[Docket No. OST–2004–19426]

RIN 2105–AD43

Elimination of Commuter Air Carrier Registrations

AGENCY: Office of the Secretary (OST), Department of Transportation (DOT).

ACTION: Final rule.

SUMMARY: This action amends the regulations governing air taxi operators and commuter air carriers to eliminate the requirement that commuter air carriers file initial and amended registration forms. The information provided on such forms is duplicative of information that commuter air carriers are separately required to file under other regulations. Accordingly, this amendment simplifies the process of applying for and maintaining commuter air carrier authority. This action also makes conforming amendments to other rules affected by the amendment, as well as to make other minor administrative, editorial, clarifying, and organizational changes to rules applicable to air taxi operators and commuter air carriers.

DATES: This final rule becomes effective June 15, 2005.

SUPPLEMENTARY INFORMATION:

Background

Notice of Proposed Rulemaking

These amendments follow a Notice of Proposed Rulemaking (NPRM) published in the **Federal Register** on October 28, 2004 (69 FR 62833). In that NPRM, the Department proposed to amend Part 298 of Title 14 of the Code of Federal Regulations (14 CFR) to eliminate the requirement that commuter air carriers file initial and amended registration forms, as currently required, thus relieving commuters from the often duplicative burden of filing registration forms and amendments, as well as initial and updated fitness information with the Department. Presently, approximately 35 air carriers hold commuter authority from the Department.

In the NPRM, the Department explained that in addition to meeting

the registration and insurance requirements of Part 298, a commuter air carrier must also be found "fit, willing, and able" to conduct its scheduled passenger operations. In making that fitness determination, the Department requires companies proposing to operate as a commuter air carrier to file an application with the Department in accordance with 14 CFR Parts 201 and 204. Once the Department determines that the company is fit to provide its proposed scheduled passenger operations, the Department issues a Commuter Air Carrier Authorization with accompanying terms, conditions, and limitations. Additionally, Part 298 requires commuter air carriers to notify the Department of any substantial changes in their operations, ownership, or management.

All of the information reported on the air taxi/commuter air carrier registration form, OST Form 4507, is filed by commuter air carriers in connection with their fitness determinations. Therefore, the Department concluded that it is redundant to require commuter air carriers to file both registration forms and fitness data.

Discussion of Comments

One comment from an individual was received in response to the NPRM. The commenter argued that the Department's air operator classifications for economic authority (air taxi, commuter air carrier, and certificated air carrier) differ significantly from those of the Federal Aviation Administration (FAA), and contends that such differences in classifications are extremely confusing to the aviation industry. The commenter urges the Department to amend its classifications to coincide with those of the FAA.

We have reviewed the arguments made by the commenter, and find that, although the concerns raised are related to air carrier classifications, the commenter's proposed actions are beyond the scope of this rulemaking action, which is intended to alleviate the burden on commuter air carriers to file duplicative information with the Department. We will retain the commenter's recommendations, however, for consideration should we pursue a future rulemaking action that addresses the issues raised.

Discussion of the Final Rule

This final rule adopts the amendments proposed in the NPRM without any modifications or changes. Specifically, this action (1) reclassifies commuter air carriers from being a subset of air taxi operators to their own

air carrier class that operates small aircraft in scheduled passenger service; (2) removes the requirement in Part 298 for commuter air carriers to file air taxi registrations (and amendments) with the Department; and (3) makes conforming amendments to other rules affected by these changes to commuter air carrier economic authority.

Paperwork Reduction Act

This final rule contains information collection requirements that are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (Pub. L. 104-13). In the NPRM, the Department requested comments on the estimated information collection burden associated with this rulemaking action, which is summarized below. No comments were received. Since this final rule is relieving in nature and reduces the paperwork burden associated with OST Form 4507, the Department has requested OMB approval of the reduced paperwork burden.

OMB Information Collection Number: 2120-0633.

Title of Information Collection: Exemptions for Air Taxi and Commuter Air Carrier Operations.

Affected Public: Commuter air carriers and applicants for commuter air carrier authority.

Brief Abstract: Applicants for authority to operate as an air taxi operator or commuter air carrier under 14 CFR Part 298 are required to submit a registration form (OST Form 4507) that asks for basic information about the company (such as, name, address, telephone/fax numbers, types of operations being performed, Federal Aviation Administration (FAA) operating certificate, aircraft operated, and whether the company is a U.S. citizen). Once registered with the Department, the air taxi or commuter air carrier is required to submit an amendment to the Department when information on the registration changes. This final rule eliminates this registration requirement for commuter air carriers—since the information required on the registration is duplicative of information provided to the Department elsewhere—thus resulting in a reduction in the above-noted paperwork collection.

