

Federal Deposit Insurance Corporation

§ 307.1

required to file a Report of Assets and Liabilities of U.S. Branches and Agencies of Foreign Banks in accordance with the instructions for the report. All assets and liabilities, including contingent assets and liabilities, must be reported in, or otherwise taken into account in the preparation of the report. The FDIC uses the reported data to calculate deposit insurance assessments and monitor the condition, performance, and risk profile of individual insured branches and the banking industry. Insured branches must also submit annually such information on small business and small farm lending as the FDIC may need to assess the availability of credit to these sectors of the economy. Because the Board of Governors of the Federal Reserve System collects and processes this report on behalf of the FDIC, the report forms and instructions can be obtained from Federal Reserve District Banks or through the web site of the Federal Financial Institutions Examination Council, <http://www.ffiec.gov/>.
