

Federal Register

9-15-00

Vol. 65 No. 180

Pages 55885-56208

Friday

Sept. 15, 2000

The **FEDERAL REGISTER** is published daily, Monday through Friday, except official holidays, by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). The Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 is the exclusive distributor of the official edition.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders, Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress, and other Federal agency documents of public interest.

Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless the issuing agency requests earlier filing. For a list of documents currently on file for public inspection, see <http://www.nara.gov/fedreg>.

The seal of the National Archives and Records Administration authenticates the **Federal Register** as the official serial publication established under the Federal Register Act. Under 44 U.S.C. 1507, the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** is published in paper and on 24x microfiche. It is also available online at no charge as one of the databases on GPO Access, a service of the U.S. Government Printing Office.

The online edition of the **Federal Register** is issued under the authority of the Administrative Committee of the Federal Register as the official legal equivalent of the paper and microfiche editions (44 U.S.C. 4101 and 1 CFR 5.10). It is updated by 6 a.m. each day the **Federal Register** is published and it includes both text and graphics from Volume 59, Number 1 (January 2, 1994) forward.

GPO Access users can choose to retrieve online **Federal Register** documents as TEXT (ASCII text, graphics omitted), PDF (Adobe Portable Document Format, including full text and all graphics), or SUMMARY (abbreviated text) files. Users should carefully check retrieved material to ensure that documents were properly downloaded.

On the World Wide Web, connect to the **Federal Register** at <http://www.access.gpo.gov/nara>. Those without World Wide Web access can also connect with a local WAIS client, by Telnet to swais.access.gpo.gov, or by dialing (202) 512-1661 with a computer and modem. When using Telnet or modem, type swais, then log in as guest with no password.

For more information about GPO Access, contact the GPO Access User Support Team by E-mail at gpoaccess@gpo.gov; by fax at (202) 512-1262; or call (202) 512-1530 or 1-888-293-6498 (toll free) between 7 a.m. and 5 p.m. Eastern time, Monday–Friday, except Federal holidays.

The annual subscription price for the **Federal Register** paper edition is \$638, or \$697 for a combined **Federal Register**, Federal Register Index and List of CFR Sections Affected (LSA) subscription; the microfiche edition of the **Federal Register** including the Federal Register Index and LSA is \$253. Six month subscriptions are available for one-half the annual rate. The charge for individual copies in paper form is \$9.00 for each issue, or \$9.00 for each group of pages as actually bound; or \$2.00 for each issue in microfiche form. All prices include regular domestic postage and handling. International customers please add 25% for foreign handling. Remit check or money order, made payable to the Superintendent of Documents, or charge to your GPO Deposit Account, VISA, MasterCard or Discover. Mail to: New Orders, Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250-7954.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Rules and Regulations

Federal Register

Vol. 65, No. 180

Friday, September 15, 2000

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 905

[Docket No. FV00-905-4 IFR]

Oranges, Grapefruit, Tangerines, and Tangelos Grown in Florida; Limiting the Volume of Small Red Seedless Grapefruit

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Interim final rule with request for comments.

SUMMARY: This rule limits the volume of small red seedless grapefruit entering the fresh market under the marketing order covering oranges, grapefruit, tangerines, and tangelos grown in Florida. The marketing order is administered locally by the Citrus Administrative Committee (Committee). This rule limits the volume of sizes 48 (at least $3\frac{1}{16}$ inches in diameter) and 56 (at least $3\frac{5}{16}$ inches in diameter) red seedless grapefruit handlers can ship during the first 11 weeks of the 2000-2001 season beginning September 18, 2000.

This limitation provides a sufficient supply of small-sized red seedless grapefruit to meet market demand, without saturating all markets with these small sizes. This rule should help stabilize the grapefruit market and improve grower returns.

DATES: Effective September 18, 2000; comments received by September 25, 2000, will be considered prior to issuance of a final rule.

ADDRESSES: Interested persons are invited to submit written comments concerning this rule. Comments must be sent to the Docket Clerk, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, room 2525-S, P.O. Box 96456, Washington, DC 20090-6456; Fax: (202) 720-5698, or

E-mail: moab.docketclerk@usda.gov. All comments should reference the docket number and the date and page number of this issue of the **Federal Register** and will be made available for public inspection in the Office of the Docket Clerk during regular business hours, or can be viewed at: <http://www.ams.usda.gov/fv/moab.html>.

FOR FURTHER INFORMATION CONTACT:

William G. Pimental, Southeast Marketing Field Office, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, P.O. Box 2276, Winter Haven, Florida 33883-2276; telephone: (863) 299-4770, Fax: (863) 299-5169; or George Kelhart, Technical Advisor, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, room 2525-S, P.O. Box 96456, Washington, DC 20090-6456; telephone: (202) 720-2491, Fax: (202) 720-5698.

Small businesses may request information on complying with this regulation by contacting Jay Guerber, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, room 2525-S, P.O. Box 96456, Washington, DC 20090-6456; telephone (202) 720-2491, Fax: (202) 720-5698, or E-mail: Jay.Guerber@usda.gov.

SUPPLEMENTARY INFORMATION: This rule is issued under Marketing Agreement No. 84 and Marketing Order No. 905, both as amended (7 CFR part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, hereinafter referred to as the "order." The marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), hereinafter referred to as the "Act."

The Department of Agriculture (Department) is issuing this rule in conformance with Executive Order 12866.

This rule has been reviewed under Executive Order 12988, Civil Justice Reform. This rule is not intended to have retroactive effect. This rule will not preempt any State or local laws, regulations, or policies, unless they present an irreconcilable conflict with this rule.

The Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any

handler subject to an order may file with the Secretary a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with law and request a modification of the order or to be exempted therefrom. A handler is afforded the opportunity for a hearing on the petition. After the hearing the Secretary would rule on the petition. The Act provides that the district court of the United States in any district in which the handler is an inhabitant, or has his or her principal place of business, has jurisdiction to review the Secretary's ruling on the petition, provided an action is filed not later than 20 days after the date of the entry of the ruling.

The order provides for the establishment of grade and size requirements for Florida citrus, with the concurrence of the Secretary. These grade and size requirements are designed to provide fresh markets with citrus fruit of acceptable quality and size. This helps create buyer confidence and contributes to stable marketing conditions. This is in the interest of growers, handlers, and consumers, and is designed to increase returns to Florida citrus growers. The current minimum grade standard for red seedless grapefruit is U.S. No. 1, and the minimum size requirement is size 56 (at least $3\frac{5}{16}$ inches in diameter).

This rule invites comments on limiting the volume of small red seedless grapefruit entering the fresh market. This rule establishes limits on the volume of sizes 48 and 56 red seedless grapefruit handlers can ship during the first 11 weeks of the 2000-2001 season beginning September 18. This rule supplies enough small-sized red seedless grapefruit to meet market demand, without saturating all markets with these small sizes. This rule will help stabilize the grapefruit market and improve grower returns.

Section 905.52 of the order provides authority to limit shipments of any grade or size, or both, of any variety of Florida citrus. Such limitations may restrict the shipment of a portion of a specified grade or size of a variety. Under such a limitation, the quantity of such grade or size that may be shipped by a handler during a particular week is established as a percentage of the total shipments of such variety by such handler in a prior period, established by

the Committee and approved by the Secretary, in which the handler shipped such variety.

Section 905.153 of the regulations provides procedures for limiting the volume of small red seedless grapefruit entering the fresh market. The procedures specify that the Committee may recommend that only a certain percentage of sizes 48 and 56 red seedless grapefruit be made available for shipment into fresh market channels for any week or weeks during the regulatory period. The regulation period is 11 weeks long and begins the third Monday in September. Under such a limitation, the quantity of sizes 48 and 56 red seedless grapefruit that may be shipped by a handler during a regulated week is calculated using the recommended percentage. By taking the recommended weekly percentage times the average weekly volume of red grapefruit handled by such handler in the previous five seasons, handlers can calculate the total volume of sizes 48 and 56 they may ship in a regulated week.

This rule limits the volume of small red seedless grapefruit that can enter the fresh market for each week of the 11-week period beginning September 18, 2000. This rule establishes the weekly percentage for the first three weeks (September 18 through October 8) at 45 percent; for the fourth through seventh weeks (October 9 through November 5) at 40 percent; and for the last four weeks (November 6 through December 3) at 35 percent. This is a change from the percentages originally recommended by the Committee.

On May 26, 2000, the Committee unanimously voted to establish a weekly percentage of 25 percent for each of the 11 weeks. The Committee's initial recommendation was issued as a proposed rule published in the **Federal Register** on July 11, 2000 (65 FR 42642). No comments were received during the comment period, which expired August 10, 2000. The Committee subsequently met on August 31, 2000, and unanimously recommended adjusting the proposed percentages.

As in the previous three seasons, the Committee initially recommended that the weekly percentage of size regulation be set at 25 percent for each week during the regulatory period. The Committee thought it was best to recommend regulation at the most restrictive level, 25 percent for each of the 11 weeks in the regulated period, and then relax the percentages as warranted by information available closer to the start of the season.

The Committee recognizes the need for and the benefits of the weekly percentage regulation. Members believe

that the problems associated with an uncontrolled volume of small sizes entering the market early in the season will recur without such action. However, the Committee believes based on information now available that the initial recommendation was too restrictive, and recommended raising the established base percentages from 25 percent for each of the regulation weeks.

The Committee met on August 31, 2000, and revisited the weekly percentage issue and reviewed information it had acquired since its May meeting. In its discussion, the Committee reviewed the initial percentages recommended and the current state of the crop. The Committee also reexamined shipping information from past seasons, looking particularly at volume across the 11 weeks. The Committee noted that more information helpful in determining the appropriate weekly percentages is available closer to the start of the harvesting season. At the time of the May meeting, grapefruit had not yet begun to size, giving little indication as to the distribution of sizes. Only the most preliminary of crop estimates was available, with the official estimate not to be issued until October.

The 2000–2001 season crop seems to be sizing well. Current indications are that early-season conditions for this year are similar to those of last season. Due to the anticipated similarities, the Committee considered the percentages established last year as a basis for discussing this year's percentages. Committee members thought that last season's percentages had worked well, providing some restriction while affording volume for those markets that prefer the smaller sizes. In making its recommendation, the Committee considered that there had been a reduction in the overall available weekly industry base due to industry consolidation, a reduction in shipments, and packinghouse closings.

The available weekly industry base is the sum of each individual handler's weekly base. A handler's base is calculated by taking that handler's total red seedless grapefruit shipments during the 33 week season for each of the past five seasons, adding them together and dividing by five to calculate an average season. This number is then divided by 33 to derive the average week. This average week is the base for each handler for each of the 11 weeks of the regulatory period. The overall available industry base per week was 937,257 cartons last season. For the 2000–2001 season, the base calculates to 875,688 cartons.

To recognize this reduction in available base, the Committee

recommended establishing the weekly percentages at levels slightly higher than those established for last season. The Committee agreed that the percentage established for the first two weeks of last season of 45 percent was still appropriate, and recommended that the percentages for the first two weeks of the 2000/2001 season be established at 45 percent. The Committee recommended that the third week should also be established at 45 percent, a five percent increase from last season's third week percentage. For the next four weeks the Committee recommended that the weekly percentage be established at 40 percent, an increase from 37 percent for last season. For the last four weeks of regulation, the Committee recommended that the percentage be established at 35 percent, an increase from last season's 32 percent for the final four weeks.

The ongoing problems affecting the European and Asian markets are also a factor. In past seasons, these markets have shown a strong demand for the smaller-sized red seedless grapefruit. The reduction in shipments to these areas experienced during the last few years is expected to continue during the upcoming season. This reduction in demand could result in a greater amount of small sizes for remaining markets to absorb. These factors increase the need for restrictions to prevent the volume of small sizes from overwhelming all markets.

Therefore, based on available information and the experiences from past seasons, the Committee recommended changing the initial weekly percentages from their most restrictive level. The Committee could meet again during the regulation period, as needed, when additional information is available, and determine whether the set percentage levels are appropriate. Any changes to the weekly percentages established by this rule would require additional rulemaking and the approval of the Secretary.

During the three seasons prior to implementation of weekly percentage regulations (1994–95, 1995–96, and 1996–97), returns for red seedless grapefruit had been declining, often not returning the cost of production. On-tree prices for red seedless grapefruit had fallen steadily from \$9.60 per carton (¼ bushel) during the 1989–90 season, to \$3.45 per carton during the 1994–95 season, to \$1.41 per carton during the 1996–97 season.

The Committee determined that one problem contributing to the market's condition was the excessive number of small-sized grapefruit shipped early in the marketing season. In the 1994–95,

1995–96, and 1996–97 seasons, sizes 48 and 56 accounted for 34 percent of total shipments during the 11-week regulatory period, with the average weekly percentage exceeding 40 percent of shipments. This contrasted with sizes 48 and 56 representing only 26 percent of total shipments for the remainder of the season.

While there is a market for early grapefruit, shipping large quantities of small red seedless grapefruit in a short period oversupplies the fresh market for these sizes and negatively impacts the market for all sizes. For the majority of the season, larger sizes return higher prices than smaller sizes. However, there is a push early to get fruit into the market to take advantage of high prices available at the beginning of the season. The early season crop tends to have a greater percentage of small sizes. This creates a glut of smaller, lower-priced fruit on the market, driving down the price for all sizes.

At the start of the season, larger-sized fruit command a premium price. In some cases, the f.o.b. price is \$4 to \$10 more a carton than for the smaller sizes. In October, the f.o.b. price for a size 27 averages around \$14.00 per carton. This compares to an average f.o.b. price of \$6.00 per carton for size 56. In the three years before the issuance of a percentage size regulation, by the end of the 11-week period covered in this rule, the f.o.b. price for large sizes dropped to within \$1 or \$2 of the f.o.b. price for small sizes.

In the three seasons prior to 1997–98, prices of red seedless grapefruit fell from a weighted average f.o.b. price of \$7.80 per carton to an average f.o.b. price of \$5.50 per carton during the period covered by this rule. Later in the season the crop sized to naturally limit the amount of smaller sizes available for shipment. However, the price structure in the market had already been negatively affected. The market never recovered, and the f.o.b. price for all sizes fell to around \$5.00 to \$6.00 per carton for most of the rest of the season.

An economic study done by the University of Florida—Institute of Food and Agricultural Sciences (UF–IFAS) in May 1997, found that on-tree prices had fallen from a high near \$7.00 per carton in 1991–92 to around \$1.50 per carton for the 1996–97 season. The study projected that if the industry elected to make no changes, the on-tree price would remain around \$1.50 per carton. The study also indicated that increasing minimum size restrictions could help raise returns.

The Committee believes that the over shipment of smaller sized red seedless grapefruit early in the season

contributes to poor returns for growers and lower on-tree values. To address this issue, the Committee voted to utilize the provisions of § 905.153, and established a weekly percentage of size regulation during the first 11 weeks of the 1997–98, 1998–99, and 1999–2000 seasons. The initial recommendation from the Committee was to set the weekly percentages at 25 percent for each of the 11 weeks. Then, as more information on the crop became available, and as the season progressed, the Committee met again and adjusted its recommendations for the weekly percentages as needed. Actual weekly percentages established during the 11-week period during the 1999–2000 season were 45 percent for the first two weeks, 40 percent for the third week, 37 percent for the fourth through the seventh week, and 32 percent for the last four weeks. The Committee considered information from past seasons, crop estimates, fruit size, and other available information in making its recommendations.

The Committee has used the percentage size regulation to the betterment of the industry. Prices have increased, and movement has been stable. In each of the three seasons following the 1996–97 season, the Committee has recommended utilizing the percentage size rule. During the 11-week period of regulation, the average market price has been higher than for the three years prior to regulation. In late October, the average market price for red seedless grapefruit was \$9.31 for the last three years regulation compared to \$7.22 for the same period for the three years prior to regulation. Market prices also remained at a higher level following the regulation period, with an average price of \$7.31 in mid-December compared to \$6.02 for the three years prior to regulation. The average season price was also higher, with the past three seasons averaging \$7.13 compared to \$5.83 for the three prior years.

The on-tree earnings per box have also been increasing for the past three years, providing better returns to growers. The on-tree price increased from \$3.42 for 1997–98, to \$5.04 for 1998–99, to an estimated \$6.46 for the 1999–2000 season.

Another benefit of percentage size regulation has been in maintaining higher prices for the larger-sized fruit. Larger fruit commands a premium price early in the season. The f.o.b. price for a larger size can be \$4 to \$10 more per carton than for smaller sizes. However, the glut of smaller, lower-priced fruit on the early market was driving down the prices for all sizes. In the three years prior to the implementation of the

percentage size rule, by the end of the 11-week period covered, the f.o.b. price for the large sizes would drop to within \$2 of the f.o.b. price for the smaller sizes. This was not acceptable to the industry.

During the past three years of regulation under the percentage size rule, the average differential between the carton price for a size 27 and the price for a size 56 was \$5.65 at the end of October and remained at \$3.43 in mid-December. During the three years prior to regulation, the average differential between these two sizes was \$3.47 at the end of October, but by mid-December the price for the larger size had dropped to within \$1.68 of the price for the smaller-size fruit. In fact, the average prices for each size were higher during the three years with regulation than for the three years prior to regulation. The average prices for size 27, size 32, size 36, and size 40 during the 11-week period for the last three years were \$9.07, \$7.91, \$7.16, and \$6.62, respectively. This compares to the average prices for the same sizes during the same period for the three years prior to regulation of \$6.48, \$5.63, \$5.59, and \$5.34, respectively.

The percentage size regulation has also been helpful in stabilizing the volume of small sizes entering the fresh market early in the season. During the three years prior to regulation, small sizes accounted for over 34 percent of the total shipments of red seedless grapefruit during the 11-week period covered in the rule. This compares to 31 percent for the same period for the last three years of regulation. There has also been a 43 percent reduction in the volume of small sizes entering the fresh market during the 11-week regulatory period from 1995–96 to 1999–2000.

An economic study done by Florida Citrus Mutual (Lakeland, Florida) in April 1998 found that the weekly percentage regulation had been effective. The study stated that part of the strength in early season pricing appeared to be due to the use of the weekly percentage rule to limit the volume of sizes 48 and 56. It said that prices were generally higher across the size spectrum with sizes 48 and 56 having the largest gains, and larger-sized grapefruit registering modest improvements. The rule shifted the size distribution toward the higher-priced, larger-sized grapefruit, which helped raise weekly average f.o.b. prices. It further stated that size 48 and 56 grapefruit accounted for around 27 percent of domestic shipments during the same 11 weeks during the 1996–97 season. Comparatively, sizes 48 and 56 accounted for only 17 percent of

domestic shipments during the same period in 1997–98, as small sizes were used to supply export customers with preferences for small-sized grapefruit.

During deliberations in past seasons as to weekly percentages, the Committee considered how past shipments had affected the market. Based on available statistical information, the Committee members believed that once shipments of sizes 48 and 56 reach levels above 250,000 cartons a week, prices declined on those and most other sizes of red seedless grapefruit. The Committee believed that if shipments of small sizes could be maintained at around 250,000 cartons a week, prices should stabilize and demand for larger, more profitable sizes should increase.

While the Committee did eventually vote last season to increase the weekly percentages, shipments of sizes 48 and 56 during the 11 weeks regulated remained close to the 250,000-carton mark. This may have contributed to the success of the regulation.

In setting the weekly percentage for each week at 25 percent for the 2000–2001 season, the total available allotment would have approximated 218,922 (25 percent of the total industry base of 875,688 cartons). Consequently, there is room to increase the percentages while holding weekly shipments of sizes 48 and 56 close to the 250,000-carton mark, as was done last season.

In making its recommendation, the Committee reviewed experiences from the past seasons. The Committee examined shipment data covering the 11-week regulatory period for the last three regulated seasons and the three prior seasons. The information contained the amounts and percentages of sizes 48 and 56 shipped during each week. The Committee believes establishing weekly percentages during the last three seasons was successful. The past regulations helped maintain prices at a higher level than the previous years without regulation, and sizes 48 and 56 by count and as a percentage of total shipments were reduced. The Committee considered the past problems and the success of the percentage rule and decided to recommend using the percentage of size provisions for the coming season beginning September 18, 2000.

Therefore, this rule establishes the weekly percentages for these small sizes at 45 percent for the first three weeks (September 18 through October 8); for the fourth through seventh weeks (October 9 through November 5) at 40 percent; and for the last four weeks (November 6 through December 3) at 35 percent.

Under § 905.153, the quantity of sizes 48 and 56 red seedless grapefruit that may be shipped by a handler during a regulated week will be calculated using the recommended percentages 45, 40, or 35 percent, depending on the week. By taking the weekly percentage times the average weekly volume of red grapefruit handled by such handler in the previous five seasons, handlers can calculate the total volume of sizes 48 and 56 they may ship in a regulated week.

The Committee calculates an average week for each handler using the following formula. The total red seedless grapefruit shipments by a handler during the 33 week period beginning the third Monday in September and ending the first Sunday in May during the previous five seasons are added and divided by five to establish an average season. This average season is then divided by the 33 weeks to derive the average week. This average week is the base for each handler for each of the 11 weeks of the regulatory period. The weekly percentage, in this case either 45, 40, or 35 percent, is multiplied by a handler's average week. The product is that handler's total allotment of sizes 48 and 56 red seedless grapefruit for the given week.

Under this rule handlers can fill their allotment with size 56, size 48, or a combination of the two sizes such that the total of these shipments are within the established limits. The Committee staff will perform the specified calculations and provide them to each handler.

The average week for handlers with less than five previous seasons of shipments is calculated by averaging the total shipments for the seasons they did ship red seedless grapefruit during the immediately preceding five years and dividing that average by 33. New handlers with no record of shipments have no prior period on which to base their average week. Therefore, a new handler can ship small sizes equal to 45, 40, or 35 percent, depending on the week, of their total volume of shipments during their first shipping week (depending on when they begin shipping). Once a new handler has established shipments, their average week is calculated as an average of the weeks they have shipped during the current season.

The regulatory period begins the third Monday in September, September 18, 2000. Each regulation week would begin Monday at 12 a.m. and end at 11:59 p.m. the following Sunday, since most handlers keep records based on Monday being the beginning of the workweek.

The rules and regulations governing percentage size regulation contain a variety of provisions designed to provide handlers with some marketing flexibility. When the Secretary establishes regulation for a given week, the Committee calculates the quantity of small red seedless grapefruit that may be handled by each handler. Section 905.153(d) provides allowances for overshipments, loans, and transfers of allotment. These tolerances allow handlers the opportunity to supply their markets while limiting the impact of small sizes.

During any week for which the Secretary has fixed the percentage of sizes 48 and 56 red seedless grapefruit, any handler could handle an amount of sizes 48 or 56 red seedless grapefruit not to exceed 110 percent of their allotment for that week. The quantity of overshipments (the amount shipped in excess of a handler's weekly allotment) will be deducted from the handler's allotment for the following week. Overshipments are not allowed during week 11 because there are no allotments the following week from which to deduct the overshipments.

If handlers fail to use their entire allotments in a given week, the amounts undershipped are not carried forward to the following week. However, a handler to whom an allotment has been issued can lend or transfer all or part of such allotment (excluding the overshipment allowance) to another handler. In the event of a loan, each party, prior to the completion of the loan agreement, notifies the Committee of the proposed loan and date of repayment. If a transfer of allotment is desired, each party will promptly notify the Committee so that proper adjustments of the records can be made. In each case, the Committee confirms in writing all such transactions prior to the following week.

The Committee can also act on behalf of handlers wanting to arrange allotment loans or participate in the transfer of allotment. Repayment of an allotment loan is at the discretion of the handlers party to the loan. The Committee will notify each handler prior to that particular week of the quantity of sizes 48 and 56 red seedless grapefruit such handler can handle during a particular week, making the necessary adjustments for overshipments and loan repayments.

This rule does not affect the provision that handlers may ship up to 15 standard packed cartons (12 bushels) of fruit per day exempt from regulatory requirements. Fruit shipped in gift packages that are individually addressed and not for resale, and fruit shipped for animal feed are also exempt from handling requirements under

specific conditions. Also, fruit shipped to commercial processors for conversion into canned or frozen products or into a beverage base are not subject to the handling requirements under the order.

The introductory text of § 905.350 is proposed to be modified to reflect the Committee recommendation to establish the minimum size for red seedless grapefruit at size 56 on a continuous basis. A proposed rule to implement this recommendation will be published in a separate issue of the **Federal Register**.

Section 8e of the Act requires that whenever grade, size, quality, or maturity requirements are in effect for certain commodities under a domestic marketing order, including grapefruit, imports of that commodity must meet the same or comparable requirements. This rule does not change the minimum grade and size requirements under the order, only the percentages of sizes 48 and 56 red grapefruit that may be handled. Therefore, no change is necessary in the grapefruit import regulations as a result of this action.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), AMS has considered the economic impact of this action on small entities. Accordingly, AMS has prepared this final regulatory flexibility analysis.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 75 grapefruit handlers subject to regulation under the order and approximately 11,000 growers of citrus in the regulated area. Small agricultural service firms, which includes handlers, have been defined by the Small Business Administration (SBA) as those having annual receipts of less than \$5,000,000, and small agricultural producers are defined as those having annual receipts of less than \$500,000 (13 CFR 121.201).

Based on industry and Committee data, the average annual f.o.b. price for fresh Florida red grapefruit during the 1999–2000 season was around \$7.52 per $\frac{1}{2}$ bushel carton, and total fresh shipments for the 1999–2000 season are estimated at 25.6 million cartons of red grapefruit. Approximately 25 percent of all handlers handled 70 percent of Florida grapefruit shipments. In addition, many of these handlers ship

other citrus fruit and products which are not included in Committee data but would contribute further to handler receipts. Using the average f.o.b. price, about 69 percent of grapefruit handlers could be considered small businesses under SBA's definition. Therefore, the majority of Florida grapefruit handlers may be classified as small entities. The majority of Florida grapefruit producers also may be classified as small entities.

This rule limits the volume of small red seedless grapefruit entering the fresh market during the first 11 weeks of the 2000–01 season, beginning September 18, 2000. The over shipment of smaller-sized red seedless grapefruit early in the season has contributed to below production cost returns for growers and lower on tree values. This rule limits the volume of sizes 48 and 56 red seedless grapefruit by setting the weekly percentage for the 11 weeks at 45 percent for the first three weeks (September 18 through October 8); for the fourth through seventh weeks (October 9 through November 5) at 40 percent; and for the last four weeks (November 6 through December 3) at 35 percent. This is a change from the Committee's original recommendation of a 25 percent weekly percentage for the 11 weeks. The quantity of sizes 48 and 56 red seedless grapefruit that may be shipped by a handler during a particular week is calculated using the recommended percentage. This rule utilizes the provisions of § 905.153. Authority for this action is provided in § 905.52 of the order.

While this rule may necessitate spot picking, which could entail slightly higher harvesting costs, many in the industry are already using the practice. In addition, because this regulation is only in effect for part of the season, the overall effect on costs is minimal. This rule is not expected to appreciably increase costs to producers. Over the past three seasons, producers have adjusted their harvesting operations to more efficiently conform with the percentage size regulation and to keep their harvesting costs as low as possible.

If a 25 percent restriction on small sizes had been applied during the 11-week period for the three seasons prior to the 1997–98 season, an average of 4.2 percent of overall shipments during that period would have been constrained by regulation. A large percentage of this volume most likely could have been replaced by larger sizes for which there are no volume restrictions. Under regulation, larger sizes have been substituted for smaller sizes with a nominal effect on overall shipments. Also, handlers can transfer, borrow, or loan allotment based on their needs in

a given week. Handlers also have the option of over shipping their allotment by 10 percent in a week, provided the overshipment is deducted from the following week's shipments.

Approximately 120 loans and transfers were utilized last season. Statistics for 1999–2000 show that in none of the regulated weeks was the total available allotment used. Therefore, the overall impact of this regulation on total shipments should be minimal.

Handlers and producers have received higher returns under percentage size regulation. In late October, during the last three years with regulation, the average market price for red seedless grapefruit was \$9.31 compared to \$7.22 for the same time during the three years prior to regulation. Prices have also remained higher, with an average price of \$7.31 in mid-December during regulation compared to \$6.02 for the three years prior to regulation. The average season price was also higher, with the past three seasons with regulation averaging \$7.13 compared to \$5.83 for the three prior seasons.

The on-tree earnings per box have also increased for the past three years, providing better returns to growers. The on-tree price increased from \$3.42 for 1997–98, to \$5.04 for 1998–99, to an estimated \$6.46 for the 1999–2000 season. These increased returns when coupled with the overall volume of red seedless grapefruit more than offset any additional costs associated with this regulation.

The purpose of this rule is to help stabilize the market and improve grower returns by limiting the volume of small sizes marketed early in the season. This rule provides a supply of small-sized red seedless grapefruit sufficient to meet market demand, without saturating all markets with these small sizes. The opportunities and benefits of this rule are expected to be available to all red seedless grapefruit handlers and growers regardless of their size of operation.

The Committee considered one alternative to taking this action. The alternative was leaving the weekly percentages at 25 percent. However, the Committee believed that the 25 percent level was too restrictive. Therefore, this option was rejected.

Handlers utilizing the flexibility of the loan and transfer aspects of this action are required to submit a form to the Committee. The rule increases the reporting burden on approximately 75 handlers of red seedless grapefruit who will be taking about 0.03 hour to complete each report regarding allotment loans or transfers. The information collection requirements

contained in this section have been approved by the Office of Management and Budget (OMB) under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) and assigned OMB number 0581-0094. As with all Federal marketing order programs, reports and forms are periodically reviewed to reduce information requirements and duplication by industry and public sectors.

The Department has not identified any relevant Federal rules that duplicate, overlap or conflict with this interim final rule. However, red seedless grapefruit must meet the requirements as specified in the U.S. Standards for Grades of Florida Grapefruit (7 CFR 51.760 through 51.784) issued under the Agricultural Marketing Act of 1946 (7 U.S.C. 1621 through 1627).

The Committee's meeting was widely publicized throughout the citrus industry and all interested persons were invited to attend the meeting and participate in Committee deliberations on all issues. Like all Committee meetings, the May 26, 2000 and the August 31, 2000, meetings were public meetings and all entities, both large and small, were able to express views on this issue. Interested persons are invited to submit information on the regulatory and informational impacts of this action on small businesses.

A small business guide on complying with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at: <http://www.ams.usda.gov/fv/moab.html>. Any questions about the compliance guide should be sent to Jay Guerber at the previously mentioned address in the **FOR FURTHER INFORMATION CONTACT** section.

A proposed rule concerning this action was published in the **Federal Register** on July 11, 2000 (65 FR 42642). Copies of the rule were mailed or sent via facsimile to all Committee members and grapefruit growers and handlers. The Office of the Federal Register, the Department, and the Committee also made this rule available through the Internet.

A 30-day comment period was provided to allow interested persons to respond to the proposal. The comment period ended August 10, 2000. No comments were received.

As previously stated, subsequent to the issuance of the proposed rule, the Committee met and recommended modifying its original recommendation. The Committee recommended that the weekly percentages be changed from 25 percent for each of the 11 regulated weeks to 45 percent for the first three weeks (September 18 through October 8); 40 percent for the next four weeks

(October 9 through November 5); and 35 percent for the last four weeks (November 6 through December 3). Because of this recommendation, the Department has determined that interested parties should be provided the opportunity to comment on the changes to the original recommendation. However, the Department has further determined that extending the comment period with no percentages in effect limiting the shipment of small red seedless grapefruit when the period of regulation begins would be detrimental to the industry. Therefore, the Department is instituting the regulations on small red seedless grapefruit through this interim final rule that allows 10 additional days to comment.

Ten days is deemed appropriate because the regulation period begins September 18, 2000, and continues for 11 weeks. Adequate time will be necessary so that any changes made to the regulations based on comments filed could be made effective during the 11 week period. All comments received will be considered before a final determination is made on this matter.

After consideration of all relevant material presented, including the information and recommendations submitted by the Committee, and other information, it is found that this rule, as hereinafter set forth, will tend to effectuate the declared policy of the Act.

Pursuant to 5 U.S.C. 553, it is also found and determined upon good cause that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice prior to putting this rule into effect and good cause exists for not postponing the effective date of this rule until 30 days after publication in the **Federal Register**. This rule needs to be in place when the regulatory period begins September 18, 2000, and handlers begin shipping grapefruit. This issue has been widely discussed at various industry and association meetings, and the Committee has kept the industry well informed. Interested persons have had time to determine and express their positions. In addition, these small red grapefruit are already being harvested and handlers need to know the amount they will be allowed to ship. Further, handlers are aware of this rule, which was recommended at public meetings. Also a 30-day comment period was provided for in the proposed rule and a 10-day comment period is provided in this rule.

List of Subjects in 7 CFR Part 905

Grapefruit, Marketing agreements, Oranges, Reporting and recordkeeping requirements, Tangelos, Tangerines.

For the reasons set forth in the preamble, 7 CFR part 905 is amended as follows:

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

1. The authority citation for 7 CFR Part 905 continues to read as follows:

Authority: 7 U.S.C. 601-674.

2. Section 905.350 is revised to read as follows:

§ 905.350 Red seedless grapefruit regulation.

This section establishes the weekly percentages to be used to calculate each handler's weekly allotment of small sizes. Handlers can fill their allotment with size 56, size 48, or a combination of the two sizes such that the total of these shipments are within the established weekly limits. The weekly percentages for size 48 (3⁹/₁₆ inches minimum diameter) and size 56 (3⁵/₁₆ inches minimum diameter) red seedless grapefruit grown in Florida, which may be handled during the specified weeks are as follows:

Week	Weekly percentage
(a) 9/18/00 through 9/24/00	45
(b) 9/25/00 through 10/1/00	45
(c) 10/2/00 through 10/8/00	45
(d) 10/9/00 through 10/15/00	40
(e) 10/16/00 through 10/22/00 ..	40
(f) 10/23/00 through 10/29/00 ...	40
(g) 10/30/00 through 11/5/00	40
(h) 11/6/00 through 11/12/00	35
(i) 11/13/00 through 11/19/00 ...	35
(j) 11/20/00 through 11/26/00	35
(k) 11/27/00 through 12/3/00	35

Dated: September 12, 2000.

Robert C. Keeney,

Deputy Administrator, Fruit and Vegetable Programs.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 99–CE–84–AD; Amendment 39–11897; AD 2000–18–12]

RIN 2120–AA64

Airworthiness Directives; Polskie Zaklady Lotnicze Spolka zo.o. Models PZL M18, PZL M18A, and PZL M18B Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule; request for comments.

SUMMARY: This amendment adopts a new airworthiness directive (AD) that applies to all Polskie Zaklady Lotnicze Spolka zo.o. (PZL-Mielac) Models PZL M18, PZL M18A, and PZL M18B airplanes. This AD requires you to repetitively inspect the centerwing-to-outboard wing attach joints for cracks in the lugs, corrosion in the main holes, and ovalization of the main holes; repair corrosion and apply anti-corrosion protection; replace the wing attach joints, as necessary; and eliminate any ovalization of the wing main joint holes. This AD is the result two instances of in-flight wing separation on Model PZL M18A airplanes where severe corrosion and pitting led to high stress concentrations on the wing attachment joints. The actions specified by this AD are intended to detect and correct cracks in the lugs, corrosion in the main holes, and ovalization of the main holes, in the centerwing-to-outboard wing attach joints. Such damage could result in failure of the joints with consequent in-flight wing separation.

DATES: This amendment becomes effective on September 27, 2000.

The Director of the Federal Register approved the incorporation by reference of certain publications listed in the regulations as of September 27, 2000.

The FAA must receive any comments on this rule on or before October 17, 2000.

ADDRESSES: Submit comments in triplicate to FAA, Central Region, Office of the Regional Counsel, Attention: Rules Docket No. 99–CE–84–AD, 901 Locust, Room 506, Kansas City, Missouri 64106.

You may get the service information referenced in this AD from Polskie Zaklady Lotnicze Spolka zo.o., Wojska Polskiego 3, 39–300 Mielec, Poland; telephone: 48 17 788 7818; e-mail: pzlservice@ptc.pl. You may examine this information at FAA, Central Region, Office of the Regional Counsel,

Attention: Rules Docket No. 99–CE–84–AD, 901 Locust, Room 506, Kansas City, Missouri 64106; or at the Office of the Federal Register, 800 North Capitol Street, NW, suite 700, Washington, DC.

FOR FURTHER INFORMATION CONTACT:

Brain Hancock, Aerospace Engineer, FAA, Small Airplane Directorate, 901 Locust, Room 301, Kansas City, Missouri 64106; telephone: (816) 329–4143; facsimile: (816) 329–4090.

SUPPLEMENTARY INFORMATION:**Discussion***What events have caused this AD?*

The FAA has received reports of two instances of in-flight wing separation on Model PZL M18A airplanes.

Investigation of the occurrences reveals that severe corrosion and pitting led to high stress concentrations on the centerwing-to-outboard wing attach joints. This resulted in cracks that ran radially from the bore of the fitting. The cracking consequently caused the in-flight separation of the wing on the two airplanes.

The Models PZL M18, PZL M18A, and PZL M18B incorporate a similar type design.

What are the consequences if the condition is not corrected? Cracked or corroded centerwing-to-outboard wing attach joints could result in failure of the joints with consequent in-flight wing separation.

Relevant Service Information

Is there service information that applies to this subject? Polskie Zaklady Lotnicze Co. Ltd. has issued Service Bulletin No. E/02.170/2000, dated August 3, 2000.

What are the provisions of this service bulletin? This service bulletin includes procedures for:

- Inspecting the centerwing-to-outboard wing attach joints for cracks in the lugs, corrosion in the main holes, and ovalization of the main holes;
- Repairing corrosion and applying anti-corrosion protection;
- Replacing the wing attach joints; and
- Eliminating ovalization of the wing main joint holes.

The FAA's Determination and an Explanation of the Provisions of the AD

What has FAA decided? After examining the circumstances and reviewing all available information related to the incidents described above, FAA has determined that:

- An unsafe condition exists or could develop on PZL-Mielac Models PZL M18, PZL M18A, and PZL M18B airplanes of the same type design to those referenced above;
- The actions specified in the above service bulletin should be

incorporated on the affected airplanes; and

- AD action should be taken to detect and correct cracks in the lugs, corrosion in the main holes, and ovalization of the main holes, in the centerwing-to-outboard wing attach joints. Such damage could result in failure of the joints with consequent in-flight wing separation.

What does this AD require? This AD requires you to:

- Repetitively inspect the centerwing-to-outboard wing attach joints for cracks in the lugs, corrosion in the main holes, and ovalization of the main holes;
- Repair corrosion and apply anti-corrosion protection;
- Replace the wing attach joints, as necessary; and
- Eliminate any ovalization of the wing main joint holes.

You must use magnetic particle methods to accomplish the inspection, and use the procedures included in the maintenance manual. All other procedures to accomplish this AD are included in Polskie Zaklady Lotnicze Co. Ltd. Service Bulletin No. E/02.170/2000, dated August 3, 2000.

We will give initial inspection credit to any owner/operator where the centerwing-to-outboard attach joints were inspected within the last 9 months using magnetic particle methods as specified in the maintenance manual.

What is the compliance time of this AD? The initial inspection compliance time of this AD is "Upon accumulating 3,000 hours time-in-service (TIS) on the airplane or within 30 calendar days after the effective date of this AD, whichever occurs later." The repetitive compliance time of this AD is "Within 500 hours TIS or 12 calendar months after the initial inspection, whichever occurs first; and thereafter at intervals not to exceed 500 hours or 12 calendar months, whichever occurs first."

Why is the compliance presented in both calendar time and hours time-in-service (TIS)? Unless you accomplished the initial inspection within the last 9 calendar months from the effective date of the AD, you must accomplish the initial inspection when the airplane has accumulated 3,000 hours TIS or 30 days, whichever occurs later. Since most of the affected airplanes have accumulated more than 3,000 hours TIS, the 30 days allows a grace period of 30 days for those airplanes. This will assure that:

- The high TIS airplanes have the inspection accomplished within 30 days;

- The low TIS airplanes will have the inspection accomplished at 3,000 hours total TIS; and
- None of the affected airplanes will be unnecessarily grounded as a result of this action.

The repetitive compliance time assures that cracks and corrosion do not go undetected on all airplanes by:

- Requiring inspection within 500 hours TIS on the high-usage airplanes; and
- Requiring inspection within 12 calendar months on the low-usage airplanes.

This would allow the airplane owners/operators to schedule the inspections at regularly scheduled maintenance activities.

Will I have the opportunity to comment prior to the issuance of the rule? Because the unsafe condition described in this document could result in an in-flight separation of the wing, FAA finds that notice and opportunity for public prior comment are impracticable. Therefore, good cause exists for making this amendment effective in less than 30 days.

Comments Invited

How do I comment on this AD? Although this action is in the form of a final rule and was not preceded by notice and opportunity for public comment, we invite your comments on the rule. You may submit whatever written data, views, or arguments you choose. You need to include the rule's docket number and submit your comments in triplicate to the address specified under the caption **ADDRESSES**. We will consider all comments received on or before the closing date specified above. We may amend this rule in light of comments received. Factual information that supports your ideas and suggestions is extremely helpful in evaluating the effectiveness of the AD action and determining whether we need to take additional rulemaking action.

Are there any specific portions of the AD I should pay attention to? The FAA specifically invites comments on the overall regulatory, economic,

environmental, and energy aspects of the rule that might suggest a need to modify the rule. You may examine all comments we receive before and after the closing date of the rule in the Rules Docket. We will file a report in the Rules Docket that summarizes each FAA contact with the public that concerns the substantive parts of this AD.

The FAA is reviewing the writing style we currently use in regulatory documents, in response to the Presidential memorandum of June 1, 1998. That memorandum requires federal agencies to communicate more clearly with the public. We are interested in your comments on whether the style of this document is clearer, and any other suggestions you might have to improve the clarity of FAA communications that affect you. You can get more information about the Presidential memorandum and the plain language initiative at <http://www.plainlanguage.gov>.

How can I be sure FAA receives my comment? If you want us to acknowledge the receipt of your comments, you must include a self-addressed, stamped postcard. On the postcard, write "Comments to Docket No. 99–CE–84–AD." We will date stamp and mail the postcard back to you.

Regulatory Impact

Does this AD impact relations between Federal and State governments?

These regulations will not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, FAA has determined that this final rule does not have federalism implications under Executive Order 13132.

Does this AD involve a significant rule or regulatory action? The FAA has determined that this regulation is an emergency regulation that must be issued immediately to correct an unsafe condition in aircraft, and is not a significant regulatory action under Executive Order 12866. It has been determined further that this action

involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979). If it is determined that this emergency regulation otherwise would be significant under DOT Regulatory Policies and Procedures, a final regulatory evaluation will be prepared and placed in the Rules Docket (otherwise, an evaluation is not required). A copy of it, if filed, may be obtained from the Rules Docket.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

Adoption of the Amendment

Accordingly, under the authority delegated to me by the Administrator, FAA amends part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

2. FAA amends Section 39.13 by adding a new airworthiness directive (AD) to read as follows:

2000–18–12 Polskie Zaklady Lotnicze Spolka zo.o.: Amendment 39–11897; Docket No. 99–CE–84–AD.

(a) *What airplanes are affected by this AD?* This AD applies to Models PZL M18, PZL M18A, and PZL M18B airplanes, all serial numbers, certificated in any category.

(b) *Who must comply with this AD?* Anyone who wishes to operate any of the above airplanes on the U.S. Register must comply with this AD.

(c) *What problem does this AD address?* The actions specified by this AD are intended to detect and correct cracks in the lugs, corrosion in the main holes, and ovalization of the main holes, in the centerwing-to-outboard wing attach joints. Such damage could result in failure of the joints with consequent in-flight wing separation.

(d) *What must I do to address this problem?* To address this problem, you must accomplish the following:

Action	Compliance time	Procedures
(1) Inspect, using magnetic particle methods, the centerwing-to-outboard wing attach joints for cracks in the lugs, corrosion in the main holes, and ovalization of the main holes.	(i) Initial inspection: Unless you have accomplished the required inspection since December 27, 1999 (9 months before the effective date of the AD), accomplish upon accumulating 3,000 hours time-in-service (TIS) on the airplane or within 30 days after September 27, 2000 (the effective date of this AD), whichever occurs later. (ii) Repetitive inspections:	As specified in Polskie Zaklady Lotnicze Co. Ltd. Service Bulletin No. E/02.170/2000, dated August 3, 2000. Use the magnetic particle inspection procedures that are in the maintenance manual for these inspections.

Action	Compliance time	Procedures
(2) After each inspection, repair corrosion damage found to the extent allowed in the service bulletin and apply anti-corrosion protection.	(A) For existing attach joints: Within 500 hours TIS or 12 calendar months, whichever occurs first, after the initial inspection; and thereafter at intervals not to exceed 500 hours TIS or 12 calendar months, whichever occurs first. The first repetitive inspection starts at 12 calendar months after the last inspection for those airplanes that already had the initial inspection accomplished since December 27, 1999 (9 months before the effective date of this AD). (B) For new attach joints: Upon accumulating 3,000 hours TIS on the joint, and thereafter at intervals not to exceed 500 hours TIS or 12 calendar months, whichever occurs first.	In accordance with the procedures in Polskie Zak Ady Lotnicze Co. Ltd. Service Bulletin No. E/02.170/2000, dated August 3, 2000.
(3) After each inspection, replace the wing attach joints if found cracked or if the corrosion damage is more than is specified in the service bulletin.	Prior to further flight after the inspection where the discrepancy was found.	In accordance with the procedures in Polskie Zak Ady Lotnicze Co. Ltd. Service Bulletin No. E/02.170/2000, dated August 3, 2000.
(4) After each inspection, eliminate any ovalization of the wing main joint holes.	Prior to further flight after the inspection where the discrepancy was found.	In accordance with the procedures in Polskie Zak Ady Lotnicze Co. Ltd. Service Bulletin No. E/02.170/2000, dated August 3, 2000.

(e) *Can I comply with this AD in any other way?* You may use an alternative method of compliance or adjust the compliance time if:

(1) Your alternative method of compliance provides an equivalent level of safety; and

(2) The Manager, Small Airplane Directorate, approves your alternative. Submit your request through an FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Small Airplane Directorate.

Note: This AD applies to each airplane identified in paragraph (a) of this AD, regardless of whether it has been modified, altered, or repaired in the area subject to the requirements of this AD. For airplanes that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must request approval for an alternative method of compliance in accordance with paragraph (e) of this AD. The request should include an assessment of the effect of the modification, alteration, or repair on the unsafe condition addressed by this AD; and, if you have not eliminated the unsafe condition, specific actions you propose to address it.

(f) *Where can I get information about any already-approved alternative methods of compliance?* Contact the Small Airplane Directorate, 901 Locust, Room 301, Kansas City, Missouri 64106; telephone: (816) 329-4121; facsimile: (816) 329-4091.

(g) *What if I need to fly the airplane to another location to comply with this AD?* The FAA can issue a special flight permit under sections 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate your airplane to a location where you can accomplish the requirements of this AD.

(h) *Are any service bulletins incorporated into this AD by reference?* You must accomplish the actions required by this AD in accordance with Polskie Zak Ady Lotnicze Co. Ltd. Service Bulletin No. E/02.170/2000,

dated August 3, 2000. The Director of the Federal Register approved this incorporation by reference under 5 U.S.C. 552(a) and 1 CFR part 51. You can get copies from Polskie Zaklady Lotnicze Spolka zo.o., Wojska Polskiego 3, 39-300 Mielec, Poland. You may look at copies at FAA, Central Region, Office of the Regional Counsel, 901 Locust, Room 506, Kansas City, Missouri, or at the Office of the Federal Register, 800 North Capitol Street, NW, suite 700, Washington, DC.

(i) *When does this amendment become effective?* This amendment becomes effective on September 27, 2000.

Issued in Kansas City, Missouri, on September 5, 2000.

Michael Gallagher,

Manager, Small Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910-13-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 558

New Animal Drugs for Use in Animal Feeds; Narasin and Bacitracin Zinc

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect approval of a new animal drug application (NADA) filed by Roche Vitamins, Inc. The NADA provides for

use of approved narasin and bacitracin zinc Type A medicated articles to make two-way combination Type C medicated feeds used for prevention of coccidiosis, increased rate of weight gain, and improved feed efficiency in broiler chickens.

DATES: This rule is effective September 15, 2000.

FOR FURTHER INFORMATION CONTACT: Charles J. Andres, Center for Veterinary Medicine (HFV128), Food and Drug Administration, 7500 Standish Pl., Rockville, MD 20855, 301-827-1600.

SUPPLEMENTARY INFORMATION: Roche Vitamins, Inc., 45 Waterview Blvd., Parsippany, NJ 07054-1298, filed NADA 140-865 that provides for use of Monteban® (36, 45, 54, 72, or 90 grams per pound (g/lb) narasin activity) and Baciferm® (10, 25, 40, or 50 g/lb bacitracin activity as bacitracin zinc) Type A medicated articles to make two-way combination Type C medicated feeds for broiler chickens. The combination Type C medicated feeds contain 54 to 72 g/ton narasin and 4 to 50 g/ton bacitracin zinc and are used for prevention of coccidiosis caused by *Eimeria necatrix*, *E. tenella*, *E. acervulina*, *E. brunetti*, *E. mivati*, and *E. maxima*; and for increased rate of weight gain and improved feed efficiency in broiler chickens. The NADA is approved as of August 7, 2000, and the regulations are amended in §§ 558.78 and 558.363 (21 CFR 558.78 and 558.363) to reflect the approval. The basis of approval is discussed in the freedom of information summary.

Section 558.78 is also amended editorially to consolidate the cross-references for approved combinations in paragraph (d)(3) and list them in alphabetical order.

In accordance with the freedom of information provisions of 21 CFR part 20 and 514.11(e)(2)(ii), a summary of safety and effectiveness data and information submitted to support approval of this application may be seen in the Dockets Management Branch (HFA-305), Food and Drug Administration, 5630 Fishers Lane, rm. 1061, Rockville, MD 20852, between 9 a.m. and 4 p.m., Monday through Friday.

The agency has determined under 21 CFR 25.33(a)(2) that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

This rule does not meet the definition of "rule" in 5 U.S.C. 804(3)(A) because it is a rule of "particular applicability." Therefore, it is not subject to the congressional review requirements in 5 U.S.C. 801-808.

List of Subjects in 21 CFR Part 558

Animal drugs, Animal feeds.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs and redelegated to the Center for Veterinary Medicine, 21 CFR part 558 is amended as follows:

PART 558—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

1. The authority citation for 21 CFR part 558 continues to read as follows:

Authority: 21 U.S.C. 360b, 371.

2. Section 558.78 is amended by revising paragraph (d)(3) to read as follows:

§ 558.78 Bacitracin zinc.

* * * * *

(d) * * *

(3) It may be used as approved in combination with:

- (i) Amprolium alone and with roxarsone as in § 558.55.
- (ii) Amprolium and ethopabate alone and with roxarsone as in § 558.58.
- (iii) Carbarsone as in § 558.120.
- (iv) Clopidol alone and with roxarsone as in § 558.175.
- (v) Decoquinatone alone and with roxarsone as in § 558.195.
- (vi) Hygromycin B alone and with penicillin as in § 558.274.
- (vii) Lasalocid sodium alone or with roxarsone as in § 558.311.

(viii) Monensin alone and with roxarsone as in § 558.355.

(ix) Narasin as in § 558.363.

(x) Robenidine as in § 558.515.

(xi) Salinomycin alone and with roxarsone as in § 558.550.

(xii) Zoalene alone and with arsanilic acid or roxarsone as in § 558.680.

3. Section 558.363 is amended by adding paragraphs (a)(7) and (d)(1)(x) to read as follows:

§ 558.363 Narasin.

(a) * * *

(7) To 063238: 36, 45, 54, 72, or 90 grams per pound, with 10, 25, 40, or 50 grams per pound bacitracin zinc, paragraph (d)(1)(x) of this section.

* * * * *

(d) * * *

(1) * * *

(x) *Amount per ton.* Narasin, 54 to 72 grams and bacitracin zinc, 4 to 50 grams.

(A) *Indications for use.* For the prevention of coccidiosis caused by *Eimeria necatrix*, *E. tenella*, *E. acervulina*, *E. brunetti*, *E. mivati*, and *E. maxima*, and for increased rate of weight gain and improved feed efficiency.

(B) *Limitations.* For broiler chickens only. Feed continuously as sole ration. Do not allow adult turkeys, horses, or other equines access to formulations containing narasin. Ingestion of narasin by these species has been fatal. Narasin as provided by 000986, bacitracin zinc by 063238 in § 510.600(c) of this chapter.

* * * * *

Dated: August 5, 2000.

Stephen F. Sundlof,

Director, Center for Veterinary Medicine.

[FR Doc. 00-23799 Filed 9-14-00; 8:45 am]

BILLING CODE 4160-01-F

PENSION BENEFIT GUARANTY CORPORATION

29 CFR Parts 4022 and 4044

Benefits Payable in Terminated Single-Employer Plans; Allocation of Assets in Single-Employer Plans; Interest Assumptions for Valuing and Paying Benefits

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Final rule.

SUMMARY: The Pension Benefit Guaranty Corporation's regulations on Benefits Payable in Terminated Single-Employer Plans and Allocation of Assets in Single-Employer Plans prescribe interest

assumptions for valuing and paying benefits under terminating single-employer plans. This final rule amends the regulations to adopt interest assumptions for plans with valuation dates in October 2000. Interest assumptions are also published on the PBGC's web site (<http://www.pbgc.gov>).

EFFECTIVE DATE: October 1, 2000.

FOR FURTHER INFORMATION CONTACT:

Harold J. Ashner, Assistant General Counsel, Office of the General Counsel, Pension Benefit Guaranty Corporation, 1200 K Street, NW., Washington, DC 20005, 202-326-4024. (For TTY/TDD users, call the Federal relay service toll-free at 1-800-877-8339 and ask to be connected to 202-326-4024.)

SUPPLEMENTARY INFORMATION: The PBGC's regulations prescribe actuarial assumptions—including interest assumptions—for valuing and paying plan benefits of terminating single-employer plans covered by title IV of the Employee Retirement Income Security Act of 1974. The interest assumptions are intended to reflect current conditions in the financial and annuity markets.

Three sets of interest assumptions are prescribed: (1) a set for the valuation of benefits for allocation purposes under section 4044 (found in Appendix B to Part 4044), (2) a set for the PBGC to use to determine whether a benefit is payable as a lump sum and to determine lump-sum amounts to be paid by the PBGC (found in Appendix B to Part 4022), and (3) a set for private-sector pension practitioners to refer to if they wish to use lump-sum interest rates determined using the PBGC's historical methodology (found in Appendix C to Part 4022). (See the PBGC's two final rules published March 17, 2000, in the **Federal Register** (at 65 FR 14752 and 14753). Effective May 1, 2000, these rules changed how the interest assumptions are used and where they are set forth in the PBGC's regulations.)

Accordingly, this amendment (1) adds to Appendix B to Part 4044 the interest assumptions for valuing benefits for allocation purposes in plans with valuation dates during October 2000, (2) adds to Appendix B to Part 4022 the interest assumptions for the PBGC to use for its own lump-sum payments in plans with valuation dates during October 2000, and (3) adds to Appendix C to Part 4022 the interest assumptions for private-sector pension practitioners to refer to if they wish to use lump-sum interest rates determined using the PBGC's historical methodology for valuation dates during October 2000.

For valuation of benefits for allocation purposes, the interest assumptions that

the PBGC will use (set forth in Appendix B to part 4044) will be 7.00 percent for the first 25 years following the valuation date and 6.25 percent thereafter. These interest assumptions represent no change from those in effect for September 2000.

The interest assumptions that the PBGC will use for its own lump-sum payments (set forth in Appendix B to part 4022) will be 5.00 percent for the period during which a benefit is in pay status, 4.25 percent during the seven-year period directly preceding the benefit's placement in pay status, and 4.00 percent during any other years preceding the benefit's placement in pay status. These interest assumptions represent a decrease (from those in effect for September 2000) of 0.25 percent for the period during which a benefit is in pay status and for the seven-year period directly preceding the benefit's placement in pay status and are otherwise unchanged.

For private-sector payments, the interest assumptions (set forth in Appendix C to part 4022) will be the same as those used by the PBGC for

determining and paying lump sums (set forth in Appendix B to part 4022).

The PBGC has determined that notice and public comment on this amendment are impracticable and contrary to the public interest. This finding is based on the need to determine and issue new interest assumptions promptly so that the assumptions can reflect, as accurately as possible, current market conditions.

Because of the need to provide immediate guidance for the valuation and payment of benefits in plans with valuation dates during October 2000, the PBGC finds that good cause exists for making the assumptions set forth in this amendment effective less than 30 days after publication.

The PBGC has determined that this action is not a "significant regulatory action" under the criteria set forth in Executive Order 12866.

Because no general notice of proposed rulemaking is required for this amendment, the Regulatory Flexibility Act of 1980 does not apply. See 5 U.S.C. 601(2).

List of Subjects

29 CFR Part 4022

Employee benefit plans, Pension insurance, Pensions, Reporting and recordkeeping requirements.

29 CFR Part 4044

Employee benefit plans, Pension insurance, Pensions.

In consideration of the foregoing, 29 CFR parts 4022 and 4044 are amended as follows:

PART 4022—BENEFITS PAYABLE IN TERMINATED SINGLE-EMPLOYER PLANS

1. The authority citation for part 4022 continues to read as follows:

Authority: 29 U.S.C. 1302, 1322, 1322b, 1341(c)(3)(D), and 1344.

2. In appendix B to part 4022, Rate Set 84, as set forth below, is added to the table. (The introductory text of the table is omitted.)

Appendix B to Part 4022—Lump Sum Interest Rates for PBGC Payments

Rate set	For plans with a valuation date		Immediate annuity rate (percent)	Deferred annuities (percent)				
	On or after	Before		i_1	i_2	i_3	n_1	n_2
84	10-1-00	11-1-00	5.00	4.25	4.00	4.00	7	8

3. In appendix C to part 4022, Rate Set 84, as set forth below, is added to the table. (The introductory text of the table is omitted.)

Appendix C to Part 4022—Lump Sum Interest Rates For Private-Sector Payments

Rate set	For plans with a valuation date		Immediate annuity rate (percent)	Deferred annuities (percent)				
	On or after	Before		i_1	i_2	i_3	n_1	n_2
84	10-1-00	11-1-00	5.00	4.25	4.00	4.00	7	8

PART 4044—ALLOCATION OF ASSETS IN SINGLE-EMPLOYER PLANS

4. The authority citation for part 4044 continues to read as follows:

Authority: 29 U.S.C. 1301(a), 1302(b)(3), 1341, 1344, 1362.

5. In appendix B to part 4044, a new entry, as set forth below, is added to the table. (The introductory text of the table is omitted.)

Appendix B to Part 4044—Interest Rates Used To Value Benefits

For valuation dates occurring in the month—	The values of i_t are					
	i_t	for $t =$	i_t	for $t =$	i_t	for $t =$
October 20000700	1–25	.0625	>25	N/A	N/A

Issued in Washington, DC, on this 8th day of September 2000.

David M. Strauss,
Executive Director, Pension Benefit Guaranty Corporation.

BILLING CODE 7708–01–P

PRESIDIO TRUST

36 CFR Part 1010

RIN 3212–AA02

Management of the Presidio: Environmental Quality

AGENCY: The Presidio Trust.

ACTION: Final rule.

SUMMARY: The Presidio Trust (Trust) was created by Congress in 1996 to manage a portion of the former U.S. Army base known as The Presidio of San Francisco, California. Administrative jurisdiction of approximately 80 percent of this property was transferred from the National Park Service (NPS), Department of the Interior (DOI), to the Trust as of July 1, 1998. Pursuant to the National Environmental Policy Act of 1969 (NEPA), the Trust adopted interim procedures and guidelines for implementing NEPA, which generally consisted of the NEPA procedures and guidelines of the NPS, pending promulgation of the Trust's own regulations for implementing NEPA. See 63 FR 49142 (Sept. 14, 1998). The Trust proposed its own NEPA regulations on July 23, 1999 (64 FR 39951) and accepted comments from the public until October 5, 1999, following an extension of the comment period (64 FR 51488). Today, the Trust publishes its response to comments received, as well as its final rule on this topic.

DATES: This final rule is effective October 16, 2000.

FOR FURTHER INFORMATION CONTACT: Karen A. Cook, General Counsel, the Presidio Trust, 34 Graham Street, PO Box 29052, San Francisco, CA 94129–0052, Telephone: 415–561–5300.

SUPPLEMENTARY INFORMATION:

Background

The Presidio Trust is a wholly-owned government corporation created

pursuant to Title I of the Omnibus Parks and Public Lands Act of 1996, Public Law 104–333, 110 Stat. 4097 (the Trust Act). Pursuant to section 103(b) of the Trust Act, on July 1, 1998, the Secretary of the Interior transferred administrative jurisdiction to the Trust of all of Area B of the former Presidio Army Base, as shown on the map referenced in the Trust Act.

Pursuant to its rulemaking authority and the regulations of the Council on Environmental Quality (CEQ) at 40 CFR 1507.3(a), the Trust—in consultation with CEQ—initially adopted existing NPS NEPA policy guidance, to the extent it did not conflict with the Presidio Trust Act or regulations of the Presidio Trust, as its interim procedures and guidelines for implementing NEPA. These interim procedures and guidelines are found in “NPS–12: National Environmental Policy Act Guidelines” (1982) as supplemented by NPS’s “Standard Operating Procedure 601.” Notice of the Trust’s adoption of these interim procedures was published in the **Federal Register** on September 14, 1998 (63 FR 49142). These interim procedures and guidelines will remain in effect until the effective date of the final regulations published today. Upon the effective date, the final regulations will replace the interim procedures and guidelines in their entirety.

Prior to proposing these regulations, and finalizing them today, the Trust consulted with CEQ pursuant to CEQ’s regulations, 40 CFR 1507.3(a). The Trust also consulted with officials of the Department of the Interior and the National Park Service designated by the Secretary of the Interior to facilitate such consultation. An initial draft of the proposed regulations was modified in response to these comments prior to its publication in the **Federal Register** on July 23, 1999 (64 FR 39951).

The Trust originally provided for a public comment period of 60 days on its proposed NEPA regulations. See 64 FR 39951. Upon request of the commenters, that period was later extended by approximately two weeks. See 64 FR 51488. The Trust has considered the comments received within the comment period, as extended, and today publishes its responses to those comments and its final NEPA

regulations. As of its effective date, this final rule supersedes the Trust’s adoption of interim procedures and guidelines for implementing NEPA.

Summary of the Proposed Rule

The proposed rule, including a section-by-section analysis, was set forth in detail in the July 23, 1999 issue of the **Federal Register** (64 FR 39951). In general, the proposed rule—and the final rule presented herein—follows the fundamental NEPA process that Federal agencies follow. The rule is intended to supplement the regulations of CEQ and not to paraphrase or repeat those regulations. See 40 CFR 1507.3.

Under the rule as proposed and finalized, the Trust would first determine whether a proposed action by the Trust is one that normally does not require either an environmental assessment (EA) or an environmental impact statement (EIS), *i.e.*, whether the proposed action is categorically excluded from NEPA review or has been covered by a previous EA and/or EIS. If it is not such an action, then the Trust would consider whether the action is one that normally requires an EIS. If so, an EIS would normally be prepared.

If the action is not one that is categorically excluded from further NEPA review or has not been previously analyzed in an EA or EIS, and if the action also is not one that normally requires an EIS, then an EA would normally be prepared. Following preparation of the EA, the Trust would make a determination as to whether the proposed action requires further review in an EIS or whether the Trust may, on the basis of the review performed in the EA, issue a finding of no significant impact (FONSI). Under the rule, the Trust could not undertake the proposed action unless (1) it is categorically excluded; or (2) an EIS has been finalized and a Record of Decision has been issued; or (3) a FONSI has been issued on the basis of an EA.

The final rule adopted by the Trust will replace in its entirety the Trust’s adoption of interim procedures and guidelines for implementing NEPA. The final rule is similar to the proposed rule, particularly in structure and format, but its content has been modified in a number of respects in response to comments received and further review

by the Trust. These modifications are discussed below.

Summary of Comments and Responses

The Trust received two submissions in response to its request for comments on the proposed rule. A three-page letter together with 10 pages of comments was submitted by the NPS, and a 13-page letter was submitted collectively on behalf of the following private organizations: As You Sow, the California Native Plant Society, the Golden Gate Audubon Society, the Ecology Center, the National Parks and Conservation Association, the National Trust for Historic Preservation, the Natural Resources Defense Council, the San Francisco League of Conservation Voters, San Francisco Tomorrow, The Wilderness Society, and the Tides Foundation (collectively referred to hereinafter as AYS). Summarized below are the significant comments contained in these two submissions—many of which are almost identical—and the Trust's responses to those comments. Because these responses in some cases have resulted in redesignations of sections and paragraphs from the proposed regulations, references to section and paragraph numbers in the following discussion—unless otherwise noted—correspond to the designations used in the proposed regulations that were published in the **Federal Register** on July 23, 1999 (63 FR 39951).

The Trust's Choice for the Structure of the Regulations

The Trust relied primarily on the NPS NEPA procedures for the substance of its regulations, including NPS's categorical exclusions, and borrowed heavily from those aspects of NPS-12 that are well-suited to binding regulations and to the Trust's unique mandate and activities. In some instances, the Trust also looked to the NPS's draft revision of NPS-12 for the substance of its regulations. For purposes of one categorical exclusion (which has been substantially revised in these final regulations) the Trust looked to the NEPA procedures of the Department of Housing and Urban Development (HUD). The structure and format of the Trust's regulations were drawn primarily from the regulations of the former Pennsylvania Avenue Development Corporation (PADC) found at 36 CFR part 907, for a number of reasons that are discussed more fully below and in the preamble to the proposed rule. See 64 FR 39951, 39953-56 (July 23, 1999). The Trust has maintained that format in these final regulations.

The result is that the substance of today's final rule does not differ significantly from that of the NPS procedures. For example, the current version of NPS-12 (at section 1-2) provides an "overview" of the NEPA process that is as much a foundation of the Trust's final regulations as it is of the NPS guidelines:

If the proposed action is adequately evaluated in a previous environmental document, or is contained in the * * * lists of categorical exclusions, and is not a(n) * * * exception * * *, further NEPA compliance is not required. If an action is not categorically excluded, an environmental assessment (EA) and/or environmental impact statement (EIS) must be prepared. EA's are prepared in order to determine whether an EIS is required. In addition, EA's can serve to assist * * * planning and decisionmaking. EIS's are prepared on proposed actions which may or will have a significant impact on the quality of the human environment. Following preparation of an EA, responsible * * * officials will examine it to determine the significance of the environmental impacts of the proposed action. If they determine the impacts not to be significant, (the agency) prepares a finding of no significant impact (FONSI). If the impacts are significant, preparation of an EIS is initiated. If it is clear from the outset that an EIS is needed, no EA should be prepared.

The Trust's Summary of the Proposed Rule, presented above, outlines essentially the same process and describes the process set by this final rule. The end result does not differ in any substantive respect from the NPS's description of its process.

In their written comments on the Trust's proposed rule, both NPS and AYS objected to the use of the PADC regulations as the structural template for the Trust's NEPA regulations and suggested that the NEPA procedures and guidelines applicable to the NPS are a more appropriate model for the Trust. NPS commented that the PADC NEPA implementation regulations are an inappropriate model because the mandate of the PADC was more narrowly circumscribed than that of the Trust, particularly in that PADC actions were expressly limited to implementation of a Comprehensive Design Plan, whereas the Trust is required by the Trust Act to observe only the "general objectives" of the 1994 Final General Management Plan Amendment for the Presidio (Plan). AYS similarly comments that the PADC was more narrowly circumscribed in its planning authority than is the Trust. AYS further points out that the area of the Presidio under the Trust's administrative jurisdiction differs from that administered by the PADC in that the Trust area is a national park.

The Trust agrees that its mandate and authorities differ from those of the PADC and are in many ways more similar to those of the NPS. But the relative similarities or differences among the authorities of the Trust and those of the former PADC or the NPS are not a key determinant of the appropriate model for the structure of the Trust's NEPA regulations.

The Trust considered but did not choose to use the NPS procedures as its model for the structure and format of these regulations for a number of reasons, all of which continue to be valid. As noted in the preamble to the proposed regulations, NPS is in the process of developing a Director's Order and "NPS Handbook 12" to replace the existing NPS NEPA procedures, which were adopted in 1982. NPS itself therefore recognizes that the current NPS procedures are in need of revision or clarification. Furthermore, as noted in the preamble to the proposed regulations, the scope and structure of the current 129-page draft NPS procedures are not well-suited to a procedural regulation.

AYS comments that the current (1982) NPS NEPA procedures would be a more appropriate model for the Trust than the draft NPS Handbook. The Trust considered and rejected this option, based on the following reasons:

First, as NPS noted in its comments on an initial draft of the Trust's proposed NEPA regulations, NPS-12 does not carry the force of law. It states: "While these guidelines constitute a permanent directive to NPS personnel, they are strictly advisory and do not create, add to, or otherwise modify any legal requirement. The procedures described in these guidelines were devised solely to aid NPS officials in the internal administration of the bureau, and are subject to reinterpretation, revision or suspension by NPS in its discretion at any time without notice." Contrary to the assumption of the AYS comment, NPS has no NEPA "rules" or regulations. Consistent with the spirit of NEPA and the CEQ regulations, the Trust is committed to issuing its NEPA procedures in the form of regulations that are readily available to the public in the Code of Federal Regulations, that carry the force of law, and that are adopted or amended following notice in the **Federal Register** and opportunity for public comment.

Second, NPS itself believes that the current version of NPS-12 is in need of revision and clarification, as indicated by the NPS Handbook drafting process described above. NPS-12 has been amended several times since it was adopted, and both the Trust and NPS

personnel charged with implementing these NEPA procedures have from time to time found it difficult to determine whether a given version incorporates all of these various amendments and is completely up to date. The Trust wishes, through its regulations, to codify procedures and substance that are more clear, concise, and readily ascertainable.

Third, the format of NPS-12 was developed as a guidance document for internal agency use, and therefore it has a different purpose than a regulation. The Trust's interim procedures for implementing NEPA consist of NPS-12 and the Golden Gate National Recreation Area's Standard Operating Procedure 601. These documents together occupy over 50 pages of guidance materials encompassing explanatory discussion, policy implications, and other narrative information. As a whole, they are an ill-suited structure for codified rules. They may, however, provide an appropriate model to provide internal policy guidance for implementing the Trust's regulations. The Trust is developing such guidance and is evaluating both NPS-12 and Standard Operating Procedure 601 as possible models.

Fourth, NPS-12 is written to be used in tandem with numerous other policies of the DOI and internal guidance of the NPS that are neither applicable nor well-tailored to the Trust's activities because of the varying scope and breadth of DOI's mission. Some relevant examples include Departmental Manual Part 516; NPS-2 on planning process; NPS-3 on public participation; and NPS-28 on cultural resources management. While these topics generally may be pertinent to Trust actions, the details are often ill-adapted. NPS-12 also incorporates guidance based on legal authorities that are inapplicable to the Trust and addresses NPS issues and requirements that are irrelevant to the Trust, such as special laws on in-holdings, mining, and grazing. In short, NPS-12 is written to cover the broadest range of NPS actions and would need to be substantially re-written in order to customize it to the Trust.

Fifth, NPS-12 is written for a much larger organization than the Trust, and provides for far more layers of review than the Trust's size and structure warrant. For example, NPS-12 specifies the NEPA oversight responsibilities of the Assistant Secretary of the Interior for Policy, Budget and Administration, the Assistant Secretary of the Interior for Fish and Wildlife and Parks, the NPS Director, the Chief of the Office of Park Planning and Environmental Quality,

the Chief of the Division of Environmental Compliance, the Regional Directors, the Regional Environmental Coordinators, the Denver Service Center, the Park Superintendents, and Contracting Officers. The complexity of such review and designations is inappropriate and inapplicable for the Trust's organizational structure and its mission.

AYS argues that the Trust should adopt the NPS NEPA guidelines in order to "facilitate the Trust's ability to work closely with (NPS) on a wide variety of planning and environmental review matters." AYS also comments that this would "make things easier for the many Trust employees who are former NPS employees. * * *" and would allow those who are not former NPS employees to continue to learn the NPS NEPA procedures. AYS further suggests that adoption of the NPS NEPA procedures would be easier for members of the public who are already familiar with these procedures. The Trust recognizes that a certain orientation period will be associated with any introduction of procedures, but believes that this can be accommodated in other ways than adopting guidelines with a structure that is ill-suited to the Trust. In creating the Trust as a Federal entity separate and apart from the NPS, and with a structure and authorities that differ from those of the NPS, Congress contemplated such a change in procedures. The Trust believes the change is warranted by the benefits of the clear, concise structure proposed for the Trust's NEPA regulations. Nevertheless, the Trust is aware of the issues identified by AYS and is committed to (1) continuing to work closely with the NPS and its other neighbors on planning and environmental review matters, as well as discussing arrangements for allocation of lead agency designations between the NPS and the Trust where appropriate; (2) ensuring that its employees are properly trained concerning implementation of NEPA; and (3) providing opportunities for the public to learn about and fully understand the Trust's NEPA procedures.

The Trust chose the PADC regulations as its structural model for a number of other reasons, including the fact that they had been formally promulgated as regulations carrying the force of law in the Code of Federal Regulations and are appropriately concise for a procedural regulation.

In sum, in crafting its procedures, the Trust reviewed and relied heavily upon relevant portions of the NPS NEPA procedures for the substance of the

Trust's NEPA regulations. The Trust's regulations are designed to ensure that the Trust complies with NEPA by analyzing the impacts of all major activities or proposals with the potential to significantly affect the environment. The comments do not address how, if at all, the structure that the Trust adopted from the PADC regulations is deficient in accomplishing that core purpose. As a result, upon consideration of the comments received, the Trust has decided to maintain the structure and format of its proposed regulations in this final rule.

The Trust's Interim Procedures for Implementing NEPA

NPS states that its review of the proposed regulations focuses primarily on the degree of departure from the current NPS guidelines and policies implementing NEPA. AYS appears to object to the Trust moving beyond the interim adoption of NPS's procedures. AYS views the NPS guidelines and policies as "far more appropriate for the Trust's critical responsibilities * * * ." AYS further believes that "(t)he basic problem with the proposed rulemaking is that the Trust has not provided an adequate justification for" this action and "has failed to identify any problem with the existing rules that would explain why they need to be abandoned."

Far from abandoning these procedures, the Trust has adopted their substance but made it specific to the Trust and its mission in order to comply with its obligations under NEPA, the CEQ regulations, and the Trust Act. The Trust adopted the NPS NEPA procedures on an explicitly temporary basis (following consultation with CEQ and the NPS) in order to ensure that the Trust's initial actions would be subjected to appropriate environmental review under NEPA while the Trust hired staff and developed its own procedures for implementing NEPA. The process of drafting, internal review, consultation with other Federal agencies, and notice and comment rulemaking was anticipated to occupy several months, during which time the Trust would be managing the property under its administrative jurisdiction and taking actions that would require NEPA review. The September 14, 1998, **Federal Register** notice of that "interim policy statement" expressly stated the Trust's intention to develop its own procedures and guidelines implementing NEPA (63 FR 49142), as is its responsibility under both NEPA and CEQ regulations implementing NEPA on a government-wide basis. 40 CFR 1507.3.

Furthermore, the Trust temporarily adopted the NPS procedures for a variety of reasons that no longer apply. The Trust initially lacked the staff to implement NEPA and therefore entered into a temporary arrangement with the NPS under which NPS staff provided services to the Trust for NEPA review of the Trust's proposed actions. The NPS personnel, of course, are familiar with the NPS NEPA procedures. A number of actions that the Trust anticipated taking in the initial period of its management of the Presidio had been initiated by the NPS, which formerly managed the property now under the Trust's administrative jurisdiction; these early actions therefore were in the process of being reviewed under the NPS procedures.

Similarly, NPS personnel were familiar with these actions from the period in which NPS managed the property that is now under the Trust's administrative jurisdiction. As a result, following consultation with the NPS and CEQ, the Trust determined that interim adoption of the NPS NEPA procedures was the most convenient and appropriate option for the Trust to ensure that its initial actions were subjected to appropriate NEPA review.

Since the Trust's interim adoption of the NPS NEPA procedures, the Trust has retained the necessary personnel to ensure appropriate NEPA review of proposed actions. Furthermore, the Trust has completed NEPA review of a number of proposed actions using the NPS NEPA procedures and NPS personnel. The interim procedures adopted by the Trust did not establish a status quo against which today's adoption of final NEPA regulations is to be measured. In promulgating today's NEPA procedures the Trust does not depart from any set procedures and guidelines, but rather establishes for the first time the permanent regulations under which it will comply with NEPA.

Section-Specific Comments and Revisions

In addition to these overall comments, both NPS and AYS presented comments on specific aspects of the proposed regulations. These are addressed below according to the section or sections of the proposed regulations that are implicated by the comments. Also discussed below are the revisions made to the proposed regulations by the Trust following consultation with CEQ and further internal review.

Section 1010.1 Policy

NPS comments that this section of the proposed regulations does not adequately identify and incorporate the

Trust's mandate to preserve and conserve the resources of the Presidio, including natural, historic, scenic, cultural, and recreational resources. NPS suggests that this mission be identified in order to emphasize that the focus of NEPA environmental analysis is to provide information to make substantive decisions in accordance with the Trust's mandate. In response, the Trust has revised Section 1010.1(d) to identify these resources specifically.

Section 1010.2 Purpose

AYS comments that this section, unlike the corresponding "background and purpose" section of NPS-12, does not contain a commitment to make information available to the public before actions are taken by the Trust. Although such a policy is not stated in the one-sentence "purpose" section of the Trust's regulations, it is stated in § 1010.12, which concerns public involvement.

NEPA is designed to involve the public in an agency's implementation of NEPA, and the final regulations reflect that statutory purpose. In § 1010.12, the Trust states its policy to make public involvement an essential part of its environmental review process and to provide timely public notice of anticipated Trust actions that may have a significant environmental impact, of environmental documents, and of opportunities for public involvement. The Trust commits to using a variety of means to provide the public with notice, including a monthly newsletter, postings on its web site, placement of public notices in newspapers, and other appropriate means.

The Trust also modified the wording of § 1010.2 to make clear that these regulations are intended to implement the requirements set forth in NEPA and CEQ's regulations.

Section 1010.4 Responsible Trust Official

This section was retitled "NEPA Compliance Coordinator" following further internal review by the Trust. The Trust believes that it is appropriate to identify a more specific and descriptive title associated with this position than the proposed title of "Responsible Trust Official." Corresponding revisions were made throughout the regulations.

This section provides that the Executive Director of the Trust will designate "an employee of the Trust" as the individual responsible for ensuring NEPA compliance. AYS comments that this allows such an official to be designated "by project" and asks why it is necessary for this person "to change from project to project." AYS has

misinterpreted this provision. Section 1010.4 describes duties that involve long-term development and supervision of NEPA compliance procedures and standards, including oversight of all EA's and EIS's prepared during the tenure of the NEPA Compliance Coordinator. This provision does not state nor does the Trust intend that this official will ordinarily change from project to project.

AYS also comments that this section fails to make clear where responsibility for NEPA compliance ultimately rests. Section 1010.4 plainly states that delegation to the NEPA Compliance Coordinator does not abrogate the responsibility of the Trust's Executive Director and Board of Directors to ensure that the Trust complies with NEPA.

Section 1010.5 Major Decision Points

AYS comments that the "scoping" step is not mentioned in this section. The CEQ regulations require that a public scoping process be initiated following an agency decision to prepare an environmental impact statement on a proposed action. 40 CFR 1501.7. Although CEQ regulations also provide that agency procedures implementing NEPA are not to paraphrase or repeat the CEQ regulations, 40 CFR 1507.3(a), the Trust concurs with AYS that clarity would be served by identifying the scoping process in this section. Accordingly, the Trust has cross-referenced the requirements of 40 CFR 1501.7 in § 1010.5(b)(3). In addition, in accordance with the suggestion of the CEQ regulations at 40 CFR 1501.7(b)(3) and the Trust's commitment to public involvement in the NEPA process, the Trust has provided in § 1010.5(b)(2) that the Trust may, in appropriate circumstances, engage in public scoping concerning a proposed action *prior* to its determination as to whether to prepare an EIS. AYS's additional comments concerning scoping and public involvement are addressed below under Section 1010.12.

The Trust has also revised the term "final approval stage" in § 1010.5(a)(2) to refer to the "final decision stage," in order to reflect that the Trust not only approves projects proposed by others but also makes decisions on its own proposals.

Section 1010.7 Actions that Do Not Require an EA or EIS

NPS and AYS comment that § 1010.7(b)(1) contains an overly broad criterion for determining categories of action that normally do not require an EA or an EIS. They comment that this criterion would allow categorical

exclusion of actions with potentially significant environmental effects that cannot be categorically excluded from NEPA analysis, even though the requirement to prepare such analysis may have been satisfied in a prior NEPA document.

The Trust concurs with the comment that the actions described in § 1010.7(b)(1) are, as a matter of nomenclature, not entitled to be categorically excluded from NEPA review. But, as the comments point out, such actions may not require an EA or EIS because by definition the environmental effects of the action have already been adequately analyzed. Upon reflection, the Trust has determined that there is no need to identify in these regulations any general criteria that may be used in the future to determine categories of actions excluded from NEPA review, since any such future categorical exclusions will be subject to notice and opportunity for public comment. Therefore, in the interests of clarity, the Trust has addressed this comment by deleting § 1010.7(b) of the proposed regulations. Similar comments by NPS and AYS concern § 1010.8(c) and 1010.10(c), and the Trust has revised these provisions accordingly. Furthermore, the Trust has made conforming changes to §§ 1010.5(b) (twice adding references to whether the action has “been adequately reviewed in a previously prepared EA or EIS”) and 1010.6(a) (deleting the parenthetical that equated the term “normally does not require an EA or EIS” with the term “categorical exclusion”).

NPS also asks that reference in § 1010.7(b)(1) to Trust actions taken “in accordance with the general objectives of the Plan and the Trust Act” be deleted as superfluous, since the Trust is required to act in accordance with those general objectives under the Trust Act and the Trust’s resolutions. This reference has been removed.

NPS and AYS also comment that it is unlikely that the Trust could “tier” NEPA review of any significant Trust action from the Plan EIS, as that EIS addressed proposed actions in the context of the overall Plan, which the Trust is not required to follow in detail. This comment addresses issues beyond the scope of the Trust’s proposed regulations for implementing NEPA. The Trust acknowledges that certain Trust actions may require further NEPA review. When undertaking such actions, the Trust will address whether it is appropriate to “tier” such subsequent or supplemental NEPA review from analysis contained in the Plan EIS or in another EIS.

In light of the admonition that these regulations not paraphrase or repeat the CEQ regulations, see 40 CFR 1507.3, the Trust has also determined that it is unnecessary to restate the “general rule” in § 1010.7(a) that “neither an EA nor an EIS is required for actions that do not individually or cumulatively have a significant effect on the human environment.” Instead, this provision contains a more straightforward declarative sentence that the Trust has determined that the following categories of action meet the criteria of NEPA for categorical exclusions.

Comments Specific to Categorical Exclusions

NPS and AYS provided specific comments on several of the categorical exclusions in the Trust’s proposed NEPA regulations. These are discussed below. References to categorical exclusions derived from the draft NPS–12 guidelines, the PADC regulations, and the HUD regulations are numbered herein in the same manner as in the proposed regulations, as described at 63 FR 39953, col. 3.

Preliminarily, the Trust notes that, consistent with NEPA, these regulations provide exceptions to categorical exclusions in extraordinary circumstances in which a normally excluded action may have a significant environmental effect. That provision is discussed below under § 1010.7(d).

Section 1010.7(c)(2) Categorical Exclusion for Administrative Actions

NPS and AYS comment that this categorical exclusion should not cover actions to acquire or convert space for Trust offices or maintenance facilities. NPS and AYS note that, because the Trust has a sizable number of employees and considerable maintenance equipment, it is difficult to conclude categorically that all such actions would have no significant effect on the environment. AYS also comments that a categorical exclusion of acquisition or conversion of space for maintenance facilities is inappropriate within a national park and National Historic Landmark District. This provision has been revised to delete the reference to “space acquisition or conversion for the Trust offices or maintenance facilities.” For clarity, the Trust has also added the acquisition of equipment to the non-exclusive list of administrative actions intended to be covered by this categorical exclusion. Following consultation with CEQ, the Trust has also added another requirement to this categorical exclusion: That the action be consistent with applicable Executive

Orders (such as those related to Greening the Government).

Section 1010.7(c)(8) Categorical Exclusion for Educational Activities

AYS comments that this provision combines a variety of NPS exclusions “in inappropriate and/or confusing ways.” The comment does not specify any particular problem or suggest any particular change. The Trust notes that this categorical exclusion is based primarily on NPS–J and deviates only slightly from it to include interpretive programs (which are covered by NPS–B3 and NPS–Q) and technical assistance (which is covered by NPS–M). The Trust therefore has not modified this categorical exclusion.

Section 1010.7(c)(9) Categorical Exclusion for Legislative Proposals

AYS comments that use of the word “minor” to describe the boundary changes and land transactions referred to in this categorical exclusion (which require legislative action) and the proposed categorical exclusion for land acquisitions or exchanges that do not require legislative action (at § 1010.7(c)(16)) is subjective and provides no guidance. AYS considers any such actions in a national park to be significant.