Burden Hours: This amendment results in a diminution of the regulatory burden on affected parties. There are approximately 35 currently-authorized commuter air carriers subject to this reporting requirement, and new applicants for commuter authority over the past three years have averaged approximately four per year. The

paperwork burden of this reporting requirement on commuter air carriers varies depending on the extent to which the information on the registration changes. A carrier does not need to submit further forms if the information contained in a registration does not change. As a result, the number of registration forms filed will vary. Based on our recent experience in this area, we have estimated approximately two amended registrations per currently-authorized commuter air carrier plus one registration for each new commuter applicant. Thus, we estimate the reduction in the paperwork burden for these carriers to be, on an annual basis, approximately 74 responses (4 new and 70 amended OST Forms 4507s) and 37 burden hours (74 responses x .5 hours per response).

Cost to the Respondents: We have previously estimated the average cost of completing and submitting a new or amended OST Form 4507 to be approximately \$20.00. Thus, we estimate the cost savings to respondents of the proposed elimination of commuter registrations to be approximately \$1,480 (74 responses x \$20 per response).

International Compatibility

In keeping with U.S. obligations under the Convention on International Civil Aviation, it is the Department's policy to comply with International Civil Aviation Organization (ICAO) Standards and Recommended Practices to the maximum extent practicable. The Department has determined that there are no ICAO Standards and Recommended Practices that correspond to these amendments.

Executive Order 12866 and DOT Regulatory Policies and Provisions

Executive Order 12866, Regulatory Planning and Review, directs the Department to assess both the costs and the benefits of a regulatory change. We are not allowed to propose or adopt a regulation unless we make a reasoned determination that the benefits of the intended regulation justify the costs. Our assessment of this rulemaking indicates that its economic impact is minimal because the rule will not impose any new costs on the affected commuter air carriers; in fact, it relieves them of a filing requirement with the attendant costs and burdens. The remaining changes are administrative and editorial in nature and primarily reflect organizational and procedural changes within the Department. This rulemaking is non-significant under DOT policies and procedures and was not reviewed by the Office of

Management and Budget under Executive Order 12866.

Regulatory Flexibility Act Analysis

The Regulatory Flexibility Act of 1980 (RFA) directs the Department to fit regulatory requirements to the scale of the business, organizations, and governmental jurisdictions subject to the regulation. We are required to determine whether a proposed or final action will have a "significant economic impact on a substantial number of small entities" as they are defined in the Act. If we find that the action will have a significant impact, we must do a "regulatory flexibility analysis."

This final rule relieves commuter air carriers from filing registration forms and amendments, and reorganizes some of the regulations applicable to commuter air carriers. Since elimination of this requirement will affect fewer than 40 companies, we certify that this action will not have a significant economic impact on a substantial number of small entities.

Trade Impact Assessments

The Trade Agreement Act of 1979 prohibits Federal agencies from establishing any standards or engaging in related activities that create unnecessary obstacles to the foreign commerce of the United States. Legitimate domestic objectives, such as safety, are not considered unnecessary obstacles. The statute also requires consideration of international standards and, where appropriate, that they be the basis for U.S. standards. The Department has assessed the potential effect of this rulemaking and has determined that it will have only a domestic impact and therefore no effect on any trade-sensitive activity.

Unfunded Mandates Assessment

The Unfunded Mandates Reform Act of 1995 (the Act) is intended, among other things, to curb the practice of imposing unfunded Federal mandates on State, local, and tribal governments. Title II of the Act requires each Federal agency to prepare a written statement assessing the effects of any Federal mandate in a proposed or final agency rule that may result in an expenditure of \$100 million or more (adjusted annually for inflation) in any one year by State, local, and tribal governments, in the aggregate, or by the private sector; such a mandate is deemed to be a "significant regulatory action."

This final rule does not contain such a mandate. The requirements of Title II of the Act, therefore, do not apply.

Executive Order 13132, Federalism

The Department has analyzed these amendments under the principles and criteria of Executive Order 13132, Federalism. We have determined that this rulemaking action would not have a substantial direct effect on the States, on the relationship between the Federal Government and the States, or on the distribution of power and responsibilities among the various levels of government.

Subpart A—General

§ 298.1 Applicability of part.

This part establishes classifications of air carriers known as “air taxi operators” and “commuter air carriers,” provides certain exemptions to them from some of the economic regulatory provisions of Subtitle VII of Title 49 of the United States Code (Transportation), specifies procedures by which such air carriers may obtain authority to conduct operations, and establishes rules applicable to their operations in interstate and/or foreign air transportation in all States, Territories and possessions of the United States. This part also establishes reporting requirements for commuter air carriers and small certificated air carriers.

§ 298.2 Definitions.

As used in this part:

Air taxi operator means an air carrier as established by § 298.3(a).

