# STATUTORY AUTHORITY FOR RESOLUTIONS BY THE COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS

---

## WATER RESOURCES RESOLUTIONS

*Title 16, United States Code*

*Chapter 18. Watershed Protection and Flood Prevention*

### **§ 1002. Definitions**

For the purposes of this chapter, the following terms shall mean:  
The "Secretary"—the Secretary of Agriculture of the United States.

"Works of improvement"—any undertaking for—

- (1) flood prevention (including structural and land treatment measures),
- (2) the conservation, development, utilization, and disposal of water, or
- (3) the conservation and proper utilization of land, in watershed or subwatershed area not exceeding two hundred and fifty thousand acres and not including any single structure which provides more than twelve thousand five hundred acre-feet of floodwater detention capacity, and more than twenty-five thousand acre-feet of total capacity. No appropriation shall be made for any plan involving an estimated Federal contribution to construction costs in excess of \$5,000,000, or which includes any structure which provides more than twenty-five hundred acre-feet of total capacity unless such plan has been approved by resolutions adopted by the appropriate committees of the Senate and House of Representatives: Provided, That in the case of any plan involving no single structure providing more than 4,000 acre-feet of total capacity the appropriate committees shall be the Committee on Agriculture, Nutrition, and Forestry of the Senate and the Committee on Agriculture of the House of Representatives and in the case of any plan involving any single structure of more than 4,000 acre-feet of total capacity the appropriate committees shall be the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives, respectively. Each project must contain benefits directly related to agriculture, including rural communities, that account for at least 20 percent of the total benefits of the project. A number of such sub-watersheds when they are component parts of a larger watershed may be planned together when the local sponsoring organizations so desire.

“Local organization”—any State, political subdivision thereof, soil or water conservation district, flood prevention or control district, or combinations thereof, or any other agency having authority under State law to carry out, maintain and operate the works of improvement; or any irrigation or reservoir company, water users’ association, or similar organization having such authority and not being operated for profit that may be approved by the Secretary; or any Indian tribe or tribal organization, as defined in section 450b of title 25, having authority under Federal, State, or Indian tribal law to carry out, maintain, and operate the works of improvement.

\* \* \* \* \*

*Title 16, United States Code*

*Chapter 18. Watershed Protection and Flood Prevention*

**§ 1009. Joint investigations and surveys by Secretary of the Army and Secretary of Agriculture; reports to Congress**

The Secretary of the Army and the Secretary of Agriculture, when authorized to do so by resolutions adopted by the Committee on Environment and Public Works of the Senate or the Committee on Public Works and Transportation of the House of Representatives, are authorized and directed to make joint investigations and surveys in accordance with their existing authorities of watershed areas in the United States, Puerto Rico, and the Virgin Islands, and to prepare joint reports on such investigations and surveys setting forth their recommendations for the installation of the works of improvement needed for flood prevention or the conservation, development, utilization, and disposal of water, and for flood control and allied purposes. Such joint reports shall be submitted to the Congress through the President for adoption and authorization by the Congress of the recommended works of improvement: Provided, That the project authorization procedure established by this chapter shall not be affected.

\* \* \* \* \*

*Title 33, United States Code*

*Chapter 12. River and Harbor Improvements*

*Subchapter I. General Provisions*

**§ 542. Review by Board of Engineers of reports on examinations and surveys and special reports**

All reports on examinations and surveys authorized by law shall be reviewed by the Board of Engineers for Rivers and Harbors as provided for in section 541 of this title, and all special reports ordered by Congress shall, in the discretion of the Chief of Engineers, be reviewed in like manner by said board; and the said board shall also, on request by resolution of the Committee on Environment and Public Works of the Senate or the Committee on Public Works and Transportation of the House of Representatives, submitted to the Chief of Engineers, examine and review the report of any examination or survey made pursuant to any Act or resolution of Congress, and report thereon through the Chief of Engineers, United States Army, who shall submit his conclusions thereon as in

other cases: Provided, That in no case shall the board, in its report thus called for by committee resolution, extend the scope of the project contemplated in the original report upon which its examination and review has been requested, or in the provision of law authorizing the original examination or survey.

\* \* \* \* \*

*Title 33, United States Code  
Chapter 15. Flood Control*

**§ 701b-7. Supplemental reports to Senate Environment and Public Works Committee and House Public Works Committee**

After the Secretary of Agriculture has submitted to Congress a regular or formal report made on any examination or survey, pursuant to the Flood Control Act approved June 22, 1936, as amended and supplemented, a supplemental, additional, or review report or estimate may be made if authorized by law or by resolution of the Committee on Public Works and Transportation of the House of Representatives or the Committee on Environment and Public Works of the Senate.

