APPENDIX A TO PART 43—DATA FIELDS FOR PUBLIC DISSEMINATION

APPENDIX B TO PART 43—ENUMERATED PHYSICAL COMMODITY CONTRACTS AND OTHER CONTRACTS

APPENDIX C TO PART 43—TIME DELAYS FOR PUBLIC DISSEMINATION

AUTHORITY: 7 U.S.C. 2(a), 12a(5) and 24a, as amended by Title VII of the Wall Street Reform and Consumer Protection Act, Pub. L. 111–203, 124 Stat. 1376 (2010).

SOURCE: 76 FR 1243, Jan. 9, 2012, unless otherwise noted.

§ 43.1 Purpose, scope, and rules of construction.

(a) *Purpose.* This part implements rules relating to the reporting and public dissemination of certain swap transaction and pricing data to enhance transparency and price discovery pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, Pub. L. 111–203, 124 Stat. 1376 (2010).

(b)(1) *Scope.* The provisions of this part shall apply to all swaps as defined in Section 1a(47) of the Act and any implementing regulations thereunder, including:

(i) Swaps subject to the mandatory clearing requirement described in Section 2(h)(1) of the Act, including those swaps that are excepted from the requirement pursuant to Section 2(h)(7) of the Act;

(ii) Swaps that are not subject to the mandatory clearing requirement described in Section 2(h)(1) of the Act,

but are cleared at a registered derivatives clearing organization;

(iii) Swaps that are not cleared at a registered derivatives clearing organization and are reported to a registered swap data repository that accepts and publicly disseminates swap transaction and pricing data in real-time; and

(iv) Swaps that are required to be cleared under Section 2(h)(2) of the Act, but are not cleared.

(2) This part also shall apply to registered entities as defined in the Act, as well as to parties to a swap including swap dealers, major swap participants and U.S.-based market participants in a manner as the Commission may determine.

(c) *Rules of construction.* The examples in this part and in appendix A to this part are not exclusive. Compliance with a particular example or application of a sample clause, to the extent applicable, shall constitute compliance with the particular portion of the rule to which the example relates.

(d) *Severability.* If any provision of this part, or the application thereof to any person or circumstance, is held invalid, such invalidity shall not affect other provisions or application of such provision to other persons or circumstances which can be given effect without the invalid provision or application.

§ 43.2 Definitions.

As used in this part:

Act means the Commodity Exchange Act, as amended, 7 U.S.C. 1 *et seq.*

Affirmation means the process by which parties to a swap verify (orally, in writing, electronically or otherwise) that they agree on the primary economic terms of a swap (but not necessarily all terms of the swap). Affirmation may constitute “execution” of the swap or may provide evidence of execution of the swap, but does not constitute confirmation (or confirmation by affirmation) of the swap.

Appropriate minimum block size means the minimum notional or principal amount for a category of swaps that qualifies a swap within such category as a block trade or large notional off-facility swap.

As soon as technologically practicable means as soon as possible, taking into

consideration the prevalence, implementation and use of technology by comparable market participants.

Asset class means a broad category of commodities including, without limitation, any "excluded commodity" as defined in Section 1a(19) of the Act, with common characteristics underlying a swap. The asset classes include interest rate, foreign exchange, credit, equity, other commodity and such other asset classes as may be determined by the Commission.

Block trade means a publicly reportable swap transaction that:

(1) Involves a swap that is listed on a registered swap execution facility or designated contract market;

(2) Occurs away from the registered swap execution facility's or designated contract market's trading system or platform and is executed pursuant to the registered swap execution facility's or designated contract market's rules and procedures;

(3) Has a notional or principal amount at or above the appropriate minimum block size applicable to such swap; and

(4) Is reported subject to the rules and procedures of the registered swap execution facility or designated contract market and the rules described in this part, including the appropriate time delay requirements set forth in §43.5 of this part.

Business day means the twenty-four hour day, on all days except Saturdays, Sundays and legal holidays, in the location of the reporting party or registered entity reporting data for the swap.

Business hours means the consecutive hours of one or more consecutive business days.

Confirmation means the consummation (electronic or otherwise) of legally binding documentation (electronic or otherwise) that memorializes the agreement of the parties to all terms of a swap. A confirmation shall be in writing (electronic or otherwise) and shall legally supersede any previous agreement (electronic or otherwise) relating to the swap.

Confirmation by affirmation means the process by which one party to a swap acknowledges its assent to the complete swap terms submitted by the

other party to the swap. If the parties to a swap are using a confirmation service vendor, complete swap terms may be submitted electronically by a party to such vendor's platform and the other party may affirm such terms on such platform.

Embedded option means any right, but not an obligation, provided to one party of a swap by the other party to the swap that provides the party holding the option with the ability to change any one or more of the economic terms of the swap as those terms previously were established at confirmation (or were in effect on the start date).

Executed means the completion of the execution process.

Execution means an agreement by the parties (whether orally, in writing, electronically, or otherwise) to the terms of a swap that legally binds the parties to such swap terms under applicable law. Execution occurs simultaneously with or immediately following the affirmation of the swap.

Large notional off-facility swap means an off-facility swap that has a notional or principal amount at or above the appropriate minimum block size applicable to such publicly reportable swap transaction and is not a block trade as defined in §43.2 of the Commission's regulations.

Novation means the process by which a party to a swap transfers all of its rights, liabilities, duties and obligations under the swap to a new legal party other than the counterparty to the swap. The transferee accepts all of the transferor's rights, liabilities, duties and obligations under the swap. A novation is valid as long as the transferor and the remaining party to the swap are given notice, and the transferor, transferee and remaining party to the swap consent to the transfer.

Off-facility swap means any publicly reportable swap transaction that is not executed on or pursuant to the rules of a registered swap execution facility or designated contract market.

Other commodity means any commodity that is not categorized in the other asset classes as may be determined by the Commission.

Public dissemination and publicly disseminate means to publish and make

§ 43.3

17 CFR Ch. I (4–1–12 Edition)

available swap transaction and pricing data in a non-discriminatory manner, through the Internet or other electronic data feed that is widely published and in machine-readable electronic format.

Publicly reportable swap transaction means:

(1) Unless otherwise provided in this part—

(i) Any executed swap that is an arm's-length transaction between two parties that results in a corresponding change in the market risk position between the two parties; or

(ii) Any termination, assignment, novation, exchange, transfer, amendment, conveyance, or extinguishing of rights or obligations of a swap that changes the pricing of the swap.

(2) Examples of executed swaps that do not fall within the definition of publicly reportable swap may include:

(i) Internal swaps between one-hundred percent owned subsidiaries of the same parent entity; and

(ii) Portfolio compression exercises.

(3) These examples represent swaps that are not at arm's length and thus are not publicly reportable swap transactions, notwithstanding that they do result in a corresponding change in the market risk position between two parties.

Real-time public reporting means the reporting of data relating to a swap transaction, including price and volume, as soon as technologically practicable after the time at which the swap transaction has been executed.

Remaining party means a party to a swap that consents to a transferor's transfer by novation of all of the transferor's rights, liabilities, duties and obligations under such swap to a transferee.

Reporting party means the party to a swap with the duty to report a publicly reportable swap transaction in accordance with this part and section 2(a)(13)(F) of the Act.

Transferee means a party to a swap that accepts, by way of novation, all of a transferor's rights, liabilities, duties and obligations under such swap with respect to a remaining party.

Transferor means a party to a swap that transfers, by way of novation, all of its rights, liabilities, duties and obli-

gations under such swap, with respect to a remaining party, to a transferee.

Unique product identifier means a unique identification of a particular level of the taxonomy of the product in an asset class or sub-asset class in question, as further described in § 43.4(f) and appendix A to this part. Such unique product identifier may combine the information from one or more of the data fields described in appendix A.

Widely published means to publish and make available through electronic means in a manner that is freely available and readily accessible to the public.

§ 43.3 Method and timing for real-time public reporting.

(a) *Responsibilities of parties to a swap to report swap transaction and pricing data in real-time*—(1) *In general*. A reporting party shall report any publicly reportable swap transaction to a registered swap data repository as soon as technologically practicable after such publicly reportable swap transaction is executed. For purposes of this part, a registered swap data repository includes any swap data repository provisionally registered with the Commission pursuant to part 49 of this chapter.

