

clocks to one time source. At the same time, the Commission also approved new NASD Rule 3110(h), which requires members to record and maintain certain information that is relevant to the OATS data reporting requirement.

The NASDR proposes to amend the OATS Rules and the books and records requirements that apply specifically to OATS data. The proposal would revise OATS Rule 6954(c) by adding a new paragraph (6). Rule 6954(c) sets forth the order information that must be recorded under the OATS rules when an order is transmitted, either from one department to another within a member firm or to another member. Rule 6954(c) does not, however, presently contain a requirement regarding the transmission of an order to a non-member such as a foreign broker-dealer or a foreign exchange. The NASDR proposes to add new paragraph (6) to Rule 6954(c) to require members to record certain information when an order is transmitted to a non-member, including the fact that it was so transmitted. NASD members will be required to report this information to OATS pursuant to NASD Rule 6955. This additional information will enable the NASDR to track an order that a member has received and reported to OATS that is then routed to a non-member.

The NASDR also proposes to revise both OATS Rule 6954(a)(4) and Rule 3110(h) to set forth specific record-keeping requirements. OATS Rules 6954(a)(1) and (a)(4) require members to record specified information and to retain records of that information; Rule 3110(h) requires members to record and maintain information required by OATS. However, these rules presently do not specify how long the records must be maintained or the requirements that apply when members wish to utilize micrographic media or electronic storage media to maintain such records. The NASDR proposes to add new language to both Rule 6954(a)(4) and Rule 3110(h) to make explicit the record-keeping requirements related to OATS data. The rules have been revised to specifically reference the record retention period specified in SEC Rule 17a-4(b) and the conditions set forth in SEC Rule 17a-4(f) for reproducing records on micrographic media or by means of electronic storage media.

In addition, the NASDR proposes to revise Rule 310(h)(1) to require members to record and maintain information related to an "order," as that term is defined in OATS Rule 6951(j). As stated above, new Rule 3110(h) was adopted to require members to record and maintain

information relevant to the OATS data recording and reporting requirements. The NASDR proposes to limit Rule 3110(h) to require members to record and maintain information only with respect to an "order" in Nasdaq equity securities, as defined by OATS Rule 6951(j).

Finally, the NASDR proposes to revise Rule 6957(d) to indicate the effectiveness dates for compliance with the proposed amendments to Rule 3110(h).

III. Discussion

After careful review, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities association.⁷ Specifically, the Commission believes the proposal is consistent with the requirements of Section 15A(b)(6) of the Act⁸ in that it is designed to prevent fraudulent and manipulative acts and practices and to protect investors and the public interest.

The Commission notes that the proposed addition of paragraph (6) to Rule 6954(c) will require member firms to record information relating to the transmission of orders to non-members, such as foreign broker-dealers and foreign exchanges. The Commission believes that this information, which will be reported to OATS pursuant to Rule 6955, should enhance the NASDR's ability to track transactions in Nasdaq equity securities. OATS was designed primarily to improve the NASDR's ability to monitor member firms' transactions in Nasdaq equity securities for possible violations of NASD rules or of the federal securities laws, a purpose that is consistent with Section 15A of the Act.⁹ Because the current proposal will enhance the NASD's ability to gather information required by the OATS rules, it too is consistent with the Act.

The proposed amendments relating to the recordkeeping requirements applicable to OATS are designed to provide more specific information regarding the permissible maintenance of required records. Specifically, the proposal specifies the length of time required records must be maintained and the requirements applicable to the use of micrographic or electronic storage media. The proposal also specifically references the record retention period and conditions set forth in the

⁹ 15 U.S.C. 78o-3.1.

Commission's Rule 17a-4. The Commission believes that the proposed amendments should help to clarify member firms' record retention requirements related to OATS data.