\* \* \* \* \*

*Title 42, United States Code (The Public Health and Welfare)  
Chapter 19b. Water Resources Planning  
?Subchapter IV. Miscellaneous Provisions*

**§ 1962d-5. Water resources development projects involving navigation, flood control, and shore protection**

*(a) Construction, operation, and maintenance; limitation on estimated Federal first cost of construction; Congressional committee approval of projects; reports to Congress*

The Secretary of the Army, acting through the Chief of Engineers, is authorized to construct, operate, and maintain any water resource development project, including single and multiple purpose projects involving, but not limited to, navigation, flood control, and shore protection, if the estimated Federal first cost of constructing such project is less than \$15,000,000. No appropriation shall be made to construct, operate, or maintain any such project if such project has not been approved by resolutions adopted by the Committees on Public Works of the Senate and House of Representatives, respectively. For the purpose of securing consideration of such approval the Secretary shall transmit to Congress a report of such proposed project, including all relevant data and all costs.

*(b) Local cooperation requirements based on certain estimated Federal first cost of construction*

Any water resource development project authorized to be constructed by this section shall be subject to the same requirements of local cooperation as it would be if the estimated Federal first cost of such project were \$15,000,000 or more.

---

**PUBLIC BUILDING RESOLUTIONS**

*Title 40. United States Code. (Public Buildings, Property, and Works)*  
*Chapter 12. Construction, Alteration, and Acquisition of Public Buildings*

**§ 606. Approval of proposed projects by Congress**

*(a) Limitation of funds; transmission to Congress of prospectus of proposed project*

In order to insure the equitable distribution of public buildings throughout the United States with due regard for the comparative urgency of need for such buildings, except as provided in section 603 of this title, no appropriation shall be made to construct, alter, purchase, or to acquire any building to be used as a public building which involves a total expenditure in excess of \$1,500,000 if such construction, alteration, purchase, or acquisition has not been approved by resolutions adopted by the Committee on Public Works of the Senate and House of Representatives, respectively. No appropriations shall be made to lease any space at an average annual rental in excess of \$1,500,000 for use for public purposes if such lease has not been approved by resolutions adopted by the Committee on Public Works of the Senate and House of Representatives, respectively. No appropriation shall be made to alter any building, or part thereof, which is under lease by the United States for use for a public purpose if the cost of such alteration would exceed \$750,000 unless such alteration has been approved by resolutions adopted by the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives. For the purpose of securing consideration for such approval, the Administrator shall transmit to the Congress a prospectus of the proposed facility, including (but not limited to)—

- (1) a brief description of the building to be constructed, altered, purchased, acquired, or the space to be leased under this chapter;
- (2) the location of the building or space to be leased and an estimate of the maximum to the United States of the facility to be constructed, altered, purchased, acquired, or the space to be leased;
- (3) a comprehensive plan for providing space for all Government officers and employees in the locality of the proposed facility or the space to be leased, having due regard for suitable space which may continue to be available in existing Government-owned or occupied buildings, especially such of those buildings as enhance the architectural, historical, social, cultural, and economic environment of the locality;
- (4) with respect to any project for the construction, alteration, purchase, or acquisition of any building, a statement by the Administrator that suitable space owned by the Government is not available and that suitable rental space is not available at a price commensurate with that to be afforded through the proposed action;

- (5) a statement by the Administrator of the economic and other justifications for not acquiring or purchasing a building or buildings identified to the Administrator pursuant to section 611(c) of this title as suitable for the public building needs of the Federal Government; and
- (6) a statement of rents and other housing costs currently being paid by the Government for Federal agencies to be housed in the building to be constructed, altered, purchased, acquired, or the space to be leased.

*(b) Increase of estimated maximum cost*

The estimated maximum cost of any project approved under this section as set forth in any prospectus may be increased by an amount equal to the percentage increase, if any, as determined by the Administrator, in construction, or alteration costs, as the case may be, from the date of transmittal of such prospectus to Congress, but in no event shall the increase authorized by this subsection exceed 10 per centum of such estimated maximum cost.

*(c) Rescission of approval for failure to make appropriations for project*

In the case of any project approved for construction, alteration, or acquisition by the Committees on Public Works of the Senate and of the House of Representatives, respectively, in accordance with subsection (a) of this section, for which an appropriation has not been made within one year after the date of such approval, either the Committee on Public Works of the Senate or the Committee on Public Works of the House of Representatives, may rescind, by resolution, its approval of such project at any time thereafter before such an appropriation has been made.

*(d) Emergency leases by the Administrator*

Nothing in this section shall be construed to prevent the Administrator from entering into emergency leases during any period declared by the President to require such emergency leasing authority, except that no such emergency lease shall be for a period of more than 180 days without approval of a prospectus for such lease in accordance with subsection (a) of this section.

