Title: NESHAP for Prepared Feeds Manufacturing (Renewal).

ICR Numbers: EPA ICR Number 2354.03, OMB Control Number 2060-0635.

ICR Status: This ICR is scheduled to expire on March 31, 2013. Under OMB regulations, the Agency may continue to either conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 63, subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 63, subpart DDDDDDD.

Owners or operators of the affected facilities must submit an initial notification report, performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports are required annually at a minimum.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 34 hours per response. "Burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners or operator of area source prepared feed manufacturing facilities.

Estimated Number of Respondents: 1,800.

Frequency of Response: Initially and annually.

Estimated Total Annual Hour Burden: 62,079.

Estimated Total Annual Cost: \$6,048,294, which includes \$6,011,058 in labor costs, no capital/startup costs, and \$37,236 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is an adjustment increase in the total estimated burden as currently identified in the OMB Inventory of Approved Burdens. This increase is not due to any program changes. The change in the burden and cost estimates occurred because the standard has been in effect for more than three years and the requirements are different during initial compliance (new facilities) as compared to on-going compliance (existing facilities). The previous ICR reflected those burdens and costs associated with the initial activities for subject facilities. This includes purchasing monitoring equipment and establishing recordkeeping systems. This ICR reflects

the on-going burden and costs for existing facilities. Activities for existing source include continuously monitoring of pollutants and the submission of annual compliance certifications. The overall result is an increase in labor hours and cost for both the respondents and the Agency.

There is a decrease in capital/startup costs and an increase in O&M costs for the respondents. The capital/startup costs decreased because existing sources have already purchased monitoring equipment necessary to comply with the rule. The overall O&M costs increased because the previous ICR only accounted for the operation and maintenance costs incurred during the third year after rule promulgation. This ICR reflects annual O&M costs for each year of the ICR's three-year period.

Additionally, there is an adjustment increase in labor rates which also attributes to an increase in cost. This ICR uses updated labor rates from the Bureau of Labor Statistics to calculate burden costs.

Director, Collection Strategies Division.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides.

B. What should I consider as I prepare my comments for EPA?

1. *Submitting (CBI).* Do not submit this information to EPA through [regulations.gov](http://www.regulations.gov) or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then

identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).

ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.

iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.

iv. Describe any assumptions and provide any technical information and/or data that you used.

v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.

vi. Provide specific examples to illustrate your concerns and suggest alternatives.

vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

viii. Make sure to submit your comments by the comment period deadline identified.

II. What action is the Agency taking?

This notice announces receipt by the Agency of requests from Spectrum Group (Spectrum) to cancel five pesticide products registered under FIFRA section 3. These registrations are listed in sequence by registration number in Table 1 of this unit. The requests for voluntary cancellation were conditioned, for some of the products, on the effective date of cancellation and the Agency's allowance of certain sale and distribution of existing stocks of canceled product. At the end of the 30-day period identified above, EPA intends to issue an order in the **Federal Register** canceling all of the affected registrations in a manner consistent with the conditional nature of the request for cancellation.
