incurred in connection with the defense or prosecution of lawsuits or appeals between contractors arising from either—

(i) An agreement or contract concerning a teaming arrangement, a joint venture, or similar arrangement of shared interest; or

(ii) Dual sourcing, coproduction, or similar programs, are unallowable, except when—

(A) Incurred as a result of compliance with specific terms and conditions of the contract or written instructions from the contracting officer, or

(B) When agreed to in writing by the contracting officer.

(6) Patent infringement litigation, unless otherwise provided for in the contract.

(7) Representation of, or assistance to, individuals, groups, or legal entities which the contractor is not legally bound to provide, arising from an action where the participant was convicted of violation of a law or regulation or was found liable in a civil or administrative proceeding.

(8) Protests of Federal Government solicitations or contract awards, or the defense against protests of such solicitations or contract awards, unless the costs of defending against a protest are incurred pursuant to a written request from the cognizant contracting officer.

(g) Costs which may be unallowable under 31.205-47, including directly associated costs, shall be segregated and accounted for by the contractor separately. During the pendency of any proceeding covered by paragraph (b) and paragraphs (f)(4) and (f)(7) of this subsection, the contracting officer shall generally withhold payment of such costs. However, if in the best interests of the Government, the contracting officer may provide for conditional payment upon provision of adequate security, or other adequate assurance, and agreement by the contractor to repay all unallowable costs, plus interest, if the costs are subsequently determined to be unallowable.

31.205-48 Deferred research and development costs.

“Research and development,” as used in this section, means the type of technical effort described in 31.205-18 but sponsored by a grant or required in the performance of a contract. When costs are incurred in excess of either the price of a contract or amount of a grant for research and development effort, the excess is unallowable under any other Government contract.

31.205-49 Goodwill.

Goodwill, an unidentifiable intangible asset, originates under the purchase method of accounting for a business combination when the price paid by the acquiring company exceeds the sum of the identifiable individual assets acquired less liabilities assumed, based upon their fair values. The excess is commonly referred to as goodwill. Goodwill may arise from the acquisition of a company as a whole or a portion thereof. Any costs for amortization, expensing, write-off, or write-down of goodwill (however represented) are unallowable.

31.205-50 [Reserved]

31.205-51 Costs of alcoholic beverages.

Costs of alcoholic beverages are unallowable.

31.205-52 Asset valuations resulting from business combinations.

(a) For tangible capital assets, when the purchase method of accounting for a business combination is used, whether or not the contract or subcontract is subject to CAS, the allowable depreciation and cost of money shall be based on the capitalized asset values measured and assigned in accordance with 48 CFR 9904.404-50(d), if allocable, reasonable, and not otherwise unallowable.

(b) For intangible capital assets, when the purchase method of accounting for a business combination is used, allowable amortization and cost of money shall be limited to the total of the amounts that would have been allowed had the combination not taken place.

Subpart 31.3—Contracts with Educational Institutions**31.301 Purpose.**

This subpart provides the principles for determining the cost of research and development, training, and other work performed by educational institutions under contracts with the Government.

31.302 General.

Office of Management and Budget (OMB) Circular No. A-21, Cost Principles for Educational Institutions, revised, provides principles for determining the costs applicable to

research and development, training, and other work performed by educational institutions under contracts with the Government.

31.303 Requirements.

(a) Contracts that refer to this Subpart 31.3 for determining allowable costs under contracts with educational institutions shall be deemed to refer to, and shall have the allowability of costs determined by the contracting officer in accordance with, the revision of OMB Circular A-21 in effect on the date of the contract.

(b) Agencies are not expected to place additional restrictions on individual items of cost.

Subpart 31.4—[Reserved]

Subpart 31.5—[Reserved]

Subpart 31.6—Contracts with State, Local, and Federally Recognized Indian Tribal Governments

31.601 Purpose.

This subpart provides the principles for determining allowable cost of contracts and subcontracts with State, local, and federally recognized Indian tribal governments.

31.602 General.

Office of Management and Budget (OMB) Circular No. A-87, Cost Principles for State and Local Governments, Revised, sets forth the principles for determining the allowable costs of contracts and subcontracts with State, local, and federally recognized Indian tribal governments. These principles are for cost determination and are not intended to identify the circumstances or dictate the extent of Federal and State or local participation in financing a particular contract.

31.603 Requirements.

(a) Contracts that refer to this Subpart 31.6 for determining allowable costs under contracts with State, local and Indian tribal governments shall be deemed to refer to, and shall have the allowability of costs determined by the contracting officer in accordance with, the revision of OMB Circular A-87 which is in effect on the date of the contract.

(b) Agencies are not expected to place additional restrictions on individual items of cost. However, the following costs are unallowable:

(1) Costs of entertainment, including amusement, diversion, and social activities, and any costs directly associated with such costs (such as tickets to shows or sports events, meals, lodging, rentals, transportation, and gratuities).

(2) Costs incurred to influence (directly or indirectly) legislative action on any matter pending before Congress, a State legislature, or a legislative body of a political subdivision of a State.

(3) Costs incurred in defense of any civil or criminal fraud proceeding or similar proceeding (including filing of any false certification) brought by the United States where the contractor is found liable or has pleaded nolo contendere to a charge of fraud or similar proceeding (including filing of a false certification).

(4) Payments of fines and penalties resulting from violations of, or failure to comply with, Federal, state, local, or foreign laws and regulations, except when incurred as a result of compliance with specific terms and conditions of

the contract or specific written instructions from the contracting officer authorizing in advance such payments in accordance with applicable regulations in the FAR or an executive agency supplement to the FAR.

(5) Costs of any membership in any social, dining, or country club or organization.

(6) Costs of alcoholic beverages.

(7) Contributions or donations, regardless of the recipient.

(8) Costs of advertising designed to promote the contractor or its products.

(9) Costs of promotional items and memorabilia, including models, gifts, and souvenirs.

(10) Costs for travel by commercial aircraft which exceed the amount of the standard commercial fare.

(11) Costs incurred in making any payment (commonly known as a “golden parachute payment”) which is—

(i) In an amount in excess of the normal severance pay paid by the contractor to an employee upon termination of employment; and

(ii) Is paid to the employee contingent upon, and following, a change in management control over, or ownership of, the contractor or a substantial portion of the contractor's assets.

(12) Costs of commercial insurance that protects against the costs of the contractor for correction of the contractor's own defects in materials or workmanship.

(13) Costs of severance pay paid by the contractor to foreign nationals employed by the contractor under a service contract performed outside the United States, to the extent that the amount of the severance pay paid in any case exceeds the amount paid in the industry involved under the customary or prevailing practice for firms in that industry providing similar services in the United States, as determined by regulations in the FAR or in an executive agency supplement to the FAR.

(14) Costs of severance pay paid by the contractor to a foreign national employed by the contractor under a service contract performed in a foreign country if the termination of the employment of the foreign national is the result of the closing of, or curtailment of activities at, a United States facility in that country at the request of the government of that country.

(15) Costs incurred by a contractor in connection with any criminal, civil, or administrative proceedings commenced by the United States or a State, to the extent provided in 10 U.S.C. 2324(k) or 41 U.S.C. 256(k).

Subpart 31.7—Contracts with Nonprofit Organizations

31.701 Purpose.

This subpart provides the principles for determining the cost applicable to work performed by nonprofit organizations under contracts with the Government. A nonprofit organization, for purpose of identification, is defined as a business entity organized and operated exclusively for charitable, scientific, or educational purposes, of which no part of the net earnings inure to the benefit of any private shareholder or individual, of which no substantial part of the activities is carrying on propaganda or otherwise attempting to influence legislation or participating in any political campaign on behalf of any candidate for public office, and which are exempt from Federal income taxation under section 501 of the Internal Revenue Code.

31.702 General.

Office of Management and Budget (OMB) Circular No. A-122, Cost Principles for Nonprofit Organizations, sets forth principles for determining the costs applicable to work performed by nonprofit organizations under contracts (also applies to grants and other agreements) with the Government.

31.703 Requirements.

(a) Contracts which refer to this Subpart 31.7 for determining allowable costs shall be deemed to refer to, and shall have the allowability of costs determined by the contracting officer in accordance with, the revision of OMB Circular A-122 in effect on the date of the contract.

(b) Agencies are not expected to place additional restrictions on individual items of cost. However, the costs cited in 31.603(b) are unallowable.

32.000 Scope of part.

This part prescribes policies and procedures for contract financing and other payment matters. This part addresses—

- (a) Payment methods, including partial payments and progress payments based on percentage or stage of completion;
- (b) Loan guarantees, advance payments, and progress payments based on costs;
- (c) Administration of debts to the Government arising out of contracts;
- (d) Contract funding, including the use of contract clauses limiting costs or funds;
- (e) Assignment of claims to aid in private financing;
- (f) Selected payment clauses;
- (g) Financing of purchases of commercial items;
- (h) Performance-based payments; and
- (i) Electronic funds transfer payments.

32.001 Definitions.

As used in this part—

“Commercial interim payment” means any payment that is not a commercial advance payment or a delivery payment. These payments are contract financing payments for prompt payment purposes. A commercial interim payment is given to the contractor after some work has been done, whereas a commercial advance payment is given to the contractor when no work has been done.

“Contract action” means an action resulting in a contract, as defined in Subpart 2.1, including actions for additional supplies or services outside the existing contract scope, but not including actions that are within the scope and under the terms of the existing contract, such as contract modifications issued pursuant to the Changes clause, or funding and other administrative changes.

“Contract financing payment” means an authorized Government disbursement of monies to a contractor prior to acceptance of supplies or services by the Government.

- (1) Contract financing payments include—
 - (i) Advance payments;
 - (ii) Performance-based payments;
 - (iii) Commercial advance and interim payments;
 - (iv) Progress payments based on cost under the clause at 52.232-16, Progress Payments;
 - (v) Progress payments based on a percentage or stage of completion (see 32.102(e)), except those made under the clause at 52.232-5, Payments Under Fixed-Price Construction Contracts, or the clause at 52.232-10, Payments Under Fixed-Price Architect-Engineer Contracts; and
 - (vi) Interim payments under a cost reimbursement contract, except for a cost reimbursement contract for services when Alternate I of the clause at 52.232-25, Prompt Payment, is used.

- (2) Contract financing payments do not include—

- (i) Invoice payments;
- (ii) Payments for partial deliveries; or
- (iii) Lease and rental payments.

“Customary contract financing” means that financing deemed by an agency to be available for routine use by contracting officers. Most customary contract financing arrangements should be usable by contracting officers without specific reviews or approvals by higher management.

“Delivery payment” means a payment for accepted supplies or services, including payments for accepted partial deliveries. Commercial financing payments are liquidated by deduction from these payments. Delivery payments are invoice payments for prompt payment purposes.

