

**Burden Statement:** In the ICR for 1994–1996, the total burden associated with this ICR was estimated to be approximately 11 million hours per year and the total cost was estimated to be \$365 million per year. We expect that the burden for the continuing ICR for 1997–1999 will be in the same range as the three previous years. EPA intends to examine how SDWIS could assist in reducing the burden on the States for reporting requirements and will be working with selected State officials as we work on this renewal. Any recommendations from the drinking water community and the general public on this issue will be given consideration by the Agency.

#### SUPPLEMENTARY INFORMATION:

##### 1. Transfer of Confidential Business Information

The U.S. Environmental Protection Agency is using biennial report data to establish a national data base on hazardous waste generation, management, and minimization. These data will be used to characterize the demographics of and trends in hazardous waste generation, management and minimization. Under EPA Contract No. 68–W1–0055, SAIC, Inc., its subsidiary GSC, and its subcontractors will assist the Information Management Branch, Communications, Information, and Resources Management Division, Office of Solid Waste, in establishing the national data base and preparing the national report based on those analyses. Some of the information being transferred may be claimed as Confidential Business Information (CBI).

In accordance with 40 CFR 2.305(h), EPA has determined that SAIC, Inc., its subsidiary GSC, and its subcontractors require access to CBI submitted to EPA under the authority of RCRA to perform work satisfactory under the above noted contract.

EPA is issuing this notice to inform all submitters of CBI on the 1989, 1991, 1993, 1995 and 1997 Hazardous Waste Report Forms (EPA Form 8700–13 A/B), or State developed biennial report forms, that EPA may transfer to these firms, on a need-to-know basis, CBI collected under the authority of RCRA. Upon completing their review of materials submitted, SAIC will return all material to EPA.

SAIC, Inc., its subsidiary GSC, and its subcontractors have been authorized to have access to RCRA CBI under the EPA “Contractor Requirements for the Control and Security of RCRA Confidential Business Information Security Manual.” EPA will approve the security plans of the contractors to ensure that their facilities comply with security procedures outlined in the security manual prior to RCRA CBI being transmitted to the contractors. Contractor personnel will be required to sign non-disclosure agreements and will be briefed on appropriate security procedures before they are permitted access to confidential information.
