to the conformance procedures provided in § 4.6(b).

§ 4.154 Employees covered by sections 2(a)(3) and (4).

The safety and health standards of section 2(a)(3) and the notice requirements of section 2(a)(4) of the Act (see § 4.183) are applicable, in the absence of a specific exemption, to every service employee engaged by a contractor or subcontractor to furnish services under a contract subject to section 2(a) of the Act.

§ 4.155 Employee coverage does not depend on form of employment contract.

The Act, in section 8(b), makes it plain that the coverage of service employees depends on whether their work for the contractor or subcontractor on a covered contract is that of a service employee as defined in section 8(b) and not on any contractual relationship that may be alleged to exist between the contractor or subcontractor and such persons. In other words, any person, except those discussed in § 4.156 below, who performs work called for by a contract or that portion of a contract subject to the Act is, per se, a service employee. Thus, for example, a person’s status as an “owner-operator” or an “independent contractor” is immaterial in determining coverage under the Act and all such persons performing the work of service employees must be compensated in accordance with the Act’s requirements.

§ 4.156 Employees in bona fide executive, administrative, or professional capacity.

The term service employee as defined in section 8(b) of the Act does not include persons employed in a bona fide executive, administrative, or professional capacity as those terms are defined in 29 CFR part 541. Employees within the definition of service employee who are employed in an executive, administrative, or professional capacity are not excluded from coverage, however, even though they are highly paid, if they fail to meet the tests set forth in 29 CFR part 541. Thus, such employees as laboratory technicians, draftsmen, and air ambulance pilots, though they require a high level of skill to perform their duties and may meet the salary requirements of the regulations in part 541 of this title, are ordinarily covered by the Act’s provisions because they do not typically meet the other requirements of those regulations.

§§ 4.157–4.158 [Reserved]

Subpart D—Compensation Standards

§ 4.159 General minimum wage.

The Act, in section 2(b)(1), provides generally that no contractor or subcontractor under any Federal contract subject to the Act shall pay any employee engaged in performing work on such a contract less than the minimum wage specified under section 6(a)(1) of the Fair Labor Standards Act. Section 2(a)(1) provides that the minimum monetary wage specified in any such contract exceeding $2,500 shall in no case be lower than this Fair Labor Standards Act minimum wage. Section 2(b)(1) is a statutory provision which applies to the contractor or subcontractor without regard to whether it is incorporated in the contract; however, §§4.6 and 4.7 provide for inclusion of its requirements in covered contracts and subcontracts. Because this statutory requirement specifies no fixed monetary wage rate and refers only to the minimum wage specified under section 6(a)(1) of the Fair Labor Standards Act, and because its application does not depend on provisions of the contract, any increase in such Fair Labor Standards Act minimum wage during the life of the contract is, on its effective date, also effective to increase the minimum wage payable under section 2(b)(1) to employees engaged in performing work on the contract. The minimum wage rate under section 6(a)(1) of the Fair Labor Standards Act is $3.10 per hour beginning January 1, 1980, and $3.35 per hour after December 31, 1980.

Contractors and subcontractors performing work on contracts subject to the Service Contract Act are required to pay all employees, including those
employees who are not performing work on or in connection with such contracts, not less than the general minimum wage standard provided in section 6(a)(1) of the Fair Labor Standards Act, as amended (Pub. L. 95–151).

§ 4.161 Minimum monetary wages under contracts exceeding $2,500.

The standards established pursuant to the Act for minimum monetary wages to be paid by contractors and subcontractors under service contracts in excess of $2,500 to service employees engaged in performance of the contract or subcontract are required to be specified in the contract and in all subcontracts (see §4.6). Pursuant to the statutory scheme provided by sections 2(a)(1) and 4(c) of the Act, every covered contract (and any bid specification therefor) which is in excess of $2,500 shall contain a provision specifying the minimum monetary wages to be paid the various classes of service employees engaged in the performance of the contract or any subcontract thereunder, as determined by the Secretary or his authorized representative in accordance with prevailing rates for such employees in the locality, or, where a collective bargaining agreement applied to the employees of a predecessor contractor in the same locality, in accordance with the rates for such employees provided for in such agreement, including prospective wage increases as provided in such agreement as a result of arm’s-length negotiations. In no case may such wages be lower than the minimum wage specified under section 6(a)(1) of the Fair Labor Standards Act of 1938, as amended. (For a detailed discussion of the application of section 4(c) of the Act, see §4.163.) If some or all of the determined wages in a contract fall below the level of the Fair Labor Standards Act minimum by reason of a change in that rate by amendment of the law, these rates become obsolete and the employer is obligated under section 2(b)(1) of the Service Contract Act to pay the minimum wage rate established by the amendment as of the date it becomes effective. A change in the Fair Labor Standards Act minimum by operation of law would also have the same effect on advertised specifications or negotiations for covered service contracts, i.e., it would make ineffective and would supplant any lower rate or rates included in such specifications or negotiations whether or not determined. However, unless affected by such a change in the Fair Labor Standards Act minimum wage, by contract changes necessitating the insertion of new wage provisions (see §§4.5(c) and 4.143–4.145) or by the requirements of section 4(c) of the Act (see §4.163), the minimum monetary wage rate specified in the contract for each of the classes of service employees for which wage determinations have been made under section 2(a)(1) will continue to apply throughout the period of contract performance. No change in the obligation of the contractor or subcontractor with respect to minimum monetary wages will result from the mere fact that higher or lower wage rates may be determined to be prevailing for such employees in the locality after the award and before completion of the contract. Such wage determinations are effective for contracts not yet awarded, as provided in §4.5(a).

§ 4.162 Fringe benefits under contracts exceeding $2,500.

(a) Pursuant to the statutory scheme provided by sections 2(a)(2) and 4(c) of the Act, every covered contract in excess of $2,500 shall contain a provision specifying the fringe benefits to be furnished the various classes of service employees, engaged in the performance of the contract or any subcontract thereunder, as determined by the Secretary or his authorized representative to be prevailing for such employees in the locality or, where a collective bargaining agreement applied to the employees of a predecessor contractor in the same locality, in accordance with the rates for such employees provided for in such agreement, including prospective or accrued fringe benefit increases, provided for in such agreement as a result of arm’s-length negotiations. (For a detailed discussion of section 4(c) of the Act, see §4.163.) As provided by section 2(a)(2) of the Act, fringe benefits
include medical or hospital care, pensions on retirement or death, compensation for injuries or illness resulting from occupational activity, or insurance to provide any of the foregoing, unemployment benefits, life insurance, disability and sickness insurance, accident insurance, vacation and holiday pay, costs of apprenticeship or other similar programs and other bona fide fringe benefits not otherwise required by Federal, State, or local law to be provided by the contractor or subcontractor.

(b) Under this provision, the fringe benefits, if any, which the contractor or subcontractor is required to furnish the service employees engaged in the performance of the contract are specified in the contract documents (see § 4.46). How the contractor may satisfy this obligation is dealt with in §§ 4.170 through 4.177 of this part. A change in the fringe benefits required by the contract provision will not result from the mere fact that other or additional fringe benefits are determined to be prevailing for such employees in the locality at a time subsequent to the award but before completion of the contract. Such fringe benefit determinations are effective for contracts not yet awarded (see § 4.5(a)), or in the event that changes in an existing contract requiring their insertion for prospective application have occurred (see §§ 4.143 through 4.145). However, none of the provisions of this paragraph may be construed as altering a successor contractor’s obligations under section 4(c) of the Act. (See § 4.163.)

§ 4.163 Section 4(c) of the Act.

(a) Section 4(c) of the Act provides that no “contractor or subcontractor under a contract, which succeeds a contract subject to this Act and under which substantially the same services are furnished, shall pay any service employee under such contract less than the wages and fringe benefits, including accrued wages and fringe benefits, and any prospective increases in wages and fringe benefits provided for in a collective-bargaining agreement as a result of arm’s-length negotiations, to which such service employees would have been entitled if they were employed under the predecessor contract: Provided, That in any of the foregoing circumstances such obligations shall not apply if the Secretary finds after a hearing in accordance with regulations adopted by the Secretary that such wages and fringe benefits are substantially at variance with those which prevail for services of a character similar in the locality.” Under this provision, the successor contractor’s sole obligation is to insure that all service employees are paid no less than the wages and fringe benefits to which such employees would have been entitled if employed under the predecessor contractor’s collective bargaining agreement (i.e., irrespective of whether the successor’s employees were or were not employed by the predecessor contractor). The obligation of the successor contractor is limited to the wage and fringe benefit requirements of the predecessor contractor’s collective bargaining agreement and does not extend to other items such as seniority, grievance procedures, work rules, overtime, etc.

