DEPARTMENT OF LABOR

Employment and Training Administration

[NAFTA-5832]

Pittsburgh Annealing Box Company, LLC, Pittsburgh, PA; Notice of Negative Determination Regarding Application for Reconsideration

By application dated April 16, 2002, the company requested administrative reconsideration of the Department's negative determination regarding eligibility to apply for North American Free Trade Agreement-Transitional Adjustment Assistance (NAFTA-TAA), applicable to workers and former workers of the subject firm. The denial notice was signed on March 25, 2002, and was published in the **Federal Register** on April 5, 2002 (67 FR 16442).

Pursuant to 29 CFR 90.18(c) reconsideration may be granted under the following circumstances:

- (1) If it appears on the basis of facts not previously considered that the determination complained of was erroneous;
- (2) if it appears that the determination complained of was based on a mistake in the determination of facts not previously considered; or
- (3) if in the opinion of the Certifying Officer, a mis-interpretation of facts or of the law justified reconsideration of the decision.

The denial of NAFTA-TAA for workers engaged in activities related to the production of annealing inner covers at Pittsburgh Annealing Box Company, LLC, Pittsburgh, Pennsylvania, was based on the finding that criteria (3) and (4) of the group eligibility requirements of paragraph (a)(1) of section 250 of the Trade Act, as amended, were not met. There were no company imports of annealing inner covers from Mexico or Canada, nor did the subject firm shift production from Pittsburgh, Pennsylvania to Mexico or Canada. The survey conducted by the Department of Labor revealed no increase in customers' purchases of annealing inner covers from Canada or Mexico during the period of sales declines at the subject plant.

The petitioner alleges that increased imports of semi-processed steel from

Mexico adversely affected the business of their customers. The petitioner further states that these imports have displaced tonnage that the subject firm's customers would have produced and thus reduced the need for the product produced by the subject plant (annealing inner covers).

Semi-processed steel imports into the United States are not relevant to the TAA petition that was filed on behalf of workers producing annealing inner covers. The product imported must be "like or directly" competitive with what the subject plant produced and the imports must "contribute importantly" to the layoffs at the subject plant to meet the eligibility requirements for adjustment assistance under section 250(a) of the Trade Act of 1974, as amended. Further examination of the facts developed in the initial investigation show that company imports and customer imports of annealing inner covers did not "contribute importantly" to the layoffs at the subject plant.

Conclusion

After review of the application and investigative findings, I conclude that there has been no error or misinterpretation of the law or of the facts which would justify reconsideration of the Department of Labor's prior decision. Accordingly, the application is denied.

Signed at Washington, DC this 30th day of May, 2002.

Edward A. Tomchick,

Director, Division of Trade Adjustment Assistance.

BILLING CODE 4510-30-P

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Records Schedules; Availability and Request for Comments

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Once approved by NARA, records schedules provide mandatory instructions on what happens to records when no longer needed for current Government business. They authorize the preservation of records of

continuing value in the National Archives of the United States and the destruction, after a specified period, of records lacking administrative, legal, research, or other value. Notice is published for records schedules in which agencies propose to destroy records not previously authorized for disposal or reduce the retention period of records already authorized for disposal. NARA invites public comments on such records schedules, as required by 44 U.S.C. 3303a(a).

DATES: Requests for copies must be received in writing on or before July 29, 2002. Once the appraisal of the records is completed, NARA will send a copy of the schedule. NARA staff usually prepare appraisal memorandums that contain additional information concerning the records covered by a proposed schedule. These, too, may be requested and will be provided once the appraisal is completed. Requesters will be given 30 days to submit comments.

ADDRESSES: To request a copy of any records schedule identified in this notice, write to the Life Cycle Management Division (NWML), National Archives and Records Administration (NARA), 8601 Adelphi Road, College Park, MD 20740-6001. Requests also may be transmitted by FAX to 301-837-3698 or by e-mail to records.mgt@nara.gov. Requesters must cite the control number, which appears in parentheses after the name of the agency which submitted the schedule, and must provide a mailing address. Those who desire appraisal reports should so indicate in their request.

FOR FURTHER INFORMATION CONTACT: Marie Allen, Director, Life Cycle Management Division (NWML), National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001. Telephone: (301) 837-3635. E-mail: records.mgt@nara.gov.

SUPPLEMENTARY INFORMATION: Each year Federal agencies create billions of records on paper, film, magnetic tape, and other media. To control this accumulation, agency records managers prepare schedules proposing retention periods for records and submit these schedules for NARA's approval, using the Standard Form (SF) 115, Request for Records Disposition Authority. These schedules provide for the timely transfer into the National Archives of historically valuable records and authorize the disposal of all other records after the agency no longer needs them to conduct its business. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules,

however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

No Federal records are authorized for destruction without the approval of the Archivist of the United States. This approval is granted only after a thorough consideration of their administrative use by the agency of origin, the rights of the Government and of private persons directly affected by the Government's activities, and whether or not they have historical or other value.

Besides identifying the Federal agencies and any subdivisions requesting disposition authority, this public notice lists the organizational unit(s) accumulating the records or indicates agency-wide applicability in the case of schedules that cover records that may be accumulated throughout an agency. This notice provides the control number assigned to each schedule, the total number of schedule items, and the number of temporary items (the records proposed for destruction). It also includes a brief description of the temporary records. The records schedule itself contains a full description of the records at the file unit level as well as their disposition. If NARA staff has prepared an appraisal memorandum for the schedule, it too includes information about the records. Further information about the disposition process is available on request.

Schedules Pending

1. Department of the Air Force, Agency-wide (N1-AFU-02-17, 75 items, 75 temporary items). Electronic copies of documents created using electronic mail and word processing that relate to intelligence activities, weather observations, operations support, manpower and organizational matters, and legal programs and activities as well as electronic records that relate to such matters and that supplement or replace paper records already approved for disposal. Records relate to such subjects as proposals for the collection of intelligence, the preparation of intelligence estimates, surface and upper air observations, weather reconnaissance, strategic trade control, productivity enhancement, financial programs, and the administration of military justice.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-346]

License No. NPF-3: FirstEnergy Nuclear Operating Company, Davis-Besse Nuclear Power Station, Unit 1; Receipt of Request for Action Under 10 CFR 2.206

Notice is hereby given that by petition dated April 24, 2002, David Lochbaum (petitioner) has requested on behalf of multiple organizations that the U.S. Nuclear Regulatory Commission (NRC) take action with regard to FirstEnergy Nuclear Operating Company, the owner of the Davis-Besse Nuclear Power Station. Specifically, the petitioners request that the NRC issue an order to FirstEnergy, requiring a verification by an independent party (VIP) for issues related to the reactor vessel head problem at Davis-Besse, Unit 1.

As the basis for this request, the petitioner states that the order issued by the NRC on August 14, 1996, to Northeast Nuclear Energy Company, the owner of the Millstone Nuclear Power Station in Connecticut, is a recent and relevant precedent for the action requested by the petitioners.

The request is being treated pursuant to 10 CFR 2.206 of the Commission's regulations. The request has been referred to the Director of the NRC's Office of Nuclear Reactor Regulation (NRR). As provided by Section 2.206, appropriate action will be taken on this petition within a reasonable time. The petitioners addressed the NRR Petition Review Board (PRB) on May 9, 2002, to discuss the petition. The results of that discussion were transcribed, considered in the PRB's determination regarding the petitioners' request and in establishing the schedule for the review of the petition, and are treated as a supplement to the petition. A copy of the petition and the supplements
