#### **Draft L RTP Mission, Goals, and Objectives**

The Draft L RTP's mission, goals, and objectives are intended to provide a systematic approach to guide the process for evaluating and selecting transportation improvement projects for lands managed by Region 1. These guiding principles have shaped the development, conclusions, and recommendations of the Draft L RTP.

The mission of the L RTP is to support the Service's mission, by connecting people to fish, wildlife, and their habitats, through strategic implementation of transportation programs. The L RTP has six overall goals: (1) Protecting natural resources; (2) ensuring reliability and safety; (3) welcoming and orienting visitors; (4) integrating with larger Service planning; (5) developing and enhancing partnerships; and (6) adopting and promoting sustainability. Each goal includes distinct objectives that identify how the Service will accomplish each goal. The objectives for each goal follow.

- *Objective 3:* Create a consistent and recognizable identity throughout Service units by using standard materials for readily observed physical elements associated with the transportation system.

#### *Goal 4: Integrate Transportation Planning Into Service Plans and Processes*

- *Objective 1:* Ensure consistency and coordination between the project, unit, and regional and national levels of planning.
- *Objective 2:* Define need for transportation improvements and prioritize projects using a scientific and objective process.

#### *Goal 5: Develop Partnerships To Leverage Resources and Develop Integrated Transportation Solutions*

- *Objective 1:* To the extent authorized by law, pursue opportunities for transportation funding and resources.
- *Objective 2:* Cooperate with public and private sector partners to address shared transportation issues that impact Service goals.

#### *Goal 6: Adopt and Promote Sustainable Transportation Practices*
