

accidents is not increased. Even though the licensee will utilize whatever staff resources may be necessary during severe weather preparation and storm crew activation, opportunities for restorative sleep will be maintained. Also, the consequences of postulated accidents are not increased because there is no change in the types of accidents previously evaluated. Further, the exemption supports sequestering enough essential security personnel to provide for shift relief, which is necessary to ensure adequate protection of the plant and personnel safety. Therefore, the exemption will not endanger life or property or the common defense and security.

Otherwise in the Public Interest

The proposed exemption would increase the availability of the licensee staff. The exemption would allow licensee staff to remain at or return to the site and perform additional duties to ensure the plant is in a safe configuration during the emergency. Therefore, granting this exemption is in the public interest.

4.0 Conclusion

Accordingly, the Commission has determined that, pursuant to 10 CFR 26.9, the exemption is authorized by law, will not endanger life or property or the common defense and security, and is otherwise in the public interest. Therefore, the Commission hereby grants Carolina Power & Light Company an exemption from the requirements of 10 CFR 26.205(c) and (d) for BSEP, Units 1 and 2 during periods of severe weather conditions such as tropical storm and hurricane force winds at the site.

Pursuant to 10 CFR 51.32, the Commission has determined that the granting of this exemption will not have a significant effect on the quality of the human environment (76 FR 28481).

This exemption is effective upon issuance.

Dated at Rockville, Maryland, this 2nd day of June 2011.
