Design-Build Contracting

ACTION: Final rule.

This rule will allow State transportation departments or local transportation agencies to issue request-for-proposal documents, award contracts, and issue notices-to-proceed for preliminary design work prior to the conclusion of the National Environmental Policy Act (NEPA) process.

Background

Section 1503 of the SAFETEA-LU (Pub. L. 109-59; August 10, 2005, 119 Stat. 1144) revises the definition of a design-build "qualified project" (23 U.S.C. 112(b)(3)). This change removes a previous monetary threshold for design-build projects, thus eliminating the requirement to approve Federal-aid design-build projects exceeding certain dollar thresholds under Special Experimental Project No. 14 (SEP-14).¹ When appropriate, the FHWA will continue to make SEP-14 available for

projects that do not conform to the requirements of 23 CFR part 636.

Section 1503 also requires the Secretary of Transportation to make certain changes to the design-build regulations at 23 CFR part 636. Generally, section 1503 requires the Secretary to amend the design-build rule to permit a State transportation department to release requests for proposals and award design-build contracts prior to the completion of the NEPA process, but preclude a contractor from proceeding with final design or construction before NEPA is complete.

Notice of Proposed Rulemaking (NPRM)

The FHWA published a NPRM on May 25, 2006, (71 FR 30100) proposing certain changes to comply with section 1503 of SAFETEA-LU. All comments received in response to the NPRM have been considered in drafting this final rule. We received 36 comments. The commenters include: one private individual, one Federal agency, the Governor of the State of Indiana, 18 State departments of transportation (State DOTs), 3 local public agencies, 8 industry organizations, and 4 firms that provide engineering and construction services. We classified the American Association of State Highway and Transportation Officials (AASHTO) as a State DOT, because it represents State DOT interests. It is noted that the State DOTs of Idaho, Montana, North Dakota, and South Dakota submitted a combined comment. It is also noted that these State DOTs, as well as the Wyoming Department of Transportation, simply commented that they support the comments submitted by AASHTO. Additionally, an organization known as the E-470 Public Highway Authority simply commented that it supports the comments submitted by the Texas Department of Transportation (TxDOT). Lastly, the FHWA notes that the Southern California Association of Governments (SCAG) submitted its comments on the design-build NPRM to the docket for the FHWA's planning NPRM (Docket No. FHWA-2005-22986). The FHWA considered SCAG's comments along with all other comments submitted to the rulemaking docket for the design-build NPRM in developing this final rule.

General

The following discussion summarizes the major comments submitted to the docket by the commenters on the NPRM, notes where and why changes have been made to the rule, and, where relevant, states why particular recommendations or suggestions have