(2) *Swaps executed on or pursuant to the rules of a registered swap execution facility or designated contract market*. A party to a publicly reportable swap transaction shall satisfy its reporting requirement under this section by executing a publicly reportable swap transaction on or pursuant to the rules of a registered swap execution facility or designated contract market.

(3) *Off-facility swaps*. All off-facility swaps shall be reported by the reporting party as soon as technologically practicable following execution, to a registered swap data repository for the appropriate asset class in accordance with the rules set forth in this part. Unless otherwise agreed to by the parties prior to the execution of the publicly reportable swap transaction, the following persons shall be reporting parties for off-facility swaps:

(i) If only one party is a swap dealer or major swap participant, then the swap dealer or major swap participant shall be the reporting party;

(ii) If one party is a swap dealer and the other party is a major swap participant, then the swap dealer shall be the reporting party;

(iii) If both parties are swap dealers, then the swap dealers shall designate which party shall be the reporting party;

(iv) If both parties are major swap participants, then the major swap participants shall designate which party shall be the reporting party;

(v) If neither party is a swap dealer or a major swap participant, then the parties shall designate which party (or its agent) shall be the reporting party.

(b) *Public dissemination of swap transaction and pricing data*—(1) *Publicly reportable swap transactions executed on or pursuant to the rules of a registered swap execution facility or designated contract market.* A registered swap execution facility or designated contract market shall satisfy the requirements of this subparagraph by transmitting swap transaction and pricing data to a registered swap data repository, as soon as technologically practicable after the publicly reportable swap transaction has been executed on or pursuant to the rules of such trading platform or facility.

(2) *Public dissemination of swap transaction and pricing data by registered swap data repositories.* A registered swap data repository shall ensure that swap transaction and pricing data is publicly disseminated, as soon as technologically practicable after such data is received from a registered swap execution facility, designated contract market or reporting party, unless such publicly reportable swap transaction is subject to a time delay described in § 43.5 of this part, in which case the publicly reportable swap transaction shall be publicly disseminated in the manner described in § 43.5.

(3) *Prohibitions on disclosure of data.*

(i) If there is a registered swap data repository for an asset class, a registered swap execution facility or designated contract market shall not disclose swap transaction and pricing data relating to publicly reportable swap transactions in such asset class, prior to the public dissemination of such data by a registered swap data repository unless:

(A) Such disclosure is made no earlier than the transmittal of such data to a registered swap data repository for public dissemination;

(B) Such disclosure is only made to market participants on such registered swap execution facility or designated contract market;

(C) Market participants are provided advance notice of such disclosure; and

(D) Any such disclosure by the registered swap execution facility or designated contract market is non-discriminatory.

(ii) If there is a registered swap data repository for an asset class, a swap dealer or major swap participant shall not disclose swap transaction and pricing data relating to publicly reportable swap transactions in such asset class, prior to the public dissemination of such data by a registered swap data repository unless:

(A) Such disclosure is made no earlier than the transmittal of such data to a registered swap data repository for public dissemination;

(B) Such disclosure is only made to the customer base of such swap dealer or major swap participant, including parties who maintain accounts with or have been swap counterparties with such swap dealer or major swap participant;

(C) Swap counterparties are provided advance notice of such disclosure; and

(D) Any such disclosure by the swap dealer or major swap participant is non-discriminatory.

(c) *Requirements for registered swap data repositories in providing the public dissemination of swap transaction and pricing data in real-time*—(1) *Compliance with 17 CFR part 49.* Any registered swap data repository that accepts and publicly disseminates swap transaction and pricing data in real-time shall comply with part 49 of this chapter and shall publicly disseminate swap transaction and pricing data in accordance with this part as soon as technologically practicable upon receipt of such data, except as otherwise provided in this part.

(2) *Acceptance and public dissemination of all swaps in an asset class.* Any registered swap data repository that accepts and publicly disseminates swap transaction and pricing data in real-

time for swaps in its selected asset class shall accept and publicly disseminate swap transaction and pricing data in real-time for all publicly reportable swap transactions within such asset class, unless otherwise prescribed by the Commission.

(3) *Annual independent review.* Any registered swap data repository that accepts and publicly disseminates swap transaction and pricing data in real-time shall perform, on an annual basis, an independent review in accordance with established audit procedures and standards of the registered swap data repository's security and other system controls for the purposes of ensuring compliance with the requirements in this part.

(d) *Availability of swap transaction and pricing data to the public.* (1) Registered swap data repositories shall publicly disseminate swap transaction and pricing data in a consistent, usable and machine-readable electronic format that allows the data to be downloaded, saved and analyzed.

(2) Data that is publicly disseminated pursuant to this part shall be available from an Internet Web site in a format that is freely available and readily accessible to the public.

(3) Registered swap data repositories shall provide to the Commission a hyperlink to the Internet Web site where publicly disseminated swap transaction and pricing data can be accessed by the public.

(e) *Errors or omissions—(1) In general.* Any errors or omissions in swap transaction and pricing data that were publicly disseminated in real-time shall be corrected or cancelled in the following manner:

(i) If a party to the swap becomes aware of an error or omission in the swap transaction and pricing data reported with respect to such swap, such party shall promptly notify the other party of the error and/or correction.

(ii) If a reporting party to a swap becomes aware of an error or omission in the swap transaction or pricing data which it reported to a registered swap data repository or which was reported by a registered swap execution facility or designated contract market with respect to such swap, either through its own initiative or through notice by the

other party to the swap, the reporting party shall promptly submit corrected data to the same registered swap execution facility, designated contract market or registered swap data repository.

(iii) If the registered swap execution facility or designated contract market becomes aware of an error or omission in the swap transaction or pricing data reported with respect to such swap, or receives notification from the reporting party, the registered swap execution facility or designated contract market shall promptly submit corrected data to the same registered swap data repository.

(iv) Any registered swap data repository that accepts and publicly disseminates swap transaction and pricing data in real-time shall publicly disseminate any cancellations or corrections to such data, as soon as technologically practicable after receipt or discovery of any such cancellation or correction.

(2) *Improper cancellation or correction.* Reporting parties, registered swap execution facilities, designated contract markets and registered swap data repositories shall not submit or agree to submit a cancellation or correction for the purpose of re-reporting swap transaction and pricing data in order to gain or extend a delay in public dissemination of accurate swap transaction or pricing data or to otherwise evade the reporting requirements in this part.

(3) *Cancellation.* A registered swap data repository shall cancel any incorrect data that had been publicly disseminated by publicly disseminating a cancellation of such data, as soon as technologically practicable, in the manner described in appendix A to this part.

(4) *Correction.* A registered swap data repository shall correct any incorrect data that had been publicly disseminated by publicly disseminating a cancellation of the incorrect swap transaction and pricing data and then publicly disseminating the correct data, as soon as technologically practicable, in the manner described in appendix A to this part.

(f) *Hours of operation of registered swap data repositories.* Unless otherwise provided in this subsection, a registered

swap data repository shall have systems in place to continuously receive and publicly disseminate swap transaction and pricing data in real-time pursuant to this part.

(1) A registered swap data repository may declare closing hours to perform system maintenance.

(2) A registered swap data repository shall, to the extent reasonably possible, avoid scheduling closing hours when, in its estimation, the U.S. market and major foreign markets are most active.

(3) A registered swap data repository shall comply with the requirements under part 40 of this chapter in setting closing hours and shall provide advance notice of its closing hours to market participants and the public.

(g) *Acceptance of data during closing hours.* During closing hours, a registered swap data repository shall have the capability to receive and hold in queue any data regarding publicly reportable swap transactions pursuant to this part.

(1) Upon any reopening after closing hours, a registered swap data repository shall promptly and publicly disseminate the swap transaction and pricing data of swaps held in queue, in accordance with the requirements of this part.

(2) If at any time during closing hours a registered swap data repository is unable to receive and hold in queue swap transaction and pricing data pursuant to this part, then the registered swap data repository shall immediately upon reopening issue notice that it has resumed normal operations. Any registered swap execution facility, designated contract market or reporting party that is obligated under this section to report data to the registered swap data repository shall report the data to the registered swap data repository immediately after receiving such notice.

