GENERAL STATEMENT AND SUMMARY

The Committee recommends new budget (obligational) authority of \$3,980,000,000 for the legislative branch for fiscal year 2007. This total is \$258,457,000 below the budget request and \$187,002,000 above the fiscal year 2006 level.

The bill includes \$272,405,000 for the U.S. Capitol Police; \$435,041,000 for the Architect of the Capitol to maintain, improve, and construct buildings and facilities for the Congress; \$498,620,000 for the Government Accountability Office; \$575,647,000 for the Library of Congress; \$140,280,000 for the Government Printing Office; and \$840,684,000 for operations of the Senate.

The Committee expects all agencies to notify the Committee of any significant departures from budget plans presented to the Committee in any agency's budget justifications. In particular, agencies funded through this bill are required to notify the Committee prior to each reprogramming of funds in excess of the lesser of 10 percent or \$500,000 between programs, projects or activities, or in excess of \$500,000 between object classifications (except for shifts within the pay categories, object class 11, 12, and 13 or as further specified in each agency's respective section). This includes cumulative reprogrammings that together total at least \$500,000 from or to a particular program, activity, or object classification as well as reprogramming of FTE's or funds to create new organizational entities within the Agency or to restructure entities which already exist. The Committee desires to be notified of reprogramming actions which involve less than the above-mentioned amounts if such actions would have the effect of changing an agency's funding requirements in future years or if programs or projects specifically cited in the Committee's reports are affected.

The Committee also expects all agencies to submit operating plans for the Committee's approval within 30 days of the bill's enactment.

Legislative Branch Inspectors General.—The establishment under this bill of an office of inspector general for the Office of the Architect of the Capitol helps to enhance governmental efforts to promote integrity and efficiency and to detect and prevent fraud, waste, and abuse in the Architect of the Capitol's programs and activities. A majority of the legislative branch entities have either a statutory or administrative inspector general to conduct and supervise audits and investigations relating to the programs and operations of their entity. The Committee recognizes the benefits of coordination and formal communication between and among the executive branch inspectors general achieved through the structure and activities of the President's Council on Integrity and Efficiency and the Executive Council on Integrity and Efficiency. To achieve similar benefits within the legislative branch, the Committee expects

the legislative branch inspectors general to communicate, cooperate, and coordinate with each other on an informal basis regarding their respective audit, inspection, and investigative activities, as appropriate. The Committee requests that the inspectors general keep the Committee informed of the progress of such communications, cooperation, and coordination.

Budget Justifications.—The Committee directs all agencies in the preparation of their budget justifications beginning in fiscal year 2008, to display clearly policies and assumptions for the development of their requests for programs, projects and activities.

Statutory Positions.—The Committee notes there are a number of statutory positions in the Senate and the legislative branch support agencies that either have no specific statutory responsibilities or have statutory responsibilities that have become anachronistic, or should be adjusted to reflect changes which have occurred since the positions were created. With the assistance of the Government Accountability Office, the Committee intends to undertake a review of these positions and propose next year the abolition of statutory positions which lack justification. A similar action was taken in 1981 when a number of specific statutory positions were abolished and replaced with lump sum allowances for various offices in the Senate.

SENATORS' OFFICIAL PERSONNEL AND OFFICE EXPENSE ACCOUNT

Appropriations, 2006	\$342,056,000
Budget estimate, 2007	387,522,000
House allowance	Not considered
Committee recommendation	374,031,000

The Committee recommends an appropriation for fiscal year 2007 of \$374,031,000 for the Senators' Official Personnel and Office Expense Account, an increase of \$31,975,000 above the current year and a decrease of \$13,491,000 below the request.

This account funds salaries and benefits of Senators' staffs as well as the office expense allowance for Senators' offices. The Senators' official personnel and office expense allowance [SOPOEA] is comprised of three components. Two of these are for salaries of personnel in Senators' offices.

The allowance for administrative and clerical assistance is based on the population of States, beginning with States with a population of fewer than 5 million people to States with a population of 28 million or more. The table illustrates the allowances per population category and the States which fall into those categories. The estimate for fiscal year 2007 totals \$219,796,942.

The second component of the salaries allowance is for legislative assistance to Senators, as authorized by Public Law 95–94. This allowance provides funding for three positions in each Senator's office at an annual rate of \$160,659 for a total of \$481,977 per office, or \$48,197,700 for all 100 Senators.

