SUPPLEMENTARY INFORMATION:**Regulatory Information**

On February 10, 2012, we published a notice of proposed rulemaking

(NPRM) entitled “Safety Zones; America's Cup World Series, East Passage, Narragansett Bay, RI” in the **Federal Register** (77 FR 7025). We received one comment on the proposed rule.

Basis and Purpose

The legal basis for this rule is 33 U.S.C. 1231; 46 U.S.C. chapter 701, 3306, 3703; 50 U.S.C. 191, 195; 33 CFR 1.05-1, 6.04-1, 6.04-6, 160.5; Public Law 107-295, 116 Stat. 2064; and Department of Homeland Security Delegation No. 0170.1, which collectively authorize the Coast Guard to define safety zones.

This rule is necessary to provide for the safety of life and navigation for both participants and spectators involved with the America's Cup World Series in the vicinity of Newport, RI.

Discussion of Comments and Changes

One comment was received, supporting this rule. The commenter believed the safety zones established by this rule will improve navigation safety for all mariners and facilitate a safe America's Cup World Series event. No changes were made to the language contained in the NPRM.

Regulatory Analyses

We developed this rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on 13 of these statutes or executive orders.

Executive Order 12866 and Executive Order 13563

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order.

We expect the economic impact of this rule to be minimal. Although this regulation may have some impact on the public, the potential impact will be minimized for the following reasons: Vessels will only be restricted from the East Passage of Narragansett Bay by the designated safety zone for a maximum of six hours per day for a maximum of 10 days; there is an alternate route, the West Passage of Narragansett Bay, that does not add substantial transit time, is already routinely used by mariners, and will not be affected by these safety zones; many vessels, especially recreational vessels, may transit in all
