### **BACKGROUND AND NEED FOR LEGISLATION**

H.R. 5545 deauthorizes a portion of project for navigation, Potomac River, Washington Channel, District of Columbia. H.R. 5545 deauthorizes one-half of the Federal navigation project width of the Washington Channel. The channel deauthorization runs from the northern limit of the Federal navigation project to just south of the Marine Police pier, which includes the *Spirit* Ship Dock.

The Committee solicited the views of the U.S. Army Corps of Engineers, the U.S. Coast Guard, and the U.S. Navy regarding the proposed deauthorization. Based on communications from each of these agencies, the Committee is not aware of any opposition to the proposed deauthorization of this segment of the Washington Channel, District of Columbia.

U.S. CONGRESS,  
CONGRESSIONAL BUDGET OFFICE,  
*Washington, DC, July 13, 2010.*

Hon. JAMES L. OBERSTAR,  
*Chairman, Committee on Transportation and Infrastructure,  
House of Representatives, Washington, DC.*

DEAR MR. CHAIRMAN: The Congressional Budget Office has prepared the enclosed cost estimate for H.R. 5545, a bill to deauthorize a portion of the project for navigation, Potomac River, Washington Channel, District of Columbia, under the jurisdiction of the Corps of Engineers.

If you wish further details on this estimate, we will be pleased to provide them. The CBO staff contact is Aurora Swanson.

*H.R. 5545—A bill to deauthorize a portion of the project for navigation, Potomac River, Washington Channel, District of Columbia, under the jurisdiction of the Corps of Engineers*

H.R. 5545 would deauthorize a portion of the navigation project currently under the jurisdiction of the Corps of Engineers located in the Washington Channel of the Potomac River in the District of Columbia. Based on information from the Corps of Engineers and the National Park Service, CBO estimates that enacting this legislation would have no effect on the federal budget.

Pay-as-you-go procedures do not apply to this legislation because it would not affect direct spending or revenues.

This federal navigation project was authorized in 1935 and includes three channels in the Potomac River in the Washington, D.C., area. The bill would deauthorize the navigation project for about 50 percent of one of the channels. The area includes a 200-foot-wide band stretching from south of Interstate 395 in the Washington Channel to just past Fireboat Pier 5, covering 777,284 square feet. Deauthorizing this area could reduce the need for appropriated funds for any future dredging in the area; however, the Corps of Engineers has no plans to dredge the area in the next few years.

H.R. 5545 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act and would impose no costs on state, local, or tribal governments.

The CBO staff contact for this estimate is Aurora Swanson. The estimate was approved by Peter H. Fontaine, Assistant Director for Budget Analysis.

#### COMPLIANCE WITH HOUSE RULE XXI

Pursuant to clause 9 of rule XXI of the Rules of the House of Representatives, the Committee is required to include a list of congressional earmarks, limited tax benefits, or limited tariff benefits, as defined in clause 9(e), 9(f), and 9(g) of rule XXI of the Rules of the House of Representatives. H.R. 5545 does not contain any earmarks, limited tax benefits, or limited tariff benefits under clause 9(e), 9(f), or 9(g) of rule XXI. However, in the interests of full disclosure and transparency, the Committee, under the leadership of Chairman James L. Oberstar, requires Members of Congress to comply with all of the requirements of clause 9 of rule XXI and clause 17 of rule XXIII if the Member of Congress requests that the Committee take legislative action targeted to a specific State, locality, or Congressional district.

H.R. 5545 is sponsored by Delegate Eleanor Holmes Norton, District of Columbia.
