

reclamation, community impact assistance, and public facilities projects under sections 411 (b), (e), and (f), of SMCRA.

State law and regulations that apply to the proposed Abandoned Coal Mine Land Program Etna Water Distribution System funding request include Wyoming Statute 35-11-1202 and Wyoming Abandoned Mine Land Regulations, Chapter VII, of the Wyoming Abandoned Mine Program.

III. Wyoming's Request To Fund the Cost of Etna Water Distribution System

The Wyoming Department of Environmental Quality submitted to us a grant application dated November 1, 1999. In that application, Wyoming asked for \$111,500 to pay for a part of the cost of constructing the Etna Water Distribution System. The Governor of Wyoming certified the need and urgency to fund this project prior to completing the State's remaining inventory of non-coal reclamation work, as allowed by section 411(f) of SMCRA. That certification says the project is in a community impacted by coal mining activities. The requested funding is approximately 8 percent of the project's total cost. Money for the balance of the project cost will come from the Wyoming Water Development Commission (\$689,300) and the Rural Utility Service (\$540,000). The facility consists of storage, transmission, and distribution upgrades to the water distribution system in the community of Etna, Wyoming.

This project will mitigate the impacts of safety hazards associated with the present condition of the Etna Water System. The Etna water system is experiencing serious bacteriological risks as demonstrated by an EPA Administrative Order. The Governor's certification states that safety hazards warrant funding of this project before the remaining inventory of non-coal projects are completed.

IV. How We Will Review Wyoming's Grant Application

We will review this grant application using the regulations at 30 CFR 875.15; specifically § 875.15(e)(1) through (7). As stated in those regulations, the application must include the following information: (1) The need or urgency for the activity or the construction of the public facility; (2) the expected impact the project will have on Wyoming's coal or minerals industry; (3) the availability of funding from other sources and, if other funding is provided, its percentage of the total cost involved; (4) documentation from other local, State, and Federal agencies with oversight for

such utilities or facilities describing what funding they have available and why their agency is not fully funding this specific project; (5) the impact on the State, the public, and the minerals industry if the facility is not funded; (6) the reason why this project should be selected before the priority project relating to the protection of the public health and safety or the environment from the damages caused by past mining activities, and (7) an analysis and review of the procedures Wyoming used to notify and involve the public in this request, and a copy of all comments received and their resolution by the State. Wyoming's application for the Etna Water Distribution System project contains the information described in these seven subsections.

Section 875.15(f) requires us to evaluate all comments we receive and determine whether the funding meets the requirements of § 875.15(e)(1) through (7) described above. It also requires us to determine if the request is in the best interests of the State's AML program. We will approve Wyoming's request to fund this project if we conclude that it meets all the requirements of 30 CFR 875.15.

V. What To Do if You Want To Comment on the Proposed Project

We are asking for public comments on Wyoming's request for funds to pay for part of the cost of reconstructing the Etna water system. You are welcome to comment on the project. If you do, please send us written comments. Make sure your comments are specific and pertain to Wyoming's funding request in the context of the regulations at 30 CFR 875.15 and the provisions of section 411 of SMCRA. You should explain any recommendations you make. If we receive your comments after the time shown under **DATES** or at locations other than the Casper Field Office, we will not necessarily consider them in our final decision or include them in the administrative record.

Dated: November 3, 1999.

Guy Padgett,

Director, Casper Field Office.

BILLING CODE 4310-05-M

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

Proposed Construction of Converse County Road 37

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Notice of application for grant funding; public comment period on request to fund the Converse County Road 37.

SUMMARY: OSM is announcing its receipt of a grant application from the Wyoming Department of Environmental Quality, Abandoned Mine Land Division (AMLDD). Wyoming is requesting \$246,500.00 from the Abandoned Mine Reclamation Fund to pay 50 percent of the cost of building Converse County Road 37 in Converse County, Wyoming. The Power River Coal Company will provide \$71,750. Kennocott Energy Company will provide \$71,750 and Converse County will provide \$103,000. In its application, the State purposes paying for part of the reconstruction cost as a public facility project that will benefit a community impacted by coal and mineral mining.