The third component of the SOPOEA account is for office expenses and totals \$20,328,942. Each Senator's office is allocated an amount for office expenses, as displayed in the following table. In addition, an amount of \$200,000 is provided to cover additional expenses that may be incurred in the event of the death or resignation of a Senator, and to provide for transitional expenses during election years subject to regulations set by the Committee on Rules and Administration with respect to official mail.

It should be noted that the amounts provided for the various components of the SOPOEA are interchangeable. Amounts provided for salaries may be used for expenses, and vice versa, subject to regulations set by the Committee on Rules and Administration with respect to official mail. It should also be noted that the figures in the following table are preliminary, and that official notification of member budgets is issued by the Financial Clerk of the Senate after enactment of this bill.

The following table illustrates the several components of the SOPOEA.

According to the most recent employment data compiled by the Secretary of the Senate, as of April 30, 2006, there were 4,298 individuals employed in Senators' offices throughout the United States and covered by this appropriation.

In addition to providing funds for compensation of employees within Senators' offices, this appropriation also provides for agency

contributions for those employees; that is, the Senate's share, as an employer, of the various employee benefit programs for which Senate employees are eligible. These payments are mandatory, and fluctuate according to the programs in which employees are enrolled, the level of compensation, and the degree of participation. Budget requests for this account prepared by the Financial Clerk must be based on both experience and evaluation of trends. The fiscal year 2007 request for this account anticipates \$92,485,000 in agency contribution costs.

The amount recommended by the Committee for the SOPOEA is less than would be required to cover all obligations that could be incurred under the authorized allowances for all Senators. The Committee is able to recommend an appropriation of a lesser amount than potentially necessary because Senators typically do not obligate funds up to the absolute ceiling of their respective allowances.

CAPITOL GUIDE AND SPECIAL SERVICES OFFICE

Appropriations, 2006	\$4,098,000
Budget estimate, 2007	8,489,000
House allowance	8,490,000
Committee recommendation	8,489,000

The Committee recommends an appropriation of \$8,489,000, for the Capitol Guide and Special Services Office, the same as the budget request. The increase accomodates additional staffing requirements associated with the operation of the Capitol Visitor Center. The Committee notes that staffing requirements may exceed original estimates owing to a number of unresolved or developing CVC operational issues. The Committee expects to be apprised of staffing needs as operational decisions are made.

STATEMENTS OF APPROPRIATIONS

Appropriations, 2006	\$30,000
Budget estimate, 2007	30,000
House allowance	30,000
Committee recommendation	30,000

The Committee recommends \$30,000 for the preparation of detailed statements of appropriations as required by law. This account is used as payment for the preparation of the volumes, "Statements on Appropriations," for the second session of the 109th Congress. These volumes show annual appropriations made, indefinite appropriations, and contracts authorized, along with a chronological history of regular appropriations bills. The volumes are compiled jointly by the Senate and House Committees on Appropriations pursuant to a directive in the Legislative Appropriations Act of June 7, 1924.

CAPITOL POLICE

	<i>Recommended</i>
Salaries	\$231,205,000
Expenses	41,200,000
Total, Capitol Police	272,405,000

The Committee recommends \$272,405,000 for the U.S. Capitol Police. This is an increase of \$25,444,000 over fiscal year 2006 and a decrease of \$22,678,000 below the request, reflecting more accurate projections of requirements and better management of additional duty hours. The budget may be supplemented by a reprogramming of \$3,000,000 in unobligated prior-year balances, subject to the customary approval process, should additional funds be necessary.

USCP Financial Management.—While progress has been made over the last several years, the Committee remains concerned about USCP management's strategy and slow response in resolving long-standing payroll issues, most notably those identified by external independent auditors as material weaknesses in internal control. These material weaknesses, which were identified in 1999 and continue to be unresolved through the issuance of the most recently completed financial statement audit report covering fiscal year 2003, center around Capitol Police not having fully implemented policies and procedures to provide reasonable assurance that payroll transactions are properly approved and certified, as well as the Capitol Police's lack of supporting documentation maintained in their payroll records. In addition, the Capitol Police has never completed a full scope audit of a full set of financial statements. Therefore, the Committee directs the Chief of the Capitol Police to report to the Committee in 60 days on the status of its fiscal year 2004 and 2005 financial statement audits, including the status, corrective actions planned, and resolution dates for the previous, as well as any new, internal control weaknesses identified by the independent auditor. The Committee expects the Capitol Police to implement expeditiously the corrective actions needed, and resolve payroll and other identified weaknesses. The Committee also directs the Capitol Police to prepare a plan to move to a full-scope financial statement audit for fiscal year 2007, with the audit report being issued no later than December 15, 2007.

