

7. Section 17(d) and rule 17d-1 generally prohibit a registered investment company's joint or joint and several participation with an affiliated person in a transaction in connection with any joint enterprise or other joint arrangement without SEC approval. Under the Plan, participating directors will not receive a benefit that otherwise would inure to a Fund or its shareholders. Deferral of a director's fees in accordance with the Plan would essentially maintain the parties, viewed both separately and in their relationship to one another, in the same position (apart from tax effects) as would occur if the fees were paid on a current basis and then invested by the director directly in Designated Shares.

Applicants' Conditions

Applicants agree that the order granting the requested relief shall be subject to the following conditions:

1. With respect to the requested relief from rule 2a-7, any money market Fund that values its assets by the amortized cost method will buy and hold Designated Shares that determine the performance of Deferral Accounts to achieve an exact match between the liability of such Fund to pay Compensation Deferrals and the assets that offset that liability.

2. If a Fund purchases Designated Shares issued by an affiliated Fund, the Fund will vote such shares in proportion to the votes of all other holders of shares of such affiliated Fund.

For the Commission, by the Division of Investment Management, under delegated authority.

Margaret H. McFarland,
Deputy Secretary.
