**Phosphorus Water Quality Standards for Florida Everglades**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA is proposing a rule that would identify provisions of Florida’s Water Quality Standards for Phosphorus in the Everglades Protection Area (Phosphorus Rule) and Florida’s Amended Everglades Forever Act (EFA) that EPA has disapproved and that therefore are not applicable water quality standards for purposes of the Clean Water Act. EPA is proposing today’s rule following EPA’s disapproval of these provisions and EPA’s specific directions to the State of Florida to correct these deficiencies in the Phosphorus Rule and EFA. EPA’s disapproval, specific directions to the State, and today’s proposed rule implement two orders by the U.S. District Court for the Southern District of Florida. The intended effect of today’s proposed rule is to identify only those provisions of Florida law that EPA has disapproved and that therefore are not applicable water quality standards for purposes of the Clean Water Act.

**DATES:** Comments must be received on or before August 1, 2011.

**ADDRESSES:** Submit your comments, identified by Docket ID No. EPA-HQ-OW-2011-0515 by one of the following methods:

**SUPPLEMENTARY INFORMATION:**

**I. General Information**

*A. What entities may be affected by this rule?*

Citizens concerned with water quality in Florida may be interested in this rulemaking. Entities discharging phosphorus to waters upstream of the Everglades Protection Area could be indirectly affected by the Phosphorus Rule and EFA, although not specifically by this proposed rulemaking because the current action further addresses prior disapproval by EPA of certain provisions of the Phosphorus Rule and EFA. Any indirect affect to entities would be because the water quality standards contained in the State’s regulation and statute are used in determining National Pollutant Discharge Elimination System (NPDES) permit limits. With this in mind, categories and entities that may ultimately be indirectly affected include:

Category	Examples of potentially affected entities
Water Management Districts .....	Entities responsible for managing point source discharges near the Everglades Protection Area.
Nonpoint Source Contributors .....	Entities responsible for contributing nonpoint source runoff near the Everglades Protection Area.
