have to upgrade their equipment to accommodate the scanning of lengthy documents, and (2) when pro se appellants do not elect to e-file, agencies would have the additional burden of preparing and submitting documents in two formats, i.e., electronic and paper. E-Mail of March 25, 2008. We have considered the comment.

As to the equipment required, we recognize that some federal agency offices may not be well-equipped to produce and upload agency files as electronic documents. However, in light of the ever-increasing affordability of high-quality scanners and related software, we believe the number of offices that would be adversely affected by such a rule would be relatively small. We note also that e-filing is already mandatory in many state and federal courts. Nevertheless, this Interim Rule takes the commenter's concern into account and provides for exemptions in appropriate circumstances.

As to the commenter's concerns about the extra work that would be entailed when appellants do not e-file, we believe those concerns are overstated. In that event, it is true that a paper copy of the agency file would have to be printed and mailed. It is not the case, however, that all of the extra work traditionally involved in assembling an agency file would still need to be done. A party that e-files a pleading that contains three or more attachments must describe and bookmark the attachments so that each attachment is listed in a table of contents and bookmarked in the electronic version. 5 CFR 1201.14(g)(3). In the assembled pleading, the table of contents will list each attachment and the page number on which it starts. This pleading can be printed and mailed as is; there would be no need for the agency to place physical tabs on the attachments, or to manually create a separate table of contents. Thus, even when the appellant is not an e-filer, we do not see a significant increase in the time required to assemble and serve the agency file. When all parties are e-filing, we believe that there will be a net savings of time associated with creating and serving the agency file electronically.

Although the MSPB announced that it was considering making e-filing mandatory for all agencies and attorneys appearing before the MSPB, this interim rule affects only parties appearing before the WRO and the DEFO. Except for pleadings filed with WRO and DEFO, whether to participate in Board proceedings as an e-filer will continue to be voluntary. We note, however, that should the pilot program in WRO and DEFO prove to be successful, the Board

would consider proposing a final agency-wide rule that would make e-filing mandatory for agencies and attorneys who represent appellants.

To provide time for agencies to comply with this rule, we are setting the effective date of this new rule 90 days in the future, on January 11, 2012. This new rule will apply only to appeals filed on or after January 11, 2012.

Administrative practice and procedure, Electronic filing.

Accordingly, MSPB amends 5 CFR part 1201 as set forth below:

PART 1201—[AMENDED]

*

*

*

■ 1. The authority citation for part 1201 continues to read as follows:

Authority: 5 U.S.C. 1204 and 7701.

■ 2. In § 1201.14, add paragraph (p) to read as follows:

§1201.14 Electronic filing procedures. *

(p)(1) Except as provided in paragraphs (p)(2) and (3) of this section, all pleadings (including the initial appeal) except those containing classified information or Sensitive Security Information filed with the Washington Regional Office (WRO) and the Denver Field Office (DEFO) by agencies or attorneys must be e-filed. Agencies and attorneys in proceedings in the WRO and the DEFO must register as e-filers pursuant to paragraph (e) of this section.

(2) Agencies or attorneys who believe that e-filing would create an undue burden on their operations may request an exemption from the administrative judge for a specific appeal and/or pleading. Such a request shall include a specific and detailed explanation why e-filing would create an undue burden.

(3) Except in unusual circumstances, exemptions granted under this section shall apply only to pleadings that include scanned material. All other pleadings except those containing classified information or Sensitive Security Information must be e-filed. The administrative judge may periodically revisit the need for an exemption granted under this subsection, and revoke the exemption as appropriate.

7 CFR Part 6

Adjustment of Appendices to the Dairy **Tariff-Rate Import Quota Licensing Regulation for the 2011 Tariff-Rate Quota Year**

AGENCY: Office of the Secretary, USDA. **ACTION:** Final rule.

SUMMARY: This document sets forth the revised appendices to the Dairy Tariff-Rate Import Quota Licensing Regulation for the 2011 quota year reflecting the cumulative annual transfers from Appendix 1 to Appendix 2 for certain dairy product import licenses permanently surrendered by licensees or revoked by the Licensing Authority. DATES: Effective Date: October 13, 2011.

FOR FURTHER INFORMATION CONTACT: Abdelsalam El-Farra, Dairy Import Licensing Program, Import Policies and Export Reporting Division, U.S. Department of Agriculture, 1400 Independence Avenue, SW., Stop 1021, Washington, DC 20250-1021; or by telephone at (202) 720-9439; or by e-mail at: abdelsalam.elfarra@fas.usda.gov.

SUPPLEMENTARY INFORMATION: The Foreign Agricultural Service, under a delegation of authority from the Secretary of Agriculture, administers the Dairy Tariff-Rate Import Quota Licensing Regulation codified at 7 CFR 6.20–6.37 that provides for the issuance of licenses to import certain dairy articles under tariff-rate quotas (TRQs) as set forth in the Harmonized Tariff Schedule of the United States. These dairy articles may only be entered into the United States at the low-tier tariff by or for the account of a person or firm to whom such licenses have been issued and only in accordance with the terms and conditions of the regulation.

Licenses are issued on a calendar year basis, and each license authorizes the license holder to import a specified quantity and type of dairy article from a specified country of origin. The Import Policies and Export Reporting Division, Foreign Agricultural Service, U.S. Department of Agriculture, issues these licenses and, in conjunction with U.S. Customs and Border Protection, U.S. Department of Homeland Security, monitors their use.

The regulation at 7 CFR 6.34(a) states: "Whenever a historical license (Appendix 1) is not issued to an applicant pursuant to the provisions of § 6.23, is permanently surrendered or is revoked by the Licensing Authority, the

amount of such license will be transferred to Appendix 2." Section 6.34(b) provides that the cumulative annual transfers will be published in the Federal Register. Accordingly, this document sets forth the revised Appendices for the 2011 tariff-rate quota year.

NUCLEAR REGULATORY COMMISSION

10 CFR Parts 50 and 52

[NRC-2010-0288]

Design-Basis Hurricane and Hurricane Missiles for Nuclear Power Plants

AGENCY: Nuclear Regulatory Commission.

ACTION: Regulatory guide; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC or the Commission) is issuing a new regulatory guide, (RG) 1.221, "Design-Basis Hurricane and Hurricane Missiles for Nuclear Power Plants." This regulatory guide provides licensees and applicants with new guidance that the staff of the NRC considers acceptable for use in selecting the design-basis hurricane and designbasis hurricane-generated missiles that a nuclear power plant should be designed to withstand to prevent undue risk to the health and safety of the public.

DATES: October 13, 2011.

ADDRESSES: You can access publicly available documents related to this regulatory guide using the following methods:

• *NRC's Public Document Room* (*PDR*): The public may examine and have copied, for a fee, publicly available documents at the NRC's PDR, O1–F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

• NRC's Agencywide Documents Access and Management System (ADAMS): Publicly available documents created or received at the NRC are available online in the NRC Library at http://www.nrc.gov/reading-rm/ adams.html. From this page, the public can gain entry into ADAMS, which provides text and image files of the NRC's public documents. SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC is issuing a new guide in the agency's "Regulatory Guide" series. This series was developed to describe and make available to the public information such as methods that are acceptable to the NRC staff for implementing specific parts of the agency's regulations, techniques that the