(b) Section 4(c) is self-executing. Under section 4(c), a successor contractor in the same locality as the predecessor contractor is statutorily obligated to pay no less than the wage rates and fringe benefits which were contained in the predecessor contractor’s collective bargaining agreement. This is a direct statutory obligation and requirement placed on the successor contractor by section 4(c) and is not contingent or dependent upon the issuance or incorporation in the contract of a wage determination based on the predecessor contractor’s collective bargaining agreement. This variation has been granted which limits the self-executing application of section 4(c) in the circumstances and under the conditions described in § 4.1b(b) of this part. It must be emphasized, however, that the variation in § 4.1b(b) is applicable only if the contracting officer has given both the incumbent (predecessor) contractor and the employees’ collective bargaining representative notification at least 30 days in advance of any estimated procurement date.

(c) Variance hearings. The regulations and procedures for hearings pursuant to section 4(c) of the Act are contained in § 4.16 of subpart A and parts 6 and 8.
of this title. If, as the result of such hearing, some or all of the wage rate and/or fringe benefit provisions of a predecessor contractor’s collective bargaining agreement are found to be substantially at variance with the wage rates and/or fringe benefits prevailing in the locality, the Administrator will cause a new wage determination to be issued in accordance with the decision of the Administrative Law Judge or the Administrative Review Board, as appropriate. Since “it was the clear intent of Congress that any revised wage determinations resulting from a section 4(c) proceeding were to have validity with respect to the procurement involved” (53 Comp. Gen. 401, 402, 1973), the solicitation, or the contract if already awarded, must be amended to incorporate the newly issued wage determination. Such new wage determination shall be made applicable to the contract as of the date of the Administrative Law Judge’s decision or, where the decision is reviewed by the Administrative Review Board, the date of that decision. The legislative history of the 1972 Amendments makes clear that the collectively bargained “wages and fringe benefits shall continue to be honored * * * unless and until the Secretary finds, after a hearing, that such wages and fringe benefits are substantially at variance with those prevailing in the locality for like services” (S. Rept. 92-1131, 92nd Cong., 2d Sess. 5). Thus, variance decisions do not have application retroactive to the commencement of the contract.

(d) Sections 2(a) and 4(c) must be read in conjunction. The Senate report accompanying the bill which amended the Act in 1972 states that “Sections 2(a)(1), 2(a)(2), and 4(c) must be read in harmony to reflect the statutory scheme.” (S. Rept. 92-1131, 92nd Cong., 2d Sess. 4.) Therefore, since section 4(c) refers only to the predecessor contractor’s collective bargaining agreement, the reference to collective bargaining agreements in sections 2(a)(1) and 2(a)(2) can only be read to mean a predecessor contractor’s collective bargaining agreement. The fact that a successor contractor may have its own collective bargaining agreement does not negate the clear mandate of the statute that the wages and fringe benefits called for by the predecessor contractor’s collective bargaining agreement shall be the minimum payable under a new (successor) contract nor does it negate the application of a prevailing wage determination issued pursuant to section 2(a) where there was no applicable predecessor collective bargaining agreement. 48 Comp. Gen. 22, 23–24 (1968). In addition, because section 2(a) only applies to covered contracts in excess of $2,500, the requirements of section 4(c) likewise apply only to successor contracts which may be in excess of $2,500. However, if the successor contract is in excess of $2,500, section 4(c) applies regardless of the amount of the predecessor contract. (See §§4.141–4.142 for determining contract amount.)

(e) The operative words of section 4(c) refer to “contract” not “contractor”. Section 4(c) begins with the language, “[n]o contractor or subcontractor under a contract, which succeeds a contract subject to this Act” (emphasis supplied). Thus, the statute is applicable by its terms to a successor contract without regard to whether the successor contractor was also the predecessor contractor. A contractor may become its own successor because it was the successful bidder on a recompetition of an existing contract, or because the contracting agency exercises an option or otherwise extends the term of the existing contract, etc. (See §§4.143–4.145.) Further, since sections 2(a) and 4(c) must be read in harmony to reflect the statutory scheme, it is clear that the provisions of section 4(c) apply whenever the Act or the regulations require that a new wage determination be incorporated into the contract (53 Comp. Gen. 401, 404–6 (1973)).

(f) Collective bargaining agreement must be applicable to work performed on the predecessor contract. Section 4(c) will be operative only if the employees who worked on the predecessor contract were actually paid in accordance with the wage and fringe benefit provisions of a predecessor contractor’s collective bargaining agreement. Thus, for example, section 4(c) would not apply if the predecessor contractor entered into a collective bargaining agreement for the first time, which did not become effective until after the expiration of the
predecessor contract. Likewise, the requirements of section 4(c) would not apply if the predecessor contractor's collective bargaining agreement applied only to other employees of the firm and not to the employees working on the contract.

(g) Contract reconfigurations. As a result of changing priorities, mission requirements, or other considerations, contracting agencies may decide to restructure their support contracts. Thus, specific contract requirements from one contract may be broken out and placed in a new contract or combined with requirements from other contracts into a consolidated contract. The protections afforded service employees under section 4(c) are not lost or negated because of such contract reconfigurations, and the predecessor contractor's collectively bargained rates follow identifiable contract work requirements into new or consolidated contracts, provided that the new or consolidated contract is for services which were furnished in the same locality under a predecessor contract. See §4.163(i). However, where there is more than one predecessor contract to the new or consolidated contract, and where the predecessor contracts involve the same or similar function(s) of work, using substantially the same job classifications, the predecessor contract which covers the greater portion of the work in such function(s) shall be deemed to be the predecessor contract for purposes of section 4(c), and the collectively bargained wages and fringe benefits under that contract, if any, shall be applicable to such function(s). This limitation on the application of section 4(c) is necessary and proper in the public interest and is in accord with the remedial purpose of the Act to protect prevailing labor standards.

(h) Interruption of contract services. Other than the requirement that substantially the same services be furnished under a predecessor contract in the same locality. As stated in §4.4(a)(2), a wage determination incorporated in the contract shall be applicable thereto regardless of whether the successful contractor subsequently changes the place(s) of contract performance or subcontracts any part of the contract work to a firm which performs the work in a different locality.

(i) Place of performance. The successorship requirements of section 4(c) apply to all contracts for substantially the same services as were furnished under a predecessor contract in the same locality. As stated in §4.4(a)(2), a wage determination issued pursuant to section 4(c) apply to the full term successor contract. Therefore, temporary interim contracts, which allow a contracting agency sufficient time to solicit bids for a full term contract, also do not negate the application of section 4(c) to a full term successor contract.
§ 4.164 [Reserved]

COMPLIANCE WITH COMPENSATION STANDARDS

§ 4.165 Wage payments and fringe benefits—in general.

(a)(1) Monetary wages specified under the Act shall be paid to the employees to whom they are due promptly and in no event later than one pay period following the end of the pay period in which they are earned. No deduction, rebate, or refund is permitted, except as hereinafter stated. The same rules apply to cash payments authorized to be paid with the statutory monetary wages as equivalents of determined fringe benefits (see § 4.177).

(2) The Act makes no distinction, with respect to its compensation provisions, between temporary, part-time, and full-time employees, and the wage and fringe benefit determinations apply, in the absence of an express limitation, equally to all such service employees engaged in work subject to the Act’s provisions. (See § 4.176 regarding fringe benefit payments to temporary and part-time employees.)

(b) The Act does not prescribe the length of the pay period. However, for purposes of administration of the Act, and to conform with practices required under other statutes that may be applicable to the employment, wages and hours worked must be calculated on the basis of a fixed and regularly recurring workweek of seven consecutive 24-hour workday periods, and the records must be kept on this basis. It is appropriate to use this workweek for the pay period. A bi-weekly or semimonthly, pay period may, however, be used if advance notification is given to the affected employees. A pay period longer than semimonthly is not recognized as appropriate for service employees and wage payments at greater intervals will not be considered as constituting proper payments in compliance with the Act.

(c) The prevailing rate established by a wage determination under the Act is a minimum rate. A contractor is not precluded from paying wage rates in
§ 4.166 Wage payments—unit of payment.

The standard by which monetary wage payments are measured under the Act is the wage rate per hour. An hourly wage rate is not, however, the only unit for payment of wages that may be used for employees subject to the Act. Employees may be paid on a daily, weekly, or other time basis, or by piece or task rates, so long as the measure of work and compensation used, when translated or reduced by computation to an hourly basis each workweek, will provide a rate per hour that will fulfill the statutory requirement. Whatever system of payment is used, however, must ensure that each hour of work in performance of the contract is compensated at not less than the required minimum rate. Failure to pay for certain hours at the required rate cannot be transformed into compliance with the Act by reallocating portions of payments made for other hours which are in excess of the specified minimum.

§ 4.167 Wage payments—medium of payment.

