Burden Statement: The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

In the previously approved ICR, the estimated number of respondents for this information collection was 390 with 390 responses per year. The annual industry reporting and recordkeeping burden for this collection of information was 15,463 hours. On the average, each respondent reported once per year and approximately 40 hours were spent preparing each response. The total annual reporting and recordkeeping cost burden for this collection of information was \$15,000. This included an annual cost of \$1,000 associated with capital/startup costs and \$14,000 associated with the annual operation and maintenance costs.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

An agency may not conduct or sponsor, and a person is not required to

respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15.

Diazinon; End-Use Products Cancellation Order

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's cancellation order for the product and use cancellations as requested by companies (hereafter collectively referred to as the "EUP Registrants") that hold the registrations of pesticide End-Use Products (EUPs) containing the active ingredient diazinon and accepted by EPA, pursuant to section 6(f) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). This order follows up an September 11, 2002, notice of receipt from the EUP Registrants, of requests for cancellations and/or amendments of their diazinon product registrations to terminate all indoor uses, certain agricultural uses and certain outdoor non-agricultural uses. In the September 11, 2002 notice, EPA indicated that it would issue an order granting the voluntary product and use registration cancellations unless the Agency received any substantive comment within the comment period that would merit its further review of these requests. The Agency did not receive any comments specific to these cancellations. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested cancellations. Any distribution, sale, or use of the products subject to this cancellation order is only permitted in accordance with the terms of the existing stocks provisions of this cancellation order.

DATES: The cancellations are effective December 9, 2002.

II. Receipt of Requests to Cancel and Amend Registrations to Delete Uses.

A. Background

Certain registrants requested in letters dated December 2001, and January, February, March, April, May, June, and July 2002 that their diazinon registrations be amended to delete all indoor uses, certain agricultural uses, and any other uses that the registrants do not wish to maintain. The requests also included deletions of outdoor non-agricultural uses from the labeling of certain end-use products so that such products would be labeled for agricultural uses only. Similarly, other diazinon end-use registrants requested voluntary cancellation of their diazinon EUP registrations with indoor use and/or certain outdoor non-agricultural uses,

and any other uses that the registrants do not wish to maintain. EPA announced its receipt of these above-mentioned cancellation requests in a **Federal Register** notice dated September 11, 2002 (67 FR 57589), (FRL-7197-8).

These requested cancellations and amendments are consistent with the requests in December 2000 by the manufacturers of diazinon technical products, and EPA's approval of such requests, to terminate all indoor uses and certain agricultural uses from their diazinon product registrations because of EPA's concern with the potential exposure risk, especially to children, associated with diazinon containing products. The indoor uses and agricultural uses subject to cancellation are identified in List 1 below:

List 1 — Uses Requested for Termination

1. *Indoor uses:* Pet collars, or inside any structure or vehicle, vessel, or aircraft or any enclosed area, and/or on any contents therein (except mushroom houses), including food/feed handling

establishments, greenhouses, schools, residences, commercial buildings, museums, sports facilities, stores, warehouses and hospitals.

2. *Agricultural uses:* Alfalfa, bananas, Bermuda grass, dried beans, dried peas, celery, red chicory (radicchio), citrus, clover, coffee, cotton, cowpeas, cucumbers, dandelions, forestry (ground squirrel/rodent burrow dust stations for public health use), kiwi, lespedeza, parsley, parsnips, pastures, peppers, potatoes (Irish and sweet), sheep, sorghum, squash (winter and summer), rangeland, Swiss chard, tobacco, and turnips (roots and tops).

In today's Cancellation Order, EPA is approving the registrants' requested cancellations and amendments of the their diazinon end-use products registrations to terminate all uses identified in List 1.

III. Cancellation Order

Pursuant to section 6(f) of FIFRA, EPA hereby approves the requested cancellations of diazinon product and use registrations identified in Tables 1 and 2 of this notice. Accordingly, the Agency orders that the diazinon end-use product registrations identified in Table 1 are hereby canceled. The Agency also orders that all of the uses identified in List 1 and all other uses (including specific outdoor non-agricultural uses) identified for deletion in Table 2 are hereby canceled from the end-use product registrations identified in Table 2. Any distribution, sale, or use of existing stocks of the products identified in Tables 1 and 2 in a manner inconsistent with the terms of this order or the Existing Stock Provisions in Unit IV of this notice will be considered a violation of section 12(a)(2)(K) of FIFRA and/or section 12(a)(1)(A) of FIFRA.

IV. Existing Stocks Provisions

For purposes of this Order, the term "existing stocks" is defined, pursuant to EPA's existing stocks policy (56 FR 29362, June 26, 1991), as those stocks of a registered pesticide product which are currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the amendment or cancellation. The existing stocks provisions of this Cancellation Order are as follows:
