

The bill I introduce today is simple. It would eliminate the outdated requirement that eligible children receive Title XX funds in order to trigger the CACFP meal subsidy. This would allow proprietary centers to participate in CACFP if at least 25% of the children they serve are eligible for a food nutrition subsidy. This change will ensure that proprietary centers will be able to continue to serve low-income children. It reduces pressure on proprietary centers to increase their rates for non-subsidized children to recover the costs of unreimbursed meals for subsidized children. It preserves the right of parents, including low-income parents, to choose the quality child care center that is most appropriate for their children. And most importantly, this change reinforces the original intent of the law: to ensure that eligible low-income children in proprietary child care centers have the benefit of a nutritious meal. I hope that all of my colleagues will join me in cosponsoring this legislation and I look forward to working for its swift passage when Congress reconvenes in January.●

S. 1997. A bill to simplify Federal oil and gas revenue distributions, and for other purposes; to the Committee on Energy and Natural Resources.

MINERAL REVENUE PAYMENTS CLARIFICATION
ACT OF 1999

● Mr. BINGAMAN. Mr. President, today, I am introducing legislation which will end the practice of charging States for costs the Federal Government incurs in managing Federal mineral leases.

The Mineral Revenue Payments Clarification Act of 1999 will eliminate net receipts sharing, allowing Federal agencies to more rationally and fairly apportion to States their share of Federal mineral revenues.

Since enactment of the Mineral Leasing Act in 1920, Congress has determined that it was fair and appropriate to share with States a portion of the money received by the United States for Federal mineral leases located within the State. Under current law, for most mineral leases the State share is 50 percent, except for Alaska which receives 90 percent.

In 1993, a permanent provision was added to the Omnibus Appropriations Act that requires the Department of the Interior to deduct from a State's share 50 percent of the Federal Government's costs of administering Federal mineral leases within that State. This new requirement substantially lowers the amounts States receive, but was added without either explanation or justification as to why such a deduction is either fair or appropriate.

Furthermore, the statutory procedures for figuring these deductions are cumbersome to the point of being un-

workable. The Federal agencies charged with administering these requirements have found them difficult, and sometimes impossible, to implement in any consistent fashion.

In November of 1997, the Inspector General of the Department of the Interior found that the Department had inaccurately calculated the costs involved in administering the Federal onshore mineral leasing program, resulting in substantial overcharges to States. This issue has yet to be fully resolved by the Department of the Interior.

Needless to say, this complicated and unjustified provision has been controversial with the States and unpopular with the Federal agencies charged with administering it. It penalizes States while creating administrative nightmares for the Federal Government. It is time to do away with this unwieldy provision.

Therefore, I am introducing The Mineral Revenue Payments Clarification Act of 1999, which will eliminate this provision and provide that States' shares of payments under Federal mineral leases will not be reduced by administrative or other costs incurred by the United States. I believe that this will return a system that is both fair, and capable of being administered in a reasonable fashion.●
