Revision of Patent and Trademark Fees for Fiscal Year 1998

AGENCY: Patent and Trademark Office, Commerce.

ACTION: Final rule.

SUMMARY: The Patent and Trademark Office (PTO) is amending the rules of practice in patent and trademark cases to adjust certain patent fee and trademark service fee amounts to reflect fluctuations in the Consumer Price Index (CPI) and to recover costs of operation.

EFFECTIVE DATE: October 1, 1997.

FOR FURTHER INFORMATION CONTACT: Matthew Lee by telephone at (703) 305-8051, fax at (703) 305-8007, or by mail marked to his attention and addressed to the Commissioner of Patents and Trademarks, Office of Finance, Crystal Park 1, Suite 802, Washington, DC 20231.

SUPPLEMENTARY INFORMATION: This rule change is designed to adjust PTO fees in accordance with the applicable provisions of title 35, United States Code; section 31 of the Trademark (Lanham) Act of 1946 (15 U.S.C. 1113); and section 10101 of the Omnibus Budget Reconciliation Act of 1990 (as amended by section 8001 of Public Law 103-66), all as amended by the Patent and Trademark Office Authorization Act of 1991 (Pub. L. 102-204).

When the "Revision of Patent and Trademark Fees for Fiscal Year 1998" was published as a proposed rule, the PTO assumed that the fee revisions would not become effective until after the "1996 Changes to Patent Practice and Procedure" (hereinafter "Miscellaneous Changes"). See 61 FR 49819 (Sept. 23, 1996) (proposed Miscellaneous Changes rule). The changes proposed in the fee revision notice of proposed rulemaking have been modified to take into account that the fee revision rule will become effective before the Miscellaneous Changes rulemaking.

Background

Statutory Provisions

Patent fees are authorized by 35 U.S.C. 41 and 35 U.S.C. 376. A fifty percent reduction in the fees paid under 35 U.S.C. 41 (a) and (b) by independent inventors, small business concerns, and nonprofit organizations who meet prescribed definitions is required by 35 U.S.C. 41(h).

Subsection 41(f) of title 35, United States Code, provides that fees established under 35 U.S.C. 41 (a) and (b) may be adjusted on October 1, 1992, and every year thereafter, to reflect fluctuations in the Consumer Price Index (CPI) over the previous twelve months.

Section 10101 of the Omnibus Budget Reconciliation Act of 1990 (amended by section 8001 of Public Law 103-66) provides that there shall be a surcharge on all fees established under 35 U.S.C. 41(a) and (b) to collect \$119 million in fiscal year 1998.

Subsection 41(d) of title 35, United States Code, authorizes the Commissioner to establish fees for all other processing, services, or materials related to patents to recover the average cost of providing these services or materials, except for the fees for recording a document affecting title, for

each photocopy, and for each black and white copy of a patent.

Section 376 of title 35, United States Code, authorizes the Commissioner to set fees for patent applications filed under the Patent Cooperation Treaty (PCT).

Subsection 41(g) of title 35, United States Code, provides that new fee amounts established by the Commissioner under section 41 may take effect thirty days after notice in the **Federal Register** and the Official Gazette of the Patent and Trademark Office.

Section 31 of the Trademark (Lanham) Act of 1946, as amended (15 U.S.C. 1113), authorizes the Commissioner to establish fees for the filing and processing of an application for the registration of a trademark or other mark, and for all other services and materials relating to trademarks and other marks.

Section 31(a) of the Trademark (Lanham) Act of 1946 (15 U.S.C. 1113(a)), as amended, allows trademark fees to be adjusted once each year to reflect, in the aggregate, any fluctuations during the preceding twelve months in the CPI.

Section 31 also allows new trademark fee amounts to take effect thirty days after notice in the **Federal Register** and the Official Gazette of the Patent and Trademark Office.

Recovery Level Determinations

This rule adjusts patent fee and trademark service fee amounts for a planned recovery of \$763,391,000 in fiscal year 1998, as proposed in the Administration's budget request to the Congress.

The patent statutory fees established by 35 U.S.C. 41 (a) and (b) will be adjusted on October 1, 1997, to reflect any fluctuations occurring during the previous twelve months in the Consumer Price Index for all urban consumers (CPI-U). In calculating these

fluctuations, the Office of Management and Budget (OMB) has determined that the PTO should use CPI-U data as determined by the Secretary of Labor. However, the Department of Labor does not make public the CPI-U until approximately twenty-one days after the end of the month being calculated. Therefore, the latest CPI-U information available is for the month of June 1997. In accordance with previous rulemaking methodology, the PTO uses the Administration's projected CPI-U for the twelve-month period ending September 30, 1997, which is 2.6 percent. Based on this projection, patent statutory fees will be adjusted by 2.6 percent. Before the final fee schedule is published, the fees may be adjusted slightly based on updated data available from the Department of Labor.

