

§ 5.701

unit, or whether the cost of security services should be borne by the owner from other project income.

[65 FR 16721, Mar. 29, 2000]

EFFECTIVE DATE NOTE: At 65 FR 16721, Mar. 29, 2000, § 5.661 was added. This section contains information collection and record-keeping requirements and will not become effective until approval has been given by the Office of Management and Budget.

Subpart G—Physical Condition Standards and Inspection Requirements

SOURCE: 63 FR 46577, Sept. 1, 1998, unless otherwise noted.

§ 5.701 Applicability.

(a) This subpart applies to housing assisted under the HUD programs listed in 24 CFR 200.853(a).

(b) This subpart applies to housing with mortgages insured or held by HUD, or housing that is receiving assistance from HUD, under the programs listed in 24 CFR 200.853(b).

(c) This subpart also applies to Public Housing (housing receiving assistance under the U.S. Housing Act of 1937, other than under section 8 of the Act).

(d) For purposes of this subpart, the term “HUD housing” means the types of housing listed in paragraphs (a), (b), and (c) of this section.

[63 FR 46577, Sept. 1, 1998, as amended at 65 FR 77240, Dec. 8, 2000]

§ 5.703 Physical condition standards for HUD housing that is decent, safe, sanitary and in good repair (DSS/GR).

HUD housing must be decent, safe, sanitary and in good repair. Owners of housing described in § 5.701(a), mortgagors of housing described in § 5.701(b), and PHAs and other entities approved by HUD owning housing described in § 5.701(c), must maintain such housing in a manner that meets the physical condition standards set forth in this section in order to be considered decent, safe, sanitary and in good repair. These standards address the major areas of the HUD housing: the site; the building exterior; the building systems;

24 CFR Subtitle A (4–1–03 Edition)

the dwelling units; the common areas; and health and safety considerations.

(a) *Site*. The site components, such as fencing and retaining walls, grounds, lighting, mailboxes/project signs, parking lots/driveways, play areas and equipment, refuse disposal, roads, storm drainage and walkways must be free of health and safety hazards and be in good repair. The site must not be subject to material adverse conditions, such as abandoned vehicles, dangerous walks or steps, poor drainage, septic tank back-ups, sewer hazards, excess accumulations of trash, vermin or rodent infestation or fire hazards.

(b) *Building exterior*. Each building on the site must be structurally sound, secure, habitable, and in good repair. Each building’s doors, fire escapes, foundations, lighting, roofs, walls, and windows, where applicable, must be free of health and safety hazards, operable, and in good repair.

(c) *Building systems*. Each building’s domestic water, electrical system, elevators, emergency power, fire protection, HVAC, and sanitary system must be free of health and safety hazards, functionally adequate, operable, and in good repair.

(d) *Dwelling units*. (1) Each dwelling unit within a building must be structurally sound, habitable, and in good repair. All areas and aspects of the dwelling unit (for example, the unit’s bathroom, call-for-aid (if applicable), ceiling, doors, electrical systems, floors, hot water heater, HVAC (where individual units are provided), kitchen, lighting, outlets/switches, patio/porch/balcony, smoke detectors, stairs, walls, and windows) must be free of health and safety hazards, functionally adequate, operable, and in good repair.

(2) Where applicable, the dwelling unit must have hot and cold running water, including an adequate source of potable water (note for example that single room occupancy units need not contain water facilities).

(3) If the dwelling unit includes its own sanitary facility, it must be in proper operating condition, usable in privacy, and adequate for personal hygiene and the disposal of human waste.

(4) The dwelling unit must include at least one battery-operated or hard-
