(b) The Bureau of Alcohol, Tobacco, Firearms and Explosives shall include in all such data releases, language similar to the following that would make clear that trace data cannot be used to draw broad conclusions about firearms-related crime:

(1) Firearm traces are designed to assist law enforcement authorities in conducting investigations by tracking the sale and possession of specific firearms. Law enforcement agencies may request firearms traces for any reason, and those reasons are not necessarily reported to the Federal Government. Not all firearms used in crime are traced and not all firearms traced are used in crime.

(2) Firearms selected for tracing are not chosen for purposes of determining which types, makes, or models of firearms are used for illicit purposes. The firearms selected do not constitute a random sample and should not be considered representative of the larger universe of all firearms used by criminals, or any subset of that universe. Firearms are normally traced to the first retail seller, and sources reported for firearms traced do not necessarily represent the sources or methods by which firearms in general are acquired for use in crime.

SEC. 517. (a) The Inspectors General of the Department of Commerce, the Department of Justice, the National Aeronautics and Space Administration, the National Science Foundation, and the Legal Services Corporation shall conduct audits, pursuant to the Inspector General Act (5 U.S.C. gress on the progress of such audits, which may include preliminary findings and a description of areas of particular interest, within 180 days after initiating such an audit and every 180 days thereafter until any such audit is completed.

(b) Within 60 days after the date on which an audit described in subsection (a) by an Inspector General is completed, the Secretary, Attorney General, Administrator, Director, or President, as appropriate, shall make the results of the audit available to the public on the Internet website maintained by the Department, Administration, Foundation, or Corporation, respectively. The results shall be made available in redacted form to exclude—

(1) any matter described in section 552(b) of title 5, United States Code; and

(2) sensitive personal information for any individual, the public access to which could be used to commit identity theft or for other inappropriate or unlawful purposes.

(c) A grant or contract funded by amounts appropriated by this Act may not be used for the purpose of defraying the costs of a banquet or conference that is not directly and programmatically related to the purpose for which the grant or contract was awarded, such as a banquet or conference held in connection with planning, training, assessment, review, or other routine purposes related to a project funded by the grant or contract.

(d) Any person awarded a grant or contract funded by amounts appropriated by this Act shall submit a statement to the Secretary of Commerce, the Attorney General, the Administrator, Director, or President, as appropriate, certifying that no funds derived from the grant or contract will be made available through a subcontract or in any other manner to another person who has a financial interest in the person awarded the grant or contract.

(e) The provisions of the preceding subsections of this section shall take effect 30 days after the date on which the Director of the Office of Management and Budget, in consultation with the Director of the Office of Government Ethics, determines that a uniform set of rules and requirements, substantially similar to the requirements in such subsections, consistently apply under the executive branch ethics program to all Federal departments, agencies, and entities.

SEC. 518. None of the funds appropriated or otherwise made available under this Act may be used by the Departments of Commerce and Justice, the National Aeronautics and Space Administration, or the National Science Foundation to acquire information technology systems unless the respective Secretary or head of agency, in consultation with the Federal Bureau of Investigation or other appropriate Federal agencies, has assessed any associated risk of cyber-espionage or sabotage.

SEC. 519. None of the funds made available in this Act shall be used in any way whatsoever to support or justify the use of torture by any official or contract employee of the United States Government.

SEC. 520. (a) Notwithstanding any other provision of law or treaty, none of the funds appropriated or otherwise made available under this Act or any other Act may be expended or obligated by a department, agency, or instrumentality of the United States to pay administrative expenses or to compensate an officer or employee of the United States in connection with requiring an export license for

the export to Canada of components, parts, accessories or attachments for firearms listed in Category I, section 121.1 of title 22, Code of Federal Regulations (International Trafficking in Arms Regulations (ITAR), part 121, as it existed on April 1, 2005) with a total value not exceeding \$500 wholesale in any transaction, provided that the conditions of subsection (b) of this section are met by the exporting party for such articles.

(b) The foregoing exemption from obtaining an export license—

(1) does not exempt an exporter from filing any Shipper's Export Declaration or notification letter required by law, or from being otherwise eligible under the laws of the United States to possess, ship, transport, or export the articles enumerated in subsection (a); and

(2) does not permit the export without a license of—

(A) fully automatic firearms and components and parts for such firearms, other than for end use by the Federal Government, or a Provincial or Municipal Government of Canada;

(B) barrels, cylinders, receivers (frames) or complete breech mechanisms for any firearm listed in Category I, other than for end use by the Federal Government, or a Provincial or Municipal Government of Canada; or

(C) articles for export from Canada to another foreign destination.

(c) In accordance with this section, the District Directors of Customs and postmasters shall permit the permanent or temporary export without a license of any unclassified articles specified in subsection (a) to Canada for end use in Canada or return to the United States, or temporary import of Canadian-origin items from Canada for end use in the United States or return to Canada for a Canadian citizen.

(d) The President may require export licenses under this section on a temporary basis if the President determines, upon publication first in the Federal Register, that the Government of Canada has implemented or maintained inadequate import controls for the articles specified in subsection (a), such that a significant diversion of such articles has and continues to take place for use in international terrorism or in the escalation of a conflict in another nation. The President shall terminate the requirements of a license when reasons for the temporary requirements have ceased.

SEC. 521. Notwithstanding any other provision of law, no department, agency, or instrumentality of the United States receiving appropriated funds under this Act or any other Act shall obligate or expend in any way such funds to pay administrative expenses or the compensation of any officer or employee of the United States to deny any application submitted pursuant to 22 U.S.C. 2778(b)(1)(B) and qualified pursuant to 27 CFR section 478.112 or .113, for a permit to import United States origin "curios or relics" firearms, parts, or ammunition.

SEC. 522. None of the funds made available in this Act may be used to include in any new bilateral or multilateral trade agreement the text of—

(1) paragraph 2 of article 16.7 of the United States-Singapore Free Trade Agreement;

(2) paragraph 4 of article 17.9 of the United States-Australia Free Trade Agreement; or

The Secretary, Administrator, or Director shall notify the House and Senate Committees on Appropriations within 30 days in writing of such increase, and shall include in such notice: the date on which such determination was made; a statement of the reasons for such increases; the action taken and proposed to be taken to control future cost growth of the project; changes made in the performance or schedule milestones and the degree to which such changes have contributed to the increase in total program costs or procurement costs; new estimates of the total project or procurement costs; and a statement validating that the project's management structure is adequate to control total project or procurement costs.

SEC. 525. Funds appropriated by this Act, or made available by the transfer of funds in this Act, for intelligence or intelligence related activities are deemed to be specifically authorized by the Congress for purposes of section 504 of the National Security Act of 1947 (50 U.S.C. 414) during fiscal year 2012 until the enactment of the Intelligence Authorization Act for fiscal year 2012.

SEC. 526. The Departments, agencies, and commissions funded under this Act, shall establish and maintain on the homepages of their Internet websites—

(1) a direct link to the Internet Web sites of their Offices of Inspectors General; and

SEC. 527. None of the funds appropriated or otherwise made available by this Act may be used to enter into a contract in an amount greater than \$5,000,000 or to award a grant in excess of such amount unless the prospective contractor or grantee certifies in writing to the agency awarding the contract or grant that, to the best of its knowledge and belief, the contractor or grantee has filed all Federal tax returns required during the three years preceding the certification, has not been convicted of a criminal offense under the Internal Revenue Code of 1986, and has not, more than 90 days prior to certification, been notified of any unpaid Federal tax assessment for which the liability remains unsatisfied, unless the assess-

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and Senate at the conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 2112) making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2012, and for other purposes, submit the following joint statement to the House and Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

This conference agreement includes the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2012; the Commerce, Justice, Science, and Related Agencies Appropriations Act, 2012; and the Transportation, Housing and Urban Development, and Related Agencies Appropriations Act, 2012. The agreement also includes further continuing appropriations for fiscal year 2012.

The conference agreement does not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined by clause 9 of rule XXI of the Rules of the House of Representatives.

The conferees concur with the Senate amendment to the title of the bill.

DIVISION A—AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2012

CONGRESSIONAL DIRECTIVES

The statement of the managers remains silent on provisions that were in both the House Report (H.Rpt. 112–101) and Senate Report (S.Rpt. 112–73) that remain unchanged by this conference agreement, except as noted in this statement of the managers.

The conferees agree that executive branch wishes cannot substitute for Congress' own statements as to the best evidence of congressional intentions, which are the official reports of the Congress. The conferees further point out that funds in this Act must be used for the purposes for which appropriated, as required by section 1301 of title 31 of the United States Code, which provides: "Appropriations shall be applied only to the objects for which the appropriations were made except as otherwise provided by law."

The House and Senate report language that is not changed by the conference is approved by the committee of conference. The statement of the managers, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein.

In cases in which the House or the Senate have directed the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations.

TITLE I—AGRICULTURAL PROGRAMS

PRODUCTION, PROCESSING, AND MARKETING

OFFICE OF THE SECRETARY

The conference agreement provides \$4,550,000 for the Office of the Secretary instead of \$4,293,000 as proposed by the House and \$4,798,000 as proposed by the Senate.

The conferees appreciate the detailed information provided in the Explanatory Notes and rely on this information when considering budget proposals. As budgetary constraints continue to apply downward pressure on agency resources, it will become increasingly necessary to have budgetary information of the Department in a manner that provides a more complete understanding of all activities occurring within the account totals. For that reason, the conferees direct the Secretary, beginning with presentation of the fiscal year 2013 budget, to provide additional information of Departmental activities measured against a baseline of actual spending for the previous three fiscal years rather than a description only of specific changes from the previous fiscal year with the ultimate goal, over time, of providing to the Committees on Appropriations budgetary estimates as measured against a zero base. The conferees further direct the Department to include an errata sheet in the Explanatory Notes of any proposed budget authority levels that do not conform to the budget appendix. The Explanatory Notes should be assembled with the accounts in the same order as the accounts in the bill unless otherwise approved in advance by the Committees on Appropriations of both Houses of Congress.

The Secretary is directed to provide to the Committees on Appropriations of the House and Senate a report describing plans to implement reductions to salaries and expenses accounts included in this Act.

The conferees direct the Secretary to submit the conference transparency report required by section 14208 of Public Law 110–246 to the Committees on Appropriations of the House and Senate and the Office of Inspector General. In addition, the conferees direct the Secretary to begin submitting this report, and making it publicly available, on a quarterly basis instead of annually. The report shall include the cost of any food or beverages, the cost of any audio-visual services, and a description of the contracting procedures on whether the contracts were awarded on a competitive basis for that conference.

OFFICE OF TRIBAL RELATIONS

The conference agreement provides \$448,000 for the Office of Tribal Relations instead of \$423,000 as proposed by the House and \$473,000 as proposed by the Senate.

HEALTHY FOOD FINANCING INITIATIVE

The conference agreement does not include an appropriation for the Healthy Food Financing Initiative (HFFI). The conferees direct the Department to carefully weigh the benefits between those known results from the expenditure of funds on proven programs in the Rural Development and Marketing and Regulatory Programs mission areas against the unknown results of expenditures on the HFFI. While the HFFI has the laudable goal of ensuring that more people have access to nutritious foods, the initiative has yet to prove that any expenditures made for this initiative have been effective in meeting this goal. The conferees remind the Department that any funding for the HFFI is subject to the reprogramming requirements in this Act, and prior to any reprogramming request; the conferees direct the Department to submit to the Committees on Appropriations of both Houses of Congress a system of metrics to measure the effectiveness and expected results for this initiative. The conferees expect that the Office of Chief Economist will play a key role in the development of such metrics.

EXECUTIVE OPERATIONS

OFFICE OF THE CHIEF ECONOMIST

The conference agreement provides \$11,177,000 for the Office of the Chief Economist instead of \$10,707,000 as proposed by the House and \$11,408,000 as proposed by the Senate.

NATIONAL APPEALS DIVISION

The conference agreement provides \$12,841,000 for the National Appeals Division instead of \$12,091,000 as proposed by the House and \$13,514,000 as proposed by the Senate.

OFFICE OF BUDGET AND PROGRAM ANALYSIS

The conference agreement provides \$8,946,000 for the Office of Budget and Program Analysis as proposed by the Senate instead of \$8,004,000 as proposed by the House.

OFFICE OF HOMELAND SECURITY AND EMERGENCY COORDINATION

The conference agreement provides \$1,321,000 for the Office of Homeland Security and Emergency Coordination instead of \$1,272,000 as proposed by the House and \$1,421,000 as proposed by the Senate.

OFFICE OF ADVOCACY AND OUTREACH

The conference agreement provides \$1,209,000 for the Office of Advocacy and Outreach as proposed by the House instead of \$1,351,000 as proposed by the Senate.

OFFICE OF THE CHIEF INFORMATION OFFICER

The conference agreement provides \$44,031,000 for the Office of the Chief Information Officer instead of \$34,000,000 as proposed by the House and \$36,031,000 as proposed by the Senate.

The conference agreement includes \$28,000,000 to support cybersecurity requirements of the Department.

OFFICE OF THE CHIEF FINANCIAL OFFICER

The conference agreement provides \$5,650,000 for the Office of the Chief Financial Officer instead of \$5,310,000 as proposed by the House and \$5,935,000 as proposed by the Senate.

OFFICE OF THE ASSISTANT SECRETARY FOR CIVIL RIGHTS

The conference agreement provides \$848,000 for the Office of the Assistant Secretary for Civil Rights as proposed by the Senate instead of \$760,000 as proposed by the House.

OFFICE OF CIVIL RIGHTS

The conference agreement provides \$21,000,000 for the Office of Civil Rights instead of \$19,288,000 as proposed by the House and \$21,558,000 as proposed by the Senate.

OFFICE OF THE ASSISTANT SECRETARY FOR ADMINISTRATION

The conference agreement provides \$764,000 for the Office of the Assistant Secretary for Administration as proposed by the Senate instead of \$683,000 as proposed by the House.

AGRICULTURE BUILDINGS AND FACILITIES AND RENTAL PAYMENTS

(INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides \$230,416,000 for Agriculture Buildings and Facilities and Rental Payments as proposed by the Senate instead of \$221,585,000 as proposed by the House. The conference agreement includes \$164,470,000 for rental payments, \$13,800,000 for Department of Homeland Security building security and \$52,146,000 for building operations and maintenance.

HAZARDOUS MATERIALS MANAGEMENT

(INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides \$3,592,000 for Hazardous Materials Management instead of \$3,393,000 as proposed by the House and \$3,792,000 as proposed by the Senate.

DEPARTMENTAL ADMINISTRATION

(INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides \$24,165,000 for Departmental Administration instead of \$16,510,000 as proposed by the House and \$28,165,000 as proposed by the Senate.

The conferees recognize the special management challenges facing the Department in view of serious constraints in fiscal resources, the requirements of a vastly dispersed workforce, and expectations of the public for continuity of vital services. It is clear that recent reductions in discretionary spending and the likely continuation of austere measures in the near term present significant difficulties to those charged with program execution. The conferees

fully recognize the need, and expect the Department to achieve the most efficient methods possible to maintain the responsibilities of governance for the benefit of both the customers of USDA and the personnel charged with carrying out the missions of the Department.

The conferees expect that any substantive changes to the functions and organization of USDA follow a thoughtful analysis of implications for budgetary resources, services to customers and employees, and inherent dynamics within the Department that might result. Toward that objective, before moving forward with the implementation of any substantive reorganization, the Department is instructed to conduct a detailed analysis of the savings, efficiencies, timeline, and implications of these changes. In addition, an understanding of the methodology used for determining these factors and some form of demonstration of the results anticipated is required. Any timetable for implementation of the changes suggested obviously will be driven by the fiscal resources available and it may be prudent to give consideration to a tiered implementation as conditions dictate rather than a full scale departmental shift that would be far more complex and potentially expensive. The Secretary is instructed to provide a report, consistent with the guidance outlined above, to the Committees on Appropriations of both Houses of Congress not less than 60 days prior to the implementation of any departmental reorganization. The Secretary is further reminded of the reprogramming instructions set forth elsewhere in this Act for the purpose of any implementation stage of a proposed reorganization.

OFFICE OF THE ASSISTANT SECRETARY FOR CONGRESSIONAL
RELATIONS

(INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides \$3,576,000 for the Office of the Assistant Secretary for Congressional Relations instead of \$3,289,000 as proposed by the House and \$3,676,000 as proposed by the Senate.

OFFICE OF COMMUNICATIONS

The conference agreement provides \$8,065,000 for the Office of Communications instead of \$8,058,000 as proposed by the House and \$8,105,000 as proposed by the Senate.

OFFICE OF INSPECTOR GENERAL

The conference agreement provides \$85,621,000 for the Office of Inspector General instead of \$80,000,000 as proposed by the House and \$84,121,000 as proposed by the Senate.

OFFICE OF THE GENERAL COUNSEL

The conference agreement provides \$39,345,000 for the Office of the General Counsel as proposed by the Senate instead of \$35,204,000 as proposed by the House.

OFFICE OF THE UNDER SECRETARY FOR RESEARCH, EDUCATION AND ECONOMICS

The conference agreement provides \$848,000 for the Office of the Under Secretary for Research, Education and Economics as proposed by the Senate instead of \$760,000 as proposed by the House.

The conferees recognize the broad responsibilities in agricultural research, education, extension and economics that Congress has given to the Department. Given the current budget constraints and the need for continued investment in agricultural research to ensure productivity growth, the conferees expect USDA to fund only the highest priority agricultural research, as authorized by Congress.

ECONOMIC RESEARCH SERVICE

The conference agreement provides \$77,723,000 for the Economic Research Service as proposed by the Senate instead of \$70,000,000 as proposed by the House. This includes continued funding for the Organic Production and Market Data Initiative.

NATIONAL AGRICULTURAL STATISTICS SERVICE

The conference agreement provides \$158,616,000 for the National Agricultural Statistics Service instead of \$149,500,000 as proposed by the House and \$152,616,000 as proposed by the Senate. This includes \$41,639,000 for the Census of Agriculture.

On October 4, 2011, the National Agricultural Statistics Service announced it was eliminating or reducing the frequency of 14 reports. While it is imperative for all of USDA's agencies and offices to prepare to address potential reductions in funding, the conferees are concerned that the agency made this announcement before a final appropriation was determined. The conferees direct NASS to reconsider its decision to eliminate or reduce the frequency of these reports and to reinstate as many reports as possible. As the agency considers which to reinstate, the conferees direct the agency to prioritize the reports that do not have similar information captured by other NASS surveys and reports or would be otherwise infrequently published. The conferees remind the agency that reducing or eliminating any survey or report is further subject to the reprogramming requirements in this Act.

AGRICULTURAL RESEARCH SERVICE

SALARIES AND EXPENSES

The conference agreement provides \$1,094,647,000 for the Agricultural Research Service, Salaries and Expenses, as proposed by the Senate instead of \$995,345,000 as proposed by the House.

The conferees do not concur with the President's budget request regarding the termination of extramural research.

The conferees concur with the proposal to close twelve research laboratories at ten locations, as specified in the President's budget request, and direct the agency to provide a report to the Committees on Appropriations of the House and the Senate on the disposition of these facilities by January 20, 2012. The conferees further

direct, in concurrence with the budget proposal, that no other research facilities be closed during fiscal year 2012, except in accordance with the reprogramming requirements in this Act.

The conferees are concerned about recent outbreaks of bacterial spot disease in peppers and tomatoes in Midwestern states. The conferees encourage ARS to continue to work with collaborators on research to combat the disease and minimize economic loss to producers. ARS is directed to provide the Committees on Appropriations of the House and the Senate a report on the status of bacterial spot disease and ongoing research efforts.

NATIONAL INSTITUTE OF FOOD AND AGRICULTURE
RESEARCH AND EDUCATION ACTIVITIES

The conference agreement provides \$705,599,000 for the National Institute of Food and Agriculture's research and education activities instead of \$596,400,000 as proposed by the House and \$709,825,000 as proposed by the Senate.

The conferees express their strong support for USDA's agricultural research, extension and education activities. USDA and other notable philanthropic and scientific organizations have highlighted the need for the United States to invest in agricultural research to ensure productivity growth and to develop and refine sound natural resources management practices for U.S. farmers and ranchers and others around the world. However, the conferees are aware of concerns about the focus of USDA's research programs, particularly projects funded through the Agriculture and Food Research Initiative. The conferees strongly encourage USDA to fund only the highest priority agricultural research, as authorized by Congress.

The conference agreement provides \$9,000,000 for Graduate Fellowship Grants, Institution Challenge Grants, and the Multicultural Scholars Program, to remain available until expended.

The conferees request that the Department make recommendations regarding the consolidation of funding lines in the National Institute of Food and Agriculture's accounts in the President's budget for fiscal year 2013 and to work with interested individuals and organizations, including the House Committee on Agriculture and the Senate Committee on Agriculture, Nutrition, and Forestry, on this issue.

The conference agreement provides funding for the animal disease traceability system within the Animal Health Technical Serv-

ices line item. The conferees remain concerned about the cost of implementing and operating this redesigned program as explained in the animal disease traceability proposed rule (APHIS–2009–0091) and encourage the most cost-effective, least regulatory burdensome system in the final rule. The conferees direct APHIS to submit a report and updates on the status of the system as proposed in the September 28, 2010, Comprehensive Report & Implementation Plan (amended January 28, 2011) by November 30, 2011; April 1, 2012; and by August 1, 2012.

The conferees support APHIS' activities to control plant pests and strongly support efforts to eradicate such pests as the opportunities arise. Toward that purpose, the conferees expect that funding for Specialty Crop Pests will be supplemented with contingency or Commodity Credit Corporation funds for the emergency purpose of eradicating the European Grape Vine Moth.