Advance Notification of Deployments Outside Jurisdiction.—The Committee directs USCP to provide advance notification of deployments of officers outside USCP jurisdiction to the Committees on Appropriations in a timely manner. On several occasions in the last year the Committee received notification after the deployment had occurred.

SALARIES

Appropriations, 2006	\$215,281,000
Budget estimate, 2007	246,700,000
House allowance	220,600,000
Committee recommendation	231,205,000

The Committee recommendation totals \$231,205,000 for salaries, an increase of \$15,924,000 over the enacted level and a decrease of \$15,495,000 below the request. This level will support current sworn staffing of 1,658 officers, 21 additional officers required for the Capitol Visitor Center, as well as 82 officers to be transferred from the Library of Congress Police and 10 associated with LOC police attrition. In addition, the recommendation would support 417 civilian staff.

The amount provided covers salaries, benefits, and overtime costs. Capitol Police personnel are also eligible for hazardous duty pay and comparability pay similar to locality pay adjustments granted other Federal law enforcement personnel in the Washington, DC, area.

Overtime.—The Committee notes that the amount recommended includes an estimated \$17,000,000 for overtime (excluding amounts associated with the merger of Library of Congress police). This will provide for some 356,000 hours of overtime, a reduction of 24,000

hours from that estimated for fiscal year 2006. The Committee commends the agency for its efforts to better manage additional duty hours and expects such efforts will continue in fiscal year 2007, without any degradation to security.

The Committee is aware that USCP is developing a directive that defines the process for planning and approving additional duty hours and clarifies roles and responsibilities for various USCP staff involved in this process. The Committee expects USCP to finalize and implement this order by September 1, 2006, which will institutionalize this process and support ongoing efforts to improve the management of additional duty hours. Additionally, this process could be supported by implementing a risk-based framework that would assess the risks associated with protecting the Capitol complex and link them to the allocation of USCP's resources. As such, the Committee directs USCP to develop and implement by December 31, 2006, a risk-based framework designed to assist USCP management in efficiently and effectively deploying resources for the protection of the campus, including an external peer review by independent and qualified experts. This external peer review can improve the technical quality of the framework and the credibility of its decisionmaking process. Additionally, this framework should be tested and validated periodically to ensure its continued effectiveness. The Committee expects to be promptly informed in the event of any delays or other issues that may impede the successful and timely completion of the implementation of the directive and the risk-based framework.

Library of Congress Police Staffing.—The Committee's recommendation also includes approximately \$4,700,000 for salaries of Library of Congress Police to be transferred from LOC, and \$1,765,000 for overtime to cover LOC posts during training of the officers to be transferred from LOC.

GENERAL EXPENSES

Appropriations, 2006	\$31,680,000
Budget estimate, 2007	48,383,000
House allowance	38,500,000
Committee recommendation	41,200,000

The Committee recommends \$41,200,000 for general expenses of the Capitol Police, an increase of \$9,520,000 over fiscal year 2006 and a reduction of \$7,183,000 below the request reflecting revised estimation based on prioritizing mission support requirements.

Approximately \$2,100,000 is included for expenses associated with the transfer of LOC police to USCP, including training, outfitting, and studies to ensure compatibility of security and information systems.

Expenses include office supplies and equipment, laundry and dry-cleaning, communications, motor vehicles, uniforms and equipment, investigations, training, and miscellaneous items.

ADMINISTRATIVE PROVISIONS

SEC. 1001. TRANSFER AUTHORITY. The Committee has included a routine provision which allows for funds to be transferred between the "Salaries" and "General expenses" accounts.

