TITLE I—ADOPTION OF REVISED TARIFF SCHEDULES

SEC. 101. (a) The Tariff Act of 1930, as amended, is amended by striking out titles I and II (19 U.S.C. 1001 and 1201) and, subject to subsection (b) of this section and to sections 102 and 103 of this Act,

46 Stat. 590, 672.

(b) Such new title I (hereinafter in this Act referred to as the "Tariff Schedules of the United States") shall consist of—

(1) the general headnotes and rules of interpretation;

(2) schedules 1 to 8, inclusive; and

(3) the appendix to the tariff schedules;

all as set forth in the report of the United States Tariff Commission (hereinafter in this Act referred to as the "Commission") entitled "Tariff Classification Study, Proposed Revised Tariff Schedules of the United States", dated November 15, 1960, as changed by the "First Supplemental Report" (January, 1962); and

(4) subject to subsection (c), such changes in the provisions identified in paragraphs (1), (2), and (3) of this subsection as the Commission decides—

(A) are necessary to reflect changes in tariff treatment made by statute or under authority of law, arising either before the date of the enactment of this Act or on or after such date of enactment and before the date on which the Tariff Schedules of the United States is published pursuant to subsection (d), or

(B) are otherwise necessary.

In its determinations under this paragraph, the Commission shall apply the standards it applied in its report of November 15, 1960, referred to above.

Supplemental reports to President and Congress.

(c)(1) The Commission shall include the changes provided for in subsection (b)(4), together with the reasons therefor, in one or more supplemental reports which shall be promptly published and submitted to the President and the Congress. The delivery to the Senate and to the House of Representatives shall be made on the same day. In its supplemental reports the Commission shall include written views submitted to the Commission, and testimony before the Commission, with respect to provisions of the proposed Tariff Schedules of the United States, together with the comments of the Commission on such views and testimony.

(2)(A) No change submitted pursuant to the authority contained in subsection (b)(4)(B) shall become effective unless, following the date on which the supplemental report containing such change was submitted to the Congress and before the date on which the Tariff Schedules of the United States is published pursuant to subsection (d), a period of 60 calendar days of continuous session of the Congress has elapsed.

(B) For purposes of subparagraph (A)—

(i) continuity of session shall be considered as broken only by an adjournment of the Congress sine die; but

(ii) in the computation of the 60-day period there shall be excluded the days on which either House is not in session because of an adjournment of more than 3 days to a day certain.

(3) No changes included by the Commission in any supplemental report submitted after the date of the enactment of this Act shall become effective unless included in the Tariff Schedules of the United States as published pursuant to subsection (d).

(d) At the earliest practicable date before the date of the proclamation of the President provided for by section 102, the President shall cause the Tariff Schedules of the United States to be published.

(4) the nations or areas and countries set forth in general headnote 3(d) of the Tariff Schedules of the United States (relating to the treatment of products of certain Communist-dominated nations or areas and countries discriminating against American commerce).

SEC. 103. The provisions of the Tariff Schedules of the United States as made effective on the date provided by section 501 shall have the status of statutory provisions duly enacted by the Congress, except for—

(1) the rates of duty in rate column numbered 1 of the tariff schedules proclaimed pursuant to paragraph (1) of section 102 which are lower than the rates of duty in rate column numbered 2 of such schedules for the corresponding items; and

(2) the provisions proclaimed by the President pursuant to paragraphs (2), (3), and (4) of section 102.

SEC. 104. During the period between the date of the enactment of this Act and the effective date of the Tariff Schedules of the United States—

(1) all public notices which refer to articles in terms of their tariff descriptions and which are issued in connection with investigations by the Commission or other agency, and all findings or recommendations made during such period by any such agency with respect thereto (including findings or recommendations in connection with investigations instituted before the date of the enactment of this Act), shall make reference to the prospectively applicable provisions of such schedules, as determined by the Commission, as well as to the existing provisions; and

(2) the Commission shall furnish to the President, upon request, any of its outstanding findings restated so as to conform to the Tariff Schedules of the United States to the fullest extent practicable consistent with the purposes of title I of the Customs Simplification Act of 1954. 68 Stat. 1136.

(b) If such a protest filed under section 516(b) is sustained in whole or in part by a decision of the United States Customs Court or of the United States Court of Customs and Patent Appeals, the liquidations covering articles of the character covered by such court decision, which are entered, or withdrawn from warehouse, for consumption after the date of publication of such court decision, shall be suspended until final disposition is made in accordance with subsection (c).

(c) If such a protest filed under section 516(b) is not sustained in whole or in part by a final judicial decision, the entries made before the effective date of the Tariff Schedules of the United States shall be liquidated in accordance with such final decision, and all other entries shall be liquidated subject to such schedules. If such a protest is sustained in whole or in part by a final judicial decision, the entries made before the effective date of the Tariff Schedules of the United States shall be liquidated in accordance with such final decision, and the Commission shall report to the President such changes in the Tariff Schedules of the United States as the Commission decides are necessary to conform them to the fullest practicable extent to the substance of such final decision. The President shall, as soon as practicable, proclaim such changes. The changes shall be effective with respect to entries, the liquidation of which was suspended in accordance with subsection (b), covering articles entered, or withdrawn from warehouse, for consumption on or after the effective date of the Tariff Schedules of the United States.

"SEC. 312. BONDED SMELTING AND REFINING WAREHOUSES.

"(a) Any plant engaged in smelting or refining, or both, of metal-bearing materials as defined in this section may, upon the giving of

satisfactory bond, be designated a bonded smelting or refining warehouse. Metal-bearing materials may be entered into a bonded smelting or refining warehouse without the payment of duties thereon and there smelted or refined, or both, together with metal-bearing materials of domestic or foreign origin. Upon arrival of imported metal-bearing materials at the warehouse they shall be sampled according to commercial methods and assayed, both under customs supervision. The bond shall be charged with a sum equal in amount to the duties which would be payable on such metal-bearing materials in their condition as imported if entered for consumption, and the bond charge shall be adjusted to reflect changes in the applicable rate of duty occurring while the imported materials are still covered by the bond.

"(b) The several charges against such bond may be canceled in whole or in part—

"(1) upon the exportation from the bonded warehouses which treated the metal-bearing materials, or from any other bonded smelting or refining warehouse, of a quantity of the same kind of metal contained in any product of smelting or refining of metal-bearing materials equal to the dutiable quantity contained in the imported metal-bearing materials less wastage provided for in subsection (c), or

"(2) upon payment of duties on the dutiable quantity of metal contained in the imported metal-bearing materials, or

"(4) upon the transfer of the bond charges to a bonded customs warehouse other than a bonded smelting or refining warehouse by physical shipment of a quantity of the same kind of metal contained in any product of smelting or refining equal to the dutiable quantity contained in the imported metal-bearing materials less wastage provided for in subsection (c), and upon withdrawal from such other warehouse for exportation or domestic consumption the provisions of this section shall apply, or

"(5) upon the transfer to another bonded smelting or refining warehouse without physical shipment of metal of bond charges representing a quantity of dutiable metal contained in imported metal-bearing materials less wastage provided for in subsection (c) of the plant of initial treatment of such materials provided there is on hand at the warehouse to which the transfer is made sufficient like metal in any form to satisfy the transferred bond charges.

"(c) For purposes of paragraphs (1), (3), (4), and (5) of subsection (b), due allowances shall be made for wastage of metals other than copper, lead, and zinc, as ascertained from time to time by the Secretary of the Treasury.

"(d) Upon the exportation of a product of smelting or refining other than refined metal the bond shall be credited with a quantity of metal equivalent to the quantity of metal contained in the product exported less the proportionate part of the deductions allowed for losses in determination of the bond charge being cancelled that would not ordinarily be sustained in production of the specific product exported as ascertained from time to time by the Secretary of the Treasury.

"(e) Two or more smelting or refining warehouses may be included under one general bond and the quantities of each kind of metal sub-

ject to duty on hand at all of such warehouses may be aggregated to satisfy the bond obligation.

GENERAL HEADNOTES AND RULES OF INTERPRETATION

1. Tariff Treatment of Imported Articles. All articles imported into the customs territory of the United States from outside thereof are subject to duty or exempt therefrom as prescribed in general headnote 3.

2. Customs Territory of the United States. The term "customs territory of the United States", as used in the schedules, includes only the States, the District of Columbia, and Puerto Rico.

3. Rates of Duty. The rates of duty in the "Rates of Duty" columns numbered 1 and 2 of the schedules apply to articles imported into the customs territory of the United States as hereinafter provided in this headnote:

(a) Products of Insular Possessions.

(i) Articles imported from insular possessions of the United States which are outside the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the schedules, except that all articles the growth or product of any such possession, or manufactured or produced in any such possession from materials the growth, product, or manufacture of any such possession or of the customs territory of the United States, or of both, which do not contain foreign materials to the value of more than 50 percent of their total value, coming to the customs territory of the United States directly from any such possession, and all articles previously imported into the customs territory of the United States with payment of all applicable duties and taxes imposed upon or by reason of importation which were shipped from the United States, without remission, refund, or drawback of such duties or taxes, directly to the possession from which they are being returned by direct shipment, are exempt from duty.