The wage payment requirements under the Act for monetary wages specified under its provisions will be satisfied by the timely payment of such wages to the employee either in cash or negotiable instrument payable at par. Such payment must be made finally and unconditionally and “free and clear.” Scrip, tokens, credit cards, “dope checks,” coupons, salvage material, and similar devices which permit the employer to retain and prevent the employee from acquiring control of money due for the work until some time after the pay day for the period in which it was earned, are not proper mediums of payment under the Act. If, as is permissible, they are used as a convenient device for measuring earnings or allowable deductions during a single pay period, the employee cannot be charged with the loss or destruction of any of them and the employer may not, because the employee has not actually redeemed them, credit itself with any which remain outstanding on the pay day in determining whether it has met the requirements of the Act. The employer may not include the cost of fringe benefits or equivalents furnished as required under section 2(a)(2) of the Act, as a credit toward the monetary wages it is required to pay under section 2(a)(1) or 2(b) of the Act (see §4.170). However, the employer may generally include, as a part of the applicable minimum wage which it is required to pay under the Act, the reasonable cost or fair value, as determined by the Administrator, of furnishing an employee with “board, lodging, or other facilities,” as defined in part 531 of this title, in situations where such facilities are customarily furnished to employees, for the convenience of the employees, not primarily for the benefit of the employer, and the employees’ acceptance of them is voluntary and uncoerced. (See also §4.163(k).) The determination of reasonable cost or fair value will be in accordance with the Administrator’s regulations under the Fair Labor Standards Act, contained in such part 531 of this title. While employment on contracts subject to the Act would not ordinarily involve situations in which service employees would receive tips from third persons, the treatment of tips for wage purposes in the situations where this may occur should be understood. For purposes of this Act, tips may generally be included in wages in accordance with the regulations under the Fair Labor Standards Act, contained in part 531. (See also §4.163(k).) The general rule under that Act is that the amount paid a tipped employee by his employer is deemed to be increased on account of tips by an amount determined by the employer,
§ 4.168 Wage payments—deductions from wages paid.

(a) The wage requirements of the Act will not be met where unauthorized deductions, rebates, or refunds reduce the wage payment made to the employee below the minimum amounts required under the provisions of the Act and the regulations thereunder, or where the employee fails to receive such amounts free and clear because he “kicks back” directly or indirectly to the employer or to another person for the employer’s benefit the whole or part of the wage delivered to him. Authorized deductions are limited to those required by law, such as taxes payable by employees required to be withheld by the employer and amounts due employees which the employer is required by court order to pay to another; deductions allowable for the reasonable cost or fair value of board, lodging, and facilities furnished as set forth in §4.167; and deductions of amounts which are authorized to be paid to third persons for the employee’s account and benefit pursuant to his voluntary assignment or order or a collective bargaining agreement with bona fide representatives of employees which is applicable to the employee. Deductions for amounts paid to third persons on the employee’s account which are not so authorized or are contrary to law or from which the contractor, subcontractor or any affiliated person derives any payment, rebate, commission, profit, or benefit directly or indirectly, may not be made if they cut into the wage required to be paid under the Act.

(b) Cost of maintaining and furnishing uniforms.

(1) If the employees are required to wear uniforms either by the employer, the nature of the job, or the Government contract, then the cost of furnishing and maintaining the uniforms is deemed to be a business expense of the employer and such cost may not be borne by the employees to the extent that to do so would reduce the employees’ compensation below that required by the Act. Since it may be administratively difficult and burdensome for employers to determine the actual cost incurred by all employees for maintaining their own uniforms, payment in accordance with the following standards is considered sufficient for the contractor to satisfy its wage obligations under the Act:

(i) The contractor furnishes all employees with an adequate number of uniforms without cost to the employees or reimburses employees for the actual cost of the uniforms.

(ii) Where uniform cleaning and maintenance is made the responsibility of the employee, the contractor reimburses all employees for such cleaning and maintenance at the rate of $3.35 a week (or 67 cents a day). Since employees are generally required to wear a clean uniform each day regardless of the number of hours the employee may work that day, the preceding weekly amount generally may be reduced to the stated daily equivalent but not to an hourly equivalent. A contractor may reimburse employees at a different rate if the contractor furnishes affirmative proof as to the actual cost to the employees of maintaining their uniforms or if a different rate is provided for in a bona fide collective bargaining agreement covering the employees working on the contract.

(2) However, there generally is no requirement that employees be reimbursed for uniform maintenance costs in those instances where the uniforms furnished are made of “wash and wear” materials which may be routinely washed and dried with other personal garments, and do not generally require daily washing, dry cleaning, commercial laundering, or any other special treatment because of heavy soiling in

work usage or in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work. This limitation does not apply where a different provision has been set forth on the applicable wage determination. In the case of wage determinations issued under section 4(c) of the Act for successor contracts, the amount established by the parties to the predecessor collective bargaining agreement is deemed to be the cost of laundering wash and wear uniforms.

(c) Stipends, allowances or other payments made directly to an employee by a party other than the employer (such as a stipend for training paid by the Veterans Administration) are not part of “wages” and the employer may not claim credit for such payments toward its monetary obligations under the Act.

§ 4.169 Wage payments—work subject to different rates.

If an employee during a workweek works in different capacities in the performance of the contract and two or more rates of compensation under section 2 of the Act are applicable to the classes of work which he or she performs, the employee must be paid the highest of such rates for all hours worked in the workweek unless it appears from the employer’s records or other affirmative proof which of such hours were included in the periods spent in each class of work. The rule is the same where such an employee is employed for a portion of the workweek in work not subject to the Act, for which compensation at a lower rate would be proper if the employer by his records or other affirmative proof, segregated the worktime thus spent.

§ 4.170 Furnishing fringe benefits or equivalents.

(a) General. Fringe benefits required under the Act shall be furnished, separate from and in addition to the specified monetary wages, by the contractor or subcontractor to the employees engaged in performance of the contract, as specified in the determination of the Secretary or his authorized representative and prescribed in the contract documents. Section 2(a)(2) of the Act provides that the obligation to furnish the specified benefits “may be discharged by furnishing any equivalent combinations of fringe benefits or by making equivalent or differential payments in cash under rules and regulations established by the Secretary.” The governing rules and regulations for furnishing such equivalents are set forth in §4.177 of this subpart. An employer cannot offset an amount of monetary wages paid in excess of the wages required under the determination in order to satisfy his fringe benefit obligations under the Act, and must keep appropriate records separately showing amounts paid for wages and amounts paid for fringe benefits.

(b) Meeting the requirement, in general. The various fringe benefits listed in the Act and in §4.162(a) are illustrative of those which may be found to be prevailing for service employees in a particular locality. The benefits which an employer will be required to furnish employees performing on a particular contract will be specified in the contract documents. A contractor may dispose of certain of the fringe benefit obligations which may be required by an applicable fringe benefit determination, such as pension, retirement, or health insurance, by irrevocably paying the specified contributions for fringe benefits to an independent trustee or other third person pursuant to an existing “bona fide” fund, plan, or program on behalf of employees engaged in work subject to the Act’s provisions. Where such a plan or fund does not exist, a contractor must discharge his obligation relating to fringe benefits by furnishing either an equivalent combination of “bona fide” fringe benefits or by making equivalent payments in cash to the employee, in accordance with the regulations in §4.177.

§ 4.171 “Bona fide” fringe benefits.

(a) To be considered a “bona fide” fringe benefit for purposes of the Act, a fringe benefit plan, fund, or program must constitute a legally enforceable obligation which meets the following criteria:

(1) The provisions of a plan, fund, or program adopted by the contractor, or by contract as a result of collective
bargaining, must be specified in writing, and must be communicated in writing to the affected employees. Contributions must be made pursuant to the terms of such plan, fund, or program. The plan may be either contractor-financed or a joint contractor-employee contributory plan. For example, employer contributions to Individual Retirement Accounts (IRAs) approved by IRS are permissible. However, any contributions made by employees must be voluntary, and if such contributions are made through payroll deductions, such deductions must be made in accordance with §4.168. No contribution toward fringe benefits made by the employees themselves, or fringe benefits provided from monies deducted from the employee’s wages may be included or used by an employer in satisfying any part of any fringe benefit obligation under the Act.

(2) The primary purpose of the plan must be to provide systematically for the payment of benefits to employees on account of death, disability, advanced age, retirement, illness, medical expenses, hospitalization, supplemental unemployment benefits, and the like.

(3) The plan must contain a definite formula for determining the amount to be contributed by the contractor and a definite formula for determining the benefits for each of the employees participating in the plan.

(4) Except as provided in paragraph (b), the contractor’s contributions must be paid irrevocably to a trustee or third person pursuant to an insurance agreement, trust or other funded arrangement. The trustee must assume the usual fiduciary responsibilities imposed upon trustees by applicable law. The trust or fund must be set up in such a way that the contractor will not be able to recapture any of the contributions paid in nor in any way divert the funds to its own use or benefit.

(5) Benefit plans or trusts of the types listed in 26 U.S.C. 401(a) which are disapproved by the Internal Revenue Service as not satisfying the requirements of section 401(a) of the Internal Revenue Code or which do not meet the requirements of the Employee Retirement Income Security Act of 1974, 29 U.S.C. 1001, et seq. and regulations thereunder, are not deemed to be “bona fide” plans for purposes of the Service Contract Act.

(6) It should also be noted that such plans must meet certain other criteria as set forth in §778.215 of 29 CFR part 778 in order for any contributions to be excluded from computation of the regular rate of pay for overtime purposes under the Fair Labor Standards Act (§§4.180–4.182).

