

to distinguish these trends from transitory phenomena.

Current Actions: The Federal Reserve proposes to add 20 domestically chartered commercial banks with \$2 to \$10 billion in total assets to the current reporting panel and reduce the minimum asset size for panel institutions from \$3 billion to \$2 billion. The Federal Reserve believes that the additions to the panel would provide a more comprehensive picture of differences in funding conditions at the largest banks and regional banks, and deeper coverage of banks that lend in commercial real estate and small business markets. The reporting panel selection criteria for the FR 2023 are consistent with those criteria from the FR 2018. The proposed FR 2023 panel revisions are necessary in order to maintain consistency with the proposed panel revision in the FR 2018.

Board of Governors of the Federal Reserve System, February 1, 2012.

Secretary of the Board.