This exclusion, including the word “minor” to describe boundary changes and land transactions, is taken almost verbatim from NPS–H in the draft NPS–12 Handbook. It is also contained in a categorical exclusion in the current NPS–12 for “minor boundary changes.” NPS has not indicated to the Trust in its comments or elsewhere that it finds the word “minor” inappropriate in this context; on the contrary, NPS has previously concluded that this term is appropriate for national parks. Use of the word “minor,” rather than a precise numerical limit, allows the Trust—like NPS—the flexibility to consider the environmental implications of particular actions in context. Furthermore, this exclusion, like all exclusions in the proposed regulations, will not apply to actions that may have a significant effect upon the human environment. The Trust is therefore retaining this categorical exclusion as proposed.

Section 1010.7(c)(10) Categorical Exclusion for Certain Regulations

Following consultation with CEQ, the Trust adopted the suggestion of CEQ that this categorical exclusion be combined with the following categorical exclusion in order to promote clarity concerning the types of regulations and policies that would be categorically

excluded. In addition, the criteria of former provision Section 1010.7(c)(10) were revised to add the term "significant" to three of the four items and to precede their applicability with the term "potentially," in order to more closely parallel the requirements of NEPA.

Section 1010.7(c)(11) Categorical Exclusion for Certain Policies

This categorical exclusion was combined with the prior categorical exclusion, as discussed above.

Section 1010.7(c)(12) Categorical Exclusion for Certain Research Plans

AYS comments that the scope of this categorical exclusion is unclear in light of the original categorical exclusions that were combined. AYS asks whether this exclusion relates only to non-manipulative and non-destructive research activities. The language of this proposed exclusion states that it covers such activities, as well as non-manipulative and non-destructive monitoring, inventorying, and information gathering. Following further internal review and consultation, the Trust revised the references to "non-manipulative and non-destructive" research to clarify that they include activities that are "only minimally manipulative" and cause "only minimal physical damage."

AYS also asks whether this exclusion is intended to include "statements for management, outlines of planning requirements and agreements between NPS offices for plans and studies," which were included in NPS-B5, on which this exclusion is based in part. As noted in the preamble to the proposed rule, the terms "preparation, approval, coordination, and implementation" were added in order to cover the type of items listed in NPS-B5.

AYS finds the lack of conformity between the language in the original exclusions and the language of this exclusion "quite troubling." The activities covered by this categorical exclusion are no more extensive than those covered by the NPS categorical exclusions on which it is based. Furthermore, the Trust has concluded that these activities, all of which are non-manipulative and non-destructive, meet the criteria for categorical exclusion.

Section 1010.7(c)(14) Categorical Exclusion for Certain Changes in Visitor Use

AYS comments that it is inappropriate for this categorical exclusion, which was developed from NPS exclusions D-1, D-2 and D-3, to

include language covering short-term leases. AYS states that "leasing has nothing to do with changes in visitor use." Short-term leasing was added to this categorical exclusion because the Trust—unlike NPS—has authority to enter into leases, as well as other agreements for use and occupancy that may not be considered permits in a technical sense. In response to the AYS comment, this categorical exclusion has been modified to remove references to leasing and instead to broaden the term "permit" to include other forms of use and occupancy agreements. This change also clarifies that only short-term leases (or other forms of use and occupancy agreements) related to special visitor events or public assemblies and meetings are covered by this exclusion.

Following further review, the term "environmental disturbance" in this categorical exclusion was changed to "environmental impacts" in order to more closely parallel the requirements of NEPA.

Section 1010.7(c)(15) Categorical Exclusion for the Designation of Environmental Study Areas

Following further review, the criteria of this categorical exclusion that the designation of environmental study areas cause "no environmental impact" was modified to include "only minimal environmental impact" as well—i.e., not "significant environmental impact"—in order to more closely parallel the requirements of NEPA.

Section 1010.7(c)(16) Categorical Exclusion for Land Acquisitions or Exchanges

AYS's comment concerning this categorical exclusion's use of the term "minor" is addressed above under the discussion of § 1010.7(c)(9).

NPS suggests that the categorical exclusion be amended to cover transfers of administrative jurisdiction as authorized under section 102 of the Trust Act and to exclude exchanges of land ownership. The Trust has revised this provision in accordance with NPS's suggestion.

Section 1010.7(c)(18) Categorical Exclusion for Planning and Design Guidelines

AYS and NPS comment that categorically excluding planning and design guidelines from NEPA review is inappropriate. Upon further review of this proposed categorical exclusion, the Trust has removed it from the final rule.

Section 1010.7(c)(19) Categorical Exclusion for Certain Previously Analyzed Actions

NPS and AYS comment that implementation of a plan, even if the plan was covered by a previously prepared EA and/or EIS, may potentially have a significant effect on the human environment and therefore cannot be categorically excluded from NEPA review. The ambiguity noted by NPS and AYS is unintentional. The Trust therefore has revised this categorical exclusion as suggested by the NPS comment, which combines NPS-A1 (relating to approved actions) with NPS-B1 (relating to approved plans). In addition, the Trust has revised the term "no potential for environmental impact" to state that the criterion is whether the action "would cause no or only minimal environmental impact," in order to more closely parallel the requirements of NEPA.

Section 1010.7(c)(20) Categorical Exclusion for Contracts Related to Administrative Operations

Consistent with other comments discussed above, NPS comments that this categorical exclusion should not necessarily cover actions which have been the subject of prior NEPA review. This categorical exclusion has been revised to address the NPS comment and to be consistent with the addition to § 1010.10(c), which categorizes as appropriate for preparation of an EA actions involving "contracts, work authorizations, and master agreements related to and implementing programs, policies, and proposals which are not categorically excluded and for which there is no previously prepared EA or EIS."

Section 1010.7(c)(21) Categorical Exclusion for Transfer of Non-Fee Interests

NPS and AYS comment that this categorical exclusion is too broadly worded. NPS suggests that it either be deleted or limited to actions that do not require physical change to structures and do not have adverse effects on the environment. The Trust believes that it is appropriate to retain this categorical exclusion, while limiting it to actions that will have no or only minimal environmental impact (e.g., the permitting of existing occupancies that have not been properly documented, the revision of lease provisions concerning financial or legal matters, etc.). The addition of this criterion, since it properly limits this categorical exclusion, is a key determinant of

whether an action can properly be considered categorically excluded. See 40 CFR 1508.8. (Section 1010.7(c)(15) has been revised in a similar manner to refer to actions causing “no or only minimal environmental impact.”)

Section 1010.7(c)(22) Categorical Exclusion for Certain Changes to Real Property Agreements

AYS comments that this exclusion “lumps” together and alters the several NPS exclusions from which it is drawn. Other than “the elimination of qualifying language (*i.e.*, ‘minor’ before ‘modifications’),” the comment does not specify other faults. The Trust has revised this categorical exclusion to include the word “minor” before “modifications,” and to remove the words “renegotiation” and “termination,” all of which were not included in the categorical exclusions of the current NPS-12 that correspond to those in the draft NPS-12 from which this categorical exclusion was drawn.

AYS also comments that this exclusion is confusing in that it includes “language relating to when supplementation of EIS’s is necessary.” The language AYS points to provides that this exclusion does not apply to renewal of or changes to agreements for which supplemental NEPA review is required. The Trust has modified the grammar of this language in order to clarify its meaning, which is merely intended to ensure that any new information or changes in environmental conditions be taken into account before the Trust relies on this categorical exclusion.

Furthermore, following internal review, the Trust has revised this categorical exclusion to remove the qualification that these agreements must have been in force as of the date the Trust received administrative jurisdiction of the underlying real property. This qualification was viewed as unnecessarily restrictive, likely to become obsolete rather quickly, and potentially causing ambiguity in that the effective date of each and every purported agreement for use of real property in Area B of the Presidio is not clear.

Section 1010.7(c)(23) Categorical Exclusion for Permits for Minor Development Activities

NPS comments that the proposed categorical exclusion for minor development activities, which is based upon a PADC exclusion of “review” of applications for permits for minor development activities, should not extend to “issuance” of such permits. Upon further review, and in light of the

comments, the Trust has deleted this categorical exclusion from its final regulations.

Section 1010.7(c)(24) Categorical Exclusion for Rehabilitation of Historic Properties

NPS and AYS also comment that minor development activities and minor actions affecting historic properties should not be categorically excluded from NEPA on the grounds of compliance with the Secretary of Interior’s “Standards for Treatment of Historic Properties” (36 CFR part 68) when, under NPS practice, determination of compliance with those standards occurs in the context of NEPA review.

While NEPA review provides an opportunity to determine compliance with the Secretary’s standards, it is not a necessary or exclusive means to make such a determination. Therefore, under the regulations, minor projects that are properly excluded from NEPA review need not be subject to NEPA review solely to facilitate determination of compliance with the Secretary’s historic properties standards. In order to ensure that only appropriate projects are covered by this categorical exclusion, the Trust has added to it a requirement that the proposed project have no or only minimal environmental impact. See 40 CFR 1508.8.

NPS also comments that the Trust must consider the environmental impact of this categorical exclusion on the status of the Presidio as a National Historic Landmark. Because this categorical exclusion only applies to actions that are in conformance with the Secretary’s historic properties standards, there is no impact to the Presidio’s status as a National Historic Landmark that requires evaluation in an EA.

Section 1010.7(c)(25) Categorical Exclusion for Rehabilitation of Non-Historic Properties

NPS and AYS comment that use of a categorical exclusion developed for HUD is misplaced, because the Trust, unlike HUD, is not charged with a mandate to develop housing. NPS and AYS also comment that increase of not more than 20% in unit density of housing facilities under the Trust’s administrative jurisdiction could have significant environmental impacts that would require evaluation under NEPA. NPS further comments that this categorical exclusion would allow “any non-historic building to be modified in any way” without NEPA review, as long as the modification did not involve a

change from residential to non-residential use or vice versa.

The Trust has substantially revised this categorical exclusion to remove the objectionable criteria that were part of the HUD categorical exclusion. Instead, the Trust has established two criteria called for under NEPA and applicable law: (1) That the action be consistent with applicable Executive Orders; and (2) that the action not have significant environmental impacts, including impacts to cultural landscapes or archaeological resources. Similar changes were made to the categorical exclusion proposed in § 1010.7(c)(27) related to removal of non-historic materials and structures.

Section 1010.7(c)(28) Categorical Exclusion for Activities Related to Minor Structures

NPS and AYS comment that this categorical exclusion, which combines parts of ten categorical exclusions developed by NPS, results in a single exclusion much broader in effect than the sum of the ten NPS exclusions. NPS and AYS comment that so broad an exclusion would discourage comprehensive planning and appropriate environmental review involving the public. NPS also comments that this categorical exclusion, which deleted the reference in some NPS exclusions to “areas showing clear evidence of recent human disturbance,” does not adequately recognize the importance of considering and protecting archaeological resources at the Presidio. In response to the comments, the Trust has replaced this categorical exclusion with ten categorical exclusions closely corresponding to the NPS models (NPS-C5, NPS-C8, NPS-C9, NPS-C10, NPS-C11, NPS-C12, NPS-C17, NPS-C18, NPS-C19, and NPS-D4). Modifications have been made where the NPS exclusions referred to features uncharacteristic of or inappropriate to the Presidio, such as pit toilets and logging roads.

Section 1010.7(c)(30) Categorical Exclusion for Utility Rights-of-Way

NPS and AYS comment that this exclusion, which combines parts of four NPS categorical exclusions, is overly broad and may discourage appropriate NEPA review to determine whether there would be visual intrusion or compliance with the Secretary of Interior’s Standards for the Treatment of Historic Properties. In response to the comments, this categorical exclusion has been replaced by four exclusions more closely corresponding to the NPS models (NPS-C13, NPS-C14, NPS-C15,

NPS-C16). To address the visual impacts concern, modifications have been made to tailor the exclusions to the Presidio, including reference to the Secretary's Standards, in light of the Presidio's status as a National Historic Landmark. In addition, the Trust notes that the categorical exclusion for "upgrading or adding new overhead utility facilities to existing poles" also covers maintenance and repair of such facilities.

Section 1010.7(d) Extraordinary Circumstances

The CEQ regulations require that agency procedures to implement NEPA "shall provide for extraordinary circumstances in which a normally excluded action may have a significant environmental effect." 40 CFR 1508.4. NPS and AYS comment that NPS-12 lists several specific exceptions to the categorical exclusions provided in that document and suggest that the Trust adopt all of these exceptions.

The CEQ regulations do not require the enumeration of specific circumstances in which an environmental document must be prepared despite the applicability of a categorical exclusion, and CEQ did not raise this issue in its review of an earlier draft of the Trust's proposed NEPA regulations. Although NPS-12 lists certain exceptions, the Trust does not believe that a complete enumeration is possible or appropriate in a document that—unlike NPS-12—is intended to be legally enforceable. The Trust nevertheless believes that clarity will result from enumeration of criteria that will be applied by the NEPA Compliance Coordinator in determining whether such "extraordinary circumstances" exist. The Trust has therefore identified several such criteria, based on the NPS list of ten exceptions, in § 1010.7(b) of these final regulations.

The Trust has modified certain of the NPS criteria, however, in order to account for the characteristics of the geographic area under the Trust's administrative jurisdiction, which does not encompass any wilderness areas, wild or scenic rivers, prime farmlands, or areas on the Department of the Interior's National Register of Natural Landmarks. The Trust has also added Executive Order 13007 (Indian Sacred Sites) to the list of executive orders in the ninth criterion. This executive order is specifically identified in the overriding criteria of the draft NPS-12.

In addition, the Trust has retitled this section using the term "extraordinary circumstances"—which appears in the CEQ regulations—as opposed to "overriding criteria."

Section 1010.8 Actions That Normally Require an EIS

NPS and AYS comment that § 1010.8(c), listing categories of actions normally requiring an EIS, should not include an exception for actions that are categorically excluded. As discussed above concerning § 1010.7, the Trust agrees with this comment and has revised the regulation accordingly. For the sake of clarity, the listing of legislative proposals in § 1010.8(c)(1) is specifically limited to those not covered by the categorical exclusion of § 1010.7(a)(9) of these final regulations. The Trust has also made a conforming change to § 1010.10(c). AYS further proposes that § 1010.8 include a statement that "even categorically excluded actions require NEPA analysis when there is the potential for adverse impacts." The Trust has considered this suggestion and believes it is unnecessary because this issue is already addressed with clarity in § 1010.7(b) of these final regulations.

NPS and AYS also comment that § 1010.8(c)(2), which provides that an EIS is normally required for actions associated with construction of new buildings and having a significant environmental effect, should not be limited to activities that were not contemplated in the Plan. NPS and AYS comment that whether an action having a significant environmental effect is contemplated in the Plan is irrelevant to whether the environmental effects of that action have been adequately analyzed. The regulation has been revised in light of these comments to remove the reference to an activity having been "contemplated by the Plan." Removing these references to the Plan and the Plan EIS obviates the need for definitions of these terms, which have therefore been removed from § 1010.3.

NPS and AYS comment that § 1010.8(c)(3), which provides that an EIS is normally required for actions significantly altering the kind and amount of resources at the Presidio, does not specify that those resources include "natural" or "scenic" resources. The regulation has been revised to address these comments.

NPS also comments that the list of actions normally requiring preparation of an EIS should also include "a General Management Plan, or its equivalent." The Trust agrees that the approval of a plan akin to what the NPS calls a "General Management Plan" would ordinarily require the preparation of an EIS. Because the Trust may not adhere to this nomenclature, however, the Trust has revised the regulation to refer

to "[a]pproval or amendment of a general land use or resource management plan for the entire Presidio Trust Area."

Section 1010.10 Actions That Normally Require an EA

Section 1010.10(b) identifies the criteria used to determine categories of action normally requiring an EA, but not necessarily an EIS. Further internal review and consultation with CEQ resulted in the revision of these provisions to (1) remove the qualifier "minor" before "degradation;" (2) add the qualifier "adverse" before "impact" in the second and third items, since that is the primary concern of NEPA; and (3) for the sake of clarity, add a list of the type of resources that the Trust considers to be "protected resources."

Section 1010.10(c) lists actions that normally require preparation of an EA. NPS comments that this list should not include "proposals to significantly add or alter access between the Presidio Trust Area and surrounding neighborhoods." NPS believes that actions "significantly" adding or altering access may have significant environmental effects that require preparation of an EIS, whereas some access alteration may only require an EA. Section 1010.10(c) has been revised to address this comment.

NPS also suggests that the list of actions normally requiring an EA include two items listed in the PADC regulations (at 36 CFR 907.11(b)(1), (5)). The first NPS suggestion covers amendments to a General Management Plan that do not represent "substantial changes" to such document. The Trust has not included this item for the reasons stated above in the discussion of § 1010.8. Instead, under the revision to § 1010.8(c)(4), the amendment of a general land use or resource management plan is intended to fall into the category of actions that normally would require preparation of an EIS. The second NPS suggestion covers contracts, work authorizations, and master agreements related to and implementing programs, policies and proposals. The regulations at § 1010.10(c)(5) have been revised to address this NPS comment.

As noted above, the Trust has deleted the parenthetical in § 1010.10(c) that would except from actions normally requiring an EA those that are categorically excluded or previously analyzed in an EA or EIS, since that exception is already stated clearly in § 1010.7.

Section 1010.11 Preparation of an EA

Following consultation with CEQ and further internal review, the Trust clarified § 1010.11(b) to note that an EA should include an analysis of cumulative impacts. The other revision to this section is discussed below.

Section 1010.12 Public Involvement

AYS comments that the proposed regulations provide no opportunity for public review of Trust actions that are covered by categorical exclusions. In response, the Trust notes that NEPA implementing procedures are intended simply to ensure that the Trust complies with NEPA. Information concerning determinations that specific actions or proposals are categorically excluded will be available in the Trust's library and from the Trust upon request. Furthermore, the Trust has in place, pursuant to Board Resolutions 97-3 and 98-16, a comprehensive Public Outreach Policy for sharing information with the public and seeking public comment. Since the first meeting of the Trust's Board of Directors in July 1997, the Board has held regular public meetings; staff have coordinated innumerable public input sessions on diverse topics; the Trust has routinely published a monthly newsletter and multiple fliers on issues of special interest; and Trust staff have initiated and participated in regular discussions with a variety of neighborhood, community, environmental, and business organizations. Under its Public Outreach Policy, the Trust maintains both an informative website and an extensive public library of relevant documents, including NEPA and other environmental documentation, concerning the Presidio. These opportunities supplement the public involvement requirements of the CEQ regulations at 40 CFR 1506.6 as well as the additional requirements of § 1010.12 of the Trust's NEPA regulations.

AYS comments that under the proposed rules the Trust is not required to designate a "preferred alternative" in the environmental documents it prepares and that such a requirement would facilitate public involvement and improve the usefulness to the Trust of information provided by commenters. The Trust notes that the CEQ regulations, to which the Trust is subject, require just such an identification in draft and final EIS's. 40 CFR 1502.14(e). Because the CEQ regulations mandate that an individual agency's regulations avoid restating the CEQ requirements, see 40 CFR 1507.3(a), the Trust has not reiterated this requirement in these regulations.

AYS comments that § 1010.12 fails to specify the precise means by which public notice will be provided. AYS further comments that the process followed by the Trust for notification of these proposed regulations indicates that greater specificity is needed in the text of the regulations, in order to ensure appropriate public notice in the future. The Trust regrets any confusion with respect to public notice that may have occurred at the time the proposed regulations were published. The Trust met its responsibility to provide notice and opportunity for public comment on the Trust's proposed NEPA regulations, including extending the comment period upon request in order to allow AYS to provide written comments. More substantively, the proposed regulations specify several means of public notification: "Public notice of anticipated Trust actions that may have a significant environmental effect, opportunities for involvement, and availability of environmental documents will be provided through announcements in the Trust's monthly newsletter, postings on its web site (<http://www.presidiotrust.gov>), placement of public notices in newspapers, direct mailings, and other means appropriate for involving the public in a meaningful way." These means are in addition to the requirements of the CEQ regulations at 40 CFR 1506.6, which are more specific with regard to EA's and EIS's, as well as public hearings or meetings in the event of substantial environmental controversy, substantial interest, or a request by another agency with jurisdiction over the action.

Furthermore, the proposed regulations (at § 1010.12) contain a commitment to holding public scoping meetings and public workshops on projects subject to NEPA review. As noted above, the Trust has revised § 1010.5 to allow for public scoping meetings prior to the determination as to whether an EIS is required. The Trust has also revised § 1010.11(a) to require public notice once the Trust has determined to prepare an EA. AYS also requests that opportunities be provided for submittal of written scoping comments in order to allow opportunities for formal comment and for comment by interested parties who may not be able to attend a workshop. The Trust has revised § 1010.12 to clarify that the Trust will solicit and accept written scoping comments as part of the scoping process.

AYS also comments that the procedures of some agencies provide for EA's and EIS's to respond to written scoping comments. Such documents

prepared by the Trust will reflect agencies' and the public's priority concerns as expressed through scoping. Nevertheless, there is no requirement for an individual response to written scoping comments under NEPA or the CEQ regulations. The Trust's NEPA regulations continue to allow the Trust the flexibility to tailor its responses to scoping comments to the particular circumstances of each action under review.

Section 1010.13 Trust Decision-Making Procedures

Following internal review and consultation with CEQ, the Trust revised § 1010.13(b) to provide for monitoring and enforcement of any mitigation measures adopted in an EIS.

Section 1010.15 Actions Where Lead Agency Designation is Necessary

The NPS comments that this section should not provide that the Trust will seek designation as lead agency for all actions "that directly relate to implementation of the general objectives of the Plan," because some such actions may relate to Area A of the Presidio, over which NPS—and not the Trust—has administrative jurisdiction. Because circumstances in which the Trust would seek lead agency status are likely to be covered by the criteria of 40 CFR 1501.5 and the other criteria identified in § 1010.15, the Trust has revised this section in accordance with this NPS comment.

Following internal review and consultation with CEQ, the Trust also modified § 1010.15(b) and (c) to allow for the Trust to establish itself as "joint lead agency" for appropriate actions.

Section 1010.17 Actions to Eliminate Duplication With State and Local Procedures

Upon further review of § 1010.17(d), the Trust has clarified it to include not only "joint environmental assessments" but also joint Environmental Impact Statements/Environmental Impact Reports. The California Environmental Quality Act requires the preparation of Environmental Impact Reports (EIRs) for certain actions, and the preparation of a combined EIS/EIR for appropriate actions would serve to reduce duplication with State and local procedures.

Regulatory Impact

This final rule will not have an annual effect of \$100 million or more on the economy nor adversely affect productivity, competition, jobs, prices, the environment, public health or safety, or State or local governments.

This final rule will not interfere with an action taken or planned by another agency or raise new legal or policy issues. In short, little or no effect on the national economy will result from adoption of this final rule. Because this final rule is not "economically significant," it is not subject to review by the Office of Management and Budget under Executive Order 12866. Furthermore, this final rule is not a "major rule" under the Congressional review provisions of the Small Business Regulatory Enforcement Fairness Act, 5 U.S.C. sec. 801 *et seq.*

The Trust has determined and certifies pursuant to the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, that this final rule will not impose a significant economic effect on a substantial number of small entities.

The Trust has determined and certifies pursuant to the Unfunded Mandates Reform Act, 2 U.S.C. 1502 *et seq.*, that this final rule will not impose a cost of \$100 million or more in any given year on local, State, or tribal governments or private entities.

Environmental Impact

Although not required to do so, the Trust prepared an Environmental Assessment (EA) in connection with the proposed rule. The EA determined that the proposed rule would not have a significant effect on the quality of the human environment because it was neither intended nor expected to change the physical status quo of the Presidio in any significant manner. Comments on that EA were received from both AYS and NPS. The Trust has prepared a response to these comments, which is part of the administrative record on this matter.

The EA, the FONSI, and the administrative record are available for public inspection at the offices of the Presidio Trust, 34 Graham Street, The Presidio, San Francisco, CA 94129, between the hours of 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

Other Applicable Authorities

The Presidio Trust has drafted and reviewed this final rule in light of Executive Order 12988 and has determined that it meets the applicable standards provided in secs. 3(a) and (b) of that order.

List of Subjects in 36 CFR Part 1010

Administrative practice and procedure, Environmental impact statements, National parks, Public lands, Recreation and recreation areas.

Dated: September 9, 2000.

Karen A. Cook,
General Counsel.

Accordingly, the Presidio Trust adds 36 CFR part 1010, as set forth below:

PART 1010—ENVIRONMENTAL QUALITY

Sec.

- 1010.1 Policy.
- 1010.2 Purpose.
- 1010.3 Definitions.
- 1010.4 NEPA Compliance Coordinator.
- 1010.5 Major decision points.
- 1010.6 Determination of requirement for EA or EIS.
- 1010.7 Actions that do not require an EA or EIS.
- 1010.8 Actions that normally require an EIS.
- 1010.9 Preparation of an EIS.
- 1010.10 Actions that normally require an EA.
- 1010.11 Preparation of an EA.
- 1010.12 Public involvement.
- 1010.13 Trust decision-making procedures.
- 1010.14 Review of proposals by project applicants.
- 1010.15 Actions where lead agency designation is necessary.
- 1010.16 Actions to encourage agency cooperation early in the NEPA process.
- 1010.17 Actions to eliminate duplication with State and local procedures.

Authority: Pub. L. 104–333, 110 Stat. 4097 (16 U.S.C. sec. 460bb note); 42 U.S.C. sec. 4321 *et seq.*; 40 CFR 1507.3.

§ 1010.1 Policy.

The Presidio Trust's policy is to:

(a) Use all practical means, consistent with the Trust's statutory authority, available resources, and national policy, to protect and enhance the quality of the human environment;

(b) Ensure that environmental factors and concerns are given appropriate consideration in decisions and actions by the Trust;

(c) Use systematic and timely approaches which will ensure the integrated use of the natural and social sciences and environmental design arts in planning and decision-making which may have an impact on the human environment;

(d) Develop and utilize ecological, cultural, and other environmental information in the management of the Presidio Trust

Area and its natural, historic, scenic, cultural, and recreational resources pursuant to the Trust Act;

(e) Invite the cooperation and encourage the participation, where appropriate, of Federal, State, and local authorities and the public in Trust planning and decision-making processes that affect the quality of the human environment; and

(f) Minimize any possible adverse effects of Trust decisions and actions upon the quality of the human environment.

§ 1010.2 Purpose.

The regulations in this part incorporate and supplement the Council on Environmental Quality's (CEQ) regulations at 40 CFR parts 1500 through 1508 for implementing the procedural provisions of the National Environmental Policy Act of 1969, as amended (NEPA), and otherwise to describe how the Trust intends to consider environmental factors and concerns in the Trust's decision-making process within the requirements set forth in NEPA and CEQ regulations.

§ 1010.3 Definitions.

(a) The following terms have the following meanings as used in this part:
Decision-maker means the Board or its designee.

EA means an environmental assessment, as defined at 40 CFR 1508.9.

EIS means an environmental impact statement, as defined at 40 CFR 1508.11.

Project applicant means an individual, firm, partnership, corporation, joint venture, or other public or private entity other than the Trust (including a combination of more than one such entities) which seeks to demolish, construct, reconstruct, develop, preserve, rehabilitate, or restore real property within the Presidio Trust Area.

(b) If not defined in this part or in this chapter, other terms used in this part have the same meanings as those provided in 40 CFR part 1508.

§ 1010.4 NEPA Compliance Coordinator.

(a) The NEPA Compliance Coordinator, as designated by the Executive Director, shall be the Trust official responsible for implementation and operation of the Trust's policies and procedures on environmental quality and control. The delegation of this responsibility shall not abrogate the responsibility of the Executive Director and the Board to ensure that NEPA and other applicable laws are followed, or the right of the Executive Director and the Board to overrule or alter decisions of the NEPA Compliance Coordinator in accordance with the Trust's regulations and procedures.

(b) The NEPA Compliance Coordinator shall:

(1) Coordinate the formulation and revision of Trust policies and procedures on matters pertaining to environmental protection and enhancement;

(2) Establish and maintain working relationships with relevant government agencies concerned with environmental matters;

(3) Develop procedures within the Trust's planning and decision-making processes to ensure that environmental factors are properly considered in all proposals and decisions in accordance with this part;

(4) Develop, monitor, and review the Trust's implementation of standards, procedures, and working relationships for protection and enhancement of environmental quality and compliance with applicable laws and regulations;

(5) Monitor processes to ensure that the Trust's procedures regarding consideration of environmental quality are achieving their intended purposes;

(6) Advise the Board, officers, and employees of the Trust of technical and management requirements of environmental analysis, of appropriate expertise available, and, in consultation with the Trust's General Counsel, of relevant legal developments;

(7) Monitor the consideration and documentation of the environmental aspects of the Trust's planning and decision-making processes by appropriate officers and employees of the Trust;

(8) Ensure that all EA's and EIS's are prepared in accordance with the appropriate regulations adopted by the CEQ and the Trust;

(9) Consolidate and transmit to appropriate parties the Trust's comments on EIS's and other environmental reports prepared by other agencies;

(10) Acquire information and prepare appropriate reports on environmental matters required of the Trust;

(11) Coordinate Trust efforts to make available to other parties information and advice on the Trust's policies for protecting and enhancing the quality of the environment; and

(12) Designate other Trust employees to execute these duties under the supervision of the NEPA Compliance Coordinator, where necessary for administrative convenience and efficiency. As used in this chapter, the term "NEPA Compliance Coordinator" includes any such designee.

§ 1010.5 Major decision points.

(a) The possible environmental effects of a proposed action or project within the Presidio Trust Area must be considered along with technical, financial, and other factors throughout the decision-making process. Most Trust projects have three distinct stages in the decision-making process:

(1) Conceptual or preliminary study stage;

(2) Detailed planning or final decision stage;

(3) Implementation stage.

(b) Environmental review will be integrated into the decision-making process of the Trust as follows:

(1) During the conceptual or preliminary study stage, the NEPA Compliance Coordinator shall determine whether the proposed action or project is one which is categorically excluded under § 1010.7, has been adequately reviewed in a previously prepared EA and/or EIS, or requires further NEPA review (*i.e.*, an EA or an EIS).

(2) If the proposed action or project is not categorically excluded and has not been adequately reviewed in a previously prepared EA and/or EIS, then prior to the Trust's proceeding beyond the conceptual or preliminary study stage, the NEPA Compliance Coordinator must determine whether an EIS is required. When appropriate, prior to the determination as to whether an EIS is required, the NEPA Compliance Coordinator may initiate a public scoping process in order to inform such a determination.

(3) If an EIS is determined to be necessary, the Trust shall initiate a public scoping process in accordance with 40 CFR 1501.7. An EIS, if determined necessary, must be completed and circulated at the earliest point at which meaningful analysis can be developed for the proposed action or project and prior to the Trust's final approval of the proposed action or project.

§ 1010.6 Determination of requirement for EA or EIS.

In deciding whether to require the preparation of an EA or an EIS, the NEPA Compliance Coordinator will determine whether the proposal is one that:

(a) Normally does not require either an EA or an EIS;

(b) Normally requires an EIS; or

(c) Normally requires an EA, but not necessarily an EIS.

§ 1010.7 Actions that do not require an EA or EIS.

(a) *Categorical Exclusions.* Pursuant to 40 CFR 1508.4, the Trust has determined that the categories of action identified in this paragraph have no significant effect, either individually or cumulatively, on the human environment and are therefore categorically excluded. Such actions (whether approved by the Trust or undertaken by the Trust directly or

indirectly) do not require the preparation of an EA or an EIS:

(1) Personnel actions and investigations and personal services contracts;

(2) Administrative actions and operations directly related to the operation of the Trust (*e.g.*, purchase of furnishings, services, and equipment) provided such actions and operations are consistent with applicable Executive Orders;

(3) Internal organizational changes and facility and office expansions, reductions, and closings;

(4) Routine financial transactions, including such things as salaries and expenses, procurement, guarantees, financial assistance, income transfers, audits, fees, bonds and royalties;

(5) Management, formulation, allocation, transfer and reprogramming of the Trust's budget;

(6) Routine and continuing government business, including such things as supervision, administration, operations, maintenance, and replacement activities having limited context and intensity (limited size and magnitude or short-term effects);

(7) Preparation, issuance, and submittal of publications and routine reports;

(8) Activities which are educational, informational, or advisory (including interpretive programs), or otherwise in consultation with or providing technical assistance to other agencies, public and private entities, visitors, individuals, or the general public;

(9) Legislative proposals of an administrative or technical nature, including such things as changes in authorizations for appropriations or financing authority, minor boundary changes and land transactions; or having primarily economic, social, individual or institutional effects, as well as comments and reports on legislative proposals;

(10) Proposal, adoption, revision, and termination of policies, directives, regulations, and guidelines:

(i) That are of an administrative, financial, legal, technical, or procedural nature, the environmental effects of which are too broad, speculative, or conjectural to lend themselves to environmental analysis and the implementation of which will be subject to the NEPA process either collectively or on a case-by-case basis; or

(ii) Where such actions will not potentially:

(A) Increase public use to the extent of compromising the nature and character of the area or of causing significant physical damage to it;

(B) Introduce non-compatible uses that might compromise the nature and characteristics of the area or cause significant physical damage to it;

(C) Conflict with adjacent ownerships or land uses; or

(D) Cause a significant nuisance to adjacent owners or occupants;

(11) Preparation, approval, coordination, and implementation of plans, including priorities, justifications, and strategies, for research, monitoring, inventorying, and information gathering that is not or is only minimally manipulative and causes no or only minimal physical damage;

(12) Identification, nomination, certification, and determination of eligibility of properties for listing in the National Register of Historic Places and the National Historic Landmark and National Natural Landmark Programs;

(13) Minor or temporary changes in amounts or types of visitor use for the purpose of ensuring visitor safety or resource protection, minor changes in programs or regulations pertaining to visitor activities, and approval of permits or other use and occupancy agreements for special events or public assemblies and meetings, provided such events, assemblies, and meetings entail only short-term or readily mitigated environmental impacts;

(14) Designation of environmental study areas and research areas, including those closed temporarily or permanently to the public, provided such designation would cause no or only minimal environmental impact;

(15) Land and boundary surveys and minor boundary adjustments or transfers of administrative jurisdiction resulting in no significant change in land use;

(16) Archaeological surveys and permits involving only surface collection or small-scale test excavations;

(17) Changes or amendments to an approved plan or action when such changes or amendments would cause no or only minimal environmental impact;

(18) Contracts, work authorizations, or procurement actions related to proposals, programs, and master agreements related to administrative operation of the Trust;

(19) The leasing, permitting, sale, or financing of, or granting of non-fee interests regarding, real or personal property in the Presidio Trust Area, provided that such actions would have no or only minimal environmental impact;

(20) Extension, reissuance, renewal, minor modification, or conversion in form of agreements for use of real

property (including but not limited to leases, permits, licenses, concession contracts, use and occupancy agreements, easements, and rights-of-way), so long as such agreements were previously subject to NEPA and do not involve new construction or new or substantially greater environmental impacts, and so long as no new information is known or no changed circumstances have occurred that would give rise to new or substantially greater environmental impacts.

(21) Rehabilitation, modification, or improvement of historic properties that have been determined to be in conformance with the Secretary of the Interior's "Standards for the Treatment of Historic Properties" at 36 CFR part 68 and that would have no or only minimal environmental impact;

(22) Rehabilitation, maintenance, modification or improvement of non-historic properties that is consistent with applicable Executive Orders, provided there is no potential for significant environmental impacts, including impacts to cultural landscapes or archaeological resources;

(23) Removal, reduction, or restraint of resident individuals of species that are not threatened or endangered which pose dangers to visitors, residents, or neighbors or immediate threats to resources of the Presidio Trust Area;

(24) Removal of non-historic materials and structures in order to restore natural conditions when such removal has no potential for significant environmental impacts, including impacts to cultural landscapes or archaeological resources and is consistent with applicable Executive Orders;

(25) Installation of signs, displays, and kiosks, etc.;

(26) Replacement of minor structures and facilities (e.g., signs, kiosks, fences, comfort stations, and parking lots) with little or no change in location, capacity, or appearance;

(27) Repair, resurfacing, striping, installation of traffic control devices, and repair/replacement of guardrails, culverts, signs, and other minor features, on existing roads and parking facilities, provided there is no potential for significant environmental impact;

(28) Minor trail relocation, development of compatible trail networks on roads or other formally established routes, and trail maintenance and repair;

(29) Construction or rehabilitation in previously disturbed or developed areas required to meet health or safety regulations, or to meet requirements for making facilities accessible to the handicapped provided such construction or rehabilitation is

implemented in a manner consistent with applicable Executive Orders;

(30) Landscaping and landscape maintenance in previously disturbed or developed areas;

(31) Minor changes in programs and regulations pertaining to visitor activities;

(32) Routine maintenance, property management, and resource management, with no potential for significant environmental impact and that are consistent with the Secretary of the Interior's "Standards for the Treatment of Historic Properties" at 36 CFR part 68, as applicable, and with applicable Executive Orders;

(33) Upgrading or adding new utility facilities to existing poles, or replacement poles which do not change existing pole line configurations.

(34) Issuance of rights-of-way for overhead utility lines to an individual building or well from an existing line where installation will not result in significant visual intrusion or non-conformance with the Secretary's "Standards for the Treatment of Historic Properties" at 36 CFR part 68, as applicable, and will involve no clearance of vegetation other than for placement of poles;

(35) Issuance of rights-of-way for minor overhead utility lines not involving placement of poles or towers and not involving vegetation management or significant visual intrusion in an area administered by NPS or the Trust or non-conformance with the Secretary's "Standards for the Treatment of Historic Properties" at 36 CFR part 68, as applicable;

(36) Installation of underground utilities in previously disturbed areas having stable soils, or in an existing utility right-of-way; and

(37) Experimental testing of no longer than 180 days of mass transit systems, and changes in operation of existing systems with no potential for significant environmental impact.

(b) *Extraordinary circumstances.* An action that falls into one or more of the categories in paragraph (a) of this section may still require the preparation of an EIS or an EA if the NEPA Compliance Coordinator determines that it meets the criteria stated in § 1010.8(b) or § 1010.10(b), respectively, or involves extraordinary circumstances that may have a significant environmental effect. At its discretion, the Trust may require the preparation of an EA or an EIS for a proposal or action that otherwise qualifies for a categorical exclusion. Criteria used in determining whether to prepare an EA or EIS for an action that otherwise qualifies for a

categorical exclusion include whether an action may:

(1) Have significant adverse effects on public health or safety;

(2) Have significant adverse effects on such unique geographic characteristics as historic or cultural resources, park, recreation or refuge lands, sole or principal drinking water aquifers, wetlands, floodplains, or ecologically significant or critical areas;

(3) Have highly controversial environmental effects;

(4) Have highly uncertain and potentially significant environmental effects or involve unique or unknown environmental risks;

(5) Establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects;

(6) Be directly related to other actions with individually insignificant but cumulatively significant environmental effects;

(7) Have significant adverse effects on properties listed or eligible for listing on the National Register of Historic Places;

(8) Have significant adverse effects on species listed or proposed to be listed on the List of Endangered or Threatened Species, or have adverse effects on designated Critical Habitat for these species;

(9) Require compliance with Executive Order 11988 (Floodplain Management), Executive Order 11990 (Protection of Wetlands), Executive Order 13007 (Indian Sacred Sites), or the Fish and Wildlife Coordination Act; and/or

(10) Threaten to violate a Federal, State, local or tribal law or requirement imposed for the protection of the environment.

§ 1010.8 Actions that normally require an EIS.

(a) *General procedure.* So long as a proposed action or project is not categorically excluded under § 1010.7, the Trust shall require the preparation of an EA to determine if the proposed action or project requires an EIS. Nevertheless, if it is readily apparent to the NEPA Compliance Coordinator that the proposed action or project will have a significant impact on the environment, an EA is not required, and the Trust will prepare or direct the preparation of an EIS without preparing or completing the preparation of an EA. To assist the NEPA Compliance Coordinator in determining if a proposal or action normally requires the preparation of an EIS, the following criteria and categories of action are provided.

(b) *Criteria.* Criteria used to determine whether proposals or actions may

significantly affect the environment and therefore require an EIS are described in 40 CFR 1508.27.

(c) *Categories of action.* The following categories of action normally require an EIS:

(1) Legislative proposals made by the Trust to the United States Congress, other than those described in § 1010.7(b)(9);

(2) Approval, funding, construction, and/or demolition in preparation for construction of any new building, if that activity has a significant effect on the human environment;

(3) Proposals that would significantly alter the kind and amount of natural, recreational, historical, scenic, or cultural resources of the Presidio Trust Area or the integrity of the setting; and

(4) Approval or amendment of a general land use or resource management plan for the entire Presidio Trust Area.

§ 1010.9 Preparation of an EIS.

(a) *Notice of intent.* When the Trust decides to prepare an EIS, it shall publish a notice of intent in the **Federal Register** in accordance with 40 CFR 1501.7 and 1508.22. Where there is a lengthy period between the Trust's decision to prepare an EIS and the time of actual preparation, then at the discretion of the NEPA Compliance Coordinator the notice of intent shall be published at a reasonable time in advance of preparation of the EIS.

(b) *Preparation.* After having determined that an EIS will be prepared and having published the notice of intent, the Trust will begin to prepare or to direct the preparation of the EIS. The EIS shall be formatted in accordance with 40 CFR 1502.10.

(c) *Supplemental environmental impact statements.* The Trust may supplement a draft or final EIS at any time. The Trust shall prepare a supplement to either a draft or final EIS when:

(1) Substantial changes are proposed to an action analyzed in the draft or final EIS that are relevant to environmental concerns;

(2) There are significant new circumstances or information relevant to environmental concerns and bearing on the proposed action or its impacts; or

(3) Actions are proposed which relate to or are similar to other actions taken or proposed and that together will have a cumulatively significant impact on the human environment.

§ 1010.10 Actions that normally require an EA.

(a) *General procedure.* If a proposal or action is not one that normally requires

an EIS, and does not qualify for a categorical exclusion under § 1010.7, the Trust will require, prepare, or direct the preparation of an EA. An EA should be prepared when the Trust has insufficient information on which to determine whether a proposal may have significant impacts. An EA assists the Trust in complying with NEPA when no EIS is necessary, and it facilitates the preparation of an EIS, if one is necessary.

(b) *Criteria.* Criteria used to determine those categories of action that normally require an EA, but not necessarily an EIS, include:

(1) Potential for degradation of environmental quality;

(2) Potential for cumulative adverse impact on environmental quality; and

(3) Potential for adverse impact on protected resources (e.g., natural, scenic, recreational, historical, and cultural resources).

(c) *Categories of action.* The following categories of action normally require the preparation of an EA:

(1) Promulgation of regulations and requirements that are not categorically excluded;

(2) Proposals submitted by project applicants to the Trust for its review, as described in § 1010.14;

(3) Proposals to add or alter access between the Presidio Trust Area and surrounding neighborhoods; and

(4) Contracts, work authorizations, and master agreements related to and implementing programs, policies, and proposals which are not categorically excluded and for which there is no previously prepared EA and/or EIS.

§ 1010.11 Preparation of an EA.

(a) *When to prepare.* The Trust will begin the preparation of an EA (or require it to be begun) as early as possible after it is determined by the NEPA Compliance Coordinator to be required. The Trust will provide notice of such determinations in accordance with § 1010.12. The Trust may prepare or require an EA at any time to assist planning and decision-making.

(b) *Content and format.* An EA is a concise public document used to determine whether to prepare an EIS. An EA should address impacts, including cumulative impacts, on those resources that are specifically relevant to the particular proposal. Those impacts should be addressed in as much detail as is necessary to allow an analysis of the alternatives and the proposal. The EA shall contain brief discussions of the following topics:

(1) Purpose and need for the proposed action.

(2) Description of the proposed action.

(3) Alternatives considered, including a No Action alternative.

(4) Environmental effects of the proposed action and the alternatives, including mitigation measures.

(5) Listing of agencies, organizations, and/or persons consulted.

(c) *Finding of no significant impact (FONSI)*. If an EA is completed and the NEPA Compliance Coordinator determines that an EIS is not required, then the NEPA Compliance Coordinator shall prepare a finding of no significant impact. The finding of no significant impact shall be made available to the public by the Trust as specified in 40 CFR 1506.6.

(d) *Mitigated FONSI*. If an EA is completed and the NEPA

Compliance Coordinator determines that an EIS is required, then prior to preparation of an EIS, the proposal may be revised in order to mitigate the impacts identified in the EA through adherence to legal requirements, inclusion of mitigation as an integral part of the proposal, and/or fundamental changes to the proposal. A supplemental EA will be prepared on the revised proposal and will result in a Mitigated Finding of No Significant Impact, preparation of an EIS, or additional revision of the proposal and a supplemental EA.

§ 1010.12 Public involvement.

The Trust will make public involvement an essential part of its environmental review process. Public notice of anticipated Trust actions that may have a significant environmental impact, opportunities for involvement, and availability of environmental documents will be provided through announcements in the Trust's monthly newsletter, postings on its web site (www.presidiotrust.gov), placement of public notices in newspapers, direct mailings, and other means appropriate for involving the public in a meaningful way. The Trust will conduct scoping with interested federal, state and local agencies and Indian tribes, will solicit and accept written scoping comments and will hold public scoping meetings to gather early input whenever it determines an EIS to be necessary and otherwise as appropriate. Notice of all public scoping meetings will be given in a timely manner. Interested persons may also obtain information concerning any pending EIS or any other element of the environmental review process of the Trust by contacting the NEPA Compliance Coordinator at the following address: Presidio Trust, P.O. Box 29052, San Francisco, California 94129-0052.

§ 1010.13 Trust decision-making procedures.

To ensure that at major decision-making points all relevant environmental concerns are considered by the decision-maker, the following procedures are established.

(a) An environmental document (*i.e.*, the EA, finding of no significant impact, EIS, or notice of intent), in addition to being prepared at the earliest point in the decision-making process, shall accompany the relevant proposal or action through the Trust's decision-making process to ensure adequate consideration of environmental factors.

(b) The Trust shall consider in its decision-making process only decision alternatives encompassed by the range of alternatives discussed in the relevant environmental documents. Also, where an EIS has been prepared, the Trust shall consider all alternatives described in the EIS, a written record of the consideration of alternatives during the decision-making process shall be maintained, and a monitoring and enforcement program shall be adopted and summarized where applicable for any mitigation.

(c) Any environmental document prepared for a proposal or action shall be made part of the record of any formal rulemaking by the Trust.

§ 1010.14 Review of proposals by project applicants.

(a) An EA shall be required for each proposal for demolition, construction, reconstruction, development, preservation, rehabilitation, or restoration of real property submitted by a project applicant to the Trust for its review, and which the decision-maker agrees to consider, unless categorically excluded or covered by a previously prepared EA and/or EIS.

(b) The decision-maker may not take any approval action on such a proposal submitted by a project applicant until such time as the appropriate environmental review documents have been prepared and submitted to the decision-maker.

(c) At a minimum, and as part of any submission made by a project applicant to the decision-maker for its approval, such project applicant shall make available data and materials concerning the proposal sufficient to permit the Trust to carry out its environmental review responsibilities. When requested, the project applicant shall provide additional information that the NEPA Compliance Coordinator believes is necessary to permit it to satisfy its environmental review functions.

(d) With respect to each project proposed for consideration for which

the NEPA Compliance Coordinator determines that an EA shall be prepared, the decision-maker may require a project applicant to submit a draft EA regarding its proposal for the Trust's evaluation and revision. In accordance with 40 CFR 1506.5(b), the Trust shall make its own evaluation of the environmental issues and shall take responsibility for the scope and content of the final EA.

(e) With respect to each project proposed for consideration for which the NEPA Compliance Coordinator determines an EIS shall be prepared, the decision-maker may require a project applicant to pay a non-refundable fee to the Trust sufficient to cover a portion or all of the Trust's anticipated costs associated with preparation and review of the EIS, including costs associated with review under other applicable laws. Such fee shall be paid to the Trust in full prior to commencement of the preparation of the EIS or any amendment or supplement thereto.

(f) In accordance with 40 CFR 1506.5(C), the EIS shall be prepared by the Trust and/or by contractors who are selected by the Trust and who certify that they have no financial or other interest in the outcome of the project, and the Trust shall independently evaluate the EIS prior to its approval and take responsibility for ensuring its adequacy. The EIS shall be prepared in accordance with 40 CFR part 1502.

(g) The NEPA Compliance Coordinator may set time limits for environmental review appropriate to each proposal, consistent with 40 CFR 1501.8 and 1506.10.

(h) The NEPA Compliance Coordinator shall at the earliest possible time ensure that the Trust commences its environmental review on a proposed project and shall provide the project applicant with any policies or information deemed appropriate in order to permit effective and timely review by the Trust of a proposal once it is submitted to the decision-maker for approval.

§ 1010.15 Actions where lead agency designation is necessary.

(a) Consistent with 40 CFR 1501.5, where a proposed action by the Trust involves one or more other Federal agencies, or where actions by the Trust and one or more Federal agencies are directly related to each other because of their functional interdependence or geographical proximity, the Trust will seek designation as lead agency for those actions that relate solely to the Presidio Trust Area.

(b) For an action that qualifies as one for which the Trust will seek

designation as lead agency, the Trust will promptly consult with the appropriate Federal agencies to establish lead agency, joint lead agency, and/or cooperating agency designations.

(c) For an action as to which the Trust undertakes lead, joint lead, or cooperating agency status, the Trust is authorized to enter into a memorandum of understanding or agreement to define the rights and responsibilities of the relevant agencies.

§ 1010.16 Actions to encourage agency cooperation early in the NEPA process.

Consistent with 40 CFR 1501.6, the Trust may request the NPS to be a cooperating agency for actions or projects significantly affecting the quality of the Presidio. In addition, upon request of the Trust, any other Federal, State, local, or tribal agency that has jurisdiction by law or special expertise with respect to any environmental issue that should be addressed in the analysis may be a cooperating agency. The Trust shall use the environmental analysis and proposals of cooperating agencies with jurisdiction by law or special expertise to the maximum extent possible consistent with its responsibility as lead or joint lead agency.

§ 1010.17 Actions to eliminate duplication with State and local procedures.

Consistent with 40 CFR 1506.2, the Trust shall cooperate with State and local agencies to the fullest extent possible to reduce duplication between

NEPA and State and local requirements. Such cooperation shall to the fullest extent possible include:

- (a) Joint planning processes;
- (b) Joint environmental research and studies;
- (c) Joint public hearings (except where otherwise provided by statute); and
- (d) Joint environmental assessments and/or Environmental Impact Statements/Environmental Impact Reports.

BILLING CODE 4310-4R-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[CA 226-0250; FRL-6852-7]

Revisions to the California State Implementation Plan, Tehama County Air Pollution Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: EPA is finalizing approval of revisions to the Tehama County Air Pollution Control District (TCAPCD) portion of the California State Implementation Plan (SIP). These revisions were proposed in the **Federal Register** on April 17, 2000, and concern oxides of nitrogen (NO_x) emissions from fuel burning equipment. We are

approving a local rule that regulates these emission sources under the Clean Air Act as amended in 1990 (CAA or the Act).

EFFECTIVE DATE: This rule is effective on October 16, 2000.

ADDRESSES: You can inspect copies of the administrative record for this action at EPA's Region IX office during normal business hours. You can inspect copies of the submitted SIP revisions at the following locations:

Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105-3901.

Environmental Protection Agency, Air Docket (6102), Ariel Rios Building, 1200 Pennsylvania Avenue, NW., Washington DC 20460.

California Air Resources Board, Stationary Source Division, Rule Evaluation Section, 2020 "L" Street, Sacramento, CA 95812.

Tehama County APCD, P.O. Box 38 (1750 Walnut Street) Red Bluff, CA 96080.

FOR FURTHER INFORMATION CONTACT: Ed Addison, Rulemaking Office (AIR-4), U.S. Environmental Protection Agency, Region IX, (415) 744-1160.

SUPPLEMENTARY INFORMATION: Throughout this document, "we," "us" and "our" refer to EPA.

I. Proposed Action

On April 17, 2000 (65 FR 20426), EPA proposed to approve the following rule into the California SIP.

Local agency	Rule No.	Rule Title	Adopted	Submitted
TCAPCD	4.14	Fuel Burning Equipment	November 3, 1998	May 13, 1999.

We proposed to approve this rule because we determined that it complied with the relevant CAA requirements. Our proposed action contains more information on the rule and our evaluation.

II. Public Comments and EPA Responses

EPA's proposed action provided a 30-day public comment period. During this period, we received no comments.

III. EPA Action

No comments were submitted that change our assessment that the submitted rule complies with the relevant CAA requirements. Therefore, as authorized in section 110(k)(3) of the Act, EPA is fully approving this rule into the California SIP.

IV. Administrative Requirements

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a "significant regulatory action" and therefore is not subject to review by the Office of Management and Budget. This action merely approves state law as meeting federal requirements and imposes no additional requirements beyond those imposed by state law. Accordingly, the Administrator certifies that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). Because this rule approves pre-existing requirements under state law and does not impose any additional enforceable duty beyond that required by state law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as

described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4). For the same reason, this rule also does not significantly or uniquely affect the communities of tribal governments, as specified by Executive Order 13084 (63 FR 27655, May 10, 1998). This rule will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999), because it merely approves a state rule implementing a federal standard, and does not alter the relationship or the distribution of power and responsibilities established in the Clean Air Act. This rule also is not subject to Executive Order 13045 (62 FR

19885, April 23, 1997), because it is not economically significant.

In reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. In this context, in the absence of a prior existing requirement for the State to use voluntary consensus standards (VCS), EPA has no authority to disapprove a SIP submission for failure to use VCS. It would thus be inconsistent with applicable law for EPA, when it reviews a SIP submission, to use VCS in place of a SIP submission that otherwise satisfies the provisions of the Clean Air Act. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. As required by section 3 of Executive Order 12988 (61 FR 4729, February 7, 1996), in issuing this rule, EPA has taken the necessary steps to eliminate drafting errors and ambiguity, minimize potential litigation, and provide a clear legal standard for affected conduct. EPA has complied with Executive Order 12630 (53 FR 8859, March 15, 1988) by examining the takings implications of the rule in accordance with the "Attorney General's Supplemental Guidelines for the Evaluation of Risk and Avoidance of Unanticipated Takings" issued under the executive order. This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by November 14, 2000. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this rule for the purposes of judicial review nor does it extend the time

within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Hydrocarbons, Incorporation by reference, Intergovernmental relations, Nitrogen dioxide, Ozone, Reporting and recordkeeping requirements, Volatile organic compounds.

Dated: August 3, 2000.

John Wise,

Acting Regional Administrator, Region IX.

Part 52, chapter I, title 40 of the Code of Federal Regulations is amended as follows:

PART 52—[AMENDED]

1. The authority citation for Part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart F—California

2. Section 52.220 is amended by adding paragraph (c)(263)(i)(D)(2) to read as follows:

§ 52.220 Identification of plan.

* * * * *

(c) * * *

(263) * * *

(i) * * *

(D) * * *

(2) Rule 4.14 adopted on November 3, 1998.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 180

[OPP-301005; FRL-6589-3]

RIN 2070-AB

Difenoconazole; Pesticide Tolerance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This regulation establishes a tolerance for residues of difenoconazole [(2S,4R)/(2R,4S)]/[(2R,4R)/(2S,4S)] 1-(2-[4-(4-chlorophenoxy)-2-chlorophenyl]-4-methyl-1,3-dioxolan-2-yl-methyl)-1H-1,2,4-triazole in or on canola, seed. Novartis Crop Protection, Inc. requested this tolerance under the Federal Food,

Drug, and Cosmetic Act, as amended by the Food Quality Protection Act of 1996.

DATES: This regulation is effective September 15, 2000. Objections and requests for hearings, identified by docket control number OPP-301005, must be received by EPA on or before November 14, 2000.

ADDRESSES: Written objections and hearing requests may be submitted by mail, in person, or by courier. Please follow the detailed instructions for each method as provided in Unit VI. of the "SUPPLEMENTARY INFORMATION." To ensure proper receipt by EPA, your objections and hearing requests must identify docket control number OPP-301005 in the subject line on the first page of your response.

FOR FURTHER INFORMATION CONTACT: By mail: Cynthia Giles-Parker, Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: (703) 305-7740; and e-mail address: giles-parker.cynthia@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

You may be affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. Potentially affected categories and entities may include, but are not limited to:

Cat-egories	NAICS codes	Examples of Potentially Affected Entities
Industry	111 112 311 32532	Crop production Animal production Food manufacturing Pesticide manufacturing

This listing is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by this action. Other types of entities not listed in the table could also be affected. The North American Industrial Classification System (NAICS) codes have been provided to assist you and others in determining whether or not this action might apply to certain entities. If you have questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Additional Information, Including Copies of this Document and Other Related Documents?

1. *Electronically.* You may obtain electronic copies of this document, and

certain other related documents that might be available electronically, from the EPA Internet Home Page at <http://www.epa.gov/>. To access this document, on the Home Page select "Laws and Regulations" and then look up the entry for this document under the "Federal Register—Environmental Documents." You can also go directly to the Federal Register listings at <http://www.epa.gov/fedrgstr/>.

2. *In person.* The Agency has established an official record for this action under docket control number OPP-301005. The official record consists of the documents specifically referenced in this action, and other information related to this action, including any information claimed as Confidential Business Information (CBI). This official record includes the documents that are physically located in the docket, as well as the documents that are referenced in those documents. The public version of the official record does not include any information claimed as CBI. The public version of the official record, which includes printed, paper versions of any electronic comments submitted during an applicable comment period is available for inspection in the Public Information and Records Integrity Branch (PIRIB), Rm. 119, Crystal Mall #2, 1921 Jefferson Davis Hwy., Arlington, VA, from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The PIRIB telephone number is (703) 305-5805.

II. Background and Statutory Findings

In the Federal Register of May 5, 1999 (64 FR 24153) (FRL-6072-7), EPA issued a notice pursuant to section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a as amended by the Food Quality Protection Act of 1996 (FQPA) (Public Law 104-170) announcing the filing of a pesticide petition (PP) for tolerance by Novartis Crop Protection, Inc. This notice included a summary of the petition prepared by Novartis Crop Protection, Inc., the registrant. There were no comments received in response to this notice of filing.

The petition requested that 40 CFR 180.475 be amended by establishing a tolerance for the fungicide, difenoconazole [(2*S*,4*R*)/(2*R*,4*S*)]/[(2*R*,4*R*)/(2*S*,4*S*) 1-(2-[4-(4-chlorophenoxy)-2-chlorophenyl]-4-methyl-1,3-dioxolan-2-yl-methyl)-1*H*-1,2,4-triazole, in or on canola, seed at 0.01 ppm.

Section 408(b)(2)(A)(i) of the FFDCA allows EPA to establish a tolerance (the legal limit for a pesticide chemical residue in or on a food) only if EPA determines that the tolerance is "safe." Section 408(b)(2)(A)(ii) defines "safe" to

mean that "there is a reasonable certainty that no harm will result from aggregate exposure to the pesticide chemical residue, including all anticipated dietary exposures and all other exposures for which there is reliable information." This includes exposure through drinking water and in residential settings, but does not include occupational exposure. Section 408(b)(2)(C) requires EPA to give special consideration to exposure of infants and children to the pesticide chemical residue in establishing a tolerance and to "ensure that there is a reasonable certainty that no harm will result to infants and children from aggregate exposure to the pesticide chemical residue...."

EPA performs a number of analyses to determine the risks from aggregate exposure to pesticide residues. For further discussion of the regulatory requirements of section 408 and a complete description of the risk assessment process, see the final rule on Bifenthrin Pesticide Tolerances (62 FR 62961, November 26, 1997) (FRL-5754-7).

III. Aggregate Risk Assessment and Determination of Safety

Consistent with section 408(b)(2)(D), EPA has reviewed the available scientific data and other relevant information in support of this action. EPA has sufficient data to assess the hazards of and to make a determination on aggregate exposure, consistent with section 408(b)(2), for a tolerance for residues of difenoconazole [(2*S*,4*R*)/(2*R*,4*S*)]/[(2*R*,4*R*)/(2*S*,4*S*) 1-(2-[4-(4-chlorophenoxy)-2-chlorophenyl]-4-methyl-1,3-dioxolan-2-yl-methyl)-1*H*-1,2,4-triazole in or on canola, seed at 0.01 ppm. EPA's assessment of the dietary exposures and risks associated with establishing the tolerance follows.

A. Toxicological Profile

EPA has evaluated the available toxicity data and considered its validity, completeness, and reliability as well as the relationship of the results of the studies to human risk. EPA has also considered available information concerning the variability of the sensitivities of major identifiable subgroups of consumers, including infants and children. The nature of the toxic effects caused by difenoconazole are discussed in this unit.

Difenoconazole possesses low acute toxicity. Technical difenoconazole had the following acute toxicology endpoints and toxicity categories. The acute oral toxicity Lethal Dose 50% (LD₅₀) was 1,453 milligrams per kilogram (mg/kg) (Toxicity Category III).

The acute dermal toxicity LD₅₀ was >2,010 mg/kg (Toxicity Category III). The acute inhalation Lethal Concentration 50% (LC₅₀) was >3,300 milligrams per cubic meter (mg/m³; 4 hours of exposure; Toxicity Category IV). The primary eye irritation results were mild eye irritation, reversible in 7 days (Toxicity Category III). The primary skin irritation results were slight irritation (Toxicity Category IV). The dermal sensitization results were negative.

Subchronic studies in mice and rats manifested decreased body weights, decreased body weight gains, and effects on the liver at 200 ppm and higher. Microscopic examination of the eyes of dogs at 3,000 ppm revealed unilateral and bilateral lenticular cataracts in both sexes of animals. Decreased body weights, body weight gains, and food consumption were reported in a 21-day rabbit dermal study at the lowest observed adverse effect level (LOAEL) of 100 mg/kg/day.

Chronic studies in rats revealed decreased body weight gains and increased liver weights along with hepatocellular hypertrophy. Clinical chemistry data supported the liver pathology data suggesting that the liver was the primary target organ. There were no treatment-related neoplastic effects. The LOAEL was 500 ppm (equal to 24.12 and 32.79 milligrams per kilogram per day (mg/kg/day) for males and females, respectively) and the no observed adverse effect level (NOAEL) was 20 ppm (equal to 0.96 and 1.27 mg/kg/day for males and females, respectively).

Chronic feeding studies in mice showed decreased body weight gains in male and female mice at termination. Treatment-related non-neoplastic lesions were confined to the liver and were supported by the clinical chemistry data at a level of 300 ppm (46.29 and 57.79 mg/kg/day for males and females, respectively). Liver tumors were observed in mice at 300 ppm and higher; however, based on the excessive toxicity observed at the two highest doses of 2,500 and 4,500 ppm (females terminated after 2 weeks due to excessive toxicity resulting in moribundity and death), the absence of tumors at the two lower doses of 10 and 30 ppm, and the absence of genotoxic effects, the Cancer Peer Review Committee (CPRC) recommended for a cancer classification of C (possible human carcinogen) and advocated a Margin of Exposure (MOE) approach to risk assessment utilizing the NOAEL of 30 ppm (4.7 and 5.6 mg/kg/day in males and females, respectively) and the LOAEL of 300 ppm (46.3 and 57.8 mg/

kg/day in males and females, respectively) from the mouse study, using only those biological endpoints which were related to tumor development (i.e., hepatocellular hypertrophy, liver necrosis, fatty changes in the liver, and bile stasis).

The chronic study in beagle dogs revealed decreased body weight gains throughout the study at 500 ppm and increased levels of alkaline phosphatase at 1,500 ppm (equal to 51.2 and 44.3 mg/kg/day for males and females, respectively). The LOAEL was 500 ppm (equal to 16.4 and 19.4 mg/kg/day for males and females respectively) and the NOAEL was 100 ppm (equal to 3.4 and 3.7 mg/kg/day for males and females, respectively).

The results of the 2-generation and developmental studies did not demonstrate increased sensitivity to infants and children.

Neurotoxicity studies are not applicable as this chemical is not a cholinesterase inhibitor and there is no evidence in the available data base that difenoconazole possesses neurotoxic properties. It is not structurally related to known neurotoxic compounds.

Mutagenicity studies indicated that difenoconazole was not mutagenic under the test conditions.

Metabolism studies in rats indicated that peak absorption occurred between 28 and 48 hours post-dosing. Elimination in the feces ranged between 78% and 94% and in the urine between 8% and 21%. Difenoconazole did not accumulate to any appreciable extent, since tissues contained less than 1.0% of the radioactivity after 7 days post-dosing. Difenoconazole undergoes successive oxidation and conjugation reactions. There is saturation of the metabolic pathway at high doses. The distribution, metabolism, and excretion of difenoconazole are not sex-dependent.

The overall quality of the toxicology data base is good. Confidence in the hazard and dose response assessment is also good. There are no toxicology data gaps.

B. Toxicological Endpoints

An inhalation dose/endpoint was not identified by the Agency because there is minimal concern for potential inhalation exposure/risk based on the low acute toxicity (Toxicity Category IV), application rate, application method, and number of applications (one time).

1. *Acute toxicity.* An acute Reference Dose (RfD) for difenoconazole of 0.25 mg/kg was established for the subpopulation group females 13+ years old, based on a NOAEL of 25 mg/kg

from a developmental toxicity study in the rabbit. Effects at the next higher dose level of 75 mg/kg (the LOAEL) were based on post-implantation loss and resorptions per dose and a significant decrease in fetal body weight. These effects are presumed to occur after a single exposure *in utero* and therefore are considered to be appropriate for this risk assessment. The 10x FQPA Safety Factor, to provide increased protection for infants and children where this is needed, was reduced to 1x because there is no evidence that infants and children have an increased sensitivity to difenoconazole. As a result, the acute RfD and the acute Population Adjusted Dose (aPAD) are the same: 0.25 mg/kg. An acute dose and endpoint were not selected for the general population group (including infants and children) because there were no effects observed in oral toxicology studies including maternal toxicity in the developmental toxicity studies in rats and rabbits that are attributable to a single exposure (dose).

2. *Short- and intermediate-term toxicity.* For difenoconazole, the short-term dermal dose/endpoint was chosen from a developmental rabbit study. An oral NOAEL of 25 mg/kg/day was selected, based on post-implantation loss, increased resorptions per dose, and decreased body weight seen at 75 mg/kg/day (LOAEL). An intermediate-term dermal endpoint was chosen from a rat 2-generation reproduction study. The Agency chose an oral NOAEL of 1.25 mg/kg/day based on decreased pup weight on day 21 at 12.5 mg/kg/day (LOAEL).

3. *Chronic toxicity (non-cancer).* EPA established an oral chronic RfD for difenoconazole at 0.01 mg/kg/day. This RfD is based on a 2-year chronic feeding/oncogenicity study in the rat, where the NOAEL of 0.96 mg/kg/day (statistically equal to 1.0 mg/kg/day) was based on cumulative decreases in body weight gains at the LOAEL of 24.12 mg/kg/day (500 ppm). This RfD was originally established by the Agency in 1994, and reconfirmed by the Agency in 1998. The chronic Population Adjusted Dose (cPAD) and the chronic RfD are the same because the FQPA Safety Factor has been reduced to 1x for difenoconazole. A long-term dermal endpoint was not identified by the Agency because long-term dermal exposure is not expected based on a one-time application as a seed treatment.

4. *Carcinogenicity.* In 1994, the Agency concluded that difenoconazole should be classed as a Group C carcinogen (possible human carcinogen)

and recommended that, for the purpose of risk assessment, the MOE approach be used for the quantification of human risk. The decision to classify difenoconazole as a Group C carcinogen was based on statistically significant increases in liver adenomas, carcinomas, and combined adenomas and carcinomas in both sexes of CD-1 mice, but only at doses that were considered to be excessively high for carcinogenicity testing. The MOE approach was recommended because there was only very weak (limited) evidence of carcinogenic potential at dose levels not considered to be excessive, with significant changes observed only at excessive doses. In addition, there was no evidence of genotoxicity. However, to date the Agency has not defined the level of concern for cancer risk using the MOE approach. Therefore, a quantitative risk analysis was conducted utilizing the Q_1^* approach. The Q_1^* was determined to be $0.157 \text{ (mg/kg/day)}^{-1}$. This value incorporates the scaling factor and is based on the male mouse liver adenomas and/or carcinomas combined.

C. Exposures and Risks

1. *From food and feed uses.* Tolerances have previously been established (40 CFR 180.475) for the fungicide difenoconazole in or on the following raw agricultural commodities: Bananas, barley (grain only); eggs; the fat, meat, and meat byproducts of cattle, goats, hogs, horses, poultry, and sheep; milk; rye (grain only); sweet corn (fodder, forage, and grain) and wheat (forage, grain, and straw). The food risk analyses also included the pending residue tolerances for canola and sweet corn. The risk assessments conducted by EPA to assess food exposures were handled as follows. In the acute food risk analysis, present and proposed tolerance level residues and 100% crop treated (PCT) values were used in the calculation, producing a Theoretical Maximum Residue Contribution (TMRC). In the chronic and cancer food risk analyses, anticipated residues were used for most commodities, while reduced values for PCT were used for barley, sweet corn, and wheat. The PCT value used for barley is actually a percent crop imported value, because the barley residue tolerance is an import tolerance. Percent crop imported and PCT have equivalent effects on the calculations.

Section 408(b)(2)(E) authorizes EPA to use available data and information on the anticipated residue levels of pesticide residues in food and the actual levels of pesticide chemicals that have been measured in food. If EPA relies on

such information, EPA must require that data be provided 5 years after the tolerance is established, modified, or left in effect, demonstrating that the levels in food are not above the levels anticipated. Following the initial data submission, EPA is authorized to require similar data on a time frame it deems appropriate. As required by section 408(b)(2)(E), EPA will issue a data call-in for information relating to anticipated residues to be submitted no later than 5 years from the date of issuance of this tolerance.

Section 408(b)(2)(F) states that the Agency may use data on the actual percent of food treated for assessing chronic dietary risk only if the Agency can make the following findings: Condition 1, that the data used are reliable and provide a valid basis to show what percentage of the food derived from such crop is likely to contain such pesticide residue; Condition 2, that the exposure estimate does not underestimate exposure for any significant subpopulation group; and Condition 3, if data are available on pesticide use and food consumption in a particular area, the exposure estimate does not understate exposure for the population in such area. In addition, the Agency must provide for periodic evaluation of any estimates used. To provide for the periodic evaluation of the estimate of PCT as required by section 408(b)(2)(F), EPA may require registrants to submit data on PCT.

The Agency used PCT information as follows and believes that the three conditions listed above have been met. With respect to Condition 1, PCT estimates are derived from Federal and private market survey data, which are reliable and have a valid basis. EPA uses a weighted average PCT for chronic food exposure estimates. This weighted average PCT figure is derived by averaging State-level data for a period of up to 10 years, and weighting for the more robust and recent data. The percent imported data for barley were derived from statistics published by the National Agricultural Statistics Service and the Economic Research Service, both of which are units of the United States Department of Agriculture. A weighted average of the PCT reasonably represents a person's food exposure over a lifetime, and is unlikely to underestimate exposure to an individual because of the fact that pesticide use patterns (both regionally and nationally) tend to change continuously over time, such that an individual is unlikely to be exposed to more than the average PCT over a lifetime. For acute food exposure estimates, EPA uses estimated maximum PCTs (in this case 100%).

The exposure estimates resulting from this approach reasonably represent the highest levels to which an individual could be exposed, and are unlikely to underestimate an individual's acute dietary exposure. The Agency is reasonably certain that the percentage of the food treated is not likely to be underestimated. As to Conditions 2 and 3, regional consumption information and consumption information for significant subpopulations is taken into account through EPA's computer-based model for evaluating the exposure of significant subpopulations including several regional groups. Use of this consumption information in EPA's risk assessment process ensures that EPA's exposure estimate does not understate exposure for any significant subpopulation group and allows the Agency to be reasonably certain that no regional population is exposed to residue levels higher than those estimated by the Agency. Other than the data available through national food consumption surveys, EPA does not have available information on the regional consumption of food to which difenoconazole may be applied in a particular area.

A food exposure analysis using the Dietary Exposure Evaluation Model (DEEM) for the acute and both of the chronic (cancer and non-cancer) analyses evaluated individual food consumption as reported by respondents during the USDA 1989–1992 Continuing Surveys of Food Intake by Individuals (CSFII) and accumulated exposure to the chemical from each commodity.

i. *Acute exposure and risk.* Acute food risk assessments are performed for a food-use pesticide if a toxicological study has indicated the possibility of an effect of concern occurring as a result of a 1-day or single exposure. The endpoint used for all population subgroups that were analyzed in the acute food analysis was an aPAD of 0.25 mg/kg that incorporated Uncertainty Factors of 10x for interspecies extrapolation, 10x for intraspecies variability, and 1x for the FQPA Safety Factor. The subgroups analyzed and the exposure values calculated at the 95th percentile were females 13+ years old, pregnant, and not nursing—0.000852 mg/kg; females 13+ years old, nursing—0.000889 mg/kg; females 13–29 years old, not pregnant, not nursing—0.000750 mg/kg; females 20+ years old, not pregnant, not nursing—0.000668 mg/kg; females 13–50 years old—0.000701 mg/kg. In each case the exposure value is less than 1% of the aPAD. The exposure values calculated at the 99th percentile were females 13+

years old, pregnant, and not nursing—0.001093 mg/kg; females 13+ years old, nursing—0.001086 mg/kg; females 13–29 years old, not pregnant, not nursing—0.001008 mg/kg; females 20+ years old, not pregnant, not nursing—0.000987 mg/kg; females 13–50 years old—0.001008 mg/kg. In each of these cases the exposure value is also less than 1% of the aPAD. The exposure values calculated at the 99.9th percentile were females 13+ years old, pregnant, and not nursing—0.001265 mg/kg; females 13+ years old, nursing—0.001115 mg/kg; females 13–29 years old, not pregnant, not nursing—0.001570 mg/kg; females 20+ years old, not pregnant, not nursing—0.001359 mg/kg; females 13–50 years old—0.001436 mg/kg. Once again, in each of these cases the exposure value is less than 1% of the aPAD. The exposures were below the Agency's level of concern for all subgroups of females who were 13 to 50 years old. The Agency's level of concern is for exposures greater than 100% of the aPAD.

ii. *Chronic (non-cancer and cancer) exposure and risk.* For the chronic (non-cancer) food analysis, a cPAD of 0.01 mg/kg/day was used. It incorporated Uncertainty Factors of 10x for interspecies extrapolation and 10x for intraspecies variability, and an FQPA Safety Factor of 1x. The chronic (both cancer and non-cancer) analyses for difenoconazole are both partially refined estimates (Tier 3 assessments) because they use anticipated residues for all commodities and PCT information for some commodities.

The exposure estimates produced by the chronic (non-cancer) dietary exposure analysis are the following: U.S. population (48 states)—0.000005 mg/kg/day; all infants less than 1 year old—0.00016 mg/kg/day; nursing infants less than 1 year old—0.000007; non-nursing infants less than 1 year old—0.000016 mg/kg/day; children 1–6 years old—0.000011 mg/kg/day; children 7–12 years old—0.000005 mg/kg/day; females 13–19 years old, not pregnant, not nursing—0.000003 mg/kg/day; females 20+, not pregnant, not nursing—0.000004 mg/kg/day; females 13–50—0.000004 mg/kg/day; females 13+ years old, pregnant, nursing—0.000004 mg/kg/day; females (13+ years old, nursing—0.000006 mg/kg/day; non-Hispanic Whites—0.000006 mg/kg/day; non-Hispanic/non-White/non-Black—0.000006 mg/kg/day. In each case the exposure estimate is less than 1% of the cPAD.

The endpoint calculated for the chronic (cancer) analysis was a Q_1^* of 0.157 (mg/kg/day)⁻¹. The result of the exposure analysis was that the exposure

for the U.S. population was estimated to be 0.000005 mg/kg/day. This exposure estimate produces a lifetime cancer risk estimate of 8.6×10^{-7} , below the Agency's 1×10^{-6} level of concern.

2. *From drinking water.* The Agency does not have the monitoring data available that is needed to perform a quantitative drinking water risk assessment for difenconazole at this time. Ground and surface water concentration estimates, for the parent chemical only, were therefore calculated. These estimates may be used qualitatively.

The Agency's Tier 1 models for estimating surface and ground water pesticide concentrations, GENEEC (Generic Estimated Environmental Concentration) and SCI-GROW (Screening Concentration in Ground Water), are not designed to estimate runoff or leaching values for seed treatment pesticides. Therefore, there are uncertainties in the predictive potential of the Tier 1 modeling. Additionally, it was necessary to use screened environmental fate data in the assessment because there was insufficient time to conduct a formal review of data that had previously been submitted by a predecessor company to Novartis Crop Protection, Inc. The uncertainties in the water assessment, however, are not expected to substantially decrease the conservativeness of the Tier 1 modeling results. The Tier 1 water modeling used in the instant analysis is the same as the analysis previously done for wheat. Because wheat is seeded at a much higher rate (by weight of seed) than canola, even more conservative estimates of resulting difenconazole concentrations in ground and surface waters should result. Wheat is seeded at a rate of 60–120 pounds (lbs.) per acre, while canola is seeded at a rate of 5–10 lbs. per acre.

Therefore, the application rate of difenconazole used in the analysis is based on a wheat seed treatment rate of 0.025 lb. active ingredient (a.i.) per 100 lbs. of seed and the maximum seeding rate (120 lbs./acre). This produces a maximum application rate of 0.03 lb. difenconazole per acre. Based on the preliminary screen of the environmental fate data submitted by the registrant, difenconazole is expected to be relatively immobile but persistent in terrestrial environments. The adsorption coefficients for difenconazole that were used in these calculations were 12.76 microliters per gram ($\mu\text{L/g}$; producing a $K_{oc} = 3,866$) in an agricultural sand, 62.97 $\mu\text{L/g}$ ($K_{oc} = 3,470$) in sandy loam soil, 54.84 $\mu\text{L/g}$ ($K_{oc} = 7,734$) in silt loam soil, and 47.18 $\mu\text{L/g}$ ($K_{oc} = 7,734$) in a

silty clay loam soil. The aerobic soil metabolism half-life for difenconazole ranged from 175 to 1,600 days. Difenconazole had a first-order photodegradation half-life of 5.68 days in water.

GENEEC deals with surface water and models the results of a single runoff event (but can handle multiple spray-drift events, though spray drift is not a consideration in the instant analysis of a seed treatment fungicide) and mandatorily represents an outdoor system consisting of a 10 hectare (ha) field immediately adjacent to a 1 ha pond that is 2 meters (m) deep and has no outlet. GENEEC allows reduction of the amount of pesticide that runs off by accounting for degradative processes in the field and soil-binding. However, limitations of this approach are that surface-source drinking water usually comes from bodies of water that are much larger than a 1-ha pond, the entire drainage basin (the 10-ha field) of the pond is assumed to receive an application of the pesticide (quite unlikely for a drinking water source), and most surface drinking water sources will have at least some water turnover (outflow, etc.). Despite this, GENEEC still allows screening calculations and the provision of an upper bound estimate (probably often a substantial overestimate) of surface water concentrations of a pesticide. Where the level of concern for drinking water concentrations is exceeded, the Agency can use various methods to refine the estimate.

SCI-GROW deals with ground water and is an empirical screening model based on actual ground water monitoring data collected from small-scale prospective ground water monitoring studies for the registration of a number of pesticides that serve as benchmarks for the model. The current version of SCI-GROW provides realistic estimates of pesticide concentrations in shallow, highly vulnerable (sandy soil and depth-to-ground-water of 10 to 20 feet) ground water, nearly a worst-case scenario for ground water contamination. There may be exceptional circumstances under which concentrations of a pesticide may exceed the SCI-GROW estimates but such circumstances should be rare. The ground water concentrations generated by SCI-GROW are based on the largest 90-day average concentration recorded during the sampling period. Because of the conservative nature of the monitoring data on which the model is based, SCI-GROW is considered to provide an upper bound estimate of pesticide residues in ground water. Since it is believed that pesticide

concentrations in ground water do not fluctuate widely, SCI-GROW provides one estimate that is used both as a maximum and as an average concentration value in ground water.

A Drinking Water Level of Comparison (DWLOC) is a theoretical upper limit on a pesticide's concentration in drinking water in light of total aggregate exposure to a pesticide in food, drinking water, and through residential uses. A DWLOC will vary depending on the toxic endpoint, with drinking water consumption, and with body weight variances. Different populations will have different DWLOCs. The Agency uses DWLOCs internally in the risk assessment process as a surrogate measure of potential exposure associated with pesticide exposure through drinking water. In the absence of monitoring data for pesticides, it is used as a point of comparison against conservative model estimates of a pesticide's concentration in water. DWLOC values are not regulatory standards for drinking water. They do have an indirect regulatory impact through aggregate exposure and risk assessments.

The Agency's default bodyweights are 70 kg for males, 60 kg for females, and 10 kg for children. The Agency's default water consumption values are 2 liters (L) for males and females, and 1 L for children. The equation for the calculation is: DWLOC (micrograms/Liter) equals (water exposure (mg/kg/day) times body weight) divided by (consumption (Liters) times 10^{-3} milligrams/microgram).

i. *Acute exposure and risk.* The GENEEC model (Tier 1) estimate of the acute or peak Estimated Environmental Concentration (EEC) for difenconazole in surface water was 0.125 parts per billion (ppb). The SCI-GROW model estimate of the concentration of difenconazole in ground water was 0.00084 ppb. The Agency calculated DWLOCs for acute exposure to difenconazole in surface and ground water for females 13-50 years old. To calculate the DWLOC for acute exposure relative to an acute toxicity endpoint, the acute dietary food exposure (from the DEEM analysis) was subtracted from the aPAD to obtain the acceptable acute exposure to difenconazole in drinking water. DWLOCs were then calculated using the default body weights and drinking water consumption figures. The results were that the acute DWLOC for both the subgroup females (13+ years old, pregnant, and not nursing) and for the subgroup females (13+ years old, nursing), was 7,470 ppb. For the subgroup females (13-29 years old, not pregnant, and not nursing), the

subgroup females (20+ years old, not pregnant, non-nursing), and the subgroup females (13-50 years old) the DWLOC was 7,480 ppb.

ii. *Chronic (cancer and non-cancer) exposure and risk.* The GENECC model (Tier 1) estimate of the chronic 56-day EEC was 0.048 ppb. Agency drinking water guidance calls for this value to be divided by 3 to obtain the value to use in the chronic risk assessment. Therefore, the surface water value used in the chronic risk assessment of difenoconazole was 0.016 ppb. The SCI-GROW model estimate of the concentration of difenoconazole in ground water was 0.00084 ppb.

The Agency calculated DWLOCs for chronic (non-cancer) exposure to difenoconazole in surface and ground water. To calculate the DWLOC for chronic exposure relative to a chronic toxicity endpoint, the chronic dietary food exposure (from the DEEM analysis) was subtracted from the cPAD to obtain the acceptable chronic (non-cancer) exposure to difenoconazole. DWLOCs were then calculated using the default body weights and drinking water consumption figures. For the group U.S. population (48 states), the subgroup non-Hispanic Whites, and the subgroup non-Hispanic/non-White/non-Black, the DWLOC was 350 ppb. For the subgroup all infants less than 1 year old, the subgroup nursing infants less than 1 year old, the subgroup non-nursing infants less than 1 year old, the subgroup children 1-6 years old, and the subgroup children 7-12 years old, the DWLOC was 100 ppb. For the subgroup females (13-19 years old/not pregnant, non-nursing), the subgroup females (20+ years old/not pregnant, non-nursing), the subgroup females (13-50 years old), the subgroup females (13+ years old/pregnant/non-nursing), and the subgroup females (13+ years old/nursing), the DWLOC was 300 ppb. The population group U.S. population (48 states), all infant and children subgroups, all subgroups for females 13-50 years old, and any other population subgroup whose exposure exceeded that of the U.S. population group were included in this analysis.

The Agency calculated DWLOCs for chronic (cancer) exposure to difenoconazole in surface and ground water for the U.S. population group. To calculate the DWLOC for chronic (cancer) exposure relative to a carcinogenic toxicity endpoint (Q_1^*), the chronic (cancer) dietary food exposure from the DEEM analysis was subtracted from the ratio of the negligible cancer risk (1×10^{-6}) to the Q_1^* to obtain the acceptable chronic (cancer) exposure to difenoconazole in

drinking water. DWLOCs were then calculated using the default body weights and drinking water consumption figures. The DWLOC_{cancer} for the U.S. population group is 0.048 ppb.

3. *From non-dietary exposure.* Difenoconazole has no residential uses so non-dietary exposure is not a factor in the difenoconazole exposure/risk analysis.

4. *Cumulative exposure to substances with a common mechanism of toxicity.* Section 408(b)(2)(D)(v) requires that, when considering whether to establish, modify, or revoke a tolerance, the Agency consider "available information" concerning the cumulative effects of a particular pesticide's residues and "other substances that have a common mechanism of toxicity."

EPA does not have, at this time, available data to determine whether difenoconazole has a common mechanism of toxicity with other substances or how to include this pesticide in a cumulative risk assessment. Unlike other pesticides for which EPA has followed a cumulative risk approach based on a common mechanism of toxicity, difenoconazole does not appear to produce a toxic metabolite produced by other substances. For the purposes of this tolerance action, therefore, EPA has not assumed that difenoconazole has a common mechanism of toxicity with other substances. For information regarding EPA's efforts to determine which chemicals have a common mechanism of toxicity and to evaluate the cumulative effects of such chemicals, see the final rule for Bifenthrin Pesticide Tolerances (62 FR 62961, November 26, 1997).