The conferees recognize that many private lenders have been unable to implement the new annual fee for Section 502 guaranteed loans as required by the Department. Currently, only one major lender has developed the necessary automated systems capacity. Many small rural banks and state housing agencies are precluded from program participation due to their lack of automated systems enhancements. To provide a short-term solution, the conferees provide authority to the Department to increase the guarantee fee, such that subsidy costs are covered while relying on processes that traditional program participants already have in place. However, the conferees are hopeful that participants continue to pursue automated systems changes necessary to implement the annual fee. The conferees direct the Department to complete all necessary systems enhancements as soon as possible.

The conference agreement provides \$3,000,000 for telemedicine and distance learning grants for health needs in the Mississippi River Delta area and \$3,000,000 for grants to noncommercial educational television broadcast stations that serve rural areas.

The conference agreement provides \$10,372,000 for grants to finance broadband transmission and Internet services in unserved and underserved rural areas.

The conference agreement provides an estimated loan level of \$212,014,000 and \$6,000,000 in subsidy for broadband telecommunications.

Funding provided for the broadband program is intended to promote broadband availability in those areas where there is not otherwise a business case for private investment in a broadband network. The conferees encourage RUS to focus expenditures on projects that bring broadband service to currently unserved households.

TITLE IV—DOMESTIC FOOD PROGRAMS

OFFICE OF THE UNDER SECRETARY FOR FOOD, NUTRITION AND CONSUMER SERVICES

The conference agreement provides \$770,000 for the Office of the Under Secretary for Food, Nutrition and Consumer Services as proposed by the Senate instead of \$689,000 as proposed by the House.

FOOD AND NUTRITION SERVICE

(INCLUDING TRANSFER OF FUNDS)

SPECIAL SUPPLEMENTAL NUTRITION PROGRAM FOR WOMEN, INFANTS, AND CHILDREN (WIC)

The conference agreement provides \$6,618,497,000 for the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) instead of \$6,048,250,000 as proposed by the House and \$6,582,497,000 as proposed by the Senate. The conferees be-

lieve that funding for other initiatives within this program should only occur upon determination that participation needs have been met, and the contingency reserve should not be used for these initiatives.

The conferees are interested in Federal and State initiatives to actively manage the costs of the WIC program so that resources provided to support participants are efficiently and effectively utilized. The conferees seek demonstrated efficiencies and strong financial controls in all aspects of the program, including the cost of delivering nutritional and other preventative health services by the States, so that limited funds can be used to provide benefits to all eligible women, infants, and children seeking program services in a given year. The conferees direct the Food and Nutrition Service to provide the Committees with a report on how it will pursue these objectives by January 31, 2012.

SUPPLEMENTAL NUTRITION ASSISTANCE PROGRAM

The conference agreement provides \$80,401,722,000 for the Supplemental Nutrition Assistance Program instead of \$71,173,308,000 as proposed by the House and \$80,402,722,000 as proposed by the Senate. The conference agreement includes \$3,000,000,000 to be made available for a contingency reserve. The conference agreement includes \$176,788,000 for the Commodity Supplemental Food Program.

The conference agreement provides \$48,000,000 for administrative funding for the Emergency Food Assistance Program (TEFAP).

In addition, the conference agreement grants the Secretary authority to transfer up to an additional 10 percent from TEFAP commodities for this purpose.

The conference agreement provides \$16,548,000 for the Farmer's Market Nutrition Program and \$1,000,000 for Pacific Island Assistance.

The conferees direct USDA to make an assessment to determine if State agencies are in compliance with 7 CFR Part 251.5(b), and, if not, they are directed to issue guidance to the respective agencies on how they can comply with this regulation. Additionally, the conferees direct USDA to submit a report to the Committees on Appropriations of the House and the Senate on steps the Department might use to measure participation in the Emergency Food Assistance Program by March 16, 2012.

NUTRITION PROGRAMS ADMINISTRATION

The conference agreement provides \$138,500,000 for Nutrition Programs Administration instead of \$125,000,000 as proposed by the House and \$140,130,000 as proposed by the Senate.

TITLE V—FOREIGN ASSISTANCE AND RELATED PROGRAMS

FOREIGN AGRICULTURAL SERVICE

SALARIES AND EXPENSES

(INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides \$176,347,000 for the Foreign Agricultural Service (FAS), Salaries and Expenses, as proposed by the Senate instead of \$172,500,000 as proposed by the House.

While the conferees believe that USDA, and its partner USAID, must first focus on addressing immediate emergency needs in places such as the Horn of Africa, the Department must begin to develop plans and corresponding goals aimed at building market-driven institutions and science-based regulatory frameworks that facilitate trade and create an environment conducive to agricultural growth. Therefore, the conferees direct FAS to submit a report within 60 days of enactment of this Act with options for shifting more focus in outyear budgets from long-term or extended emergency food aid programs to programs that support FAS' duties to help developing countries improve their agricultural systems and build trade capacity in order to improve their long-term economic development.

FOOD FOR PEACE TITLE I DIRECT CREDIT AND FOOD FOR PROGRESS ACCOUNT

(INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides \$2,500,000 for administrative expenses for the Food for Peace Title I Direct Credit and Food for Progress Program Account, to be transferred to and merged with the appropriation for "Farm Service Agency, Salaries and Expenses", instead of \$2,385,000 as proposed by the House and \$2,666,000 as proposed by the Senate.

FOOD FOR PEACE TITLE II GRANTS

The conference agreement provides \$1,466,000,000 for Food For Peace Title II Grants instead of \$1,040,198,000 as proposed by the House and \$1,562,000,000 as proposed by the Senate.

The amount provided for this program is more than \$200,000,000 less than the amount requested by the President and even further below the levels appropriated in recent years. Flexibility in providing appropriations for humanitarian food assistance has been constrained by the Budget Control Act of 2011 (BCA) which established a firewall between security and non-security discretionary spending. This conference report includes only two programs under the security heading, PL 480 and the McGovern-Dole International Food for Education and Child Nutrition Program, both of which are related to humanitarian food assistance. Because of this inflexibility in shifting discretionary resources due to the requirements of the BCA, the conferees are unable to provide higher levels of funding for these two programs without being in violation of established budget caps. The conferees remain aware of the acute problems relating to global hunger, especially in view of the declared famine in the Horn of Africa, and will continue to monitor conditions there and elsewhere in the world in order to take whatever steps are available, as conditions warrant.

The conference agreement includes language in Section 741 to ensure humanitarian food assistance programs include sufficient monitoring and control mechanisms. The conferees believe that food aid should not be used as a political tool but that recipient nations do have obligations to ensure transparency and cooperation in the distribution of aid to affected populations. Should the U.S. government consider resumption of food assistance to the Democratic People's Republic of Korea, it is expected that assurances will be given to protect the integrity of program execution, including monitoring, and that any remaining issues regarding previous year program delivery be satisfactorily resolved.

COMMODITY CREDIT CORPORATION EXPORT (LOANS) CREDIT
GUARANTEE PROGRAM ACCOUNT

(INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides \$6,820,000 for the Commodity Credit Corporation Export (Loans) Credit Guarantee Program Account as proposed by the House instead of \$6,465,000 as proposed by the Senate.

NUTRITION PROGRAM GRANTS

Subtotal, User Fees	1,291,315
Total, FDA Program Level	\$3,788,336

The conference agreement includes the following increases: \$39,000,000 to begin implementation of the Food Safety Modernization Act; \$20,038,000 for advancing medical countermeasures; and \$12,962,000 for mandatory rental payments. The conferees also accept FDA's proposed reduction of \$22,000,000 due to administrative and contract savings. The conferees direct FDA to provide a report within 30 days of enactment of this Act on how it intends to allocate these increases.

The conferees direct that, within 90 days of the date of enactment of this Act, FDA report on the average number of calendar days that elapsed from the date that drug applications (including any supplements) were submitted to the agency under section 505 of the Federal Food, Drug, and Cosmetic Act (FD&C Act) until the date that the drugs were approved; the average number of calendar days that elapsed from the date that applications for device clearance (including any supplements) under section 510(k) of the FD&C Act or for premarket approval (including any supplements) under section 515 of the FD&C Act were submitted to the agency until the date that the devices were cleared; and the average number of calendar days that elapsed from the date that biological license applications (including any supplements) were submitted to the agency under section 351 of the Public Health Service Act until the date that the biological products were licensed.

The conferees are concerned that FDA has not issued a proposed rule revising the monograph regulating the labeling of over-the-counter cough and cold products for children. The conferees direct the FDA to publish a proposed rule by December 31, 2011, based on the latest scientific evidence for safety and efficacy in pediatric populations.

The conferees recognize that FDA is developing facilities and expertise to study nanotechnology within FDA's Jefferson Laboratory Campus, including the National Center for Toxicological Research, and its consolidated headquarters at White Oak, Maryland. The conferees support FDA in its mission to expand upon current research in nanotechnology and support the eventual development of a Nanotechnology Core Center to meet its mission.

The conferees are aware that FDA currently inspects less than 2 percent of imported seafood. Further, many of these imports may contain substances that are banned in the United States. Therefore, the conferees direct FDA to develop a comprehensive program for imported seafood.

The conferees note that the most recent CDC estimates are that only 20 percent of foodborne illnesses are from 31 known pathogens such as norovirus, salmonella and clostridium. Since 80 percent of illnesses are caused by unknown sources, FDA is encouraged to work with the public and private sectors to gain a better understanding of the causes of illness. FDA's broader understanding of unknown sources should contribute towards the development of new strategies, policies, and foodborne illness prevention methods. While simultaneously seeking answers to unknown sources and plans to address these hazards, FDA has to do a better job of identifying more effective food safety activities that will reduce illnesses, hospitalizations, and deaths associated with the other 20 percent of foodborne illness. Within the funding level for food safety, FDA is directed to develop a clear strategy on how the agency can prioritize intervention methods along the farm to fork continuum to reduce illness once they have discovered the sources for a much greater proportion of unknown agents and to tie the funding levels for food safety to increased levels of activities to both the known and the unknown sources of illness. The conferees direct FDA to include this information in the fiscal year 2013 budget justifications to Congress.

The conferees emphasize the importance of predictability and transparency in the FDA approval process, and urge FDA to remain focused on its core mission of ensuring the safety, efficacy and security of human and veterinary drugs, biological products, medical devices, fostering the development of medical products to support the counterterrorism effort, and helping to speed innovation of safe and effective products that improve the lives of patients and consumers. The conferees urge FDA to be responsive, timely, and transparent throughout the approval process for all human and veterinary drugs, biological products, medical devices, and medical countermeasures.

Of the total amount provided, the conference agreement includes \$55,000,000, to remain available until September 30, 2014, for information technology investments.

FARM CREDIT ADMINISTRATION

LIMITATION ON ADMINISTRATIVE EXPENSES

The conference agreement does not include a provision (House Section 749) on the Energy Independence and Security Act of 2007. The conferees note that the enforcement of section 526 of the Energy Independence and Security Act of 2007 may lead to higher fuel costs for federal fleets in the absence of competitively priced new generation fuels that emit fewer emissions. In carrying out this statute, the Secretary of Agriculture, the Commissioner of the Food and Drug Administration and Chairman of the Commodity Futures Trading Commission should work to ensure that costs associated with fuel purchases necessary to carry out the missions of their respective departments or agencies should be minimized to the extent possible under the law.

DIVISION B—COMMERCE, JUSTICE, SCIENCE, AND
RELATED AGENCIES

The committee of conference approves report language included in House Report 112–169 or Senate Report 112–78 that is not changed by the conference. The statement of managers, while repeating some language for emphasis, is not intended to negate the language referred to above unless expressly provided herein. In cases where both the House and Senate reports address a particular issue not specifically addressed in the conference report or joint statement of managers, the conferees have determined the House report and the Senate report are not inconsistent and are to be interpreted accordingly. In cases where the House or Senate report directs the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations.

The conferees expect that each department and agency funded in this Act shall follow the directions set forth in this Act and the accompanying statement, and shall not reallocate resources or reorganize activities except as provided herein. Reprogramming procedures shall apply to funds provided in this Act, unobligated balances from previous appropriations Acts that are available for obligation or expenditure in fiscal year 2012, and non-appropriated resources such as fee collections that are used to meet program requirements in fiscal year 2012. These procedures are specified in section 505 of this Act.

Any reprogramming request shall include any out-year budgetary impacts and a separate accounting of program or mission impacts on estimated carryover funds. Any program, project or activity cited in the statement accompanying this conference agreement, or in the accompanying reports of the House or Senate and not changed by the conference, shall be construed as the position of the conference and shall not be subject to reductions or reprogramming without prior approval of the Committees. The conferees further expect any department or agency funded in this Act which plans a reduction-in-force to notify by letter the Appropriations Committees of the House and Senate 30 days in advance of the date of any such planned personnel action.

The conferees note that when a department or agency submits a reprogramming or transfer request to the Appropriations Committees of the House and Senate and does not receive identical responses by the House and Senate, it shall be the responsibility of the department or agency seeking the reprogramming to reconcile the difference between the two bodies before proceeding. If reconciliation is not possible, the items in disagreement in the reprogramming or transfer request shall be considered unapproved.

In compliance with section 538 of this Act, the conferees direct the Departments of Commerce and Justice, the National Aeronautics and Space Administration and the National Science Foundation to submit spending plans, signed by the respective department or agency head, for the Committees' review within 45 days of enactment of this Act.

TITLE I

DEPARTMENT OF COMMERCE

Reporting requirements.—Unless specifically noted in the following narrative, the conferees adopt by reference all House and Senate language regarding reports requested throughout Title I. These reports shall be submitted to the Committees on Appropriations within 120 days of enactment of this Act.

INTERNATIONAL TRADE ADMINISTRATION

OPERATIONS AND ADMINISTRATION

The conference agreement includes \$465,000,000 in total resources for the programs of the International Trade Administration (ITA). This amount is offset by \$9,439,000 in estimated fee collections, resulting in a direct appropriation of \$455,561,000.

Travel reports.—The conferees do not adopt House language regarding quarterly reports on ITA employee travel to China. Additional direction on this matter is included in the Departmental Management heading. Instead, per section 112 of this Act, the conferees direct the Secretary to provide monthly reports to the Committees on Appropriations, beginning with October 1, 2011 data, including separate breakouts of funding by bureau, the number of trips, and purposes of travel to China. The conferees expect the first such monthly report to be provided within 30 days of enactment of this Act and within 30 days of the end of each subsequent month.

BUREAU OF INDUSTRY AND SECURITY

OPERATIONS AND ADMINISTRATION

The conference agreement includes \$101,000,000 for the Bureau of Industry and Security.

ECONOMIC DEVELOPMENT ADMINISTRATION

The conference agreement includes \$457,500,000 for the programs and administrative expenses of the Economic Development Administration (EDA).

ECONOMIC DEVELOPMENT ASSISTANCE PROGRAMS

The conference agreement includes \$420,000,000 for Economic Development Assistance Programs, including \$200,000,000 for disaster assistance in response to natural disaster declarations during fiscal year 2011. Of the amounts provided for non-disaster programs, funds are to be distributed as follows; any deviation of funds shall be subject to the procedures set forth in section 505 of this Act:

Public Works	\$111,640,000
Planning	29,000,000
Technical Assistance	12,000,000
Research and Evaluation	1,500,000
Trade Adjustment Assistance	15,800,000

Economic Adjustment Assistance	50,060,000
Total	<u>\$220,000,000</u>

Repatriation grants.—The conference agreement includes funds as proposed by the House for EDA to use its programs as a source for working with U.S. companies to bring their services, manufacturing, and/or research and development activities back to economically distressed regions in the United States.

Technical Assistance.—The conference agreement does not adopt House report language directing that EDA provide a review of the University Center program. Instead, the conferees direct the Secretary of Commerce to commission an independent review of the University Center program within 60 days of enactment of this Act. This review shall gather information requested in both House and Senate reports with respect to an evaluation of the University Center program.

Trade Adjustment Assistance.—The conferees note that funds provided under this activity are for manufacturing firms negatively impacted by import competition.

Economic Adjustment Assistance (EAA).—The conference agreement includes funding for new loan guarantee programs as authorized under sections 26 and 27 of the America COMPETES Act (P.L. 111–358). The America COMPETES Act includes a number of safeguards with respect to these programs and the conferees expect EDA to rigorously abide by the requirements outlined in this legislation under 15 U.S.C. 3721 and 15 U.S.C. 3722. Specifically, the Secretary, in consultation with the Office of Management and Budget, shall implement accountability measures that strongly protect the financial interest of the United States. Finally, the conferees encourage EDA to use a portion of the funds provided in this Act for programs authorized under section 27 of the America COMPETES Act for science parks. The conferees do not adopt the Senate’s separate account line for Regional Innovation Partnerships and instead encourage EDA to support such activities from within the EAA program. In addition, the conference agreement includes up to \$1,000,000 to support innovative, energy efficient grant programs for small businesses. The conferees remind EDA to ensure that award decisions are made at the regional level rather than at headquarters, that award decisions reflect geographic equity and that rural areas are among those chosen when awarding EDA funding.

Base realignment and closure.—The conference agreement does not adopt Senate language regarding base realignment and closure matters.

SALARIES AND EXPENSES

The conference agreement includes \$37,500,000 for EDA salaries and expenses.

MINORITY BUSINESS DEVELOPMENT AGENCY

MINORITY BUSINESS DEVELOPMENT

The conference agreement includes \$30,339,000 for the Minority Business Development Agency.

PUBLIC TELECOMMUNICATIONS FACILITIES, PLANNING AND
CONSTRUCTION

The conference agreement includes language making recoveries and unobligated balances of funds previously appropriated available for the administration of open grants.

UNITED STATES PATENT AND TRADEMARK OFFICE

SALARIES AND EXPENSES

(INCLUDING TRANSFERS OF FUNDS)

The conference agreement includes language making available to the United States Patent and Trademark Office (PTO) the full amount of fiscal year 2012 fee collections. The conferees note that PTO has revised its fee estimates downward twice since September 1, 2011, and now estimates that it will collect \$2,516,000,000 or \$190,313,000 less than the President's request of \$2,706,313,000. The conference agreement appropriates all PTO fees in accordance with section 42(c) of title 35, United States Code, as amended by

section 22 of the Leahy-Smith America Invents Act (P. L. 112–29) and includes language making available to the PTO any excess fee collections above the amount appropriated, subject to section 505 reporting requirements in this Act. The conference agreement does not include a general provision carried in previous years prohibiting funds to issue patents on claims directed to or encompassing a human organism. This language is no longer necessary as a similar permanent prohibition was enacted in the Leahy-Smith America Invents Act.

National security concerns.—The conferees adopt by reference House report language regarding the need to update security procedures for patent applications that have national security implications and direct PTO to report to the Committees on Appropriations within 60 days of enactment of this Act regarding practices currently used by third parties to safeguard sensitive patent applications. This report shall provide a framework for suggested improvements for security standards used in the private sector.

NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY

The conference agreement includes \$750,824,000 for the National Institute of Standards and Technology (NIST).

SCIENTIFIC AND TECHNICAL RESEARCH AND SERVICES

The conference agreement includes \$567,000,000 for NIST's scientific and technical core programs, including \$10,000,000 for a Cybersecurity Center of Excellence and \$16,500,000 for the National Strategy for Trusted Identities in Cyberspace. The conferees do not adopt Senate language regarding specific direction pertaining to greenhouse gas measurements but do encourage NIST to pursue research in this area.

INDUSTRIAL TECHNOLOGY SERVICES

The conference agreement includes \$128,443,000 for the Hollings Manufacturing Extension Partnership Program.

CONSTRUCTION OF RESEARCH FACILITIES

The conference agreement includes \$55,381,000 for NIST construction. The conferees do not adopt House language designating funds for ongoing construction projects but expect NIST to continue to submit quarterly reports on the status of all construction projects as directed by the Senate.

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

The conference agreement includes a total of \$4,893,675,000 in discretionary funds for the National Oceanic and Atmospheric Administration (NOAA). The conference agreement does not establish a NOAA Climate Service as proposed by the Senate.

OPERATIONS, RESEARCH, AND FACILITIES

(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes a total program level of \$3,139,329,000 under this account for the coastal, fisheries, marine, weather, satellite and other programs of NOAA. This total funding level includes: \$3,022,231,000 in direct appropriations; a transfer of \$109,098,000 from balances in the "Promote and Develop Fishery Products and Research Pertaining to American Fisheries" account; and \$8,000,000 derived from recoveries of prior year obligations.

The following narrative descriptions and tables identify the specific activities and funding levels included in this Act.

National Ocean Service.—The conference agreement includes \$465,662,000 for National Ocean Service operations, research, and facilities. The conferees adopt by reference Senate report language regarding Integrated Ocean and Coastal Mapping but clarify that NOAA must ensure that proprietary and/or commercially-important fisheries data is kept confidential or is used only in aggregate datasets.

Response and Restoration.—The conferees adopt by reference House report language regarding the funds NOAA expects to receive from BP in response to the Deepwater Horizon oil spill in the Gulf of Mexico and direct NOAA to submit a spending plan to the Committees on Appropriations within 90 days of enactment of this Act. The conferees adopt by reference House report language regarding the Gulf of Mexico Disaster Response Center and direct NOAA to provide a report to the Committees on Appropriations within 60 days of enactment of this Act.

Fisheries Research and Management.—The conference agreement does not include Senate report language specifying that priority shall be given to international Regional Fishery Management Organizations but instead notes that resources are provided for NMFS to update stock assessments and conduct surveys in fisheries around the U.S. The conferees encourage NMFS to engage the American lobster industry in conducting research and surveys.

