

Forest Service, USDA

§ 230.30

inconsistent with the purpose of the CFP.

§ 230.10 Technical assistance funds.

CFP technical assistance funds may be provided to State Foresters or equivalent officials of Indian tribes through an administrative grant to help implement community forest projects funded through the CFP, and as a result, funds will only be provided to States or Indian tribes with a CFP project funded within their jurisdiction. Section 7A (f) of the authorizing statute limits the funds made available for program administration and technical assistance to no more than 10% of all funds made available to carry out the program for each fiscal year.

Subpart B—Urban and Community Forestry Assistance Program

SOURCE: 65 FR 57549, Sept. 25, 2000, unless otherwise noted.

§ 230.20 Scope and authority.

The Urban and Community Forestry Assistance Program is authorized by Section 9 of the Cooperative Forestry Assistance Act of 1978, as amended (16 U.S.C. 2105). The scope of this authority includes the provision of technical, financial, and related assistance to State and local governments, non-profits, and other members of the public to: maintain, expand, and preserve forest and tree cover; expand research and education efforts related to trees and forest cover; enhance technical skills and understanding of tree maintenance and practices involving cultivation of trees, shrubs and complementary ground covers; and implementing a tree planting program to complement urban tree maintenance and open space programs. The Secretary has delegated the authority for implementing the program to the Chief of the Forest Service under 7 CFR 2.60(a)(16).

§ 230.21 Implementation of the program.

(a) The Urban and Community Forestry Assistance Program is implemented through the Forest Service Grants, Cooperative Agreements, and Other Agreements Program (FSM 1580) and the Grants, Cooperative Agree-

ments, and Other Agreements Handbook (FSH 1509.11). The Forest Service Manual and Handbook are available from the Forest Service internet homepage or at National Forest offices.

(b) The Forest Service, under the authority of the Cooperative Forestry Assistance Act of 1978 and through the Urban and Community Forestry Assistance Program, coordinates financial, technical, and related assistance with the Natural Resources Conservation Service for the Urban Resources Partnership initiative. The Natural Resources Conservation Service provides similar assistance through the Urban Resources Partnership initiative under the authority of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590a–590f). The Urban Resources Partnership is an initiative in which Federal agencies, in cooperation with State and local agencies, community groups, and non-governmental organizations endeavor to be more effective, responsive, and efficient in working together to protect, improve, and rehabilitate the environment in urban areas of the Nation. The Forest Service and Natural Resources Conservation Service implement the Urban Resources Partnership initiative under the “Urban Resources Partnership National Guidance for U.S. Department of Agriculture Personnel” and applicable agency and departmental procedures for Federal grants and cooperative agreements. Copies of the Guidance may be obtained from the Cooperative Forestry Staff, Forest Service, USDA, P.O. Box 96090, Washington, DC 20090–6090.

Subpart C—Forest Land Enhancement Program

SOURCE: 68 FR 34314, June 9, 2003, unless otherwise noted.

§ 230.30 Purpose and scope.

(a) The regulations in this subpart govern the operation of the Forest Land Enhancement Program (hereafter, FLEP) as provided in Section 4 of the Cooperative Forestry Assistance Act (16 U.S.C. 2101 *et seq.*), as amended by title VIII of the Farm Security and Rural Investment Act of 2002 (Pub. L.

§ 230.31

36 CFR Ch. II (7–1–12 Edition)

107–171). The purpose of FLEP is to provide a coordinated and cooperative Federal, State, and local sustainable forestry program for the establishment, management, maintenance, enhancement, and restoration of forests on nonindustrial private forest land.

(b) The educational assistance, resource management expertise, and financial assistance provided under FLEP shall complement any existing Federal or State programs or programs offered through institutions of higher learning providing assistance to nonindustrial private forest landowners. FLEP promotes improved coordination and cooperation among Federal, State, and local programs regarding the establishment, maintenance, enhancement, and restoration of nonindustrial private forestlands.

(c) Participation in FLEP is voluntary on the part of both the State and the nonindustrial forest landowner. To participate, each State must have nonindustrial private forest lands, a State Forester or equivalent, and a State Forest Stewardship Coordinating Committee.

§ 230.31 Definitions.