D. Aggregate Risks and Determination of Safety for U.S. Population

1. *Acute risk.* The acute aggregate exposure includes food and water. The acute risk scenario for difenoconazole for the 5 subgroups analyzed is as follows. For females (13+ years old/pregnant/non-nursing) the aPAD was 0.25 mg/kg, the NOAEL was 25 mg/kg, the food exposure estimate from DEEM was 0.000852 mg/kg/day, the water exposure estimate was 0.249 mg/kg/day, the SCI-GROW ground water EEC estimate was 0.00084 ppb, the GENECC surface water EEC estimate was 0.125 ppb, and the DWLOC was 7,470 ppb. For females (13+ years old/nursing) the aPAD was 0.25 mg/kg, the NOAEL was 25 mg/kg, the food exposure estimate from DEEM was 0.000889 mg/kg/day, the water exposure estimate was 0.249 mg/kg/day, the SCI-GROW ground water EEC estimate was 0.00084 ppb, the

GENECC surface water EEC estimate was 0.125 ppb, and the DWLOC was 7,470 ppb. For females (13-29 years old/not pregnant/non-nursing) the aPAD was 0.25 mg/kg, the NOAEL was 25 mg/kg, the food exposure estimate from DEEM was 0.000750 mg/kg/day, the water exposure estimate was 0.249 mg/kg/day, the SCI-GROW ground water EEC estimate was 0.00084 ppb, the GENECC surface water EEC estimate was 0.125 ppb, and the DWLOC was 7,480 ppb. For females (20+ years old/not pregnant/non-nursing) the aPAD was 0.25 mg/kg, the NOAEL was 25 mg/kg, the food exposure estimate from DEEM was 0.000668 mg/kg/day, the water exposure estimate was 0.249 mg/kg/day, the SCI-GROW ground water EEC estimate was 0.00084 ppb, the GENECC surface water EEC estimate was 0.125 ppb, and the DWLOC was 7,480 ppb. For females (13-20 years old) the aPAD was 0.25 mg/kg, the NOAEL was 25 mg/kg, the food exposure estimate from DEEM was 0.000701 mg/kg/day, the water exposure estimate was 0.249 mg/kg/day, the SCI-GROW ground water EEC estimate was 0.00084 ppb, the GENECC surface water EEC estimate was 0.125 ppb, and the DWLOC was 7,480 ppb.

From the acute dietary (food only) risk assessments, high-end exposure estimates were calculated for the female 13-50 subgroups only. The percent aPADs were below the Agency's level of concern at the 95th percentile for all female 13-50 year old subgroups with all estimated acute dietary exposures <1% of the aPAD. The maximum estimated concentrations of difenoconazole in surface and ground water are less than the Agency's acute DWLOCs for difenoconazole as a contribution to acute aggregate exposure. Therefore, taking into account the uses proposed in this action, the Agency concludes with reasonable certainty that residues of difenoconazole in drinking water (when considered along with other sources of exposure for which the Agency has reliable data) would not result in unacceptable levels of acute aggregate human health risk at this time.

2. *Chronic (non-cancer) risk.* There are no registered or proposed residential uses of difenoconazole. Therefore, chronic (non-cancer) aggregate exposure will include risk from food and water only. The chronic (non-cancer) scenario for difenoconazole is as follows. For the U.S. population group the food exposure estimate (from the DEEM assessment) is 0.000005 mg/kg/day, the water exposure estimate (the cPAD minus the DEEM dietary exposure estimate) is 0.00995 mg/kg/day, the cPAD is 0.01 mg/kg/day, the ground

water concentration estimate (from SCI-GROW modeling) is 0.00084 ppb, the surface water concentration estimate (from GENEEC modeling) is 0.016 ppb, and the DWLOC is 350 ppb. For the subgroup females (13+ years old, nursing) the food exposure estimate is 0.000007 mg/kg/day, the water exposure estimate is 0.01 mg/kg/day, the cPAD is 0.01 mg/kg/day, the ground water concentration estimate is 0.00084 ppb, the surface water concentration estimate is 0.016 ppb, and the DWLOC is 300 ppb. For the subgroup non-nursing infants (< 1 year old) the food exposure estimate is 0.000019 mg/kg/day, the water exposure estimate is 0.00999 mg/kg/day, the cPAD is 0.01 mg/kg/day, the ground water concentration estimate is 0.00084 ppb, the surface water concentration estimate is 0.016 ppb, and the DWLOC is 100 ppb. Using the ARC exposure assumptions described in this unit, EPA has concluded that aggregate exposure to difenoconazole from food will utilize < 1% of the cPAD for the U.S. population. The major identifiable subgroup with the highest aggregate exposure is discussed below. From the chronic (non-cancer) dietary (food only) risk assessments, the percent cPADs were below the Agency's level of concern for the U.S. population and all population subgroups. The estimated chronic dietary risk associated with the use of difenoconazole is below the Agency's level of concern. The estimated average concentrations of difenoconazole in surface and ground water are less than the Agency's chronic (non-cancer) DWLOCs for difenoconazole in drinking water as a contribution to chronic aggregate exposure. Aggregate chronic (non-cancer) risk estimates due to exposure to difenoconazole in both food and water are also below the Agency's level of concern. EPA therefore concludes that there is a reasonable certainty that no harm will result from aggregate exposure to difenoconazole residues.

3. *Aggregate cancer risk for U.S. population.* There are no registered or proposed residential uses for difenoconazole, so chronic (cancer) aggregate exposure/risk estimates are derived from food and water exposure only. The chronic (cancer) scenario is as follows. For the U.S. population group the food exposure estimate (from DEEM) is 0.000005 mg/kg/day, the water exposure estimate (negligible risk (1×10^{-6}) divided by the Q_1^* is 0.00000137 mg/kg/day, the Q_1^* is 0.157 (mg/kg/day)⁻¹, the ground water concentration estimate (from SCI-GROW modeling) is 0.00084 ppb, the surface water estimate (from GENEEC modeling) is 0.016 ppb,

and the DWLOC is 0.048 ppb. From the chronic (cancer) dietary (food only) risk assessments, the estimated lifetime risk for the U.S. population was 8.6×10^{-7} , which is below the Agency's level of concern (generally 1×10^{-6}). The estimated average concentrations of difenoconazole in surface and ground water are less than the Agency's DWLOC_{cancer} for difenoconazole in drinking water as a contribution to chronic (cancer) aggregate exposure. EPA therefore concludes that there is a reasonable certainty that no harm will result from aggregate chronic (cancer) exposure to difenoconazole residues.

4. *Determination of safety.* Based on these risk assessments, EPA concludes that there is a reasonable certainty that no harm will result from aggregate exposure to residues.

E. Aggregate Risks and Determination of Safety for Infants and Children

1. *Safety factor for infants and children—i. In general.* In assessing the potential for additional sensitivity of infants and children to residues of difenoconazole, EPA considered data from developmental toxicity studies in the rat and rabbit and a 2-generation reproduction study in the rat. The developmental toxicity studies are designed to evaluate adverse effects on the developing organism resulting from maternal pesticide exposure during gestation. Reproduction studies provide information relating to effects from exposure to the pesticide on the reproductive capability of mating animals and data on systemic toxicity.

FFDCA section 408 provides that EPA shall apply an additional tenfold margin of safety for infants and children in the case of threshold effects to account for prenatal and postnatal toxicity and the completeness of the data base unless EPA determines that a different margin of safety will be safe for infants and children. Margins of safety are incorporated into EPA risk assessments either directly through use of a MOE analysis or through using uncertainty (safety) factors in calculating a dose level that poses no appreciable risk to humans. EPA believes that reliable data support using the standard uncertainty factor (usually 100 for combined interspecies and intraspecies variability) and not the additional tenfold MOE/uncertainty factor when EPA has a complete data base under existing guidelines and when the severity of the effect in infants or children or the potency or unusual toxic properties of a compound do not raise concerns regarding the adequacy of the standard MOE/safety factor.

ii. *Developmental toxicity studies.* Difenoconazole was administered to pregnant rats at dose levels of 0, 2, 20, 100, and 200 mg/kg/day from day 6 to day 15 of gestation. Statistically significant decreases in maternal body weight gain and feed consumption were observed during the dosing period at dose levels of 100 and 200 mg/kg/day. At 200 mg/kg/day the incidence of bifid or unilateral ossification of the thoracic vertebrae was significantly increased on a fetal basis. There were also significant increases in the average number of ossified hyoid and decreases in the numbers of sternal centers of ossification (per fetus per litter). The average number of ribs was significantly increased, with accompanying increases in the number of thoracic vertebrae and decreases in the number of lumbar vertebrae in this group. These findings at the highest dose tested (200 mg/kg/day) appear to be the result of maternal toxicity. The NOAEL for maternal toxicity was 20 mg/kg/day and the LOAEL for maternal toxicity was determined to be 100 mg/kg/day based on decreased body weight gains and decreased food consumption at 100 mg/kg/day and higher. The NOAEL for developmental toxicity was 100 mg/kg/day and the LOAEL was 200 mg/kg/day based on the incidence of bifid or unilateral ossification of the thoracic vertebrae, which was significantly increased on a fetal basis, and the significant increases in the average number of ossified hyoid and decreases in the number of sternal centers of ossification (per fetus per litter). The average number of ribs was also significantly increased, with accompanying increases in the number of thoracic vertebrae and decreases in the number of lumbar vertebrae in this group.

In a developmental toxicity study in rabbits, impregnated females (16 per dose) were orally administered difenoconazole at 0, 1, 25, and 75 mg/kg/day during days 7 through 19 of gestation. At 75 mg/kg/day, maternal toxicity was manifested as decreased body weight gain and food consumption; no maternal toxicity was observed at lower doses. Developmental toxicity, observed only at 75 mg/kg/day, was a slight nonsignificant increase in post-implantation loss and resorption per dose and a significant decrease in fetal weight. For maternal toxicity, the LOAEL of 75 mg/kg/day is based on decreases in body weight gain and food consumption; the NOAEL is 25 mg/kg/day. For developmental toxicity, the LOAEL of 75 mg/kg/day is based on increases in post-implantation loss and

resorption and decreases in fetal body weight; the NOAEL is 25 mg/kg/day. The increases in post-implantation loss and resorption are presumed to occur after a single exposure.

iii. *Reproductive toxicity study.* In a 2-generation reproduction study, difenoconazole was administered in the diet to male and female rats at 0, 25, 250, and 2,500 ppm (0, 1.25, 12.5, and 125 mg/kg/day, respectively). Statistically significant reductions in bodyweight gains of F₀ and F₁ males were observed at 2,500 ppm during days 70-77 and during the course of the study (terminal bodyweight minus day 0 bodyweight). Significant reductions in bodyweight gains of F₀ and F₁ females were seen during the pre-mating, gestation, and lactation periods. A dose-related, but non-statistically significant decrease in bodyweight gain was seen in F₀ at 250 ppm during days 70-77 prior to mating, days 0-7 of gestation, and days 7-14 of lactation. At 2,500 ppm, significant reductions in pup bodyweight were detected on days 0, 4 (pre- and post-culling), 7, 14, and 21 for males and females of both generations. There was a significant reduction in the bodyweight of F₁ male pups on day 21 in the 250 ppm group. The percentage of male pups in the F₁ generation surviving days 0-4 was significantly reduced in the 2,500 ppm group. For parental toxicity, the LOAEL of 250 ppm (12.5 mg/kg/day) is based on the decreased maternal bodyweight gain; the NOAEL is 25 ppm (1.25 mg/kg/day). For reproductive toxicity, the LOAEL of 250 ppm (12.5 mg/kg/day) is based on decreased pup weight at day 21; the NOAEL is 25 ppm (1.25 mg/kg/day).

iv. *Prenatal and postnatal sensitivity.* The data provided no indication of increased susceptibility of rats or rabbits to *in utero* and/or postnatal exposure to difenoconazole. In the prenatal developmental toxicity study in rats, no evidence of developmental toxicity was seen even in the presence of maternal toxicity. In the developmental toxicity study in rabbits, developmental toxicity was seen in the presence of maternal toxicity at the highest dose tested. In the 2-generation reproduction study in rats, effects in the offspring were observed only at or above treatment levels which resulted in evidence of parental toxicity.

v. *Conclusion.* A complete toxicology data base exists for difenoconazole, and exposure data are complete or are estimated based on data that reasonably account for potential exposures. Taking into account the completeness of the data and the absence of any evidence of increased sensitivity, EPA determined that the additional tenfold safety factor

for the protection of infants and children was not necessary.

2. *Acute risk.* An acute dose and endpoint were not chosen for the general population including infants and children because there were no effects observed in oral toxicology studies including maternal toxicity in the developmental toxicity studies in rats and rabbits that are attributable to a single exposure (dose). Acute exposure/risk analyses were performed only for subgroups of females 13-50 years old.

3. *Chronic risk.* Using the exposure assumptions described in this unit, EPA has concluded that aggregate exposure to difenoconazole from food will utilize < 1% of the cPAD for infants and children. EPA generally has no concern for exposures below 100% of the cPAD because the cPAD represents the level at or below which daily aggregate dietary exposure over a lifetime will not pose appreciable risks to human health. Despite the potential for exposure to difenoconazole in drinking water, EPA does not expect the aggregate exposure to exceed 100% of the cPAD.

4. *Determination of safety.* Based on these risk assessments, EPA concludes that there is a reasonable certainty that no harm will result to infants and children from aggregate exposure to residues.

IV. Other Considerations

A. Metabolism in Plants and Animals

The nature of the residue in plants is understood. Plant metabolism studies were conducted on wheat, tomatoes, grapes, potatoes, and canola and found to be acceptable. The canola metabolism study was performed using a foliar treatment of difenoconazole on canola. The proposed use is a seed treatment. The results in these studies are consistent with foliar metabolism studies submitted and reviewed for wheat, tomatoes, and potatoes. The metabolic pathway in canola appears to proceed by hydrolysis of the ketal to the ketone followed by reduction of the ketone to the alkanol. The alkanol can be conjugated with sugars or the bridge linking the phenyl and triazole moieties is cleaved, forming free triazole. The free triazole can be conjugated with serine to yield an intermediate which can be oxidatively deaminated to the lactic acid analogue and then degraded further. There was no evidence for a minor metabolic pathway via hydroxylation of the phenyl ring moiety.

Metabolism studies for a wheat seed treatment have been submitted and reviewed. The seed treatment

metabolism studies had similar results to the foliar studies. Therefore, the Agency has translated the foliar canola studies to seed treatment and considers the nature of the residue in canola understood.

The nature of the difenoconazole residue in animals was considered understood for wheat and barley (PP 2F4107) only. It was concluded that for any future petition in which there is a greater potential for transfer of residues to meat and milk, additional animal metabolism studies would be required. Since the proposed use on canola is a seed treatment and canola is not a major feed item, there is not a greater potential for transfer of residues to meat and milk. Therefore, additional animal metabolism studies were not required for this action and the nature of the residue in animals is considered understood for this action.

B. Analytical Enforcement Methodology

For plants, the petitioner has submitted a copy of method AG-676, which is similar to the enforcement method for wheat (method 575). Therefore, an Independent Laboratory Validation (ILV) was not required. Acceptable recoveries were obtained for all matrices. Samples are homogenized and centrifuged in an ACN/hexane mixture. The resulting solution is then decanted and extracted repeatedly, then partially evaporated, and, finally, eluted and brought to volume. The sample is analyzed by gas chromatography with mass spectral detection (GC/MSD). The reported limit of quantitation (LOQ) is 0.01 ppm.

A Petition Method Validation (PMV) has been successfully completed for petitioner proposed residue method 676, so adequate enforcement methodology is available to enforce the tolerance expression. When this method is formally completed, it will be forwarded to the Food and Drug Administration (FDA) to be included in Pesticide Analytical Manual II (PAM II).

The petitioner proposed Method AG-544A, "Difenoconazole (CGA-169374) Analytical Method for the Determination of CGA-169374 Residues in Dairy and Poultry Tissue, Eggs and Milk by Gas Chromatography," as the analytical enforcement method. The sample is extracted by homogenization with acetonitrile and concentrated ammonium hydroxide for 1 minute, the extract is filtered, the filtrate is diluted with water and saturated sodium chloride, partitioned twice, then cleaned up. The final sample is then analyzed by packed column gas chromatography (GC) using alkali flame ionization detection. The reported LOQ

for livestock tissue is 0.05 ppm and for milk is 0.01 ppm. The Agency concluded that Method AG-544A is adequate for the purpose of enforcing difenoconazole tolerances in animal commodities. A satisfactory ILV of the method was submitted and a satisfactory PMV was completed by the Agency's residue analysis laboratory. This method was forwarded to FDA to be included in PAM II.

These methods may be requested from: Calvin Furlow, PIRIB, IRSD (7502C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: (703) 305-5229; e-mail address: furlow.calvin@epa.gov.

C. Magnitude of Residues

A total of six field trials were submitted and reviewed. The residue levels of difenoconazole in canola seed were all less than the LOQ of 0.01 ppm. The submitted data indicate that the appropriate tolerance level for residues of difenoconazole in canola seed is 0.01 ppm.

No processing study is required for this tolerance petition. The maximum theoretical concentration factor for processing of canola seed to canola oil is 3x. Difenoconazole was applied to canola at an exaggerated rate of 3.6x (0.09 pounds of active ingredient per 100 pounds of seed) as a seed treatment at two locations. Residue levels for each location were below the LOQ of 0.01 ppm.

The petitioner had requested (in support of wheat use, PP 2F4107) a waiver for animal feeding studies based on the low potential for residues in feed items and the exaggerated rates used in the animal feeding studies. Based on a diet composed of 100% wheat raw agricultural commodities (RACs) and residues at the levels of the proposed tolerances, the maximum dietary burden for dairy cattle is estimated to be 0.30 ppm. Two metabolism studies were performed on ruminants (lactating goats) in a 10-day study with a dose rate of 4.17 ppm (14 x the 0.30 ppm estimated dietary burden) and a 3-day study with a dose rate of 100 ppm (333 x the 0.30 ppm estimated dietary burden). The total radioactive residue (TRR) in the goat tissues was used to estimate the expected residues in a feeding study with a dose rate of 0.30 ppm. The maximum residue observed was in liver, estimated to be at a level of 0.02 ppm from both metabolism studies. This value is 2.5 x below the LOQ of the proposed analytical enforcement method (0.05 ppm). The estimated residue in milk would be 0.5

ppb, 200 x below the method LOQ of 0.1 ppm. The Agency accepted the petitioner's proposal to allow the animal metabolism studies to also serve as feeding studies. Feeding studies in cattle and poultry, as appropriate, will be needed for any future tolerance request which could result in higher residues of concern in meat, milk, poultry, and eggs.

The proposed use in/on canola in this action does not appear to result in higher residues of concern in meat, milk, poultry, and eggs. The proposed use pattern (seed treatment) and low animal dietary feed consumption (canola meal only commodity consumed, 15% of diet) support the assumption of no increase in residues. Therefore, animal feeding studies are not required for this action with the same caveat that if, in the future, uses are proposed that result in higher residues in animal commodities, feeding studies will be required.

D. International Residue Limits

There is neither a Codex proposal, nor Canadian or Mexican maximum residue limits for residues of difenoconazole in canola. Therefore, a compatibility issue is not relevant to the proposed tolerance.

E. Rotational Crop Restrictions

The nature of the residue is understood. The data indicate that the phenyl/triazole bridge of difenoconazole is cleaved in the soil and that triazole-specific metabolites are preferentially taken up by the rotational crops. The maximum TRR observed with phenyl-labeled difenoconazole was 0.009 ppm (wheat stalks) and with triazole-labeled difenoconazole was 0.314 ppm in wheat grain. The registrant has submitted the results of two confined rotational studies using phenyl-labeled difenoconazole. In the RACs of all rotational crops planted 30-33 days after application of difenoconazole, the TRR was < 0.01 ppm. These results support the proposed 30-day plant-back restrictions for all rotational crops. A 30-day plantback restriction for all crops is appropriate.

V. Conclusion

Therefore, a tolerance is established for residues of difenoconazole in or on canola, seed at 0.01 ppm.

VI. Objections and Hearing Requests

Under section 408(g) of the FFDCA, as amended by the FQPA, any person may file an objection to any aspect of this regulation and may also request a hearing on those objections. The EPA procedural regulations which govern the

submission of objections and requests for hearings appear in 40 CFR part 178. Although the procedures in those regulations require some modification to reflect the amendments made to the FFDCA by the FQPA of 1996, EPA will continue to use those procedures, with appropriate adjustments, until the necessary modifications can be made. The new section 408(g) provides essentially the same process for persons to "object" to a regulation for an exemption from the requirement of a tolerance issued by EPA under new section 408(d), as was provided in the old FFDCA sections 408 and 409. However, the period for filing objections is now 60 days, rather than 30 days.

A. What Do I Need to Do To File an Objection or Request a Hearing?

You must file your objection or request a hearing on this regulation in accordance with the instructions provided in this unit and in 40 CFR part 178. To ensure proper receipt by EPA, you must identify docket control number OPP-301005 in the subject line on the first page of your submission. All requests must be in writing, and must be mailed or delivered to the Hearing Clerk on or before November 14, 2000.

1. *Filing the request.* Your objection must specify the specific provisions in the regulation that you object to, and the grounds for the objections (40 CFR 178.25). If a hearing is requested, the objections must include a statement of the factual issues(s) on which a hearing is requested, the requestor's contentions on such issues, and a summary of any evidence relied upon by the objector (40 CFR 178.27). Information submitted in connection with an objection or hearing request may be claimed confidential by marking any part or all of that information as CBI. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the information that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice.

Mail your written request to: Office of the Hearing Clerk (1900), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460. You may also deliver your request to the Office of the Hearing Clerk in Rm. M3708, Waterside Mall, 401 M St., SW., Washington, DC 20460. The Office of the Hearing Clerk is open from 8 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Office of the Hearing Clerk is (202) 260-4865.

2. *Tolerance fee payment.* If you file an objection or request a hearing, you must also pay the fee prescribed by 40 CFR 180.33(i) or request a waiver of that fee pursuant to 40 CFR 180.33(m). You must mail the fee to: EPA Headquarters Accounting Operations Branch, Office of Pesticide Programs, P.O. Box 360277M, Pittsburgh, PA 15251. Please identify the fee submission by labeling it "Tolerance Petition Fees."

EPA is authorized to waive any fee requirement "when in the judgement of the Administrator such a waiver or refund is equitable and not contrary to the purpose of this subsection." For additional information regarding the waiver of these fees, you may contact James Tompkins by phone at (703) 305-5697, by e-mail at tompkins.jim@epa.gov, or by mailing a request for information to Mr. Tompkins at Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460.

If you would like to request a waiver of the tolerance objection fees, you must mail your request for such a waiver to: James Hollins, Information Resources and Services Division (7502C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460.

3. *Copies for the Docket.* In addition to filing an objection or hearing request with the Hearing Clerk as described in Unit VI.A., you should also send a copy of your request to the PIRIB for its inclusion in the official record that is described in Unit I.B.2. Mail your copies, identified by docket control number OPP-301005, to: Public Information and Records Integrity Branch, Information Resources and Services Division (7502C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460. In person or by courier, bring a copy to the location of the PIRIB described in Unit I.B.2. You may also send an electronic copy of your request via e-mail to: opp-docket@epa.gov. Please use an ASCII file format and avoid the use of special characters and any form of encryption. Copies of electronic objections and hearing requests will also be accepted on disks in WordPerfect 6.1/8.0 file format or ASCII file format. Do not include any CBI in your electronic copy. You may also submit an electronic copy of your request at many Federal Depository Libraries.

B. When Will the Agency Grant a Request for a Hearing?

A request for a hearing will be granted if the Administrator determines that the

material submitted shows the following: There is a genuine and substantial issue of fact; there is a reasonable possibility that available evidence identified by the requestor would, if established, resolve one or more of such issues in favor of the requestor, taking into account uncontested claims or facts to the contrary; and resolution of the factual issues(s) in the manner sought by the requestor would be adequate to justify the action requested (40 CFR 178.32).

VII. Regulatory Assessment Requirements

This final rule establishes a tolerance under FFDCA section 408(d) in response to a petition submitted to the Agency. The Office of Management and Budget (OMB) has exempted these types of actions from review under Executive Order 12866, entitled *Regulatory Planning and Review* (58 FR 51735, October 4, 1993). This final rule does not contain any information collections subject to OMB approval under the Paperwork Reduction Act (PRA), 44 U.S.C. 3501 *et seq.*, or impose any enforceable duty or contain any unfunded mandate as described under Title II of the Unfunded Mandates Reform Act of 1995 (UMRA) (Public Law 104-4). Nor does it require any prior consultation as specified by Executive Order 13084, entitled *Consultation and Coordination with Indian Tribal Governments* (63 FR 27655, May 19, 1998); special considerations as required by Executive Order 12898, entitled *Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations* (59 FR 7629, February 16, 1994); or require OMB review or any Agency action under Executive Order 13045, entitled *Protection of Children from Environmental Health Risks and Safety Risks* (62 FR 19885, April 23, 1997). This action does not involve any technical standards that would require Agency consideration of voluntary consensus standards pursuant to section 12(d) of the National Technology Transfer and Advancement Act of 1995 (NTTAA), Public Law 104-113, section 12(d) (15 U.S.C. 272 note). Since tolerances and exemptions that are established on the basis of a petition under FFDCA section 408(d), such as the tolerance in this final rule, do not require the issuance of a proposed rule, the requirements of the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*) do not apply. In addition, the Agency has determined that this action will not have a substantial direct effect on States, on the relationship between the national government and the States, or on the distribution of power and

responsibilities among the various levels of government, as specified in Executive Order 13132, entitled *Federalism* (64 FR 43255, August 10, 1999). Executive Order 13132 requires EPA to develop an accountable process to ensure "meaningful and timely input by State and local officials in the development of regulatory policies that have federalism implications." "Policies that have federalism implications" is defined in the Executive Order to include regulations that have "substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government." This final rule directly regulates growers, food processors, food handlers and food retailers, not States. This action does not alter the relationships or distribution of power and responsibilities established by Congress in the preemption provisions of FFDCA section 408(n)(4).

VIII. Submission to Congress and the Comptroller General

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of this final rule in the **Federal Register**. This final rule is not a "major rule" as defined by 5 U.S.C. 804(2).

List of Subjects in 40 CFR Part 180

Environmental protection, Administrative practice and procedure, Agricultural commodities, Pesticides and pests, Reporting and recordkeeping requirements.

Dated: September 7, 2000.

James Jones,
Director, Registration Division, Office of Pesticide Programs.

Therefore, 40 CFR chapter I is amended as follows:

PART 180—[AMENDED]

1. The authority citation for part 180 continues to read as follows:

Authority: 21 U.S.C. 321(q), (346a) and 371.

2. Section 180.475 is amended by revising the introductory text of

paragraph (a) and alphabetically adding canola, seed to the table in paragraph (a) to read as follows:

§ 180.475 Difenoconazole; tolerances for residues.

(a) *General.* Tolerances are established for residues of the fungicide difenoconazole [(2*S*,4*R*)/(2*R*,4*S*)]/[(2*R*,4*R*)/(2*S*,4*S*)] 1-(2-[4-(4-chlorophenoxy)-2-chlorophenyl]-4-methyl-1,3-dioxolan-2-yl-methyl)-1*H*-1,2,4-triazole in or on the following raw agricultural commodities.

Commodity	Parts per million
* * * * *	
Canola, seed	0.01

BILLING CODE 6560-50-F

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 180

[OPP-301045; FRL-6742-6]

RIN 2070-AB78

Myclobutanil; Extension of Tolerance for Emergency Exemptions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This regulation re-establishes a time-limited tolerance for combined residues of the fungicide myclobutanil in or on artichoke at 1.0 part per million (ppm), and peppers (bell and non-bell) at 1.0 ppm for an additional 2-year period. This tolerance will expire and is revoked on July 31, 2002. This action is in response to EPA's granting of an emergency exemption under section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act authorizing use of the pesticide on both artichoke and peppers. Section 408(l)(6) of the Federal Food, Drug, and Cosmetic Act requires EPA to establish a time-limited tolerance or exemption from the requirement for a tolerance for pesticide chemical residues in food that will result from the use of a pesticide under an emergency exemption granted by EPA under section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act.

DATES: This regulation is effective September 15, 2000. Objections and

requests for hearings, identified by docket control number OPP-301045, must be received by EPA on or before November 14, 2000.

ADDRESSES: Written objections and hearing requests may be submitted by mail, in person, or by courier. Please follow the detailed instructions for each method as provided in Unit III. of the **SUPPLEMENTARY INFORMATION.** To ensure proper receipt by EPA, your objections and hearing requests must identify docket control number OPP-301045 in the subject line on the first page of your response.

FOR FURTHER INFORMATION CONTACT: By mail: David Deegan, Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: 703-308-9358; and e-mail address: deegan.dave@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

You may be affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. Potentially affected categories and entities may include, but are not limited to:

Cat-egories	NAICS Codes	Examples of Potentially Affected Entities
Industry	111 112 311 32532	Crop production Animal production Food manufacturing Pesticide manufacturing

This listing is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by this action. Other types of entities not listed in the table could also be affected. The North American Industrial Classification System (NAICS) codes have been provided to assist you and others in determining whether or not this action might apply to certain entities. If you have questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT.**

B. How Can I Get Additional Information, Including Copies of this Document and Other Related Documents?

1. *Electronically.* You may obtain electronic copies of this document, and

certain other related documents that might be available electronically, from the EPA Internet Home Page at <http://www.epa.gov/>. To access this document, on the Home Page select "Laws and Regulations," "Regulations and Proposed Rules," and then look up the entry for this document under the "Federal Register—Environmental Documents." You can also go directly to the **Federal Register** listings at <http://www.epa.gov/fedrgstr/>.

2. *In person.* The Agency has established an official record for this action under docket control number OPP-301045. The official record consists of the documents specifically referenced in this action, and other information related to this action, including any information claimed as Confidential Business Information (CBI). This official record includes the documents that are physically located in the docket, as well as the documents that are referenced in those documents. The public version of the official record does not include any information claimed as CBI. The public version of the official record, which includes printed, paper versions of any electronic comments submitted during an applicable comment period is available for inspection in the Public Information and Records Integrity Branch (PIRIB), Rm. 119, Crystal Mall #2, 1921 Jefferson Davis Hwy., Arlington, VA, from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The PIRIB telephone number is (703) 305-5805.

II. Background and Statutory Findings

EPA issued a final rule, published in the **Federal Register** of September 16, 1998 (63 FR 49472) (FRL-6025-1), which announced that on its own initiative under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a, as amended by the Food Quality Protection Act of 1996 (FQPA) (Public Law 104-170) it established a time-limited tolerance for the combined residues of myclobutanil in or on artichoke and peppers (bell and non-bell), each at a tolerance level of 1.0 ppm, with an expiration date of July 31, 2000. EPA established the tolerance because section 408(l)(6) of the FFDCA requires EPA to establish a time-limited tolerance or exemption from the requirement for a tolerance for pesticide chemical residues in food that will result from the use of a pesticide under an emergency exemption granted by EPA under section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). Such tolerances can be established without providing notice or period for public comment.

EPA has received requests to extend the use of myclobutanil on artichoke and on peppers for this year's growing season due to the ongoing existence of powdery mildew on these crops, and due to the difficulty growers experience trying to control the pathogen using the currently available alternative fungicides. After having reviewed the submission, EPA concurs that emergency conditions continue to exist on both crops. EPA has authorized under FIFRA section 18 the use of myclobutanil on artichoke and peppers (bell and non-bell) for control of powdery mildew in California and New Mexico.

EPA assessed the potential risks presented by residues of myclobutanil in or on artichoke and peppers (bell and non-bell). In doing so, EPA considered the safety standard in FFDCA section 408(b)(2), and decided that the necessary tolerance under FFDCA section 408(l)(6) would be consistent with the safety standard and with FIFRA section 18. The data and other relevant material have been evaluated and discussed in the final rule of September 16, 1998 (63 FR 49472). Based on that data and information considered, the Agency reaffirms that re-establishment of the time-limited tolerance will continue to meet the requirements of section 408(l)(6). Therefore, the time-limited tolerance is re-established for an additional 2-year period. EPA will publish a document in the **Federal Register** to remove the revoked tolerance from the Code of Federal Regulations (CFR). Although this tolerance will expire and is revoked on July 31, 2002, under FFDCA section 408(l)(5), residues of the pesticide not in excess of the amounts specified in the tolerance remaining in or on artichoke and peppers (bell and non-bell) after that date will not be unlawful, provided the pesticide is applied in a manner that was lawful under FIFRA and the application occurred prior to the revocation of the tolerance. EPA will take action to revoke this tolerance earlier if any experience with, scientific data on, or other relevant information on this pesticide indicate that the residues are not safe.

III. Objections and Hearing Requests

Under section 408(g) of the FFDCA, as amended by the FQPA, any person may file an objection to any aspect of this regulation and may also request a hearing on those objections. The EPA procedural regulations which govern the submission of objections and requests for hearings appear in 40 CFR part 178. Although the procedures in those regulations require some modification to

reflect the amendments made to the FFDCA by the FQPA of 1996, EPA will continue to use those procedures, with appropriate adjustments, until the necessary modifications can be made. The new section 408(g) provides essentially the same process for persons to "object" to a regulation for an exemption from the requirement of a tolerance issued by EPA under new section 408(d), as was provided in the old FFDCA sections 408 and 409. However, the period for filing objections is now 60 days, rather than 30 days.

A. What Do I Need to Do to File an Objection or Request a Hearing?

You must file your objection or request a hearing on this regulation in accordance with the instructions provided in this unit and in 40 CFR part 178. To ensure proper receipt by EPA, you must identify docket control number OPP-301045 in the subject line on the first page of your submission. All requests must be in writing, and must be mailed or delivered to the Hearing Clerk on or before November 14, 2000.

1. *Filing the request.* Your objection must specify the specific provisions in the regulation that you object to, and the grounds for the objections (40 CFR 178.25). If a hearing is requested, the objections must include a statement of the factual issues(s) on which a hearing is requested, the requestor's contentions on such issues, and a summary of any evidence relied upon by the objector (40 CFR 178.27). Information submitted in connection with an objection or hearing request may be claimed confidential by marking any part or all of that information as CBI. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the information that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice.

Mail your written request to: Office of the Hearing Clerk (1900), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460. You may also deliver your request to the Office of the Hearing Clerk in Rm. C400, Waterside Mall, 401 M St., SW., Washington, DC 20460. The Office of the Hearing Clerk is open from 8 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Office of the Hearing Clerk is (202) 260-4865.

2. *Tolerance fee payment.* If you file an objection or request a hearing, you must also pay the fee prescribed by 40 CFR 180.33(i) or request a waiver of that fee pursuant to 40 CFR 180.33(m). You

must mail the fee to: EPA Headquarters Accounting Operations Branch, Office of Pesticide Programs, P.O. Box 360277M, Pittsburgh, PA 15251. Please identify the fee submission by labeling it "Tolerance Petition Fees."

EPA is authorized to waive any fee requirement "when in the judgement of the Administrator such a waiver or refund is equitable and not contrary to the purpose of this subsection." For additional information regarding the waiver of these fees, you may contact James Tompkins by phone at (703) 305-5697, by e-mail at tomkins.jim@epa.gov, or by mailing a request for information to Mr. Tompkins at Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460.

If you would like to request a waiver of the tolerance objection fees, you must mail your request for such a waiver to: James Hollins, Information Resources and Services Division (7502C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460.

3. *Copies for the Docket.* In addition to filing an objection or hearing request with the Hearing Clerk as described in Unit III.A., you should also send a copy of your request to the PIRIB for its inclusion in the official record that is described in Unit I.B.2. Mail your copies, identified by docket control number OPP-301045, to: Public Information and Records Integrity Branch, Information Resources and Services Division (7502C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460. In person or by courier, bring a copy to the location of the PIRIB described in Unit I.B.2. You may also send an electronic copy of your request via e-mail to: opp-docket@epa.gov. Please use an ASCII file format and avoid the use of special characters and any form of encryption. Copies of electronic objections and hearing requests will also be accepted on disks in WordPerfect 6.1/8.0 file format or ASCII file format. Do not include any CBI in your electronic copy. You may also submit an electronic copy of your request at many Federal Depository Libraries.

B. When Will the Agency Grant a Request for a Hearing?

A request for a hearing will be granted if the Administrator determines that the material submitted shows the following: There is a genuine and substantial issue of fact; there is a reasonable possibility that available evidence identified by the requestor would, if established resolve

one or more of such issues in favor of the requestor, taking into account uncontested claims or facts to the contrary; and resolution of the factual issues(s) in the manner sought by the requestor would be adequate to justify the action requested (40 CFR 178.32).

IV. Regulatory Assessment Requirements

This final rule establishes a time-limited tolerance under FFDCA section 408. The Office of Management and Budget (OMB) has exempted these types of actions from review under Executive Order 12866, entitled *Regulatory Planning and Review* (58 FR 51735, October 4, 1993). This final rule does not contain any information collections subject to OMB approval under the Paperwork Reduction Act (PRA), 44 U.S.C. 3501 *et seq.*, or impose any enforceable duty or contain any unfunded mandate as described under Title II of the Unfunded Mandates Reform Act of 1995 (UMRA) (Public Law 104-4). Nor does it require any prior consultation as specified by Executive Order 13084, entitled *Consultation and Coordination with Indian Tribal Governments* (63 FR 27655, May 19, 1998); special considerations as required by Executive Order 12898, entitled *Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations* (59 FR 7629, February 16, 1994); or require OMB review or any Agency action under Executive Order 13045, entitled *Protection of Children from Environmental Health Risks and Safety Risks* (62 FR 19885, April 23, 1997). This action does not involve any technical standards that would require Agency consideration of voluntary consensus standards pursuant to section 12(d) of the National Technology Transfer and Advancement Act of 1995 (NTTAA), Public Law 104-113, section 12(d) (15 U.S.C. 272 note). Since tolerances and exemptions that are established on the basis of a FIFRA section 18 petition under FFDCA section 408, such as the tolerance in this final rule, do not require the issuance of a proposed rule, the requirements of the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*) do not apply. In addition, the Agency has determined that this action will not have a substantial direct effect on States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132, entitled *Federalism* (64 FR 43255, August 10, 1999). Executive Order 13132 requires

EPA to develop an accountable process to ensure "meaningful and timely input by State and local officials in the development of regulatory policies that have federalism implications." "Policies that have federalism implications" is defined in the Executive Order to include regulations that have "substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government." This final rule directly regulates growers, food processors, food handlers and food retailers, not States. This action does not alter the relationships or distribution of power and responsibilities established by Congress in the preemption provisions of FFDCA section 408(n)(4).

V. Submission to Congress and the Comptroller General

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of this final rule in the **Federal Register**. This final rule is not a "major rule" as defined by 5 U.S.C. 804(2).

List of Subjects in 40 CFR Part 180

Environmental protection, Administrative practice and procedure, Agricultural commodities, Pesticides and pests, Reporting and recordkeeping requirements.

Dated: September 7, 2000.

James Jones,

Director, Registration Division, Office of Pesticide Programs.

Therefore, 40 CFR chapter I is amended as follows:

PART 180—[AMENDED]

1. The authority citation for part 180 continues to read as follows:

Authority: 21 U.S.C. 321(q), (346a) and 371.

§ 180.443 Myclobutanil; tolerances for residues.

2. In § 180.443, amend the table in paragraph (b) by revising the

Revocation/expiration date "7/31/00" to read "7/31/02" for the commodities "Artichoke" and "Peppers (bell and non-bell)."

BILLING CODE 6560-50-S

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Chapter I

[CC Docket No. 96-61; FCC 00-308]

Policy and Rules Concerning the Interstate Interexchange Marketplace

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document dismisses as moot requests asking that the Commission forbear from application of the rate integration requirements of the Communications Act to commercial mobile radio service providers. This action is taken to comport with the recent decision of the U.S. Court of Appeals vacating the Commission's rate integration rules as applied to commercial mobile radio service carriers and remanding the matter to the Commission for further proceedings.

DATES: Effective September 15, 2000.

FOR FURTHER INFORMATION CONTACT: Peter Wolfe, 202-418-1310.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Memorandum Opinion and Order (MO&O) in CC Docket No. 96-61, FCC 00-308, adopted August 17, 2000, and released August 23, 2000. The complete text of this MO&O is available for inspection and copying during normal business hours in the FCC Reference Information Center, Courtyard Level, 445 12th Street, S.W., Washington, DC, and also may be purchased from the Commission's copy contractor, International Transcription Services (ITS, Inc.), CY-B400, 445 12th Street, S.W., Washington, DC.

Synopsis of the Memorandum Opinion and Order

1. In this Memorandum Opinion and Order (MO&O), the Commission addresses requests filed by BellSouth, AT&T, the Cellular Telecommunications Industry Association, Nextel, Omnipoint, the Personal Communications Industry Association, and PrimeCo, asking that the Commission forbear from application of the rate integration requirements of section 254(g) of the Communications Act, as amended (47 U.S.C. 254(g)) to

commercial mobile radio service (CMRS) providers.

2. In light of the July 14, 2000, decision of the U.S. Court of Appeals for the District of Columbia Circuit vacating the Commission's rate integration rules as applied to CMRS carriers and remanding the matter to the Commission for further proceedings, the Commission finds that the forbearance requests are moot and premature. Accordingly, the requests are dismissed as discussed in detail in the full text of the MO&O.

Ordering Clauses

3. Pursuant to sections (4)(I) and 10 of the Communications Act of 1934, as amended, 47 U.S.C. 154(I) and 160, that the Petition for Forbearance of BellSouth is dismissed.

4. In addition, the requests for Forbearance contained in the comments filed by AT&T, CTIA, CommNet, Nextel, Omnipoint, PCIA, and PrimeCo are dismissed.

Federal Communications Commission.

Magalie Roman Salas,
Secretary.

[DA 00-1968; MM Docket No. 99-260; RM-9686]

Radio Broadcasting Services; Bristol, VT

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: The Commission, at the request of Blue Sky Broadcasting, LLC, allots Channel 248A to Bristol, VT, as the community's first local aural service. *See* 64 FR 3996, July 23, 1999. Channel 248A can be allotted to Bristol in compliance with the Commission's minimum distance separation requirements, with respect to domestic allotments, without the imposition of a site restriction, at coordinates 44-08-18 NL; 73-05-00 WL. Canadian concurrence in the allotment, as a specially negotiated short-spaced allotment, has been received since Bristol is located within 320 kilometers (200 miles) of the U.S.-Canadian border and the allotment will be short-spaced to Station CHOM-FM, Channel 249C1, Montreal, Quebec. A filing window for Channel 248A at Bristol will not be opened at this time. Instead, the issue of

opening a filing window for this channel will be addressed by the Commission in a subsequent order.

DATES: Effective October 16, 2000.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

47 CFR Part 73

[DA 00-2002; MM Docket No. 99-151; RM-9559; RM-9932]

Radio Broadcasting Services; Rangely, Ridgway and Silverton, CO

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: In response to a proposal filed by Mountain West Broadcasting, the Commission allots Channel 279C1 to Rangely, Colorado, as that community's first local aural transmission service. See 64 FR 26719, May 17, 1999. Additionally, in response to a counterproposal filed on behalf of Idaho Broadcasting Consortium, Inc. (RM-9932), permittee for Station KBNG, Channel 279C2, Silverton, Colorado, the Commission substitutes Channel 279C1 for Channel 279C2 at Silverton, reallots Channel 279C1 to Ridgway, Colorado, as that community's first local aural transmission service, and modifies the authorization for Station KBNG, as requested. Additionally, the Commission allots Channel 238A to Silverton, Colorado. Coordinates used for Channel 279C1 at Rangely, Colorado, are 40-05-06 NL and 108-48-18 WL. The coordinates for Channel 279C1 at Ridgway, Colorado, are 38-03-18 NL and 107-41-40 WL. Coordinates for Channel 238A at Silverton, Colorado, are 37-48-42 NL and 107-40-00 WL.

DATES: Effective October 16, 2000. A filing window for Channel 279C1 at Rangely, Colorado, and for Channel 238A at Silverton, Colorado, will not be opened at this time. Instead, the issue of opening a filing window for those channels will be addressed by the Commission in a subsequent Order.

ADDRESSES: Federal Communications Commission, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Allocations Branch, Mass Media Bureau, (202) 418-2180. Questions related to the application process for Channel 279C1 at Rangely, Colorado and for Channel 238A at Silverton, Colorado, should be addressed to the Audio Services Division, (202) 418-2700.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Report and Order, MM Docket No. 99-151, adopted August 30, 2000, and released September 1, 2000. BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[DA 00-2014; MM Docket No. 00-17; RM-9814]

Radio Broadcasting Services; Andalusia, AL and Holt, FL

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: In response to a proposal filed on behalf of Capstar TX Limited Partnership, the Commission reallots Channel 251C1 from Andalusia, Alabama, to Holt, Florida, as that community's first local aural

transmission service, and modifies the license for Station WTKE(FM) to specify Holt as its community of license. See 65 FR 7817, February 16, 2000. Coordinates used for Channel 251C1 at Holt, Florida, are 30-59-57 NL and 86-41-20 WL.

DATES: Effective October 16, 2000.

ADDRESSES: Federal Communications Commission, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Nancy Joyner, Mass Media Bureau, (202) 418-2180.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Report and Order, MM Docket No. 00-17, adopted August 23, 2000, and released September 1, 2000. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC's Reference Information Center (Room CY-A257), 445 Twelfth Street, SW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractor, International Transcription Service, Inc., 1231 20th Street, NW., Washington, DC 20036, (202) 857-3800.

List of Subjects in 47 CFR Part 73

Radio broadcasting.

Part 73 of title 47 of the Code of Federal Regulations is amended as follows:

PART 73—[AMENDED]

1. The authority citation for part 73 continues to read as follows:

Authority: 47 U.S.C. 154, 303, 334, 336.

§ 73.202 [Amended]

2. Section 73.202(b), the Table of FM Allotments under Alabama, is amended by removing Channel 251C1 at Andalusia.

3. Section 73.202(b), the Table of FM Allotments under Florida, is amended by adding Holt, Channel 251C1.

Federal Communications Commission.

John A. Karousos,

Chief, Allocations Branch, Policy and Rules Division, Mass Media Bureau.

[DA 00-2015; Docket No. 00-60, RM-9827; MM Docket No. 00-61, RM-9840; MM Docket No. 00-62, RM-9846]

Radio Broadcasting Services; Sheffield, PA; Erie, IL; and Due West, SC

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This document grants three proposals that allot new channels to Sheffield, Pennsylvania; Erie, Illinois; and Due West, South Carolina. Filing windows for Channel 286A at Sheffield, Pennsylvania; Channel 288A at Erie, Illinois; and Channel 237A at Due West, South Carolina, will not be opened at this time. Instead, the issue of opening a filing window for these channels will be addressed by the Commission in a subsequent order.

DATES: Effective October 16, 2000.

ADDRESSES: Federal Communications Commission, Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Sharon P. McDonald, Mass Media Bureau, (202) 418-2180.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Report and Order, MM Docket No. 00-60; MM Docket No. 00-61; and MM Docket No. 00-62, adopted August 23, 2000, and released September 1, 2000. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Reference Information Center (Room CY-A257), 445 12th Street, SW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractor, International Transcription Service, Inc., (202) 857-3800, 1231 20th Street, NW., Washington, DC 20036.

The Commission, at the request of Port Erie Communications, allots Channel 286A at Sheffield, Pennsylvania, as the community's first local aural transmission service. *See* 65 FR 20935, April 19, 2000. Channel 286A can be allotted at Sheffield in compliance with the Commission's minimum distance separation requirements with a site restriction of 1.9 kilometers (1.2 miles) northeast to avoid short-spacings to the licensed and application sites for Station WQXK(FM), Channel 286B, Salem, Ohio. The coordinates for Channel 286A at Sheffield are 41-42-42 North Latitude and 79-00-56 West Longitude. Since

Sheffield is located within 320 kilometers (200 miles) of the U.S.-Canadian border, concurrence of the Canadian government was requested but not yet received. Therefore, if a construction permit is granted prior to the receipt of formal concurrence in the allotment by the Canadian government, the construction permit will include the following condition: "Operation with the facilities specified herein is subject to modification, suspension or termination without right to a hearing, if found by the Commission to be necessary in order to conform to the U.S.A.-Canadian Broadcast Agreement."

The Commission, at the request of Erie Foods International, Inc., allots Channel 288A at Erie, Illinois, as the community's first local aural transmission service. *See* 65 FR 20935, April 19, 2000. Channel 288A can be allotted to Erie in compliance with the Commission's minimum distance separation requirements with a site restriction of 0.6 kilometers (0.4 miles) east to avoid a short-spacing to the licensed site of Station KQLI(FM), Channel 285C3, DeWitt, Iowa. The coordinates for Channel 288A at Erie are 41-39-22 North Latitude and 90-04-23 West Longitude.

The Commission, at the request of Sutton Radiocasting Corporation, allots Channel 237A at Due West, South Carolina, as the community's first local aural transmission service. *See* 65 FR 20935, April 19, 2000. Channel 237A can be allotted at Due West in compliance with the Commission's minimum distance separation requirements with a site restriction of 5.5 kilometers (3.4 miles) south to avoid a short-spacing to the licensed site of Station WBTS(FM), Channel 238C1, Athens, Georgia. The coordinates for Channel 237A are 34-17-13 North Latitude and 82-24-23 West Longitude.

BILLING CODE 6712-01-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 648

[Docket No. 000907254-0254-01; I.D. 082400A]

Fisheries of the Northeastern United States; Atlantic Mackerel, Squid and Butterfish Fisheries; Inseason Adjustment Procedures

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule; technical amendment.

SUMMARY: NMFS corrects the regulations implementing the Atlantic Mackerel, Squid, and Butterfish Fishery Management Plan (FMP) by reinserting regulatory text that was incorrectly removed in the final rule that implemented measures contained in Amendment 12 to the Summer Flounder, Scup and Black Sea Bass FMP, Amendment 8 to the Atlantic Mackerel, Squid and Butterfish FMP, and Amendment 12 to the Atlantic Surf Clam and Ocean Quahog FMP, which was published on October 26, 1999.

DATES: Effective September 15, 2000.

FOR FURTHER INFORMATION CONTACT: Paul H. Jones, Fishery Policy Analyst, (978) 281-9273.

SUPPLEMENTARY INFORMATION:

Background

On October 26, 1999, NMFS published a final rule at 64 FR 57587 to implement management measures contained in Amendment 12 to the Summer Flounder, Scup and Black Sea Bass FMP, Amendment 8 to the Atlantic Mackerel, Squid and Butterfish FMP, and Amendment 12 to the Atlantic Surf Clam and Ocean Quahog FMP. However, the final rule incorrectly removed § 648.21 (e), because the measures were thought to be redundant with the inseason adjustment process established under the framework

provision in § 648.24, which allows the Mid-Atlantic Fishery Management Council (Council) to modify or add management measures through a streamlined public review process. The text previously codified at § 648.21 (e), allowed the Administrator, Northeast Region, NMFS, in consultation with the Council, to recommend inseason adjustments to the annual specifications during the fishing year by publishing notification in the Federal Register and providing a 30-day public comment period. This process is not redundant with the framework provision process that was established under § 648.24. Therefore, this technical amendment reinserts § 648.21 (e), that was incorrectly removed on October 26, 1999.

Classification

This technical amendment is issued under 50 CFR part 648. Because it only corrects an inadvertent deletion, the Assistant Administrator for Fisheries, NOAA, finds, under 5 U.S.C. 553(b)(B), that it is unnecessary to provide prior

notice and opportunity for public comment as such procedures would serve no useful purpose. This rule simply restores text that was inadvertently removed by a prior rule. Because this rule is not substantive, it is not subject to a 30-day delay in effective date. The provision is procedural in nature because it merely restores the process through which NMFS may make inseason adjustments to the annual specifications, and it does not impose any requirements with which the public must comply.

This rule is exempt from review under Executive Order 12866.

List of Subjects in 50 CFR Part 648

Fisheries, Fishing, Reporting and recordkeeping requirements.

Dated: September 11, 2000.

Bruce C. Morehead,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

For the reasons set out in the preamble, 50 CFR part 648 is amended as follows:

PART 648—FISHERIES OF THE NORTHEASTERN UNITED STATES

1. The authority citation for part 648 continues to read as follows:

Authority: 16 U.S.C. 1801 *et seq.*

2. In § 648.21, redesignate paragraph (e) as paragraph (f) and add new paragraph (e) to read as follows:

§ 648.21 Procedures for determining initial annual amounts.

* * * * *

(e) Inseason adjustments. The specifications established pursuant to this section may be adjusted by the Regional Administrator, in consultation with the MAFMC, during the fishing year by publishing notification in the Federal Register stating the reasons for such an action and providing a 30-day public comment period.

BILLING CODE 3510-22-S

Proposed Rules

Federal Register

Vol. 65, No. 180

Friday, September 15, 2000

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

ADVISORY COUNCIL ON HISTORIC PRESERVATION

36 CFR Part 800

Protection of Historic Properties

AGENCY: Advisory Council on Historic Preservation.

ACTION: Notice of proposed suspension of rule and adoption as guidelines.

SUMMARY: The Advisory Council on Historic Preservation proposes to suspend its rule implementing Section 106 of the National Historic Preservation Act. Such rule sets forth the process by which Federal agencies consider the effects of their undertakings on historic properties and provide the Council with a reasonable opportunity to comment with regard to such undertakings, as required by Section 106. The suspended rule would become guidelines upon the effective date of suspension.

DATES: Submit comments on or before October 30, 2000.

ADDRESSES: Address all comments concerning this proposed rule to the Executive Director, Advisory Council on Historic Preservation, 1100 Pennsylvania Avenue, NW., Suite 809, Washington, DC 20004. Fax (202) 606-8672. You may submit electronic comments to: regs@achp.gov.

FOR FURTHER INFORMATION CONTACT: Javier Marques, Advisory Council on Historic Preservation, 1100 Pennsylvania Avenue, NW., Suite 809, Washington, DC 20004 (202) 606-8503.

SUPPLEMENTARY INFORMATION: On September 6, 2000, the Advisory Council on Historic Preservation ("Council") voted to suspend the Section 106 rule currently codified under 36 CFR part 800 after a 45-day notice and comment period. That rule sets forth the process by which Federal agencies consider the effects of their undertakings on historic properties and provide the Council with a reasonable opportunity to comment with regard to such undertakings, as required by

Section 106 of the National Historic Preservation Act. The Council also voted to adopt the rule to be suspended as guidelines, effective immediately upon suspension of the rule.

The Council is currently seeking public comment on such actions. If the public comments received do not compel the Council to change its course, the Council plans to proceed with publishing a final rule suspension that would suspend the current rule and reissue the text of the suspended rule as guidelines, with an immediate effective date.

The Council is compelled to take these actions by the prospect of a potentially unfavorable ruling from the court that would severely disrupt the Section 106 process. Reluctantly, the Council has come to the conclusion that suspending the current Section 106 rule, which is at the heart of the litigation, is now the most advisable course to follow.

The preeminent issue in the litigation at this point is the participation of two Council members, who are not appointed by the President, in the rulemaking process leading up to the adoption of the current rule. The plaintiff has argued to the court that such participation violated the Appointments Clause of the Constitution, and that the court should therefore invalidate the regulations without delay. Even though the Council believes the law is on its side on this issue, it runs a risk of having the court rule against it and immediately invalidate the current Section 106 rule in short order. An abrupt suspension of the rule would cause chaos in the ongoing Section 106 reviews, and is seen by the Council as an unacceptable risk.

The Council believes that by proceeding in this manner, it is fashioning an orderly and prudent way of proceeding rather than risking the possibility of an immediate suspension from an adverse court ruling. Of utmost importance, the Council will be able to provide adequate advance notice to the public that the current Section 106 rule is being suspended by a certain date and specify the system that should be followed until new regulations take effect, so Federal agencies, other participants in the Section 106 process and the public can prepare accordingly. This notice and comment period is

essential to provide participants in the Section 106 process with sufficient notice of the proposed suspension to ensure an orderly transition. Section 106 regulations were applied to 95,419 agency undertakings during fiscal year 1999. Accordingly, thousands of projects are undergoing Section 106 review at any one time during the year. A reasonable notice and comment period is essential to prevent unduly and abruptly disrupting these thousands of reviews that are proceeding under the existing Section 106 rule. It would also provide Federal agencies the time needed to make responsible and informed decisions as to how to complete their ongoing reviews, and how to comply with Section 106 for new projects without the benefit of a regulatory framework.

As already mentioned, the Council is also proposing to adopt the rule to be suspended as guidelines. While such guidelines would not have the binding legal effect of a rule, they would specify a reasonable procedure for participants in the Section 106 process. The other alternative is to go back to the 1986 rule, but the Council believes that would be unwise. The 1992 amendments to the National Historic Preservation Act brought important changes to the Section 106 process that are simply not reflected at all in the 1986 rule. The current Section 106 rule to be suspended incorporates those changes.

The current Section 106 rule, which would become guidance following the proposed suspension, was unanimously approved by the Council in February, 1999. On June 23, 2000, the Council membership (minus the two, non-Presidentially appointed members) unanimously reaffirmed its belief that the current Section 106 rule represents the process that Federal agencies should follow to comply with Section 106. Those who wish to examine the evolution and rationale behind the substance in these proposed guidelines, are asked to consult the following public documents: (a) Notice of proposed rulemaking at 59 FR 50396, October 3, 1994; (b) notice of proposed rulemaking at 61 FR 48580, September 13, 1996; and (c) final rule and preamble published at 64 FR 27044-27084, May 18, 1999.

The Council is optimistic that the period of time during which the public will need to comply with the Section

106 process without the benefit of a rule will be brief. The general comment period for the proposed rule published July 11, 2000 (65 FR 42834) closed on August 10, 2000. The Council extended the comment period to August 31, 2000 for all those members of the public that made timely requests for additional time to provide comments. The Council received a total of 59 comments. The Council is currently in the process of reviewing and evaluating the comments received on the proposed rule, and believes that it will vote on adopting a new final rule by November 17, 2000, as originally anticipated.

List of Subjects in 36 CFR Part 800

Administrative practice and procedure, Historic preservation, Indians, Intergovernmental relations.

For the reasons stated above, the Advisory Council on Historic Preservation proposed to suspend the rule currently codified at 36 CFR part 800, and adopt it as guidelines.

Dated: September 8, 2000.

John M. Fowler,
Executive Director.

BILLING CODE 4310-10-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Parts 152 and 174

[OPP-250127; FRL-6047-9]

RIN 2070-AC02

Final Regulations for Plant-Pesticides (Plant-Incorporated Protectants); Notification to the Secretary of Agriculture

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notification to the Secretary of Agriculture.

SUMMARY: This document notifies the public that the Administrator of EPA has forwarded to the Secretary of Agriculture, a draft final rule under section 25(a) of the Federal Insecticide, Fungicide, and Rodenticide Act. The substances plants produce for protection against pests are pesticides under the Federal Insecticide, Fungicide, and Rodenticide Act definition of pesticide, if humans intend to use these substances for "preventing, destroying, repelling or mitigating any pest." These substances, produced and used in living plants, along with the genetic material necessary to produce them, are currently called "plant-pesticides" by

EPA. In this final rule, EPA will rename these pesticides, calling them "plant-incorporated protectants," will exempt a category of plant-pesticides, will clarify the relationship between plants and plant-pesticides and confirm that plants used as biological control agents are exempt from regulation under the Federal Insecticide, Fungicide, and Rodenticide Act, and will establish new part 174 in Title 40 of the Code of Federal Regulations, specifically for plant-pesticides.

FOR FURTHER INFORMATION CONTACT: By mail: Philip Hutton, Biopesticides and Pollution Prevention Division, Office of Pesticide Programs (7511C), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington DC 20460; telephone number: (703) 308-8260; and e-mail address: hutton.phil@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general for notification. This action may, however, be of interest to a person or company that may be involved with agricultural biotechnology that may develop and market plant-incorporated protectants. Since other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be interested in this notice. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Additional Information, Including Copies of this Document and Other Related Documents?

Electronically. You may obtain electronic copies of this document, and certain other documents related to the proposed rule only that might be available electronically, from the EPA Internet Home Page at <http://www.epa.gov/>. The draft final rule is not available until it has been signed by EPA. To access this document, on the Home Page select "Laws and Regulations," "Regulations and Proposed Rules," and then look up the entry for this document under the "**Federal Register**—Environmental Documents." You can also go directly to the **Federal Register** listings at <http://www.epa.gov/fedrgstr/>.

II. What Action is EPA Taking?

Section 25(a)(2) of FIFRA provides that the Administrator must provide the Secretary of Agriculture with a copy of

any regulation at least 30 days before signing it for publication in the **Federal Register**. The draft final rule is not available to the public until after it has been signed by EPA. If the Secretary comments in writing regarding the draft final rule within 15 days after receiving it, the Administrator shall include in the final rule when published in the **Federal Register** the comments of the Secretary and the Administrator's response to those comments. If the Secretary does not comment in writing within 15 days after receiving the final rule, the Administrator may sign the final rule for publication in the **Federal Register** anytime after the 15-day period. As required by FIFRA section 25(a)(3), a copy of the final rule has been forwarded to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate. EPA issued a proposed rule in the **Federal Register** of November 23, 1994 (59 FR 60534) (FRL-4755-3).

III. Do Any Regulatory Assessment Requirements Apply to this Notification?

No. This document is not a rule, merely a notification of submission to the Secretary of Agriculture. As such, none of the regulatory assessment requirements apply to this document.

IV. Will EPA Submit this Notification to Congress and the Comptroller General?

No. This action is not a rule for purposes of the Congressional Review Act (CRA), 5 U.S.C. 804(3), and will not be submitted to Congress and the Comptroller General. EPA will submit the final rule to Congress and the Comptroller General as required by the CRA.

List of Subjects in Parts 152 and 174

Environmental protection, Administrative practice and procedure, Biotechnology pesticides, Pesticides and pests, Reporting and recordkeeping.

Dated: September 11, 2000.

Stephen L. Johnson,

Associate Deputy Assistant Administrator for the Office of Prevention, Pesticides and Toxic Substances.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[DA 00-2017, MM Docket No. 00-158, RM-9921]

Radio Broadcasting Services; Alamo, NM

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Commission requests comments on a petition filed by Alamo Navajo School Board, Inc., seeking the allotment of Channel 298A, as a noncommercial educational channel, to Alamo community, NM. Channel 298A can be allotted to Alamo Community at coordinates 34-25-01 NL; 107-30-04 WL. Mexican concurrence in the allotment must be obtained since Alamo Community is located within 320 kilometers (199 miles) of the U.S.-Mexican border. Petitioner is requested to provide further information concerning Alamo Community's center city reference coordinates in order to determine whether the proposed allotment would comply with the signal coverage requirements contained in Section 73.315 of the Commission's Rules. In addition, petitioner is requested to provide further information concerning the reservation of the channel for noncommercial educational use.

DATES: Comments must be filed on or before October 23, 2000, and reply comments on or before November 7, 2000.

ADDRESSES: Federal Communications Commission, 445 12th Street, SW., Room TW-A325, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve the petitioner, or its counsel or consultant, as follows: Burton Apache, President, The Alamo Navajo School Board, Inc., P.O. Box 907, Magdalena, NM 87825 (Petitioner) and Don Davis, 800 Wellesley N.E., Albuquerque, NM 87106 (Technical Consultant to petitioner).

FOR FURTHER INFORMATION CONTACT: Leslie K. Shapiro, Mass Media Bureau, (202) 418-2180.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Notice of Proposed Rule Making, MM Docket No. 00-158, adopted August 23, 2000, and released September 1, 2000. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Reference Center, 445 12th Street,

SW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractors, International Transcription Services, Inc., 1231 20th Street, NW., Washington, DC. 20036, (202) 857-3800, facsimile (202) 857-3805.

Provisions of the Regulatory Flexibility Act of 1980 do not apply to this proceeding. Members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel allotments. See 47 CFR 1.1204(b) for rules governing permissible *ex parte* contact.

For information regarding proper filing procedures for comments, see 47 CFR 1.415 and 1.420.

Federal Communications Commission.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Notice of Proposed Rule Making, MM Docket No. 00-159 and MM Docket No. 00-160, and MM Docket No. 00-161, adopted August 23, 2000, and released September 1, 2000. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Reference Information Center (Room CY-A257), 445 12th Street, SW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractor, International Transcription Service, Inc., (202) 857-3800, 1231 20th Street, NW., Washington, DC 20036.

The Commission also requests comments on a petition filed jointly by Kaskaskia Broadcasting, Inc. and Miller Communications, Inc., proposing the reallocation of Channel 265A from Pana to Macon, Illinois, and the modification of Station WEGY(FM)'s license accordingly. Additionally, petitioners propose the reallocation of Channel 232A from Taylorville to Pana, Illinois, and the modification of Station WMKR(FM)'s license accordingly. Channel 265A can be reallocated to Macon in compliance with the Commission's minimum distance separation requirements with a site restriction of 6.9 kilometers (4.3 miles) south at Station WEGY(FM)'s requested

site. The coordinates for Channel 265A at Macon are 39–41–08 North Latitude and 88–55–29 West Longitude. Additionally, Channel 232A can be reallocated to Pana in compliance with the minimum distance separation requirements with a site restriction of 11.7 kilometers (7.3 miles) west at Station WMKR(FM)'s requested site. The coordinates for Channel 262A at Pana 39–22–56 North Latitude and 89–12–56 West Longitude. In accordance with Section 1.420(i) of the Commission's Rules, we will not accept competing expressions of interest for the use of Channel 232A at Pana, Illinois or for Channel 265A at Macon, Illinois.

The Commission requests comments on a petition filed by M. Kent Frandsen proposing the reallocation of Channel 256C1 from Fort Bridger, Wyoming to Woodruff, Utah, and the modification of Station KNYN(FM)'s construction permit accordingly. Channel 256C1 can be reallocated to Woodruff in compliance with the Commission's minimum distance separation requirements with a site restriction of 28.2 kilometers (17.5 miles) southeast at petitioner's presently authorized site. The coordinates for Channel 256C1 at Woodruff are 41–21–10 North Latitude and 110–54–26 West Longitude. In accordance with Section 1.420(i) of the Commission's Rules, we will not accept competing expressions of interest in the use of Channel 256C1 at Woodruff, Utah.

Provisions of the Regulatory Flexibility Act of 1980 do not apply to this proceeding. Members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel allotments. See 47 CFR 1.1204(b) for rules governing permissible *ex parte* contacts.

For information regarding proper filing procedures for comments, see 47 CFR 1.415 and 1.420.

Federal Communications Commission.

47 CFR Parts 90

[WT Docket No. 98–182; RM–9222; PR Docket No. 92–235; FCC 00–235]

1998 Biennial Regulatory Review—Private Land Mobile Radio Services

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Commission has adopted a *Further Notice of Proposed Rule Making*, (*FNPRM*) which seeks comment on whether certain rule changes would be in the public interest. Specifically, the Commission seeks comment on whether it should modify the eligibility criteria to operate in the Public Safety Pool for parks and schools; the eligibility criteria for highway maintenance frequencies; and the power limits for certain dockside channels.

DATES: Interested parties may file comments on or before November 14, 2000 and reply comments on or before December 14, 2000.

FOR FURTHER INFORMATION CONTACT: Guy Benson (202) 418–2946 <gbenson@fcc.gov> or Ghassen Khalek (202) 418–2771 <gkhalek@fcc.gov>, Public Safety and Private Wireless Division, Wireless Telecommunications Bureau, or Les Smith, AMD–PERM, Office of Managing Director at (202) 418–0217.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's *FNPRM* in the *Report and Order and FNPRM*, FCC 00–235 in WT Docket No. 98–182 and PR Docket No. 92–235, adopted on June 28, 2000 and released on July 12, 2000. The full text of this *FNPRM* is available for inspection and copying during normal business hours in the FCC Reference Center, Room CY–A257, 445 12th Street, SW., Washington, DC. The complete text may be purchased from the Commission's copy contractor, International Transcription Service, Inc., 1231 20th Street, NW., Washington, DC. 20037. The full text may also be downloaded at: www.fcc.gov. Alternative formats are available to persons with disabilities by contacting Martha Contee at (202) 418–0260 or TTY (202) 418–2555.

Summary of the Proposed Rule

1. The Commission initiated the instant proceeding in conjunction with the Commission's 1998 biennial regulatory review under Section 11 of the Communications Act of 1934, 47 U.S.C. 161. Section 11 requires us to

review all our regulations applicable to providers of telecommunications service and determine whether any rule is no longer in the public interest as a result of meaningful economic competition between providers of telecommunications service, and whether such regulations should be deleted or modified. As part of the biennial review of regulations required under section 11, however, the Commission has reviewed all of its regulations relating to administering wireless services, not just those pertaining to providers of a telecommunications service, to determine which regulations can be streamlined or eliminated. The Commission concluded in the *FNPRM* that it was in the public interest to continue to streamline the part 90 Rules and to reduce regulatory requirements on licensees.

2. First, the Commission proposes to eliminate the restriction found in 47 CFR 90.20(a)(1)(i) that excludes school districts and authorities and park districts and authorities from eligibility in the Public Safety Pool. The Commission believes that there are sufficient frequencies available in the Public Safety Pool to accommodate school and park districts. Because school districts and authorities will be eligible to hold authorizations in the Public Safety Pool with this change, the Commission also proposes to eliminate their eligibility for the Industrial/Business Pool.

3. Second, the Commission proposes to eliminate the restriction found in 47 CFR 90.20(43), reserving certain public safety frequencies for non-State highway maintenance use. The proposal allows any public safety user to share these frequencies. The intended result is more efficient use of the spectrum.

4. Finally, the Commission seeks comment on the American Automobile Association's (AAA) proposal that the Commission assign eight of the thirty dockside frequencies to the Emergency Road Service. AAA also proposes to act as the sole frequency coordinator on those channels and asks that the 2-watt power limitations for these frequencies be eliminated. The Commission seeks comment on all of these proposals.

Initial Regulatory Flexibility Analysis

5. As required by section 603 of the Regulatory Flexibility Act, 5 U.S.C. 603, the Commission has prepared an Initial Regulatory Flexibility Analysis (IRFA) of the expected impact on small entities of the policies and rules proposed in the *FNPRM*. Written public comments are requested on the IRFA. Comments must be identified as responses to the IRFA

and must be filed by the deadlines for comments on this *FNPRM*.

Reason for, and Objectives of, the *FNPRM*

6. The purpose of this item is to determine whether it is in the public interest, convenience, and necessity to amend our rules to eliminate certain restrictions on the use of frequencies in the Public Safety Pool. These proposals include: (1) Deleting the restrictions in 47 CFR 90.20 that exclude school districts and authorities and park districts and authorities from Public Safety Pool eligibility; (2) eliminate the restrictions in 47 CFR 90.20(43) that limit eligibility for certain Public Safety Pool frequencies to non-State highway maintenance systems; and (3) seeking comment on AAA's proposal that we assign eight of twenty-two dockside frequencies for Emergency Road Service, designate AAA as the sole frequency coordinator for those frequencies, and eliminate the current 2-watt power restriction for those frequencies.

7. These proposed rules and actions will give park districts and authorities, school districts and authorities, and other public safety users access to spectrum needed for important communications functions, and will result in more efficient use of the spectrum.

Legal Basis

8. Authority for the proposed rules included in this issuance of this *FNPRM* is contained in sections 4(i), 303(r), and 332(a)(2) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 303(r), and 332(a)(2).

Description and Estimate of the Number of Small Entities to Which the Proposed Rules Will Apply

9. The RFA directs agencies to provide a description of, and, where feasible, an estimate of the number of small entities that may be affected by the proposed rules, if adopted. The RFA defines the term "small entity" as having the same meaning as the terms "small business," "small organization," and "small business concern" under section 3 of the Small Business Act. A small business concern is one which: (1) Is independently owned and operated; (2) is not dominant in its field of

operation; and (3) satisfies any additional criteria established by the SBA.

Description of Projected Reporting, Recordkeeping and Other Compliance Requirements

10. Reporting, recordkeeping, and compliance requirements under these proposed rules are nominal. No new reporting, recordkeeping, or other compliance requirements would be imposed on applicants or licensees as a result of the actions proposed in this rule making proceeding.

Steps Taken To Minimize Significant Economic Impact on Small Entities, and Significant Alternatives Considered

11. The RFA requires an agency to describe any significant alternatives that it has considered in reaching its proposed approach, which may include the following four alternatives: (1) The establishment of differing compliance or reporting requirements or timetables that take into account the resources available to small entities; (2) the clarification, consolidation, or simplification of compliance or reporting requirements under the rule for small entities; (3) the use of performance, rather than design, standards; and (4) an exemption from coverage of the rule or any part thereof for small entities.

12. Regarding our proposal to delete the exclusion of park districts and authorities and school districts and authorities from the Public Safety Pool channels, *see* paras. 43–46, *supra*, there should be no significant adverse impact on small entities. An alternative to this proposal would be to do nothing, which would be unsatisfactory because it would leave the parks without any possibility of operating radio stations for the transmission of communications essential to their official activities.

13. Finally, we seek comment on how the changes proposed in the *FNPRM* will effect small entities.

Federal Rules That May Duplicate, Overlap, or Conflict With the Proposed Rules

14. None.

Report to Congress

The Commission will send a copy of the *FNPRM* including this FRFA, in a

report to be sent to Congress pursuant to the Small Business Regulatory Enforcement Fairness Act of 1996. In addition, the Commission will send a copy of the *FNPRM*, including FRFA, to the Chief Counsel for Advocacy of the Small Business Administration. A copy of the *FNPRM* and FRFA (or summaries thereof) will also be published in the **Federal Register**.

Federal Communications Commission.

Magalie Roman Salas,

Secretary.

Proposed Rule Changes

For the reasons discussed in the preamble, the Federal Communications Commission proposes to amend 47 CFR part 90 as follows:

PART 90—PRIVATE LAND MOBILE RADIO SERVICES

1. The authority citation for Part 90 continues to read as follows:

Authority: Sections 4(i), 11, 303(g), 303(r) and 332(c)(7) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 161, 303(g), 303(r), 332(c)(7).

2. Section 90.20 is amended by removing and reserving paragraph (d)(43) and revising paragraph (a)(1)(i) and the entries for 156.165 MHz, 156.1725 MHz, 156.180 MHz, 156.1875 MHz, 156.195 MHz, 156.2025 MHz, 156.225 MHz, 156.2325 MHz, 156.240 MHz, 158.985 MHz, 158.9925 MHz, 159.000 MHz, 159.0075 MHz, 159.015 MHz, 159.0225 MHz, 159.045 MHz, 159.0525 MHz, 159.060 MHz, 159.0675 MHz, 159.075 MHz, 159.0825 MHz, 159.105 MHz, 159.1125 MHz, 159.120 MHz, 159.1275 MHz, 159.135 MHz, 159.1425 MHz, 159.165 MHz, and 159.1725 MHz of paragraph (c)(3) to read as follows:

§ 90.20 Public Safety Pool.

- (a) * * *
- (a) * * *
- (i) A district and an authority;
- * * * * *
- (c) * * *
- (3) * * *

Notices

Federal Register

Vol. 65, No. 180

Friday, September 15, 2000

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

September 11, 2000.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Washington, DC 20503 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-6746.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it

displays a currently valid OMB control number.

Cooperative State Research, Education, and Extension Service

Title: National Research Initiative Competitive Grants Program.

OMB Control Number: 0524-0033.

Summary of Collection: The Cooperative State Research, Education, and Extension Service (CSREES) administers several competitive and non-competitive grant programs. 7 U.S.C. 450i (Competitive, Special, and Facilities Research Grant Act) authorizes these programs. CSREES has primary responsibility for providing linkages between the Federal and State components of a broad-based, national agricultural research, extension, and education system. Focused on national issues, its purpose is to represent the Secretary of Agriculture and carry out the intent of Congress by administering formula and grant funds appropriated for agricultural, research, extension, and education. Before awards can be made, certain information is required from applicants as part of an overall proposal package. CSREES will collect information using forms CSREES 1232, 1233, and 1234.

Need and Use of the Information: CSREES will collect information to evaluate proposals and award grants.

Description of Respondents: State, Local, or Tribal Government; Federal Government; Individuals or households; Business or other for-profit; Not-for profit institutions.

Number of Respondents: 5,000.

Frequency of Responses:

Recordkeeping; Reporting: On occasion.

Total Burden Hours: 20,450.

National Agricultural Statistics Service

Title: Agricultural Resource Management, Chemical Use, and Post-Harvest Chemical Use Surveys.

OMB Control Number: 0535-0218.

Summary of Collection: The primary objective of the National Agricultural Statistics Service (NASS) is to provide the public with timely and reliable agricultural production and economic statistics, as well as environmental and specialty agricultural related statistics. Three surveys—the Agricultural Resource Management Study, the Fruit and Vegetable Chemical Use Surveys, and the Post-harvest Chemical Use Survey—are critical to NASS' ability to fulfill these objectives and to build the

Congressionally mandated database on agricultural chemical use and related farm practices. NASS uses a variety of survey instruments to collect the information in conjunction with these studies.

Need and Use of the Information: The Agricultural Resource Management Study provides a robust database of information to address varied needs of policy makers. There are many uses for the information from this study including an evaluation of the safety of the Nation's food supply; input to the farm sector portion of the gross domestic product; and as a barometer on the financial condition of farm businesses. Data from the Fruit and Vegetable Chemical Use Surveys is used to assess the environmental and economic implications of various program and policies and the impact on agricultural producers and consumers. The results of the Post-harvest Chemical Use Survey are used by the Environmental Protection Agency (EPA) to develop Food Quality Protection Act risk assessments. Other organizations use this data to make sound regulatory decisions.

Description of Respondents: Farms.

Number of Respondents: 122,706.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 41,017.

National Agricultural Statistics Service

Title: Census of Agriculture Content Test.

OMB Control Number: 0535-NEW.

Summary of Collection: The National Agricultural Statistics Service (NASS) is responsible for conducting the Census of Agriculture under the authority of the Census of Agriculture Act of 1997, Public Law 105-113. In support of this effort, NASS conducts a pilot study 2 years prior to each census to test factors affecting response such as wording, capability of respondents to answer questions, availability of records, and perception of usefulness of the census data. This test is important to assessing potential changes prior to making adjustments to the full-scale census. The current proposal for the Census of Agriculture content test involves the redesign of the collection form in intelligent character recognition (ICR) format for scanning, wording changes, new content items, and order of the sections. Additionally, a substantially lower number of respondents will be

involved in this content test than in the previous version.

Need and Use of the Information: The Census of Agriculture Content Test is critical to NASS' ability to design a successful census survey. The actual Census of Agriculture is required by law every five years and serves as the basis for many agriculturally-based decisions. Without the content test, NASS would not be able to ensure that the actual census involved clear questions that would be easily and accurately answered by the affected public.

Description of Respondents: Farms.

Number of Respondents: 122,706.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 41,017.

Rural Business-Cooperative Services

Title: 7 CFR 2484—F, Rural Cooperative Development Grant.

OMB Control Number: 0570-0006.

Summary of Collection: This program is administered through State Rural Development Offices on behalf of the Rural Business-Cooperative Services (RBS). The primary objective of the program is to improve the economic condition of rural areas through cooperative development. The applicants, who are non-profit corporations or institutions of higher education, will provide information using various forms and supporting documentation.

Need and Use of the Information: RBS will use the information collected to evaluate the applicant's ability to carry out the purposes of the program. Grant funds will be awarded on a competitive basis using a scoring system that gives preference to applications that demonstrate a proven track record. If this information were not collected, RBS would have not basis on which to evaluate the relative merit of each application.

Description of Respondents: Individuals or households; Not for profit institutions; State, Local or Tribal Government.

Number of Respondents: 50.

Frequency of Responses:

Recordkeeping; Reporting: On occasion.

Total Burden Hours: 1848.

Rural Housing Service

Title: 7 CFR 1944—D, Farm Labor Housing Loan and Grant Policies, Procedures, and Authorization.

OMB Control Number: 0575-0045.

Summary of Collection: Section 514 and 516 of Title V of the Housing Act of 1949 authorizes Rural Housing Service (RHS) to make loans and grants to public, private nonprofit and farm worker organizations for developing

farm labor. The objective of this program is to provide decent, safe, and sanitary housing and related facilities for domestic farm labor and migrant labor in areas where needed.

Need and Use of the Information: The information collected is based on the program requirements and regulations which help determine an applicant's eligibility for a loan and/or grant. RHS has the responsibility for protecting the interest of taxpayer's funds and to assure that the objectives of the loan and grant program are carried out as intended. Failure to have this information would result in illegal and unauthorized use of federal funds.

Description of Respondents: Farms; Not for profit institutions; State, Local or Tribal Government.

Number of Respondents: 95.

Frequency of Responses:

Recordkeeping; Reporting: On occasion.

Total Burden Hours: 8524.

Food Nutrition Service

Title: Monthly Claim For Reimbursement.

OMB Control Number: 0584-0284.

Summary of Collection: The Child Nutrition Act of 1966 requires that educational agencies disburse and appropriate funds during the fiscal year for the purposes of carrying out provisions of the Special Milk Program (SMP). The National School Lunch Act requires that State educational agencies disburse appropriated funds paid to the state for any fiscal year for the purposes of fulfilling the earned reimbursement set forth in National School Lunch, Breakfast, and Special Milk Programs. The Food and Nutrition Service will use the monthly claim reimbursement form FNS-806 to fulfill the earned requirements identified in these programs. National School Lunch Program (NSLP), SMP, and the School Breakfast Program (SBP).

Need and Use of The Information: The information is collected electronically from school authorities that participate in NSLP, School Breakfast Program (SBP), and SMP programs. The forms contain meal and cost data collected from authorized program participants. Also, these forms are an essential part of the accounting system used by the subject programs to ensure proper reimbursement. This information is collected monthly because of the constant fluctuation in school enrollment and program participation. Program participants would not receive the monthly reimbursement earned and the Agency would lose program accountability, if this information were collected less frequently.

Description of Respondents: Farms; Not for profit institutions; State, Local or Tribal Government.

Number of Respondents: 520.

Frequency of Responses:

Recordkeeping; Reporting: Monthly.

Total Burden Hours: 2700.

Forest Service

Title: National Survey on Recreation and the Environment.

OMB Control Number: 0596-0127.

Summary of Collection: The National Survey on Recreation and the Environment (NSRE) 2000 is the latest in a series of surveys conducted by the Forest Service (FS) which began in 1960 as the primary source of recreation data from the U.S. population. This information is vital for federal land managing agencies to obtain an understanding of the outdoor recreation participation levels and preferences of the American people so that effective policy making, planning, and decision-making can occur. Information from the survey is shared with and relied upon by organizations outside the federal government including educational institutions, private sector companies, state agencies, and other governmental organizations as the fundamental source of outdoor recreation trend and demand data on a national scale. The survey will be administered using a statistically valid sampling methodology through computer-assisted telephone interviewing techniques.

Need and Use of the Information: FS will collect information nationally from the public to assess trends in recreation participation over the years since the survey was last conducted and to estimate demand for outdoor recreation among the U.S. population. In addition, the survey will collect information from the public on people's attitudes and values toward natural resources and their management. The information will be used by FS and other federal agencies to develop long-range strategic plans, adjust programs and activities to meet customer needs and expectations, and better manage federally owned lands.

Description of Respondents:

Individuals or households.

Number of Respondents: 40,000.

Frequency of Responses: Reporting: Other (one time).

Total Burden Hours: 13,333.

This is a revision to the number of respondents and burden hours reported in the Federal Register on May 2, 2000 (25464). Due to an error in estimating, the numbers reported in the register were 20,000 respondents and 6,000 hours. The revised number for the respondents should be 40,000 and 13,333 for the burden hours.

Food and Nutrition Service

Title: Food Stamp Program Identification Cards.

OMB Control Number: 0584-0124.

Summary of Collection: The Food Stamp Act of 1977 requires that photographic identification (ID) cards be used in issuance situations in which the Department believes that it would be useful to protect the integrity of the Food Stamp Program (FSP). These requirements are essential to ensure the integrity of the FSP. The ID is required by Food and Nutrition Service (FNS) regulation to be a controlled document, laminated with a serial number and a photograph.

Need and Use of the Information: Photo ID are used by issuance agents to identify households for monthly issuance; by retailers to identify households when benefits are used; and by households to provide proof at recertification and when picking up monthly allotments. The use of the photo ID card and the requirement to show it to obtain benefits is crucial to the agency's ability to protect the integrity of the Food Stamp Program.

Description of Respondents: State, Local, or Tribal Government; Individuals or households.

Number of Respondents: 329,293.

Frequency of Responses:

Recordkeeping; Reporting: On occasion.

Total Burden Hours: 21,250.

Nancy B. Sternberg,

Departmental Clearance Officer.

BILLING CODE 3410-01-M

DEPARTMENT OF AGRICULTURE**Food Safety and Inspection Service**

[Docket No. 00-020N]

National Advisory Committee on Microbiological Criteria for Foods; Renewal

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Notice of Re-chartering of Committee.

SUMMARY: This notice announces the re-chartering of the National Advisory Committee on Microbiological Criteria for Foods (NACMCF). The Committee is being renewed in cooperation with the Department of Health and Human Services (HHS). The establishment of the Committee was recommended by a 1985 report of the National Academy of Sciences Committee on Food Protection, Subcommittee on Microbiological Criteria, "An Evaluation of the Role of

Microbiological Criteria for Foods." The current charter for the NACMCF is available for viewing on the FSIS homepage at www.fsis.usda.gov under mission and activities.