Infectious Salmon Anemia.—Not later than six months after enactment of this Act, the National Aquatic Animal Health Task Force shall submit to the Senate Committee on Commerce, Science, and Transportation, the House Committee on Natural Resources and the House and Senate Committees on Appropriations a report assessing the risk Infectious Salmon Anemia poses to wild Pacific salmon and the coastal economies which rely on these fish. For this report, the Task Force shall establish Infectious Salmon Anemia research objectives, in collaboration with the Government of Canada, and Federal, State, and tribal governments, including the Depart-

ment of Fish and Wildlife of Washington and the Department of Fish and Game of Alaska, to assess: (1) the prevalence of Infectious Salmon Anemia in both wild and aquaculture salmonid populations throughout Alaska, Washington, Oregon, California, and Idaho; (2) genetic susceptibility by population and species; (3) susceptibility of populations to Infectious Salmon Anemia from geographic and oceanographic factors; (4) potential transmission pathways between infectious Canadian sockeye and uninfected salmonid populations in United States waters; (5) management strategies to rapidly respond to potential Infectious Salmon Anemia outbreaks in both wild and aquaculture populations, including securing the water supplies at conservation hatcheries to protect hatchery fish from exposure to the Infectious Salmon Anemia virus present in incoming surface water; (6) potential economic impacts of Infectious Salmon Anemia; (7) any role foreign salmon farms may have in spreading Infectious Salmon Anemia to wild populations; (8) the identity of any potential Federal, State, tribal, and international research partners; (9) available baseline data, including baseline data available from a collaborating entity; and (10) other Infectious Salmon Anemia research priorities, as determined by the Task Force.

National Research Council review.—The conferees do not adopt House report language regarding a National Research Council review but instead direct NOAA to report to the Committees on Appropriations and the appropriate authorizing committees within 60 days of enactment of this Act regarding appropriate efforts to address the concerns outlined in the letter referenced in the House report.

National Weather Service (NWS).—The conference agreement includes \$903,098,000 for NWS operations, research, and facilities. Within NOAA, the conference agreement prioritizes funding for these core life and safety programs.

NWS Operations.—NOAA shall enter into a contract with an independent organization with experience in assessing Federal agencies for the purposes of evaluating efficiencies that can be made to NWS operations. This review shall include consultations with emergency managers and other user groups as well as NWS employees. Any recommended efficiencies should not result in any degradation of service to the communities served by local forecast offices and River Forecast Centers, nor should such recommendations place the safety of the public at greater risk. This review shall not be undertaken until the National Academy of Sciences completes its review of the NWS modernization, which will include recommendations on the NWS workforce and composition and how NWS can improve current partnerships with Federal and non-Federal partners and incorporate new technologies for improved services. The findings and recommendations of the National Academy of Sciences review should inform this new independent assessment.

National mesonet strategy and operations.—The conferees modify Senate language regarding a national mesonet strategy and operations and instead encourage NOAA to convene a peer-reviewed study to create a national mesonet program plan within NOAA with recommendations for implementation as appropriate. The conference agreement includes \$12,000,000 for the competitive procurement of data to continue the National Mesonet Program, but does not provide specific funding amounts for mesonet activities as directed by the Senate. Instead, the conferees encourage NOAA to support proposals that can improve forecasting of severe weather within local NWS field offices and can achieve effective collaboration among disparate network operators to promote NOAA's objective of a weather ready nation. NOAA is encouraged to continue competitive programs in this area and to include funding for these activities in subsequent budget requests as appropriate.

Flood forecasts.—The conference agreement does not adopt Senate language directing NOAA to enter into formal agreements with river commissions but does provide increased funding for flood forecasts and encourages NOAA to collaborate with river commissions to continue efforts to ensure that critical data is coordinated and used to provide accurate and timely flood forecasts.

Program Support.—The conference agreement includes \$419,461,000 for Program Support.

NOAA facilities.—The conferees support the requested level for “NOAA Construction” proposed within the NOAA “Procurement, Acquisition and Construction” account but instead provide this funding within the NOAA Facilities line as this request is for salaries and expenses (S&E) costs and not construction. NOAA shall request future S&E funding associated with construction within the “Operations, Research, and Facilities” account. The conferees clarify Senate report language regarding the NOAA Pacific Regional Center in that the conferees understand that NOAA is in the process of building an accompanying child development facility at the NOAA Pacific Regional Center using previously appropriated funds.

PROCUREMENT, ACQUISITION AND CONSTRUCTION

The conference agreement includes a total program level of \$1,825,094,000 in direct obligations under this heading, of which \$1,817,094,000 is appropriated from the general fund and \$8,000,000 is derived from recoveries of prior year obligations. The following narrative description and table identifies the specific activities and funding levels included in this Act:

Joint Polar Satellite System (JPSS).—The conferees adopt by reference all House and Senate report language regarding JPSS with the exception of Senate report language regarding a lifecycle cost cap. Instead, the conferees direct NOAA to provide outyear funding estimates for this program prior to submission of the fiscal year 2013 budget request. The conferees note that new bill language is included in NOAA's Operations, Research, and Facilities account which limits the amount of funds that NOAA may obligate pending submission of a revised spend plan for JPSS and NOAA's other satellite programs. Further, the conferees direct NOAA to outline a framework for developing a compensation policy that would enable NOAA to be reimbursed as appropriate for the use

of specialized data products derived from NOAA satellite imagery and data.

FISHERMEN'S CONTINGENCY FUND

The conference agreement includes \$350,000 for the Fishermen's Contingency Fund.

FISHERIES FINANCE PROGRAM ACCOUNT

The conference agreement includes language under this heading limiting obligations of direct loans to \$24,000,000 for Individual Fishing Quota loans and \$59,000,000 for traditional direct loans.

DEPARTMENTAL MANAGEMENT

SALARIES AND EXPENSES

The conference agreement includes \$57,000,000 for Departmental Management salaries and expenses.

Cybersecurity.—The conferees adopt House and Senate report language regarding establishment of a cybersecurity center and expect that each bureau will contribute a pro-rated amount as directed by the House and that a portion of funds realized from data center consolidation will be used in the effort as directed by the Senate.

Cyber-espionage.—The conferees adopt by reference House report language regarding certification of information technology systems but include this reporting requirement as a new general provision in title V of this Act. The Secretary shall report to the Committees on Appropriations on all such determinations, and the proc-

ess used to arrive at such determinations, on a quarterly basis beginning 30 days following the second quarter of fiscal year 2012.

Travel reports.—In lieu of the House report language regarding travel of ITA employees the conferees instead expand this language as a Department-wide general provision in this title and direct the Secretary to provide monthly reports to the Committees on Appropriations, beginning with October 1, 2011, data, including separate breakouts of funding by bureau, the number of trips, and purposes of travel to China. The conferees expect the first such monthly report to be provided within 30 days of enactment of this Act and within 30 days of the end of each subsequent month.

Cooperatives.—The conferees adopt by reference House report language regarding cooperatives and clarify that the language shall be interpreted as referring to business cooperatives.

RENOVATION AND MODERNIZATION

The conference agreement includes \$5,000,000 for continuing renovation activities at the Herbert C. Hoover Building.

OFFICE OF INSPECTOR GENERAL

The conference agreement includes \$26,946,000 for the Office of Inspector General. The conferees adopt Senate language transferring \$1,000,000 each from the Bureau of the Census, the PTO and the NOAA PAC account for audits and reviews of these programs.

GENERAL PROVISIONS—DEPARTMENT OF COMMERCE

(INCLUDING RESCISSION)

The conferees adopt the following general provisions for the Department of Commerce:

Section 101 makes funds available for advanced payments only upon certification of officials, designated by the Secretary, that such payments are considered to be in the public interest.

Section 102 makes appropriations for Department salaries and expenses available for hire of passenger motor vehicles, for services, and for uniforms and allowances as authorized by law.

Section 103 provides the authority to transfer funds between Department of Commerce appropriation accounts and requires 15 days advance notification to the Committees on Appropriations for certain actions.

Section 104 provides that any costs incurred by the Department in response to funding reductions shall be absorbed within the total budgetary resources available to the Department and shall be subject to the reprogramming limitations set forth in this Act.

Section 105 updates Congressional notification requirements for NOAA satellite programs.

Section 106 provides for reimbursement for services within Department of Commerce buildings.

Section 107 clarifies that grant recipients under the Department of Commerce may continue to deter child pornography, copyright infringement, or any other unlawful activity over their networks.

(RESCISSION)

Section 109 rescinds all balances in the Coastal Zone Management Fund.

Section 110 establishes a fisheries enforcement asset forfeiture fund.

Section 111 establishes a sanctuaries enforcement asset forfeiture fund.

Section 113 includes a provision regarding the Convention for the Conservation and Management of Highly Migratory Fish Stocks in the Western and Central Pacific Ocean.

TITLE II—DEPARTMENT OF JUSTICE

GENERAL ADMINISTRATION

SALARIES AND EXPENSES

The conference agreement includes \$110,822,000 for General Administration, Salaries and Expenses.

Terrorism.—The conferees are concerned that the lack of a current policy on terrorist detention may be a disincentive to the capture and interrogation of terrorist suspects, thereby depriving the Department of Justice (DOJ) and other agencies of critical intelligence that could inform and improve counterterrorism efforts. The conferees note that the Attorney General co-chaired the Special Interagency Task Force on Detainee Disposition that was tasked with reviewing policies for the detention of individuals captured or apprehended in connection with armed conflicts and counterterrorism operations. The conferees direct the Department, in consultation with other appropriate Federal agencies, to provide to the Committees on Appropriations, not later than 120 days after the enactment of this Act, an unclassified report on U.S. detention policy, including the legal basis for such policy, as it applies to current and future terrorism detainees. If appropriate, such report may be accompanied by a classified annex.

Prison Rape Elimination Act (PREA).—The conferees affirm language in the House report directing the Department to publish, as soon as possible, a final rule adopting national standards for the detection, prevention, reduction and punishment of prison rape, as mandated by the PREA. Upon adoption of the national standards, the Committees on Appropriations will further examine how the Department will continue efforts to provide assistance in the form of training, technical assistance and implementation grants to assist State, local and tribal jurisdictions in achieving compliance with PREA national standards.

With respect to auditing PREA compliance, the conferees strongly encourage the Department to follow the recommendations

of the PREA Commission for the reasons outlined in the House report. In addition, the conferees concur with the Commission's proposed standard requiring correctional facilities to make use of cost-effective and appropriate monitoring technologies.

Obscenity enforcement.—The conferees note the concern expressed in the House report regarding the Department's incorporation of the responsibilities of the Obscenity Prosecution Task Force into the Child Exploitation and Obscenity Section of the Criminal Division. The conferees support the work of the Department in investigating and prosecuting major producers and distributors of hardcore adult pornography that meets the test for obscenity, as defined by the Supreme Court, and expect that the responsibilities that had been assigned to the Task Force will not be diminished by this reorganization. The conferees direct the Department to submit a report not later than 120 days after the enactment of this Act on its adult obscenity investigation and prosecution workload statistics and accomplishments, including a comparison of workload statistics and accomplishments during the existence of the Obscenity Prosecution Task Force, and in the period of time following its incorporation into the Child Exploitation and Obscenity Section of the Criminal Division.

Gulf Cost Claims Facility (GCCF).—The conference agreement includes language under section 220 requiring that the Department identify an independent auditor to carry out an evaluation of the GCCF. This evaluation should include assessments of matters such as the claims determination methodologies employed by the GCCF and the qualifications of its personnel. The conferees encourage the Department to consult with the Government Accountability Office (GAO) in identifying an auditor.

International Organized Crime (IOC) strategy.—The conferees support the Department's goal of disrupting and dismantling international criminal organizations that pose the greatest threat to the United States. Given current and anticipated future budget constraints, however, it will be difficult for the Department to set aside funding to expand and enhance the IOC Intelligence and Operations Center (IOC-2), the Organized Crime Council Program Support Office, and IOC resources from other Justice components without impacting staffing levels. If the IOC initiative continues to be a priority in future requests, the Department should develop a strategy for funding this program somewhere other than the executive leadership budget.

Tribal consultation.—The conferees are aware that the Department continues to develop its formal strategy on how to enhance public safety in Indian country. Not later than 120 days after the enactment of this Act, the Attorney General shall provide the Committees on Appropriations a report on how DOJ will use the tribal consultation process to further streamline and coordinate programs and funding opportunities for Native Americans, both within DOJ and with relevant programs of the Department of the Interior.

Violence against law enforcement personnel.—The conferees are concerned about spikes in ambush-style assaults that have taken the lives of law enforcement officers in recent months. The conference agreement includes funds under the State and Local Law Enforcement Assistance account for the Preventing Violence

Against Law Enforcement and Ensuring Officer Resilience and Survivability Initiative (VALOR), a program designed to improve officer resilience and survivability. The conferees encourage the Department to make available this type of training for Federal law enforcement officers to further enhance the ability of these officers to anticipate and survive a violent encounter.

Spending plans.—The conferees direct the Department to include in its spending plan for fiscal year 2012 a plan for the use of all funding available under this heading, by decision unit and office.

NATIONAL DRUG INTELLIGENCE CENTER

The conference agreement includes \$20,000,000 for the National Drug Intelligence Center (NDIC). The conferees expect that the funds provided will be used only for necessary expenses related to the closing of the NDIC and the reassignment of functions performed at NDIC to other entities if the continuation of such functions is determined to be necessary by the Attorney General. The conferees direct the Department to submit to the Committees on Appropriations, not later than 120 days after the enactment of this Act, a detailed report of its plans regarding the closure of NDIC. The Department should give priority to solutions that minimize the cost to the Government and disruptions to critical counterdrug and intelligence activities.

JUSTICE INFORMATION SHARING TECHNOLOGY

The conference agreement includes \$44,307,000 for Justice Information Sharing Technology.

Cybersecurity.—The conferees encourage the Department to prioritize, within the funds provided, efforts to defend proactively against and respond to cyber threats and attacks against DOJ's networks.

TACTICAL LAW ENFORCEMENT WIRELESS COMMUNICATIONS

The conference agreement includes \$87,000,000 for Tactical Law Enforcement Wireless Communications.

The conferees expect DOJ to utilize full and open contracting procedures to the greatest extent possible as it endeavors to migrate from its legacy wideband systems to a standards-based mobile radio system. If the Department determines that it is necessary to award a sole source contract related to this migration, the Department shall report to the Committees on Appropriations on the justification for such action.

The conferees direct the Department to submit a report not later than 120 days after the enactment of this Act to the Committees on Appropriations on the Department's plan for moving forward with the Integrated Wireless Network (IWN) initiative. This plan should identify alternative funding sources and funding options for the provision, deployment, maintenance and operation of a wireless network that addresses security vulnerabilities, improves system reliability, and achieves interoperability with other law enforcement and emergency responder radio infrastructure systems.

ADMINISTRATIVE REVIEW AND APPEALS
(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$305,000,000 for the Executive Office for Immigration Review (EOIR) and the Office of the Pardon Attorney.

Legal Orientation Program (LOP).—The conferees expect that EOIR will continue its highly successful LOP. Apprehended individuals benefit from better information about immigration removal proceedings, and U.S. taxpayers benefit from reduced detention costs resulting from a more efficient legal process. The conferees encourage EOIR to dedicate funds to the LOP, as necessary and available, to ensure the continuation of this program. In addition, the conferees expect EOIR to seek alien-specific detention costs and duration of detention data from Immigration and Customs Enforcement in order to develop a more accurate estimate of the cost savings to the Federal Government provided by participation in the LOP. The conferees direct EOIR to submit a report to the Committees on Appropriations providing such data, as well as an estimate of the cost savings generated by the LOP, not later than 120 days after the enactment of this Act.

Immigration and border initiatives.—If additional funds are needed to support EOIR's role in immigration and border initiatives, the conferees urge the Department to submit a reprogramming request in fiscal year 2012 that would reallocate funds from lower priority programs to meet such needs.

DETENTION TRUSTEE

The conference agreement includes \$1,580,595,000 for the Office of the Federal Detention Trustee (OFDT).

The conferees are aware that OFDT's resource needs are directly impacted by law enforcement and prosecutorial priorities, such as increases in immigration enforcement by the Department of Homeland Security and efforts to combat drug and gun smuggling along the Southwest Border. However, the conferees remain concerned about the Department's ability to anticipate the true funding needs for this account. The conferees expect OFDT to keep the Committees on Appropriations apprised of changes in average daily population forecasts so that resource requirements for fiscal year 2012 and beyond can be verified and refined, particularly with regard to the impacts of law enforcement initiatives on the Southwest Border. The conferees direct OFDT to resume providing quarterly reports to the Committees on Appropriations, which shall include the actual number of individuals in the detention system, the projected number of individuals in the detention system and the annualized associated costs.

OFFICE OF INSPECTOR GENERAL

The conference agreement includes \$84,199,000 for the Office of Inspector General (OIG).

UNITED STATES PAROLE COMMISSION

SALARIES AND EXPENSES

The conference agreement includes \$12,833,000 for the salaries and expenses of the United States Parole Commission.

LEGAL ACTIVITIES

SALARIES AND EXPENSES, GENERAL LEGAL ACTIVITIES

The conference agreement includes \$863,367,000 for General Legal Activities.

Human trafficking.—The conferees direct the Department to maintain funding for the Human Trafficking and Slavery Prosecution Unit (HTSPU) in the Civil Rights Division at not less than the fiscal year 2011 funding level to continue efforts to fight human trafficking and slavery.

Human rights crimes.—The conferees remain concerned about the large number of suspected human rights violators from foreign countries who have found safe haven in the United States, and direct the Criminal Division to continue its efforts to investigate and prosecute perpetrators of serious human rights crimes, including genocide, torture, use or recruitment of child soldiers, and war crimes. For this purpose, the conferees direct the Department to provide not less than the fiscal year 2011 funding level for attorneys, analysts, and support personnel in the Criminal Division to investigate and prosecute individuals who violate Federal laws regarding serious human rights abuses.

VACCINE INJURY COMPENSATION TRUST FUND

The conference agreement includes a reimbursement of \$7,833,000 for DOJ expenses associated with litigating cases under the National Childhood Vaccine Injury Act of 1986 (Public Law 99–660).

SALARIES AND EXPENSES, ANTITRUST DIVISION

The conference agreement includes \$159,587,000 for the Antitrust Division. This appropriation is offset by \$108,000,000 in pre-merger filing fee collections, resulting in a direct appropriation of \$51,587,000.

SALARIES AND EXPENSES, UNITED STATES ATTORNEYS

The conference agreement includes \$1,960,000,000 for the Executive Office for United States Attorneys (EOUSA) and the 94 United States Attorneys' offices.

Human trafficking.—The conference agreement includes language directing each U.S. Attorney to establish or participate in a U.S. Attorney-led human trafficking task force. In instances where it may be preferable, due to geographical or other considerations, to operate joint human trafficking task forces, joint task forces representing no more than two U.S. Attorneys' offices will satisfy the requirement.

The conferees direct such task forces to engage law enforcement, elected leadership, civic and faith-based groups and to con-

vene quarterly, working-level meetings where Federal, State and local law enforcement are represented. Task force meetings should focus specifically on combating human trafficking, with an emphasis on undertaking proactive investigations. Such investigations shall include, for example, the investigation of persons or entities facilitating trafficking in persons through the use of classified advertising on the Internet. The conferees also direct the Department to submit an annual report to the Committees on Appropriations regarding the work of these task forces. This report shall detail the range of efforts by the task forces, and include information on the use of classified advertising on the Internet to facilitate trafficking and a description of policies and task force actions that respond to such practices.

The conferees further direct the EOUSA, in consultation with each U.S. Attorney, to designate a point of contact in each U.S. Attorney's office who shall serve as the coordinator for all activities within that office concerning human trafficking and slavery matters covered by the Trafficking Victims Protection Act.

In addition, the conferees adopt language in the House report directing the Department to undertake outreach efforts in the form of public notices, such as newspaper advertisements, in ethnic communities in the U.S., the home countries of which represent the top ten countries with regard to the prevalence of human trafficking activities and to report to the Committees on Appropriations regarding such outreach efforts.

Intellectual property rights (IPR) enforcement.—The conferees expect the Department to continue to make IPR enforcement an investigative and prosecutorial priority for Federal prosecutors. The conferees direct the Department to provide to the Committees on Appropriations a report on the activities of its Assistant U.S. Attorneys dedicated to investigating intellectual property crimes pursuant to and authorized under section 402 of the Prioritizing Resources and Organization for Intellectual Property Act of 2008 (Public Law 110-403).

Adam Walsh Act implementation.—The conferees expect the EOUSA to continue to focus on investigations and prosecutions related to the sexual exploitation of children, as authorized by the Adam Walsh Child Protection and Safety Act of 2006 (Public Law 109-248). The conference agreement includes not less than \$41,000,000 for these purposes in fiscal year 2012.

UNITED STATES TRUSTEE SYSTEM FUND

The conference agreement includes \$223,258,000 for the United States Trustee Program (USTP). The appropriation is fully offset by fee collections.

Debtor audits.—The conferees expect the USTP to make debtor audits a priority and delineate, in the Department's fiscal year 2012 spending plan, the allocation of funds for debtor audits.

SALARIES AND EXPENSES, FOREIGN CLAIMS SETTLEMENT COMMISSION

The conference agreement includes \$2,000,000 for the Foreign Claims Settlement Commission.

FEES AND EXPENSES OF WITNESSES

The conference agreement includes \$270,000,000 for Fees and Expenses of Witnesses.

Expert witnesses.—Within funds provided, the conference agreement includes the requested \$92,000,000 to respond to the increased need for expert witnesses among the litigating divisions and the U.S. Attorneys' offices. The conferees expect that no funds will be expended for expert witness services from any DOJ accounts except Fees and Expenses of Witnesses.

SALARIES AND EXPENSES, COMMUNITY RELATIONS SERVICE

The conference agreement includes \$11,456,000 for the Community Relations Service.

ASSETS FORFEITURE FUND

The conference agreement includes \$20,948,000 for the Assets Forfeiture Fund.

UNITED STATES MARSHALS SERVICE

SALARIES AND EXPENSES

The conference agreement includes \$1,174,000,000 for the salaries and expenses of the United States Marshals Service (USMS).

