MISLABELING/QUANTITY/LOOSE PACKING--PRICE REDUCTION

1. In addition to other inspection procedures detailed elsewhere in these specifications, each receiving office will inspect shipments for label accuracy, carton quantity, and loose packing. In the event one or more mislabeled cartons are discovered, each carton which must be opened and inspected and/or relabeled will reduce the contract price by \$2.00. In the event it is determined by the receiving office (either through the accompanying bills of lading for freight shipments or through association with other cartons received) that the contents of one or more cartons is wrong, thus resulting in a shortage of the item, the contractor will be charged the \$2.00 per carton inspection/relabeling fee mentioned above and will be required to make up the shortage for each affected office. In the event that cartons are crushing, collapsing, and/or bursting, and it is determined that the cause is due to the cartons not being packed solid, or some other reason within the contractor's control, the contractor will be charged \$2.00 per carton for repacking and repalletizing.

The GBL's will have designated carriers which the contractor MUST use. The contractor must give the designated carrier a minimum of two workdays notice for pick-up. The contractor does not have the authority to change a designated carrier without IRS authorization and will be responsible for any additional shipping costs in the event of an unauthorized change. The contractor must report any carrier-related problems to the IRS immediately. Telephone area code 202-622-7350, between the hours of 8:30 am -- 3:30 pm prevailing eastern time, on Federal workdays. If the carrier refuses the shipment, the contractor must provide the following information: contractor's name, location, date and time of shipment refusal, carrier name, name of carrier contact, GBL number, requisition number, and a brief description of the problem. If necessary the IRS may authorize the use of another carrier. All unused GBL's should be returned to the IRS, NOT the GPO.

If multiple small package carriers are to be used, an account will be assigned for each carrier. Contractors are required to ship using the designated carrier(s) and IRS account number(s) or be responsible for any additional shipping costs. In the event such information is not received in due time, the contractor will not be relieved of any responsibility in meeting the shipping schedule using the specified IRS SPC because of failure to request such information.
