COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS

ONE HUNDRED SEVENTH CONGRESS

JAMES M. JEFFORDS, Vermont, *Chairman*

MAX BAUCUS, Montana	BOB SMITH, New Hampshire
HARRY REID, Nevada	JOHN W. WARNER, Virginia
BOB GRAHAM, Florida	JAMES M. INHOFE, Oklahoma
JOSEPH I. LIEBERMAN, Connecticut	CHRISTOPHER S. BOND, Missouri
BARBARA BOXER, California	GEORGE V. VOINOVICH, Ohio
RON WYDEN, Oregon	MICHAEL D. CRAPO, Idaho
THOMAS R. CARPER, Delaware	LINCOLN CHAFEE, Rhode Island
HILLARY RODHAM CLINTON, New York	ARLEN SPECTER, Pennsylvania
JON S. CORZINE, New Jersey	PETE V. DOMENICI, New Mexico

KEN CONNOLLY, *Majority Staff Director*

DAVE CONOVER, *Minority Staff Director*

NOTE: Pursuant to the provisions of S. Res. 8, passed by the Senate on January 1, 2001, and because the ratio of Republicans and Democrats in the Senate was 50-50, the committee ratio became nine Republicans and nine Democrats at the convening of the 107th Congress.

Senator Reid, a Democrat, held the chairmanship until January 21, 2001, when Al Gore, a Democrat, vacated the office of Vice President of the United States. Senator Reid became Acting Chairman on June 6, 2001, when the Democratic Party assumed the majority of the Senate.

Senator Bob Smith, a Republican, assumed the chairmanship on January 21, 2001, upon the oath of office taken by Vice President Richard Cheney, a Republican.

Senator Jeffords, an Independent, was appointed as a member and chairman of the committee on July 10, 2001. The committee membership was expanded to 19 members; 1 Independent, 9 Democrats, and 9 Republicans.

During the second session of the 107th Congress, Senator Ben Nighthorse Campbell of Colorado resigned from the committee, and on April 23, 2002, Senator Pete V. Domenici of New Mexico was appointed to fill the vacancy.

STATUTORY AUTHORITY FOR RESOLUTIONS BY THE COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS

WATER RESOURCES RESOLUTIONS

Title 16, United States Code

Chapter 18. Watershed Protection and Flood Prevention

§ 1002. Definitions

For the purposes of this chapter, the following terms shall mean:
The “Secretary”—the Secretary of Agriculture of the United States.
“Works of improvement”—any undertaking for—

- (1) flood prevention (including structural and land treatment measures),
- (2) the conservation, development, utilization, and disposal of water, or
- (3) the conservation and proper utilization of land, in watershed or subwatershed area not exceeding two hundred and fifty thousand acres and not including any single structure which provides more than twelve thousand five hundred acre-feet of floodwater detention capacity, and more than twenty-five thousand acre-feet of total capacity. No appropriation shall be made for any plan involving an estimated Federal contribution to construction costs in excess of \$5,000,000, or which includes any structure which provides more than twenty-five hundred acre-feet of total capacity unless such plan has been approved by resolutions adopted by the appropriate committees of the Senate and House of Representatives: Provided, That in the case of any plan involving no single structure providing more than 4,000 acre-feet of total capacity the appropriate committees shall be the Committee on Agriculture, Nutrition, and Forestry of the Senate and the Committee on Agriculture of the House of Representatives and in the case of any plan involving any single structure of more than 4,000 acre-feet of total capacity the appropriate committees shall be the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives, respectively. Each project must contain benefits directly related to agriculture, including rural communities, that account for at least 20 percent of the total benefits of the project. A number of such subwatersheds when they are component parts of a larger watershed may be planned together when the local sponsoring organizations so desire.

“Local organization”—any State, political subdivision thereof, soil or water conservation district, flood prevention or control district, or combinations thereof, or any other agency having authority under State law to carry out, maintain and operate the works of improvement; or any irrigation or reservoir company, water users’ association, or similar organization having such authority and not being operated for profit that may be approved by the Secretary; or any Indian tribe or tribal organization, as defined in section 450b of title 25, having authority under Federal, State, or Indian tribal law to carry out, maintain, and operate the works of improvement.

Title 16, United States Code

Chapter 18. Watershed Protection and Flood Prevention

§ 1009. Joint investigations and surveys by Secretary of the Army and Secretary of Agriculture; reports to Congress

The Secretary of the Army and the Secretary of Agriculture, when authorized to do so by resolutions adopted by the Committee on Environment and Public Works of the Senate or the Committee on Public Works and Transportation of the House of Representatives, are authorized and directed to make joint investigations and surveys in accordance with their existing authorities of watershed areas in the United States, Puerto Rico, and the Virgin Islands, and to prepare joint reports on such investigations and surveys setting forth their recommendations for the installation of the works of improvement needed for flood prevention or the conservation, development, utilization, and disposal of water, and for flood control and allied purposes. Such joint reports shall be submitted to the Congress through the President for adoption and authorization by the Congress of the recommended works of improvement: Provided, That the project authorization procedure established by this chapter shall not be affected.