Air transportation means interstate air transportation, foreign air transportation, or the transportation of mail by aircraft as defined by the Statute.¹

Aircraft-hours means the airborne hours of aircraft computed from the moment an aircraft leaves the ground until it touches the ground at the end of a flight stage.

Aircraft miles means the miles (computed in airport-to-airport distances) for each flight stage actually completed, whether or not performed in accordance with the scheduled pattern.

Certificated air carrier means an air carrier holding a certificate issued under section 41102 of the Statute.

Citizen of the United States means:

- (1) An individual who is a citizen of the United States;
- (2) A partnership each of whose partners is an individual who is a citizen of the United States; or
- (3) A corporation or association organized under the laws of the United States or a state, the District of Columbia, or a territory or possession of the United States, of which the president and at least two-thirds of the board of directors and other managing officers are citizens of the United States, which is under the actual control of citizens of the United States, and in which at least 75 percent of the voting interest is owned or controlled by persons that are citizens of the United States.

Commuter air carrier means an air carrier as established by § 298.3(b) that

¹ Interstate air transportation is defined in section 40102(a)(25) as the transportation of passengers or property by aircraft as a common carrier for compensation, or the transportation of mail by aircraft (1) between a place in (i) a State, territory, or possession of the United States and a place in the District of Columbia or another State, territory, or possession of the United States; (ii) Hawaii and another place in Hawaii through the airspace over a place outside Hawaii; (iii) the District of Columbia and another place in the District of Columbia; or (iv) a territory or possession of the United States and another place in the same territory or possession; and (2) when any part of the transportation is by aircraft. **NOTE:** Operations wholly within the geographic limits of a single State are not considered interstate air transportation if in those operations the carrier transports no more than a *de minimus* volume of passengers or property moving as part of a continuous journey to or from a point outside the State.

Foreign air transportation is defined in section 40102(a)(23) of the Statute as the transportation of passengers or property by aircraft as a common carrier for compensation, or the transportation of mail by aircraft, between a place in the United States and a place outside the United States when any part of the transportation is by aircraft.

Air transportation also is defined to include the transportation of mail by aircraft. Section 5402 of the Postal Reorganization Act, 39 U.S.C. 5402, authorizes the carriage of mail by air taxi operators and commuter air carriers in some circumstances under contract with the U.S. Postal Service.

carries passengers on at least five round trips per week on at least one route between two or more points according to its published flight schedules that specify the times, days of the week, and places between which those flights are performed.

Departure means takeoff from an airport.

Eligible place means a place in the United States that—

(1)(i) Was an eligible point under section 419 of the Federal Aviation Act of 1958 as in effect before October 1, 1988;

(ii) Received scheduled air transportation at any time after January 1, 1990; and

(iii) Is not listed in Department of Transportation Orders 89–9–37 and 89–12–52 as a place ineligible for compensation under Subchapter II of Chapter 417 of the Statute; or

(2) Was determined, on or after October 1, 1988, and before the date of the enactment of the Wendell H. Ford Aviation Investment and Reform Act for the 21st Century, by the Department to be eligible to receive subsidized small community air service under section 41736(a) of the Statute.

Flight stage means the operation of an aircraft from takeoff to landing.

Large aircraft means any aircraft originally designed to have a maximum passenger capacity of more than 60 seats or a maximum payload capacity of more than 18,000 pounds.

Maximum certificated takeoff weight means the maximum takeoff weight authorized by the terms of the aircraft airworthiness certificate.²

Maximum passenger capacity means the maximum number of passenger seats for which an aircraft is configured.

Maximum payload capacity means:

(1) The maximum certificated take-off weight of an aircraft, less the empty weight,³ less all justifiable aircraft equipment, and less the operating load (consisting of minimum fuel load, oil, flight crew, steward's supplies, etc.). For purposes of this part, the allowance for the weight of the crew, oil, and fuel is as follows:

(i) Crew—200 pounds per crew member required under FAA regulations,

(ii) Oil—350 pounds,

(iii) Fuel—the minimum weight of fuel required under FAA regulations for a flight between domestic points 200 miles apart,⁴

(2) *Provided, however,* That in the case of aircraft for which a maximum zero fuel weight is prescribed by the FAA,⁵ maximum payload capacity means the maximum zero fuel weight, less the empty weight, less all justifiable aircraft equipment, and less the operating load (consisting of minimum flight crew, steward's supplies, etc., but not including disposable fuel or oil).

Mile means a statute mile, *i.e.*, 5,280 feet.