“Designated billing office” means the office or person (governmental or nongovernmental) designated in the contract where the contractor first submits invoices and contract financing requests. The contract might designate different offices to receive invoices and contract financing requests. The designated billing office might be—

- (1) The Government disbursing office;
- (2) The contract administration office;
- (3) The office accepting the supplies delivered or services performed by the contractor;
- (4) The contract audit office; or
- (5) A nongovernmental agent.

“Designated payment office” means the office designated in the contract to make invoice payments or contract financing payments. Normally, this will be the Government disbursing office.

“Due date” means the date on which payment should be made.

“Invoice payment” means a Government disbursement of monies to a contractor under a contract or other authorization for supplies or services accepted by the Government.

- (1) Invoice payments include—
 - (i) Payments for partial deliveries that have been accepted by the Government;
 - (ii) Final cost or fee payments where amounts owed have been settled between the Government and the contractor;
 - (iii) For purposes of Subpart 32.9 only, all payments made under the clause at 52.232-5, Payments Under Fixed-Price Construction Contracts, and the clause at 52.232-10, Payments Under Fixed-Price Architect-Engineer Contracts; and
 - (iv) Interim payments under a cost-reimbursement contract for services when Alternate I of the clause at 52.232-25, Prompt Payment, is used.
- (2) Invoice payments do not include contract financing payments.

“Unusual contract financing” means any financing not deemed customary contract financing by the agency. Unusual contract financing is financing that is legal and

proper under applicable laws, but that the agency has not authorized contracting officers to use without specific reviews or approvals by higher management.

32.002 Applicability of subparts.

(a) The following sections and subparts of this part are applicable to all purchases subject to Part 32:

- (1) Sections 32.000 through 32.005.
- (2) Subpart 32.3, Loan Guarantees for Defense Production.
- (3) Subpart 32.6, Contract Debts.
- (4) Subpart 32.7, Contract Funding.
- (5) Subpart 32.8, Assignment of Claims.
- (6) Subpart 32.9, Prompt Payment.
- (7) Subpart 32.11, Electronic Funds Transfer.

(b) Subpart 32.2, Commercial Item Purchase Financing, is applicable only to purchases of commercial items under authority of Part 12.

(c) The following subparts of this part are applicable to all purchases made under any authority other than Part 12:

- (1) Subpart 32.1, Non-Commercial Item Purchase Financing.
- (2) Subpart 32.4, Advance Payments For Non-Commercial Items.
- (3) Subpart 32.5, Progress Payments Based on Costs.
- (4) Subpart 32.10, Performance-Based Payments.

32.003 Simplified acquisition procedures financing.

Unless approved by Director, MMS, contract financing shall not be provided for purchases made under the authority of Part 13.

32.004 Contract performance in foreign countries.

The enforceability of contract provisions for security of Government financing in a foreign jurisdiction is dependent upon local law and procedure. Prior to providing contract financing where foreign jurisdictions may become involved, the contracting officer shall ensure the Government's security is enforceable. This may require the provision of additional or different security than that normally provided for in the standard contract clauses.

32.005 Consideration for contract financing.

(a) *Requirement.* When a contract financing clause is included at the inception of a contract, there shall be no sep-

arate consideration for the contract financing clause. The value of the contract financing to the contractor is expected to be reflected in either (1) a bid or negotiated price that will be lower than such price would have been in the absence of the contract financing, or (2) contract terms and conditions, other than price, that are more beneficial to the Government than they would have been in the absence of the contract financing. Adequate new consideration is required for changes to, or the addition of, contract financing after award.

(b) *Amount of new consideration.* The contractor may provide new consideration by monetary or nonmonetary means, provided the value is adequate. The fair and reasonable consideration should approximate the amount by which the price would have been less had the contract financing terms been contained in the initial contract. In the absence of definite information on this point, the contracting officer should apply the following criteria in evaluating whether the proposed new consideration is adequate:

- (1) The value to the contractor of the anticipated amount and duration of the contract financing at the imputed financial costs of the equivalent working capital.
- (2) The estimated profit rate to be earned through contract performance.

(c) *Interest.* Except as provided in Subpart 32.4, Advance Payments for Non-Commercial Items, the contract shall not provide for any other type of specific charges, such as interest, for contract financing.

Subpart 32.1—[Reserved]

Subpart 32.2—[Reserved]

Subpart 32.3—[Reserved]

Subpart 32.4—Advance Payments for Non-Commercial Items

32.400 Scope of subpart.

This subpart provides policies and procedures for advance payments on prime contracts and subcontracts. It does not include policies and procedures for advance payments for the types of transactions listed in 32.404. This subpart does not apply to commercial advance payments, which are subject to Subpart 32.2.

32.401 Statutory authority.

MMS may authorize advance payments in negotiated and sealed bid contracts if the action is appropriate under—

(a) Pub. L. 85-804 (50 U.S.C. 1431-1435) and Executive Order 10789, November 14, 1958 (3 CFR 1958 Supp. pp. 72-74) (see Part 50 of the Materials Management Acquisition Regulation (MMAR) for other applications of this statute).

32.402 General.

(a) A limitation on authority to grant advance payments under Pub. L. 85-804 (50 U.S.C. 1431-1435) is described at MMAR 50.203(b)(4).

(b) Advance payments may be provided on any type of contract; however, the agency shall authorize advance payments sparingly. Except for the contracts described in 32.403(a) and (b), advance payment is the least preferred method of contract financing (see 32.106) and generally they should not be authorized if other types of financing are reasonably available to the contractor in adequate amounts. Loans and credit at excessive interest rates or other exorbitant charges, or loans from other Government agencies, are not considered reasonably available financing.

(c) If statutory requirements and standards for advance payment determinations are met, the contracting officer shall generally recommend that the agency authorize advance payments.

(1) The statutory requirements are that—

(i) The contractor gives adequate security;

(ii) The advance payments will not exceed the unpaid contract price (see 32.410(b), paragraph (a)(2)); and

(iii) The agency head or designee determines, based on written findings, that the advance payment—

(A) Is in the public interest (under 32.401(a) or (b)); or

(B) Facilitates the national defense (under 32.401(c)).

(2) The standards for advance payment determinations are that—

(i) The advance payments will not exceed the contractor's interim cash needs based on—

(A) Analysis of the cash flow required for contract performance;

(B) Consideration of the reimbursement or other payment cycle; and

(C) To the extent possible, employment of the contractor's own working capital;

(ii) The advance payments are necessary to supplement other funds or credit available to a contractor;

(iii) The recipient is otherwise qualified as a responsible contractor;

(iv) The Government will benefit from performance prospects or there are other practical advantages; and

(v) The case fits one or more of the categories described in 32.403.

(d) If necessary, the agency may authorize advance payments in addition to progress or partial payments on the same contract (see 32.501-1(c)).

(e) Each agency that provides advance payments shall—

(1) Place the responsibility for making findings and determinations, and for approval of contract terms concerning advance payments (see 32.410), at an organizational level high enough to ensure uniform application of this subpart (see the limitation at 50.201(b) which also applies to advance payments authorized under Pub. L. 85-804 (50 U.S.C. 1431-1435)); and

(2) Establish procedures for coordination, before advance payment authorization, with the activity that provides contract financing support.

(f) If the contract provides for advance payments under Pub. L. 85-804, the contracting officer shall ensure conformance with the requirements of MMAR 50.307.

32.403 Applicability.

Advance payments may be considered useful and appropriate for the following:

(a) Contracts for experimental, research, or development work with nonprofit educational or research institutions.

(b) Contracts solely for the management and operation of Government-owned plants.

(c) Contracts for acquisition at cost of facilities for Government ownership.

(d) Contracts of such a highly classified nature that the agency considers it undesirable for national security to permit assignment of claims under the contract.

(e) Contracts entered into with financially weak contractors whose technical ability is considered essential to the agency. In these cases, the agency shall closely monitor the contractor's performance and financial controls to reduce the Government's financial risk.

(f) Contracts for which a loan by a private financial institution is not practicable, whether or not a loan guarantee under this part is issued; for example, if—

(1) Financing institutions will not assume a reasonable portion of the risk under a guaranteed loan;

(2) Loans with reasonable interest rates or finance charges are not available to the contractor; or

(3) Contracts involve operations so remote from a financial institution that the institution could not be expected to suitably administer a guaranteed loan.

(g) Contracts with small business concerns, under which circumstances that make advance payments appropriate often occur (but see 32.104(b)).

(h) Contracts under which exceptional circumstances make advance payments the most advantageous contract financing method for both the Government and the contractor.

32.404 Exclusions.

(a) This subpart does not apply to advance payments authorized by law for—

(1) Rent;

(2) Tuition;

(3) Insurance premiums;

(4) Expenses of investigations in foreign countries;

(5) Extension or connection of public utilities for Government buildings or installations;

(6) Subscriptions to publications;

(7) Purchases of supplies or services in foreign countries, if—

(i) The purchase price does not exceed \$10,000 (or equivalent amount of the applicable foreign currency); and

(ii) The advance payment is required by the laws or government regulations of the foreign country concerned;

(8) Enforcement of the customs or narcotics laws; or

(9) Other types of transactions excluded by agency procedures under statutory authority.

(b) Agencies may issue their own instructions to deal with advance payment items in paragraph (a) of this section authorized under statutes relevant to their agencies.

32.405 Applying Pub. L. 85-804 to advance payments under sealed bid contracts.

(a) Actions that designated agencies may take to facilitate the national defense without regard to other provisions of law relating to contracts, as explained in 50.101(a), also include making advance payments. These advance payments may be made at or after award of sealed bid contracts, as well as negotiated contracts.

(b) Bidders may request advance payments before or after award, even if the invitation for bids does not contain an advance payment provision. However, the contracting officer shall reject any bid requiring that advance payments be provided as a basis for acceptance.

(c) When advance payments are requested, the agency may—

(1) Enter into the contract and provide for advance payments conforming to this Part 32;

(2) Enter into the contract without providing for advance payments if the contractor does not actually need advance payments; or

(3) Deny award of the contract if the request for advance payments has been disapproved under 32.409-2 and funds adequate for performance are not otherwise available to the offeror.

32.406 Letters of credit.

(a) The Department of the Treasury (Treasury) prescribes regulations and instructions covering the use of letters of credit for advance payments under contracts. See Treasury Department Circular 1075 (31 CFR part 205), and the implementing instructions in the Treasury Financial Manual, available in offices providing financial advice and assistance.

(b) If agencies provide advance payments to contractors, use of the following methods is required unless the agency has obtained a waiver from the Treasury Department:

(1) By letter of credit if the contracting agency expects to have a continuing relationship with the contractor for a year or more, with advances totaling at least \$120,000 a year.

(2) By direct Treasury check if the circumstances do not meet the criteria in paragraph (b)(1) of this section.