Spending plan.—The conferees expect that the USMS will include in its fiscal year 2012 spending plan a strategy for how it will approach mandatory protective services, as well as how it will respond to critical law enforcement requirements and congressional mandates to address violent crime reduction, enforce the Adam Walsh Act and combat Southwest Border violence. To help remedy possible funding shortfalls, the conferees encourage the USMS to continue exploring and utilizing new technological capabilities in order to further ensure the fair and efficient administration of justice. If additional funds are needed to support the USMS' Adam Walsh Act enforcement mission, the conferees urge the Department to submit a reprogramming request in fiscal year 2012 that would reallocate funds from lower priority programs to meet such needs.

CONSTRUCTION

The conference agreement includes \$15,000,000 for construction and related expenses in space controlled, occupied or utilized by the USMS for prisoner holding and related support.

NATIONAL SECURITY DIVISION

SALARIES AND EXPENSES

The conference agreement includes \$87,000,000 for the salaries and expenses of the National Security Division.

INTERAGENCY LAW ENFORCEMENT

INTERAGENCY CRIME AND DRUG ENFORCEMENT

The conference agreement includes \$527,512,000 for the Organized Crime and Drug Enforcement Task Forces (OCDETF).

Southwest Border.—The conferees expect OCDETF to prioritize the continuation of support for Assistant U.S. Attorney positions and collocated Strike Forces in the Southwest Border region, and to submit a report to the Committees on Appropriations not later than 90 days after the enactment of this Act showing the current and planned distribution of personnel, by bureau, to each of the collocated Strike Forces.

FEDERAL BUREAU OF INVESTIGATION

SALARIES AND EXPENSES

The conference agreement includes \$8,036,991,000 for the salaries and expenses of the Federal Bureau of Investigation (FBI). The conference agreement incorporates language in the House report on analytic career path training, the Safe Streets/Safe Trails Task Force program, the continuation of positions for Southwest Border law enforcement, the nationwide file inventory program, and the continuation of positions for the investigation of white collar and financial crime.

Computer intrusions.—In recognition of the FBI's unique cyber-related authorities and expertise, the conference agreement includes at least the full request, an increase of \$18,628,000 and 42 positions, including 14 special agents, above the fiscal year 2011 enacted level to further the Bureau's investigatory, intelligence gathering and technological capabilities to address malicious cyber intrusions and protect critical infrastructure in the United States from cyber attacks. The conferees direct the FBI to produce an annual national cyber threat assessment, in both classified and unclassified versions, and submit such report to the Committees on Appropriations not later than 120 days after the enactment of this Act.

National security.—The conference agreement includes program increases totaling \$48,870,000 as described in the House report. The conferees direct the FBI to submit a report to the Committees on Appropriations not later than 120 days after the enactment of this Act detailing the research activities conducted under the auspices of the High-value Detainee Interrogation Group, the results of such research, and any recommendations for the development of new techniques.

Electronic surveillance.—The conference agreement incorporates language in the House report related to increases provided to improve lawful electronic surveillance capabilities. The conference agreement does not include language in the Senate report directing a percentage of these funds to be used for Special Surveillance Groups.

Render Safe.—The conference agreement includes a program increase of \$40,000,000 and 13 positions to support the acquisition and refurbishment of two aircraft to carry out the Render Safe mission. The conferees note that the Senate had approved the use of previously appropriated funding for this same purpose. The FBI shall submit a report to the Committees on Appropriations not later than 120 days after the enactment of this Act on the plan for Render Safe procurement.

Trafficking in persons.—The conferees agree that, within the funding provided, the FBI shall increase activities related to the investigation of severe forms of trafficking in persons. The FBI shall submit a report to the Committees on Appropriations not later than 120 days after the enactment of this Act on agent utilization and overall staff resources dedicated to trafficking investigations in fiscal years 2010, 2011 and 2012. In addition, the conferees expect the FBI to share trafficking case information on an ongoing basis with other law enforcement agencies and task forces working similar cases. The conferees agree that funds shall be used for conducting investigations into trafficking and slavery and providing victim witness coordinators on an emergency basis when needed.

IPR enforcement.—The conferees agree that the FBI shall continue to prioritize the investigation of IPR cases and coordinate with IPR units at the U.S. Attorneys and the Criminal Division. The FBI shall submit a report, not later than 120 days after the enactment of this Act, on agent utilization and overall staff resources dedicated to investigating intellectual property cases, and an accounting of the agents placed in specific field offices since fiscal year 2010.

DNA programs.—The conferees encourage the FBI to undertake activities to facilitate familial DNA searches of the Combined DNA Index System database of convicted offenders and work with the National DNA Index System (NDIS) Procedures Board to consider the establishment of procedures allowing familial searches only for serious violent and sexual crimes where other investigative leads have been exhausted. The procedures should provide appropriate protections for the privacy rights of those in the NDIS database.

Sentinel.—The conferees continue to monitor closely Sentinel, the FBI's information and investigation case management system, and remain understandably concerned about Sentinel's development. The FBI shall adhere to the language included in the House report regarding the expectation that the FBI will continue all necessary periodic oversight reviews in accordance with recommendations of the Inspector General, and in the Senate report regarding the prohibition on spending anything in excess of \$451,000,000 on Sentinel without first providing notification to the Committees on Appropriations and developing a work breakdown structure. In addition, the conference agreement includes language under section 213 requiring the Attorney General to submit to the Committees on Appropriations a report containing a cost and schedule estimate for the final operating capability of the Sentinel program, and a detailed list of the functionalities included in the final operating capability. The FBI shall submit this report concurrently to the Department's OIG for review and comment.

Cyber training for field agents.—The conferees agree that, within funds provided, the FBI shall expand training for FBI cyber agents involved in national security intrusions cases. Such training

should focus on increasing the number of agents qualified to understand current techniques and tactics used by those engaged in illicit cyber activities, and respond to shortfalls identified by the DOJ OIG.

Criminal Justice Information Services Division.—The conference agreement includes the full requested amount of appropriated funds and user fees for the Criminal Justice Information Services Division.

Human rights violations.—The conferees direct the FBI to increase efforts to investigate and support DOJ's criminal prosecution of serious human rights crimes committed by foreign nationals who are in the United States.

Liaison partnerships.—The conferees support the FBI's policy prohibiting any formal non-investigative cooperation with unindicted co-conspirators in terrorism cases. The conference agreement does not include language in the House report on synthetic drugs.

Afghanistan operations.—The conference agreement incorporates language in the House report regarding DEA's Afghanistan operations. The conferees direct the DEA to report to the Committees on Appropriations, not later than 30 days after enactment of this Act, on DEA's planned presence and operations activities in Afghanistan, expected transfers of funding from other Departments or agencies, and DEA's direct appropriations requirements for such activities.

Field staffing.—The conference agreement incorporates language in the House report concerning a reporting requirement on personnel vacancy rates. The conferees agree that the DEA shall provide such report to the Committees on Appropriations not later than 120 days after the enactment of this Act.

CONSTRUCTION

The conference agreement includes \$10,000,000 for DEA Construction. The conferees expect this funding level to support an expansion of the El Paso Intelligence Center facility to accommodate approximately 100 additional staff.

BUREAU OF ALCOHOL, TOBACCO, FIREARMS AND EXPLOSIVES
SALARIES AND EXPENSES

The conference agreement includes \$1,152,000,000 for the salaries and expenses of the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF). The conference agreement also includes language permanently prohibiting the Department from consolidating or centralizing the records of the acquisition and disposition of firearms maintained by firearms dealers and permanently prohibiting the Department from electronically retrieving information provided to the Attorney General by firearms dealers that have gone out of business.

Operation Fast and Furious.—The conferees are concerned by allegations that ATF mismanaged a U.S.-Mexico border operation known as Fast and Furious, and expect that the Department's OIG, to which the investigation of this matter has been referred by the Attorney General, will fulfill its oversight duties by conducting a thorough investigation. The conferees expect the Department and ATF to cooperate fully with all oversight investigations into Operation Fast and Furious—whether by the OIG, an independent, government-appointed investigator, or Congress—by promptly and thoroughly responding to all requests for information regarding this matter.

Furthermore, the conferees are aware that the Attorney General has instructed, and subsequently reiterated, that Department law enforcement personnel are not knowingly to allow any firearms to be illegally transported into Mexico for any reason. Finally, the conferees note that Operation Fast and Furious is but a small part of ATF's extensive operations along the Southwest Border and should not detract from ATF's efforts to protect Americans from illegal firearms trafficking, gun violence, and parallel drug and human trafficking across the U.S.-Mexico border and into the Nation's interior.

United States-Mexico firearms trafficking.—Beginning in fiscal year 2012 and thereafter, the ATF shall provide the Committees on Appropriations with annual data on the total number of firearms recovered by the Government of Mexico, and of those, the number for which an ATF trace is attempted, the number successfully traced and the number determined to be manufactured in or imported into the United States prior to being recovered in Mexico.

National Integrated Ballistic Information Network (NIBIN).—The conferees continue to support the NIBIN, including the significant investment made by State and local law enforcement partners to build the current NIBIN database. The conferees believe that ATF should move expeditiously to ensure that ballistic imaging technology is routinely refreshed, upgraded and deployed to State and local law enforcement. The conferees urge ATF to prioritize the upgrading and replacement of aging ballistic imaging equipment in its fiscal year 2012 operating plan and in future budget requests. ATF should ensure upgrades and replacements maximize and protect the resources invested by State and local law enforcement.

FEDERAL PRISON SYSTEM

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$6,551,281,000 for the salaries and expenses of the Federal Prison System.

Activations and expansions.—The conference agreement includes funds for the commencement or completion of activation of new prison facilities constructed by the Bureau of Prisons (BOP). The conferees expect BOP to make adherence to the activation schedule for these prisons, as detailed in BOP's fiscal year 2012 budget submission, a top priority, and to immediately notify the Committees on Appropriations of any changes to this schedule. In addition, as part of the Department's fiscal year 2012 spending plan, BOP shall include the allocation of funds by decision unit.

Radicalization in Federal prisons.—The conference agreement incorporates language in the House report regarding radicalization in Federal prisons and the conferees instruct the Department to take the necessary actions to eliminate prisoner access to radicalizing material. The conferees further direct the Department to submit a report to the Committees on Appropriations not later than 120 days after the enactment of this Act on its maintenance of a central registry of acceptable materials and the processes employed to ensure that potentially radicalizing materials are not included.

Work in prisons.—The conferees affirm the language in the House report expressing the belief that increasing work opportunities for Federal prisoners is an important priority. Statistics from BOP indicate that inmates who participate in work programs are 24 percent less likely to offend again, 14 percent more likely to find work outside of prison and 23 percent less likely to have misconduct issues in prison. The conferees direct the Department to report to the Committees on Appropriations not later than 120 days after the enactment of this Act on actions taken and planned to increase meaningful work opportunities available to inmates.

Sentence reduction opportunities.—The conferees are concerned that the current upward trend in the prison inmate population is unsustainable and, if left unchecked, will eventually engulf the Department's budgetary resources. The conferees encourage BOP to work with the authorizing committees on proposals that reduce both recidivism and appropriations requirements.

Employee retaliation.—The conferees are concerned that BOP employees were cited recently by the Equal Employment Opportunity Commission (EEOC) as having the highest and most widespread fear of retaliation compared to the rest of the Federal workforce. The conferees expect BOP to certify to the Committees on Appropriations that it has implemented and met the recommendations included in the EEOC's November 2010 Final Program Evaluation Report for the Federal Bureau of Prisons, and submit concurrently a report on its compliance with the recommendations to the Department's OIG for review and comment.

BUILDINGS AND FACILITIES

The conference agreement includes \$90,000,000 for the construction, acquisition, modernization, maintenance and repair of prison and detention facilities housing Federal inmates.

Status of construction reports.—The conferees direct BOP to resume providing to the Committees on Appropriations, not later than 30 days after the enactment of this Act, the most recent monthly status of construction report and to notify the Committees on Appropriations of any deviations from the construction and activation schedule identified in that report, including detailed explanations of the causes of delays and actions proposed to address them.

LIMITATION ON ADMINISTRATIVE EXPENSES, FEDERAL PRISON INDUSTRIES, INCORPORATED

The conference agreement includes a limitation on administrative expenses of \$2,700,000 for Federal Prison Industries, Incorporated.

Federal Prison Industries (FPI).—In addition to its function as a reentry tool, the conferees believe that FPI, if allowed to enter into partnerships with private businesses, could bring some lost manufacturing back into the United States while providing inmates with opportunities to learn skills that will be marketable after release. Therefore, the conference agreement includes language under section 221 of this Act to allow FPI to carry out pilot projects to produce items that are currently manufactured outside of the United States.

STATE AND LOCAL LAW ENFORCEMENT ACTIVITIES

In total, the conference agreement includes \$2,227,300,000 for State and local law enforcement and crime prevention programs.

Salaries and expenses.—The Omnibus Appropriations Act, 2009 (P.L. 111–8) established a common salaries and expenses appropriation to provide for the cost of all management and administration activities of the Department’s grant offices. The establishment of this account was in response to inadequate agency budgeting mechanisms for management and administration activities and a lack of transparency about the actual costs of those activities. Since fiscal year 2009, the grant offices have made important and marked progress in this regard.

During fiscal year 2012, the conferees direct the Department to support management and administration expenses with program funding subject to the submission of details related to planned management and administration expenses, by program, as part of the Department’s fiscal year 2012 spending plan. In addition, the spending plan should include planned expenses for training and technical assistance, research and statistics activities, interagency agreements, cooperative agreements and peer review, along with any additional general category of expense other than grants. The conferees encourage grant offices to minimize administrative spending in order to maximize the amount of funding that can be used for grants or training and technical assistance.

As part of the budget submission for future fiscal years, the Department is directed to detail the actual costs for each grant office in each of the categories noted above for the prior fiscal year, by program, along with estimates of planned expenditures for each grant office in each of these categories, by program, for the current year and the budget year. In addition, the Office of Justice Programs (OJP), the Office on Violence Against Women (OVW), and the Office of Community Oriented Policing Services (COPS) are directed to report to the Committees on Appropriations on their formal definitions of management and administration costs or on the detailed guidance that governs decisions about the types of costs that should be considered management and administration costs.

Workload analysis.—The conferees are aware that OVW, OJP and COPS have each initiated a workload analysis to ensure that their respective staffing levels and mix of personnel accurately reflect workload and requirements. The conferees direct each office to provide a report to the GAO and the Committees on Appropriations not later than 120 days after the enactment of this Act describing its updated staffing model based on the results of its workload analysis. In addition, the conferees direct GAO to examine each office’s staffing model and report to the Committees on Appropriations, not later than 6 months after the date the offices submit their reports, with an evaluation of the models, and recommendations (as warranted), on how each office’s staffing model could be further improved.

Non-compliant grantees.—The conference agreement incorporates language from the Senate report noting that OJP, COPS and OVW appear to be using different sanctions and remedies for grantees that are determined to be out of compliance with grant requirements. The conferees expect the Department to work to consolidate rules and procedures across the three offices in order to produce the most consistent compliance enforcement process possible.

Evidence-based programs.—The conferees strongly urge OJP, COPS and OVW to ensure that, to the greatest extent practicable, competitive grants are used for evidence-based programs and activities.

The conferees expect NIJ to carry out new initiatives proposed for fiscal year 2012 to the extent possible within the funds provided, including initiatives in the following areas: maximizing the value of forensic evidence; establishing the effectiveness of criminal justice diversion methods and strategies; eliminating rape kit backlogs (pilots); conducting Indian country crime and victimization research; improving prescription drug monitoring; improving inmate reentry; improving risk-based decision-making in the criminal justice system; and establishing a better understanding of the risk-based factors leading to domestic radicalization and related acts of violence/terrorism, among others.

Evaluation Clearinghouse.—The conferees adopt the language in the Senate report regarding funding for an Evaluation Clearinghouse/What Works Repository.

Presidential nominating conventions.—The conference agreement includes \$100,000,000 to address extraordinary local law enforcement costs related to the 2012 presidential nominating conventions. The conferees note that the Department failed to request any funding for this activity, and expect that future budget requests will address known resource requirements associated with convention security. The conferees expect that the funds included in this agreement will be used solely for extraordinary law enforce-

ment expenses incurred with respect to local law enforcement's role in providing security for these events. The conferees expect the Department to develop clear guidelines to govern allowable expenses, and all payments or reimbursements shall be reviewed and approved by the Department, as well as audited by the OIG, to ensure efficiency and accountability. Finally, the conferees expect that planning committees for the nominating conventions will assist in addressing security needs to the greatest extent possible from other funding sources.

Human trafficking.—The conference agreement includes \$10,500,000 for human trafficking task force activities and services for U.S. citizens, permanent residents and foreign nationals who are victims of trafficking. The conferees expect that the human trafficking task forces funded by the Department will continue to bring together Federal, State and local law enforcement and victim services organizations to investigate all forms of human trafficking and assist the victims. OJP shall consult with stakeholder groups in determining the overall allocation of Victims of Trafficking funding, including with respect to amounts allocated to assist foreign national victims, and provide to the Committees on Appropriations a plan for the use of these funds as part of the Department's fiscal year 2012 spending plan. The plan should be guided by the best information available on the regions of the United States with the highest incidence of trafficking.

Reentry.—The conferees urge OJP to assist in the development of State reentry councils in order to foster State-level advancements in reentry and recidivism reduction.

Second Chance Act.—The conferees direct the Department to submit, as part of its spending plan for fiscal year 2012 a plan for the allocation of funds appropriated for Second Chance Act programs.

Sex offender location, arrest and prosecution/Adam Walsh Act implementation.—The conference agreement includes \$20,000,000 to support the administration's proposal to help States, Indian tribes and territories come into compliance with the Sex Offender Registration and Notification Act (SORNA), as well as provide for sex offender management and treatment. These grants will provide critical support to the comprehensive, nationwide effort to locate, register, monitor, apprehend, prosecute and manage child sexual predators and exploiters that was envisioned by SORNA.

DNA backlog/crime lab improvements.—The conferees continue Congress' strong support for DNA backlog reduction and crime lab improvements by recommending \$125,000,000 to strengthen and improve Federal and State DNA collection and analysis systems that can be used to accelerate the prosecution of the guilty while simultaneously protecting the innocent from wrongful prosecution. Within the funding provided, the conference agreement includes \$4,000,000 each for Post-Conviction DNA Testing grants, and Sexual Assault Forensic Exam Program grants. The conferees expect that OJP will make funding for DNA analysis and capacity enhancement a priority to meet the purposes of the Debbie Smith DNA Backlog Grant Program. The conferees direct the Department to submit both a spending plan with respect to funds appropriated for DNA-related programs, and a report on the

alignment of appropriated funds with the authorized purposes of the Debbie Smith DNA Backlog Grant Program, as part of the Department's spending plan for fiscal year 2012.

In addition, the conferees direct the GAO to examine the use of funds awarded for DNA analysis and capacity enhancement in the past five years that were awarded to any entity other than to a State or local public DNA laboratory. GAO's examination should include an evaluation of the methodology employed in creating the solicitations and the process for awarding these funds; the extent to which DOJ has assessed whether the results of the awards are making a measurable impact with respect to reducing backlogs and increasing capacity; and how the objectives of the solicitations have been fulfilled. The study should also include an analysis of how NIJ inventories and compiles grant data and results, including a breakdown of the funds provided to non-government DNA laboratories on an annual basis, and a description of the contribution of NIJ toward increasing capacity and reducing backlogs for government DNA laboratories. Lastly, the study should detail the proportion of DNA funding annually provided to State and local laboratories, non-government entities, NIJ's DNA program office, and other uses by NIJ such as overhead, travel and conferences.

National technical assistance and training.—The conferees affirm language in the Senate report encouraging the Department to continue its efforts to assist States in the development and use of criminal justice information systems that accelerate the automation of identification processes for fingerprints and other criminal justice data, and which improve the compatibility of State and local law enforcement systems with the FBI's Integrated Automated Fingerprint Identification System.

National Motor Vehicle Title Information System (NMVTIS).—The conference agreement incorporates language in the Senate report on the use of NMVTIS as an effective tool to prevent the fraudulent use of vehicle title documents, investigate vehicle thefts and thwart terrorist financing activities.

Tribal assistance.—The conference agreement includes \$38,000,000 for tribal grant programs. The conferees expect OJP to consult closely with tribal stakeholders in determining how tribal assistance funds will be allocated among grant programs that help improve public safety in tribal communities, such as grants for detention facilities under section 20109 of subtitle A of title II of the Violent Crime Control and Law Enforcement Act of 1994 (Public Law 103-322), civil and criminal legal assistance as authorized by title I of Public Law 106-559, tribal courts, and alcohol and substance abuse reduction assistance programs. The conferees direct OJP to submit, as part of the Department's spending plan for fiscal year 2012, a plan for the use of these funds that has been informed by such consultation. The conferees note that the conference agreement includes additional grant funding for tribal law enforcement programs through COPS and OVW.

Direct legal representation of crime victims.—The conference agreement incorporates language in the Senate report directing the Office for Victims of Crime to submit a report to the Committees on Appropriations within 60 days of notifying States of their Vic-

tims of Crime Act victim assistance formula allocation for fiscal year 2012.

JUVENILE JUSTICE PROGRAMS

The conference agreement includes \$262,500,000 for Juvenile Justice programs. These funds are distributed as follows:

JUVENILE JUSTICE PROGRAMS

Youth mentoring grants.—The conferees direct OJP to submit, as part of the Department's spending plan for fiscal year 2012, a report detailing the criteria and methodology that will be used to award youth mentoring grants and a spending plan for youth mentoring funds. The conferees expect that the Office of Juvenile Justice and Delinquency Prevention (OJJDP) will take all steps necessary to ensure fairness and objectivity in the award of these and future competitive grants.