(ii) In determining whether an article produced or manufactured in any such insular possession contains foreign materials to the value of more than 50 percent, no material shall be considered foreign which, at the time such article is entered, may be imported into the customs territory from a foreign country, other than Cuba or the Philippine Republic, and entered free of duty.

(b) Products of Cuba. Products of Cuba imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty set forth in column numbered 1 of the schedules. Preferential rates of duty for such products apply only as shown in the said column 1. 1/

(c) Products of the Philippine Republic.

(i) Products of the Philippine Republic imported into the customs territory of the United States, whether imported directly or indirectly, are subject to the rates of duty which are set forth in column numbered 1 of the schedules or to fractional parts of the rates in the said column 1, as hereinafter prescribed in subdivisions (c)(ii) and (c)(iii) of this headnote.

(ii) Except as otherwise prescribed in the schedules, a Philippine article, as defined in subdivision (c)(iv) of this headnote, imported into the customs territory of the United States and entered on or before July 3, 1974, is subject to that rate which results from the application of the following percentages to the most favorable rate of duty (i.e., including a preferential rate prescribed for any product of Cuba) set forth in column numbered 1 of the schedules:

(A) 20 percent, during calendar years 1963 through 1964,

(B) 40 percent, during calendar years 1965 through 1967,

(C) 60 percent, during calendar years 1968 through 1970,

(D) 80 percent, during calendar years 1971 through 1973,

(E) 100 percent, during the period from January 1, 1974, through July 3, 1974.

(iii) Except as otherwise prescribed in the schedules, products of the Philippine Republic, other than Philippine articles, are subject to the rates of duty (except any preferential rates prescribed for products of Cuba) set forth in column numbered 1 of the schedules.

(iv) The term "Philippine article", as used in the schedules, means an article which is the product of the Philippines, but does not include any article produced with the use of materials imported into the Philippines which are products of any foreign country (except materials produced within the customs territory of the United States) if the aggregate value of such imported materials when landed at the Philippine port of entry, exclusive of any landing cost and Philippine duty, was more than 20 percent of the appraised customs value of the article imported into the customs territory of the United States.

(d) Products of Communist Countries. Notwithstanding any of the foregoing provisions of this headnote, the rates of duty shown in column numbered 2 shall apply to products, whether imported directly or indirectly, of the following countries and areas pursuant to section 401 of the Tariff Classification Act of 1962, to section 231 or 257(a)(2) of the Trade Expansion Act of 1962, or to action taken by the President thereunder:

Albania
Bulgaria
China (any part of which may be under Communist domination or control)
Cuba 2/
Czechoslovakia
Estonia
Germany (the Soviet zone and the Soviet sector of Berlin)
Hungary
Indochina (any part of Cambodia, Laos, or Vietnam which may be under Communist domination or control)
Korea (any part which may be under Communist domination or control)
Kurile Islands
Latvia
Lithuania
Outer Mongolia
Rumania
Southern Sakhalin
Tanna Tuva
Tibet
Union of Soviet Socialist Republics and the area in East Prussia under the provisional administration of the Union of Soviet Socialist Republics.

1/ By virtue of section 401 of the Tariff Classification Act of 1962, the application to products of Cuba of either a preferential or other reduced rate of duty in column 1 is suspended. See general headnote 3(d), infra. The provisions for preferential Cuban rates continue to be reflected in the schedules because, under section 401, the rates therefor in column 1 still form the bases for determining the rates of duty applicable to certain products, including "Philippine articles".

2/ In Proclamation 3447, dated February 3, 1962, the President, acting under authority of section 620(a) of the Foreign Assistance Act of 1961 (75 Stat. 445), as amended, prohibited the importation into the United States of all goods of Cuban origin and all goods imported from or through Cuba, subject to such exceptions as the Secretary of the Treasury determines to be consistent with the effective operation of the embargo.

(e) Products of All Other Countries. Products of all countries not previously mentioned in this headnote imported into the customs territory of the United States are subject to the rates of duty set forth in column numbered 1 of the schedules.

(f) Effective Date; Exceptions - Staged Rates of Duty. Except as specified below or as may be specified elsewhere, pursuant to section 501(a) of the Tariff Classification Act of 1962 (P.L. 87-456, approved May 24, 1962), the rates of duty in columns numbered 1 and 2 become effective with respect to articles entered on or after the 10th day following the date of the President's proclamation provided for in section 102 of the said Act. If, in column numbered 1, any rate of duty or part thereof is set forth in parenthesis, the effective date shall be governed as follows:

(i) If the rate in column numbered 1 has only one part (i.e., 8¢ (10¢) per lb.), the parenthetical rate (viz., 10¢ per lb.) shall be effective as to articles entered before July 1, 1964, and the other rate (viz. 8¢ per lb.) shall be effective as to articles entered on or after July 1, 1964.

(ii) If the rate in column numbered 1 has two or more parts (i.e., 5¢ per lb. + 50% ad val.) and has a parenthetical rate for either or both parts, each part of the rate shall be governed as if it were a one-part rate. For example, if a rate is expressed as "4¢ (4.5¢) per lb. + 8% (9%) ad val.", the rate applicable to articles entered before July 1, 1964, would be "4.5¢ per lb. + 9% ad val."; the rate applicable to articles entered on or after July 1, 1964, would be "4¢ per lb. + 8% ad val.".

(iii) If the rate in column numbered 1 is marked with an asterisk (*), the foregoing provisions of (i) and (ii) shall apply except that "January 1, 1964" shall be substituted for "July 1, 1964", wherever this latter date appears.

4. Modification or Amendment of Rates of Duty. Except as otherwise provided in the Appendix to the Tariff Schedules --

(a) a statutory rate of duty supersedes and terminates the existing rates of duty in both column numbered 1 and column numbered 2 unless otherwise specified in the amending statute;

(b) a rate of duty proclaimed pursuant to a concession granted in a trade agreement shall be reflected in column numbered 1 and, if higher than the then existing rate in column numbered 2, also in the latter column, and shall supersede but not terminate the then existing rate (or rates) in such column (or columns);

(c) a rate of duty proclaimed pursuant to section 336 of the Tariff Act of 1930 shall be reflected in both column numbered 1 and column numbered 2 and shall supersede but not terminate the then existing rates in such columns; and

(d) whenever a proclaimed rate is terminated or suspended, the rate shall revert, unless otherwise provided, to the next intervening proclaimed rate previously superseded but not terminated or, if none, to the statutory rate.

5. Intangibles. For the purposes of headnote 1 --

(a) corpses, together with their coffins and accompanying flowers,

(b) currency (metal or paper) in current circulation in any country and imported for monetary purposes,

(c) electricity,

(d) securities and similar evidences of value, and

(e) vessels which are not "yachts or pleasure boats" within the purview of subpart D, part 6, of schedule 6,

are not articles subject to the provisions of these schedules.

6. Containers or Holders for Imported Merchandise. For the purposes of the tariff schedules, containers or holders are subject to tariff treatment as follows:

(a) Imported Empty: Containers or holders if imported empty are subject to tariff treatment as imported articles and as such are subject to duty unless they are within the purview of a provision which specifically exempts them from duty.

(b) Not Imported Empty: Containers or holders if imported containing or holding articles are subject to tariff treatment as follows:

(i) The usual or ordinary types of shipping or transportation containers or holders, if not designed for, or capable of, reuse, are not subject to treatment as imported articles. Their cost, however, is, under section 402 or section 402a of the tariff act, a part of the value of their contents and if their contents are subject to an ad valorem rate of duty such containers or holders are, in effect, dutiable at the same rate as their contents, except that their cost is deductible from dutiable value upon submission of satisfactory proof that they are products of the United States which are being returned without having been advanced in value or improved in condition by any means while abroad.

(ii) The usual or ordinary types of shipping or transportation containers or holders, if designed for, or capable of, reuse, are subject to treatment as imported articles separate and distinct from their contents. Such holders or containers are not part of the dutiable value of their contents and are separately subject to duty upon each and every importation into the customs territory of the United States unless within the scope of a provision specifically exempting them from duty.

(iii) In the absence of context which requires otherwise, all other containers or holders are subject to the same treatment as specified in (ii) above for usual or ordinary types of shipping or transportation containers or holders designed for, or capable of, reuse.

7. Commingling of Articles. (a) Whenever articles subject to different rates of duty are so packed together or mingled that the quantity or value of each class of articles cannot be readily ascertained by customs officers (without physical segregation of the shipment or the contents of any entire package thereof), by one or more of the following means:

(i) sampling,

(ii) verification of packing lists or other documents filed at the time of entry, or

(iii) evidence showing performance of commercial settlement tests generally accepted in the trade and filed in such time and manner as may be prescribed by regulations of the Secretary of the Treasury,

the commingled articles shall be subject to the highest rate of duty applicable to any part thereof unless the consignee or his agent segregates the articles pursuant to subdivision (b) hereof.

(b) Every segregation of articles made pursuant to this headnote shall be accomplished by the consignee or his agent at the risk and expense of the consignee within 30 days (unless the Secretary authorizes in writing a longer time) after the date of personal delivery or mailing, by such employee as the Secretary of the Treasury shall designate, of written notice to the consignee that the articles are commingled and that the quantity or value of each class of articles cannot be readily ascertained by customs officers. Every such segregation shall be accomplished under customs supervision, and the compensation and expenses of the supervising customs officers shall be reimbursed to the Government by the consignee under such regulations as the Secretary of the Treasury may prescribe.