(c) If the agency has entered into multiple contracts (or a combination of contract(s) and assistance agreement(s)) involving eligibility of a contractor for more than one letter of credit, the agency shall follow arrangements made under Treasury procedures for—

(1) Consolidating funding to the same contractor under one letter of credit or

(2) Replacing multiple letters of credit with a single letter of credit.

(d) The letter of credit enables the contractor to withdraw Government funds in amounts needed to cover its own disbursements of cash for contract performance. Whenever feasible, the agency shall, under the direction and approval of the Department of the Treasury, use a letter of credit method that requires the contractor not to withdraw the Government funds until the contractor's checks have been—

(1) Forwarded to the payees (delay of drawdown technique), or

(2) Presented to the contractor's bank for payment (checks paid technique) (see 31 CFR 205.3 and 205.4(d)).

(e) The Treasury regulations provide for terminating the advance financing arrangement if the contractor is unwilling or unable to minimize the elapsed time between receipt of the advance and disbursement of the funds. In such cases, if reversion to normal payment methods is not feasible, the Treasury regulation provides for use of a working capital method of advance; *i.e.*, for limiting advances to—

(1) Only the estimated disbursements for a given initial period and

(2) Subsequently, for only actual cash disbursements (31 CFR 205.3(k) and 205.7).

32.407 Interest.

(a) Except as provided in paragraph (d) of this section, the contracting officer shall charge interest on the daily unliquidated balance of all advance payments at the higher of—

(1) The published prime rate of the financial institution (depository) in which the special account (see 32.409-3) is established; or

(2) The rate established by the Secretary of the Treasury under 50 U.S.C. App. 1215(b)(2).

(b) The interest rate for advance payments shall be adjusted for changes in the prime rate of the depository and the semiannual determination by the Secretary of the Treasury under 50 U.S.C. App. 1215(b)(2). The contracting officer shall obtain data from the depository on changes in the interest rate during the month. Interest shall be computed at the end of each month on the daily unliquidated balance of advance payments at the applicable daily interest rate.

(c) Interest shall be required on contracts that are for acquisition, at cost, of facilities for Government ownership, if the contracts are awarded in combination with, or in contemplation of, supply contracts or subcontracts.

(d) The agency head or designee may authorize advance payments without interest under the following types of contracts, if in the Government's interest:

(1) Contracts for experimental, research, or development work (including studies, surveys, and demonstrations in socio-economic areas) with nonprofit education or research institutions.

(2) Contracts solely for the management and operation of Government-owned plants.

(3) Cost-reimbursement contracts with governments, including State or local governments, or their instrumentalities.

(4) Other classes of contracts, or unusual cases, for which the exclusion of interest on advances is specifically authorized by agency procedures.

(e) If a contract provides for interest-free advance payments, the contracting officer may require the contractor to charge interest on advances or downpayments to subcontractors and credit the Government for the proceeds from the interest charges. Interest rates shall be determined as described in paragraphs (a) and (b) of this section. The contracting officer need not require the contractor to charge interest on an advance to a subcontractor that is an institution of the kind described in paragraph (d)(1) of this section.

(f) The contracting officer shall not allow interest charges, required by this 32.407, as reimbursable costs under

cost-reimbursement contracts, whether the interest charge was incurred by the prime contractor or a subcontractor.

32.408 Application for advance payments.

(a) A contractor may apply for advance payments before or after the award of a contract.

(b) The contractor shall submit any advance payment request in writing to the contracting officer and provide the following information:

(1) A reference to the contract if the request concerns an existing contract, or a reference to the solicitation if the request concerns a proposed contract.

(2) A cash flow forecast showing estimated disbursements and receipts for the period of contract performance. If the application pertains to a type of contract described in 32.403(a) or (b), the contractor shall limit the forecast to the contract to be financed by advance payments.

(3) The proposed total amount of advance payments.

(4) The name and address of the financial institution at which the contractor expects to establish a special account as depository for the advance payments. If advance payments in the form of a letter of credit are anticipated, the contractor shall identify the specific account at the financial institution to be used. This paragraph (b)(4) is not applicable if an alternate method is used under agency procedures.

(5) A description of the contractor's efforts to obtain unguaranteed private financing or a V-loan (see 32.301) under eligible contracts. This requirement is not applicable to the contract types described in 32.403(a) or (b).

(6) Other information appropriate to an understanding of (i) the contractor's financial condition and need, (ii) the contractor's ability to perform the contract without loss to the Government, and (iii) financial safeguards needed to protect the Government's interest. Ordinarily, if the contract is a type described in 32.403(a) or (b), the contractor may limit the response to this paragraph (b)(6) to information on the contractor's reliability, technical ability, and accounting system and controls.

32.409 Contracting officer action.

After analysis of the contractor's application and any appropriate investigation, the contracting officer shall recommend approval or disapproval and transmit the request and recommendation to the approving authority designated under 32.402(e).

32.409-1 Recommendation for approval.

If recommending approval, the contracting officer shall transmit the following, under agency procedures, to the approving authority:

(a) Contract data, including—

(1) Identification and date of the award;

(2) Citation of the appropriation;

- (3) Type and dollar amount of the contract;
- (4) Items to be supplied, schedule of deliveries or performance, and status of any deliveries or performance;
- (5) The contract fee or profit contemplated; and
- (6) A copy of the contract, if available.
- (b) The contractor's request and supporting information.
- (c) A report on the contractor's past performance, responsibility, technical ability, and plant capacity.
- (d) Comments on—
 - (1) The contractor's need for advance payments; and
 - (2) Potential Government benefits from the contract performance.
- (e) Proposed advance payment contract terms, including proposed security requirements.
- (f) The findings, determination, and authorization (see 32.410).
- (g) The recommendation for approval of the advance payment request.
- (h) Justification of any proposal for waiver of interest charges (see 32.407).

32.409-2 Recommendation for disapproval

If recommending disapproval, the contracting officer shall, under agency procedures, transmit—

- (a) The items prescribed in 32.409-1(a), (b), and (c); and
- (b) The recommendation for disapproval and the reasons.

32.409-3 Security, supervision, and covenants.

(a) If advance payments are approved, the contracting officer shall enter into an agreement with the contractor covering special accounts and suitable covenants protecting the Government's interest (see 32.411). This requirement generally applies under all statutory authorities, but modified requirements applicable to certain specific cases are prescribed in paragraphs (e) through (g) of this section.

(b) The agency shall—

- (1) Ensure that the amount of advance payments does not exceed the contractor's financial needs, and
- (2) Closely supervise the contractor's withdrawal of funds from special accounts in which the advance payments are deposited.

(c) In the terms of the agreement, the contracting officer should provide for a paramount lien in favor of the Government. This lien may supplement or replace other security requirements. The lien should cover—

- (1) Supplies being acquired;
- (2) Any credit balance in the special account in which advance payments are deposited; and
- (3) All property that the contractor acquires for performing the contract, except to the extent to which the Government otherwise has valid title to the property.

(d) Security requirements vary to fit the circumstances of different cases. Minimum security requirements are covered

by the clauses prescribed in the contract. The contracting officer may supplement these as necessary in each case for protection of the Government's interest. Examples of additional security terms are—

- (1) Personal or corporate endorsements or guarantees;
- (2) Pledges of collateral;
- (3) Subordination or standby of other indebtedness;
- (4) Controls or limitations on profit distributions, salaries, bonuses or commissions, rentals and royalties, capital expenditures, creation of liens, retirement of stock or debt, and creation of additional obligations; and
- (5) Advance payment bonds (rarely required).

(e) In an advance payment agreement with an instrumentality of the Government, a State, a local government, or an agency or instrumentality of a State or local government, the contracting officer may omit the requirement for deposit of the advances in a special account, if the official approving the advance determines that other adequate security exists to protect the Government's interest.

(f) The requirements of this 32.409-3 do not apply when using letters of credit if an agency's procedures provide for—

(1) The use under a cost-reimbursement contract of Federal funds deposited in the contractor's account at a financial institution (without the contractor acquiring title to the funds); and

(2) The security of such deposit of public moneys in accordance with governing regulations of the Treasury Department.

(g) If a separate special account is not required; *e.g.*, advance payment by a letter of credit, an agency may require a special account for an individual case, or classes of cases, if the circumstances warrant.

32.410 Findings, determination, and authorization.

(a) Each determination concerning advance payments shall be supported by written findings (see 32.402(c)(1)(iii)).

(b) The following is an example of the format and text of findings, determination, and authorization with alternative words, phrases, and paragraphs to be selected to conform to the circumstances involved:

FINDINGS, DETERMINATION, AND AUTHORIZATION FOR ADVANCE PAYMENTS

FINDINGS

(a) The undersigned hereby finds that:

(1) The _____ [*Insert the name of the contracting activity*] and _____ [*Insert the name of the contractor*] (have entered) (propose to enter) into (negotiated) (sealed bid) Contract No. _____, dated _____. [*Summarize the specific facts and significant circumstances concerning the contract and the contractor, that,*

together with the other findings, will clearly support the determination below.]

(2) Advance payments (in an amount not to exceed \$_____ at any time outstanding) (in an aggregate amount not exceeding \$_____, less the aggregate amounts repaid, or withdrawn by the Government) are required by the Contractor to perform under the contract. The amount does not exceed the unpaid contract price or the estimated interim cash needs arising during the reimbursement cycle.

(3) The advance payments are necessary for prompt, efficient contract performance that will benefit the Government.

(4) The proposed advance payment clause provides for security for the protection of the Government. The clause requires that all payments will be deposited in a special account at the Contractor’s financial institution and that the Government will have a paramount lien on (i) the credit balance in the special account, (ii) any supplies contracted for, and (iii) any material or other property acquired for performance of the contract. [Insert the following, if applicable: (The Contractor’s financial management system provides for effective control over and accountability for all Federal funds under governing regulations of the Treasury Department.) (An advance payment bond is required.)] This security is considered adequate.

(5) Advance payments are the only adequate means of financing available to the Contractor, and the amount designated in (2) of this section is based, to the extent possible, on the use of the Contractor’s own working capital in performing the contract. [Insert paragraph (6), (7), or (8), as applicable.]

(6) The Contractor is a nonprofit (educational) (and) (research) institution, and the contract is for (experimental) (, (research and development) work.

(7) The contract is solely for the management and operation of a Government-owned plant.

(8) The following unusual facts and circumstances favor making advance payments to the Contractor without interest: [List the pertinent facts and circumstances.]

DETERMINATION

(b) Based on the findings in paragraph (a) of this section, the undersigned determined that the making of the proposed advance payments, (with interest at the rate of _____ [Insert the interest rate computed in accordance with 32.407] percent on the daily unliquidated balance of the advance payments,) (without interest, except as provided by the proposed advance payment clause,) (is in the public interest) (will facilitate the national defense).

