**SUPPLEMENTARY INFORMATION:** *Title:* Child Nutrition Labeling Program.

*OMB Number:* 0581–0261 .

*Expiration Date of Approval:* 3 years from approval.

*Type of Request:* Extension and revision of a currently approved information collection.

*Abstract:* The Child Nutrition (CN) Labeling Program is a voluntary technical assistance service to aid schools and institutions participating in the National School Lunch Program (NSLP), School Breakfast Program (SBP), Child and Adult Care Food Program (CACFP), and Summer Food Service Program (SFSP) in determining the contribution a commercial product makes toward the food-based meal pattern requirements of these programs. (See Appendix C to 7 CFR parts 210, 220, 225, and 226 for more information on this program). The existence of a CN label on a product assures schools and other Child Nutrition Program operators that the product contributes to the meal pattern requirements as printed on the label. However, there is no Federal requirement that commercial products must have a CN label statement in order to be included in meals served by schools and institutions. AMS officially opened the CN Labeling Program Operations Office on January 19, 2010.

To participate in the Child Nutrition Labeling Program, a manufacturer submits a label application to AMS for evaluation. AMS reviews the product formulation to determine the contribution a serving of the product makes toward the food-based meal pattern requirements. The application form submitted to AMS is the same application form that a manufacturer submits to USDA's Food Safety and Inspection Service (FSIS) Labeling and Program Delivery Division for review of meat and poultry labels. Participation in the CN Labeling Program is voluntary and manufacturers who wish to place a CN label on their products must comply with CN Labeling Program requirements.

*Respondents:* Manufacturers who produce food for the school foodservice.

*Estimated Number of Respondents:* 110.

*Estimated Total Annual Responses:* 2530.

*Estimated Number of Responses per Respondent:* 23.

*Estimated Total Annual Burden on Respondents:* 632.50 hours.