The terms used in this subpart are defined as follows:

Capital investment or improvement. Durable equipment or assets capable of being amortized or depreciated over a period of 3 or more years, not including activities or practices carried out as part of the Forest Land Enhancement Program (FLEP) cost-share element.

Catastrophic natural event. Destructive natural event, which includes, but is not limited to, wildfires, insect infestations, disease outbreaks, droughts, floods, windstorms, freezing, ice storms, hail, sleet, mudslides, landslides, earthquakes, avalanches, tornadoes, volcanoes, hurricanes, or tsunamis.

Chief. The Chief of the Forest Service, United States Department of Agriculture.

Committee. The State Forest Stewardship Coordinating Committee.

Concurrence. Review, verification, and confirmation by the Responsible Official that the State priority plan contains all of the key elements re-

quired by law and the rules of this subpart.

Cost-share. A program payment, on a reimbursable basis, at a maximum of 75 percent of the cost incurred by a landowner for implementation of a State-approved activity or practice authorized under FLEP.

Financial assistance. Funds disbursed as an award by the Federal Government to an eligible party from the FLEP annual apportionment, in the form of money, including grants, agreements, contracts, and other arrangements.

Fiscal year. The accounting period, used by the United States Government, from October 1 through September 30.

Landowner. An individual, group, association, corporation, Indian Tribe, or other legal private entity owning nonindustrial private forest land or a person who receives concurrence from the landowner for practice implementation and who holds a lease on the land for a minimum of 10 years. Corporations whose stocks are publicly traded or owners principally engaged in the primary processing of raw wood products are excluded.

Management plan. A written plan prepared by a service representative and approved by a State Forester.

Nonindustrial private forest land. Rural lands with existing tree cover, or which are suitable for growing trees, that are owned by any landowner as defined in this section.

Practice. A prescribed, natural resource management activity that is consistent with a practice plan and implemented through FLEP to enhance the multiple resource values and benefits and that results in improved conditions on nonindustrial private forest land. A practice may consist of multiple components.

Practice plan. A plan prepared by a service representative and approved by the State Forester that documents the specific practices that are to occur as a result of a landowner application for cost-share. A practice plan may be a stand-alone document or it may be a part of a management plan.

Responsible official. USDA Forest Service Regional Forester, Area Director, or Institute Director charged with the administration of FLEP.

Forest Service, USDA

§ 230.32

Service representative. Any person who is recognized by a State Forester as having the knowledge and skills to develop management plans, understanding of the economic and environmental interrelationships of forestry and/or agroforestry resources, and the ability to identify appropriate activities to manage, protect, or enhance such resources. The State Forester designates service representatives as the line officers to perform specified FLEP elements.

State. Includes each of the States in the United States, and the Commonwealth of Puerto Rico, the Virgin Islands of the United States, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.

State Forester. The director or other head of a State forestry agency or equivalent State official.

State priority plan. The document required from a State to participate in FLEP. A State Forester jointly prepares this plan with the State Forest Stewardship Coordinating Committee to facilitate long-term sustainability of nonindustrial private forest lands within the State.

§ 230.32 National program administration.

(a) The Chief shall develop and implement FLEP in partnership with State forestry agencies and in consultation with other Federal, State, and local natural resource management agencies, institutions of higher learning, and a broad range of private sector interests.

(b) In collaboration with State Foresters, the Chief of the Forest Service and Responsible Officials shall oversee developing and implementing FLEP policy and procedure, including the monitoring of program results over the life of FLEP to ensure that environmental, economic, and social values and public benefits are derived from the program.

(c) The Chief shall annually distribute such funds as may be available for FLEP to the Responsible Official(s) for each of the three geographic funding areas based on the criteria set out in the Forest Service Manual Chapter 3310.

(d) In developing allocation factors for making FLEP distributions under this subpart,

(1) The Chief shall consult with the State Foresters through their Forest Resource Management Committee, a standing committee of the National Association of State Foresters, or its successor.

(2) Allocation factors shall be based on National data sources that address the current status of forest lands of each State or Territory participating in FLEP. Data must be measurable, inclusive of all States, objective, and reliable. The data will address those factors described in the Cooperative Forestry Assistance Act (16 U.S.C. 2103(i), Distribution of Cost-Share Funds).

(e) National priorities for FLEP shall reflect the Department and Forest Service priorities for nonindustrial private forest land as provided in the Forest Service Manual Chapter 3310.