AUTHORIZATION

(c) The advance payments, of which (the amount at any time outstanding) (the aggregate amount, less the aggregate amounts repaid, or withdrawn by the Government), shall not exceed \$_____, are hereby authorized under (the Extraordinary Contracting Authority of Government Agencies

in Connection with National Defense Functions (50 U.S.C. 1431-1435) and Executive Order No. 10789 of November 14, 1958 (3 CFR 1958 Supp. pp. 72-74)) [or, if other, cite appropriate authority] on (terms substantially as contained in the proposed advance payment clause, a copy (an outline) of which is annexed to this authorization) (the following terms:) [Insert the appropriate terms.] (All prior authorizations for advance payments under Contract No. _____ are superseded.)

[Signature]

[Name Typed]

[Title of Authorized Official]

[Each Findings, Determination, and Authorization shall be individually prepared to fit the particular circumstances at hand. Paragraphs (a)(1), (2), (3) and (4) and paragraphs (b) and (c) shall be used in each case. If the contract is (a) for experimental, developmental or research work and with a nonprofit educational or research institution, or (b) only for management and operation of a Government-owned plant, paragraph (a)(5) should not be included. If the advance payment is to be made without interest to the contractor, include paragraph (a)(6), (7), or (8). If any advance payments have previously been authorized for the contract, include the final sentence of paragraph (c). The alternate parenthetical wording or other modifications may be used as appropriate. The paragraphs actually used shall be renumbered sequentially.]

32.411 Agreement for special account at a financial institution.

The contracting officer must use substantially the following form of agreement for a special account for advance payments:

AGREEMENT FOR SPECIAL ACCOUNT

This agreement is entered into this ____ day of _____, 20____, between the United States of America (the Government), represented by the Contracting Officer executing this agreement, _____ [Insert the name of the Contractor], a _____ [Insert the name of the State of incorporation] corporation (the Contractor), and _____, a financial institution operating under the laws of _____, located at _____ (the financial institution).

RECITALS

(a) Under date of _____, 20____, the Government and the Contractor entered into Contract No. _____, or a related supplemental agreement, providing for advance payments to the Contractor. A copy of the advance payment terms was furnished to the financial institution.

(b) The contract or supplemental agreement requires that amounts advanced to the Contractor be deposited separate from the Contractor’s general or other funds, in a Special Account at a member bank of the Federal Reserve System, any

“insured” bank within the meaning of the Act creating the Federal Deposit Insurance Corporation (12 U.S.C. 1811), or a credit union insured by the National Credit Union Administration. The parties agree to deposit the amounts with the financial institution, which meets the requirement.

(c) This Special Account is designated “_____ [Insert the Contractor’s name], _____ [Insert the name of the Government agency] Special Account.”

COVENANTS

In consideration of the foregoing, and for other good and valuable considerations, the parties agree to the following conditions:

(a) The Government shall have a lien on the credit balance in the account to secure the repayment of all advance payments made to the Contractor. The lien is paramount to any lien or claim of the financial institution regarding the account.

(b) The financial institution is bound by the terms of the contract relating to the deposit and withdrawal of funds in the Special Account, but is not responsible for the application of funds withdrawn from the account. The financial institution shall act on written directions from the Contracting Officer, the administering office, or a duly authorized representative of either. The financial institution is not liable to any party to this agreement for any action that complies with the written directions. Any written directions received by the financial institution through the Contracting Officer on _____ [Insert the name of the agency] stationery and purporting to be signed by, or by the direction of _____ or duly authorized representative, shall be, as far as the rights, duties, and liabilities of the financial institution are concerned, considered as being properly issued and filed with the financial institution by the _____ [Insert the name of the agency].

(c) The Government, or its authorized representatives, shall have access to the books and records maintained by the financial institution regarding the Special Account at all reasonable times and for all reasonable purposes, including (but not limited to), the inspection or copying of the books and records and any and all pertinent memoranda, checks, correspondence, or documents. The financial institution shall preserve the books and records for a period of 6 years after the closing of this Special Account.

(d) In the event of the service of any writ of attachment, levy of execution, or commencement of garnishment proceed-

ings regarding the Special Account, the financial institution will promptly notify _____ [Insert the name of the administering office].

(e) While this Special Account exists, the financial institution shall inform the Government each month of the financial institution’s published prime interest rate and changes to the rate during the month. The financial institution shall give this information to the Contracting Officer on the last business day of the month. [This covenant will not be included in the Special Account Agreements covering interest-free advance payments.]

Each of the parties to this agreement has executed the agreement on _____, 20____.

[Signatures and Official Titles]

32.412 Contract clause.

(a) The contracting officer shall insert the clause at 52.232-12, Advance Payments, in solicitations and contracts under which the Government will provide advance payments, except as provided in 32.412(b).

(b) If the agency desires to waive the countersignature requirement because of the contractor’s financial strength, good performance record, and favorable experience concerning cost disallowances, the contracting officer shall use the clause with its Alternate I.

(c) If a cost-reimbursement contract is contemplated, the contracting officer shall use the clause with its Alternate II.

(d) If the agency considers a more rapid liquidation appropriate, the contracting officer shall use the clause with its Alternate III.

(e) If the agency provides advance payments under the contract at no interest to the prime contractor, the contracting officer shall use the clause with its Alternate IV.

(f) If the requirement for a special account is eliminated in accordance with 32.409-3(e) or (g), the contracting officer shall insert in the solicitation or contract the clause set forth in Alternate V of 52.232-12, Advance Payments, instead of the basic clause.

**Subpart 32.5—Progress Payments Based on
Costs [Reserved]**

Subpart 32.6—Contract Debts

32.600 Scope of subpart.

This subpart prescribes policies and procedures for the Government's actions in ascertaining and collecting contract debts, charging interest on the debts, deferring collections, and compromising and terminating certain debts.

32.601 Definition.

"Responsible official," as used in this subpart, means the contracting officer (see Subpart 2.1) or other official designated under agency procedures to administer the collection of contract debts and applicable interest.

32.602 General.

The contract debts covered in this subpart arise in various ways. The following are some examples:

- (a) Damages or excess costs related to defaults in performance.
- (b) Breach of contract obligations concerning progress payments, advance payments, or Government-furnished property or material.
- (c) Government expense of correcting defects.
- (d) Overpayments related to errors in quantity or billing or deficiencies in quality.
- (e) Retroactive price reductions resulting from contract terms for price redetermination or for determination of prices under incentive type contracts.
- (f) Overpayments disclosed by quarterly statements required under price redetermination or incentive contracts.
- (g) Delinquency in contractor payments due under agreements or arrangements for deferral or postponement of collections.
- (h) Reimbursement of costs, as provided in 33.102(b) and 33.104(h)(1), paid by the Government where a postaward protest is sustained as a result of an awardee's misstatement, misrepresentation, or miscertification.

32.603 Applicability.

Except as otherwise specified, this subpart applies to all debts to the Government arising in connection with contracts and subcontracts for the acquisition of supplies or services, and debts arising from the Government's payment of costs, as provided in 33.102(b) and 33.104(h)(1), where a postaward protest is sustained as a result of an awardee's misstatement, misrepresentation, or miscertification.

32.604 Exclusions.

This subpart does not apply to claims of the Government against military or civilian employees or their dependents arising in connection with current or past employment by the Government. Sections 32.613, 32.614, and 32.616 do not

apply to claims against common carriers for transportation overcharges and freight and cargo losses.

32.605 Responsibilities and cooperation among Government officials.

(a) To protect the Government's interests, contracting officers, contract financing offices, disbursing officials, and auditors shall cooperate fully with each other to—

- (1) Discover promptly when a contract debt arises;
- (2) Ascertain the correct amount of the debt;
- (3) Act promptly and effectively to collect the debt;
- (4) Administer deferment of collection agreements;

and

(5) Provide up-to-date information on the status of the debt.

(b) For most kinds of contract debts, including reimbursement of protest costs, the contracting officer has the primary responsibility for determining the amounts of and collecting contract debt. Under some agency procedures, however, the individual who is responsible for payment under the contract; *e.g.*, the disbursing officer, may have this primary responsibility.

32.606 Debt determination and collection.

(a) If any indication of a contract debt arises, the responsible official shall determine promptly whether an actual debt is due the Government and the amount. Any unwarranted delay may contribute to—

- (1) Loss of timely availability of the funds to the program for which the funds were initially provided;
- (2) Increased difficulty in collecting the debt; or
- (3) Actual monetary loss to the Government.

(b) In determining the amount of any contract debt, the responsible official shall fairly consider both the Government's claim and any contract claims by the contractor against the Government. This determination does not constitute a settlement of such claims, nor is it a contracting officer's final determination under the Contract Disputes Act of 1978.

(c) The responsible official shall establish a control record for each contract debt, to include at least the following information:

- (1) The name and address of the contractor.
- (2) The contract number, if any.
- (3) A description of the debt.
- (4) The amount of debt and the appropriation to be credited.
- (5) The date the debt was determined.
- (6) The dates of demands for payment.
- (7) The amounts and dates of collections, as they occur.
- (8) The date of any appeal filed or action brought in the Court of Claims under the Disputes clause.

(9) The status of collections. Examples include—

- (i) Actions reported to the disbursing officer (name, location, and date);
- (ii) Funds requested to be withheld by the disbursing officer;
- (iii) Funds requested to be withheld by other offices (date and office);
- (iv) Deferment or installment payment arrangement requested;
- (v) Deferment or installment request reviewed;
- (vi) Supplemental information requested to support deferment requests; and
- (vii) Actions transferred to the contract financing office.

(d) Except in cases in which an agreement has been entered into for deferment of collections (32.613) or bankruptcy proceedings against the contractor have been initiated, the contractor shall be required to liquidate the debt by—

- (1) Cash payment in a lump sum, on demand; or
- (2) Credit against existing unpaid bills due the contractor.

(e) The responsible officials shall use all proper means available to them for collecting debts as rapidly as possible. Practices for ascertaining and collecting debts shall be comprehensive, dynamic, and as uniform as practicable. Full consideration shall be given to personal contact and followup.

32.607 Tax credit.

(a) If the contractor is entitled to a tax credit under section 1481 of the Internal Revenue Code (26 U.S.C. 1481) and requests recognition of the credit in the debt collection, the responsible official shall comply.

(b) The tax credit shall be considered to reduce the amount of the debt as of the date when interest on the debt begins to accrue.

(c) The amount of the debt reduction shall be the amount of the tax credit certificate, if a certificate was issued by the Internal Revenue Service (IRS). If the IRS has not yet issued a certificate, the responsible official may accept the contractor's estimate of the tax credit amount until the certificate is issued, subject to any verification that the responsible official considers appropriate.

(d) A reduction for a tax credit does not apply to a debt arising from a subcontract.