(b)(1) Unfunded self-insured fringe benefit plans (other than fringe benefits such as vacations and holidays which by their nature are normally unfunded) under which contractors allegedly make “out of pocket” payments to provide benefits as expenses may arise, rather than making irrevocable contributions to a trust or other funded arrangement as required under §4.171(a)(4), are not normally considered “bona fide” plans or equivalent benefits for purposes of the Act.

(2) A contractor may request approval by the Administrator of an unfunded self-insured plan in order to allow credit for payments under the plan to meet the fringe benefit requirements of the Act. In considering whether such a plan is bona fide, the Administrator will consider such factors as whether it could be reasonably anticipated to provide the prescribed benefits, whether it represents a legally enforceable commitment to provide such benefits, whether it is carried out under a financially responsible program, and whether the plan has been communicated to the employees in writing. The Administrator in his/her discretion may direct that assets be set aside and preserved in an escrow account or that other protections be afforded to meet the plan’s future obligation.

(c) No benefit required by any other Federal law or by any State or local law, such as unemployment compensation, workers’ compensation, or social security, is a fringe benefit for purposes of the Act.

(d) The furnishing to an employee of board, lodging, or other facilities under the circumstances described in §4.167, the cost or value of which is creditable toward the monetary wages specified under the Act, may not be used to offset any fringe benefit obligations, as
such items and facilities are not fringe benefits or equivalent benefits for purposes of the Act.

(e) The furnishing of facilities which are primarily for the benefit or convenience of the contractor or the cost of which is properly a business expense of the contractor is not the furnishing of a “bona fide” fringe benefit or equivalent benefit or the payment of wages. This would be true of such items, for example, as relocation expenses, travel and transportation expenses incident to employment, incentive or suggestion awards, and recruitment bonuses, as well as tools and other materials and services incidental to the employer’s performance of the contract and the carrying on of his business, and the cost of furnishing, laundering, and maintaining uniforms and/or related apparel or equipment where employees are required by the contractor, by the contractor’s Government contract, by law, or by the nature of the work to wear such items. See also § 4.168.

(f) Contributions by contractors for such items as social functions or parties for employees, flowers, cards, or gifts on employee birthdays, anniversaries, etc. (sunshine funds), employee rest or recreation rooms, paid coffee breaks, magazine subscriptions, and professional association or club dues, may not be used to offset any wages or fringe benefits specified in the contract, as such items are not “bona fide” wages or fringe benefits or equivalent benefits for purposes of the Act.

§ 4.172 Meeting requirements for particular fringe benefits—in general.

Where a fringe benefit determination specifies the amount of the employer’s contribution to provide the benefit, the amount specified is the actual minimum cash amount that must be provided by the employer for the employee. No deduction from the specified amount may be made to cover any administrative costs which may be incurred by the contractor in providing the benefits, as such costs are properly a business expense of the employer. If prevailing fringe benefits for insurance or retirement are determined in a stated amount, and the employer provides such benefits through contribution in a lesser amount, he will be required to furnish the employee with the difference between the amount stated in the determination and the actual cost of the benefits which he provides. Unless otherwise specified in the particular wage determination, such as one reflecting collectively bargained fringe benefit requirements, issued pursuant to section 4(c) of the Act, every employee performing on a covered contract must be furnished the fringe benefits required by that determination for all hours spent working on that contract up to a maximum of 40 hours per week and 2,080 (i.e., 52 weeks of 40 hours each) per year, as these are the typical number of nonovertime hours of work in a week, and in a year, respectively. Since the Act’s fringe benefit requirements are applicable on a contract-by-contract basis, employees performing on more than one contract subject to the Act must be furnished the full amount of fringe benefits to which they are entitled under each contract and applicable wage determination. Where a fringe benefit determination has been made requiring employer contributions for a specified fringe benefit in a stated amount per hour, a contractor employing employees part of the time on contract work and part of the time on other work, may only credit against the hourly amount required for the hours spent on the contract work, the corresponding proportionate part of a weekly, monthly, or other amount contributed by him for such fringe benefits or equivalent benefits for such employees. If, for example, the determination requires health and welfare benefits in the amount of 30 cents an hour and the employer provides hospitalization insurance for such employees at a cost of $10.00 a week, the employer may credit 25 cents an hour ($10.00 ÷ 40) toward his fringe benefit obligation for such employees. If an employee works 25 hours on the contract work and 15 hours on other work, the employer cannot allocate the entire $10.00 to the 25 hours spent on contract work and take credit for 30 cents per hour in that manner, but must spread the cost over the full forty hours.
§ 4.173 Meeting requirements for vacation fringe benefits.

(a) Determining length of service for vacation eligibility. It has been found that for many types of service contracts performed at Federal facilities a successor contractor will utilize the employees of the previous contractor in the performance of the contract. The employees typically work at the same location providing the same services to the same clientele over a period of years, with periodic, often annual, changes of employer. The incumbent contractor, in bidding on a contract, must consider his liability for vacation benefits for those workers in his employ. If prospective contractors who plan to employ the same personnel were not required to furnish these employees with the same prevailing vacation benefits, it would place the incumbent contractor at a distinct competitive disadvantage as well as denying such employees entitlement to prevailing vacation benefits.

(1) Accordingly, most vacation fringe benefit determinations issued under the Act require an employer to furnish to employees working on the contract a specified amount of paid vacation upon completion of a specified length of service with a contractor or successor. This requirement may be stated in the determination, for example, as “one week paid vacation after one year of service with a contractor or successor” or by a determination which calls for “one week’s paid vacation after one year of service”. Unless specified otherwise in an applicable fringe benefit determination, an employer must take the following two factors into consideration in determining when an employee has completed the required length of service to be eligible for vacation benefits:

(i) The total length of time spent by an employee in any capacity in the continuous service of the present (successor) contractor, including both the time spent in performing on regular commercial work and the time spent in performing on the Government contract itself, and

(ii) Where applicable, the total length of time spent in any capacity as an employee in the continuous service of any predecessor contractor(s) who carried out similar contract functions at the same Federal facility.

(2) The application of these principles may be illustrated by the example given above of a fringe benefit determination calling for “one week paid vacation after one year of service with a contractor or successor”. In that example, if a contractor has an employee who has worked for him for 18 months on regular commercial work and only for 6 months on a Government service contract, that employee would be eligible for the one week vacation since his total service with the employer adds up to more than 1 year. Similarly, if a contractor has an employee who worked for 16 months under a janitorial service contract at a particular Federal base for two different predecessor contractors, and only 8 months with the present employer, that employee would also be considered as meeting the “after one year of service” test and would thus be eligible for the specified vacation.

(3) The “contractor or successor” requirement set forth in paragraph (a)(1) of this section is not affected by the fact that a different contracting agency may have contracted for the services previously or by the agency’s dividing and/or combining the contract services. However, prior service as a Federal employee is not counted toward an employee’s eligibility for vacation benefits under fringe benefit determinations issued pursuant to the Act.

(4) Some fringe benefit determinations may require an employer to furnish a specified amount of paid vacation upon completion of a specified length of service with the employer, for example, “one week paid vacation after one year of service with an employer”. Under such determinations, only the time spent in performing on commercial work and on Government contract work in the employment of the present contractor need be considered in computing the length of service for purposes of determining vacation eligibility.

(5) Whether or not the predecessor contract(s) was covered by a fringe benefit determination is immaterial in determining whether the one year of
service test has been met. This qualification refers to work performed before, as well as after, an applicable fringe benefit determination is incorporated into a contract. Also, the fact that the labor standards in predecessor service contract(s) were only those required under the Fair Labor Standards Act has no effect on the applicable fringe benefit determination contained in a current contract.

(b) Eligibility requirement—continuous service. Under the principles set forth above, if an employee's total length of service adds up to at least one year, the employee is eligible for vacation with pay. However, such service must have been rendered continuously for a period of not less than one year for vacation eligibility. The term "continuous service" does not require the combination of two entirely separate periods of employment. Whether or not there is a break in the continuity of service so as to make an employee ineligible for a vacation benefit is dependent upon all the facts in the particular case. No fixed time period has been established for determining whether an employee has a break in service. Rather, as illustrated below, the reason(s) for an employee's absence from work is the primary factor in determining whether a break in service occurred.

(1) In cases where employees have been granted leave with or without pay by their employer, or are otherwise absent with permission for such reasons as sickness or injury, or otherwise perform no work on the contract because of reasons beyond their control, there would not be a break in service. Likewise, the absence from work for a few days, with or without notice, does not constitute a break in service, without a formal termination of employment. The following specific examples are illustrative situations where it has been determined that a break in service did not occur:

(i) An employee absent for five months due to illness but employed continuously for three years.

(ii) A strike after which employees returned to work.

(iii) An interim period of three months between contracts caused by delays in the procurement process during which time personnel hired directly by the Government performed the necessary services. However, the successor contractor in this case was not held liable for vacation benefits for those employees who had anniversary dates of employment during the interim period because no employment relationship existed during such period.