FOR FURTHER INFORMATION CONTACT: Dr. Carol Maczka, Executive Secretariat, USDA, Food Safety and Inspection Service, 3rd Floor—Room 355 Aerospace Center, 901 D Street, SW., Washington, DC 20024. Background materials are available for inspection by contacting Dr. Maczka at (202) 690-6540.

SUPPLEMENTARY INFORMATION:**Background**

The United States Department of Agriculture (USDA) is charged with the enforcement of the Federal Meat Inspection Act (FMIA), the Poultry Products Inspection Act (PPIA), and the Egg Products Inspection Act (EPIA). Under these Acts, USDA is responsible for the wholesomeness and safety of meat, poultry, and egg products intended for human consumption. Similarly, the Secretary of HHS is charged with the enforcement of the Federal Food, Drug, and Cosmetic Act (FFDCA). Under this Act, HHS is responsible for ensuring the wholesomeness and safety of human foods other than meat, poultry, and egg products, and of animal feeds.

In order to continue to meet the responsibilities of the FMIA, PPIA, EPIA, and FFDCA, the NACMCF is being reestablished. The Committee will be charged with advising and providing recommendations to the Secretaries on the development of microbiological criteria by which the safety and wholesomeness of food can be assessed, including criteria for microorganisms that indicate whether foods have been adequately and appropriately processed.

Reestablishment of this Committee is necessary and in the public interest because the development of a sound public policy in this area can best be accomplished by a free and open exchange of information and ideas among Federal, State, and local agencies, and other interested parties. The complexity of the issues to be addressed requires that more than one meeting per year will be necessary to accomplish the Committee's tasks.

Members will be appointed by the Secretary of USDA after consultation with the Secretary of HHS. Because of their interest in the matters to be addressed by this Committee, advice on membership appointments will be requested from the Department of Commerce's National Marine Fisheries

Service and the Department of Defense's Veterinary Service Activity.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, in an effort to better ensure that minorities, women, and persons with disabilities are aware of this notice, FSIS will announce it and provide copies of this **Federal Register** publication in the FSIS Constituent Update. FSIS provides a weekly FSIS Constituent Update, which is communicated via fax to over 300 organizations and individuals. In addition, the update is available on-line through the FSIS web page located at <http://www.fsis.usda.gov>. The update is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, recalls, and any other types of information that could affect or would be of interest to our constituents/stakeholders. The constituent fax list consists of industry, trade, and farm groups, consumer interest groups, allied health professionals, scientific professionals, and other individuals that have requested to be included. Through these various channels, FSIS is able to provide information to a much broader, more diverse audience. For more information and to be added to the constituent fax list, fax your request to the Congressional and Public Affairs Office, at (202) 720-5704.

Done in Washington, DC on: September 11, 2000.

Paul W. Fiddick,

Assistant Secretary for Administration.

[FR Doc. 00-23771 Filed 9-14-00; 8:45 am]

BILLING CODE 3410-DM-P

DEPARTMENT OF AGRICULTURE**Forest Service****Shore Nuf Timber Sale, Willamette National Forest, Linn and Marion Counties, Oregon**

AGENCY: Forest Service, USDA.

ACTION: Notice of Intent to prepare an environmental impact statement.

SUMMARY: The USDA Forest Service gives notice that it will prepare an environmental impact statement (EIS) for the Shore Nuf Timber Sale Project proposal. The project area is located approximately 50 miles east of Salem, Oregon on the western slopes of the Cascade Mountains, near Detroit Lake and the City of Detroit, Oregon on the Detroit Ranger District of the Willamette National Forest. The Shore

Nuf Timber Sale would occur during the next five years on approximately 1200 acres of the Detroit Tributaries Watershed, and includes the following proposed actions:

1. Thin approximately 1200 acres of second growth Douglas fir stands, to reduce stocking levels while maintaining a 50 to 70 percent average canopy closure;
2. Thin selected portions of riparian reserves that are within, or adjacent to the proposed thinning stands, to develop late successional characteristics in riparian areas;
3. Treat pockets of *Phellinus weirii* and other root rots occurring in the proposed thinning stands by removing all of the affected trees within the infection site and/or within a buffer around the infection site, to prevent the spread of the *Phellinus weirii* and other diseases; and
4. Create eight small openings, up to three acres each, along the Blowout Road and Stahlman trail to provide views of Detroit Lake and the surrounding area.

The proposed action also includes the following associated actions:

1. Construct approximately 2.0 miles of temporary roads to access thinning units, and after implementation of the thinning, obliterate the roads by ripping, seeding, and re-establishing natural drainage patterns;
2. Reconstruct approximately 6.0 miles of existing roads that are currently inaccessible due to slides, overgrown vegetation, water damage, and downed trees;
3. Construct, reconstruct, or modify landings for helicopters, skylines, and ground based yarding systems;
4. Treat slash created by the thinning activities in areas where there is a high risk of fire starts, such as campgrounds, summer homes and major roads, by hand piling and burning slash; and
5. Reforest the treated *Phellinus weirii* and other root rot pockets by planting species that are not susceptible to root rot such as native hardwoods.

The Detroit District Ranger will decide whether to implement the project as proposed, to implement a modified proposal, to implement an alternative to the proposal, or to take no action at this time.

DATES: Written comments concerning the scope and implementation of this proposal should be received on or before October 30, 2000.

ADDRESSES: Submit written comments or suggestions concerning this project to Stephanie Phillips, District Ranger, Detroit Ranger District, HC73 Box 320, Mill City, Oregon 97360.

FOR FURTHER INFORMATION CONTACT:

Please direct questions about the proposed action and EIS to Jim Romero, District Planner at (503) 854-3366.

SUPPLEMENTARY INFORMATION: The 1200 acres selected for commercial thinning are located along Blowout Creek (Forest Road 10), French Creek (Forest Road 2223), and Piety Island near Detroit Lake. These stands were established primarily through natural seeding following logging or large fires in the early 1900's. Most stands date to a single large fire, which occurred in the Detroit Reservoir Area in 1919. Stands in the French Creek area were logged in the 1930's but have similar characteristics to stands harvested earlier. These stands are predominantly Douglas-fir, and have about 150-300 trees per acre, resulting in greater than 90% canopy closure. The trees range in size from 9 to 21 inches in diameter. Generally, the stands have only one canopy layer with sparse to light ground vegetation as a result of the dense canopy closure. Given this, the stands support a less diverse range of wildlife species (primarily fewer late successional species) and are prone to crown-type fires. Because of the age and density of these stands, future growth projections, and increased mortality due to tree competition, these stands will not attain large diameter trees, open spacing, and structural diversity (multiple canopy layers) for many years.

The Detroit Ranger District, over the past several years, has commercially thinned using helicopters in stands similar to those proposed for treatment in the Shore Nuf Timber Sale project area, including thinning in riparian reserves. The results of these sales have had virtually no effect on scenic quality, water quality, or substantial amounts of slash left from the thinning. The thinning would achieve a 50-70 percent average canopy closure to meet wildlife and hydrologic needs. Thinning would be applied within selected riparian reserves to control stocking, re-establish and manage stands, and acquire desired vegetation characteristics needed to attain Aquatic Conservation Strategy Objectives. Thinning would take place outside of the wet area of the riparian reserve and outside of the portion contributing to channel bank stability.

Treating the *Phellinus weirii* and other root rot pockets would result in several small openings varying in size from about one to five acres. The total area affected by the treatment is approximately one to five percent of the thinned area. Reforesting the affected areas would occur with non-susceptible species such as hardwoods. There is a

need for this treatment to minimize the spread of the infection by removing the host species in the infection site and/or within its path of spread.

The combination of commercial thinning and creation of small openings along the Blowout Road (Forest Road 10) would improve views of Detroit Reservoir as seen from the road. Thinnings would also occur adjacent to private lands within the project area to reduce the edge effect created by large clearcuts on private lands.

The proposal includes using a helicopter to yard the logs on about two-thirds of 1200 acres of thinning, and to use both skyline and ground-based yarding systems on the remaining one-third of the area. The timber sale would result in the sale of approximately 10 to 15 MMBF of commercial wood products such as saw logs.

The need for the Shure Nuf Timber Sale Project is to reduce the total number of trees per acre to lessen competition for nutrients, sunlight, and growing space. This would improve the growth and vigor of the remaining trees resulting in healthier stands of trees that are more resistant to insects and disease. The trees would also reach larger diameters and exhibit late successional stand characteristics sooner. Thinning the smaller diameter, suppressed trees before they die would reduce the fuel buildup and fire risk, and have the added benefit of utilizing the trees for commercial wood products. The thinning would open the stand canopies, letting sunlight reach the forest floor, thus resulting in increased shrub and hardwood growth, which would enhance diversity for wildlife habitat. The open stands with a diverse understory would also enhance the scenic quality along the forest roads in this heavily used recreation area.

The USDA Forest Service is seeking information and comments from Federal, State and local agencies, as well as, other individuals or organizations that may be interested in, or affected by, the proposed action. Information that would be especially useful would be identification of issues, exploration of additional alternatives based on the issues, and identifying potential environmental effects of the proposed action and alternatives to the proposal. Public involvement will include periodic mailings to interested persons as the project progresses, and possibly field trips and public meetings depending on the level of public interest for the project. Information on field trips and meetings will be announced later.

The following is a description of the preliminary issues identified for this project: (1) Noise from helicopters,

harvest equipment, log trucks and increased truck traffic could be disturbing to local residents and recreation users, potentially impacting local tourism and the related tourist economy during harvest operations, and (2) There is concern that noxious weeds could spread to areas where mineral soil has been exposed due to road and landing construction.

The comment period on the draft EIS will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**. The draft environmental impact statement is scheduled for release in January, 2001. It is expected that the final environmental impact statement will be released in April, 2001.

Comments received in response to this notice, including names and addresses of those who comment, will be considered part of the public record on this proposed action and will be available for public inspection. Comments submitted anonymously will be accepted and considered; however, those who submit anonymous comments will not have standing to appeal the subsequent decision under 36 CFR parts 215 or 217. Additionally, pursuant to 7 CFR 1.27 (d), any person may request the agency to withhold a submission from the public record by showing how the Freedom of Information Act (FOIA) permits such confidentiality. Persons requesting such confidentiality should be aware that, under the FOIA, confidentiality may be granted in only very limited circumstances, such as to protect trade secrets. The Forest Service will inform the requester of the agency's decision regarding the request for confidentiality, and where the request is denied, the agency will return the submission and notify the requester that the comments may be resubmitted with or without name and address within a specified number of days.

The USDA Forest Service believes it is important to give reviewers notice at this early stage as a result of several court rulings related to public participation in the environmental review process. First, reviewers of a draft EIS must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft EIS stage but that are not raised until after completion of the final EIS may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803

F.2d 1016, 1022 (9th Cir, 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final EIS.

To assist the USDA Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft EIS should be as specific as possible. It is also helpful if comments refer to specific pages of chapters of the draft statement. Comments may also address the adequacy of the draft EIS or the merits of the alternatives formulated and discussed in the statement. (Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points).

The lead agency for this project is the USDA Forest Service, Willamette National Forest. The deciding official is Stephanie Phillips, District Ranger, Detroit Ranger District of the Willamette National Forest. The Record of Decision for this project will document the decision and rationale for the decision. That decision is subject to appeal under 36 CFR part 215.

Dated: August 29, 2000.

Stephanie Phillips,

Detroit District Ranger, Willamette National Forest.

[FR Doc. 00-23729 Filed 9-14-00; 8:45 am]

BILLING CODE 3410-11-M

COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED

Procurement List; Additions

AGENCY: Committee for Purchase From People Who Are Blind or Severely Disabled

ACTION: Additions to the procurement list.

SUMMARY: This action adds to the Procurement List services to be furnished by nonprofit agencies employing persons who are blind or have other severe disabilities.

DATES: *Effective Date:* October 16, 2000.

ADDRESSES: Committee for Purchase From People Who Are Blind or Severely Disabled, Jefferson Plaza 2, Suite 10800,

1421 Jefferson Davis Highway, Arlington, Virginia 22202-3259.

FOR FURTHER INFORMATION CONTACT:

Louis R. Bartalot (703) 603-7740

SUPPLEMENTARY INFORMATION: On September 24, 1999, July 21 and 28, and August 4, 2000, the Committee for Purchase From People Who Are Blind or Severely Disabled published notices (64 FR 51736 and 65 FR 45358, 46425 and 47949) of proposed additions to the Procurement List.

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the services and impact of the additions on the current or most recent contractors, the Committee has determined that the services listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46-48c and 41 CFR 51-2.4. I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or other compliance requirements for small entities other than the small organizations that will furnish the services to the Government.

2. The action will not have a severe economic impact on current contractors for the services.

3. The action will result in authorizing small entities to furnish the services to the Government.

4. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 46-48c) in connection with the services proposed for addition to the Procurement List.

Accordingly, the following services are hereby added to the Procurement List:

Administrative/General Support Services

Department of the Army, Office of the Surgeon General, 5111 Leesburg Pike, Room 538, Falls Church, Virginia

Base Supply Center

Wright-Patterson Air Force Base, Ohio

Grounds Maintenance

Base Housing, Marine Corps Air Station, Cherry Point, North Carolina

Hearing/Grievance Examiner Services

The Corporation for National & Community Service, 1201 New York Avenue, NW, Washington, DC

Janitorial/Custodial

Naval and Marine Corps Reserve Center,
3655 S. Wilmot Road, Tucson,
Arizona

Janitorial/Custodial

Youth Center (Ch-905), New Submarine
Base New London, Groton,
Connecticut

Laundry Service

Linen Exchange, Building 426, March
Air Force Base, California

Parking Facility Attendant

VA Medical Center, 2215 Fuller Road,
Ann Arbor, Michigan

Switchboard Operation

Harry S. Truman Memorial Veterans'
Hospital, Columbia, Missouri

This action does not affect current
contracts awarded prior to the effective
date of this addition or options that may
be exercised under those contracts.

G. John Heyer,

General Counsel.

[FR Doc. 00-23791 Filed 9-14-00; 8:45 am]

BILLING CODE 6353-01-P

COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED

Procurement List; Proposed Additions

AGENCY: Committee for Purchase From
People Who Are Blind or Severely
Disabled.

ACTION: Proposed additions to
procurement list.

SUMMARY: The Committee has received
proposals to add to the Procurement List
services to be furnished by nonprofit
agencies employing persons who are
blind or have other severe disabilities.

DATES: Comments must be received on
or before October 16, 2000.

ADDRESS: Committee for Purchase From
People Who Are Blind or Severely
Disabled, Jefferson Plaza 2, Suite 10800,
1421 Jefferson Davis Highway,
Arlington, Virginia 22202-3259.

FOR FURTHER INFORMATION CONTACT:
Louis R. Bartalot (703) 603-7740

SUPPLEMENTARY INFORMATION: This
notice is published pursuant to 41
U.S.C. 47(a)(2) and 41 CFR 51-2.3. Its
purpose is to provide interested persons
an opportunity to submit comments on
the possible impact of the proposed
actions.

If the Committee approves the
proposed additions, all entities of the
Federal Government (except as
otherwise indicated) will be required to

procure the services listed below from
nonprofit agencies employing persons
who are blind or have other severe
disabilities.

I certify that the following action will
not have a significant impact on a
substantial number of small entities.
The major factors considered for this
certification were:

1. The action will not result in any
additional reporting, recordkeeping or
other compliance requirements for small
entities other than the small
organizations that will furnish the
services to the Government.

2. The action will result in
authorizing small entities to furnish the
services to the Government.

3. There are no known regulatory
alternatives which would accomplish
the objectives of the Javits-Wagner-
O'Day Act (41 U.S.C. 46-48c) in
connection with the services proposed
for addition to the Procurement List.
Comments on this certification are
invited. Commenters should identify the
statement(s) underlying the certification
on which they are providing additional
information.

The following services have been
proposed for addition to Procurement
List for production by the nonprofit
agencies listed:

Janitorial/Custodial

Department of Veterans Affairs, BRECC VA
Clinic, 3800 Loch Raven Boulevard,
Baltimore, Maryland

NPA: Baltimore Association for Retarded
Citizens, Inc., Baltimore, Maryland
U.S. Department of Commerce, National
Weather Service, 2001 North West 56th
Drive, Pendleton, Oregon
NPA: Horizon Project, Inc., Milton
Freewater, Oregon

Janitorial/Grounds Maintenance

U.S. Army Reserve Center, 1650 Corey
Boulevard, Decatur, Georgia
NPA: Bobby Dodd Industries, Inc., Atlanta,
Georgia

Mailroom Operation

New Orleans Strategic Petroleum Reserve
(SPR) Sites, New Orleans, Louisiana,
NPA: Goodworks, Inc., New Orleans,
Louisiana

Switchboard Operation

Department of Justice, FBI Academy,
Quantico, Virginia
NPA: Rappahannock Goodwill Industries,
Inc., Fredericksburg, Virginia

G. John Heyer,

General Counsel.

International Trade Administration

[A-588-806]

Electrolytic Manganese Dioxide From Japan: Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration,
International Trade Administration,
Department of Commerce.

ACTION: Notice of Final Results of
Antidumping Duty Administrative
Review.

SUMMARY: On May 8, 2000, the
Department of Commerce published the
preliminary results of administrative
review of the antidumping duty order
on electrolytic manganese dioxide from
Japan. The review covers one producer/
exporter, Tosoh Corporation, during the
period of review April 1, 1998, through
March 31, 1999.

We gave interested parties an
opportunity to comment on the
preliminary results. Based on our
analysis of the comments received, we
made no changes for the final results.
The review indicates the existence of no
dumping margins for Tosoh
Corporations during this period.

DATE: September 15, 2000.

FOR FURTHER INFORMATION CONTACT:

Hermes Pinilla, Karin Ryerson, or
Richard Rimlinger, Office of AD/CVD
Enforcement 3, Import Administration,
International Trade Administration,
U.S. Department of Commerce,
Washington, DC 20230; telephone: (202)
482-3477, (202) 482-3174 or (202) 482-
4477; respectively.

SUPPLEMENTARY INFORMATION:

The Applicable Statute and Regulations

Unless otherwise indicated, all
citations to the Tariff Act of 1930, as
amended (the Act) are references to the
provisions effective January 1, 1995, the
effective date of the amendments made
to the Act, by the Uruguay Round
Agreement Act (URAA). In addition,
unless otherwise indicated, all citations
to the Department of Commerce's (the
Departments) regulations are to 19 CFR
Part 351 (1999).

Background

On May 8, 2000, the Department
published in the **Federal Register** the
preliminary results of the administrative
review of the antidumping duty order
on electrolytic manganese dioxide
(EMD) from Japan. See *Preliminary
Results of Antidumping Duty
Administrative Review: Electrolytic
Manganese Dioxide from Japan*, 65 FR

265780 (Preliminary Results). Kerr-McGee Chemical LLC and Chemetals, Inc. (collectively "the petitioners"), submitted their case briefs on June 7, 2000. Tosoh Corporation (Tosoh), the sole respondent in this review, submitted its case brief on June 7, 2000. Both the petitioners and Tosoh submitted their rebuttal on June 12, 2000. The Department has conducted this administrative review in accordance with section 751 of the Act.

Scope of Review

Imports covered by this review are shipments of EMD from Japan. EMD is manganese dioxide (MnO₂) that has been refined in an electrolysis process. The subject merchandise is an intermediate product used in the production of dry-cell batteries. EMD is sold in three physical forms, powder, chip or plate, and two grades, alkaline and zinc chloride. EMD is all three forms and both grades is included in the scope of the order. This merchandise is currently classifiable under item number 2820.10.0000 of the Harmonized Tariff Schedule of the United States (HTSUS). The HTSUS number is provided for convenience and customs purposes. It is not determinative of the products subject to the order. The written product description remains dispositive.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs by the petitioners and Tosoh are addressed in the "Issues and Decision Memorandum" (Decision Memo) from Richard W. Moreland, Deputy Assistant Secretary to Troy H. Cribb, Acting Secretary, dated September 5, 2000, which is hereby adopted by this notice. A list of issues which parties have raised and to which we have responded, all of which are in the Decision Memo, is attached to this notice as an appendix. This Decision Memo, which is a public document, is on the file in the Central Records Unit, Main Commerce Building, Room B-099, and is accessible on the Web at www.ia.ita.doc.gov. The paper copy and electronic version of the Decision Memo are identical in content.

Sunset Revocation

On April 20, 2000, the International Trade Commission (ITC), pursuant to section 751(c) of the Act, determined that revocation of the antidumping duty order on EMD from Japan would not be likely to lead to continuation of recurrence of material injury within a reasonably foreseeable time. Therefore, because the order will be revoked as a result of the ITC's determination with

an effective date of January 1, 2000, no deposit requirements will be effective for shipments entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review

Final Results of Review

Based on our analysis of the comments received, we made no changes for the final results. Therefore, the final results of review are the same as those we presented in our preliminary results. We have determined that a weighted-average margin of zero percent exists for Tosoh for the period April 1, 1998, through March 31, 1999.

The Department will issue appraisement instruction directly to the Customs Service.

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

We are issuing and publishing this determination in accordance with sections 751(A)(1) and 777(i)(1) of the Act.

Dated: September 5, 2000.

Troy H. Cribb,

Acting Assistant Secretary for Import Administration.

Comments and Responses

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

International Trade Administration

[A-570-848]

Freshwater Crawfish Tail Meat From the People's Republic of China: Notice of Partial Rescission of New Shipper Antidumping Duty Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of partial rescission of new shipper antidumping duty review

DATES: *Effective Date:* September 15, 2000.

SUMMARY: On June 1, 2000, the Department of Commerce (the Department) published in the **Federal Register** (65 FR 35046) a notice announcing the initiation of four new shipper reviews of the antidumping duty order on freshwater crawfish tail meat (crawfish) from the People's Republic of China (PRC), covering the period September 1, 1999 through February 29, 2000. One new shipper review is now being rescinded as a result of the withdrawal of request for a new shipper antidumping duty review by Rizhao Riyuan Marine and Food Products Co., Ltd. (Rizhao Riyuan).

FOR FURTHER INFORMATION CONTACT:

Thomas Gilgunn, AD/CVD Enforcement Group III, Import Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230, telephone: (202) 482-0648.

SUPPLEMENTARY INFORMATION:

Background

On March 29, 2000, Rizhao Riyuan, an exporter of the subject merchandise, requested a new shipper review of the antidumping duty order on crawfish from the PRC in accordance with 19 CFR 351.214(b). On June 1, 2000, in accordance with 19 CFR 351.221(c)(1)(i), we initiated a new shipper review of this order for the period September 1, 1999 through February 29, 2000. On July 11, 2000, Rizhao Riyuan withdrew its request for this review.

Rescission of Review

The Department's regulations at 19 CFR 351.214(f)(1) provide that a party may withdraw its request for a new shipper review within 60 days of the date of publication of the notice of initiation of the requested review. Rizhao Riyuan's request for withdrawal was made within the 60 day period. Rescission of this review would not prejudice any party in this proceeding, as Rizhao Riyuan would continue to be included in the PRC-wide rate to which it was subject at the time of its request for this new shipper review. Rizhao Riyuan is the only party that requested a review of its sales for the period September 1, 1999 through February 29, 2000, and no other party has objected to its withdrawal of that request. Therefore, we are rescinding this review. This determination is issued and published in accordance with section 751 of the Tariff Act of 1930, as amended (19 U.S.C. 1675) and 19 CFR 351.214(f).

Dated: August 7, 2000.

Joseph A. Spetrini,

*Deputy Assistant Secretary, AD/CVD
Enforcement III.*

[A-570-501]

Natural Bristle Paint Brushes and Brush Heads From the People's Republic of China: Amended Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration,
International Trade Administration,
U.S. Department of Commerce.

ACTION: Notice of amended final results
of administrative review: natural bristle
paint brushes and brush heads from the
People's Republic of China.

DATES: *Effective Date:* September 15,
2000.

FOR FURTHER INFORMATION CONTACT:

Sarah Ellerman or Maureen Flannery,
Antidumping/Countervailing Duty
Enforcement, Import Administration,
International Trade Administration,
U.S. Department of Commerce, 14th
Street and Constitution Avenue, NW.,
Washington, DC 20230; telephone (202)
482-4106 or (202) 482-3020,
respectively.

Applicable Statute

Unless otherwise indicated, all
citations to the statute are references to
the provisions effective January 1, 1995,
the effective date of the amendments
made to the Tariff Act of 1930 (the Act)
by the Uruguay Round Agreements Act
(URAA). In addition, unless otherwise
indicated, all citations to the
Department's regulations are to the
provisions codified at 19 CFR part 351
(1999).

Scope of Review

Imports covered by this review are
shipments of natural bristle paint
brushes and brush heads from the PRC.
Excluded from the review are paint
brushes and brush heads with a blend
of 40% natural bristles and 60%
synthetic filaments. The merchandise
under review is currently classifiable
under item 9603.40.40.40 of the
Harmonized Tariff Schedule of the
United States (HTSUS). Although the
HTSUS subheading is provided for
convenience and customs purposes, the
Department's written description of the
merchandise is dispositive.

Background

On July 25, 2000, the Department
published the final results of its
administrative review of the
antidumping duty order on natural
bristle paint brushes and paint brush
heads from the People's Republic of
China (65 FR 45753). This review covers
two manufacturers/exporters of the
subject merchandise, Hebei Founder
Import & Export Company (Founder)
and Hunan Provincial Native Produce &
Animal By-Products Import & Export
Corporation (Hunan), for the period
February 1, 1998 through January 31,
1999. The petitioner is the Paint
Applicator Division of the American
Brush Manufacturers Association
(petitioner). After publication of our
final results, we received timely
allegations from both Founder and
petitioner that we made ministerial
errors in calculating the final results of
review. In addition, petitioner made a
timely response to Founder's ministerial
error allegation. We agree that
ministerial errors were made and have
corrected our calculations in accordance
with section 751 (h) of the Tariff Act.

Analysis of Ministerial Error Allegations Received From Interested Parties

As defined by section 751(h) of the
Act, the term ministerial error includes
errors "in addition, subtraction, or other
arithmetic function, clerical errors
resulting from inaccurate copying,
duplication, or the like, and any other
type of unintentional error which the
[Department] considers ministerial."

We received one ministerial error
allegation from Founder stating that the
Department calculated the cost of inland
freight for Founder on a per-kilogram
basis rather than on a per-brush basis.
Founder argues that, in order to correct
this error, the Department should divide
the cost per kilogram by the weight of
the two-inch and four-inch brush,
respectively, to determine the inland
freight cost per brush. Petitioner
counters that, if the Department
determined that it made a ministerial
error in its calculation of inland freight,
then the Department should not adopt
Founder's proposed correction because
Founder's proposed correction would
fail to account for the packed weight of
each brush. Petitioner argues that the
cost of inland freight should be based on
packed weight because the brushes are
shipped from the factory to the port in
packaged form. Thus, petitioner
contends that the Department should
add the per-unit weights of poly-bags,
boxes, and cartons to the weight of each

brush before calculating a weight-based,
per-unit inland freight cost.

We agree with Founder that we
calculated the cost of inland freight on
a per-kilogram basis, rather than on a
per-piece basis; however, we disagree
with Founder's methodology to rectify
this error. Rather than divide the cost
per kilogram by the weight of the two-
inch and four-inch brush respectively,
we should multiply the cost per
kilogram by the weight of the two-inch
and four-inch brushes, thereby deriving
a cost per brush. In addition, we agree
with petitioner that Founder's
methodology fails to account for the
packed weight of each brush. Therefore,
we have added the per-unit weights of
poly-bags, boxes, and cartons to the
weight of the individual brush to base
the cost of inland freight on packed
weights. We have subsequently made
these changes to the calculations for
both the two-inch and four-inch brushes
for the amended final results. For
further information with regard to the
changes made in our calculations, see
*Memorandum to the File from Michael
Strollo through Maureen Flannery:
Analysis of Hebei Founder Import and
Export Corp. (Founder) for the Amended
Final Results of Review of Natural
Bristle Paintbrushes and Brush Heads
from the People's Republic of China
(Founder Amended Analysis Memo)*,
dated August XX, 2000.

We also received ministerial error
allegations from petitioner. Petitioner
stated that (1) the Department did not
use the most current wage rates for
valuing both manufacturing and packing
labor, and (2) the Department did not
implement its intentions with respect to
the valuation of wooden core for
respondent Founder. Petitioner
contends that, after case and rebuttal
briefs were filed in this review, the
Department published an updated wage
rate of \$0.80 for China based on 1998
data. Petitioner maintains that this is the
most current and contemporaneous
wage rate that is available to value labor.
Therefore, petitioner argues that,
consistent with the regulations, the
Department should amend the final
results to incorporate the most current
wage rate data.

With regard to the Department's
valuation of Founder's wooden core,
petitioner refers to the *Memorandum to
the File from Mike Strollo through
Maureen Flannery: Analysis of Hebei
Animal By-Product Import/Export
Corp., now Hebei Founder Import and
Export Corp. (Founder), for the Final
Results of Review of Natural Bristle
Paintbrushes and Brush Heads from the
People's Republic of China*, dated July
13, 2000. In that memorandum, the

Department stated that, as facts available, it intended to use the surrogate value for bristles to value the bristle/wooden core factor for both the two-inch and four-inch brushes weighed during the verification of Founder. Petitioner contends, however, that the Department valued the weight of the bristle, using the same weights for the final results that it used in the preliminary results.

We agree with petitioner that the Department unintentionally failed to use the most current wage rates for valuing labor for both Founder and Hunan. Since a more current wage rate is publicly available at the Import Administration web-site, we should have updated our analysis for the final results to reflect the most current data. We also agree with petitioner that we failed to properly implement its intentions with respect to the valuation of wooden core for Founder. We have made these suggested corrections for the amended final results. For more information on these changes with respect to the revised calculations of weighted-average dumping margins, please refer to the *Founder Amended Analysis Memo and Memorandum to the File from Michael Strollo through Maureen Flannery: Analysis of Hunan Provincial Native Produce & Animal By-Products Import & Export Corp. (Hunan) for the Amended Final Results of Review of Natural Bristle Paintbrushes and Brush Heads from the People's Republic of China*, dated August 24, 2000.

Amended Final Results of Review

As a result of correcting these ministerial errors, we have revised our final results and determine that the following weighted-average margins exist for the period February 1, 1998 through January 31, 1999:

Manufacturer/exporter	Margin (percent)
Hunan Provincial Native Produce & Animal By-Products Import & Export Corp. ...	0.00
Hebei Founder Import & Export Company	32.74
PRC-Wide Rate	351.92

Accordingly, the Department will determine, and the Customs Service will assess, antidumping duties on all entries of subject merchandise from Hunan and Founder in accordance with these amended final results. For assessment purposes, we have calculated importer-specific duty assessment rates for each class or kind of merchandise based on the ratio of the total amount of antidumping duties calculated for the

examined sales during the period of review (POR) to the total quantity of sales examined during the POR. The Department will issue appraisal instructions directly to Customs.

Amended Cash Deposit Requirements

The following amended deposit requirements will be effective upon publication of this notice of amended final results of administrative review for all shipments of natural bristle paint brushes and paint brush heads from the PRC entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a)(2)(c) of the Act: (1) The cash deposit rates for the reviewed companies will be the rates shown above except that, for firms whose weighted-average margins are less than 0.5 percent and therefore de minimis, the Department shall require no deposit of estimated antidumping duties; (2) for previously-reviewed PRC and non-PRC exporters with separate rates, the cash deposit rate will be the company-specific rate established for the most recent period; (3) for all other PRC exporters, the cash deposit rate will be the PRC-wide rate, 351.92 percent; and (4) for all other non-PRC exporters of the subject merchandise, the cash deposit rate will be the rate applicable to the PRC supplier of that exporter.

This amended final results of administrative review and notice are in accordance with section 751(a)(1) and section 777(i) of the Act.

Dated: August 22, 2000.

Troy H. Cribb,

Acting Assistant Secretary for Import Administration

International Trade Administration

[A-533-809]

Certain Stainless Steel Flanges From India: New Shipper Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Preliminary results of new shipper review.

SUMMARY: The Department of Commerce (the Department) is conducting a new shipper review of the antidumping duty order on certain forged stainless steel flanges from India in response to a request by an Indian exporter of subject merchandise, Bhansali Ferromet Pvt. Ltd. (Bhansali). This review covers

shipments of this merchandise to the United States during the period of August 1, 1998 through July 31, 1999.

We have preliminarily determined that sales have been made below normal value (NV). If these preliminary results are adopted in our final results, we will instruct the U.S. Customs Service to assess antidumping duties on entries subject to this review. Interested parties are invited to comment on these preliminary results, and are requested to submit with the argument: (1) A statement of the issue; and (2) a brief summary of the argument.

EFFECTIVE DATE: September 15, 2000.

FOR FURTHER INFORMATION CONTACT:

Thomas Killiam or Robert James, AD/CVD Enforcement Group III, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, D.C. 20230, telephone: (202) 482-5222 or (202) 482-0649, respectively.

SUPPLEMENTARY INFORMATION:

Applicable Statute and Regulations

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended (the Tariff Act), are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act by the Uruguay Round Agreements Act. In addition, unless otherwise indicated, all references to the Department's regulations are to 19 CFR part 351 (1999).

Background

The Department published an antidumping duty order on certain forged stainless steel flanges from India on February 9, 1994 (59 FR 5994), received a timely request for a new shipper review from Bhansali, and initiated this review on (65 FR 8120; February 10, 2000) pursuant to section 751(a)(2)(B) of the Tariff Act and section 351.214(b) of the Department's regulations. The Department extended the deadline for completion of the new shipper review on June 14, 2000 (65 FR 37359). Bhansali provided responses to the Department's questionnaires on March 8, 2000 (Section A), April 5, 2000 (Sections B and C), May 15, 2000, and July 24, 2000 (supplemental questionnaires). The Department's analysis of Bhansali's data is presented in full in a Memorandum from the Case Analyst to the file, dated September 5, 2000, "Analysis of data of Bhansali Ferromet Pvt. Ltd. (Bhansali) for the preliminary results of the new shipper review of certain stainless steel flanges

from India, 8/1/98–7/31/99” (Analysis Memo).

Scope of Review

The products under review are certain forged stainless steel flanges (hereafter, “flanges”) from India, both finished and not finished, generally manufactured to specification ASTM A–182, and made in alloys such as 304, 304L, 316, and 316L. The scope includes five general types of flanges. They are weld neck, used for butt-weld line connection; threaded, used for threaded line connections; slip-on and lap joint, used with stub-ends/butt-weld line connections; socket weld, used to fit pipe into a machined recession; and blind, used to seal off a line. The sizes of the flanges within the scope range generally from one to six inches; however, all sizes of the above-described merchandise are included in the scope. Specifically excluded from the scope of this order are cast stainless steel flanges. Cast stainless steel flanges generally are manufactured to specification ASTM A–351. The flanges subject to this order are currently classifiable under subheadings 7307.21.1000 and 7307.21.5000 of the HTSUS. Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the merchandise under review is dispositive of whether or not the merchandise is covered by the review.

United States Price

Bhansali reported as export price (EP) transactions sales of subject merchandise to unaffiliated U.S. customers prior to importation. We calculated EP in accordance with section 772(a) of the Tariff Act, because the merchandise was sold to the first unaffiliated purchaser in the United States prior to importation and constructed export price (CEP) methodology was not otherwise warranted, based on the facts of record. We based EP on the FOB price to unaffiliated purchasers in the United States. We adjusted the starting price by the amount Bhansali reported for early payment discounts, and movement in accordance with section 772(c)(2)(A) of the Tariff Act. *See the Analysis Memo.*

Home Market Viability

In order to determine whether there is a sufficient volume of sales in the home market to serve as a viable basis for calculating NV (*i.e.*, the aggregate volume of home market sales of the foreign like product is equal to or greater than five percent of the aggregate volume of U.S. sales), we compared

Bhansali’s volume of home market sales of the foreign like product to the volume of U.S. sales of the subject merchandise, in accordance with section 773(a)(1)(C) of the Tariff Act. Because Bhansali’s aggregate volume of home market sales of the foreign like product was greater than five percent of its aggregate volume of U.S. sales for the subject merchandise, we determined that the home market was viable for Bhansali.

Level of Trade

In accordance with section 773(a)(1)(B) of the Tariff Act, to the extent practicable, we determine NV based on sales in the comparison market at the same level of trade (LOT) as the EP or CEP transaction. The LOT in the home market is that of the starting-price sales in the comparison market or, when NV is based on constructed value (CV), that of the sales from which we derive selling, general and administrative (SG&A) expenses and profit. With respect to U.S. price for EP transactions, the LOT is also the level of the starting-price sale, which is usually from the exporter to the importer. For CEP, the LOT is the level of the constructed sale from the exporter to the importer.

To determine whether NV sales are at a different LOT than EP or CEP, we examine stages in the marketing process and selling functions along the chain of distribution between the producer and the unaffiliated customer. If the comparison-market sales are at a different LOT and the difference affects price comparability, as manifested in a pattern of consistent price differences between the sales on which NV is based and home market sales at the LOT of the export transaction, we make a LOT adjustment under section 773(a)(7)(A) of the Tariff Act. Finally, for CEP sales, if the NV level is more remote from the factory than the CEP level and there is no basis for determining whether the difference in the levels between NV and CEP affects price comparability, we adjust NV under section 773(a)(7)(B) of the Tariff Act (the CEP-offset provision). *See Notice of Final Determination of Sales at Less Than Fair Value: Certain Cut-to-Length Carbon Steel Plate from South Africa*, 62 FR 61731 (November 19, 1997).

Bhansali reported one customer category and one channel of distribution (*i.e.*, sales to unaffiliated distributors) for its home market sales. Bhansali reported EP sales in the U.S. market. For EP sales, Bhansali also reported one customer category and one channel of distribution (*i.e.*, direct sales to unaffiliated distributors). Bhansali claimed in its response that its EP sales were made at the same LOT as home

market sales to unaffiliated distributors. For this reason, Bhansali has not requested a LOT adjustment to NV for comparison to its EP sales.

In determining whether separate LOTs actually existed in the home market and U.S. market, we examined whether Bhansali’s sales involved different marketing stages (or their equivalent) based on the channel of distribution, customer categories and selling functions. After reviewing the record evidence, we agree with Bhansali that its home market sales comprise a single LOT.

In analyzing Bhansali’s selling activities for its EP sales, we noted that the sales involved the same selling functions associated with the home market LOT described above. Based upon the record evidence, we have determined that there is one LOT for all EP sales and that it is the same LOT as that in the home market. Accordingly, because we find the U.S. sales and home market sales to be at the same LOT, no LOT adjustment under section 773(a)(7)(A) is warranted.

Price-to-Price Comparisons

We calculated NV based on FOB prices to unaffiliated customers. Bhansali reported no movement expenses for home market sales of similar and identical merchandise. We made adjustments to NV for differences in costs attributable to differences in the physical characteristics of the merchandise, pursuant to section 773(a)(6)(C)(ii) of the Tariff Act. We made adjustments under section 773(a)(6)(C)(iii) of the Tariff Act for differences in circumstances of sale for imputed credit expenses. Bhansali reported having no packing costs in the home market. We added U.S. packing costs to NV in accordance with section 773(a)(6)(A) and (B) of the Tariff Act. *See the Analysis Memo.*

Ordinary Course of Trade

Section 773(a)(1)(B) of the Act states, in part, that normal value (NV) is “the price at which the foreign like product is first sold (or, in absence of a sale, offered for sale) for consumption in the exporting country, in the usual commercial quantities and in the ordinary course of trade.” The purpose of the ordinary-course-of-trade provision “is to prevent dumping margins from being based on sales which are not representative” of the home market. *Thai Pineapple Public Co. v. United States*, 946 F. Supp. 11, 15 (CIT 1996) (quoting *Laclede Steel Co. v. United States*, Slip Op. 95–144 at 6 (CIT Aug. 11, 1995)). Congress has not specified any criteria that the agency

should use in determining the appropriate "conditions and practices." Thus, the Department, "in its discretion, chooses how best to analyze the many factors involved in a determination of whether sales are made within the ordinary course of trade." *Id.* at 14-17. As an example of sales which would be considered outside the ordinary course of trade, the Department's regulations cite "merchandise sold at aberrational prices." 19 CFR 351.102.

Concerning whether all of Bhansali's home market sales were made in the ordinary course of trade, the record evidence indicates that in one case, Bhansali purchased merchandise the same week as it made its U.S. sale of the identical model, then re-sold the home market merchandise two months later at a significant loss, to the same party who had supplied it. We preliminarily determine that because of the exceptional circumstances surrounding this transaction, it was made outside the ordinary course of trade, and we therefore have excluded it from comparison with the U.S. merchandise. See the Analysis Memo.

Constructed Value

In accordance with section 773(e) of the Tariff Act, we calculated CV based on the sum of Bhansali's cost of materials, SG&A, U.S. packing costs, and profits on home market sales. See the Analysis Memo.

Currency Conversion

Pursuant to section 773A(a) of the Tariff Act, we made currency conversions into U.S. dollars based on the exchange rates in effect on the dates of the U.S. sales as certified by the Federal Reserve Bank.

Preliminary Results

As a result of this review, we preliminarily determine that a dumping margin of 4.08% exists for Bhansali for the period August 1, 1998 through July 31, 1999.

The Department will disclose calculations performed within five days of the date of publication of this notice in accordance with 19 CFR 351.224(b). A party may request a hearing within thirty days of publication. See 19 CFR 351.310(c). Any hearing, if requested, will be held 37 days after the date of publication, or the first working day thereafter. Interested parties may submit case briefs and/or written comments no later than 30 days after the date of publication. Rebuttal briefs and rebuttals to written comments, limited to issues raised in such briefs or comments, may be filed no later than 35 days after the date of publication. The

Department will issue the final results of this new shipper review, which will include the results of its analysis of issues raised in the briefs, within 90 days of issuance of these preliminary results, unless the time limit is extended.

Upon completion of this new shipper review, the Department shall determine, and Customs shall assess, antidumping duties on all appropriate entries. The Department will issue appraisal instructions directly to Customs. Bhansali did not report entered value; we will calculate Bhansali's duty assessment rate based on the ratio of the total amount of antidumping duties calculated for the examined sales, calculated as the difference between NV and EP, to the total quantity of examined sales. The rate will be assessed uniformly on all entries made during the POR. The Department will issue appraisal instructions directly to Customs.

Furthermore, the following deposit requirements will be effective upon completion of the final results of this new shipper review for all shipments of flanges from India entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this new shipper review, as provided by section 751(a)(1) of the Tariff Act: (1) The cash deposit rate for Bhansali will be the rate established in the final results of this new shipper review; (2) for merchandise exported by manufacturers or exporters not covered in this review but covered in the original less-than-fair-value (LTFV) investigation or a previous review, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, or the original investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) if neither the exporter nor the manufacturer is a firm covered in this or any previous review, the cash deposit rate will be 162.14 percent, the "all-others" rate established in the LTFV investigation.

These deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative or new shipper review for a subsequent review period.

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period.

Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This new shipper review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and 19 CFR 351.213 and 351.214.

Troy H. Cribb,

Acting Assistant Secretary for Import Administration.

Structural Steel Beams From Korea: Initiation of Changed Circumstances Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of Initiation of Changed Circumstances Antidumping Duty Review.

SUMMARY: In accordance with 19 CFR 351.216(b), Northwestern Steel & Wire Company, Nucor-Yamato Steel Company, and TXI-Chaparral Steel, Inc. ("Petitioners"), interested parties in this proceeding and the petitioners in the less-than-fair value investigation of structural steel beams from Korea, requested a changed circumstances review. In response to this request, the Department of Commerce is initiating a changed circumstances review on structural steel beams from Korea.

EFFECTIVE DATE: September 15, 2000.

FOR FURTHER INFORMATION CONTACT: Stephen Shin or Laurel LaCivita, Office of AD/CVD Enforcement Group III, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230; telephone: (202) 482-0413 or (202) 482-4243, respectively.

The Applicable Statute and Regulations

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended ("the Act"), are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act ("URAA"). In addition, unless otherwise indicated, all citations

to the Department of Commerce's ("the Department's") regulations are to the regulations at 19 CFR Part 351 (1999).

SUPPLEMENTARY INFORMATION:

Background

On July, 5 2000, the Department published the final determination of sales at less than fair value of structural steel beams from Korea. *See Final Determination of Sales at Less Than Fair Value: Structural Steel Beams from Korea*, 65 FR 41437 (July 5, 2000) (as amended 65 FR 50501 (August 18, 2000)) ("Final Determination"). On August 18, 2000, the Department published the antidumping duty order on this product. *See Structural Steel Beams from Korea: Notice of Antidumping Duty Order* 65 FR 50502 (August 18, 2000). In an August 30, 2000 letter to the Department, petitioners requested that the Department conduct a changed circumstances review pursuant to section 751(b)(1) of the Act. Petitioners state that Incheon Iron & Steel Co. Ltd. ("Inchon") and Kangwon Industries, Ltd. ("Kangwon"), respondents in the original investigation in the above-mentioned proceeding, completed a merger of their steel-making operations during the Department's antidumping duty investigation, but subsequent to the period of investigation. Petitioners state that the newly formed company is the successor-in-interest to Incheon and Kangwon, and hence, should be subject to a new duty deposit rate.

Scope of Review

The products covered by this investigation are doubly-symmetric shapes, whether hot-or cold-rolled, drawn, extruded, formed or finished, having at least one dimension of at least 80 mm (3.2 inches or more), whether of carbon or alloy (other than stainless) steel, and whether or not drilled, punched, notched, painted, coated or clad. These products include, but are not limited to, wide-flange beams ("W" shapes), bearing piles ("HP" shapes), standard beams ("S" or "I" shapes), and M-shapes.

All products that meet the physical and metallurgical descriptions provided above are within the scope of this investigation unless otherwise excluded. The following products are outside and/or specifically excluded from the scope of this investigation: structural steel beams greater than 400 pounds per linear foot or with a web or section height (also known as depth) over 40 inches.

The merchandise subject to this investigation is classified in the Harmonized Tariff Schedule of the

United States ("HTSUS") at subheadings: 7216.32.0000, 7216.33.0030, 7216.33.0060, 7216.33.0090, 7216.50.0000, 7216.61.0000, 7216.69.0000, 7216.91.0000, 7216.99.0000, 7228.70.3040, 7228.70.6000. Although the HTSUS subheadings are provided for convenience and Customs purposes, the written description of the merchandise under investigation is dispositive.

Initiation of Antidumping Duty Changed-Circumstances Review

Pursuant to section 751(b)(1) of the Act, the Department will conduct a changed circumstances review upon receipt of information concerning, or a request from an interested party of, an antidumping duty order which shows changed circumstances sufficient to warrant a review of the order.

In its request for a changed circumstances review, petitioners indicate that the newly formed corporation is the successor in interest to Incheon and Kangwon due to the merger of their operations. In addition, the Department noted in its Issues and Decision Memorandum that accompanied the Final Determination that "Since the merger between Incheon and Kangwon took place after the POI, and after the preliminary determination in this investigation, the Department has not addressed the issue of successorship at this time * * * however, in light of the information obtained in this investigation regarding the issue of successorship, we would consider a request for a changed circumstances review in the event that an antidumping order is issued in this case." *See the Issues and Decision Memorandum at Comment 29*, which accompanied the Final Determination. Because deposit rates established in an investigation are company-specific, and because the merger raises the question of whether the deposit rates set in the investigation are appropriate given the merger of operations between Incheon and Kangwon, we find good cause to conduct a changed circumstances review. *See 19 CFR 351.216(c)*. Therefore, in accordance with section 751(b)(1) of the Act and 19 CFR 351.216(b) and 351.221(b)(1), we are initiating a changed circumstances review based upon the information contained in petitioners' August 30, 2000 request for this review.

In making a successor-in-interest determination, the Department examines several factors including, but not limited to, the following changes: (1) Management; (2) production facilities; (3) supplier relationships; and (4)

customer base. *See, e.g., Brass Sheet and Strip from Canada; Final Results of Antidumping Duty Administrative Review*, 57 FR 20460 (May 13, 1992) (*Canadian Brass*). Although petitioners claim that the newly merged company is the successor-in-interest, petitioners have not, at this stage, provided any supporting documentation relevant to the factors described above. Therefore, we will consider additional information concerning Incheon's and Kangwon's merger.

We will publish in the **Federal Register** a notice of preliminary results of antidumping duty changed circumstances review, in accordance with 19 CFR 351.221(b)(4) and 351.221(c)(3)(i), which will set forth the factual and legal conclusions upon which our preliminary results are based and a description of any action proposed based on those results. As per 351.221(b)(4), interested parties will have an opportunity to comment. The Department will issue its final results of review not later than 270 days after publication of this notice of initiation. All written comments must be submitted to the Department and served on all interested parties on the Department's service list in accordance with 19 CFR 351.303.

During the course of this changed circumstances review, the current requirement for a cash deposit of estimated antidumping duties on all subject merchandise, including the merchandise subject to this changed-circumstances review, will continue unless and until it is modified pursuant to the final results of this changed circumstances review.

This notice is in accordance with section 751(b)(1) of the Act and 19 CFR 351.216 and 351.221.

Troy H. Cribb,

Acting Assistant Secretary for Import Administration.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 091200A]

Submission For OMB Review; Comment Request.

The Department of Commerce has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the

Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).
Title: Observer Program for Catcher Vessels in the Pacific Coast Groundfish Fishery.

Form Number(s): None.

OMB Approval Number: None.

Type of Request: Regular submission.

Burden Hours: 3,451.

Number of Respondents: 2,116.

Average Hours Per Response: 5 minutes.

Needs and Uses: This data collection would require that a representative (owner, operator, or manager) for selected catcher vessels participating in the Pacific Coast Groundfish Fishery provide NMFS with notification at least 24 hours before departure for a fishing trip and notification when the vessel ceases to participate in the observed portion of the fleet. The information will be used to plan for fishery observer assignments.

Affected Public: Business and other for-profit organizations.

Frequency: On occasion.

Respondent's Obligation: Mandatory.

OMB Desk Officer: David Rostker, (202) 395-3897.

Copies of the above information collection proposal can be obtained by calling or writing Madeleine Clayton, Departmental Forms Clearance Officer, (202) 482-3129, Department of Commerce, Room 6086, 14th and Constitution Avenue, NW, Washington, DC 20230 (or via the Internet at MClayton@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to David Rostker, OMB Desk Officer, Room 10202, New Executive Office Building, Washington, DC 20503.

Dated: September 8, 2000.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

Department of the Air Force

Air Force Academy Board of Visitors Meeting

Pursuant to Section 9355, Title 10, United States Code, the Air Force Academy Board of Visitors will meet at the U.S. Air Force Academy, Colorado (CO), November 9-11, 2000. The purpose of the meeting is to consider morale and discipline, the curriculum instruction, physical equipment, fiscal affairs, academic methods, and other matters relating to the Academy.

A portion of the meeting will be open to the public while other portions will be closed to the public to discuss matters listed in subsections (2), (4), and (6) of section 552b(c), title 5 United States Code. These closed sessions will include attendance at cadet training programs and discussions with cadets, military staff, and faculty officers involving personal information and opinion, the disclosure of which would result in a clearly unwarranted invasion of personal privacy. Closed sessions will also include executive sessions involving discussions of personal issues, financial topics, and information relating solely to internal personnel rules and practices of the Board of Visitors and the Academy. Closed sessions may also include proprietary information from sources outside the government. Meeting sessions will be held in various facilities throughout the cadet area.

For further information, contact Lt Col Wayne A. Schiefer or Ms Deborah Mercurio, Plans and Current Operations Division, HQ USAFA/XPO, 2304 Cadet

Drive, Suite 300, USAF Academy, CO 80840-5002, 719-333-3933.

Janet A. Long,

Air Force Federal Register Liaison Officer.

BILLING CODE 5001-05-U

DEPARTMENT OF DEFENSE

Department of the Army

Performance Review Boards Membership

AGENCY: Department of the Army, DoD.

ACTION: Notice.

SUMMARY: Notice is given of the names of members of the Performance Review Boards for the Department of the Army.

EFFECTIVE DATE: September 8, 2000.

FOR FURTHER INFORMATION CONTACT:

Nancy Quick, U.S. Army Senior Executive Service Office, Assistant Secretary of the Army (Manpower and Reserve Affairs), 111 Army Pentagon, Washington, DC 20310-0111.

SUPPLEMENTARY INFORMATION: Section 4314(c)(1) through (5) of Title 5, U.S.C., requires each agency to establish, in accordance with regulations, one or more Senior Executive Service performance review boards. The boards shall review and evaluate the initial appraisal of senior executives' performance by supervisors and make recommendations to the appointing authority or rating official relative to the performance of these executives.

The members of the Performance Review Board for the North Atlantic Treaty Organization (NATO) are:

1. MG Joseph G. Garrett III, Principal Director, EURNATO Policy, Office of the Assistant Secretary of Defense, International Security Affairs (OASD/ISA);

2. Mr. Alfred Volkman, Director, Office of the Under Secretary of Defense (Acquisition, Technology and Logistics), International Programs;

3. Mr. Leo G. Michel, Director, NATO Policy;

4. Mr. John A. Berry, Director, Regional Affairs, Office of the Assistant Secretary of Defense, International Security Affairs (OASD/ISA); and

5. Mr. Brendt McConnell, Principal Deputy Secretary of Defense, International Security Affairs (ISA).

Gregory D. Showalter,

Army Federal Register Liaison Officer.

BILLING CODE 3710-08-P

DEPARTMENT OF DEFENSE**Department of Army Corps of Engineers****Intent To Prepare an Environmental Restoration Report and Draft Environmental Impact Statement (DEIS) for the Dents Run Acid Mine Drainage Restoration Project in Elk County, Pennsylvania**

AGENCY: U.S. Army Corps of Engineers, DOD.

ACTION: Notice of Intent.

SUMMARY: In accordance with the National Environmental Policy Act (NEPA), the Baltimore District, U.S. Army Corps of Engineers, has initiated the Dents Run Acid Mine Drainage Feasibility Study in Elk County, Pennsylvania. The study and project construction will be implemented through the Corps' Section 206 Aquatic Ecosystem Restoration Authority of the Continuing Authorities Program. The goal is to provide environmental habitat and water quality benefits for brook trout, other aquatic life, and elk. This study and DEIS will include documentation of baseline conditions; an evaluation of the no action alternative, and active and passive treatment alternative; and an evaluation of the proposed action and associated impacts. The degree of restoration will be determined through an assessment of improvement to pH and habitat diversity; degree of adverse and beneficial impacts to the cultural, environmental, and socio-economic surroundings; and a cost-effectiveness and incremental cost analysis.

FOR FURTHER INFORMATION CONTACT:

Questions about the proposed action and DEIS can be address to Mr. Greg Nielson, Project Manager, Baltimore District, U.S. Army Corps of Engineers, ATTN: CEN AB-PP-C, P.O. Box 1715, Baltimore, Maryland 21203-1715, telephone (410) 962-8111. E-mail address: gregory.j.nielson@usace.army.mil

SUPPLEMENTARY INFORMATION:

1. The study area is the Dents Run watershed, located in Elk County, Pennsylvania. Dents Run is a tributary to the Bennetts Branch of the Sinnemahoning Creek. The Dents Run Preliminary Restoration Plan (PRP) was completed by the Corps in March 1999 and determined that there was both Federal and non-Federal interest in pursuing a feasibility study and implementation of an environmental restoration project to abate acid mine drainage. Previous mining endeavors (both deep and strip mines) as early as

the late 1800's have rendered the streams in the area highly acidic, laden with toxic metals (iron, manganese, and aluminum), and created substantial "dead zones" within the watershed. Aquatic life is nearly non-existent. The PRP identified eight site, primarily along Porcupine Run (a tributary to Dents Run) for possible abatement that would restore over 5 miles of trout and other aquatic species habitat and reclaim over 300 acres of scarred mine lands within the Dents Run Watershed.

2. In June 1999, the Corps began this environmental restoration feasibility study to abate acid mine drainage in cooperation with the Pennsylvania Department of Environmental Protection—Bureau of Abandoned Mine Reclamation and Bureau of Forestry, Pennsylvania Game Commission, U.S. Fish and Wildlife Service, Bennetts Branch Watershed Association, and other agencies and organizations. Preliminary alternatives have been identified and are being considered in consultation with all interested agencies and stakeholders. To date, the alternatives analysis is not complete and a recommended plan has not been finalized.

3. Environmental issues will focus on, but are not limited to, effects on air quality, wetlands, water quality; fish and wildlife resources (including threatened and endangered species); hazardous, toxic, and radioactive waste; aesthetic resources; and cultural resources (including archaeological sites and historical architecture). Environmental benefits, costs, and impacts will be examined in detail to determine what level of restoration is needed and justified. The team will evaluate the environmental impacts (both adverse and beneficial) of the proposed actions.

4. The decision to implement these actions will be based on an evaluation of the probable impact of the proposed activities on the public interest, and will also be based on the national concern for protection and utilization of important resources. The benefit that reasonably may be expected to accrue from the proposal will be balanced against the project's reasonably foreseeable costs. The Baltimore District is preparing a DEIS that will describe the impacts of the proposed project on environmental and cultural resources in the study area, and the overall public interest. The DEIS will be in accordance with NEPA and will document all factors that may be relevant to the proposal, including the cumulative effects thereof. If applicable, the DEIS will also apply guidelines issued by the Environmental Protection Agency,

under the authority of Section 404(b)(1) of the Clean Water Act of 1977 (Public Law 95-217).

5. The public involvement program will include meetings and other coordination with interested private individuals and organizations, as well as with concerned Federal, state and local agencies as part of the scoping process. Additional information inviting the public to participate will be provided through print media and mailings.

6. Other participants that will be involved in the study and DEIS process in addition to the Corps, Bennetts Branch Watershed Association, and the Pennsylvania Department of Environmental Protection include the following: The U.S. Environmental Protection Agency, U.S. Fish and Wildlife Service, U.S. Forest Service, U.S. Geological Survey, Natural Resource Conservation Service, U.S. National Park Service, Pennsylvania Fish and Boat Commission, Pennsylvania Audubon Society, and Canaan Valley Institute. The Baltimore District invites potentially affected Federal, state, and local agencies, and other organizations and entities to participate in this study.

8. The Dents Run Environmental Restoration Report and DEIS are tentatively scheduled for public review in December 2000.

Robert W. Lindner,
Chief, Planning Division.

DEPARTMENT OF DEFENSE

Department of the Navy

Notice of Availability of Invention for Licensing; Government-Owned Invention

AGENCY: Department of the Navy, DOD.

ACTION: Notice.

SUMMARY: The inventions listed below are assigned to the United States Government as represented by the Secretary of the Navy and are available for licensing by the Department of the Navy.

U.S. Patent Application Serial No. 09/566,237 entitled "Low Drive Voltage LiNbO₃ Intensity Modulator With Reduced Electrode Loss" (Navy Case No. 79,893).

U.S. Patent Application Serial No. 09/566,238 entitled "Low Loss Coplanar Waveguide Horn For Low Drive Voltage LiNbO₃ Modulators" (Navy Case No. 79,925).

ADDRESSES: Requests for copies of the patent applications cited should be directed to the Naval Research Laboratory, Code 1008.2, 4555 Overlook Avenue, SW, Washington, DC 20375-5320, and must include the Navy Case number.

FOR FURTHER INFORMATION CONTACT:

Catherine M. Cotell, Ph.D., Head, Technology Transfer Office, NRL Code 1004, 4555 Overlook Avenue, SW, Washington, DC 20375-5320, telephone (202) 767-7230.

(Authority: 35 U.S.C. 207, 37 CFR Part 404)

Dated: September 5, 2000.

J.L. Roth,

Lieutenant Commander, Judge Advocate General's Corps, U.S. Navy, Federal Register Liaison Officer.

BILLING CODE 3810-FF-P

DEPARTMENT OF EDUCATION

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

SUMMARY: The Leader, Regulatory Information Management Group, Office of the Chief Information Officer, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before November 14, 2000.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Leader, Regulatory Information Management Group, Office of the Chief Information Officer, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g., new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might be Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the

burden of this collection on the respondents, including through the use of information technology.

Dated: September 11, 2000.

John Tressler,

*Leader, Regulatory Information Management,
Office of the Chief Information Officer.*

Office of Postsecondary Education

Type of Review: Revision

Title: The Evaluation of Exchange, Language, International and Area Studies (EELIAS), National Resource Centers (NRC), Foreign Language and Area Studies (FLAS) and Institute for International Public Policy (IIPP), Undergraduate International Studies and Foreign Language (UISFL) Program (JS)

Frequency: Annually

Affected Public: Not-for-profit institutions; individuals or household

Reporting and Recordkeeping Hour Burden:

Responses: 60

Burden Hours: 2,100

Abstract: This fourth program, UISFL, is being added for clearance to the system that already contains the other three. Information collection assists the Office of International Education and Graduate Programs Service (OIEGPS) in meeting program planning and evaluation requirements. Program officers require performance information to justify continuation funding, and grantees use this information for self evaluations and to request continuation funding from ED.

Requests for copies of the proposed information collection request may be accessed from <http://edicsweb.ed.gov>, or should be addressed to Vivian Reese, Department of Education, 400 Maryland Avenue, SW, Room 4050, Regional Office Building 3, Washington, D.C. 20202-4651. Requests may also be electronically mailed to the internet address OCIO_IMG_Issues@ed.gov or faxed to 202-708-9346. Please specify the complete title of the information collection when making your request. Comments regarding burden and/or the collection activity requirements should be directed to SCHUBART at (202) 708-9266. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

[FR Doc. 00-23722 Filed 9-14-00; 8:45 am]

BILLING CODE 4000-01-M

DEPARTMENT OF ENERGY

Oakland Operations Office; Energy Technology Engineering Center Environmental Restoration and Waste Management Activities

AGENCY: Oakland Operations Office, Department of Energy.

ACTION: Notice of intent to prepare an environmental assessment and hold public scoping meetings.

SUMMARY: The Department of Energy (DOE) Oakland Operations Office (OAK) is announcing its intent to prepare an Environmental Assessment (EA) to evaluate the environmental effects of the Environmental Restoration Project at the Energy Technology Engineering Center (ETEC). The EA is being prepared in accordance with the Council of Environmental Quality's National Environmental Policy Act (NEPA) Implementing Regulations and the DOE NEPA Implementing Procedures of April 24, 1992, 10 CFR 1021. This notice announces DOE intent to prepare an EA and hold public scoping meetings for the proposed restoration project. This EA will analyze the potential environmental impacts associated with environmental restoration and closure waste management activities.

DATES: The public scoping period begins with the publication of this notice and will continue until October 30, 2000. Written comments postmarked by that date will be considered in the preparation of the EA. Comments postmarked after that date will be considered to the extent practicable.

Public scoping meetings will be held at the two locations and times indicated below. This information will be published in local public notices prior to the meetings.

- (1) Meeting: Woodland Hills, California
Date and time: October 17, 2000, 6 p.m. to 8 p.m.
Location: Warner Center Marriott
Woodland Hills, 21850 Oxnard Street, Woodland Hills, CA 91367
- (2) Meeting: Simi Valley, California
Date and time: October 18, 2000, 9 a.m. to 11 a.m.
Location: Rancho Santa Susana Community Center, 5005-C Los Angeles Avenue, Simi Valley, CA 93063.

Following the review period comments will be considered and changes made as necessary. The final EA will be published and distributed to interested parties. The NEPA process begins with this notice. The draft EA is anticipated to be available in February or March 2001. A forty-five day review

period will be provided for public review following distribution of the draft EA. Review comments will be considered in the development of the final EA that should be distributed in June or July 2001.

ADDRESSES: Written comments on the scope of the EA or requests for information on the activities at ETEC should be sent to the following address: Ms. Donna Sutherland, Document Manager, U.S. Department of Energy, 1301 Clay Street, 700N, Oakland, CA 94612-5208, Phone (510) 637-1563, Facsimile (510) 637-2031.

FOR FURTHER INFORMATION CONTACT: For general information on National Environmental Policy Act process or status of a NEPA review, please contact: Ms. Janet Neville, NEPA Compliance Officer, U.S. Department of Energy Oakland Operations Office, 1301 Clay Street, 700 N, Oakland, CA 94612-5208, Phone: (510) 637-1813, Messages: (510) 637-1813.

SUPPLEMENTARY INFORMATION: The ETEC site is within the Santa Susana Field Laboratory (SSFL) located between the Simi and San Fernando Valley, north of Los Angeles, California. The ETEC site occupies about 90 acres within Area IV of the SSFL. The ETEC site supported DOE projects for nuclear research and energy development. The site includes buildings which house test apparatus for large scale heat transfer and fluid mechanics experiments, mechanical and chemical test facilities, office buildings, and auxiliary support facilities. The ETEC site is surplus to the DOE's current mission and is undergoing closure. The site has numerous facilities, including some where chemical and radioactive substances were used. Contamination may exist in structures and the physical media including soils, surface and groundwater. Deactivation of the site includes divestment of assets, remediation of contaminated areas, waste management and site restoration.

This EA will analyze the potential environmental impacts associated with environmental restoration and closure waste management activities. Waste management activities include operation, maintenance and closure of Resource Conservation Recovery Act (RCRA) permitted facilities. The EA will also analyze environmental restoration activities for site-wide soil and groundwater remediation and the decontamination and decommissioning or dismantlement of government buildings and structures. Facilities to be D&D include former radiological facilities, former sodium facilities, and administrative facilities.

This notice announces DOE intent to prepare an EA and hold public scoping meetings for the proposed restoration project. This EA will analyze the potential environmental impacts associated with environmental restoration and closure waste management activities.

The scoping process will include notifying the general public, Federal, state, local, and tribal agencies of the proposed action. The purpose of scoping is to identify public and agency concerns, and alternatives to be considered in the EA. The DOE is preparing this EA to decide whether to issue a Finding of No Significant Impact or whether to prepare an Environmental Impact Statement (EIS). In consideration of the possibility that the DOE will decide to prepare an EIS, a Notice of Intent will be issued and written comments on the scope of alternatives and impacts will still be accepted at that future time. Presently, in preparation of an EA, comments may be submitted in writing and/or orally at the public scoping meeting or in writing prior to the end of the scoping period as indicated in the **DATES** section of this notice.

Issued in Oakland, California, on September 11, 2000.

Donna Sutherland,

Deputy Director, Oakland Environmental Programs Division.

[FR Doc. 00-23879 Filed 9-13-00; 11:59 am]

BILLING CODE 6450-01-M

DEPARTMENT OF ENERGY

Office of Science; Office of Science Financial Assistance Program Notice 00-20; Medical Applications Program

AGENCY: U.S. Department of Energy (DOE).

ACTION: Notice inviting grant applications.

SUMMARY: The Office of Biological and Environmental Research (OBER) of the Office of Science (SC), U.S. Department of Energy (DOE), hereby announces its interest in receiving grant applications to support one specific research area within the Medical Applications Program: Innovative approaches to cell-targeted ablation therapy for cancer with in vivo radiation techniques. The emphasis will be on the therapeutic use of ionizing radiation such as may be achieved with radionuclide therapy or dual step techniques such as boron neutron capture therapy. The specific goals include development of novel ligands and delivery techniques to target and treat cancer at the cellular level.

Special consideration will be given to applications reflecting a well integrated, multidisciplinary team effort of scientists with skills to address such complex challenges as chemical ligand synthesis, tumor targeting, and dosimetry. Access to appropriate tumor models for pre-clinical testing will impact funding considerations.

Applications for clinical trials using already developed compounds and techniques will not be considered.

DATES: Before preparing a formal application, potential applicants are encouraged to submit a brief pre-application. All pre-applications referencing Program Notice 00-20, should be received by DOE by 4:30 p.m., E.D.T., October 16, 2000. A response encouraging or discouraging the submission of a formal application will be communicated by electronic mail within approximately 2 weeks.

Formal applications submitted in response to this Notice must be received by 4:30 p.m., E.S.T., January 5, 2001, to be accepted for merit review and consideration of an award in Fiscal Year 2001.

ADDRESSES: Pre-applications referencing Program Notice 00-20, are to be sent, if possible, by E-mail or Fax to Ms. Sharon Betson (sharon.betson@science.doe.gov; Fax: 301-903-0567). Pre-applications will also be accepted if mailed to the following address: Ms. Sharon Betson, Office of Biological and Environmental Research, SC-73, 19901 Germantown Road, Germantown, MD 20874-1290.

Formal applications referencing Program Notice 00-20, should be forwarded to: U.S. Department of Energy, Office of Science, Grants and Contracts Division, SC-64, 19901 Germantown Road, Germantown, MD 20874-1290, Attn: Program Notice 00-20. This address must also be used when submitting applications by U.S. Postal Service Express Mail or any other commercial overnight delivery service, or hand-carried by the applicant. An original and seven copies of the application must be submitted.

FOR FURTHER INFORMATION CONTACT:

Peter T. Kirchner, MD, or Prem C. Srivastava, Ph.D., Office of Biological and Environmental Research, Medical Sciences Division (SC-73), U.S. Department of Energy, 19901 Germantown Road, Germantown, MD 20874-1290, telephone: (301) 903-3213, FAX: (301) 903-0567, E-mail: peter.kirchner@science.doe.gov or prem.srivastava@science.doe.gov. The full text of Program Notice 00-20 is available via the Internet using the following web site address: <http://www.sc.doe.gov/production/grants/grants.html>.

SUPPLEMENTARY INFORMATION: The Medical Applications Program supports directed nuclear medicine research in the areas of radiopharmaceutical development, molecular nuclear medicine and medical imaging to promote the use of radioisotopes for non-invasive diagnosis and therapy. Selective molecular targeting with radioligands will facilitate the analysis of cellular and tissue function and may enable purposeful disruption of specific cellular functions in tissues requiring therapy. The in-vivo distribution of radiopharmaceuticals and other cell-directed ligands may be defined and monitored with a variety of in-vivo imaging methods, such as the use of gamma cameras, positron emission tomographs (PET), fluorescent techniques and a variety of optical techniques. The development of in-vivo imaging techniques based on cell-targeting should assist reliable differentiation between normal and abnormal tissues at the molecular and/or metabolic levels, ideally leading to the development of more effective therapies and useful monitoring techniques for such therapies. Thus, highly selective substrate-binding molecules, when labeled with high energy-emitting radioisotopes or other noxious or pre-sensitizing agents, can become powerful tools for targeted molecular therapy of cancer.

Basic research in molecular biology has provided new insights to the molecular basis of human disease and its potential molecular targets. DOE's current Molecular Nuclear Medicine Program encourages development of new technologies for molecular delivery of radioisotopes to disease target sites with a high degree of molecular precision, recognition, and target selectivity. The availability of new technology for high resolution imaging of small animals should facilitate the evaluation of new molecular ligands for their potential value and subsequent use in human trials of cancer therapy.

This Notice is to solicit grant applications for developing innovative approaches to cell-targeted ablation therapy for tumors with in vivo radiation techniques. A well integrated team effort by scientists from overlapping disciplines of chemistry, radiopharmaceutical chemistry, cellular and molecular biology, and biological and nuclear medicine imaging will be judged important in the evaluation of submitted research applications. Methodological approaches that can be adapted to deliver more than one type

of radiation or more than one radioisotope to the target sites are encouraged. It will be important for each application to consider also the following objectives:

- (1) Techniques to ensure highly selective tumor targeting by the proposed ligands;
- (2) Efficient screening techniques for selecting candidate ligands for in-vivo testing;
- (3) Preliminary data indicating reasonable likelihood of success for in-vivo targeting of primary tumors and their metastases in pre-clinical animal trials;
- (4) Reliable approaches for dosimetry calculations to normal tissues and to tumor sites based on 3-dimensional modeling;
- (5) Measurement techniques for accurately assessing the success of tumor targeting in vivo;
- (6) Measurement techniques for assessing therapy effects in vivo at the molecular, cellular and metabolic levels.

Program Funding

It is anticipated that up to \$2 million will be available for multiple awards in Fiscal Year 2001 contingent upon the availability of appropriated funds and the scientific merit of the submitted applications. Previous awards have ranged from \$200,000 to \$400,000 per year (direct plus indirect costs) with terms lasting up to three years. Similar award sizes are anticipated for new grants. Applications may request project support up to three years, with out-year support contingent on the availability of appropriated funds, satisfactory progress in the research proposed, and programmatic needs.

Pre-Applications

A brief pre-application should be submitted. The cover sheet of the pre-application should list the title of the project, the institution, and the principal investigator's name, address, telephone, fax, and E-mail address. The pre-application should not exceed two pages (in addition to the cover sheet). It should identify and describe the research objectives, the methods proposed for accomplishment of the research, and the key members of the scientific team responsible for this effort. Pre-applications will be evaluated relative to the scope and objectives of this solicitation.

Merit Review

Applications will be subjected to scientific merit review (peer review) and will be evaluated against the following evaluation criteria listed in descending

order of importance as codified at 10 CFR 605.10(d):

1. Scientific and/or Technical Merit of the Project
 2. Appropriateness of the Proposed Approach and Methods
 3. Competency of the Research Team and Adequacy of Available Resources
 4. Justification of the Proposed Budget
- The evaluation will include program policy factors such as the relevance of the proposed research to the terms of the announcement and the agency's programmatic needs. It should be noted that external peer reviewers are selected on the basis of their scientific expertise and the absence of conflict-of-interest issues. Non-federal reviewers may be used, and submission of an application constitutes agreement that this review process is acceptable to the investigator(s) and the submitting institution.

Submission Information

Information about the development, submission of applications, eligibility, limitations, evaluation, the selection process, and other policies and procedures may be found in 10 CFR Part 605, and in the Application Guide for the Office of Science Financial Assistance Program.

Electronic access to the Guide and required forms is made available via the World Wide Web at: <http://www.sc.doe.gov/production/grants/grants.html>. DOE is under no obligation to pay for any costs associated with the preparation or submission of applications if an award is not made. In addition, in response to this Notice, the Project Description must be 25 pages or less, exclusive of attachments, and the application must contain a table of contents, an abstract or project summary, letters of intent from collaborators (if any), and short curriculum vitae, consistent with National Institutes of Health guidelines. Block 15 of the SC grant face page (form DOE F4650.2) should list the PI's phone number, fax number, and E-mail address.

DOE policy requires that potential applicants adhere to 10 CFR 745 "Protection of Human Subjects" or such later revision of those guidelines as may be published in the **Federal Register**.

The Office of Science as part of its grant regulations requires at 10 CFR 605.11(b) that a recipient receiving a grant and performing research involving recombinant DNA molecules and/or organisms and viruses containing recombinant DNA molecules shall comply with NIH "Guidelines for

Research Involving Recombinant DNA Molecules," which is available via the world wide web at: <http://www.niehs.nih.gov/odhsb/biosafe/nih/rdna-apr98.pdf>. (59 FR 34496, July 5, 1994,) or such later revision of those guidelines as may be published in the **Federal Register**.

The Catalog of Federal Domestic Assistance Number for this program is 81.049, and the solicitation control number is ERFAP 10 CFR Part 605.

Issued in Washington, DC, on September 1, 2000

John Rodney Clark,

Associate Director of Science for Resource Management.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Bonneville Power Administration

Shelton-Kitsap Transmission Line Rebuild Project

AGENCY: Bonneville Power Administration (BPA), Department of Energy (DOE).

ACTION: Notice of Floodplain and Wetlands Involvement.

SUMMARY: This notice announces BPA's proposal to rebuild its existing Shelton-Kitsap No.2 115-kV transmission line as a double circuit 230-kV line in the existing right-of-way in floodplain and wetlands located in Mason and Kitsap Counties, Washington. In accordance with DOE regulations for compliance with floodplain and wetlands environmental review requirements, BPA will prepare a floodplain and wetlands assessment and will perform this proposed action in a manner so as to avoid or minimize potential harm to or within the affected floodplain and wetlands. The assessment will be included in the environmental assessment being prepared for the proposed project in accordance with the requirements of the National Environmental Policy Act. A floodplain statement of findings will be included in any finding of no significant impact that may be issued following the completion of the environmental assessment.

DATES: Comments are due to the address below no later than October 2, 2000.

ADDRESSES: Submit comments to Communications, Bonneville Power Administration—KC-7, P.O. Box 12999, Portland, Oregon 97212. Internet address: comment@bpa.gov.

FOR FURTHER INFORMATION CONTACT:

Dawn R. Boorse—KECN-4, Bonneville Power Administration, P.O. Box 3621, Portland, Oregon, 97208-3621, phone number 503-230-5678, fax number 503-230-5699.

SUPPLEMENTARY INFORMATION: The BPA Shelton-Kitsap transmission line rebuild would cross the 100-year floodplains of John's Creek (T20N, R3W, Section 5), Cranberry Creek (T21N, R3W, Section 34), and Sherwood Creek (T22N, R2W, Section 35), and a total of 31 wetlands were identified within the cleared right-of-way.

Maps and further information are available from BPA at the address above.

Issued in Portland, Oregon, on September 8, 2000.

Thomas C. McKinney,
NEPA Compliance Officer.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission**

[Docket No. CP00-450-000]

Reliant Energy Gas Transmission Company; Notice of Application

September 11, 2000.

Take notice that on August 30, 2000, Reliant Energy Gas Transmission Company (REGT), 1111 Louisiana Street, Houston, TX 77210, filed an application pursuant to Section 7(b) of the Natural Gas Act (NGA), as amended, and Part 157 of the Federal Energy Regulatory Commission's (the Commission) Regulations (18 CFR 157.7 and 157.18), for any and all abandonment authority required for REGT to effect the sale and transfer to Reliant Energy Field Services Inc. (REFS) of its Savannah compressor station located in Pittsburg County, Oklahoma. In addition, REGT seeks a determination that once conveyed, this facility will be a gathering facility exempt from the Commission's jurisdiction pursuant to NGA Section 1(b), all as more fully set forth in the Application on file with the Commission and open to public inspection. The application may be viewed on the web at www.ferc.fed.us/online/rims.htm (Call (202) 208-2222 for assistance).

Any questions regarding the application may be directed to: Lawrence O. Thomas, Director-Financial Analysis, Reliant Energy Gas

Transmission Company, PO Box 21734, Shreveport, LA 71151, (318) 429-2804.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 2, 2000, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) and the Regulations under the NGA (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceedings. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

A person does not have to intervene, however, in order to have comments considered. A person, instead, may submit two copies of such comments to the Secretary of the Commission. Commenters will be placed on the Commission's environmental mailing list, will receive copies of environmental documents, and will be able to participate in meetings associated with the Commission's environmental review process. Commenters will not be required to serve copies of filed documents on all other parties. However, Commenters will not receive copies of all documents filed by other parties or issued by the Commission, and will not have the right to seek rehearing or appeal the Commission's final order to a Federal court. The Commission will consider all comments and concerns equally, whether filed by commenters or those requesting intervenor status.

Take further notice, that pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this Application if no motion to intervene is filed within the time required herein or if the Commission on its own review of the matter finds that a grant of the certificate for the proposed abandonment is required by the public convenience and necessity. If the Commission believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be

unnecessary for REGT to appear or be represented at the hearing.

Linwood A. Watson, Jr.,
Acting Secretary.

Columbia Gulf Transmission Company; Notice of Negotiated Rate Filing

September 11, 2000.

Take notice that on September 6, 2000, Columbia Gulf Transmission Company (Columbia Gulf) tendered for filing the following contract for disclosure of a recently negotiated rate transaction:

ITS-2 Service Agreement No. 69313 between Columbia Gulf Transmission Company and

Southern Company Energy Marketing dated September 1, 2000

Columbia Gulf states that transportation service is scheduled to commence September 6, 2000. Columbia Gulf states that copies of the filing have been served on all parties on the official service list created by the Secretary in this proceeding.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available public inspection in the Public Reference Room. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. RP00-538-000]

Young Gas Storage Company, Ltd.; Notice of Tariff Filing

September 11, 2000.

Take notice that on September 6, 2000, Young Gas Storage Company, Ltd. (Young), tendered for filing to become part of its FERC Gas Tariff, Original Volume No. 1, the tariff sheets listed in Appendix A to the filing, to be effective November 1, 2000.

Young states it manages its storage fields by controlling the injection and withdrawal cycles such that the reservoir pressure, calculated in pound/days, above original pressure conditions in the reservoir are balanced against those below original pressure conditions. Young further states it manages these pound/day requirements through the use of a Reservoir Integrity Inventory Limit which is a graphical representation of a shipper's maximum allowable gas inventory in place on any day as a percentage of the shipper's contractual maximum inventory. To increase the flexibility of its storage service, Young proposes to revise the graph to allow shippers to retain more gas in storage between cycles while maintaining the pound/day balancing requirement. Young further states to

accomplish this objective, the period of time that shippers can maintain a full storage inventory must be slightly reduced.

Young further states that copies of this filing have been served on Young's jurisdictional customers and public bodies.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

BILLING CODE 6717-01-M

DEPARTMENT OF ENERGY

Southwestern Power Administration

Sam Rayburn Dam Project Power Rate Extension on an Interim Basis

AGENCY: Southwestern Power Administration, DOE.

ACTION: Notice of Rate Order.

SUMMARY: The Deputy Secretary of Energy, acting under the authorities as implemented in 10 CFR 903.22(h) and 903.23(a)(3), has approved and placed into effect on an interim basis Rate Order No. SWPA-42.

SUPPLEMENTARY INFORMATION:

Southwestern Power Administration (Southwestern) currently has marketing responsibility for 2.2 million kilowatts of power from 24 multiple-purpose reservoir projects, with power facilities constructed and operated by the U.S. Army Corps of Engineers, generally in all or portions of the states of Arkansas, Kansas, Louisiana, Missouri, Oklahoma and Texas. The Integrated System, comprised of 22 of the projects, is interconnected through a transmission system presently consisting of 138-kV

and 161-kV high-voltage transmission lines, 69-kV transmission lines, and numerous bulk power substations and switching stations. In addition, contractual transmission arrangements provide for integration of other projects into the system.

The remaining two projects, Sam Rayburn Dam and Robert Douglas Willis, are isolated hydraulically and electrically from the Southwestern transmission system, and their power is marketed under separate contracts through which the customer purchases the entire power output of the project at the dam. A separate Power Repayment Study (PRS) is prepared for each isolated project.

The existing rate schedule for the Sam Rayburn Dam Project was confirmed and approved on a final basis by the Federal Energy Regulatory Commission (FERC) on December 7, 1994, for the period October 1, 1994, through September 30, 1998. The Deputy Secretary of Energy extended the existing rate schedule for a one year period, through September 30, 1999. On September 15, 1999, the Secretary of Energy again extended the existing rate schedule for a one year period, through September 30, 2000. The FY 2000 Sam Rayburn Dam Project PRS indicates the need for a rate adjustment of \$28,068 annually, or 1.3 percent.

Pursuant to implementing authority in 10 CFR 903(h) and 903.23(a)(3), the Deputy Secretary of Energy may extend a FERC-approved rate on an interim basis. The Administrator, Southwestern, published notice in the **Federal Register** on June 26, 2000, 65 FR 39386, announcing a 30-day period for public review and comment concerning the proposed interim rate extension. Written comments were accepted through July 26, 2000. In a facsimile transmission dated July 24, 2000, a Sam Rayburn Dam Electric Cooperative (SRDEC) official stated that SRDEC has no objection to the proposed rate extension. No other comments were received.

Discussion

The existing Sam Rayburn Dam Project rate is based on the FY 1994 PRS. PRSs have been completed on the Sam Rayburn Dam Project each year since approval of the existing rate. Rate changes identified by the PRSs since that period have indicated the need for minimal rate increases or decreases. Since the revenue changes reflected by the PRSs were within the plus-or-minus two percent Rate Adjustment Threshold established by Southwestern's Administrator on June 23, 1987, these rate adjustments were deferred in the

best interest of the government and provided for the next year's PRS to determine the appropriate level of revenues needed for the next rate period.

The FY 2000 PRS indicates the need for an annual revenue increase of 1.3 percent. As has been the case since the existing rate was approved, the FY 2000 rate adjustment falls within Southwestern's plus-or-minus two percent Rate Adjustment Threshold and would normally be deferred. However, the existing rate expires on September 30, 2000. Consequently, Southwestern proposes to extend the existing rate for a one-year period ending September 30, 2001, on an interim basis under the implementation authorities noted in 10 CFR 903.22(h) and 903.23(a)(3).

Southwestern continues to make significant progress toward repayment of the Federal investment in the Sam Rayburn Dam Project. Through FY 1999, cumulative amortization for the Sam Rayburn Dam Project was \$12,795,065, which represents approximately 49 percent of the \$25,845,371 Federal investment. The status has increased almost 34 percent since the existing rates were placed in effect.

Information regarding this rate extension, including studies and other supporting material, is available for public review and comment in the offices of Southwestern Power Administration, Suite 1400, One West Third Street, Tulsa, Oklahoma 74103.

Order

In view of the foregoing and pursuant to the authorities granted in 10 CFR Sections 903.22(h) and 903.23(a)(3), I hereby extend on an interim basis, for the period of one year, effective October 1, 2000, the current FERC-approved Sam Rayburn Dam Project Rate for the sale of power and energy.

Dated: September 6, 2000.

T.J. Glauthier,

Deputy Secretary.