(h) *Timestamp requirements.* In addition to the execution timestamp described in appendix A to this part, registered entities, swap dealers and major swap participants shall have the following timestamp requirements with respect to real-time public reporting of swap transaction and pricing

data for all publicly reportable swap transactions:

(1) A registered swap execution facility or designated contract market shall timestamp swap transaction and pricing data relating to a publicly reportable swap transaction with the date and time, to the nearest second of when such registered swap execution facility or designated contract market:

(i) Receives data from a swap counterparty (if applicable); and

(ii) Transmits such data to a registered swap data repository for public dissemination.

(2) A registered swap data repository shall timestamp swap transaction and pricing data relating to a publicly reportable swap transaction with the date and time, to the nearest second when such registered swap data repository:

(i) Receives data from a registered swap execution facility, designated contract market or reporting party; and

(ii) Publicly disseminates such data.

(3) A swap dealer or major swap participant shall timestamp swap transaction and pricing data relating to an off-facility swap with the date and time, to the nearest second when such swap dealer or major swap participant transmits such data to a registered swap data repository for public dissemination.

(4) Records of all timestamps required by this subsection shall be maintained for a period of at least five years from the execution of the publicly reportable swap transaction.

(i) *Fees.* Any fees or charges assessed on a reporting party, registered swap execution facility or designated contract market by a registered swap data repository that accepts and publicly disseminates swap transaction and pricing data in real-time for the collection of such data shall be equitable and non-discriminatory. If such registered swap data repository allows a fee discount based on the volume of data reported to it for public dissemination, then such discount shall be made available to all reporting parties, registered swap execution facilities and designated contract markets in an equitable and non-discriminatory manner.

§ 43.4 Swap transaction and pricing data to be publicly disseminated in real-time.

(a) *In general.* Swap transaction and pricing information shall be reported to a registered swap data repository so that the registered swap data repository can publicly disseminate swap transaction and pricing data in real-time in accordance with this part, including the manner described in this section and appendix A to this part.

(b) *Public dissemination of data fields.* Any registered swap data repository that accepts and publicly disseminates swap transaction and pricing data in real-time shall publicly disseminate the information described in appendix A to this part, as applicable, for any publicly reportable swap transaction.

(c) *Additional swap information.* A registered swap data repository that accepts and publicly disseminates swap transaction and pricing data in real-time may require reporting parties, registered swap execution facilities and designated contract markets to report to such registered swap data repository, such information that is necessary to compare the swap transaction and pricing data that was publicly disseminated in real-time to the data reported to a registered swap data repository pursuant to Section 2(a)(13)(G) of the Act or to confirm that parties to a swap have reported in a timely manner pursuant to § 43.3 of this part. Such additional information shall not be publicly disseminated by the registered swap data repository.

(d) *Anonymity of the parties to a publicly reportable swap transaction—(1) In general.* Swap transaction and pricing data that is publicly disseminated in real-time shall not disclose the identities of the parties to the swap or otherwise facilitate the identification of a party to a swap. A registered swap data repository that accepts and publicly disseminates swap transaction and pricing data in real-time shall not publicly disseminate such data in a manner that discloses or otherwise facilitates the identification of a party to a swap.

(2) *Actual product description reported to registered swap data repository.* Reporting parties, registered swap execution facilities and designated contract

markets shall provide a registered swap data repository with swap transaction and pricing data that includes an actual description of the underlying asset(s). This requirement is separate from the requirement that a reporting party, registered swap execution facility or designated contract market shall report swap data to a registered swap data repository pursuant to Section 2(a)(13)(G) of the Act and the Commission's regulations.

(3) *Public dissemination of the actual description of underlying asset(s).* Notwithstanding the anonymity protection for certain swaps in the other commodity asset class in § 43.4(d)(4)(ii), a registered swap data repository shall publicly disseminate the actual underlying asset(s) of all publicly reportable swap transactions in the interest rate, credit, equity and foreign exchange asset classes.

(4) *Public dissemination of the underlying asset(s) for certain swaps in the other commodity asset class.* A registered swap data repository shall publicly disseminate swap transaction and pricing data in the other commodity asset class as described in this subsection.

(i) A registered swap data repository shall publicly disseminate swap transaction and pricing data for publicly reportable swap transactions in the other commodity asset class in the manner described in § 43.4(d)(4)(ii).

(ii) The actual underlying asset(s) shall be publicly disseminated for the following publicly reportable swap transactions in the other commodity asset class:

(A) Any publicly reportable swap transaction that references one of the contracts described in appendix B to this part;

(B) Any publicly reportable swap transaction that is economically related to one of the contracts described in appendix B to this part; and

(C) Any publicly reportable swap transaction executed on or pursuant to the rules of a registered swap execution facility or designated contract market.

(e) *Unique product identifier.* If a unique product identifier is developed that sufficiently describes one or more of the swap transaction and pricing data fields for real-time reporting described in appendix A to this part, then

such unique product identifier may be publicly disseminated in lieu of the data fields that it describes.

(f) *Reporting of notional or principal amounts to a registered swap data repository*—(1) *Off-facility swaps.* The reporting party shall report the actual notional or principal amount of any off-facility swap to a registered swap data repository that accepts and publicly disseminates such data pursuant to part 43.

(2) *Swaps executed on or pursuant to the rules of a registered swap execution facility or designated contract market.* (i) A registered swap execution facility or designated contract market shall transmit the actual notional or principal amount for all swaps executed on or pursuant to the rules of such registered swap execution facility or designated contract market, to a registered swap data repository that accepts swaps in the asset class.

(ii) The actual notional or principal amount for any block trade executed pursuant to the rules of a registered swap execution facility or designated contract market shall be reported to the registered swap execution facility or designated contract market pursuant to the rules of the registered swap execution facility or designated contract market.

(g) *Public dissemination of rounded notional or principal amounts.* The notional or principal amount of a publicly reportable swap transaction, as described in appendix A to this part, shall be rounded and publicly disseminated by a registered swap data repository as follows:

(1) If the notional or principal amount is less than one thousand, round to nearest five, but in no case shall a publicly disseminated notional or principal amount be less than five;

(2) If the notional or principal amount is less than ten thousand but equal to or greater than one thousand, round to nearest one hundred;

(3) If the notional or principal amount is less than 100 thousand but equal to or greater than ten thousand, round to nearest one thousand;

(4) If the notional or principal amount is less than one million but equal to or greater than 100 thousand, round to nearest ten thousand;

(5) If the notional or principal amount is less than 100 million but equal to or greater than one million, round to the nearest one million;

(6) If the notional or principal amount is less than 500 million but equal to or greater than 100 million, round to the nearest ten million;

(7) If the notional or principal amount is less than one billion but equal to or greater than 500 million, round to the nearest 50 million;

(8) If the notional or principal amount is less than 100 billion but equal to or greater than one billion, round to the nearest one billion;

(9) If the notional or principal amount is greater than 100 billion, round to the nearest 50 billion.

(h) *Public dissemination caps on notional or principal amounts.* The rounded notional or principal amount that is publicly disseminated for a publicly reportable swap transaction shall be capped in a manner that adjusts in accordance with the appropriate minimum block size that corresponds to such publicly reportable swap transaction. If there is no appropriate minimum block size applicable to a publicly reportable swap transaction, then the cap on the notional or principal amount that is publicly disseminated shall be applied in the following manner:

(1) *Interest rate swaps.* (i) The publicly disseminated notional or principal amount for an interest rate swap subject to the rules in this part with a tenor greater than zero up to and including two years shall be capped at USD 250 million.

(ii) The publicly disseminated notional or principal amount for an interest rate swap subject to the rules in this part with a tenor greater than two years up to and including ten years shall be capped at USD 100 million.

(iii) The publicly disseminated notional or principal amount for an interest rate swap subject to the rules in this part with a tenor greater than ten years shall be capped at USD 75 million.

(2) *Credit swaps.* The publicly disseminated notional or principal amount for a credit swap subject to the rules in this part shall be capped at USD 100 million.