(c) The foregoing provisions of this headnote do not apply with respect to any part of a shipment if the consignee or his agent furnishes, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof —

(i) that such part (A) is commercially negligible, (B) is not capable of segregation without excessive cost, and (C) will not be segregated prior to its use in a manufacturing process or otherwise, and

(ii) that the commingling was not intended to avoid the payment of lawful duties.

Any article with respect to which such proof is furnished shall be considered for all customs purposes as a part of the article, subject to the next lower rate of duty, with which it is commingled.

(d) The foregoing provisions of this headnote do not apply with respect to any shipment if the consignee or his agent shall furnish, in such time and manner as may be prescribed by regulations of the Secretary of the Treasury, satisfactory proof —

(i) that the value of the commingled articles is less than the aggregate value would be if the shipment were segregated;

(ii) that the shipment is not capable of segregation without excessive cost and will not be segregated prior to its use in a manufacturing process or otherwise; and

(iii) that the commingling was not intended to avoid the payment of lawful duties.

Any merchandise with respect to which such proof is furnished shall be considered for all customs purposes to be dutiable at the rate applicable to the material present in greater quantity than any other material.

(e) The provisions of this headnote shall apply only in cases where the schedules do not expressly provide a particular tariff treatment for commingled articles.

9. Definitions. For the purposes of the schedules, unless the context otherwise requires —

(a) the term "entered" means entered, or withdrawn from warehouse, for consumption in the customs territory of the United States;

(b) the term "entered for consumption" does not include withdrawals from warehouse for consumption;

(c) the term "withdrawn for consumption" means withdrawn from warehouse for consumption and does not include articles entered for consumption;

(d) the term "rate of duty" includes a free rate of duty; rates of duty proclaimed by the President shall be referred to as "proclaimed" rates of duty; rates of duty enacted by the Congress shall be referred to as "statutory" rates of duty; and the rates of duty in column numbered 2 at the time the schedules become effective shall be referred to as "original statutory" rates of duty;

(e) the term "ton" means 2,240 pounds, and the term "short ton" means 2,000 pounds;

(f) the terms "of", "wholly of", "almost wholly of", "in part of" and "containing", when used between the description of an article and a material (e.g., "furniture of wood", "woven fabrics, wholly of cotton", etc.), have the following meanings:

(i) "of" means that the article is wholly or in chief value of the named material;

(ii) "wholly of" means that the article is, except for negligible or insignificant quantities of some other material or materials, composed completely of the named material;

(iii) "almost wholly of" means that the essential character of the article is imparted by the named material, notwithstanding the fact that significant quantities of some other material or materials may be present; and

(iv) "in part of" or "containing" mean that the article contains a significant quantity of the named material.

With regard to the application of the quantitative concepts specified in subparagraphs (ii) and (iv) above, it is intended that the de minimus rule apply.

10. General Interpretative Rules. For the purposes of these schedules —

(a) the general, schedule, part, and subpart headnotes, and the provisions describing the classes of imported articles and specifying the rates of duty or other import restrictions to be imposed thereon are subject to the rules of interpretation set forth herein and to such other rules of statutory interpretation, not inconsistent therewith, as have been or may be developed under administrative or judicial rulings;

(b) the titles of the various schedules, parts, and subparts and the footnotes therein are intended for convenience in reference only and have no legal or interpretative significance;

(c) an imported article which is described in two or more provisions of the schedules is classifiable in the provision which most specifically describes it; but, in applying this rule of interpretation, the following considerations shall govern:

(i) a superior heading cannot be enlarged by inferior headings indented under it but can be limited thereby;

(ii) comparisons are to be made only between provisions of coordinate or equal status, i.e., between the primary or main superior headings of the schedules or between coordinate inferior headings which are subordinate to the same superior heading;

(d) if two or more tariff descriptions are equally applicable to an article, such article shall be subject to duty under the description for which the original statutory rate is highest, and, should the highest original statutory rate be applicable to two or more of such descriptions, the article shall be subject to duty under that one of such descriptions which first appears in the schedules;

(e) in the absence of special language or context which otherwise requires —

(i) a tariff classification controlled by use (other than actual use) is to be determined in accordance with the use in the United States at, or immediately prior to,

the date of importation, of articles of that class or kind to which the imported articles belong, and the controlling use is the chief use, i.e., the use which exceeds all other uses (if any) combined;

(iii) a tariff classification controlled by the actual use to which an imported article is put in the United States is satisfied only if such use is intended at the time of importation, the article is so used, and proof thereof is furnished within 3 years after the date the article is entered;

(f) an article is in chief value of a material if such material exceeds in value each other single component material of the article;

(g) a headnote provision which enumerates articles not included in a schedule, part, or subpart is not necessarily exhaustive, and the absence of a particular article from such headnote provision shall not be given weight in determining the relative specificity of competing provisions which describe such article;

(h) unless the context requires otherwise, a tariff description for an article covers such article, whether assembled or not assembled, and whether finished or not finished;

(ij) a provision for "parts" of an article covers a product solely or chiefly used as a part of such article, but does not prevail over a specific provision for such part.

11. Issuance of Rules and Regulations. The Secretary of the Treasury is hereby authorized to issue rules and regulations governing the admission of articles under the provisions of the schedules. The allowance of an importer's claim for classification, under any of the provisions of the schedules which provide for total or partial relief from duty or other import restrictions on the basis of facts which are not determinable from an examination of the article itself in its condition as imported, is dependent upon his complying with any rules or regulations which may be issued pursuant to this headnote.

12. The Secretary of the Treasury is authorized to prescribe methods of analyzing, testing, sampling, weighing, gauging, measuring, or other methods of ascertainment whenever he finds that such methods are necessary to determine the physical, chemical, or other properties or characteristics of articles for purposes of any law administered by the Customs Service.

	Part 12 headnotes:		
	1. This part covers only products which are fit for use as beverages or for beverage purposes.		
	2. Each and every gauge or wine gallon of measurement is counted as at least one proof gallon; and the standard for determining the proof of brandy and other spirits or liquors of any kind when imported is the same as that which is defined in the laws relating to internal revenue. The Secretary of the Treasury, in his discretion, may authorize the ascertainment of the proof of wines, cordials, or other liquors and fruit juices by distillation or otherwise, when it is impracticable to ascertain such proof by the means prescribed by existing law or regulations.		
	3. The duties prescribed on products covered by this part are in addition to the internal-revenue taxes imposed under existing law or any subsequent Act. The duties imposed on products covered by this part which are subject also to internal-revenue taxes are imposed only on the quantities subject to such taxes.		
	4. Provisions for the free entry of certain samples of alcoholic beverages are covered by part 5 of schedule 8.		
	Subpart A. - Fruit Juices		
	Subpart A headnotes:

Any juice having a degree of concentration of less than 1.5 (as determined before correction to the nearest 0.5 degree) shall be regarded as a natural unconcentrated juice.		
	5. In determining the degree of concentration of mixed fruit juices (item 165.65), the mixture shall be considered as being wholly of the component juice having the lowest Brix value.

	Subpart D. - Feathers, Downs, Bristles, and Hair		
	Subpart D headnotes:		
	1. For the purposes of this subpart, the term "treated" means cleaned, disinfected, or treated for preservation.		
	2. (a) Except as provided in (b) and (c) of this headnote, the importation of the feathers or skin of any bird is hereby prohibited. Such prohibition shall apply to the feathers or skin of any bird — (i) whether raw or processed; (ii) whether the whole plumage or skin or any part of either; (iii) whether or not attached to a whole bird or any part thereof; and (iv) whether or not forming part of another article.		
	(b) Headnote 2(a) shall not apply — (i) in respect of any of the following birds (other than any such bird which, whether or not raised in captivity, is a wild bird): chickens (including hens and roosters), turkeys, guinea fowl, geese, ducks, pigeons, ostriches, rheas, English ring-necked pheasants, and pea fowl; (ii) to any importation for scientific or educational purposes; (iii) to the importation of fully-manufactured artificial flies used for fishing; (iv) to the importation of birds which are classifiable under item 813.20 of schedule 8; and (v) to the importation of live birds.		
	(c) Notwithstanding headnote 2(a), there may be entered in each calendar year the following quotas of skins bearing feathers: (i) for use in the manufacture of artificial flies used for fishing: (A) not more than 5,000 skins of grey jungle fowl (Gallus sonneratii), and (B) not more than 1,000 skins of mandarin duck (Dendronessa galericulata); and (ii) for use in the manufacture of artificial flies used for fishing, or for millinery purposes, not more than 45,000 skins, in the aggregate, of the following species of pheasant: Lady Amherst pheasant (Chrysolophus amherstiae), golden pheasant (Chrysolophus pictus), silver pheasant (Lophura nycthemera), Reeves pheasant (Syrmaticus reevesii), blue-eared pheasant (Crossoptilon auritum), and brown-eared pheasant (Crossoptilon mantchuricum). For the purposes of these quotas, any part of a skin which has been severed shall be considered to be a whole skin.		
	(d) No article specified in headnote 2(c) shall be entered except under a permit issued by the Secretary of the Interior. The Secretary of the Interior shall prescribe such regulations as may be necessary to carry out the purposes and provisions of headnote 2(c) (including regulations providing for