(iv) A mess hall closed three months for renovation. Contractor employees were considered to be on temporary layoff during the renovation period and did not have a break in service.

(2) Where an employee quits, is fired for cause, or is otherwise terminated (except for temporary layoffs), there would be a break in service even if the employee were rehired at a later date. However, an employee may not be discharged and rehired as a subterfuge to evade the vacation requirement.

(c) Vesting and payment of vacation benefits. (1) In the example given in paragraph (a)(1) of this section of a fringe benefit determination calling for "one week paid vacation after 1 year of service with a contractor or successor", an employee who renders the "one year of service" continuously becomes eligible for the "one week paid vacation" (i.e., 40 hours of paid vacation, unless otherwise specified in an applicable wage determination) upon his anniversary date of employment and upon each succeeding anniversary date thereafter. However, there is no accrual or vesting of vacation eligibility before the employee's anniversary date of employment, and no segment of time smaller than one year need be considered in computing the employer's vacation liability, unless specifically provided for in a particular fringe benefit determination. For example, an employee who has worked 13 months for an employer subject to such stipulations and is separated without receiving any vacation benefit is entitled only to one full week's (40 hours) paid vacation. He would not be entitled to the additional fraction of one-twelfth of one week's paid vacation for the month he worked in the second year unless otherwise stated in the applicable wage determination. An employee who has not met the "one year of service" requirement would not be
§ 4.174 Entitlement to paid vacation

entitled to any portion of the “one week paid vacation”.

(2) Eligibility for vacation benefits specified in a particular wage determination is based on completion of the stated period of past service. The individual employee’s anniversary date (and each annual anniversary date of employment thereafter) is the reference point for vesting of vacation eligibility, but does not necessarily mean that the employee must be given the vacation or paid for it on the date on which it is vested. The vacation may be scheduled according to a reasonable plan mutually agreed to and communicated to the employees. A “reasonable” plan may be interpreted to be a plan which allows the employer to maintain uninterrupted contract services but allows the employee some choice, by seniority or similar factor, in the scheduling of vacations. However, the required vacation must be given or payment made in lieu thereof before the next anniversary date, before completion of the current contract, or before the employee terminates employment, whichever occurs first.

(d) Contractor liability for vacation benefits. (1) The liability for an employee’s vacation is not prorated among contractors unless specifically provided for under a particular fringe benefit determination. The contractor by whom a person is employed at the time the vacation right vests, i.e., on the employee’s anniversary date of employment, must provide the full benefit required by the determination which is applicable on that date. For example, an employee, who had not previously performed similar contract work at the same facility, was first hired by a predecessor contractor on July 1, 1978. July 1 is the employee’s anniversary date. The predecessor’s contract ended June 30, 1979, but the employee continued working on the contract for the successor. Since the employee did not have an anniversary date of employment during the predecessor’s contract, the predecessor would not have any vacation liability with respect to this employee. However, on July 1, 1979, the employee’s entitlement to the full vacation benefit vested and the successor contractor would be liable for the full amount of the employee’s vacation benefit.

(2) The requirements for furnishing data relative to employee hiring dates in situations where such employees worked for “predecessor” contractors are set forth in §4.6. However, a contractor is not relieved from any obligation to provide vacation benefits because of any difficulty in obtaining such data.

(e) Rate applicable to computation of vacation benefits. (1) If an applicable wage determination requires that the hourly wage rate be increased during the period of the contract, the rate applicable to the computation of any required vacation benefits is the hourly rate in effect in the workweek in which the actual paid vacation is provided or the equivalent is paid, as the case may be, and would not be the average of the two hourly rates. This rule would not apply to situations where a wage determination specified the method of computation and the rate to be used.

(2) As set forth in §4.172, unless specified otherwise in an applicable fringe benefit determination, service employees must be furnished the required amount of fringe benefits for all hours paid for up to a maximum of 40 hours per week and 2,080 hours per year. Thus, an employee on paid vacation leave would accrue and must be compensated for any other applicable fringe benefits specified in the fringe benefit determination, and if any of the other benefits are furnished in the form of cash equivalents, such equivalents must be included with the applicable hourly wage rate in computing vacation benefits or a cash equivalent therefor. The rules and regulations for computing cash equivalents are set forth in §4.177.

§ 4.174 Meeting requirements for holiday fringe benefits.

(a) Determining eligibility for holiday benefits—in general. (1) Most fringe benefit determinations list a specific number of named holidays for which payment is required. Unless specified otherwise in an applicable determination, an employee who performs any work during the workweek in which a named holiday occurs is entitled to the holiday benefit, regardless of whether the
named holiday falls on a Sunday, another day during the workweek on which the employee is not normally scheduled to work, or on the employee’s day off. In addition, holiday benefits cannot be denied because the employee has not been employed by the contractor for a designated period prior to the named holiday or because the employee did not work the day before or the day after the holiday, unless such qualifications are specifically included in the determination.

(2) An employee who performs no work during the workweek in which a named holiday occurs is generally not entitled to the holiday benefit. However, an employee who performs no work during the workweek because he is on paid vacation or sick leave in accordance with the terms of the applicable fringe benefit determination is entitled to holiday pay or another day off with pay to substitute for the named holiday. In addition, an employee who performs no work during the workweek because of a layoff does not forfeit his entitlement to holiday benefits if the layoff is merely a subterfuge by the contractor to avoid the payment of such benefits.

(3) The obligation to furnish holiday pay for the named holiday may be discharged if the contractor furnishes another day off with pay in accordance with a plan communicated to the employees involved. However, in such instances the holidays named in the fringe benefit determination are the reference points for determining whether an employee is eligible to receive holiday benefits. In other words, if an employee worked in a workweek in which a listed holiday occurred, the employee is entitled to pay for that holiday. Some determinations may provide for a specific number of holidays without naming them. In such instances the contractor is free to select the holidays to be taken in accordance with a plan communicated to the employees involved, and the agreed-upon holidays are the reference points for determining whether an employee is eligible to receive holiday benefits.

(b) Determining eligibility for holiday benefits—newly hired employees. The contractor generally is not required to compensate a newly hired employee for the holiday occurring prior to the hiring of the employee. However, in the one situation where a named holiday falls in the first week of a contract, all employees who work during the first week would be entitled to holiday pay for that day. For example, if a contract to provide services for the period January 1 through December 31 contained a fringe benefit determination listing New Year’s Day as a named holiday, and if New Year’s Day were officially celebrated on January 2 in the year in question because January 1 fell on a Sunday, employees hired to begin work on January 3 would be entitled to holiday pay for New Year’s Day.

(c) Payment of holiday benefits. (1) A full-time employee who is eligible to receive payment for a named holiday must receive a full day’s pay up to 8 hours unless a different standard is used in the fringe benefit determination, such as one reflecting collectively bargained holiday benefit requirements issued pursuant to section 4(c) of the Act or a different historic practice in an industry or locality. Thus, for example, a contractor must furnish 7 hours of holiday pay to a full-time employee whose scheduled workday consists of 7 hours. An employee whose scheduled workday is 10 hours would be entitled to a holiday payment of 8 hours unless a different standard is used in the determination. As discussed in §4.172, such holiday pay must include the full amount of other fringe benefits to which the employee is entitled.

(2) Unless a different standard is used in the wage determination, a full-time employee who works on the day designated as a holiday must be paid, in addition to the amount he ordinarily would be entitled to for that day’s work, the cash equivalent of a full day’s pay up to 8 hours or be furnished another day off with pay.

(3) If the fringe benefit determination lists the employee’s birthday as a paid holiday and that day coincides with another listed holiday, the contractor may discharge his obligation to furnish payment for the second holiday by either substituting another day off with pay with the consent of the employee, furnishing holiday benefits of an extra day’s pay, or if the employee works on
§ 4.175 Meeting requirements for health, welfare, and/or pension benefits.

(a) Determining the required amount of benefits. (1) Most fringe benefit determinations containing health and welfare and/or pension requirements specify a fixed payment per hour on behalf of each service employee. These payments are usually also stated as weekly or monthly amounts. As set forth in §4.172, unless specified otherwise in the applicable determination such payments are due for all hours paid for, including paid vacation, sick leave, and holiday hours, up to a maximum of 40 hours per week and 2,080 hours per year on each contract. The application of this rule can be illustrated by the following examples:

(i) An employee who works 4 days a week, 10 hours a day is entitled to 40 hours of health and welfare and/or pension fringe benefits. If an employee works 3 days a week, 12 hours a day, then such employee is entitled to 36 hours of these benefits.

(ii) An employee who works 32 hours in a workweek and also receives 8 hours of holiday pay is entitled to the maximum of 40 hours of health and welfare and/or pension payments in that workweek. If the employee works more than 32 hours and also received 8 hours of holiday pay, the employee is still only entitled to the maximum of 40 hours of health and welfare and/or pension payments.

(iii) If an employee is off work for two weeks on vacation and received 80 hours of vacation pay, the employee must also receive payment for the 80 hours of health and welfare and/or pension benefits which accrue during the vacation period.