(3) *Equity swaps.* The publicly disseminated notional or principal amount for an equity swap subject to the rules in this part shall be capped at USD 250 million.

(4) *Foreign exchange swaps.* The publicly disseminated notional or principal amount for a foreign exchange swap subject to the rules in this part shall be capped at USD 250 million.

(5) *Other commodity swaps.* The publicly disseminated notional or principal amount for any other commodity swap subject to the rules in this part shall be capped at USD 25 million.

§ 43.5 Time delays for public dissemination of swap transaction and pricing data.

(a) *In general.* The time delay for the real-time public reporting of a block trade or large notional off-facility swap begins upon execution, as defined in § 43.2 of this part. It is the responsibility of the registered swap data repository that accepts and publicly disseminates swap transaction and pricing data in real-time to ensure that the block trade or large notional off-facility swap transaction and pricing data is publicly disseminated pursuant to this part upon the expiration of the appropriate time delay described in § 43.5(d) through (h).

(b) *Public dissemination of publicly reportable swap transactions subject to a time delay.* A registered swap data repository shall publicly disseminate swap transaction and pricing data that is subject to a time delay pursuant to this paragraph, as follows:

(1) No later than the prescribed time delay period described in this paragraph;

(2) No sooner than the prescribed time delay period described in this paragraph; and

(3) Precisely upon the expiration of the time delay period described in this paragraph.

(c) *Interim time delay—(1) In general.* The public dissemination of swap transaction and pricing data relating to any publicly reportable swap transaction shall receive the same time delays for block trades and large notional off-facility swaps, as described in this subsection, until such time as an appropriate minimum block size is

established with respect to such publicly reportable swap transaction.

(2) *Swaps executed on or pursuant to the rules of a registered swap execution facility or designated contract market.* Any publicly reportable swap transaction that does not have an appropriate minimum block size and that is executed on or pursuant to the rules of a registered swap execution facility or designated contract market shall follow the time delays set forth in § 43.5(d) until such time that an appropriate minimum block size is established for such publicly reportable swap transaction.

(3) *Off-facility swaps subject to the mandatory clearing requirement.* Any off-facility swap that does not have an appropriate minimum block size and that is subject to the mandatory clearing requirement described in Section 2(h)(1) of the Act and Commission regulations, with the exception of those off-facility swaps that are either excepted from the mandatory clearing requirement pursuant to Section 2(h)(7) of the Act and Commission regulations or that are required to be cleared under Section 2(h)(2) of the Act and Commission regulations but are not cleared, shall follow the time delays set forth in § 43.5(e) until such time that an appropriate minimum block size is established for such off-facility swap.

(4) *Off-facility swaps in the interest rate, credit, foreign exchange and equity asset classes not subject to the mandatory clearing requirement with at least one swap dealer or major swap participant counterparty.* Any off-facility swap in the interest rate, credit, foreign exchange or equity asset classes, where at least one party is a swap dealer or major swap participant, that is not subject to the mandatory clearing requirement or is excepted from such mandatory clearing requirement and that does not have an appropriate minimum block size shall follow the time delays set forth in § 43.5(f) until such time that an appropriate minimum block size is established for such off-facility swap.

(5) *Off-facility swaps in the other commodity asset class not subject to the mandatory clearing requirement with at least one swap dealer or major swap participant counterparty.* Any off-facility swap

in the other commodity asset class, where at least one party is a swap dealer or major swap participant, that is not subject to the mandatory clearing requirement or is excepted from such mandatory clearing requirement and that does not have an appropriate minimum block size shall follow the time delays set forth in § 43.5(g) until such time that an appropriate minimum block size is established for such off-facility swap.

(6) *Off-facility swaps in all asset classes not subject to the mandatory clearing requirement in which neither counterparty is a swap dealer or major swap participant.* Any off-facility swap, in all asset classes, where neither party is a swap dealer or major swap participant, that is not subject to the mandatory clearing requirement or is excepted from such mandatory clearing requirement and that does not have an appropriate minimum block size shall follow the time delays set forth in § 43.5(h) until such time that an appropriate minimum block size is established for such off-facility swap.

(7) *Time delays for public dissemination upon establishment of an appropriate minimum block size.* After an appropriate minimum block size is established for a particular swap or category of swaps, all publicly reportable swap transactions that are below the appropriate minimum block size shall be publicly disseminated as soon as technologically practicable after execution pursuant to § 43.3 of this part.

(d) *Time delay for block trades executed pursuant to the rules of a registered swap execution facility or designated contract market.* Any block trade that is executed pursuant to the rules of a registered swap execution facility or designated contract market shall receive a time delay in the public dissemination of swap transaction and pricing data as follows:

(1) *Time delay during Year 1.* For one year beginning on the compliance date of this part, the time delay for public dissemination of swap transaction and pricing data for all publicly reportable swap transactions described in § 43.5(d) shall be 30 minutes immediately after execution of such publicly reportable swap transaction.

(2) *Time delay after Year 1.* Beginning on the first anniversary of the compliance date of this part, the time delay for public dissemination of swap transaction and pricing data for all publicly reportable swap transactions described in § 43.5(d) shall be 15 minutes immediately after execution of such publicly reportable swap transaction.

(e) *Time delay for large notional off-facility swaps subject to the mandatory clearing requirement—(1) In general.* This subsection shall not apply to off-facility swaps that are excepted from the mandatory clearing requirement pursuant to Section 2(h)(7) of the Act and Commission regulations, and this subsection shall not apply to those swaps that are required to be cleared under Section 2(h)(2) of the Act and Commission regulations but are not cleared.

(2) *Swaps subject to the mandatory clearing requirement where at least one party is a swap dealer or major swap participant.* Any large notional off-facility swap that is subject to the mandatory clearing requirement described in Section 2(h)(1) of the Act and Commission regulations, in which at least one party is a swap dealer or major swap participant, shall receive a time delay as follows:

(i) *Time delay during Year 1.* For one year beginning on the compliance date of this part, the time delay for public dissemination of swap transaction and pricing data for all swaps described in § 43.5(e)(2) shall be 30 minutes immediately after execution of such swap.

(ii) *Time delay after Year 1.* Beginning on the first anniversary of the compliance date of this part, the time delay for public dissemination of swap transaction and pricing data for all swaps described in § 43.5(e)(2) shall be 15 minutes immediately after execution of such swap.

(3) *Swaps subject to the mandatory clearing requirement where neither party is a swap dealer or major swap participant.* Any large notional off-facility swap that is subject to the mandatory clearing requirement described in Section 2(h)(1) of the Act and Commission regulations, in which neither party is a swap dealer or major swap participant, shall receive a time delay as follows:

(i) *Time delay during Year 1.* For one year beginning on the compliance date

of this part, the time delay for public dissemination of swap transaction and pricing data for all swaps described in § 43.5(e)(3) shall be four hours immediately after execution of such swap.

(ii) *Time delay during Year 2.* For one year beginning on the first anniversary of the compliance date of this part, the time delay for public dissemination of swap transaction and pricing data for all swaps described in § 43.5(e)(3) shall be two hours immediately after execution of such swap.

(iii) *Time delay after Year 2.* Beginning on the second anniversary of the compliance date of this part, the time delay for public dissemination of swap transaction and pricing data for all swaps described in § 43.5(e)(3) shall be one hour immediately after execution of such swap.

(f) *Time delay for large notional off-facility swaps in the interest rate, credit, foreign exchange or equity asset classes not subject to the mandatory clearing requirement with at least one swap dealer or major swap participant counterparty.* Any large notional off-facility swap in the interest rate, credit, foreign exchange or equity asset classes where at least one party is a swap dealer or major swap participant, that is not subject to the mandatory clearing requirement or is excepted from such mandatory clearing requirement, shall receive a time delay in the public dissemination of swap transaction and pricing data as follows:

(1) *Time delay during Year 1.* For one year beginning on the compliance date of this part, the time delay for public dissemination of swap transaction and pricing data for all swaps described in § 43.5(f) shall be one hour immediately after execution of such swap; however, any large notional off-facility swap in the interest rate, credit, foreign exchange or equity asset classes in which one party is not a swap dealer or major swap participant and such party is not a financial entity as defined in Section 2(h)(7)(C) of the Act and Commission regulations, shall receive a time delay of one hour immediately after execution of such swap; or if such swap transaction or pricing data is received by the registered swap data repository later than one hour immediately after execution, the registered swap data re-

pository shall publicly disseminate such data as soon as technologically practicable after the data is received.