32.608 Negotiation of contract debts.

(a) The responsible official shall ensure that any negotiations concerning debt determinations are completed expeditiously. If consistent with the contract, the official shall make a unilateral determination promptly if the contractor is delinquent in any of the following actions:

- (1) Furnishing pertinent information.
 - (2) Negotiating expeditiously.
 - (3) Entering into an agreement on a fair and reasonable price revision.
 - (4) Signing an interim memorandum evidencing a negotiated pricing agreement involving refund.
 - (5) Executing an appropriate contract modification reflecting the result of negotiations.
- (b) The amount of indebtedness determined unilaterally shall be an amount that—
- (1) Is proper based on the merits of the case;
 - (2) Does not exceed an amount that would have been considered acceptable in a negotiated agreement; and
 - (3) Is consistent with the contract terms.
- (c) For unilateral debt determinations, the contracting officer shall issue a decision as required by the clause at 52.233-1, Disputes. Such decision shall include a demand for payment (see 33.211(a)(4)(vi)). No demand for payment under 32.610 shall be issued prior to a contracting officer's final decision. A copy of the final decision shall be sent to the appropriate finance office.

32.609 Memorandum of pricing agreement with refund.

(a) If a refund to the Government is agreed upon in negotiations under a price revision type of contract, the responsible official shall promptly write a memorandum to document the agreement and the contract debt. The memorandum shall be signed by the negotiators for the Government and the contractor. If the procedures of either the agency or the contractor require approval of the negotiation results by higher authority, the memorandum shall be written without prejudice to the final pricing. After negotiations are completed, a supplemental agreement shall be executed without delay.

(b) The amount of refund shall be computed promptly, without waiting for itemization of adjustment of past billings, accounting adjustments, or the adjusted invoices.

32.610 Demand for payment of contract debt.

(a) A demand for payment shall be made as soon as the responsible official has computed the amount of refund due. If the debt arises from excess costs for a default termination, the demand shall be made without delay, as explained in 49.402-6.

(b) The demand shall include the following:

- (1) A description of the debt, including the debt amount.
- (2) Notification that any amounts not paid within 30 days from the date of the demand will bear interest from the date of the demand, or from any earlier date specified in the contract, and that the interest rate shall be the rate established by the Secretary of the Treasury, for the period affected, under Public Law 92-41. In the case of a debt arising from a price reduction for defective pricing, or as specif-

ically set forth in a Cost Accounting Standards (CAS) clause in the contract, that interest will run from the date of overpayment by the Government until repayment by the contractor at the underpayment rate established by the Secretary of the Treasury, for the periods affected, under 26 U.S.C. 6621(a)(2).

(3) A notification that the contractor may submit a proposal for deferment of collection if immediate payment is not practicable or if the amount is disputed.

(4) Identification of the responsible official designated for determining the amount of the debt and for its collection.

(c) If paragraph (b)(3) of the clause at 52.232-17, Interest, applies, the demand mentioned in paragraph (a) of this section shall accompany or be included in the transmittal mentioned in the clause.

32.611 Routine setoff.

If a disbursing officer is the responsible official for collection of a contract debt, or is notified of the debt by the responsible official and has contractor invoices on hand for payment, the disbursing officer shall make an appropriate setoff. The disbursing officer shall give the contractor an explanation of the setoff. To the extent that the setoff reduces the debt, the explanation shall replace the demand prescribed in 32.610.

32.612 Withholding and setoff.

During the 30 days following the issuance of a demand, the advisability of withholding payments otherwise due to the contractor shall be considered based on the circumstances of the individual cases. If payment is not completed within 30 days, and deferment is not requested, withholding of principal and interest shall be initiated immediately. In the event the contract is assigned under the Assignment of Claims Act of 1940 (31 U.S.C. 3727 and 41 U.S.C. 15), the rights of the assignee will be scrupulously respected and withholding of payments shall be consistent with those rights. For additional information on assignment of claims, see Subpart 32.8.

32.613 Deferment of collection.

(a) If the responsible official receives a written request from the contractor for a deferment of the debt collection or installment payments, the official shall promptly review the request to see if the information included is adequate for action on the request. If not, the contractor shall be asked to furnish the needed information. Any necessary changes to the terms of the proposed deferment/installment agreement shall also be suggested.

(b) If the contractor has appealed the debt under the procedures of the Disputes clause of the contract, the information with the request for deferment may be limited to an explanation of the contractor's financial condition.

(c) If there is no appeal pending or action filed under the Disputes clause of the contract, the following information about the contractor should be submitted with the request:

(1) Financial condition.

(2) Contract backlog.

(3) Projected cash receipts and requirements.

(4) The feasibility of immediate payment of the debt.

(5) The probable effect on operations of immediate payment in full.

(d) Although the existence of a contractor appeal of the debt does not of itself require the Government to suspend or delay collection action, the responsible official shall consider whether deferment of the debt collection is advisable to avoid possible overcollection. The responsible official may authorize a deferment pending the resolution of appeal.

(e) Deferments pending disposition of appeal may be granted to small business concerns and financially weak contractors, with a reasonable balance of the need for Government security against loss and undue hardship on the contractor.

(f) If a contractor has not appealed the debt or filed an action under the Disputes clause of the contract, the responsible official may arrange for deferment/installment payments if the contractor is unable to pay at once in full or the contractor's operations under national defense contracts would be seriously impaired. The arrangement shall include appropriate covenants and securities and should be limited to the shortest practicable maturity.

(g) Contracts and arrangements for deferment may not provide that a claim of the Government will not become due and payable pending mutual agreement on the amount of the claim or, in the case of a dispute, until the decision is reached.

(h) At a minimum, the deferment agreement shall contain the following:

(1) A description of the debt.

(2) The date of first demand for payment.

(3) Notice of an interest charge, in conformity with MMAR 32.614 and the clause at MMAR 52.232-17, Interest; or, in the case of a debt arising from a defective pricing or a CAS noncompliance overpayment, interest, as prescribed by the applicable Price Reduction for Defective Cost or Pricing Data or CAS clause.

(4) Identification of the office to which the contractor is to send debt payments.

(5) A requirement for the contractor to submit financial information requested by the Government and for reasonable access to the contractor's records and property by Government representatives.

(6) Provision for the Government to terminate the deferment agreement and accelerate the maturity of the debt if the contractor defaults or if bankruptcy or insolvency proceedings are instituted by or against the contractor.

(7) Protective requirements that are considered by the Government to be prudent and feasible in the specific circumstances. The coverage of protective terms at 32.409 and 32.501-5 may be used as a guide.

(i) If a contractor appeal of the debt determination is pending, the deferment agreement shall also include a requirement that the contractor shall—

(1) Diligently prosecute the appeal; and

(2) Pay the debt in full when the appeal is decided, or when the parties reach agreement on the debt amount.

(j) If the contractor does not plan to appeal the debt or file an action under the Disputes clause of the contract, the deferment/installment agreement shall include a specific schedule or plan for payment. It should permit the Government to make periodic financial reviews of the contractor and to require prepayments if the Government considers the contractor's ability to pay improved. It should also provide for required stated or measurable prepayments on the occurrence of specific events or contingencies that improve the contractor's ability to pay.

(k) If desired by the contractor, the deferment agreement may provide for the right to make prepayments without prejudice, for refund of overpayments, and for crediting of interest (see 32.614-2).

(l) Actions filed by contractors under the Disputes clause shall not suspend or delay collection. Until the action is decided, deferments shall only be granted if, within 30 days after the filing of such action, the contractor presents to the responsible official a good and sufficient bond, or other collateral acceptable to the responsible official, in the amount of the claim, and approved by the responsible official. Any amount collected by the Government in excess of the amount found to be due on appeal under the Disputes clause of the contract shall be refunded to the contractor with interest thereon from the date of collection by the Government at the annual rate established by the Secretary of Treasury under Public Law 92-41. Simple interest shall be calculated through the period of indebtedness to reflect each 6-month period change in the rates established by the Secretary.

32.614 Interest.

32.614-1 Interest charges.

(a) Under the clause at 52.232-17, Interest, the responsible official shall apply interest charges to any contract debt unpaid after 30 days from the issuance of a demand, unless—

(1) The contract specifies another due date or procedure for charging or collecting interest;

(2) The contract is a kind excluded under 32.617; or

(3) The contract or debt has been exempted from interest charges under agency procedures.

(b) If not already applicable under the contract terms, interest on contract debt shall be made an element of any agreement entered into on deferment of collection.

(c) Unless specified otherwise in the clause at MMAR 52.232-17, the interest charge shall be at the rate established by the Secretary of the Treasury under Public Law 92-41 for the period in which the amount becomes due. The interest charge shall be computed for the actual number of calendar days involved beginning on the due date and ending on—

(1) The date on which the designated office receives payment from the contractor;

(2) The date of issuance of a Government check to the contractor from which an amount otherwise payable has been withheld as a credit against the contract debt;

(3) The date on which an amount withheld and applied to the contract debt would otherwise have become payable to the contractor; or

(4) The date of any applicable tax credit under 32.607.

32.614-2 Interest credits.

(a) An equitable interest credit shall be applied under the following circumstances:

(1) When the amount of debt initially determined is subsequently reduced; *e.g.*, through a successful appeal.

(2) When the collection procedures followed in a given case result in an overcollection of the debt due.

(3) When the responsible official determines that the Government has unduly delayed payments to the contractor on the same contract at some time during the period to which the interest charge applied, provided an interest penalty was not paid for such late payment.

(b) Any appropriate interest credits shall be computed under the following procedures:

(1) Interest at the rate under 32.614-1(c) shall be charged on the reduced debt from the date specified in the first demand made for payment of the higher debt.

(2) Interest may not be reduced for any time between the due date under the demand and the period covered by a deferment of collection, unless the contract includes an interest clause; *e.g.*, the clause prescribed in 32.617.

(3) Interest shall not be credited in an amount that, when added to other amounts refunded or released to the contractor, exceeds the total amount that has been collected, or withheld for the purpose of collecting the debt. This limitation shall be further reduced by the amount of any limitation applicable under 32.614-2(b)(2).

32.615 Delays in receipt of notices or demands.

If delivery of the demands or notices required by the clause at 52.232-17, Interest, is delayed by the Government (*e.g.*, undue delay after dating at the originating office or delays in the mail), the date of the debt and accrual of inter-

est shall be extended to a time that is fair and reasonable under the particular circumstances.

32.616 Compromise actions.

For debts under \$100,000, excluding interest, if further collection is not practicable or would cost more than the amount of recovery, the agency may compromise the debt or terminate or suspend further collection action. Compromise is authorized by the Federal Claims Collection Act of 1966 (31 U.S.C. 3711). Compromise actions shall conform to Federal claims collection standards (4 CFR 101-105), and agency regulations.

32.617 Contract clause.

(a) The contracting officer shall insert the clause at 52.232-17, Interest, in solicitations and contracts, unless it is contemplated that the contract will be in one or more of the following categories:

(1) Contracts at or below the simplified acquisition threshold.

(2) Contracts with Government agencies.

(3) Contracts with a State or local government or instrumentality.

(4) Contracts with a foreign government or instrumentality.