(iv) An employee entitled to two weeks paid vacation who instead works the full 52 weeks in the year, receiving the full 2,080 hours worth of health and welfare and/or pension benefits, would be due an extra 80 hours of vacation pay in lieu of actually taking the vacation; however, such an employee would not be entitled to have an additional 80 hours of health and welfare and/or pension benefits included in his vacation pay.

(2) A fringe benefit determination calling for a specified benefit such as health insurance contemplates a fixed and definite contribution to a “bona fide” plan (as that term is defined in §4.171) by an employer on behalf of each employee, based on the monetary cost to the employer rather than on the level of benefits provided. Therefore, in determining compliance with an applicable fringe benefit determination, the amount of the employer’s contribution on behalf of each individual employee governs. Thus, as set forth in §4.172, if a determination should require a contribution to a plan providing a specified fringe benefit and that benefit can be obtained for less than the required contribution, it would be necessary for the employer to make up the difference in cash to the employee, or furnish equivalent benefits, or a combination thereof. The following illustrates the application of this principle: A fringe benefit determination requires a rate of $36.40 per month per employee for a health insurance plan. The employer obtains the health insurance coverage specified at a rate of $20.45 per month for a single employee, $30.60 for an employee with spouse, and $40.90 for an employee with a family. The employer is required to make up the difference in cash or equivalent benefits to the first two classes of employees in order to satisfy the determination, notwithstanding that coverage for an employee would be automatically changed by the employer if the employee’s status should...
change (e.g., single to married) and notwithstanding that the employer’s average contribution per employee may be equal to or in excess of $36.40 per month.

(3) In determining eligibility for benefits under certain wage determinations containing hours or length of service requirements (such as having to work 40 hours in the preceding month), the contractor must take into account time spent by employees on commercial work as well as time spent on the Government contract.

(b) Some fringe benefit determinations specifically provide for health and welfare and/or pension benefits in terms of average cost. Under this concept, a contractor’s contributions per employee to a “bona fide” fringe benefit plan are permitted to vary depending upon the individual employee’s marital or employment status. However, the firm’s total contributions for all service employees enrolled in the plan must average at least the fringe benefit determination requirement per hour per service employee. If the contractor’s contributions average less than the amount required by the determination, then the firm must make up the deficiency by making cash equivalent payments or equivalent fringe benefit payments to all service employees in the plan who worked on the contract during the payment period. Where such deficiencies are made up by means of cash equivalent payments, the payments must be made promptly on the following payday. The following illustrates the application of this principle: The determination requires an average contribution of $0.84 an hour. The contractor makes payments to bona fide fringe benefit plans on a monthly basis. During a month the firm contributes $15,000 for the service employees employed on the contract who are enrolled in the plan, and a total of 20,000 man-hours had been worked by all service employees during the month. Accordingly, the firm’s average cost would have been $15,000+20,000 hours or $0.75 per hour, resulting in a deficiency of $0.09 per hour. Therefore, the contractor owes the service employees in the plan who worked on the contract during the month an additional $0.09 an hour for each hour worked on the contract, payable on the next regular payday for wages. Unless otherwise provided in the applicable wage determination, contributions made by the employer for non-service employees may not be credited toward meeting Service Contract Act fringe benefit obligations.

(c) Employees not enrolled in or excluded from participating in fringe benefit plans. (1) Some health and welfare and pension plans contain eligibility exclusions for certain employees. For example, temporary and part-time employees may be excluded from participating in such plans. Also, employees receiving benefits through participation in plans of an employer other than the Government contractor or by a spouse’s employer may be prevented from receiving benefits from the contractor’s plan because of prohibitions against “double coverage”. While such exclusions do not invalidate an otherwise bona fide insurance plan, employer contributions to such a plan cannot be considered to be made on behalf of the excluded employees. Accordingly, under fringe benefit determination requirements as described in paragraph (a)(2) of this section, the employees excluded from participation in the health insurance plan must be furnished equivalent bona fide fringe benefits or be paid a cash equivalent payment during the period that they are not eligible to participate in the plan.

(2) It is not required that all employees participating in a fringe benefit plan be entitled to receive benefits from that plan at all times. For example, under some plans, newly hired employees who are eligible to participate in an insurance plan from their first day of employment may be prohibited from receiving benefits from the plan during a specified “waiting period”. Contributions made on behalf of such employees would serve to discharge the contractor’s obligation to furnish the fringe benefit. However, if no contributions are made for such employees, no credit may be taken toward the contractor’s fringe benefit obligations.

(d) Payment of health and welfare and pension benefits. (1) Health and welfare and/or pension payments to a “bona fide” insurance plan or trust program may be made on a periodic payment
basis which is not less often than quarterly. However, where fringe benefit determinations contemplate a fixed contribution on behalf of each employee, and a contractor exercises his option to make hourly cash equivalent or differential payments, such payments must be made promptly on the regular payday for wages. (See §4.165.)

(2) The rules and regulations for furnishing health and welfare and pension benefits to temporary and part-time employees are discussed in §4.176.

(3) The rules and regulations for furnishing equivalent fringe benefits or cash equivalents in lieu of health and welfare and pension benefits are discussed in §4.177.

§ 4.176 Payment of fringe benefits to temporary and part-time employees.

(a) As set forth in §4.165(a)(2), the Act makes no distinction, with respect to its compensation provisions, between temporary, part-time, and full-time employees. Accordingly, in the absence of express limitations, the provisions of an applicable fringe benefit determination apply to all temporary and part-time service employees engaged in covered work. However, in general, such temporary and part-time employees are only entitled to an amount of the fringe benefits specified in an applicable determination which is proportionate to the amount of time spent in covered work. The application of these principles may be illustrated by the following examples:

(1) Assuming the paid vacation for full-time employees is one week of 40 hours, a part-time employee working a regularly scheduled workweek of 16 hours is entitled to 16 hours of paid vacation time or its equivalent each year, if all other qualifications are met.

(2) In the case of holidays, a part-time employee working a regularly scheduled workweek of 16 hours would be entitled to one-fifth of the holiday pay due full-time employees. It is immaterial whether or not the holiday falls on a normal workday of the part-time employee. Except as provided in §4.174(b), a temporary or casual employee hired during a holiday week, but after the holiday, would be due no holiday benefits for that week.

(3) Holiday or vacation pay obligations to temporary and part-time employees working an irregular schedule of hours may be discharged by paying such employees a proportion of the holiday or vacation benefits due full-time employees based on the number of hours each such employee worked in the workweek prior to the workweek in which the holiday occurs or, with respect to vacations, the number of hours which the employee worked in the year preceding the employee's anniversary date of employment. For example:

(i) An employee works 10 hours during the week preceding July 4, a designated holiday. The employee is entitled to 10/40 of the holiday pay to which a full-time employee is entitled (i.e., 10/40 times $2=2 hours holiday pay).

(ii) A part-time employee works 520 hours during the 12 months preceding the employee's anniversary date. Since the typical number of nonovertime hours in a year of work is 2,080, if a full-time employee would be entitled to one week (40 hours) paid vacation under the applicable fringe benefit determination, then the part-time employee would be entitled to 520/2,080 times 40=10 hours paid vacation.

(b) A contractor's obligation to furnish the specified fringe benefits to temporary and part-time employees may be discharged by furnishing equivalent benefits, cash equivalents, or a combination thereof in accordance with the rules and regulations set forth in §4.177.

§ 4.177 Discharging fringe benefit obligations by equivalent means.

(a) In general. (1) Section 2(a)(2) of the Act, which provides for fringe benefits that are separate from and in addition to the monetary compensation required under section 2(a)(1), permits an
employer to discharge his obligation to furnish the fringe benefits specified in an applicable fringe benefit determination by furnishing any equivalent combinations of "bona fide" fringe benefits or by making equivalent or differential payments in cash. However, credit for such payments is limited to the employer's fringe benefit obligations under section 2(a)(2), since the Act does not authorize any part of the monetary wage required by section 2(a)(1) and specified in the wage determination and the contract, to be offset by the fringe benefit payments or equivalents which are furnished or paid pursuant to section 2(a)(2).

(2) When a contractor substitutes fringe benefits not specified in the fringe benefit determination contained in the contract for fringe benefits which are so specified, the substituted fringe benefits, like those for which the contract provisions are prescribed, must be "bona fide" fringe benefits, as that term is defined in § 4.171.

(3) When a contractor discharges his fringe benefit obligation by furnishing, in lieu of those benefits specified in the applicable fringe benefit determination, other "bona fide" fringe benefits, cash payments, or a combination thereof, the substituted fringe benefits and/or cash payments must be "equivalent" to the benefits specified in the determination. As used in this subpart, the terms equivalent fringe benefit and cash equivalent mean equal in terms of monetary cost to the contractor. Thus, as set forth in § 4.172, if an applicable fringe benefit determination calls for a particular fringe benefit in a stated amount and the contractor furnished this benefit through contributions in a lesser amount, the contractor must furnish the employee with the difference between the amount stated in the determination and the actual cost of the benefit which the contractor provides. This principle may be illustrated by the example given in § 4.175(a)(2).

