

Senator McCain now wants to extend that same strategy to the health insurance industry? Our Nation's health care system has enough problems, and we don't need to exacerbate them by implementing Senator McCain's dangerous new deregulation idea.

There was no objection.

Mr. COSTELLO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of H.R. 6984, the Federal Aviation Administration Extension Act, Part II. I want to thank Chairman OBERSTAR for bringing this legislation to the floor today, as well as Chairman RANGEL and Ranking Members MICA and PETRI.

The Aviation Trust Fund was created to fund the development and improvement of our airport and airway system, make critical investments to the air traffic control facilities, and to ensure the safety of the flying public.

The trust fund provides revenue for the airport improvement program, which provides grants for construction and safety projects at airports; the facilities and equipment account, which funds technical improvements to the air traffic control system; and a research, engineering and development account. The fund also partially pays for the salaries, expenses, and operations of the FAA.

This trust fund is currently operating under a short-term extension that expires on September 30, 2008. In