In the matter of: Southwestern Power Administration—Sam Rayburn Dam Project Rate; Order Approving Extension of Power Rate on an Interim Basis

[Rate Order; No. SWPA-42]

Pursuant to Sections 302(a) and 301(b) of the Department of Energy Organization Act, Public Law 95-91, the functions of the Secretary of the Interior and the Federal Power Commission under Section 5 of the Flood Control Act of 1944, 16 U.S.C. 825s, for the Southwestern Power Administration were transferred to and vested in the Secretary of Energy. By Delegation

Order No. 0204-108, effective December 14, 1983, 48 FR 55664, the Secretary of Energy delegated to the Deputy Secretary of Energy on a non-exclusive basis the authority to confirm, approve and place into effect on an interim basis power and transmission rates, and delegated to the Federal Energy Regulatory Commission (FERC) on an exclusive basis the authority to confirm, approve and place in effect on a final basis, or to disapprove power and transmission rates. Amendment No. 1 to Delegation Order No. 0204-108, effective May 30, 1986, 51 FR 19744, revised the delegation of authority to confirm, approve and place into effect on an interim basis power and transmission rates by delegating such authority to the Under Secretary of Energy rather than the Deputy Secretary of Energy. This delegation was reassigned to the Deputy Secretary of Energy by Department of Energy (DOE) Notice 1110.29, dated October 27, 1988, and clarified by Secretary of Energy Notice SEN-10-89, dated August 3, 1989, and subsequent revisions.

By Amendment No. 2 to Delegation Order No. 0204-108, effective August 23, 1991, 56 FR 41835, the Secretary of the Department of Energy revised Delegation Order No. 0204-108 to delegate to the Assistant Secretary, Conservation and Renewable Energy, the authority which was previously delegated to the Deputy Secretary in that Delegation Order. By Amendment No. 3 to Delegation Order No. 0204-108, effective November 10, 1993, the Secretary of Energy re-delegated to the Deputy Secretary of Energy, the authority to confirm, approve and place into effect on an interim basis power and transmission rates of the Power Marketing Administrations. Thus, the Deputy Secretary of Energy now exercises interim rate approval authority for Southwestern's rates.

This is an interim rate extension. It is made pursuant to the authorities as implemented in 10 CFR 903.22(h) and 903.23(a)(3).

Background

Southwestern Power Administration (Southwestern) currently has marketing responsibility for 2.2 million kilowatts of power from 24 multiple-purpose reservoir projects, with power facilities constructed and operated by the U.S. Army Corps of Engineers, generally in all or portions of the states of Arkansas, Kansas, Louisiana, Missouri, Oklahoma and Texas. The Integrated System, comprised of 22 of the projects, is interconnected through a transmission system presently consisting of 138-kV and 161-kV high-voltage transmission

lines, 69-kV transmission lines, and numerous bulk power substations and switching stations. In addition, contractual transmission arrangements provide for integration of other projects into the system.

The remaining two projects, Sam Rayburn Dam and Robert Douglas Willis, are isolated hydraulically and electrically from the Southwestern transmission system, and their power is marketed under separate contracts through which the customer purchases the entire power output of the project at the dam. A separate Power Repayment Study (PRS) is prepared for each isolated project.

The existing rate schedule for the Sam Rayburn Dam Project was confirmed and approved on a final basis by the Federal Energy Regulatory Commission (FERC) on December 7, 1994, for the period October 1, 1994, through September 30, 1998. The rate was extended on an interim basis by the Deputy Secretary of Energy, who had authority at that time pursuant to Delegation Order 0204-108, for a one year period, October 1, 1998, through September 30, 1999. The rate was again extended on an interim basis by the Secretary of Energy, pursuant to Delegation Order 0204-108, for a one year period, October 1, 1999, through September 30, 2000. The FY 2000 Sam Rayburn Dam Project PRS indicates the need for a rate adjustment of \$28,068 annually, or 1.3 percent.

Pursuant to implementing authority in 10 CFR 903.22(h) and 903.23(a)(3), the Deputy Secretary of Energy may extend a FERC-approved rate on an interim basis. The Administrator, Southwestern, published notice in the **Federal Register** on June 26, 2000, 65 FR 39386, announcing a 30-day period for public review and comment concerning the proposed interim rate extension. In addition, an informal meeting was held with customer representatives in May 2000. Written comments were accepted through July 26, 2000. One comment was received. This comment stated no objection to the proposed interim extension.

Discussion

The existing Sam Rayburn Dam Project rate is based on the FY 1994 PRS. PRSs have been completed on the Sam Rayburn Dam Project each year since approval of the existing rate. Rate changes identified by the PRSs since that period have indicated the need for minimal rate increases or decreases. Since the revenue changes reflected by the PRSs were within the plus-or-minus two percent Rate Adjustment Threshold established by Southwestern's

Administrator on June 23, 1987, these rate adjustments were deferred in the best interest of the government and provided for the next year's PRS to determine the appropriate level of revenues needed for the next rate period.

The FY 2000 PRS indicates the need for an annual revenue increase of \$28,068 (1.3 percent). As has been the case since the existing rates were approved, the FY 2000 rate adjustment falls within Southwestern's plus-or-minus two percent Rate Adjustment Threshold and would normally be deferred. However, the existing rate expires on September 30, 2000. Consequently, Southwestern proposes to extend the existing rate for a one-year period ending September 30, 2001, on an interim basis under the implementation authorities noted in 10 CFR 903.22(h) and 903.23(a)(3).

Southwestern continues to make significant progress toward repayment of the Federal investment in the Sam Rayburn Dam Project. Through FY 1999, cumulative amortization for the Sam Rayburn Dam Project was \$12,795,065, which represents approximately 49 percent of the \$25,845,371 Federal investment for the Sam Rayburn Dam Project. The cumulative amortization has increased almost 34 percent since the existing rate was placed in effect.

Information regarding this rate extension, including studies and other supporting material, is available for public review and comment in the offices of Southwestern Power Administration, One West Third Street, Tulsa, Oklahoma 74101.

Order

In view of the foregoing and pursuant to the authority delegated to me in 10 CFR 903, I hereby extend on an interim basis, for the period of one year, effective October 1, 2000, the current FERC-approved Sam Rayburn Dam Project rate for the sale of power and energy.

Dated: September 6, 2000.

T.J. Glauthier,

Deputy Secretary.

[FR Doc. 00-23766 Filed 9-14-00; 8:45 am]

BILLING CODE 6450-01-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-6870-2]

Agency Information Collection Activities: Proposed Collection; Comment Request; ICRs Planned To Be Submitted

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that EPA is planning to submit the following six continuing Information Collection Requests (ICR) to the Office of Management and Budget (OMB). Before submitting the ICRs to OMB for review and approval, EPA is soliciting comments on specific aspects of the information collections as described at the beginning of Supplementary Information.

DATES: Comments must be submitted on or before November 14, 2000.

ADDRESSES: U.S. EPA, 1200 Pennsylvania Avenue, mail code 2223A, Washington, DC 20460. A hard copy of an ICR may be obtained without charge by calling the identified information contact individual for each ICR in Section B of the Supplementary Information.

FOR FURTHER INFORMATION CONTACT: For specific information on the individual ICRs see Section B of the Supplementary Information.

SUPPLEMENTARY INFORMATION:

For All ICRs

The EPA is charged under Section 111 of the Clean Air Act, as amended, to establish standards of performance for new stationary sources (NSPS). The standards must reflect application of the best technological system of continuous emission reductions. Such reductions should take into consideration the cost of achieving emission reduction, or any non-air quality health and environmental impact and energy requirements.

The EPA is charged under section 112 of the Clean Air Act (CAA or Act), as amended, to establish national emission standards for hazardous air pollutants (NESHAP). These standards are applicable to new or existing sources of hazardous air pollutants and shall require the maximum degree of emission reduction.

In addition, Section 114 of the Clean Air Act allows the Administrator to require inspections, monitoring, and entry into facilities to ensure

compliance with any requirement of this Act. Records and reports are necessary to enable the EPA to identify facilities that may not be in compliance with the standards. In the absence of such information enforcement personnel would be unable to determine whether the standards are being met on a continuous basis, as required by the Clean Air Act.

An Agency may not conduct or sponsor, and a person is not required to respond to, a collection information request unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are displayed in 40 CFR part 9.

Any information submitted to the Agency for which a claim of confidentiality is made will be safeguarded according to the Agency policies set forth in Title 40, Chapter 1, Part 2, Subpart B—Confidentiality of Business Information (see 40 CFR 2; 41 CFR 36902, September 1, 1976; amended by 43 FR 40000, September 8, 1978; 43 FR 42251, September 20, 1978; 44 FR 1764, March 23, 1979).

The EPA would like to solicit comments to:

- (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information;
- (iii) Enhance the quality, utility, and clarity of the information to be collected; and
- (iv) Minimize the burden of the collection of information on those who are to respond, including through the use of automated collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The Agency computed the burden for each of the recordkeeping and reporting requirements applicable to industry for the currently approved ICRs. Where applicable, the Agency identified specific tasks and made assumptions, while being consistent with the concept of the Paper Work Reduction Act.

A. List of ICRs Planned To Be Submitted

In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that EPA is planning to submit the following six continuing ICRs to the Office of Management and Budget (OMB):

(1) New Source Performance Standards (NSPS) for Sewage Treatment Plants, Subpart O; OMB Control No. 2060-0035; EPA ICR No. 1063.08; expiration date is June 30, 2001.

(2) NSPS for Coal Preparation Plants, Subpart Y; OMB Control No. 2060-0122; EPA ICR No. 1062.06; expiration date is August 31, 2001.

(3) NSPS for Phosphate Rock Plants, Subpart NN; OMB Control No. 2060-0111; EPA ICR No. 1078.06; expiration date is August 31, 2001.

(4) NSPS for the Graphic Arts Industry, Subpart QQ; OMB Control No. 2060-0105; EPA ICR No. 0657.07; expiration date is August 31, 2001.

(5) NSPS for the Polymeric Coating of Supporting Substrates Facilities, Subpart VVV; OMB Control No. 2060-0181; EPA ICR No. 1284.05; expiration date is August 31, 2001.

(6) National Emissions Standards for Hazardous Air Pollutants (NESHAP) for Petroleum Refineries, Subpart CC; OMB Control No. 2060-0340; EPA ICR No. 1692.03; expiration date is August 18, 2001.

B. Contact Individuals for ICRs

(1) NSPS for Sewage Treatment Plants, Subpart O; contact Michelle Angelich of the Commercial Services and Municipal Branch, at (202) 564-7033, or via E-mail to angelich.michelle@epa.gov; OMB Control Number 2060-0035; EPA ICR No. 1063.08; expiration date is June 30, 2001.

(2) NSPS for Coal Preparation Plants, Subpart Y; contact Dan Chadwick of the Energy and Transportation Branch at (202) 564-7054 or via E-mail to chadwick.dan@epa.gov; OMB Control No. 2060-0122; EPA ICR No. 1062.06; expiration date is August 31, 2001.

(3) NSPS for Phosphate Rock Plants, Subpart NN; contact Stephen Howie of the Agriculture Branch, at (202) 564-4146; or via E-mail to howie.stephen@epa.gov; OMB Control Number 2060-0111; ICR No. 1078.06; expiration date is August 31, 2001.

(4) NSPS for the Graphic Arts Industry, Subpart QQ; contact Ginger Gotliffe of the Commercial Services & Municipal Branch, at phone 202-564-7072, or via E-mail to gotliffe.ginger@epa.gov; OMB Control No. 2060-0105; EPA ICR No. 0657.07; expiration date is August 31, 2001.

(5) NSPS for the Polymeric Coating of Supporting Substrates Facilities, Subpart VVV; contact Maria Malave of the Manufacturing Branch, at (202) 564-7027 or via E-mail to malave.maria@epa.gov; OMB Control No. 2060-0181; EPA No. 1284.05; expiration date is August 31, 2001.

(6) NESHAP-MACT for the Petroleum Refineries, Subpart CC; contact Tom Ripp of the Energy and Transportation Branch, at (202) 564-7003 or by E-Mail to ripp.tom@epa.gov; OMB Control No. 2060-0340; EPA ICR No. 1692.03; expiration date is August 18, 2001.

C. Individual ICRs

(1) New Source Performance Standards (NSPS) for Sewage Treatment Plants, Subpart O; OMB Control No. 2060-0035; EPA ICR No. 1063.08; expiration date is June 30, 2001.

Affected Entities: Entities potentially affected by this action are those which incinerate wastes containing more than 10 percent sewage sludge (dry basis) produced by municipal sewage treatment plants or each incinerator which charges more than 1000 kg (2205 lb) per day municipal sewage sludge (dry basis) and which commenced construction or modification after June 11, 1973.

Abstract: This ICR contains recordkeeping and reporting requirements that are mandatory for compliance with 40 CFR Part 60.150, *et seq.*, Subpart O, New Source Performance Standards for sewage sludge treatment plant incinerators.

The control of emissions of particulate matter from sewage treatment plant incinerators requires not only the installation of properly designed equipment, but also the operation and maintenance of that equipment. Particulate matter emissions from sewage treatment plant incinerators are the result of the physical and chemical characteristics of the sludge feed and fuel use, the excess air rate, the temperature profile within the incinerator, the pressure drop across the control device, and operating procedures. These standards rely on the reduction of particulate matter emissions by wet scrubbers.

In order to ensure compliance with these standards, adequate recordkeeping is necessary. In the absence of such information, enforcement personnel

would be unable to determine whether the standards, that are protective of public health, are being met on a continuous basis, as required by the Clean Air Act.

The standards require initial notification reports with respect to construction, modification, reconstruction, startups, shutdowns, and malfunctions. The standards also require reports on initial performance tests and semiannual reports of noncompliance.

Under the standard, the data collected by the affected industry is retained at the facility for a minimum of two (2) years and made available for inspection by the Administrator.

Burden Statement: In the currently approved ICR, the annual public reporting and record keeping burden for this collection is estimated to average 40 hours per response. The respondents are owners or operators of sewage sludge treatment plant incinerators. The estimated number of respondents is 114. The number of respondents is expected to increase by approximately 4 facilities per year. The total annual responses is 228. The estimated total annual burden on respondents is 9,089 hours. The total annualized capital and start-up cost is \$700,000 and the total operation and maintenance cost is \$3,990,000, associated with continuous emissions monitors. Therefore, the estimated total annualized cost burden is \$4,690,000.

(2) NSPS for Coal Preparation Plants, Subpart Y; EPA ICR No. 1062.06; OMB No. 2060-0122; expiration date is August 31, 2001.

Affected entities: Entities potentially affected by this action are those coal preparation plants which process more than 200 tons per day for which construction is or was commenced after October 24, 1974.

Abstract: This ICR contains recordkeeping and reporting requirements that are mandatory for compliance with 40 CFR 60.253, NSPS for Coal Preparation Plants, Subpart Y.

Owners and operators of all new facilities subject to this NSPS must provide EPA with the following one-time only reports; notification of the date of construction or reconstruction; notification of the anticipated and actual dates of the start up; and notification of the date for continuous monitoring system (CMS) demonstration. There are no requirements for a semiannual or annual report for this standard.

Owners and operators are also required to report to EPA any physical or operational change to their facility which may result in an increase in the regulated pollutant emission rate. An

estimated 18 existing facilities will submit reports of physical or operational changes each year, over the next three years.

All facilities must maintain records on the facility operation that document: the occurrence and duration of any startups, shutdowns, and malfunctions; measurements of particulate matter (PM) emissions; pressure drops across any scrubber system; and the initial performance test results of the CMS demonstration. All subject facilities must maintain records related to compliance for two years.

Burden Statement: In the currently approved ICR, the total annual burden hours for recordkeeping and reporting requirements for facilities subject to this ICR is 14,729. The number of responses is 399. Therefore, the recordkeeping and reporting burden hours per respondent is 37. The EPA estimates the respondent universe to expand at an annual rate of 6 new facilities per year.

The total annualized capital and start-up cost for facilities subject to this ICR is 1 thousand dollars and the total operation and maintenance cost for these facilities is 14 thousand dollars.

(3) NSPS for Phosphate Rock Plants, Subpart NN; OMB Control No. 2060-0111; EPA ICR No. 1078.06; expiration date is August 31, 2001.

Affected entities: Entities potentially affected by this action are owners and operators of phosphate rock plants.

Abstract: The New Source Performance Standards for phosphate rock plants were proposed on September 21, 1979 and promulgated on April 16, 1982. This information is being collected to assure compliance with 40 CFR Part 60 subpart NN. These standards apply to the following facilities in phosphate rock plants with capacities greater than 4 tons/hour: dryers, calciners, grinders, and ground rock handling and storage facilities, (except those facilities producing or preparing phosphate rock solely for consumption in elemental phosphorus production), commencing construction, modification or construction after the date of proposal.

Owners or operators of the affected facilities described must make the following one-time-only reports: Notification of the date of construction or reconstruction; notification of the anticipated and actual dates of startup; notification of any physical or operational change to an existing facility which may increase the regulated pollutant emission rate; notification of demonstration of the continuous monitoring system (CMS); notification of the date of the initial performance test; and the results of the initial

performance test. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring is inoperative.

These notifications, reports and records are required, in general, of all sources subject to NSPS. Any owner or operator subject to the provisions of this part shall maintain a file of these measurements, and retain the file for at least two years following the date of such measurements, maintenance reports, and records.

Burden Statement: In the currently approved ICR, the average annual burden to the industry over the next three years is estimated to be 94 person hours per response. The estimated number of respondents is 31. The number of respondents is expected to increase by approximately 2 facilities per year. The total annual response is 31. The estimated total annual burden on respondents is 2,914 hours. The total annualized capital and start-up costs are \$69,600 based on 2 new plants annually at \$34,800 per plant. The annualized operations and maintenance costs are estimated at \$232,500 at each of the 31 plants, which are associated with continuous emissions monitors. Therefore, the estimated total annualized cost burden is \$4,690,000.

(4) NSPS for the Graphic Arts Industry, Subpart QQ; OMB Control No. 2060-0105; EPA ICR No. 0657.07; expiration date is August 31, 2001.

Affected Facilities: These standards apply to the following facilities in NSPS Subpart QQ, each publication rotogravure printing press (not including proof presses) commencing construction, modification or reconstruction after the date of proposal.

Abstract: The New Source Performance Standards (NSPS) for subpart QQ were proposed on October 28, 1980, and promulgated on November 8, 1982. This information is being collected to assure compliance with 40 CFR Part 60, Subpart QQ.

Owners or operators of the affected facilities described have certain notification, reporting, and recordkeeping requirements under this rule including: a one-time-only notification of the date of the anticipated and actual dates of startup, the initial performance test, and physical or operational changes; keep records of monthly emissions calculations, records of startup, shutdowns, and malfunctions, and records concerning the conditions of the performance test; and a report of the initial performance test. Any owner or

operators subject to the provisions of this part shall maintain a file of these measurements, and retain the file for at least two years following the date of such reports and records.

The information requested as part of this rule include one-time-only notifications; records about the initial performance test, changes in the operation of the facility, and exceedences of parameters; and semiannual reports of those exceedences.

Notifications are used to inform the Agency or delegated authority when a source becomes subject to the standard. The reviewing authority may then inspect the source to check if the pollution control devices are properly installed and operated and the standard is being met. Performance test reports are needed as these are the Agency's record of a source's initial capability to comply with the emission standard.

Burden Statement: In the currently approved ICR, the annual public reporting and recordkeeping burden for this collection of information is estimated to average 49.06 hours per response. Approximately 24 facilities are currently subject to the standard, and it is estimated that an additional 3 facilities will become subject to the standard in the next three years. It is further assumed that less than half of the existing facilities will be adding or modifying a press during the three year period. Therefore there are 219 existing presses subject to this standard and an additional 10 affected units will be added each year. The estimated frequency of response is 50 per year. The estimated annual hour burden is 3,075.3 hours for all facilities. The estimated total annualized cost burden is \$107,242.91 for all facilities.

(5) NSPS for the Polymeric Coating of Supporting Substrates Facilities, Subpart VVV; OMB Control No. 2060-0181; EPA ICR No. 1284.05; expiration date is August 31, 2001.

Affected Facilities: These standards apply to each coating operation and any on-site coating mix preparation equipment used to prepare coatings for the polymeric coating of supporting substrates for which construction, modification or reconstruction occurs after the date of proposal. Any affected facility for which the amount of VOC used is less than 95 Mg per 12-month period is subject only to the requirements of §§ 60.744(b), 60.747(b) and 60.747(c).

Abstract: The New Source Performance Standards for polymeric coating of supporting substrates facilities were proposed on April 30, 1987 and promulgated on September 11,

1989. This information is being collected to assure compliance with 40 CFR Part 60, Subpart VVV.

In addition to the monitoring, recordkeeping and notification requirements specified in the General Provisions in § 60.7(a), (b), (d) and (f), and § 60.8(a) and (d), owners or operators are to comply with the requirements specified in the rule.

The owners or operators of polymeric coating of supporting substrates facilities must install and calibrate all monitoring devices required under the provisions of § 60.744, according to the manufacturer's specifications. The parameters to be monitored shall be continuously measured and recorded during each performance test.

The recordkeeping requirements include: records of all measurements of performance test and results including estimates of projected and actual VOC use and monitored operating parameters use in demonstrating compliance, as required by § 60.747. Records must be retained for at least 2 years.

The reporting requirements include: report on the initial compliance report that includes initial performance test results, the monthly schedule to be used in making compliance determinations, design and equipment specifications and compliance method; semiannual reports of compliance and statement of no exceedences; semiannual reports of monitoring exceedance; and, quarterly reports of periods of noncompliance recorded under § 60.744(b) and (c).

In addition, any affected facility for which the amount of VOC used is less than 95 Mg per 12-month period is subject only to the requirements of §§ 60.744(b), 60.747(b) and 60.747(c).

Burden Statement: In the currently approved ICR, the average annual burden to industry over the next three years from these recordkeeping and reporting requirements is estimated at 14,375.5 person-hours. This is based on approximately 51 existing polymeric coating of supporting substrates plants and the projection that one additional plant per year will become subject to the standard in the next three years.

The estimated capital start-up costs for this regulation are \$212,500 dollars. This estimate is based on 4 new solvent-borne coating lines at existing plants and one new solvent-borne coating line at one new plant yielding a total of 5 new solvent-borne coating lines per year. The estimated costs are based on two types of monitoring equipments needed at each plant, temperature monitoring devices to measure gas temperature and VOC monitoring devices to measure inlet and outlet organic concentration level use to

calculate control device efficiency. The annual operations and maintenance (O&M) costs are \$57,500 dollars. The average annual burden for capital and operations and maintenance costs to industry over the next three years of the ICR is estimated to be \$270,000.

(6) NESHAP-MACT for the Petroleum Refineries, Subpart CC; OMB Control No. 2060-0340; EPA ICR No. 1692.03; expiration date is August 18, 2001.

Affected Entities: Entities potentially affected by this action are petroleum refineries.

Abstract: This regulation was published in 60 FR 43244, August 18, 1995, and is codified at 40 CFR Part 63, Subpart CC.

The reporting requirements include a one-time report of start of construction, anticipated and actual start-up dates, and physical or operational changes to existing facilities; notification of compliance status reports; periodic reports; and event triggered (e.g., notification of installation of a new control device or reconstruction of an existing control device) reports. The periodic reports provide information on monitored control device parameters when they are outside established ranges and on instances where inspections reveal problems. Records (e.g., parameter monitor data, records of annual storage vessel inspections) are required to be maintained on-site for a minimum of 5 years.

Monitoring requirements include the use of existing refinery monitoring devices for when combustion sources are used as control devices (e.g., temperature or flame sensing device), and existing refinery monitoring devices for finding leaking components at process units in organic hazardous air pollutant service. Additionally, sources are required to monitor tanks to ensure that control devices are properly maintained (e.g., floating roof seals). In general records of the monitored parameters mentioned above are required to be kept for five years.

Effective enforcement of the standards is necessary due to the hazardous nature of benzene (a known human carcinogen) and other HAP's emitted from petroleum refineries. The required records and reports are necessary: to enable EPA to identify new and existing sources subject to the standards; and to assist EPA and State agencies to which enforcement has been delegated in determining compliance with the standards. The EPA uses the reports to identify facilities that may not be in compliance with the standards. Based on reported information, EPA can decide which facilities should be inspected and what records or specific

emission sources should be inspected at each facility. The required records also provide an indication as to whether facility personnel are operating and maintaining control equipment properly.

Burden Statement: In the currently approved ICR, the annual public reporting and recordkeeping burden for this collection is estimated to be 488,000 hours, and average 1,494 hours per respondent. It is estimated that there are 165 respondents (no new sources). It is estimated that the total annual cost for this collection 20.45 million dollars for labor and 570,000 dollars for annualized capital costs.

There are no operating and maintenance costs since the rule does not require any continuous emissions monitoring or electronic data submittal. Sources can comply with the monitoring requirements by using existing parametric or safety monitoring devices.

Dated: September 8, 2000.

Michael Stahl,

Acting Director, Office of Compliance.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-6870-4]

Retrofit/Rebuild Requirements for 1993 and Earlier Model Year Urban Buses; Approval of a Notification of Intent To Certify Equipment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of EPA approval of a notification of intent to certify equipment.

SUMMARY: This **Federal Register** describes the certification of the Engelhard Corporation's ETX Plus rebuild kit pursuant to the Urban Bus Rebuild Requirements. The kit is certified to comply with the 0.10 grams per brake horsepower-hour (g/bhp-hr) particulate matter (PM) standard for certain engines (see below).

EPA received a notification of intent to certify (that is, an "application" for) the ETX Plus rebuild kit, signed November 17, 1998, from the Engelhard Corporation (Engelhard) pursuant to Title 40 Code of Federal Regulations (CFR) part 85 subpart O, entitled "Urban Bus Rebuild Requirements." The kit applies to Detroit Diesel Corporation's (DDC) diesel-fueled 6V92TA urban bus engines of model years 1988 through 1993 that are equipped with the second

version of Detroit Diesel Electronic Control (DDEC II). Engelhard's principal place of business is 101 Wood Avenue, Iselin, New Jersey 08830-0770.

On April 29, 1999 EPA published a notice in the **Federal Register** (64 FR 23072) that the Engelhard application had been received, and that made the application available for public review and comment for a period of 45 days pursuant to 40 CFR 85.1407. EPA has completed its review and determined that it meets the requirements for certification. The effective date of certification is discussed below under **DATES**.

Certification of this kit does not initiate (that is, "trigger") any program requirements for urban bus operators, because the 0.10 g/bhp-hr PM standard is already in effect for the engines to which the ETX Plus applies. Additionally, Engelhard did not provide the life cycle cost information that is required to trigger a standard. However, certification of the ETX Plus kit will provide additional choices for urban bus operators.

ADDRESSES: The Engelhard application, as well as other documents specifically relevant to it, is contained in Public Docket A-93-42, Category XXV-A, entitled "Certification of Urban Bus Retrofit/Rebuild Equipment." Docket items may be inspected from 8:00 a.m. until 5:30 p.m., Monday through Friday. As provided in 40 CFR part 2, a reasonable fee may be charged by EPA for copying docket materials.

DATES: Today's **Federal Register** document describes EPA's decision to certify the ETX Plus kit, and establishes the effective date of certification. This certified kit may be used immediately by urban bus operators, as discussed in Section VI below. Urban bus operators having affected engines and using compliance program 1 are currently required to use kits certified to the 0.10 g/bhp-hr PM standard when the applicable engines are rebuilt or replaced.

FOR FURTHER INFORMATION CONTACT: William Rutledge, Certification and Compliance Division (mail code 6403J), U.S. Environmental Protection Agency, Ariel Rios Building, 1200 Pennsylvania Avenue NW, Washington D.C. 20460. Telephone: (202) 564-9297. Email address: rutledge.william@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Program Background

On April 21, 1993, EPA published final Retrofit/Rebuild Requirements for 1993 and Earlier Model Year Urban Buses (58 FR 21359). The retrofit/rebuild program is intended to reduce

the ambient levels of PM in urban areas and is limited to 1993 and earlier model year (MY) urban buses operating in metropolitan areas with 1980 populations of 750,000 or more, whose engines are rebuilt or replaced after January 1, 1995. Operators of the affected buses are required to choose between two compliance options: Option 1 sets PM emissions requirements for each urban bus engine in an operator's fleet which is rebuilt or replaced; Option 2 is a fleet averaging program that sets out a specific annual target level for average PM emissions from urban buses in an operator's fleet.

A key aspect of the program is the certification of retrofit/rebuild equipment (also referred to as "kits"). To meet either of the two compliance options, operators of the affected buses must use kits which are certified by EPA. Emissions requirements under either of the two options depend on the availability of retrofit/rebuild kits certified for each engine model. To be used for Option 1, kits must be certified as meeting a 0.10 g/bhp-hr PM standard or as achieving a 25 percent reduction in PM. Kits used for Option 2 must be certified as providing some level of PM reduction that would in turn be claimed by urban bus operators when calculating their average fleet PM levels attained under the program.

Under Option 1, additional information regarding cost must be submitted in the application for certification, in order for certification of that kit to trigger program requirements for a particular engine model. In order for the kit to serve as a trigger, the certifier must guarantee that the kit will be offered to affected operators for \$7,940 or less at the 0.10 g/bhp-hr PM level, or for \$2,000 or less for the 25 percent or greater reduction in PM. Both of the above amounts are based on 1992 dollars and include life cycle costs incremental to the cost of a standard rebuild.

II. Certification Application and Kit Identification

In an application signed November 17, 1998, Engelhard applied for certification of equipment under the Urban Bus Rebuild Requirements. The application is clarified in letters from Engelhard dated December 14, 1998, and June 30, 2000. The equipment is referred to as the ETX Plus rebuild kit and applies to 1988 through 1993 model year DDC 6V92TA urban bus engines equipped with DDEC II.

The ETX Plus kit is intended to be installed at the time of a standard engine rebuild, and results in one mechanical configuration to update all

applicable engines to an ETX Plus configuration of either 253 or 277 horsepower (Hp). The basis of the ETX Plus kit is a 6V92TA DDEC II engine that is rebuilt to a standard 1991 to 1993 DDC specification, but with some changes. When rebuilt with the ETX Plus kit, the engine will utilize an improved CMX^(TM)-6 integrated catalytic converter muffler, a coated turbocharger, a specific blower drive gear, and must include other emission-related components identified on the engine specific parts list that is provided in the kit. (Use of parts other than the specific parts listed for the kit will place an engine in an uncertified kit configuration.)

The CMX-6 is designed to replace the existing noise muffler of a bus and incorporates Engelhard's oxidation catalyst technology to reduce PM emissions in the exhaust. The CMX-6 is different from the CMX-5 converter of the Engelhard kit that EPA certified earlier to the 0.10 g/bhp-hr standard for the same engines (see 63 FR 50225; September 21, 1998). Therefore, previously-certified CMX converters cannot be used in place of the new CMX-6 converter in the ETX Plus kit. The specific CMX-6 to be used depends on the type of coach as well as the type of engine. Engelhard's application provides a table listing the various catalytic converter kits available for different engine/coach combinations.

Engelhard indicates that the turbocharger of the ETX Plus kit has a coated housing and operates like a typical turbocharger but with improved efficiency and airflow. The improved airflow improves combustion efficiency which reduces engine-out PM.

The 1988 to 1990 model year engines also receive an upgraded software control program for the electronic control module, if necessary. The control program is listed on an updated ETX Plus parts list provided in the letter to EPA dated June 30, 2000, which can be found in the public docket at the address listed above.

The contents of the ETX Plus kit will vary depending upon the model year of the engine to be rebuilt. For the 1988–

1990 model year engines, the kit will include components necessary to update the older applicable engines to the 1991–1993 configuration. For 1991–1993 model year engines, the kit does not include the emission-related components that are typically replaced during an engine rebuild of those engines. However, the operator is still responsible for purchasing and using the components on the engine specific parts list of the kit because such components are emissions related and necessary to assure the engine is the certified ETX Plus configuration.

The engine specific parts list of the ETX Plus kit identifies the components that, while not provided with the kit, are necessary to complete an engine rebuild. The engine specific parts list for the 1988–1990 model year engines identifies only the cylinder head and blower (which are common to all model year engines). The components that are necessary to complete the ETX Plus rebuild for 1988–1990 engines, including those original equipment (OE), emission related components necessary to upgrade to the 1991–1993 model year configuration, are provided with the kit because the components would not typically be used for rebuilding 1988–1990 engines.

The engine specific parts list for 1991–1993 model year engines identifies the cylinder head and blower (again, common to all model year engines), cylinder kits, fuel injectors and camshafts. These components are necessary to complete an engine rebuild using the ETX Plus kit but would typically be replaced by an operator during rebuild of the 1991–1993 model year engines. It is an operator's responsibility to assure that all components of the ETX Plus kit, including the components of the engine specific parts list, are acquired and properly installed.

The emissions defect warranty will cover the components which Engelhard supplies in the ETX kit. Engelhard states that the ETX Plus kit will require no additional maintenance compared to a standard engine.

Using engine dynamometer testing conducted in accordance with the Federal Test Procedure (FTP) for heavy-duty diesel engines, Engelhard documented in its November 17, 1998 application, PM emissions complying with the 0.10 g/bhp-hr standard. This test data is shown below in Table 1. In Table 1 EPA has also included baseline data from testing conducted in conjunction with the Engelhard kit certified earlier to the 0.10 g/bhp-hr PM standard and described in the **Federal Register** on September 21, 1998 (63 FR 50225). The PM emissions level of an original engine, prior to installation of the Engelhard kit, may be less relevant because all emissions-related components are required to be replaced upon installation of the kit.

The same engine block (that is, same serial number) was used for all emissions testing. The engine was initially rebuilt to a 1988 California configuration, subsequently rebuilt to a 1991 through 1993 model year DDC DDEC II standard configuration (using a DDC DDEC II upgrade kit), and then finally rebuilt with the ETX Plus rebuild kit. The testing documentation related to each of the rebuilds can be found in the public docket A-93-42, category XXV-A, at the address listed above. Transient testing was performed in accordance with the federal test procedure of 40 CFR Part 86, subparts N and I.

The certification testing documents a PM emissions level that complies with the PM standard of 0.10 g/bhp-hr, and also shows that emissions of hydrocarbon (HC), carbon monoxide (CO), oxides of nitrogen (NO_x), and smoke opacities comply with the applicable standards.

Based on the testing summarized in Table 1, EPA believes that all ETX Plus equipped engines will meet the 0.10 g/bhp-hr PM standard because installation of the kit upon engine rebuild results in the replacement of all emissions-related components with a specific set of components, the combination of which has been demonstrated to comply with the PM standard of 0.10 g/bhp-hr.

TABLE 1.—SUMMARY OF ENGELHARD TESTING OF A DDC 6V92TA DDEC II

Gaseous and particulate test	g/bhp-hr

PEAK	50%			6%	15%	6%

¹ Brake Specific Fuel Consumption (BSFC) is measured in units of lb/bhp-hr.

² Horsepower (Rated/Observed during testing).

³ All 6V92TA testing was performed on engine identification number 6VF-203466. See discussion in the text. The DDC upgrade kit (25% reduction) was used to configure the engine to the 1991 model year.

Engelhard's application includes no life cycle cost information. Such information is required, pursuant to 40 CFR 85.1407, only to trigger the program standard of 0.10 g/bhp-hr for applicable engines. That 0.10 g/bhp-hr PM standard was triggered for both federal (i.e., 49-State) and California engines with the certification of the Engelhard ETX-2002 rebuild kit described in the **Federal Register** on September 21, 1998

(63 FR 50225). The effective date is discussed below in section VI, "Urban Bus Operator Responsibilities."

In accordance with program requirements of 40 CFR 85.1409, Engelhard's application includes emissions defect and emissions performance warranties for the ETX Plus kit.

The ETX Plus kit is certified to a PM emission level of 0.10 g/bhp-hr for all

1988 through 1993 DDC 6V92TA DDEC II urban bus engines using either diesel fuel #1 or #2 (including engines originally certified, or rebuilt, to meet California emissions standards). Table 2 below lists the applicable engine models and certification levels associated with the certification announced in today's **Federal Register**.

TABLE 2.—CERTIFICATION LEVELS

Applicable models	Applicable engine codes	Certified PM level
1988–1993 Detroit Diesel 6V92TA DDEC II	ALL (including those certified or rebuilt to meet California or 50-state emissions standards).	0.10 g/bhp-hr.

Today's certification of the ETX Plus kit includes certification for engines originally certified, or rebuilt, to meet emissions standards of California. The impact of this on urban bus operators is discussed below in the "Transit Operator Requirements" of section VI below.

III. Summary and Analysis of Comments

Comments were received from three parties in response to the **Federal Register** document of April 29, 1999 (64 FR 232072): Johnson Matthey, Incorporated (JM), Engine Control Systems, Limited (ECS), and Golden Gate Transit. JM is a company that has several kits certified under the urban bus program, including a kit certified to the 0.10 g/bhp-hr standard for the same engines to which the ETX Plus kit is applicable. ECS is a company that has kits certified under the urban bus program, and also provides catalytic converters for a DDC kit that is certified to the 0.10 g/bhp-hr standard for the

same engines to which the ETX Plus kit is applicable. Golden Gate Transit is an operator of urban buses in an area to which the Urban Bus Rebuild Requirements apply.

Comments and issues generally fell into the following categories:

(A) Components in the ETX Plus kit; (B) Potential safety concern; (C) Durability and in-service concerns related to the ETX Plus kit; (D) Certification test engine; (E) Kit Compliance; and, (F) Other comments. These comments and issues are discussed below. The overwhelming majority of comments were provided by JM.

Copies of the complete comments and other documentation are available in the public docket, which is located at the address stated above.

A. Components in the ETX Plus Kit

1. JM notes that Engelhard intends to supply the ETX Plus kit components alone, while bus operators will procure the engine-specific components on their

own. JM states that EPA should require Engelhard to clearly state that transits are required to purchase and install all of the components in both the Engelhard-supplied kit and the non-Engelhard-supplied kit.

Engelhard states that it has clearly stated that a transit needs to install all of the specified components to be certified.

EPA notes that the Engelhard application shows that the ETX Plus Installation Instructions states "Ensure that all required parts are used per the Engelhard ETX Plus Parts List." Additionally, the components list provided by Engelhard in its letter dated June 30, 2000, show unique components lists for 1988–1990 and 1991–1993 6V92TA DDEC II engines, and installation of either list would result in an engine rebuilt to a standard 1991 to 1993 engine specification of either 253 or 277 horsepower.

2. Golden Gate Transit comments that there will be a "wide gap" in warranty coverage, between the components

Engelhard plans to put in the kit, and the warranty that DDC provides for other engine components that are not part of the certified kit, but are necessary to complete an engine rebuild when installing a kit. Emissions will be compromised if there is failure of engine components not in the certified kit, when past the DDC warranty period, and places the burden on the bus operator. Components that are not in the certified kit include pistons, cylinder liners, and piston rings. Golden Gate believes that EPA should apply the bus program warranty to all emission-related components of an engine, even if components are not in a certified kit.

EPA notes that the intent of the defect warranty of the regulation (40 CFR 85.1409) is to provide bus operators with the ability to obtain replacement components of a retrofit/rebuild kit that is still under warranty and fails to perform. Engelhard has met this requirement for the parts in its kits. Regarding the potential for a "wide gap" in warranty coverage between kit parts and other engine parts, Golden Gate is correct when referring to the kit applicable to 1991 through 1993 model year engines because certain engine parts are not provided with the kit. However, for kits for those model year engines, the warranty coverage for those standard engine parts when used with the kit (as they must) would be the same as the coverage when used with other standard engine rebuilds (such as rebuilding a 1991 model year engine to a standard 1991 configuration).

EPA notes that the ETX Plus kit for 1988 through 1990 model year engines includes the cylinder kits, fuel injectors, and camshafts and, all components of the kit are covered by the emission warranties required by 40 CFR 85.1409. These engine components are part of the kit because they are not standard rebuild parts for these model years.

EPA has no information that the presence of certified kits will result in the other components failing earlier than would otherwise occur. Therefore, EPA does not believe that there is a need for the kit certifier to warrant such components under the warranty requirements of the bus program. Further, the non-special emissions-related engine components are OEM type components and not unique with regard to the specific engine being rebuilt. In the absence of the bus program, an operator would bear the costs of such components replacement if beyond any manufacturer's warranty period. In summary, EPA does not believe that it is necessary for a kit certifier to warrant components that are not part of its kit, and does believe that

Engelhard has met its obligations under the regulatory warranty requirements of 40 CFR 85.1409.

3. In the preamble to the April 29, 1999 **Federal Register** document (64 FR 23072) that started the 45-day review of the Engelhard application, EPA stated that during the certification review it would address the issue of the supply method that Engelhard proposed for the ETX Plus kit and, whether the supply method compromises the ability of the kit to achieve the emission reductions in the field.

As noted previously, the ETX Plus kit is expected to be installed at the time of a standard engine rebuild, and the contents of the kit will vary depending upon the model year of the engine to be rebuilt. For rebuilding a 1988–1990 model year engine, the kit includes the original equipment emission related components needed to upgrade the engine to the 1991–1993 configuration. However, for a 1991–1993 model year engine, the kit will not contain those emission related components. This is because operators of 1991–1993 engines typically acquire such standard components when rebuilding 1991–1993 engines, and must do the same when installing the ETX Plus kit on these engines. In other words, urban bus operators are expected to acquire, from their routine supply sources, the standard components that are specified for the kit. EPA does not believe that this supply method will affect the ability of the kit to achieve emission reductions in the field and, therefore, EPA is not requiring that the kit for 1991–1993 engines provide the standard engine components that are typically acquired by the operator for a standard rebuild of the 1991–1993 engines. This supply method will not affect the in-use performance of the ETX Plus kit because EPA believes that operators will continue to procure the proper components as listed on Engelhard's engine specific parts list, which are typically replaced during a routine 1991–1993 engine rebuild. However, because these specific engine components are not common to 1988–1990 model year engines, the components are part of the kit for 1988–1990 engines.

The emissions performance warranty and emissions defect warranty provided by Engelhard as required by 40 CFR 85.1409, cover the components provided in the kit. This supply method is consistent with what has been provided for previous certifications, such as for the JM Cam Converter Technology (CCT™) upgrade kit for these same engines as described on December 3, 1998 at 63 FR 66798, and

the Engelhard ETX–2002 kit for the same engines as described on September 21, 1998 at 63 FR 50225.

4. JM notes that Engelhard includes the blower drive gear part number 5122918, which is for a non-hardened gear. However, this is not an appropriate component because DDC standardized the gear train to include hardened gears (JM refers to DDC service information bulletin 18–D–88, but does not provide it). According to JM, DDC has indicated that hardened and non-hardened gears should not be mixed.

Engelhard states that the appropriate blower drive gear will be specified depending on the application.

EPA notes that the blower drive gear, to be supplied with the ETX Plus kit, must be covered by the program warranty per 40 CFR 85.1409, because the blower drive gear specified by Engelhard is not part of a standard rebuild for the engine. In general, EPA believes that an emission-related component should be included in a certified "kit" if the component is not part of a standard rebuild for an engine (subject to the rebuild requirements). 5.A. JM notes that the certification word codes (CWC) on the ETX Plus components list are not compliant with the Consent Decree requirements that were agreed upon by the U.S. Justice Department and the engine manufacturer (DDC).

Engelhard states that the consent decree CWC's were not available when the original application was submitted. However, the appropriate CWC will be used.

EPA notes that Engelhard, in its letter to EPA dated June 30, 2000, has provided applicable CWCs for the engines for which the ETX Plus is applicable. EPA notes that no kits are certified that are to be re-programmed with an original certification word code because such software includes programming that EPA considers a defeat device that is prohibited by the Clean Air Act.

B. Potential Safety Concern

JM has several concerns regarding the use, operation, and durability of the ceramic coated turbocharger that is provided by Engelhard as part of the ETX Plus kit. First, JM states that the ceramic coating will most likely result in higher exhaust temperature in the piping between the turbocharger and the CMX. Higher than normal exhaust temperature could be a fire hazard. EPA should require Engelhard to provide exhaust temperature data for this coated technology to compare to existing engines operating with standard turbochargers, to determine whether

there is a safety hazard. JM suggests that additional insulation may be necessary on the piping and CMX catalytic muffler that are in close proximity to fluid lines, body panels, or the customer compartment.

In response, Engelhard states that only a very small portion of the turbocharger is coated and it is insufficient to produce a change in heat loss of the turbocharger. Also, Engelhard has told EPA that the coating is not designed as a thermal barrier, and that the turbocharger does not significantly change the exhaust temperature. Furthermore, the turbocharger is the same unit as used on the original ETX kit certified earlier as described in the **Federal Register** at 63 FR 50225 on September 21, 1998. In its letter to EPA dated June 30, 2000, Engelhard states that these units have been in-service on urban buses for the last several years without a problem.

EPA believes, as JM also notes, that there may be many different exhaust configurations in the various bus models for the piping between the turbocharger and CMX. Also, regardless of whether the ETX Plus kit is used, the heat radiated from this section of the exhaust system is related to the exhaust pipe configurations, plus other factors that influence engine load, such as passenger loading, terrain, etc. EPA is not convinced that there is a safety concern with the ETX Plus kit, given the description of the coating and the in-service experience to date. Operators with concerns regarding the variations of particular bus models, and the possibility for increased exhaust pipe temperatures, should discuss their concerns with Engelhard. EPA notes that kits are available from other manufacturers if concerns can not be resolved.

C. Durability Related to the ETX Plus Kit

1. JM comments that EPA should be concerned about the actual level of PM attained by Engelhard's technology. It is a well-accepted fact that over time and use, both engine performance as well as catalyst performance will show some level of degradation resulting in an increase in emissions. JM says that the ETX Plus kit functions at a PM level of 0.103 to 0.105 g/bhp-hr which allows for no in-use deterioration. Because of the difficulty and impracticality of testing the performance of in-use kits, the industry would never know if this technology would consistently meet the 0.10 PM standard either initially or after any engine and/or catalyst deterioration.

As noted in other discussion on this subject, EPA is concerned about in-use deterioration. However, in its

comments, JM has neither substantiated a need to account for deterioration, nor determined what that amount or test margin should be. JM has not supplied any data relevant to deterioration of Engelhard's catalysts or on its own catalysts that might be relevant to the CMX-6. EPA's review of its electronic database of new engine certification applications for diesel-fueled, catalyst-equipped, urban bus engines does not support the need to account for PM deterioration. Of the 23 engine families certified since 1997 (EPA's electronic database goes back to model year 1997), 83 percent have deterioration factors of 1.000. This indicates that the engine manufacturers have determined that the over-whelming majority of their urban bus engine systems that use exhaust catalysts will have no measurable PM emissions deterioration over the useful life of these engines. These new urban bus engine families have a PM standard of 0.05 g/bhp-hr and a useful life of 290,000 miles. For the Urban Bus Rebuild Program, the most rigorous PM standard is 0.10 g/bhp-hr, and the emissions performance warranty period (comparable in concept to useful life for new engines) is 150,000 miles. In summary, the Urban Bus Rebuild Requirements do not burden certifiers with a durability demonstration requirement as part of the certification process, but instead rely on the emissions warranties required pursuant to 40 CFR 85.1409, and EPA authorities to decertify per 40 CFR 85.1413, and recall non-compliant certified kits.

JM is correct that it would be difficult to conduct an in-use testing program using the dynamometer test procedure that is used for kit certification. However, EPA expects that its ability to conduct future in-use testing programs may be facilitated by the availability of on-road testing systems such as the ROVER type of system that EPA has developed. ROVER is a mobile measurement system designed to measure exhaust emissions from vehicles under actual in-use conditions. While ROVER is not currently configured to measure emissions for determining compliance of certified kits with the urban bus program, the system has to date been used successfully in several heavy-duty on-road enforcement actions. This or other systems may be applicable to measuring the emissions associated with certified kits in the future.

Pursuant to 40 CFR 85.1413, EPA has authority to decertify equipment for various reasons, including if use of certified equipment is causing urban bus engine emissions to exceed emission requirements for any regulated

pollutant. Further, pursuant to 40 CFR 85.1406(f), Engelhard has agreed in its certification application to notify operators who have installed this equipment and repair the equipment without cost to the operator when EPA determines that a substantial number of the equipment kits, when properly maintained and used, and in actual use throughout the in-use compliance period, do not meet emission requirements.

2. JM has several questions related to durability and the turbocharger of the kit. JM asks how, if it is assumed that the coated turbocharger has a higher than normal exhaust temperature, the temperature will affect durability. JM asks whether the turbocharger will have to be rebuilt prior to 200,000 miles, or lead to quicker degradation of the lubricating oil, or whether the higher temperature will lead to degradation of the turbocharger performance. JM also expresses concerns for the durability of the ceramic coating on the turbocharger. JM suggests that due to the duty cycle of a turbocharger, there are concerns that the coating will not survive. EPA should require Engelhard to demonstrate that the elevated temperature does not affect the durability of the turbocharger, and to provide durability data to demonstrate that the coating will survive over the required 150,000 miles of transit operation.

Engelhard, as noted above in response to an earlier comment, has stated that the turbocharger does not significantly change the temperature of the exhaust.

Additionally, EPA notes that Engelhard, in its letter to EPA dated December 14, 1998, states that the turbocharger in the ETX kit is almost identical to a turbocharger in operation on a revenue-service 6V92 DDEC II bus with over 75,000 miles, and the transit operator is extremely happy with the improved fuel economy and performance due to the installation of the turbocharger. Engelhard also notes that a similar turbocharger operated on a Class 8 tractor trailer test rig utilized by Engelhard for over 150,000 miles with no degradation of performance. While there may be differences in operating cycles, and other factors, EPA believes that this type of in-use durability evaluation is relevant to the general durability of the unit, and therefore supportive of the durability of the turbocharger in the ETX Plus kit.

Moreover, in its letter to EPA dated June 30, 2000, Engelhard notes that the same turbocharger is used in its original ETX kit, which is described in the **Federal Register** on September 21, 1998 (63 FR 50225). Engelhard notes that this

unit has been used on many buses without a problem.

EPA notes that, while the program regulation does not contain specific requirements relating to demonstration of durability, EPA is concerned with equipment durability. This subject is discussed in the preamble to the final rule (at 58 FR 21379; April 21, 1993). Additionally, the regulation at 40 CFR 85.1409 require manufacturers to provide both an emission performance warranty, to extend for a period of 150,000 miles from when kits are installed and, an emission defect warranty, to extend for a period of 100,000 miles. The regulation is clear that EPA maintains the option of performing in-use testing. Based on the information provided by Engelhard, EPA at this point has no reason to request further information regarding durability.

3. JM comments that in the Engelhard letter of December 14, 1998 in response to EPA's question on field data and durability, Engelhard provides inadequate information. Engelhard compares its modified turbocharger to a standard, unmodified DDC turbocharger durability and offers one case for their modified turbocharger with no data to substantiate their claim. Additionally, Engelhard presents durability data from a Cummins B5.9 engine as proof of the durability of the CMX-6 catalytic muffler for transit bus operations. This is not an appropriate comparison for transit operation, because there are significant differences between these two engines and their respective applications. JM states that the information should not be considered evidence of durability for transit operation, and that EPA should require Engelhard to provide similar data from a unit operating on a transit bus before any consideration is given to certifying the ETX kit.

In response, EPA notes (as discussed above) that Engelhard has presented in-use examples relevant to the durability of the turbocharger in the ETX Plus kit. Regarding the CMX-6 catalyst of the ETX-Plus kit, Engelhard states that it is very similar to the current CMX catalysts and standard OEM catalysts. In support of its technology, Engelhard has submitted data from EPA's new engine certification program that indicate no PM deterioration from two 1994 model year engines using Engelhard catalysts. Also submitted are a graphical presentation showing the PM reduction performance over 1,000 hours of an Engelhard catalyst on a 1991 Cummins 5.9 liter engine, and an SAE paper written by Cummins on the durability of Engelhard diesel oxidation catalysts in

use. EPA believes that while these engine/vehicle applications may not be identical to an urban bus, such information is supportive of certification of important components of the ETX Plus kit. EPA at this point has no reason to request further information regarding durability.

4. ECS comments that a turbocharger, as a general design feature, has clearance between the intake compressor, exhaust impeller and housing to allow for expansion and contraction of components due to temperature changes. An abrade-able coating to eliminate clearances may initially improve turbocharger efficiency but as components expand and contract and bearings wear, further abrading of the coating must be expected. Therefore, some definite loss in turbocharger efficiency and increase in PM must occur. ECS believes that this bolsters their comment that the zero emissions deterioration position is not defensible in regard to this application given the nature of the coating and the intended operation of a turbocharger.

Engelhard responds that the break-in of a turbocharger and engine operates the engine at a very high temperature, thus the coated turbocharger will achieve its minimum clearance (thus abrading the maximum amount of coating) during break-in. There will not be any additional loss of coating during operation over the life of the kit. Turbochargers are designed to operate in excess of 300,000 miles before needing to be reconditioned. Bearing wear will be minimal and will have no effect at all on the performance of the coated turbocharger.

EPA has no evidence that the Engelhard turbocharger is any less durable than an original equipment unit. Further, the coated Engelhard turbocharger is part of the certified ETX Plus kit and is therefore covered by the emissions warranty requirement of the program regulations (40 CFR 85.1409).

D. Test Engine

JM states that EPA should require Engelhard to identify the origin of the 1988 DDC 6V92TA DDEC II test engine to determine whether it was an appropriate choice for testing. Also, the list of components used for the rebuild to the 1988 California DDEC II 277 Hp configuration was not provided in the Engelhard application. EPA should require Engelhard to provide the list.

Engelhard responds that a components list for the engine rebuild was provided previously to EPA but is not relevant to the emissions testing, and the components list (for the ETX

Plus kit) represents the status of the engine for the certification testing.

EPA notes that JM does not indicate why the origin of the test engine is important to determining whether the test engine is an appropriate choice for testing. Similarly, EPA does not know why the earlier (California) engine configuration is relevant to the configuration used for certification testing with the ETX Plus kit, because of the substantial number of parts replaced to generate the ETX Plus configuration. Finally, EPA notes that the components list for the test engine, in its 1988 model year California configuration, is available. This information was provided by Engelhard in conjunction with the Engelhard kit certified earlier to the 0.10 g/bhp-PM standard and described in the **Federal Register** on September 21, 1998 (63 FR 50225). The same engine block (that is, same serial number) was used for all emissions testing. The engine was initially rebuilt to a 1988 California configuration, subsequently rebuilt to a 1991 through 1993 model year DDC DDEC II standard configuration (using a DDC DDEC II upgrade kit), and then finally rebuilt with the ETX Plus rebuild kit. The testing documentation and lists of components used in each of the rebuilds can be found in the public docket A-93-42, category XXV-A, at the address listed above.

E. Kit Compliance

1. Engine Control Systems (ECS) comments that PM emissions actually exceed the 0.10 g/bhp-hr standard, and that there is therefore no basis for approval of this application. ECS notes that there must be zero emissions deterioration over the 150,000 miles of the emissions warranty requirement, and absolutely zero emission variance between different rebuilt engines. The Engelhard position on the matter does not allow for any emissions variance between different rebuild engines. ECS believes that this position cannot be defended to the transit industry.

EPA appreciates the concerns expressed by ECS. The program regulations require neither multiple certification tests nor durability demonstration. As discussed above, however, Engelhard has met the requirements of the urban bus program. EPA notes that its ability to conduct future in-use testing may be facilitated by the availability of on-road testing systems such as the ROVER type of system that EPA is currently evaluating.

2. JM states that it is their position that an oxidation catalyst, even in combination with a turbocharger that boosts exhaust temperatures above

typical temperatures, will not reduce a large enough portion of both the soluble organic fraction (SOF) and soot particles to reach 0.10 g/bhp-hr over the FTP transient cycle. JM is not convinced that this technology can and will consistently produce emission levels that will meet the 0.10 g/bhp-hr standard. EPA should require Engelhard to provide turbocharger exit temperatures across the FTP cycle, baseline FTP data, and a PM analysis for SOF to allow EPA and catalytic technology experts to assess the true likelihood that this technology can consistently meet the 0.10 PM emission standard. JM submits exhaust emission data from DDC indicating a composite PM level of 0.225 g/bhp-hr for a 1991 6V92TA DDEC II.

Engelhard responds that JM's summation is not correct. The ETX Plus kit includes a blower drive gear and improved turbocharger that dramatically affect the engine-out particulate. Additionally, Engelhard's CMX-6 catalyst is substantially more efficient, so that JM's conclusions are not correct. Engelhard's certification engine was not "tuned" as JM suggests and actually emitted 0.277 g/bhp-hr PM when rebuilt to a baseline 1991 277 hp 6V92 50-State DDEC configuration. After baseline testing, the Engelhard turbocharger, new blower drive gear and CMX-6 catalyst were added to achieve the 0.10 g/bhp-hr standard.

EPA notes that the certification test engine for the ETX Plus kit and the baseline engine emitting 0.277 g/bhp-hr PM is the same engine serial number used for testing of its original ETX kit (the certification of which is described on September 21, 1998 at 63 FR 50225). The 0.277 g/bhp-hr PM level of Engelhard's baseline test engine is on the high side compared to both the data that JM submitted for a 1991 configuration (0.225 g/bhp-hr), and from data supplied by DDC for new engine certification of the 1991 model year 6V92TA DDEC coach (engine family MDD0552FZL1), which shows a level of 0.25 g/bhp-hr. EPA notes that all the parameter data that JM requests is not required by the bus regulation. As noted above, Engelhard states that after baseline testing, the Engelhard turbocharger, new blower drive gear and CMX-6 catalyst was added to achieve the 0.10 g/bhp-hr standard of the urban bus program. In conclusion, Engelhard has demonstrated compliance of the ETX Plus kit with the 0.10 g/bhp-hr standard in accordance with the bus program requirements.

3. JM states that EPA should require Engelhard to provide baseline exhaust emission FTP data on the test engines so

that the initial PM emissions can be part of the overall assessment of the technology. This includes the baseline exhaust emissions for the 1988 California, and the 1991 model year federal engine. JM's concern is whether the baseline emissions are truly representative. JM asks, "Or was exceptional care taken in selection of components and in rebuilding the engine that the actual PM emissions were much lower, so that use of only an oxidation catalyst would reduce PM to 0.103 g/bhp-hr?" EPA should require Engelhard to provide this data to ensure that the test engine is representative.

Engelhard states that such information is not required for certifications because Engelhard is certifying the kit to a certain standard rather than a specific amount of reduction versus a baseline engine.

EPA notes that the emissions data that Engelhard presents in its certification application (signed November 17, 1998) demonstrates compliance with the 0.10 g/bhp-hr standard in accordance with section 85.1406(a). Additional hot start test data complying with the 0.10 g/bhp-hr PM standard is provided in Engelhard's letter to EPA dated December 14, 1998 (supporting documentation for this test is provided in the June 30, 2000 letter to EPA). While multiple tests, including testing of different stages of engine rebuild or different engine configurations, might provide additional comfort regarding the ability of a kit to meet standards, the regulations do not require this level of scrutiny. Indeed, it might be edifying to EPA and others to know the emissions reduction associated with each component of a kit. However, the program regulations are not intended to impose such a burden on a kit certifier. Additionally, as noted previously, EPA has made "baseline" engine emissions data available in Table 1 above.

4. JM states that Engelhard should submit baseline data for the 1988 California engine because it is essential to determine whether an oxidation catalyst can theoretically reduce emission on this engine below 0.10 g/bhp-hr level. Also, the selection of a California engine is inappropriate for comparison of fuel economy penalties for Federal engines because the 1988 California NO_x standard (6.0 g/bhp-hr) is lower than the standard (10.7 g/bhp-hr) for federal engines. An engine operating with lower NO_x has higher fuel consumption. By using a baseline engine with high fuel consumption, Engelhard would be able to show a lower fuel penalty when comparing the performance of the ETX kit. EPA should require Engelhard to provide a baseline

test of a federal engine for both the 1988—1990 model configuration as well as the 1991—1993 configuration in addition to the California baseline.

Engelhard responds that the baseline is not relevant because Engelhard is certifying a complete rebuild kit that essentially creates a new engine.

EPA notes that there is no specific regulatory requirement to submit data for fuel consumption comparison because Engelhard is not certifying the ETX Plus kit to life cycle cost requirements. However, this information is available for the certification test engine and when the (same serial number) engine was tested as a 1991 model year and 1988 model year California configurations. This data is provided in Table 1 above.

5. JM notes that the calculated PM level, when rounded to three places past the decimal, is 0.103 g/bhp-hr. JM argues that, while rounding is an acceptable practice, rounding off a number that is higher than the specific emissions standard is unacceptable because the standard was not achieved. EPA notes that the relevant PM standard for the Urban Bus Rebuild Program, as stated at 40 CFR 85.1403(b), is 0.10 g/bhp-hr. It is EPA's practice, in the context of its programs measuring exhaust emissions, to use the "rounding-off method" stated in American Standards and Testing and Materials (ASTM) Practice E29 entitled "Using Significant Digits in Test Data to Determine Conformance with Specifications." According to this method, the numeric value of the bus program PM standard (0.10) expresses an implied level of precision (that is, two places beyond the decimal point) to which emission calculations are rounded in order to compare to the standard to determine compliance. Therefore, the calculated value of the test data produced for Engelhard's ETX Plus kit (0.103 g/bhp-hr) rounds to 0.10 g/bhp-hr, and this rounded test result complies with the urban bus program standard of 0.10 g/bhp-hr.

6. JM notes that the Engelhard certification testing completed in May 1998 was done on an engine having piston ring set 23522064 (DDC part number). This ring set was superseded by DDC in January 1999 with a piston ring set with DDC part number 23524349. In a telefax to EPA dated September 15, 1998, DDC indicated that this new ring set includes a grooved fire control ring for improved lubrication and states that the new ring carries more oil to the cylinder walls resulting in an increase in oil consumption of 21 percent. (This telefax from DDC to EPA is attached to JM's comments to EPA

dated June 14, 1999.) In the telefax, DDC calculates that the increase in oil consumption will cause an increase in PM by an average of 0.002 g/bhp-hr. JM estimates that the PM increase will be higher from the increased oil consumption than is presented because the Engelhard engine is a 1991 model year and its base emissions are higher than that used in the DDC calculations. JM calculates that with the minimum increase of 0.002 g/bhp-hr, the ETX Plus kit with the new ring set will emit at a PM level of 0.105 g/bhp-hr. JM rounds this to 0.11 g/bhp-hr, and states this clearly does not meet the 0.10 g/bhp-hr standard.

Engelhard responds with a calculation, concluding that the increase in PM due to additional oil consumption would be impossible to measure. However, EPA believes that Engelhard has incorrectly assumed that the 0.002 g/bhp-hr is an engine-out increase. Instead, the 0.002 g/bhp-hr value was calculated in an engineering analysis performed by DDC as an average increase in catalyst-out total PM, for the catalysts of three different manufacturers.

EPA notes that DDC's revised cylinder kit (part number 23524343) is for use in the DDC rebuild kits for both DDEC and MUI engines, and expects that the cylinder kits will be also be used in engines rebuilt with the ETX Plus kit. Therefore, EPA believes that the calculations of the DDC engineering analysis that JM references, are relevant to the ETX Plus kit. In its analysis, DDC calculates the increase in catalyst-out PM from its 0.10 kit, due to the increased oil consumption with the new cylinder kit. DDC assumes that the additional oil consumption results in an increase only in the soluble organic fraction (SOF) of the total PM, that the exhaust catalyst will oxidize most of this additional SOF, and that the fuel-derived and soot components of the total PM are not affected by the revised cylinder kit changes. Therefore, EPA knows of no reason why the magnitudes calculated in the DDC analysis would not apply to the Engelhard engine, even though it is configured basically to a 1991 model year. The DDC analysis calculates the total catalyst-out PM increases associated with the catalytic converters of three different manufacturers that might be used with the DDC kit. When the highest catalyst-out PM increase (that is, that associated with the catalyst having the lowest PM conversion efficiency—22 percent) is added to the total PM of the ETX Plus kit (0.103 g/bhp-hr from the Engelhard certification testing), the total PM for the ETX Plus kit is estimated to be 0.105 g/

bhp-hr. While EPA does not know the conversion efficiency of the CMX-6 catalytic muffler unit of the ETX Plus kit, EPA expects it to be greater than the 22 percent conversion efficiency used in the DDC analysis for the catalyst with the lowest efficiency. In accordance with the ASTM E29 rounding practice referenced above, the rounded value of 0.105 g/bhp-hr for the ETX Plus kit complies with the urban bus program standard of 0.10 g/bhp-hr. Therefore, the ETX Plus kit when used in conjunction with an engine rebuild using the DDC's new piston ring set, will still meet the 0.10 g/bhp-hr standard.

7. JM notes that Engelhard submitted exhaust emission data for a hot-start test that showed a total PM measurement of 0.098 g/bhp-hr. JM states that EPA should require Engelhard to submit the formal data sheet from the test lab before it is used as part of any assessment of the technology. Also, JM notes that it results in a composite FTP PM level of 0.101 g/bhp-hr (presumably when combined with the cold-start test data from the certification test) to which the minimum value of 0.002 g/bhp-hr PM (the increase from the piston ring set change) must be added. JM states that this results in a final PM level of 0.103 g/bhp-hr that clearly does not meet the requirement for a 0.1 PM standard.

EPA notes that Engelhard, in its letter to EPA dated June 30, 2000, has submitted the formal data sheet from the test laboratory, for the additional hot-start test data. This hot-start data is submitted by Engelhard in support of its previously-submitted certification test data (which consists of cold and hot-start test data). Additionally, while Engelhard has not provided any cold start test data associated with the additional hot-start test, EPA notes that the "final PM level" of 0.103 g/bhp-hr mentioned by JM, if rounded per ASTM Practice E29 as has been discussed above, would be in compliance with the urban bus program standard for PM of 0.10 g/bhp-hr.

F. Other Comment

ECS comments that Engelhard has told EPA of Engelhard's intent to withdraw their original 0.10 DDEC II kit (the certification of which is described in the **Federal Register** on September 21, 1998 at 63 FR 50225) from the Urban Bus Program. ECS asks whether Engelhard will guarantee to offer the ETX Plus kit for actual sale to the transit industry. ECS suggests that applicants who have no intention to offer products for sale to the transit industry obviously have other commercial reasons for the application, and that EPA should deny certification to applicants that have no

intention to offer the products for sale to the transit industry. Applications for kits that will not be offered for sale are a misuse of the Urban Bus Program. Such applications dilute the EPA's ability to expedite other certification applications. Also, such dilution can result in undue financial hardship to other serious applicants and an unnecessary delay of competitive products to the marketplace.

EPA notes that the program regulations require, for kits certified to life cycle cost requirements, that a certifier guarantee to offer the kit for sale to all operators for less than the applicable life cycle cost. Such information is required, pursuant to 40 CFR 85.1407, only to trigger the program standard of 0.10 g/bhp-hr for applicable engines. Providing life cycle cost information is optional and the related guarantee is not specifically required from certifiers that do not intend their kit to trigger an emission standard.

Engelhard has not provided this information for the ETX Plus kit, but EPA has no reason to suspect that Engelhard will not offer the ETX Plus kit to the transit industry. However, EPA agrees with ECS that the urban bus program is intended to certify kits that are to be sold to the transit industry for use on urban bus engines.

IV. California Engines

The NO_x emission standard for new engine certification applicable to 1988 through 1990 model year engines sold in the State of California is 6.0 g/bhp-hr. For 1991 through 1993, the standard is 5.0 g/bhp-hr. The emissions testing presented by Engelhard demonstrate a NO_x emissions level that complies with the 5.0 g/bhp-hr standard. Therefore, today's certification of the ETX Plus kit for DDEC II engines applies to DDEC II engines certified to meet California emissions standards.

The kit certified today may require additional review by the California Air Resources Board (CARB) before use in the State of California. EPA recognizes that special situations may exist in California that are reflected in the unique emissions standards, engine calibrations, and fuel specifications of the State. While requirements of the federal urban bus program apply to several metropolitan areas in California, EPA understands the view of CARB that a kit certified under the urban bus program, to be used in California, must be provided with an executive order exempting it from the anti-tampering prohibitions of that State. Parties interested in additional information should contact the Aftermarket Part Section of CARB, at (818) 575-6848.

V. Certification

EPA has reviewed this application, along with comments received from interested parties, and finds the ETX Plus kit described in the Engelhard application and other relevant documents:

(1) Complies with a PM emissions standard of 0.10 g/bhp-hr, without causing the applicable engine families to exceed other applicable emission requirements;

(2) Will not cause an unreasonable risk to the public health, welfare or safety;

(3) Will not result in any additional range of parameter adjustability; and

(4) Meets other requirements necessary for certification under the Urban Bus Rebuild Requirements (40 CFR Sections 85.1401 through 85.1415).

EPA hereby certifies this kit for use in the Urban Bus Retrofit/Rebuild Program. The equipment, the ETX Plus™ Emissions Rebuild Kit, may be used immediately by urban bus operators subject to the Urban Bus Rebuild Requirements.

VI. Urban Bus Operator Responsibilities

Today's **Federal Register** document announces certification of the above-described Engelhard kit, when properly applied, as meeting the 0.10 g/bhp-hr PM standard of the Urban Bus Rebuild Requirements, for urban bus engines certified as meeting either federal and California emissions standards. Affected urban bus operators that choose to comply with compliance program 1 are required to use this or another kit that is certified to meet the 0.10 g/bhp-hr PM standard, for any engines listed in Table 2 which are rebuilt or replaced after the applicable deadline, as discussed below.

The 0.10 g/bhp-hr PM standard was triggered on September 21, 1998. As described in a **Federal Register** notice on September 21, 1998 (63 FR 50225), EPA certified the ETX-2002™ Emissions Rebuild Kit supplied by the Engelhard Corporation. The ETX kit applies to 1988 through 1993 model year Detroit Diesel Corporation 6V92TA DDEC II engines having electronic fuel control and rated at either 253 or 277 horsepower (hp). That certification means that transit operators using compliance program 1 must use rebuild kits certified to the 0.10 standard when rebuilding or replacing the applicable engines after March 22, 1999 (that is, 6 months after September 21, 1998).

The September 21, 1998 **Federal Register** notice states that certification of Engelhard's ETX kit, as it applies to engines of model years 1988 through

1990, is conditional pending demonstration by Engelhard that any replacement engine control module (ECM) or any replacement ECM program used in conjunction with the kit would not adversely impact the emissions of NO_x. In a letter dated March 2, 1999, to Engelhard, EPA stated that the conditional status was removed and that the ETX kit can be used by transit operators in compliance with the requirement of the rebuild program. In a letter dated March 29, 1999 from EPA's Assistant Administrator for Enforcement and Compliance Assurance to Santa Clara Valley Transportation Authority, EPA stated that due to confusion surrounding the conditional certification, it will not take action against an operator who does not install 0.10 kits between March 22, 1999 and May 21, 1999. Further, EPA stated in the letter that it will extend this period of no action past May 21, 1999, if the general counsel for a bus operator certifies in writing to EPA that it has exercised due diligence since September 21, 1998, to procure the necessary 0.10 kits, but could not obtain them in time to begin installing 0.10 kits by May 22, 1999. In no event will the period of no action be longer than September 1, 1999. A copy of this letter is located in docket XXV-A located at the above address.

Urban bus operators who choose to comply with compliance program 2 may use the certified Engelhard kit, and those who use this kit may claim the respective PM certification level from Table 2 when calculating their Fleet Level Attained (FLA).

Urban bus operators must be aware of their responsibility for maintenance of records pursuant to 40 CFR Sections 85.1403 through 85.1404. The ETX Plus kit may not include, depending upon model year of the applicable engine, fuel injectors, engine camshafts, cylinder kits, or ECM software. As stated in the Urban Bus Rebuild Requirements (40 CFR 85.1401 through 85.1415), operators should maintain records for each engine in their fleet to demonstrate that they are in compliance with the Urban Bus Rebuild Requirements beginning on January 1, 1995. These records include purchase records, receipts, and part numbers for the parts and components used in the rebuilding of urban bus engines. Urban bus operators must be able to demonstrate that all components used in the rebuilding of engines are in compliance with program requirements. In other words, urban bus operators must be able to demonstrate that all required components of the kit certified

in today's **Federal Register** document are installed on applicable engines.

Dated: September 8, 2000.

Robert Perciasepe,

Assistant Administrator for Air and Radiation.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-6870-3]

Retrofit/Rebuild Requirements for 1993 and Earlier Model Year Urban Buses; Certification of Equipment on the Basis of Life Cycle Cost Criteria

AGENCY: Environmental Protection Agency (EPA)

ACTION: Notice of certification by EPA of equipment on the basis of compliance with the life cycle cost criteria of the Urban Bus Rebuild Requirements.

SUMMARY: In accordance with 40 CFR 85.1407(c), this notice announces the decision of EPA to expand the certification of certain equipment to include compliance with the life cycle cost criteria of the Urban Bus Rebuild Program (40 CFR Part 85, Subpart O).

A **Federal Register** notice dated December 3, 1998 (63 FR 66798) announced that EPA certified the JM CCT™ Upgrade Kit to comply with the 0.10 g/bhp-hr particulate matter (PM) standard of the Urban Bus Rebuild Program. The kit is applicable to 1985 through 1993 model year Detroit Diesel Corporation (DDC) 6V92TA DDEC II urban bus engines having electronic control of fuel injection. That certification is not based on the optional compliance with life cycle cost criteria of the program.

In documents dated January 26, 1999, JM provided life cycle cost information to EPA for the CCT kit, as it applies to engines of model years 1988 through 1993. A **Federal Register** notice (64 FR 11864) dated March 10, 1999, announced that EPA had received the cost information and made it available for public review, and asked for public comment. EPA has reviewed JM's life cycle cost information as well as the comments received, and with today's **Federal Register** notice is expanding certification of the JM equipment to include compliance with the life cycle cost criteria.

Today's **Federal Register** notice announces that JM's certification is expanded to include compliance with the life cycle cost criteria, and would therefore serve to "trigger" the 0.10 g/

bhp-hr standard for the applicable engines, if necessary. This is discussed below in additional detail.

The impact of today's action on urban bus operators is discussed further below.

Category XXI of Public Docket A-93-42, entitled "Certification of Urban Bus Retrofit/Rebuild Equipment" contains JM's notification of intent to certify, the new cost information, as well as other materials specifically relevant to it. This docket is located at the address below.

DATES: The date of today's **Federal Register** notice, September 15, 2000, is the effective date of certification by EPA of the CCT kit described herein, for compliance with the applicable life cycle cost criteria of the urban bus rebuild program. This certification will obligate JM to offer the equipment meeting the 0.10 g/bhp-hr standard within the specified life cycle cost limits discussed below. The impact of today's action on urban bus operators is discussed below.

FOR FURTHER INFORMATION CONTACT: William Rutledge, Certification and Compliance Division (6403J), U.S. Environmental Protection Agency, Ariel Rios Building, 1200 Pennsylvania Avenue NW, Washington, DC 20460. Telephone: (202) 564-9297. Email Address: rutledge.william@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Program Background

On April 21, 1993, EPA published final Retrofit/Rebuild Requirements for 1993 and Earlier Model Year Urban Buses (58 FR 21359). The retrofit/rebuild program is intended to reduce the ambient levels of particulate matter (PM) in urban areas and is limited to 1993 and earlier model year (MY) urban buses operating in metropolitan areas with 1980 populations of 750,000 or more, whose engines are rebuilt or replaced after January 1, 1995. Operators of the affected buses are required to choose between two compliance options: Program 1 sets particulate matter emissions requirements for each urban bus engine in an operator's fleet which is rebuilt or replaced; Program 2 is a fleet averaging program that establishes specific annual target levels for average PM emissions from urban buses in an operator's fleet. In general, to meet either of the two compliance options, operators of the affected buses must use equipment that has been certified by EPA.

A key aspect of the program is the certification of retrofit/rebuild equipment. Emissions requirements under either of the two compliance options depend on the availability of

retrofit/rebuild equipment certified for each engine model. To be used for Program 1, equipment must be certified as meeting a 0.10 g/bhp-hr PM standard or, if equipment is not certified as meeting the 0.10 standard, as achieving a 25 percent reduction in PM. Equipment used for Program 2 must be certified as providing some level of PM reduction that would in turn be claimed by urban bus operators when calculating their average fleet PM levels attained under the program. For Program 1, information on life cycle costs must be submitted in the notification of intent to certify in order for certification of the equipment to initiate (that is, to "trigger") program requirements. To trigger program requirements, the certifier must guarantee that the equipment will be available to all affected operators for a life cycle cost of \$7,940 or less at the 0.10 PM level, or for a life cycle cost of \$2,000 or less for the 25 percent or greater reduction in PM emissions. Both of these values are based on 1992 dollars and are increments above costs associated with a standard rebuild. If EPA determines that the life cycle cost limit is met, then certification is based on "life cycle cost" in addition to reducing PM emissions.

Under program 2, operators calculate their average fleet emissions using specified engine PM emission levels (as well as other factors).

The 0.10 g/bhp-hr PM standard was triggered on September 21, 1998. As described in a **Federal Register** notice on September 21, 1998 (63 FR 50225), EPA certified the ETX-2002™ Emissions Rebuild Kit supplied by the Engelhard Corporation. The ETX kit applies to 1988 through 1993 model year Detroit Diesel Corporation 6V92TA DDEC II engines having electronic fuel control and rated at either 253 or 277 horsepower (hp). That certification means that transit operators using compliance program 1 must use rebuild kits certified to the 0.10 standard when rebuilding or replacing the applicable engines after March 22, 1999 (that is, 6 months after September 21, 1998).

The September 21, 1998 **Federal Register** notice states that certification of Engelhard's ETX kit, as it applies to engines of model years 1988 through 1990, is conditional pending demonstration by Engelhard that any replacement engine control module (ECM) or any replacement ECM program used in conjunction with the kit would not adversely impact the emissions of NO_x. In a letter dated March 2, 1999, to Engelhard, EPA stated that the conditional status was removed and that the ETX kit can be used by transit operators in compliance with the

requirement of the rebuild program. In a letter dated March 29, 1999, EPA stated that due to confusion surrounding the conditional certification, it will not take action against an operator who does not install 0.10 kits between March 22, 1999 and May 21, 1999. Further, EPA stated in the letter that it will extend this period of no action past May 21, 1999, if the general counsel for a bus operator certifies in writing to EPA that it has exercised due diligence since September 21, 1998, to procure the necessary 0.10 kits, but could not obtain them in time to begin installing 0.10 kits by May 22, 1999.

Certification of the JM CCT kit as complying with the life cycle cost criteria will not establish new requirements for operators. This is discussed further in Section V below.

II. Information Concerning Cost and Availability

EPA announced certification of the JM CCT Upgrade Kit in the **Federal Register** on December 3, 1998 (63 FR 66798). That certification is based on compliance with the 0.10 standard, but without determination of compliance with the optional life cycle cost criteria. That certification was described as "conditional" for some engine applications, pending a demonstration that any replacement ECM or ECM program used in conjunction with the certified kit would not adversely impact the emissions of NO_x in comparison to the ECM or ECM program that is replaced. DDC provided information that allowed EPA to remove the conditional status of the certification. Therefore, in a letter to JM dated March 2, 1999, EPA removed the conditional status and stated that the CCT Kit can be used by bus operators in compliance with requirements of the Urban Bus Rebuild Program.

In documents signed January 26, 1999, JM provided life cycle cost information in a revised section 6 of their notification of intent to certify the CCT Upgrade Kit. JM presents data in support of their claim that the life cycle cost of the CCT kit is less than \$7,940 (in 1992 dollars) incremental to the cost of a standard rebuild. A **Federal Register** notice (64 FR 11864) dated March 10, 1999, announced that EPA had received the cost information and was making it available for public review and public comment.

III. Summary and Analysis of Comments

Detroit Diesel Corporation (DDC), the original manufacturer of the bus engines to which the CCT kit applies, was the

only party to provide comments. The following summarizes DDC's comments, JM's responses to the comments, and EPA's position on the issues raised by the comments.

a. DDC notes that JM states that the cost of the reprogramming, if ECM reprogramming is necessary, would be included in the price of the kit. However, JM does not explain how DDC distributors and dealers, who would be doing the reprogramming, would be compensated for the reprogramming if the reprogramming fee is paid to JM as part of the kit price. The reprogramming fee is typically collected by the distributor when the service is performed.

In response, JM states that it intends to reprogram ECMs at its facilities at Stewart & Stevenson (a DDC distributor as well as JM distributor). JM's payment for reprogramming will be by JM to Stewart & Stevenson and will remain imbedded in the price of those kits that require the ECM program (that is, the certification word code, CWC) to be changed.

Regarding DDC's point, EPA requested JM to include the price of the reprogramming in the purchase price of the kit to insure that the price of the kit includes all components that are not part of a standard rebuild (it is thereby accounted for in the life cycle cost analysis). In this way, bus operators will not be faced with the potential for additional costs above the purchase price of the kit, for an emission-related component.

b. DDC also states that JM should identify those engines that will receive ECM reprogramming. Further, DDC believes that the ECM reprogramming costs should be shown separately from the CCT hardware costs.

JM states that all 1985 through 1990 model year engines, and any 1991 through 1993 model year engine with a CWC other than 259, 260, 261, 262, 263, or 264, will be required to upgrade its CWC. Also, as noted previously, EPA requested JM to include the price of the reprogramming in the purchase price of the kit.

c. DDC notes that JM's test of the CCT kit consisted of a cold-start test followed by two hot-start tests. To calculate the fuel consumption (that is, brake specific fuel consumption, BSFC, measured in units of pounds of fuel per brake-horsepower-hour) of the CCT kit, JM combined the cold-start test with the second hot-start test, and completely ignored the first hot-start test, even though it is valid. DDC states that it sees no justification for ignoring the valid first hot-start test. DDC states that the first hot-start test should be used (in

conjunction with the cold-start test), unless JM provides some sound rationale for bypassing it.

In reply, JM states that after a cold-start test, the test laboratory routinely conducts two hot-start tests in the event that the first is invalid. JM contends that, because the second hot-start is a valid test, it can be used to calculate the fuel consumption.

EPA notes that it is not improper to use the second hot-start test if the first test is not valid. However, in this situation, the first test has been presented as valid and, was used by JM to demonstrate compliance with the 0.10 standard in its certification application dated March 6, 1998. EPA notes that it is consistent with the regulations governing the transient test procedure to use the first hot-start test. 40 CFR 86.1327-90 ("Engine dynamometer test procedures; overview") establishes the basic sequence for the transient engine test, and 86.1330-90 shows a diagram of the overall test sequence. Section 86.1336-84 ("Engine starting, restarting, and shutdown") provides direction for re-running the hot-cycle when the test sequence is impacted by engine stalls and malfunctions in the required test equipment. In no case are there provisions in the Part 86 test procedures for the arbitrary selection of hot-start cycles. Use of a valid first hot-start test is consistent with EPA's procedures in other, new engine, test programs (for example, during selective enforcement audits). Therefore, EPA is using the first hot-start with the cold start test to determine the composite fuel consumption of engines equipped with the CCT kit. For the purposes of the analysis discussed below, the fuel consumption value of engines equipped with the CCT kit is 0.489 lb/bhp-hr.

d. DDC notes that JM presents baseline fuel consumption data for 1991 through 1993 model year engines. After comparing this to the fuel consumption for the CCT kit, JM notes a 0.4 percent difference, but dismisses the difference as being "within accepted experimental error." DDC notes that the urban bus regulation (40 CFR 85.1404) does not include provisions for "rounding off" or ignoring differences that may be the result of testing uncertainty. DDC states that the BSFC difference reflected by the actual test data is the best estimate of the fuel consumption impact of the CCT kit, and must be used in computing the life cycle cost.

In response, JM states that a fuel consumption difference of 0.4 percent is within the "experimental" error of the test cells at the laboratory. JM also states that it is following the customary

practice of EPA in rounding down numbers.

EPA has no customary practice of "rounding down" test data. Additionally, DDC is correct in that the program regulation does not address rounding of numbers or ignoring differences when assigned to "experimental" (that is, test-to-test) error. However, the issue specifically related to the 0.4 percent is no longer relevant because the fuel consumption value determined by EPA for the CCT kit, as discussed previously, is not the value based on the second hot-start test as JM presents in its analysis. The impact of any difference in fuel consumption, of course, remains relevant with regard to determining the life cycle cost of the kit. EPA is not familiar with any analyses of the test-to-test error of the laboratory at which the testing was conducted.

EPA believes that it is reasonable to determine (and apply) the fuel consumption impact to one-tenth of a percentage point. This is consistent with the practice used during the certification process of the Engelhard ETX kit. The impact of fuel consumption is discussed below in the section titled "EPA Determination of Life Cycle Cost".

e. JM separately evaluates the fuel consumption impact of its kit on 1990 model year engines because the NO_x standard for the 1990 model year dropped from 10.7 to 6.0 g/bhp-hr. JM states that it is accepted in industry that reductions in NO_x are achieved at the expense of fuel consumption. For evaluating the impact, JM cites original DDC new engine certification data to establish a baseline fuel consumption for 1990 model year engines, and compares this data with the fuel consumption of the CCT kit to determine the impact of the CCT on these engines. DDC notes that in 1990, it only produced engines configured to operate on diesel fuel #1, and to compare this data with data run with the CCT using diesel fuel #2, as JM has done, results in a biased and inappropriate comparison because the energy content of diesel #1 is about 1 percent higher than diesel #2. Therefore, DDC states that it is appropriate to correct the 1990 baseline fuel consumption upward by 1 percent to correct for fuel type differences before making the fuel consumption evaluation.

In response, JM recognizes the accuracy of DDC's statement and concurs that the 1990 model year engine's baseline fuel consumption should be increased by 1 percent.