	equitable allocation among qualified applicants of the import quotas established by such provisions). Whenever the Secretary of the Interior finds that the wild supply of any species mentioned in headnote 2(c) is threatened with serious reduction or with extinction, he shall prescribe regulations which provide (to such extent and for such period as he deems necessary to meet such threat) — (i) In the case of grey jungle fowl or mandarin duck, for the reduction of the applicable import quota; or (ii) In the case of any species of pheasant, for the reduction of the import quota established for pheasants, for the establishment of a subquota for such species of pheasant, or for the elimination of such species from the import quota for pheasants, or any combination thereof. The authority granted to the Secretary of the Interior by the preceding sentence to reduce any import quota shall include authority to eliminate such quota. (e) Any article of a kind the importation of which is prohibited or subjected to a quota by headnotes 2(a), (b), and (c) and which is in the United States shall be presumed for the purposes of seizure and forfeiture to have been imported in violation of law and shall be seized and forfeited under the customs laws unless such presumption is satisfactorily rebutted; except that such presumption shall not apply to articles in actual use for personal adornment or for scientific or educational purposes. Any article so forfeited may (in the discretion of the Secretary of the Treasury and under such regulations as he may prescribe) (1) be placed with any agency of the Federal Government or of any State government, or any society or museum, for exhibition or scientific or educational purposes, or (2) be destroyed. (f) Nothing in these headnotes shall be construed to repeal the provisions of the Act of March 4, 1913, chapter 145 (Thirty-seventh Statutes at Large, page 847), or the Act of July 3, 1918 (Fortieth Statutes at Large, page 755), or any other law of the United States, now of force, intended for the protection or preservation of birds within the United States. If on investigation by the collector before seizure, or before trial for forfeiture, or if at such trial if such seizure has been made, it shall be made to appear to the collector, or the prosecuting officer of the Government, as the case may be, that no illegal importation of such feathers has been made, but that the possession, acquisition or purchase of such feathers is or has been made in violation of the provisions of the Act of March 4, 1913, chapter 145 (Thirty-seventh Statutes at Large, page 847), or the Act of July 3, 1918 (Fortieth Statutes at Large, page 755), or any other law of the United States, now of force, intended for the protection or preservation of birds within the United States, it shall be the duty of the collector, or such prosecuting officer, as the case may be, to report the facts to the proper officials of the United States, or State or Territory charged with the duty of enforcing such laws. ———

Subpart B. - Lumber, Flooring, and Moldings

Subpart B headnotes:

1. This subpart covers lumber, wood siding, wood flooring, wood moldings, and certain wood carvings and ornaments, including such products when they have been drilled or treated.

2. For the purposes of this part, the following terms have the meanings hereby assigned to them:

(a) Lumber: A product of a sawmill or sawmill and planing mill derived from a log by lengthwise sawing which, in its original sawed condition, has at least 2 approximately parallel flat longitudinal sawed surfaces, and which may be rough, dressed, or worked, as set forth below:

(i) rough lumber is lumber just as it comes from the saw, whether in the original sawed size or edged, resawn, crosscut, or trimmed to smaller sizes;

(ii) dressed lumber is lumber which has been dressed or surfaced by planing on at least one edge or face; and

(iii) worked lumber is lumber which has been matched (provided with a tongued-and-grooved joint at the edges or ends), shiplapped (provided with a rabbeted or lapped joint at the edges), or patterned (shaped at the edges or on the faces to a patterned or molded form) on a matching machine, sticker, or molder.

Edge-glued or end-glued wood over 6 feet in length and not over 15 inches in width shall be classified as lumber if such wood as a solid piece without glue joints would be deemed to be lumber as defined above.

(b) Softwood: Wood from trees of coniferous species (order Coniferae).

(c) Hardwood: Wood from trees of non-coniferous species.

(d) Drilled or treated: Drilled at intervals for nails, screws, or bolts, sanded or otherwise surface processed in lieu of, or in addition to, planing or working, or treated with creosote or other wood preservatives, or with fillers, sealers, waxes, oils, stains, varnishes, paints, or enamels, but not including anti-stain or other temporary applications mentioned in headnote 4 of this subpart.

(e) Standard wood moldings: Wood moldings worked to a pattern and having the same profile in cross section throughout their length.

Item	Articles	Rates of Duty 1	Rates of Duty 2
	3. Lumber, including certain flooring provided for in this subpart, is dutiable on the basis of "board measure" for which the unit of measurement is the board foot. For the purposes of this subpart, a board foot is the quantity of lumber contained in, or derived (by drying, dressing, or working, or any combination of these processes) from, a piece of rough green lumber 1 inch in thickness, 12 inches in width, and 1 foot in length, or the equivalent of such piece in other dimensions.		
	4. The treatment of lumber or other products provided for in this subpart with anti-stain or other temporary applications which serve only for the purpose of maintaining the products in their rough, dressed, or worked condition until installation or further manufacture shall not affect their classification under any of the provisions of this subpart.

	Part 1 headnotes:		
	1. For the purposes of this part — (a) the term "waste" means all fiber, yarn, and thread wastes, including wastes obtained in the production of continuous and noncontinuous fibers, yarns, and threads, such as gin motes, scutcher waste (including tow), picker waste, card waste, top waste, comber waste (including nolls), hackling waste (including tow), silver waste, roving waste, ring waste, throwster (twister or plyer) waste, fly, sweepings, and willowed wastes, and including fiber, yarn, and thread wastes obtained in the production of other textile products (i. e., products other than fibers, yarns, or threads) or otherwise obtained; and (b) the term "advanced waste" means any of the above-mentioned wastes which have been cleaned, bleached, colored, or otherwise advanced, and includes fibers recovered by cleaning (except willowing), degumming, carbonizing, cutting, pickering, garnetting or similar processes from any of the above-mentioned wastes or from textile clippings or articles, new or used, whether or not such fibers or the wastes from which recovered have also been otherwise advanced, but does not include fibers which have been carded, combed, or similarly processed, or reuseable yarns or threads.		
	2. Rags and scrap cordage are covered in part 7C of this schedule.		
	Subpart A. - Cotton		
	Subpart A headnotes:		
	1. The term "number", as applied to yarns in this subpart, means the number of 840-yard hanks of yarn in 1 pound. To determine the number of any yarn, whether single or plied, the actual yards per pound shall be divided by 840 and the quotient thereof multiplied by the number of plies in such yarn. Fractions in the resulting yarn number shall be disregarded.		
	2. In this subpart, each of the rates of duty provided for yarns, wholly of cotton, not bleached, mercerized, colored, combed or plied (items 301.01 through 301.98, inclusive) is also the "base rate" for yarn of the same number covered by item 302.--. For citation purposes, the two blanks on the end of the latter item number shall be filled in with the last two digits of the item number for the applicable base rate. Thus, "item 302.28" would be the citation for bleached, mercerized, colored, combed, or plied yarns, wholly of cotton, of number 28.		
	3. Under regulations prescribed by the Secretary of the Treasury, the staple length of cotton shall be determined for all customs purposes by application of the Official Cotton Standards of the United States for length of staple, as established by the Secretary of Agriculture and in effect when the determination is to be made.

(b) the term "clean lb." in the rate columns means pound of clean yield;

(c) the term "clean yield", in the foregoing headnote, means the absolute clean content (i.e., all that portion of the merchandise which consists exclusively of wool or hair free of all vegetable and other foreign material, containing by weight 12 percent of moisture and 1.5 percent of material removable from the wool or hair by extraction with alcohol, and having an ash content of not over 0.5 percent by weight), less an allowance, equal by weight to 0.5 percent of the absolute clean content plus 60 percent of the vegetable matter present, but not exceeding 15 percent by weight of the absolute clean content, for wool or hair that would ordinarily be lost during commercial cleaning operations;

* See general headnote 3(f)(iii).

Item	Articles	Rates of Duty	
	(d) wool or hair "on the skin" includes all skins or skin pieces from which wool or hair is commercially recoverable by any process (except wool or hair on the skin provided for in part 5B of schedule 1; except wool or hair on the skin which has been cleaned otherwise than by shaking, willowing, burr-picking, or washing with water only; and except tanned-skin scrap); (e) wool or hair "In the grease" is wool or hair in its natural condition as separated from the animal or skin, whether or not cleaned by shaking, willowing, or burr-picking, but not otherwise cleaned; (f) "washed" wool or hair is wool or hair, not on the skin, that has been washed, with water only, while on the animal's back or on the skin, whether or not cleaned by shaking, willowing, or burr-picking, but not otherwise cleaned; (g) "scoured" wool or hair is wool or hair, whether or not on the skin, (except wool or hair in the grease or washed) that has been cleaned by any process other than shaking, willowing, burr-picking, washing with water only, or carbonizing; (h) "carbonized" wool or hair is wool or hair whether or not on the skin that has been cleaned by carbonizing in lieu of, or in addition to, any other cleaning process, whether or not neutralized or neutralized and dusted; and (i) "sorted" wool or hair is wool or hair separated from each individual fleece according to length, soundness, elasticity, fineness, color, or other properties, but does not include a skirted fleece unless the back has been removed, and does not include skirtings. 2. The standards for determining grades of wool shall be those which are established from time to time by the Secretary of Agriculture pursuant to law and which are in effect on the date of importation of the wool. 3. For the purposes of item 307.40 — (a) the classification provisions for wool not finer than 40s shall apply to any package of wool containing not over 10 percent by weight of wool finer than 40s but not containing wool finer than 44s; (b) the classification provisions for wool finer than 40s but not finer than 44s shall apply to any package of wool containing not over 10 percent by weight of wool finer than 44s but not containing wool finer than 46s; and (c) the citation for imports classifiable under this item shall be such item number followed by the item number for the part of the contents of the package which determines the rate of duty. 4. For the purposes of item 306.00 — (a) a tolerance of not more than 10 percent of wools not finer than 48s may be allowed in each bale or package of wools imported as not finer than 46s. (b) wool or hair shall not be released from customs custody unless the dealer, manufacturer, or processor files a bond to insure that any wool or hair entered thereunder shall be used only in the manufacture of the articles enumerated in the said item;		

