SUPPLEMENTARY INFORMATION: On September 13, 2011, FTA published an NPRM in the **Federal Register** (76 FR 56363-81) proposing to transform the current FTA rule for project management oversight into a discrete set of managerial principles for sponsors of major capital projects; set standards to enable FTA to more clearly identify whether a sponsor has the management capacity and capability necessary to manage a major capital project; spell out the many facets of project management that must be addressed by a sponsor in the project management plan for a major capital project; change the scope and applicability of the rule; tailor the level of FTA oversight to the costs, complexities, and risks of a major capital project; set forth the means and objectives of FTA risk assessments; and

articulate the roles and responsibilities of FTA's project management oversight contractors. On September 20, 2011, FTA staff made an informational presentation on the NPRM during the agency's Construction Roundtable, held in Salt Lake City, which was attended by a number of managers and engineers from sponsors of major capital projects from across the United States. On October 5, 2011, FTA staff made another informational presentation on the NPRM during the New Starts Workshop held in conjunction with the Annual Meeting of the American Public Transportation Association (APTA) in New Orleans, which was attended by a number of managers and planners from sponsors of major capital projects across the nation, and a number of consultants to the transit industry.

By letter dated October 14, 2011, APTA has requested an extension of the comment period to allow its members additional time to consider the many proposals set forth in the NPRM and provide thoughtful comments to the rulemaking docket. Moreover, FTA is aware that the NPRM is of considerable interest throughout the transit, public works, and engineering communities, thus, the agency has scheduled a webinar for November 10, 2011, to summarize the NPRM and answer any questions from the public on any of the subjects related to the NPRM. This webinar is not an opportunity to submit comments to FTA on the NPRM, however. Interested parties must submit their comments to the rulemaking docket as described in this notice, above.

Also, on a related matter, on September 30, 2011, the Federal Transit Administrator issued a *Dear Colleague* letter announcing a more streamlined process for conducting risk assessments on New Starts projects, which are among the types of "major capital projects" that are the subject of the NPRM for Capital Project Management. The Administrator's *Dear Colleague* letter, and the accompanying letter of the same date from two of the agency's associate administrators which sets forth additional information on risk assessments, are posted on FTA's public Web site and are available at http://www.fta.dot.gov/newsroom/12910_13883.html. FTA staff will be available to answer any questions regarding the *Dear Colleague* letter on risk assessments during the webinar on the NPRM on November 10, 2011.

FTA agrees with APTA that an extension of the comment period is in the public interest. Accordingly, FTA is extending the comment period on the proposed rule from November 14, 2011,

to December 2, 2011. This extension applies to all parts of the NPRM.

Issued on: October 26, 2011.

Peter Rogoff,

Federal Transit Administrator.

Endangered and Threatened Wildlife and Plants; 90-Day Finding on a Petition To List All Chimpanzees (*Pan troglodytes*) as Endangered

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of petition finding and initiation of status review; correction, availability of supporting documents, and reopening of public comment period.

SUMMARY: On September 1, 2011, we, the U.S. Fish and Wildlife Service, published in the **Federal Register** a 90-day finding on a petition to list all chimpanzees (*Pan troglodytes*) as endangered under the Endangered Species Act of 1973, as amended. We are now correcting an incorrect Docket Number given under **ADDRESSES** in that document. We are also making the petition and the large volume of supporting documents submitted with the petition available to the public on <http://www.regulations.gov>. To allow the public adequate time to review the petition and provide information, we are reopening the public comment period for an additional 90 days. However, please note that information already submitted does not need to be resubmitted.

DATES: We request that we receive information on or before January 30, 2012.

ADDRESSES: You may submit information by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Search for Docket No. FWS-R9-ES-2010-0086 and then follow the instructions for submitting comments.

- *U.S. mail or hand-delivery:* Public Comments Processing, Attn: FWS-R9-ES-2010-0086; Division of Policy and Directives Management; U.S. Fish and Wildlife Service; 4401 N. Fairfax Drive, MS 2042-PDM; Arlington, VA 22203.

We will post all information received on <http://www.regulations.gov>. This generally means that we will post any personal information you provide us. See the Information Solicited section of our September 1, 2011, notice (76 FR 54423) for more details.

SUPPLEMENTARY INFORMATION: On September 1, 2011, we published in the **Federal Register** (76 FR 54423) a 90-day finding on a petition to list all chimpanzees (*Pan troglodytes*) as endangered under the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*; Act). This publication opened a public comment period, which ended on October 31, 2011. Upon publication, we initiated a review of the status of the species to determine if listing the entire species as endangered is warranted. To ensure that this status review is comprehensive, we requested scientific and commercial data and other information regarding this species from the public, concerned governmental agencies, the scientific community, industry, or any other interested parties. For details on what kinds of information we are requesting,

see our September 1, 2011, document, which can be found on our Web site at <http://www.fws.gov/policy/library/2011/2011-22372.pdf> or at <http://www.regulations.gov>. Based on the status review, we will issue a 12-month finding on the petition, which will address whether the petitioned action is warranted, as provided in section 4(b)(3)(B) of the Act.

During the course of the comment period for our September 1, 2011, petition finding document, it came to our attention that the docket number given under **ADDRESSES** for U.S. mail and hand-delivery was incorrect. Therefore, we are correcting this error. Please be assured that any hard-copy comments submitted on this petition finding to the incorrect docket number that published (FWS-R9-IA-2008-0123) will be routed to the correct docket and do not need to be resubmitted. Moreover, the docket number that published for comments submitted via <http://www.regulations.gov> was correct, so comments submitted electronically have already been posted to the docket and do not need to be resubmitted.

Additionally, we are now making the petition available to the public on <http://www.regulations.gov> (Docket No. FWS-R9-ES-2010-0086). This petition includes a large volume of supporting documents. To allow the public adequate time to review these documents and provide information, we are reopening the comment period for an additional 90 days to allow all interested parties to submit information. However, please note that information already submitted to us does not need to be resubmitted.

Dated: October 18, 2011.

(Acting) Director, U.S. Fish and Wildlife Service.
