SUPPLEMENTARY INFORMATION:

PHMSA has received a request for a special permit from the Belle Fourche

Pipeline Company. Belle Fourche seeks relief from compliance with certain pipeline safety regulations. The request includes a technical analysis provided by the operator. The request has been filed at <http://www.Regulations.gov>, and assigned a separate docket number, PHMSA-2010-0300. We invite interested persons to participate by reviewing this special permit request at <http://www.Regulations.gov>, and by submitting written comments, data, or other views. Comments will be evaluated after this date if it is possible to do so without incurring additional expense or delay. PHMSA will consider each relevant comment we receive in making our decision to grant or deny a request.

PHMSA has received the following special permit request:

Docket No.	Requester	Regulation(s) affected	Nature of special permit
PHMSA-2010-0300.	Belle Fourche	49 CFR 195.106, 195.112(a)(b), 195.120, 195.200, 195.406(a)(1), and 195.653.	To authorize Belle Fourche an exemption from certain requirements in Subpart A, Subpart C, and Subpart H of 49 CFR Part 195. Belle Fourche seeks exception in two general categories: First for permission to allow flexible steel pipe in Federally regulated service, and second, to adopt the use of requirements and standards appropriate for flexible steel pipes. Belle Fourche further seeks permission to install 4-inch FlexSteel™ pipe into existing 6-inch out-of-service pipelines where feasible. Due to size restrictions, Belle Fourche would not be able to insert the FlexSteel into the 4-inch steel pipe, but proposes to do so along some of the proposed route where there is out-of-service 6-inch steel that would accommodate insertion. Belle Fourche is proposing approximately 14 miles of insertion. This project is for the transport of diesel fuel from Belle Fourche's Hawk Point station to the Arch Coal Mine diesel tank in Campbell County, Wyoming.

Authority: 49 U.S.C. 60118 (c)(1) and 49 CFR 1.53.

Issued in Washington, DC on May 2, 2011.

Jeffrey D. Wiese,

Associate Administrator for Pipeline Safety.