(f) The Responsible Official(s) in each of the three geographic funding areas shall coordinate with their respective State Foresters to determine the final allocation to each State based on the following:

- (1) National priorities;
- (2) National allocation factors;
- (3) Regional and State-wide priorities;
- (4) Ability of the State to deliver FLEP; and
- (5) Direction in the Forest Service Manual Chapter 3310.

(g) FLEP financial assistance may be disbursed to a third party that will assist in program delivery. The Forest Service may disburse funds directly to a third party, which may include, but is not limited to, Federal, State, or local agencies, and landowner, non-profit, or private organizations, with written approval by the State Forester.

(h) Except as provided at §230.34(d), no financial assistance shall be provided by the Forest Service to a State Forester or any third party, until the Responsible Official has concurred with the State's priority plan.

(i) The Chief has final authority to resolve all issues that may arise in the administration of FLEP.

(j) The Forest Service shall provide National and regional administrative and financial support and oversight

§ 230.33

through distribution of available FLEP funds to State Foresters and through monitoring, review, and evaluation of FLEP activities and accomplishments.

(k) FLEP funds may not be used by States for capital investments or capital improvements unless specifically authorized in a funding document and must be limited to \$5,000. The limitation on capital improvements excludes practices and activities cost-shared with landowners through FLEP.

(l) Funds may not be authorized in the financial assistance document or used for the purchase of land, any interest in land, or any interest in an endowment.

(m) By September 30, 2006, the Chief must submit a cumulative report to the Secretary of Agriculture summarizing all the activities and practices funded under FLEP as of that date.

§ 230.33 Responsible Official program administration.

(a) The Responsible Official shall review and provide concurrence with State priority plans, including any revisions of such plans.

(b) The Responsible Official shall provide oversight for all aspects of FLEP, including program reviews and shall ensure that the Forest Service is represented on each State Forest Stewardship Coordinating Committee.

(c) The Responsible Official shall disburse funds to the State Forester or their designated third parties in a timely manner.

(d) The Responsible Official shall determine the final funds distribution to States.

(e) The funds will be distributed to individual States based on criteria in § 230.32 (f).

(f) Policy in the Forest Service Manual Chapter 3310 will provide additional direction for funding distribution.

(g) The Responsible Official must submit an annual report to the Chief summarizing all activities and practices funded through FLEP for the previous fiscal year.

(h) By September 1, 2006, the Responsible Official must submit a cumulative report to the Chief summarizing all activities and practices funded through FLEP as of June 1, 2006, along

36 CFR Ch. II (7-1-12 Edition)

with copies of the reports submitted from the participating States.

§ 230.34 State program administration.

(a) In States electing to participate in FLEP, the State Forester and the State Forest Stewardship Coordinating Committee, established pursuant to section 19(b) of the Cooperative Forestry Assistance Act, as amended (16 U.S.C. 2101, *et seq.*), shall jointly develop a State priority plan. The plan must be submitted to the appropriate Responsible Official for review and concurrence.

(b) The State Forester shall develop, implement and administer FLEP consistent with the State priority plan. The State Forester must ensure that all activities are carried out properly and that all cost-shared practices meet the appropriate standards and specifications.

(c) No match of funds is required from the State for participation in FLEP.

(d) In order to facilitate development of FLEP any State may request up to \$50,000 of the first-year allocation in advance of Forest Service concurrence with a State priority plan.

(e) Each State participating in FLEP shall submit an annual report to the respective Responsible Official, reporting all activities and practices funded through FLEP for the previous fiscal year. The report shall contain data on accomplishments by educational assistance, technical assistance, and cost-share assistance based on State objectives and measurable outcomes included in State priority plans.

(f) By July 15, 2006, the State Forester of each State participating in FLEP must submit to the respective Responsible Official a summary report of all State activities and practices funded through FLEP as of June 1, 2006.

§ 230.35 FLEP elements.

(a) States may use FLEP funds to assist landowners in managing their non-industrial private forest lands and related resources through the following elements:

(1) Development and implementation of educational programs;

Forest Service, USDA

§ 230.38

(2) Resource management expertise and technical assistance; and

(3) Financial assistance through cost-share programs.

(b) All participating States may use a portion of allocated funds for FLEP administration costs.

(c) States do not have to participate in all FLEP elements.