Item	Articles	Rates of Duty	
	(c) a dealer, manufacturer, or processor may be relieved of liability under his bond with respect to any wool or hair entered under item 306.00 which is transferred in its imported or any other form to another dealer, manufacturer, or processor who has filed a bond to insure that the merchandise so transferred shall be used only in the manufacture of the articles enumerated in item 306.00; and (d) the Secretary of the Treasury is authorized to prescribe such regulations and the amounts, conditions, and forms of such bonds as may be necessary to carry into effect the provisions of item 306.00. 5. For the purposes of items 306.01, 306.02, 306.03, and 306.04, when wool or hair entered as provided for in item 306.00 is used, or transferred for use, otherwise than in the manufacture of the articles enumerated therein — (a) the duties shall be paid by the dealer, manufacturer, or processor whose bond is charged with the wool or hair at the time of such use or transfer for such use, but such duties shall not be levied or collected on any merchandise which is destroyed or exported; (b) if prior to such use or transfer for such use there shall have been combined or mixed with such wool or hair any other merchandise, the whole of the combination or mixture shall be regarded as being composed of wool or hair entered under item 306.00, unless the dealer, manufacturer, or processor liable for the payment of the duties shall establish the quantity of bonded wool or hair in such combination or mixture; (c) every dealer, manufacturer, or processor who has given a bond pursuant to the provisions of item 306.00 shall report any transfer or use of merchandise contrary to the terms of his bond, within 30 days after such transfer or use, to the collector of customs in whose district the bond is filed, and for failure to so report such dealer, manufacturer, or processor shall be liable to a penalty (in addition to the duties provided for) equal to the value of the merchandise so transferred or used at the time and place of such transfer or use; and (d) the clean yield of any wool or hair provided for in item 306.04 shall be deemed to be 100 percent, unless the actual clean yield, as defined in headnote 1(c), supra, has been determined by suitable tests, and such use, or transfer for use, occurs not later than 3 years after the date of entry of such wool or hair. 6. The Secretary of the Treasury is hereby authorized and directed to prescribe methods and regulations for carrying out the provisions of this schedule relating to the duties on wool or hair. The Secretary of the Treasury is further authorized and directed to procure from the Secretary of Agriculture, and deposit in such customhouses and other places in the United States or elsewhere as he may designate, sets of the Official Standards of the United States for grades of wool. He is further authorized to display, in the customhouses of the United States, or elsewhere, numbered, but not otherwise identified, samples of imported wool or hair, to which are attached data as to clean yield and other pertinent facts, for the information of the trade and of customs officers. ———

(b) Subject to the limitations set forth in headnotes 1 and 3 of this subpart, the respective provisions in this subpart for filaments, strips, and fibers cover such articles whether they are formed by extrusion or by other processes from substances derived by man from cellulosic or noncellulosic materials by chemical processes, such as, but not limited to, polymerization and condensation; (c) the provisions of this subpart applicable to grouped filaments and fibers include grouped glass filaments and glass fibers produced therefrom, suitable for the manufacture of yarns, cordage, or woven fabrics. For the purposes of the provisions of the tariff schedules applicable to articles of man-made fibers, glass filaments and glass fibers shall be treated as man-made fibers only if they have been made into yarns or cordage, or if they are present in fabrics or other articles in the form of yarns or cordage.

	Subpart A. - Woven Fabrics, of Cotton		
	Subpart A headnotes:		
	1. (a) In the ascertainment of the condition of the fabrics or yarns upon which the duties imposed upon cotton fabrics are made to depend, the entire fabric and all parts thereof shall be included. (b) The term "number", as applied to woven fabrics of cotton, means the average yarn number of the yarns contained therein. In computing the average yarn number, the length of the yarn is considered to be equal to the distance covered by it in the fabric in the condition as imported, with all clipped yarn being measured as if continuous, and with the count being taken of the total single yarns in the fabric including the single yarns in any plied yarns. The weight shall be taken after any excessive sizing is removed by boiling or other suitable process. Any one of the following formulas can be used to determine the average yarn number for tariff purposes: $N = \frac{BYT}{840}$, or $\frac{24T}{35Z'}$, or $\frac{28T}{105Z}$, or $\frac{35T}{70}$ when: N is the average yarn number, B is the breadth (width) of the fabric in inches, Y is the yards (linear) of fabric per pound, T is the total single yarns per square inch, S is the square yards of fabric per pound, Z is the ounces per linear yard of fabric, and Z' is the ounces per square yard of fabric.		
	2. In this subpart, each of the rates of duty provided for fabric, wholly of cotton, not fancy or figured, and not bleached and not colored (items 320.01 through 320.98, inclusive) is also the "base rate" for fabrics of the same average yarn number covered by items 321.-- through 331.--, inclusive. For citation purposes, the two blanks on the end of each of the latter item numbers shall be filled in with the last two digits of the item number for the applicable base rate. Thus, "item 324.45" would be the citation for woven fabrics, wholly of cotton, of number 45, fancy or figured, and bleached but not colored.

	3. The term "fancy or figured", as used in this subpart in relation to fabrics, means fabrics which have been woven with 2 or more colors or kinds of filling; with 8 or more harnesses; or with jacquard, lappet, or swivel attachments; or by any combination of these weaving methods.		
	4. None of the ad valorem rates of duty, or the ad valorem parts of the compound rates of duty, set forth in the Rates of Duty columns for Items 320.01 through 320.98 shall be less than the equivalent of 0.3 cents per number per pound in rate column 1, or less than 0.55 cents per number per pound in rate column 2.

	PART 4. - FABRICS OF SPECIAL CONSTRUCTION OR FOR SPECIAL PURPOSES; ARTICLES OF WADDING OR FELT; FISH NETS; MACHINE CLOTHING		
	Part 4 headnote:		
	1. This part covers certain textile fabrics and, in addition, certain other textile products. The provisions of subpart B of this part and the provisions for "fish netting and fishing nets" in subpart C hereof do not cover gauze and leno-woven fabrics. Woven textile fabrics not specially provided for in this part are provided for in part 3 of this schedule.		
	Subpart A. - Knit, Pile, Tufted, and Narrow Fabrics; Braids, and Elastic Fabrics		
	Subpart A headnotes:		
	1. This subpart provides for the named fabrics, braids, and elastic materials, when in the piece only. Any fabric described in this subpart and also in subpart B or C of this part is classifiable in the said subpart B or C. This subpart does not cover — (i) braids suitable for making or ornamenting headwear (see part 1B of schedule 7); or (ii) rubber or plastics filaments (see part 1E of schedule 3 and part 12B of schedule 7).		
	2. For the purposes of the tariff schedules — (a) the term "narrow fabrics" means (i) woven or knit fabrics, not over 12 inches in width, with fast edges (that is, with both edges made or treated to prevent the fabric from unraveling, by means of selvages, stitching, gumming, fusing, or simple hemming); or (ii) seamless woven or knit tubings which, when flattened, are not over 12 inches in width; or (iii) bias binding consisting of strips, not over 12 inches in width, cut on the bias from woven or knit fabrics and folded and creased on the edges; (b) the term "elastic", as used to describe yarns, cordage, braids, and fabrics, means that such articles possess elasticity which is attributable in whole or in part to rubber.		
	3. Any article described in more than one superior heading of this subpart is classifiable under the last such heading in which it is described.

Schedule 4 headnotes:

1. This schedule does not include --
   (i) any of the mineral products provided for in schedule 5;
   (ii) metal-bearing ores and other metal-bearing materials, provided for in part 1 of schedule 6; or
   (iii) metals provided for in part 2 of schedule 6.

2. (a) The term "compounds", as used in this schedule, means substances occurring naturally or produced artificially by the reaction of two or more ingredients, each compound --
   (i) consisting of two or more elements,
   (ii) having its own characteristic properties different from those of its elements and from those of other compounds, and
   (iii) always consisting of the same elements united in the same proportions by weight with the same internal arrangement.

The presence of impurities which occur naturally or as an incident to production does not in itself affect the classification of a product as a compound.

(b) The term "compounds", as used in this schedule, includes a solution of a single compound in water, and, in determining the amount of duty on any such compound subject to duty in this schedule at a specific rate, an allowance in weight or volume, as the case may be, shall be made for the water in excess of any water of crystallization which may have been in the compound.

