

notice is being published less than 15 days before the date of meeting due to programmatic issues that had to be resolved prior to publication.

Minutes

The minutes of this meeting will be available for public review and copying at the Freedom of Information Public Reading Room, 1E-190, Forrestal Building, 1000 Independence Avenue, SW, Washington, DC 20585 between 9:00 a.m. and 4 p.m., Monday-Friday, except Federal holidays. Minutes will also be available by writing to Herman Le-Doux, Department of Energy, Los Alamos Area Office, 528 35th Street, Los Alamos, NM 87185-5400.

Issued at Washington, DC, on September 21, 1995.

Rachel M. Samuel,
*Acting Deputy Advisory Committee
Management Officer.*

BILLING CODE 6450-01-P

[FE Docket No. PP-108]

Application for Presidential Permit; Arizona Public Service Company

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: Arizona Public Service Company (APS) has applied for a Presidential Permit in order to construct a new transmission facility at the U.S. border with Mexico.

DATES: Comments, protests or requests to intervene must be submitted on or before October 26, 1995.

ADDRESSES: Comments, protests or requests to intervene should be addressed as follows: Office of Coal & Electricity (FE-52), Office of Fuels Programs, Office of Fossil Energy, Department of Energy, 1000 Independence Avenue, SW, Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT: Warren E. Williams (Program Office) 202-586-9629 or Mike Skinker (Program Attorney) 202-586-6667.

SUPPLEMENTARY INFORMATION: The construction, connection, operation, and maintenance of facilities at the international border of the United States for the transmission of electrical energy is prohibited in the absence of a Presidential permit pursuant to Executive Order No. 12038. Exports of electricity from the United States to a foreign country are also regulated and require authorization under section 202(e) of the Federal Power Act.

On June 22, 1995, APS filed an application with the Office of Fossil

Energy (FE) of the Department of Energy (DOE) for a Presidential permit. This application has been docketed as PP-108. In its application, APS proposes to construct, connect, operate and maintain facilities for the transmission of electricity between the United States and Mexico from a point near San Luis, Yuma County, Arizona, to the international border adjacent to San Luis, Sonora, Mexico. APS proposes to build a new 34.5 kV line running south 1.3 miles from the APS San Luis Substation along the east side of Avenue H1/2 to Avenue A, where it will shift to the west side of Avenue H1/2 and continue south to a point immediately north of the International Boundary and Water Commission 60-foot wide right-of-way. The line will then turn northwesterly and run parallel to the border for 1.5 miles, then turn south and intersect the international border at latitude 32° 29' 8.937" north and longitude 114° 47' 04.001" west. APS has named this proposed facility the "Canal Line."

Procedural Matters

Any person desiring to be heard or to protest this application should file a petition to intervene or protest at the address provided above in accordance with 385.211 or 385.214 of the Rules of Practice and Procedure (18 CFR 385.211, 385.214).

Any such petitions and protests should be filed with the DOE on or before the date listed above. Additional copies of such petitions to intervene or protest also should be filed directly with: Dennis Beals, Manager, Bulk Power Trading & Customer Services, Arizona Public Service Company, P.O. Box 53999, Station 9860, Phoenix, AZ 85072-3999 and Bruce A. Gardner, Esq., Senior Attorney, Arizona Public Service Company, P.O. Box 53999, Station 9820, Phoenix, AZ 85072-3999.

Pursuant to 18 CFR 385.211, protests and comments will be considered by the DOE in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene under 18 CFR 385.214. Section 385.214 requires that a petition to intervene must state, to the extent known, the position taken by the petitioner and the petitioner's interest in sufficient factual detail to demonstrate either that the petitioner has a right to participate because it is a State Commission; that it has or represents an interest which may be directly affected by the outcome of the proceeding, including any interest as a consumer, customer, competitor, or security holder

of a party to the proceeding; or that the petitioner's participation is in the public interest.

