

PART 831—ACCIDENT/INCIDENT INVESTIGATION PROCEDURES

Sec.

- 831.1 Applicability of part.
- 831.2 Responsibility of Board.
- 831.3 Authority of Directors.
- 831.4 Nature of investigation.
- 831.5 Priority of Board investigations.
- 831.6 Request to withhold information.
- 831.7 Right to representation.
- 831.8 Investigator-in-charge.
- 831.9 Authority of Board representatives.
- 831.10 Autopsies.
- 831.11 Parties to the investigation.
- 831.12 Access to and release of wreckage, records, mail, and cargo.
- 831.13 Flow and dissemination of accident or incident information.
- 831.14 Proposed findings.

AUTHORITY: Independent Safety Board Act of 1974, as amended (49 U.S.C. 1101 *et seq.*); Federal Aviation Act of 1958, as amended (49 U.S.C. 40101 *et seq.*).

SOURCE: 53 FR 15847, May 4, 1988, unless otherwise noted.

§ 831.1 Applicability of part.

Unless otherwise specifically ordered by the National Transportation Safety Board (Board), the provisions of this part shall govern all accident or incident investigations, conducted under the authority of title VII of the Federal Aviation Act of 1958, as amended, and the Independent Safety Board Act of 1974. Rules applicable to accident hearings and reports are set forth in part 845.

§ 831.2 Responsibility of Board.

(a) *Aviation.* (1) The Board is responsible for the organization, conduct, and control of all accident and incident investigations (see § 830.2 of this chapter) within the United States, its territories and possessions, where the accident or incident involves any civil aircraft or certain public aircraft (as specified in § 830.5 of this chapter), including an investigation involving civil or public aircraft (as specified in § 830.5) on the one hand, and an Armed Forces or intelligence agency aircraft on the other hand. It is also responsible for investigating accidents/incidents that occur outside the United States, and which involve civil aircraft and/or certain public aircraft, when the accident/incident is not in the territory of an-

other country (*i.e.*, in international waters).

(2) Certain aviation investigations may be conducted by the Federal Aviation Administration (FAA), pursuant to a “Request to the Secretary of the Department of Transportation to Investigate Certain Aircraft Accidents,” effective February 10, 1977 (the text of the request is contained in the appendix to part 800 of this chapter), but the Board determines the probable cause of such accidents or incidents.¹ Under no circumstances are aviation investigations where the portion of the investigation is so delegated to the FAA by the Board considered to be joint investigations in the sense of sharing responsibility. These investigations remain NTSB investigations.

(3) The Board is the agency charged with fulfilling the obligations of the United States under Annex 13 to the Chicago Convention on International Civil Aviation (Eighth Edition, July 1994), and does so consistent with State Department requirements and in coordination with that department. Annex 13 contains specific requirements for the notification, investigation, and reporting of certain incidents and accidents involving international civil aviation. In the case of an accident or incident in a foreign state involving civil aircraft of U.S. registry or manufacture, where the foreign state is a signatory to Annex 13 to the Chicago Convention of the International Civil Aviation Organization, the state of occurrence is responsible for the investigation. If the accident or incident occurs in a foreign state not bound by the provisions of Annex 13 to the Chicago Convention, or if the accident or incident involves a public aircraft (Annex 13 applies only to civil aircraft), the conduct of the investigation shall be in consonance with any agreement entered into between the United States and the foreign state.

¹The authority of a representative of the FAA during such investigations is the same as that of a Board investigator under this part.

National Transportation Safety Board

§ 831.5

(b) *Surface*. The Board is responsible for the investigation of: railroad accidents in which there is a fatality, substantial property damage, or which involve a passenger train (see part 840 of this chapter²); major marine casualties and marine accidents involving a public and non-public vessel or involving Coast Guard functions (see part 850 of this chapter²); highway accidents, including railroad grade-crossing accidents, the investigation of which is selected in cooperation with the States; and pipeline accidents in which there is a fatality, significant injury to the environment, or substantial property damage.

(c) *Other accidents/incidents*. The Board is also responsible for the investigation of an accident/incident that occurs in connection with the transportation of people or property which, in the judgment of the Board, is catastrophic, involves problems of a recurring character, or would otherwise carry out the policy of the Independent Safety Board Act of 1974. This authority includes, but is not limited to, marine and boating accidents and incidents not covered by part 850 of this chapter, and accidents/incidents selected by the Board involving transportation and/or release of hazardous materials.

[62 FR 3806, Jan. 27, 1997]

§ 831.3 Authority of Directors.

The Directors, Office of Aviation Safety, Office of Railroad Safety, Office of Highway Safety, Office of Marine Safety, and Office of Pipeline and Hazardous Materials Safety, subject to the provisions of § 831.2 and part 800 of this chapter, may order an investigation into any accident or incident.

[63 FR 71606, Dec. 29, 1998]

§ 831.4 Nature of investigation.

Accident and incident investigations are conducted by the Board to determine the facts, conditions, and circumstances relating to an accident or incident and the probable cause(s) thereof. These results are then used to

ascertain measures that would best tend to prevent similar accidents or incidents in the future. The investigation includes the field investigation (on-scene at the accident, testing, tear-down, etc.), report preparation, and, where ordered, a public hearing. The investigation results in Board conclusions issued in the form of a report or "brief" of the incident or accident. Accident/incident investigations are fact-finding proceedings with no formal issues and no adverse parties. They are not subject to the provisions of the Administrative Procedure Act (5 U.S.C. 504 *et seq.*), and are not conducted for the purpose of determining the rights or liabilities of any person.

[62 FR 3806, Jan. 27, 1997]

§ 831.5 Priority of Board investigations.

Any investigation of an accident or incident conducted by the Safety Board directly or pursuant to the appendix to part 800 of this chapter (except major marine investigations conducted under 49 U.S.C. 1131(a)(1)(E)) has priority over all other investigations of such accident or incident conducted by other Federal agencies. The Safety Board shall provide for the appropriate participation by other Federal agencies in any such investigation, except that such agencies may not participate in the Safety Board's determination of the probable cause of the accident or incident. Nothing in this section impairs the authority of other Federal agencies to conduct investigations of an accident or incident under applicable provisions of law or to obtain information directly from parties involved in, and witnesses to, the transportation accident or incident, provided they do so without interfering with the Safety Board's investigation. The Safety Board and other Federal agencies shall assure that appropriate information obtained or developed in the course of their investigations is exchanged in a timely manner.

[62 FR 3807, Jan. 27, 1997]

²Part 850 also governs the conduct of certain investigations in which the Board and the Coast Guard participate jointly.
