

**DEPARTMENT OF COMMERCE****Bureau of Export Administration****Technical Advisory Committees;  
Notice of Recruitment of Private-Sector  
Members**

**SUMMARY:** Six Technical Advisory Committees (TACs) advise the Department of Commerce on the technical parameters for export controls applicable to dual-use commodities and technology and on the administration of those controls. The TACs are composed of representatives from industry and Government representing diverse points of view on the concerns of the exporting community. Industry representatives are selected from firms producing a broad range of goods, technologies, and software presently controlled for national security, non-proliferation, foreign policy, and short supply reasons or that are proposed for such controls, balanced to the extent possible among large and small firms.

TAC members are appointed by the Secretary of Commerce and serve terms of not more than four consecutive years. The membership reflects the Department's commitment to attaining balance and diversity. TAC members must obtain secret-level clearances prior to appointment. These clearances are necessary so that members can be permitted access to the classified information needed to formulate recommendations to the Department of Commerce. Each TAC meets approximately 4 times per year. Members of the Committees will not be compensated for their services. The six TACs are responsible for advising the Department of Commerce on the technical parameters for export controls and the administration of those controls within the following areas: Information Systems TAC: Control List Categories 3 (electronics—semiconductor section), 4 (computers), and 5 (telecommunications and information security); Materials TAC: Control List Category 1 (materials, chemicals, microorganisms, and toxins); Materials Processing Equipment TAC: Control List Category 2 (materials processing); Regulations and Procedures TAC: the Export Administration Regulations (EAR) and procedures for implementing the EAR; Sensors and Instrumentation TAC: Control List Categories 3 (electronics—instrumentation section) and 6 (sensors and lasers); Transportation and Related Equipment TAC: Control List Categories 7 (navigation and avionics), 8 (marine technology), and 9 (propulsion systems, space vehicles, and related equipment).

To respond to this recruitment notice, please send a copy of your resume. Please use the fax number or e-mail address below.

*Deadline:* This Notice of Recruitment will be open for one year from its date of publication in the **Federal Register**.

**DEPARTMENT OF COMMERCE****Bureau of Export Administration****Sensors and Instrumentation  
Technical Advisory Committee; Notice  
of Open Meeting**

The Sensors and Instrumentation Technical Advisory Committee will meet on August 14, 2001, 9 a.m., in the Herbert C. Hoover Building, Room 3884, 14th Street between Pennsylvania and Constitution Avenues, NW., Washington, DC. The Committee advises the Office of the Assistant Secretary for Export Administration with respect to technical questions that affect the level of export controls applicable to sensors and instrumentation equipment and technology.

**Agenda**

1. Opening remarks by the Chairman.
2. Presentation of papers or comments by the public.
3. Report on consideration to certify foreign availability assessment study presented by International Safety Instruments Association.
4. Discussion on SITAC proposal for change to Wassenaar Arrangement Dual-Use Control List.
5. Discussion of draft changes to Commerce Control List Category 6 (sensors and lasers).

The meeting will be open to the public and a limited number of seats will be available. Reservations are not accepted. To the extent that time permits, members of the public may present oral statements to the Committee. Written statements may be submitted at any time before or after the meeting. However, to facilitate distribution of public presentation materials to the Committee members, the Committee suggests that presenters

forward the public presentation materials two weeks prior to the meeting date to the following address: Ms. Lee Ann Carpenter, OSIES/EA/BXA MS:3876, U.S. Department of Commerce, 14th St. & Constitution Ave., NW., Washington, DC 20230.

For more information or copies of the minutes, contact Lee Ann Carpenter on (202) 482-2583.

Dated: July 12, 2001.

**Lee Ann Carpenter,**

*Committee Liaison Officer.*

**DEPARTMENT OF COMMERCE****International Trade Administration**

[A-201-805]

**Circular Welded Non-Alloy Steel Pipe  
From Mexico: Amended Final Results  
of Antidumping Duty Administrative  
Review**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of amended final results in the antidumping duty administrative review of circular welded non-alloy steel pipe from Mexico.

**EFFECTIVE DATE:** July 18, 2001.

**FOR FURTHER INFORMATION CONTACT:** John Drury or Helen Kramer, AD/CVD Enforcement Group III, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, DC 20230; telephone: (202) 482-0195 or (202) 482-0405, respectively.

**Scope of the Review**

The products covered by this order are circular welded non-alloy steel pipes and tubes, of circular cross-section, not more than 406.4 millimeters (16 inches) in outside diameter, regardless of wall thickness, surface finish (black, galvanized, or painted), or end finish (plain end, beveled end, threaded, or threaded and coupled). These pipes and tubes are generally known as standard pipes and tubes and are intended for the low pressure conveyance of water, steam, natural gas, and other liquids and gases in plumbing and heating systems, air conditioning units, automatic sprinkler systems, and other related uses, and generally meet ASTM A-53 specifications. Standard pipe may also be used for light load-bearing applications, such as for fence tubing, and as structural pipe tubing