Certain non-statutory patent processing fees established under 35 U.S.C. 41(d) and PCT processing fees established under 35 U.S.C. 376 will be adjusted to recover their estimated average costs in fiscal year 1998.

Three patent service fees that are set by statute will not be adjusted. The three fees that are not being adjusted are assignment recording fees, printed patent copy fees and photocopy charge fees.

Certain trademark service fees established under 15 U.S.C. 1113 will be adjusted to recover their estimated average costs in fiscal year 1998.

The fee amounts were rounded by applying standard arithmetic rules so that the amounts rounded would be convenient to the user. Fees of \$100 or more were rounded to the nearest \$10. Fees between \$2 and \$99 were rounded to an even number so that any comparable small entity fee would be a whole number.

Workload Projections

Determination of workload varies by fee. Principal workload projection techniques are as follows:

Patent application workloads are projected from statistical regression models using recent application filing trends. Patent issues are projected from an in-house patent production model and reflect examiner production achievements and goals. Patent maintenance fee workloads utilize patents issued 3.5, 7.5 and 11.5 years prior to payment and assume payment rates of 78 percent, 54 percent and 32 percent, respectively. Service fee workloads follow linear trends from prior years' activities.

General Procedures

Any fee amount that is paid on or after the effective date of the proposed

fee increase would be subject to the new fees then in effect. For purposes of determining the amount of the fee to be paid, the date of mailing indicated on a proper Certificate of Mailing or Transmission, where authorized under 37 CFR 1.8, will be considered to be the date of receipt in the PTO. A Certificate of Mailing or Transmission under § 1.8 is not proper for items which are specifically excluded from the provisions of § 1.8. Section 1.8 should be consulted for those items for which a Certificate of Mailing or Transmission is not proper. Such items include, inter alia, the filing of national and international applications for patents and the filing of trademark applications. However, the provisions of 37 CFR 1.10 relating to filing papers and fees using the "Express Mail" service of the United States Postal Service (USPS) do apply to any paper or fee (including patent and trademark applications) to be filed in the PTO. If an application or fee is filed by "Express Mail" with a date of deposit with the USPS (shown by the "date in" on the "Express Mail" mailing label) which is dated on or after the effective date of the rules, as amended, the amount of the fee to be paid would be the fee established by the amended rules.

In order to ensure clarity in the implementation of the new fees, a discussion of specific sections is set forth below.

Response to Comments on the Rules

A notice of proposed rulemaking to adjust patent fee and trademark service fee amounts was published in the **Federal Register** on May 7, 1997, at 62 FR 24865 and in the Official Gazette of the United States Patent and Trademark Office on May 27, 1997, at 1198 OG 97.

Comment: A respondent stated that many of the elements comprising the U.S. Department of Labor's Consumer Price Index (CPI) have no effect on PTO's costs of operation. The respondent also stated that fee increases should reflect only that portion of the CPI affecting PTO's costs of operation.

Response: The PTO is required by law to base its inflationary fee increases on fluctuations in the CPI over the twelve months prior to the effective date of the fee increase. While it is true that some of the elements that constitute the CPI have no effect on the cost of operations of the PTO, the CPI itself has considerable impact on the PTO. Salary increases for Federal employees have increased at rates that closely match the CPI, and employee compensation alone accounts for over 55 percent of PTO's annual costs. The PTO, just like any

other public or private organization, must procure supplies, pay rent and utilities, and incur numerous other expenses in the course of operations. Unfortunately, these costs rarely decline with each passing year.

Comment: A respondent stated that the PTO should adjust fees that are less than \$100 in increments of at least \$5 to avoid having amounts which make the calculation of fees inconvenient to the users.

Response: In the Recovery Level Determinations section of this rule package, it states that "Fees between \$2 and \$99 were rounded to an even number so that any comparable small entity fee would be a whole number." This rounding methodology enables the PTO to set large and small entity fee amounts which are convenient overall to the users.