§ 230.36 State priority plan—purpose and scope.

(a) The State priority plan shall be used to guide FLEP implementation in each participating State through fiscal year 2007 and can be revised as needed.

(b) The State priority plan must describe the various roles and responsibilities of the State Forester, State Forest Stewardship Coordinating Committee, and other agencies and organizations in FLEP planning, delivery, and accountability to the program objectives.

(c) The State priority plan must contain the following:

(1) Data from standard forest inventory and analysis reports on the forest resources found within the State;

(2) A description of concerns, issues, problems and threats related to resource management for all nonindustrial private forest and agroforestry resources;

(3) Identification of the desired objectives and environmental, economic, and social values and public benefits to be derived from FLEP;

(4) An explanation of how FLEP funds are to be used to complement efforts of sustainable forestry management already in place within the State;

(5) A rationale for, and a proposed distribution of, funds for the FLEP elements listed at section 230.35 that the State plans to implement; and

(6) A description of the public participation process used in the development of the plan, including outreach efforts to landowners with limited resources.

(d) If an existing State Forest Stewardship plan, as described at section 19(b)(3) of the Cooperative Forestry Assistance Act (16 U.S.C. 2101, *et seq.*), adequately addresses some or all of the required information, it may be incorporated into the State priority plan by reference.

(e) The State priority plan must also outline the State FLEP priorities, policies, and procedures that will be implemented to encourage landowners to practice sustainable management and to actively conserve and enhance their forest resources.

(f) Each FLEP element described in the State priority plan must clearly state objectives and measurable outcomes to be achieved.

(g) All activities performed using FLEP funds must be consistent with the purpose of the program.

§ 230.37 State priority plan—educational assistance.

(a) Educational assistance includes development and delivery of:

(1) Activities;

(2) Events;

(3) Programs;

(4) Curriculum;

(5) Written materials;

(6) Workshops;

(7) Training sessions;

(8) Web site construction and maintenance; or

(9) Similar activities designed to bring landowners to an informed decision point and accelerate adoption of sustainable forest practices in a State.

(b) If a State determines that all or some of its funds will be used for education, the State priority plan must describe the types of activities that will be covered, participating entities, expected outcomes, and method(s) that will be used for documenting and evaluating accomplishments.

§ 230.38 State priority plan—technical assistance.

(a) Technical assistance includes, but is not limited to:

(1) Agreements with other agencies, institutions of higher education, natural resource consultants, or private organizations to augment or complement existing services of a State Forestry agency;

(2) Grants, agreements, contracts or other arrangements to provide services to landowners not offered by a State;

(3) Support of existing technical assistance delivery by State forestry agencies or development of such technical assistance;

§ 230.39

36 CFR Ch. II (7–1–12 Edition)

(4) The development or application of new tools or technology for servicing landowners; or

(5) Similar undertakings.

(b) If a State determines that all or some of its funds will be used for technical assistance, the State priority plan shall describe:

(1) Who will provide the assistance;

(2) Outreach efforts directed at specific groups or categories of landowners;

(3) Expected long- and short-term outcomes; and

(4) Method(s) for documenting accomplishments.

§ 230.39 State priority plan—financial assistance.

(a) Cost-share financial assistance includes a wide range of activities and practices developed by a State Forester, in cooperation with the State Forest Stewardship Coordinating Committee.

(b) A State does not have to adopt a separate FLEP cost-share program if a State cost-share program already exists that meets the objectives of FLEP. However, FLEP funds must be accounted for in accordance with Federal financial accounting standards. If an existing cost-share program is used, a copy of the guidelines for that program must be referenced and attached to the State priority plan.

(c) If a State determines that all or some of its funds will be placed into a cost-share program, the State priority plan must identify and describe how the cost-share funds will be made available to landowners participating in FLEP and expected outcomes and method(s) for documenting and evaluating accomplishments.

(d) The cost-share section of the State priority plan must include all of the following information:

(1) Describe any land ownership or annual acreage eligibility limitation under FLEP that is more restrictive than that established by the authorizing statute;

(2) Describe any limitations for cost-share of management plans;

(3) Define what constitutes a management plan if a State chooses to adopt more restrictive requirements

than those established in this subpart; and

(4) Identify aggregate payment limitations to any one landowner receiving cost-share funds through FLEP.