(b) Furnishing equivalent fringe benefits. (1) A contractor's obligation to furnish fringe benefits which are stated in a specified cash amount may be discharged by furnishing any combination of "bona fide" fringe benefits costing an equal amount. Thus, if an applicable determination specifies that 20 cents per hour is to be paid into a pension fund, this fringe benefit obligation will be deemed to be met if, instead, hospitalization benefits costing not less than 20 cents an hour and life insurance benefits costing 10 cents an hour are provided. The same obligation will be met if hospitalization benefits costing 10 cents an hour and life insurance benefits costing 10 cents an hour are provided. As set forth in § 4.171(c), no benefit required to be furnished the employee by any other law, such as workers’ compensation, may be credited toward satisfying the fringe benefit requirements of the Act.

(2) A contractor who wishes to furnish equivalent fringe benefits in lieu of those benefits which are not stated in a specified cash amount, such as "one week paid vacation", must first determine the equivalent cash value of such benefits in accordance with the rules set forth in paragraph (c) of this section.

(c) Furnishing cash equivalents. (1) Fringe benefit obligations may be discharged by paying to the employee on his regular payday, in addition to the monetary wage required, a cash amount per hour in lieu of the specified fringe benefits, provided such amount is equivalent to the cost of the fringe benefits required. If, for example, an employee's monetary rate under an applicable determination is $4.50 an hour, and the fringe benefits to be furnished are hospitalization benefits costing 20 cents an hour and retirement benefits costing 20 cents an hour, the fringe benefit obligation is discharged if instead of furnishing the required fringe benefits, the employer pays the employee, in cash, 40 cents per hour as the cash equivalent of the fringe benefits in addition to the $4.50 per hour wage rate required under the applicable wage determination.

(2) The hourly cash equivalent of those fringe benefits which are not stated in the applicable determination in terms of hourly cash amounts may be obtained by mathematical computation through the use of pertinent factors such as the monetary wages paid the employee and the hours of work attributable to the period, if any, by which fringe benefits are measured in the determination. If the employee's regular rate of pay is greater than the
minimum monetary wage specified in the wage determination and the contract, the former must be used for this computation, and if the fringe benefit determination does not specify any daily or weekly hours of work by which benefits are to be measured, a standard 8-hour day and 40-hour week will be considered applicable. The application of these rules in typical situations is illustrated in paragraphs (c)(3) through (7) of this section.

(3) Where fringe benefits are stated as a percentage of the monetary rate, the hourly cash equivalent is determined by dividing the amount stated in the determination by the number of working hours to which the amount is attributable. For example, if a determination calls for a 5 percent pension fund payment and the employee is paid a monetary rate of $4.50 an hour, or if the employee earns $4.50 an hour on a piece-work basis in a particular workweek, the cash equivalent of that payment would be 22½ cents an hour.

(4) If the determination lists a particular fringe benefit in such terms as $8 a week, the hourly cash equivalent is determined by dividing the amount stated in the determination by the number of working hours to which the amount is attributable. For example, if a determination lists a fringe benefit as “pension—$8 a week”, and does not specify weekly hours, the hourly cash equivalent is 20 cents per hour, i.e., $8 divided by 40, the standard number of non-overtime working hours in a week.

(5) In determining the hourly cash equivalent of those fringe benefits which are not stated in the determination in terms of a cash amount, but are stated, for example, as “nine paid holidays per year” or “1 week paid vacation after one year of service”, the employee’s hourly monetary rate of pay is multiplied by the number of hours making up the paid holidays or vacation. Unless the hours contemplated in the fringe benefit are specified in the determination, a standard 8-hour day and 40-hour week is considered applicable. The total annual cost so determined is divided by 2,080, the standard number of non-overtime hours in a year of work, to arrive at the hourly cash equivalent. This principle may be illustrated by the following examples:

(i) If a particular determination lists as a fringe benefit “nine holidays per year” and the employee’s hourly rate of pay is $4.50, the $4.50 is multiplied by 72 (9 days of 8 hours each) and the result, $334, is then divided by 2,080 to arrive at the hourly cash equivalent, $0.1557 an hour. See §4.174(c)(4).

(ii) If the determination requires “one week paid vacation after one year of service”, and the employee’s hourly rate of pay is $4.50, the $4.50 is multiplied by 40 and the result, $180.00, is then divided by 2,080 to arrive at the hourly cash equivalent, $0.0865 an hour.

(6) Where an employer elects to pay an hourly cash equivalent in lieu of a paid vacation, which is computed in accordance with paragraph (c)(5) of this section, such payments need commence only after the employee has satisfied the “after one year of service” requirement. However, should the employee terminate employment for any reason before receiving the full amount of vested vacation benefits due, the employee must be paid the full amount of any difference remaining as the final cash payment. For example, an employee becomes eligible for a week’s vacation pay on March 1. The employer elects to pay this employee an hourly cash equivalent beginning that date; the employee terminates employment on March 31. Accordingly, as this employee has received only 1/12 of the vacation pay to which he/she is entitled, the employee is due the remaining 11/12 upon termination. As set forth in §4.173(e), the rate applicable to the computation of cash equivalents for vacation benefits is the hourly wage rate in effect at the time such equivalent payments are actually made.

(d) Furnishing a combination of equivalent fringe benefits and cash payments. Fringe benefit obligations may be discharged by furnishing any combination of cash or fringe benefits as illustrated in the preceding paragraphs of this section, in monetary amounts the total of which is equivalent, under the rules therein stated, to the determined fringe benefits specified in the contract. For example, if an applicable determination specifies that 20 cents per hour is to be paid into a pension fund,
this fringe benefit obligation will be deemed to be met if instead, hospitalization benefits costing 15 cents an hour and a cash equivalent payment of 5 cents an hour are provided.

(e) Effect of equivalents in computing overtime pay. Section 6 of the Act excludes from the regular or basic hourly rate of an employee, for purposes of determining the overtime pay to which the employee is entitled under any other Federal law, those fringe benefit payments computed under the Act which are excluded from the regular rate under the Fair Labor Standards Act by provisions of section 7(e) (formerly designated as section 7(d)) of that Act (29 U.S.C. 207(e)). Fringe benefit payments which qualify for such exclusion are described in subpart C of Regulations, 29 CFR part 778. When such fringe benefits are required to be furnished to service employees engaged in contract performance, the right to compute overtime pay in accordance with the above rule is not lost to a contractor or subcontractor because it discharges its obligation under this Act to furnish such fringe benefits through alternative equivalents as provided in this section. If it furnishes equivalent benefits or makes cash payments, or both, to such an employee as authorized herein, the amounts thereof, which discharge the employer’s obligation to furnish such specified fringe benefits, may be excluded pursuant to this Act from the employee’s regular or basic rate of pay in computing any overtime pay due the employee under any other Federal law. No such exclusion can operate, however, to reduce an employee’s regular or basic rate of pay below the monetary wage rate specified as the applicable minimum wage rates under sections 2(a)(1), 2(b), or 4(e) of this Act or under other law or an employment contract.

§ 4.178 Computation of hours worked.

Since employees subject to the Act are entitled to the minimum compensation specified under its provisions for each hour worked in performance of a covered contract, a computation of their hours worked in each workweek when such work under the contract is performed is essential. Determinations of hours worked will be made in accordance with the principles applied under the Fair Labor Standards Act as set forth in part 785 of this title which is incorporated herein by reference. In general, the hours worked by an employee include all periods in which the employee is suffered or permitted to work whether or not required to do so, and all time during which the employee is required to be on duty or to be on the employer’s premises or to be at a prescribed workplace. The hours worked which are subject to the compensation provisions of the Act are those in which the employee is engaged in performing work on contracts subject to the Act. However, unless such hours are adequately segregated, as indicated in § 4.179, compensation in accordance with the Act will be required for all hours of work in any workweek in which the employee performs any work in connection with the contract, in the absence of affirmative proof to the contrary that such work did not continue throughout the workweek.

§ 4.179 Identification of contract work.

Contractors and subcontractors under contracts subject to the Act are required to comply with its compensation requirements throughout the period of performance on the contract and to do so with respect to all employees who in any workweek are engaged in performing work on such contracts. If such a contractor during any workweek is not exclusively engaged in Government contract work, or if while so engaged it has employees who spend a portion but not all of their worktime in the workweek in performing work on such contracts, it is necessary for the contractor to identify accurately in its records, or by other means, those periods in each such workweek when the contractor and each such employee performed work on such contracts. In cases where contractors are not exclusively engaged in Government contract work, and there are adequate records segregating the periods in which work was performed on contracts subject to the Act from periods in which other work was performed, the compensation specified under the Act need not be paid for hours spent on non-contract work. However, in the absence of records adequately segregating non-
covered work from the work performed on or in connection with the contract, all employees working in the establishment or department where such covered work is performed shall be presumed to have worked on or in connection with the contract during the period of its performance, unless affirmative proof establishing the contrary is presented. Similarly, in the absence of such records, an employee performing any work on or in connection with the contract in a workweek shall be presumed to have continued to perform such work throughout the workweek, unless affirmative proof establishing the contrary is presented. Even where a contractor can segregate Government from non-Government work, it is necessary that the contractor comply with the requirements of section 6(e) of the FLSA discussed in §4.160.