SEC. 1002. TRANSFER OF LIBRARY OF CONGRESS POLICE. Language is included that effectuates the merger of the Capitol Police with the Library of Congress [LOC] Police mandated by the 2003 Legislative Branch Appropriations Act (Public Law 108–7). Under this language, LOC Police Officers shall be transferred to the United States Capitol Police, provided such LOC Police Officers (1) will reach 20 years of combined Federal service on or before the age of 60 and (2) successfully complete a background check, polygraph test, medical examination, and prescribed training course. The transfer shall take place on April 1, 2007. A waiver of the USCP mandatory retirement age of 57 shall be granted to the transfer-eligible officers who will not reach 20 years of combined Federal service by the age of 57. The waiver shall remain in effect only until the 20-year combined Federal service threshold for immediate retirement is met.

Effective on September 30, 2008, all LOC Police employee positions shall be terminated. No later than this date, LOC Police Officers not eligible to transfer to the USCP but eligible for immediate retirement shall be separated from service, and LOC Police Officers not eligible to either transfer to the USCP or immediately retire shall be transferred to another position at the LOC or separated from service.

Effective on October 1, 2008, the USCP shall assume policing responsibilities with respect to the LOC, while the Librarian of Congress shall retain control over collections security within the LOC. The LOC and the USCP shall enter into a memorandum of understanding spelling out the collections security activities to be performed by the LOC and describing how the LOC employees responsible for collections security will interact and coordinate with the USCP.

The LOC shall provide administrative support (i.e., lockers, office space, and parking) to USCP Officers posted at the LOC to the same extent such support was provided to LOC Police Officers prior to the transfer.

SEC. 1003. AUTHORIZATION FOR ADVANCE PAYMENTS. The Committee recommends limited advance payment authority for certain contracts when such payments would be more prompt, efficient, or economical.

SEC. 1004. USCP GENERAL COUNSEL. This provision transfers the position of General Counsel to the Capitol Police. With the exception of this position, all other sworn and civilian USCP positions, including those reporting directly to the Capitol Police Board, are on the USCP payroll and have been since the USCP payroll migrated from the Senate or House payrolls.

The Committee recommends an appropriation of \$3,418,000 for the salaries and expenses of the Office of Compliance [OOC], an in-

crease of \$337,000 over fiscal year 2006. The Committee expects OOC to work with the Architect of the Capitol to address Capitol complex utility tunnel issues as expeditiously as possible to ensure protection of worker health and safety.

CONGRESSIONAL BUDGET OFFICE

SALARIES AND EXPENSES

Appropriations, 2006	\$35,096,000
Budget estimate, 2007	37,026,000
House allowance	36,329,000
Committee recommendation	36,987,000

The Committee recommends an appropriation of \$36,987,000 for the Congressional Budget Office. The amount recommended represents an increase of \$1,891,000 over the enacted level to cover anticipated pay and price level increases for the current staffing level of 235 FTE's.

ARCHITECT OF THE CAPITOL

The Committee has recommended a funding level of \$435,041,000 for all activities of the Architect of the Capitol. The amount recommended is \$153,308,000 below the request and \$16,752,000 below the fiscal year 2006 level. The Committee has funded projects designated with an immediate urgency. Other requested projects, unless related to life safety, are not funded owing to budget constraints and the need for AOC to focus on the successful completion of ongoing projects.

The following table shows the request and the Committee recommendation, excluding the House Office Buildings account:

Appropriation	2006 appropriation ¹	Fiscal year 2007 request	2007 recommendation
General Administration	\$76,044,000	\$103,474,000	\$90,669,000

¹ Including rescission and supplemental appropriations (Public Law 109-234).

Line-Item Construction Program.—The Committee supports AOC's efforts to develop a systematic method for prioritizing construction projects, yet considers the line-item construction program [LICP] to be a "work in progress" with the need for more strategic ways for comparing projects and assessing their relative merits. In addition, the Committee directs AOC to include all construction projects estimated to cost a minimum of \$250,000 as part of the LICP beginning with the fiscal year 2008 budget process such that the Committees on Appropriations may make funding decisions on all construction projects in a more comprehensive manner.