(5) Contracts without any provision for profit or fee with a nonprofit organization.

(6) Contracts described in Subpart 5.5, Paid Advertisements.

(7) Any other exceptions authorized under agency procedures.

(b) The contracting officer may insert the clause at 52.232-17, Interest, in solicitations and contracts when it is contemplated that the contract will be in any of the categories specified in 32.617(a).

Subpart 32.7—Contract Funding

32.700 Scope of subpart.

This subpart (a) describes basic requirements for contract funding and (b) prescribes procedures for using limitation of cost or limitation of funds clauses. Detailed acquisition funding requirements are contained in agency fiscal regulations.

32.701 [Reserved]

32.702 Policy.

No officer or employee of the Government may create or authorize an obligation in excess of the funds available, or in advance of appropriations (Anti-Deficiency Act, 31 U.S.C. 1341), unless otherwise authorized by law. Before executing any contract, the contracting officer shall—

(a) Obtain written assurance from responsible fiscal authority that adequate funds are available or

(b) Expressly condition the contract upon availability of funds in accordance with 32.703-2.

32.703 Contract funding requirements.

32.703-1 General.

(a) If the contract is fully funded, funds are obligated to cover the price or target price of a fixed-price contract or the estimated cost and any fee of a cost-reimbursement contract.

(b) If the contract is incrementally funded, funds are obligated to cover the amount allotted and any corresponding increment of fee.

32.703-2 Contracts conditioned upon availability of funds.

(a) *Fiscal year contracts.* The contracting officer may initiate a contract action properly chargeable to funds of the new fiscal year before these funds are available, provided that the contract includes the clause at 52.232-18, Availability of Funds (see 32.705-1(a)). This authority may be used only for operation and maintenance and continuing services (e.g., rentals, utilities, and supply items not financed by stock funds)—

(1) Necessary for normal operations and

(2) For which Congress previously had consistently appropriated funds, unless specific statutory authority exists permitting applicability to other requirements.

(b) *Indefinite-quantity or requirements contracts.* A one-year indefinite-quantity or requirements contract for services that is funded by annual appropriations may extend beyond the fiscal year in which it begins; provided, that—

(1) Any specified minimum quantities are certain to be ordered in the initial fiscal year (see 37.106) and

(2) The contract includes the clause at 52.232-19, Availability of Funds for the Next Fiscal Year (see 32.705-1(b)).

(c) *Acceptance of supplies or services.* The Government shall not accept supplies or services under a contract conditioned upon the availability of funds until the contracting officer has given the contractor notice, to be confirmed in writing, that funds are available.

32.703-3 Contracts crossing fiscal years.

(a) A contract that is funded by annual appropriations may not cross fiscal years, except in accordance with statutory authorization (e.g., 41 U.S.C. 11a, 31 U.S.C. 1308, 42 U.S.C. 2459a, 42 U.S.C. 3515, and paragraph (b) of this subsection), or when the contract calls for an end product that cannot feasibly be subdivided for separate performance in each fiscal year (e.g., contracts for expert or consultant services).

32.704 Limitation of cost or funds.

(a)(1) When a contract contains the clause at 52.232-20, Limitation of Cost; 52.232-21, Limitation of Cost (Facilities); or 52.232-22, Limitation of Funds, the contracting officer, upon learning that the contractor is approaching the estimated cost of the contract or the limit of the funds allotted, shall promptly obtain funding and programming information pertinent to the contract's continuation and notify the contractor in writing that—

(i) Additional funds have been allotted, or the estimated cost has been increased, in a specified amount;

(ii) The contract is not to be further funded and that the contractor should submit a proposal for an adjustment of fee, if any, based on the percentage of work completed in relation to the total work called for under the contract;

(iii) The contract is to be terminated; or

(iv)(A) The Government is considering whether to allot additional funds or increase the estimated cost—

(B) The contractor is entitled by the contract terms to stop work when the funding or cost limit is reached; and

(C) Any work beyond the funding or cost limit will be at the contractor's risk.

(2) Upon learning that a partially funded contract containing any of the clauses referenced in paragraph (a)(1) of this section will receive no further funds, the contracting officer shall promptly give the contractor written notice of the decision not to provide funds.

(b) Under a cost-reimbursement contract, the contracting officer may issue a change order, a direction to replace or repair defective items or work, or a termination notice without immediately increasing the funds available. Since a contractor is not obligated to incur costs in excess of the estimated cost in the contract, the contracting officer shall ensure availability of funds for directed actions. The con-

tracting officer may direct that any increase in the estimated cost or amount allotted to a contract be used for the sole purpose of funding termination or other specified expenses.

(c) Government personnel encouraging a contractor to continue work in the absence of funds will incur a violation of Revised Statutes section 3679 (31 U.S.C. 1341) that may subject the violator to civil or criminal penalties.

32.705 Contract clauses.

32.705-1 Clauses for contracting in advance of funds.

(a) Insert the clause at 52.232-18, Availability of Funds, in solicitations and contracts if the contract will be chargeable to funds of the new fiscal year and the contract action will be initiated before the funds are available.

(b) The contracting officer shall insert the clause at 52.232-19, Availability of Funds for the Next Fiscal Year, in solicitations and contracts if a one-year indefinite-quantity or requirements contract for services is contemplated and the contract—

(1) Is funded by annual appropriations; and

(2) Is to extend beyond the initial fiscal year (see 32.703-2(b)).

32.705-2 Clauses for limitation of cost or funds.

(a) The contracting officer shall insert the clause at 52.232-20, Limitation of Cost, in solicitations and contracts if a fully funded cost-reimbursement contract is contemplated, except those for consolidated facilities, facilities acquisition, or facilities use, whether or not the contract provides for payment of a fee.

(b) The contracting officer shall insert the clause at 52.232-21, Limitation of Cost (Facilities), in solicitations and contracts for consolidated facilities, facilities acquisition, or facilities use (see 45.301).

(c) The contracting officer shall insert the clause at 52.232-22, Limitation of Funds, in solicitations and contracts if an incrementally funded cost-reimbursement contract is contemplated.

Subpart 32.8—Assignment of Claims

32.800 Scope of subpart.

This subpart prescribes policies and procedures for the assignment of claims under the Assignment of Claims Act of 1940, as amended, 31 U.S.C. 3727, 41 U.S.C. 15 (hereafter referred to as “the Act”).

32.801 Definitions.

“No-setoff commitment,” as used in this subpart, means a contractual undertaking that, to the extent permitted by the Act, payments by the agency to the assignee under an assignment of claims will not be reduced to liquidate the indebtedness of the contractor to the Government.

32.802 Conditions.

Under the Assignment of Claims Act, a contractor may assign moneys due or to become due under a contract if all the following conditions are met:

- (a) The contract specifies payments aggregating \$1,000 or more.
- (b) The assignment is made to a bank, trust company, or other financing institution, including any Federal lending agency.
- (c) The contract does not prohibit the assignment.
- (d) Unless otherwise expressly permitted in the contract, the assignment—
 - (1) Covers all unpaid amounts payable under the contract;
 - (2) Is made only to one party, except that any assignment may be made to one party as agent or trustee for two or more parties participating in the financing of the contract; and
 - (3) Is not subject to further assignment.
- (e) The assignee sends a written notice of assignment together with a true copy of the assignment instrument to the—
 - (1) Contracting officer or the agency head;
 - (2) Surety on any bond applicable to the contract; and
 - (3) Disbursing officer designated in the contract to make payment.

32.803 Policies.

- (a) Any assignment of claims that has been made under the Act to any type of financing institution listed in 32.802(b) may thereafter be further assigned and reassigned to any such institution if the conditions in 32.802(d) and (e) continue to be met.
- (b) A contract may prohibit the assignment of claims if the agency determines the prohibition to be in the Government’s interest.
- (c) Under a requirements or indefinite quantity type contract that authorizes ordering and payment by multiple Gov-

ernment activities, amounts due for individual orders for \$1,000 or more may be assigned.

(d) When an assigned contract does not include a no-setoff commitment, the Government may apply against payments to the assignee any liability of the contractor to the Government arising independently of the assigned contract if the liability existed at the time notice of the assignment was received even though that liability had not yet matured so as to be due and payable.

32.804 Extent of assignee’s protection.

(a) No payments made by the Government to the assignee under any contract assigned in accordance with the Act may be recovered on account of any liability of the contractor to the Government. This immunity of the assignee is effective whether the contractor’s liability arises from or independently of the assigned contract.

(b) Except as provided in paragraph (c) of this section, the inclusion of a no-setoff commitment in an assigned contract entitles the assignee to receive contract payments free of reduction or setoff for—

- (1) Any liability of the contractor to the Government arising independently of the contract; and
- (2) Any of the following liabilities of the contractor to the Government arising from the assigned contract:
 - (i) Renegotiation under any statute or contract clause.
 - (ii) Fines.
 - (iii) Penalties, exclusive of amounts that may be collected or withheld from the contractor under, or for failure to comply with, the terms of the contract.
 - (iv) Taxes or social security contributions.
 - (v) Withholding or nonwithholding of taxes or social security contributions.

(c) In some circumstances, a setoff may be appropriate even though the assigned contract includes a no-setoff commitment; *e.g.*—

- (1) When the assignee has neither made a loan under the assignment nor made a commitment to do so; or
- (2) To the extent that the amount due on the contract exceeds the amount of any loans made or expected to be made under a firm commitment for financing.

32.805 Procedure.

- (a) *Assignments.* (1) Assignments by corporations shall be—
- (i) Executed by an authorized representative;
 - (ii) Attested by the secretary or the assistant secretary of the corporation; and
 - (iii) Impressed with the corporate seal or accompanied by a true copy of the resolution of the corporation’s board of directors authorizing the signing representative to execute the assignment.

(2) Assignments by a partnership may be signed by one partner, if the assignment is accompanied by adequate evidence that the signer is a general partner of the partnership and is authorized to execute assignments on behalf of the partnership.

(3) Assignments by an individual shall be signed by that individual and the signature acknowledged before a notary public or other person authorized to administer oaths.

(b) *Filing.* The assignee shall forward to each party specified in 32.802(e) an original and three copies of the notice of assignment, together with one true copy of the instrument of assignment. The true copy shall be a certified duplicate or photostat copy of the original assignment.

(c) *Format for notice of assignment.* The following is a suggested format for use by an assignee in providing the notice of assignment required by 32.802(e).

NOTICE OF ASSIGNMENT

To: _____ [Address to one of the parties specified in 32.802(e)].

This has reference to Contract No. _____ dated _____, entered into between _____ [Contractor's name and address] and _____ [Government agency, name of office, and address], for _____ [Describe nature of the contract].

Moneys due or to become due under the contract described above have been assigned to the undersigned under the provisions of the Assignment of Claims Act of 1940, as amended, 31 U.S.C. 3727, 41 U.S.C. 15.