(e) The State priority plan must also describe how funds identified for cost-share with landowners will be distributed and how cost-share rates are determined and established for each practice.

(f) The State priority plan must describe the application and payment process for landowners interested in participating in and receiving cost-share through FLEP (§ 230.42).

(g) The State priority plan must also address the following steps related to financial assistance:

(1) Application procedure;

(2) Approval process;

(3) Performance period;

(4) Cancellation of approvals;

(5) Certification of performance;

(6) Payment;

(7) Maintenance and compliance;

(8) Procedure for recapture of funds for non-compliance; and

(9) Appeals procedures.

§ 230.40 Eligible practices for cost-share assistance.

(a) The State priority plan must document and describe which of the following eleven categories will be made available to landowners for cost-share funding:

(1) *Management Plan Development*—Development or revision of a management plan that must meet the minimum standards of a Forest Stewardship Plan (16 U.S.C. 2103a(f)(i)). The plan applies to those portions of the landowner's property on which any practice or activity funded under FLEP shall be carried out, as well as any property of the owner that may be affected by the activity or practice. Management plans are not subject to any acreage limits, and therefore cost-sharing such a plan under FLEP is exempt from the 1,000-acre (or 5,000-acre) limit unless restricted as described in the State priority plan.

(2) *Afforestation and Reforestation*—Site preparation, planting, seeding, or other practices to encourage natural regeneration or to ensure forest establishment and carbon sequestration.

(3) *Forest Stand Improvement*—Practices to enhance growth and quality of wood fiber, special forest products, and carbon sequestration.

(4) *Agroforestry Implementation*—Establishment, maintenance, and renovation of windbreaks, riparian forest buffers, silvopasture, alley cropping, or other agroforestry practices, including purposes for energy conservation and carbon sequestration in conjunction with agriculture, forest, and other land uses.

(5) *Water Quality Improvement and Watershed Protection*—Establishment, maintenance, renovation, and restoration practices, including any necessary design and engineering to improve and protect water quality, riparian areas, and forest wetlands and watersheds.

(6) *Fish and Wildlife Habitat Improvement*—Establishment, maintenance, and restoration practices to create, protect, or improve fish and wildlife habitat, including any necessary design and engineering.

(7) *Forest Health and Protection*—Establishment of practices primarily to detect, monitor, assess, protect, improve, or restore forest health, including detection and control of insects, diseases, and animal damage to established stands.

(8) *Invasive Species Control*—Establishment, maintenance and restoration practices primarily to detect, monitor, eradicate, or control the spread of invasive species.

(9) *Wildfire and Catastrophic Risk Reduction*—Establishment of practices primarily to reduce the risk from wildfire and other catastrophic natural events.

(10) *Wildfire and Catastrophic Event Rehabilitation*—Establishment of practices primarily to restore and rehabilitate forests following wildfire and other catastrophic natural events.

(11) *Special Practices*—Establishment, maintenance, and restoration practices addressing other conservation concerns on nonindustrial private forest lands as proposed by the State Forester and the Committee, which must have concurrence by the responsible official.

(b) A practice may consist of one or more components.

§ 230.41 Eligibility requirements for cost-share assistance.

(a) All landowners of nonindustrial private forest land as defined in § 230.31 of this subpart, including those who engage in primary processing of raw wood products on a part-time or intermittent basis and who otherwise meet the requirements of this section, are eligible to apply for and receive assistance under FLEP without regard to race, color, religion, national origin, age, sex, disability, political affiliation, sexual orientation, or marital or family status.

(b) A landowner is eligible to receive funds under the cost-share element of FLEP for treatment of not more than a total of 1,000 acres of land annually, except where a State Forester, with the concurrence of a responsible official, determines that significant public benefits would accrue from approval of a landowner's treating up to 5,000 acres annually. In making a determination of significant public benefits, the State Forester and the responsible official shall consider, at a minimum, whether landowners who treat more than 1,000 acres annually can achieve cost-effective resource management objectives without unduly excluding FLEP participation of other eligible landowners.