Project Management Costs.—The Committee is concerned that the Architect does not have a systematic and transparent process to estimate and fully account for actual project costs. Without such a process, the Architect cannot determine the accuracy of its estimates nor demonstrate that funding for management, administrative, and overhead costs, which are derived from project estimates, is appropriate or representative of actual costs. AOC has recently completed an internal review of the Construction Division, and made recommendations for improving the performance of the Construction Division, yet a comprehensive review of project management costs has not been undertaken. Therefore, the Committee directs the Architect to undertake a study of its estimating and cost accounting practices for the Project Management Division and Construction Division, including a comparison of these practices to standard construction management practices, and develop a process that more accurately relates estimates to actual costs and provides a basis to manage costs more effectively. The Architect should report its results to the Committee by January 31, 2007. In addition, the Committee directs the AOC to provide a status report by January 31, 2007, on its efforts to implement recommendations from the Construction Division Peer Review Report.

Cap on Project-Related Temporary Staff.—In lieu of allocating construction division [CD] temporary staff and project-related temporary staff by jurisdiction, the Committee recommends an agency-wide cap of 210 CD temporary staff for fiscal year 2007 and 95 project-related temporary staff, and directs the agency to report on its plans for allocating these staff. This flexibility is intended to ensure the AOC employs the most cost-effective method for executing projects. The Committee expects AOC in the fiscal year 2008 budget to address inconsistencies in permanent versus temporary positions in the Project Management Division.

Biobased Products.—The Committee encourages the Architect of the Capitol to initiate a pilot program to make available biobased cutlery, cups, plates and other items as available in the Senate food service areas.

Utility Tunnels.—On February 28, 2006, the Office of Compliance [OOC] issued a “complaint” to the Architect of the Capitol regarding the safety and health violations that exist in the Capitol complex utility tunnels, including structural problems, inadequate means of communication and egress, and asbestos. This is the first time OOC has filed a complaint under the Occupational Safety and Health Act. The Committee is very troubled that the conditions of the tunnel were largely unaddressed since OOC first issued a citation in 2000. The Committee is deeply concerned about the Architect’s stewardship of the steam tunnels by its failure to plan, budget for, and address the continuous maintenance of the tunnels in a timely manner. The Committee directs that by August 31, 2006, the Architect provide to the Committee a comprehensive plan and budget that strategically address short- and long-term repairs to the steam tunnels over the next 5 years. The plan should include, at a minimum, an assessment of the tunnel problems that need to be corrected, the priorities from safety and operational standpoints, options for addressing the problems along with the costs and benefits and advantages and disadvantages of each option, the recommended options and schedule for implementation, and the identification of officials who will be accountable. The Committee also directs the Architect to provide quarterly reports to the Committee on progress it makes in (1) implementing its strategic plan for making tunnel repairs, (2) identifying and fixing management problems that allowed the tunnel problems to go unaddressed for more than 6 years to prevent such a situation from reoccurring, and (3) steps being taken—and their effectiveness—to enhance the safety of workers who must go into the tunnels.

The Committee has provided a minor construction budget of \$4,000,000 to provide flexibility in addressing utility tunnel requirements, subject to the customary reprogramming guidelines.

Capitol Power Plant Staffing and Organizational Structure.—The Government Accountability Office recently reported on staffing and training challenges faced by the Architect in preparation for start-

up of the expanded West Refrigeration Plant at the Capitol Power Plant. With the imminent completion of the West Refrigeration Plant expansion and related Capitol Power Plant modernization project, the Committee is concerned about the Architect's ability to operate the plant safely, efficiently, and economically. In light of concerns raised in GAO's report that the Capitol Power Plant is overstaffed and that current operators may not be capable of operating the modernized plant equipment, the Committee directs the Architect to develop a staffing plan that achieves the most cost-efficient organizational structure. The Architect shall provide the Committee within 90 days a detailed implementation plan that outlines the new Capitol Power Plant organizational structure and its schedule for achieving the reorganization.

Budget estimate, 2007	102,237,000
House allowance	36,401,000
Committee recommendation	37,959,000

The Committee recommends an appropriation of \$37,959,000 and 156 permanent FTE's for the care and maintenance of the Library buildings and grounds by the Architect of the Capitol, of which \$14,361,000 shall remain available until September 30, 2011. The FTE cap includes the transfer of 23 temporary FTE's to permanent status, as these staff are performing routine operational functions. The recommendation is \$30,116,000 below the enacted amount for fiscal year 2006 and \$64,278,000 below the request. Reductions from the request are primarily associated with the Logistics Center and the elimination of lower priority projects.