Other Considerations

This rulemaking contains no information collection within the meaning of the Paperwork Reduction Act of 1995, 44 U.S.C. 3501 *et seq.* This rule has been determined to be not significant for purposes of Executive Order 12866. The PTO has determined that this rule change has no Federalism implications affecting the relationship between the National Government and the States as outlined in Executive Order 12612.

The Assistant General Counsel for Legislation and Regulation of the Department of Commerce has certified to the Chief Counsel for Advocacy, Small Business Administration, that the rule change would not have a significant impact on a substantial number of small entities (Regulatory Flexibility Act, 5 U.S.C. 605(b)). The rule change increases fees to reflect the change in the CPI as authorized by 35 U.S.C. 41(f). Further, the principal impact of the major patent fees has already been taken into account in 35 U.S.C. 41(h), which provides small entities with a fifty percent reduction in the major patent fees.

A comparison of existing and new fee amounts is included as an Appendix to this final rule.

Approval and Promulgation of Air Quality Implementation Plans; Maryland; 15% Rate of Progress Plan and Contingency Measures for the Cecil County Nonattainment Area

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is granting full approval of the State Implementation Plan (SIP) revision submitted by the State of Maryland, for Cecil County, part of the Philadelphia-Wilmington-Trenton severe ozone nonattainment area, to meet the 15 percent reasonable further progress (RFP, or 15% plan) requirements of the Clean Air Act (the Act). EPA is granting approval of the 15% plan and contingency measures, submitted by the State of Maryland, because the plan achieves the required 15% emission reduction. This action is being taken under section 110 of the Clean Air Act.

EFFECTIVE DATE: This final rule is effective on August 28, 1997.

ADDRESSES: Copies of the documents relevant to this action are available for public inspection during normal business hours at the Air, Radiation, and Toxics Division, U.S. Environmental Protection Agency, Region III, 841 Chestnut Building, Philadelphia, Pennsylvania 19107; and the Maryland Department of the Environment, 2500 Broening Highway, Baltimore, Maryland 21224.

FOR FURTHER INFORMATION CONTACT: Carolyn M. Donahue, (215) 566-2095, at the EPA Region III address above. Information may also be requested via e-mail at the following address: donahue.carolyn@epamail.epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background

Section 182(b)(1) of the Act requires ozone nonattainment areas classified as moderate or above to develop plans to reduce volatile organic compounds (VOC) emissions by fifteen percent from 1990 baseline levels. Cecil County, as part of the Philadelphia-Wilmington-Trenton nonattainment area, is classified as severe and is subject to the 15% plan requirement.

The State of Maryland submitted the 15% plan SIP revision for Cecil County on July 12, 1995. On June 5, 1997, EPA

published a notice of proposed rulemaking (NPR) in the **Federal Register** proposing approval of the 15% plan [62 FR 30818]. EPA's rationale for granting approval to the Maryland 15% plan for the Cecil County nonattainment area, and the details of the July 12, 1995 submittal are contained in the June 5, 1997 NPR and the accompanying technical support document and will not be restated here. No public comments were received on the NPR.

II. Final Action

EPA is today granting approval of the 15% plan and contingency measures for the Cecil County severe ozone nonattainment area as a revision to the Maryland SIP.

Nothing in this action should be construed as permitting or allowing or establishing a precedent for any future request for revision to any state implementation plan. Each request for revision to the state implementation plan shall be considered separately in light of specific technical, economic, and environmental factors and in relation to relevant statutory and regulatory requirements.

The Office of Management and Budget (OMB) has exempted this regulatory action from E.O. 12866 review.

Under the Regulatory Flexibility Act, 5 U.S.C. 600 *et seq.*, EPA must prepare a regulatory flexibility analysis assessing the impact of any proposed or final rule on small entities. 5 U.S.C. 603 and 604. Alternatively, EPA may certify that the rule will not have a significant impact on a substantial number of small entities. Small entities include small businesses, small not-for-profit enterprises, and government entities with jurisdiction over populations of less than 50,000.

SIP approvals under section 110 and subchapter I, part D of the Clean Air Act do not create any new requirements but simply approve requirements that the State is already imposing. Therefore, because the Federal SIP approval does not impose any new requirements, the EPA certifies that it does not have a significant impact on any small entities affected. Moreover, due to the nature of the Federal-State relationship under the Act, preparation of a flexibility analysis would constitute Federal inquiry into the economic reasonableness of state action. The Clean Air Act forbids EPA to base its actions concerning SIPs on such grounds. *Union Electric Co. v. U.S.*