This notice describes when and where you may read the grant application for funding the Converse County Road 37 project. It also sets the time period during which you may send written comments on the request to us.

DATES: We will accept written comments until 4:00 p.m., m.s.t., December 20, 1999.

ADDRESSES: You should mail or hand-deliver written comment to Guy V. Padgett, Casper Field Office Director, at the address shown below. You may read Wyoming's grant application for this proposed project during normal business hours Monday through Friday (excluding holidays) at the same address. Also, we will send one free copy of the grant application to you if you contact OSM's Casper Field Office. Guy V. Padgett, Director, Casper Field Office, Office of Surface Mining Reclamation and Enforcement, Federal Building, Rm. 2403, 100 East "B" Street, Casper, Wyoming 82601-1918.

FOR FURTHER INFORMATION CONTACT: Guy V. Padgett, Telephone (307) 261-6555.

Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home address from the rulemaking [or administrative] record, which we will honor to the

extent allowable by law. There also may be circumstances in which we would withhold from the rulemaking [or administrative] record a respondent's identity, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. However, we will not consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

SUPPLEMENTARY INFORMATION:

I. Background on Title IV of SMCRA

Title IV of the Surface Mining Control and Reclamation Act (SMCRA) established an Abandoned Mine Land Reclamation (AMLR) program. The purpose of the AMLR program is to reclaim and restore lands and waters that were adversely affected by past mining. The program is funded by a reclamation fee paid by active coal mining operations. Lands and waters eligible for reclamation under Title IV are primarily those that were mined, or affected by mining, and abandoned or inadequately reclaimed before August 3, 1977, and for which there is no continuing reclamation responsibility under State, Federal, or other laws.

Title IV of SMCRA allows States to submit AMLR plans to us. We, on behalf of the Secretary, review those plans and consider any public comments we receive about them. If we determine that a State has the ability and necessary legislation to operate an AMLR program, the Secretary can approve it. The Secretary's approval gives a State exclusive authority to put its AMLR plan into effect.

Once the Secretary approves a State's AMLR plan, the State may apply to us for money to fund specific projects that will achieve the goals of its approved plan. We follow the requirements of the Federal regulations at 30 CFR parts 874, 875, and 886 when we review and approve such applications.

II. Background on the Wyoming AMLR Plan

The Secretary of the Interior approved Wyoming's AMLR plan on February 14, 1983. You can find background information on the Wyoming AML program, including the Secretary's findings and our responses to comments, in the February 14, 1983 **Federal Register** (48 FR 6536). Wyoming changed its plan a number of times since the Secretary first approved it. In 1984, we accepted the State's

certification that it had addressed all known coal-related impacts in Wyoming that were eligible for funding under its program. As a result, the State may now reclaim low priority non-coal reclamation projects. You can read about the certification and OSM acceptance in the May 25, 1984, **Federal Register** (49 FR 22139). At the same time, we also accepted Wyoming's proposal that it will ask us for funds to reclaim any additional coal-related problems that occur during the life of the Wyoming AML program as soon as it becomes aware of them. In the April 13, 1992, **Federal Register** (57 FR 12731), we announced our decision to accept other changes in Wyoming's plan that describe how it will rank eligible coal, non-coal, and facility projects for funding. Those changes also authorized the Governor of Wyoming to elevate the priority of a project based upon the Governor's determination of need and urgency. They also expanded the State's ability to construct public facilities under section 411 of SMCRA. We approved additional changes in Wyoming's plan concerning non-coal lien authority and contractor eligibility that improve the efficiency of the State's AML program. That approval is described in the February 21, 1996, **Federal Register** (61 FR 6537).

Once a State certifies that it has addressed all remaining abandoned coal mine problems and the Secretary concurs, then it may request funds to undertake abandoned non-coal mine reclamation, community impact assistance, and public facilities projects under sections 411(b), (e), and (f), of SMCRA.