The amount recommended includes \$1,210,000 for the restoration of Bartholdi Foundation, a project which has been delayed since fiscal year 2000. This project is urgently needed in view of the increased deterioration resulting from rust and corrosion on both the interior and the exterior of the fountain.

The Committee recommends \$39,550,000 for the Capitol Visitor Center, including \$25,600,000 for completion of the Capitol Visitor Center, \$4,534,000 for project fit-out costs, and \$9,416,000 for CVC operations.

According to the Government Accountability Office, the amount requested by the Architect is unlikely to be sufficient to complete the CVC. Therefore, the Committee has added \$5,000,000 to the budget based on GAO's recommendation. In addition, the opening is likely to be delayed well beyond the timeframe on which the budget estimate for operations was predicated. Therefore, the Committee has reduced the budget request for operations to \$9,416,000.

The Capitol Visitor Center was established to improve security for all persons working in or visiting the U.S. Capitol and enhance the educational experience of visitors.

ADMINISTRATIVE PROVISION

SEC. 1201. INSPECTOR GENERAL. The Committee recommends a provision creating a statutory inspector general for the Architect of the Capitol. This is intended to promote integrity and efficiency in AOC programs, and detect and prevent fraud, waste, and abuse.

LIBRARY OF CONGRESS

The Committee recommends a total of \$575,647,000 for the Library of Congress, an increase of \$13,896,000 over the fiscal year 2006 level and a decrease of \$12,484,000 below the request. The reduction below the request is in part attributed to the transfer of funds to the USCP to effectuate the merger of LOC with Capitol Police. Increases are provided to accommodate pay and price level increases, as well as to increase programs in selected areas such as acquisitions. In addition to the appropriation, the Library estimates receipts and reimbursements of \$40,325,000, funds from gifts and trusts totaling \$10,375,000, and revolving funds totaling \$82,430,000. Total funds available to support Library operations, including the Architect of the Capitol account, are expected to be nearly \$750,000,000 in fiscal year 2007 under the Committee recommendation.

To reiterate the language of the 2006 Senate Report, the Committee directs the Library in consultation with GAO to develop a budget presentation and justification package for the fiscal year 2007 budget cycle that clearly addresses rates and assumptions used in the base as well as a clear description for each program of what drives demand for the program, what the nature of the program's workload is, and what service or outcome each base program is intended to produce. A clear description of new program starts and a detailed break out of rates and assumptions associated with cost estimates for those programs including demand, workload, and outcome should also be provided along with a clear explanation of how each program relates to goals and objectives set forth in the Library's strategic plan.

The following table displays the Committee recommendation for the Library of Congress appropriations compared to the budget request and the fiscal year 2006 level.

The Committee's recommendation reflects revised estimates for payroll and rental costs; an increase of \$1,000,000 above the current level for acquisition of Library Collections (GENPAC); \$273,000 for the workforce transformation project; and a decrease of \$4,182,000 below the request owing to the transfer of 82 LOC police to the U.S. Capitol Police. In addition, \$250,000 is recommended for the final year of the Middle Eastern Text Initiative, and \$700,000 is included for the Abraham Lincoln Bicentennial Commission.

The Committee urges the Library to engage in community outreach in the use of the St. Cecilia's Center.

This is \$136,000 below the request level, reflecting revised estimates for the cost-of-living adjustment.

The Committee's recommendation includes \$1,000,000 to digitally image pre-1978 public records. This 6-year initiative should be clearly displayed in subsequent budget requests rather than becoming part of the "base."

BOOKS FOR THE BLIND AND PHYSICALLY HANDICAPPED

SALARIES AND EXPENSES

Appropriations, 2006	\$53,905,000
Budget estimate, 2007	55,703,000
House allowance	53,974,000
Committee recommendation	55,547,000

The Committee recommends an appropriation of \$55,547,000 for salaries and expenses for Books for the Blind and Physically Handicapped. This is an increase of \$1,642,000 over the fiscal year

2006 level. The Committee recommends \$400,000 for the National Federation of the Blind “newsline” program, the same as the fiscal year 2006 level.