Missing and exploited children/Internet Crimes Against Children (ICAC).—The conference agreement includes \$65,000,000 for missing and exploited children programs, including funds for the ICAC task force program, to continue to expand efforts to protect the Nation's children, focusing on the areas of locating missing children, and addressing the growing wave of child sexual exploitation facilitated by the Internet. The conferees direct OJP to provide a spending plan for the use of these funds as part of the Department's spending plan for fiscal year 2012. The conferees are aware that one way OJP addresses the proliferation of Internet crimes against children is through ICAC task forces. With regard to ICAC task forces, the conferees encourage the Department to fund programs with proven training results and low administrative costs.

Victims of Child Abuse Act.—The conference agreement includes \$18,000,000 for the various programs authorized under the Victims of Child Abuse Act (Public Law 101-647). Within the funds provided, \$5,000,000 shall be used to fund Regional Children's Advocacy Centers Programs.

PUBLIC SAFETY OFFICER BENEFITS

The conference agreement includes \$78,300,000 for the Public Safety Officer Benefits program for fiscal year 2012. Within the funds provided, \$62,000,000 is for death benefits for survivors, an

amount estimated by the Congressional Budget Office that is considered mandatory for scorekeeping purposes. In addition, \$16,300,000 is provided for disability benefits for public safety officers permanently and totally disabled as a result of a catastrophic injury and for education benefits for the spouses and children of officers killed in the line of duty or permanently and totally disabled as a result of a catastrophic injury sustained in the line of duty.

COMMUNITY ORIENTED POLICING SERVICES

COMMUNITY ORIENTED POLICING SERVICES PROGRAMS

Transfer to Tribal Resources Grant Program	(15,000)
Community Policing Development/Training and Technical Assistance	(10,000)
TOTAL, Community Oriented Policing Services	\$198,500

Tribal Resources Grant Program (TRGP).—The conference agreement provides a total of \$35,000,000 in funding targeted entirely to tribal communities through the TRGP. Within the TRGP, \$20,000,000 is provided through direct appropriations and \$15,000,000 is provided by transfer from the COPS Hiring program. The conferees note that all funds available to the TRGP may be used for equipment and hiring or training of tribal law enforcement.

TITLE III—SCIENCE

OFFICE OF SCIENCE AND TECHNOLOGY POLICY

The conference agreement includes \$4,500,000 for the Office of Science and Technology Policy (OSTP).

Cooperation with China.—In fiscal year 2011, OSTP, acting on guidance from the Department of Justice and the Office of White House Counsel, engaged in bilateral activities with the Chinese government that the Government Accountability Office (GAO) found to be prohibited by section 1340 of the Department of Defense and Full Year Continuing Appropriations Act, 2011 (P.L. 112–10). Section 1340 was enacted due to congressional concern that our scientific cooperation with the Chinese government was failing to sufficiently take into account the risks posed by such activities. These risks include the transfer of sensitive technology, data and other information that could adversely impact our national security or disadvantage American companies relative to their Chinese counterparts.

The conference agreement contains language restricting any OSTP activities that would carry the risk of such transfers to China while allowing (subject to certification and notification requirements) other activities to proceed. This should enable OSTP to engage in beneficial collaborative endeavors, such as public health planning or disaster response activities, while providing greater protection for U.S. economic and national security interests.

Science, Technology, Engineering and Math (STEM) education.—The conferees support OSTP's recent efforts to improve and better coordinate Federal STEM education programs and to develop a government-wide STEM education strategic plan. The conferees encourage OSTP to include in the strategic plan goals relating to the improved dissemination of STEM education research and best practices.

Neuroscience.—The conferees believe there is a potential in the near future for significant, transformative advances in our fundamental understanding of learning, brain development, and brain health and recovery. Such advances will require enhanced tools to better understand the working of the brain, enhanced data and data infrastructure, and expanded interdisciplinary and large-scale research efforts. Neuroscience research is supported by the National Institutes of Health, the National Science Foundation (NSF), the Department of Veterans Affairs, the Department of Defense and other Federal agencies. The conferees encourage OSTP to establish, through the National Science and Technology Council (NSTC), an interagency working group to coordinate Federal investments in neuroscience research. The interagency working group should help focus and enhance Federal efforts toward: developing future clinical treatments for traumatic and acquired brain injuries; better understanding cognition and learning, and applying that understanding to improving education and learning; and improving our understanding of and developing better therapies for Alzheimer's disease, childhood developmental disorders and other neurological conditions.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

The conference agreement includes \$17,800,000,000 for the National Aeronautics and Space Administration (NASA).

Fiscal oversight.—In order to promote strong fiscal oversight, the Committees on Appropriations have been pursuing with NASA a number of crosscutting issues, including cost estimation and control, financial management, acquisition reform and grants management. The conferees direct NASA to stay engaged in these ongoing efforts and to comply with all related reporting requirements and directives on these topics that were contained in the House and Senate reports.

Budget structure.—Funds have been allocated according to an account and program structure that generally conforms to the structure proposed in the budget request. After several consecutive years of major structural modifications, however, the conferees expect that NASA will refrain from proposing additional account changes unless directed to do so by the Committees.

The conferees' table of recommendations for NASA is delineated below. Additional detail may be found under the relevant account headings.

Program, project and activity level funding designations.—The conferees have not included a detailed, line-item funding table for the Science Mission Directorate. Instead, the conference table provides totals for Earth Science, Planetary Science, Astrophysics, the James Webb Space Telescope and Heliophysics. Using these totals, as well as any additional funding direction provided below, NASA should develop a budget plan for each division that incorporates any necessary reductions and submit these proposals as part of the spending plan required by section 538 of this Act. In proposing reductions, NASA should take care to protect, to the extent possible, high priority missions of the decadal surveys, as well as missions with near-term launch readiness dates. In addition, NASA should be careful to propose a funding portfolio that maintains an essential balance between actual spaceflight projects and the critical mission-enabling activities (research and data analysis, data application, etc.) that support and enhance the value of those projects.

Earth Science.—The conference agreement adopts, by reference, language from the Senate report on carbon monitoring systems and the Deformation, Ecosystem Structure and Dynamics of Ice mission.

Planetary Science.—The conference agreement includes no less than \$581,700,000 for Mars Exploration. Within the amount provided, NASA shall continue working to define, plan and execute future Mars missions and continue seeking and taking advantage of opportunities for international cooperation on such missions.

The conference agreement also includes \$43,000,000 for outer planets flagship missions. The conferees understand that required descoping studies for planetary flagship missions are at or near completion and direct that those studies be submitted to the Committees on Appropriations as soon as possible. NASA is also directed to continue working on a detailed definition of an appropriately descoped flagship mission, consistent with the findings of the most recent planetary science decadal survey.

Astrophysics.—The conference agreement adopts, by reference, language from the Senate report regarding the Hubble Space Telescope and the Explorer Program.

The Wide Field Infrared Survey Telescope (WFIRST) was identified as the first priority of the most recent astronomy and astrophysics decadal survey. NASA should build on the work of the Joint Dark Energy Mission project and pursue WFIRST to the extent that foreseeable budget resources can accommodate this mission.

James Webb Space Telescope (JWST).—According to the recent JWST budget replan, the program's lifecycle cost estimate is now \$8,835,000,000 (with formulation and development costs totaling \$8,000,000,000). This represents an increase of \$1,208,000,000 over the previous lifecycle cost estimate, including an increase of \$156,000,000 above the budget request for fiscal year 2012. In order to accommodate that increase in this agreement, the conferees received input from the administration and made reductions to the requested levels for Earth and planetary science, astrophysics and the agency's budget for institutional management. Although the amounts provided for these other science activities still constitute an increase over the fiscal year 2011 levels, the conferees note that keeping JWST on schedule from fiscal year 2013 through the planned launch in fiscal year 2018 will require NASA to identify another \$1,052,000,000 over previous JWST estimates while simultaneously working to meet the deficit reduction requirements of the Budget Control Act of 2011 (P.L. 112–25). As a result, outyear work throughout the agency may need to be reconsidered. The conferees expect the administration to come forward with a realistic long-term budget plan that conforms to anticipated resources as part of its fiscal year 2013 budget request.

To provide additional assurances that JWST's management and funding problems are under control, the conference agreement includes language strictly limiting JWST formulation and development costs to the current estimate of \$8,000,000,000 and requiring any increase above that amount to be treated according to procedures established for projects in 30 percent breach of their lifecycle cost estimates.

In addition, the conferees direct the GAO to continually assess the program and to report to the Committees on Appropriations on key issues relating to program and risk management; achievement of cost and schedule goals; and program technical status. For its first report, the conferees direct the Comptroller General to assess: (1) the risks and technological challenges faced by JWST; (2) the adequacy of NASA's revised JWST cost estimate based on GAO's cost assessment best practices; and (3) the extent to which NASA has provided adequate resources for and is performing oversight of the JWST project to better ensure mission success. The first report should be provided to the Committees no later than December 1, 2012, with reports continuing on an annual basis thereafter. Periodic updates should also be provided to the Committees upon request or whenever a significant new finding has been made. NASA is directed to cooperate fully and to provide timely access to analyses, data, applications, databases, portals, reviews, milestone decision meetings, and contractor and agency personnel.

Heliophysics.—The conference agreement adopts, by reference, language from the Senate report regarding the Explorer Program, Magnetospheric Multiscale Mission and Solar Probe Plus.

Flagship management.—The conferees believe that flagship missions are an important component of a balanced science mission portfolio but are concerned by NASA's history of problematic management of these projects. Without substantial improvements in cost estimation, requirements definition, cost discipline and other practices, management problems will persist and, ultimately, erode support for NASA's pursuit of these missions. NASA has many sources of expertise, both internal and external, on which to draw for ideas about how to address its problems in flagship management, and the conferees urge NASA to do so. In particular, the conferees encourage NASA to look at lessons learned from reviews of the challenges of prior flagship projects; identify those lessons that address universal management issues; and implement those lessons in flagship projects across the Directorate.

AERONAUTICS

The conference agreement includes \$569,900,000 for Aeronautics.

SPACE TECHNOLOGY

The conference agreement includes \$575,000,000 for Space Technology. All funds under this heading should be prioritized toward the continuation of ongoing programs and activities.

Exploration Technology Development.—Within amounts provided, no less than \$190,000,000 shall be dedicated to Exploration Technology Development, which directly supports the achievement of human exploration goals.

Satellite servicing.—The conference agreement provides no less than \$25,000,000 for satellite servicing activities. This funding will contribute to the planned competitive satellite servicing demonstration mission and shall be managed by the Human Exploration and Operations (HEO) Mission Directorate.

EXPLORATION

The conference agreement includes \$3,770,800,000 for Exploration.

Orion Multipurpose Crew Vehicle (MPCV).—The conference agreement provides \$1,200,000,000 for the Orion MPCV. The MPCV is intended both to be launched on the heavy lift rocket system in furtherance of NASA's beyond Earth orbit (BEO) exploration goals and to provide an alternative means of cargo and crew delivery to the International Space Station (ISS) in the event that commercial or partner-supplied vehicles are unable to perform those functions. The MPCV will begin uncrewed and crewed flight operations in conjunction with the Space Launch System (SLS) within the next decade, but the conferees understand that NASA may want to pursue an earlier MPCV flight test utilizing a commercially available launch vehicle. The conferees have no objection to necessary and useful testing as long as the costs of procuring the launch vehicle and executing the test flight can be accommodated within the MPCV budget. Within the larger MPCV program, components should be procured via fixed price contracts wherever pos-

sible in order to improve cost control and maximize the impact of all available dollars.

Space Launch System.—The conference agreement provides \$1,860,000,000 for the SLS, which is a sustained, evolvable heavy lift vehicle utilizing a common core. While this evolvable approach will enable NASA to achieve the earliest possible initial flight capability by using a 70 ton SLS configuration, only the 130 ton configuration will allow NASA to achieve its BEO exploration goals. Consequently, NASA is directed to ensure that all work done on the early configurations of the evolvable vehicle is in service of the eventual BEO capability. Similarly, NASA is reminded of its legal obligation to design the system from inception to the 130 ton standard and to proceed with simultaneous development of the core and upper stages. Wherever possible, SLS components should be procured via fixed price contracts in order to improve cost control and maximize the impact of all available dollars.

The conferees note the need for additional clarity on the amount of money being allocated to the development of each major component of the SLS. In order to address this need, NASA is directed to provide quarterly reports to the Committees on Appropriations showing anticipated and actual SLS obligations and outlays by major component (core stage, upper stage, engines, boosters, avionics/instrumentation). NASA is further directed to work with the Committees to refine the content and format of these reports.

Adjustments to MPCV and SLS funding.—Funds provided in this Act for MPCV and SLS are intended for the actual design and development of the vehicles themselves. Therefore, the conferees direct that the charging of related expenses to these program lines be kept to a minimum. Any funds deducted from the total to pay for civil service labor, headquarters program support, program integration, mission operations, extravehicular activities or other related expenses must be separately delineated both in the spending plan submitted pursuant to section 538 of this Act and in all future requests. The conference agreement provides a statutory set-aside for SLS ground operations; therefore, no additional charges to SLS funding for this purpose are permitted. All activities funded with the ground operations set-aside shall primarily serve the SLS program.

The conferees note that the recently completed Independent Cost Assessment (ICA) for the exploration program utilized a different budgetary structure than NASA's fiscal year 2011 operating plan or its fiscal year 2012 budget request. In the ICA, funds were divided into three separate streams: MPCV; SLS, exclusive of any ground operations; and 21st Century Ground Systems, which incorporates all SLS ground operations as well as exploration-related ground systems and infrastructure activities from the 21st Century Launch Complex program. The conferees appreciate that this structure makes a clearer distinction between SLS vehicle development work and ground operations and that it unites all exploration-related ground systems spending in a single account (while leaving ground operations and infrastructure in support of multi-user programs within the 21st Century Launch Complex appropriation). NASA is directed to submit its fiscal year 2013 budget request and

all future requests using the structure laid out in the ICA. To assist in the transition to this new structure, the fiscal year 2013 request should include a crosswalk between the new and old structures.

Cost caps.—The conferees believe the human exploration programs should be managed under strict cost caps based on NASA's analysis and the recently completed ICA. Within 60 days of the enactment of this Act, NASA shall report to the Committees on Appropriations on planned milestones; expected performance and configurations; planned ground and flight testing programs; and deliverables for SLS, MPCV and ground systems. As part of this report, NASA shall recommend separate cost caps for the SLS, MPCV and associated ground systems (consistent with the funding streams as identified in the ICA) through fiscal year 2017 and shall manage each program to remain within those caps.

Exploration destinations and goals.—The conferees believe that NASA needs to better articulate a set of specific, scientifically meritorious exploration goals to focus its program and provide a common vision for future achievements. Consequently, the conferees direct NASA to develop and report to the Committees on Appropriations a set of science-based exploration goals; a target destination or destinations that will enable the achievement of those goals; a schedule for the proposed attainment of these goals; and a plan for any proposed collaboration with international partners. Proposed international collaboration should enhance NASA's exploration plans rather than replace capabilities NASA is developing with current funds. This report shall be submitted no later than 180 days after the enactment of this Act.

Commercial crew funding.—While significant unanswered questions remain about the long-term viability of the commercial space market, the conferees agree with NASA that the support of domestic aerospace jobs and the provision of redundant access to the ISS are worthy goals. Consequently, the conference agreement provides \$406,000,000 for the commercial crew development program. The agreement withholds \$100,000,000 of these funds pending the completion of specified acquisitions milestones in the human exploration program. The conferees expect, however, that the timely completion of these milestones will result in the prompt release of all withheld funds without any negative impact on the commercial crew program.

Commercial crew management.—All of the commercial crew management and acquisition plans submitted by NASA to date have been predicated on receiving funding far in excess of the authorized level. The conferees are concerned that NASA has not devoted sufficient time to developing a detailed management plan for alternate scenarios. NASA is directed to work expeditiously to alter its management and acquisition strategy for the program as necessary to make the best use of available resources and to define the most cost effective path to the achievement of a commercial crew capability. NASA is encouraged to consider, as part of an altered strategy, an accelerated down-select process that would concentrate and maximize the impact of each appropriated dollar.

The conferees understand that NASA has several mechanisms in place to ensure that the risk associated with commercial crew

development activities is not carried solely by the government. Consistent with normal procurement practices, NASA evaluates through responsibility and commitment assessments the financial stability of potential contractors. In addition, NASA will structure awards to ensure that payments are made only after the achievement of specified performance milestones and to protect the government's ability to retain and use data derived from an award in the event that the contractor defaults or otherwise chooses to discontinue participation in the program. These practices limit the financial exposure of the government and maximize the value of all payments made.

Commercial safety requirements.—The conferees are pleased by NASA's commitment to hold all human-rated launch vehicles and crew systems, including those developed via both the commercial crew program and the Human Exploration Capabilities program, to the same safety requirements regarding the potential loss of crew (LOC) or loss of mission (LOM). The conferees direct NASA to ensure that any tailoring of specific safety standards and procedures going forward does not affect this uniform application of LOC/LOM requirements.

Apollo heritage sites.—Future human and robotic exploration of the Moon poses a threat to the preservation of historically and scientifically significant sites there, including the locations of the first and last Apollo lunar landings. The conferees support NASA's efforts to establish guidelines for the protection of Apollo "heritage sites" and direct NASA to keep the Committees on Appropriations informed of further progress in this area.

SPACE OPERATIONS

The conference agreement includes \$4,233,600,000 for Space Operations.

Space Shuttle.—The conference agreement provides a total of \$573,000,000 for the Space Shuttle program, including \$470,000,000 to cover NASA's liability pursuant to the termination of the pension plan under the Space Program Operations Contract (SPOC). The conferees have derived their numbers from the most recently available actuarial estimate of SPOC liability needs, as provided by NASA. The government is legally obligated to make these payments. If the final calculated pension shortfall differs from this amount, NASA may address the difference by either adding to or deducting from remaining Space Shuttle transition and retirement funds.

The conference agreement adopts, by reference, language in the House report requiring NASA to undertake specified actions relating to the transition of the Shuttle workforce and to provide status reports on the progress of its Space Shuttle orbiter disposition efforts.

International Space Station (ISS).—The conferees support the decision to extend ISS research and operations through 2020. In support of the ISS program, the conference agreement provides \$2,830,000,000 for ISS operations, research and cargo supply.

Satellite servicing.—The conference agreement includes \$50,000,000 from Space Operations to continue satellite servicing activities. These funds are in addition to \$25,000,000 for satellite

servicing in the Space Technology account. The HEO Mission Directorate shall continue to be responsible for the overall direction and management of all agency satellite servicing activities, which are undertaken as a joint project of the HEO, Space Technology and Science mission directorates. Satellite servicing activities shall include mission architecture design, robotic system development, autonomous rendezvous and capture sensor testing, fluid transfer demonstrations and spacecraft design.

Funds are to be used to continue work on a competitive project to develop, in collaboration with a U.S. commercial partner, a satellite servicing mission capable of operating in geosynchronous Earth orbit. The goal for such a mission is to achieve an on-orbit servicing of an observatory-class government satellite by 2016. Any U.S. commercial partner should be willing to invest its own resources in this mission, as it is intended to foster the creation of an ongoing commercial capability that could meet the needs of NASA, other Federal agencies, the commercial satellite sector and the scientific community.

21st Century Launch Complex.—The conference agreement adopts, by reference, language from the Senate report regarding the 21st Century Launch Complex program. As noted under the Exploration heading, the conferees intend to confine the 21st Century Launch Complex appropriation to multi-user projects beginning in fiscal year 2013. Any 21st Century funds that support the ground operations and infrastructure of the human exploration program will be included in the new 21st Century Ground Systems funding stream in future years.

Tracking and Data Relay Satellite-M (TDRS-M).—NASA has authority to fund research and development programs and projects on an incremental basis. However, the conferees understand that TDRS-M, unlike prior TDRS System projects, does not qualify as research and development. In order to remain consistent with historical precedent on TDRS funding, therefore, the conferees have provided bill language permitting NASA to treat TDRS-M as a research and development project for the purposes of incremental funding for the duration of the project.

Launch site infrastructure.—NASA is directed to facilitate the efficient and beneficial re-purposing of vacant or underutilized facilities, equipment and other property at NASA-owned launch sites. To accomplish this re-purposing, NASA is directed to employ all authorities granted by Congress and to involve, to the extent practical, field-level personnel in the decision making.

EDUCATION

The conference agreement includes \$138,400,000 for Education.

Portfolio structure and funding levels.—The conferees have constructed an education portfolio that strikes a balance between NASA's desire to restructure and streamline elements of the portfolio with the need to provide sufficient support to successful existing programs such as Space Grant, the Experimental Program to Stimulate Competitive Research (EPSCoR) and the Minority University Research and Education Program. The conferees direct NASA to consider this balance when developing future education budget requests. The conferees also note the existence of significant

educational resources built into the mission directorate budgets and encourage NASA to take all necessary steps to ensure that these educational activities are well integrated with the programs funded under this heading.

Informal Education.—The conferees have provided \$10,000,000 for a competitive grant program to fund informal education programs that develop STEM education activities, including exhibits, at qualifying institutions as described in section 616 of the NASA Authorization Act of 2005 (P.L. 109–155), and/or at NASA Visitors Centers. In selecting grants, NASA shall prioritize projects according to their links to NASA’s missions.

CROSS AGENCY SUPPORT

The conference agreement includes \$2,995,000,000 for Cross Agency Support (CAS).

Civil service labor.—NASA’s CAS request included funding for nearly 700 programmatic FTE that had not yet been allocated to a mission directorate. Since the time of the budget submission, NASA has provided updated data showing the appropriate distribution of these FTE. The conference agreement reflects this updated distribution by reallocating both the FTE and associated funding out of the CAS account.

Background investigations.—All members of the NASA workforce, including both civil servants and contractors, should be appropriately and regularly screened to validate their right to access NASA physical or virtual resources. The conferees support the implementation of all necessary security procedures to achieve this goal.

