

offered zero interest financing, which, as GM said, has kept America rolling.

I will never apologize for defending the domestic auto industry against the Democratic leadership.

THANK YOU AND WELCOME HOME,
RED BULL DIVISION

(Mrs. BACHMANN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. BACHMANN. Mr. Speaker, the Minnesota Red Bulls are not an energy drink, but let me tell you about what an amazing energy force they have been for our freedom in the United States.

They are now returning home from the longest continuous deployment of any U.S. military unit during Operation Iraqi Freedom.

The Red Bulls hail from the 1st Brigade, 34th Infantry Division of the Minnesota National Guard based in Bloomington, Minnesota.

Mr. Speaker, these men and women are true citizen soldiers. They have put service to their country ahead of their family, of their friends, and their careers since September of 2005.

During their deployment, let me tell you what the Red Bulls have done for our country, Mr. Speaker. They completed 5,200 combat logistical patrols. They secured 2.4 million convoy miles, and they discovered 462 improvised explosive devices prior to detonation. In addition, they completed 137 reconstruction projects and helped start two Iraqi newspapers for the local population that covered stories on these reconstruction projects.

On behalf of a grateful Nation and a free world, we welcome back the Minnesota Red Bulls and we thank you.

CHILDREN'S HOSPITAL GRADUATE
MEDICAL EDUCATION PROGRAM

(Mr. REICHERT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. REICHERT. Mr. Speaker, as the House continues its consideration of the Labor-HHS appropriations bill today, I urge all my colleagues to support funding for the Children's Hospital Graduate Medical Education program.

Even though this amount is lower than the amount suggested by some of us in the 109th Congress, the \$307 million in this appropriation bill will go to training and educating graduate medical students who will help our children at our children's hospitals across this Nation.

Especially close to my heart is my godson, Kyle, who at 18 months old was diagnosed with cancer and for the last 12 years has survived and has been helped and aided by these graduate medical students.

So I urge my colleagues, please support this bill. It is so critical to the health of our children.

DEPARTMENTS OF LABOR,
HEALTH AND HUMAN SERVICES,
AND EDUCATION, AND RELATED
AGENCIES APPROPRIATIONS
ACT, 2008

The SPEAKER pro tempore (Mr. WELCH of Vermont). Pursuant to House Resolution 547 and rule XVIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the further consideration of the bill, H.R. 3043.

□ 1025

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the State of the Union for the further consideration of the bill (H.R. 3043) making appropriations for the Departments of Labor, Health and Human Services, and Education, and related agencies for the fiscal year ending September 30, 2008, and for other purposes, with Mrs. TAUSCHER in the chair.

The Clerk read the title of the bill.

The CHAIRMAN. When the Committee of the Whole rose on Tuesday, July 17, 2007, amendment No. 5 printed in the CONGRESSIONAL RECORD by the gentleman from Texas (Mr. SESSIONS) had been disposed of and the bill had been read through page 42, line 21.

AMENDMENT OFFERED BY MR. GRAVES

Mr. GRAVES. Madam Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. GRAVES:

Page 42, line 12, after the dollar amount, insert "(reduced by \$125,000,000)".

Page 42, line 13, after the dollar amount, insert "(reduced by \$125,000,000)".

Page 84, line 24, after the dollar amount, insert "(increased by \$125,000,000)".

Mr. GRAVES. Madam Chairman, let me begin by thanking the chairman and ranking member of the Appropriations Committee for working together in a true bipartisan fashion to begin providing a long overdue down payment to special education funding. In particular, I want to thank Ranking Member WALSH for his amendment in committee to provide a \$335 million increase in special education funding for fiscal year 2008.

When the Individuals with Disabilities Education Act was signed into law more than 30 years ago, the Federal Government committed to pay the States 40 percent of the costs of providing services to students covered under this act. However, for three decades the Federal Government has often provided less than half the money promised.

What has this shortfall meant? For one, it has meant higher taxes at the State and local levels and less funding for other education programs as States and local governments struggle to make up the shortfall in Federal resources.

The amendment I introduce today builds on the bipartisan cooperation of the House Appropriations Committee by providing a further \$125 million increase in funding for IDEA part B

grants to the States. To pay for my amendment, I offset the cost by reducing a portion of the U.S. contribution to the Global Fund. My amendment helps us fulfill our commitment to funding special education while also providing a small increase in funding to the Global Fund as was provided last year. I don't take this money from any domestic program. These funds are dedicated to an overseas program, and they still see a \$1 million increase over last year.

My amendment sets the right priorities for our Nation's children with special needs, and I urge support from all of my colleagues. Again, I would thank the chairman and ranking member for their hard work on this.

Madam Chairman, I yield back the balance of my time.

Mr. OBEY. Madam Chairman, frankly, I am looking for my ranking minority member. But until he gets here let me take a little time and say that I would simply suggest to the gentleman, if he thinks this is a good idea, that he take this idea up with the President of the United States.

What this committee has tried to do both on this subcommittee and on the Foreign Operations Subcommittee is to respect and work with the administration in their effort to provide global leadership to deal with the AIDS epidemic around the world. And the fact is that this item in this bill is a critical piece of the President's program.

Given our disarray around the world because of Iraq, I think it is a wonderful exception when we can be seen to be providing constructive leadership in the world on something. And certainly, although I have many differences with the President, this is one area where I think he has exercised significant leadership.

□ 1030

And I think it would undercut our standing yet again in the world if we were to withdraw this funding.

I just think that we've struck a good balance with respect to this program. I think both subcommittees have tried to see to it that we meet our international responsibilities.

You and I are very lucky human beings. Our souls were, thanks to God, infused in a body that lives in the United States. If they had been infused in a body that was born in Africa or in Asia or in some of the other hot spots in the world in terms of these diseases, I think we would take a look at this issue in a quite different way.

This program provides the only real leadership in the world to attack this program. I think it would be a horrendous mistake if we were to adopt the gentleman's amendment. I would urge defeating the amendment.

Madam Chairman, I yield back the balance of my time.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Missouri (Mr. GRAVES).

The question was taken; and the Chairman announced that the noes appeared to have it.
