Federal Acquisition Regulation; Certification Requirements

AGENCIES: Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Final rule.

SUMMARY: The Civilian Agency Acquisition Council and the Defense

Acquisition Regulations Council have agreed on a final rule to amend the Federal Acquisition Regulation (FAR) to remove particular certification requirements for contractors and offerors. This final rule implements Section 4301(b) of Public Law 104-106. This regulatory action was not subject to Office of Management and Budget review under Executive Order 12866, dated September 30, 1993, and is not a major rule under 5 U.S.C. 804.

EFFECTIVE DATE: January 1, 1997.

For general information, contact the FAR Secretariat, Room 4037, GS Building, Washington, DC 20405, (202) 501-4755. Please cite FAC 90-45, FAR case 96-312. SUPPLEMENTARY INFORMATION:

A. Background

This final rule amends FAR Parts 1, 3, 4, 6, 8, 9, 12, 14, 16, 19, 23, 27, 29, 31, 32, 36, 37, 42, 45, 47, 49, 52, and 53 to remove particular certification requirements for contractors and offerors. The rule implements Section 4301(b) of the Clinger-Cohen Act of 1996 (Public Law 104-106). Section 4301(b) required the Administrator, Office of Federal Procurement Policy, to issue for public comment a proposal to remove from the FAR those certification requirements for contractors and offerors that are not specifically imposed by statute. A proposed rule was published in the Federal Register on September 12, 1996 (61 FR 48354).

Thirty comments were received from seven respondents. All comments were considered in the development of the final rule.

In response to the public comments, FAR 52.242-4, Certification of Indirect Costs, was amended to reduce the scope of the certification requirement and to remove the requirement to certify under penalty of perjury. The requirement at FAR 32.304-8 to provide certificates also was removed, and an editorial change was made at FAR 52.215-35 to substitute the word "offer" for "bid" in paragraph (a).

The certification at 52.213-1, Fast Payment, is being retained for several reasons: (a) One large industry trade organization, in its public comments, acknowledged that this certification is useful and potentially beneficial to industry; (b) The Government has higher confidence in the accuracy of the request for payment, since it is expected to receive a higher degree of scrutiny by the contractor before it is certified and submitted; and (c) The payment office is frequently separate and distinct from the contract administration office, and the certification provides the paying office with documentation that the items have been delivered independent of a separate source inspection documentation.

Several certifications associated with Foreign Contracting had been proposed for elimination. However, upon consideration of public comments received in response to the proposed rule, these certifications were retained, because the self-policing discipline of a certification requirement is important to enforcing a national policy grounded in

vital economic and security interests. The Government believes that elimination of these certification requirements would have created a need for offerors to submit more detailed information regarding the origin of offered products. Therefore, the certification is viewed as a less burdensome alternative. The certification required by 52.223-1, Clean Air and Water Certification, has been retained because the Government has concluded that the certification is the least burdensome and most effective way to avoid entering into a contract with a Clean Air Act or Clean Water Act violator. In the near future, we will be publishing for public comment a proposal to substitute a more limited clean air and water certification and a Clean Air and Water Act notification for commercial items. An associated change is made in FAR case 93-310, Item VI of this FAC. The certification required by 52.223-1, Clean Air and Water Certification, was also revised and retained because the Government concluded that it would be the least burdensome and most effective way to avoid entering into a contract with a Clean Air Act or Clean Water Act Violator. Interested parties are invited to submit comments on the retention of these certification requirements. Please cite Holding File 96-708-01, Regulatory Reform—Certifications, in correspondence. Comments should be limited to the retention of the following certifications for contractors and offerors which were proposed for elimination but have been retained as a result of the analysis of public comments.

B. Regulatory Flexibility Act

This final rule is expected to have a significant beneficial impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, et seq., because it reduces the number of certifications that offerors and

contractors must provide to the Government. A Final Regulatory Flexibility Analysis (FRFA) has been prepared and will be provided to the Chief Counsel for Advocacy of the Small Business Administration. A copy of the FRFA may be obtained from the FAR Secretariat. The analysis is summarized

as follows: The objective and legal basis for this rule is Section 4301(b) of the Clinger-Cohen Act of 1996 (Public Law 104-106). The rule implements Section 4301(b) by amending the FAR to remove particular certification requirements for contractors and offerors.

There were no public comments received in response to the initial regulatory flexibility analysis. Several changes were made in the final rule as a result of public comments received in response to the proposed rule. All of the certifications required by FAR Part 25 have been retained. The certification required by FAR 52.223-1 was also retained. The Certification of Final Indirect Costs at FAR 52.242-4 was revised to remove the requirement to sign the certification under penalty of perjury, and the requirement to provide certificates was deleted from FAR 32.304-8.

The rule will apply to all bidders or offerors, and contractors, large and small, whose direct economic interests would be affected by the award or failure to award a Government contract. The number of small entities to which the rule will apply is estimated to be between 35,000 and 45,000. This rule does not impose any additional reporting, recordkeeping, or other compliance requirements.

This rule is expected to have a beneficial impact on small entities by deleting existing certification requirements that are not required by statute.

C. Paperwork Reduction Act

The Paperwork Reduction Act (Public Law 96-511) is deemed to apply because the final rule eliminates existing recordkeeping and information collection requirements approved by the Office of Management and Budget (OMB) under OMB Control Numbers 9000-0017, and 9000-0111. A paperwork burden of 67,375 hours is eliminated.