Employee Performance Communications System (EPCS).—The conference agreement adopts, by reference, language in the Senate report requiring a GAO assessment of specified elements of the implementation of the EPCS.

Cybersecurity.—The conference agreement adopts, by reference, language from the House report regarding authorities of the Chief Information Officer to address cybersecurity vulnerabilities.

Independent Verification and Validation (IV&V).—The conference agreement adopts, by reference, language from the Senate report regarding IV&V.

Budget justifications.—The conferees understand that NASA is undertaking changes to the format and content of its annual budget justifications. The Committees on Appropriations should be involved in the discussion about what changes are necessary in order to ensure that the end product is as useful as possible for the conduct of the Committees’ work. Consequently, NASA is directed to work jointly with the Committees to define the scope and content of needed changes and to implement those changes in all future budget justifications.

Comprehensive independent assessment.—NASA has a broad mandate to execute a balanced space program that includes science, technology development, aeronautics research, human spaceflight and education. NASA regularly receives management and programmatic recommendations from GAO, the Office of Inspector General (OIG) and various commissions and other entities, as well as outside advice on scientific and technical priorities from

the National Academies. While each of these reviews is useful on its own, they are generally targeted to a specific issue or program and therefore do not provide a comprehensive assessment of NASA's activities. The conferees believe that such an agency-wide assessment will provide a means to evaluate whether NASA's overall strategic direction remains viable and whether agency management is optimized to support that direction. Accordingly, the conference agreement recommendation includes \$1,000,000, to be provided by transfer to the OIG, to commission a comprehensive independent assessment of NASA's strategic direction and agency management.

The assessment should consider the relevance and feasibility of NASA's strategic goals; the appropriateness of the budgetary balance between NASA's various programs; and the adequacy of NASA's internal policies, procedures, controls and organizational structures that support and prioritize its mission activities. Any recommendations made pursuant to the assessment should be predicated on the assumption that NASA's outyear budget profile will be constrained due to continuing deficit reduction efforts. Such recommendations should also take into account the need for a common, unifying vision for NASA's strategic direction that encompasses NASA's varied missions. A report summarizing the conclusions of the assessment and any relevant recommendations shall be provided to the Congress and the President no later than 120 days after the enactment of this Act.

To conduct this assessment, the Inspector General shall choose an organization that will convene individuals with recognized relevant expertise and whose collective credentials sufficiently cover the entire range of NASA's mission activities, including space and Earth science; aeronautics; advanced technology development; space exploration; spaceflight operations and support; STEM education; and/or management of any of these activities. In order to promote objectivity, the Inspector General shall define and implement any conflict of interest protocols deemed necessary, but, at a minimum, the selected individuals shall not be currently employed or retained by NASA or any outside entity that competes for or receives NASA funding.

Working Capital Fund (WCF).—NASA's WCF was initially authorized in fiscal year 2003. In fiscal year 2012, NASA has expanded its use of the WCF to cover activities such as major agency-wide information technology services. The conferees are concerned that such an expansion of the uses of the WCF without adequate advance notification through the normal budget process undermines the oversight role of the Committees on Appropriations. Accordingly, the conferees direct that NASA, as part of its annual congressional budget justification, detail any expected WCF activity for the coming fiscal year, including the source and amount of expected WCF transfers, all expected uses of the Fund, and any balances on hand or expected to remain at the end of the fiscal year. NASA shall also provide quarterly to the Committees an accounting of that quarter's expenditures along with the amount of any unobligated balances in the Fund.

CONSTRUCTION AND ENVIRONMENTAL COMPLIANCE AND RESTORATION

The conference agreement includes \$390,000,000 for Construction and Environmental Compliance and Restoration (CECR).

Integrated facilities master planning.—The conference agreement adopts, by reference, language from the House report directing the submission of an integrated facilities master plan.

Hangar 1, Moffett Field.—The conference agreement adopts, by reference, language from the House report regarding Hangar 1 at Moffett Field.

Mission-related construction.—NASA continues to request funds for construction of facilities within both the Space Operations and the Exploration accounts. This is an inefficient practice which requires significant post-enactment transfers of funds between accounts. The conference agreement permits such transfers in specified amounts from Space Operations and Exploration in fiscal year 2012, but NASA is directed to ensure that all construction funds in future years are requested solely within the CECR account.

OFFICE OF INSPECTOR GENERAL

The conference agreement includes \$37,300,000 for the Office of Inspector General.

ADMINISTRATIVE PROVISIONS

The conference agreement includes the following administrative provisions for NASA:

The agreement includes a provision that makes funds for announced prizes available without fiscal year limitation until the prize is claimed or the offer is withdrawn.

The agreement includes a provision that establishes terms and conditions for the transfer of funds.

The agreement includes a provision that allows the transfer of balances under previous appropriations account structures to the new appropriations account structure.

The agreement includes a provision related to the expenditure of interest earned from balances in the Endeavor Teacher Fellowship Trust Fund.

The agreement includes a provision permitting NASA to accept in-kind consideration as part of the Enhanced Use Lease program under specified circumstances. NASA is directed to include in its annual budget justification a description of any in-kind consideration accepted and an estimate of the market value of that consideration.

The agreement includes a provision that subjects the NASA spending plan and specified changes to that spending plan to reprogramming procedures under section 505 of this Act.

NATIONAL SCIENCE FOUNDATION

RESEARCH AND RELATED ACTIVITIES

The conference agreement includes \$5,719,000,000 for Research and Related Activities (R&RA).

Research priorities.—The conferees appreciate NSF's commitment to reviewing its portfolio of programs and proposing reduc-

tions or terminations where appropriate. Such proposals provide a more fiscally sustainable way to support new or expanded programs. Accordingly, the conference agreement incorporates all of NSF's R&RA termination and reduction proposals except for the requested reduction to the radio astronomy program.

By accepting NSF's proposal to eliminate funding for the Deep Underground Science and Engineering Laboratory (DUSEL), the conference agreement completes a multi-year phase-out of NSF involvement in this project. NSF is directed to report to the Committees on Appropriations about future efforts or commitments, if any, to collaborate with the Department of Energy on a deep underground lab.

Advanced manufacturing.—The conference agreement adopts, by reference, language in the House report regarding advanced manufacturing.

Neuroscience.—NSF is uniquely positioned to advance the non-medical aspects of cognitive sciences and neurosciences, particularly through interdisciplinary science, computational models, visualization techniques, innovative technologies, and the underlying data and data infrastructure needed to transform our understanding of these areas, and the conferees encourage NSF to sustain and expand its investments in these areas. In addition, to better focus the agency's efforts and guide future budget submissions, NSF is encouraged to establish a cognitive sciences and neurosciences crosscutting theme. The conferees note that language is included under the OSTP heading encouraging OSTP to establish a NSTC working group to coordinate Federal investments in neuroscience research.

Giant Segmented Mirror Telescope (GSMT).—The direction in this section is provided in lieu of any language in the Senate report relating to the GSMT program. NSF has decided to proceed with the selection of a viable GSMT project, consistent with the National Research Council's (NRC) 2010 astronomy and astrophysics decadal survey recommendations. The conferees expect that this selection will be made expeditiously and utilize a fully competitive process, with a solicitation issued no later than the end of calendar year 2011 and a result announced no later than July 31, 2012.

Cybersecurity research.—The conference agreement adopts, by reference, language from the Senate report regarding cybersecurity research.

MAJOR RESEARCH EQUIPMENT AND FACILITIES CONSTRUCTION

The conference agreement includes \$167,055,000 for Major Research Equipment and Facilities Construction (MREFC).

Project priorities.—With the MREFC funding provided either directly or via potential transfer from the R&RA account, NSF will be able to achieve significant progress on its current portfolio of construction projects, but some prioritization of funds will still be necessary. The conferees expect that NSF will dedicate funds first to the completion of projects that are already in the final stages of construction, with remaining funds allocated to projects in earlier phases of development.

Project funding profiles.—NSF should promptly review its current portfolio of MREFC projects and their outyear funding profiles

to ensure they are consistent with fiscal year 2011 and 2012 appropriations. If adjustments to the portfolio in either of those fiscal years will necessitate a revision of the outyear funding profiles for any current or planned project, NSF is directed to immediately report the revised profiles to the Committees on Appropriations and to include the new profiles in the fiscal year 2013 budget request.

Construction funding management.—The conferees remain concerned about how NSF and its grantees are defining, estimating and managing construction funding, particularly contingency funds. Stronger management and oversight of these funds could result in improved project efficiencies and, ultimately, cost savings. NSF is directed to report to the Committees on Appropriations on the steps it is taking to impose tighter controls on the drawdown and use of contingencies, as well as steps intended to incentivize grantees to complete construction under budget, for projects managed through the MREFC appropriation and for other large facility projects. This report should be submitted no later than 90 days after the enactment of this Act.

EDUCATION AND HUMAN RESOURCES

The conference agreement includes \$829,000,000 for Education and Human Resources (EHR).

Program changes.—In parallel with terminations and reductions proposed in the R&RA account, NSF has proposed a number of program reductions or terminations within EHR. For the most part, these cuts were proposed not due to any dissatisfaction with the programs in question but rather because NSF would prefer to implement new initiatives. The conferees have no objection to this approach, with the exception of the proposed reductions to the Robert Noyce Scholarship Program and the Math and Science Partnership program. The conferees do not believe that those cuts are warranted solely to make room for new activities.

Broadening Participation at the Core.—The conference agreement adopts, by reference, language from the House report regarding funding levels for the existing Broadening Participation at the Core programs.

Best practices in K–12 STEM education.—NSF is encouraged to find more effective mechanisms for disseminating the results of its education research to the K–12 STEM education community. Such mechanisms could include partnerships with nonprofits and professional associations, Webinars, newsletters and workshops, drawing when possible on the resources of existing networks.

In particular, NSF is directed to ensure that the NRC report entitled *Successful K–12 STEM Education: Identifying Effective Approaches in Science, Technology, Engineering, and Mathematics* is widely distributed within the educational and scientific communities. In addition, NSF is directed to begin work to identify methods for tracking and evaluating the implementation of the recommendations in the NRC's report. NSF and its collaborators should provide an evaluation plan to the Committees on Appropriations within 12 months of the enactment of this Act that describes these methods and recommends the necessary steps that should be taken by NSF and other Federal agencies to implement that plan.

Within the amounts available in this account, up to \$500,000 should be used for the formulation of the evaluation plan.

Hispanic Serving Institutions.—The conference agreement adopts, by reference, language from the House report on Hispanic Serving Institutions.

Federal Cyber Service: Scholarships for Service.—The conferees adopt the Senate recommendation to expand the Federal Cyber Service: Scholarships for Service program. The agreement provides \$45,000,000 for this program, which is \$20,000,000 above the requested level.

AGENCY OPERATIONS AND AWARD MANAGEMENT

The conference agreement includes \$299,400,000 for Agency Operations and Award Management.

OFFICE OF THE NATIONAL SCIENCE BOARD

The conference agreement includes \$4,440,000 for the National Science Board.

OFFICE OF INSPECTOR GENERAL

The conference agreement includes \$14,200,000 for the OIG.

ADMINISTRATIVE PROVISION

The conference agreement includes a provision that establishes terms and conditions for the transfer of funds.

TITLE IV

RELATED AGENCIES

COMMISSION ON CIVIL RIGHTS

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$9,193,000 for the Commission on Civil Rights.

Improving oversight.—For fiscal year 2012, the conference agreement establishes an inspector general (IG) function for the Commission on Civil Rights and provides that the function will be carried out by the individual holding the position of IG at the Government Accountability Office (GAO). The IG is tasked with the duties and responsibilities specified in the Inspector General Act of 1978, including conducting audits and reviews of Commission programs, finances and personnel. The conference agreement provides funding for these operations, in the amount of \$250,000, by direct transfer to the Office of Inspector General of the GAO.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

SALARIES AND EXPENSES

The conference agreement includes \$360,000,000 for the Equal Employment Opportunity Commission (EEOC). The conference agreement directs that \$29,500,000 shall be available for payments

to State and local enforcement agencies to ensure that the EEOC provides adequate resources to its State and local partners.

Backlog reduction.—In order to advance EEOC's backlog reduction goals, the conferees expect the EEOC to prioritize efforts both to address the inventory of private sector charges, such as through hiring or backfilling positions of frontline mission critical staff, and to examine new ways to address the backlog and increase productivity.

To assist in the monitoring of EEOC's hiring progress, the conferees direct the EEOC to continue submitting quarterly staffing reports, consistent with the direction provided in the statement accompanying Public Law 111–117.

INTERNATIONAL TRADE COMMISSION

SALARIES AND EXPENSES

The conference agreement includes \$80,000,000 for the International Trade Commission (ITC).

The conferees adopt by reference House report language regarding internal control, financial management and information technology security weaknesses and direct the ITC to submit a report to the Committees on Appropriations not later than 120 days after enactment of this Act.

LEGAL SERVICES CORPORATION

PAYMENT TO THE LEGAL SERVICES CORPORATION

The conference agreement includes \$348,000,000 for the Legal Services Corporation (LSC).

Pro bono legal services.—The conferees are pleased that LSC launched a pro bono task force in 2011 and urge the LSC to implement the recommendations of this task force as it continues to work with LSC-funded programs to adopt measures aimed at increasing the involvement of private attorneys in the delivery of legal services to its clients.

Legal aid fellowships.—The conferees understand that LSC is considering a proposal to create a fellowship program for retirees or recent law school graduates who will commit to working in legal aid for a designated period of time. The conferees direct LSC to conduct a study of this proposal in order to further develop how such a fellowship program would work and how much it would cost to implement. LSC shall report to the Committees on Appropriations with the results of that study not later than 120 days after the enactment of this Act.

ADMINISTRATIVE PROVISION—LEGAL SERVICES CORPORATION

Unauthorized uses of funds.—The conferees encourage the Inspector General of the LSC to conduct annual audits of LSC grantees to ensure that funds are not being used in contravention of the restrictions on engaging in political activities or any of the other restrictions by which LSC grantees are required to abide. The conferees also recommend the removal of funds from any LSC grantee determined by the Inspector General to have engaged in political activity.

MARINE MAMMAL COMMISSION

SALARIES AND EXPENSES

The conference agreement includes \$3,025,000 for the Marine Mammal Commission.

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

SALARIES AND EXPENSES

The conference agreement includes \$51,251,000 for the Office of the U.S. Trade Representative (USTR). The conferees expect that funds provided will be used to vigorously enforce existing trade agreements.

Monitoring and enforcement.—The conferees direct the USTR, from funds provided in this Act, to hire no less than four additional staff for the office of the Assistant USTR for Monitoring and Enforcement. These staff, who shall be fluent in Chinese, shall monitor and enforce China's compliance with its WTO obligations and assist in early stage identification and review of Chinese measures arising out of its Five Year Plans.

Responsiveness.—The conferees note that the USTR Office of Legislative Affairs does not respond in a timely manner to requests for information from the Committees on Appropriations. Indifference shown by USTR Legislative Affairs in providing yearly budget justifications or in responding to information requests hampers the ability of the Congress to evaluate proposals and conduct oversight. Accordingly, the conferees direct the USTR to submit its detailed fiscal year 2013 budget request to the Committees on Appropriations not later than two days after the President's fiscal year 2013 budget request is submitted.

Critical vacancies.—The conferees adopt by reference House report language regarding a report on critical vacancies and direct the USTR to provide a report to the Committees on Appropriations not later than 60 days after enactment of this Act.

STATE JUSTICE INSTITUTE

SALARIES AND EXPENSES

The conference agreement includes \$5,121,000 for the State Justice Institute.

TITLE V—GENERAL PROVISIONS

(INCLUDING RESCISSIONS)

The conference agreement includes the following general provisions:

Section 501 prohibits the use of funds for publicity or propaganda purposes unless expressly authorized by law.

Section 502 prohibits any appropriation contained in this Act from remaining available for obligation beyond the current fiscal year unless expressly provided.

Section 503 provides that the expenditure of any appropriation contained in this Act for any consulting service through procurement contracts shall be limited to those contracts where such ex-

penditures are a matter of public record and available for public inspection, except where otherwise provided under existing law or existing Executive Order issued pursuant to existing law.

Section 504 provides that if any provision of this Act or the application of such provision to any person or circumstance shall be held invalid, the remainder of the Act and the application of other provisions shall not be affected.

Section 505 prohibits a reprogramming of funds that: (1) creates or initiates a new program, project or activity; (2) eliminates a program, project, or activity; (3) increases funds or personnel by any means for any project or activity for which funds have been denied or restricted; (4) relocates an office or employee; (5) reorganizes or renames offices, programs or activities; (6) contracts out or privatizes any function or activity presently performed by Federal employees; (7) augments funds for existing programs, projects or activities in excess of \$500,000 or 10 percent, whichever is less, or reduces by 10 percent funding for any existing program, project, or activity, or numbers of personnel by 10 percent; or (8) results from any general savings, including savings from a reduction in personnel, which would result in a change in existing programs, activities, or projects as approved by Congress; unless the House and Senate Committees on Appropriations are notified 15 days in advance of such reprogramming of funds.

Section 506 permanently prohibits funds from being used to implement, administer, or enforce any guidelines of the Equal Employment Opportunity Commission covering harassment based on religion similar to proposed guidelines published by the EEOC in October 1993.

Section 507 provides that if it is determined that any person intentionally affixes a "Made in America" label to any product that was not made in America, that person shall not be eligible to receive any contract or subcontract with funds made available in this Act. The section further provides that to the extent practicable, with respect to purchases of promotional items, funds made available under this Act shall be used to purchase items manufactured, produced or assembled in the United States or its territories or possessions.

Section 508 requires quarterly reporting to Congress on the status of balances of appropriations.

Section 509 provides that any costs incurred by a department or agency funded under this Act resulting from, or to prevent, personnel actions taken in response to funding reductions in the Act shall be absorbed with the budgetary resources available to the department or agency, and provides transfer authority between appropriation accounts to carry out this provision, subject to reprogramming procedures.

Section 510 prohibits funds made available in this Act from being used to promote the sale or export of tobacco or tobacco products or to seek the reduction or removal of foreign restrictions on the marketing of tobacco products, except for restrictions which are not applied equally to all tobacco or tobacco products of the same type. This provision is not intended to impact routine international trade services to all U.S. citizens, including the processing of applications to establish foreign trade zones.

Section 511 permanently prohibits funds from being used to implement a Federal user fee for background checks conducted pursuant to the Brady Handgun Control Act of 1993, and to implement a background check system that does not require and result in the destruction of certain information within 24 hours.

Section 512 delays the obligations of any receipts deposited into the Crime Victims Fund in excess of \$705,000,000 until the following fiscal year. This language is continued to ensure a stable source of funds will remain available for the program, despite inconsistent levels of criminal fines deposited annually into the Fund.

Section 513 prohibits the use of Department of Justice funds for programs that discriminate against or denigrate the religious or moral beliefs of students participating in such programs.

Section 514 prohibits the transfer of funds in the Act to any department, agency or instrumentality of the United States Government, except for transfers made by, or pursuant to authorities provided in, this Act or any other appropriations Act.

Section 515 provides that funds provided for E-Government Initiatives shall be subject to the procedures set forth in section 505 of this Act.

Section 516 requires the Bureau of Alcohol, Tobacco, Firearms and Explosives to include specific language in any release of tracing study data that makes clear that trace data cannot be used to draw broad conclusions about firearms-related crimes.

Section 517 requires certain timetables of audits performed by Inspectors General of the Departments of Commerce and Justice, the National Aeronautics and Space Administration, the National Science Foundation, and the Legal Services Corporation and sets limits and restrictions on the awarding and use of grants or contracts funded by amounts appropriated by this Act.

Section 518 prohibits funds for information technology acquisitions unless the acquiring department or agency has assessed the risk of cyber-espionage or sabotage. Each department or agency covered under section 518 shall submit a quarterly report to the Committees on Appropriations of the House and the Senate describing assessments made pursuant to this section and any associated findings or determinations of risk.

Section 519 prohibits the use of funds in this Act to support or justify the use of torture by any official or contract employee of the United States Government.

Section 520 prohibits the use of funds in this Act to require certain export licenses.

Section 521 prohibits the use of funds in this Act to deny certain import applications regarding "curios or relics" firearms, parts, or ammunition.

Section 522 prohibits the use of funds to include certain language in trade agreements.

Section 523 prohibits the use of funds in this Act to authorize or issue a National Security Letter (NSL) in contravention of certain laws authorizing the Federal Bureau of Investigation to issue NSLs.

Section 524 requires congressional notification for any project within the Departments of Commerce or Justice, the National Science Foundation or the National Aeronautics and Space Admin-

istration totaling more than \$75,000,000 that has cost increases of at least 10 percent.

Section 525 deems funds for intelligence or intelligence-related activities as authorized by the Congress until the enactment of the Intelligence Authorization Act for fiscal year 2012.

Section 526 requires the departments and agencies funded in this Act to establish and maintain on the homepages of their Internet websites direct links to the Internet websites of their Offices of Inspectors General, and a mechanism by which individuals may anonymously report cases of waste, fraud or abuse.

Section 527 prohibits contracts or grant awards in excess of \$5,000,000 unless the prospective contractor or grantee certifies that the organization has filed all Federal tax returns, has not been convicted of a criminal offense under the IRS Code of 1986, and has no unpaid Federal tax assessment.

(RESCISSIONS)

Section 528 provides for rescissions of unobligated balances in certain departments and agencies funded in this Act. With respect to rescissions of unobligated balances from the Office on Violence Against Women, the Office of Justice Programs and the Office of Community Oriented Policing Services, the conferees expect that rescissions will be from grant deobligations and recoveries.

Section 529 prohibits the use of funds in this Act in a manner that is inconsistent with the principal negotiating objective of the United States with respect to trade remedy laws.

