

Consultation and Coordination With Indian Tribal Governments

Pursuant to Executive Order 13175 of November 6, 2000, "Consultation and Coordination with Indian Tribal Governments," the Agency has assessed the impact of this final directive on Indian Tribes and has determined that it does not have substantial direct or unique effects on one or more Indian Tribes, on the relationship between the Federal Government and Indian Tribes, or on the distribution of power and responsibilities between the Federal Government and Indian Tribes. This final directive does not have tribal implications, affect the rights of Indian tribes to self-governance, and does not impact tribal sovereignty or self-determination. Specifically, this final directive represents a compilation and consolidation of existing invasive species management authorities, roles, and responsibilities focused on the duties of Forest Service personnel on the National Forest System, and does not impose substantial direct compliance costs on Indian tribal governments or preempt tribal law. Therefore, after discussions and coordination with the Forest Service Office of Tribal Relations and regional Forest Service tribal coordinators, the Agency has determined that formal consultation with Tribal governments on this final directive is unnecessary prior to publishing and issuing this final directive.

Implementation of this directive primarily occurs at the local level (national forest or grassland unit) through land management planning and project-level planning and accomplishment. Therefore, coordination with Tribes, other governmental organizations, and the public is most applicable at the forest and grassland level because it is at that level that specific invasive species management goals and objectives are established. Also, at that level the design and effects of invasive species management activities are most effectively managed in relation to the Agency's tribal trust responsibilities and Indian tribal treaty rights.

In addition, during the review and coordination with the Forest Service Office of Tribal Relations, it was agreed that the Agency would coordinate an outreach effort through the respective regional OTR directors/staff regarding the future development of the Forest Service Handbook for NFS Invasive Species Management; inviting additional review and collaboration with interested Tribal governments during that process. This future Forest

Service Handbook on Invasive Species Management would tier directly from this final directive and would provide the detailed operational requirements, standards, criteria, and guidance which would be most applicable to Tribal government interests.

No Takings Implications

This final directive has been analyzed in accordance with the principles and criteria contained in Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights, and it has been determined that this final directive does not pose the risk of a taking of protected private property.

Civil Justice Reform

This final directive has been reviewed under Executive Order 12988 of February 7, 1996, "Civil Justice Reform." After adoption of this final directive, (1) All State and local laws and regulations that conflict with this final directive or that would impede full implementation of this directive would be preempted; (2) no retroactive effect would be given to this final directive; and (3) this final directive would not require the use of administrative proceedings before parties could file suit in court challenging its provisions.

Unfunded Mandates

Pursuant to Title II of the Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538), which the President signed into law on March 22, 1995, the Agency has assessed the effects of this final directive on State, local, and Tribal governments and the private sector. This final directive does not compel the expenditure of funds by any State, local, or Tribal government or anyone in the private sector. Therefore, a statement under section 202 of the Act is not required.

Energy Effects

This final directive has been reviewed under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. It has been determined that this final directive does not constitute a significant energy action as defined in the Executive Order.

Controlling Paperwork Burdens on the Public

This final directive does not contain any additional record keeping or reporting requirements or other information collection requirements as defined in 5 CFR part 1320 that are not already required by law or not already approved for use, and therefore,

imposes no additional paperwork burden on the public. Accordingly, the review provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) and its implementing regulations at 5 CFR part 1320 do not apply.
