

compliance assistance through state programs.

Title: Measures of Success for Compliance Assistance Reporting Form. EPA ICR 1758.02. OMB Control Number XXX-XXX.

Abstract: This will be a voluntary collection of program information on the accomplishments of state and regional compliance assistance programs other than those operating under Section 507 of the Clean Air Act (CAA), which will be reporting the same information as part of a larger information collection request being conducted by EPA's Small Business Ombudsman Office pursuant to the requirement of that statute. The information will be collected so that EPA can better understand the effectiveness of compliance assistance programs vis a vis enforcement programs and so that success stories can be shared between state programs. This is a voluntary information collection request. The information will be used by EPA's Office of Enforcement and Compliance Assurance (OECA) in order to evaluate the effectiveness of regional and state compliance assistance programs as a supplementary tool to traditional enforcement methods. EPA regions and state programs will also use the information to learn about other compliance assistance programs. This information collection request will require a burden for third-parties; namely, the small businesses receiving the compliance assistance. States will be asking them about their increased knowledge of regulatory obligations and behavioral changes that result from the compliance assistance offered.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: The number of state respondents is estimated to be 106 and they will be responding annually. The total annual recordkeeping burden for states is estimated to be 212 hours.

The total annual reporting burden for states is estimated to be 2,438 hours. The average estimated total burden hours per state respondent is 25 hours. The number of third party respondents is expected to be 3,180. The total burden hours for third-parties is expected to be 3,180. The overall total burden hours is 5,618. The average estimated total burden hours per respondent is 1.7 hours. No person is required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are displayed in 40 CFR Part 9.

Send comments regarding these matters, or any other aspect of the information collection, including suggestions for reducing the burden, to the address listed above.

Dated: October 30, 1995.