3. (a) The term "mixtures", as used in this schedule, means substances consisting of two or more ingredients (i.e., elements or compounds), whether occurring as such in nature, or whether artificially produced (i.e., brought about by mechanical, physical, or chemical means), which do not bear a fixed ratio to one another and which, however thoroughly commingled, retain their individual chemical properties and are not chemically united. The fact that the ingredients of a product are incapable of separation or have been commingled in definite proportions does not in itself affect the classification of such product as a mixture.

(b) The term "mixtures", as used in this schedule, includes solutions, except solutions defined as compounds in headnote 2(b) of this schedule.

	PART 1. - BENZENOID CHEMICALS AND PRODUCTS		
	Part 1 headnotes:		
	1. Except as specifically set forth in the headnotes to other parts of this schedule, all products described in this part shall be classified hereunder even if more specifically described elsewhere in this schedule. Any product described in both subparts B and C of this part shall be classified in subpart C.		
	2. For the purposes of this part, the term "modified benzenoid" describes a molecular structure having at least one six-membered heterocyclic ring which contains at least four carbon atoms and having an arrangement of molecular bonds as in the benzene ring or in the quinone ring, but does not include any such molecular structure in which one or more pyrimidine rings are the only modified benzenoid rings present.		
	3. With the exception of the natural products provided for in subpart C, this part does not cover cyclic organic chemical products (such as, but not limited to, tannic, gallic and pyrogallic acids; estrone, estradiol, and corticosteroids; morphine, ergot, and cinchona alkaloids; rotenone; phenylalanine; tyrosine; epinephrine; and thymols) having a benzenoid, quinoid, or modified benzenoid structure, which are produced from animal or vegetable products in which such structure occurs naturally, unless such cyclic organic chemical products were obtained, derived, or manufactured in part from any product provided for in subpart A, B or C of this part.		
	4. The ad valorem rates provided in this part shall be based upon the American selling price, as defined in section 402 or 402a of this Act, of any similar competitive article manufactured or produced in the United States. If there is no similar competitive article manufactured or produced in the United States then the ad valorem rate shall be based upon the United States value, as defined in the said section 402 or 402a.		
	5. For the purposes of this part, any product provided for in this part shall be considered similar to, or competitive with, any imported product which accomplishes results substantially equal to those accomplished by the domestic product when used in substantially the same manner.

Subpart C. - Finished Organic Chemical Products

Subpart C headnotes:

1. The provisions of this subpart providing for products obtained, derived, or manufactured in whole or in part from products described in subparts A or B of this part shall also apply to products of like chemical composition having a benzenoid, quinoid, or modified benzenoid structure artificially produced by synthesis, whether or not obtained, derived, or manufactured in whole or in part from products described in the said subpart A or B.

2. The term "pesticides" in item 405.15 means products, such as insecticides, rodenticides, fungicides, herbicides, fumigants, and seed disinfectants, chiefly used to destroy undesired animal or plant life.

3. The term "plastics materials" in item 405.25 embraces products formed by the condensation, polymerization, or copolymerization of organic chemicals and to which plasticizers, fillers, colors, or extenders may have been added. The term includes, but is not limited to, phenolic and other tar-acid resins, styrene resins, alkyd and polyester resins based on phthalic anhydride, coumarone-indene resins, urethane, epoxy, toluene sulfonamide, maleic, fumaric, aniline, and polyamide resins, and other synthetic resins. The plastic materials may be in solid, semi-solid, or liquid condition, such as flakes, powders, pellets, granules, solutions, emulsions, and other basic forms not further processed.

4. The term "plasticizers" in item 405.40 means substances which may be incorporated into a material (usually a plastic, resin material, or an elastomer) to increase its softness, flexibility, workability, or distensibility.

5. The term "drugs" in this subpart means those substances having therapeutic or medicinal properties and chiefly used as medicines or as ingredients in medicines.

	6. For the purposes of the provisions of this subpart relating to "Colors, dyes, stains, and related products" (except products provided for in item 406.80) — (a) the specific duties shall be based on standards of strength which shall be established by the Secretary of the Treasury, and upon all importations of such articles which exceed such standards of strength the specific duty shall be computed on the weight which the article would have if it were diluted to the standard strength, but in no case shall any such articles of whatever strength be subject to a less specific duty than that provided in the respective items of this subpart; (b) it shall be unlawful to import or bring into the United States any such product unless the invoice shall bear a plain, conspicuous, and truly descriptive statement of the identity and percentage, exclusive of diluents, of such product; (c) it shall be unlawful to import or bring into the United States any such product, if the immediate container or the invoice bears any statement, design, or device regarding the product or the ingredients or substances contained therein which is false, fraudulent, or misleading in any particular; and (d) in the enforcement of the foregoing provisions of this headnote the Secretary of the Treasury shall adopt a standard of strength for each dye or other product which shall conform as nearly as practicable to the commercial strength in ordinary use in the United States prior to July 1, 1914. If a dye or other product has been introduced into commercial use since said date then the standard of strength for such dye or other product shall conform as nearly as practicable to the commercial strength in ordinary use. If a dye or other product was or is ordinarily used in more than one commercial strength, then the lowest commercial strength shall be adopted as the standard of strength for such dye or other product. ———

	PART 3. - DRUGS AND RELATED PRODUCTS Part 3 headnotes: 1. Any product described in this part which is a mixture containing as an ingredient any product described in part 1 of this schedule remains classifiable in part 3 unless the part 1 ingredient, as used in the mixture, imparts therapeutic or medicinal properties thereto. Notwithstanding the provisions of part 1 of this schedule, niacin, niacinamide, meso-inositol hexanicotinate, and pyridoxine (vitamin B_6), regardless of source, are classifiable in part 3 of this schedule. 2. For the purposes of the tariff schedules, the term "drugs" means those substances, whether natural or synthetic, having therapeutic or medicinal properties and chiefly used as medicines or as ingredients in medicines. 3. For the purposes of this part — (a) "natural substances" are those substances found in nature which comprise whole plants and herbs, anatomical parts thereof, vegetable saps, extracts, secretions and other constituents thereof; whole animals, anatomical parts thereof, glands or other animal organs, extracts, secretions and other constituents thereof, and which have not had changes made in their molecular structure as found in nature; (b) a "synthetic substance" is a chemical compound made by the artificial combination of elements or radicals by any physical or chemical process; (c) the term "crude", as used in relation to natural products, means any product which has not been advanced in value or improved in condition by shredding, grinding, chipping, crushing, distilling, evaporating, extracting, by artificial mixing with other substances or by any other process or treatment beyond that which is essential to its proper packing and the prevention of decay or deterioration pending manufacture; and (d) the term "advanced", as used in relation to natural products, means any product which has been advanced in value or improved in condition from its crude state by any mechanical or physical process whatever beyond that which is essential to its proper packing and the prevention of decay or deterioration pending manufacture, but does not include any product which has been artificially mixed with other substances or the molecular structure of which as found in nature has been changed. Subpart A. - Natural Drugs, Crude or Advanced Subpart A headnote: 1. This subpart covers only products which are natural drugs, crude or advanced.

	Subpart A. - Synthetic Resins and Plastics Materials		
	Subpart A headnotes:		
	1. This subpart does not cover synthetic plastics materials provided for in part IC of this schedule, but the addition of any product described in part I of this schedule to a synthetic plastics material described in this subpart as a plasticizer, filler, color, or extender does not affect the classification of such synthetic plastics material in this subpart.		
	2. The term "synthetic plastics materials", in this subpart, embraces products formed by the condensation, polymerization, or copolymerization of organic chemicals and to which plasticizers, fillers, colors, or extenders may have been added. These products contain as an essential ingredient an organic substance of high molecular weight; are capable, at some stage during processing into finished articles, of being molded or shaped by flow; and are solid in the finished article. The term includes, but is not limited to, such products derived from esters of acrylic or methacrylic acid; vinyl acetate, vinyl chloride resins, polyvinyl alcohol, acetals, butyral, formal resins, polyvinyl ether and ester resins, and polyvinylidene chloride resins; urea and amino resins; polyethylene, polypropylene, and other polyalkene resins; siloxanes, silicones, and other organo-silicon resins; alkyd, acrylonitrile, allyl, and formaldehyde resins; and cellulosic plastics materials. These synthetic plastics materials may be in solid, semi-solid, or liquid condition such as flakes, powders, pellets, granules, solutions, emulsions, and other basic crude forms not further processed.

The provision in this subpart for artists', students', and children's pigments and paints assembled into sets (item 474.08) covers only pigments and paints assembled in such container and form, and with such assortment of articles, as to be suitable for sale at retail to artists, students, or children as a paint set, kit, or color outfit.		
	2. The term "paints and enamel paints" in this subpart covers dispersions of pigments or pigment-like materials with a liquid (vehicle) which are suitable for application to surfaces as a thin layer, and which dry (harden) to an opaque, solid film. The vehicle of paints consists of drying oils or resins which bind the pigment particles together in the film; and the vehicle of enamel paints is principally varnish. Paints and enamel paints may also contain thinners, driers, plasticizers, or other agents.		
	3. The term "varnishes" in this subpart covers liquid surface-coating products which contain no pigments or pigment-like materials, and which dry (harden) to a transparent or translucent film. Shellac varnishes are solutions of shellac or any other form of lac in a volatile solvent such as ethyl alcohol. Oleoresinous varnishes consist of resins dissolved in or reacted with a drying oil, to which thinners, driers, and plasticizers may be added. Cellulose-derivative varnishes (lacquers) are solutions of cellulose nitrate or other cellulose derivatives in a volatile solvent.		
	4. The term "stains" in this subpart covers liquids containing transparent or semi-transparent pigments, dyes, or chemicals, chiefly used to deepen or otherwise alter the color of wood, but which will not obscure its grain, texture, or markings.