A final decision will be made on the application for Presidential permit contained in docket PP-108 after a determination is made by the DOE that the proposed action is in the public interest and will not adversely impact on the reliability of the U.S. electric power supply system.

Before a Presidential permit or electricity export authorization may be issued or amended, the environmental impacts of the proposed DOE action must be evaluated pursuant to the National Environmental Policy Act of 1969 (NEPA).

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above.

Issued in Washington, DC, on September 21, 1995.

Anthony J. Como,

Director, Office of Coal & Electricity, Office of Fuels Programs, Office of Fossil Energy.

BILLING CODE 6450-01-P

Certification of the Radiological Condition of the Wayne Site Vicinity Properties in Wayne, NJ, 1993

AGENCY: Department of Energy.

ACTION: Notice of Certification.

SUMMARY: The Department of Energy (DOE) has completed remedial action to decontaminate eight vicinity properties and portions of the Peck Avenue right-of-way at the Wayne Site in Wayne, New Jersey. These properties were found to contain quantities of radioactive material from activities conducted at the former W. R. Grace and Company facility in Wayne. Radiological surveys show that the properties now meet applicable requirements for unrestricted use. The docket relating to the remedial action is available for inspection and copying at the following addresses.

ADDRESSES: Public Reading Room, Room 1E-190, Forrestal Building, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585

Public Document Room, Oak Ridge Operations Office, U.S. Department of Energy, Oak Ridge, Tennessee 37831
DOE Wayne Information Center, 868 Black Oak Ridge Road, Wayne, New Jersey 07470

FOR FURTHER INFORMATION CONTACT: James W. Wagoner II, Director, Off-Site/Savannah River Program Division, Office of Eastern Area Programs, Office of Environmental Restoration (EM-421),

U.S. Department of Energy, Washington, D.C. 20585, (301) 903-2531 Fax: (301) 903-2461.

SUPPLEMENTARY INFORMATION: The DOE, Office of Environmental Management, has conducted remedial action at eight vicinity properties and portions of the Peck Avenue right-of-way at the Wayne Site in Wayne, New Jersey, as part of the Formerly Utilized Sites Remedial Action Program (FUSRAP). The objective of the program is to identify and remediate or otherwise control sites where residual radioactive contamination remains from activities carried out under contract to the Manhattan Engineer District/Atomic Energy Commission during the early years of the nation's atomic energy program or from commercial operations. Congress assigned responsibility for the Wayne site to DOE in 1984 under the Energy and Water Development Appropriations Act for 1984, Public Law Number 98-50; the site was then assigned to FUSRAP.

From 1948 to 1971, the former W. R. Grace facility, located at 868 Black Oak Ridge Road, received and processed monazite sands, an ore rich in radioactive material, from several sources throughout the world. U.S. Department of Commerce records indicate that substantial quantities of the sands were received and processed at the site.

The now-abandoned Pompton Plains railroad spur of the New York, Susquehanna, and Western Railroad was used to convey the monazite sands to the W. R. Grace facility. The railroad spur, located approximately 1 mile west of the facility, was the point where the source material (i.e., the monazite sands) was transferred from rail cars to trucks for delivery to the W. R. Grace processing plant. The bags of monazite sand were placed on pallets on the trucks, which were then driven west down Peck Avenue to the Pompton Turnpike, south to the Pompton Plains Cross Road, and east to the W. R. Grace facility. The portion of the property where Peck Avenue abuts the railroad spur became radioactively contaminated by spills of unprocessed monazite sands that occurred during transfer of the material from rail cars to trucks.

The radioactive contamination and associated metals contamination were confined primarily to the area used for unloading monazite sands. However, radiological surveys of nearby residential properties along Peck Avenue indicate that some of this material either migrated westward on Peck Avenue during floods or was physically relocated for use as backfill

or landscape material. Radiological surveys also indicated that the residential property adjacent to the former W. R. Grace facility contained radioactive contamination above cleanup guidelines. This property is suspected to have become contaminated either by surface water runoff during operations at the former processing facility, or by physical relocation of the material from the processing plant.

