

§ 381.163 “(Kind) baked” or “(Kind) roasted.”

Such product consists of ready-to-cook poultry of the kind indicated, that has been cooked in dry source heat, e.g., oven roasted or oven baked.

§ 381.164 “(Kind) barbecued.”

Such product consists of ready-to-cook poultry of the kind indicated, that has been cooked in dry heat and basted with a seasoned sauce.

§ 381.165 “(Kind) barbecued prepared with moist heat.”

Such product consists of ready-to-cook poultry of the kind indicated that has been cooked by the action of moist heat in a barbecue sauce.

§ 381.166 Breaded products.

“Breaded” is a term applicable to any poultry product which is coated with breading or a batter and breading in an amount not to exceed 30 percent of the weight of the finished breaded product.

§ 381.167 Other poultry dishes and specialty items.

Poultry dishes and specialty items listed in Table IV of this paragraph shall meet the requirements set forth in said table, irrespective of the type of packaging, and the percentages in Table IV shall be calculated on a ready-to-serve basis, except that soup bases in institutional packs which are prepared for sale to institutional users shall have a minimum of 15 percent cooked deboned poultry meat based on the weight of the soup base product.

TABLE IV

Product name ¹	Minimum percent cooked deboned poultry meat of kind indicated	Minimum percent cooked poultry of kind indicated, indicating bone
(Kind) Ravioli	2
(Kind) Soup	2
Chop Suey with (Kind)	2
(Kind) Chop Suey	4
(Kind) Chow Mein without noodles	4
(Kind) Tamales	6
Noodles or Dumplings with (Kind) ²	6
(Kind) Stew	12
(Kind) Fricassee of Wings	40

TABLE IV—Continued

Product name ¹	Minimum percent cooked deboned poultry meat of kind indicated	Minimum percent cooked poultry of kind indicated, indicating bone
(Kind) Noodles or Dumplings ² ..	15	30
(Kind) with Vegetables	15
Gravy with sliced (Kind)	15
(Kind) Tetrazzini	15
(Kind) chili with beans	17
Creamed (Kind)	20
(Kind) Cacciatore	20	40
(Kind) Fricassee	20	40
(Kind) A-La-King	20
(Kind) croquettes	25
Slice (Kind) with Gravy and Dressing	25
(Kind) Salad ³	25
(Kind) chili	28
(Kind) Hash	30
Sliced (Kind) with Gravy	35
Minced (Kind) Barbecue	40

¹The product name may contain other appropriate descriptive terms such as “noodle”; e.g., “Chicken Noodle Soup.”

²This standard also applies to products named (Kind) with rice or similar starches.

³The 25 percent standard listed includes poultry meat plus proportions of skin and fat natural to the poultry used.

[37 FR 9706, May 16, 1972, as amended at 39 FR 4569, Feb. 5, 1974]

§ 381.168 Maximum percent of skin in certain poultry products.

The poultry products listed in Table V shall have not more than the percent of skin specified in the table, when raw and when cooked.

TABLE V

Product name	Percent skin	
	Raw	Cooked
Boneless Turkey Breast or Boneless Turkey Breast Roll	14
Boneless Turkey Thigh or Boneless Turkey Thigh Roll	8
Boneless Turkey or Turkey Roll	15
Boneless Chicken Breast or Boneless Chicken Breast Roll	18	20
Boneless Chicken or Chicken Roll	20	25

§ 381.169 Ready-to-cook poultry products to which solutions are added.

(a) Butter alone, or solutions of poultry broth, poultry stock, water, or edible fats, or mixtures thereof, in which are included functional substances

such as spices, flavor enhancers, emulsifiers, phosphates, coloring materials, or other substances, approved by the Administrator in specific cases, may be introduced by injection into the thick muscles (breast and legs) of ready-to-cook poultry carcasses and may be introduced by injection or marinating into any separate bone-in part therefrom, for the purpose of providing a basting medium or similar function. The ingredients of the added materials and the manner of addition to the products must be found acceptable by the Administrator, in all cases. The introduction of the added materials shall increase the weight of the processed product by approximately 3 percent over the weight of the raw product after washing and chilling in compliance with § 381.66. The weight of the added materials introduced into the poultry products as provided in this paragraph shall be included as part of the weight of the poultry for purposes of the net weight labeling provisions in § 381.121(b).

(b) A raw poultry product, into which added materials are introduced as provided in paragraph (a) of this section must be labeled with a conspicuous, legible, and descriptive name, including terms that concisely describe the method of addition and function of the added material. All major terms in the product name must be printed with the same prominence, except that the words which describe the function of the added materials (such as “Injected for Flavored Basting”) may be more prominent, provided this does not detract from the conspicuousness of the other terms in the product name (such as “Young Turkey”). The label must also bear a statement, in bold type, immediately below and adjacent to the product name, listing the common or usual names of the added materials in descending order of predominance. The first part of this statement must consist of terms adequate to inform consumers about the amount and manner of introduction of the solution (such as “Injected with approximately 3 percent of a solution of _____”), and must be printed at least one-fourth the size of the most prominent letter in the product name, with a minimum size of one-fourth inch for a ready-to-cook

turkey and proportionately smaller for other poultry products. The remainder of the solution ingredients shall be declared in type at least one-eighth inch in height. The entire statement must be printed in a color that contrasts with the background and be displayed on the principal display panel.

(c) Approval for use of a label for product under this section depends upon the ability of the processor to control the finished product, within a range of three-tenths of 1 percent accuracy, so that the average percent of basting material in each outgoing lot is not greater than 3.3 percent or less than 2.7 percent of basting material when tested by an approved plant control procedure would be in compliance. As used in this section, “a lot” may be any reasonable portion of production designated by the operator of the official establishment, with a maximum of an entire shift’s production from one production line. The control procedures to be eligible for approval by the Administrator must:

(1) Assure compliance with all labeling requirements.

(2) Control the variability of the amount of added approved solution within the limits defined above.

(3) Provide for the disposition in accordance with the regulations of all products not in compliance with this section.

(4) Incorporate a system of raw weight identification of a sufficient number of poultry and/or poultry parts to allow effective monitoring of the system by Federal inspectors and official establishment employees.

[37 FR 9706, May 16, 1972, as amended at 39 FR 36000, Oct. 7, 1974]

§ 381.170 Standards for kinds and classes, and for cuts of raw poultry.

(a) The following standards specify the various classes of the specified kinds of poultry, and the requirements for each class:

(1) *Chickens*—(i) *Rock Cornish game hen or Cornish game hen*. A Rock Cornish game hen or Cornish game hen is a young immature chicken (usually 5 to 6 weeks of age) weighing not more than 2 pounds ready-to-cook weight, which was prepared from a Cornish chicken or the progeny of a Cornish
