

amount of the bond required by applicable Customs laws and regulations.

**§ 94.806 Importation of partially complete engines.**

The provisions of 40 CFR 1068.330 apply for importation of partially complete engines, or engines that will be modified for applications other than those covered by this part 94.

[70 FR 40459, July 13, 2005]

**Subpart J—Exclusion and Exemption Provisions**

**§ 94.901 Purpose and applicability.**

The provisions of this subpart identify excluded engines (i.e., engines not covered by the Act) and allow for the exemption of engines from certain provisions of this part. The applicability of the exclusions is described in § 94.903, and the applicability of the exemption allowances is described in §§ 94.904 through 94.909.

**§ 94.902 Definitions.**

The definitions of Subpart A of this part apply to this subpart.

**§ 94.903 Exclusions.**

(a) Upon written request with supporting documentation, EPA will make written determinations as to whether certain engines are excluded from applicability of this part. Any engines that are determined to be excluded are not subject to the regulations under this part. Requests to determine whether certain engines are excluded should be sent to the Designated Officer.

(b) EPA will maintain a list of models of engines that have been determined to be excluded from coverage under this part. This list will be available to the public and may be obtained by writing to the address in paragraph (a) of this section.

(c) In addition to the engines excluded in paragraph (a) of this section, certain engines are not subject to the requirements and prohibitions of this part because they are excluded from the definitions of “marine engine” in § 94.2.

**§ 94.904 Exemptions.**

(a) Except as specified otherwise in this subpart, the provisions of §§ 94.904 through 94.913 exempt certain new engines from the standards, other requirements, and prohibitions of this part, except for the requirements of this subpart and the requirements of § 94.1104. Additional requirements may apply for imported engines; these are described in subpart I of this part.

(b)(1) Any person may request a testing exemption subject to the provisions of § 94.905.

(2) Any engine manufacturer may request a national security exemption subject to the provisions of § 94.908.

(3) Engines manufactured for export purposes are exempt without application, subject to the provisions of § 94.909, except as otherwise specified by § 94.909.

(4) Manufacturer-owned engines are exempt without application, subject to the provisions of § 94.906(a).

(5) Display engines are exempt without application, subject to the provisions of § 94.906(b). This does not apply to imported engines (see § 94.804).

(6) Engines used solely for competition are exempt, subject to the provisions of § 94.906(c).

(c) If you want to take an action with respect to an exempted or excluded engine that is prohibited by the exemption or exclusion, such as selling it, you need to certify the engine. We will issue a certificate of conformity if you send us an application for certification showing that you meet all the applicable requirements from this part 94 and pay the appropriate fee. Also, in some cases, we may allow manufacturers to modify the engine as needed to make it identical to engines already covered by a certificate. We would base such an approval on our review of any appropriate documentation. These engines must have emission control information labels that accurately describe their status.