Section 530 prohibits the use of funds in this Act for the purchase of first class or premium air travel.

Section 531 prohibits the use of funds to pay for the attendance of more than 50 department or agency employees at any single conference outside the United States, unless the conference is a law enforcement training or operational event where the majority of Federal attendees are law enforcement personnel stationed outside the United States.

Section 532 includes language regarding detainees held at Guantanamo Bay.

Section 533 includes language regarding facilities for housing detainees held at Guantanamo Bay.

Section 534 prohibits the distribution of funds contained in this Act to the Association of Community Organizations for Reform Now or its subsidiaries.

Section 535 includes language regarding the purchase of light bulbs.

Section 536 requires any department, agency or instrumentality of the United States Government receiving funds appropriated under this Act to track and report on undisbursed balances in expired grant accounts.

Section 537 prohibits the use of funds to relocate the Bureau of the Census or employees from the Department of Commerce to the jurisdiction of the Executive Office of the President.

Section 538 requires the Departments of Commerce and Justice, the National Aeronautics and Space Administration, and the National Science Foundation to submit spending plans.

Section 539 prohibits the use of funds by the National Aeronautics and Space Administration or the Office of Science and Technology Policy to engage in bilateral activities with China or a Chinese-owned company unless the activities are authorized by subsequent legislation or NASA or OSTP have made a certification pursuant to subsections (c) and (d) of this section.

Section 540 specifies reporting requirements for certain conferences held by any department, agency, board or commission funded by this Act.

Section 541 prohibits funds made available by this Act from being used to deny the importation of shotgun models if no application for the importation of such models, in the same configuration, had been denied prior to January 1, 2011, on the basis that the shotgun was not particularly suitable for or readily adaptable to sporting purposes.

Section 542 prohibits the use of funds to establish or maintain a computer network that does not block pornography, except for law enforcement purposes.

Section 543 prohibits funds made available by this Act from being used to enter into a contract, memorandum of understanding, or cooperative agreement with, make a grant to, or provide a loan or loan guarantee to, any corporation that was convicted of a felony criminal violation under any Federal law within the preceding 24 months, unless an agency has considered suspension or debarment of the corporation and has made a determination that this further action is not necessary to protect the interests of the government.

Section 544 prohibits funds made available by this Act from being used to enter into a contract, memorandum of understanding, or cooperative agreement with, make a grant to, or provide a loan or loan guarantee to, any corporation that has any unpaid Federal tax liability that has been assessed, for which all judicial and administrative remedies have been exhausted or have lapsed, and that is not being paid in a timely manner pursuant to an agreement with the authority responsible for collecting the tax liability, unless an agency has considered suspension or debarment of the corporation and has made a determination that this further action is not necessary to protect the interests of the government.

Section 545 specifies reporting requirements regarding vehicle fleets for all agencies and departments funded by this Act.

Section 546 prohibits any funds from being used to implement, administer, or enforce the "Wage Methodology for the Temporary Non-agricultural Employment H-2B Program" prior to January 1, 2012, to allow time for Congress to address this rulemaking. In making prevailing wage determinations for the H-2B non-immigrant visa program for employment prior to January 1, 2012, the conferees direct the Secretary of Labor to continue to apply the rule entitled "Labor Certification Process and Enforcement for Temporary Employment in Occupations Other Than Agriculture or Registered Nursing in the United States (H-2B Workers), and Other Technical Changes" published by the Department of Labor on December 19, 2008 (73 Fed. Reg. 78020 et seq.).

DIVISION C—TRANSPORTATION, HOUSING AND URBAN DEVELOPMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2012

CONGRESSIONAL DIRECTIVES

The legislative intent in the House and Senate versions in H.R. 2112 set forth in the accompanying Senate report (S. Rept. 112–93) and in the report approved by the House Transportation, Housing and Urban Development, and Related Agencies Subcommittee on September 8, 2011 should be complied with unless specifically addressed to the contrary in the conference report and the statement of the managers. Report language included by the House, which is not changed by the report of the Senate or this statement of managers, and Senate report language, which is not changed by this statement of managers, is approved by the committee of conference. The statement of the managers, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases where the House or the Senate has directed the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations. The conferees direct the Department of Transportation and the Department of Housing and Urban Development to notify the House and Senate Committees on Appropriations seven days prior to the announcement of a new program or authority.

The conferees reiterate direction included in the Senate report regarding the definitions of program, project and activity; reductions made pursuant to sequestration; reprogramming guidelines and requirements; operating plans; working capital funds; and budget justifications. Further, the conferees direct each department to include justifications on each administrative and general provision requested in the budget request materials.

TITLE I—DEPARTMENT OF TRANSPORTATION

OFFICE OF THE SECRETARY

SALARIES AND EXPENSES

The conference agreement provides \$102,481,000 for the salaries and expenses of the Office of the Secretary of Transportation as an overall funding level as proposed by the House rather than \$102,202,000 as proposed by the Senate. The agreement includes funding by office as specified below:

Immediate Office of the Secretary	\$2,618,000
Immediate Office of the Deputy Secretary	984,000
Office of the Executive Secretariat	1,595,000

The conferees direct the Office of General Counsel to provide a continued level of effort to protect airline passengers.

NATIONAL INFRASTRUCTURE INVESTMENTS

The conference agreement provides \$500,000,000 for capital investments in surface transportation infrastructure, instead of \$550,000,000 as proposed by the Senate. The House did not propose funding for this account. The conferees direct the Secretary to focus on road, transit, rail and port projects. No funds are provided for planning activities and the Department is limited to \$20,000,000 for program administration.

FINANCIAL MANAGEMENT CAPITAL

The conference agreement provides \$4,990,000 for the financial management capital program as proposed by the Senate, instead of \$5,000,000 as proposed by the House.

CYBER SECURITY INITIATIVES

The conference agreement provides \$10,000,000 for cyber security initiatives as proposed by the Senate. The House did not propose funding for this account.

OFFICE OF CIVIL RIGHTS

The conference agreement provides \$9,384,000 for the office of civil rights as proposed by the House, instead of \$9,648,000 as proposed by the Senate.

TRANSPORTATION PLANNING, RESEARCH AND DEVELOPMENT

The conference agreement provides \$9,000,000 for transportation planning, research and development as proposed by the House and Senate. The conferees agree to provide not more than \$1,000,000 to do a complete study authorized in Section 9007 of Public Law 109-59.

WORKING CAPITAL FUND

The conference agreement includes a limitation of \$172,000,000 for working capital fund activities, rather than \$147,596,000 as proposed by the House and the Senate. The conferees include language allowing for the transfer of funds to the Working Capital Fund upon a majority approval of the Working Capital Fund Steering Committee.

MINORITY BUSINESS RESOURCE CENTER PROGRAM

The conference agreement provides a total appropriation of \$922,000 as proposed by the House for the minority business resource center program, instead of \$921,000 as proposed by the Senate. Within the funds provided \$333,000 is for the costs of guaranteed loans for short-term working capital and \$589,000 is provided for administrative expenses. The bill limits loans made under this program to \$18,367,000 as proposed by the House and Senate.

MINORITY BUSINESS OUTREACH

The conference agreement provides \$3,068,000 for minority business outreach as proposed by the House and Senate.

PAYMENTS TO AIR CARRIERS

(AIRPORT AND AIRWAY TRUST FUND)

(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$143,000,000 for payments to air carriers as proposed by the Senate instead of \$100,000,000 as proposed by the House. In addition to these funds, the program will receive \$50,000,000 in mandatory spending pursuant to the Federal Aviation Authorization Act of 1996. The agreement includes language, as proposed by the Senate, that would limit funds to communities that received subsidy or received a 90-day notice of intent to terminate service and the Secretary required the air carrier to continue providing service any time between September 30, 2010, and September 30, 2011. The conference agreement also includes language to direct the Secretary to transfer such sums as may be necessary from the Office of the Secretary if funding is insufficient to meet the costs of the program.

ADMINISTRATIVE PROVISIONS—OFFICE OF THE SECRETARY OF
TRANSPORTATION

Section 101 prohibits funds in this Act available to the Department of Transportation from being obligated for the Office of the Secretary of Transportation to approve assessments or reimbursable agreements pertaining to funds appropriated to the modal administrations in this Act, except for activities underway on the date of enactment of this Act, unless such assessments or agreements have completed the normal reprogramming process for Congressional notification.

Section 102 allows the Secretary of Transportation or his designee to engage with states to consider proposals related to the reduction of motorcycle fatalities.

Section 103 prohibits funds from being obligated or expended to establish or implement a program where essential air service communities are required to assume subsidy costs commonly referred to as local participation.

Section 104 authorizes the Department of Transportation to provide payments in advance to vendors for the Federal transit pass fringe benefit program.

Section 105 requires the Secretary of Transportation to post on the DOT website a schedule and an agenda of all Credit Council meetings. The conferees direct the Department to maintain records of the factors and criteria leading to funding determinations on applications.

Section 106 rescinds unobligated balances made available by section 185 of Public Law 109–115.

FEDERAL AVIATION ADMINISTRATION
OPERATIONS
(AIRPORT AND AIRWAY TRUST FUND)

The conference agreement includes \$9,653,395,000 for operations of the Federal Aviation Administration instead of \$9,673,962,000 as proposed by the House and \$9,635,710,000 as proposed by the Senate. Of the total amount provided, \$5,060,694,000 is to be derived from the airport and airway trust fund. Funds are distributed in the bill by budget activity. The Conference agreement includes all Operations base transfers requested in the budget, and the conferees expect that FAA's fiscal year 2013 budget will provide the same level of detail on the offices within the new Finance and Management organization as in previous years. In addition, the conferees direct that FAA move the Office of Audit and Evaluation (AAE) from within Office of the Chief Counsel (AGC) and realign it as an independent Staff Office reporting directly to the FAA Administrator.

The following table compares the conference agreement to the levels proposed in the House and Senate bills by budget activity, pursuant to the reorganizational reprogramming activity approved by the Committees in September:

Special use airspace of unmanned aerial system (UAS).—The conferees direct FAA to provide a progress report to the House and Senate Appropriations Committees, no later than 60 days after enactment, which describes and assesses the establishment of special use airspace to fill defense research needs related to UASs, particularly in the development of detection techniques for small unmanned aerial vehicles.

FACILITIES AND EQUIPMENT

(AIRPORT AND AIRWAY TRUST FUND)

The conference agreement includes \$2,730,731,000 for FAA facilities and equipment instead of \$2,798,250,000 as proposed by the House and \$2,630,731,000 as proposed by the Senate. Performance Based Navigation.—The conference agreement provides \$29,200,000 for Performance Based Navigation, as proposed by the House. The agreement provides \$3,000,000 over the request for a demonstration project to utilize third parties to design, deploy and maintain public use Required Navigation Performance (RNP) procedures at five mid-sized airports where aircraft flying RNP arrivals would achieve measurable benefit.

System-wide information management system (SWIM).—The conference agreement includes \$66,350,000 for the SWIM program. The conferees direct FAA to provide a progress report to the House and Senate Committees on Appropriations by February 15, 2012 on FAA's development and deployment of Segment 1 capabilities and the expected requirements, development and deployment of Segment 2.

Navigation and landing aids-service life extension program (SLEP).—The conference agreement includes \$7,000,000 for navigation and landing aids. Within the amount provided, \$1,000,000 is for the procurement and installation of additional runway end identification light (REIL) systems.

Alternate positioning, navigation and timing (APNT).—The conferees understand FAA is conducting a review of APNT capabilities that support communication, navigation, and surveillance applications in the event of a loss of Global Navigation Satellite Services (GNSS) to ensure that operations are appropriately supported and consistent with the evolution to NextGen. The conferees support this review and encourage the FAA to move forward with research, development and potential implementation of systems, avionics, processes, and procedures that leverage available assets to minimize the impact to system capacity and efficiency during periods of GNSS interference.

NextGen environmental research—aircraft technologies, fuels and metrics.—The conference agreement includes \$23,500,000 for the FAA’s NextGen environmental research aircraft technologies, fuels and metrics program. The conferees direct FAA to use funds above the budget request to expedite the development of viable alternative fuels that can be used in aircraft and to continue the efforts of FAA’s continuous, lower energy, emissions, and noise program (CLEEN). These additional funds are designated as an item of congressional interest and the conferees direct FAA not to reprogram these funds without the specific approval of the House and Senate Committees on Appropriations.

GRANTS-IN-AID FOR AIRPORTS

(LIQUIDATION OF CONTRACT AUTHORIZATION)

(LIMITATION ON OBLIGATIONS)

(AIRPORT AND AIRWAY TRUST FUND)

(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes a liquidating cash appropriation of \$3,435,000,000; an obligation limitation of \$3,350,000,000; a limitation on administrative expenses of not more than \$101,000,000; no less than \$15,000,000 for the airport cooper-

ative research program; and no less than \$29,250,000 for airport technology research.

Small community air service development pilot program.—The bill includes \$6,000,000 under the obligation limitation to continue the small community air service development pilot (SCASDP) program and directs the FAA to transfer funds to OST salaries and expenses appropriation.

ADMINISTRATIVE PROVISIONS—FEDERAL AVIATION ADMINISTRATION

Section 110 allows no more than 600 technical staff-years at the Center for Advanced Aviation Systems Development as proposed by the House and Senate.

Section 111 prohibits funds for adopting guidelines or regulations requiring airport sponsors to provide FAA “without cost” building construction or space as proposed by the House and Senate.

Section 112 allows the FAA to be reimbursed for amounts made available for 49 U.S.C. 41742(a)(1) as fees are collected and credited under 49 U.S.C. 45303 as proposed by the House and Senate.

Section 113 allows reimbursement of funds for providing technical assistance to foreign aviation authorities to be credited to the operations account as proposed by the House and Senate.

Section 114 prohibits funds limited in this Act for the Airport Improvement Program to be provided to an airport that refuses a request from the Secretary of Transportation to use public space at the airport for the purpose of conducting outreach on air passenger rights as proposed by the House and Senate.

Section 115 prohibits funds for Sunday premium pay unless work was actually performed on a Sunday as proposed by the House and Senate.

Section 116 prohibits funds in the Act from being used to buy store gift cards with Government issued credit cards as proposed by the House and Senate.

Section 117 allows all airports experiencing the required level of boardings through charter and scheduled air service to be eligible for funds under 49 U.S.C. 47114(c) as proposed by the Senate.

Section 118 prohibits funds from being obligated or expended for retention bonuses for FAA employees without prior written approval of the DOT Deputy Assistant Secretary for Administration.

Section 119 limits to 20 percent the cost share required under the contract tower cost-share program.

Section 119A reverses changes made to the Block Aircraft Registry Request program and prohibits future changes to the program, as proposed by the House and Senate.

Section 119B prohibits funds from being used to change weight restrictions or prior permission rules at Teterboro Airport in New Jersey as proposed by the House.

FEDERAL HIGHWAY ADMINISTRATION
 LIMITATION ON ADMINISTRATIVE EXPENSES
 (INCLUDING TRANSFER OF FUNDS)

The conference agreement limits obligations for administrative expenses of the Federal Highway Administration (FHWA) to \$412,000,000, which is equal to the annualized level of contract authority under the latest surface transportation extension, P.L. 112–30, plus \$3,144,750 in carryover contract authority, plus \$16,000,000 in funds that the Secretary may transfer from the 14 discretionary highway programs, if necessary, to ensure proper oversight. The 14 programs impacted are: Delta Region Transportation Development; Ferry Boats Discretionary Projects; Highways for LIFE Demo Projects; Innovative Bridge Research & Deployment; Interstate Maintenance Discretionary; National Historic Covered Bridge Preservation; National Scenic Byways; Public Lands Highway Discretionary; Railway-Highway Crossings Hazard Elimination in HSR Corridors; Transportation, Community, and System Preservation; Truck Parking Pilot Program; Disadvantaged Business Enterprises Services; On-the-Job Training Services; and, Value Pricing Pilot Program.

In addition, the conferees provide \$3,220,000 in contract authority above this limitation for the administrative expenses of the Appalachian Regional Commission pursuant to 23 U.S.C. 104.

Information Technology Improvements.—The conferees recommend at least \$2,000,000 of funds provided should be for the Delphi system and accounting services, the IPv6 transition, and FHWA's share in the implementation of the financial management business transformation. These are important improvements to the administration of the federal-aid highways program.

FEDERAL-AID HIGHWAYS
 (LIMITATION ON OBLIGATIONS)
 (HIGHWAY TRUST FUND)

The conference agreement limits obligations for the federal-aid highways program to \$39,143,582,670 in fiscal year 2012, which is the annualized level of contract authority under the latest surface transportation extension, P.L. 112–30.

Solvency of Highway Trust Fund.—The conferees acknowledge this obligation limitation will deplete almost all resources from the Highway Trust Fund by the end of fiscal year 2012, causing the FHWA to begin cash-management procedures that may result in States not receiving timely reimbursement of highway construction expenses. Further, without enactment of a new surface transportation authorization bill with large amounts of additional revenues this year, the Highway Trust Fund will be unable to support a highway program in fiscal year 2013. The conferees strongly urge the committees of jurisdiction to enact surface transportation legislation that provides substantial long-term funding to continue the federal-aid highways program.

Commercial Motor Vehicle Parking.—The conferees direct FHWA to study the shortage of commercial motor vehicle parking,

including the impact of such on operators' compliance with federal safety requirements, and to report findings to the Committees on Appropriations within 180-days of enactment of this Act.

The conference agreement does not include a requirement for FHWA to report on transportation construction projects impacting local roads as proposed by the House.

Additionally, the conference agreement does not include a requirement for FHWA to investigate developing a comprehensive, department-wide corrosion analysis mitigation tool or a requirement for FHWA to report on the viability and cost-savings of developing such tool as proposed by the House.

(LIQUIDATION OF CONTRACT AUTHORIZATION)

(HIGHWAY TRUST FUND)

The conference agreement provides a liquidating cash appropriation of \$39,882,582,670, which is available until expended, to pay the outstanding obligations of the various highway programs at the levels provided in this Act and prior appropriations Acts. This level reflects the annualized contract authority provided under the latest surface transportation extension, P.L. 112-30, including contract authority both subject to and exempt from the obligation limitation.

EMERGENCY RELIEF

The conference agreement appropriates \$1,662,000,000 in additional funds for the Emergency Relief Program, which is available until expended, for qualifying emergency repair expenses relating to major disasters declared pursuant to the Stafford Act, 42 U.S.C. 5121 et seq.

The conference agreement waives the per-State, per-disaster cap of \$100,000,000 for certain disaster events in fiscal year 2011 relating to Hurricane Irene and flooding of the Missouri River. The conference agreement also directs the Secretary to extend the 180-day time period under 23 U.S.C. 120(e), in consideration of delays in a State's ability to access damaged facilities to evaluate damages and estimate the cost of such repairs, for eligible disasters in fiscal years 2011 and 2012.

RESCISSION

The conference agreement does not include a rescission of \$73,000,000 as proposed by the Senate.

ADMINISTRATIVE PROVISIONS—FEDERAL HIGHWAY ADMINISTRATION

Section 120 retains the provision as proposed by the Senate that distributes the federal-aid highways program obligation limitation.

Section 121 retains the provision as proposed by the House and the Senate that allows funds received by the Bureau of Transportation Statistics from the sale of data products to be credited to the federal-aid highways account.

Section 122 retains the provision as proposed by the House and the Senate that provides requirements for any waiver of Buy American requirements.

Section 123 retains the provision as proposed by the House and the Senate that prohibits tolling in Texas, with exceptions.

Section 124 retains with modification the provision proposed by the House that directs GAO to study how States and public transit authorities use their authority to transfer federal funds between the highway and transit programs and to submit a report within a year of enactment.

Section 125 retains with modification the provision proposed by the Senate that allows the State laws of Maine and Vermont regarding vehicle weight limitations to apply to all portions of the Interstate Highway System within each State, notwithstanding the requirements of 23 U.S.C. 127(a)(11), for a time period of approximately twenty years.

Section 126 is a new provision that allows the Secretary to transfer up to \$16,000,000 from discretionary federal-aid highway programs to the FHWA administrative expenses account.

The conference agreement does not include Sections 124 or 128, as proposed by the Senate.

(LIMITATION ON OBLIGATIONS)

(HIGHWAY TRUST FUND)

The conference agreement includes a liquidation of contract authorization and a limitation on obligations of \$247,724,000 for the operating and program expenses of the Federal Motor Carrier Safety Administration (FMCSA). Of this limitation, \$8,543,000 is to remain available for obligation until September 30, 2014, as proposed by the Senate; \$191,918,800 is recommended for operating expenses; and \$47,262,200 is recommended for program expenses. The conference agreement modifies the Senate direction to FMCSA to report on March 30, 2012 on the agency's ability to meet its requirement to conduct compliance safety reviews on high risk carriers.

The conference agreement also permanently rescinds \$1,000,000 in prior-year unobligated balances, as proposed by the Senate, to cover costs associated with FMCSA Administrative Provision 131.

ADMINISTRATIVE PROVISIONS—FEDERAL MOTOR CARRIER SAFETY
ADMINISTRATION

Section 130 retains the provision proposed by the House and the Senate that subjects funds appropriated in this Act to the terms and conditions of section 350 of Public Law 107–87 and section 6901 of Public Law 110–28, including that the Secretary submit a report on Mexico-domiciled motor carriers.

Section 131 retains the provision proposed by the Senate that does not require repayment of certain Commercial Vehicle Information Systems and Networks (CVISN) grant funds that were awarded improperly by FMCSA to States between 2006 and 2010.

NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION

OPERATIONS AND RESEARCH

The conference agreement provides \$140,146,000 from the general fund for operations and research, as proposed by the Senate. Of this amount, a total of \$20,000,000 shall remain available until September 30, 2013, as proposed by the Senate.