*(e) Limitation on leasing certain space*

(1) General rule

The Administrator may not lease any space to accommodate—

- (A) computer and telecommunications operations;
- (B) secure or sensitive activities related to the national defense or security, except in any case in which it would be inappropriate to locate such activities in a public building or other facility identified with the United States Government; or
- (C) a permanent courtroom, judicial chamber, or administrative office for any United States court; if the average rental cost of leasing such space would exceed \$1,500,000.

## (2) Exception

The Administrator may lease any space with respect to which paragraph (1) applies if the Administrator first determines, for reasons set forth in writing, that leasing such space is necessary to meet requirements which cannot be met in public buildings and submits such reasons to the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives.

*(f) Dollar amount adjustment*

Any dollar amount referred to in this section and section 603(b) of this title may be adjusted by the Administrator annually to reflect a percentage increase or decrease in construction costs during the preceding calendar year, as determined by the composite index of construction costs of the Department of Commerce. Any such adjustment shall be expeditiously reported to the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives.

\* \* \* \* \*

*Title 40. United States Code. (Public Buildings, Property, and Works)*

*Chapter 12 - Construction, Alteration, and Acquisition of Public Buildings*

**§ 610. Report to Congress; uncompleted projects; building project surveys**

(a) Upon the request of either House of Congress, or any committee thereof, and within a reasonable time, the Administrator shall submit a report showing the location, space, cost, and status, of each public building the construction, alteration, or acquisition of which is to be under authority of this chapter and which was uncompleted as of the date of the request, or as of such other date as the request may designate.

(b) The Administrator and the United States Postal Service are authorized and directed to make such building project surveys as may be requested by resolution by either the Committee on Environment and Public Works of the Senate or the Committee on Public Works and Transportation of the House of Representatives, and within a reasonable time shall make a report thereon to the Congress. Such report shall contain all other information required to be included in a prospectus of the proposed public building project under section 606(a) of this title.

COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS

### COMMITTEE RESOLUTION

RESOLVED BY THE COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS OF THE UNITED STATES SENATE:

that pursuant to the provisions of Section 2 of Public Law 566, Eighty-third Congress, as amended, the following project for Flood Prevention, Water Quality, Soil Conservation and other purposes, at Middle Deep Red Run Watershed, Oklahoma, is hereby approved in accordance with the report on such project dated October 1998, and transmitted to Congress by the Director, Office of Management and Budget, by letter dated October 13, 1998, and said report is made a part of this approval.

  
CHAIRMAN

  
RANKING MINORITY MEMBER

Adopted: March 17, 1999

### COMMITTEE RESOLUTION

RESOLVED BY THE COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS OF THE UNITED STATES SENATE:

that the Secretary of the Army is directed to review the report of the Chief of Engineers on Mount St. Helens Sediment Control, Washington (Toutle, Cowlitz, and Columbia Rivers), published as House Document 135, Ninety-Ninth Congress, First Session, and any other pertinent reports, with a view to assess the feasibility of ecosystem restoration improvements throughout the Cowlitz and Toutle River basins. The primary focus of the study is to assess the 6,000 acres of wetland, riverine, riparian, and upland habitats lost or altered due to Mount St. Helens eruption in 1980 and subsequent emergency actions. The Secretary is to work in close coordination with local governments, watershed entities, the state of Washington, and other federal agencies in the development of conservation and restoration strategies to benefit Endangered Species Act listed candidate species and other watershed restoration objectives.

### COMMITTEE RESOLUTION

RESOLVED BY THE COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS OF THE UNITED STATES SENATE:

that the Secretary of the Army is requested to review the report of the Chief of Engineers on the Columbia and Lower Willamette Rivers below Vancouver, Washington, and Portland, Oregon published as House Document Number 452, Eighty-seventh Congress, Second Session, and other pertinent reports, from Bonneville Dam to the Mouth of the Columbia River, with a view to determine the feasibility of providing ecosystem restoration measures in the Lower Columbia River and estuary including wetland/riparian habitat restoration, stream and fisheries improvement, water quality and water-related infrastructure improvements. The study, in part, is to include consideration of restoration measures consistent with the terms and conditions of the December 16, 1999 Biological Opinion for the Columbia River Federal Navigation of Channel Deepening.

Name of project: Lower Columbia River Ecosystem Restoration, Oregon and Washington

**United States Senate**  
COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS

COMMITTEE RESOLUTION

RESOLVED BY THE COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS OF THE UNITED STATES  
SENATE

that pursuant to the provisions of section 7 of the Public Buildings Act of 1959, (40 U.S.C. 606), a modified prospectus providing for the construction of a United States Federal Building-Courthouse in Laredo, TX, of 155,124 gross square feet including 50 inside parking spaces, at an estimated cost of \$37,105,000 for construction, management and inspection, and additional site, a description of which is attached hereto and by reference made part of, is approved. This resolution amends the committee resolutions dated October 30, 1992; January 27 1994; May 26, 1994; and September 23, 1998.