(c) In order to meet the following minimum requirements to be eligible to receive cost-share through FLEP for all practices except development of a management plan, a landowner must:

(1) Own the minimum acreage as established in the State priority plan; however, in no case shall the minimum acreage requirement be higher than 25 acres;

(2) Agree to conduct land treatment(s) according to the landowner's practice plan and to maintain FLEP practices for a minimum of 10 years, unless the State Forester specifies a shorter duration. The 10-year lifespan does not apply to recurring practices such as prescribed burning, light disking in openings, herbicide application, and other practices that are identified as needed in the management plan and practice plan; and

(3) Have a management plan submitted to the State Forester in which the lands are located that meets any requirements established by the State

§ 230.42

36 CFR Ch. II (7-1-12 Edition)

in its priority plan. Existing landowner management plans such as Tree Farm management plans, Forest Stewardship management plans, or similar plans may either meet, or can be amended to meet this requirement.

(d) A leaseholder who has a long-term lease on the land to be treated through FLEP must provide a copy of the lease to the State Forester in order to be eligible to receive cost-share assistance.

§ 230.42 Cost-share assistance application and payment procedures.

(a) Landowner applications for cost-share payments shall not be approved unless cost-share funds are available. The obligation of funds upon approval of an application constitutes an agreement by the State and the landowner to cost-share a completed practice on a reimbursable basis when the service representative verifies that the practice has been implemented.

(b) Upon receiving an application for an eligible FLEP practice and making a determination that funds are available, a service representative shall prepare a practice plan that identifies the needed practices, specifications, and performance period for the implementation of the practice(s) to achieve the objectives of the landowner. The requirements of a practice plan may be contained in a management plan. The practice plan is the basis for determining acceptable performance upon completion of the practice.

(c) Upon approval of a FLEP application, the State Forester shall notify the landowner in writing. Such notice shall state that the landowner can begin implementing the approved practice(s) and that funds have been obligated for reimbursement of a specified amount of the total cost. Practice costs incurred before approval are not eligible unless authorized by the State Forester. The notice shall also state that payment shall be made upon the service representative's verification that the practice has been implemented in accordance with the specifications of the practice plan and activities described in the management plan.

(d) Any landowner who carries out practices under FLEP shall be responsible for obtaining the authorities,

rights, easements, or other approvals necessary to the performance and maintenance of the practices in keeping with applicable laws and regulations.

(e) To be eligible for cost-share reimbursement payment, a landowner must complete each practice within the performance period specified in the State priority plan, not to exceed 24 months. However, if practice(s) are not completed within the performance period specified, due to conditions beyond the landowner's control, the State Forester may grant an extension for a time period specified in the State priority plan, not to exceed 12 months.

(f) Upon certification by the service representative that a practice has been completed in accordance with the practice plan, the cost-share payment shall be calculated and disbursed to the landowner. Landowners must provide to service representatives the right of access to the landowner's property to inspect practices for the duration of the maintenance period for the practices.

(g) The maximum aggregate amount of cost-share payment under FLEP to any one landowner shall not exceed \$100,000 through 2007, with the following exception for Alaska Indian Tribes. The Alaska State Forester, in consultation with the State Forest Stewardship Coordinating Committee and the Responsible Official, shall establish the maximum aggregate payment to any one Alaska Indian Tribe, however, the 1,000- and 5,000-acre limits shall apply.

(h) The State priority plan shall set the levels of cost-share assistance to be paid to landowners, not to exceed 75 percent of the total costs incurred by a participating landowner. Non-Federal program funds and other donated assistance may be used to supplement cost-share through FLEP; however, the total of all funds and assistance shall not exceed 100 percent of the total cost of practice implementation, and the Federal share of the total cost shall be reduced by any gross revenue from any material sold as a result of the cost-share practice.

(i) States may use the cost-share rate to define priority practices and priority areas by reserving the maximum

rate of 75 percent of the total costs for the practices and areas having the highest priority.

(j) State priorities for cost-share shall reflect the national priorities as listed in the Forest Service Manual Chapter 3310.

(k) Other priorities may be developed by the State Forester in consultation with the State Forest Stewardship Coordinating Committee.

(l) A landowner may receive partial payment, if allowed in the State priority plan, for completed components on the condition that the landowner agrees to complete the remaining components of the practice within the performance period specified in the practice plan.