OPERATIONS AND RESEARCH

(LIQUIDATION OF CONTRACT AUTHORIZATION)

(LIMITATION ON OBLIGATIONS)

(HIGHWAY TRUST FUND)

The conference agreement provides a liquidating cash appropriation and an obligation limitation of \$109,500,000, to remain available until expended. Of the total, \$105,500,000 is provided for the highway safety research and development programs under 23 U.S.C. 403 and \$4,000,000 is provided for the National Driver Register under 49 U.S.C. 303, as proposed by the House and the Senate. Of the total limitation, \$20,000,000 shall remain available until September 30, 2013, and shall be in addition to any limitation imposed on obligations in future fiscal years, as proposed by the Senate.

Repurposed Seatbelt Grants Funding.—The conferees repurpose \$25,000,000 of the Safety Belt Performance Grants to fully fund the modernization of the National Automotive Sampling System (NASS). The conferees direct NHTSA to follow all directives contained in the Senate Committee report relating to the NASS

modernization, including those relating to enhanced data collection and new reporting requirements.

The conferees do not provide any repurposed Safety Belt Performance Grants funding to enhance the ongoing cooperative research effort between NHTSA and the Automotive Coalition for Traffic Safety to develop driver alcohol detection systems, or for the distracted driver program as proposed by the Senate.

Unsecured loads.—The conferees direct the GAO to report to the Committees on Appropriations on the various State laws, associated penalties, exemptions, and enforcement actions associated with unsecured loads within one year of enactment of this Act. Further, NHTSA is directed to collect and classify data from automobile accidents involving road debris as proposed by the Senate.

HIGHWAY TRAFFIC SAFETY GRANTS
(LIQUIDATION OF CONTRACT AUTHORIZATION)
(LIMITATION ON OBLIGATIONS)

Administrative Expenses	25,328,000

Distracted Driver.—The conferees direct NHTSA, in conjunction with the Centers for Disease Control (CDC), to conduct an analysis of available research on distracted driving, and to report on the extent to which electronic devices can be causally linked to the reported rise in fatal accidents or injuries involving distracted driving, as well as the impact distracted driving prevention laws and enforcement actions can have on motorist behavior.

ADMINISTRATIVE PROVISIONS—NATIONAL HIGHWAY TRAFFIC SAFETY
ADMINISTRATION

Section 140 retains the provision as proposed by the House and the Senate that provides funding for travel and related expenses for state management reviews and highway safety core competency development training.

Section 141 retains the provision as proposed by the House and the Senate that exempts obligation authority that was made available in previous public laws for multiple years from the limitations on obligations set for the current year.

Section 142 retains the provision as proposed by the House and Senate that prohibits the use of funds to implement 23 U.S.C. 404.

FEDERAL RAILROAD ADMINISTRATION

SAFETY AND OPERATIONS

The conference agreement provides \$178,596,000 for safety and operations of the Federal Railroad Administration (FRA) instead of \$180,867,000 proposed by the House and \$176,596,000 proposed by the Senate. Of the funds provided, \$12,300,000 is available until expended as proposed by the Senate.

Positive Train Control.—The conferees expect the FRA to complete the necessary PTC rulemakings, and directs the FRA to report to the House and Senate Appropriations Committees, by March 1, 2012, on (a) the status of the revisions under consideration and (b) the FRA assessment of the progress being made by the railroad carriers in complying with the PTC statutory deadlines.

RAILROAD RESEARCH AND DEVELOPMENT

The conference agreement provides \$35,000,000 for railroad research and development, instead of \$35,030,000 as proposed by the House and \$30,000,000 as proposed by the Senate. The conferees include funding for the research accounts as proposed by the House with the exception of R&D facilities and test equipment which shall be \$2,345,000.

RAILROAD REHABILITATION AND IMPROVEMENT FINANCING PROGRAM

The conference agreement authorizes the Secretary to issue notes or other obligations pursuant to section 512 of P.L. 94–210 as proposed by both the House and Senate.

NATIONAL RAILROAD PASSENGER CORPORATION (AMTRAK)

The conference agreement provides a total of \$1,418,000,000 for the operations, capital improvements and debt service to the National Railroad Passenger Corporation (Amtrak).

OPERATING SUBSIDY GRANTS TO THE NATIONAL RAILROAD PASSENGER CORPORATION

The conference agreement provides \$466,000,000 in operating grants to Amtrak instead of \$227,000,000 proposed by the House and \$544,000,000 proposed by the Senate.

Business plan.—The conference agreement includes language as proposed by the House that requires Amtrak to provide semi-annual reports in electronic format regarding the pending business plan as well as progress against the milestones and target dates contained in its financial performance improvement plan provided in fiscal year 2011. Further, these plans shall include a comprehensive fleet plan which shall establish year-specific goals and milestones and discuss potential, current and preferred financing options for all such activities.

The conference agreement includes bill language as proposed by the House which prohibits Amtrak from discounting tickets at

more than 50 percent off the normal, peak fare after March 1, 2012, unless the operating loss due to the discounted fare is covered by a State. The Senate did not propose a similar provision.

The conferees encourage Amtrak to carry \$200,000,000 in reserves within their Operating account, and encourage use of any favorable ticket revenue to get to this amount before using this favorable ticket revenue on Capital expenses unless such Capital expenses are necessary to ensure the safe operation and maintenance of the passenger rail system.

The conference agreement does not include a requirement for the Amtrak IG to report quarterly on Amtrak operational efficiencies and overhead expenses as proposed by the House as Section 207 of the Passenger Rail Investment and Improvement Act requires similar reporting requirements by the Federal Railroad Administration.

The conference agreement does not require Amtrak to report on plans to improve food and beverage service and first class service as proposed by the House.

The agreement adopts the Senate bill requirement that grants made after the first \$200,000,000 be provided only on a reimbursable basis.

Americans with Disabilities Act.—Under its compliance plan with the Americans with Disabilities Act (ADA), Amtrak would invest \$175,000,000 during fiscal year 2010 for necessary capital investments. The conferees understand that events outside of Amtrak's control delayed these investments. However, the conferees direct Amtrak to the best of its ability to maintain this plan for complying with the requirements of ADA, and modify bill language requiring Amtrak to invest no less than \$50,000,000 for ADA capital investments.

Rural transit.—In rural communities across the nation, the conferees believe that transit plays an important role in getting families and individuals from their homes to work, medical appointments and day-to-day activities. In order for rural transit service to be efficient, the community must effectively coordinate transit services among human service agencies and job providers. PUBLIC HOUSING CAPITAL FUND

The conference agreement provides \$1,875,000,000 for the Public Housing Capital Fund, as proposed by the Senate. The con-

ference agreement also provides \$50,000,000 for supportive services, service coordinators and congregate services as proposed by the Senate. The amount also includes \$20,000,000 for emergency capital needs, as proposed by the Senate, and \$10,000,000 for the public housing financial and physical assessment activities of REAC as proposed by the Senate instead of \$15,345,000 as proposed by the House.

The conferees direct the Department to report quarterly to the House and Senate Committees on Appropriations on the progress made at each PHA under receivership.

PUBLIC HOUSING OPERATING FUND

The conference agreement provides \$3,961,850,000 for the Public Housing Operating Fund as proposed by the Senate. The agreement provides that the Secretary shall not offset excess reserves by more than \$750,000,000, as proposed by the Senate. The language also provides for a process for PHAs to appeal reserve offsets, and a set-aside of \$20,000,000 to assist any PHAs that encounter financial hardship as a result of this offset.

The conferees direct HUD to submit an implementation plan to offset 2012 allocations based on reserve balances to the Committees on Appropriations within 30 days of the enactment of this Act. The conferees further direct HUD to include in its report a clear methodology for determining excessive reserves and the impact of the plan on each PHA.

The conference agreement includes language proposed by the Senate allowing for the Secretary to provide flexibility to PHAs on the use of excess operating reserves for capital improvements. The conferees direct the Secretary to establish clear guidance on how operating reserves can be used going forward, and in the interim expects this flexibility to be granted to PHAs to make capital improvements, but not to include large modernization projects.

CHOICE NEIGHBORHOODS INITIATIVE

The conference agreement provides \$120,000,000 for the Choice Neighborhoods Initiative, as proposed by the Senate. The conference agreement includes modifications to the language to ensure that the use of such funds doesn't result in housing units unintentionally being deemed as public housing, and ensuring the long-term affordability of rehabilitated housing units.

NATIVE AMERICAN HOUSING BLOCK GRANTS

The conference agreement provides \$650,000,000 for the Native American Housing Block Grants, as proposed by the Senate. These funds will remain available for obligation by HUD until September 30, 2016. When combined with a standard five-year contract term, tribes will have approximately ten years to spend these funds. The conference agreement directs HUD to notify grantees of the availability of funds within 60 days of enactment of this Act.

Timely Expenditure of Funds.—The conferees find it unconscionable that while there is significant need for affordable housing in Indian country, some tribes and TDHEs have not spent large amounts of block grant funding for several years, resulting in large

accumulated balances and reduced housing activities on tribal lands. For this reason, the conferees provide a time limit for this funding and strongly urge tribes to address housing needs in a timely manner.

The conferees note this account had nearly \$1,000,000,000 in unexpended balances at the beginning of fiscal year 2011, with almost half of that amount belonging to a single tribe. This tribe currently has over \$375,000,000 in unexpended funds, with funds dating back twelve fiscal years, and a HUD official testified this tribe was unresponsive to HUD's encouragement to address the backlog. Such large accumulated balances and decade-old unexpended funds call into question the present need for funding in this account. In times of scarce federal funding, all accounts come under closer scrutiny. It is in the interest of all 555 tribes that receive these grants to reduce the unexpended balances and to demonstrate current need through use of these funds.

GAO Study of Tribal Housing Challenges.—The conferees realize there are significant and unique challenges associated with tribal housing, many of which are not within the control of tribes. For this reason, the conferees direct GAO to study the unique barriers and challenges in tribal housing activities.

Technical Assistance.—Of the funds provided, the conference agreement includes \$2,000,000 to support inspection of Indian housing units, contract expertise, training, and technical assistance by HUD. The conferees direct HUD to provide valuable assistance to tribes, especially those with capacity challenges and those receiving small grant awards. Such assistance should reflect the unique needs and culture of Native Americans and include services necessary to improve data collection and increase leveraging.

In addition, the conference agreement includes \$2,000,000 for national or regional organizations representing Native American housing interests to provide training and technical assistance to Indian housing authorities and tribally designated housing entities. The conferees intend these funds to be distributed through a competitive process.

The conference agreement does not include a requirement for HUD's Office of Policy Development and Research to submit a report to the House and Senate Committees on Appropriations proposing alternative data sources for the block grant formula, as proposed by the House.

NATIVE HAWAIIAN HOUSING BLOCK GRANT

The conference agreement provides \$13,000,000 for the Native Hawaiian Housing Block Grant, to remain available until expended, as proposed by the Senate.

INDIAN HOUSING LOAN GUARANTEE FUND PROGRAM ACCOUNT

The conference agreement includes language allowing 20 percent of formula funds to be used for planning, management, and administration, as proposed by the Senate. The conferees direct the Government Accountability Office to issue a report on how communities use these funds.

Matching Funds.—The conferees direct the Department to provide an analysis of how much CDBG funding is used by grantees as matching dollars for other federal programs. The conferees also direct the Department to gather data on the use of fiscal year 2012 CDBG funds to match other federal programs, including which programs are being matched, in what amounts, for what purposes, whether other funds are leveraged, and any other relevant data.

Sustainable Communities.—The conference agreement does not include funding for the Senate proposed Sustainable Communities Initiative and does not include language proposed by the House prohibiting the use of any funds for the Sustainable Communities Initiative. While direct funding for the Sustainable Communities Initiative is not included in the conference agreement, the conferees remind the Secretary and CDBG formula fund recipients that sustainable activities are an eligible use of formula funds. The conferees support coordination by the Departments of Transportation and Housing and Urban Development to reduce duplication of federal investments. The Secretary may use the Office of Sustainable Housing and Communities and the technical assistance resources of the Transformation Initiative to identify opportunities for communities to work together to integrate transportation and housing and to assist local grantees in performing these activities.

The conferees do not include any directives relating to Regional Integrated Planning Grants, which are not funded in the conference agreement.

Disaster Funding.—The conference agreement provides that of the funds made available for the Community Development Fund, up to \$300,000,000 plus an additional \$100,000,000 in disaster

funds is available for necessary and eligible expenses related to disaster relief and long-term recovery in the most impacted and distressed areas resulting from major disasters in 2011, as declared pursuant to the Stafford Act. The conference agreement further provides that these funds may not be used on activities for which funding already is made available by FEMA or the Army Corps of Engineers.

HOME INVESTMENT PARTNERSHIPS PROGRAM

The conference agreement provides \$1,000,000,000 for this account, as proposed by the Senate. These funds will remain available until September 30, 2014.

Program Oversight.—The conferees direct HUD, in its report to the Committees on Appropriations pursuant to Section 232 of this Act, to include an explanation of how HUD is monitoring and evaluating grantee performance in the HOME program, including how participating jurisdictions get approval to restart a stalled or cancelled project.

The conferees also direct HUD to provide a report by March 16, 2012, and annually thereafter, on all HOME funds that are 5 years old or older.

SELF-HELP AND ASSISTED HOMEOWNERSHIP OPPORTUNITY PROGRAM

The conference agreement provides \$53,500,000 for this account, to remain available until September 30, 2014. Of the total, \$13,500,000 is provided for the SHOP program and \$35,000,000 is provided for the second, third and fourth capacity building activities authorized under section 4(b)(3), of which not less than \$5,000,000 may be for rural capacity building activities. In addition, \$5,000,000 is provided for capacity building activities by national organizations with expertise in rural housing, as similarly proposed by the House and the Senate. The conference agreement directs HUD to notify grantees of the availability of funds within 60 days of the date of enactment of this Act.

CAPACITY BUILDING

The conference agreement does not include funding for Section 4 Capacity Building as a separate account, as proposed by the House.

HOMELESS ASSISTANCE GRANTS

(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$1,901,190,000 for Homeless Assistance Grants, as proposed by the House and the Senate. Of the amount provided, not less than \$250,000,000 is for the emergency solutions grants (ESG) program; not less than

\$1,593,000,000 is for the continuum of care and rural housing stability assistance program; and \$7,000,000 is for the national homeless data analysis project. The conferees have provided sufficient funding to ensure the renewal of all eligible projects under the continuum of care competition. The conferees direct any remaining funding to be put towards the ESG and rural housing stability programs.

Delayed Implementation of HEARTH.—The conferees note it has been two and a half years since the HEARTH Act amended the homeless assistance grant programs. The conferees express concern that HUD continued to implement pre-HEARTH grant programs in fiscal year 2011, due to a lack of regulations. The conferees direct HUD to publish at least interim guidelines for the Emergency Solutions Grants and Continuum of Care this fiscal year and to implement the new grant programs as soon as possible, so that the updated policies and practices in HEARTH can begin to govern the delivery of homeless assistance funding.

HOUSING PROGRAMS

PROJECT-BASED RENTAL ASSISTANCE

The conference agreement provides \$9,339,672,000 for project-based rental assistance activities, as opposed to \$9,428,672,000 as proposed by the House and \$9,418,672,000 as proposed by the Senate. The conference agreement also provides an advance appropriation of \$400,000,000 for fiscal year 2013. The conference agreement provides \$9,050,672,000 for contract renewals and not to exceed \$289,000,000 for contract administrators. This funding level reflects revised cost estimates from HUD based on updated projections and programmatic reforms that result in significant cost savings.

HOUSING FOR THE ELDERLY

The conference agreement provides \$374,627,000 for the section 202 program, instead of \$600,000,000 as proposed by the House and \$369,627,000 as proposed by the Senate. The conference agreement provides that up to \$91,000,000 shall be for service coordinators and existing congregate service grants as proposed by the Senate, and up to \$25,000,000 shall be for the conversion of eligible projects to assisted living or emergency capital repairs as proposed by the House. The conference agreement does not include funds for new construction.

HOUSING FOR PERSONS WITH DISABILITIES

The conference agreement provides \$165,000,000 for the section 811 program, instead of \$196,000,000 as proposed by the House and \$150,000,000 as proposed by the Senate. The conference agreement does not include funds for new construction. The conference agreement also provides the Secretary with the authority to fund activities authorized under section 811(b)(3) of the Cranston-Gonzalez National Affordable Housing Act to allow for project rental assistance to State housing finance agencies and other appropriate entities.

HOUSING COUNSELING ASSISTANCE

The conference agreement provides \$45,000,000 for Housing Counseling Assistance, instead of \$60,000,000 as proposed by the Senate. The House did not propose funding this account. The conference agreement includes Senate language requiring HUD to award this funding within 120 days of enactment.

The conferees direct HUD to submit a report on the reforms HUD is proposing in establishing a new Housing Counseling Office within the Office of Housing. This report, due within 90 days of enactment, should address how the Department is prepared to expend funds effectively, how HUD will focus its activities to reduce duplication of other government-funded programs, how many FTE will be needed for this activity, and what steps will be taken to streamline the grant making process.

OTHER ASSISTED HOUSING PROGRAMS

RENTAL HOUSING ASSISTANCE

The conference agreement provides \$1,300,000 for Section 236 payments to State-aided, non-insured projects, as proposed by the Senate, instead of \$15,733,000 as proposed by the House.

RENT SUPPLEMENT

(RESCISSION)

The conference agreement rescinds \$231,600,000 from the Rent Supplement account, as proposed by Senate.

PAYMENT TO MANUFACTURED HOUSING FEES TRUST FUND

The conference agreement provides \$6,500,000 for authorized activities, of which \$4,000,000 is to be derived from the Manufactured Housing Fees Trust Fund, instead of \$7,000,000 to be fully funded by the Trust Fund as proposed by the House, and \$9,000,000, of which \$4,000,000 to be funded by the Trust Fund as proposed by the Senate.

The conferees are perplexed by the paucity of information provided in the Congressional Justification for the Manufactured Housing Fees Trust Fund. Given the information HUD has provided, it is hard to make a rational case for any funding for the Fund. Fortunately, HUD has provided the Committees with additional information that illuminates the uniquely Federal role the Fund plays in the housing market. HUD must provide the Congress with adequate, appropriate and accurate information in its future budget justifications.

FEDERAL HOUSING ADMINISTRATION

MUTUAL MORTGAGE INSURANCE PROGRAM ACCOUNT

(INCLUDING TRANSFERS OF FUNDS)

The conference agreement establishes a limitation of \$400,000,000 on commitments to guarantee single-family loans during fiscal year 2012, as proposed by the House and Senate.

The conference agreement establishes a \$25,000,000,000 limitation on multifamily and specialized loan guarantees during fiscal year 2012, as proposed by the House and Senate. The conference agreement does not provide a subsidy, as proposed by the Senate, instead of \$8,600,000 in subsidy as proposed by the House.

The conferees direct the Department to provide a report to the House and Senate Committees on Appropriations within 90 days of the enactment of this Act on its efforts to streamline inspections of facilities insured under Section 232 of the National Housing Act and those which the state or local government already inspects in accordance with the guidance of the Centers for Medicare & Medicaid Services (CMS) or applicable state or local law. This report should include timeframe for issuing rules related to these inspections and implementation of new procedures.

The conference agreement includes \$300,000 to continue the translation and promotion of materials to assist persons with limited English proficiency, as proposed by the Senate.

OFFICE OF HEALTHY HOMES AND LEAD HAZARD CONTROL

LEAD HAZARD REDUCTION

The conference agreement provides \$120,000,000 for the Lead Hazard Reduction program, as proposed by the Senate. Of this amount, the conference agreement includes up to \$10,000,000 for the Healthy Homes Initiative, as similarly proposed by the House, and \$45,000,000 for areas with the highest lead abatement needs, as proposed by the Senate.

WORKING CAPITAL FUND

The conference agreement includes \$199,035,000 for the Working Capital Fund (WCF), instead of \$218,460,000 as proposed by the House and \$192,475,000 as proposed by the Senate. The conferees concur with the Senate proposal to fund the salaries and expenses of the WCF under the Administration, Operations and Management account and the requirement that GAO continues to audit, evaluate and report on HUD's IT spend plans, program oversight and IT management.

OFFICE OF INSPECTOR GENERAL

The conference agreement provides \$124,000,000 for the Office of Inspector General, as opposed to \$115,000,000 as proposed by the House and \$124,750,000 as proposed by the Senate.

The conferees are concerned about the number of HUD IG field offices and their associated costs, and direct the IG to conduct a review of its field office location policy. In conducting this review, the IG should look for opportunities to achieve efficiencies in its operations, and use existing performance measures such as cases and audits opened and closed, total dollars recovered, convictions made, program improvements identified, and other pertinent measures to determine potential cost savings and office consolidation. This review shall be completed within 180 days of enactment of this Act and delivered to the Committees on Appropriations of the House and Senate.

TRANSFORMATION INITIATIVE

The conference agreement provides \$50,000,000 for activities of the Transformation Initiative (TI), instead of \$49,745,000 as proposed by the House and a 0.5 percent takedown and transfer as

proposed by the Senate. Funds are available until September 30, 2014.

Of the funds provided, the conference agreement recommends funding the following activities: biennial NOFAs; continuation of the study on the impact of housing on young children; the disciplinary research team; continuation of the pre-purchase counseling study; continuation of the rent reform demonstration; independent PHA assessments, physical needs assessments, and technical assistance for troubled PHAs; the joint core skills certification proposal; Office of Native American Programs technical assistance; and the fair housing and equal opportunity assessment. Further, at least \$23,000,000 shall be for OneCPD.

The conferees will allow up to \$5,000,000 to be used for the National Resource Bank, provided that the Department can demonstrate a similar level of effort by its other Federal partners.

The Secretary may amend the activities proposed for the fiscal year 2012 Transformation Initiative through the reprogramming process with approval from the House and Senate Committees on Appropriations.