EPA notes that the comment and response by JM are no longer specifically relevant. While in general it appears to be reasonable to determine the impact of fuel consumption based on grouping together those engines having the same NO_x standard (such as the 1988 California engines and 1990 federal engines), EPA does not rely on the specific test data from the original DDC new engine certification. The impact of fuel consumption is discussed below in the section titled "EPA Determination of Life Cycle Cost".

f. JM also separately evaluates the fuel consumption impact of its kit on 1988 and 1989 model year California engines because the NO_x standard in California for those years is 6.0 g/bhp-hr, and JM states that it is a widely accepted fact in the industry that there is a trade off between NO_x and fuel consumption. JM notes that the fuel consumption of the 1988 and 1989 model year California engines would have been comparable to the 1990 model year federal engine because all had the same 6.0 g/bhp-hr NO_x standard. For evaluating the impact, JM did not develop baseline data, but instead cites data supplied by Engelhard Corporation in its application for certification of its ETX kit. Engelhard tested a 1988 6V92TA DDEC II California configuration to establish a baseline fuel consumption for the 1988–1989 California engines of 0.481 lb/bhp-hr. JM compares this data with the fuel consumption of the CCT kit to determine the impact of the CCT kit on these engines. DDC notes that the original DDC certification testing of the 1988 California 6V92 DDEC engine rated at 277 horsepower yielded fuel consumption of 0.462 lb/bhp-hr.

In response, JM argues that the fuel consumption of 0.481 lb/bhp-hr, developed for Engelhard using a 1988 California engine, is more "real life" than DDC's value of 0.462 lb/bhp-hr for the same engine, and therefore appropriate for evaluating the impact of its CCT kit.

While DDC has not provided any background information on its test of the 1988 California certification engine, EPA expects that it was conducted in a DDC test cell in 1987. However, EPA believes that it is reasonable to compare data that is developed at the same laboratory. Therefore, to determine the fuel consumption impact, EPA is relying on the 0.481 lb/bhp-hr (developed for Engelhard) because it was conducted at the same test laboratory (Southwest Research Institute, SwRI) as the CCT test. The impact of fuel consumption is discussed below in the section titled "EPA Determination of Life Cycle Cost".

g. DDC notes that for the urban bus rebuild certification of their own 25 percent reduction kit for 6V92 DDEC engines, they provided fuel consumption values of 0.449 and 0.470 lb/bhp-hr for 1988 and 1991 model year engines, respectively. While both of these values are lower than the corresponding values developed by JM, the fuel consumption penalty (from the 1988 to 1991 model year) is about 5 percent in both cases (actually 4.7 percent based on EPA calculation). DDC states that the fuel consumption penalty that JM develops for the impact of the CCT kit on 1988 and 1989 model year federal engines appears appropriate, but when additional differences between the CCT kit and the 1991 baseline are accounted for, DDC believes that the actual fuel consumption penalty is approximately 6.5 percent.

JM responded that it stands by its analysis that shows there is no fuel consumption penalty associated with upgrading a 1991 model year DDEC engine to a CCT Upgrade Kit configuration, and would agree to use DDC's 5 percent penalty for upgrading 1988 and 1989 model year engines to the CCT kit configuration.

EPA notes that the specific fuel consumption penalty of 4.7 percent (to which DDC and JM refer as 5 percent), is based on comparing data from 1988 and 1991 model year engines that DDC developed for its original new engine certification. However, the data do not represent engine configurations of the same horsepower, and neither test represents actual use of the CCT kit. To calculate the fuel consumption penalty for the CCT kit, EPA believes that it is reasonable to compare data from the testing conducted for JM on the CCT kit and the engine rebuilt to a 1991 model year configuration. Both tests were conducted for JM using engines of the same horsepower (277 Hp) in the same test cell of the same laboratory. As discussed later in the section titled "EPA Determination of Life Cycle Cost," our analysis shows that a 6.5 percent fuel consumption penalty is appropriate.

IV. EPA Determination of Life Cycle Cost

Section 85.1403(b)(1)(ii) describes the elements that must be considered when analyzing life cycle cost of equipment, including equipment purchase price, incremental fuel cost, installation costs, maintenance costs, and costs of any fuel additives required. To trigger the 0.10 g/bhp-hr standard, the life cycle cost of equipment can be no more than the limit of \$7,940 (in 1992 dollars),

incremental to the cost of a standard rebuild.

In this section, EPA analyzes the life cycle costs using a methodology similar to that described in both the **Federal Register** notice of March 14, 1997 (62 FR 12166), which describes the certification of Engelhard's ETX kit applicable to DDC's 6V92TA engines with mechanical unit injectors (MUI), and the **Federal Register** notice of September 21, 1998 (63 FR 50225), which describes the certification of Engelhard's ETX kit applicable to DDC's 6V92TA engines with electronic unit injectors (DDEC).

The analysis first determines the cost of a "weighted" rebuild because the kit is used in conjunction with a standard rebuild and contains parts that are typically replaced during a standard rebuild. The weighted rebuild considers that all operators do not rebuild engines the same way, and therefore reflects, on a weighted basis, that some operators rebuild using non-original equipment parts and some operators rebuild certain components in-house. For the weighted rebuild, cost information is "corrected" to a 1992 time-frame, which is the time period for which the life cycle cost limit of \$7,940 of the regulation is based. EPA then uses the cost of a weighted rebuild for determining an offset for the parts supplied in the CCT kit (that is, JM's first supply option) that are typically replaced during a standard rebuild. The offset is then added to any additional installation costs and fuel penalty, to determine a maximum purchase price such that the life cycle cost of the equipment meets the life cycle cost limit. In other words, in order to comply with the life cycle cost criteria, the maximum purchase price, when added to the fuel consumption penalty and additional installation cost, and offset for parts in the CCT kit, can be no more than \$7,940 (in 1992 dollars), incremental to the cost of a standard rebuild. In the final step, the maximum purchase price in 1992 dollars is converted to current value using the appropriate consumer price indices.

A. Cost of a Weighted Rebuild

The life cycle cost analysis is based on JM's first supply option, as described in the December 3, 1998 **Federal Register** notice, because only one supply option needs to comply with the life cycle cost criteria and, the first supply option provides virtually all emissions-related components typically replaced during a standard rebuild. In the first supply option, JM is to provide the following parts: CEM II catalytic muffler, patented engine camshafts, CCT cylinder kits, 0.015 offset key, fuel

injectors, 40T blower gear, turbo charger, blower assembly, blower bypass valve, and if necessary, the ECM program. The cylinder heads and gasket kit are not included with the CCT kit because these parts, although typically replaced during a standard rebuild, are the same regardless of model year.

JM notes that the CCT kit is sold to complement a standard engine rebuild. The balance of the specified parts for the standard rebuild (excluding

standard cams) can be acquired from traditional DDC parts sources. A cost offset is provided in the analysis for the parts in the CCT kit that are normally replaced during a standard engine rebuild. The costs for the parts normally replaced during a standard engine rebuild has been previously determined for certification of the Engelhard's ETX kit (63 FR 50225; September 21, 1998).

As explained in the September 21, 1998 **Federal Register**, for the

determination of the cost of a weighted rebuild, EPA assumes that some parts used in the rebuild of some engines are original equipment (OE) parts, others are non-OE parts, and that some transits re-manufacture certain components in-house. Table 1 below summarizes the cost of a weighted rebuild as presented in the September **Federal Register**, and indicates the parts costs that are offset because they are provided in the CCT kit for the first supply option.

TABLE 1.—PARTS NORMALLY REPLACED DURING STANDARD REBUILD
[1992 dollars]

Items	Weighted rebuild ¹	Parts offset by CCT kit
1—Cylinder Kit	1,540	1,540
2—Gasket Kit	147
3—Fuel Injectors	1,450	1,450
4—LB Camshaft	606	606
5—RB Camshaft	519	519
6—Blower Ass'y	302	302
7—Turbo Ass'y	424	424
8—Heads Ass'y	1,079
9—ECM Program	(²)	(²)
Totals	6,067	4,841

¹ As determined on September 21, 1998 (63 FR 50225) in conjunction with certification of the Engelhard ETX kit for DDEC engines.

² Not required.

EPA received no comments regarding the costs related to the standard or weighted rebuild. Therefore, EPA continues to use the costs from the **Federal Register** notice developed for the Engelhard certifications indicated above. There may be uncertainties and assumptions involved with this “weighted” approach, but EPA believes that, based on the available information,

the cost of a standard rebuild of a DDC 6V92TA DDEC engine is best approximated by the weighted rebuild costs shown above in Table 1, for the purposes of determining the maximum purchase price for the CCT Upgrade Kit.

B. Incremental Fuel Cost

Life cycle costs can be impacted by the fuel consumption associated with

the use of retrofit equipment using diesel fuel. A review of test data is used to determine any fuel consumption penalty. As noted above, EPA gives preference to data developed for JM, based on engines of 277 horsepower, and tested at the same laboratory. Table 2 below lists the test data that is used to make the determination of incremental fuel cost for the CCT kit.

TABLE 2.—BASELINE AND CCT FUEL CONSUMPTION DATA

Engine description (Hp)	NO _x level/NO _x Std	Test laboratory	Tested for	Test date	BSFC ¹	BSFC penalty (percent)
CCT Kit (277)	5.0/5.0	SwRI, cell 16	JM	01/07/98 ..	0.489
1991 50-state (277)	4.9/5.0	SwRI, cell 16	JM	02/13/98 ..	0.483	1.2
1988 Calif (277)	5.5/6.0	SwRI, cell 7	Engelhard	02/19/97 ..	0.481	1.7
1988 fed (277)	8.4/10.7	SwRI, cell 16	JM	03/05/97 ..	0.459	6.5

¹ Brake-specific fuel consumption measured in units of pounds of fuel per brake horsepower-hour (lb/bhp-hr).

EPA determines the fuel consumption impact of the CCT kit on three test engines, each complying with a distinct NO_x exhaust emission standard. The NO_x standard for all 1991 through 1993 model year engines is 5.0 g/bhp-hr. The standard for 1988 through 1990 California engines and 1990 federal engines is 6.0 g/bhp-hr. The standard for 1988 and 1989 federal engines is 10.7 g/bhp-hr. Data provided by JM with its

application for certification dated March 6, 1998, indicate that CCT-equipped engines comply with the 5.0 g/bhp-hr NO_x standard and therefore the CCT kit can be used on engines originally certified to comply with any of the noted standards. EPA recognizes that the available fuel consumption data is limited, but believes it adequate for the purpose of determining the life cycle cost analysis.

As discussed above, EPA is using the first hot-start in conjunction with the cold-start test, to determine the fuel consumption of the engine equipped with the CCT kit. Therefore, the purposes of this analysis, the fuel consumption of CCT-equipped engines is taken as 0.489 lb/bhp-hr.

The test of the engine configured to a 1991 model year configuration indicates a baseline fuel consumption of 0.483 lb/

bhp-hr. Therefore, EPA calculates that the CCT kit, on 1991 through 1993 model year engines, increases fuel consumption by 1.2 percent.

EPA believes that it is reasonable to determine the impact of fuel consumption on all engines meeting the same 6.0 g/hp-hr NO_x standard, which includes the 1988 through 1990 California engines and the 1990 federal engines. JM did not conduct a baseline test on an engine that was designed to 6.0 g/bhp-hr NO_x standard. However,

data available from testing a 1988 model year California engine at Southwest Research Institute for Engelhard, indicates a baseline value of 0.481 lb/bhp-hr for engines designed to the 6.0 g/bhp-hr standard. Therefore, EPA calculates that the CCT kit, on 1988 through 1990 California engines and 1990 federal engines, increases fuel consumption by 1.7 percent.

The test conducted for JM on the 1988 model year federal engine indicate a baseline fuel consumption of 0.459 lb/

bhp-hr. Comparing this value with the CCT fuel consumption of 0.489 lb/bhp-hr, indicates a fuel consumption penalty of 6.5 percent when upgrading a 1988 model year engine to the CCT kit.

The impacts on fuel consumption are summarized below in Table 3 along with the increased life cycle fuel costs calculated pursuant to the formula prescribed at 40 CFR 85.1403(b)(1). The impact of the fuel consumption penalty on life cycle costs is included in the summary below.

TABLE 3.—FUEL CONSUMPTION IMPACT OF CCT UPGRADE KIT
[1992 dollars]

Applicable engine model year	NO _x Standard (g/bhp-hr)	Fuel consumption impact (percent)	Fuel penalty per 40 CFR 85.1403(b)(1) (in 1992 \$)
1991–1993 50-state	5.0	1.2	338
1988–1990 Calif & 1990 50-state	6.0	1.7	479
1988–1989 fed	10.7	6.5	1,831

C. Installation Costs

As defined at 40 CFR 85.1403 (b)(1)(ii)(B), the installation cost of certified equipment is “the labor cost of installing the equipment on an urban bus engine, incremental to a standard rebuild, based on a labor rate of \$35 per hour” (in 1992 dollars). JM states that the labor required to rebuild an engine will be the same for a standard rebuild and the CCT kit, with the exception of the additional labor required for installation of the CEM II catalytic muffler. The CEM II installation is essentially identical to the replacement of an OE muffler, and will not exceed 2 hours labor. Using the labor rate of \$35.00 per hour, as specified at 40 CFR 85.1403, the two hours is valued at \$70

(in 1992 dollars) and is incremental to the cost of a standard rebuild.

D. Maintenance Costs

JM states that the CCT kit requires no maintenance for the CEM II and no additional maintenance above and beyond normal DDC maintenance requirements for a standard rebuild. EPA has no information to conclude that any additional maintenance is necessary for the CEM II catalyst muffler, or would increase life cycle costs. Therefore, no additional maintenance costs are listed for the CCT kit.

E. Costs of Fuel Additives

No fuel additives are required for the CCT kit.

F. Total Life Cycle Cost

As noted previously, the regulation at 40 CFR 85.1403 requires that the life cycle cost be no more than \$7,940 (in 1992 dollars) incremental to the cost of a standard rebuild, for equipment that triggers the 0.10 g/bhp-hr standard. Table 4 below itemizes the life cycle cost elements determined above for the CCT kit for each of the following groups of applicable engines: 1991 through 1993 model year 50-state engines, 1988–1990 model year California and 1990 model year federal engines, and 1988–1989 model year federal (49-state) engines. The maximum purchase price shown in Table 4 is determined by adjusting the life cycle cost ceiling for the parts offset, installation cost, and fuel penalty.

TABLE 4.—SUMMARY OF LIFE CYCLE COSTS FOR THE CCT KIT
[1992 dollars]

	Applicable engine model year		
	1991–1993 50-state	1988–1990 Calif & 1990 fed	1988–1989 fed
Maximum Purchase Price	12,373	12,232	10,880
Offset for CCT parts normally replaced during a std rebuild	(4,841)	(4,841)	(4, 841)
Installation Cost	70	70	70
Fuel Penalty	338	479	1,831
Total Life Cycle Cost	7,940	7,940	7,940

Table 4 displays the maximum purchase prices for the CCT kits, in 1992 dollars. The total life cycle cost is the sum of the listed items. An “offset” (that is, a credit) is provided to the life cycle cost of the CCT kit because certain

components provided in the kit offset costs for parts which otherwise are replaced during a standard engine rebuild. The values for the individual rebuild parts that are offset by the CCT kit parts, are listed previously in

conjunction with the determination of a weighted rebuild and itemized in Table 1. To determine the incremental life cycle cost, these “offset” costs are subtracted, as shown in Table 4. As shown in the table, the total incremental

life cycle cost is no more than the ceiling specified in the program regulations, \$7,940 in 1992 dollars. Current values of the maximum purchase prices are discussed below.

G. Current Maximum Purchase Price for the CCT Upgrade Kit

Table 6 below shows the maximum purchase price (in 1992 dollars) as

determined above. The current (August 1999) maximum purchase prices are also shown in Table 6, and are calculated using a multiplicative ratio of Consumer Price Indices (CPI). Table 5 below lists the relevant CPIs. The average CPI for 1992 is 140.3, as specified by the program regulation. The August 1999 CPI, for all items and all urban consumers, is 167.1. These CPI

values are provided by the U.S. Department of Labor, Bureau of Labor Statistics.

TABLE 5.—CONSUMER PRICE INDICES

Average CPI for	CPI
1992	140.3
August 1999	167.1

TABLE 6.—CURRENT MAXIMUM CCT KIT PURCHASE PRICE

Applicable engine model year	1992 maximum purchase price	August 1999 maximum purchase price
1991–1993 50-state	\$12,373	\$14,736
1988–1990 Calif & 1990 fed	12,232	14,569
1988–1989 fed	10,880	12,958

JM, in a letter to EPA dated October 22, 1999, guarantees to make CCT Upgrade kits available to all affected urban bus operators for no more than the maximum August 1999 purchase prices shown in Table 6.

V. Impact on Transit Operator

Today's **Federal Register** notice announces that the JM CCT Upgrade Kit is certified to comply with the optional life cycle cost criteria of the Urban Bus Rebuild Program. EPA has reviewed the available information and comments received to determine that there is adequate demonstration of compliance with the life cycle cost criteria of 40 CFR 85.1403(b) and 85.1407(a).

Affected urban bus operators who choose to comply with compliance program 1 are currently required to use equipment certified to meet the 0.10 g/bhp-hr PM standard. As discussed above, this current requirement has been previously triggered by certification of equipment supplied by the Engelhard Corporation.

The Johnson Matthey CCT kit has already been certified to comply with the 0.10 g/bhp-hr standard and can be used by all operators towards compliance with the current urban bus program requirements. Operators that choose to comply with compliance program 2 and use this equipment would claim the PM certification level for the CCT kit (0.10 g/bhp-hr) when calculating their Fleet Level Attained (FLA).

If the current trigger of the 0.10 g/bhp-hr standard becomes ineffective, then certification of JM's CCT Upgrade Kit on the basis of life cycle cost would trigger program requirements for bus operators that have chosen to comply with program 1, to use equipment certified to the 0.10 g/bhp-hr standard when

applicable engines are rebuilt or replaced. The requirement would be effective for any applicable engine rebuilt or replaced six months after September 15, 2000.

Dated: September 8, 2000.

Robert Perciasepe,

Assistant Administrator for Air and Radiation.

BILLING CODE 6560–50–U

ENVIRONMENTAL PROTECTION AGENCY

[OPPTS–140286; FRL–6741–7]

Access to Confidential Business Information by SecTek Incorporated

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has authorized its contractor SecTek, Incorporated of Herndon, Virginia access to information which has been submitted to EPA under all sections of the Toxic Substances Control Act (TSCA). Some of the information may be claimed or determined to be confidential business information (CBI).

DATES: Access to the confidential data submitted to EPA under all sections of TSCA occurred as a result of an approved waiver dated August 2, 2000, which requested granting SecTek immediate access to all sections of TSCA CBI. This waiver was necessary to allow SecTek to maintain the day-to-day operations of all security hardware, access controls, and alarm equipment.

FOR FURTHER INFORMATION CONTACT: Barbara A. Cunningham, Acting Director, Environmental Assistance Division (7408), Office of Pollution

Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: (202) 554–1404, TDD: (202) 554–0551; e-mail address: TSCA-Hotline@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Does this Notice Apply to Me?

This action is directed to the public in general. This action may, however, be of interest to “those persons who are or may be required to conduct testing of chemical substances under the Toxic Substances Control Act (TSCA).” Since other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

II. How Can I Get Additional Information, Including Copies of this Document or Other Related Documents?

Electronically. You may obtain electronic copies of this document, and certain other related documents that might be available electronically, from the EPA Internet Home Page at <http://www.epa.gov/>. To access this document, on the Home Page select “Laws and Regulations”, “Regulations and Proposed Rules,” and then look up the entry for this document under the “**Federal Register**—Environmental Documents.” You can also go directly to the **Federal Register** listings at <http://www.epa.gov/fedrgstr/>.

III. What Action is the Agency Taking?

Under contract number 68–W–00–104, contractor SecTek, Incorporated of 208 Eden St., Suite 201, Herndon, VA, will assist the Office of Pollution

Prevention and Toxics (OPPTS) by maintaining the day-to-day operations of all security hardware, access controls, and alarm equipment.

In accordance with 40 CFR 2.306(j), EPA has determined that under EPA contract number 68-W-00-104, SecTek will require access to CBI submitted to EPA under all sections of TSCA to perform successfully the duties specified under the contract.

SecTek personnel will be given access to information submitted to EPA under all sections of TSCA. Some of the information may be claimed or determined to be CBI.

EPA is issuing this notice to inform all submitters of information under all sections of TSCA that EPA may provide SecTek access to these CBI materials on a need-to-know basis only. All access to TSCA CBI under this contract will take place at EPA Headquarters.

SecTek will be authorized access to TSCA CBI at EPA Headquarters only, in accordance with the EPA *TSCA Confidential Business Information Security Manual*.

Clearance for access to TSCA CBI under this contract may continue until June 30, 2005.

SecTek personnel will be required to sign nondisclosure agreements and will be briefed on appropriate security procedures before they are permitted access to TSCA CBI.

Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared pursuant to the Environmental Review Process (ERP), under Section 309 of the Clean Air Act and Section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at (202) 564-7167.

An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in FR dated April 14, 2000 (65 FR 20157).

Draft EISs

ERP No. D-FRA-A54035-00 Rating EC2, Programmatic—Maglev Deployment Program, Development and Construction of an Operating Public Transportation System using Magnetic Levitation, Grants Issuance, CA, FL, GA, LA, MD, NV and PA.

Summary: EPA expressed concerns relating to disclosure of the existing state of knowledge regarding the safety and health effects and general operating characteristics of Maglev technology.

ERP No. D-FTA-L54004-WA Rating LO, Sound Transit, Lakewood-to-Tacoma Commuter Rail and WA-512 Park and Ride Expansion, Construction and Operation, Central Puget Sound Regional Transit Authority, City of Tacoma and City of Lakewood, WA.

Summary: EPA has no objections to the action as proposed.

ERP No. D-NPS-K60030-CA Rating EC2, Legislative EIS—Timbisha Shoshone Tribal Homeland, To Establish a Permanent Tribal Land Base and Related Cooperative Activities, The Transfer of Federal Land and Acquisition of Private Land, Death Valley National Park, Saline Valley, CA and Lida Ranch near Lida, NV.

Summary: EPA expressed concerns regarding the range of alternatives and the lack of information on the reasonably foreseeable future development (RFFD) on proposed lands for transfer in trust. EPA requested more information on RFFD, that the alternatives section criteria be included in the body of the document, that alternatives be presented in comparative format, and that the Tribal and Federal agencies commit to the development of a comprehensive plan in the Record of Decision (ROD).

ERP No. DR-COE-K90029-CA Rating EC2, Delta Wetlands Project,

Construction and Operation Revised Information for the Water Storage Project on Four Islands in the Sacramento-San Joaquin Delta, Approval of Permits, San Joaquin and Contra Costa Counties, CA.

Summary: EPA expressed concerns that the project will yield degradation of Delta water with respect to its beneficial use as a source for drinking water. EPA requested that more stringent criteria for total organic carbons be used as a goal in the FEIS.

ERP No. DS-COE-K36083-CA Rating EC2, Guadalupe River Flood Control Plan, Improvement, City of San Jose, Santa Clara County, California

Summary: EPA expressed concerns regarding effects on the aquatic environment associated with the potential release of mercury-contaminated sediments and with the degradation and loss wetlands and riparian habitat in the Guadalupe River watershed. EPA urged the Corps and the local project sponsor to avoid and minimize such impacts to the fullest extent and identify appropriate mitigation measures.

ERP No. DS-FHW-L40198-WA Rating EC2, North Spokane Freeway Project, Improvements Transportation through the City of Spokane and Spokane County between I-90, Spokane County, WA.

Summary: EPA expressed concerns regarding potential wetland impacts and the lack of analysis of proposed road building activities associated with possible hazardous waste impacts.

Final EISs

ERP No. F-FHW-G40154-TX, Loop 1 Extension Project, From Farm-to-Market Road FM-734 (Palmer Lander) to I-35, Funding, Travis and Williamson Counties, TX.

Summary: EPA finds that the final EIS responded reasonably to EPA's comments on the draft EIS, therefore EPA has no objection to the action as proposed.

ERP No. F-FHW-K40163-CA, CA-238 Construction, near Industrial Parkway to CA-238/I-580 Interchange, Funding, and 404 Permit, City of Hayward, Alameda County, CA.

Summary: EPA expressed continuing objections to the environmental impacts of induced travel demand and cumulative impacts generated by the proposed project. EPA requested monitoring and mitigation for induced travel demand and the implementation of controls to prevent growth inducement.

Dated: September 12, 2000.

Intent To Grant an Exclusive Patent License

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of intent to grant an exclusive patent license.

SUMMARY: This is a correction and reissue of the notice of intent to grant an exclusive license originally published in the August 29, 2000 issue of the **Federal Register** (65 FR 52426). The deadline for comments is also extended. Pursuant to 35 U.S.C. 207 and 37 CFR part 404, EPA hereby gives notice of its intent to grant an exclusive, royalty-bearing revocable license to practice the invention described and claimed in the patent application listed below, all U.S. patents issuing therefrom, all corresponding patents granted and issued throughout the world, and all reexamined patents and reissued patents granted in connection with such patent application to Horiba Instruments, Incorporated, Irvine, California. The patent application is:

U.S. Patent Application No. 09/226,920, entitled "Real-Time On-Road Vehicle Exhaust Gas Modular Flowmeter and Emissions Reporting System," filed January 5, 1999.

The invention was announced as being available for licensing in the March 1, 1999 issue of the **Federal Register** (60 FR 20490). The proposed exclusive license will contain appropriate terms, limitations and conditions to be negotiated in accordance with 35 U.S.C. 209 and the U.S. Government patent licensing regulations at 37 CFR part 404.

EPA will negotiate the final terms and conditions and grant the exclusive license, unless within 60 days from the date of this Notice, EPA receives, at the address below, written objections to the grant, together with supporting documentation. The documentation from objecting parties having an interest in practicing the above patent application should include an application for exclusive or nonexclusive license with the information set forth in 37 CFR 404.8. The EPA Patent Counsel and other EPA

officials will review all written responses and then make recommendations on a final decision to the Director and Deputy Director, Office of Transportation Air Quality, both of whom have been delegated the authority to issue patent licenses under 35 U.S.C. 207.

DATES: Comments to this notice must be received by EPA at the address listed below by November 14, 2000.

FOR FURTHER INFORMATION CONTACT:

Alan Ehrlich, Patent Counsel, Office of General Counsel (Mail Code 2377A), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, N.W., Washington, D.C. 20460, telephone (202) 564-5457.

Dated: September 7, 2000.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission, Comments Requested

September 8, 2000.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written comments should be submitted on or before November 14,

2000. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments to Les Smith, Federal Communications Commissions, 445 12th Street, SW., Room 1-A804, Washington, DC 20554 or via the Internet to lesmith@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collections contact Les Smith at (202) 418-0217 or via the Internet at lesmith@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Approval No.: 3060-0757.

Title: FCC Auctions Customer Survey.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Individuals or households; Business or other for profit.

Number of Respondents: 2,000.

Estimate Hour Per Response: .25 hours per response (2,000 x .25 hrs = 500 hrs.).

Total Annual Burden: 500 hours.

Estimated Total Annual Costs: None.

Frequency of Response: Reporting; On occasion.

Needs and Uses: The information will be used by the Commission to evaluate the competitive bidding methodologies and other operational processes used to date and to improve these techniques for use in future auctions.

OMB Control No.: 3060-0774.

Title: Federal-State Joint Board on Universal Service, CC Docket No. 96-45 (47 CFR Part 54)

Form No.: N/A.

Type of Review: Extension.

Respondents: Business or Other for Profit; Not for Profit Institutions, State, Local or Tribal Government.

Number of Respondents: 5,735,638.

Estimated Time Per Response: .34 hrs (avg.).

Total Annual Burden: 1,984,119 Hours.

Estimated Annual Reporting and Recordkeeping Cost Burden: \$0.

Frequency of Response: On occasion; Quarterly, Annually, Every five years, Third Party Disclosure, Recordkeeping.

Needs and Uses: Congress directed the Commission to implement a new set of universal service support mechanisms that are explicit and sufficient to advance the universal service principles enumerated in 47 U.S.C. Section 254 and other such principles as the Commission believes are necessary and appropriate for the protection of the public interest, convenience and necessity, and are

consistent with the Act. Part 54 promulgates the rules and requirements to preserve and advance universal service. The collections are necessary to implement Section 254.

OMB Control No.: 3060-0810.

Title: Procedures for Designation of Eligible Telecommunications Carriers Pursuant to Section 214(e)(6) of the Communications Act of 1934, as amended.

Form No.: N/A.

Type of Review: Extension.

Respondents: Business or Other for Profit.

Number of Respondents: 110.

Estimated Time Per Response: 56.3 Hour (avg.).

Total Annual Burden: 6200 Hours.

Estimated Annual Reporting and Recordkeeping Cost Burden: \$0.

Frequency of Response: On occasion; Third Party Disclosure.

Needs and Uses: 47 U.S.C. Section 214(e)(6) states that a telecommunications carrier that is not subject to the jurisdiction of a state may request that the Commission determine whether it is eligible. The Commission must evaluate whether such telecommunications carriers meet the eligibility criteria set forth in the Act, specified in the Public Notice, and also the Order issued in CC Docket 96-45 (FCC 00-208). Carriers seeking designation for service provided on non-tribal lands must provide an affirmative statement from a court of competent jurisdiction or the state commission that the state lacks jurisdiction over the carrier.

Federal Communications Commission.

Magalie Roman Salas,

Secretary.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

Public Information Collections Approved by Office of Management and Budget

September 8, 2000.

The Federal Communications Commission (FCC) has received Office of Management and Budget (OMB) approval for the following public information collections pursuant to the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid control number. For further information contact Shoko B.

Hair, Federal Communications Commission, (202) 418-1379.

Federal Communications Commission

OMB Control No.: 3060-0848.

Expiration Date: 03/31/2001.

Title: Deployment of Wireline Services Offering Advanced Telecommunications Capability, CC Docket No. 98-147.

Form No.: N/A.

Respondents: Business or other for-profit.

Estimated Annual Burden: 1700 respondents; 95.76 hours per response (avg.); 162,800 total annual burden hours.

Estimated Annual Reporting and Recordkeeping Cost Burden: \$0.

Frequency of Response: On occasion; Third Party Disclosure.

Description: In the Advanced Services First Report and Order, issued in CC Docket 98-147, the Commission adopted measures to facilitate the development of competition in the advanced services market. These measures include strengthened collocation rules adopted pursuant to section 251(c)(6) of the Communications Act of 1934, as amended which imposes a statutory duty on incumbent local exchange carriers to provide collocation to requesting telecommunications carriers. Recently in an Order on Reconsideration issued in this proceeding, the Commission further strengthens its collocation rules. The following collections of information are necessary to implement Section 251 and to Congress's goal of promoting innovation and investment by all participating in the telecommunications marketplace, in order to stimulate competition for all services, including advanced services. In furtherance of this goal, the Commission imposes certain collections of information on incumbent local exchange carriers (LECs), seeking to deploy advanced services in order to assist incumbent LECs in protecting network integrity.

a. Processing of Collocation

Applications. Where neither the state nor the parties to an interconnection agreement set a different deadline, an incumbent LEC must tell the requesting telecommunications carrier whether a collocation application has been accepted or denied within ten calendar days after receiving the application. If the incumbent LEC deems that application unacceptable, it must advise the competitive LEC of any deficiencies within this ten calendar day period. The incumbent LEC must provide sufficient detail so that the requesting carrier has a reasonable opportunity to cure each deficiency. The competitive LEC must

cure any deficiencies in its collocation application and resubmit the application within 10 calendar days after being advised of them. The requesting carrier must inform the ILEC that physical collocation should proceed within seven calendar days after receiving the ILEC's price quotation. This is a new requirement adopted in the attached Order on Reconsideration. See 47 CFR 51.323(l). (*Number of respondents: 1400; hours per response: 40 hours; total annual burden: 56,000 hours*).

b. Amendment of Collocation Agreements, Collocation Tariffs, and Collocation-Related Provisions in Statements of Generally Available Terms. An incumbent LEC must offer to provide all forms of physical collocation (*i.e.*, caged, cageless, shared, and adjacent) in accordance with the Commission's application processing and provisioning interval requirements, except to the extent a state sets its own application processing and collocation interval deadlines. To make an offer to provide physical collocation, an incumbent LEC must propose in response to a request from a competitive LEC an interconnection agreement or an amendment to an interconnection agreement including all necessary rates, terms, and conditions. The incumbent LEC also must file with the state commission proposed amendments to any tariff or statement of generally available terms and conditions that does not comply with the national standards for processing collocation applications and provisioning collocation arrangements. These amendments must provide for application processing intervals and physical collocation intervals no longer than the national standards except to the extent a state sets its own standard. See Order on Reconsideration, paragraph 36). (*Number of respondents: 1400; hours per response: 44 hours; total annual burden: 61,600 hours*).

c. State Commission Approval. If collocation becomes available in a previously exhausted ILEC structure, the ILEC must obtain the state commission's express approval before requiring a competitive LEC to move, or prohibiting a competitive ILEC from moving, a collocation arrangement into that structure, unless the ILEC and the collocation have an interconnection agreement that expressly provides for a different outcome. (See Order on Reconsideration, paragraph 46). Safe-time work practices that the incumbent may waive to keep from competitively disadvantaging its or an affiliates operations or that prevents a collocation, from restoring service in the

event of an outage are inherently suspect and must receive explicit state commission approval. (See Order on Reconsideration, paragraph 60). (*Number of respondents: 1400; hours per response: 2 hours; total annual burden: 2800 hours*).

d. Showing Regarding Loop Condition. Incumbent LECs who refuse a competitive carrier's request to condition a loop must make an affirmative showing to the relevant state commission that conditioning the specific loop in question will significantly degrade voiceband services. The incumbent LEC must also show that there is no adjacent or alternative loop available that can be conditioned or to which the customer's service can be moved to enable line sharing. See 47 CFR 51.319(h)(5). (*Number of respondents: 1400; hours per response: 2 hours; total annual burden: 2800 hours*).

e. Request for Alternative Physical Access. Incumbent LECs must provide requesting carriers with access to the loop facility for testing, maintenance, and repair. At a minimum, incumbent must provide requesting carriers with loop access either through a cross-connection to the competitor's collocation space, or through a standard interface. An incumbent seeking to utilize an alternative physical access methodology may request approval to do so from the relevant state commission, but must show that the proposed alternative method is reasonable, nondiscriminatory, and will not disadvantage a requesting carrier's ability to perform loop or service testing, maintenance or repair. See 47 CFR 51.319(h)(7). (*Number of respondents: 1400; hours per response: .50 hours; total annual burden: 700 hours*).

f. Showing of Significant Degradation. An incumbent LEC may not deny a carrier's request to deploy a technology that is presumed acceptable for deployment unless the incumbent LEC demonstrates to the relevant state commission that deployment of the particular technology will significantly degrade the performance of other advanced services or traditional voiceband services. Where a carrier seeks to establish that deployment of a technology falls within the presumption of acceptability under 47 CFR 51.230(a)(3), the burden is on the requesting carrier to demonstrate to the state commission that its proposed deployment meets the threshold for a presumption of acceptability and will not, in fact, significantly degrade the performance of other advanced services or traditional voice band services. Upon

a successful demonstration by the requesting carrier before a particular state commission, the deployed technology shall be presumed acceptable for deployment in other areas. See 47 CFR 51.230(b) and (c). (*Number of respondents: 1400; hours per response: 2 hours; total annual burden: 2800 hours*).

g. Information on Type of Technology. A requesting carrier that seeks access to a loop or a high frequency portion of a loop to provide advanced services must provide to the incumbent LEC information on the type of technology that the requesting carrier seeks to deploy. Where the requesting carrier asserts that the technology it seeks to deploy fits within a generic power spectral density mask, it also must provide Spectrum Class information for the technology. Where a requesting carrier relies on a calculation-based approach to support deployment of a particular technology, it must provide the incumbent LEC with information on the speed and power at which the signal will be transmitted. The requesting carrier also must provide the information required above when notifying the incumbent LEC of any propose change in advanced services technology that the carrier uses on the loop. See 47 CFR 51.231(b)–(c). (*Number of respondents: 1400; hours per response: 1.5 hours; total annual burden: 2100 hours*).

h. Petition. Any party seeking designation of a technology as a known disturber should file a petition for declaratory ruling. See 47 CFR 51.232(b). (*Number of respondents: 100; hours per response: 1 hour; total annual burden: 100 hours*).

i. Showing of Network Harm. Where a deployed advanced service is significantly degrading other services and the degradation remains unresolved by the deploying carrier(s) after a reasonable opportunity to correct the problem, the carrier whose services are being degraded must establish before the relevant state commission that a particular technology deployment is causing the significant degradation. Any claims of network harm presented to the deploying carrier(s) or, if subsequently necessary, the relevant state commission, must be supported with specific and verifiable information. See 47 CFR Section 51.233 (b) and (c). (*Number of respondents: 100; hours per response: 2 hours; total annual burden: 200 hours*).

j. List of Equipment, Affidavit— Whenever an incumbent LEC objects to collocation of equipment by a requesting telecommunications carrier for the purposes within the scope of

section 251(c)(6) of the Act, the incumbent LEC shall prove to the state commission that the equipment is eligible for collocation. An incumbent LEC that denies collocation of a competitor's equipment, citing safety standards, must provide to the competitive LEC within five business days a list of all equipment that the incumbent LEC locates within the premises in question, together with an affidavit attesting that all of that equipment meets or exceeds the safety standard that the incumbent LEC contends the competitor's equipment fails to meet. In the Order on Reconsideration, the Commission required that this affidavit set forth in detail: the exact safety requirement that the requesting carrier's equipment does not satisfy; the incumbent LEC's basis for concluding that the requesting carrier's equipment does not meet this safety requirement; and the incumbent LEC's basis for concluding why collocation of equipment not meeting this safety requirement would compromise network safety. See 47 CFR 51.323(b). This requirement has been modified. (*Number of respondents:* 1400; *hours per response:* 2 hours; *total annual burden* 2800 hours).

k. Space Limitation Documentation—An incumbent LEC shall submit to the state commission, subject to any protective order as the state commission may deem necessary, detailed floor plans or diagrams of any premises where the incumbent LEC claims that physical collocation is not practical because of space limitations. An incumbent LEC that contends space for physical collocation is not available in an incumbent LEC premises must also allow the requesting carrier to tour the entire premises in question, not just the room in which space was denied, without charge, within ten days of the receipt of the incumbent LEC's denial of space. The Commission amended the rule in the First Report and Order to require that ILECs allow CLECs to tour their facility. However, no new or modified paperwork requirements were made. In the Order on Reconsideration, the Commission required that each incumbent LEC provide the state commission with all information necessary for the state commission to evaluate the reasonableness of the incumbent LEC's and its affiliates' reservations of space for future growth. This information shall include any information the state commission may require to implement its specific space reservation policies, including which space, if any, the incumbent or any of its affiliates have reserved for future use.

The incumbent shall also provide the state commission with a detailed description of the specific future uses for which the space has been reserved. An incumbent LEC shall permit any requesting telecommunications carrier to inspect any floor plans or diagrams that the incumbent LEC provides a state commission, subject to any nondisclosure protections the state commission deems appropriate. See 47 CFR Section 51.321(f). See also paragraph 57 in attached Order on Reconsideration. This requirement has been modified. (*Number of respondents:* 100; *hours per response:* 26 hours; *total annual burden:* 26,000 hours).

l. Report of Available Collocation Space—Upon request, an incumbent LEC must submit to the requesting carrier within ten days of the submission of the request a report indicating the incumbent LEC's available collocation space in a particular LEC premises. This report must specify the amount of collocation space available at each requested premises, the number of collocators, and any modifications in the use of the space since the last report. The incumbent LEC must maintain a publicly available document, posted for viewing on the Internet, indicating all premises that are full, and must update such a document within ten days of the date at which a premises runs out of physical collocation space. See 47 CFR Section 51.321(h). In the Order on Reconsideration, the Commission makes clear that the ILEC must provide this report within ten calendar days, as opposed to ten business days. (See Order on Reconsideration, paragraph 64, page 32). (*Number of respondents:* 1400; *hours per respondent:* 1 hour; *total annual burden:* 1400 hours).

m. Information on Security Training—An incumbent LEC must provide information to competitive LECs on the specific type of security training a competitive LEC's employees must complete in order for the incumbent LEC to maintain reasonable security measures for its equipment and networks. See 47 CFR Section 51.323(i)(3). (*Number of respondents:* 1400; *total annual burden:* .50 hour; *total annual burden:* 700 hours).

n. Access to Spectrum Management Procedures and Policies—An incumbent LEC must provide competitive LECs with nondiscriminatory access to the incumbent LEC's spectrum management procedures and policies. See 47 CFR Section 51.231(a). (*Number of respondents:* 1400; *hours per response:* .50 hour; *total annual burden:* 700 hours).

o. Rejection and Loop Information—An incumbent LEC must disclose to requesting carrier information with respect to the rejection of the requesting carrier's provision of advanced services, together with the specific reason for the rejection. An incumbent LEC must also disclose to requesting carriers information with respect to the number of loops using advanced services technology within the binder and type of technology deployed on those loops. See 47 CFR 51.231(a). (*Number of respondents:* 1400; *hours per response:* 1 hour; *total annual burden:* 1400 hours).

p. Notification of Performance Degradation—If a carrier claims a service is significantly degrading the performance of other advanced services or traditional voice band services, then that carrier must notify the causing carrier and allow that carrier a reasonable opportunity to correct the problem. Any claims of network harm must be supported with specific and verifiable supporting information. See 47 CFR 51.233. (*Number of respondents:* 1400; *hours per response:* .50 hour; *total annual burden:* 700 hours). All of the collections will be used by the Commission and by competitive carriers to facilitate the deployment of advanced data services and to implement section 706 of the Communications Act of 1934, as amended. Obligation to respond: Mandatory.

OMB Control No.: 3060-0806.

Expiration Date: 9/30/2003.

Title: Universal Service—Schools and Libraries Universal Service Program.

Form No.: FCC Forms 470 and 471.

Respondents: Not-for-profit institutions; State, Local or Tribal Government; business or other for-profit.

Estimated Annual Burden: 60,000 respondents; 7.33 hours per response (avg.); 440,000 total annual burden hours.

Estimated Annual Reporting and Recordkeeping Cost Burden: \$0.

Frequency of Response: On occasion; Third Party Disclosure; Recordkeeping.

Description: The Commission adopted rules providing support for all telecommunications services, Internet access, and internal connections for all eligible schools and libraries. To participate in the program, schools and libraries must submit a description of the services desired to the Administrator via FCC Form 470. FCC Form 471 is submitted by schools and libraries that have ordered telecommunications services, Internet access, and internal connections. The information is used to determine

eligibility. Obligation to respond: Required to obtain or retain benefits.

OMB Control No.: 3060-0384.

Expiration Date: 09/30/2003.

Title: Section 64.904, Independent Audits.

Form No.: N/A.

Respondents: Business or other for-profit.

Estimated Annual Burden: 14 respondents; 250 hours per response (avg.); 3500 total annual burden hours.

Estimated Annual Reporting and Recordkeeping Cost Burden: \$1,200,000.

Frequency of Response: On occasion.

Description: Local exchange carriers and dominant interexchange carriers are required to submit an auditor's attestation biennially demonstrating the application of the Commission's cost allocation standards to their particular operations. The independent audit requirement is imposed to ensure that the carriers are properly implementing their cost allocation manual. The independent audits serve as an important aid in the Commission's monitoring program. Obligation to respond: Required to obtain or retain benefits.

OMB Control No.: 3060-0725.

Expiration Date: 08/31/2003.

Title: Annual Filing of

Nondiscrimination Reports (On Quality of Service, Installation and Maintenance by Bell Operating Companies).

Form No.: N/A.

Respondents: Business or other for-profit.

Estimated Annual Burden: 7 respondents; 50 hours per response (avg.); 350 total annual burden hours.

Estimated Annual Reporting and Recordkeeping Cost Burden: \$0.

Frequency of Response: On occasion.

Description: Bell Operating Companies (BOCs) are required to provide nondiscrimination reports on an annual basis. Without provision of these reports, the Commission would be unable to ascertain whether the BOCs were discriminating in favor of their own payphones. The report allows the Commission to determine how the BOCs will provide competing payphone providers with equal access to all the basic underlying network services that are provided to its own payphones. Obligation to respond: Mandatory.

OMB Control No.: 3060-0726.

Expiration Date: 08/31/2003.

Title: Quarterly Report of Interexchange Carriers Listing the Number of Dial-Around Calls for Which Compensation is Being Paid to Payphone Owners.

Form No.: N/A.

Respondents: Business or other for-profit.

Estimated Annual Burden: 1100 respondents; .50 hours per response (avg.); 550 total annual burden hours.

Estimated Annual Reporting and Recordkeeping Cost Burden: \$0.

Frequency of Response: Third Party Disclosure.

Description: Pursuant to the mandate in Section 276(b)(1)(A) to "establish a per call compensation plan to ensure that all payphone service providers are fairly compensated for each and every completed intrastate and interstate call", interexchange carriers (IXCs) who are responsible for paying per-call compensation to payphone providers are required to provide to payphone providers a quarterly report listing the dial-around calls made from each payphone provider's payphones. Without provision of this report, payphone providers would be unable to ascertain the compensation amount to be paid by the IXCs. The report allows each payphone provider to determine how many dial-around calls to the IXC generating the report were originated by each of the payphone provider's payphones. Obligation to respond: Mandatory.

OMB Control No.: 3060-0817.

Expiration Date: 08/31/2003.

Title: Computer III Further Remand Procedures: BOC Provision of Enhanced Services (ONA Requirements), CC Docket No. 95-20.

Form No.: N/A.

Respondents: Business or other for-profit.

Estimated Annual Burden: 10 respondents; 27 hours per response (avg.); 270 total annual burden hours.

Estimated Annual Reporting and Recordkeeping Cost Burden: \$0.

Frequency of Response: On occasion; Semi-annually; Third Party Disclosure.

Description: Bell Operating Companies (BOCs) are required to post their Comparably Efficient Interconnection (CEI) plans and amendments on their publicly accessible Internet sites. The requirement extends to CEI plans for new or modified telemessaging or alarm monitoring services and for new or amended payphone services. If the BOC receives a good faith request for a plan for someone who does not have internet access, the BOC must notify that person where a paper copy of the plan is available for public inspection. The CEI plan will be used to ensure that BOCs comply with Commission policies and regulations safeguarding against potential anticompetitive behavior by the BOCs in the provision of information services. Obligation to respond: Mandatory. Public reporting

burden for the collection of information is as noted above. Send comments regarding the burden estimate or any other aspect of the collections of information, including suggestions for reducing the burden to Performance Evaluation and Records Management, Washington, DC 20554.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Proposed Information Collection Activity; Comment Request

Proposed Projects

Title: Order/Notice to Withhold Income for Child Support.

OMB No.: 0970-0154.

Description: Pub. L. 104-193, The Personal Responsibility and Work Opportunity Reconciliation Act (PRWORA) of 1996, Section 324—Use of Forms in Interstate Enforcement requires the Federal Office of Child Support Enforcement (CSE) agencies and courts/tribunals must use to collect child support payments from an obligor's employer.

The form, which promotes standardization expires 12/31/2000 and we are taking this opportunity to make minor revised to reflect the Uniform Interstate Family Support Act (UIFSA) and the mandate to use for IV-D and non IV-D direct withholding cases. The 2-page form provides a detailed legal description of the established order, support amounts, and remittance information an employer needs to withhold payments from an obligor who owes child support.

Respondents: State, Local, and Tribal Governments.

Annual Burden Estimates:

Instrument	Number of respondents	Number of responses per respondent	Average burden hours per response	Total burden hours
Order/Notice	54	1	.1666	9

Estimated Total Annual Burden Hours: 9.

In compliance with the requirements of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Administration for Children and

Families is soliciting public comment on the specific aspects of the information collection described above. Copies of the proposed collection of information can be obtained and comments may be forwarded by writing

to the Administration for Children and Families, Office of Information Services, 370 L'Enfant Promenade, SW.,

Washington, DC 20477, Attn: ACF Reports Clearance Officer. All requests should be identified by the title of the information collection.

The Department specifically requests comments on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted within 60 days of this publication.

Dated: September 11, 2000.

Bob Sargis,

Reports Clearance Officer.

BILLING CODE 4184-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

Request for Nominations for Nonvoting Members of Industry Interests on Public Advisory Committees; Extension of Nomination Period

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice; extension of nomination period.

SUMMARY: The Food and Drug Administration (FDA) is extending the nomination period for nonvoting representatives of industry interests to serve on public advisory committees under the purview of the Center for Biologics Evaluation and Research (CBER) and the Center for Drug Evaluation and Research (CDER). This request for nominations was announced in the **Federal Register** of August 16, 2000 (65 FR 49990). FDA has been asked to extend the nominations period to allow additional time for the submission of nominations. Note also that the street address for the CBER contact person has been changed.

DATES: Nominations should be received by October 16, 2000.

ADDRESSES: All nominations for representatives should be sent to William Freas or John M. Treacy (addresses below).

FOR FURTHER INFORMATION CONTACT:

Regarding representatives of industry interests for CBER advisory committees: William Freas, Scientific Advisors and Consultants Staff (HFM-71), Food and Drug Administration, 1401 Rockville Pike, Rockville, MD 20852-1448, 301-827-0314, FAX: 301-827-0294, or e-mail: FREAS@CBER.FDA.GOV.

Regarding representatives of industry interests for CDER advisory committees: John M. Treacy, Advisors and Consultants Staff (HFD-21), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-827-7001, FAX: 301-827-6776, or e-mail: TREACY@CDER.FDA.GOV.

Dated: September 12, 2000.

Linda A. Suydam,

Senior Associate Commissioner.

BILLING CODE 4160-01-F

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

Antiviral Drugs Advisory Committee; Notice of Meeting

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

This notice announces a forthcoming meeting of a public advisory committee of the Food and Drug Administration (FDA). The meeting will be open to the public.

Name of Committee: Antiviral Drugs Advisory Committee.

General Function of the Committee: To provide advice and recommendations to the agency on FDA's regulatory issues.

Date and Time: The meeting will be held on October 16, 2000, 8:30 a.m. to 5 p.m.

Location: Marriott Washingtonian Center, the Ballrooms, 9751 Washingtonian Blvd., Gaithersburg, MD.

Contact Person: Nancy Chamberlin or Beverly O'Neil, Center for Drug Evaluation and Research (HFD-21), Food and Drug Administration, 5600 Fishers Lane, (for express delivery, 5630 Fishers Lane, rm. 1093) Rockville, MD 20857, 301-827-7001, or by e-mail: CHAMBERLIN@CDER.FDA.GOV, or FDA Advisory Committee Information Line, 1-800-741-8138 (301-443-0572 in the Washington, DC area), code 12531. Please call the Information Line

for up-to-date information on this meeting.

Agenda: The committee will discuss the use of surrogate markers in the early development of immunomodulatory agents for the treatment of patients with human immunodeficiency virus (HIV).

Procedure: Interested persons may present data, information, or views, orally or in writing, on issues pending before the committee. Written submissions may be made to the contact person by October 2, 2000. Oral presentations from the public will be scheduled between approximately 1 p.m. to 2 p.m. Time allotted for each presentation may be limited. Those desiring to make formal oral presentations should notify the contact person before October 2, 2000, and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, and an indication of the approximate time requested to make their presentation.

Notice of this meeting is given under the Federal Advisory Committee Act (5 U.S.C. app. 2).

Dated: August 23, 2000.

Linda A. Suydam,

Senior Associate Commissioner.

BILLING CODE 4160-01-F

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. 00N-1394]

Medical Devices; CLIA Waiver Criteria; Public Workshop

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice; extension of comment period.

SUMMARY: The Food and Drug Administration (FDA) is extending to October 16, 2000, the comment period for the notice of a public workshop that appeared in the **Federal Register** of July 21, 2000 (65 FR 45384). That notice announced FDA's intention to review the criteria used to determine whether specific laboratory tests are waived from certain requirements of the Clinical Laboratory Improvement Amendments of 1988 (CLIA). This extension of the comment period is intended to allow interested persons additional time to submit comments on the CLIA waiver criteria.

DATES: Submit written comments by October 16, 2000.

ADDRESSES: Submit written comments on the notice of public workshop to the Dockets Management Branch (HFA-305), Food and Drug Administration, 5630 Fishers Lane, rm. 1061, Rockville, MD 20852.

FOR FURTHER INFORMATION CONTACT: Clara A. Sliva, Center for Devices and Radiological Health (HFZ-440), Food and Drug Administration, 2098 Gaither Rd., Rockville, MD 20850, 301-827-0496.

SUPPLEMENTARY INFORMATION:

I. Extension of Comment Period

In the **Federal Register** of July 21, 2000 (65 FR 45384), FDA published a notice of a public workshop to review the criteria used to determine whether specific laboratory tests are waived from certain requirements of the CLIA. FDA is soliciting comments from interested persons concerning the review of criteria and the process that the agency should use to determine when a particular test is waived. CLIA specifies that laboratory requirements be based on the complexity of the tests performed and establishes criteria for categorizing a test as waived. Responsibility for determining whether a particular test is waived was transferred from the Centers for Disease Control and Prevention (CDC) to FDA on January 31, 2000.

FDA received several requests to extend the comment period for an additional month to allow adequate time to respond. In response to the requests, FDA is extending the comment period until October 16, 2000.

II. Comments

Interested persons may submit to the Dockets Management Branch (address above) written comments regarding this notice by October 16, 2000. Two copies of any comments are to be submitted, except that individuals may submit one copy. Comments are to be identified with the docket number found in brackets in the heading of this document. Received comments may be seen in the office above between 9 a.m. and 4 p.m., Monday through Friday.

Dated: September 12, 2000.

William K. Hubbard,

Senior Associate Commissioner for Policy, Planning, and Legislation.

BILLING CODE 4160-01-F

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Care Financing Administration

[Document Identifier: HCFA-10005]

Agency Information Collection Activities: Submission for OMB Review; Comment Request

AGENCY: Health Care Financing Administration, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Health Care Financing Administration (HCFA), Department of Health and Human Services, is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Type of Information Request: New collection; *Title of Information Collection:* Ticket to Work and Work Incentives: Medicaid Infrastructure Grants; *HCFA Form Number:* HCFA-10005 (OMB approval #: 0938-NEW); *Use:* Section 203 of the Ticket to Work and Work Incentives Act of 1999 provides for the establishment of a grants program for states that build infrastructures designed to support people with disabilities. State agencies will be applying for these grants; *Frequency:* Annually; *Affected Public:* State, local or tribal govt.; *Number of Respondents:* 56; *Total Annual Responses:* 56; *Total Annual Burden Hours:* 5,600.

To obtain copies of the supporting statement and any related forms for the proposed paperwork collections referenced above, access HCFA's Web Site address at <http://www.hcfa.gov/regs/prdact95.htm>, or E-mail your request, including your address, phone number, OMB number, and HCFA document identifier, to Paperwork@hcfa.gov, or call the Reports Clearance Office on (410) 786-1326. Written comments and recommendations for the proposed information collections must be mailed within 30 days of this notice directly to

the OMB desk officer: OMB Human Resources and Housing Branch, Attention: Allison Eydtt, New Executive Office Building, Room 10235, Washington, D.C. 20503.

Dated: September 8, 2000.

John P. Burke III,

HCFA Reports Clearance Officer, HCFA Office of Information Services, Security and Standards Group, Division of HCFA Enterprise Standards.

BILLING CODE 4120-03-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Advisory Committee; Notice of Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92-463), announcement is made of the following National Advisory body scheduled to meet during the month of October 2000.

Name: Advisory Committee on Infant Mortality (ACIM).

Date and Time: October 5, 2000; 9 a.m.-5 p.m.; October 6, 2000; 8:30 a.m.-3 p.m.

Place: Holiday Inn Washington, D.C. on the Hill, 415 New Jersey Avenue, NW., Washington, DC 20001, (202) 638-1616.

The meeting is open to the public.

Purpose: The Committee provides advice and recommendations to the Secretary of Health and Human Services on the following: Department programs which are directed at reducing infant mortality and improving the health status of pregnant women and infants; factors affecting the continuum of care with respect to maternal and child health care, including outcomes following childbirth; factors determining the length of hospital stay following childbirth; strategies to coordinate the variety of Federal, State, and local and private programs and efforts that are designed to deal with the health and social problems impacting on infant mortality; and the implementation of the Healthy Start initiative and infant mortality objectives from *Healthy People 2010*.

Agenda: Topics that will be discussed include: Early Postpartum Discharge; Low-Birth Weight; Disparities in Infant Mortality; and the Healthy Start Program.

Anyone requiring information regarding the Committee should contact Peter C. van Dyck, M.D., M.P.H., Executive Secretary, ACIM, Health Resources and Services Administration (HRSA), Room 18-05, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857, Telephone (301) 443-2170.

Individuals who are interested in attending any portion of the meeting or who have questions regarding the meeting should contact Ms. Kerry P. Nesseler, HRSA, Maternal and Child Health Bureau, Telephone (301) 443-2170.

Agenda items are subject to change as priorities are further determined.

Dated: September 8, 2000.

Jane M. Harrison,

Director, Division of Policy Review and Coordination.

BILLING CODE 4160-15-P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-4565-N-23]

Notice of Proposed Information Collection: Comment Request; Mortgagee's Application for Partial Settlement (Multifamily Mortgage)

AGENCY: Office of the Assistant Secretary for Housing, HUD.

ACTION: Notice.

SUMMARY: The proposed information collection requirement described below will be submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposal.

DATES: *Comments Due Date:* November 14, 2000.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and/or OMB Control Number and should be sent to: Wayne Eddins, Reports Management Officer, Department of Housing and Urban Development, 451 7th Street, SW., L'Enfant Plaza Building, Room 8100, Washington, DC 20410.

FOR FURTHER INFORMATION CONTACT: Patricia L. Tarber, Systems Accountant, Office of Financial Services, Department of Housing and Urban Development, 451 7th Street SW., Washington, DC 20410, telephone (202) 708- (this is not a toll free number) for copies of the proposed forms and other available information.

SUPPLEMENTARY INFORMATION: The Department is submitting the proposed information collection to OMB for review, as required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35, as amended).

This Notice is soliciting comments from members of the public and affected agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) Evaluate the

accuracy of the agency's estimate of the burden of the proposed collection of information; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond; including the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

This Notice also lists the following information:

Title of Proposal: Mortgagee's Application for Partial Settlement (Multifamily Mortgage).

OMB Control Number, if applicable: 2502-0427.

Description of the need for the information and proposed use: When the mortgage goes into default, the lender may elect to file with the Department a claim for insurance benefits. Statute 12 USC 1713(g) and Title II, Section 207(g) of the National Housing Act provides that, " * * * the mortgagee shall be entitled to receive the benefits of the insurance as hereinafter provided, upon assignment, transfer, and delivery to the Secretary, within a period and in accordance with rules and regulations to be prescribed by the Secretary of all rights and interest arising under the mortgage so in default: * * * at its options and in accordance with regulations of, and in a period to be determined by the Secretary, proceed to foreclose on and obtain possession of or otherwise acquire sure property after default and receive the benefits of the insurance as herein provided upon the prompt conveyance of the Secretary the title of the property * * * " The mortgagee may receive a portion of the benefits immediately after the assignment or conveyance. The partial amount is computed in accordance with the foregoing statutory provisions and regulations promulgated under 24 CFR 207.251 Subpart B.

Agency form numbers, if applicable: HUD-2537.

Estimation of the total numbers of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response: The estimated number of respondents is 215, frequency of response is one claim per submission, the total annual burden hours requested are 54.

Status of the proposed information collection: Reinstatement, without change, of a previously approved information collection.

Authority: The Paperwork Reduction Act of 1995, 44 U.S.C., Chapter 35, as amended.

Dated: September 8, 2000.

William C. Apgar,

Assistant Secretary for Housing-Federal Housing Commissioner.

[Docket No. FR-4565-N-24]

Notice of Proposed Information Collection: Comment Request; Mortgage Insurance Termination Application for Premium Refund or Distributive Share

AGENCY: Office of the Assistant Secretary for Housing, HUD.

ACTION: Notice.

SUMMARY: The proposed information collection requirement described below will be submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comment on the subject proposal.

DATES: *Comments Due Date:* November 14, 2000.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and/or OMB Control Number and should be sent to: Wayne Eddins, Reports Management Officer, Department of Housing and Urban Development, 451 7th Street, SW, L'Enfant Plaza Building, Room 8202, Washington, DC 20410.

FOR FURTHER INFORMATION CONTACT: Silas C. Vaughn, Single Family Insurance Operations Division, Department of Housing and Urban Development, 451 7th Street, SW, Washington, DC 20410, telephone (202) 708-2596, Ext. 3445 (this is not a toll free number) for information on form HUD-27050-A. Lillie A. Watson, Single Family Insurance Operations Division, Department of Housing and Urban Development, 451 7th Street, SW, Washington, DC 20410, telephone (202) 708-2596, Ext. 3305 (this is not a toll free number) for information on form HUD-27050-B.

SUPPLEMENTARY INFORMATION: The Department is submitting the proposed information collection to OMB for review, as required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35, as amended).

This Notice is soliciting comments from members of the public and affected agencies concerning the proposed collection of information to: (1) Evaluate

whether the proposed collection is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond; including the use of appropriate automated collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

This Notice also lists the following information:

Title of Proposal: Mortgage Insurance Termination—HUD-27050-A; Application for Premium Refund or Distributive Share Payment—HUD-27050-B.

OMB Control Number, if applicable: 2502-0414.

Description of the need of the information and proposed use: The information collection for the Mortgage Insurance Termination, form HUD-27050-A, is used by servicing mortgages to comply with HUD requirements for reporting the termination of FHA mortgage insurance. This information is used whenever FHA mortgage insurance is terminated and no claim for insurance benefits will be filed. Due to technological advances this information is now submitted electronically to HUD from lenders via Electronic Data Interchange (EDI) and via the Internet through FHA Connection. The information collection is still needed although the hardcopy form is not used. Under the new streamline III program, when the information is submitted it can be used to directly pay eligible homeowners. This condition occurs when the data passes the criteria of certain system edits. As a result, the system generates a disbursement to the eligible homeowners for a refund consisting of the unused portion of the paid premium. The information collection required is used to update HUD's Single Family Insurance System. The billing of mortgage insurance premiums is discontinued as a result of the transaction. Without this information the premium collection/monitoring function would be severely impeded and program data would be unreliable. Under streamline III, when the information is processed but does not pass the series of edits, the system generates a form HUD-27050-B to the homeowners to be completed and returned to HUD for further processing for a premium refund or distributive share. In general, a premium refund is

the difference between the amount of prepaid premium and the amount of the premium that has been earned by HUD up to the time the mortgage is terminated. A distributive share payment is a dividend of the Mutual Mortgage Insurance Fund operated by HUD/FHA and may be payable when FHA insurance is terminated depending on the age of the mortgage and other eligibility conditions.

Agency form numbers, if applicable: HUD-27050-A, HUD-27050-B.

Estimation of the total numbers of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response: The public reporting burden for this collection of information for the HUD-27050-A is estimated to average 5 minutes per response, including the time for reviewing the instructions, searching existing data sources, gathering and maintaining the data needed, completing and reviewing the collection of information, and transmitting the information electronically via EDI or FHA Connection. The number of respondents is 9,500, the frequency of response is on average, and the volume per respondents is 1 to 40,000 depending on the size of their FHA portfolio. The public reporting burden for this collection of information for the HUD-27050-B is estimated to average 15 minutes per response, including the time for reviewing the instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. The number of respondents is 382,000, the frequency of response is one time, and the volume per respondents is 1.

Status of the proposed information collection: Reinstatement, without change, or a previously approved information collection.

Authority: The Paperwork Reduction Act of 1995, 44 U.S.C., Chapter 35, as amended.

Dated: September 8, 2000.

William C. Appgar,

Assistant Secretary for Housing-Federal Housing Commissioner.

Notice of Proposed Information Collection: Comment Request; Mortgagee's Application for Insurance Benefits (Multifamily Mortgage)

AGENCY: Office of the Assistant Secretary for Housing, HUD.

ACTION: Notice.

SUMMARY: The proposed information collection requirement described below will be submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposal.

DATES: *Comments Due Date:* November 14, 2000.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and/or OMB Control Number and should be sent to: Wayne Eddins, Reports Management Officer, Department of Housing and Urban Development, 451 7th Street, SW, L'Enfant Plaza Building, Room 8100, Washington, DC 20410.

FOR FURTHER INFORMATION CONTACT: Patricia L. Tarber, Systems Accountant, Office of Financial Services, Department of Housing and Urban Development, 451 7th Street SW, Washington, DC 20410, telephone (202) 708- (this is not a toll free number) for copies of the proposed forms and other available information.

SUPPLEMENTARY INFORMATION: The Department is submitting the proposed information collection to OMB for review, as required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35, as amended).

This Notice is soliciting comments from members of the public and affected agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond; including the use of appropriate automated collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

This Notice also lists the following information:

Title of Proposal: Mortgagee's Application for Insurance Benefits (Multifamily Mortgage).

OMB Control Number, if applicable 2520-0419.

Description of the need for the information and proposed use: A lender with an insured multifamily mortgage may pay an annual insurance premium to the Department. When the mortgage goes into default, the lender may elect to file with the Department a claim for insurance benefits. A requirement of the claims filing process is the submission of an application for insurance benefits. Regulation 12 USC 1713(g) and Title II, Section 207(g) of the National Housing Act provides that, "Notwithstanding any other provision of this chapter, upon receipt, after September 2, 1964, of an application for insurance benefits on a mortgage insured under this chapter, the Secretary may terminate the lender's obligation to pay premium charges on the mortgage." This provision is further spelled out under 24 CFR Part 207—Subpart B—Contract Rights and Obligations at 207.252(d) and 207.258(c)(6). This information collection satisfied the preceding requirements.

Agency form numbers, if applicable: HUD-2747.

Estimation of the total numbers of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response: The estimated number of respondents is 215, frequency of response is one claim per submission, the total annual burden hours requested are 18.

Status of the proposed information collection: Reinstatement, with change, of a previously approved information collection.

Authority: The Paperwork Reduction Act of 1995, 44 U.S.C., Chapter 35, as amended.

Dated: September 8, 2000.

William C. Apgar,

Assistant Secretary for Housing-Federal Housing Commissioner.

Notice of Proposed Information Collection: Comments Request, Community Development Block Grant, States Program

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Notice.

SUMMARY: The proposed information collection requirement for the State Community Development Block Grant (CDBG) program will be submitted to the Office of Management and Budget (OMB) for review, as required by the Paperwork Reduction Act. The Department is soliciting public comments on the subject proposal.

DATES: *Comment Due Date:* November 14, 2000.

ADDRESSES: Interested persons are invited to submit comments regarding this proposal. Comments should refer to the proposal by name and/or OMB Control Number and should be sent to: Shelia Jones, Reports Liaison Officer, Department of Housing and Urban Development, 451 7th Street, SW, Room 7232, Washington, DC 20410.

FOR FURTHER INFORMATION CONTACT:

Steve Johnson, Director, State and Small Cities Division, Department of Housing and Urban Development, Room 7286, 451 Seventh Street, SW, Washington, DC 20410-7000. For telephone communication, contact Yvette Aidara, State and Small Cities Division, at 202-708-1322. This is not a toll-free number. Hearing or speech impaired individuals may access this number via TTY by calling the toll-free Federal Information Relay Service at 1-800-877-8339.

SUPPLEMENTARY INFORMATION: The Department will submit the proposed information collection to OMB for review, as required by the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35, as amended).

The Notice is soliciting comments from members of the public and affected agencies concerning the proposed collection of information to: (1) Evaluate whether the proposed collection of

information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (3) enhance the quality, utility, and clarity of the information to be collected, and (4) minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

This Notice also lists the following information:

Title of Proposal: Community Development Block Grants: States Program.

OMB Control Number: 2506-0085.

Description of the Need for the Information and Proposed Use: The information is needed to assist HUD in determining whether States are carrying out the CDBG program in accordance with the applicable laws. In addition, States must maintain records at the state level to facilitate review and audit by HUD of each state's administration of its grant pursuant to section 104 (e) of the statute and section 570.490 of the State CDBG rule.

Agency Form Numbers, if applicable: The Housing and Community Development Act of 1974, as amended, requires states that administer the CDBG program to submit: (1) A Final Statement that contains the community development objectives, a method of distribution, and the certification by the Governor or a duly authorized state official (Section 104(a)(1)); (2) an annual performance and evaluation report (PER) (Section 104(e)); and such records as may be necessary to facilitate review and audit by HUD of the state's administration of CDBG funds (Section 104(e)(2)).

Members of Affected Public: State Governments participating in the State administered CDBG program.

Estimation of the total numbers of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of response:

Task	Number of respondents	Frequency of response (annual)	Estimate of burden hours	Total U.S. burden hours
PER (Performance & Evaluation Report)	50	1	212	10,600
Recordkeeping:				
States	50	on-going	116	5,800
Localities	3,500	on-going	26	91,000

Task	Number of respondents	Frequency of response (annual)	Estimate of burden hours	Total U.S. burden hours
Total	50 plus	2 or more	354	107,400

Status of the Proposed Information Collection: Reinstatement, with minor change, of a previously approved collection for which approval is near expiration and request for OMB renewal for three years. The current OMB approval expires in November, 2000.

This report does not include hours spent on Consolidated Plan preparation and reporting. Those hours are reported with 2506-0117.

Authority: Section 3506 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35, as amended.

Dated: September 11, 2000.

Cardell Cooper,

Assistant Secretary for Community Planning and Development.

BILLING CODE 4210-29-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-4557-N-37]

Federal Property Suitable as Facilities To Assist the Homeless

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Notice.

SUMMARY: This Notice identifies unutilized, underutilized, excess, and surplus Federal property reviewed by HUD for suitability for possible use to assist the homeless.

FOR FURTHER INFORMATION CONTACT:

Clifford Taffet, room 7266, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, DC 20410; telephone (202) 708-1234; TTY number for the hearing- and speech-impaired (202) 708-2565 (these telephone numbers are not toll-free), or call the toll-free Title V information line at 1-800-927-7588.

SUPPLEMENTARY INFORMATION: In accordance with 24 CFR part 581 and section 501 of the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. 14411), as amended, HUD is publishing this Notice to identify Federal buildings and other real property that HUD has reviewed for suitability for use to assist the homeless. The properties were reviewed using information provided to HUD by Federal landholding agencies regarding unutilized and underutilized

buildings and real property controlled by such agencies or by GSA regarding its inventory of excess or surplus Federal property. This Notice is also published in order to comply with the December 12, 1988 Court Order in *National Coalition for the Homeless v. Veterans Administration*, No. 88-2503-OG (D.D.C.).

Properties reviewed are listed in this Notice according to the following categories: Suitable/available, suitable/unavailable, suitable/to be excess, and unsuitable. The properties listed in the three suitable categories have been reviewed by the landholding agencies, and each agency has transmitted to HUD: (1) Its intention to make the property available for use to assist the homeless, (2) its intention to declare the property excess to the agency's needs, or (3) a statement of the reasons that the property cannot be declared excess or made available for use as facilities to assist the homeless.

Properties listed as suitable/available will be available exclusively for homeless use for a period of 60 days from the date of this Notice. Homeless assistance providers interested in any such property should send a written expression of interest to HHS, addressed to Brian Rooney, Division of Property Management, Program Support Center, HHS, room 5B-41, 5600 Fishers Lane, Rockville, MD 20857, (301) 443-2265. (This is not a toll-free number.) HHS will mail to the interested provider an application packet, which will include instructions for competing the application. In order to maximize the opportunity to utilize a suitable property, providers should submit their written expressions of interest as soon as possible. For complete details concerning the processing of applications, the reader is encouraged to refer to the interim rule governing this program, 24 CFR part 581.

For properties listed as suitable/to be excess, that property may, if subsequently accepted as excess by GSA, be made available for use by the homeless in accordance with applicable law, subject to screening for other Federal use. At the appropriate time, HUD will publish the property in a Notice showing it as either suitable/available or suitable/unavailable.

For properties listed as suitable/unavailable, the landholding agency has decided that the property cannot be

declared excess or made available for use to assist the homeless, and the property will not be available.

Properties listed as unsuitable will not be made available for any other purpose for 20 days from the date of this Notice. Homeless assistance providers interested in a review by HUD of the determination of unsuitability should call the toll free information line at 1-800-927-7588 for detailed instructions or write a letter to Clifford Taffet at the address listed at the beginning of this Notice. Included in the request for review should be the property address (including zip code), the date of publication in the **Federal Register**, the landholding agency, and the property number.

For more information regarding particular properties identified in this Notice (*i.e.*, acreage, floor plan, existing sanitary facilities, exact street address), providers should contact the appropriate landholding agencies at the following addresses: *Army:* Mr. Jeff Holste, Army Corps of Engineers, Military Programs, Installation Support Division, Planning Branch, ATTN: CEMP-IP, 441 G Street, NW, Washington, DC 20314-1000; (202) 761-5737; *GSA:* Mr. Brian K. Polly, Assistant Commissioner, General Services Administration, Office of Property Disposal, 18th and F Streets, NW., Washington, DC 20405; (202) 501-0052; *Interior:* Ms. Linda Tribby, Department of the Interior, 1849 C Street, NW., Mail Stop 5512-MIB, Washington, DC 20240; (202) 219-0728; *Navy:* Mr. Charles C. Cocks, Director, Department of the Navy, Real Estate Policy Division, Naval Facilities Engineering Command, Washington Navy Yard, 1322 Patterson Ave., SE., Suite 1000, Washington, DC 20374-5065; (202) 685-9200; (These are not toll-free numbers).

Dated: September 7, 2000.

Fred Karnas, Jr.,

Deputy Assistant Secretary for Special Needs Assistance Programs.

DEPARTMENT OF THE INTERIOR

United States Fish and Wildlife Service

Information Collection To Be Submitted to the Office of Management and Budget (OMB) for Approval Under the Paperwork Reduction Act (PRA)

ACTION: New Information Collection.

SUMMARY: The U.S. Fish and Wildlife Service (Service) plans to submit the collection of information requirement described below to the Office of Management and Budget (OMB) for approval under the provisions of the Paperwork Reduction Act (PRA). You may obtain copies of the collection requirement and related forms and explanatory material by contacting the Service's Information Collection Clearance Officer at the phone number listed below. The Service is soliciting comments and suggestions on the requirement as described below.

DATES: Interested parties must submit comments on or before November 14, 2000.

ADDRESSES: Interested parties should send comments and suggestions on the requirement to Rebecca A. Mullin, Information Collection Officer, U.S. Fish and Wildlife Service, 4401 North Fairfax Drive, Suite 222, Arlington, VA 22203, (703) 358-2287 or RebeccaMullins@fws.gov E-mail.

FOR FURTHER INFORMATION CONTACT: Jack Hicks, (703) 358-1851, fax (703) 358-1837, or JackHicks@fws.gov E-mail.

SUPPLEMENTARY INFORMATION:

Title of Forms: Summary Information for Ranking National Coastal Wetlands Conservation Grant Program Proposal.

Description and Use: The Service administers the National Coastal Wetlands Conservation Grant program authorized by the Coastal Wetlands Planning, Protection and Restoration Act. The Service uses the information collected to evaluate proposals under this program. This includes summarized information on habitat, coastal barriers, levels of conservation, watershed management, threatened and/or endangered species potentially involved, benefits of the restoration proposed, partners, cost sharing, education/outreach impact, impact on wildlife-oriented recreation and other

benefits and determining if the estimated cost is reasonable.

Service Form Numbers: 3-2179 (Summary Information for Ranking National Coastal Wetlands Conservation Grant Program Proposals).

Supplemental Information: The Service plans to submit the following information collection requirements to OMB for review and approval under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments are invited on (1) whether the collection of

information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimates of burden of the collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected, and (4) ways to minimize the burden of collection of information on respondents, including through the use

of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Frequency: Generally annually.

Description of Respondents: States, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, Guam, the Virgin Islands, and American Samoa.

Completion Time and Annual Response and Burden Estimate:

Form name	Completion time per form	Annual response	Annual burden
Summary Information for Ranking National Coastal Wetlands Conservation Grant Program Proposals.	½ hour	35 Forms	17½ Hours.

While the summary form is five pages long the ½ hour estimated burden is

accurate. Agencies applying for grants will have all of the information readily

available in the proposals they have prepared.

BILLING CODE 4310-55-M

**Summary Information for Ranking National
Coastal Wetlands Conservation Grant Program Proposals**

Title: _____

Costs: Coastal Wetlands Program Request _____
State _____
Other (Federal) _____
Other (Non-Federal) _____ Total _____

Summary: Include a 2-5 sentence paragraph describing the project and its resource benefits.

(1) Wetlands Conservation: What is the breakdown by habitat type for the wetlands being conserved?

Habitat type	Number of acres	Percentage of total project area
Declining coastal wetlands		
Stable coastal wetlands		
Total wetlands		
Upland		
Total project acres		

(2) Maritime Forest on Coastal Barriers: What plant species are present that are indicative of maritime forest as defined in the criteria?

Common name	Scientific name	Prevalence (rare, common, predominant)

(3) Long-term conservation: How long will the habitat benefits be provided by the project?

	Benefits in perpetuity (number of acres)	Benefits for 26-99 years (number of acres)	Benefits for 10-25 years (number of acres)
Easements			
Fee-title (no restoration)			
Fee-title (that will also be restored)			
Not acquired, Restored only			
Not acquired, Enhanced only			
Other (please explain)			
Total			

(4) Coastal watershed management: How will this project help achieve the goals of specific management plans and efforts?

Management plan or effort	How this project helps implement its goals

(5a) Conservation of threatened and endangered species: What are the benefits to federally listed species, candidates, or recently delisted species?

Common name	Scientific name	Status	Project benefits	Does the project support goals of a Recovery Plan or HCP? List plan and goal.

(5b) What are the benefits to State species of concern?

Common name	Scientific name	Status	Project benefits	Does the project support goals of a specific Recovery Plan? List plan and goal.

(6) Benefits to fish: What are benefits to anadromous, interjurisdictional, and other important species?

Common name	Scientific name	Project benefits	Does the project help meet specific management goals? List plan and goal.

(7) Coastal-dependent or migratory birds: What are the benefits to specific coastal-dependent or migratory species?

Common name	Scientific name	Benefits	Does project help meet the goals of a specific management plan? List plan and goal.

(8) Prevent or reduce contamination: What are the contaminants benefits?

Contaminant	Benefits	Does project help meet the goals of a specific management plan? List plan and goal.

(9) Catalyst for future conservation: What other conservation efforts that would benefit from this project?

Projects	Benefits

(10) Partners in conservation: What are the sources and amounts of financial support being provided by partners?

Organizations/individuals providing match	Monetary value of support

(11) Federal share reduced: Is the Federal match share reduced by contributions from State and other non-Federal sources? To what extent? (See instructions for guidance on the calculation.)

Total project costs	
Required State match	
Additional cash contribution	
Percent increase over required match (see instructions)	

(12) Education/outreach or wildlife-oriented recreation: What site-specific educational or outreach programs or wildlife-oriented recreation programs or products are made possible by this project?

Site-specific programs or products	Audience/Participants	Estimated size of audience/participants

(13) Other factors: What other benefits does the project provide?

Other factors	How the project addresses them

Other considerations/tie-breakers:**1) Is the habitat imminently threatened?**

Yes ___ No ___

Threat(s)	Severity

2. Does the site have unique and significant diversity?

Yes ___ No ___

Unique biodiversity	Supportive evidence

3) What are the costs per acre? (Lesser costs would be preferable, all other factors being equal).

Habitat conservation approach	Costs per acre
Acquisition	
Easements	
Restoration	

4a) Are there new sources of funds, lands, or services are being applied to this project? (As opposed to lands already owned by the State or third party that are being offered as match).

Yes ___ No ___

(4b) What percentage of the funds, lands, or services is new? _____ percent.

INSTRUCTIONS FOR SUMMARY INFORMATION FOR RANKING
NATIONAL COASTAL WETLANDS CONSERVATION GRANT PROGRAM PROPOSALS

A. Prepare your grant proposal.

B. Guidance and examples for calculation for question #11.

NOTE TO APPLICANTS AND REVIEWERS: *The purpose of this criteria is to increase the amount of match dollars from non-Federal sources. This decreases the need for Federal match dollars, so that Federal dollars can help more projects.*

Documentation of each partner's financial commitment must accompany the proposal to receive points.

If the State itself provides the excess match they should receive credit for reducing the Federal share.

Each 5 percent above the required match would be approximately equal to 1 point.

The following two examples, using both a 50 and 75 percent Federal match share, define a 10 percent increase in a State's match amount.

EXAMPLE 1 - 50 Percent Federal Match

If the total project costs are:	\$ 100,000
Then the required State match share is:	\$ 50,000
If the State or a partner provides an additional cash contribution equal to 10 percent of the \$50,000*:	\$5,000

This is defined as a 10 percent increase in the State match

EXAMPLE 2 - 75 Percent Federal Match

If the total project costs are:	\$ 100,000
Then the required State match share is:	\$ 25,000
If the State or a partner provides an additional cash contribution equal to 10 percent of the \$25,000*:	\$2,500

This is defined as a 10 percent increase in the State match.

** From sources other than Federal agencies. Natural Resource Damage Assessment funds may in some cases be defined as "non-Federal." See discussion under 50 CFR 84.46 "What are the cost sharing requirements?"*

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501) and the Privacy Act of 1974 (U.S.C. 552), please be advised that:

The gathering of information from applicants to gain benefits is authorized under the Federal Aid in Sport Fish Restoration Act (16 U.S.C. 777-777k) and the Federal Aid in Wildlife Restoration Act (16 U.S.C. 669-669i). Information from this form will be used to formalize and execute Grant Agreements and Amendment to Grant Agreements issued under these and other Acts. Your participation in completing this form is required to obtain benefits. Once submitted this form becomes public information and is not protected under the Privacy Act. The public reporting burden for this form is estimated at one-half hour per response, including time for gathering information, completing, reviewing and obtaining signature. Direct comments to the Service Information Collection Clearance Officer, 1018-XXXX, U.S. Fish and Wildlife Service, MS 222-ARLSQ, 1649 C Street N.W., Washington, D.C. 20240.

An agency may not conduct and a person is not required to complete a collection of information unless a currently valid OMB control number is displayed.

Form 3-2179

06-00

Dated: September 11, 2000.

Rebecca A. Mullin,

Service Information Collection Clearance
Officer.

BILLING CODE 4310-55-C

DEPARTMENT OF THE INTERIOR**Bureau of Land Management****[MT-925-2810-XU-241E]****Notice of Special Fire Restrictions—Restrictions and Conditions of Use in the Miles City, Malta, Billings and Lewistown Field Offices, Montana****AGENCY:** Bureau of Land Management, Interior.**ACTION:** Notice.

SUMMARY: Pursuant to 43 Code of Federal Regulations (CFR) 9212.2, the following acts are prohibited on all Bureau of Land Management lands in Liberty, Hill, Blaine, Phillips, Valley, Daniels, Sheridan, Roosevelt, Choteau, Judith Basin, Fergus, Petroleum, Garfield, McCone, Richland, Dawson, Prairie, Wibaux, Wheatland, Golden Valley, Musselshell, Yellowstone, Big Horn, Treasure, Rosebud, Custer, Powder River, Fallon, and Carter counties. These restrictions will become effective at 12:01 MDT September 12, 2000. They will remain in effect until rescinded or revoked. They replace the restrictions enacted on August 31, 2000, which are hereby terminated.

Building, maintaining, attending, or using a campfire except at a developed, designated recreation site or campground (43 CFR 9212.1(h)). Gas and liquid-fueled stoves and lanterns are permitted.

Smoking, except within an enclosed vehicle or building; at an improved place of habitation; at a developed, designated recreation site or campground; or while stopped in an area at least 3 feet in diameter that is cleared of all flammable material (43 CFR 9212.1(h)).

Use of chainsaws or other equipment with internal combustion engines for felling, bucking, skidding, wood cutting, road building, and other high fire risk operations between 1 p.m. and 1 a.m. local time. Exceptions are helicopter yarding and earth moving on areas of cleared and bare soil. Sawing incidental to loading operations on cleared landings is not necessarily restricted (43 CFR 9212.1(h)).

Using chainsaws or other equipment with internal combustion engines for felling, bucking, skidding, wood cutting or any other operation within areas having a significant accumulation of dead or down slash or timber (43 CFR 9212.1(h)).

Welding, blasting (except seismic operations confined by ten or more feet of soil, sand or cuttings), and other activities with a high potential for causing forest fires (43 CFR 9212.1(h)).

A patrol is required for a period of two hours after any woods operations including felling, bucking, skidding, woodcutting, or road building cease. A patrol is also required for one hour following the cessation of all work activity. The patrolperson's responsibilities include checking for compliance with required fire precautions.

Possessing or using motorized vehicles such as, but not limited to cars, trucks, trail bikes, motorcycles and all terrain vehicles off existing roads and trails (43 CFR 9212.1(h)) except for persons with a grazing, oil and gas or mining permit performing activities in accordance with their permit.

Exemptions to the above prohibitions are allowed only for any Federal, State, or local officer, or member of an organized law enforcement, rescue, or firefighting force in the performance of an official duty, or persons with a permit or written authorization allowing the otherwise prohibited act or omission.

Violation of this order is prohibited by the provisions of the regulations cited. Under 43 CFR 9212.4, any violation is subject to punishment by a fine of not more than \$1,000 or imprisonment of not more than 12 months, or both.