OVERTIME PAY OF COVERED EMPLOYEES

§ 4.180 Overtime pay—in general.

The Act does not provide for compensation of covered employees at premium rates for overtime hours of work. Section 6 recognizes, however, that other Federal laws may require such compensation to be paid to employees working on or in connection with contracts subject to the Act (see §4.181) and prescribes, for purposes of such laws, the manner in which fringe benefits furnished pursuant to the Act shall be treated in computing such overtime compensation as follows: “In determining any overtime pay to which such service employees are entitled under any Federal law, the regular or basic hourly rate of such an employee shall not include any fringe benefit payments computed hereunder which are excluded from the regular rate under the Fair Labor Standards Act by provisions of section 7(d) [now section 7(e)] thereof.” Fringe benefit payments which qualify for such exclusion are described in part 778, subpart C of this title. The interpretations there set forth will be applied in determining the overtime pay to which covered service employees are entitled under other Federal statutes. The effect of section 6 of the Act in situations where equivalent fringe benefits or cash payments are provided in lieu of the specified fringe benefits is stated in §4.177(e) of this part, and illustrated in §4.182.

§ 4.181 Overtime pay provisions of other Acts.

(a) Fair Labor Standards Act. Although provision has not been made for insertion in Government contracts of stipulations requiring compliance with the overtime provisions of the Fair Labor Standards Act, contractors and subcontractors performing contracts subject to the McNamara-O’Hara Service Contract Act may be required to compensate their employees working on or in connection with such contracts for overtime work pursuant to the overtime pay standards of the Fair Labor Standards Act. This is true with respect to employees engaged in interstate or foreign commerce or in the production of goods for such commerce (including occupations and processes closely related and directly essential to such production) and employees employed in enterprises which are so engaged, subject to the definitions and exceptions provided in such Act. Such employees, except as otherwise specifically provided in such Act, must receive overtime compensation at a rate of not less than 1 1/2 times their regular rate of pay for all hours worked in excess of the applicable standard in a workweek. See part 778 of this title. However, the Fair Labor Standards Act provides no overtime pay requirements for employees, not within such interstate commerce coverage of the Act, who are subject to its minimum wage provisions only by virtue of the provisions of section 6(e), as explained in §4.180.

(b) Contract Work Hours and Safety Standards Act. (1) The Contract Work Hours and Safety Standards Act (40 U.S.C. 327–332) applies generally to Government contracts, including service contracts in excess of $100,000, which may require or involve the employment of laborers and mechanics. Guards, watchmen, and many other classes of service employees are laborers or mechanics within the meaning of such Act. However, employees rendering only professional services, seamen, and as a general rule those whose work is only clerical or supervisory or nonmanual in nature, are not deemed
laborers or mechanics for purposes of the Act. The wages of every laborer and mechanic for performance of work on such contracts must include compensation at a rate not less than 1 1/2 times the employees' basic rate of pay for all hours worked in any workweek in excess of 40. Exemptions are provided for certain transportation and communications contracts, contracts for the purchase of supplies ordinarily available in the open market, and work required to be done in accordance with the provisions of the Walsh-Healey Act.

(2) Regulations concerning this Act are contained in 29 CFR part 5 which permit overtime pay to be computed in the same manner as under the Fair Labor Standards Act.

(c) Walsh-Healey Public Contracts Act. As pointed out in § 4.117, while some Government contracts may be subject both to the McNamara-O'Hara Service Contract Act and to the Walsh-Healey Public Contracts Act, the employees performing work on the contract which is subject to the latter Act are, when so engaged, exempt from the provisions of the former. They are, however, subject to the overtime provisions of the Walsh-Healey Act if, in any workweek, any of the work performed for the employer is subject to such Act and if, in such workweek, the total hours worked by the employee for the employer (whether wholly or only partly on such work) exceed 40 hours in the workweek. In any such workweek the Walsh-Healey Act requires payment of overtime compensation at a rate not less than 1 1/2 times the employee's basic rate for such weekly overtime hours. The overtime pay provisions of the Walsh-Healey Act are discussed in greater detail in 41 CFR part 50–201.

§ 4.182 Overtime pay of service employee entitled to fringe benefits.

Reference is made in § 4.180 to the rules prescribed by section 6 of the Act which permit exclusion of certain fringe benefits and equivalents provided pursuant to section 2(a)(2) of the Act from the regular or basic rate of pay when computing overtime compensation of a service employee under the provisions of any other Federal law. As provided in § 4.177, not only those fringe benefits excludable under section 6 as benefits determined and specified under section 2(a)(2), but also equivalent fringe benefits and cash payments furnished in lieu of the specified benefits may be excluded from the regular or basic rate of such an employee. The application of this rule may be illustrated by the following examples:

(a) The A company pays a service employee $4.50 an hour in cash under a wage determination which requires a monetary rate of not less than $4 and a fringe benefit contribution of 50 cents which would qualify for exclusion from the regular rate under section 7(e) of the Fair Labor Standards Act. The contractor pays the 50 cents in cash because he made no contributions for fringe benefits specified in the determination and the contract. Overtime compensation in this case would be computed on a regular or basic rate of $4 an hour.

(b) The B company has for some time been paying $4.25 an hour to a service employee as his basic cash wage plus 25 cents an hour as a contribution to a welfare and pension plan, which contribution qualifies for exclusion from the regular rate under the Fair Labor Standards Act. The contractor pays the 50 cents in cash because he made no contributions for fringe benefits specified in the determination and the contract. Overtime compensation in this case would be computed on a regular or basic rate of $4 an hour.

(c) The C company has been paying $4 an hour as its basic cash wage on which the firm has been computing overtime compensation. For performance of
work on a contract subject to the Act the same rate of monetary wages and a fringe benefit contribution of 50 cents an hour (qualifying for exclusion from the regular rate under the Fair Labor Standards Act) are specified in accordance with a determination that these are the monetary wages and fringe benefits prevailing for such employees in the locality. The contractor is required to continue to pay at least $4 an hour in monetary wages and at least this amount must be included in the employee's regular or basic rate for overtime purposes under applicable Federal law. The fringe benefit obligation under the contract would be discharged if 50 cents of the contributions for fringe benefits were for the fringe benefits specified in the contract or equivalent benefits as defined in §4.177. The company may exclude such fringe benefit contributions from the regular or basic rate of pay of the service employee in computing overtime pay due.

NOTICE TO EMPLOYEES

§4.183 Employees must be notified of compensation required.

The Act, in section 2(a)(4), and the regulations thereunder in §4.6(e), require all contracts subject to the Act which are in excess of $2,500 to contain a clause requiring the contractor or subcontractor to notify each employee commencing work on a contract to which the Act applies of the compensation required to be paid such employee under section 2(a)(1) and the fringe benefits required to be furnished under section 2(a)(2). A notice form (WH Publication 1313 and any applicable wage determination) provided by the Wage and Hour Division is to be used for this purpose. It may be delivered to the employee or posted as stated in §4.184.

§4.184 Posting of notice.

Posting of the notice provided by the Wage and Hour Division shall be in a prominent and accessible place at the worksite, as required by §4.6(e). The display of the notice in a place where it may be seen by employees performing on the contract will satisfy the requirement that it be in a "prominent and accessible place". Should display be necessary at more than one site, in order to assure that it is seen by such employees, additional copies of the poster may be obtained without cost from the Division. The contractor or subcontractor is required to notify each employee of the compensation due or attach to the poster any applicable wage determination specified in the contract listing all minimum monetary wages and fringe benefits to be paid or furnished to the classes of service employees performing on the contract.

RECORDS

§4.185 Recordkeeping requirements.

The records which a contractor or subcontractor is required to keep concerning employment of employees subject to the Act are specified in §4.6(g) of subpart A of this part. They are required to be maintained for 3 years from the completion of the work, and must be made available for inspection and transcription by authorized representatives of the Administrator. Such records must be kept for each service employee performing work under the contract, for each workweek during the performance of the contract. If the required records are not separately kept for the service employees performing on the contract, it will be presumed, in the absence of affirmative proof to the contrary, that all service employees in the department or establishment where the contract was performed were engaged in covered work during the period of performance. (See §4.179.)

§4.186 [Reserved]

Subpart E—Enforcement

§4.187 Recovery of underpayments.

(a) The Act, in section 3(a), provides that any violations of any of the contract stipulations required by sections 2(a)(1), 2(a)(2), or 2(b) of the Act, shall render the party responsible liable for the amount of any deductions, rebates, refunds, or underpayments (which includes non-payment) of compensation due to any employee engaged in the performance of the contract. So much of the accrued payments due either on the contract or on any other contract