* * * * *

Title 33, United States Code

Chapter 12. River and Harbor Improvements

Subchapter I. General Provisions

§ 542. Review by Board of Engineers of reports on examinations and surveys and special reports

All reports on examinations and surveys authorized by law shall be reviewed by the Board of Engineers for Rivers and Harbors as provided for in section 541 of this title, and all special reports ordered by Congress shall, in the discretion of the Chief of Engineers, be reviewed in like manner by said board; and the said board shall also, on request by resolution of the Committee on Environment and Public Works of the Senate or the Committee on Public Works and Transportation of the House of Representatives, submitted to the Chief of Engineers, examine and review the report of any examination or survey made pursuant to any Act or resolution of Congress, and report thereon through the Chief of Engineers, United States Army, who shall submit his conclusions thereon as

in other cases: Provided, That in no case shall the board, in its report thus called for by committee resolution, extend the scope of the project contemplated in the original report upon which its examination and review has been requested, or in the provision of law authorizing the original examination or survey.

* * * * *

Title 33, United States Code
Chapter 15. Flood Control

§ 701b-7. Supplemental reports to Senate Environment and Public Works Committee and House Public Works Committee

After the Secretary of Agriculture has submitted to Congress a regular or formal report made on any examination or survey, pursuant to the Flood Control Act approved June 22, 1936, as amended and supplemented, a supplemental, additional, or review report or estimate may be made if authorized by law or by resolution of the Committee on Public Works and Transportation of the House of Representatives or the Committee on Environment and Public Works of the Senate.

* * * * *

Title 42, United States Code (The Public Health and Welfare)
Chapter 19b. Water Resources Planning
Subchapter IV. Miscellaneous Provisions

§ 1962d-5. Water resources development projects involving navigation, flood control, and shore protection

(a) Construction, operation, and maintenance; limitation on estimated Federal first cost of construction; Congressional committee approval of projects; reports to Congress

The Secretary of the Army, acting through the Chief of Engineers, is authorized to construct, operate, and maintain any water resource development project, including single and multiple purpose projects involving, but not limited to, navigation, flood control, and shore protection, if the estimated Federal first cost of constructing such project is less than \$15,000,000. No appropriation shall be made to construct, operate, or maintain any such project if such project has not been approved by resolutions adopted by the Committees on Public Works of the Senate and House of Representatives, respectively. For the purpose of securing consideration of such approval the Secretary shall transmit to Congress a report of such proposed project, including all relevant data and all costs.

(b) Local cooperation requirements based on certain estimated Federal first cost of construction

Any water resource development project authorized to be constructed by this section shall be subject to the same requirements of local cooperation as it would be if the estimated Federal first cost of such project were \$15,000,000 or more.

PUBLIC BUILDING RESOLUTIONS

Title 40. United States Code. (Public Buildings, Property, and Works)

Chapter 12. Construction, Alteration, and Acquisition of Public Buildings

§ 606. Approval of proposed projects by Congress

(a) Limitation of funds; transmission to Congress of prospectus of proposed project

In order to insure the equitable distribution of public buildings throughout the United States with due regard for the comparative urgency of need for such buildings, except as provided in section 603 of this title, no appropriation shall be made to construct, alter, purchase, or to acquire any building to be used as a public building which involves a total expenditure in excess of \$1,500,000 if such construction, alteration, purchase, or acquisition has not been approved by resolutions adopted by the Committee on Public Works of the Senate and House of Representatives, respectively. No appropriations shall be made to lease any space at an average annual rental in excess of \$1,500,000 for use for public purposes if such lease has not been approved by resolutions adopted by the Committee on Public Works of the Senate and House of Representatives, respectively. No appropriation shall be made to alter any building, or part thereof, which is under lease by the United States for use for a public purpose if the cost of such alteration would exceed \$750,000 unless such alteration has been approved by resolutions adopted by the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives. For the purpose of securing consideration for such approval, the Administrator shall transmit to the Congress a prospectus of the proposed facility, including (but not limited to)—

- (1) a brief description of the building to be constructed, altered, purchased, acquired, or the space to be leased under this chapter;
- (2) the location of the building or space to be leased and an estimate of the maximum to the United States of the facility to be constructed, altered, purchased, acquired, or the space to be leased;
- (3) a comprehensive plan for providing space for all Government officers and employees in the locality of the proposed facility or the space to be leased, having due regard for suitable space which may continue to be available in existing Government-owned or occupied buildings, especially such of those buildings as enhance the architectural, historical, social, cultural, and economic environment of the locality;
- (4) with respect to any project for the construction, alteration, purchase, or acquisition of any building, a statement by the Administrator that suitable space owned by the Government is not available and that suitable rental space is not available at a price commensurate with that to be afforded through the proposed action;

- (5) a statement by the Administrator of the economic and other justifications for not acquiring or purchasing a building or buildings identified to the Administrator pursuant to section 611(c) of this title as suitable for the public building needs of the Federal Government; and
- (6) a statement of rents and other housing costs currently being paid by the Government for Federal agencies to be housed in the building to be constructed, altered, purchased, acquired, or the space to be leased.

