

**§ 404.2010**

**20 CFR Ch. III (4-1-02 Edition)**

(b) *Policy used to determine whether to make representative payment.* (1) Our policy is that every beneficiary has the right to manage his or her own benefits. However, some beneficiaries due to a mental or physical condition or due to their youth may be unable to do so. Under these circumstances, we may determine that the interests of the beneficiary would be better served if we certified benefit payments to another person as a representative payee.

(2) If we determine that representative payment is in the interest of a beneficiary, we will appoint a representative payee. We may appoint a representative payee even if the beneficiary is a legally competent individual. If the beneficiary is a legally incompetent individual, we may appoint the legal guardian or some other person as a representative payee.

(3) If payment is being made directly to a beneficiary and a question arises concerning his or her ability to manage or direct the management of benefit payments, we will, if the beneficiary is 18 years old or older and has not been adjudged legally incompetent, continue to pay the beneficiary until we make a determination about his or her ability to manage or direct the management of benefit payments and the selection of a representative payee.

**§ 404.2010 When payment will be made to a representative payee.**

(a) We pay benefits to a representative payee on behalf of a beneficiary 18 years old or older when it appears to us that this method of payment will be in the interest of the beneficiary. We do this if we have information that the beneficiary is—

(1) Legally incompetent or mentally incapable of managing benefit payments; or

(2) Physically incapable of managing or directing the management of his or her benefit payments.

(b) Generally, if a beneficiary is under age 18, we will pay benefits to a representative payee. However, in certain situations, we will make direct payments to a beneficiary under age 18 who shows the ability to manage the benefits. For example, we make direct payments to a beneficiary under age 18 if the beneficiary is—

(1) Receiving disability insurance benefits on his or her own Social Security earnings record; or

(2) Serving in the military services; or

(3) Living alone and supporting himself or herself; or

(4) A parent and files for himself or herself and/or his or her child and he or she has experience in handling his or her own finances; or

(5) Capable of using the benefits to provide for his or her current needs and no qualified payee is available; or

(6) Within 7 months of attaining age 18 and is initially filing an application for benefits.

[47 FR 30472, July 14, 1982, as amended at 54 FR 35483, Aug. 28, 1989]

**§ 404.2015 Information considered in determining whether to make representative payments.**

In determining whether to make representative payment we consider the following information:

(a) *Court determinations.* If we learn that a beneficiary has been found to be legally incompetent, a certified copy of the court's determination will be the basis of our determination to make representative payment.

(b) *Medical evidence.* When available, we will use medical evidence to determine if a beneficiary is capable of managing or directing the management of benefit payments. For example, a statement by a physician or other medical professional based upon his or her recent examination of the beneficiary and his or her knowledge of the beneficiary's present condition will be used in our determination, if it includes information concerning the nature of the beneficiary's illness, the beneficiary's chances for recovery and the opinion of the physician or other medical professional as to whether the beneficiary is able to manage or direct the management of benefit payments.

(c) *Other evidence.* We will also consider any statements of relatives, friends and other people in a position to know and observe the beneficiary, which contain information helpful to us in deciding whether the beneficiary is able to manage or direct the management of benefit payments.
