

previously approved programs, and proposes to approve the rules and revisions as explained in Table 1.

Our evaluation of the 2001 repeal and replace and the September 7, 2004, February 2, 2007, and December 15, 2010 revisions also demonstrates compliance with section 110(l) of the CAA, and further provides basis for proposal of approval of these rules and revisions. Pursuant to section 110(l) of the CAA, the 2001 repeal and replace provides for a broader breadth, application, and stringency of requirements related to fees than the previously approved April 10, 1980 SIP. Based on EPA's evaluation of these fee assessment provisions submitted, EPA proposes to find the submitted repeal and replace of, and revisions to, 20.11.2 NMAC establishing fee requirements for permits is consistent with section 110(a)(2) of the CAA.

III. Proposed Action

EPA is proposing an approval of the 2001 repeal and replace SIP revisions submitted by New Mexico on May 24, 2011, and SIP revisions submitted on September 7, 2004, February 2, 2007, and December 15, 2010 pursuant to section 110(a)(2) requirements of the CAA relating to fees. EPA is proposing these actions in accordance with section 110 of the Act.

IV. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely proposes to approve state law as meeting federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely

affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);

- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this rule does not have Tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on Tribal governments or preempt Tribal law.