(b) Increase of estimated maximum cost

The estimated maximum cost of any project approved under this section as set forth in any prospectus may be increased by an amount equal to the percentage increase, if any, as determined by the Administrator, in construction, or alteration costs, as the case may be, from the date of transmittal of such prospectus to Congress, but in no event shall the increase authorized by this subsection exceed 10 per centum of such estimated maximum cost.

(c) Rescission of approval for failure to make appropriations for project

In the case of any project approved for construction, alteration, or acquisition by the Committees on Public Works of the Senate and of the House of Representatives, respectively, in accordance with subsection (a) of this section, for which an appropriation has not been made within one year after the date of such approval, either the Committee on Public Works of the Senate or the Committee on Public Works of the House of Representatives, may rescind, by resolution, its approval of such project at any time thereafter before such an appropriation has been made.

(d) Emergency leases by the Administrator

Nothing in this section shall be construed to prevent the Administrator from entering into emergency leases during any period declared by the President to require such emergency leasing authority, except that no such emergency lease shall be for a period of more than 180 days without approval of a prospectus for such lease in accordance with subsection (a) of this section.

(e) Limitation on leasing certain space

(1) General rule

The Administrator may not lease any space to accommodate—

- (A) computer and telecommunications operations;
- (B) secure or sensitive activities related to the national defense or security, except in any case in which it would be inappropriate to locate such activities in a public building or other facility identified with the United States Government; or
- (C) a permanent courtroom, judicial chamber, or administrative office for any United States court; if the average rental cost of leasing such space would exceed \$1,500,000.

(2) Exception

The Administrator may lease any space with respect to which paragraph (1) applies if the Administrator first determines, for reasons set forth in writing, that leasing such space is necessary to meet requirements which cannot be met in public buildings and submits such reasons to the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives.

(f) Dollar amount adjustment

Any dollar amount referred to in this section and section 603(b) of this title may be adjusted by the Administrator annually to reflect a percentage increase or decrease in construction costs during the preceding calendar year, as determined by the composite index of construction costs of the Department of Commerce. Any such adjustment shall be expeditiously reported to the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives.

* * * * *

Title 40. United States Code. (Public Buildings, Property, and Works)

Chapter 12 - Construction, Alteration, and Acquisition of Public Buildings

§ 610. Report to Congress; uncompleted projects; building project surveys

(a) Upon the request of either House of Congress, or any committee thereof, and within a reasonable time, the Administrator shall submit a report showing the location, space, cost, and status, of each public building the construction, alteration, or acquisition of which is to be under authority of this chapter and which was uncompleted as of the date of the request, or as of such other date as the request may designate.

(b) The Administrator and the United States Postal Service are authorized and directed to make such building project surveys as may be requested by resolution by either the Committee on Environment and Public Works of the Senate or the Committee on Public Works and Transportation of the House of Representatives, and within a reasonable time shall make a report thereon to the Congress. Such report shall contain all other information required to be included in a prospectus of the proposed public building project under section 606(a) of this title.

1st Session

United States Senate
COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS

COMMITTEE RESOLUTION

RESOLVED BY THE COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS OF THE UNITED STATES SENATE:

That, the Secretary of the Army is requested to review the report of the Army Corps of Engineers on the Chesapeake Bay Study, dated September 1984, and other pertinent reports, with a view to conducting a comprehensive study of shoreline erosion and related sediment management measures which could be undertaken to protect the water and land resources of the Chesapeake Bay watershed and achieve the water quality conditions necessary to protect the Bay's living resources. The study shall be conducted in cooperation with other Federal agencies, the State of Maryland, the Commonwealth of Virginia, and the Commonwealth of Pennsylvania, and their political subdivisions and agencies and instrumentalities thereof and the Chesapeake Bay Program, and shall evaluate structural and non-structural environmental enhancement opportunities and other innovative protection measures in the interest of ecosystem restoration and protection, and other allied purposes for the Chesapeake Bay.

COMMITTEE RESOLUTION

RESOLVED BY THE COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS OF THE UNITED STATES SENATE

Resolved by the Committee on Environment and Public Works of the United States Senate, that the Secretary of the Army is requested to review the report of the Army Corps of Engineers on the Chesapeake Bay Study, dated September 1984, and other pertinent reports, with a view to developing a coordinated, comprehensive master plan within the Corps mission areas for restoring, preserving and protecting the Chesapeake Bay ecosystem. The plan shall focus on integrating existing and future work of the Corps of Engineers, shall be developed in cooperation with State and local governments, other Federal agencies, the Chesapeake Bay Program, the Chesapeake Bay Commission, and the Chesapeake Executive Council, and shall encompass all Corps actions necessary to assist in the implementation of the goals of the 2000 Chesapeake Bay Agreement. The plan shall identify additional feasibility studies and research efforts required to better understand and solve the environmental problems of the Chesapeake Bay.