Nonrevenue passenger means a person traveling free or under token charges, except those expressly named in the definition of revenue passenger; a person traveling at a fare or discount available only to employees or authorized persons of air carriers or their agents or only for travel on the business of the carriers; and an infant who does not occupy a seat. (This definition is for 14 CFR part 298 traffic-reporting purposes and may differ from the definitions used in other parts by the Federal Aviation Administration and the Transportation Security Administration for the collection of Passenger Facility Charges and Security Fees.) The definition includes, but is not limited to, the following examples of passengers when traveling free or pursuant to token charges:

(1) Directors, officers, employees, and others authorized by the air carrier operating the aircraft;

(2) Directors, officers, employees, and others authorized by the air carrier or another carrier traveling pursuant to a pass interchange agreement;

(3) Travel agents being transported for the purpose of familiarizing themselves with the carrier's services;

(4) Witnesses and attorneys attending any legal investigation in which such carrier is involved;

(5) Persons injured in aircraft accidents, and physicians, nurses, and others attending such persons;

(6) Any persons transported with the object of providing relief in cases of general epidemic, natural disaster, or other catastrophe;

(7) Any law enforcement official, including any person who has the duty of guarding government officials who

are traveling on official business or traveling to or from such duty;

(8) Guests of an air carrier on an inaugural flight or delivery flights of newly-acquired or renovated aircraft;

(10) Safety inspectors of the National Transportation Safety Board or the FAA in their official duties or traveling to or from such duty;

(11) Postal employees on duty in charge of the mails or traveling to or from such duty;

(12) Technical representatives of companies that have been engaged in the manufacture, development or testing of a particular type of aircraft or aircraft equipment, when the transportation is provided for the purpose of in-flight observation and subject to applicable FAA regulations;

Requirement for Reporting the Kimberley Process Certificate Number for Exports and Reexports of Rough Diamonds

AGENCY: Bureau of the Census, Commerce Department.

ACTION: Final rule.

SUMMARY: The U.S. Census Bureau (Census Bureau) is amending the Foreign Trade Statistics Regulations (FTSR) to incorporate the requirement that the Kimberley Process Certificate (KPC) number for the exports and the reexports of rough diamonds be filed through the Automated Export System (AES). This rule serves to carry out the purposes of Executive Order 13312 of July 29, 2003, which implemented the Clean Diamond Trade Act and the Kimberley Process Certification Scheme in the United States.

DATES: This rule is effective June 15, 2005.

FOR FURTHER INFORMATION CONTACT: C. Harvey Monk, Jr., Chief, Foreign Trade Division, U.S. Census Bureau, Room 2104, Federal Building 3, Washington, DC 20233–6700; by phone at (301) 763–2255; by fax at (301) 457–2645; or by e-mail: c.harvey.monk.jr@census.gov.

SUPPLEMENTARY INFORMATION: In the January 12, 2005 *Federal Register*, 70 FR 2072, the Census Bureau published a notice of proposed rulemaking and request for comments for a requirement that the KPC number for exports and reexports of rough diamonds be filed through the AES. Public comments were

requested through February 11, 2005. The Census Bureau did not receive any comments on the proposed rule. This final rule adopts the measures contained in the proposed rule.

This final rule amends 15 CFR part 30 by revising § 30.63 of the FTSR to specify the requirement for reporting the KPC number via the AES for exports and reexports of rough diamonds. On July 29, 2003, the President issued Executive Order 13312, which implemented Public Law 108–19, known as the Clean Diamond Trade Act (the Act). The Act implemented the Kimberley Process in the United States by authorizing the President to prohibit the importation into or the exportation from the United States of any rough diamond, from whatever source, unless the rough diamond is controlled through the Kimberley Process Certification Scheme, as defined in the Act. Pursuant to the Act, shipments of rough diamonds between the United States and nonparticipants in the Kimberley Process are prohibited, and shipments between the United States and participants are permitted only if they are handled in accordance with the standards, practices, and procedures of the Kimberley Process set forth in the Rough Diamonds Control Regulations, 31 CFR part 592, promulgated by the Department of the Treasury's Office of Foreign Assets Control (OFAC) (see 69 FR 56936 dated September 23, 2004).

Section 6 of the Act names the Census Bureau as the exporting authority for the United States. This requires the Census Bureau to validate the KPC for exports of rough diamonds. The KPC is a forgery-resistant document of a participant nation or entity that demonstrates that an exportation of rough diamonds has been controlled through the Kimberley Process and contains the minimum elements required by OFAC regulations (Title 31 CFR part 592). Each KPC is assigned an identification number called the KPC number.

To comply with the requirements of the Act, the Census Bureau amended the FTSR on October 20, 2003, to incorporate requirements for the mandatory electronic filing via the AES of exports of rough diamonds. The Census Bureau is now amending the FTSR to require the reporting through AES of the KPC number found on the KPC for all exports of rough diamonds classified under Harmonized System subheadings 7102.10, 7102.21, and 7102.31. This requirement will not affect filers of Shipper's Export Declarations since all exports of rough diamonds are required to be filed through the AES.