(m) Where performance actually rendered does not meet the minimum specifications of a practice due to factors beyond the landowner's control, the State Forester may approve cost-share payments under one of the following conditions:

(1) The landowner repeats application of practices previously implemented or establishes additional eligible practices under such terms and conditions as the service representative may require, in which case the State Forester may approve cost-share payments for additional or repeated practices to the extent such measures are needed to meet the objectives of the management plan; or

(2) The landowner establishes, to the satisfaction of the service representative that:

(i) A reasonable effort was made to meet the minimum requirements; and

(ii) The practice, as performed, adequately meets the objectives of the practice plan.

(n) In case of death or incompetence of any landowner, the State Forester shall approve cost-share payments to the successor in title or other persons or entities in control of the landowner property if they agree to maintain the practices for the duration of the required maintenance period.

(o) Any landowner who may be entitled to a cost-share payment under this subpart may assign the right thereto, in whole or in part, under the following terms:

(1) Payments may be assigned only for performance of a FLEP practice;

(2) A payment that is made to a landowner may not be assigned to pay or secure any preexisting debt; and

(3) Nothing in this section shall be construed to authorize suit against the United States, the Department of Agriculture, the Forest Service, any State or any disbursing agent acting on their behalf, if payment is made to an assignor rather than to an assignee or if payment is made to only one of several assignees.

(p) No financial assistance or portion thereof due and owing to any landowner shall be subject to any claim arising under State or other law by any creditor, except for claims of agencies of the United States Government.

(q) Prior to receiving approval to implement any FLEP practice identified in the State priority plan, except for management plan development, eligible landowners shall have an approved practice plan providing appropriate technical standards concerning the performance of the requested practice(s). A service representative shall approve the plan. In reviewing and approving plans, to the extent deemed applicable by the service representative, existing landowner management plans such as Tree Farm management plans, Forest Stewardship management plans, or similar plans may either meet, or can be amended to meet, the practice plan requirements under FLEP.

§ 230.43 Cost-share assistance—prohibited practices.

(a) Cost-share payments for the following are prohibited:

(1) Costs incurred before an application for cost-share is approved in writing, except:

(i) As pre-approved by the State Forester, or

(ii) The materials and items that may be purchased before approval of the practice as described in the State priority plan;

(2) Repeated practices on the same site within the required maintenance period which have been implemented under any other Federal, State, or local government programs, or private sector programs, except where such practices are repeated due to a failure

§ 230.44

36 CFR Ch. II (7–1–12 Edition)

of a prior practice without fault of the landowner or recurring practices as noted in this subpart;

(3) Capital investments or capital improvements not related to FLEP practices, purchase of land or any interest in land, or any interest in an endowment as provided in section 230.32(k) and (l);

(4) Practices associated with the development of or improvement to landowner nursery operations;

(5) Practices associated with the development of or improvement to nut and fruit orchards or Christmas tree plantings or maintenance; or

(6) Any practice that is not related to the long-term sustainability of non-industrial private forest lands or agroforestry activities.

§ 230.44 Cost-share assistance—reporting requirement.

(a) FLEP cost-share accomplishments should be reported using the following standard categories of practices:

(1) FLEP1—Management Plan Development;

(2) FLEP2—Afforestation and Reforestation;

(3) FLEP3—Forest Stand Improvement;

(4) FLEP4—Agroforestry Implementation;

(5) FLEP5—Water Quality Improvement and Watershed Protection;

(6) FLEP6—Fish and Wildlife Habitat Improvement;

(7) FLEP7—Forest Health and Protection;

(8) FLEP8—Invasive Species Control;

(9) FLEP9—Fire and Catastrophic Risk Reduction;

(10) FLEP10—Fire and Catastrophic Event Rehabilitation; and

(11) FLEP11—Special Practices.

(b) All reporting must include activities and accomplishments for each category of FLEP practices.

§ 230.45 Recapture of cost-share assistance.

(a) Payments made to landowners may be recaptured under one or more of the following circumstances:

(1) If any landowner, successor, or assignee uses any scheme or device to unjustly benefit from FLEP. A scheme or

device includes, but is not limited to, coercion, fraud or misrepresentation, false claims, or any business dissolution, reorganization, revival, or other legal mechanism designed for or having the effect of evading the requirements of FLEP. Financial assistance payments shall be withheld or a refund of all or part of any FLEP payments otherwise due or paid to that person shall be secured.

(2) If any landowner or successor takes any action or fails to take action, which results in the destruction or impairment of a prescribed practice for the duration of the practice. Cost-share payments shall be withheld or a recapture of all or part of any FLEP payments otherwise due or paid shall be secured, based on the extent and effect of destruction and impairment.