This appropriation supports a National Reading Program for blind and physically handicapped citizens. Books and magazines in braille and various recorded formats are produced by the National Library Services for the Blind and Physically Handicapped for distribution through a network of State and locally supported libraries. At present, 57 regional libraries in 49 States, the District of Columbia, the Virgin Islands, Puerto Rico, and Guam house and circulate books and magazines to eligible readers. Seventy-eight subregional libraries in 17 States assist at the local public library level; 53 libraries and 4 cooperating agencies distribute sound reproducers. Two multistate centers, under contract to the National Library Service, store and distribute books and other materials in their geographical regions. The program supports a readership of approximately 700,000.

ADMINISTRATIVE PROVISIONS

SECS. 1301–1302. The Committee has included two routine administrative provisions carried in prior years.

SEC. 1303. UNITED STATES DIPLOMATIC FACILITIES. The Department of State [DOS] has established a Capital Security Cost-Sharing Program, designed to have all U.S. Government agencies with an overseas presence pay a portion of DOS’ building program, based on the number of employees overseas. This provision limits the amount of reimbursement from the Library of Congress.

SEC. 1304. COMPETITIVE STATUS. This provision confers “competitive status” to Library of Congress employees who have completed their probationary period in the Library, enabling them to apply for competitive service positions in the executive branch on an equal footing with “career” executive branch employees.

SEC. 1305. SELECTION PRIORITY FOR DISPLACED LIBRARY OF CONGRESS EMPLOYEES. This provision grants to LOC employees who receive a reduction in force notice the same priority for selection for competitive service positions in the executive branch as is currently granted to executive branch employees who are displaced from their positions.

The Committee recommends an appropriation of \$97,300,000. This is \$10,091,000 over the current level and \$2,985,000 below the budget request. The increase above the fiscal year 2006 level will provide for the continuation of congressional printing and binding operations at required levels, cover pay and price level increases, and provide for the production of the 2006 edition of the U.S. Code which by law is updated every 6 years. Funds are also provided for an anticipated workload increase.

The following table compares the component categories within this account for fiscal year 2007. The Committee has not recommended separate amounts for each activity in order to give GPO the flexibility to meet changing requirements.

Budget estimate, 2007	43,000,000
House allowance	35,287,000
Committee recommendation	40,000,000

The Committee recommends an appropriation of \$40,000,000, a reduction of \$3,000,000 below the budget request and an increase of \$6,996,000 above the enacted level. This provides for anticipated pay and price level increases, distribution of the 2006 edition of the U.S. Code to depository libraries and other recipients, and investments in information technology and the future digital system.

This appropriation provides for salaries and expenses associated with the distribution of Government documents to depository and international exchange libraries, the cataloging and indexing of Government publications, and the distribution of publications authorized by law at the request of Members of Congress and other Government agencies.

Committee recommendation	2,980,000

The Committee recommends \$2,980,000, a reduction of \$5,251,000 below the budget request and an increase of \$2,000,000 above the fiscal year 2006 level, for the GPO Revolving Fund. These funds are for workforce retraining efforts.

GOVERNMENT ACCOUNTABILITY OFFICE

SALARIES AND EXPENSES

Appropriations, 2006	\$477,571,000
Budget estimate, 2007	502,370,000
House allowance	488,234,000
Committee recommendation	498,620,000

The Committee recommends funding of \$498,620,000 for salaries and expenses of the Government Accountability Office, a reduction of \$3,750,000 below the request level. Additionally, \$6,985,000 is authorized in offsetting collections derived from rent receipts and reimbursements for conducting financial audits of Government corporations, for a total of \$505,605,000. The amount recommended provides for inflationary increases and other “uncontrollable” costs and will provide for an FTE level of 3,257. Reductions below the request level are to be taken from building management and other lower priority activities.

The Committee has included the requested increase of \$1,825,000 to enhance GAO’s legacy business systems, including \$1,400,000 for the replacement of GAO’s financial management system. If the current antiquated system is not replaced, GAO is at risk of being unable to manage effectively the financial operations, provide Congress with reliable financial information, and effectively manage internal controls without substantial manual intervention.

Reducing Carbon Dioxide Emissions.—The Committee instructs GAO to conduct a study within 90 days of enactment of this act on Congress’ carbon dioxide emissions, or “carbon footprint,” and the ways in which Congress could reduce its emissions by 6 percent by 2010. When conducting this study, GAO should consider both the near-term and long-term costs as well as the potential for cost savings associated with reducing Congress’ carbon footprint.