The Commission notes that the proposal would reference in NASD Rule 3110(h) the definition of the term "order" set forth in OATS Rule 6951(j). The Commission believes that the NASDR's efforts to achieve consistency and uniformity in the definitions used in the NASD rules are reasonable and should ease the compliance burdens of member firms.

Finally, the Commission notes that the proposal would establish effective dates for compliance with the proposed amendments to Rule 3110(h). The Commission believes that the proposed deadlines for compliance are reasonable, given the implementation schedule of the OATS rules, set forth in NASD Rule 6957(a)-(c).

It Is Therefore Ordered, pursuant to Section 19(b)(2) of the Act,⁹ that the proposed rule change (SR-NASD-98-38) is approved.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.¹⁰

BILLING CODE 4710-25-M

OFFICE OF THE UNITED STATES TRADE REPRESENTATIVE

Free Trade Area of the Americas

AGENCY: Office of the United States Trade Representative.

ACTION: Notice and request for public comment on the Free Trade of the Americas (FTAA) joint public-private sector Experts Committee on Electronic Commerce (Experts Committee); identification of private sector experts in electronic commerce who may wish to participate in the work of the Experts Committee.

SUMMARY: The FTAA Experts Committee on Electronic Commerce has been established by the 34 countries in the Western Hemisphere participating in the Free Trade Area of the Americas. The Trade Policy Staff Committee (TPSC) invites public comment on the work plan of the Experts Committee. In addition, the TPSC seeks to identify U.S. private sector experts on electronic commerce who may be interested in participating in the work of the Experts Committee; interested members of the public are invited to submit written notice of their interest and their qualifications.

DATES: Written comments on the the Experts Committee and expressions of interest in participating in the work of the Committee should be submitted no later than September 8, 1998.

FOR FURTHER INFORMATION CONTACT: For procedural questions concerning public comments, contact Gloria Blue, Executive Secretary, Trade Policy Staff Committee, Office of the United States Trade Representative, (202) 395-3475. All questions concerning the Experts Committee should be directed to Regina Vargo, Deputy Assistant Secretary for the Western Hemisphere, U.S. Department of Commerce (202) 482-5324, Rvargo@USITA.GOV.

SUPPLEMENTARY INFORMATION: On April 18-19, 1998, President Clinton and his 33 counterparts in the Western

Hemisphere initiated negotiations to create the Free Trade Area of the Americas (FTAA) by the year 2005 and to achieve concrete progress toward that objective by the end of the century. The leaders established a general framework for the negotiations, including a Trade Negotiations Committee (TNC), composed of the 34 vice ministers responsible for trade, to oversee the negotiations. They agreed to nine initial negotiating groups, a consultative group and two committees, one of which is a joint public-private sector Experts Committee on Electronic Commerce. At its June 1998 meeting in Buenos Aires, the TNC agreed that the Experts Committee will be chaired by Mr. Dale Marshall of Barbados. It also was agreed that the initial meeting of the Experts Committee would be held before the end of October in Miami.

Experts Committee Terms of Reference: The objective of the Experts Committee is to make recommendations to trade ministers on how to increase and broaden the benefits of electronic commerce and how electronic commerce should be dealt with in the context of the FTAA negotiations. Four weeks before the October 1999 ministerial meeting, the Experts Committee is to provide recommendations to the TNC. In order to develop its recommendations, the Experts Committee will focus on:

- Increasing understanding of the potential benefits of electronic commerce to countries in the hemisphere;
- Identifying the environment that will allow electronic commerce to flourish;
- Discussing infrastructure questions; and
- Identifying how electronic commerce can facilitate the operation of trade obligations.

Experts Committee Private Sector Representation: The Experts Committee will consist of both public and private sector representatives. Individual governments will identify private sector participants with a view toward balanced hemispheric representation in terms of geography and electronic commerce issue expertise. Although the FTAA countries have not yet established the details on private sector representation, including composition, number and final selection process, the TPSC seeks to identify U.S. private sector experts on electronic commerce who may be interested in participating in the work of the Committee.