(2) *Time delay during Year 2.* For one year beginning on the first anniversary of the compliance date of this part, the time delay for public dissemination of swap transaction and pricing data for all swaps described in § 43.5(f) shall be 30 minutes immediately after execution of such swap; however, any large notional off-facility swap in the interest rate, credit, foreign exchange or equity asset classes in which one party is not a swap dealer or major swap participant and such party is not a financial entity as defined in Section 2(h)(7)(C) of the Act and Commission regulations, shall receive a time delay of 30 minutes immediately after execution of such swap; or if such swap transaction or pricing data is received by the registered swap data repository later than 30 minutes immediately after execution, the registered swap data repository shall publicly disseminate such data as soon as technologically practicable after the data is received.

(3) *Time delay after Year 2.* Beginning on the second anniversary of the compliance date of this part, the time delay for public dissemination of swap transaction and pricing data for all swaps described in § 43.5(f) shall be 30 minutes immediately after execution of such swap.

(g) *Time delay for large notional off-facility swaps in the other commodity asset class not subject to the mandatory clearing requirement with at least one swap dealer or major swap participant counterparty.* Any large notional off-facility swap in the other commodity asset class where at least one party is a swap dealer or major swap participant, that is not subject to the mandatory clearing requirement or is exempt from such mandatory clearing requirement, shall receive a time delay in the public dissemination of swap transaction and pricing data as follows:

(1) *Time delay during Year 1.* For one year beginning on the compliance date of this part, the time delay for public dissemination of swap transaction and pricing data for all swaps described in § 43.5(g) shall be four hours immediately after execution of such swap; however, any large notional off-facility

swap in the other commodity asset class in which only one party is not a swap dealer or major swap participant and such party is not a financial entity as defined in Section 2(h)(7)(C) of the Act and Commission regulations, shall receive a time delay of four hours immediately after execution of such swap, or if such swap transaction or pricing data is received by the registered swap data repository later than four hours immediately after execution of such swap, the registered swap data repository shall publicly disseminate such data as soon as technologically practicable after the data is received.

(2) *Time delay during Year 2.* For one year beginning on the first anniversary of the compliance date of this part, the time delay for public dissemination of swap transaction and pricing data for all swaps described in §43.5(g) shall be two hours immediately after execution of such swap; however, any large notional off-facility swap in the other commodity asset class in which only one party is not a swap dealer or major swap participant and such party is not a financial entity as defined in Section 2(h)(7)(C) of the Act and Commission regulations, shall receive a time delay of two hours immediately after execution of such swap, or if such swap transaction or pricing data is received by the registered swap data repository later than two hours immediately after execution, the registered swap data repository shall publicly disseminate such data as soon as technologically practicable after the data is received.

(3) *Time delay after Year 2.* Beginning on the second anniversary of the compliance date of this part, the time delay for public dissemination of swap transaction and pricing data for all swaps described in §43.5(g) shall be two hours after the execution of such swap.

(h) *Time delay for large notional off-facility swaps in all asset classes not subject to the mandatory clearing requirement in which neither counterparty is a swap dealer or a major swap participant.* Any large notional off-facility swap in which neither party is a swap dealer or

a major swap participant, which is not subject to the mandatory clearing requirement or is exempt from such mandatory clearing requirement, shall receive a time delay in the public dissemination of swap transaction and pricing data as follows:

(1) *Time delay during Year 1.* For one year beginning on the compliance date of this part, the time delay for public dissemination of swap transaction and pricing data for all swaps described in §43.5(h) shall be 48 business hours immediately after execution of such swap.

(2) *Time delay during Year 2.* For one year beginning on the first anniversary of the compliance date of this part, the time delay for public dissemination of swap transaction and pricing data for all swaps described in §43.5(h) shall be 36 business hours immediately after the execution of such swap.

(3) *Time delay after Year 2.* Beginning on the second anniversary of the compliance date of this part, the time delay for public dissemination transaction and pricing data for all swaps described in §43.5(h) shall be 24 business hours immediately after the execution of such swap.

§ 43.6 [Reserved]

APPENDIX A TO PART 43—DATA FIELDS FOR PUBLIC DISSEMINATION

The data fields described in Table A1 and Table A2, to the extent applicable for a particular publicly reportable swap transaction, shall be publicly disseminated pursuant to part 43. Table A1 and Table A2 provide guidance for compliance with the reporting and public dissemination of each data field. Reporting parties, registered swap execution facilities and designated contract markets shall report swap transaction and pricing data necessary to publicly disseminate such data, pursuant to part 43 and this appendix A to part 43, to a registered swap data repository as soon as technologically practicable after execution of the publicly reportable swap transaction. A registered swap data repository shall publicly disseminate the information in Table A1 and A2 in a consistent form and manner for swaps within the same asset class.

TABLE A1.—Data Fields and Suggested Form and Order for Real-time Public Reporting of Swap Transaction and Pricing Data.

Field	Description	Example	Data application
Cancellation	<p>An indication that a publicly reportable swap transaction has been incorrectly or erroneously publicly disseminated and is canceled. There shall be a clear indication to the public that the publicly reportable swap transaction is being canceled (e.g., “CANCEL”) followed by the swap transaction and pricing data that is being canceled in the same form and manner that it was erroneously reported. Any cancellations should be made in accordance with § 43.3(e).</p> <p>If a publicly reportable swap transaction is canceled, it may be corrected by reporting the “Correction” data field and the correct information.</p>	<p>CANCEL..... (e.g., the information is being cancelled in accordance with § 43.3(e))</p>	<p>Information is needed to inform market participants and the public that swap transaction and pricing data was erroneously disseminated to the public.</p>
Correction	<p>An indication that the swap transaction and pricing data that is being publicly disseminated is a correction to previously publicly disseminated swap transaction and pricing data that contained an error or omission. In order for a correction to occur, the registered swap data repository that accepts and publicly</p>	<p>CORRECT (e.g., the information is a correction to a previously reported swap)</p>	<p>Information needed to inform market participants and the public that a particular publicly reportable swap transaction that is being reported is a correction to swap transaction and pricing data that has previously been publicly disseminated by a registered swap data</p>

Commodity Futures Trading Commission

Pt. 43, App. A

	disseminates swap transaction and pricing data shall first cancel the incorrectly reported swap transaction and pricing data and the follow such cancellation with the correction. There shall be a clear indication to the public that the swap transaction and pricing data that is being reported is a correction (e.g., "CORRECT"). Any corrections should be made in accordance with § 43.3(e).		repository.
Execution timestamp	The time and date of execution of the publicly reportable swap transaction in Coordinated Universal Time (UTC). The timestamp shall be displayed with two digits for each of the hour, minute and second, or in such other manner that clearly publicly disseminates the information.	13-10-2007; 15:25:47 (e.g., the date (October 13, 2007) and time in UTC (15:25:47))	Information needed to indicate the time and date of execution of the publicly reportable swap transaction.
Cleared or uncleared	An indication of whether or not a publicly reportable swap transaction is going to be cleared by a derivatives clearing organization. If the publicly reportable swap transaction is cleared by a derivatives clearing organization, a "C" may be used and if uncleared a "U" may be used.	C..... (e.g., cleared)	Information needed to indicate whether or not a publicly reportable swap transaction is cleared through a derivatives clearing organization.
Indication of Collateralization	If a swap is not cleared, an indication of whether a swap is (A) Uncollateralized –	PC (e.g., partially collateralized)	Information needed to provide information regarding differences