	3. The duties imposed under item 602.10, 602.20, or 602.30 of this part on the copper, lead, or zinc contained in metal-bearing ores are cumulative duties which apply in addition to the duties, if any, otherwise imposed on such ores. 4. Dutiable Metal Content of Ores and Other Materials: (a) The specific rates of duty imposed under the provisions of this part on the metal content of ores and other materials shall apply to the quantity of metal contained therein as determined by chemical analysis without deductions, whether recovered as metals, as alloys, or as chemical compounds or used directly in the manufacture of articles, except as hereinafter provided in this headnote. (b) Allowable Absolute Deductions for Losses on Copper, Lead, or Zinc Content: With respect to ores or other materials provided for in this part which are subject to duty at specific rates on their copper, lead, or zinc content, absolute deductions from the respective quantities of each of such metal contents as determined by chemical analysis shall be allowed, except when losses which exceed such absolute deductions are allowable as provided in 4(c) of this headnote, as follows: (I) Materials initially treated at copper plants: (A) From the copper content, 2 units (B) From the lead content, 2 units plus 50 percent by weight of any remaining lead content (C) From the zinc content, 100 percent by weight (II) Materials initially treated at lead plants: (A) From the copper content, 2 units (B) From the lead content, 2 units (C) From the zinc content, 2 units or 20 percent by weight of the zinc content, whichever is greater (III) Materials initially treated at zinc plants: (A) From the copper content, 2 units (B) From the lead content, 2 units (C) From the zinc content, 6 units (IV) Materials initially treated at other plants: (A) From the copper content, 2 units (B) From the lead content, 2 units (C) From the zinc content, 2 units For the purposes of these provisions, one unit is 20 pounds of the respective metal per dry short ton of imported material. 	is lost in processing during the fiscal year at such plant, the rate of loss to be applied to the like content of materials imported during the 12-month period beginning on the first day of the calendar month nearest to 90 days after the close of the said fiscal year to be initially treated at such plant shall be the actual percentage by weight of such losses for such plant during the said fiscal year. (d) Claims for Deductions: The deductions provided for in 4(b) and 4(c), supra, do not apply to imported materials unless the importer, at the time entry for consumption or for warehouse is filed, makes claim therefor in writing and certifies as to the name, location, and status of the plant at which the materials are to be initially treated. If material with respect to which a certification has been filed is to be transferred to a plant for initial treatment other than the plant specified in the certification, the importer shall notify the collector at the port of entry in advance of the transfer of the material and the entry shall be liquidated or reliquidated on the basis of the allowable losses for the plant to which transfer is to be made. If the importer fails to so notify the collector or fails to transfer the material after having notified the collector of his intention to do so, no deductions shall be allowable on such material and liquidation or reliquidation of the entry shall be made accordingly. (e) Statements of Losses: If losses are to be claimed under headnote 4(c), supra, for a specific plant, the importer shall, not later than 60 days after the close of each fiscal year, file with the collector of customs of the customs collection district in which the plant is located, a statement of losses for said fiscal year for the plant involved and at the request of the importer said collector shall advise the collectors of customs at other ports designated by the importer of the rates of losses at the said plant. (f) Maintenance of Plant Records: Each plant for which any of the deductions provided for in this headnote are claimed shall maintain records showing the receipt and disposition of each shipment of materials received in the plant and, if losses are to be claimed under headnote 4(c), supra, a record of the losses experienced, and these records shall be made available for inspection by customs officers. 5. When, under the procedures set forth in headnote 5 of part 2C of this schedule, the market price of copper is considered to be below 24 cents per pound, a duty of 2 cents per pound on copper content shall apply in lieu of the duty of 1.7 cents per pound on copper content in column 1 of the Rates of Duty columns of items 602.30, 603.50, and 603.55. 6. When the classification of imported materials under any provision of this part is dependent on the percentage of metal content, such percentage shall be the ratio of the total quantity of the respective metal content to the total quantity of imported material when computed on a dry-weight basis, i.e., free of all uncombined moisture. ———

This part covers precious metals and base metals (including such metals when they are chemically pure), their alloys, and their so-called basic shapes and forms, and, in addition, covers metal waste and scrap. Unless the context requires otherwise, the provisions of this part apply to the products described by whatever process made (i.e., whether rolled, forged, drawn, extruded, cast or sintered) and whether or not such products have been subjected to treatments to improve the properties or appearance of the metals or to protect them against rusting, corrosion or other deterioration. These treatments include annealing, tempering, case-hardening and similar heat-treatments or nitriding; descaling, pickling, scraping, scalping and other processes to remove oxidation scale and crust; rough coating with oil, tar, grease, red lead, or other material to prevent rusting; polishing, burnishing, glazing, artificial oxidation, phosphatizing, and other finishing treatments; metallization by cementation, by electroplating, by immersion in a bath of molten metal, or by other means; coating with enamel, paint, lacquer, or other non-metallic substances; and cladding. This part does not include —

	2. Alloys. — (a) For the purposes of the tariff schedules, alloys are defined and classifiable as hereinafter set forth. Alloys are metallic substances consisting of two or more metals, or of one or more metals and one or more non-metals, intimately united, usually by having been fused together and which may or may not have been dissolved in each other when molten; they include sintered mixtures of metal powders and heterogeneous intimate mixtures obtained by fusion, but do not include substances in which the total weight of the metals does not equal or exceed the total weight of the non-metal components.		
	(b) Precious-metal alloys are alloys which contain 2 percent or more by weight of one or more metals of the platinum group, of gold, or of silver. Precious-metal alloys are classifiable as —		
	(i) alloys of platinum, if they contain 2 percent or more by weight of one or more metals of the platinum group;		
	(ii) alloys of gold, if they contain 2 percent or more by weight of gold, but contain no metal of the platinum group or less than 2 percent by weight thereof; and		
	(iii) alloys of silver, if they contain 2 percent or more by weight of silver, and are not alloys of platinum or alloys of gold, as defined in b(i) and b(ii), respectively, of this headnote.

Subpart C. - Copper 1/

Subpart C headnotes:

1. This subpart covers copper, its alloys, and their so-called basic shapes and forms, and in addition covers copper waste and scrap.

2. For the purposes of the tariff schedules, the following terms have the meanings indicated:

(a) Alloys of copper: Copper-base alloys or metals in which the copper content is, by weight, less than 99.3 percent, but not less than any other metallic element. For the purposes of this subpart —

(i) nickel silver is an alloy of copper which contains by weight 5 percent or more of zinc and 5 percent or more of nickel, with or without small quantities of other elements;

(ii) brass is an alloy of copper (not including nickel silver) in which zinc is the principal alloying element, with or without small quantities of other elements;

(iii) cupro-nickel is an alloy of copper in which nickel is the principal alloying element and which does not contain by weight over 2 percent of any other single element.

In the absence of context which requires otherwise, the term "copper", wherever used in the tariff schedules, includes alloys of copper.

1/ Copper waste and scrap and certain copper articles are the subject of temporary legislation. See part 1B of the Appendix to the Tariff Schedules.

	(b) Master alloys: Alloys of copper with other materials in any proportion, not usefully malleable and commonly used as raw material in the manufacture of other alloys or as de-oxidants, de-sulphurizing agents or for similar uses in the metallurgy of non-ferrous metals. For the purposes of this subpart — (i) manganese copper is a master alloy which contains copper and manganese, in which the manganese content ranges by weight from 5 to 45 percent, with copper the balance; and (ii) phosphor copper is a master alloy which contains phosphorus and copper, in which the phosphorus content ranges by weight from 5 to 16 percent, with copper the balance. 3. For the purposes of this subpart, the following terms have the meanings indicated: (a) Bars and plate: Products of solid rectangular cross section over 0.188 inch in thickness, in coils or cut to length, whether or not corrugated or crimped. Bars are not over 12 inches in width and plates are over 12 inches in width. (b) Sheets and strips: Products of solid rectangular cross section not over 0.188 inch but over 0.006 inch in thickness, in coils or cut to length, whether or not corrugated or crimped. Sheets are over 20 inches in width; strips are not over 20 inches in width and do not include flat wire, as defined in (d) below. (c) Rods: Products of round, half-round, quarter-round, oval, half-oval, triangular, pentagonal, hexagonal, octagonal, or decagonal solid cross section, in straight lengths or in coils, and which if in coils are over 0.375 inch in maximum cross-sectional dimension. (d) Wire: A non-tubular product of any cross-sectional configuration, which if flat is in coils or straight lengths, not over 1.25 inches in width, not over 0.188 inch in thickness, and has all surfaces rolled or drawn, and which if not flat is not over 0.375 inch in maximum cross-sectional dimension and is in coils. (e) Angles, shapes, and sections: Products which do not conform completely to the respective definitions set forth in this headnote for bars, plates, sheets, strip, rods, or wire, and do not include any tubular products. 4. For the purposes of this subpart, any continuous cast product, whether or not machined or otherwise processed, which is substantially comparable to, and suitable for the same general purposes as, a wrought product provided for in this subpart shall be classified under the same provision and at the same rate as such wrought product, notwithstanding the provisions of headnotes 3(a) and 3(c) of this part.

