BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications
Commission.

ACTION: Notice and request for
comments.

SUMMARY: As part of its continuing effort to reduce paperwork burden and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501–3520), the Federal Communications Commission invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s). Comments are requested concerning: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and (e) ways to further reduce the information burden for small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid OMB control number.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before November 29, 2011. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the FCC contact listed below as soon as possible.

ADDRESSES: Submit your PRA comments to Benish Shah, Federal Communications Commission, via the Internet at Benish.Shah@fcc.gov. To submit your PRA comments by e-mail send them to: PRA@fcc.gov.

FOR FURTHER INFORMATION CONTACT:
Benish Shah, Office of Managing
Director, (202) 418-7866.

OMB Approval Number: 3060-0329.

Title: Section 2.955, Equipment
Authorization-Verification (Retention of
Records).

Form No.: N/A.

Type of Review: Extension of a
currently approved collection.

Respondents: Business or other for-
profit and not-for-profit institutions.

Number of Respondents: 5,655
respondents; 5,655 responses.

Estimated Time per Response: 18
hours (average).

Frequency of Response: One time and
on occasion reporting requirements,
recordkeeping requirement; and Third
party disclosure requirements.

Obligation to Respond: Required to
obtain or retain benefits. Statutory
authority for this information collection
is contained in 47 U.S.C. Sections 4(i),
302, 303(g), and 303(r) of the
Communications Act of 1934, as
amended; 47 U.S.C. sections 154(i), 302
and 303(r).

Total Annual Burden: 101,790 hours.

Total Annual Cost: \$1,131,000.

Privacy Impact Assessment: N/A.

Nature and Extent of Confidentiality:
Commission rules require equipment
testing to determine performance and
compliance with FCC standards. This
testing is typically done by independent
testing laboratories whose measurement
facility has been reviewed by the
Commission, or by an accrediting
organization recognized by the
Commission.

Needs and Uses: This collection will
be submitted as an extension (no change
in reporting requirements), after this 60
day comment period to the Office of
Management and Budget (OMB) in order
to obtain the full three year clearance.

Section 2.955 describes for each
equipment device subject to
verification, the responsible party, as
shown in 47 CFR 2.909 shall maintain
the records listed as follows:

(1) A record of the original design
drawings and specifications and all

changes that have been made that may
affect compliance with the requirements
of § 2.953.

(2) A record of the procedures used
for production inspection and testing (if
tests were performed) to insure the
conformance required by § 2.953.
(Statistical production line emission
testing is not required.)

(3) A record of the measurements
made on an appropriate test site that
demonstrates compliance with the
applicable regulations in this chapter.
The record shall:

(i) Indicate the actual date all testing
was performed;

(ii) State the name of the test
laboratory, company, or individual
performing the verification testing. The
Commission may request additional
information regarding the test site, the
test equipment or the qualifications of
the company or individual performing
the verification tests;

(iii) Contain a description of how the
device was actually tested, identifying
the measurement procedure and test
equipment that was used;

(iv) Contain a description of the
equipment under test (EUT) and support
equipment connected to, or installed
within, the EUT;

(v) Identify the EUT and support
equipment by trade name and model
number and, if appropriate, by FCC
Identifier and serial number;

(vi) Indicate the types and lengths of
connecting cables used and how they
were arranged or moved during testing;

(vii) Contain at least two drawings or
photographs showing the test set-up for
the highest line conducted emission and
showing the test set-up for the highest
radiated emission. These drawings or
photographs must show enough detail
to confirm other information contained
in the test report. Any photographs used
must be focused originals without glare
or dark spots and must clearly show the
test configuration used;

(viii) List all modifications, if any,
made to the EUT by the testing company
or individual to achieve compliance
with the regulations in this chapter;

(ix) Include all of the data required to
show compliance with the appropriate
regulations in this chapter; and

(x) Contain, on the test report, the
signature of the individual responsible
for testing the product along with the
name and signature of an official of the
responsible party, as designated in
§ 2.909.

(4) For equipment subject to the
provisions in part 15 of this chapter, the
records shall indicate if the equipment
was verified pursuant to the transition
provisions contained in § 15.37 of this
chapter.

(b) The records listed in paragraph (a) of this section shall be retained for two years after the manufacture of said equipment item has been permanently discontinued, or until the conclusion of an investigation or a proceeding if the manufacturer or importer is officially notified that an investigation or any other administrative proceeding involving his equipment has been instituted.

The Commission needs and requires the information under FCC Rules at 47 CFR Parts 15 and 18, that RF equipment manufacturers (respondents) "self determine" their responsibility for adherence to these rules, as guided by the following criteria:

(a) Whether the RF equipment device that is being marketed complies with the applicable Commission Rules; and

(b) If the operation of the equipment is consistent with the initially documented test results, as reported to the Commission.

The information collection is essential to controlling potential interference to radio communications.

(a) Companies that manufacture RF equipment are the anticipated respondents to this information collection.

(b) This respondent "public" generally remains the same, although the types of equipment devices that they manufacture may change in response to changing technologies and to new spectrum allocations made by the Commission.

(c) In addition, the Commission may establish new technical operating standards in response to these changing technologies and in allocation spectrum, which these RF equipment manufacturers must meet to receive their equipment authorization from the FCC.

(d) However, the process that RF equipment manufacturers must follow to verify their compliance, as mandated by 47 CFR Section 2.955 of FCC Rules, will not change despite new technical standards established for specific equipment.

This information collection, therefore, applies to a variety of equipment, which is currently manufactured in the future, and that operates under varying technical standards.

Federal Communications Commission.

Marlene H. Dortch,

Secretary, Office of the Secretary, Office of Managing Director.