	<p>there is no credit arrangement between the parties or the agreement between the parties of an uncleared swap states that no collateral (neither initial margin nor variation margin) has to be posted at any time;</p> <p>(B) Partially Collateralized – the agreement between the parties states that both parties will regularly post variation margin;</p> <p>(C) One-Way Collateralized – the agreement between the parties of an uncleared swap states that only one party to such swap agrees to post initial margin, regularly post variation margin or both; or (D) Fully Collateralized – the agreement between the parties of an uncleared swap states that initial margin must be posted and variation margin must be regularly posted by both parties.</p>		<p>in prices in uncleared swaps.</p>
<p>Indication of end-user exception</p>	<p>An indication of whether a party to a swap is using the end-user exception pursuant to CEA Section 2(h)(7) and Commission regulations.</p>	<p>EU (e.g., swap is not required to be cleared under CEA Section 2(h)(7) and Commission regulations)</p>	<p>Information needed to indicate the reason why a swap that would otherwise be subject to mandatory clearing is not being cleared and to help market participants and the public evaluate the price of the publicly reportable swap transaction.</p>
<p>Indication of other price affecting term (indication for</p>	<p>An indication that the publicly reportable swap transaction has</p>	<p>B* (e.g., bespoke swap that has a material</p>	<p>Information needed to indicate whether a publicly reportable</p>

Commodity Futures Trading Commission

Pt. 43, App. A

<p>non-standardized (bespoke) swaps)</p>	<p>one or more additional term(s) or provision(s), other than those listed in the required real-time data fields, that materially affect(s) the price of the publicly reportable swap transaction. Publicly reportable swap transactions that are reported with this designation would be non-standardized (bespoke) swaps.</p>	<p>price affecting term that is not otherwise publicly disseminated)</p>	<p>swap transaction is non-standardized (bespoke) and to inform the public that there are one or more additional term(s) or provision(s) that materially affect the price of the publicly reportable swap transaction.</p>
<p>Block trades and large notional off-facility swaps</p>	<p>An indication of whether a publicly reportable swap transaction is a block trade or large notional off-facility swap. If a publicly reportable swap transaction is a block trade or a large notional off-facility swap and subject to a time delay in real-time public reporting pursuant to § 43.5, such block trade or large notional off-facility swap may be indicated as follows: Block trade or large notional off-facility swap (“BLK”). If a trade is not a block trade or large notional off-facility swap, then no indication would be publicly disseminated.</p>	<p>BLK..... (e.g., swap is block trade or large notional off-facility swap)</p>	<p>Information needed to indicate whether a publicly reportable swap transaction is a block trade or a large notional off-facility swap. This information is important since it will alert market participants and the public to the differences in notional or principal amount and the time delay in the public dissemination of the swap transaction and pricing data.</p>
<p>Execution venue</p>	<p>An indication of the venue of execution of a publicly reportable swap transaction. The specific name of a registered swap execution facility or designated contract market need not be reported; however, an</p>	<p>OFF..... (e.g., off-facility swap)</p>	<p>Information needed to indicate whether a publicly reportable swap transaction is executed on a swap market, as an off-facility swap, or as a block trade or large notional off-facility swap.</p>

	indication of whether the publicly reportable swap transaction is executed on or pursuant to the rules of a registered swap execution facility or designated contract market or is executed as an off-facility swap.		
Effective or Start date	The date that the publicly reportable swap transaction becomes effective or starts.	20-02-2009..... (e.g., February 20, 2009)	Information needed to indicate when the terms of the publicly reportable swap transaction become effective or start.
End Date	The maturity, termination, or end date of the publicly reportable swap transaction. The time between the Effective or Start Date and End Date field will indicate the tenor of the swap.	04-02-2014 (e.g., February 4, 2014)	Information needed to determine the end month and year of the publicly reportable swap transaction and to help market participants and the public evaluate the price of the reportable swap transaction.
Day count convention	The determination of how interest accrues over time for the swap.	Actual/360 (e.g., day count convention uses Actual/360 day count fraction)	Information needed to better inform market participants and the public about the price of the swap.
Settlement currency (i.e., value date)	The settlement currency type for publicly reportable swap transactions in the foreign exchange asset class.	Settle JPY (e.g., the foreign exchange swap is settled in Japanese Yen)	Information needed to inform market participants and the public about how to price the publicly reportable swap transaction.
Asset class	An indication of one of the broad categories as described in § 43.2(e).	IR..... (e.g., interest rate asset class)	Information needed to broadly describe the underlying asset to facilitate comparison with other similar publicly reportable swap transactions.
Sub-asset class for other commodity	An indication of a more specific description of	AG..... (e.g., agriculture)	Information needed to define with greater

	the asset class for other commodity. Such sub-asset classes for other commodity publicly reportable swap transactions may include, but are not limited to, energy, precious metals, metals-other, agriculture, weather, emissions and volatility.		specificity, the type of other commodity that is being publicly disseminated and to facilitate comparison with other similar publicly reportable swap transactions.
Contract type	An indication of one of four specific contract types of publicly reportable swap transactions. Such contract types may include but are not limited to: Swap, swaption and stand-alone options.	S-..... (e.g., swap)	Information needed to describe the publicly reportable swap transaction and to be able to compare such publicly reportable swap transaction to other similar publicly reportable swap transactions.
Contract sub-type	An indication of more specificity into the type of contract described in the contract type field. Such contract sub-types may include, but are not limited to, basis swaps, index swaps, broad-based security swaps, and basket swaps.	SS..... (e.g., basis swap)	Information needed to define with greater specificity, the type of contract that is being publicly disseminated and to facilitate comparison with other similar publicly reportable swap transactions.
Price-forming continuation data	An indication of whether such publicly reportable swap transaction is a post-execution event that affects the price of the publicly reportable swap transaction. Such price-forming continuation data may include: Terminations, assignments, novations, exchanges, transfers, amendments, conveyances or	NOV..... (e.g., novation)	Information needed to describe whether the reportable swap transaction is a post-execution event for a pre-existing swap (i.e., not a newly executed swap) that materially affects the price of the publicly reportable swap transaction.

	extinguishing of rights that change the price of the swap.		
Underlying asset 1	The asset, reference asset or reference obligation for payments of a party’s obligations under the publicly reportable swap transaction reference. The underlying asset may be a reference price, index, obligation, physical commodity with delivery point, futures contract or any other rate or instrument agreed to by the parties to a publicly reportable swap transaction.	TX..... (e.g., TX may represent “Treasury 10 year”)	Information needed to describe the publicly reportable swap transaction and to help market participants and the public evaluate the price of the publicly reportable swap transaction.
Underlying asset 2	The asset, reference asset or reference obligation for payments of a party’s obligations under the publicly reportable swap transaction reference. The underlying asset may be a reference price, index, obligation, physical commodity with delivery point, futures contract or any other rate or instrument agreed to by the parties to a publicly reportable swap transaction. If there are more than two underlying assets, such underlying assets shall be reported in the same manner as above.	IIIL..... (e.g., IIIL may represent 3-month LIBOR)	Information needed to describe the publicly reportable swap transaction and to help market participants and the public evaluate the price of the publicly reportable swap transaction.
Price notation	The price, yield, spread, coupon, etc., depending on the type of swap, which is calculated at affirmation. The pricing characteristic shall not include any	162..... (e.g., 162 may indicate the spread for a credit default swap index)	Information needed to describe the publicly reportable swap transaction and to help market participants and the public evaluate the price of the publicly