State law and regulations that apply to the proposed Abandoned Coal Mine Land Program Converse County Road 37 funding request include Wyoming Statute 35-11-1202 and Wyoming Abandoned Mine Land Regulations, Chapter VII, of the Wyoming Abandoned Mine Program.

III. Wyoming's Request To Fund the Cost of Converse County Road 37

The Wyoming Department of Environmental Quality submitted to us a grant application dated November 1, 1999. In that application, Wyoming asked for \$246,500 to pay for a part of the cost of reconstructing Converse County Road 37. The Governor of Wyoming certified the need and urgency to fund this project prior to completing the State's remaining inventory of non-coal reclamation work, as allowed by section 411(f) of SMCRA. That certification says the project is in a community impacted by coal mining activities. The requested funding is 50

percent of the project's total cost. Money for the balance of the project cost will come from the County's general fund (25 percent), Powder River Coal Company and Kennecott Energy Company (25 percent). The project involves rebuilding 3 miles of County Road 37. This road is one of the busiest roads in the County. The road directly serves the employees of three coal mines. Employees commute daily to these mines by personal vehicles and company buses.

This project will mitigate the impacts of safety hazards associated with the present condition of County Road 37. The Governor's certification states that safety hazards impacting coal mine employees warrant funding of this project before the remaining inventory of non-coal projects are completed.

IV. How We Will Review Wyoming's Grant Application

We will review this grant application using the regulations at 30 CFR 875.15; specifically § 875.15(e) (1) through (7). As stated in those regulations, the application must include the following information: (1) The need or urgency for the activity or the construction of the public facility; (2) the expected impact the project will have on Wyoming's coal or minerals industry; (3) the availability of funding from other sources and, if other funding is provided, its percentage of the total cost involved; (4) documentation from other local, State, and Federal agencies with oversight for such utilities or facilities describing what funding they have available and why their agency is not fully funding this project; (5) the impact on the State, the public, and the minerals industry if the facility is not funded; (6) the reason why this project should be selected before the priority project relating to the protection of the public health and safety or the environment from the damages caused by past mining activities, and (7) an analysis and review of the procedures Wyoming used to notify and involve the public in this request, and a copy of all comments received and their resolution by the State. Wyoming's application for the Converse County Road 37 project contains the information described in these seven subsections.

Section 875.15(f) requires us to evaluate all comments we receive and determine whether the funding meets the requirements of §§ 875.15(e) (1) through (7) described above. It also requires us to determine if the request is in the best interests of the State's AML program. We will approve Wyoming's request to fund this project

if we conclude that it meets all the requirements of 30 CFR 875.15.

V. What To Do If You Want To Comment on the Proposed Project

We are asking for public comments on Wyoming's request for funds to pay for part of the cost of rebuilding Converse County Road 37. You are welcome to comment on the project. If you do, please send us written comments. Make sure your comments are specific and pertain to Wyoming's funding request in the context of the regulations at 30 CFR 875.15 and the provisions of section 411 of SMCRA. You should explain any recommendations you make. If we receive your comments after the time shown under **DATES** or at locations other than the Casper Field Office, we will not necessarily consider them in our final decision or include them in the administrative record.

Dated: November 1, 1999.

Guy Padgett,

Director, Casper Field Office.

BILLING CODE 4310-05-M

DEPARTMENT OF LABOR

Employment and Training Administration

Investigations Regarding Certifications of Eligibility To Apply for Worker Adjustment Assistance

Petitions have been filed with the Secretary of Labor under section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Employment and Training Administration, has instituted investigations pursuant to section 221(a) of the Act.

The purpose of each of the investigations is to determine whether the workers are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

The petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than November 29, 1999.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than November 29, 1999.

The petitions filed in this case are available for inspection at the Office of the Director, Office of the Trade Adjustment Assistance, Employment and Training Administration, U.S. Department of Labor, 200 Constitution Avenue, NW, Washington, DC 20210.

Signed at Washington, DC, this 18th day of October, 1999.

Grant D. Beale,

Program Manager, Office of Trade Adjustment Assistance.