DATES: Restrictions go into effect at 12:01 am on Tuesday, September 12, 2000, and will remain in effect until further notice.

ADDRESSES: Comments should be sent to BLM Montana State Director, Attention: Pat Mullaney, P.O. Box 36800, Billings, Montana 59107-6800.

FOR FURTHER INFORMATION CONTACT: Pat Mullaney, Fire Management Specialist, 406-896-2915.

Dated: September 12, 2000.

Roberta A. Moltzen,

Acting State Director.

[FR Doc. 00-23851 Filed 9-14-00; 8:45 am]

BILLING CODE 4310-SS-P

DEPARTMENT OF THE INTERIOR**Bureau of Land Management****[OR-035-00-1150-ES : GPO-0364]****Notice of Realty Action; Recreation and Public Purposes (R&PP) Act Classification; Oregon****AGENCY:** Bureau of Land Management, Interior.**ACTION:** Notice.

SUMMARY: The following public lands in Baker county, Oregon have been examined and found suitable for

classification for lease to the Oregon Travel Information Council under the provisions of the Recreation and Public Purposes Act, as amended (43 U.S.C. 869 *et seq.*). The Oregon Travel Information Council purposes to use the lands for a highway visitor parking area with an Oregon Trail historical interpretive sign.

Willamette Meridian

T. 09S., R. 41E.,

Sec. 06, SE $\frac{1}{4}$ NE $\frac{1}{4}$ SE $\frac{1}{4}$.

Containing 0.12 acres more or less.

The lands are not needed for Federal purposes. Lease is consistent with current Bureau of Land Management (BLM) land use planning and would be in the public interest.

The lease, when issued, will be subject to the following terms, conditions and reservations:

1. Provisions of the Recreation and Public Purposes Act and to all applicable regulations of the secretary of the Interior.

2. All valid existing rights documented on the official public land records at the time of lease issuance.

3. All minerals shall be reserved to the United States, together with the right to prospect for, mine, and remove the minerals.

4. Any other reservations that the authorized officer determines appropriate to ensure public access and proper management of Federal lands and interests therein.

Upon publication of this notice in the **Federal Register**, the lands will be segregated from all forms of appropriation under the public land laws, including the general mining laws, except for lease under the Recreation and Public Purposes Act and leasing under the mineral leasing laws. For a period of 45 days from the date of publication of this notice, interested persons may submit comments regarding the proposed classification of the lands to the District Manager. Any adverse comments will be reviewed by the State Director. In the absence of any adverse comments, the classification will become effective 60 days from the date of publication of this notice.

Upon the effective date of classification, the lands will be open to the filing of an application under the Recreation and Public Purposes Act by any interested, qualified applicant. If, after 18 months following the effective date of classification, an application has not been filed, the segregative effect of the classification shall automatically expire and the lands classified shall return to their former status without further action by the authorized officer.

FOR FURTHER INFORMATION CONTACT:

Susie Manezes, Bureau of Land Management, Vale District, 100 Oregon Street, Vale, OR 97918.

Juan Palma,

District Manager.

DEPARTMENT OF THE INTERIOR**National Park Service****Tallgrass Prairie National Preserve**

AGENCY: National Park Service, Interior.

ACTION: Notice of Meeting.

SUMMARY: This notice sets the schedule for a meeting of the Tallgrass Prairie National Preserve Advisory Committee. Notice of this meeting is required under the Federal Advisory Committee Act (Public Law 92-463).

DATE, TIME, AND ADDRESS: Wednesday, October 4, 2000; 9 a.m. until business and public comment are complete; Chase County Community Building, Swope Park, Walnut and County Road, Cottonwood Falls, Kansas.

This business meeting is open to the public. Space and facilities to accommodate members of the public are limited and people will be accommodated on a first-come, first-served basis. An agenda will be available from the Superintendent 1 week prior to the meeting. Attendees are encouraged to participate in these meetings. If you would like to address the committee, please contact the Superintendent by September 29, 2000, at the address or telephone number listed below requesting that your name be added to the agenda. Depending on the number of requests, the Superintendent has the right to limit the amount of time each participant is allowed to address this committee.

FOR FURTHER INFORMATION CONTACT:

Steve Miller, Superintendent, Tallgrass Prairie National Preserve, P.O. Box 585, Cottonwood Falls, Kansas 66845; or telephone him at 316-273-6034.

SUPPLEMENTARY INFORMATION: The Tallgrass Prairie National Preserve was established by Public Law 104-333, dated November 12, 1996.

Dated: September 6, 2000.

David N. Given,

Deputy Regional Director, Midwest Region.

BILLING CODE 4310-70-P

DEPARTMENT OF THE INTERIOR**National Park Service****Notice of New Policy Interpreting the National Park Service (NPS) Organic Act**

AGENCY: National Park Service, Interior.

ACTION: Notice of new policy.

SUMMARY: The Director of the NPS has approved "Director's Order #55: Interpreting the National Park Service Organic Act." This Director's Order adopts section 1.4 of NPS "Management Policies" in advance of adopting the entire 10-chapter volume. We have done this so that all NPS employees will have access to our official interpretation of the 1916 NPS Organic Act (16 U.S.C. 1) and the 1978 amendment to the National Park System General Authorities Act of 1970 (16 U.S.C. 1a-1). These statutes, taken together, are the primary source of guidance for managing the national parks. All NPS personnel must conduct their work activities and make decisions affecting the national park system in conformance with the interpretation in this Director's Order.

ADDRESSES: Director's Order #55 is available on the Internet at <http://www.nps.gov/refdesk/DOrders/index.htm#new>. Requests for paper copies should be sent to: NPS Office of Policy, Room 2414, Main Interior Building, Washington, DC 20240. Copies may also be obtained by calling (202) 208-7456.

FOR FURTHER INFORMATION CONTACT: Mr. Chick Fagan at (202) 208-7456.

SUPPLEMENTARY INFORMATION: A draft of proposed revisions to NPS "Management Policies" was issued for a 60-day public review and comment period, beginning January 19, 2000 [65 FR 2984]. We subsequently considered all the comments received, and will adopt the year 2000 edition of Management Policies in the near future. However, due to the importance of instituting as soon as possible a Service-wide interpretation of the most salient provisions of the Organic Act and General Authorities Act, we have issued Director's Order #55 as a means of adopting section 1.4 of "Management Policies." This Service-wide interpretation will help all NPS employees understand their legal duties in managing the national park system, and will help ensure the law is properly and consistently applied throughout the national park system.

Comments on Draft Section 1.4

Sixteen organizations and individuals commented on section 1.4 of the draft "Management Policies." Their comments and our responses are summarized below. Most of the comments listed are summaries or consolidations of comments that shared similarities.

Comment #1: The NPS Organic Act gives equal weight to the NPS's obligation to conserve park resources unimpaired, and to the NPS's obligation to provide opportunities for public enjoyment. This is not properly reflected in the NPS's proposed policy.

Our response: Congress, recognizing that the enjoyment by future generations of the national parks can be assured only if the superb quality of park resources and values is left unimpaired, has provided that when there is an unavoidable conflict between conserving resources and values and providing for enjoyment of them, conservation is to be predominant. This is how courts have consistently interpreted the Organic Act, in decisions that variously describe it as making "resource protection the primary goal" or "resource protection the overarching concern," or as establishing a "primary mission of resource conservation," a "conservation mandate," "an overriding preservation mandate," "an overarching goal of resource protection," or "but a single purpose, namely, conservation."

Comment #2: It is virtually impossible to provide opportunities for enjoyment without causing at least some degree of impairment. The NPS should acknowledge this fact and not use the Organic Act as a pretext for curtailing the level of public use and enjoyment allowed in national parks.

Our response: The Organic Act and the General Authorities Act prohibit impairment of park resources and values, not all impacts to park resources and values. We have revised section 1.4 to make that distinction clearer.

Comment #3: The definitions of "enjoyment," "resources and values," and "impairment" are critically important to how the NPS will implement the policy. As written, they are too unclear; or will allow too much (or too little) discretion by decision-makers.

Our response: We have revised the definitions to make it easier to understand how these words apply within the context of the overall policy. We have also revised text at other key points to help make the overall policy clearer and, in the process, reduced the need for more explicit definitions.

Comment #4: Some parks were established because of their natural qualities, some because of their historic qualities, and some because of their recreational qualities. Since these parks and their resources are not all the same, the policies should not treat them as if they are all the same. (Conversely, another commenter felt that a stronger statement should be included to remind readers that all parks deserve the same level of protection, regardless of what they are called.)

Our response: The Organic Act states the "fundamental purpose" of all national parks, national monuments, and reservations managed by NPS. A 1978 amendment to the NPS General Authorities Act "further reaffirms, declares, and directs that the promotion and regulation of the various units of the National Park System. * * * shall be consistent with and founded in the purpose established by" the Organic Act, and that, "The authorization of activities shall be construed and the protection, management, and administration of these areas shall be conducted in light of the high public value and integrity of the National Park System and shall not be exercised in derogation of the values and purposes for which these various areas have been established, except as may have been or shall be directly and specifically provided by Congress." These statutory provisions make it clear that the mandates of the Organic Act and the General Authorities Act apply equally to all units of the National Park System, except as Congress may have directly and specifically provided otherwise.

Comment #5: Federal courts have consistently reaffirmed the policies interpretation that, when there is a conflict between conserving resources and values and providing for public enjoyment, conservation is to be predominant.

Our response: This point has been added to the policy text.

Comment #6: The proposed policy presumes that the first line of defense against impairment should be to limit public enjoyment. The NPS should instead examine other remedies before placing unnecessary restrictions on public enjoyment.

Our response: This interpretation of these laws makes it clear that NPS may not allow the impairment of park resources and values, but it does not establish any presumptions or preferences as to what management steps must be taken to avoid those impairments. However, other parts of "Management Policies," particularly Chapter 8: Use of the Parks, include NPS policies that are relevant.

Comment #7: Impairments caused by actions that were reviewed and approved as acceptable in the past should be exempt from eliminating the impairment.

Our response: The Organic Act and the General Authorities Act do not include any provisions to exempt prior authorized activities from the prohibition on the impairment of park resources and values.

Comment #8: The policy should be clear that as-yet undiscovered resources must be protected from impairment, in the same way that known resources must be protected.

Our response: We agree that the resources and values which the Organic Act protects are not limited to those that we happen to know about today. We believe the policy is sufficiently clear on this point.

Comment #9: The new policy requirement for an "impairment review" by the NPS will be costly, contentious, and burdensome.

Our response: For the past 30 years the NPS has been complying with the requirement of the National Environmental Policy Act that we evaluate the environmental consequences of our proposed actions. We plan to integrate into the NEPA compliance process the new requirement for a determination that there would be no impairment of park resources and values from a proposed activity. We do not expect it to make the management decision-making process appreciably more costly, contentious, or burdensome.

Comment #10: The policies set forth in section 1.4 need to be supplemented by additional directives and procedures to help ensure their effective implementation.

Our response: We will judge over the coming months whether field managers have difficulty applying the policy, and we will issue supplemental guidance, as necessary.

Dated: September 8, 2000.

Loran Fraser,
Chief, Office of Policy.

BILLING CODE 4310-70-P

INTERNATIONAL TRADE COMMISSION

[Investigation 332-413]

The Economic Impact of U.S. Sanctions With Respect to Cuba

AGENCY: United States International Trade Commission.

ACTION: Additional day for public hearing.

EFFECTIVE DATE: September 11, 2000.

SUMMARY: The public hearing on this matter is scheduled for September 19, 2000. A second day, September 20, 2000, has been added for this public hearing. The public hearing will be held at the U.S. International Trade Commission building, 500 E Street SW Washington, DC, beginning at 9:30 a.m. on both September 19, and September 20, 2000. Notice of institution of this investigation was published in the **Federal Register** of April 24, 2000 (65 FR 21788).

FOR FURTHER INFORMATION CONTACT: Information may be obtained from Mr. James Stamps (202-205-3227), Office of Economics, or Mr. Jonathan Coleman (202-205-3465), Office of Industries, U.S. International Trade Commission, Washington, DC, 20436. For information on the legal aspects of this investigation, contact William Gearhart of the Office of the General Counsel (202-205-3091). Hearing impaired individuals are advised that information on this matter can be obtained by contacting the TDD terminal on (202) 205-1810.

Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202-205-2000. General information concerning the Commission may also be obtained by accessing its Internet server (<http://www.usitc.gov>).

List of Subjects

Cuba, sanctions, exports, imports.

By order of the Commission.

Issued: September 11, 2000.

Donna R. Koehnke,
Secretary.

[FR Doc. 00-23733 Filed 9-14-00; 8:45 am]

BILLING CODE 7020-02-P

DEPARTMENT OF LABOR

Employment Standards Administration, Wage and Hour Division

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor are issued in accordance with applicable law and are based on the information obtained by the Department of Labor from its study of local wage conditions and data made available from other sources. They specify the basic hourly wage rates and

fringe benefits which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of a similar character and in the localities specified therein.

The determinations in these decisions of prevailing rates and fringe benefits have been made in accordance with 29 CFR Part 1, by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act on March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR Part 1, Appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon Act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions, and modifications and supersedes decisions thereto, contain no expiration dates and are effective from their date of notice in the **Federal Register**, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision, together with any modifications issued, must be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates and fringe benefits notice of which is published herein, and which are contained in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts," shall be the minimum paid by contractors and subcontractors to laborers and mechanics.

Any person, organization, or governmental agency having an interest in the rates determined as prevailing is encouraged to submit wage rate and fringe benefit information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Division of Wage Determinations, 200 Constitution Avenue, N.W., Room S-3014, Washington, D.C. 20210.

Modifications to General Wage Determination Decisions

The number of decisions listed in the Government Printing Office document entitled "General Wage Determinations Issued Under the Davis-Bacon and related Acts" being modified are listed by Volume and State. Dates of publication in the **Federal Register** are in parentheses following the decisions being modified.

General Wage Determination Publication

General wage determinations issued under the Davis-Bacon and related Acts, including those noted above, may be found in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under the Davis-Bacon and Related Acts." This publication is available at each of the 50 Regional Government Depository Libraries and many of the 1,400 Government Depository Libraries across the country.

The general wage determination issued under the Davis-Bacon and related Acts are available electronically by subscription to the FedWorld Bulletin Board System of the National Technical Information Service (NTIS) of the U.S. Department of Commerce at 1-800-363-2068.

Hard-copy subscriptions may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, (202) 512-1800.

When ordering hard-copy subscription(s), be sure to specify the State(s) of interest, since subscriptions may be ordered for any or all of the seven separate volumes, arranged by State. Subscriptions include an annual edition (issued in January or February) which includes all current general wage determinations for the States covered by each volume. Throughout the remainder of the year, regular weekly updates are distributed to subscribers.

Signed at Washington, DC this 7th day of September 2000.

Carl J. Poleskey,

Chief, Branch of Construction Wage Determinations.

Proposed Information Collection Request Submitted for Public Comment and Recommendations; Gamma Radiation Exposure Records

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA 95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

DATES: Submit comments on or before November 14, 2000.

ADDRESSES: Send comments to Brenda C. Teaster, Acting Chief, Records Management Division, 4015 Wilson

Boulevard, Room 709A, Arlington, VA 22203-1984. Commenters are encouraged to send their comments on a computer disk, or via Internet E-mail to bteaster@msha.gov, along with an original printed copy. Ms. Teaster can be reached at (703) 235-1470 (voice), or (703) 235-1563 (facsimile).

FOR FURTHER INFORMATION CONTACT:

Brenda C. Teaster, Acting Chief, Records Management Division, 4015 Wilson Boulevard, U.S. Department of Labor, Mine Safety and Health Administration, Room 709A, Arlington, VA 22203-1984. Ms. Teaster can be reached at bteaster@msha.gov (Internet E-mail), (703) 235-1470 (voice), or (703) 235-1563 (facsimile).

SUPPLEMENTARY INFORMATION:

I. Background

Under Section 103(c) of the Federal Mine Safety and Health Act of 1977, MSHA is required to “* * * issue regulations requiring operators to maintain accurate records of employee exposures to potentially toxic materials or harmful physical agents which are required to be monitored or measured under any applicable mandatory health or safety standard promulgated under this Act.”

Gamma radiation occurs anywhere that radioactive materials are present, and has been associated with lung cancer and other debilitating occupational diseases. Gamma radiation hazards may be found near radiation sources at surface operations using X-ray machines, weightometers, nuclear and diffraction units.

II. Desired Focus of Comments

Currently the Mine Safety and Health Administration (MSHA) is soliciting comments concerning the proposed new/revision/extension/reinstatement of the information collection related to Gamma Radiation Exposure Records (pertains to metal and nonmetal underground mines). MSHA is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who

are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

A copy of the proposed information collection request may be viewed on the Internet by accessing the MSHA Home Page (<http://www.msha.gov>) and selecting “Statutory and Regulatory Information” then “Paperwork Reduction Act submission (<http://www.msha.gov/regspwork.htm>)”, or by contacting the employee listed above in the **FOR FURTHER INFORMATION CONTACT** section of this notice for a hard copy.

III. Current Actions

Annual gamma radiation surveys are required to be conducted in all underground mines where radioactive ores are mined. Where the average gamma radiation measurements are in excess of 2.0 milliroentgens per hour in the working place, all persons are to be provided with gamma radiation dosimeters and records of cumulative individual gamma radiation exposures be kept.

Records of cumulative occupational radiation exposures aid in the protection of workers and in control of subsequent radiation exposure, and are used by MSHA in the evaluation of the effectiveness of the protection program in demonstrating compliance with regulatory requirements.

Type of Review: Extension.

Agency: Mine Safety and Health Administration.

Title: Gamma Radiation Exposure Records.

OMB Number: 1219-0039.

Affected Public: Business or other for-profit institutions.

Cite/Reference/Form/etc.: 30 CFR 57.5047.

Total Respondents: 2.

Frequency: Annually.

Total Responses: 2.

Average Time per Response: 2 hours.

Estimated Total Burden Hours: 2.

Estimated Total Burden Cost: \$92.

Total Burden Cost (capital/startup): \$0.

Total Burden Cost (operating/maintaining): \$0.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Dated: September 11, 2000.

Brenda C. Teaster,

Acting Chief, Records Management Division.

BILLING CODE 4510-43-M

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

Agency Information-Collection Activities; Announcement of Office of Management and Budget (OMB) Approvals

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Notice of approval.

SUMMARY: The Occupational Safety and Health Administration (OSHA)

announces that the Office of Management and Budget (OMB) approved the information-collection requirements found in certain sections of 29 CFR part 1926. This document provides the OMB approval numbers and expiration dates for these requirements.

FOR FURTHER INFORMATION CONTACT:

Kathleen Martinez, Directorate of Policy, Occupational Safety and Health Administration, U.S. Department of Labor, Room N-3627, 200 Constitution Avenue, NW., Washington, DC 20210, telephone (202) 693-2444.

SUPPLEMENTARY INFORMATION: In a series of **Federal Register** notices, the Agency announced its requests to OMB to renew its current approvals for various information-collection (paperwork) requirements in its Construction standards. In these **Federal Register**

announcements, the Agency provided 60-day comment periods for the public to respond to OSHA's burden-hour and cost estimates.

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520), OMB recently renewed its approval for these information-collection requirements and assigned OMB control numbers to these requirements. The table below provides the following information for each of these OMB-approved requirements: The title of, and CFR reference to, the standard that contains the requirement and, in some cases, the title of the requirement; the **Federal Register** reference (date, volume, and leading page) to OSHA's request for public comment on its burden-hour and cost estimates; the OMB control number; and the new expiration date.

Title	Federal Register reference	OMB control number	Expiration date
Methylenedianline (29 CFR 1926.60)	65 FR 11086 03/01/2000	1218-0183	01/31/2000
Rigging Equipment for Material Handling—Certifying Proof-Tests of Welded-End Attachments (29 CFR 1926.251(c)(15)(ii)).	65 FR 15018 03/20/2000	1218-0233	06/30/2002
Material Hoists, Personnel Hoists, and Elevators—Certifying Tests and Inspections of Personnel Hoists (29 CFR 1926.552(c)(15)).	65 FR 15652 03/23/2000	1218-0231	06/30/2002
General Provisions (for Blasting and the Use of Explosives)—Developing and Certifying Alternative Safety Methods (29 CFR 1926.900(k)(3)(i)).	65 FR 15651 03/23/2000	1218-0217	06/30/2002
Underground Transportation of Explosives—Certifying Inspections of Trucks (29 CFR 1926.903(e)).	65 FR 15650 03/23/2000	1218-0227	06/30/2002

Under 5 CFR 1320.5(b), an Agency cannot conduct, sponsor, or require a response to a collection of information unless: The collection displays a valid OMB control number; and the Agency informs respondents that they are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Authority and Signature

Charles N. Jeffress, Assistant Secretary of Labor for Occupational Safety and Health, directed the preparation of this notice. The authority for this notice is the Paperwork Reduction Act of 1995 (44 U.S.C. 3506) and Secretary of Labor's Order No. 3-2000 (65 FR 50017).

Signed at Washington, DC, on September 11th, 2000.

Charles N. Jeffress,

Assistant Secretary of Labor.

BILLING CODE 4510-26-P

OFFICE OF MANAGEMENT AND BUDGET

Office of Federal Procurement Policy

Cost Accounting Standards Board; Accounting for the Cost of Employee Stock Ownership Plans

ACTION: Notice.

SUMMARY: The Office of Federal Procurement Policy, Cost Accounting Standards Board, invites public comments concerning a Staff Discussion Paper on accounting for the cost of employee stock ownership plans (ESOP) under government contracts.

DATES: Comments must be in writing and must be received by November 14, 2000.

ADDRESSES: All comments should be addressed to Dr. Rein Abel, Director of Research, Cost Accounting Standards Board, Office of Federal Procurement Policy, 725 17th Street, NW, Room 9013, Washington, D.C. 20503. Attn: CASB Docket No. 00-03. The submission of public comments in writing, via letter, is requested, as

receipt of a readable data file via Internet e-mail cannot be assured. To facilitate the CAS Board's review of submitted comments, you may include with your written comments a three point five inch (3.5") computer diskette copy of your comments and denote the word processing format used.

FOR FURTHER INFORMATION CONTACT: Rein Abel, Director of Research, Cost Accounting Standards Board (telephone: 202-395-3254).

SUPPLEMENTARY INFORMATION:

A. Regulatory Process

The Cost Accounting Standards Board's rules, regulations and Standards are codified at 48 CFR Chapter 99. Section 26(g)(1) of the Office of Federal Procurement Policy Act, 41 U.S.C. 422(g), requires that the Board, prior to the establishment of any new or revised Cost Accounting Standard, complete a prescribed rulemaking process. The process generally consists of the following four steps:

1. Consult with interested persons concerning the advantages, disadvantages and improvements anticipated in the pricing and administration of Government contracts as a result of the adoption of a proposed Standard.

2. Promulgate an Advance Notice of Proposed Rulemaking.

3. Promulgate a Notice of Proposed Rulemaking.

4. Promulgate a Final Rule.

This proposal is step one of the four-step process.

B. Background and Summary

In response to the Cost Accounting Standards (CAS) Board's continuing research, a number of commenters have identified accounting for the cost of employee stock ownership plans under government contracts as an issue requiring Board consideration. The primary concern raised is the lack of guidance concerning this matter in applicable government contracting regulations, and the attempt by the contracting parties, in certain cases, to apply various provisions of the CAS to

accounting for the costs of ESOPs, when such CAS provisions do not explicitly address or even mention ESOPs. More specifically, issues have arisen in which the accounting for the cost of ESOPs have caused substantial controversies.

This Staff Discussion Paper represents the results of research performed by the staff of the Cost Accounting Standards Board, and is issued by the Board in accordance with the requirements of 41 U.S.C. 422(g)(1)(A). The statements contained herein do not necessarily represent the position of the Cost Accounting Standards Board.

C. Public Comments

Interested persons are invited to participate by submitting data, views or arguments with respect to this Staff Discussion Paper. All comments must be in writing and submitted to the address indicated in the **ADDRESSES** section.

Nelson F. Gibbs,

Executive Director, Cost Accounting Standards Board.

Cost Accounting Standards Board Staff Discussion Paper—Issues Relating to Employee Stock Ownership Plans (ESOPs)

The Cost Accounting Standards (CAS) Board is examining the accounting issues related to the measurement, assignment and allocation of costs associated with Employee Stock Ownership Plans (ESOPs) to government contracts. This Staff Discussion Paper (SDP) is part of the Board's deliberative process that may lead to a pronouncement by the Board on this topic. The purpose of this SDP is to solicit comments on the relevant issues.

Background

The initial purpose of ESOPs was to encourage employee stock ownership of American industry. Such encouragement was contained in the Employee Retirement Income Security Act of 1974 (ERISA) and corresponding changes to the Internal Revenue Code. Congress has also commented on ESOP

regulations dealing with the allowability of such costs for Government contract costing purposes. Specifically, the National Defense Authorization Act for fiscal year 1998 (Pub. L. 105-85, 844, Nov. 18, 1997) included a section expressing the "Sense of Congress" on certain aspects of ESOP cost allowability.

More recently, ESOPs have also been used for additional purposes. According to the Statement of Position (SOP) 93-6, issued by the American Institute of Certified Public Accountants (AICPA), these other purposes include the following:

- To fund a matching program for a sponsor's 401(k) saving plan, formula-based profit-sharing plan, and other employee benefits;
- To raise new capital or to create a marketplace for existing stock;
- To replace lost benefits from the termination of other retirement plans or provide benefits under postretirement benefit plans, particularly medical benefits;
- To be part of the financing package in leveraged buy-outs;
- To provide a tax-advantaged means for owners to terminate their ownership;
- To be part of a long-term program to restructure the equity section of a plan sponsor's balance sheet; and
- To defend the company against hostile takeovers.

Although costs of ESOP sponsorship are not explicitly covered by CAS, guidance is included in Federal Acquisition Regulation (FAR), 31.205-6(j)(8), and referred to in the Defense Contract Audit Agency (DCAA) Contract Audit Manual (§ 7-2114). These references either state or imply that a distinction exists between so-called "pension" and "nonpension" ESOPs.

In general, the lack of a clear regulatory framework in this area has contributed to an environment in which a number of legal actions and other disputes have occurred between the Government and contractors. *See, e.g., Ralph Parsons Co.*, ASBCA 37931, 91-1 BCA 23648, *reconsideration denied* 91-2 BCA 23751; *Ball Corp.*, ASBCA 49118 (Apr. 3, 2000).

The CAS Board first considered the issue of accounting for ESOP costs at its May 1995 meeting, wherein it was decided to establish a case on this topic. At the Board's December 1995 meeting, the matter was further discussed and consideration was given to issuing an "interpretation" on the topic. A draft interpretation was submitted by the staff to the Board at the Board's February 1996 meeting. In the ensuing Board discussion, the applicability of either CAS 9904.412 or CAS 9904.415 was

identified as one of the major issues. Other issues discussed were the characterization of interest in leveraged ESOPs, and the valuation of shares that are released from the ESOP's suspense account and allocated to individual employee accounts. The Board determined that these issues were matters appropriate for the Board's consideration. The staff was instructed to continue with its research on this topic.

As part of its research, the staff has consulted with various Government offices and other interested parties who have had experience with ESOPs. At the December 1998 open CAS Board meeting, the Director of Defense Procurement again urged the CAS Board to address the issue of accounting for the costs of ESOPs.

Discussion

A discussion of the more prominent ESOP issues follows with questions on each subject. Commenters who believe that the questions contained herein do not adequately cover all pertinent aspects of the topic are encouraged to submit comments dealing with any additional issues.

There are two forms of ESOPs—nonleveraged and leveraged. Contributions to a nonleveraged ESOP are generally allocated to individual participant accounts before the end of the sponsor's fiscal year. A leveraged ESOP uses borrowed funds to acquire shares in the sponsoring company which are then held by the ESOP in a suspense account for potentially extended periods, prior to their release to individual employee accounts. In a leveraged ESOP, some maintain that the employer's periodic contribution to the ESOP contains two elements—the cost of employee compensation and the cost of interest on borrowed funds.

Even though CAS do not deal explicitly with the costs associated with ESOPs, the parties to some government contracts have applied the provisions in existing Standards to support their position with respect to ESOP treatment.

While the arguments have varied, at least one assertion has been that if an ESOP can be regarded as a "pension" ESOP, then it falls under the provisions of CAS 9904.412, *Composition and Measurement of Pension Cost*. This makes it easier, so some believe, to assert that the total of a contractor's payment to the ESOP, including any interest element, should be regarded as employee compensation. Others have asserted that if an ESOP is classified as a "deferred compensation" ESOP then the appropriate Standard for application

is CAS 9904.415, *Accounting for the Cost of Deferred Compensation*. In this case, some have asserted that the cost measurement should not include interest while others have asserted that it should include interest. Thus, different interpretations of the various provisions of CAS by the contracting parties have become an element in recent disputes concerning accounting for ESOP contributions.

The question as to whether interest costs attributable to leveraged ESOPs should be reimbursed by the Government is a procurement policy issue with broad ramifications. However, this issue is not within the purview of the CAS Board. As stated in the CAS Board's *Statement of Objectives, Policies and Concepts* (May 1992):

"While the Board has exclusive authority for establishing Standards governing the measurement, assignment and allocation of costs, it does not determine the allowability of categories or individual items of cost. Allowability is a procurement concept affecting contract price and in most cases is established in regulatory or contractual provisions."

Although accounting for the costs of ESOPs is addressed in the FAR and in other guidance applicable to cost allowability issues in Government contracting, the topic has not been dealt with explicitly in any of the existing CAS Board Standards. Private sector accounting standard setters have addressed the topic for financial reporting purposes. The current Statement of Position (SOP) on the topic was issued by the AICPA in November 1993 as SOP 93-6. This SOP was issued after an extensive promulgation process that included the publication of an exposure draft which attracted a significant number of comments. The SOP provides guidance on both periodic compensation cost measurement and applicable disclosure. It states that compensation costs and interest on borrowed funds should be reported as separate items in financial statements.

SOP 93-6 further states that the fair value prevailing at the time when the shares are "committed to be released for allocation to participant accounts" should be used for charging employee compensation costs when that was the purpose for which the shares were released. The SOP similarly provides that the cost of shares acquired or transferred to ESOPs should be valued on the date they were acquired or transferred. Any difference in value between the acquisition date and the date when the shares are released to the employee accounts is recognized as an

equity adjustment in the financial statements.

At this point it may be useful to restate the CAS Board's position on pronouncements issued by other authoritative bodies established to issue guidance affecting accounting for financial and tax purposes. In its *Statement of Objectives, Policies and Concepts* (May 1992) the Board stated:

"The Board will continue taking those other pronouncements into account to the extent it can do so in accomplishing its objectives. However, the Board recognizes that the purposes of these pronouncements are not intended to meet the objectives of contract costing. Therefore the Board will retain and exercise full responsibility for meeting the objectives of contract costing."

In the light of this statement the first question may be stated as follows:

1. Does GAAP (SOP 93-6) provide sufficient guidance for accounting for the costs of ESOPs for Government contract costing purposes? Please discuss the rationale of your answer to this question.

If the answer to question 1, above, is no, then the Board would like to receive comments as to whether one of the existing CAS does or could be expanded to provide adequate guidance.

As noted earlier, CAS have been applied to these issues by the various parties to the Government contracting process. As there has not been any direct reference to ESOPs in any of the Standards, a party applying CAS to ESOP accounting must first identify a Standard that would be applicable in a particular instance. In general, the choice has been between CAS 9904.412 and CAS 9904.415.

To develop criteria for distinguishing the circumstances in which either of these two Standards may be applicable, two different types of ESOPs have been identified. The first type embraces the so-called "pension ESOPs" which are distinguished principally by the characteristic that they offer their participants, benefits for life. All other ESOPs are referred to as "nonpension" or "deferred compensation ESOPs." In practice, it appears that the provisions of CAS 9904.412 have been applied to the first group of ESOPs, while the provisions of CAS 9904.415 have been applied to the second group. This attempt to distinguish between pension and deferred compensation ESOPs seems to be a categorization that is currently found only in the field of Government contract cost accounting. In the broader context, when accounting for ESOPs is discussed, this particular categorization is not used. Therefore, the question arises as to whether this distinction between pension and

deferred compensation ESOPs is an approach that should be included in any future CAS Board promulgation on this topic.

2. Do you believe that distinguishing between "pension" and "deferred compensation" ESOP type is useful in the Government contract costing environment and that this feature should be included in any future CAS Board promulgation on this topic? Please include the rationale for your answer to this question.

3. If you believe that a distinction between ESOP types is useful and should be included in any future CAS promulgation do you also believe that amendments, or an interpretation, to CAS 9904.412 and/or CAS 9904.415, is the appropriate action for the Board to take?

Another area where differing opinions exist, concerns the measurement date for determining the fair value of shares released to employee accounts. Some ESOPs hold shares of the sponsor company in a suspense account for the purpose of subsequent distribution to employees. It is likely that the fair value of these shares will change while the shares are held in the suspense account prior to being transferred to individual employee accounts. Accordingly, two different dates have been suggested as measurement dates for the purpose of determining the fair value of the shares released to individual employee accounts.

The FAR, at section 31.205-6(j)(8), stipulates that "* * * the value of the stock contribution shall be limited to the fair market value of the stock on the date that the title is effectively transferred to the trust." The FAR provisions do not, however, address what valuation applies on the date when shares are actually released to employees for determining individual employee compensation costs. In other words, the FAR implies that the cost of the shares at the time of their acquisition by the ESOP should also be used as their fair value at the time of their release to individual employee accounts.

4. Do you believe that the fair value of the shares released by an ESOP to individual employee accounts should be established at the date when the title to these shares is transferred to the ESOP or should it be the date when the shares are committed to be released to employee accounts? If you would like to propose a different date or a modified version of the two dates referred to above, please explain.

The cost allocated to contracts may also be different depending on what is to be measured—the cost to the

company or the amount of compensation received by the employee. The compensation received by the employee is the fair value of the shares or other consideration received by the employee. The cost to the company may be measured differently depending on whether the cost is measured as (1) the fair value of the shares on the date the sponsor transfers the shares to the ESOP; (2) the fair value of the shares on the date the ESOP purchases the shares; (3) the amount of the sponsor's cash contribution to the ESOP; or (4) a combination of the above.

5. For contract costing purposes, should a distinction be made between measurement of the "cost to the company" or measurement of compensation "received by the employee?" Please explain. If a distinction should be made, please also comment on the method that should be used to measure this amount.

In certain circumstances when CAS 9904.415 has been applied to accounting for ESOPs, further disputes may occur. CAS 9904.415 identifies two different methods for determining the present value of future benefits depending upon the method of settling the deferred compensation obligation.

CAS 9904.415-50(d) provides guidance for the calculation when the settlement "is to be paid in money," while CAS 9904.415-50(e) provides guidance when "the compensation is received by the employee in other than money." These two approaches, CAS 9904.415-50(d) and (e), generally produce different present values of the future benefit and hence, different cost for contract costing purposes.

6. Should the form of payment of ESOP benefits to the employee make a difference in measuring the cost allocable to Government contracts? If so, how should the cost be determined?

BILLING CODE 3110-01-U

FEDERAL MINE SAFETY AND HEALTH REVIEW COMMISSION

Sunshine Act Meeting; Change in Meeting Status

September 11, 2000.

Previously Announced

TIME AND DATE: 2 p.m., Thursday, September 14, 2000.

PLACE: Room 6005, 6th Floor, 1730 K Street, NW., Washington, DC.

STATUS: Open.

CHANGES IN THE MEETING: Because agency business so requires, the Commission

has unanimously voted to change the status of the following meeting from open to closed, pursuant to 5 U.S.C. 552b(c)(10).

1. Secretary of Labor on behalf of *Noe v. J & C Mining*, Docket No. KENT 99-248-D.

No earlier announcement of the change was possible.

CONTACT PERSON FOR MORE INFORMATION:

Jean Ellen, (202) 653-5629/(202) 708-9300 for TDD Relay/1-800-877-8339 for toll free.

Jean H. Ellen,

Chief Docket Clerk.

BILLING CODE 6735-01-M

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 00-108]

Information Collection; Submission for OMB Review, Comment Request

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of agency report forms under OMB review.

SUMMARY: The National Aeronautics and Space Administration has submitted to the Office of Management and Budget (OMB) the following proposal for the collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

DATES: Comments on this proposal should be received on or before October 16, 2000.

ADDRESSES: All comments should be addressed to Ms. Linda Connell, MS 262-7, Ames Research Center, National Aeronautics and Space Administration, Moffett Field, CA 94035-1000.

FOR FURTHER INFORMATION CONTACT: Ms. Carmela Simonson, Office of the Chief Information Officer, (202) 358-1223.

Reports: None.

Title: National Aviation Operations Monitoring Service.

OMB Number: 2700.

Type of review: New.

Need and Uses: This data collection will be used to help evaluate national aviation safety through the establishment of a survey based methodology. Information provided will be used to measure and monitor aviation safety; namely the pilots, air traffic controllers, mechanics and flight attendants who routinely operate aircraft and provide support services.

Affected Public: Individuals or households.

Number of Respondents: 5,000.

Responses Per Respondent: 1-4.

Annual Responses: 8,000.

Hours Per Request: ½ hr to ¾ hr.

Annual Burden Hours: 5,907.

Frequency of Report: Annually/Quarterly.

David B. Nelson,

Deputy Chief Information Officer, Office of the Administrator.

NATIONAL WOMEN'S BUSINESS COUNCIL**Sunshine Act Meeting****AGENCY:** National Women's Business Council.**ACTION:** Notice of meeting.

SUMMARY: In accordance with the Women's Business Ownership Act, Public Law 105-135 as amended, the National Women's Business Council (NWBC) announces a forthcoming Council meeting and joint meeting of the NWBC and Interagency Committee on Women's Business Enterprise. The meetings will cover action items worked

on by the National Women's Business Council and the Interagency Committee on Women's Business Enterprise included but not limited to procurement, access to capital and training.

DATE: October 4, 2000.

ADDRESS: *Joint Meeting.*

The White House/Eisenhower Executive Office Building/Indian Treaty Room (17th & Penn. Entrance) Washington, DC, 9 am to 11:30 am.

Note: No admittance without prior official clearance. Please have a photo ID.

ADDRESS: *Council Meeting.*

The JW Marriott Hotel/Russell-Hart Room, 1331 Pennsylvania Avenue, NW, Washington, DC, 2:30 am to 5:30 pm.

STATUS: Open to the public.

CONTACT: National Women's Business Council, 409 Third Street, SW, Suite 210, Washington, DC 20024, (202) 205-3850.

Note: Please call by September 22, 2000.

NUCLEAR REGULATORY COMMISSION**Risk-Informed Revisions to Technical Requirements of 10 CFR 50.46****AGENCY:** Nuclear Regulatory Commission.**ACTION:** Notice of public workshop.

SUMMARY: The Nuclear Regulatory Commission has instructed its staff to explore changes to specific technical requirements of 10 CFR Part 50, to incorporate risk-informed attributes. The staff is studying the ensemble of technical requirements contained in 10 CFR Part 50 (and its associated implementing documents, such as regulatory guides and standard review plan sections) to (1) identify individual or sets of requirements potentially meriting change; (2) prioritize which of these requirements (or sets of requirements) should be changed; and (3) develop the technical bases to an extent that is sufficient to demonstrate the feasibility of changing the requirements. This work will result in recommendations to the Commission on any specific regulatory changes that should be pursued. Public participation in the development of these recommendations will be obtained via workshops and information on a web site.

SUPPLEMENTARY INFORMATION: This notice serves as initial notification of a public workshop to provide for the exchange of information with all stakeholders regarding the staff's efforts to risk-inform the technical requirements of 10 CFR 50.46 (ECCS Acceptance Criteria), and the latest version of the framework for risk-informed changes to the technical requirements of 10 CFR Part 50. The meeting will focus on the current work being performed by the NRC staff to risk-inform the technical requirements of 10 CFR 50.46, and also on recent changes to the framework document.

This notice provides only the date, the location and a brief summary of the workshop; the workshop agenda and other details will be provided in a forthcoming **Federal Register** notice prior to the workshop.

Workshop Meeting Information: The staff intends to conduct a workshop to provide for an exchange of information related to (1) the staff's initial efforts to make risk-informed revisions to the technical requirements of 10 CFR 50.46, and (2) the latest version of the staff's framework for risk-informed changes to the technical requirements of 10 CFR Part 50. Persons other than NRC staff and NRC contractors interested in making a presentation at the workshop should notify Mary Drouin, Office of Nuclear Regulatory Research, MS: T10-E50, U.S. Nuclear Regulatory Commission, Washington D.C. 20555-0001, (301) 415-6675, email: mxd@nrc.gov

Date: October 2, 2000.

Time: 8 am.

Agenda: To be provided.

Location: Auditorium, 11545 Rockville Pike, Rockville, Maryland 20852.

Registration: There is no registration fee for the workshop; however, so that adequate space, materials, etc., for the workshop can be arranged, please provide notification of attendance to Alan Kuritzky, Office of Nuclear Regulatory Research, MS: T10-E50, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555-0001, (301) 415-6255, email: ask1@nrc.gov.

FOR FURTHER INFORMATION CONTACT: Alan Kuritzky, Office of Nuclear Regulatory Research, MS: T10-E50, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555-0001, (301) 415-6255, email: ask1@nrc.gov.

Dated this 11th day of September 2000.

For the Nuclear Regulatory Commission.
Mark A. Cunningham,
Probabilistic Risk Analysis Branch, Division of Risk Analysis and Applications, Office of Nuclear Regulatory Research.

BILLING CODE 7590-01-P

PENSION BENEFIT GUARANTY CORPORATION

Interest Assumption for Determining Variable-Rate Premium; Interest Assumptions for Multiemployer Plan Valuations Following Mass Withdrawal

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Notice of interest rates and assumptions.

SUMMARY: This notice informs the public of the interest rates and assumptions to be used under certain Pension Benefit Guaranty Corporation regulations. These rates and assumptions are published elsewhere (or are derivable from rates published elsewhere), but are collected and published in this notice for the convenience of the public. Interest rates are also published on the PBGC's web site (<http://www.pbgc.gov>).

DATES: The interest rate for determining the variable-rate premium under part 4006 applies to premium payment years beginning in September 2000. The interest assumptions for performing multiemployer plan valuations following mass withdrawal under part 4281 apply to valuation dates occurring in October 2000.

FOR FURTHER INFORMATION CONTACT: Harold J. Ashner, Assistant General Counsel, Office of the General Counsel, Pension Benefit Guaranty Corporation, 1200 K Street, NW., Washington, DC 20005, 202-326-4024. (For TTY/TDD users, call the Federal relay service toll-free at 1-800-877-8339 and ask to be connected to 202-326-4024.)

SUPPLEMENTARY INFORMATION:

Variable-Rate Premiums

Section 4006(a)(3)(E)(iii)(II) of the Employee Retirement Income Security Act of 1974 (ERISA) and § 4006.4(b)(1) of the PBGC's regulation on Premium Rates (29 CFR part 4006) prescribe use of an assumed interest rate in determining a single-employer plan's variable-rate premium. The rate is the "applicable percentage" (currently 85 percent) of the annual yield on 30-year Treasury securities for the month preceding the beginning of the plan year for which premiums are being paid (the "premium payment year"). The yield

figure is reported in Federal Reserve Statistical Releases G.13 and H.15.

The assumed interest rate to be used in determining variable-rate premiums for premium payment years beginning in September 2000 is 4.86 percent (*i.e.*, 85 percent of the 5.72 percent yield figure for August 2000).

The following table lists the assumed interest rates to be used in determining variable-rate premiums for premium payment years beginning between October 1999 and September 2000.

For premium payment years beginning in—	The assumed interest rate is—
October 1999	5.16
November 1999	5.32
December 1999	5.23
January 2000	5.40
February 2000	5.64
March 2000	5.30
April 2000	5.14
May 2000	4.97
June 2000	5.23
July 2000	5.04
August 2000	4.97
September 2000	4.86

Multiemployer Plan Valuations Following Mass Withdrawal

The PBGC's regulation on Duties of Plan Sponsor Following Mass Withdrawal (29 CFR part 4281) prescribes the use of interest assumptions under the PBGC's regulation on Allocation of Assets in Single-employer Plans (29 CFR part 4044). The interest assumptions applicable to valuation dates in October 2000 under part 4044 are contained in an amendment to part 4044 published elsewhere in today's **Federal Register**. Tables showing the assumptions applicable to prior periods are codified in appendix B to 29 CFR part 4044.

Issued in Washington, DC, on this 8th day of September 2000.

David M. Strauss,
Executive Director, Pension Benefit Guaranty Corporation.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 35-27227]

Filing Under the Public Utility Holding Company Act of 1935, as Amended ("Act")

September 8, 2000.

Notice is hereby given that the following filing(s) has/have been made with the Commission pursuant to

provisions of the Act and rules promulgated under the Act. All interested persons are referred to the application(s) and/or declaration(s) for complete statements of the proposed transaction(s) summarized below. The application(s) and/or declaration(s) and any amendment(s) is/are available for public inspection through the Commission's Branch of Public Reference.

Interested persons wishing to comment or request a hearing on the application(s) and/or declaration(s) should submit their views in writing by October 3, 2000, to the Secretary, Securities and Exchange Commission, Washington, DC 20549-0609, and serve a copy on the relevant applicant(s) and/or declarant(s) at the address(es) specified below. Proof of service (by affidavit or, in the case of an attorney at law, by certificate) should be filed with the request. Any request for hearing should identify specifically the issues of facts or law that are disputed. A person who so requests will be notified of any hearing, if ordered, and will receive a copy of any notice or order issued in the matter. After October 3, 2000, the application(s) and/or declaration(s), as filed or as amended, may be granted and/or permitted to become effective.

Entergy Corporation (70-8839)

Entergy Corporation ("Entergy"), 639 Loyola Avenue, New Orleans, Louisiana 70113, a registered holding company, has filed a post-effective amendment under sections 6(a) and 7 of the Act and rules 42 and 54 under the Act to its declaration previously filed under the Act.

By prior Commission orders dated June 6, 1996 and March 25, 19997 (HCAR Nos. 26541 and 26693) ("Orders"), Entergy was authorized, through December 30, 2000, to issue and sell up to 30 million shares of its authorized but unissued common stock, par value \$0.01 ("Common Stock") or Common Stock acquired through public or private transactions, under its Dividend Reinvestment and Stock Purchase Plan ("Plan"). As of June 28, 2000, Entergy had 13,139,294 shares of Common Stock authorized to be issued under the Plan. Entergy now proposes to extend the time in which it may sell up to 30 million shares of its Common Stock under the Plan through June 30, 2006. All other provisions of the Plan will remain as authorized in the Orders.

The purchase price of the newly issued shares of Common Stock issued under the plan will generally be the weighted average of the daily high and low sales prices of the Common Stock on the New York Stock Exchange during

each pricing period, consisting of the twelve trading days immediately preceding the monthly investment date. The purchase price for shares purchased on the open market will be the weighted average price paid by the Plan, including brokerage fees and commissions.

For the Commission by the Division of Investment Management, pursuant to delegated authority.

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8010-01-Mcent,

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-43277; File No. SR-OCC-00-07]

Self-Regulatory Organizations; The Options Clearing Corporation; Notice of Filing and Order Granting Accelerated Approval of a Proposed Rule Change Relating to Adjustment Increments and Decimalization

September 11, 2000.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ notice is hereby given that on August 9, 2000, The Options Clearing Corporation ("OCC") filed with the Securities Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which items have been prepared primarily by OCC. The Commission is publishing this notice to solicit comments on the proposed rule change from interested parties.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The proposed rule change clarifies OCC's existing policies on minimum adjustment increments and rounding and proposes new minimum adjustment increments and rounding provisions with respect to decimal strike prices. The proposed rule change also states OCC's intention to restate existing strike prices in decimals when decimal strike prices are introduced for new series in the same class of options.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, OCC included statements concerning the purpose of and basis for the proposed rule change and discussed any

comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. OCC has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of these statements.²

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The purpose of the proposed amendments to Article I, Section 1 and Article VI, Section 11 of OCC's By-Laws is to clarify OCC's existing policies regarding minimum adjustment increments and rounding and to state the minimum adjustment increments and rounding provisions that will apply during and after the transition to decimal strike prices. The proposed amendments also announce OCC's intention to restate existing strike prices in decimals when decimal strike prices are introduced for new series in the same class of options so long as that can be done without changing the absolute value of the existing strike prices.

Article VI, Section 11 of OCC's By-Laws currently states that, "as a general rule," OCC will adjust to the "nearest trading increment," which is defined in Article I of the By-Laws as the minimum trading increment specified by the primary exchange for the underlying security. OCC's practice, as disclosed in the options disclosure document, is to round to the nearest eighth when making adjustments. OCC follows this practice even where the trading increment for the underlying security may be one-sixteenth rather than one-eighth. With decimalization, the potential exists for even smaller minimum trading units. OCC intends to continue its disclosed policy of rounding to the nearest eighth in the case of fractional prices and to round to the nearest cent in the case of decimal prices. Thus, adjustments will be made to the nearest eighth or cent even if the trading increment is more or less than an eighth or a cent. Accordingly, OCC is proposing to define a new term "adjustment increment" and to change the reference in Article VI, Section 11 to refer to "adjustment increment" rather than "trading increment."

OCC rounds up when an adjusted exercise price is equidistant between two adjustment increments. OCC proposes to amend Article VI, Section 11 accordingly.

The existing text of Interpretation and Policy .09 is being replaced by a

¹ 15 U.S.C. 78s(b)(1).

² The Commission has modified the text of the summaries prepared by OCC.

provision allowing OCC to make a smoother transition from fractional to decimal strike prices, during which some strikes are expressed in fractions and others in decimals. Because the minimum decimal strike price increment will be one cent, there will be some fractional strike prices (e.g., eighths) that cannot be converted into decimals without a loss of value. However, there will be others (e.g., quarters) that convert evenly into decimals. OCC wants to avoid simultaneously expressing identical amounts in fractions and decimals. Accordingly, OCC proposes to restate the exercise prices of existing series of options decimals when the first decimal series is introduced with the same underlying interest. OCC will restate exercise prices in decimals only for series having fractional strike prices that convert evenly into dollars and cents. Thus, a strike price of $25\frac{3}{4}$ would be expressed as 25.75. Where a fractional strike does not convert evenly into decimals, it will continue to be expressed as a fraction until the series expired. Thus, for example, a strike price of $25\frac{1}{8}$, which converts to 25.125, will continue to be expressed in fractions. This policy represents a compromise that will allow as many strike prices as possible in each class of options to be expressed in decimals while avoiding adjustments that would affect the substantive rights of holders and writers of options even by a small amount.

The proposed rule change is consistent with the requirements of Section 17A of the Act³ and the rules and regulations thereunder applicable to OCC because it fosters cooperation and coordination with persons engaged in the clearance and settlement of securities transactions, removes impediments to and perfects the mechanism of a national system for the prompt and accurate clearance and settlement of securities transactions, and, in general, protects investors and the public interest.

(B) Self-Regulatory Organization's Statement on Burden on Competition

OCC does not believe that the proposed rule change would have any material adverse impact on competition.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Written comments relating to the proposed rule change have not yet been solicited or received. OCC will notify

the Commission of any written comments received by OCC.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Section 17A(b)(3)(F) of the Act requires that the rules of a clearing agency be designed to promote the prompt and accurate clearance and settlement of securities transactions.⁴ As discussed below, the Commission believes that the rule change is consistent with this obligation because it should facilitate the prompt and accurate clearance and settlement of options during and after the transition to decimal strike prices which has already begun.

The rule change should assure that OCC's existing policies regarding minimum adjustment increments and rounding in fractions will convert smoothly to options with decimal strike prices. The rule change should allow the process of decimalization of options to proceed concurrently with the move to the process of decimalization of the underlying securities.

The Commission finds good cause for approving the proposed rule change prior to the thirtieth day after publication of the notice of filing because accelerated approval will permit OCC to immediately implement decimal strike pricing which will bring the pricing of such options in line with the pricing already in place for the underlying securities.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549-0609. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC 20549. Copies of such filing also will be available for

inspection and copying at the principal office of OCC. All submissions should refer to File No. SR-OCC-00-7 and should be submitted by October 6, 2000.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.⁵

Margaret H. McFarland,
Deputy Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-43276; File No. SR-OCC-99-15]

Self-Regulatory Organizations; The Options Clearing Corporation; Notice of Filing of Proposed Rule Change Relating to Clearing Member Affiliates

September 11, 2000.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ notice is hereby given that on November 2, 1999, The Options Clearing Corporation ("OCC") filed with the Securities and Exchange Commission ("Commission") and on August 11, 2000, amended the proposed rule change as described in Items I, II, and III below, which items have been prepared primarily by OCC. The Commission is publishing this notice to solicit comments on the proposed rule change from interested parties.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The proposed rule change would allow certain affiliates of a clearing member to be designated as non-customers under the Commission's hypothecation rules.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, OCC included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. OCC has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of these statements.²

⁵ 17 CFR 200.30-3(a)(12).

¹ 15 U.S.C. 78s(b)(1).

² The Commission has modified the text of the summaries prepared by OCC.

³ 15 U.S.C. 78q-1.

⁴ 15 U.S.C. 78q-1(b)(3)(F).

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The principal purpose of the proposed rule change is to allow certain affiliates of a clearing member to be designated as non-customers under the Commission's hypothecation rules³ so that the affiliates may have their transactions and positions commingled in their clearing member's firm account and/or proprietary X-M account at OCC for the purpose of receiving more favorable clearing margin treatment.⁴ The proposed rule change creates a definition of Member Affiliate that consists of the relevant portion of the existing definition of Related Person in OCC's By-Laws. (for the sake of economy of expression and consistency, OCC proposes to replace that portion of the Related Person definition used to define Member Affiliate with the term Member Affiliate.) The proposed rule change then modifies the definition of Non-Customer to include a Member Affiliate that has executed a non-conforming subordination agreement⁵ that has been approved by the clearing member's designated examining authority.

Additionally, the proposed rule change modifies the definition of Related Person to eliminate redundancies and to more closely parallel 17 CFR 1.3(y), which defines "proprietary account" for the purposes of the Commodity Exchange Act's regulations.⁶ The proposed rule no longer refers to spouses of "any such person" (*i.e.*, any officer, director, or general or special partner) which was redundant because the rule already covers spouses of "any non-customer of the clearing member" and the definition of Non-Customer includes officers, directors, or general or special partners. Additionally, in order to conform OCC rules with Section 1.3(y)'s definition of "proprietary account" the proposed rule

change clarifies that not only are spouses and minor dependents of non-customers Related Persons but also that the spouses and minor dependents of certain employees are also Related Persons.

The proposed rule change is consistent with the purpose and requirements of Section 17A of the Act⁷ and the rules and regulations thereunder applicable to OCC because the proposed rule change will assure the safeguarding of securities and funds which are in OCC's custody or control and for which OCC is responsible, foster cooperation and coordination with persons engaged in the clearance and settlement of securities transactions, remove impediments to and perfect the mechanism of a national system for the prompt and accurate clearance and settlement of securities transactions, and, in general, protect investors and the public interest.

(B) Self-Regulatory Organization's Statement on Burden on Competition

OCC does not believe that the proposed rule change will have any impact or impose any burden on competition.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Written comments were not and are not intended to be solicited with respect to the proposed rule change, and none have been received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within thirty-five days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to ninety days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Persons making written submissions

should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549-0609. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 450 Fifth Street, NW., Washington, DC 20549. Copies of such filing also will be available for inspection and copying at the principal office of OCC. All submissions should refer to File No. SR-OCC-99-15 and should be submitted by October 6, 2000.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.⁸

Margaret H. McFarland,
Deputy Secretary.

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster #3292]

State of Alabama

Autauga County and the contiguous counties of Chilton, Dallas, Elmore, Lowndes, and Montgomery in the State of Alabama constitute a disaster area due to damages caused by flash flooding that occurred on September 1, 2000.

Applications for loans for physical damage as a result of this disaster may be filed until the close of business on November 9, 2000 and for economic injury until the close of business on June 8, 2001 at the address listed below or other locally announced locations:

U.S. Small Business Administration,
Disaster Area 2 Office, One Baltimore
Place, Suite 300, Atlanta, GA 30308

The interest rates are:

For Physical Damage:	
Homeowners with credit available elsewhere	7.375
Homeowners without credit available elsewhere	3.687
Businesses with credit available elsewhere	8.000
Businesses and non-profit organizations without credit available elsewhere	4.000

³ 17 CFR 240.8c-1 and 15c2-1.

⁴ See also no-action letter from Michael A. Macchiaroli, Associate Director, Division of Market Regulation, Commission, to William H. Navin, Executive Vice President and General Counsel, OCC, (June 15, 2000).

⁵ Non-conforming subordination agreements are subordination agreements that do not meet the requirements of Appendix D of Rule 15c3-1.

⁶ As defined, a Related Person is essentially a person whose account would be a "proprietary account" under the rules of the Commodity Futures Trading Commission but who is nevertheless a "customer" for purposes of the Commission's hypothecation rules cited above. Market Makers who are Related Persons of a clearing member are deemed to be Associated Market Makers and are excluded from the Combined Market Maker Account under Article VI, Section 3(c) of OCC's By-Laws.

⁷ 15 U.S.C. 78q-1.

⁸ 17 CFR 200.30-3(a)(12).

Others (including non-profit organizations) with credit available elsewhere	6.750
For Economic Injury: Businesses and small agricultural cooperatives without credit available elsewhere	4.000

The numbers assigned to this disaster are 329206 for physical damage and 9I7600 for economic injury.

Agency Information Collection Activities: Proposed Request and Comment Request

In compliance with Public Law 104-13, the Paperwork Reduction Act of 1995, SSA is providing notice of an information collection that requires submission to the Office of Management and Budget (OMB). SSA is soliciting comments on the accuracy of the agency's burden estimate; the need for the information; its practical utility; ways to enhance its quality, utility and clarity; and on ways to minimize burden on respondents, including the use of automated collection techniques or other forms of information technology.

The information collection listed below will be submitted to OMB within 60 days from the date of this notice. Therefore, comments and recommendations regarding the information collection would be most useful if received by the Agency within 60 days from the date of this publication. Comments should be directed to the SSA Reports Clearance Officer at the address listed at the end of the notice. You can obtain a copy of the collection instrument by calling the SSA Reports Clearance Officer on (410) 965-4145, or by writing to him.

Waiver of Right to Appear, Disability Hearing—0960-0534. The Social Security Administration uses Form SSA-773-U4 to provide claimants with an effective means of requesting waiver of their right to appear at a disability hearing. The information collected will be used as documentation that claimants understand their right to appear and the effects of the decision to waive this right. The respondents are claimants under Title II (Old-Age, Survivors and Disability Insurance) and Title XVI (Supplemental Security Income), of the Social Security Act, who wish to waive their right to appear at a disability hearing.

Number of Respondents: 194.

Frequency of Response: 1.

Average Burden Per Response: 25 minutes.

Estimated Average Burden: 81 hours.

Surface Transportation Board

[STB Finance Docket No. 33920]

Big Eagle Rail, LLC—Lease and Operation Exemption—Kanawha Rail Corp.

Big Eagle Rail, LLC, a noncarrier, has filed a verified notice of exemption under 49 CFR 1150.31 to lease from Kanawha Rail Corp. and operate rail trackage located in Kanawha County, WV, together with other associated rail properties (trackage). The trackage extends from its northern terminus at an interchange with CSX Transportation, Inc., at CSX Station 670+30, south along Fields Creek, in Cabin Creek District, for approximately 6.47 miles, to its southern terminus.

The parties reported that they intended to consummate the transaction promptly upon the effective date of the exemption. The earliest the transaction could have been consummated was September 1, 2000, 7 days after the exemption was filed.

If the verified notice contains false or misleading information, the exemption is void *ab initio*. Petitions to reopen the proceeding to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction.

An original and 10 copies of all pleadings, referring to STB Finance Docket No. 33920, must be filed with the Surface Transportation Board, Office of the Secretary, Case Control Unit, 1925 K Street, N.W., Washington, DC 20423-0001. In addition, a copy of each pleading must be served on Kelvin J. Dowd, Esq., Slover & Loftus, 1224 Seventeenth Street, N.W., Washington, DC 20036.

Board decisions and notices are available on our website at "WWW.STB.DOT.GOV."

Decided: September 7, 2000.

By the Board, David M. Konschnik,
Director, Office of Proceedings.

Vernon A. Williams,
Secretary.

[STB Docket Nos. AB-486 (Sub-No. 2X) and AB-33 (Sub. No. 154X)]

Kyle Railroad Company—Discontinuance of Service Exemption—in Smith, Phillips and Norton Counties, KS and Union Pacific Railroad Company—Abandonment Exemption—in Smith, Phillips and Norton Counties, KS

On August 28, 2000, Kyle Railroad Company (Kyle) and Union Pacific Railroad Company (UP) (collectively, petitioners) jointly filed with the Surface Transportation Board (Board) a petition under 49 U.S.C. 10502 for exemption¹ from the provisions of 49 U.S.C. 10903 for Kyle to discontinue service over and UP to abandon a 70.5-mile segment of a line of railroad known as the Lenora Branch, extending from milepost 552.7 near Harlan to the end of the line at milepost 623.6 near Lenora, in Smith, Phillips, and Norton Counties, KS.² The line traverses U.S. Postal Zip Codes 67638, 67628, 67626, 67644, 67639, 67661, 67646, and 67645, and includes the stations of Gaylord (milepost 557.8), Cedar (milepost 563.0), Claudell (milepost 567.4), Kirwin (milepost 572.4), Glade (milepost 583.1), Speed (milepost 589.8), Logan (milepost 598.5), and Edmond (milepost 612.9).

The line does not contain federally granted rights-of-way. Any documentation in the railroad's possession will be made available promptly to those requesting it.

The interest of railroad employees will be protected by *Oregon Short Line R. Co.—Abandonment—Goshen*, 360 I.C.C. 91 (1979).

By issuance of this notice, the Board is instituting an exemption proceeding pursuant to 49 U.S.C. 10502(b). A final decision will be issued by December 15, 2000.

Any offer of financial assistance (OFA) under 49 CFR 1152.27(b)(2) will be due no later than 10 days after service of a decision granting the petition for exemption. Each OFA must be accompanied by the filing fee, which

currently is set at \$1,000. See 49 CFR 1002.2(f)(25).

All interested persons should be aware that, following abandonment of rail service and salvage of the line, the line may be suitable for other public use, including interim trail use. Any request for a public use condition under 49 CFR 1152.28 or for trail use/rail banking under 49 CFR 1152.29 will be due no later than October 5, 2000. Each trail use request must be accompanied by a \$150 filing fee. See 49 CFR 1002.2(f)(27).

All filings in response to this notice must refer to STB Docket Nos. AB-486 (Sub-No. 2X) and AB-33 (Sub-No. 154X) and must be sent to: (1) Surface Transportation Board, Office of the Secretary, Case Control Unit, 1925 K Street, N.W., Washington, DC 20423-0001; (2) Fritz R. Kahn, 1920 N Street, N.W. (8th Floor), Washington, DC 20036-1601; and (3) James P. Gatlin, 1416 Dodge Street (#830), Omaha, NE 68179-0001. Replies to the petition are due on or before October 5, 2000.

Persons seeking further information concerning abandonment procedures may contact the Board's Office of Public Services at (202) 565-1592 or refer to the full abandonment or discontinuance regulations at 49 CFR part 1152. Questions concerning environmental issues may be directed to the Board's Section of Environmental Analysis (SEA) at (202) 565-1545. [TDD for the hearing impaired is available at 1-800-877-8339.]

An environmental assessment (EA) (or environmental impact statement (EIS), if necessary) prepared by SEA will be served upon all parties of record and upon any agencies or other persons who commented during its preparation. Other interested persons may contact SEA to obtain a copy of the EA (or EIS). EAs in these abandonment proceedings normally will be made available within 60 days of the filing of the petition. The deadline for submission of comments on the EA will generally be within 30 days of its service.

Board decisions and notices are available on our website at "WWW.STB.DOT.GOV."

Decided: September 8, 2000.

By the Board, David M. Konschnik, Director, Office of Proceedings.

Vernon A. Williams,
Secretary.

BILLING CODE 4915-00-P

DEPARTMENT OF TRANSPORTATION

Surface Transportation Board

[STB Finance Docket No. 33926]

The Burlington Northern and Santa Fe Railway Company—Trackage Rights Exemption—Union Pacific Railroad Company

Union Pacific Railroad Company (UP) has agreed to grant overhead trackage rights to The Burlington Northern and Santa Fe Railway Company (BNSF) over UP's lines as follows: (1) Between East Portland, OR, in the vicinity of UP's milepost 770.34, and Oakridge, OR, in the vicinity of UP's milepost 580.5 (UP's Brooklyn Subdivision); and (2) between Oakridge, OR, in the vicinity of UP's milepost 580.5 and Chemult, OR, in the vicinity of UP's milepost 502.9 (UP's Cascade Subdivision), a distance of approximately 245 miles.¹

The transaction is scheduled to be consummated on September 15, 2000.

The primary purpose of the trackage rights is to allow BNSF to operate over an alternative line while BNSF's lines are undergoing maintenance and repair.

As a condition to this exemption, any employees affected by the trackage rights will be protected by the conditions imposed in *Norfolk and Western Ry. Co.—Trackage Rights—BN*, 354 I.C.C. 605 (1978), as modified in *Mendocino Coast Ry., Inc.—Lease and Operate*, 360 I.C.C. 653 (1980).

This notice is filed under 49 CFR 1180.2(d)(7). If it contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction.

An original and 10 copies of all pleadings, referring to STB Finance Docket No. 33926, must be filed with the Surface Transportation Board, Office of the Secretary, Case Control Unit, 1925 K Street, NW., Washington, DC 20423-0001. In addition, one copy of each pleading must be served on Yolanda Grimes Brown, Esq., The Burlington Northern and Santa Fe Railway Company, P. O. Box 961039, Fort Worth, TX 76161-0039.

¹ On September 6, 2000, BNSF filed a petition for exemption in STB Finance Docket No. 33926 (Sub-No. 1), *The Burlington Northern and Santa Fe Railway Company—Trackage Rights Exemption—Union Pacific Railroad Company*, wherein BNSF requests that the Board permit the proposed overhead trackage rights arrangement described in the present proceeding to expire on November 11, 2000. That petition will be addressed by the Board in a separate decision.

¹ Petitioners' original petition for exemption was filed on August 23, 2000. On August 28, 2000, Kyle filed supplemental information that had been omitted from the original petition. Accordingly, August 28, 2000, when all of the required information was submitted, is considered to be the actual filing date and the due dates in this notice are based on that date.

² Petitioners state that milepost 582.52 is equivalent to milepost 582.92, which makes the line 0.4 mile shorter than it would appear from the terminal mileposts.

Board decisions and notices are available on our website at "WWW.STB.DOT.GOV."

Decided: September 8, 2000.

By the Board, David M. Konschnik, Director, Office of Proceedings.

Vernon A. Williams,

Secretary.

BILLING CODE 4915-00-P

DEPARTMENT OF THE TREASURY

Government Securities: Call for Large Position Reports

AGENCY: Office of the Under Secretary for Domestic Finance, Treasury.

ACTION: Notice.

SUMMARY: The Department of the Treasury ("Department" or "Treasury") called for the submission of Large Position Reports by those entities whose reportable positions in the 5-¾% Treasury Notes of August 2010 equaled or exceeded \$2 billion as of close of business September 12, 2000.

DATES: Large Position Reports must be received before noon Eastern time on September 19, 2000.

ADDRESSES: The reports must be submitted to the Federal Reserve Bank of New York, Securities Reports Division, 1st Floor, 33 Liberty Street, New York, New York 10045; or faxed to 212-720-5030.

FOR FURTHER INFORMATION CONTACT: Lori Santamorena, Executive Director; Lee Grandy, Associate Director; or Nadir Isfahani, Government Securities Specialist; Bureau of the Public Debt, Department of the Treasury, at 202-691-3632.

SUPPLEMENTARY INFORMATION: Pursuant to the Department's large position rules under the Government Securities Act regulations (17 CFR Part 420), the Treasury, in a press release issued on September 13, 2000, and in this **Federal Register** notice, called for Large Position Reports from those entities whose reportable positions in the 5-¾% Treasury Notes of August 2010, Series C-2010, equaled or exceeded \$2 billion as of the close of business Tuesday, September 12, 2000. This call for Large Position Reports is a test. Entities whose reportable positions in this note equaled or exceeded the \$2 billion threshold must report these positions to the Federal Reserve Bank of New York. Entities with positions in this note below \$2 billion are not required to file Large Position Reports. Large Position Reports, which must include the required position and administrative

information, must be received by the Securities Reports Division of the Federal Reserve Bank of New York before noon Eastern time on Tuesday, September 19, 2000. The Reports may be filed by facsimile at (212) 720-5030 or delivered to the Bank at 33 Liberty Street, 1st floor.

The 5¾% Treasury Notes of August 2010 have a CUSIP number of 912827 6J 6, a STRIPS principal component CUSIP number of 912820 FT 9, and a maturity date of August 15, 2010.

The press release and a copy of a sample Large Position Report, which appears in Appendix B of the rules at 17 CFR Part 420, can be obtained by calling (202) 622-2040 and requesting document number 870. These documents are also available at the Bureau of the Public Debt's Internet site at the following address: <http://www.publicdebt.treas.gov>.

Questions about Treasury's large position reporting rules should be directed to Public Debt's Government Securities Regulations Staff at (202) 691-3632. Questions regarding the method of submission of Large Position Reports may be directed to the Securities Reports Division of the Federal Reserve Bank of New York at (212) 720-1449.

The collection of large position information has been approved by the Office of Management and Budget pursuant to the Paperwork Reduction Act under OMB Control Number 1535-0089.

Dated: September 13, 2000.

Gary Gensler,

Under Secretary, Domestic Finance.

BILLING CODE 4810-39-P

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

Proposed Collection; Comment Request

ACTION: Notice and request for comments.

SUMMARY: The Department of the Treasury, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)). Currently, the Bureau of Alcohol, Tobacco and Firearms within

the Department of the Treasury is soliciting comments concerning the Tobacco Products Manufacturers—Notice for Tobacco Products, ATF REC 5210/12 and Records of Operations, ATF REC 5210/1.

DATES: Written comments should be received on or before November 14, 2000 to be assured of consideration.

ADDRESSES: Direct all written comments to Bureau of Alcohol, Tobacco and Firearms, Linda Barnes, 650 Massachusetts Avenue, NW., Washington, DC 20226, (202) 927-8930.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the form(s) and instructions should be directed to Cliff Mullen, Regulations Division, 650 Massachusetts Avenue, NW., Washington, DC 20226, (202) 927-8181.

SUPPLEMENTARY INFORMATION:

Title: Tobacco Products Manufacturers—Notice for Tobacco Products, ATF REC 5210/12 and Records of Operations, ATF REC 5210/1.

OMB Number: 1512-0502.

Recordkeeping Requirement ID Number: ATF REC 5210/12 and ATF REC 5210/1.

Abstract: ATF requires tax identification on packages or cases which is used to validate excise tax payments and verify claims. In order to safeguard these taxes, tobacco products manufacturers are required to maintain a system of records designed to establish accountability over the tobacco products produced. The recordkeeping requirement for this information collection is 3 years.

Current Actions: There are no changes to this information collection and it is being submitted for extension purposes only.

Type of Review: Extension.

Affected Public: Business or other for-profit.

Estimated Number of Respondents: 108.

Estimated Time Per Respondent:

None, records are usual and customary.

Estimated Total Annual Burden Hours: 1.

Request for Comments

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate

of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Steve L. Mathis,

Deputy Assistant Director (Management).

BILLING CODE 4810-31-P

DEPARTMENT OF THE TREASURY

Internal Revenue Service

Proposed Collection; Comment Request for Forms 5434 and 5434-A

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Notice and request for comments.

SUMMARY: The Department of the Treasury, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and

other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)). Currently, the IRS is soliciting comments concerning Form 5434, Application for Enrollment, and Form 5434-A, Application for Renewal of Enrollment.

DATES: Written comments should be received on or before November 14, 2000 to be assured of consideration.

ADDRESSES: Direct all written comments to Garrick R. Shear, Internal Revenue Service, room 5244, 1111 Constitution Avenue NW., Washington, DC 20224.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the forms and instructions should be directed to Carol Savage, (202) 622-3945, Internal Revenue Service, room 5242, 1111 Constitution Avenue NW., Washington, DC 20224.

SUPPLEMENTARY INFORMATION: *Title:* Form 5434, Application for Enrollment, and Form 5434-A, Application for Renewal of Enrollment.

OMB Number: 1545-0951.

Forms Number: 5434 and 5434-A.

Abstract: Form 5434 is used to apply for enrollment to perform actuarial services under the Employee Retirement Income Security Act of 1974 (ERISA). Form 5434-A is used to renew enrollment every three years to perform actuarial services under ERISA. The information is used by the Joint Board for the Enrollment of Actuaries to determine the eligibility of the applicant to perform actuarial services.

Current Actions: There are no changes being made to the forms at this time.

Type of Review: Extension of a currently approved collection.

Affected Public: Individuals.

Estimated Number of Respondents: 6,000.

Estimated Time Per Respondent: 38 minutes.

Estimated Total Annual Burden Hours: 3,800.

The following paragraph applies to all of the collections of information covered by this notice:

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information displays a valid OMB control number. Books or records relating to a collection of information must be retained as long as their contents may become material in the administration of any internal revenue law. Generally, tax returns and tax return information are confidential, as required by 26 U.S.C. 6103.

Request for Comments

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Approved: September 8, 2000.

BILLING CODE 4830-01-P

DEPARTMENT OF THE TREASURY

Internal Revenue Service

Proposed Collection; Comment Request for Revenue Procedure 97-43 and Revenue Ruling 97-39

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Notice and request for comments.

SUMMARY: The Department of the Treasury, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this

opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)). Currently, the IRS is soliciting comments concerning Revenue Procedure 97-43, Procedures for Electing Out of Exemptions Under Section 1.475(c)-1, and Revenue Ruling 97-39, Mark-to-Market Accounting Method for Dealers in Securities.

DATES: Written comments should be received on or before November 14, 2000 to be assured of consideration.

ADDRESSES: Direct all written comments to Garrick R. Shear, Internal Revenue Service, room 5244, 1111 Constitution Avenue NW., Washington, DC 20224.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the revenue procedure and/or revenue ruling should be directed to Carol Savage, (202) 622-3945, Internal Revenue Service, room 5242, 1111 Constitution Avenue NW., Washington, DC 20224.

SUPPLEMENTARY INFORMATION:

Title: Revenue Procedure 97-43, Procedures for Electing Out of Exemptions Under Section 1.475(c)-1, and Revenue Ruling 97-39, Mark-to-Market Accounting Method for Dealers in Securities.

OMB Number: 1545-1558.

Revenue Procedure Number: Revenue Procedure 97-43.

Revenue Ruling Number: Revenue Ruling 97-39.

Abstract: Revenue Procedure 97-43 provides taxpayers automatic consent to change to mark-to-market accounting for securities after the taxpayer elects under regulation section 1.475(c)-1, subject to certain terms and conditions. Revenue Ruling 97-39 provides taxpayers additional mark-to-market guidance under section 475 of the Internal Revenue Code.

Current Actions: In 1998 Congress added Code section 475(c)(4), which effectively made the non-financial customary paper exemption of regulation section 1.475(c)-1(b) mandatory. In addition, after 1997, taxpayers could no longer use the automatic consent provisions of Revenue Procedure 97-43 to get retroactive waivers of the non-financial customary paper exemption of § 1.475(c)-1(b) or the negligible sales exemption of § 1.475(c)-1(c) or make the intragroup customer election of § 1.475(c)-1(a), retroactively. This makes holding 15 of Revenue Ruling 97-39 irrelevant and reduces the number of taxpayers affected by these requirements.

Type of Review: Revision of a currently approved collection.

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 200.

Estimated Time Per Respondent: 5 hours.

Estimated Total Annual Burden Hours: 1,000.

The following paragraph applies to all of the collections of information covered by this notice:

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information displays a valid OMB control number. Books or records relating to a collection of information must be retained as long as their contents may become material in the administration of any internal revenue law. Generally, tax returns and tax return information are confidential, as required by 26 U.S.C. 6103.

Request for Comments:

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Approved: September 7, 2000.

BILLING CODE 4830-01-P

DEPARTMENT OF THE TREASURY

Bureau of the Public Debt

Proposed Collection; Comment Request

ACTION: Notice and request for comments.

SUMMARY: The Department of the Treasury, as part of its continuing effort

to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)). Currently the Bureau of the Public Debt within the Department of the Treasury is soliciting comments concerning the extension of information collections under the regulations which were issued pursuant to the Government Securities Act.

DATES: Written comments should be received on or before November 20, 2000, to be assured of consideration.

ADDRESSES: Direct all written comments to Bureau of the Public Debt, Vicki S. Thorpe, 200 Third Street, Parkersburg, WV 26106-1328.

FOR FURTHER INFORMATION CONTACT: Requests for additional information should be directed to Vicki S. Thorpe, Bureau of the Public Debt, 200 Third Street, Parkersburg, WV 26106-1328, (304) 480-6553.

SUPPLEMENTARY INFORMATION:

Title: Government Securities Act Regulations.

OMB Number: 1535-0089.

Abstract: The information collections are contained within the regulations issued pursuant to the Government Securities Act (GSA), as amended (15 U.S.C. 780-5), which require government securities brokers and dealers to make and keep certain records concerning their business activities and their holdings of securities, to submit financial reports, and to make certain disclosures to investors. The regulations also require depository institutions to keep certain records of non-fiduciary custodial holdings of government securities. The regulations and associated collections are fundamental to customer protection and dealer financial responsibility.

Current Actions: None.

Type of Review: Extension.

Affected Public: Government securities brokers and dealers and depository institutions.

Estimated Number of Respondents: 16,931.

Estimated Total Annual Burden Hours: 369,620.

Request for Comments:

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on: (a) Whether the collection of information is necessary for the proper

performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Dated: September 11, 2000.

Vicki S. Thorpe,

Manager, Graphics, Printing and Records Branch.

Part II

Department of Health and Human Services

**Health Resources and Services
Administration**

**Lists of Designated Primary Medical Care,
Mental Health, and Dental Health
Professional Shortage Areas; Notice**

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Health Resources and Services Administration****Lists of Designated Primary Medical Care, Mental Health, and Dental Health Professional Shortage Areas**

AGENCY: Health Resources and Services Administration, HHS.

ACTION: Notice.

SUMMARY: This notice provides lists of all areas, population groups, and facilities designated as primary medical care, mental health, and dental health professional shortage areas (HPSAs) as of July 31, 2000. HPSAs are designated or withdrawn by the Secretary of Health and Human Services (HHS) under the authority of section 332 of the Public Health Service (PHS) Act.

FOR FURTHER INFORMATION CONTACT:

Requests for further information on the HPSA designations listed below and requests for additional designations, withdrawals, or reinstatement of a withdrawn designation should be submitted to Jerilyn A. Thornburg, R.N., M.P.H., Director, Division of Shortage Designation, Bureau of Primary Health Care, Health Resources and Services Administration, 4350 East-West Highway, Bethesda, Maryland 20814 (301-594-0816).

SUPPLEMENTARY INFORMATION:**1. Background**

Section 332 of the PHS Act, 42 U.S.C. 254e, provides that the Secretary of HHS shall designate HPSAs based on criteria established by regulation. HPSAs are defined in section 332 to include (1) urban and rural geographic areas with shortages of health professionals, (2) population groups with such shortages, and (3) facilities with such shortages. Section 332 further requires that the Secretary annually publish a list of the designated geographic areas, population groups, and facilities. The list of HPSAs is to be reviewed at least annually and revised as necessary. The Health Resources and Services Administration's (HRSA) Bureau of Primary Health Care (BPHC) has the responsibility for designating and updating HPSAs.

Public or private nonprofit entities are eligible to apply for assignment of National Health Service Corps (NHSC) personnel to provide primary health services in or to these HPSAs. NHSC health professionals with a service obligation may serve only in federally designated HPSAs. Programs with clinical training sites located in HPSAs

are eligible to receive priority for certain residency training program grants administered by HRSA's Bureau of Health Professions.

Several programs administered by the Health Care Financing Administration also use the HPSA designation. Certain qualified providers in HPSAs are eligible for increased levels of Medicare and Medicaid reimbursement.

2. Development of the Designation and Withdrawal Lists

Criteria for designating HPSAs were published as final regulations (42 CFR part 5) in 1980. Criteria were then defined for each of seven health professional types (primary medical care, dental, psychiatric, vision care, podiatric, pharmacy, and veterinary care). The criteria for correctional facility HPSAs were revised at 54 FR 8738 in 1989, and the criteria for psychiatric HPSAs were expanded to mental health HPSAs at 57 FR 2477 in 1992. The currently-funded PHS programs which use the HPSA designations involve only the primary medical care, mental health, or dental HPSAs.

Individual requests for designation or withdrawal of a particular area, population group, or a facility as a HPSA are received and reviewed continuously by BPHC. The review process includes routine submission of such requests to the appropriate State Health Planning and Development Agency (SHPDA) and/or a unit of the State Health Department, the Governor, and other interested organizations and individuals for their comments and recommendations. Requests regarding primary medical care and mental health HPSAs are also submitted to the appropriate State medical society for comment, and dental HPSA requests are submitted to the appropriate State dental society.

Annually, lists of designated HPSAs are provided to all SHPDAs and/or State health departments, State medical and dental societies and others, together with a request to review and update the data on which the designations are based. Emphasis is placed on updating those designations which are more than three years old or where significant changes relevant to the designation criteria have occurred.

Recommendations for possible additions, continuations, revisions or withdrawals from the HPSA list are reviewed by BPHC, and the review findings are provided by letter to the agency or individual requesting action or providing data, with copies to other interested organizations and individuals. These letters constitute the

official notice of designation as a HPSA, rejection of recommendations for HPSA designation, revision of a HPSA designation, and/or advance notice of pending withdrawals from the HPSA list. Designations (or revisions of designations) are effective as of the date of the notification letter from BPHC. Proposed withdrawals become effective only after interested parties in the area affected have been afforded the opportunity to submit additional information to BPHC in support of its continued or revised designation. If no new data are submitted or if the BPHC review confirms the proposed withdrawal, it becomes effective upon publication in the **Federal Register** of a list of HPSAs that does not include the proposed withdrawals.

This notice contains three lists of designated HPSAs. Each list (primary medical care, mental health, and dental) includes all those areas, population groups, and facilities which were designated HPSAs as of July 31, 2000. This notice incorporates the most recent annual review of designated HPSAs and supersedes the HPSA list published in the **Federal Register** on September 20, 1999. The lists below include 2,706 primary medical care, 661 mental health, and 1,178 dental HPSAs.

3. Format of Lists

Each list of designated HPSAs (primary medical care, mental health, and dental) is arranged by State. Within each State, the list is first presented by county. If only a portion (or portions) of a county is (are) designated, or if the county is part of a larger designated service area, or if a population group residing in the county or a facility located in the county has been designated, the name of the service area, population group, or facility involved is listed under the county name. Counties which have a geographic HPSA designation in addition to one or more facility designations within the county are indicated by a "(g)" following the county name.

Following the county listing, a list of any designated service areas is presented, identifying their component parts—counties, towns, townships, census tracts (CTs), minor civil divisions (MCDs), census county divisions (CCDs), block numbering areas (BNAs), or magisterial districts, as defined by the Bureau of the Census. Those counties (or parts of counties included in service areas) which are classified as nonmetropolitan are indicated by an asterisk (*). "Nonmetropolitan" refers to those counties not included in the definition

of metropolitan areas established by the Office of Management and Budget (OMB Bulletin 94-07 dated July 5, 1994).

Following the service area listing, a list of designated population groups (if any) is presented identifying each group and the geographic area wherein it resides. Following the population group listing, a list by name and location of any separately designated facilities (including prisons, correctional institutions, health centers, or hospitals) is presented.

In addition to the specific listings included in this notice, all Indian tribes which meet the definition of such tribes in the Indian Health Care Improvement Act of 1976, 25 U.S.C. 1603(d), are automatically designated as population groups with primary medical care and dental health professional shortages.

4. Future Updates of Lists of Designated HPSAs

The lists of HPSAs below consist of all those which were designated as of July 31, 2000. It should be noted that additional HPSAs may have been designated by letter since July 31. The appropriate agencies and individuals have been or will be notified of these actions by letter.

Any designated HPSA listed below is subject to withdrawal from designation if new information received and confirmed by HRSA indicates that the relevant data for the area involved have significantly changed since its designation or that incorrect or incomplete data were used in making the original designation.

All requests for new designations, updates, or withdrawals should be based on the relevant criteria in regulations published at 42 CFR part 5 (1997).

(Authority: 42 U.S.C. 254e)

5. Electronic Access Address

Information on HPSAs is also available at <http://www.bphc.hrsa.gov>.

Dated: August 30, 2000.

Claude Earl Fox,
Administrator.

Part III

Department of Education

**Freely-Associated States Educational Grant
Programs; Notice**

DEPARTMENT OF EDUCATION**[CFDA No. 84.256]****Freely-Associated States Educational Grant Programs****AGENCY:** Department of Education.**ACTION:** Freely-Associated States Educational Grant Program; Notice inviting applications for new awards for fiscal year (FY) 2001.