(3) If a landowner sells, conveys, or otherwise loses control of the land, except when determined by a State Forester to have been beyond the landowner's control, upon which there is a continuing obligation to maintain a practice, and the new landowner does not agree to assume the responsibility for maintaining the practice. In such cases the landowner who was originally obligated to maintain the practice shall be liable to reimburse the State(s) for all cost-share on such practices.

(b) Nothing in this section requiring the withholding or refunding of financial assistance payments shall preclude any penalty or liability otherwise imposed by law.

(c) Any landowner, successor, or assignee who is dissatisfied with any determination made under FLEP may request reconsideration by the State Forester and, if the matter is not resolved, by the Responsible Official. All requests for reconsideration shall be in writing and shall contain factual information explaining the basis for the request. All decisions on reconsideration must be issued in writing.

§ 230.46 Information collection requirements.

The requirements governing the preparation of a State priority plan, management plan, and practice plan, the reporting requirements, and the application requirements of this subpart

Forest Service, USDA

§ 241.3

constitute information requirements as defined by the Paperwork Reduction Act of 1995 and have been assigned Office of Management and Budget (OMB) control number 0596-0168.

PART 241—FISH AND WILDLIFE

Subpart A—General Provisions

Sec.

- 241.1 Cooperation in wildlife protection.
- 241.2 Cooperation in wildlife management.
- 241.3 Federal refuge regulations.

Subpart B—Conservation of Fish, Wildlife, and Their Habitat, Chugach National Forest, Alaska

- 241.20 Scope and applicability.
- 241.21 Definitions.
- 241.22 Consistency determinations.
- 241.23 Taking of fish and wildlife.

AUTHORITY: 16 U.S.C. 472, 539, 551, 683.

Subpart A—General Provisions

SOURCE: 6 FR 1987, Apr. 17, 1941, unless otherwise noted.

§ 241.1 Cooperation in wildlife protection.

(a) Officials of the Forest Service will cooperate with State, county, and Federal officials in the enforcement of all laws and regulations for the protection of wildlife.

(b) Officials of the Forest Service who have been, or hereafter may be, lawfully appointed deputy game wardens under the laws of any State, will serve in such capacity with full power to enforce the State laws and regulations relating to fur-bearing and game animals, birds, and fish. Such officials will serve as State deputy game wardens without additional pay, except that they may accept the usual fees allowed by the respective States for issuing hunting and fishing licenses. All officials of the Forest Service are prohibited from accepting bounties, rewards, or parts of fines offered by any person, corporation or State for aid rendered in the enforcement of any Federal or State law relating to fur-bearing and game animals, birds, and fish.

§ 241.2 Cooperation in wildlife management.

The Chief of the Forest Service, through the Regional Foresters and Forest Supervisors, shall determine the extent to which national forests or portions thereof may be devoted to wildlife protection in combination with other uses and services of the national forests, and, in cooperation with the Fish and Game Department or other constituted authority of the State concerned, he will formulate plans for securing and maintaining desirable populations of wildlife species, and he may enter into such general or specific cooperative agreements with appropriate State officials as are necessary and desirable for such purposes. Officials of the Forest Service will cooperate with State game officials in the planned and orderly removal in accordance with the requirements of State laws of the crop of game, fish, fur-bearers, and other wildlife on national forest lands.

§ 241.3 Federal refuge regulations.

Until a cooperative agreement has been entered into between the Chief of the Forest Service and appropriate State officials for the regulation of game as provided in § 241.2 and the necessary implementing laws or regulations have been promulgated and taken effect in order to carry out such cooperative agreement the following paragraphs shall be effective:

(a) Any person desiring to hunt or take game or non-game animals, game or non-game birds, or fish, upon any National Forest lands or waters embraced within the boundaries of a military reservation or a national game or bird refuge, preserve, sanctuary, or reservation established by or under authority of an act of Congress, shall procure in advance a permit from the Forest Supervisor. The permit shall be issued for a specified season, shall fix the bag or creel limits, and shall prescribe such other conditions as the Regional Forester may consider necessary for carrying out the purposes for which such lands have been set aside or reserved.

(b) Officials of the Forest Service will cooperate with persons, firms, corporations, and State and county officials in