A true copy of the instrument of assignment executed by the Contractor on _____ [Date], is attached to the original notice.

Payments due or to become due under this contract should be made to the undersigned assignee.

Please return to the undersigned the three enclosed copies of this notice with appropriate notations showing the date and hour of receipt, and signed by the person acknowledging receipt on behalf of the addressee.

Very truly yours,

[Name of Assignee]

By _____
[Signature of Signing Officer]

[Title of Signing Officer]

[ADDRESS OF ASSIGNEE]

ACKNOWLEDGEMENT

Receipt is acknowledged of the above notice and of a copy of the instrument of assignment. They were received ____ (a.m.) (p.m.) on _____, 20____.

[Signature]

[Title]

On behalf of

[Name of Addressee of this Notice]

(d) *Examination by the Government.* In examining and processing notices of assignment and before acknowledging their receipt, contracting officers should assure that the following conditions and any additional conditions specified in agency regulations, have been met:

- (1) The contract has been properly approved and executed.
- (2) The contract is one under which claims may be assigned.
- (3) The assignment covers only money due or to become due under the contract.

(e) *Release of assignment.* (1) A release of an assignment is required whenever—

- (i) There has been a further assignment or reassignment under the Act; or
- (ii) The contractor wishes to reestablish its right to receive further payments after the contractor's obligations to the assignee have been satisfied and a balance remains due under the contract.

(2) The assignee, under a further assignment or reassignment, in order to establish a right to receive payment from the Government, must file with the addressees listed in 32.802(e) a—

- (i) Written notice of release of the contractor by the assigning financing institution;
- (ii) Copy of the release instrument;
- (iii) Written notice of the further assignment or reassignment; and
- (iv) Copy of the further assignment or reassignment instrument.

(3) If the assignee releases the contractor from an assignment of claims under a contract, the contractor, in order to establish a right to receive payment of the balance due under the contract, must file a written notice of release together with a true copy of the release of assignment instrument with the addressees noted in 32.802(e).

(4) The addressee of a notice of release of assignment or the official acting on behalf of that addressee shall acknowledge receipt of the notice.

32.806 Contract clauses.

(a)(1) The contracting officer shall insert the clause at 52.232-23, Assignment of Claims, in solicitations and contracts expected to exceed the micro-purchase threshold, unless the contract will prohibit the assignment of claims (see 32.803(b)). The use of the clause is not required for purchase orders. However, the clause may be used in purchase orders expected to exceed the micro-purchase threshold, that are accepted in writing by the contractor, if such use is consistent with agency policies and regulations.

(2) If a no-setoff commitment has been authorized (see 32.803(d)), the contracting officer shall use the clause with its Alternate I.

(b) The contracting officer shall insert the clause at 52.232-24, Prohibition of Assignment of Claims, in solicitations and contracts for which a determination has been made under agency regulations that the prohibition of assignment of claims is in the Government's interest.

Subpart 32.9—Prompt Payment

32.900 Scope of subpart.

This subpart prescribes policies, procedures, and clauses for making prompt payments.

32.901 Applicability.

(a) This subpart applies to invoice payments on all contracts, except contracts with payment terms and late payment penalties established by other governmental authority (*e.g.*, tariffs).

(b) This subpart does not apply to contract financing payments (see definition at 32.001).

32.902 Definitions.

As used in this subpart—

“Discount for prompt payment” means an invoice payment reduction offered by the contractor for payment prior to the due date.

“Mixed invoice” means an invoice that contains items with different payment due dates.

“Payment date” means the date on which a check for payment is dated or, for an electronic funds transfer (EFT), the settlement date.

“Settlement date,” as it applies to electronic funds transfer, means the date on which an electronic funds transfer payment is credited to the contractor’s financial institution.

32.903 Responsibilities.

(a) Public Printer—

(1) Must establish the policies and procedures necessary to implement this subpart;

(2) May prescribe additional standards for establishing invoice payment due dates (see 32.904) necessary to support agency programs and foster prompt payment to contractors;

(3) May adopt different payment procedures in order to accommodate unique circumstances, provided that such procedures are consistent with the policies in this subpart;

(4) Must inform contractors of points of contact within their cognizant payment offices to enable contractors to obtain status of invoices.

(b) When drafting solicitations and contracts, contracting officers must identify for each contract line item number, subtitle item number, or exhibit line item number—

(1) The applicable Prompt Payment clauses that apply to each item when the solicitation or contract contains items that will be subject to different payment terms; and

(2) The applicable Prompt Payment food category (*e.g.*, which item numbers are meat or meat food products, which are perishable agricultural commodities), when the solicitation or contract contains multiple payment terms for various classes of foods and edible products.

32.904 Determining payment due dates.

(a) *General.* MMS procedures must ensure that, when specifying due dates, contracting officers give full consideration to the time reasonably required by Government officials to fulfill their administrative responsibilities under the contract.

(b) *Payment due dates.* Except as prescribed in paragraphs (c) through (f) of this section, or as authorized in 32.908(a)(2) or (c)(2), the due date for making an invoice payment is as follows:

(1) The later of the following two events:

(i) The 30th day after the designated billing office receives a proper invoice from the contractor (except as provided in paragraph (b)(3) of this section).

(ii) The 30th day after Government acceptance of supplies delivered or services performed.

(A) For a final invoice, when the payment amount is subject to contract settlement actions, acceptance is deemed to occur on the effective date of the contract settlement.

(B) For the sole purpose of computing an interest penalty that might be due the contractor—

(1) Government acceptance is deemed to occur constructively on the 7th day after the contractor delivers supplies or performs services in accordance with the terms and conditions of the contract, unless there is a disagreement over quantity, quality, or contractor compliance with a contract requirement;

(2) If actual acceptance occurs within the constructive acceptance period, the Government must base the determination of an interest penalty on the actual date of acceptance;

(3) The constructive acceptance requirement does not compel Government officials to accept supplies or services, perform contract administration functions, or make payment prior to fulfilling their responsibilities; and

(4) Except for a contract for the purchase of a commercial item, including a brand-name commercial item for authorized resale (*e.g.*, commissary items), the contracting officer may specify a longer period for constructive acceptance in the solicitation and resulting contract, if required to afford the Government a reasonable opportunity to inspect and test the supplies furnished or to evaluate the services performed. The contracting officer must document in the contract file the justification for extending the constructive acceptance period beyond 7 days. Extended acceptance periods must not be a routine agency practice and must be used only when necessary to permit proper Government inspection and testing of the supplies delivered or services performed.

(2) If the contract does not require submission of an invoice for payment (*e.g.*, periodic lease payments), the contracting officer must specify the due date in the contract.

(3) If the designated billing office fails to annotate the invoice with the actual date of receipt at the time of receipt, the invoice payment due date is the 30th day after the date of the contractor's invoice, provided the designated billing office receives a proper invoice and there is no disagreement over quantity, quality, or contractor compliance with contract requirements.

(c) *Architect-engineer contracts.* (1) The due date for making payments on contracts that contain the clause at 52.232-10, Payments Under Fixed-Price Architect-Engineer Contracts, is as follows:

(i) The due date for work or services completed by the contractor is the later of the following two events:

(A) The 30th day after the designated billing office receives a proper invoice from the contractor.

(B) The 30th day after Government acceptance of the work or services completed by the contractor.

(1) For a final invoice, when the payment amount is subject to contract settlement actions (*e.g.*, release of claims), acceptance is deemed to occur on the effective date of the settlement.

(2) For the sole purpose of computing an interest penalty that might be due the contractor, Government acceptance is deemed to occur constructively on the 7th day after the contractor completes the work or services in accordance with the terms and conditions of the contract (see also paragraph (c)(2) of this section). If actual acceptance occurs within the constructive acceptance period, the Government must base the determination of an interest penalty on the actual date of acceptance.

(ii) The due date for progress payments is the 30th day after Government approval of contractor estimates of work or services accomplished. For the sole purpose of computing an interest penalty that might be due the contractor—

(A) Government approval is deemed to occur constructively on the 7th day after the designated billing office receives the contractor estimates (see also paragraph (c)(2) of this section).

(B) If actual approval occurs within the constructive approval period, the Government must base the determination of an interest penalty on the actual date of approval.

(iii) If the designated billing office fails to annotate the invoice or payment request with the actual date of receipt at the time of receipt, the payment due date is the 30th day after the date of the contractor's invoice or payment request, provided the designated billing office receives a proper invoice or payment request and there is no disagreement over quantity, quality, or contractor compliance with contract requirements.

(2) The constructive acceptance and constructive approval requirements described in paragraphs (c)(1)(i) and (ii) of this section are conditioned upon receipt of a proper payment request and no disagreement over quantity, quality, contractor compliance with contract requirements, or the requested progress payment amount. These requirements do not compel Government officials to accept work or services, approve contractor estimates, perform contract administration functions, or make payment prior to fulfilling their responsibilities. The contracting officer may specify a longer period for constructive acceptance or constructive approval, if required to afford the Government a reasonable opportunity to inspect and test the supplies furnished or to evaluate the services performed. The contracting officer must document in the contract file the justification for extending the constructive acceptance or approval period beyond 7 days.

(d) *Construction contracts.* (1) The due date for making payments on construction contracts is as follows:

(i) The due date for making progress payments based on contracting officer approval of the estimated amount and value of work or services performed, including payments for reaching milestones in any project, is 14 days after the designated billing office receives a proper payment request.

(A) If the designated billing office fails to annotate the payment request with the actual date of receipt at the time of receipt, the payment due date is the 14th day after the date of the contractor's payment request, provided the designated billing office receives a proper payment request and there is no disagreement over quantity, quality, or contractor compliance with contract requirements.

(B) The contracting officer may specify a longer period in the solicitation and resulting contract if required to afford the Government a reasonable opportunity to adequately inspect the work and to determine the adequacy of the contractor's performance under the contract. The contracting officer must document in the contract file the justification for extending the due date beyond 14 days.

(C) The contracting officer must not approve progress payment requests unless the certification and substantiation of amounts requested are provided as required by the clause at 52.232-5, Payments Under Fixed-Price Construction Contracts.

(ii) The due date for payment of any amounts retained by the contracting officer in accordance with the clause at 52.232-5, Payments Under Fixed-Price Construction Contracts, will be as specified in the contract or, if not specified, 30 days after approval by the contracting officer for release to the contractor. The contracting officer must base the release of retained amounts on the contracting officer's determination that satisfactory progress has been made.

(iii) The due date for final payments based on completion and acceptance of all work (including any retained amounts), and payments for partial deliveries that have been accepted by the Government (*e.g.*, each separate building, public work, or other division of the contract for which the price is stated separately in the contract) is as follows:

(A) The later of the following two events:

(1) The 30th day after the designated billing office receives a proper invoice from the contractor.