Post-remedial action surveys have demonstrated, and DOE has certified, that the subject properties are in compliance with DOE radiological decontamination criteria and standards established under DOE Order 5400.5 to protect members of the general public and occupants of the properties, and to ensure that future use by the general public or site occupants of the properties will result in no radiological exposure above applicable radiological guidelines.

These findings are supported by the DOE Certification Docket for the Remedial Action Performed at the Wayne Site Vicinity Properties in Wayne, New Jersey, 1993. Accordingly, these properties are released from FUSRAP.

The certification docket will be available for review between 9:00 a.m. and 4:00 p.m., Monday through Friday (except Federal holidays) in the DOE Public Reading Room located in Room 1E-190 of the Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. 20585. Copies of the certification docket will also be available in the DOE Public Document Room, U.S. Department of Energy, Oak Ridge Operations Office, Oak Ridge, Tennessee 37831 and at the DOE Wayne Information Center, 868 Black Oak Ridge Road, Wayne, New Jersey 07470.

DOE, through its Oak Ridge Operations Office, has issued the following statement:

Statement of Certification: Wayne Site Vicinity Properties in Wayne, New Jersey

DOE Oak Ridge Operations Office, Former Sites Restoration Division, has reviewed and analyzed the radiological data obtained following remedial action at the Wayne site vicinity properties. Based on analysis of all data collected, DOE certifies that the following properties are in compliance with DOE radiological decontamination criteria and standards. This certification of compliance provides assurance that future use of the properties will result in no radiological exposure above applicable guidelines established to protect members of the general public and occupants of the properties.

Property owned by Township of Pequannock, Peck Avenue Right of Way (no deed reference), Passaic County, New Jersey

Property owned by Ms. Bertha Barrett, Parcel 238/23, Deed/Plat Book 3749, Page 313, Passaic County, New Jersey

Property owned by Mr. Frederick M. Vicine, Parcel 22-238, Deed/Plat Book G67, Page 392, Passaic County, New Jersey

Property owned by Mr. Michael Galiano, Parcel 21/238, Deed/Plat Book 045, Page 447, Passaic County, New Jersey

Property owned by Ms. Linda S. Perry, Parcel 6-237, Deed/Plat Book 2915, Page 707, Passaic County, New Jersey

Property owned by Mr. Charles A. Lundy, Parcel 20-238, Deed/Plat Book 3441, Page 310, Passaic County, New Jersey

Property owned by Mr. John Rotchford, Parcel 19-238, Deed/Plat Book 3610, Page 055, Passaic County, New Jersey

Property owned by New York, Susquehanna, and Western Railway Corp., Parcel 200/4, Deed/Plat Book EB3493, Page 305, Passaic County, New Jersey

Property owned by Mrs. Jean Konecny, 898 Black Oak Ridge Road, Wayne (Morris County), New Jersey

Issued in Washington, D.C., on September 19, 1995.

James M. Owendoff,

Deputy Assistant Secretary for Environmental Restoration.

BILLING CODE 6450-01-P

Federal Energy Regulatory Commission

[Docket Nos. ST95-3148-000 et al.]

Florida Gas Transmission Company; Notice of Self-Implementing Transactions

September 20, 1995.

Take notice that the following transactions have been reported to the Commission as being implemented pursuant to Part 284 of the Commission's Regulations, Sections 311 and 312 of the Natural Gas Policy Act of 1978 (NGPA) and Section 7 of the NGA and Section 5 of the Outer Continental Shelf Lands Act.¹

The "Recipient" column in the following table indicates the entity receiving or purchasing the natural gas in each transaction.

¹ Notice of a transaction does not constitute a determination that the terms and conditions of the proposed service will be approved or that the noticed filing is in compliance with the Commission's regulations.