OPEN WORLD LEADERSHIP CENTER TRUST FUND

Appropriations, 2006	\$13,860,000
Budget estimate, 2007	14,400,000
House allowance	13,400,000
Committee recommendation	14,000,000

The Committee recommends \$14,000,000 as a payment to the Open World Leadership Center Trust Fund. The Center for Russian Leadership Development was established on December 21, 2000 (Public Law 106–554) as a legislative branch entity. The fiscal year 2003 Consolidated Appropriation Resolution (Public Law 108–7) carried legislation (section 1401) changing the name to the Open World Leadership Center and expanding the mission of the program to include Newly Independent States of the former Soviet Union including the Baltic States. The mission of the Center is to enable emerging political leaders of Russia and Newly Independent States at all levels of government to gain significant, first-hand exposure to the American free market economic system and the operation of American democratic institutions through visits to comparable governments and communities in the United States.

**JOHN C. STENNIS CENTER FOR PUBLIC SERVICE TRAINING
AND DEVELOPMENT**

Appropriations, 2006	\$430,000
Budget estimate, 2007	430,000
House allowance	430,000
Committee recommendation	430,000

The John C. Stennis Center for Public Service Training and Development was created by Congress in 1988. The mandate of the Center is to promote and strengthen public service. The Committee recommends the budget request of \$430,000, as authorized by 2 U.S.C. 1105, for the Center's congressional staff training and development programs.

TITLE II

GENERAL PROVISIONS

Included are several routine general provisions carried annually in the bill (secs. 201–208), as follows:

Section 201 bans the use of appropriated funds for service and maintenance of private vehicles, except under such regulations as may be promulgated by the House Administration Committee and the Senate Rules and Administration Committee, respectively.

Section 202 limits the availability for obligation of appropriations to the fiscal year for which it is expressly provided in the bill accompanying this report.

Section 203 provides that any pay rate and title designation for a staff position created in this Act, and not specifically established by the Legislative Pay Act of 1929, is to be made permanent law by this Act. Further, any pay rate and title change for a position provided for in the 1929 Act is to be made permanent law by this act and any changes in the official expenses of Members, officers, and committees, and in the clerk hire of the House and Senate are to be made permanent law by this Act.

Section 204 bans the use of funds for contracts unless such contracts are matters of public record and are available for public inspection.

Section 205 appropriates such sums as may be necessary for the payment of settlements and awards pursuant to Public Law 104–1.

Section 206 authorizes legislative branch entities participating in the Legislative Branch Financial Managers Council [LBFMC] to finance the costs of the LBFMC.

Section 207 pertains to the House.

Section 208 prohibits unauthorized transfers of funds to other agencies.

Sec. 209 requires the use of ethanol fuel and ethanol compatible motor vehicles by legislative branch agencies, to the extent practicable. The Committee recognizes the importance of alternative fuels in achieving our Nation's energy independence. E-85 is a proven, effective, ethanol-based alternative fuel currently used by executive branch departments and agency vehicles. An increasing number of vehicles leased and operated for legislative branch purposes are capable of operating on E-85 fuel, yet there are few commercial or government fueling stations within proximity to the Capitol campus. Therefore, the Committee directs the Architect of the Capitol [AOC] to install an E-85 fuel pump and related infrastructure on the Capitol complex and make it available to legislative branch agency vehicles. To the greatest extent practicable, the Committee requires that all future vehicles purchased with funding appropriated through the legislative branch appropriations bill be

E-85 compatible and use E-85 fuel. Further, the Committee directs that all existing vehicles purchased with funding provided in any legislative branch appropriations Act which are E-85 compatible be required to use E-85 fuel, as practicable.

COMPLIANCE WITH PARAGRAPH 7, RULE XVI, OF THE
STANDING RULES OF THE SENATE

Paragraph 7 of rule XVI requires that Committee reports on general appropriations bills identify, with particularity, each Committee amendment to the House bill “which proposes an item of appropriation which is not made to carry out the provisions of an existing law, a treaty stipulation, or an act or resolution previously passed by the Senate during that session.”

The Committee has recommended no such funding.

STANDING RULES OF THE SENATE