	5. Determination of Market Price of Copper for Rate of Duty Purposes.--(a) In this subpart, column 1 of the Rates of Duty columns has been divided into two columns, viz., 1-a and 1-b. The rates of duty in column 1-a apply when the market price of copper is 24 cents or more per pound, and the rates of duty in column 1-b apply when the market price of copper is under 24 cents per pound. (b) For the purposes of the provisions in part 1 of this schedule relating to copper-bearing materials covered by headnote 5 of said part 1, and of the provisions of this subpart, the market price of copper is the average market price per pound for one calendar month of electrolytic copper in standard shapes and sizes, delivered Connecticut Valley, as determined by the United States Tariff Commission and reported to the Secretary of the Treasury in accordance with procedures set forth below. (c) The market price of copper, as defined above, shall be considered to be below 24 cents per pound only on and after the 20th day after the date of a report by the United States Tariff Commission to the Secretary of the Treasury that it has determined that the said market price has been below 24 cents per pound for one calendar month. (d) After any report by the United States Tariff Commission to the Secretary of the Treasury as provided for in (b) above, the said market price shall be considered as not being below 24 cents per pound only on and after the 20th day after the date of a report by the said Commission to the said Secretary that it has determined that the said market price has been 24 cents or more per pound for one calendar month. (e) Determinations by the said Commission of the market price of electrolytic copper shall be based upon sources commonly resorted to by the buyers of copper in the usual channels of commerce, including, but not limited to, quotations of the market price for electrolytic copper, in standard shapes and sizes, delivered Connecticut Valley, reported by the Engineering and Mining Journal's "Metal and Mineral Markets". 6. The deductions provided for in headnote 4(b) of part 1 of this schedule shall apply to cement copper and copper precipitates (item 612.02) subject to the conditions specified in headnote 4 of said part 1.

Subpart E. - Watches, Clocks, and Timing Apparatus

Subpart E headnotes:

1. This subpart covers watches and clocks, time switches and other timing apparatus with clock or watch movements, and parts of these articles. This subpart, however, does not cover --
(i) synchronous or subsynchronous motors (see part 5 of schedule 6);
(ii) screws, nuts, and bolts (see part 30 of schedule 6);
(iii) music boxes and their mechanisms (see part 3 of schedule 7);
(iv) combination articles provided for elsewhere in the tariff schedules; or
(v) clock and watch glasses and glass domes (see part 3 of schedule 5).

2. For the purposes of this subpart --
(a) the term "watches" embraces timepieces (including timepieces having special features, such as chronographs, calendar watches, stopwatches, and watches designed for use in skindiving) suitable for wearing or carrying on or about the person, whether or not the movement therein is within the definition of "watch movement" in headnote 2(b), below;
(b) the term "watch movement" means a timepiece movement measuring less than 1.77 inches in width and less than 0.50 inch in thickness;
(c) the term "clock movement" means any movement or mechanism, other than "watch movements" as defined in headnote 2(b), above, intended or suitable for measuring time;
(d) the term "cases" embraces inner and outer cases, containers, and housings for movements, together with parts or pieces, such as, but not limited to, rings, feet, posts, bases, and outer

Item	Articles	Rates of Duty 1	Rates of Duty 2
	frames, and any auxiliary or incidental features, which (with appropriate movements) serve to complete the watches, clocks, time switches, and other apparatus provided for in this subpart; and (e) the term "jewels" includes substitutes for jewels. 3. (a) In this subpart, column 1 of the Rates of Duty columns with respect to watch movements having not over 7 jewels has been divided into two columns, viz., 1-a and 1-b. The rates of duty in columns 1-a apply to watch movements which have 7 jewels or which, if having less than 7 jewels, do not have a bushing or its equivalent (other than a substitute for a jewel) in any position customarily occupied by a jewel. The rates of duty in column 1-b apply to watch movements having under 7 jewels and having a bushing or its equivalent (other than a substitute for a jewel) in any position customarily occupied by a jewel. (b) The complete citation for watches covered by item 715.05 and clocks covered by item 715.15 shall be each of such item numbers, followed by the appropriate item numbers for the respective movements and cases comprising such watches or clocks. Thus, item 715.05-716.08-720.20 is the correct citation for a watch in a gold case having over 17 jewels. (c) In this subpart, each of the rates of duty provided for watch movements, having no jewels or not over 17 jewels, not adjusted, not self-winding, and not constructed or designed to operate for a period in excess of 47 hours without rewinding (items 716.10 through 716.36, inclusive) is also the "base rate" for watch movements having the same width and number of jewels covered by items 717.--, 718.--, and 719.--. For citation purposes, the two blanks on the end of each of the latter item numbers shall be filled in with the last two digits of the item number for the applicable base rate. Thus, "item 717.31" would be citation for an adjusted watch movement, 0.7 inch wide, having 17 jewels, but not self-winding and not constructed or designed to operate for a period in excess of 47 hours without rewinding. (d) The width of a watch or clock movement, as defined in headnote 2(b) and (c) of this subpart, is the shortest surface dimension through the center of the pillar or bottom plate, or its equivalent, not including in the measurement any portion not essential to the functioning of the movement; and the thickness of a "watch movement", as so defined, is the maximum thickness between the outside surfaces of the plate and bridges, or their equivalents. (e) The additional duty for adjustments to watch movements applies to each adjustment of whatever kind (treating adjustment to temperature as two adjustments), in accordance with the marking as hereinafter provided for. (f) Bimetallic balance wheels which are not part of balance assemblies, and mainsprings with riveted ends, are each to be considered as one part or piece, for the purposes of assessing duties on assemblies and subassemblies provided for in items 720.75, 720,80, 720.82, 720.84, and 720.86.

	4. Special Marking Requirements: Any movement, case, or dial provided for in this subpart, whether imported separately or attached to an article provided for in this subpart, shall not be permitted to be entered unless conspicuously and indelibly marked by cutting, die-sinking, engraving, or stamping, as specified below: (a) Watch movements shall be marked on one or more of the bridges or top plates to show — (i) the name of the country of manufacture, (ii) the name of the manufacturer or purchaser, (iii) in Arabic numerals and in words, the number of jewels, if any, serving a mechanical purpose as frictional bearings; and (iv) in Arabic numerals and in words, the number and classes of adjustments, or, if unadjusted, the word "unadjusted". (b) Clock movements shall be marked on the most visible part of the front or back plate to show — (i) the name of the country of manufacture, (ii) the name of the manufacturer or purchaser, and (iii) the number of jewels, if any. (c) Watch cases shall be marked on the inside or outside of the back cover to show — (i) the name of the country of manufacture, and (ii) the name of the manufacturer or purchaser. (d) Clock cases and other cases provided for in this subpart shall be marked on the most visible part of the outside of the back to show the name of the country of manufacture; and (e) Dials shall be marked to show the name of the country of manufacture, which marking, if the dial is imported attached to any of the articles provided for in this part, shall be placed on the face of the dial in such manner as not to be obscured by any part of the case.

	Subpart B. - Articles Advanced or Improved Abroad		
	Subpart B headnotes:		
	1. This subpart shall not apply to any article exported — (a) from continuous customs custody with remission, abatement, or refund of duty; (b) with benefit of drawback; (c) to comply with any law of the United States or regulation of any Federal agency requiring exportation; or (d) after manufacture or production in the United States under item 864.05 of this schedule.		
	2. Articles repaired, altered, processed, or otherwise changed in condition abroad.—The following provisions apply only to items 806.10, 806.20, and 806.30: (a) The value of repairs, alterations, processing, or other change in condition outside the United States shall be — (I) the cost to the importer of such change; or (II) if no charge is made, the value of such change, as set out in the invoice and entry papers; except that, if the appraiser concludes that the amount so set out does not represent a reasonable cost or value, then the value of the change shall be determined in accordance with section 402 or 402a of this Act. (b) No appraisement of the imported article in its changed condition shall be required unless necessary to a determination of the rate or rates of duty applicable to such article. (c) The duty upon the value of the change in condition shall be at the rate which would apply to the article itself, as an entirety without constructive separation of its components, in its condition as imported if it were not within the purview of this subpart. If the article, as returned to the United States, is subject to a specific or compound rate of duty, such rate shall be converted to the ad valorem rate which when applied to the full value of such article determined in accordance with section 402 or 402a of this Act would provide the same amount of duties as the specific or compound rate. In order to compute the duties due, the ad valorem rate so obtained shall be applied to the value of the change in condition made outside the United States.		
	3. Articles assembled abroad with components produced in the United States.—The following provisions apply only to item 807.00: (a) The value of the products of the United States assembled into the imported article shall be — (I) the cost of such products at the time of the last purchase; or (II) if no charge is made, the value of such products at the time of the shipment for exportation, as set out in the invoice and entry papers; except that, if the appraiser concludes that the amount so set out does not represent a reasonable cost or value, then the value of such products shall be determined in accordance with section 402 or 402a of this Act.