	<p>premiums associated with margin, collateral, independent amounts, reconcilable post-execution events, options on a swap, or other non-economic characteristics. The format in which the pricing characteristic is real-time reported to the public shall be the format commonly sought by market participants for each particular market or contract.</p>		<p>reportable swap transaction.</p>
<p>Additional price notation</p>	<p>The additional price notation shall include any premiums associated with reconcilable post-execution events, the presence of collateral, front-end payments, back-end payments, or other non-economic characteristics (e.g., counterparty credit risk) not illustrated in the reporting field for pricing characteristic. The additional price notation shall not include options as they are reported elsewhere.</p> <p>The additional price notation shall be publicly disseminated as an addition or subtraction of the pricing characteristic and in a way commonly sought by market participants for each particular market or contract.</p>	<p>+0.25..... (e.g., +0.25 would indicate the net present value of the premiums separated from the price notation)</p>	<p>Additional information needed to describe the publicly reportable swap transaction and to help market participants and the public evaluate the price of the publicly reportable swap transaction.</p>
<p>Unique product identifier</p>	<p>Certain fields may be replaced with a unique</p>	<p>12345 (e.g., 12345 may</p>	<p>Information needed to describe the</p>

	product identifier, if such unique identifier exists, to the extent that such unique product identifier adequately describes such fields.	represent a 10 year interest rate swap based on 3 month LIBOR)	publicly reportable swap transaction and enable market participants and the public to compare such publicly reportable swap transaction to other similar publicly reportable swap transactions. Such information would substitute the information described in one or more reportable fields in accordance with §43.4(e).
Notional currency 1 (i.e., base currency)	An indication of the type of currency of the notional or principal amount. The notional currency may be reported in a commonly accepted code (e.g., the three character alphabetic ISO 4217 currency code).	EUR..... (e.g., Euro)	Information needed to describe the type of currency of the notional or principal amount.
Rounded notional or principal amount 1	The total rounded currency amount or quantity of units of the underlying asset. The notional or principal amounts for publicly reportable swap transactions, including block trades and large notional off-facility swaps, shall be reported and rounded amounts shall be publicly disseminated pursuant § 43.4.	200..... (e.g., 200 may represent 200 million of the notional currency 1)	Information needed to identify the size of the publicly reportable swap transaction and to help evaluate the price of the publicly reportable swap transaction.
Notional currency 2 (i.e., counter currency)	An indication of the type of currency of the notional or principal amount. The notional currency may be reported in a commonly accepted code (e.g., the	USD..... (e.g., U.S. Dollar)	Information needed to describe the type of currency of the notional or principal amount.

	three character alphabetic ISO 4217 currency code).		
Rounded notional or principal amount 2	<p>The total rounded currency amount or quantity of units of the underlying asset. The notional or principal amounts for the publicly reportable swap transactions, including block trades and large notional off-facility swaps, shall be reported and rounded amounts shall be publicly disseminated pursuant to § 43.4.</p> <p>Each notional or principal amount (if there is more than one) should be labeled (e.g., 1, 2, 3, etc.) such that the number corresponds to the underlying asset for which the notional or principal amount is applicable.</p> <p>If there are more than two notional or principal amounts, then each additional notional or principal amount shall be reported in the same manner.</p>	45..... (e.g., 45 may represent 45 million of the notional currency 2)	Information needed to identify the size of the publicly reportable swap transaction and to help market participants and the public evaluate the price of the publicly reportable swap transaction.
Payment frequency 1	An integer multiplier of a time period describing how often the parties to the publicly reportable swap transaction exchange payments associated with each party's obligation under the publicly reportable swap	2M..... (e.g., payment would occur every two months)	Information needed to identify the pricing characteristic of the publicly reportable swap transaction and to help market participants and the public evaluate the price of the publicly reportable swap

	transaction. Such payment frequency may be described as one letter preceded by an integer.		transaction.
Payment frequency 2	<p>An integer multiplier of a time period describing how often the parties to the publicly reportable swap transaction exchange payments associated with each party’s obligation under the publicly reportable swap transaction. Such payment frequency may be described as one letter preceded by an integer. Each payment frequency (if there is more than one) should be labeled (e.g., 1, 2, 3, etc.) such that the number corresponds to the underlying asset for which the payment frequency is applicable.</p> <p>If there are more than two payment frequencies, then each additional payment frequency shall be reported in the same manner.</p>	6W..... (e.g., payment would occur every six weeks)	Information needed to identify the pricing characteristic of the publicly reportable swap transaction and to help market participants and the public evaluate the price of the publicly reportable swap transaction.
Reset frequency 1	An integer multiplier of a period describing how often the parties to the publicly reportable swap transaction shall evaluate and, when applicable, change the price used for the underlying assets of the publicly reportable swap transaction. Such reset frequency may be	1Y..... (e.g., reset occurs every year)	Information needed to identify the pricing characteristic of the publicly reportable swap transaction and to help market participants and the public evaluate the price of the publicly reportable swap transaction.

	described as one letter preceded by an integer.		
Reset frequency 2	<p>An integer multiplier of a period describing how often the parties to the publicly reportable swap transaction shall evaluate and, when applicable, change the price used for the underlying assets of the publicly reportable swap transaction. Such reset frequency may be described as one letter preceded by an integer.</p> <p>Each reset frequency (if there is more than one) should be labeled with a number (e.g., 1, 2, 3, etc.) such that the number corresponds to the underlying asset for which the reset frequency is applicable.</p> <p>If there are more than two reset frequencies, then each additional reset frequency shall be reported in the same manner.</p>	6M..... (e.g., reset occurs every six months)	Information needed to identify the pricing characteristic of the publicly reportable swap transaction and to help market participants and the public evaluate the price of the publicly reportable swap transaction.

TABLE A2.—Additional real-time public reporting data fields for options, swaptions and swaps with embedded options.

The data fields described in Table A2 of appendix A to this part apply to all options, swaptions and embedded options. If a swap has more than one embedded option, or multiple swaptions provisions, all such option provisions shall be reported in the same manner pursuant to the fields in Table A2 of appendix A to this part. When publicly disseminated, multiple embedded options associated with the same swap shall be clearly described and clearly linked to the swap with which the embedded option is associated.

Field	Description	Example	Data application
Embedded Option on Swap	An indication of whether or not the option fields are for an embedded option. This indication may be displayed as “EMBED1,” “EMBED2,” etc.	EMBED1..... (e.g., the option is embedded in the terms of the swap)	Information needed to describe whether an option is embedded in a swap to prevent confusion and allow the market participants and the public to understand the information that is being reported.
Option Strike Price	The level or price at which an option may be exercised.	O25..... (e.g., the option strike price may be displayed with an “O” followed by the level or price, in this case 25 of the given underlying)	Information needed to indicate the level or price at which the option may be exercised to market participants and the public.
Option Type	An indication of the type of option. The option types may include, but are not limited to: Puts, calls, caps, floors, collars, straddles, strangles, amortizing, cancelable and other exotic option types.	P-..... (e.g., put)	Information needed to adequately describe the option to market participants and the public.
Option Family	An indication of the style of the option transaction. The option style/family may include, but are not limited to: European, American, Bermudan and Asian.	EU..... (e.g., European option)	Information needed to adequately describe the option to market participants and the public.

Option currency	An indication of the type of currency of the option premium. The option currency may be reported in a commonly accepted code (e.g., the three character alphabetic ISO 4217 currency code).	USD..... (e.g., U.S. Dollar)	Information needed to identify the type of currency of the option premium to market participants and the public.
Option premium	An indication of the additional cost of the option to the publicly reportable swap transaction as a numerical value, not as the difference of the premiums of the parties' obligations to the reportable swap transaction. This field is associated with the option currency field.	50000..... (e.g., the cost would be 50,000 to purchase the option)	Information needed to explain the market value of the option to market participants and the public at the time of execution. This field will allow the public to understand the price of the publicly reportable swap transaction.
Option lockout period	An indication of the first allowable exercise date of the option.	20-08-2010..... (e.g., August 20, 2010)	Information is needed to identify when the option can first be exercised and to help market participants and the public evaluate the price of the option.
Option expiration date	An indication of the date that the option is no longer available for exercise.	20-08-2012..... (e.g., August 20, 2012)	Information is needed to identify when the option can no longer be exercised and to help market participants and the public evaluate the price of the option.

APPENDIX C TO PART 43—TIME DELAYS
 FOR PUBLIC DISSEMINATION

The tables below provide clarification of the time delays for public dissemination set forth in §43.5. The first row of each table describes the asset classes to which each chart applies. The column entitled “Yearly Phase-In” indicates the periods beginning on the compliance date of this part and beginning on the anniversary of the compliance date thereafter. The column entitled “Time Delay for Public Dissemination” indicates the precise length of time delay, starting upon execution, for the public dissemination of such swap transaction and pricing data by a registered swap data repository.

Table C1. Block Trades Executed on or Pursuant to the Rules of a Registered Swap Execution Facility or Designated Contract Market (Illustrating §§43.5(d)(1) and (d)(2))

Table C1 also designates the interim time delays for swaps described in §43.5(c)(2).