Purpose of the Program: The program provides financial assistance for educational purposes to local educational agencies (LEAs) in the Federated States of Micronesia (FSM), the Republic of the Marshall Islands (RMI), and the Republic of Palau (RP).

Deadline for Transmittal of Applications: November 15, 2000.

Deadline for Intergovernmental Review: January 15, 2001.

Applications Available: September 13, 2000.

Eligible Applicants: LEAs in the FSM, RMI and the RP only.

Available Funds: \$4,750,000.00.

Estimated Range of Awards: \$700,000–\$800,000.

Estimated Average Size of Awards: \$750,000.

Estimated Number of Awards: six (6).

Note: The Department is not bound by any estimates in this notice.

Project Period: Up to 36 months.

Applicable Regulations: The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 75, 77, 79, 80, 81, 82, 85, 86, 97, 98, and 99.

Selection Criteria: The Secretary will use the following selection criteria in accordance with 34 CFR 75.209–75.210 to evaluate applications under this competition. In accordance with 20 U.S.C. 6331(b)(2), the Pacific Resources for Education and Learning (PREL) uses these criteria in making funding recommendations to the Secretary.

(a) *Need for Project.* (25 points)

(1) The Secretary considers the need for the proposed project.

(2) In determining the need for the proposed project, the Secretary considers the following factors:

(i) The magnitude or severity of the problem to be addressed by the proposed project.

(ii) The magnitude of the need for the services to be provided or the activities to be carried out by the proposed project.

(iii) The extent to which the proposed project will provide services or otherwise address the needs of students at risk of educational failure.

(iv) The extent to which the proposed project will focus on serving or

otherwise addressing the needs of disadvantaged individuals.

(b) *Significance.* (10 points)

(1) The Secretary considers the significance of the proposed project.

(2) In determining the significance of the proposed project, the Secretary considers the following factors:

(i) The significance of the proposed project to education in the area to be served.

(ii) The significance of the problem or issue to be addressed by the proposed project.

(iii) The importance or magnitude of the results or outcomes likely to be attained by the proposed project, especially improvements in teaching and student achievement.

(c) *Quality of the Project Design.* (25 points)

(1) The Secretary considers the quality of the design of the proposed project.

(2) In determining the quality of the design of the proposed project, the Secretary considers the following factors:

(i) The extent to which the goals, objectives and outcomes to be achieved by the proposed project are clearly specified and measurable.

(ii) The extent to which the design of the proposed project is appropriate to, and will successfully address, the needs of the target population or other identified needs.

(iii) The extent to which the proposed project will be coordinated with similar or related efforts, and with other appropriate community, State, and Federal resources.

(iv) The extent to which the proposed project is part of a comprehensive effort to improve teaching and learning and support rigorous academic standards for students.

(v) The extent to which the proposed project encourages parental involvement.

(vi) The extent to which performance feedback and continuous improvement are integral to the design of the proposed project.

(d) *Adequacy of Resources.* (5 points)

(1) The Secretary considers the adequacy of resources for the proposed project.

(2) In determining the adequacy of resources for the proposed project, the Secretary considers one or more of the following factors:

(i) The extent to which the budget is adequate to support the proposed project.

(ii) The extent to which the costs are reasonable in relation to the objectives, design, and potential significance of the proposed project.

(iii) The extent to which the costs are reasonable in relation to the number of persons to be served and to the anticipated results and benefits.

(e) *Quality of project personnel.* (10 points)

(1) The Secretary considers the quality of the project personnel who will carry out the proposed project.

(2) In determining the quality of the personnel, the Secretary considers the extent to which the applicant encourages applications for employment from persons who are members of groups that have traditionally been underrepresented based on race, color, national origin, gender, age, or disability.

(3) In addition, the Secretary considers the following factors:

(i) The qualifications, including relevant training and experience, of the project director or principal investigator.

(ii) The qualifications, including relevant training and experience, of key project personnel.

(iii) The qualifications, including relevant training and experience, of project consultants or subcontractors.

(f) *Quality of the project evaluation.* (15 points)

(1) The Secretary considers quality of the evaluation to be conducted of the proposed project.

(2) In determining the quality of the evaluation, the Secretary considers the following factors:

(i) The extent to which the methods of evaluation provide for examining the effectiveness of project implementation strategies.

(ii) The extent to which the methods of evaluation include the use of objective performance measures that are clearly related to the intended outcomes of the project and will produce quantitative and qualitative data to the extent possible.

(g) *Quality of project services.* (10 points)

(1) The Secretary considers the quality of the services to be provided by the proposed project.

(2) In determining the quality of the services to be provided by the proposed project, the Secretary considers the quality and sufficiency of strategies for ensuring equal access and treatment for eligible project participants who are members of groups that have traditionally been underrepresented based on race, color, national origin, gender, age or disability.

(3) In addition, the Secretary considers the following factors:

(i) The extent to which the services to be provided by the proposed project are appropriate to the needs of the intended

recipients or beneficiaries of those services.

(ii) The likely impact of the services to be provided by the proposed project on the intended recipients of those services.

(iii) The extent to which the training or professional development services to be provided by the proposed project are of sufficient quality, intensity and duration to lead to improvements in practice among the recipients of those services.

(iv) The extent to which the services to be provided by the proposed project are focused on those with greatest needs.

For Applications Contact: Valerie Rogers, U. S. Department of Education, 400 Maryland Avenue, SW, Room 3E245, Washington, D.C. 20202-6140. Telephone (202) 260-2543.

If you use a telecommunications device for the deaf (TDD), you may call

the Federal Information Relay Service (FIRS) at 1-888-877-8339.

Individuals with disabilities may obtain this document in an alternative format, (e.g., Braille, large print, audiotape, or computer diskette) on request to the contact person listed in this section.

Individuals with disabilities also may obtain a copy of the application package in alternative format, by contacting that person. However, the Department is not able to reproduce in an alternative format the standard forms included in the application package.

Electronic Access to This Document

Part IV

Department of Transportation

Federal Aviation Administration

**14 CFR Part 121 et al.
Service Difficulty Reports; Final Rule**

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****14 CFR Parts 121, 125, 135, and 145**

[Docket No. 28293; Amendment No. 121–279, 125–35, 135–77, and 145–22]

RIN 2120–AF71

Service Difficulty Reports

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule, request for comments on the information collection requirements.

SUMMARY: The FAA amends reporting requirements for air carriers and certificated domestic and foreign repair station operators concerning failures, malfunctions, and defects of aircraft, aircraft engines, systems, and components. This action was prompted by an internal Federal Aviation Administration (FAA) review of the effectiveness of the reporting system and by air carrier industry concern over the quality of the data being reported. The objective of this final rule is to improve the reporting system to effectively collect and disseminate clear and concise safety information to the aviation industry.

EFFECTIVE DATE: January 16, 2001. Comments on the information collection requirements must be submitted on or before November 14, 2000.

ADDRESSES: Address your comments on the information collection requirements, in duplicate, to the Federal Aviation Administration, Office of the Chief Counsel, Attn: Rules Docket (AGC–200), Docket No. 28293, Room 915G, 800 Independence Avenue, SW, Washington, DC 20591.

FOR FURTHER INFORMATION CONTACT: Jose E. Figueroa, AFS–300, Flight Standards Service, Federal Aviation Administration, 800 Independence Ave., Washington, DC, 20591 telephone (703) 661–0522.

SUPPLEMENTARY INFORMATION:**Availability of Rulemaking Documents**

You can get an electronic copy using the Internet by taking the following steps:

- (1) Go to the search function of the Department of Transportation's electronic Docket Management System (DMS) web page (<http://dms.dot.gov/search>).
- (2) On the search page type in the last four digits of the Docket number shown at the beginning of this notice. Click on "search."

(3) On the next page, which contains the Docket summary information for the Docket you selected, click on the document number for the item you wish to view.

You can also get an electronic copy using the Internet through FAA's web page at <http://www.faa.gov/avr/arm/nprm/nprm.htm> or the Federal Register's web page at http://www.access.gpo.gov/su_docs/aces/aces140.html.

You can also get a copy by submitting a request to the Federal Aviation Administration, Office of Rulemaking, ARM–1, 800 Independence Avenue SW., Washington, DC 20591, or by calling (202) 267–9680. Make sure to identify the amendment number or docket number of this rulemaking.

Availability of the Joint Aircraft System/Component (JASC) Code

Copies of the Joint Aircraft System/Component (JASC) Code are available from the FAA's Regulatory Support Division (AFS–620), P.O. Box 25082, Oklahoma City, OK 73125, (405) 954–4391 or on-line from <http://av-info.faa.gov/isdr/SDRRelatedReferences.asp>.

Small Business Regulatory Enforcement Fairness Act

The Small Business Regulatory Enforcement Fairness Act (SBREFA) of 1996 requires FAA to comply with small entity requests for information or advice about compliance with statutes and regulations within its jurisdiction. Therefore, any small entity that has a question regarding this document may contact their local FAA official, or the person listed under **FOR FURTHER INFORMATION CONTACT**. You can find out more about SBRFA on the Internet at our site, <http://www.gov/avr/arm/sbrefa.htm>. For more information on SBREFA, e-mail us 9–AWA–SBREFA@faa.gov.

Background

On August 14, 1995, the FAA issued a notice of proposed rulemaking (NPRM) titled "Operational and Structural Difficulty Reports," Notice No. 95–12 (60 FR 41992). That document proposed to revise the reporting requirements for air carrier certificate holders and certificated domestic and foreign repair stations concerning failures, malfunctions, and defects of aircraft, aircraft engines, systems, and components.

The comment period for Notice No. 95–12 closed on November 13, 1995. Comments addressing numerous issues on the proposed rule were received from individuals, part 121 and part 135

certificate holders, aviation consulting firms, industry associations, manufacturers, and labor organizations. The FAA reviewed the comments and the changes recommended by the commenters. As a result, the FAA published a supplemental notice of proposed rulemaking, Notice No. 95–12A (64 FR 18766, April 15, 1999). This supplemental notice gave all interested parties an opportunity to comment on the revisions made as a result of the comments received on Notice 95–12.

The reports submitted by certificate holders and certificated repair stations, known as service difficulty reports (SDR's), provide the FAA with airworthiness statistical data necessary for planning, directing, controlling, and evaluating certain assigned safety-related programs. Currently, the Service Difficulty Reporting System (SDRS) is used in the following ways:

- FAA Analysis of SDR data;
- To rapidly disseminate defect trends, problems, and alert information that could pertain to future aviation safety issues to appropriate segments of the aviation community and the FAA; and
- To inform engineering offices within the FAA for evaluation of problems for potential use in preparing Airworthiness Directives (AD).
- FAA personnel requests for SDRS data:
 - Using SDR data as part of aircraft safety inspections;
 - Whenever there is an accident, the Office of Accident Investigation draws on this data;
 - Supporting investigations into accidents and incidents;
 - Disseminate safety data to the aviation industry, multiple government organizations, the public, the media, and legal communities; and
 - Used in Aviation Safety/Accident Prevention programs.
 - National Transportation Safety Board (NTSB) personnel request data from the SDRS to assist in their accident investigations.
 - There are numerous requests, from the media and legal community, for the SDR data.
 - Foreign countries and branches of the U.S. military services use the SDR data for research.

Discussion of Comments and Modifications to the Proposal

Eleven comments were received on the supplemental notice of proposed rulemaking (Notice No. 95–12A).

Structural Reporting Concerns

One commenter interprets the proposed rule to mean that if a defect

is found to be beyond the manufacturer's limits and is repaired in accordance with the manufacturer's repair manual, that defect is not reportable under the revised SDR reporting requirements.

FAA Response: The FAA disagrees with the commenter's interpretation. Section 121.704(a)(4) requires reporting of each the following: (1) Any defect that leads to replacement, (2) any rework that exceeds the manufacturer's established allowable damage limits, (3) any defect in PSE's (Primary Structural Elements), or (4) repairs made in accordance with approved data not contained in the manufacturer's maintenance manual. Using the commenter's example, a report would be required under § 121.704(a)(2) because the defect is found to be beyond the manufacturer's limits. The availability of the data in the repair manual has no bearing in this situation as the FAA wants reports of any defect that exceeds the manufacturer's established allowable damage limits. The FAA has made some minor editorial changes to the rule language.

Delta Airlines is opposed to reporting defects when a repair scheme for that defect is not contained in the original equipment manufacturer (OEM) manuals. Delta Airlines also states that they are against reporting defects when a repair scheme is contained in the OEM manual. They believe that once a recurring problem has been addressed (through the development of a repair scheme), repetitive reporting of the same defect adds no value, unless the defect has recurred following the incorporation of the recommended terminating action or repair.

FAA Response: The FAA disagrees. Section 121.704(a) requires certificate holders to report the occurrence or detection of each failure or defect that exceeds OEM established limits, and failures or defects repaired in accordance with approved data not contained in the manufacturer's maintenance manual. Certificate holders are required to report occurrences to the FAA. The FAA will use data on occurrences to identify trends that have a negative affect on the continued airworthiness of aeronautical products; and may take action to ensure prompt and appropriate correction of design defects. It is important to receive reports of defects even if a method of repairing them is known and available. If the FAA did not receive reports of defects because they could be repaired, the FAA would not be aware that defects were being identified. One of the primary purposes of the SDR program is to warn of defects that could lead to

unairworthy conditions. To accomplish that goal, the FAA must be aware of possible safety related issues.

Value of Service Difficulty Reports (SDR's)

The Air Transport Association (ATA) and some of its membership have questioned the value of reporting the service difficulty data, stating that further expansion of the rule will not lead to any observable benefit for the enhancement of safety.

Airborne Express states that the existing service difficulty database serves little benefit. They believe that if any analysis is done based on this database, it is transparent to the operators.

FAA Response: The Service Difficulty Reporting (SDR) Program's objective is to achieve prompt and appropriate correction of conditions adversely affecting continued airworthiness of aeronautical products. The SDR program allows for an exchange of information and provides a method of communication between the FAA and the aviation community concerning in-service problems. The consolidation, collation, and analysis of the data, and the rapid dissemination of trends, problems, and alert information to the appropriate segments of the aviation community and FAA, effectively and economically provide a method to ensure aviation safety.

Air Canada states that "it was our understanding that the basis for collecting this data was to provide a database that would substantiate the effectiveness of manufacturer developed bulletins and repairs." Air Canada also feels that new § 121.704 is worded in general terms leading to more reporting of non-routine work tasks during heavy maintenance.

FAA Response: The SDR program was never intended to substantiate the effectiveness of manufacturer-developed bulletins and repairs. Although certain conclusions can be drawn from repeated reporting of defects that were supposedly fixed by the provisions of a service bulletin, the SDR program is predicated on reporting of the occurrence of defects.

The FAA created § 121.704 to report defects occurring in structural items. Such reporting was not specifically required in the past. The rule language is designed to require reporting of specific items that are most likely to be found during a heavy maintenance check. The SDR program does not require the reporting of nonroutine work tasks. The program only requires the reporting of defects when found.

American Airlines see SDR's as a very time consuming, labor intensive exercise, and may have little or no value.

FAA Response: In the past, the SDR database may not have been utilized to its fullest potential. Some reporting requirements were subjective, causing inconsistent reporting which could lead to analysis of incorrect data and errors in trend analysis. The FAA undertook this rulemaking effort to correct such deficiencies. The rulemaking is designed to provide more consistent data reporting that will lend itself to better data analysis.

The Air Line Pilots Association (ALPA), on the other hand, feels that the FAA has eliminated many reporting ambiguities found in the current rule language and believes that the FAA's proposal is clearer and will ensure more useful SDR reports. Also, comments received from the Association of Flight Attendants (AFA), and the International Association of Machinists and Aerospace Workers (IAM) indicate that the FAA has made significant improvements to the service difficulty reporting process.

Southwest Airlines states that Structural Item reporting proposed for heavy maintenance is totally unacceptable. They claim that this provision will require reporting service difficulties while the aircraft is still in-work, leaving the report "open" because all repair data are not available. The tracking and closure of open SDR's will impose an additional administrative burden on both Southwest Airlines and the FAA.

The ATA comments that the proposed rule will not provide the FAA with valuable safety information. Many reports will be submitted by the operators as "open" reports and specific repair information will not be available until the repair process is completed.

FAA Response: The FAA disagrees. Any report of the failure, malfunction, or defect of an aeronautical product that causes or has the potential to cause a safety hazard is valuable safety information. The initial "open" (not complete with cause) report is valuable safety information and may be the first indication of a problem. Even an "open" report could alert other operators of a potential safety problem or a defect.

All of the required information may not be available when an original SDR is submitted. In such a case, when certificate holders operating under part 121, 125, or 135 get additional information concerning a required report, they must submit this additional information, from whatever source (including information obtained from

the manufacturer, the certificate holder's internal maintenance organization, or a certificated repair station) in a supplemental report. If all of the required information were available when the SDR is submitted, the report would be an original closed ("OC") report. However, in those cases where all of the required information is not available, the certificate holder still must file an SDR within the required 96-hour time period and indicate on the SDR that the report is an original open ("OO") report. When the additional information is obtained, the certificate holder must file a supplemental SDR referencing the operator control number from the original report. The use of this number will ensure that the supplemental report can be traced to the original SDR. The certificate holder also should indicate whether the additional information closes (supplemental closed/"SC") the report or whether more information will be submitted and the report remains open (supplemental open/"SO"). Because certificate holders are required to submit supplemental SDR's, they should establish procedures for tracking "open" SDR's.

Air Canada claims that they have seen no demonstrated increase in safety as a result of mandatory service difficulty reporting.

FAA Response: The purpose of the SDR program is to receive reports of the occurrence of defects to alert the FAA, and subsequently the aviation industry, of the potential for widespread occurrences of those defects. The initial operator's report alerts the FAA of the potential for an airworthiness problem, and reports from multiple operators of the same defect could be an indication of a fleet-wide problem. The FAA analyses the reports it receives and places the report data in a database that is also analyzed. The FAA may determine that corrective action is required.

Joint Aircraft System/Component (JASC) Code Codes versus Air Transport Association (ATA) Codes

The ATA states that the use of the Joint Aircraft System/Component (JASC) code as proposed in § 121.703(e)(7) would require future reports to include the JASC rather than existing ATA codes. The ATA codes, are the cornerstone and industry standard for technical data development and reporting. Also, Airborne Express states that the issue of the use of JASC coding versus ATA coding seems to have questionable benefit.

Delta Airlines disagrees with the use of JASC codes in place of ATA codes on the SDR form. Also, Southwest Airlines

states that the requirement to use JASC coding is unacceptable. The usage of JASC codes would require reprogramming all computers and extensive training to adapt to the new coding system.

The Regional Airline Association (RAA) requests that the following provisions be deleted from §§ 121.703, 125.409, and 135.415: "The applicable Joint Aircraft System/Component Code and a unique control number for the occurrence in a form acceptable to the Administrator." The RAA views the entry of the JASC Code as an optional field. The RAA further states that because the entry is administrative in nature, it should be recommended as a data entry field in an advisory circular (AC).

FAA Response: The existing rules do not specifically require the use of ATA codes on an SDR report. When reporting, however, the use of ATA Codes has become a routine practice that has proven to be effective for both industry and the FAA. Most of the SDR reports presently contain the ATA Code and the FAA attempts to add the ATA Code to the database when possible. The use of a specific code has proven to be very useful for tracking and analysis of problems. Thus, the FAA decided to require the use of such a code. The FAA originally planned to require the ATA Code; however, a lack of specificity in certain ATA Codes necessitated a broader code.

The JASC Code system was developed from the ATA coding system and is consistent with the ATA Code system. The ATA Codes do not always provide the necessary level of specificity for analysis. The JASC Codes merely expand on existing ATA Codes to give a more detailed picture of the condition. The users of the ATA Code should not need to significantly revise their procedures or systems to convert to the use of the JASC Code.

The Safety Analysis Section of the FAA's Flight Standards Service developed the JASC Code from the ATA Code with input from other civil aviation authorities. The JASC Code has been adopted by the Civil Aviation Authority of Australia and by Transport Canada.

The 96-Hour Requirement

The ATA and Airborne Express comment that the requirement for operators to submit SDR's within 96 hours after discovery of the defect rather than upon return to service of the aircraft places an additional burden on the airlines with questionable benefits.

American Airlines states that forcing air carriers to report structural type

defects within 96 hours from the time of discovery, instead of from the time the aircraft returns to service, will cause an additional and unnecessary burden.

FAA Response: The reporting timeframe requirement in the existing rule (72 hours) and this revision to the rule (96 hours) has always been predicated on the time of discovery of the occurrence, not on return to service. The proposal did not change the triggering requirement. The initial report contains valuable safety information, as it may be the first indication of a problem. The initial report alerts other operators of the potential for problems. The change from a 72 to a 96-hour requirement will allow the operators additional time to complete the report and may reduce the number of incomplete (open) reports.

Additional Burdens

Airborne Express comments on the undue burden to operators to control data on parts to meet the SDR reporting information requirement.

FAA Response: The FAA has determined that there is minimal burden on the operators due to this rulemaking action. Operators are already recording most of the information to document the airworthiness of the aeronautical product as required by other various regulations not part of this rulemaking. The revised rule specifies the need to report the manufacturer, manufacturer part number, part name, serial number, and location of the part. In the past, there was not a specific request for this information.

The Helicopter Association International (HAI) states that "proposed §§ 135.415(g), 135.416(f), and 145.79(e) permit certificated domestic and foreign repair stations to submit required SDR's, but do not require them to do so. Rather, the burden remains with the operator to submit the required reports or to supervise the efforts of the repair station to do so." The HAI believes that this allocation of responsibility is inappropriate.

Air Canada states that they "will be required to provide reporting on behalf of our customers."

FAA Response: The reporting responsibility ultimately lies with the certificate holder for the aircraft. However, a certificate holder could make arrangements with the repair station to submit the required reports. This arrangement would permit the repair station to submit the reports as the repair station discovers discrepancies during maintenance of the operator's equipment. If such an arrangement were made to meet the

requirements, the repair station would submit the data required to be submitted by the operator. The FAA emphasizes that such arrangements are optional and that the details of such arrangements are contractual, not regulatory. The FAA emphasizes that the responsibility for the submission of the reports would always remain with the certificate holder of that aircraft. Other regulations, not affected by this rulemaking, specify the certificate holders' responsibility for supervising contract maintenance.

One purpose of the revised regulation is to reduce the possibility of duplicate reports when two separate certificate holders each bear responsibility for submitting SDR's. The FAA expects the operator and the repair station to reach an agreement so that one report is submitted to the FAA for each defect.

American Airlines also states that the new rule shifts the burden of reporting from the FAA Certificate Management Office to the industry and that the impact of removing the FAA from the reporting chain should be addressed.

FAA Response: The reporting burden has always been the responsibility of the operator. The local FAA offices will not be removed from the reporting chain, rather the reports will be transmitted to the FAA centralized collection point that is accessible to the Certificate Holding District Office (CHDO).

American Airlines states that the proposed rule expands the reportable incidents and they expect a significant increase in the number of SDR's submitted.

FAA Response: The FAA agrees. The FAA took the current SDR list of reportable items and determined which items were necessary for inclusion in the database. This resulted in approximately the same numbers of items to be reported; however, the list is now very specific as to which items must be reported. This will result in an increase in the number of reports.

American Airlines believes that reporting malfunctions or defects occurring during ground operations is unnecessary and is an additional burden. They also suggest that reporting engine shutdowns during either ground or flight operations will cause confusion.

FAA Response: The FAA disagrees. The revised rule clarifies that a failure, malfunction, or defect is required to be reported regardless of what stage of operation the discovery occurred because such an incidence could indicate a system malfunction or fault that may affect safety of flight.

Reportable Items

Airborne Express questions why a defect covered by the minimum equipment list (MEL) must be reported when there is no apparent unsafe condition in the operation of the aircraft.

FAA Response: If an item that is listed on the MEL for that aircraft fails, the operator may temporarily continue to operate the aircraft. However, the SDR program is designed to capture failure occurrences. In some cases an identical part that may not be on the MEL list for other aircraft could be subject to the same failure. The FAA needs to know if an item is failing, regardless if the aircraft may still be capable of safe flight. The repeated failure of an item, whether listed on the MEL or not, is of particular interest to the FAA and industry.

Delta Airlines states that they are against reporting unscheduled engine removal.

FAA Response: The proposal did not address the Mechanical Interruption Summary Report provisions that contain the requirement for reporting unscheduled engine removal. The FAA removed from § 121.705 only those items that were duplicated in the SDR's and did not change the remainder of the § 121.705 requirements. The reporting of unscheduled engine removal facilitates the continued compilation of data for preparation of the FAA's Air Carrier Aircraft Utilization and Propulsion Reliability Report.

Delta Airlines states that they currently provide continuous electronic access to Mechanical Interruption Summary data and; therefore, should not be required to comply with a monthly reporting requirement.

FAA Response: The FAA disagrees. The FAA does not have the resources to monitor the certificate holder's database on a continual basis. In addition, the FAA is responsible for the oversight of a large number of certificate holders and needs the information submitted in summary format.

Southwest Airlines states that proposals to change the language of "§ 121.703(a)(13) to include reporting of flight control seals, pulleys, cables, brackets, hardware, chafing, rubbing, rigging, etc. are unacceptable."

FAA Response: The provision Southwest Airlines refers to is found in § 121.703(a)(12). The FAA's intent was to record events during aircraft operation, i.e. uncommanded movements of flight controls while engaged in autoflight and autothrottle operations. The FAA did not intend for the certificate holder to report the

expected wear and tear of items such as cables, seals, pulleys, etc. The commenter did not provide evidence to support the claim that these reporting requirements are "unacceptable."

British Aerospace Regional Aircraft (BAeRA) states "that in our experience that (sic) airlines who are required to provide FAA SDR reporting rarely also provide safety event information direct to BAeRA, either in parallel or in addition to the required FAA SDR reporting." The BAeRA states "that it would be of benefit, both in terms of timeliness and ensuring that any safety event is considered in the context of all aircraft of that type, if the airlines were required to inform or provide copies of all SDR's direct to the aircraft manufacturer in parallel with their submission to the FAA."

FAA Response: The FAA disagrees. The SDR database is and has been available to the aviation industry and manufacturers through the publicly available reports. These reports are available on the Internet. The SDRS will allow the public access to information much quicker than in the past.

Redundant Reporting

Airborne Express feels that these proposed rules include redundancies, such as the requirement to report similar information to the Reliability Programs and the SDR program.

FAA Response: The FAA agrees that reliability programs capture similar defect data; however, not all part 121 operators have approval to use a reliability program, and data from these programs are not shared universally amongst operators. If operators with reliability programs were excluded from the requirement to submit SDRs to the database, the database would be incomplete (only show part of the potentially affected aircraft fleet), and the occurrence of defects for some aircraft would go unreported even though the defect could occur in another operator's fleet.

American Airlines states that "the value of the expanded structural reporting requirement must be questioned. The industry already gathers and reports structural repair data mandated by Airworthiness Directives (AD). Reporting this information under the SDR program seems to be a duplication of effort. This duplication is not addressed in the NPRM and should be considered by the FAA before any final rule is put into effect."

FAA Response: The FAA contends that, in general, AD's do not require the same reporting of structural repair data. The AD reporting requirements, while

containing some information common to the SDR system, usually request information that is different from the information collection required for the SDR system. Also, the reported AD information is used for reasons other than the analysis function of the SDR database. As an example, the "aging aircraft" information reported by certificate holders for an AD is submitted to the appropriate FAA Aircraft Certification Office to determine the extent of aircraft deterioration because of age, and to monitor the effectiveness of the supplemental inspection documents and corrosion prevention and control programs. Information submitted to the SDR's is used for the identification of recurring service problems.

Electronic Submission of SDR's

American Airlines feels that mandating the reporting of SDR's in an electronic format will result in an unnecessary burden and additional costs. The commenter further states that the reporting of SDR's is a complex process for part 121 certificate holders. "Revamping the present reporting system, training numerous employees in a new unneeded process, and changing the culture in our company will cause a tremendous burden on American Airlines." Also, American Airlines suggests that the FAA may have unnecessarily burdened part 121 certificate holders by requiring them to report SDR's in an electronic format when other certificate holders have the option of using electronic reporting.

FAA Response: The FAA has determined that electronic submission of SDR's could permit a more timely dissemination of safety information. The FAA instituted a test electronic SDR reporting system several years ago to determine if electronic reporting was feasible. At this time, several similar sized part 121 operators are voluntarily submitting reports electronically via the Internet. Although the electronic reporting system appears to work, the FAA requested comments on a proposal to make electronic reporting mandatory. Most of the commenters raised concerns with mandating electronic reporting. The FAA has decided to allow the option of electronic reporting but will not make it mandatory at this time. The rule language has been revised to reflect that electronic reporting is optional.

American Airlines also states that to mandate a part 121 certificate holder to use an IBM-compatible computer, is as ludicrous as a part 121 carrier requesting that the FAA purchase and use a Macintosh computer so equipment used by the FAA can be compatible

with equipment used by the part 121 certificate holder. Delta Airlines states "that the proposed rule places the full burden (logistics, economics, programming, etc.) on the operators to conform to the Administrator's electronic format and its future revisions."

FAA Response: After further consideration, the FAA has determined that due to the potential for lack of computer compatibility and the current lack of a universally accepted protocol, the mandatory electronic submission of reports would increase the burden on the FAA and industry. Therefore, electronic submission of reports will be optional. The FAA is using the Internet standard as a means of receiving electronic SDR's that in effect resolves platform incompatibility issues such as Macintosh computer devices if an operator prefers to submit reports electronically.

The Regional Airline Association (RAA) and Southwest Airlines support the use of electronically submitted SDR's. The RAA recognizes that the SDR system will become a more effective tool for tracking and analyzing mechanical malfunction trends. In the past, the air carriers provided the SDR data to the FAA on paper and the FAA in turn published the data in huge paper documents several months later.

Delta Airlines states that § 121.705 should allow for reporting by other means acceptable to the Administrator.

FAA Response: The rule language has been changed to permit the SDR's to be submitted on a form or in another format acceptable to the Administrator. The FAA has developed a paper form that includes blocks for all the required reporting information. The FAA's Aviation Data Systems Branch (AFS-620), P.O. Box 25085, Oklahoma City, OK 73125, telephone number (405) 954-4391, will assist any operator with resolving compatibility and format issues should the operator desire to undertake electronic reporting.

Expansion of Reportable Items

American Airlines states that fuel spills caused by overfilling the tanks would now become reportable.

Southwest Airlines states that "the expansion of reportable items § 121.703(e) includes fuel and fuel dumping systems that could cause hazardous leakage will include fuel leakage during installation of components, static leaks, and fuel spills during the fueling of aircraft. This is unacceptable because a misinterpretation of this rule will cause enforcement problems with certain inspectors."

FAA Response: The provision to which Southwest Airlines refers is found in § 121.703(a)(7). Fuel spills during refueling are not considered reportable under this rule unless an aircraft system failure, malfunction, or defect caused the fuel spill.

Airborne Express feels that exceptions to the rule should be allowed for events occurring during the course of maintenance. Due to the potential for maintenance to introduce defects as systems are disturbed, there needs to be consideration given to exclusion of these events during maintenance.

American Airlines states that the new rule will require the reporting of fuel leaks during heavy maintenance when leaks occur after assembly.

FAA Response: An event occurring during the performance of maintenance that was induced by the maintenance action does not constitute a reportable defect if detected and corrected as part of that maintenance action. Using the Airborne Express' example, in the course of a mechanic replacing a bracket, where the maintenance-induced action of causing an associated fastener to loosen or break that results in a fuel leak would not necessarily mean that the leak would have to be reported to the SDR program. The SDR program is designed to track defects, not disturbances of parts due to maintenance. After completion of the related maintenance task, the aircraft is returned to service. During the subsequent operation of the aircraft, if the bracket should fail and cause a fuel leak, this leak would have to be reported to the SDR program.

American Airlines has concerns with the reporting of failures, malfunctions, or defects associated with emergency evacuation systems or components. This commenter states that reports on the failure of emergency lighting or the degradation of emergency egress lighting batteries should be excluded from the reporting requirements. The commenter states that high maintenance components do not render the system inoperable, nor add value to the SDR database.

FAA Response: The FAA disagrees. The current rules pertaining to the reporting of the described failures provide the FAA with an indication of evacuation system reliability and the reliability of components within evacuation systems. The FAA contends that if an evacuation slide has an on-aircraft life of 12 months, the components within that slide should last 12 months. Failure of batteries for a slide's emergency egress lighting may indicate a need to change maintenance procedures or life limits.

American Airlines states their opposition to the requirement to report hours and cycles of the affected components due to the additional research time burden that would be imposed, and that if the rule goes into effect as proposed, that the reporting time be increased to 10 days. Also, Southwest Airlines states that the expansion of the list of reportable data, § 121.703(e), to include reporting time and cycles of affected components, will impose additional time and manpower requirements due to some information that will have to be collected from vendors is unacceptable. Also, Delta Airlines disagrees with the new requirement to report manufacturer, name, time, and cycles of components.

FAA Response: The FAA disagrees. The FAA has made the manufacturer's name, total time, and total cycle information a mandatory requirement. The FAA requires this information so a more complete analysis of the component failure trends can be made.

One commenter has two problems with the SNPRM: the inclusion of aircraft total time and total cycles for each report, and station and flight numbers should be required. The commenter strongly supports the rest of the proposal.

FAA Response: The flight number and station where the failure, malfunction, or defect was detected is not necessary to determine the cause of the failure. This information is available through the maintenance records if needed.

The International Association of Machinists and Aerospace Workers (IAM) and the Association of Flight Attendants fully support the proposed rule changes and support the additional requirement that aircraft total time and total cycles be recorded. Furthermore, the IAM believes the station and flight number should be included as part of the report to permit tracking of particular problems occurring at a specific station or airport.

Public Aircraft Concerns

Delta Airlines suggests that "the rule should include Public Aircraft."

FAA Response: The FAA has not exercised the authority to mandate that operators of public aircraft submit SDR reports; however, the FAA encourages those operators to participate in the SDR program.

Miscellaneous Comments

American Airlines states that the new rule requires redundant reporting of failures, malfunctions or defects of the autothrottle, autoflight or flight control systems as these defects are already reportable under current § 121.703(c).

Delta Airlines suggests that the word "uncommanded" be added to the list of reportable flight control items in § 121.703(a)(12).

FAA Response: Although such events could be reported under current § 121.703(c) or § 135.415(c), the SDR database does not indicate that such reports are being made. The FAA has become aware that failures of this nature are occurring. Therefore, the FAA has added a specific requirement to report failures, malfunctions, or defects of autothrottle, autoflight, or flight control systems or components in § 121.703(a)(12). The assumption is that any uncommanded system activation is the result of a malfunction, failure, or defect.

Delta Airlines suggests that the wording "in its opinion" not be deleted from existing § 121.703(c). According to Delta, "the deletion would remove any flexibility in reporting and increase enforcement problems with inspectors who have various interpretations of the rule."

FAA Response: The FAA disagrees. Section 121.704 has been modified by listing specific items to be reported. Flexibility in reporting has been a problem with the SDR database. The revised rule will require specific reporting so that a quality analysis can be performed.

Southwest Airlines states that "changes added to § 121.703(a)(11) included all exit door defects, malfunctions, or failures. Additionally, this includes door trim, window shade panels, and other cosmetic and or secondary structure on doors."

FAA Response: Some items may have been installed for "cosmetic" reasons. However, using the commenter's example, opening a window shade panel during an aircraft emergency evacuation is necessary to allow one to look out the window of the exit to determine whether that exit is safe to use. If a shade is defective and cannot be opened, the crew or a passenger might not be able to determine if there is a fire outside the aircraft. Similarly, a door trim item that is defective may jam the door in an emergency. For these reasons, defects of these items must be reported as part of the SDR program.

The RAA requests that the supplemental reporting provisions of §§ 121.703(i), 125.409(i), and 135.415(i) be rewritten as follows: "When a certificate holder gets additional information concerning a report required by this section, the certificate holder shall expeditiously submit that information as a supplement to the original report unless the previously submitted information is sufficiently

descriptive for analysis of the failure, malfunction or defect."

FAA Response: The FAA agrees in part. The rule requires that the occurrence of the defect be initially reported within a 96-hour time frame. The FAA realizes that in some instances all the required information to complete the report may not be available within this time frame. The purpose of the supplemental report is to allow the operator to submit the information when it becomes available in order to complete the report. The important point is that the FAA be notified of the occurrence or detection of the defect.

In order to clarify what additional information is required in supplemental reporting, §§ 121.703(i), 121.704(h), 125.409(i), 125.410(h), 135.415(h), and 135.416(h) have been revised as follows: "When a certificate holder gets supplemental information to complete the report required by this section, the certificate holder shall expeditiously submit that information as a supplement to the original report and use the unique control number from the original report." A report is only complete when all the required information is submitted to the FAA.

The RAA requests that the word "component" in §§ 121.703(e)(9), 125.409(e)(9), and 135.415(e)(9) be revised to "component part" and that provision (e)(10) be deleted.

FAA Response: The FAA disagrees. As stated in the proposal, the FAA revised these sections to require that the information be provided for the component that failed, malfunctioned, or was defective, if applicable. In some instances, it may be possible to further identify the specific part, within that component, that failed malfunctioned, or was defective. This provision (tracking down to the part level) is a major change from existing practice.

The RAA also requests that the following provisions be deleted from §§ 121.704, 125.410, and 135.416: "* * * a unique control number for the occurrence, in a form acceptable to the Administrator."

FAA Response: The FAA disagrees. The FAA needs an identifiable field to track SDR's. The use of the unique control number will reduce the number of duplicate reports for the same occurrence in the SDR database and provide a more simplified method for the FAA and industry to reference an SDR.

The Helicopter Association International states that the corrosion reporting requirements of §§ 135.416(a)(1) and (a)(2) are superfluous from a safety perspective and that these provisions will prove

unduly burdensome in certain environments. The HAI urges the FAA to delete proposed §§ 135.416(a)(1) and (a)(2).

FAA Response: The FAA disagrees. Sections 135.416(a)(1) and (a)(2) apply to all aircraft. The FAA feels that helicopters are susceptible to the same conditions as most fixed wing aircraft.

Delta Airlines states "we know of no data to suggest a data link between autothrottle/autoflight systems and uncommanded control inputs."

FAA Response: The FAA disagrees. There have been two air carrier accidents in the United States that immediately followed unexplained airplane rolls. The FAA is aware of other roll, pitch, or yaw events that have occurred, although reports are not always made to the SDR's. The FAA notes that some of these events have required full deflection of the flight controls to regain control of the aircraft. Other events have occurred involving ice in autopilot actuators, which prevented the actuators from disengaging when the autopilot was disengaged.

Although such events could be reported under existing § 121.703(c) or § 135.415(c), the SDR database does not indicate that such reports are being made. Therefore, the FAA has added a requirement to report failures, malfunctions, or defects of autothrottle, autoflight, or flight control systems or components in §§ 121.703(a)(12), 125.409(a)(12), and 135.415(a)(12).

The Air Line Pilots Association supports the intent of the proposal and feels that the FAA has eliminated many reporting ambiguities found in the old language. The ALPA believes the proposed changes have made the rule language more clear and will result in more useful reports. Comments received from the AFA and IAM also indicate that the FAA has made significant improvements to the service difficulty reporting process.

Summary of Economic Comments

This section will summarize the economic comments and FAA's responses. A detailed discussion of these comments and responses is contained in the full evaluation in the docket for this rule. A total of 8 commenters raised economic issues.

Costs—The economic analysis attributed relatively minor costs to the operators as a result of the SNPRM. Commenters believe that the analysis was wrong in many areas:

Several commenters stress that switching from ATA codes to JASC codes will be costly.

FAA Response: The major difference between the ATA and the JASC codes are that the latter includes more detailed description of aircraft systems and components. Hence, the air carrier operators will only need to obtain the new documentation and not need to retrain their employees, resulting in de minimus costs.

A trade organization claims that the proposed rule would mandate additional fields for the data to be sorted; these additional fields would need to be provided at the expense of the air carriers. This organization estimates that the JASC code and unique control number would add at least 5% to the air carrier's processing costs.

FAA Response: Given the similarities between the JASC code and ATA code and given that operators will always have to generate a control number, the FAA does not believe that these will add 5% to processing costs.

Five commenters believe the number of SDR's will drastically increase, possibly at least double.

FAA Response: The FAA is increasing the number of variables that need to be reported about each defect. To be conservative, the FAA will base costs in the final rule on a 45% increase in SDR's due to the new paragraphs.

The answer to the previous comment has cost implications; air carriers would have to hire additional personnel.

FAA Response: The existing rule only requires that the data be sent to the certificate holder's District Office. Any changes in how these air carriers report information is based on their internal operating procedures, rather than changes in the rule.

Four commenters claim that the requirement to adjust the process from filing the time the aircraft returns to service to 96 hours from the time of discovery will increase their labor costs with questionable benefits.

FAA Response: The current rule has been for operators to report within 72 hours from the time of discovery rather than from the time the aircraft returns to service. The FAA is making this process less burdensome by changing the 72 hours to 96 hours.

One air carrier claims that, in order to continue to process SDR's with their Macintosh computer, they will incur additional hardware and service maintenance costs.

FAA Response: Since the economic evaluation for the SNPRM was written, the FAA has changed its operating procedures. Operators can now submit the required information using the Internet and will not need to purchase software to allow Macintosh computers

to interface with an IBM-compatible system.

Several commenters are unhappy about the mandated electronic filing, as this would have cost implications.

FAA Response: The FAA modified the requirements so that electronic filing will not be mandatory.

One air carrier notes that the NPRM is moving the reporting burden from the FAA Certificate Management Office (CMO) to the industry; by removing them from the process, the responsibilities now falls on the carriers.

FAA Response: The regulatory burden has always been on the industry to review and report the data. Hence, removal of the CMO will not place any new regulatory burdens on the industry.

Several commenters were uncomfortable with the FAA's estimate that "on average, it would cost each individual air carrier \$15 per year and each repair station \$1 per year," saying that the SDR program costs air carriers much more per year.

FAA Response: To obtain these values, the FAA divided the cost of the proposed changes by their applicable industry group. The FAA did err in not making it clear that these average annual costs were for the changes to the proposed rule rather than the entire cost of the SDR program.

In sum, most of the commenters believe that the costs were very much undervalued.

FAA Response: The FAA has reviewed the regulatory evaluation based on industry comments and has determined that the rule does not impose major additional costs to the industry. The FAA removed the proposed requirement for part 121 carriers to file electronically, which should reduce costs over what was reported in the SNPRM analysis.

Benefits—Almost all of these commenters were unanimous in believing that the overall benefit of the SDRS is dubious at best and that the added costs do not justify the increase in benefits. Different commenters claimed that:

- The SDR system is seldom used in the decision making process either because the SDR information comes too late or the data is unworkable;

- The new requirements will not provide the FAA with valuable 'safety' information;

- There are no real benefits to offset the costs imposed by data collection. In addition, there has been no demonstrated increase in safety as a result of mandatory reporting;

- Reporting SDR's is a time consuming and labor intensive exercise

that has little or no value, and there is no assurance that the increase in data will result in any safety gain; and

- The costs of reporting alone will far outweigh any benefits. The practical utility of the current information collection for SDR's is negligible.

FAA Response: The FAA disagrees with these comments. The improved SDRS will provide the FAA with airworthiness statistical data necessary for planning, directing, controlling, and evaluating certain assigned safety-related programs. The reporting system provides FAA managers and inspectors with a means for monitoring the effectiveness of self-evaluation techniques being employed by certain segments of the civil aviation industry. In addition, information submitted to the SDRS is used for the identification of recurring service problems.

Regulatory Evaluation Summary

Changes to Federal regulations must undergo several economic analyses. First, Executive Order 12866 directs that each Federal agency shall propose or adopt a regulation only upon a reasoned determination that the benefits of the intended regulation justify its costs. Second, the Regulatory Flexibility Act of 1980 requires agencies to analyze the economic effect of regulatory changes on small entities. Third, the Trade Agreements Act (19 U.S.C. §§ 2531–2533) prohibits agencies from setting standards that create unnecessary obstacles to the foreign commerce of the U.S. And fourth, the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4) requires agencies to prepare a written assessment of the costs, benefits, and other effects of proposed or final rules that include a Federal mandate likely to result in the expenditure by State, local, or tribal governments, in the aggregate, or by private sector, or \$100 million or more annually (adjusted for inflation).

In conducting these analyses, the FAA has determined that this rule is not “a significant regulatory action” under section 3(f) of Executive Order 12866 and, therefore, is not subject to review by the Office of Management and Budget. The rule is not considered significant under the regulatory policies and procedures of the Department of Transportation (44 FR 11034, February 26, 1979). This rule will not have a significant impact on a substantial number of small entities and will not constitute a barrier to international trade.

Cost of Compliance

The FAA has estimated the expected costs and benefits of this regulation. In

this analysis, the FAA estimated costs for a 10-year period, from 2001 through 2010. The present value of this stream was calculated using a discount factor of 7 percent as required by the Office of Management and Budget (OMB). All costs in this analysis are in 1998 dollars.

Sixteen of the section changes will increase costs; the changes in fifteen of them will add additional reporting requirements for information that has not been collected before or had been collected through voluntary reporting. Accordingly, since there is little or no historical data on the data collection and reporting requirements, the FAA does not know how many extra reports these new requirements will generate. For these changes, the FAA believes that there will be few additional new reports and that the overall burden will be minimal. However, based on comments and the need to provide the public with an estimation of the potential total impact of these paragraphs, the FAA assumed that each of these changes will increase the total number of SDR's processed each year by three percent. Over ten years, these costs sum to \$2.46 million (present value, \$1.73 million).

Sections 121.703(g), 121.704(f), 125.409(g), 125.410(f), 135.415(g), and 135.416(f) will permit part 121, 125, and 135 certificate holders to authorize a repair station to submit an SDR on their behalf. Sections 145.63(e) and 145.79(f) will require that the repair stations provide a copy of the report submitted by the repair station to the part 121, 125, or 135 certificate holder on whose behalf the report was submitted. These sections will result in increased costs for the repair stations. However, these sections will also allow for cost savings by eliminating duplicate reports; repair stations will submit the report for input into the SDRS that is currently submitted by both repair stations and air carriers.

The elimination of the air carrier operator's duplicate report will not diminish safety. The SDR system is used to spot equipment malfunction trends and to get an overview of airplane mechanical malfunctions by fleet type; they are not intended to give an operational view of what is wrong with an operator's individual airplane. Based on the existing regulations, before an airplane can be put back into service, the air carrier will need to be aware of what was wrong and what corrective actions were taken. Alleviating the air carrier operator of the responsibility of submitting an SDR in this case does not lessen the information that the air carrier will have about their aircraft.

There were 2,600 SDR's from repair stations that were entered into the SDR

database that were also submitted from air carriers in 1998. Each report will need to be sent from the repair station to the air carrier. Since repair stations may now do all of the reports, the FAA assumes in this analysis that half of this number of reports is the maximum number that will not have to be generated and processed in the SDR system under this section. The FAA assumes in this analysis that all reports are photostated and mailed. Over ten years, the costs of these reports will be \$35,400 (present value, \$24,800).

Total quantifiable costs, over ten years, sum to \$2.49 million (present value, \$1.75 million).

Sections 121.703(d), 125.409(d), and 135.415(d) may reduce the Principal Maintenance Inspector's (PMI) workload. Currently, all reports go from the certificate holder to the Flight Standards District Office (FSDO) where the PMI spends time reviewing the SDR before forwarding it to the SDRS in Oklahoma City. The rule will require certificate holders and operators to submit these reports directly to Oklahoma City, thus possibly reducing the PMI's workload. The certificate holder or operator will be required to make the SDR data available to the FSDO for examination. Hence, while the PMI can still remain informed, he or she may not have to spend as much time inspecting each report and will not have to forward the material. Over ten years, this cost savings will be \$1.40 million (present value, \$981,000).

Sections 121.703(e)(13), 121.704(d)(9), 125.409(e)(13), 125.410(d)(9), 135.415(e)(13), and 135.416(d)(9) will add a requirement that an SDR include a unique control number for each occurrence. These sections will yield cost savings which will come from both the reduction in the number of duplicate reports for the same occurrence in the SDR database and from the more simplified, methodical method for the FAA and industry to reference an SDR. Traditionally, when a supplemental report was submitted to the SDRS, it was entered as if it were a separate report, thus making it difficult to link it to the original report. Using a unique identification number for each occurrence will reduce the total number of reports within the SDRS. The potential cost savings will be based on the reduction in the amount of time spent to find and link these reports within the SDRS. Going on the assumption that no certificate holder currently is using unique control numbers, over ten years, the cost savings will be \$140,500 (present value, \$98,700). However, the actual cost savings will almost certainly be lower

because some certificate holders are already using a control number.

Sections 121.703(g), 125.409(g), and 135.415(g) will reduce dual reporting. When a repair station identifies a failure, malfunction, or defect, this information is currently being reported by both the repair station and the certificate holder or operator. Therefore, information about the same problem may be reported twice to the FAA. This revision is intended to eliminate these duplicate reports. The final rule will require that the part 121, 125, or 135 certificate holder or operator receive a copy of the report submitted by the repair station (these costs were covered above). Cost savings will accrue, for each repair, due to one less report needing to be processed. Over ten years, this cost reduction will be \$173,200 (present value, \$121,600).

Total cost savings over 10 years sum to \$1.71 million (net present value, \$1.20 million). The rule's net costs sum to \$781,200 (present value, \$548,600). Net cost savings could be change due to two factors:

- Net costs could be lower if the number of additional reports due to the new reporting requirements is less than the assumed 45% increase in total reports. Indeed, if this increase in reports were less than 32%, this rule will yield net cost savings; and
- Net costs could be higher because the cost savings from using a unique control number almost certainly will be less than the amount discussed above (but the FAA does not have the data to determine how much more it will be).

Analysis of Benefits

The use of a unique control number will help reduce the possibility of duplicate SDR reports being entered into the SDR database. In addition, the additional time from discovery for submitting reports should reduce the number of supplemental reports filed. A more efficient system will preserve and improve the integrity of the database and allow for better and more complete analysis by the FAA and other users of the data. Additional specific benefits of these rule changes include standardizing reporting requirements for air carriers, which allows for more consistent data.

The regulations will enhance air carrier safety by collecting specific data that identify mechanical failures, malfunctions, and defects that may be a hazard to the operation of an aircraft. The information collected can be used to develop and implement corrective actions to help prevent future occurrences of these failures, malfunctions, and defects.

As noted above, the SDR system is used to identify trends and to provide an overview of product service data. Identifying these trends can help to catch problems early, which would allow Airworthiness Directives to be based on better information. In addition, an SDR will give an operator the ability to use trend information (and knowledge of potential problems) to better plan its maintenance scheduling, a major benefit for airplane operators. The FAA believes that because of the improved SDR information resulting from these regulations, additional information and equipment malfunction trends can be identified that will lead, over time, more timely corrective action by the FAA, and hence, to safer airplanes.

Comparison of Costs and Benefits

This rule will result in costs of \$828,400 (net present value, \$581,800). Duplicate reports, as well as duplicate entries in the SDRS, will be reduced. In addition, the regulations will enhance air carrier safety by collecting additional and more timely data that identify mechanical failures, malfunctions, and defects that may be a hazard to the operation of an aircraft. This data can be used to identify trends, which could help to catch problems early and to better plan maintenance scheduling. All of this could lead, over time, to safer airplanes.

The FAA believes that these benefits exceed the rule's net costs, and hence, finds this rule to be cost beneficial.

Regulatory Flexibility Determination

The Regulatory Flexibility Act (RFA) of 1980, 5 U.S.C. 601–612, directs the FAA to fit regulatory requirements to the scale of the business, organizations, and governmental jurisdictions subject to the regulation. We are required to determine whether a proposed or final action will have a “significant economic impact on a substantial number of small entities” defined in the Act. If we find that the action will have a significant impact, we must do a “regulatory flexibility analysis.”

For this rule, the small entity group is considered to be part 121, 125, and 135 air carriers (Standard Industrial Classification Code [SIC] 4512) and part 145 repair stations (SIC Code 4581, 7622, 7629, and 7699). The FAA has identified a total of 98 part 121 air carriers, 2,118 part 125 and part 135 air carriers, and 2,790 part 145 repair stations that would be considered small entities.

These regulations will cost all small air carriers \$2.08 million (present value, \$1.46 million) and repair stations

\$99,200 (present value, \$69,600) over the next ten years. On average, the economic impact is minimal; it will cost each individual certificated air carrier \$67 per year and each repair station \$2 per year for these changes. Therefore, we certify that this action will not have a significant economic impact on a substantial number of small entities.

International Trade Impact Statement

The Office of Management and Budget directs the FAA to assess whether or not a regulatory change would affect international trade. We determined that the provisions of this rule will have no impact on trade for U.S. firms doing business in foreign countries and foreign firms doing business in the United States.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. §§ 1532–1538) requires the FAA to assess the effects of Federal regulatory actions on state, local, and tribal governments, and on the private sector of rules that contain a Federal intergovernmental or private sector mandate that exceeds \$100 million in any one year. This action does not contain such a mandate.

Paperwork Reduction Act

This final rule contains information collections that are subject to review by OMB under the Paperwork Reduction Act of 1995 (Pub. L. 104–13). The request for review and approval has been submitted to OMB. An opportunity for comment on the paperwork portion of this rule was not provided during the NPRM stage. Therefore, there is a 60-day comment period attached to this final rule. The title, description, respondents, and description of the annual burden are shown below.

Title: Service Difficulty Reports.

Description: Under current regulations, certificate holders operating under parts 121, 125, and 135 and part 145 certificated domestic and foreign repair stations are required to report service difficulties to the FAA. The objective of the revisions to the rule is to update and improve the reporting system to effectively collect and disseminate clear and concise safety information to the aviation industry. This will be done through a series of changes that include:

- Permitting part 121, 125, and 135 certificate holders to authorize a repair station to submit an SDR on their behalf;
- Eliminating dual reporting from both air carriers and repair stations;
- Reducing the Principal Maintenance Inspector's (PMI's) workload;

- Requiring that each SDR include a unique control number for an occurrence; and
- Adding some additional reporting requirements for part 121, 125, and 135 certificate holders on information that has not been collected before or had been collected through voluntary reporting.

Description of Respondents: This rule will constitute a recordkeeping burden for certificate holders operating under parts 121, 125, and 135, and part 145 certificated repair stations that currently must report service difficulties. The FAA notes that the current service difficulty reporting requirements were approved under OMB assigned Control Numbers 2120-0008, 2120-0085, 2120-0003, and 2120-0039.

The FAA expects that this rule will affect 156 part 121 certificated air carriers, 2,940 part 125 and 135 certificated air carriers, and 4,599 part 145 certificated repair stations. The final rule, while imposing additional reporting and recordkeeping requirements on those operators, will have the following impacts on these businesses:

- Allowing a repair station to file an SDR on behalf of a certificate holder operating under part 121, 125, or 135 (saving 216 hours annually); and
- Requiring certificate holders to report certain additional service difficulties and include new information in the SDR (adding 6,225 hours annually for air carriers and 98 hours annually for repair stations).

Accordingly, the FAA estimates that this rule will increase the reporting and paperwork requirements for industry by 6,107 hours annually [calculation: 6,225 + 98 - 216 = 6,107 hours annually]. The total annual reporting burden costs sums to \$168,800. These cost figures are based on estimates provided in the FAA's "Regulatory Analysis."

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Therefore, the FAA is soliciting comments to (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) Enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to

respond, including through the use of appropriate automated electronic, mechanical or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

When an OMB control number is assigned, notification of that number will be published in the **Federal Register**.

International Compatibility

In keeping with U.S. obligations under the Convention on International Civil Aviation, it is FAA policy to comply with International Civil Aviation Organization (ICAO) Standards and Recommended Practices to the maximum extent practicable. The FAA has determined that there are some differences with ICAO Standards and Recommended Practices.

Executive Order 13132, Federalism

The FAA has analyzed this rule under the principles and criteria of Executive Order 13132, Federalism. We have determined that this action will not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, we have determined that this final rule does not have federalism implications.

Environmental Analysis

FAA Order 1050.1D defines FAA actions that may be categorically excluded from preparation of a National Environmental Policy Act (NEPA) environmental impact statement. In accordance with FAA Order 1050.1D, appendix 4, paragraph 4(j), this rulemaking action qualifies for a categorical exclusion.

Energy Impact

The energy impact of this final rule has been assessed in accordance with the Energy Policy and Conservation Act (EPCA), P.L. 94-163, as amended (43 U.S.C. 6362) and FAA Order 1053.1. It has been determined that the final rule is not a major regulatory action under the provisions of the EPCA.

List of Subjects

14 CFR Part 121

Air carriers, Aircraft, Aviation safety, Reporting and recordkeeping requirements, Safety, Transportation.

14 CFR Part 125

Aircraft, Aviation safety, Reporting and recordkeeping requirements.

14 CFR Part 135

Air taxis, Aircraft, Aviation safety, Reporting and recordkeeping requirements.

14 CFR Part 145

Aircraft, Aviation safety, Reporting and recordkeeping requirements.

The Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR parts 121, 125, 135, and 145 as follows:

PART 121—OPERATING REQUIREMENTS: DOMESTIC, FLAG, AND SUPPLEMENTAL OPERATIONS

1. The authority citation for part 121 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 40119, 44101, 44701-44702, 44705, 44709-44711, 44713, 44716-44717, 44722, 44901, 44903-44904, 44912, 46105.

2. Amend § 121.703 by revising the section heading and paragraphs (a), (c), (d), (e), and (f); redesignating paragraphs (g) and (h) as paragraphs (h) and (i) respectively; revising newly redesignated paragraph (i); and by adding a new paragraph (g) to read as follows:

§ 121.703 Service difficulty reports (operational).

(a) Each certificate holder shall report the occurrence or detection of each failure, malfunction, or defect concerning—

(1) Any fire and, when monitored by a related fire-warning system, whether the fire-warning system functioned properly;

(2) Any false warning of fire or smoke;

(3) An engine exhaust system that causes damage to the engine, adjacent structure, equipment, or components;

(4) An aircraft component that causes the accumulation or circulation of smoke, vapor, or toxic or noxious fumes;

(5) Any engine flameout or shutdown during flight or ground operations;

(6) A propeller feathering system or ability of the system to control overspeed;

(7) A fuel or fuel-dumping system that affects fuel flow or causes hazardous leakage;

(8) A landing gear extension or retraction, or the opening or closing of landing gear doors during flight;

(9) Any brake system component that results in any detectable loss of brake actuating force when the aircraft is in motion on the ground;

(10) Any aircraft component or system that results in a rejected takeoff after initiation of the takeoff roll or the taking

of emergency actions, as defined by the Aircraft Flight Manual or Pilot's Operating Handbook;

(11) Any emergency evacuation system or component including any exit door, passenger emergency evacuation lighting system, or evacuation equipment found to be defective or that fails to perform the intended function during an actual emergency or during training, testing, maintenance, demonstrations, or inadvertent deployments; and

(12) Autothrottle, autoflight, or flight control systems or components of these systems.

* * * * *

(c) In addition to the reports required by paragraph (a) of this section, each certificate holder shall report any other failure, malfunction, or defect in an aircraft, system, component, or powerplant that occurs or is detected at any time if that failure, malfunction, or defect has endangered or may endanger the safe operation of an aircraft.

(d) Each certificate holder shall submit each report required by this section, covering each 24-hour period beginning at 0900 local time of each day and ending at 0900 local time on the next day, to a centralized collection point as specified by the Administrator. Each report of occurrences during a 24-hour period shall be submitted to the FAA within the next 96 hours. However, a report due on Saturday or Sunday may be submitted on the following Monday, and a report due on a holiday may be submitted on the next workday. Each certificate holder also shall make the report data available for 30 days for examination by the certificate-holding district office in a form and manner acceptable to the Administrator.

(e) The certificate holder shall submit the reports required by this section on a form or in another format acceptable to the Administrator. The reports shall include the following information:

(1) The manufacturer, model, and serial number of the aircraft, engine, or propeller;

(2) The registration number of the aircraft;

(3) The operator designator;

(4) The date on which the failure, malfunction, or defect was discovered;

(5) The stage of flight or ground operation during which the failure, malfunction, or defect was discovered;

(6) The nature of the failure, malfunction, or defect;

(7) The applicable Joint Aircraft System/Component Code;

(8) The total cycles, if applicable, and total time of the aircraft, aircraft engine, propeller, or component;

(9) The manufacturer, manufacturer part number, part name, serial number, and location of the component that failed, malfunctioned, or was defective, if applicable;

(10) The manufacturer, manufacturer part number, part name, serial number, and location of the part that failed, malfunctioned, or was defective, if applicable;

(11) The precautionary or emergency action taken;

(12) Other information necessary for a more complete analysis of the cause of the failure, malfunction, or defect, including available information pertaining to type designation of the major component and the time since the last maintenance overhaul, repair, or inspection; and

(13) A unique control number for the occurrence, in a form acceptable to the Administrator.

(f) A certificate holder that also is the holder of a Type Certificate (including a Supplemental Type Certificate), a Parts Manufacturer Approval, or a Technical Standard Order authorization, or that is a licensee of a Type Certificate holder, need not report a failure, malfunction, or defect under this section if the failure, malfunction, or defect has been reported by that certificate holder under § 21.3 of this chapter or under the accident reporting provisions of 49 CFR part 830.

(g) A report required by this section may be submitted by a certificated repair station when the reporting task has been assigned to that repair station by a part 121 certificate holder. However, the part 121 certificate holder remains primarily responsible for ensuring compliance with the provisions of this section. The part 121 certificate holder shall receive a copy of each report submitted by the repair station.

(h) No person may withhold a report required by this section although all information required by this section is not available.

(i) When a certificate holder gets supplemental information to complete the report required by this section, the certificate holder shall expeditiously submit that information as a supplement to the original report and use the unique control number from the original report.

3. Add § 121.704 to read as follows:

§ 121.704 Service difficulty reports (structural).

(a) Each certificate holder shall report the occurrence or detection of each failure or defect related to—

(1) Corrosion, cracks, or disbonding that requires replacement of the affected part;

(2) Corrosion, cracks, or disbonding that requires rework or blendout because the corrosion, cracks, or disbonding exceeds the manufacturer's established allowable damage limits;

(3) Cracks, fractures, or disbonding in a composite structure that the equipment manufacturer has designated as a primary structure or a principal structural element; or

(4) Repairs made in accordance with approved data not contained in the manufacturer's maintenance manual.

(b) In addition to the reports required by paragraph (a) of this section, each certificate holder shall report any other failure or defect in aircraft structure that occurs or is detected at any time if that failure or defect has endangered or may endanger the safe operation of an aircraft.

(c) Each certificate holder shall submit each report required by this section, covering each 24-hour period beginning at 0900 local time of each day and ending at 0900 local time on the next day, to a centralized collection point as specified by the Administrator. Each report of occurrences during a 24-hour period shall be submitted to the FAA within the next 96 hours. However, a report due on Saturday or Sunday may be submitted on the following Monday, and a report due on a holiday may be submitted on the next workday. Each certificate holder also shall make the report data available for 30 days for examination by the certificate-holding district office in a form and manner acceptable to the Administrator.

(d) The certificate holder shall submit the reports required by this section on a form or in another format acceptable to the Administrator. The reports shall include the following information:

(1) The manufacturer, model, serial number, and registration number of the aircraft;

(2) The operator designator;

(3) The date on which the failure or defect was discovered;

(4) The stage of ground operation during which the failure or defect was discovered;

(5) The part name, part condition, and location of the failure or defect;

(6) The applicable Joint Aircraft System/Component Code;

(7) The total cycles, if applicable, and total time of the aircraft;

(8) Other information necessary for a more complete analysis of the cause of the failure or defect, including corrosion classification, if applicable, or crack length and available information pertaining to type designation of the major component and the time since the

last maintenance overhaul, repair, or inspection; and

(9) A unique control number for the occurrence, in a form acceptable to the Administrator.

(e) A certificate holder that also is the holder of a Type Certificate (including a Supplemental Type Certificate), a Parts Manufacturer Approval, or a Technical Standard Order authorization, or that is a licensee of a Type Certificate holder, need not report a failure or defect under this section if the failure or defect has been reported by that certificate holder under § 21.3 of this chapter or under the accident reporting provisions of 49 CFR part 830.

(f) A report required by this section may be submitted by a certificated repair station when the reporting task has been assigned to that repair station by the part 121 certificate holder. However, the part 121 certificate holder remains primarily responsible for ensuring compliance with the provisions of this section. The part 121 certificate holder shall receive a copy of each report submitted by the repair station.

(g) No person may withhold a report required by this section although all information required by this section is not available.

(h) When a certificate holder gets supplemental information to complete the report required by this section, the certificate holder shall expeditiously submit that information as a supplement to the original report and use the unique control number from the original report.

4. Revise § 121.705 to read as follows:

§ 121.705 Mechanical interruption summary report.

Each certificate holder shall submit to the Administrator, before the end of the 10th day of the following month, a summary report for the previous month of each interruption to a flight, unscheduled change of aircraft en route, unscheduled stop or diversion from a route, or unscheduled engine removal caused by known or suspected mechanical difficulties or malfunctions that are not required to be reported under § 121.703 or § 121.704 of this part.

PART 125—CERTIFICATION AND OPERATIONS: AIRPLANES HAVING A SEATING CAPACITY OF 20 OR MORE PASSENGERS OR A MAXIMUM PAYLOAD CAPACITY OF 6,000 POUNDS OR MORE; AND RULES GOVERNING PERSONS ON BOARD SUCH AIRCRAFT

5. The authority citation for part 125 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701–44702, 44705, 44710–44711, 44713, 44716–44717, 44722.

6. Revise § 125.409 to read as follows:

§ 125.409 Service difficulty reports (operational).

(a) Each certificate holder shall report the occurrence or detection of each failure, malfunction, or defect concerning—

(1) Any fire and, when monitored by a related fire-warning system, whether the fire-warning system functioned properly;

(2) Any false warning of fire or smoke;

(3) An engine exhaust system that causes damage to the engine, adjacent structure, equipment, or components;

(4) An aircraft component that causes the accumulation or circulation of smoke, vapor, or toxic or noxious fumes;

(5) Any engine flameout or shutdown during flight or ground operations;

(6) A propeller feathering system or ability of the system to control overspeed;

(7) A fuel or fuel-dumping system that affects fuel flow or causes hazardous leakage;

(8) A landing gear extension or retraction, or the opening or closing of landing gear doors during flight;

(9) Any brake system component that results in any detectable loss of brake actuating force when the aircraft is in motion on the ground;

(10) Any aircraft component or system that results in a rejected takeoff after initiation of the takeoff roll or the taking of emergency actions, as defined by the Aircraft Flight Manual or Pilot's Operating Handbook;

(11) Any emergency evacuation system or component including any exit door, passenger emergency evacuation lighting system, or evacuation equipment found to be defective or that fails to perform the intended function during an actual emergency or during training, testing, maintenance, demonstrations, or inadvertent deployments; and

(12) Autothrottle, autoflight, or flight control systems or components of these systems.

(b) For the purposes of this section, "during flight" means the period from the moment the aircraft leaves the surface of the earth on takeoff until it touches down on landing.

(c) In addition to the reports required by paragraph (a) of this section, each certificate holder shall report any other failure, malfunction, or defect in an aircraft, system, component, or powerplant that occurs or is detected at any time if that failure, malfunction, or defect has endangered or may endanger the safe operation of an aircraft.

(d) Each certificate holder shall submit each report required by this section, covering each 24-hour period beginning at 0900 local time of each day and ending at 0900 local time on the next day, to a centralized collection point as specified by the Administrator. Each report of occurrences during a 24-hour period shall be submitted to the FAA within the next 96 hours.

However, a report due on Saturday or Sunday may be submitted on the following Monday, and a report due on a holiday may be submitted on the next workday. For aircraft operating in areas where mail is not collected, reports may be submitted within 24 hours after the aircraft returns to a point where the mail is collected. Each certificate holder also shall make the report data available for 30 days for examination by the certificate-holding district office in a form and manner acceptable to the Administrator.

(e) The certificate holder shall submit the reports required by this section on a form or in another format acceptable to the Administrator. The reports shall include the following information:

(1) The manufacturer, model, and serial number of the aircraft, engine, or propeller;

(2) The registration number of the aircraft;

(3) The operator designator;

(4) The date on which the failure, malfunction, or defect was discovered;

(5) The stage of flight or ground operation during which the failure, malfunction, or defect was discovered;

(6) The nature of the failure, malfunction, or defect;

(7) The applicable Joint Aircraft System/Component Code;

(8) The total cycles, if applicable, and total time of the aircraft, aircraft engine, propeller, or component;

(9) The manufacturer, manufacturer part number, part name, serial number, and location of the component that failed, malfunctioned, or was defective, if applicable;

(10) The manufacturer, manufacturer part number, part name, serial number, and location of the part that failed, malfunctioned, or was defective, if applicable;

(11) The precautionary or emergency action taken;

(12) Other information necessary for a more complete analysis of the cause of the failure, malfunction, or defect, including available information pertaining to type designation of the major component and the time since the last maintenance overhaul, repair, or inspection; and

(13) A unique control number for the occurrence, in a form acceptable to the Administrator.

(f) A certificate holder that also is the holder of a Type Certificate (including a Supplemental Type Certificate), a Parts Manufacturer Approval, or a Technical Standard Order authorization, or that is a licensee of a Type Certificate holder, need not report a failure, malfunction, or defect under this section if the failure, malfunction, or defect has been reported by that certificate holder under § 21.3 of this chapter or under the accident reporting provisions of 49 CFR part 830.

(g) A report required by this section may be submitted by a certificated repair station when the reporting task has been assigned to that repair station by a part 125 certificate holder. However, the part 125 certificate holder remains primarily responsible for ensuring compliance with the provisions of this section. The part 125 certificate holder shall receive a copy of each report submitted by the repair station.

(h) No person may withhold a report required by this section although all information required by this section is not available.

(i) When a certificate holder gets supplemental information to complete the report required by this section, the certificate holder shall expeditiously submit that information as a supplement to the original report and use the unique control number from the original report.

7. Add § 125.410 to read as follows:

§ 125.410 Service difficulty reports (structural).

(a) Each certificate holder shall report the occurrence or detection of each failure or defect related to—

(1) Corrosion, cracks, or disbonding that requires replacement of the affected part;

(2) Corrosion, cracks, or disbonding that requires rework or blendout because the corrosion, cracks, or disbonding exceeds the manufacturer's established allowable damage limits;

(3) Cracks, fractures, or disbonding in a composite structure that the equipment manufacturer has designated as a primary structure or a principal structural element; or

(4) Repairs made in accordance with approved data not contained in the manufacturer's maintenance manual.

(b) In addition to the reports required by paragraph (a) of this section, each certificate holder shall report any other failure or defect in aircraft structure that occurs or is detected at any time if that failure or defect has endangered or may

endanger the safe operation of an aircraft.

(c) Each certificate holder shall submit each report required by this section, covering each 24-hour period beginning at 0900 local time of each day and ending at 0900 local time on the next day, to a centralized collection point as specified by the Administrator. Each report of occurrences during a 24-hour period shall be submitted to the FAA within the next 96 hours. However, a report due on Saturday or Sunday may be submitted on the following Monday, and a report due on a holiday may be submitted on the next workday. For aircraft operating in areas where mail is not collected, reports may be submitted within 24 hours after the aircraft returns to a point where the mail is collected. Each certificate holder also shall make the report data available for 30 days for examination by the certificate-holding district office in a form and manner acceptable to the Administrator.

(d) The certificate holder shall submit the reports required by this section on a form or in another format acceptable to the Administrator. The reports shall include the following information:

(1) The manufacturer, model, serial number, and registration number of the aircraft;

(2) The operator designator;

(3) The date on which the failure or defect was discovered;

(4) The stage of ground operation during which the failure or defect was discovered;

(5) The part name, part condition, and location of the failure or defect;

(6) The applicable Joint Aircraft System/Component Code;

(7) The total cycles, if applicable, and total time of the aircraft;

(8) Other information necessary for a more complete analysis of the cause of the failure or defect, including corrosion classification, if applicable, or crack length and available information pertaining to type designation of the major component and the time since the last maintenance overhaul, repair, or inspection; and

(9) A unique control number for the occurrence, in a form acceptable to the Administrator.

(e) A certificate holder that also is the holder of a Type Certificate (including a Supplemental Type Certificate), a Parts Manufacturer Approval, or a Technical Standard Order authorization, or that is a licensee of a Type Certificate holder, need not report a failure or defect under this section if the failure or defect has been reported by that certificate holder under § 21.3 of this

chapter or under the accident reporting provisions of 49 CFR part 830.

(f) A report required by this section may be submitted by a certificated repair station when the reporting task has been assigned to that repair station by the part 125 certificate holder. However, the part 125 certificate holder remains primarily responsible for ensuring compliance with the provisions of this section. The part 125 certificate holder shall receive a copy of each report submitted by the repair station.

(g) No person may withhold a report required by this section although all information required by this section is not available.

(h) When a certificate holder gets supplemental information to complete the report required by this section, the certificate holder shall expeditiously submit that information as a supplement to the original report and use the unique control number from the original report.

PART 135—OPERATING REQUIREMENTS: COMMUTER AND ON-DEMAND OPERATIONS AND RULES GOVERNING PERSONS ON BOARD SUCH AIRCRAFT

8. The authority citation for part 135 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701–44702, 44705, 44709, 44711–44713, 44715–44717, 44722.

9. Amend § 135.415 by revising the section heading and paragraphs (a), (c), (d), (e), and (f); redesignating paragraphs (g) and (h) as paragraphs (h) and (i) respectively; revising newly redesignated paragraph (i); and by adding a new paragraph (g) to read as follows:

§ 135.415 Service difficulty reports (operational).

(a) Each certificate holder shall report the occurrence or detection of each failure, malfunction, or defect concerning—

(1) Any fire and, when monitored by a related fire-warning system, whether the fire-warning system functioned properly;

(2) Any false warning of fire or smoke;

(3) An engine exhaust system that causes damage to the engine, adjacent structure, equipment, or components;

(4) An aircraft component that causes the accumulation or circulation of smoke, vapor, or toxic or noxious fumes;

(5) Any engine flameout or shutdown during flight or ground operations;

(6) A propeller feathering system or ability of the system to control overspeed;

(7) A fuel or fuel-dumping system that affects fuel flow or causes hazardous leakage;

(8) A landing gear extension or retraction, or the opening or closing of landing gear doors during flight;

(9) Any brake system component that results in any detectable loss of brake actuating force when the aircraft is in motion on the ground;

(10) Any aircraft component or system that results in a rejected takeoff after initiation of the takeoff roll or the taking of emergency action, as defined by the Aircraft Flight Manual or Pilot's Operating Handbook;

(11) Any emergency evacuation system or component including any exit door, passenger emergency evacuation lighting system, or evacuation equipment found to be defective, or that fails to perform the intended function during an actual emergency or during training, testing, maintenance, demonstrations, or inadvertent deployments; and

(12) Autothrottle, autoflight, or flight control systems or components of these systems.

* * * * *

(c) In addition to the reports required by paragraph (a) of this section, each certificate holder shall report any other failure, malfunction, or defect in an aircraft, system, component, or powerplant that occurs or is detected at any time if that failure, malfunction, or defect has endangered or may endanger the safe operation of an aircraft.

(d) Each certificate holder shall submit each report required by this section, covering each 24-hour period beginning at 0900 local time of each day and ending at 0900 local time on the next day, to a centralized collection point as specified by the Administrator. Each report of occurrences during a 24-hour period shall be submitted to the FAA within the next 96 hours. However, a report due on Saturday or Sunday may be submitted on the following Monday, and a report due on a holiday may be submitted on the next workday. For aircraft operating in areas where mail is not collected, reports may be submitted within 24 hours after the aircraft returns to a point where the mail is collected. Each certificate holder also shall make the report data available for 30 days for examination by the certificate-holding district office in a form and manner acceptable to the Administrator.

(e) The certificate holder shall submit the reports required by this section on a form or in another format acceptable to the Administrator. The reports shall include the following information:

(1) The manufacturer, model, and serial number of the aircraft, engine, or propeller;

(2) The registration number of the aircraft;

(3) The operator designator;

(4) The date on which the failure, malfunction, or defect was discovered;

(5) The stage of flight or ground operation during which the failure, malfunction, or defect was discovered;

(6) The nature of the failure, malfunction, or defect;

(7) The applicable Joint Aircraft System/Component Code;

(8) The total cycles, if applicable, and total time of the aircraft, aircraft engine, propeller, or component;

(9) The manufacturer, manufacturer part number, part name, serial number, and location of the component that failed, malfunctioned, or was defective, if applicable;

(10) The manufacturer, manufacturer part number, part name, serial number, and location of the part that failed, malfunctioned, or was defective, if applicable;

(11) The precautionary or emergency action taken;

(12) Other information necessary for more complete analysis of the cause of the failure, malfunction, or defect, including available information pertaining to type designation of the major component and the time since the last maintenance overhaul, repair, or inspection; and

(13) A unique control number for the occurrence, in a form acceptable to the Administrator.

(f) A certificate holder that also is the holder of a Type Certificate (including a Supplemental Type Certificate), a Parts Manufacturer Approval, or a Technical Standard Order authorization, or that is a licensee of a Type Certificate holder, need not report a failure, malfunction, or defect under this section if the failure, malfunction, or defect has been reported by that certificate holder under § 21.3 of this chapter or under the accident reporting provisions of 49 CFR part 830.

(g) A report required by this section may be submitted by a certificated repair station when the reporting task has been assigned to that repair station by a part 135 certificate holder. However, the part 135 certificate holder remains primarily responsible for ensuring compliance with the provisions of this section. The part 135 certificate holder shall receive a copy of each report submitted by the repair station.

(h) No person may withhold a report required by this section although all

information required by this section is not available.

(i) When a certificate holder gets supplemental information to complete the report required by this section, the certificate holder shall expeditiously submit that information as a supplement to the original report and use the unique control number from the original report.

10. Add § 135.416 to read as follows:

§ 135.416 Service difficulty reports (structural).

(a) Each certificate holder shall report the occurrence or detection of each failure or defect related to—

(1) Corrosion, cracks, or disbonding that requires replacement of the affected part;

(2) Corrosion, cracks, or disbonding that requires rework or blendout because the corrosion, cracks, or disbonding exceeds the manufacturer's established allowable damage limits;

(3) Cracks, fractures, or disbonding in a composite structure that the equipment manufacturer has designated as a primary structure or a principal structural element; or

(4) Repairs made in accordance with approved data not contained in the manufacturer's maintenance manual.

(b) In addition to the reports required by paragraph (a) of this section, each certificate holder shall report any other failure or defect in aircraft structure that occurs or is detected at any time if that failure or defect has endangered or may endanger the safe operation of an aircraft.

(c) Each certificate holder shall submit each report required by this section, covering each 24-hour period beginning at 0900 local time of each day and ending at 0900 local time on the next day, to a centralized collection point as specified by the Administrator. Each report of occurrences during a 24-hour period shall be submitted to the FAA within the next 96 hours.

However, a report due on Saturday or Sunday may be submitted on the following Monday, and a report due on a holiday may be submitted on the next workday. For aircraft operating in areas where mail is not collected, reports may be submitted within 24 hours after the aircraft returns to a point where the mail is collected. Each certificate holder also shall make the report data available for 30 days for examination by the certificate-holding district office in a form and manner acceptable to the Administrator.

(d) The certificate holder shall submit the reports required by this section on a form or in another format acceptable to the Administrator. The reports shall include the following information:

(1) The manufacturer, model, serial number, and registration number of the aircraft;

(2) The operator designator;

(3) The date on which the failure or defect was discovered;

(4) The stage of ground operation during which the failure or defect was discovered;

(5) The part name, part condition, and location of the failure or defect;

(6) The applicable Joint Aircraft System/Component Code;

(7) The total cycles, if applicable, and total time of the aircraft;

(8) Other information necessary for a more complete analysis of the cause of the failure or defect, including corrosion classification, if applicable, or crack length and available information pertaining to type designation of the major component and the time since the last maintenance overhaul, repair, or inspection; and

(9) A unique control number for the occurrence, in a form acceptable to the Administrator.

(e) A certificate holder that also is the holder of a Type Certificate (including a Supplemental Type Certificate), a Parts Manufacturer Approval, or a Technical Standard Order authorization, or that is a licensee of a Type Certificate holder, need not report a failure or defect under this section if the failure or defect has been reported by that certificate holder under § 21.3 of this chapter or under the accident reporting provisions of 49 CFR part 830.

(f) A report required by this section may be submitted by a certificated repair station when the reporting task has been assigned to that repair station by the part 135 certificate holder. However, the part 135 certificate holder remains primarily responsible for ensuring compliance with the provisions of this section. The part 135 certificate holder shall receive a copy of each report submitted by the repair station.

(g) No person may withhold a report required by this section although all information required by this section is not available.

(h) When a certificate holder gets supplemental information to complete the report required by this section, the certificate holder shall expeditiously submit that information as a supplement to the original report and use the unique control number from the original report.

11. Revise § 135.417 to read as follows:

§ 135.417 Mechanical interruption summary report.

Each certificate holder shall submit to the Administrator, before the end of the

10th day of the following month, a summary report for the previous month of each interruption to a flight, unscheduled change of aircraft en route, unscheduled stop or diversion from a route, or unscheduled engine removal caused by known or suspected mechanical difficulties or malfunctions that are not required to be reported under § 135.415 or § 135.416 of this part.

PART 145—REPAIR STATIONS

12. The authority citation for part 145 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701–44702, 44707, 44717.

13. Amend § 145.63 by revising paragraphs (a) and (c) and adding paragraphs (d) and (e) to read as follows:

§ 145.63 Reports of defects or unairworthy conditions.

(a) Each certificated domestic repair station shall, within 96 hours after it discovers any serious defect in, or other recurring unairworthy condition of, an aircraft, powerplant, or propeller, or any component of any of them, submit a report to a central collection point as specified by the Administrator. The report shall be made on a form or in another format acceptable to the Administrator, describing the defect or unairworthy condition completely without withholding any pertinent information.

* * * * *

(c) The holder of a domestic repair station certificate that also is the holder of a part 121, part 125, or part 135 certificate, a Type Certificate (including a Supplemental Type Certificate), a Parts Manufacturer Approval, or a Technical Standard Order Authorization, or that is the licensee of a Type Certificate holder, need not report a failure, malfunction, or defect under this section if the failure, malfunction, or defect has been reported by it under § 21.3, § 121.703, § 121.704, § 125.409, § 125.410, § 135.415, or § 135.416 of this chapter.

(d) A certificated domestic repair station may submit a Service Difficulty Report (operational or structural) for—

(1) A part 121 certificate holder under § 121.703(g) or § 121.704(f) provided that the report meets the requirements of §§ 121.703(d) and 121.703(e), or §§ 121.704(c) and 121.704(d) of this chapter, as appropriate;

(2) A part 125 certificate holder under § 125.409(g) or § 125.410(f) provided that the report meets the requirements of §§ 125.409(d) and 125.409(e), or §§ 125.410(c) and 125.410(d) of this chapter, as appropriate;

(3) A part 135 certificate holder under § 135.415(g) or § 135.416(f) provided that the report meets the requirements of §§ 135.415(d) and 135.415(e), or §§ 135.416(c) and 135.416(d) of this chapter, as appropriate.

(e) A certificated domestic repair station authorized to report a failure, malfunction, or defect under paragraph (d) of this section shall not report the same failure, malfunction, or defect under paragraph (a) of this section. A copy of the report submitted under paragraph (d) of this section shall be forwarded to the certificate holder.

14. Amend § 145.79 by revising paragraphs (c) and (d) and adding paragraphs (e) and (f) to read as follows:

§ 145.79 Records and reports.

* * * * *

(c) Each certificated foreign repair station shall, within 96 hours after it discovers any serious defect in, or other recurring unairworthy condition of, any aircraft, powerplant, propeller, or any component of any of them, submit a report to a central collection point as specified by the Administrator. The report shall be made on a form or another format acceptable to the Administrator, describing the defect or unairworthy condition completely without withholding any pertinent information.

(d) The holder of a foreign repair station certificate that also is the holder of a Type Certificate (including a Supplemental Type Certificate), a Parts Manufacturer Approval, or a Technical Standard Order Authorization or that is the licensee of a Type Certificate holder need not report a failure, malfunction, or defect under this section if the failure, malfunction, or defect has been reported by it under § 21.3 of this chapter.

(e) A certificated foreign repair station may submit a Service Difficulty Report (operational or structural) for—

(1) A part 121 certificate holder under § 121.703(g) or § 121.704(f) provided that the report meets the requirements of §§ 121.703(d) and 121.703(e) or §§ 121.704(c) and 121.704(d) of this chapter, as appropriate;

(2) A part 125 certificate holder under § 125.409(g) or § 125.410(f) provided that the report meets the requirements of §§ 125.409(d) and 125.409(e) or §§ 125.410(c) and 125.410(d) of this chapter, as appropriate;

(3) A part 135 certificate holder under § 135.415(g) or § 135.416(f) provided that the report meets the requirements of §§ 135.415(d) and 135.415(e) or §§ 135.416(c) and 135.416(d) of this chapter, as appropriate.

(f) A certificated foreign repair station authorized to report a failure, malfunction, or defect under paragraph (e) of this section shall not report the same failure, malfunction, or defect

under paragraph (c) of this section. A copy of the report submitted under paragraph (e) of this section shall be forwarded to the certificate holder.

Issued in Washington, D.C., on September 8, 2000.

Jane F. Garvey,

Administrator.