(2) The 30th day after Government acceptance of the work or services completed by the contractor. For a final invoice, when the payment amount is subject to contract settlement actions (*e.g.*, release of contractor claims), acceptance is deemed to occur on the effective date of the contract settlement.

(B) If the designated billing office fails to annotate the invoice with the actual date of receipt at the time of receipt, the invoice payment due date is the 30th day after the date of the contractor's invoice, provided the designated billing office receives a proper invoice and there is no disagreement over quantity, quality, or contractor compliance with contract requirements.

(2) Construction contracts contain special provisions concerning contractor payments to subcontractors, along with special contractor certification requirements. These certifications must not be construed as final acceptance of the

subcontractor's performance. The certification in 52.232-5(c) implements this determination; however, certificates are still acceptable if the contractor deletes paragraph (c)(4) of 52.232-5 from the certificate.

(3)(i) Paragraph (d) of the clause at 52.232-5, Payments under Fixed-Price Construction Contracts, and paragraph (e)(6) of the clause at 52.232-27, Prompt Payment for Construction Contracts, provide for the contractor to pay interest on unearned amounts in certain circumstances. The Government must recover this interest from subsequent payments to the contractor. Therefore, contracting officers normally must make no demand for payment. Contracting officers must—

(A) Compute the amount in accordance with the clause;

(B) Provide the contractor with a final decision; and

(C) Notify the payment office of the amount to be withheld.

(ii) The payment office is responsible for making the deduction of interest. Amounts collected in accordance with these provisions revert to the United States Treasury.

(e) *Cost-reimbursement contracts for services.* For purposes of computing late payment interest penalties that may apply, the due date for making interim payments on cost-reimbursement contracts for services is 30 days after the date of receipt of a proper invoice.

FAC 2001-02 FEBRUARY 19, 2002

32.905

MATERIALS MANAGEMENT ACQUISITION REGULATION

(f) *Food and specified items.*

IF THE ITEMS DELIVERED ARE:	PAYMENT MUST BE MADE AS CLOSE AS POSSIBLE TO, BUT NOT LATER THAN:
(1) <i>Meat or meat food products.</i> As defined in section 2(a)(3) of the Packers and Stockyard Act of 1921 (7 U.S.C. 182(3)), and as further defined in Public Law 98-181, including any edible fresh or frozen poultry meat, any perishable poultry meat food product, fresh eggs, and any perishable egg product.	7th day after product delivery.
(2) <i>Fresh or frozen fish.</i> As defined in section 204(3) of the Fish and Seafood Promotion Act of 1986 (16 U.S.C. 4003(3)).	7th day after product delivery.
(3) <i>Perishable agricultural commodities.</i> As defined in section 1(4) of the Perishable Agricultural Commodities Act of 1930 (7 U.S.C. 499a(4)).	10th day after product delivery, unless another date is specified in the contract.
(4) <i>Dairy products.</i> As defined in section 111(e) of the Dairy Production Stabilization Act of 1983 (7 U.S.C. 4502(e)), edible fats or oils, and food products prepared from edible fats or oils. Liquid milk, cheese, certain processed cheese products, butter, yogurt, ice cream, mayonnaise, salad dressings, and other similar products fall within this classification. Nothing in the Act limits this classification to refrigerated products. If questions arise regarding the proper classification of a specific product, the contracting officer must follow prevailing industry practices in specifying a contract payment due date. The burden of proof that a classification of a specific product is, in fact, prevailing industry practice is upon the contractor making the representation.	10th day after a proper invoice has been received.

(g) *Multiple payment due dates.* Contracting officers may encourage, but not require, contractors to submit separate invoices for products with different payment due dates under the same contract or order. When an invoice contains items with different payment due dates (*i.e.*, a mixed invoice), the payment office will, subject to agency policy—

- (1) Pay the entire invoice on the earliest due date; or
- (2) Split invoice payments, making payments by the applicable due dates.

32.905 Payment documentation and process.

(a) *General.* Payment will be based on receipt of a proper invoice and satisfactory contract performance.

(b) *Content of invoices.* (1) A proper invoice must include the following items (except for interim payments on cost reimbursement contracts for services):

- (i) Name and address of the contractor.
- (ii) Invoice date and invoice number. (Contractors should date invoices as close as possible to the date of mailing or transmission.)
- (iii) Contract number or other authorization for supplies delivered or services performed (including order number and contract line item number).
- (iv) Description, quantity, unit of measure, unit price, and extended price of supplies delivered or services performed.

(v) Shipping and payment terms (*e.g.*, shipment number and date of shipment, discount for prompt payment terms). Bill of lading number and weight of shipment will be shown for shipments on Government bills of lading.

(vi) Name and address of contractor official to whom payment is to be sent (must be the same as that in the contract or in a proper notice of assignment).

(vii) Name (where practicable), title, phone number, and mailing address of person to notify in the event of a defective invoice.

(viii) Taxpayer Identification Number (TIN). The contractor must include its TIN on the invoice only if required by agency procedures. (See 4.9 TIN requirements.)

(ix) Electronic funds transfer (EFT) banking information.

(A) The contractor must include EFT banking information on the invoice only if required by agency procedures.

(B) If EFT banking information is not required to be on the invoice, in order for the invoice to be a proper invoice, the contractor must have submitted correct EFT banking information in accordance with the applicable solicitation provision (*e.g.*, 52.232-38, Submission of Electronic Funds Transfer Information with Offer), contract clause (*e.g.*, 52.232-33, Payment by Electronic Funds Transfer-Central Contractor Registration, or 52.232-34, Payment by

Electronic Funds Transfer-Other Than Central Contractor Registration), or applicable agency procedures.

(C) EFT banking information is not required if the Government waived the requirement to pay by EFT.

(x) Any other information or documentation required by the contract (*e.g.*, evidence of shipment).

(2) An interim payment request under a cost-reimbursement contract for services constitutes a proper invoice for purposes of this subsection if it includes all of the information required by the contract.

(3) If the invoice does not comply with these requirements, the designated billing office must return it within 7 days after receipt (3 days on contracts for meat, meat food products, or fish; 5 days on contracts for perishable agricultural commodities, dairy products, edible fats or oils, and food products prepared from edible fats or oils), with the reasons why it is not a proper invoice. If such notice is not timely, then the designated billing office must adjust the due date for the purpose of determining an interest penalty, if any.

(c) *Authorization to pay.* All invoice payments, with the exception of interim payments on cost-reimbursement contracts for services, must be supported by a receiving report or other Government documentation authorizing payment (*e.g.*, Government certified voucher). The agency receiving official should forward the receiving report or other Government documentation to the designated payment office by the 5th working day after Government acceptance or approval, unless other arrangements have been made. This period of time does not extend the due dates prescribed in this section. Acceptance should be completed as expeditiously as possible. The receiving report or other Government documentation authorizing payment must, as a minimum, include the following:

(1) Contract number or other authorization for supplies delivered or services performed.

(2) Description of supplies delivered or services performed.

(3) Quantities of supplies received and accepted or services performed, if applicable.

(4) Date supplies delivered or services performed.

(5) Date that the designated Government official—

(i) Accepted the supplies or services; or

(ii) Approved the progress payment request, if the request is being made under the clause at 52.232-5, Payments Under Fixed-Price Construction Contracts, or the clause at 52.232-10, Payments Under Fixed-Price Architect-Engineer Contracts.

(6) Signature, printed name, title, mailing address, and telephone number of the designated Government official responsible for acceptance or approval functions.

(d) *Billing office.* The designated billing office must immediately annotate each invoice with the actual date it receives the invoice.

(e) *Payment office.* The designated payment office will annotate each invoice and receiving report with the actual date it receives the invoice.

32.906 Making payments.

(a) *General.* The Government will not make invoice payments earlier than 7 days prior to the due dates specified in the contract unless the Public Printer determines—

(1) To make earlier payment on a case-by-case basis; or

(2) That the use of accelerated payment methods are necessary (see 32.903(a)(5)).

(b) *Payment office.* The designated payment office—

(1) Will mail checks on the same day they are dated;

(2) For payments made by EFT, will specify a date on or before the established due date for settlement of the payment at a Federal Reserve Bank;

(3) When the due date falls on a Saturday, Sunday, or legal holiday when Government offices are closed, may make payment on the following working day without incurring a late payment interest penalty.

(4) When it is determined that the designated billing office erroneously rejected a proper invoice and upon resubmission of the invoice, will enter in the payment system the original date the invoice was received by the designated billing office for the purpose of calculating the correct payment due date and any interest penalties that may be due.

(c) *Partial deliveries.* (1) Contracting officers must, where the nature of the work permits, write contract statements of work and pricing arrangements that allow contractors to deliver and receive invoice payments for discrete portions of the work as soon as completed and found acceptable by the Government (see 32.102(d)).

(2) Unless specifically prohibited by the contract, the clause at 52.232-1, Payments, provides that the contractor is entitled to payment for accepted partial deliveries of supplies or partial performance of services that comply with all applicable contract requirements and for which prices can be calculated from the contract terms.

(d) *Contractor identifier.* Each payment or remittance advice will use the contractor invoice number in addition to any Government or contract information in describing any payment made.

(e) *Discounts.* When a discount for prompt payment is taken, the designated payment office will make payment to the contractor as close as possible to, but not later than, the end of the discount period. The discount period is specified by the contractor and is calculated from the date of the contractor's proper invoice. If the contractor has not placed a date on the invoice, the due date is calculated from the date

the designated billing office receives a proper invoice, provided the agency annotates such invoice with the date of receipt at the time of receipt. When the discount date falls on a Saturday, Sunday, or legal holiday when Government offices are closed, the designated payment office may make payment on the following working day and take a discount. Payment terms are specified in the clause at 52.232-8, Discounts for Prompt Payment.

32.907 [Reserved]

32.908 Contract clauses.

(a) Insert the clause at 52.232-26, Prompt Payment for Fixed-Price Architect-Engineer Contracts, in solicitations and contracts that contain the clause at 52.232-10, Payments Under Fixed-Price Architect-Engineer Contracts.

(1) As authorized in 32.904(c)(2), the contracting officer may modify the date in paragraph (a)(4)(i) of the clause to specify a period longer than 7 days for constructive acceptance or constructive approval, if required to afford the Government a practicable opportunity to inspect and test the supplies furnished or evaluate the services performed.

(2) As provided in 32.903, agency policies and procedures may authorize amendment of paragraphs (a)(1)(i) and (ii) of the clause to insert a period shorter than 30 days (but not less than 7 days) for making contract invoice payments.

(b) Insert the clause at 52.232-27, Prompt Payment for Construction Contracts, in all solicitations and contracts for construction (see Part 36).

(1) As authorized in 32.904(d)(1)(i)(B), the contracting officer may modify the date in paragraph (a)(1)(i)(A) of the clause to specify a period longer than 14 days if required to afford the Government a reasonable opportunity to adequately inspect the work and to determine the adequacy of the Contractor's performance under the contract.
