

will inform its Equity Trading Permit Holders in an Information Bulletin of the special characteristics and risks associated with trading the Shares. Trading in Shares of the Funds will be halted if the circuit breaker parameters in NYSE Arca Equities Rule 7.12 have been reached or because of market conditions or for reasons that, in the view of the Exchange, make trading in the Shares inadvisable, and trading in the Shares will be subject to NYSE Arca Equities Rule 8.600(d)(2)(D), which sets forth circumstances under which Shares of the Funds may be halted. In addition, as noted above, investors will have ready access to information regarding the Funds' holdings, the IOPV, the Disclosed Portfolio, and quotation and last sale information for the Shares.

The proposed rule change is designed to perfect the mechanism of a free and open market and, in general, to protect investors and the public interest in that it will facilitate the listing and trading of additional types of actively-managed exchange-traded products that will enhance competition among market participants, to the benefit of investors and the marketplace. As noted above, the Exchange may obtain information regarding trading in the Shares from markets and other entities that are members of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement. In addition, as noted above, investors will have ready access to information regarding the Funds' holdings, the IOPV, the Disclosed Portfolio, and quotation and last sale information for the Shares.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange notes that the proposed rule change will facilitate the listing and trading of additional types of actively-managed exchange-traded products that hold fixed income securities and will enhance competition among market participants, to the benefit of investors and the marketplace.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the **Federal Register** or within such longer period up to 90 days (i) as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

- (A) by order approve or disapprove the proposed rule change, or
- (B) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-NYSEArca-2013-71 on the subject line.

Paper Comments

- Send paper comments in triplicate to Elizabeth M. Murphy, Secretary, Securities and Exchange Commission, 100 F Street NE., Washington, DC 20549-1090.

All submissions should refer to File Number SR-NYSEArca-2013-71. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for Web site viewing and printing in the Commission's Public Reference Room, 100 F Street NE., Washington, DC 20549, on official business days between the hours of

10:00 a.m. and 3:00 p.m. Copies of such filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-NYSEArca-2013-71 and should be submitted on or before August 14, 2013.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.⁵⁰

Kevin M. O'Neill,
Deputy Secretary.

SUPPLEMENTARY INFORMATION:

Background

On August 30, 2012, the ARAC Executive Committee accepted the FAA's assignment of a new task arising from recommendations of the Airman Testing Standards and Training Aviation Rulemaking Committee (ARC). The ARC recommended ways to ensure that the FAA's airman testing and training materials better support reduction of fatal general aviation accidents. The new task instructed the ARAC to integrate aeronautical knowledge and flight proficiency requirements for the private pilot and flight instructor certificates and the instrument rating into a single ACS document for each type of certificate and rating; to develop a detailed proposal to realign FAA training handbooks with the ACS documents; and to propose knowledge test item bank questions consistent with the integrated ACS documents and the principles set forth in the ARC's recommendations.

The FAA announced the ARAC's acceptance of this task through a **Federal Register** Notice published on September 12, 2012 [77 FR 56251]. This Notice described the task elements and solicited participants for the ATSTWG, which subsequently formed and began its work in November 2012.

Consistent with the first part of this tasking, the ATSTWG developed draft ACS documents that align the aeronautical knowledge testing standards with the flight proficiency standards set out in the existing Practical Test Standards (PTS). In addition to supporting the FAA's effort

to improve the relevance, reliability, validity, and effectiveness of aeronautical testing and training materials, the draft ACS documents support the FAA's goal of reducing fatal general aviation accidents by incorporating task-specific risk management considerations into each Area of Operation.

The ATSTWG completed its initial work on the ACS for the private pilot certificate and the instrument rating in April, 2013. At the request of the ATSTWG, the FAA made these documents available for public comment through docket number FAA-2013-0316. The comment period for the notice published on April 24, 2013 (78 FR 24289) closed May 24, 2013. Also at the request of the ATSTWG, the FAA reopened the comment period until July 8, 2013.

During these periods, the ATSTWG received more than 300 comments and questions on the draft ACS for the private pilot certificate and the instrument rating. The ATSTWG has used these comments to inform and refine its continuing work on this project, and has consequently asked the FAA to make the revised versions of these documents available for an additional period of public review and comment before it completes its work in September, 2013.

In addition, the ATSTWG has completed its initial draft of the authorized instructor ACS document. The purpose of the authorized instructor ACS is to define the acceptable performance standards for instructional knowledge and skill, including the Fundamentals of Instructing (FOI) concepts listed in 14 CFR part 61. Consistent with its desire for comments to help refine its work, the ATSTWG has asked the FAA to make this document available for public comment as well.

In making this document available, the ATSTWG wishes to note that while the draft authorized instructor ACS follows the overall conceptual framework developed for the private pilot ACS and the instrument rating ACS, its construction reflects fundamental differences between the family of pilot certificates/ratings and the instructor certificate. The core of the authorized instructor ACS addresses practical application of the instructional concepts and techniques presented in the traditional FOI. The authorized instructor ACS uses appendices to define the acceptable standards for knowledge, skill, and risk management in the aeronautical proficiency tasks unique to a particular instructor certificate or rating.