ALL ASSET CLASSES

Yearly phase-in	Time delay for public dissemination
Year 1	30 minutes.
After Year 1	15 minutes.

Table C2. Large Notional Off-Facility Swaps Subject to the Mandatory Clearing Requirement With at Least One Swap Dealer or Major Swap Participant Counterparty (Illustrating §§43.5(e)(2)(A) and (e)(2)(B))

Table C2 excludes off-facility swaps that are excepted from the mandatory clearing

requirement pursuant to Section 2(h)(7) of the Act and Commission regulations and those off-facility swaps that are required to be cleared under Section 2(h)(2) of the Act and Commission regulations but are not cleared.

Table C2 also designates the interim time delays for swaps described in §43.5(c)(3).

ALL ASSET CLASSES

Yearly phase-in	Time delay for public dissemination
Year 1	30 minutes.
After Year 1	15 minutes.

Table C3. Large Notional Off-Facility Swaps Subject to the Mandatory Clearing Requirement in Which Neither Counterparty Is a Swap Dealer or Major Swap Participant (Illustrating §§43.5(e)(3)(A), (e)(3)(B), and (e)(3)(C))

Table C3 excludes off-facility swaps that are excepted from the mandatory clearing

requirement pursuant to Section 2(h)(7) of the Act and Commission regulations and those swaps that are required to be cleared under Section 2(h)(2) of the Act and Commission regulations but are not cleared.

Table C3 also designates the interim time delays for swaps described in §43.5(c)(3).

ALL ASSET CLASSES

Yearly phase-in	Time delay for public dissemination
Year 1	4 hours.
Year 2	2 hours.
After Year 2	1 hour.

Commodity Futures Trading Commission

Pt. 43, App. C

Table C4. Large Notional Off-Facility Swaps Not Subject to the Mandatory Clearing Requirement With at Least One Swap Dealer or Major Swap Participant Counterparty (Illustrating §§ 43.5(f)(1), (f)(2) and (f)(3))

Table C4 includes large notional off-facility swaps that are not subject to the manda-

tory clearing requirement or are exempt from such mandatory clearing requirement pursuant to Section 2(h)(7) of the Act and Commission regulations.

Table C4 also designates the interim time delays for swaps described in § 43.5(c)(4).

INTEREST RATES, CREDIT, FOREIGN EXCHANGE, EQUITY ASSET CLASSES

Yearly phase-in	Time delay for public dissemination
Year 1	1 hour. However, if such swap includes a non-swap dealer/non-major swap participant counterparty that is not a financial entity as defined in Section 2(h)(7)(C) of the Act and Commission regulations, then one hour immediately after execution; or if received later than one hour by the registered swap data repository, then public dissemination shall occur as soon as technologically practicable after the data is received.
Year 2	30 minutes. However, if such swap includes a non-swap dealer/non-major swap participant counterparty that is not a financial entity as defined in Section 2(h)(7)(C) of the Act and Commission regulations, then 30 minutes immediately after execution; or if received later than 30 minutes by the registered swap data repository, then public dissemination shall occur as soon as technologically practicable after the data is received.
After Year 2	30 minutes.

Table C5. Large Notional Off-Facility Swaps Not Subject to the Mandatory Clearing Requirement With at Least One Swap Dealer or Major Swap Participant Counterparty (Illustrating §§ 43.5(g)(1), (g)(2), and (g)(3))

Table C5 includes large notional off-facility swaps that are not subject to the manda-

tory clearing requirement or are excepted from such mandatory clearing requirement pursuant to Section 2(h)(7) of the Act and Commission regulations.

Table C5 also designates the interim time delays for swaps described in § 43.5(c)(5).

OTHER COMMODITY ASSET CLASS

Yearly phase-in	Time delay for public dissemination
Year 1	4 hours. However, if such swap includes a non-swap dealer/non-major swap participant counterparty that is not a financial entity as defined in Section 2(h)(7)(C) of the Act and Commission regulations, then four hours immediately after execution; or if received later than four hours by the registered swap data repository, then public dissemination shall occur as soon as technologically practicable after the data is received.
Year 2	2 hours. However, if such swap includes a non-swap dealer/non-major swap participant counterparty that is not a financial entity as defined in Section 2(h)(7)(C) of the Act and Commission regulations, then two hours immediately after execution; or if received later than two hours by the registered swap data repository, then public dissemination shall occur as soon as technologically practicable after the data is received.
After Year 2	2 hours.

Table C6. Large Notional Off-Facility Swaps Not Subject to the Mandatory Clearing Requirement in Which Neither Counterparty Is a Swap Dealer or Major Swap Participant (Illustrating §§ 43.5(h)(1), (h)(2) and (h)(3))

Table C6 includes large notional off-facility swaps that are not subject to the manda-

tory clearing requirement or are exempt from such mandatory clearing requirement pursuant to Section 2(h)(7) of the Act and Commission regulations.

Table C6 also designates the interim time delays for swaps described in § 43.5(c)(6).

ALL ASSET CLASSES

Yearly phase-in	Time delay for public dissemination
Year 1	48 business hours.
Year 2	36 business hours.
After Year 2	24 business hours.

PART 44—INTERIM FINAL RULE FOR PRE-ENACTMENT SWAP TRANSACTIONS

Sec.

44.00 Definition of terms used in part 44 of this chapter.

44.01 Effective date.

44.02 Reporting pre-enactment swaps to a swap data repository or the Commission.

44.03 Reporting transition swaps to a swap data repository or to the Commission.

AUTHORITY: 7 U.S.C. 2(h)(5), 4r, and 12a(5), as amended by Title VII of the Wall Street Reform and Consumer Protection Act (Dodd-Frank Act of 2010), Pub. L. 111-203, 124 Stat. 1376 (2010).

SOURCE: 75 FR 63084, Oct. 14, 2010, unless otherwise noted.

§ 44.00 Definition of terms used in part 44 of this chapter.

(a) *Major swap participant* shall have the meaning provided in Section 1a(33) of the Commodity Exchange Act, as amended, and any rules or regulations thereunder.

(b) *Pre-enactment unexpired swap* means any swap entered into prior to the enactment of the Dodd-Frank Act of 2010 (July 21, 2010) the terms of which had not expired as of the date of enactment of that Act;

(c) *Transition swap* means any swap entered into after the enactment of the Dodd-Frank Act of 2010 (July 21, 2010) and prior to the effective date of the swap data reporting and recordkeeping rule implemented under Section 2(h)(5)(B) of the CEA.

(d) *Reporting entity*, when used in this part, means any counterparty referenced or identified in Section 4r(a)(3)(A)–(C) of the Commodity Exchange Act, as amended;

(e) *Swap Data Repository* shall have the meaning provided in Section 1a(48) of the Commodity Exchange Act, as amended, and any rules or regulations thereunder;

(f) *Swap Dealer* shall have the meaning provided in Section 1(a)(49) of the Commodity Exchange Act, as amended, and any rules or regulations thereunder;

[75 FR 63084, Oct. 14, 2010, as amended at 75 FR 78896, Dec. 17, 2010]

§ 44.01 Effective date.

The provisions of this part are effective immediately on publication in the Federal Register.

§ 44.02 Reporting pre-enactment swaps to a swap data repository or the Commission.

(a) A counterparty to a pre-enactment unexpired swap transaction shall:

(1) Report to a registered swap data repository or the Commission by the compliance date established in the reporting rules required under Section 2(h)(5) of the Commodity Exchange Act, or within 60 days after a swap data repository becomes registered with the Commission and commences operations to receive and maintain data related to such swap, whichever occurs first, the following information with respect to the swap transaction:

(i) A copy of the transaction confirmation, in electronic form if available, or in written form if there is no electronic copy; and

(ii) The time, if available, that the transaction was executed; and

(2) Report to the Commission on request, in a form and manner prescribed by the Commission, any information relating to the swap transaction.

Note to Paragraphs (a)(1) and (a)(2). In order to comply with the reporting requirements contained in paragraph (a)(1) and (a)(2) of this section, each counterparty to a pre-enactment unexpired swap transaction that may be required to report such transaction should retain, in its existing format, all information and documents, to the extent and in such form as they presently exist, relating to the terms of a
